Non-discrimination clause: Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PSYC 2314.20E0/20E1
Lifespan Growth and Development
FALL 2026

Instructor: Linda Miles

Office: FGC A102

Phone: 903-782-0724

Email: lmiles@parisjc.edu

Office Hours: Paris Campus

Monday: 8:00 – 10:30 AM

Tuesday: 8:00 – 10:30 AM

Wednesday: 8:00 – 10:30 AM

Thursday: 8:00 – 10:30 AM

Meeting Location: Internet

Meeting Days: Internet

Meeting Times: Internet

Course Description:

The study of Lifespan Growth and Development is a study of social, emotional, cognitive, and physical factors and influences of a developing human from conception to death. Core Curriculum satisfied for Social and Behavioral Science.

Credits: 3 SCH

TSI Requirement: College-level reading is required.

Prerequisite(s): None

Required Textbook(s) and Materials: Your required e-textbook and course materials for PSYC 2314 are Feldman, R. S. (2023) *Lifespan Development: A Topical Approach* with PEARSON/REVEL 5th ed., which will be delivered digitally through your Blackboard Ultra course via Dragon Now. When you register and activate your PEARSON/REVEL account, use your PJC Dragon email address.

Course Goals and Objectives:

Foundational Component Area: Lifespan Growth and Development

Social and Behavioral Science Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

- 1) Critical Thinking Skills -- to include creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.
- 2) Communication Skills -- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- 3) Empirical and Quantitative Skills-- to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- 4) Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Course Requirements and Evaluation:

Evaluation Methods:

- Students will have two major closed-book objective exams to demonstrate their knowledge of the course material. Each exam is worth 100 points. Students can earn up to 200 points on major exams.
- Students can earn up to 100 points on quizzes for the semester (25 points for each section).
- Engagement is an important part of Internet classes; therefore, students can earn up to 100 points for engagement (15 points for the RAC Assignment, 15 points for the APA Quiz, 20 points for the cross-cultural Psychology Assignments, and 50 points for surveys).
- Students can earn up to 100 points on embedded Pearson Textbook Comprehension quizzes referred to as REVEL

- 100 points on discussions.
- Extra Credit is built into the course: Students can earn up to seven extra credit points on the syllabus quiz and one extra credit point for the student acknowledgment form. Students who activate their PEARSON/REVEL inclusive access (IA) within the three days of class will earn an extra credit point for a total of nine extra credit points.

Grading Criteria:

Students can earn up to a total of 600 points during the semester:

- **200 points – Two Major Exams:** Students will complete an online Midterm and Final examination. Each exam is worth 100 points.
- **100 points – Quizzes**
- **100 points – Embedded textbook PEARSON/REVEL Comprehension Quizzes**
- **100 points – Discussions**
- **15 points – RAC Assignment**
- **15 points – APA Quiz**
- **20 points – Cross-Cultural Psychology Assignment**
- **50 points – Surveys**
=600 total possible points
- The following grading scale will be used
 - 540 points and above = A
 - 480-539 = B
 - 420-479 = C
 - 360-419 = D
 - 359 points and below = F

Required Activities: The first assignments (Syllabus Quiz and Student Acknowledgment) are due on the first day of class, August 24th by 11:59 PM CST. All students must complete the First Assignments (Syllabus Quiz and Student Acknowledgment) located in the “Start Here” folder on the "Course Content” tab of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD), August 30, 2026. Completion of this assignment serves as verification of course participation/engagement. Students who do not complete the assignments by the deadline will be reported as non-attending and will be dropped from the course. Do not wait until the last minute to complete these assignments.

Course Policies:

Communication: Students must use the **internal classroom messaging system in Blackboard** as the official method of written communication regarding all course-related questions and concerns. Per PJC policy, messages sent Monday through Thursday will receive a response within 24 hours. Messages sent on Fridays, weekends, during campus closures, or on holidays will receive a response the following Monday or the next official business day. Any exceptions to this schedule will be communicated through the internal course messaging system.

Emails sent to my external office email will be redirected to the Blackboard message system and will not be considered official communication. To ensure timely and documented responses, students are expected to use only the internal messaging feature within the course. Failure to do so may result in delayed or missed responses.

Course Announcements: Course announcements serve as a critical communication tool for conveying important information throughout the semester. Announcements may include, but are not limited to, assignment deadlines, policy changes, schedule changes, exam instructions, and other essential course updates.

Students are expected to check course announcements regularly and are fully responsible for all information posted, regardless of whether they choose to review it. It is the student’s duty to stay informed by checking announcements frequently. Lack of awareness due to not reading announcements will not be accepted as a valid excuse for missed deadlines or misunderstandings regarding course expectations. Failure to monitor announcements may result in missed deadlines, reduced participation or engagement scores, and inadequate preparation for course activities or exams. Extensions will not be granted due to missed or overlooked announcements.

Dragon Watch Retention Program: The Advising/Counseling Center has implemented a retention program. I have been asked to refer students to the program throughout the semester if a student is **having difficulty completing assignments or has poor attendance**. Students will be contacted by someone in the Student Advising & Counseling Department if they are referred to the retention program. The success coaches will inquire how they can assist you in meeting your academic goals. <https://www.parisjc.edu/advising/index.php>

Online Resources: The Paris Junior College Social Science Division uses the Blackboard Ultra Learning Management System for online, hybrid, and web-enhanced face-to-face courses. The PJC Blackboard login web page can be found at <https://parisjc.blackboard.com>. The initial Blackboard login username is the student's first initial + last name + last 4 digits of the student's ID number (e.g., jdoe1234). The initial password is the student's 8-digit birthday in a MMDDYYYY format (Blackboard will make students reset the password after they log in with their birthdate—make sure you write down your new password).

Class Attendance:

Class attendance is *critical for the successful completion of this course*. Students are expected to attend and participate in classes regularly (log into the course often) and **complete all assignments by the due date**. You CANNOT expect to do well in this class without attending class and completing the online assignments on time. While instructors do have the right to withdraw any student from a course for excessive absences, please be aware that this is NOT my policy. Students wishing to withdraw from a course with a grade of "W" should initiate the withdrawal on MyPJC. Students should not just stop attending (stop logging into the course to complete assignments) and assume that the instructor will withdraw him or her. I will record a zero (0) for all assignments that a student fails to complete.

****IMPORTANT**** Internet students are required by Texas law to log into the course and complete the required first assignments **by** the official report day (ORD), August 30th, at 11:59 PM CST, or they will be dropped from the course.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, AirPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Disruptive behavior will not be tolerated under any circumstances. Students who fail to follow classroom guidelines compromise the educational experience of their peers and undermine the integrity of the learning environment. All individuals are expected to recognize the importance of maintaining a constructive and respectful academic atmosphere. Professional conduct is required at all times and in all forms of communication, both verbal and written. Students must act with civility and demonstrate respect toward others participating in the course.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment and forfeit all extra credit for the semester**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination via the complaint form. Complaint forms are available on MyPJC under the Student Tab.

Academic dishonesty will NOT be tolerated under any circumstances. Any student suspected of cheating on an assignment, quiz, or exam will receive a **score of zero (0)** for that work and will be reported to the **Division Dean**. Students who are suspected or found to have engaged in academic dishonesty for a second offense will receive an automatic **grade of "F" for the course**. Students who wish to contest an academic dishonesty determination may pursue the formal appeals process outlined in the **PJC Student Handbook**.

AI Statement: Ethical Considerations and Consequences for Misuse: The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Honesty Policy, Student Conduct, or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to complete the Accommodation Request Form in MyPJC on the Student tab under Reports and Forms. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook. You may contact the Student Advising & Counseling Center at (903) 782-0426 or visit <https://www.parisjc.edu/advising/accommodations.php>.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PSYC 2314 Class Schedule/Study Schedule:

***The instructor may adapt or adjust the syllabus schedule as needed.

PSYC 2301.25D0
General Psychology
Fall 2026: 16-week concurrent online

Instructor: Marla Cox

Office: GC#209

Phone: (903) 453-6432

Email: mcox@parisjc.edu

Meeting Location: online

Meeting Days: online

Meeting Times: online

Office Hours: (First 8 weeks) Mondays & Wednesdays: 9:00am-11:00am (GC)

Tuesdays & Thursdays: 9:00am-12:00pm (SSC)

(Second 8 weeks) Mondays & Wednesdays: 10:45am-12:45pm (GC)

Tuesdays & Thursdays: 10:45am-1:45pm (SSC)

Course Description:

General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

Required Prerequisite: TSI met in Reading and Writing

Semester Credit Hours: 3

Course Classification: Academic Course Guide Manual (ACGM)

Core Curriculum: This is a Paris Junior College Core Curriculum course.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Equity Access Program. PJC has partnered with the Follett Access Program and MacMillan Learning via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and **you will NOT need to purchase the required course materials separately**. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/business/index.php>.

Your required eBook and course materials for PSYC 2301, Achieve for Discovering Psychology (10th Edition) by Nolan & Hockenbury, ISBN# 9781319599669 will be delivered digitally in your Blackboard Ultra course provided by your instructor when you register and activate your Achieve: Read & Practice account inside the course.

Course Goals and Objectives:

Foundational Component Area: General Psychology

Social and Behavioral Science Courses in this category focus on developing ideas and express them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Empirical and Quantitative Skills-to include the manipulation and analysis of numerical data or observable facts resulting informed conclusions.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Specific Course Objectives: Upon successful completion of this course, students will:

1. Identify various research methods and their characteristics used in the scientific study of psychology.
2. Describe the historical influences and early schools of thought that shaped the field of psychology.
3. Describe some of the prominent perspectives and approaches used in the study of psychology.
4. Use terminology unique to the study of psychology.
5. Describe accepted approaches and standards in psychological assessment and evaluation.
6. Identify factors in physiological and psychological processes involved in human behavior.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Evaluation Methods:

Students will be given the following opportunities to demonstrate knowledge of class material:

Assessment/ Activity Title	Description	Total Points Available
Achieve: Read & Practice Learning Curve Assignments	Students will complete Achieve Learning Curve (3 points each) & Video assignments (4 points each) in the MacMillan Interactive course space embedded in Blackboard, for which they will need to create an Achieve account using the link inside the "Start Here" folder. Students will complete, between, 4-6 assignments per chapter.	173 points (28.9%)
Discussion Forum Participation	Students will participate in online Discussion Forums with peers for each Section. Original contributions earn 8 points, and peer responses earn 1 point, based on a grading rubric for 9 points each.	27 points (4.5%)
Essay Exams	Students will complete 3 Essay Exams for each Section. Students <u>MUST</u> use their textbook and Video Lectures to	100 points (16.6%)

	answer all essay questions. Other sources are not permitted. Each Essay Exam is worth 50 points.	
Timed Section Quizzes	Students will complete 3 <u>timed</u> Section Quizzes in Blackboard. Students can use their textbooks, notes/materials, but will have limited time, thus need to study and prepare for the objective quiz over chapters associated with each section. Each Quiz is worth between 30-40 points.	100 points (16.6%)
Comprehensive Final Exam	Students will complete a timed Comprehensive Final Exam worth 200 points. Students must study and prepare ahead of time in order to complete the full exam in the allotted time period. This exam will be available at the end of the semester.	200 points (33.3%)
		600 total possible points

Grading Criteria: The following grading scale will be used to determine letter grade assignments at the end of the semester.

Points Earned	Associated Letter Grade
540 points and above	A
480-539	B
420-479	C
360-419	D
Below 360	F

Course Policies:

- **Communications:** The most expedient method to contact me is **via the classroom messages in Blackboard or through my regular work email address**. Students emailing me (via blackboard or otherwise) should expect a response within 24 hours Monday-Thursday. Students emailing on Thursdays, after office hours have ended, will receive a response on the following Monday. Any exceptions to this schedule will be communicated via email.
- **Class Announcements:** Blackboard announcements are a key communication tool for sharing important course updates. These announcements may include weekly reminders about the “Recommended Work/Study Schedule” and Final Deadlines, exam details, instructor messages, and information about extra credit opportunities. **Students are responsible for all information shared in announcements, whether or not they choose to read them.** Failure to stay updated may result in missed deadlines, unsubmitted assignments, and lack of preparation for class activities or exams. Blackboard tracks announcement views and generates reports for instructors identifying not only the amount of time spent in the course, but also students’ level of overall engagement.
- **Official Student Email Policy:** Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—

including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

- **Late Work Policy:**

- **Final Deadlines are final.** To be fair and consistent, **I do not grant extensions beyond them.**
- **Recommended Due Dates** are suggested submission targets to help you pace yourself—but only the **Final Deadlines** determine whether or not you can receive credit.
- There are **no grading penalties** for missing a Recommended Due Date, but if you miss a Final Deadline, the assignment, quiz, or exam will be locked, and you'll receive a **zero**.
- If you're struggling, **contact me early**. Most issues can be addressed if caught in time. There is very little I can do to help on the **day of a Final Deadline** or in the **final days of the semester**.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12.**

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student.

- Attendance will be recorded in a college database based on the "Recommended Due Dates" for each chapter in each Section as well as "Final Deadlines" for final section assessments.
- Students not submitting work by the "Recommended Due Dates," will be marked absent.
- While students do not receive attendance points for the class based on this system and reporting, it is still an institutional requirement and helps encourage students to log in daily to stay on track and meet all Final Deadlines.
- Please be advised that attendance information, regarding students' participation/activity online, can be viewed by other departments at the institution.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Netiquette:

When communicating via the online mechanisms of this course, it is important to remember that those communications are conducted in a public forum and should reflect a level of professionalism reflective of that forum. At a minimum, communications should be respectful of others and use appropriate writing mechanics (spelling, grammar, etc.). Profanity will NOT be tolerated.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

- Any student found to have committed **academic dishonesty**—including cheating, plagiarism, or unauthorized collaboration—will:
 - Receive an **immediate zero** on the assignment, quiz, or exam in question (first offense)
 - Receive an **F in the course**, regardless of points earned (second offense)
 - **Not** be allowed to make up the work
 - Be **referred to the Dean of Social Sciences** for potential disciplinary action, which may include **dismissal from the college**
- Students suspected of academic dishonesty may be required to provide evidence to support their innocence.

Artificial intelligence (AI) Policy:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 8/24-8/28		Course introduction, syllabus review, & introductory assignments.

Week 2 8/31-9/4	Introduction and Research Methods	Chapter 1 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 3 9/8-9/11	Neuroscience and Behavior	Chapter 2 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 4 9/14-9/18	Consciousness and its Variations	Chapter 4 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 5 9/21-9/25	Section 1 Assessment Week	Final Deadline for Section 1 Essay Exam, Discussion Forum, & Timed Quiz.
Week 6 9/28-10/2	Learning	Chapter 5 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 7 10/5-10/9	Memory	Chapter 6 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 8 10/12-10/16	Personality	Chapter 11 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 9 10/19-10/23	Social Psychology	Chapter 12 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 10 10/26-10/30	Section 2 Assessment Week	Final Deadline for Section 2 Essay Exam, Discussion Forum, & Timed Quiz.
Week 11 11/2-11/6	Stress, Health, and Coping	Chapter 13 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 12 11/9-11/13	Psychological Disorders	Chapter 14 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 13 11/16-11/20	Therapies	Chapter 15 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 14 11/23-11/27		Enjoy your Thanksgiving Break!
Week 15 11/30-12/4	Section 3 Assessment Week	Final Deadline for Section 3 Essay Exam, Discussion Forum, & Timed Quiz.
Week 16 12/7-12/10	Final Course Assessments	SLO Assignment & Final Comprehensive Examination.

PSYC 2301.25D1
General Psychology
Fall 2026: 16-week concurrent online

Instructor: Marla Cox

Office: GC#209

Phone: (903) 453-6432

Email: mcox@parisjc.edu

Meeting Location: online

Meeting Days: online

Meeting Times: online

Office Hours: (First 8 weeks) Mondays & Wednesdays: 9:00am-11:00am (GC)

Tuesdays & Thursdays: 9:00am-12:00pm (SSC)

(Second 8 weeks) Mondays & Wednesdays: 10:45am-12:45pm (GC)

Tuesdays & Thursdays: 10:45am-1:45pm (SSC)

Course Description:

General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

Required Prerequisite: TSI met in Reading and Writing

Semester Credit Hours: 3

Course Classification: Academic Course Guide Manual (ACGM)

Core Curriculum: This is a Paris Junior College Core Curriculum course.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Equity Access Program. PJC has partnered with the Follett Access Program and MacMillan Learning via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and **you will NOT need to purchase the required course materials separately**. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/business/index.php>.

Your required eBook and course materials for PSYC 2301, Achieve for Discovering Psychology (10th Edition) by Nolan & Hockenbury, ISBN# 9781319599669 will be delivered digitally in your Blackboard Ultra course provided by your instructor when you register and activate your Achieve: Read & Practice account inside the course.

Course Goals and Objectives:

Foundational Component Area: General Psychology

Social and Behavioral Science Courses in this category focus on developing ideas and express them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Empirical and Quantitative Skills-to include the manipulation and analysis of numerical data or observable facts resulting informed conclusions.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Specific Course Objectives: Upon successful completion of this course, students will:

1. Identify various research methods and their characteristics used in the scientific study of psychology.
2. Describe the historical influences and early schools of thought that shaped the field of psychology.
3. Describe some of the prominent perspectives and approaches used in the study of psychology.
4. Use terminology unique to the study of psychology.
5. Describe accepted approaches and standards in psychological assessment and evaluation.
6. Identify factors in physiological and psychological processes involved in human behavior.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Evaluation Methods:

Students will be given the following opportunities to demonstrate knowledge of class material:

Assessment/ Activity Title	Description	Total Points Available
Achieve: Read & Practice Learning Curve Assignments	Students will complete Achieve Learning Curve (3 points each) & Video assignments (4 points each) in the MacMillan Interactive course space embedded in Blackboard, for which they will need to create an Achieve account using the link inside the "Start Here" folder. Students will complete, between, 4-6 assignments per chapter.	173 points (28.9%)
Discussion Forum Participation	Students will participate in online Discussion Forums with peers for each Section. Original contributions earn 8 points, and peer responses earn 1 point, based on a grading rubric for 9 points each.	27 points (4.5%)
Essay Exams	Students will complete 3 Essay Exams for each Section. Students <u>MUST</u> use their textbook and Video Lectures to	100 points (16.6%)

	answer all essay questions. Other sources are not permitted. Each Essay Exam is worth 50 points.	
Timed Section Quizzes	Students will complete 3 <u>timed</u> Section Quizzes in Blackboard. Students can use their textbooks, notes/materials, but will have limited time, thus need to study and prepare for the objective quiz over chapters associated with each section. Each Quiz is worth between 30-40 points.	100 points (16.6%)
Comprehensive Final Exam	Students will complete a timed Comprehensive Final Exam worth 200 points. Students must study and prepare ahead of time in order to complete the full exam in the allotted time period. This exam will be available at the end of the semester.	200 points (33.3%)
		600 total possible points

Grading Criteria: The following grading scale will be used to determine letter grade assignments at the end of the semester.

Points Earned	Associated Letter Grade
540 points and above	A
480-539	B
420-479	C
360-419	D
Below 360	F

Course Policies:

- **Communications:** The most expedient method to contact me is **via the classroom messages in Blackboard or through my regular work email address**. Students emailing me (via blackboard or otherwise) should expect a response within 24 hours Monday-Thursday. Students emailing on Thursdays, after office hours have ended, will receive a response on the following Monday. Any exceptions to this schedule will be communicated via email.
- **Class Announcements:** Blackboard announcements are a key communication tool for sharing important course updates. These announcements may include weekly reminders about the “Recommended Work/Study Schedule” and Final Deadlines, exam details, instructor messages, and information about extra credit opportunities. **Students are responsible for all information shared in announcements, whether or not they choose to read them.** Failure to stay updated may result in missed deadlines, unsubmitted assignments, and lack of preparation for class activities or exams. Blackboard tracks announcement views and generates reports for instructors identifying not only the amount of time spent in the course, but also students’ level of overall engagement.
- **Official Student Email Policy:** Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—

including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

- **Late Work Policy:**

- **Final Deadlines are final.** To be fair and consistent, **I do not grant extensions beyond them.**
- **Recommended Due Dates** are suggested submission targets to help you pace yourself—but only the **Final Deadlines** determine whether or not you can receive credit.
- There are **no grading penalties** for missing a Recommended Due Date, but if you miss a Final Deadline, the assignment, quiz, or exam will be locked, and you'll receive a **zero**.
- If you're struggling, **contact me early**. Most issues can be addressed if caught in time. There is very little I can do to help on the **day of a Final Deadline** or in the **final days of the semester**.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12.**

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student.

- Attendance will be recorded in a college database based on the "Recommended Due Dates" for each chapter in each Section as well as "Final Deadlines" for final section assessments.
- Students not submitting work by the "Recommended Due Dates," will be marked absent.
- While students do not receive attendance points for the class based on this system and reporting, it is still an institutional requirement and helps encourage students to log in daily to stay on track and meet all Final Deadlines.
- Please be advised that attendance information, regarding students' participation/activity online, can be viewed by other departments at the institution.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Netiquette:

When communicating via the online mechanisms of this course, it is important to remember that those communications are conducted in a public forum and should reflect a level of professionalism reflective of that forum. At a minimum, communications should be respectful of others and use appropriate writing mechanics (spelling, grammar, etc.). Profanity will NOT be tolerated.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

- Any student found to have committed **academic dishonesty**—including cheating, plagiarism, or unauthorized collaboration—will:
 - Receive an **immediate zero** on the assignment, quiz, or exam in question (first offense)
 - Receive an **F in the course**, regardless of points earned (second offense)
 - **Not** be allowed to make up the work
 - Be **referred to the Dean of Social Sciences** for potential disciplinary action, which may include **dismissal from the college**
- Students suspected of academic dishonesty may be required to provide evidence to support their innocence.

Artificial intelligence (AI) Policy:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 8/24-8/28		Course introduction, syllabus review, & introductory assignments.

Week 2 8/31-9/4	Introduction and Research Methods	Chapter 1 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 3 9/8-9/11	Neuroscience and Behavior	Chapter 2 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 4 9/14-9/18	Consciousness and its Variations	Chapter 4 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 5 9/21-9/25	Section 1 Assessment Week	Final Deadline for Section 1 Essay Exam, Discussion Forum, & Timed Quiz.
Week 6 9/28-10/2	Learning	Chapter 5 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 7 10/5-10/9	Memory	Chapter 6 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 8 10/12-10/16	Personality	Chapter 11 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.

Week 15 11/30-12/4	Section 3 Assessment Week	Final Deadline for Section 3 Essay Exam, Discussion Forum, & Timed Quiz.
Week 16 12/7-12/10	Final Course Assessments	SLO Assignment & Final Comprehensive Examination.

PSYC 2301.20E0
General Psychology
Fall 2026: 8-week online

Instructor: Marla Cox

Office: GC#209

Phone: (903) 453-6432

Email: mcox@parisjc.edu

Office Hours: Mondays & Wednesdays: 9:00am-11:00am (GC)

Tuesdays & Thursdays: 9:00am-12:00pm (SSC)

Meeting Location: online

Meeting Days: online

Meeting Times: online

Course Description:

General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

Required Prerequisite: TSI met in Reading and Writing

Semester Credit Hours: 3

Course Classification: Academic Course Guide Manual (ACGM)

Core Curriculum: This is a Paris Junior College Core Curriculum course.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Equity Access Program. PJC has partnered with the Follett Access Program and MacMillan Learning via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and **you will NOT need to purchase the required course materials separately**. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/business/index.php>.

Your required eBook and course materials for PSYC 2301, Achieve for Discovering Psychology (10th Edition) by Nolan & Hockenbury, ISBN# 9781319599669 will be delivered digitally in your Blackboard Ultra course provided by your instructor when you register and activate your Achieve: Read & Practice account inside the course.

Course Goals and Objectives:

Foundational Component Area: General Psychology

Social and Behavioral Science Courses in this category focus on developing ideas and express them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.

2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Empirical and Quantitative Skills-to include the manipulation and analysis of numerical data or observable facts resulting informed conclusions.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Specific Course Objectives: Upon successful completion of this course, students will:

1. Identify various research methods and their characteristics used in the scientific study of psychology.
2. Describe the historical influences and early schools of thought that shaped the field of psychology.
3. Describe some of the prominent perspectives and approaches used in the study of psychology.
4. Use terminology unique to the study of psychology.
5. Describe accepted approaches and standards in psychological assessment and evaluation.
6. Identify factors in physiological and psychological processes involved in human behavior.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Evaluation Methods:

Students will be given the following opportunities to demonstrate knowledge of class material:

Assessment/ Activity Title	Description	Total Points Available
Achieve: Read & Practice Learning Curve Assignments	Students will complete Achieve Learning Curve (3 points each) & Video assignments (4 points each) in the MacMillan Interactive course space embedded in Blackboard, for which they will need to create an Achieve account using the link inside the "Start Here" folder. Students will complete, between, 4-6 assignments per chapter.	173 points (28.9%)
Discussion Forum Participation	Students will participate in online Discussion Forums with peers for each Section. Original contributions earn 8 points, and peer responses earn 1 point, based on a grading rubric for 9 points each.	27 points (4.5%)
Essay Exams	Students will complete 3 Essay Exams for each Section. Students <u>MUST</u> use their <u>textbook</u> and <u>Video Lectures</u> to answer all essay questions. Other sources are not permitted. Each Essay Exam is worth 50 points.	100 points (16.6%)

Timed Section Quizzes	Students will complete 3 <u>timed</u> Section Quizzes in Blackboard. Students can use their textbooks, notes/materials, but will have limited time, thus need to study and prepare for the objective quiz over chapters associated with each section. Each Quiz is worth between 30-40 points.	100 points (16.6%)
Comprehensive Final Exam	Students will complete a timed Comprehensive Final Exam worth 200 points. Students must study and prepare ahead of time in order to complete the full exam in the allotted time period. This exam will be available at the end of the semester.	200 points (33.3%)
		600 total possible points

Grading Criteria: The following grading scale will be used to determine letter grade assignments at the end of the semester.

Points Earned	Associated Letter Grade
540 points and above	A
480-539	B
420-479	C
360-419	D
Below 360	F

Course Policies:

- **Communications:** The most expedient method to contact me is **via the classroom messages in Blackboard or through my regular work email address**. Students emailing me (via blackboard or otherwise) should expect a response within 24 hours Monday-Thursday. Students emailing on Thursdays, after office hours have ended, will receive a response on the following Monday. Any exceptions to this schedule will be communicated via email.
- **Class Announcements:** Blackboard announcements are a key communication tool for sharing important course updates. These announcements may include weekly reminders about the “Recommended Work/Study Schedule” and Final Deadlines, exam details, instructor messages, and information about extra credit opportunities. **Students are responsible for all information shared in announcements, whether or not they choose to read them.** Failure to stay updated may result in missed deadlines, unsubmitted assignments, and lack of preparation for class activities or exams. Blackboard tracks announcement views and generates reports for instructors identifying not only the amount of time spent in the course, but also students’ level of overall engagement.
- **Official Student Email Policy:** Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

- **Late Work Policy:**

- **Final Deadlines are final.** To be fair and consistent, **I do not grant extensions beyond them.**
- **Recommended Due Dates** are suggested submission targets to help you pace yourself—but only the **Final Deadlines** determine whether or not you can receive credit.
- There are **no grading penalties** for missing a Recommended Due Date, but if you miss a Final Deadline, the assignment, quiz, or exam will be locked, and you'll receive a **zero**.
- If you're struggling, **contact me early**. Most issues can be addressed if caught in time. There is very little I can do to help on the **day of a Final Deadline** or in the **final days of the semester**.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, October 1.**

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student.

- Attendance will be recorded in a college database based on the "Recommended Due Dates" for each chapter in each Section as well as "Final Deadlines" for final section assessments.
- Students not submitting work by the "Recommended Due Dates," will be marked absent.
- While students do not receive attendance points for the class based on this system and reporting, it is still an institutional requirement and helps encourage students to log in daily to stay on track and meet all Final Deadlines.
- Please be advised that attendance information, regarding students' participation/activity online, can be viewed by other departments at the institution.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Netiquette:

When communicating via the online mechanisms of this course, it is important to remember that those communications are conducted in a public forum and should reflect a level of professionalism reflective of that forum. At a minimum, communications should be respectful of others and use appropriate writing mechanics (spelling, grammar, etc.). Profanity will NOT be tolerated.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

- Any student found to have committed **academic dishonesty**—including cheating, plagiarism, or unauthorized collaboration—will:
 - Receive an **immediate zero** on the assignment, quiz, or exam in question (first offense)
 - Receive an **F in the course**, regardless of points earned (second offense)
 - **Not** be allowed to make up the work
 - Be **referred to the Dean of Social Sciences** for potential disciplinary action, which may include **dismissal from the college**
- Students suspected of academic dishonesty may be required to provide evidence to support their innocence.

Artificial intelligence (AI) Policy:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g.,

Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 8/24-8/28	Introduction and Research Methods Neuroscience and Behavior	Course introduction, syllabus review, & introductory assignments. Chapter 1 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.

Week 2 8/31-9/4	Neuroscience and Behavior Consciousness and its Variations	Chapters 2 & 4 reading assignment, video instruction assignments, Achieve work, Discussion Forum contribution, & Essay Exam questions for associated chapters.
Week 3 9/8-9/11	Learning	Final Deadline for Section 1 Essay Exam, Discussion Forum, & Quiz. Chapter 5 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapter.
Week 4 9/14-9/18	Memory Personality	Chapters 6 & 11 reading assignments, video instruction assignments, Achieve work, Discussion Forum Contribution, & Essay Exam questions for associated chapters.
Week 5 9/21-9/25	Personality Social Psychology	Chapters 11 & 12 reading assignments, video instruction assignments, Achieve work, & Essay Exam questions for associated chapters. Final Deadline for Section 2 Essay Exam, Discussion Forum, & Quiz.
Week 6 9/28-10/2	Stress, Health, and Coping Psychological Disorders	Chapters 13 & 14 reading assignment, video instruction assignments, Achieve work, Discussion Forum contribution, & Essay Exam questions for associated chapters.
Week 7 10/5-10/9	Psychological Disorders Therapies	Chapters 14 & 15 reading assignment, video instruction assignments, Achieve work, & Essay Exam questions for associated chapters. Final Deadline for Section 3 Essay Exam, Discussion Forum, & Quiz.
Week 8 10/12-10/15		SLO Assignment & Final Comprehensive Examination.

**PSYC 2301.20E1
General Psychology
Fall 2026: 8-week online**

Instructor: Marla Cox

Office: GC#209

Phone: (903) 453-6432

Email: mcox@parisjc.edu

Office Hours: Mondays & Wednesdays: 9:00am-11:00am (GC)

Tuesdays & Thursdays: 9:00am-12:00pm (SSC)

Meeting Location: online

Meeting Days: online

Meeting Times: online

Course Description:

General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

Required Prerequisite: TSI met in Reading and Writing

Semester Credit Hours: 3

Course Classification: Academic Course Guide Manual (ACGM)

Core Curriculum: This is a Paris Junior College Core Curriculum course.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Equity Access Program. PJC has partnered with the Follett Access Program and MacMillan Learning via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and **you will NOT need to purchase the required course materials separately**. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/business/index.php>.

Your required eBook and course materials for PSYC 2301, Achieve for Discovering Psychology (10th Edition) by Nolan & Hockenbury, ISBN# 9781319599669 will be delivered digitally in your Blackboard Ultra course provided by your instructor when you register and activate your Achieve: Read & Practice account inside the course.

Course Goals and Objectives:

Foundational Component Area: General Psychology

Social and Behavioral Science Courses in this category focus on developing ideas and express them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.

2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Empirical and Quantitative Skills-to include the manipulation and analysis of numerical data or observable facts resulting informed conclusions.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Specific Course Objectives: Upon successful completion of this course, students will:

1. Identify various research methods and their characteristics used in the scientific study of psychology.
2. Describe the historical influences and early schools of thought that shaped the field of psychology.
3. Describe some of the prominent perspectives and approaches used in the study of psychology.
4. Use terminology unique to the study of psychology.
5. Describe accepted approaches and standards in psychological assessment and evaluation.
6. Identify factors in physiological and psychological processes involved in human behavior.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Evaluation Methods:

Students will be given the following opportunities to demonstrate knowledge of class material:

Assessment/ Activity Title	Description	Total Points Available
Achieve: Read & Practice Learning Curve Assignments	Students will complete Achieve Learning Curve (3 points each) & Video assignments (4 points each) in the MacMillan Interactive course space embedded in Blackboard, for which they will need to create an Achieve account using the link inside the "Start Here" folder. Students will complete, between, 4-6 assignments per chapter.	173 points (28.9%)
Discussion Forum Participation	Students will participate in online Discussion Forums with peers for each Section. Original contributions earn 8 points, and peer responses earn 1 point, based on a grading rubric for 9 points each.	27 points (4.5%)
Essay Exams	Students will complete 3 Essay Exams for each Section. Students <u>MUST</u> use their <u>textbook</u> and <u>Video Lectures</u> to answer all essay questions. Other sources are not permitted. Each Essay Exam is worth 50 points.	100 points (16.6%)

Timed Section Quizzes	Students will complete 3 <u>timed</u> Section Quizzes in Blackboard. Students can use their textbooks, notes/materials, but will have limited time, thus need to study and prepare for the objective quiz over chapters associated with each section. Each Quiz is worth between 30-40 points.	100 points (16.6%)
Comprehensive Final Exam	Students will complete a timed Comprehensive Final Exam worth 200 points. Students must study and prepare ahead of time in order to complete the full exam in the allotted time period. This exam will be available at the end of the semester.	200 points (33.3%)
		600 total possible points

Grading Criteria: The following grading scale will be used to determine letter grade assignments at the end of the semester.

Points Earned	Associated Letter Grade
540 points and above	A
480-539	B
420-479	C
360-419	D
Below 360	F

Students will be given the following opportunities to demonstrate knowledge of class material:

Assessment/ Activity Title	Description	Value
(Pre-Lecture) Achieve Assignments	Students will complete between 4-6 pre-lecture learning curve quiz and video assignments in the Achieve interactive course space embedded in Blackboard (<i>online</i>). All Achieve assignments MUST BE COMPLETED BEFORE STUDENTS ARRIVE TO CLASS for that associated Chapter lecture. Students can earn 3 points for each completed pre-lecture learning curve assignment and 4 points for pre-lecture video assignments.	173 points
(Post-Lecture) Timed, Chapter Quizzes	Students will complete 10 timed, post-lecture quizzes (<i>online</i>) in Blackboard to test their mastery of the material after completing all pre-lecture work and attending the live lecture for each specific chapter. Each post-lecture quiz is worth 10 points.	100 points
(In-Class) Collaborative Quizzes	Students will complete two in-class open-book, collaborative quizzes. Each quiz will be worth 50 points.	100 points
(In-Class) Major Exams	Students will complete 2 closed-book major exams this semester. Major exams will be proctored in the classroom, and students will not be allowed to access	200 points

	any course materials. Exam 1 covers Chapters 1, 2, 4, 5, & 6 and Exam 2 covers Chapters 11, 12, 13, 14, & 15. Each exam is worth 100 points.	
(Online) APA Assignment	Students will complete an online assignment designed to introduce APA guidelines and evaluate their ability to apply these standards in technical writing.	27 points
		600 total possible points

Grading Criteria: The following grading scale will be used to determine letter grade assignments at the end of the semester.

Points Earned	Associated Letter Grade
540 points and above	A
480-539	B
420-479	C
360-419	D
Below 360	F

Course Policies:

- **Communications:** The most expedient method to contact me is **via the classroom messages in Blackboard or through my regular work email address**. Students emailing me (via blackboard or otherwise) should expect a response within 24 hours Monday-Thursday. Students emailing on Thursdays, after office hours have ended, will receive a response on the following Monday. Any exceptions to this schedule will be communicated via email.
- **Class Announcements:** Blackboard announcements are a key communication tool for sharing important course updates. These announcements may include weekly reminders about the “Recommended Work/Study Schedule” and Final Deadlines, exam details, instructor messages, and information about extra credit opportunities. **Students are responsible for all information shared in announcements, whether or not they choose to read them.** Failure to stay updated may result in missed deadlines, unsubmitted assignments, and lack of preparation for class activities or exams. Blackboard tracks announcement views and generates reports for instructors identifying not only the amount of time spent in the course, but also students’ level of overall engagement.
- **Official Student Email Policy:** Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.
- **Late Work Policy:**
 - **Final Deadlines are final.** To be fair and consistent, **I do not grant extensions beyond them.**

- These deadlines are **strict and final**. To be fair and consistent with all students, I do **not offer extensions**.
- You are given ample time and opportunity to submit work early.
Missing a final deadline means forfeiting credit for that assignment, activity, or exam—a score of **zero** will be recorded.
- If you're struggling, **contact me early**. Most issues can be addressed if caught in time. There is very little I can do to help on the **day of a Final Deadline** or in the **final days of the semester**.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, October 1**.

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course, with a grade of "W," is Thursday, February 19.** Students can complete a withdrawal request form through their Student Account in MyPJC.

- ****IMPORTANT**** Attendance will be recorded after each class period.
- Students not attending class will be counted absent.
- While students do not receive attendance points for the class, documentation is an institutional requirement and helps encourage students to log in to Blackboard and attend scheduled courses.
- Please be advised that attendance information, regarding students' participation/activity online, can be viewed by other departments at the institution.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Netiquette:

When communicating via the online mechanisms of this course, it is important to remember that those communications are conducted in a public forum and should reflect a level of professionalism reflective of that forum. At a minimum, communications should be respectful of others and use appropriate writing mechanics (spelling, grammar, etc.). Profanity will NOT be tolerated.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division

Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

- Any student found to have committed **academic dishonesty**—including cheating, plagiarism, or unauthorized collaboration—will:
 - Receive an **immediate zero** on the assignment, quiz, or exam in question (first offense)
 - Receive an **F in the course**, regardless of points earned (second offense)
 - **Not** be allowed to make up the work
 - Be **referred to the Dean of Social Sciences** for potential disciplinary action, which may include **dismissal from the college**
- Students suspected of academic dishonesty may be required to provide evidence to support their innocence.

Artificial intelligence (AI) Policy:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT

was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 8/24-8/28	Introduction and Research Methods	Course introduction, syllabus review, & introductory assignments. Chapter 1 reading assignment, Achieve work, & Timed Quiz.
Week 2 8/31-9/4	Neuroscience and Behavior Consciousness and its Variations	Chapters 2 & 4 reading assignment, Achieve work, & Timed Quizzes.
Week 3 9/8-9/11	Learning	Chapter 5 reading assignment, Achieve work, & Timed Quiz.
Week 4 9/14-9/18	Memory	Chapter 6 reading assignment, Achieve work, & Timed Quiz. Section 1 Major Exam.

Week 5 9/21-9/25	Personality Social Psychology	Chapters 11 & 12 reading assignments, Achieve work, & Timed Quizzes.
Week 6 9/28-10/2	Stress, Health, and Coping Psychological Disorders	Chapters 13 & 14 reading assignment, Achieve work, & Timed Quizzes.
Week 7 10/5-10/9	Therapies	Chapter 15 reading assignment, Achieve work, & Timed Quiz. Section 2 Major Exam.
Week 8 10/12-10/15	APA Guidelines	SLO Assignment, APA Assignment, and Comp. Final Make-up Exam.

RADR 2209.10A0
Radiographic Imaging Equipment
Fall 2026

Instructor: Laura Fendley
Office: 1066
Phone: 903-782-0765
Email: lfendley@parisjc.edu

Meeting Location: Rm 1101, WTC
Meeting Days: Tuesdays
Meeting Times: 8:30a-9:30a, 9:30a-1:30p
Office Hours: By appointment

Course Description

Equipment and physics of x-ray production. Includes basic x-ray circuits. Also examines the relationship of conventional and digital equipment components to the imaging process. Credits: 2 SCH

Required Textbook(s) and Materials

1. *Radiologic Science for Technologists Physics, Biology, & Protection*, Bushong and Shields, 13th edition, 2026, ISBN: 978-0-3237-6536-7
2. *Principles of Radiographic Imaging: An Art and a Science*, Adler & Carlton, 6th edition, 2018, ISBN: 978-0-323-66134-8
3. *Principles of Radiographic Imaging: An Art and a Science*, Carlton, Adler, Balac, and Stewart, 7th edition, 2027, ISBN: 978-0-443-38415-8

Course Goals and Objectives

Differentiate between conventional and digital equipment; explain the physics of x-ray production; describe x-ray circuits; and relate conventional and digital equipment components to the imaging process.

Program-Level Student Learning Outcomes

Students will be able to perform these outcomes upon completion of the program:

- Students will apply proper positioning skills.
- Student will select appropriate technical factors for digital imaging.
- Students will demonstrate radiation protection.
- Students will demonstrate effective oral communication skills with staff, preceptors, & patients.
- Students will demonstrate effective written communication skills.
- Students will manipulate technical factors for non-routine examinations.
- Students will demonstrate positioning for trauma patients.
- Students will demonstrate professionalism in clinical situations.
- Students will demonstrate exemplary customer service.
- Students will evaluate radiographic images effectively.
- Students will demonstrate critical thinking in trauma situations.

Course-Level Student Learning Outcomes

1. Differentiate between conventional and digital equipment.
2. Describe x-ray circuits.
3. Relate conventional and digital equipment components to the imaging process.
4. Identify computer systems in radiologic sciences and applications.

Course Structure and Organization

Practical work experience in a variety of healthcare settings
Group activities
Computer assisted instruction
Audio-visuals
Oral and written assignments
Critical thinking or problem-solving activities

Course Requirements and Evaluation

In order to pass RADR 2209, the student must complete all objectives and achieve a final average grade of **75** or higher:

Unit Exams	50%
Quizzes	15%
Assignments, Group Project, Labs	25%
Final Exam	10%

The weighted average of the exams (unit and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the weighted exam average is below 75.0%, the student will receive the grade of “F” for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination and must be completed by the next scheduled class day.

Missed quizzes cannot be made up and will result in a grade of zero.

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades.

All lab assignments, group project(s), and assigned coursework are a requirement for course completion. Failure to participate will result in a grade of “F” for the course regardless of any other grade(s).

No extra credit will be offered.

Required Activity

All students must complete the Student Acknowledgment located in the "Start Here" section of Blackboard by 10:00 p.m. by August 31, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Late Work

To promote timely submission of assignments and ensure the orderly progression of the course, late work will be accepted only under the following conditions:

Assignments submitted after the designated due date but before the start of the next scheduled class meeting will be subject to a standard deduction of 20 points from the earned score. Assignments submitted after the beginning of the next class meeting will not be accepted and will receive a grade of zero. Students are encouraged to plan accordingly and communicate with the instructor in advance if circumstances may impact their ability to meet assignment deadlines.

All assigned coursework is considered a required component of the course. Failure to complete assigned coursework may impede a student's ability to successfully progress to the next course in the program sequence. Additionally, failure to complete required coursework, including assigned remediation activities, constitutes a failure to meet course objectives.

Class Attendance

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is November 12, 2026.**

Radiology Technology students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of radiology technology:

1. During inclement weather on classroom days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend class/clinicals because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Students missing less than 30 minutes of classroom time during a given day will receive a tardy. Students missing 30 minutes or more will be given an absence. A tardy or absence, such as arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Students who are absent will be required to make up the lab/classroom hours if required.
5. Students missing any time after three (3) absences **per course** per semester are subject to dismissal from the program. Upon return to school, the student must make a request to the Program Coordinator to discuss absences. The student may provide supporting evidence to validate the necessity of the absence.

Procedure for Reporting an Absence or Tardy

When a student must be late or absent from the classroom, that individual must notify the didactic instructor by telephone (call or text message) before the scheduled course begins. When calling, the student should attempt to contact the instructor, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted about the absence, as well as the time. The student should then convey his/her message to the course instructor via telephone (call or text message) with the documented information (name, position, time). Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in a termination from the program.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, **and**
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Class Conduct

Please put away all cell phones, pagers, iPods, AirPods, headphones, recording devices, smart watches, cameras, etc. before entering the classroom/laboratory/clinical site. There will be a designated location in the classroom for those students who bring devices to class. **All devices must be powered "off" to minimize classroom disruptions.** Students may access their devices during break times or in case of an emergency. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Complaint Procedures

Students should address all complaints or concerns with their course instructor **first**. If the issue is not resolved the student should reference the RTP Student Handbook for the official grievance procedure.

Artificial intelligence

Artificial intelligence (AI) tools may be used in this course at the student's discretion. However, in keeping with scholarly and academic integrity standards, AI may not be used to generate written assignments, research content, or sources submitted for credit. Students are responsible for independently verifying the accuracy of any AI-assisted materials used for studying (such as flashcards or study guides), as AI tools are known to produce inaccurate or fabricated information. Submitting AI-generated content as one's own work constitutes academic dishonesty.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, quizzes, assignments, plagiarism, or collusion with others will be referred to the appropriate Division Vice President or the College President for disciplinary action such as dismissal from the college. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester.**

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Technical Support

For any technical difficulties within the course you may reach tech support at techsupport@parisjc.edu.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by a Blackboard Announcement and student email. The new syllabus will also be posted within the Blackboard course.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988, help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule

1	08/25	Orientation - Assign Lab Groups, Group Equipment Projects
2	09/01	Basics of Electricity & Circuitry A&C- Ch. 3; B- Ch. 5
3	09/08	Electromagnetism - A&C- Ch. 4; B- Ch. 5 QUIZ #1
4	09/15	Exam - Lab Experiments Group 1 Group Project Checkpoint #1 due
5	09/22	X-ray Equipment - A&C- Ch. 6; B- Ch. 6, 14
6	09/29	X-ray Tube, AEC - A&C- Ch. 5, 7; B- Ch. 7, 6, 14 QUIZ #2
7	10/06	Exam - Lab Experiments Group 2 Group Project Checkpoint #2 due
8	10/13	Grids, Filtration, Beam Restriction A&C- Ch. 18, 11, 15; B- Ch. 15, 9, 13
9	10/20	Mobile Radiography, Fluoroscopy A&C- Ch. 32, 33; B- Ch. 6, 19 Lab - Group Project Breakouts QUIZ #3
10	10/27	Exam - Lab Experiments Group 3 Group Project Checkpoint #3
11	11/03	Digital Radiography Part 1 A&C- Ch. 20, 21; B- Ch. 12, 13, 14, 16
12	11/10	Digital Radiography Part 2 QUIZ #4 A&C Ch. 22, 23; B- Ch. 12, 13, 14, 16 Group Project Checkpoint #4
	11/12	LAST DAY TO WITHDRAW "W"
13	11/17	Group Project Presentations - QUIZ #5 Lab Experiments Group 4
14	11/24	Quality Management, Informatics in Medical Imaging/PACS A&C- Ch. 31, 24, 30; B- Ch. 25, 26
15	12/01	Exam 4 – Final Review
16	12/08	Final Exam – 9am

You will be expected to pre-read the assigned chapters that pertain to the content before each class. Assignments, quizzes, and exams may be comprehensive. Missed quizzes result in a grade of zero. Course Schedule and Lab Experiment dates are subject to change.

RADR 2266.100
Practicum III- Radiologic Technology
Fall 2026

Instructor: Carla Emery
Office: WTC 1064
Phone: 903-782-0743
Email: cemery@parisjc.edu

Meeting Location: RM 1101, WTC
Meeting Days: Thurs/Friday-Assigned Sites
Meeting Times: Wed-8:30-9:30am
Office Hours: By Appointment

Course Description:

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.

Credits: 2 SCH

Prerequisite(s): RADR 1266, RADR 1267

Required Textbook(s) and Materials:

1. Introduction to Radiologic Science and Patient Care, Adler, Carlton, 8th edition, 2023, Saunders-Elsevier, ISBN: 978-0-323-87220-1
2. Merrill's Atlas of Radiographic Positioning and Procedures – Volume 1, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11717-6
3. Merrill's Atlas of Radiographic Positioning and Procedures - Volume 2, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11689-6
4. Merrill's Atlas of Radiographic Positioning and Procedures - Volume 3, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11690-2
5. Workbook for Merrill's Atlas of Radiographic Positioning and Procedures, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) ISBN: 978-0-443-11691-9
6. Merrill's Pocket Guide to Radiography, 16th Edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) ISBN: 978-0-443-11693-3
7. Principles of Radiologic Imaging: An Art and A Science, Carlton, Alder, 6th edition, 2018, ISBN: 978-1-337-71106-7

Course Policies:

See Radiology Technology Program Handbook.

Course Goals and Objectives:

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry; and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry. RADR 2266 is designed to prepare the student to enter the health care environment with entry-level work experience.

Course Schedule:

Coincides with RADR 2331.100 Course Schedule for Lab competencies.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Program-Level Student Learning Outcomes:

Students will be able to perform these outcomes upon completion of the program:

Students will apply proper positioning skills.

Student will select appropriate technical factors for digital imaging.

Students will demonstrate radiation protection.

Students will demonstrate effective oral communication skills with staff, preceptors, and patients.

Students will demonstrate effective written communication skills.

Students will manipulate technical factors for non-routine examinations.

Students will demonstrate positioning for trauma patients.

Students will demonstrate professionalism in clinical situations.

Students will demonstrate exemplary customer service.

Students will evaluate radiographic images effectively.

Students will demonstrate critical thinking in trauma situations.

Course-Level Student Learning Outcomes for RADR 2266:

1. Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry
2. Demonstrate legal and ethical behavior
3. Demonstrate safety practices
4. Demonstrate interpersonal and teamwork skills
5. Demonstrate appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.
6. Identify and Apply Radiation Safety and Protection in classroom laboratory and clinical facilities for radiographer, healthcare team, patient, and general public.

Course Requirements and Evaluation:

1. Complete all practicum objectives satisfactorily.
2. Students must complete weekly Clinical/Lab Image Critiques.

Grading Criteria

In order to pass RADR 2266, the student must meet the minimum requirements of the designated competencies in each column in order to receive the competency points. The additional points are based on an average of the clinical instructor's evaluations form and attendance.

1. Course grade will depend on the number of points in each of the following categories:

Competencies
Patient Care
Professionalism
Knowledge/Skills
Attendance

Points are based on the number of clinical competencies in each column.

	Total 1 st Col.	Total 2 nd Col.	= Points
Competencies:			
(Totals must	>36	>24	49
meet criteria	>34	>22	39
of all columns.)	= >32	= >20	29 (min. requirements)
	<32	<20	Fail Semester

Scores based on an average of all clinical instructors' evaluation form:

Patient Care:	20	=	15
(Total scores	16-19	=	13
of section.)	12-15	=	12
	<12	=	0

Professionalism:	25	=	15
(Total scores	20-24	=	13
of section.)	15-19	=	12
	<15	=	0

	4 Absence	=	4
	5 Absences	=	3

To have satisfactory progress, students must have the following **by Midsemester:**

Column 1 ≥ 32 competencies
Column 2 ≥ 20 competencies

Grading Scale: Depending on number of competencies completed, evaluations, clinical participation, submission of accurate time in Trajecsyst, journals, summary logs (Trajecsyst), and clinical discussions.

The student is responsible for updating their digital clinical log and bringing their Daily Comp Tracker to clinical discussion weekly or competencies will not be accepted for that week. Students are also responsible for verifying competency accuracy in Trajecsyst on a weekly basis; competencies not submitted within 7 days will not be accepted. All failed competencies must be submitted each week or 5 points will be taken off the student's final grade. After the 3rd incident, it may be grounds for dismissal.

Must have journal for clinical discussion weekly and verified time records must be submitted by the last clinical day of each week or 5 points will be deducted per incident from the student's final grade.

Journal must have preceptor signature daily, if signature is missing there will be a 5-point deduction from final grade for each occurrence.

During weekly clinical discussions, the student is responsible for bringing the following items: competencies, time record/competency discrepancies/changes, and journals with clinical preceptor's signature. If the student does not have each of the items, including signatures, then five (5) points will be deducted from final grade per occurrence. The weekly clinical discussion will require the student to verbally discuss procedures that they assisted, observed, and performed during the prior week to their classmates for group discussion.

Weekly time logs **MUST** be verified by the first class-day following clinical. Arrival and departure time for each shift **MUST** be logged, including the lunch break. If time records are not accurately logged the student will receive a clinical absence and be required to make up the clinical hours. Abuse of utilizing time exceptions may be grounds for immediate dismissal. Students are allotted three (3) time exceptions per semester. Unapproved time exceptions after the 3rd occurrence will result in a 5-point deduction from the final course grade, per occurrence.

The student's evaluations will be reviewed. Any problems that may have occurred will be discussed during clinical discussion so that the whole group may benefit from the evaluations. Twice a semester the student and instructor will meet to discuss individual evaluations. There will be a clinical discussion weekly, unless notified by instructor.

Students who have unsatisfactory progress in clinical will be given written notification, put on probation, and a plan for remediation will be completed. Continued unsatisfactory progress after remediation may result in dismissal from program.

Evaluations that do not meet minimum requirements are deemed unsatisfactory progress in the course.

Remediation required on any failed competency.

Failed Competencies:

1st failed competency—Remediation

2nd failed competency—Remediation and be placed on probation

3rd failed competency—May be grounds for dismissal

Course Structure and Organization

Practical work experience in a variety of healthcare settings

Group activities

Computer Assisted Instruction

Audio-visuals

Oral and Written assignments

Critical Thinking or problem-solving activities

Late Work:

To promote timely submission of assignments and ensure the orderly progression of the course, late work will be accepted only under the following conditions:

Assignments submitted after the designated due date but before the start of the next scheduled class meeting will be subject to a standard deduction of 20 points from the earned score. Assignments submitted after the beginning of the next class meeting will not be accepted and will receive a grade of zero. Students are encouraged to plan accordingly and communicate with the instructor in advance if circumstances may impact their ability to meet assignment deadlines.

All assigned coursework is considered a required component of the course. Failure to complete assigned coursework may impede a student's ability to successfully progress to the next course in the program sequence. Additionally, failure to complete required coursework, including assigned remediation activities, constitutes a failure to meet course objectives.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.*

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of **“W” is November 12th.**

Attendance Policy

Radiologic Technology students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of radiology technology:

1. During inclement weather on clinical days, the student must make his/her own decision regarding safety for travel to clinical sites. A student who decides not to attend clinical because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Any student arriving at the clinical area later than 60 minutes will be given an absence. A tardy or absence such as arriving late or leaving early may occur at

- any point during the day.
3. Three (3) tardies = one (1) absence.
 4. Permission to enter the clinical will be left to the discretion of the clinical instructor.
Students must demonstrate accountability. If a student reports to clinical with an illness which may pose a threat to others, he/she will be dismissed from the clinical area and will receive a clinical absence.
 5. Students who are absent will be required to make up the lab/clinical hours. Should the student miss the make-up hours it will be considered an absence.
 6. Students missing any time after three (3) absences per course per semester are subject to dismissal from the program. Upon return to school, the student must make a request to the Program Coordinator to discuss absences. The student may provide supporting evidence to validate the necessity of the absence.

Daily attendance is critical for the successful completion of this course. All practicum work experience will be made up at the convenience of the facility and the instructor. Withdrawal requests must be initiated by the student. Failure to complete all practicum objectives will result in a grade of "F" in the course.

Procedure for Reporting an Absence or Tardy

When a student must be tardy or absent from the clinical site, that individual must notify the clinical instructor by telephone (phone call ONLY; text messages are NOT acceptable). If the assignment is in a hospital or clinic, the agency must be notified as soon as possible, always before the schedule shift begins.

When calling, the student should attempt to contact the person in charge, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted about the absence, as well as the time. The student should then convey his/her message to the clinical coordinator via Teams with the documented information (name, position, time, time exception completed).

Failure to comply with the requirements may result in automatic probation. Abuse of these rules (ex: 'no call, no show') may result in immediate dismissal from the program.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, **and**
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Clinical Conduct:

Please put away all cell phones, pagers, iPods, headphones, recording devices, smart watches, cameras, laptops and/or other electronic devices before entering the clinical site. There will be a designated location in the classroom for students who bring devices to class. Students may access their devices during break times or in case of an emergency (instructor notification required). Cell phones, laptops, iPads, and/or other recording or smart devices are not allowed in the clinical areas at any time. Students needing to check devices or make phone calls must do so at designated break times. The student must notify the Clinical Instructor and leave the department to check cell phones and/or smart devices. No obscene/vulgar language will be permitted in the classroom/laboratory/clinical site. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Artificial intelligence (AI) Use Policy:

Artificial intelligence (AI) tools may be used in this course at the student's discretion. However, in keeping with scholarly and academic integrity standards, AI may not be used to generate written assignments, research content, or sources submitted for credit. Students are responsible for independently verifying the accuracy of any AI-assisted materials used for studying (such as flashcards or study guides), as AI tools are known to produce inaccurate or fabricated information. Submitting AI-generated content as one's own work constitutes academic dishonesty.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.**

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Technical Support:

If you need help with a course, contact the Help Desk at 903.782.0496 or email helpdesk@parisjc.edu.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Schedule/Weekly Lesson Plan:

[illegible]

CLINICAL PRACTICE

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
Upon completion of the required learning activities, the student should be able to:		
1. Exercise the priorities required in daily clinical practice.	I. Clinical Practice	Adler & Carlton, Chapter 24
2. Execute imaging procedures under the appropriate level of supervision.	1 A. Code of ethics/professional behavior	
3. Adhere to concepts of team practice that focus on organizational theories, roles of team members and conflict resolution.	2 1. Scope of practice	
4. Adapt to changes and varying clinical situations.	3 2. Practice standards	
5. Support patient-centered clinically effective service for all patients regardless of age, gender, disability, special needs, ethnicity or culture.	4 3. CARE bill	
6. Integrate the use of appropriate and effective written, oral and nonverbal communication with patients, the public and members of the health care team.	5 4. Incident reporting mechanisms	
7. Choose patient and family education strategies appropriate to the comprehension level of patient/family.	6 5. Standards for supervision	
8. Manage interactions with the patient and family in a manner that provides the desired psychosocial support.	7 a. Direct	
9. Evaluate the patient's status and condition before, during and following	8 b. Indirect	
	B. Professional communication	
	1. Patients	
	2. Patient's family	
	3. Health care team	
	9 C. Scheduling and sequencing of exams	
	10 II. Procedural Performance	Adler & Carlton, Chapters 11, 12,13
	11 A. Order/requisition evaluation and corrective measures	
	12 B. Facilities set-up	
	C. Patient assessment (history), education and care (pre-, post-procedural)	
	1. Patient monitoring – emergency and non-emergency	

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
the radiologic procedure to demonstrate competence in assessment skills. 10. Demonstrate skills in assessment and evaluation of psychological and physical changes in the patient's condition and carry out appropriate actions. 11. Examine gender, cultural, age and socioeconomic factors that influence patient compliance with procedures, diagnosis, treatment and follow-up of patients. 12. Adapt procedures to meet age-specific, disease-specific and cultural needs of patients. 13. Assess the patient and record patient histories. 14. Assess patient using the ABCs of CPR and demonstrate basic life support procedures. 15. Respond appropriately to patient emergencies. 16. Interpret patient side effects and/or complications of radiologic procedures, contrast administration and take appropriate actions. 17. Document care in the patient's record. 18. Apply standard and transmission-	a. Patient emergencies 1. Allergic reactions 2. Cardiac/respiratory arrest 3. Physical injury 4. Seizures 5. Diabetic emergencies b. Basic life support 2. Interpretation of patient records a. Confidentiality 3. Documentation 4. Special considerations a. Patient focused care b. Standard precautions and transmission-based precautions c. Medical asepsis d. Sterile technique 5. Communication style 6. Age specific 7. Cultural and socioeconomic sensitivity D. Imaging 1. Positioning a. Body mechanics b. Positioning accessories 2. Technical considerations a. Manual b. Automatic exposure control (AEC)	

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
based precautions. 19. Apply the appropriate medical asepsis and sterile technique. 20. Prepare the technologies and methodologies for the performance of radiologic procedures. 21. Demonstrate competency in the principles of radiation protection standards to include time, distance shielding and radiation monitoring. 22. Apply the principles of total quality management. 23. Report equipment malfunctions to assist with appropriate corrective actions. 24. Examine procedure orders for accuracy and follow-up to make corrective changes when applicable. 25. Support safe, ethical and legal practices. 26. Integrate the radiographer's scope of practice and practice standards into clinical practice setting. 27. Act consistently to maintain patient confidentiality standards. 28. Carry out principles of transferring, positioning, immobilizing and restraining of patient.	c. Digital/computed radiography 1. Basic quality control 2. Reporting equipment failure 3. Image processing (automatic/digital) 4. Image analysis a. Image quality 1. Density 2. Contrast 3. Recorded detail b. Image manipulation 1. Conventional 2. Digital c. Legal requirements for image documentation E. Patient/personnel protection 1. Radiation a. Time b. Distance c. Shielding d. Radiation monitoring	Merrill's Vol. 1, Chapter 2 Adler & Carlton, Chapter 9

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
29. Comply with departmental and institution procedures for response to emergencies, disasters and accidents. 30. Break down the chain of command in emergencies, disasters and accidents. 31. Differentiate between emergency and non-emergency procedures. 32. Adhere to national, institutional and/or department standards, policies and procedures regarding care of patients, provision of radiologic procedures and the reduction of medical errors. 33. Ensure that performance reflects professional competence in the selection of technical factors to produce quality diagnostic images with lowest radiation exposure possible. 34. Critique images for appropriate clinical information, image quality and patient documentation. 35. Performance reflects professional competence in determining corrective measures to improve inadequate images.	e. Exposure reduction techniques f. Room design 2. Equipment/accessories a. Beam restriction b. Filtration c. Positioning d. Image receptor system e. Scatter control techniques 1. Grids 2. Air gap techniques 3. Reverse cassette f. Technical factor selection 3. Medical error reduction III. Competency (Mandatory, Elective)* A. Gastrointestinal 1. Abdomen a. Recumbent b. Erect c. Lateral decubitus 2. Contrast studies a. Esophagus b. Upper gastrointestinal 14 (GI) c. Small bowel d. Lower GI B. Urinary	Merrill's Vol. 1, Chapter 4

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
	1. Urography a. Intravenous urography b. Cystography c. Cystourethrography d. Retrograde Urography C. Mobile/surgical 1. Chest 2. Abdominal 3. Orthopedic 4. C-arm 5. Operative cholangiography IV. Positioning Considerations for Routine Radiographic Procedures 15 A. Patient instructions 16 B. Patient positioning C. Part placement D. Image receptor selection and placement E. Beam alignment and angulation 17 F. Beam limitation and shielding G. Special considerations 1. Atypical conditions 2. Mobile procedures 3. Surgical unit procedures 4. Age specific 18 5. Special needs patients	Merrill's Vol. 2- 3, Chapters 16, 20-21 Merrill's Vol. 1, Chapter 1 Merrill's Vol. 3, Chapters 20-21

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
	H. Positioning for the following studies:	Merrill's Vol. 1, Chapter 5
	1. Skeletal system	
	a. Upper extremity	
	1. Fingers	
	2. Hand	
	3. Wrist	
	4. Radius/ulna	
	5. Elbow	
	6. Humerus	
	b. Shoulder girdle	Merrill's Vol. 1, Chapter 6
	1. Shoulder joint	
	2. Scapula	
19	3. Clavicle	
20	4. Acromioclavicular articulations	
	c. Lower extremity	Merrill's Vol. 1, Chapter 7
	1. Toes	
	2. Foot	
	3. Ankle	
	4. Calcaneus	
	5. Tibia/fibula	
	6. Knee/patella	
	7. Femur

RADR 2331.100
Advanced Radiographic Procedures
Fall 2026

Instructor: Carla Emery
Office: 1064
Phone: 903-782-0743
Email: cemery@parisjc.edu

Meeting Location: RM 1101, WTC
Meeting Days: Wednesday
Meeting Times: 9:30 AM-4:30 PM
Office Hours: By Appointment

Course Description:

Positioning and alignment of anatomic structures and equipment, evaluation of images for demonstration of anatomy and related pathology.

Credits: 3 SCH

Prerequisite(s): RADR 1311, RADR 2301.

Required Textbook(s) and Materials:

1. Introduction to Radiologic Science and Patient Care, Adler, Carlton, 8th edition, 2023, Saunders-Elsevier, ISBN: 978-0-323-87220-1
2. Merrill's Atlas of Radiographic Positioning and Procedures – Volume 1, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11717-6
3. Merrill's Atlas of Radiographic Positioning and Procedures - Volume 2, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11689-6
4. Merrill's Atlas of Radiographic Positioning and Procedures - Volume 3, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) 2025, Mosby-Elsevier ISBN: 978-0-443-11690-2
5. Workbook for Merrill's Atlas of Radiographic Positioning and Procedures, 16th edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) ISBN: 978-0-443-11691-9
6. Merrill's Pocket Guide to Radiography, 16th Edition, Jeannean Hall Rollins, MRC, BSRT(R)(CV)(M) and Tammy Curtis, PhD, RT(R)(CT)(CHES) ISBN: 978-0-443-11693-3
7. Principles of Radiologic Imaging: An Art and A Science, Carlton, Alder, 6th edition, 2018, ISBN: 978-1-337-71106-7

Course Policies:

See Radiology Technology Program Handbook.

Course Goals and Objectives:

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry; and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

Perform advanced level procedures in positioning; align anatomic structures and equipment; and evaluate images.

RADR 2331 is designed to prepare the student to enter the health care environment with entry-level work experience.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Program-Level Student Learning Outcomes:

Students will be able to perform these outcomes upon completion of the program:

Students will apply proper positioning skills.

Student will select appropriate technical factors for digital imaging.

Students will demonstrate radiation protection.

Students will demonstrate effective oral communication skills with staff, preceptors, and patients.

Students will demonstrate effective written communication skills.

Students will manipulate technical factors for non-routine examinations.

Students will demonstrate positioning for trauma patients.

Students will demonstrate professionalism in clinical situations.

Students will demonstrate exemplary customer service.

Students will evaluate radiographic images effectively.

Students will demonstrate critical thinking in trauma situations.

Course-Level Student Learning Outcomes for RADR 2331:

1. Perform advanced level and trauma procedures and positioning
2. Align anatomic structures and equipment
3. Evaluate images.
4. Define Pathology diseases.
5. Identify and Apply Radiation Safety and Protection in classroom laboratory and clinical facilities for radiographer, healthcare team, patient, and general public.
6. Identify supplies necessary for basic and trauma procedures.
7. Perform patient education.

Course Requirements and Evaluation:

In order to pass RADR 2331, the student must complete all course objectives listed below and achieve a final average grade of **74.5** or higher:

Exams	60%
Quizzes (includes workbook)	15%
Assignments	10%
Lab	5%
Final Exam	10%

The weighted average of the exams (unit and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the weighted exam average is below 75.0%, the student will receive the grade of “F”, or lower for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination and must be completed by the next scheduled class day. **Missed quizzes cannot be made up and will result in a grade of zero.**

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades.

No extra credit will be offered.

Course Structure and Organization

Practical work experience in a variety of healthcare settings

Group activities

Computer Assisted Instruction

Audio-visuals

Oral and Written assignments

Critical Thinking or problem-solving activities

Late Work:

To promote timely submission of assignments and ensure the orderly progression of the course, late work will be accepted under the following conditions:

Assignments submitted after the designated due date but before the start of the next class day will be subject to a standard deduction of 20-points from the earned score. It is important to note that no submissions will be accepted beyond this period. Students are encouraged to plan accordingly and communicate with the instructor in advance if circumstances may impact their ability to meet assignment deadlines.

All assigned coursework is considered a required component of the course. Failure to complete assigned coursework may impede a student's ability to successfully progress to the next course in the program sequence. Additionally, failure to complete required coursework, including assigned remediation activities, constitutes a failure to meet course objectives

**Paris Junior College
Radiology Technology Program
RADR 2331 Fall 2026
COURSE SCHEDULE**

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1	Orientation	
Week 2	General Considerations, Patient Education	Pt Care Book
Week 3	Urinary System	Merrill's Vol. 2, Ch. 16
Week 4	Exam 1	
Week 5	Order Forms	Merrill's Vol 1, Ch 4
Week 6	Digestive System	Merrill's Vol. 2, Ch. 15
Week 7	Digestive System	Merrill's Vol. 2, Ch. 15
Week 8	Digestive System	Merrill's Vol. 2, Ch. 15
Week 9	Exam 2	
Week 10	Biliary System, Special Studies	Merrill's Vol. 2, Ch. 15
Week 11	Exam 3	
Week 12	Positioning and Special Considerations	Merrill's Vol. 2, Ch. 12 Merrill's Vol. 3, Ch 20,21,22,23
Week 13	Exam 4	
Week 14	Thanksgiving Break	
Week 15	Final Review/Content Specs	
Week 16	Final Exam	

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "***W***" is ***November 12th***.

Attendance Policy

Radiology Technology students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of radiology technology:

1. During inclement weather on class days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend class because of inclement weather will receive an absence unless official notification by the college has been made that school is closed.
2. Students missing 60 minutes or **less** of classroom during a given day will receive a **tardy**. Students missing **more** than 60 minutes will be given an **absence**. A tardy or absence such as arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Permission to enter the classroom will be left to the discretion of the classroom instructor.
5. Students who are absent will be required to make up the lab/classroom hours if required.
6. Students missing any time after three (3) absences per course per semester are subject to dismissal from the program. Upon return to school, the student must make a request to the Program Coordinator to discuss absences. The student may provide supporting evidence to validate the necessity of the absence.

Procedure for Reporting an Absence or Tardy

When a student must be late or absent from the classroom, that individual must notify the instructor/college by telephone. When a student must be late or absent from the classroom, that individual must notify the didactic instructor/college by telephone (call or message in Teams app) before the scheduled course begins.

When calling, the student should attempt to contact the instructor, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted regarding the absence, as well as the time. The student should then convey his/her message to the course instructor via telephone (call or text message) with the documented information (name, position, time). Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in dismissal from the program. Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in a termination from the program.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, **and**
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Class Conduct:

Please put away all cell phones, pagers, iPods, AirPods, headphones, recording devices, smart watches, cameras, etc. before entering the classroom/laboratory/clinical site. There will be a designated location in the classroom for those students who bring devices to class. **All devices must be powered “off” to minimize classroom disruptions.** Students may access their devices during break times or in case of an emergency. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Artificial intelligence (AI) Use Policy:

Artificial intelligence (AI) tools may be used in this course at the student’s discretion. However, in keeping with scholarly and academic integrity standards, AI may not be used to generate written assignments, research content, or sources submitted for credit. Students are responsible for independently verifying the accuracy of any AI-assisted materials used for studying (such as flashcards or study guides), as AI tools are known to produce inaccurate or fabricated information. Submitting AI-generated content as one’s own work constitutes academic dishonesty.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.**

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

Technical Support:

If you need help with a course, contact the Help Desk at 903.782.0496 or email helpdesk@parisjc.edu.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

RADR 2331
ADVANCED RADIOGRAPHIC PROCEDURES

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
Upon completion of the required learning activities, the student should be able to: 1. Describe the general purpose, and unique features resulting from special radiographic / fluoroscopic studies. 2. Identify methods and barriers of communication and describe how each may be utilized or overcome effectively during patient education. 3. Explain radiographic procedures to patients / family members. 4. Modify directions to patients with various communication problems. 5. Apply general radiation safety and protection practices associated with radiologic examinations. 6. Discuss general procedural considerations for radiographic examinations. 7. Adapt general procedural considerations to specific clinical settings. 8. Adapt radiographic/fluoroscopic procedures based on special considerations.	<u>Unit 1</u> I. General Considerations A. Evaluation of Radiographic Orders 1. Patient Identification 2. Verification of Procedure(s) Ordered 3. Review of Clinical History 4. Taking Clinical History and Patient Assessment a. Role of the Radiographer b. Questioning Skills c. Determining the Chief Complaint d. Localization e. Chronology f. Quality g. Severity h. Onset i. Aggravating or Alleviating Factors j. Associated Manifestations k. Special Considerations for Age, Disability and Cultural Background l. Determining Previous Allergic Reactions	REQUIRED TEXT READINGS: Merrill's Vol 1, Ch 1-2 Adler & Carlton Ch 7-12 Adler & Carlton Ch 15, 22 Adler & Carlton Ch 23-24

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
9. Discuss equipment and supplies necessary to complete radiographic/fluoroscopic procedures. 10. Identify methods and barriers of communication and describe how each may be utilized or overcome effectively during patient education. 11. Explain radiographic procedures to patients / family members. 12. Modify directions to patients with various communication problems. 13. Apply general radiation safety and protection practices associated with radiologic examinations. 14. Discuss general procedural considerations for radiographic examinations. 15. Adapt general procedural considerations to specific clinical settings. 16. Adapt radiographic/fluoroscopic procedures based on special considerations.	5. Establishment of Patient Rapport a. Procedure Explanation b. Determination of Pregnancy 6. Patient Preparation a. Verification of Appropriate Dietary Preparation 7. Room Preparation a. Cleanliness, Organization Appearance b. Necessary Supplies and Accessory Equipment Available 8. Patient Assistance 9. Patient Monitoring 10. Image Evaluation 11. Patient Dismissal II. Patient Education A. Communication 1. Barriers a. Methods for Overcoming Barriers B. Clinical Situations C. Common Radiation Safety Issues and Concerns	

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
17. Recite the patient preparation necessary for various contrast and special studies. 18. List and explain the routine and special views for all radiographic/fluoroscopic procedures. 19. Explain the purpose for using contrast media. 20. Differentiate between positive and negative contrast agents. 21. Name the type, dosage and route of administration of contrast media commonly used to perform radiographic contrast and special studies. 22. List and explain the routine and special views for all radiographic/fluoroscopic procedures. 23. Describe the general purpose, and unique features resulting from special radiographic / fluoroscopic studies. 24. Distinguish between the types and purpose for various upper and lower gastrointestinal studies. 25. Stimulate radiographic/fluoroscopic procedures on a person or phantom in a laboratory setting. 26. Evaluate images for positioning, centering, appropriate anatomy and overall image quality. 27. Cite the structures demonstrated on routine radiographic/fluoroscopic procedures.	Unit 2 III. Procedural Considerations for Contrast Studies A. Equipment and Materials Needed B. Contrast Media 1. Purpose 2. Types a. Negative Agents 1. Carbon Dioxide 2. Air 3. Nitrous Oxide b. Positive Agents 1. Barium Sulfate 2. Iodinated C. Single and Double Contrast Examinations 1. Upper Gastrointestinal System 2. Lower Gastrointestinal System 3. Follow-up Care D. General Procedure E. Patient and Body Part Positioning F. Structures and Functions Demonstrated G. Positioning for the Following Body Systems 3. Urinary System a. Intravenous Urography b. Retrograde Urography c. Cystography and Cystourethrography	Adler & Carlton Ch 21 Merrill's Ch 16, Vol 2 Each of these will be discussed with the specific chapters that include the procedures.

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
28. List and explain the routine and special views for all radiographic/fluoroscopic procedures.	Unit 3 1. Digestive System a. Esophagus b. Stomach c. Small Bowel d. Colon/Rectum	Merrill's Vol 2, Ch 15
29. Describe the general purpose, and unique features resulting from special radiographic / fluoroscopic studies.	Unit 4 2. Biliary System a. Gallbladder b. Biliary Ducts c. Endoscopic Retrograde Cholangiographic Pancreatography (ERCP)	Merrill's Vol 2, Ch 15 Merrill's Vol 2, Ch 14
30. Distinguish between the types and purpose for various upper and lower gastrointestinal studies.		
31. Stimulate radiographic/fluoroscopic procedures on a person or phantom in a laboratory setting.		
32. Evaluate images for positioning, centering, appropriate anatomy and overall image quality.	H. Procedural Considerations for the Following Special Studies 1. Arthrography 2. Myelography 3. Venography 4. Other	
33. Cite the structures demonstrated on routine radiographic/fluoroscopic procedures.		
34. List and explain the routine and special views for all radiographic/fluoroscopic procedures.	Unit 5 IV. Positioning Considerations for Routing Radiographic Procedures A. Patient Instructions B. Patient Positioning C. Part Placement D. Image Receptor Selection and Placement E. Beam Alignment and Shielding F. Beam Limitation and Shielding G. Special Considerations 1. Atypical Conditions 2. Mobile Procedures 3. Surgical Unit Procedures 4. Age Specific	Each of these will be discussed with the specific chapters that include the procedures. Merrill's Ch. 12, Trauma, Vol 2 Merrill's Ch. 20, Mobile, Vol 3 Merrill's Ch. 21, Surgical, Vol 3 Merrill's Ch. 22, Pediatric, Vol 3 Merrill's Ch. 23, Geriatric, Vol 3
35. Describe the general purpose, and unique features resulting from special radiographic / fluoroscopic studies.		
36. Identify methods and barriers of communication and describe how each may be utilized or overcome effectively during patient education.		
37. Explain radiographic procedures to patients / family members.		
38. Modify directions to patients with various communication problems.		

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
39. Apply general radiation safety and protection practices associated with radiologic examinations. 40. Discuss general procedural considerations for radiographic examinations. 41. Adapt general procedural considerations to specific clinical settings. 42. Adapt radiographic/fluoroscopic procedures based on special considerations. 43. Discuss equipment and supplies necessary to complete radiographic/fluoroscopic procedures.	5. Special Needs Patients 6. Trauma	

RADIOGRAPHIC PATHOLOGY

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
Upon completion of the required learning activities, the student should be able to: 1. Define basic terms related to pathology. 3. Discuss the classifications of trauma. 2. Describe the basic manifestations of pathological conditions and their relevance to radiologic procedures. 4. Describe examples, sites, complications and prognosis for classifications of trauma. 5. Describe radiologic procedures used in the diagnosis of trauma. 6. List the causes of tissue disruption. 7. Describe the process of tissue disruption.	I. Definitions/Terminology A. Pathology B. Disease 1. Acute 2. Chronic C. Pathogenesis D. Etiology 1. Trauma 2. Syndrome E. Diagnosis 1. Signs (objective) 2. Symptoms (subjective) F. Prognosis G. Purpose of study H. Manifestations of pathology I. Relevance to radiographic procedures 1. Technical considerations 2. Patient considerations II. Classifications (Definition, Examples, Sites, Complications, Prognosis) A. Mechanical B. Chemical C. Thermal D. Radiation III. Trauma Diagnosis A. Radiologic procedures IV. Causes of Disease (Process, Examples) A. Pathological	Required Text Readings: Comprehensive Radiographic Pathology, Chapter 1, 2 Handouts Merrill's Vol. 1-3 Merrill's Workbook Merrill's Pocket Guide Handouts Merrill's Vol. 1-3

BEHAVIORAL OBJECTIVES	CONTENT	LEARNING OPPORTUNITIES
8. Describe the healing process. 9. Identify complications connected with the repair and replacement of tissue. 10. Identify diseases caused by or contributed to by genetic factors. 11. List and define the systemic classifications of disease. 12. Describe the various systemic classifications of disease in terms of etiology, types, common sites, complications and prognosis. 13. Describe the radiographic appearance of selected diseases. 14. Identify radiologic procedures and interventional techniques appropriate for disease common to each body system.	B. Traumatic C. Surgical D. Healing process E. Complications F. Genetics (caused by or contributed to by genetic factors) 1. Cystic fibrosis 2. Huntington's disease 3. Various cancers 4. Muscular dystrophy 5. Cardiac disease 6. Phenylketonuria (PKU) 7. Sickle-cell anemia 8. Tay-Sachs disease V. Radiologic Pathology (Definitions, Etiology, Examples, Sites, Complications, Prognosis, Radiographic Appearance, Procedural and Technique Considerations) A. Respiratory B. Skeletal and Articular C. Muscular D. Digestive E. Urinary F. Circulatory G. Nervous H. Lymphatic I. Sensory organs J. Endocrine K. Reproductive L. Miscellaneous Disease	Merrill's Workbook Merrill's Pocket Guide Chapter 10 Chapter 2 Chapter 26 Chapter 15 Chapter 16 Chapter 27 Chapter 23 Chapter 27 Chapter 23 Chapter 10 Chapter 17 Chapter 12

Course Description

A capstone course focusing on the synthesis of professional knowledge, skills, and attitudes in preparation for professional employment and lifelong learning. *Credits: 3 SCH*

Course Goals and Objectives

Demonstrate entry level proficiency in knowledge, skills, and attitudes necessary for professional employment; and articulate the need for lifelong learning. **Complete and submit proof of application for ARRT certification by October 22, 2026.**

Fee Schedule (all costs are approximate, PJC does not set fee amounts):

- **ARRT application fee \$225 due October 15th**
- **Fingerprints for TMB \$50.00 after November 14th**
- **Temporary MRT application fee for TMB \$130.00 due November 14th (application fee includes the Jurisprudence exam fee, the Office of Patient Protection fee, and online payment fee)**
- **National Practitioner Data Bank (NPDB) surcharge for TMB \$21.00 due November 14th**
- **Physician Health Program (PHP) surcharge for TMB \$7.00 due November 14th**

How Students Should Set Up an ARRT Online Account

Go to: [https://apps.rrt.org/account-setup/online-account-setup/landing](https://apps.arrt.org/account-setup/online-account-setup/landing)

1. Click on the "Set Up Your ARRT Online Account" link above.
2. Answer the questions on each screen. Then click next.
3. When you finish setting up your account, you'll see a screen explaining next steps.
4. Don't share your account setup link with anyone else. If you have questions, contact your Program Director.

Required Textbook(s) and Materials

1. *Introduction to Radiologic Sciences and Patient Care*, Adler, Carlton, 8th ed. 2023, ISBN: 978-0-323-87220-1
2. *Merrill's Atlas of Radiographic Positions & Radiologic Procedures Volume 1*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3235-6768-8
3. *Merrill's Atlas of Radiographic Positions & Radiologic Procedures Volume 2*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3232-6767-1
4. *Merrill's Atlas of Radiographic Positions & Radiologic Procedures Volume 3*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3232-6766-4
5. *Merrill's Atlas of Radiographic Positioning, & Procedures Workbook*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3235-9704-3
6. *Merrill's Pocket Guide to Radiography*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3236-1213-5.

11. Online Version – Rad Easy Review Course

Program-Level Student Learning Outcomes

Students will be able to perform these outcomes upon completion of the program:

- Students will apply proper positioning skills.
- Student will select appropriate technical factors for digital imaging.
- Students will demonstrate radiation protection.
- Students will demonstrate effective oral communication skills with staff, preceptors, and patients.
- Students will demonstrate effective written communication skills.
- Students will manipulate technical factors for non-routine examinations.
- Students will demonstrate positioning for trauma patients.
- Students will demonstrate professionalism in clinical situations.
- Students will demonstrate exemplary customer service.
- Students will evaluate radiographic images effectively.
- Students will demonstrate critical thinking in trauma situations.

Course-Level Student Learning Outcomes

- Demonstrate entry level proficiency in knowledge, skills, and attitudes necessary for professional employment.
- Articulate the need for lifelong learning.
- Identify career paths.
- Demonstrate writing a resume.
- Demonstrate knowledge of interview process and employer expectations.
- Prepared to take the ARRT registry.
- Demonstrate knowledge of radiation protection, equipment operation and quality control, image production and evaluation, radiographic procedures, and patient care and education.
- Complete and submit proof of application for licensure.

Course Requirements and Evaluation

In order to pass RADR 2235, the student must achieve a final average grade of 75 or higher and complete all objectives:

Assignments/Quizzes	20%
Unit Exams	40%
Mock Exams	30%
Final Exam	10%

The average of the exams (units, mocks, and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the exam average is below 75.0%, the student will receive the grade of “F” for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination. **Missed quizzes cannot be made up and will result in a grade of zero.**

Students who have unsatisfactory progress in coursework, will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades. No extra credit will be offered.

Required Activity

All students must complete the Student Acknowledgment located in the "Start Here" section of Blackboard by 10:00 p.m. by August 31, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Remediation/Success Program

Students who are unable to satisfactorily meet course requirements, course standards, objectives, or score less than 75 on unit exams, 85 on Mock Exam 1, 80 on Mock Exam 2, or 75 cumulative of all mock exams in the course could be referred for remediation. Student resources to support success in the PJC Radiology Technology Program can be accessed on Blackboard or by reaching out to a faculty member.

Mock Exam 1 – If the student scores below an 85 the student will be referred for remediation for the duration of the semester.

Mock Exam 2 (Midsemester) - Students scoring below 80 on the Midsemester Mock exam will not receive a validation signature to schedule the ARRT Registry. At midsemester **all** students will be referred for remediation for the remainder of the semester.

Mock Exam 3 (Final Mock) – Students not receiving the validation signature after Mock Exam 2 will have a final opportunity by achieving an average of 75% on all three mock exams. If the student is unsuccessful they will need to satisfy the post-graduation remediation to obtain validation signature.

Late Work

To promote timely submission of assignments and ensure the orderly progression of the course, late work will be accepted only under the following conditions:

Assignments submitted after the designated due date but before the start of the next scheduled class meeting will be subject to a standard deduction of 20 points from the earned score. Assignments submitted after the beginning of the next class meeting will not be accepted and will receive a grade of zero. Students are encouraged to plan accordingly and communicate with the instructor in advance if circumstances may impact their ability to meet assignment deadlines.

All assigned coursework is considered a required component of the course. Failure to complete assigned coursework may impede a student's ability to successfully complete the program. Additionally, failure to complete required coursework, including assigned remediation activities, constitutes a failure to meet course objectives.

Course Structure and Organization

- Practical work experience in a variety of healthcare settings
- Group activities
- Computer Assisted Instruction
- Audio-visuals
- Oral and Written assignments
- Critical Thinking or problem-solving activities

Class Attendance

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12, 2026.**

Radiology Technology students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of radiology technology:

1. During inclement weather on classroom days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend class/clinicals because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Students missing less than 30 minutes of classroom time during a given day will receive a tardy. Students missing 30 minutes or more will be given an absence. A tardy or absence, such as arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Students who are absent will be required to make up the lab/classroom hours if required.
5. Students missing any time after three (3) absences **per course** per semester are subject to dismissal from the program. Upon return to school, the student must make a request to the Program Director to discuss absences. The student may provide supporting evidence to validate the necessity of the absence.

Procedure for Reporting an Absence or Tardy

When a student must be late or absent from the classroom, that individual must notify the didactic instructor by telephone (call or text message) before the scheduled course begins. When calling, the student should attempt to contact the instructor, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted about the absence, as well as the time. The student should then convey his/her message to the course instructor via telephone (call or text message) with the documented information (name, position, time). Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in a termination from the program.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, **and**
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Class Conduct

Please put away all cell phones, pagers, iPods, AirPods, headphones, recording devices, smart watches, cameras, etc. before entering the classroom/laboratory/clinical site. There will be a designated location in the classroom for those students who bring devices to class. **All devices must be powered "off" to minimize classroom disruptions.** Students may access their devices during break times or in case of an emergency. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Complaint Procedures

Students should address all complaints or concerns with their course instructor **first**. If the issue is not resolved the student should reference the RTP Student Handbook for the official grievance procedure.

Artificial intelligence

Artificial intelligence (AI) tools may be used in this course at the student's discretion. However, in keeping with scholarly and academic integrity standards, AI may not be used to generate written assignments, research content, or sources submitted for credit. Students are responsible for independently verifying the accuracy of any AI-assisted materials used for studying (such as flashcards or study guides), as AI tools are known to produce inaccurate or fabricated information. Submitting AI-generated content as one's own work constitutes academic dishonesty.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, quizzes, assignments, plagiarism, or collusion with others will be referred to the appropriate Division Vice President or the College President for disciplinary action such as dismissal from the college. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester.**

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Technical Support

For any technical difficulties within the course you may reach tech support at techsupport@parisic.edu.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by a Blackboard Announcement and student email. The new syllabus will also be posted within the Blackboard course.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988, help is available on campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

RADR 2367.10A0
Radiologic Practicum VI
Fall 2026

Instructor: Laura Fendley
Office: 1066
Phone: 903-782-0765
Email: lfendley@parisjc.edu
Office Hours: By appointment

Meeting Location: Rm 1101, WTC
Meeting Days: Thursday
Meeting Times: 9:00 am – 10:00 am
Clinical Days: Monday, Tuesday, Wednesday

Course Description:

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Credits: 3 SCH

Required Textbook(s) and Materials:

1. *Introduction to Radiologic Science and Patient Care*, Adler, Carlton, 8th edition, 2023, ISBN: 978-0-323-87220-1
2. *Merrill's Atlas of Radiographic Positions & Radiologic Procedures Volume I*, Frank, Long, Smith, 14th edition, 2018, Mosby-Elsevier, ISBN-13: 978-0-3235-6768-8
3. *Merrill's Atlas of Radiographic Positions & Radiologic Procedures Volume II*, Frank, Long, Smith, 14th edition, 2018, Mosby-Elsevier, ISBN-13: 978-0-3235-6767-1
4. *Merrill's Atlas of Radiographic Positioning, & Procedures Volume III*, Frank, Long, Smith, 14th edition, 2018, Mosby-Elsevier, ISBN: 978-0-3235-6766-4
5. *The Workbook - Merrill's Atlas of Radiographic Positioning, & Procedures*, Frank, Long, Smith, 14th edition, 2018, ISBN: 978-0-3235-9704-3
6. *Principles of Radiologic Imaging: An Art and A Science*, Carlton, Alder, 6th edition, 2019, ISBN: 978-1-337-71106-7
7. *Merrill's Pocket Guide to Radiography*, Frank, Long, Smith, 14th edition, 2018, Mosby-Elsevier, ISBN-13: 978-0-3236-1213-5

Course Goals and Objectives:

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry; and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

Program-Level Student Learning Outcomes:

Students will be able to perform these outcomes upon completion of the program:
Students will apply proper positioning skills.
Student will select appropriate technical factors for digital imaging.
Students will demonstrate radiation protection.
Students will demonstrate effective oral communication skills with staff, preceptors, and patients.
Students will demonstrate effective written communication skills.
Students will manipulate technical factors for non-routine examinations.
Students will demonstrate positioning for trauma patients.
Students will demonstrate professionalism in clinical situations.
Students will demonstrate exemplary customer service.
Students will evaluate radiographic images effectively.
Students will demonstrate critical thinking in trauma situations.

Course-Level Student Learning Outcomes:

1. Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures.
2. Regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry.
3. Demonstrate legal and ethical behavior.
4. Student will demonstrate safety practices.
5. Interpersonal and teamwork skills.
6. Appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.
7. Identify and Apply Radiation Safety and Protection in classroom laboratory and clinical facilities for radiographer, healthcare team, patient, and general public.
8. Obtain multiple modality knowledge through observation in specialty rotation.
9. Demonstrate the ability to provide patient care and assessment, competent performance of radiologic imaging and total quality management.

Course Structure and Organization

- Practical work experience in a variety of healthcare settings
- Group activities
- Computer Assisted Instruction
- Audio-visuals
- Oral and Written assignments
- Critical Thinking or problem-solving activities

Course Requirements and Evaluation:

In order to pass RADR 2367, the student must meet the minimum requirements of the designated competencies in each column in order to receive the competency points and the additional points are based on an average of the clinical instructor's evaluation forms and attendance.

1. Course grade will depend on the number of points in each of the following categories:

Competencies
Patient Care
Professionalism
Knowledge/Skills
Attendance

Points are based on the number of clinical competencies in each column.

	Total 1 st Col.	Total 2 nd Col.	Total 3 rd Col.	=	Points
Competencies:					
(Totals must	>72	>60	>60		49
meet criteria	>70	>58	>56		39
of all columns.)	=>68	=>56	= >52		29
	<68	<56	<52		Fail Semester

Scores based on an average of all clinical instructors' evaluation form:

Patient Care:	20	=	15
(Total scores	16-19	=	13
of section.)	12-15	=	12
	<12	=	0
Professionalism:	25	=	15
(Total scores	20-24	=	13
of section.)	15-19	=	12
	<15	=	0
Knowledge/Skills:	35	=	16

(Total scores of section.)	28-34	=	13
	21-27	=	12
	<21	=	0
Attendance:	0-3 Absences	=	5
	4 Absences	=	4
	5 Absences	=	3

Grading Scale: Depending on number of competencies completed, evaluations, clinical participation, submission of time records, journals, competency trackers, summary logs, and clinical discussions.

The student is responsible for updating their digital clinical log and bringing their Daily Comp Tracker to clinical discussion weekly or competencies will not be accepted for that week. Students are also responsible for verifying competency accuracy in Trajecsyst on a weekly basis; competencies not submitted within 7 days will not be accepted. All failed competencies must be submitted each week or 5 points will be taken off the student's final grade. After the 3rd incident, it may be grounds for dismissal.

Must have journal for clinical discussion weekly and verified time records must be submitted by the last clinical day of each week or 5 points will be deducted per incident from the student's final grade. Journal must have preceptor signature daily, if signature is missing there will be a 5-point deduction from final grade for each occurrence.

During weekly clinical discussions, the student is responsible for bringing the following items: competencies, time record/competency discrepancies/changes, and journals with clinical preceptor's signature. If the student does not have each of the items, including signatures, then five (5) points will be deducted from final grade per occurrence. The weekly clinical discussion will require the student to verbally discuss procedures that they assisted, observed, and performed during the prior week to their classmates for group discussion.

Weekly time logs **MUST** be verified by the first class-day following clinical. Arrival and departure time for each shift **MUST** be logged, including the lunch break. If time records are not accurately logged the student will receive a clinical absence and be required to make up the clinical hours. Abuse of utilizing time exceptions may be grounds for immediate dismissal. Students are allotted three (3) time exceptions per semester. Unapproved time exceptions after the 3rd occurrence will result in a 5-point deduction from the final course grade, per occurrence.

The student's evaluations will be reviewed. Any problems that may have occurred will be discussed during clinical discussion so that the whole group may benefit from the evaluations. Twice a semester the student and instructor will meet to discuss individual evaluations. There will be a clinical discussion weekly, unless notified by instructor.

Students who have unsatisfactory progress in clinical will be given written notification, put on probation, and a plan for remediation will be completed. Continued unsatisfactory progress after remediation may result in dismissal from program.

Evaluations that do not meet minimum requirements are deemed unsatisfactory progress in the course.

To have satisfactory progress, students must have the following by Midsemester:

- Column 1 ≥ 68 competencies
- Column 2 ≥ 56 competencies
- Column 3 ≥ 52 competencies

Attendance:

The last day to withdraw with a "W" is November 12, 2026. Radiology Technology students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of radiology technology:

1. During inclement weather on clinical days, the student must make his/her own decision regarding safety for travel to the clinical facility. A student who decides not to attend clinical because of inclement weather will receive an absence unless official notification by the college has been made that the college is closed.
2. Students missing less than 60 minutes of clinicals during a given day will receive a tardy. Students missing 60 minutes or more will be given an absence. A tardy or absence such arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Students who are absent will be required to make up the lab/clinical hours.
5. Students missing any time after three (3) absences per course per semester are subject to dismissal from the program. Upon return to school, the student must make a request to the Program Director to discuss absences. The student may provide supporting evidence to validate the necessity of the absence.

Daily attendance is critical for the successful completion of this course. All practicum work experience will be made up at the convenience of the facility and the instructor. Withdrawal requests must be initiated by the student. Failure to complete all practicum objectives will result in a grade of "F" in the course.

Procedure for Reporting an Absence or Tardy

When a student must be tardy or absent from the clinical site, that individual must notify the clinical instructor by telephone (phone call ONLY; text messages are NOT acceptable). If the assignment is in a hospital or clinic, the agency must be notified as soon as possible, always **before** the schedule shift begins. When calling, the student should attempt to contact the person in charge, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted about the absence, as well as the time. The student should then convey his/her message to the clinical coordinator via Teams with the documented information (name, position, time, time exception completed).

Failure to comply with the requirements may result in automatic probation. Abuse of these rules (ex: 'no call, no show') may result in immediate dismissal from the program.

Clinical/Class Conduct:

Put away all cell phones, pagers, iPods, headphones, recording devices, smart watches, cameras, laptops and/or other electronic devices before entering the clinical site. There will be a designated location in the classroom for students who bring devices to class. **All devices must be powered "off" to minimize classroom disruptions.** Students may access their devices during break times or in case of an emergency (instructor notification required). **Cell phones, laptops, iPads, and/or other recording or smart devices are not allowed in the clinical areas at any time.** Students needing to check devices or make phone calls must do so at designated break times. The student must notify the Clinical Instructor and leave the department to check cell phones and/or smart devices. No obscene/vulgar language will be permitted in the classroom/laboratory/clinical site. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Artificial intelligence

Artificial intelligence (AI) tools may be used in this course at the student's discretion. However, in keeping with scholarly and academic integrity standards, AI may not be used to generate written assignments, research content, or sources submitted for credit. Students are responsible for independently verifying the accuracy of any AI-assisted materials used for studying (such as flashcards or study guides), as AI tools are known to produce inaccurate or fabricated information. Submitting AI-generated content as one's own work constitutes academic dishonesty.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, quizzes, assignments, plagiarism, or collusion with others will be referred to the appropriate Division Vice President or the College President for disciplinary action such as dismissal from the college. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester.**

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Technical Support

For any technical difficulties within the course you may reach tech support at techsupport@parisjc.edu.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by a Blackboard Announcement and student email. The new syllabus will also be posted within the Blackboard course.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

RBTC 1305.10C0
Fundamentals of Robotics
Fall 2026 – 2nd Flex

Instructor: Jeff Frankland
Office: 1111B
Phone: 903-457-8737
Email: jfrankland@parisjc.edu

Location: Paris, Workforce Center 1111
Meeting Days: Mon & Wed
Meeting Times: 5:00pm – 8:30pm
Office Hours: See Door Schedule

Course Description:

Robotics Fundamentals course is an introduction to flexible automation. Topics include installation, repair, maintenance, and development of flexible robotic manufacturing systems.

Credits: 3 SCH

Prerequisite(s): None

TSI Requirement: N/A

Required Textbook(s) and Materials:

All text/written materials will be provided

Course Goals and Objectives:

1. Describe/define a robot, describe advantages, components, and safety aspects.
2. Describe and identify axes, jogging, & teaching pendants.
3. Describe and identify components and homing functionality
4. Describe, identify and operate end effectors.
5. Develop and operate a robot program

Course Requirements and Evaluation:

Grading:

25%: Test Average (2 Major Tests)
50%: Lab (Skills) Participation/Self Reviews
25%: Final Exam

Grading Scale:

90 – 100 = "A"
80 – 89 = "B"
70 – 79 = "C"
60 – 69 = "D"

Self-Reviews due at end of each Segment

Required Activity:

Reference the IT Checklist and work through it before the next class.

<https://www.parisjc.edu/technology/pjc-it-checklist.php>

The checklist covers everything students need to be ready on day one. **Important:** PJC has now enforced multi-factor authentication (MFA) for all student accounts. If you have not set it up, you will be forced to. This is covered in the checklist above.

Please send all IT requests to techsupport@parisjc.edu

Emailing techsupport@parisjc.edu automatically creates a ticket, which lets IT track every request and prioritize appropriately.

Course Policies:

Make up labs will not be scheduled for any module(s) that are over 3 weeks past due. Scheduling of make up labs are the responsibility of the student. Requests for make up labs will need to include more than one student if there are others that desire make ups.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Nov.24th**.

Class Conduct:

No open drinks, cans, bottles, or mugs in the classroom. All drinks must be in a spill proof container. Food will be permitted at the student's desk and not anywhere near mechatronics equipment. – If there is a Lunch break during your course, it is up to the instructors discretion to change or amend these rules.

Please turn off or silence and put away all cell phones, laptops, tablets, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through student email and/or Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

***Mental health conditions are common and treatable. Suicide is preventable.***

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
1. Week of 10/19	Intro to Course, Material, and process	Assigned readings
2. Week of 10/26	Prep work area, Commission Equipment	Assigned readings
3. Week of 11/2	LAP 1 Seg.1 Power up & Shutdown Seg. 2 Manual Operation	Segment 1 and 2 lab book
4. Week of 11/9	LAP 1 Seg. 3 Homing Seg. 4 End Effector Operation	Segment 3 and 4 lab book LAP 1 TEST
5. Week of 11/16	LAP 2 Seg. 1 Teaching Points	Segment 1 lab book
6. Week of 11/23	LAP 2 Seg. 2 Basic Programming Seg. 3 Movement & End Effector Commands	Segment 2 & 3 lab book LAP 2 TEST <i>Holiday W-F</i>
7. Week of 11/30	Special Projects	Lab design provided
8. Week of 12/7	FINAL EXAM	

RBTC-1305.40C0
Fundamentals of Robotics
Fall 2026 – 2nd Flex

Instructor: Mrs. Sanchez
Office: A115
Phone: 903-457-8737
Email: isanchezhaynes@parisjc.edu

Location: Greenville, Workforce Building A113
Meeting Days: Tuesdays & Thursdays
Meeting Times: 1:00pm-4:30pm
Office Hours: See Door Schedule

Course Description:

Robotics Fundamentals course is an introduction to flexible automation. Topics include installation, repair, maintenance, and development of flexible robotic manufacturing systems.

Credits: 3 SCH

Prerequisite(s): N/A

TSI Requirement: N/A

Required Textbook(s) and Materials:

All text/written materials will be provided

Course Goals and Objectives:

1. Describe/define a robot, describe advantages, components, and safety aspects.
2. Describe and identify axes, jogging, & teaching pendants.
3. Describe and identify components and homing functionality
4. Describe, identify and operate end effectors.
5. Develop and operate a robot program

Course Requirements and Evaluation:

There will be online quizzes, module assessments, skill assessments, and 2 exams.

Course grade will be computed as follows:

Grading:

50%: Labs

25%: Assessments

25%: Exams

Grading Scale:

90 – 100 is an "A"

80 – 89 is a "B"

70 – 79 is a "C"

60 – 69 is a "D"

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Make up labs will not be scheduled for any module(s) that are over 2 weeks past due. Scheduling of make-up labs are the responsibility of the student.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24th**.

Class Conduct:

No open drinks, cans, bottles, or mugs in the classroom. All drinks must be in a spill proof container. Food will be permitted at the student's desk and not anywhere near mechatronics equipment. – If there is a Lunch break during your course, it is up to the instructors discretion to change or amend these rules.

Please turn off or silence and put away all cell phones, laptops, tablets, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course # RNSG 1218
Course Title: Transit to Professional Nursing
Semester and Year: Fall 2026

Instructor (Lead): Kimberly Vice, MSN-Ed, RN **Meeting Location:** See calendar/Blackboard
Office: 1036 **Meeting Days:** To be announced
Phone: 903-782-0730 **Meeting Times:** To be announced
Email: kvice@parisjc.edu
Office Hours: Monday/Thursday 7:30AM-4:00PM, Tuesday/Wednesday 07:30AM-4:30PM

Course Faculty:

Kelly Merritt, MSN, APRN, FNP-C
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0766
Office: 1032
Email: kmerritt@parisjc.edu

Ashley Moss, MSN, RN
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0746
Office: 1038
Email: amoss@parisjc.edu

Kelli Rial, MSN, RN, CNEcl
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0751
Office: 1042
Email: krial@parisjc.edu

Rebecca Scott, MSN, RN, CCRN
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0246
Office: 1044
Email: rscott@parisjc.edu

Director of Nursing:

Dwana Hollidai, MBA, BSN, BS, RN
Office Phone: 903-782-0758
Office: 1008
Email: dhollidai@parisjc.edu

Assistant Director of Nursing:

Brad Bolton, BSN, RN, EMT-P
Office Phone: 903-782-0754
Office: 1004
Email: bbolton@parisjc.edu

Course Description:

Transition to professional nursing competencies in the care of patients throughout the lifespan. Validates proficiency in psychomotor skills and clinical reasoning in the performance of nursing procedures related to the concepts of: clinical judgment, comfort, elimination, fluid and electrolytes, nutrition, gas exchange, safety, functional ability, immunity, metabolism, mobility, and tissue integrity. Includes health assessment and medication administration. This course lends itself to a concept-based approach.

2 Semester credit hours, 1, Didactic hour, 3 Lab/clinical hours

Co-requisites include: RNSG 1324, RNSG 1226, and RNSG 2160

Students must be TSI compliant in Math/Reading/Writing before degree conferral.

Required Textbook(s) and Materials:**Required Fall 2026:**

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 9781975221133

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 9781975246211

Lippincott CoursePoint+ for Videbeck: Psychiatric-Mental Health Nursing, 10th Edition

Spring 2027:

No additional textbooks required for Spring

Summer 2027:

No additional textbooks required for Summer

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-RN, (9th ed.), Elsevier-Saunders, ISBN: 9780323795307

PJC Help Desk:

techsupport@parisjc.edu

903.782.0496

PJC IT Checklist: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Course Goals and Objectives:

Course Outcomes:

1. Apply concepts and principles necessary for the performance of professional nursing skills across the lifespan. (EPSLO #1,2,3,4)
2. Demonstrate clinical reasoning and clinical judgement in the performance of professional nursing skills. (EPSLO #1,2,3,4)
3. Perform a comprehensive head to toe and focused health assessment. (EPSLO #1,2,5,7)
4. Demonstrate proficiency in safe medication administration. (EPSLO #1,2,4)

End-of-Program Student Learning Outcomes:

1. Provide safe, compassionate, and patient-centered nursing care to individuals, families, and communities across the lifespan, incorporating cultural, developmental, and ethical considerations.
2. Apply clinical judgment and clinical reasoning to assess, plan, implement, and evaluate nursing care that promotes optimal patient outcomes in a variety of healthcare settings.
3. Integrate evidence-based practice, clinical guidelines, and nursing standards into decision-making to deliver high-quality, effective nursing care.
4. Demonstrate professional integrity, ethical practice, accountability, and legal compliance consistent with the role of the entry-level professional nurse.
5. Communicate and collaborate effectively with patients, families, and interprofessional healthcare team members to support coordinated, patient-centered care.
6. Promote health, wellness, and disease prevention through patient education, advocacy, and community-based care that supports the well-being of diverse populations.
7. Use healthcare technology and informatics to accurately document, manage, and communicate patient information in support of safe and efficient care delivery.

Course Requirements and Evaluation:

Content/Concepts:

- Infection Control/Personal Protective Equipment (PPE)
- Aseptic/Sterile Technique
- Health Assessment (Head-to-toe and Focused)
- Dosage Calculations
- Medication Administration
- Intravenous (IV) Assess Insertion/Removal and Management IV Therapy
- Central Line Dressing Change
- Foley Catheter Insertion/Removal and Management
- Wound Care
- Oxygen Administration Methods

Course Components:

- **Dosage Calculation Math Competency Exam**

You will take a medication dosage calculation exam. The exam will consist of ten (10) calculation questions. You will have three (3) attempts to take the exam, in which you must make a 100%. Not scoring a 100% by the third attempt will result in failure of the course and a withdrawal of all RNSG courses. Your grade will decrease on each attempt. Students must score 100% on the Math Exam by the third attempt in order to administer medications at clinical. Students are responsible for scheduling tutoring/remediation with Mr. Bolton.

Math Exam Grading Scale:

Attempt to reach 100	Recorded Grade
1	100
2	88
3	75

- **ATI Skills Modules 4.0**

Students will complete the assigned skills modules in ATI (see list below). The students must complete the designated amount of time reviewing module content listed prior to lab and the post-test after lab. See Blackboard/Calendar for due dates. If the assigned module is not reviewed prior to lab, a Standard Deduction will be applied and completion of the assignment will remain a requirement to receive course credit.

- **Assessment** – Review all sections of the module except the Maternal Newborn section. A minimum of 60 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.
- **Elimination** – Review Urinary Elimination and Client Chart: Urinary Elimination sections only. A minimum of 45 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.
- **Fluid, Electrolyte, and Acid-Base Regulation** – Review all sections of the module except the Blood Administration, Client Chart: Blood Administration, and Virtual Application: Blood Transfusion. A minimum of 60 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.
- **Gas Exchange and Oxygenation** - Review Oxygen Therapy and Client Chart: Oxygen Therapy sections only. A minimum of 45 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.
- **Infection Control** – Review all sections of the module. A minimum of 60 minutes logged time is required reviewing module content prior to lab. The post-test will be

located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.

- **Medication Administration** – Review all sections of the module. A minimum of 60 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.
- **Tissue Integrity** - Review all sections of the module. A minimum of 60 minutes logged time is required reviewing module content prior to lab. The post-test will be located in My ATI – Assessments. Refer to Blackboard/Calendar for additional instructions and due dates.

- **Clinical Skills Competency Validation**

Students will be expected to demonstrate competency in the clinical skills listed below using lab equipment during lab time. Instructors will observe and evaluate student performance to verify competency with grade of complete or incomplete. If areas for improvement are identified, students may be provided with instructor-led remediation and given opportunities to further develop proficiency at student request. Refer to Blackboard for additional instructions/information. Practice is required and must be completed within scheduled class/lab time. Individual practice outside of scheduled class/lab times is available by appointment only. Students are expected to demonstrate good stewardship of all supplies, which may include repackaging items for continued use. Students are required to bring their individual copy of the Paris Junior College Nursing Skills Notebook to the scheduled lab time for completion as skills competency verified.

- Intravenous (IV) Therapy (Priming IV tubing, IVP, IVPB)
- IM/SQ Injection
- Foley Catheter Insertion/Removal
- PPE
- Wound Care

- **Simulation**

Students will participate in a formative simulation based learning experience, utilizing the nursing process. Student will take part in the simulation with accuracy, professionalism, safety and skillfulness in complete care.

- **Clinical Skills Check-Offs**

- **Head-To-Toe Assessment Skills Check-Off**

Students will complete a skills check-off to show safety and competency in head-to-toe assessment. This skills check-off will be done in the lab, and the skills will be performed using lab equipment. Students will have three attempts to demonstrate competency and safety with head-to-toe assessment and will be offered instructor-led remediation between attempts upon student request. Third attempts at skills will be evaluated by two instructors. Failure to pass by the third attempt for this skill will result in failure of this course. Refer to Blackboard for additional instructions/information under “Clinical Skills Check-offs”.

Head-To-Toe Assessment Check-off Grading Scale:

Pass on 1st Attempt=100

Pass on 2nd Attempt=88

Pass on 3rd Attempt=75

*Not passing on the 3rd attempt will result in failure of the course. Remediation is available upon request between each attempt. *

➤ Medication Administration Procedure Skills Check-Off

Students will complete a skills check-off to show safety and competency in medication administration of oral (PO) medication route. This skills check-off will be done in the lab, and the skills will be performed using lab equipment. Students will have three attempts to demonstrate competency and safety with medication administration and will be offered instructor-led remediation between attempts upon student request. Third attempts at skills will be evaluated by two instructors. Failure to pass by the third attempt for this skill will result in failure of this course. Refer to Blackboard for additional instructions/information under “Clinical Skills Check-offs”.

Medication Administration Check-off Grading Scale:

Pass on 1st Attempt=100

Pass on 2nd Attempt=88

Pass on 3rd Attempt=75

*Not passing on the 3rd attempt will result in failure of the course. Remediation is available upon request between each attempt. *

➤ Insertion/Removal Intravenous Catheter Skills Check-Off

Students will complete a skills check-off to show safety and competency in insertion/removal intravenous catheter. This skills check-off will be done in the lab, and the skills will be performed using lab equipment. Students will have three attempts to demonstrate competency and safety with medication administration and will be offered instructor-led remediation between attempts upon student request. Third attempts at skills will be evaluated by two instructors. Failure to pass by the third attempt for this skill will result in failure of this course. Refer to Blackboard for additional instructions/information under “Clinical Skills Check-offs”.

Insertion/Removal Intravenous Catheter Check-off Grading Scale:

Pass on 1st Attempt=100

Pass on 2nd Attempt=88

Pass on 3rd Attempt=75

*Not passing on the 3rd attempt will result in failure of the course. Remediation is available upon request between each attempt. *

➤ Central Line Dressing Change Skills Check-Off

Students will complete a skills check-off to show safety and competency in central line dressing change. This skills check-off will be done in the lab, and the skills will be performed using lab equipment. Students will have three attempts to demonstrate competency and safety with medication administration and will be offered instructor-led remediation between attempts upon student request. Third attempts at skills will be evaluated by two instructors. Failure to pass by the third attempt for this skill will result in

failure of this course. Refer to Blackboard for additional instructions/information under “Clinical Skills Check-offs”.

Central Line Dressing Change Check-off Grading Scale:

Pass on 1st Attempt=100

Pass on 2nd Attempt=88

Pass on 3rd Attempt=75

*Not passing on the 3rd attempt will result in failure of the course. Remediation is available upon request between each attempt. *

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 8, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Evaluation will be based on techniques designed to determine if course objectives are met. These measures include:

Course Components	Percentage
Dosage Calculation Math Competency Exam	15%
ATI Modules (see Course Components section of syllabus for assignment details) • Assessment (5%) • Elimination (5%) • Fluid, Electrolyte, and Acid-Base Regulation (5%) • Gas Exchange and Oxygenation (5%) • Infection Control (5%) • Medication Administration (5%) • Tissue Integrity (5%)	35%
Clinical Skills Competency Validation • Intravenous (IV) Therapy (Priming IV tubing, IVP, IVPB) • IM/SQ Injection • Foley Catheter Insertion/Removal • PPE • Wound Care	Complete/Incomplete
Simulation	Complete/Incomplete
Clinical Skills Check-Off • Head-To-Toe Assessment (12.5%) • Medication Administration Procedure (12.5%) • Insertion/Removal Intravenous Catheter (12.5%) • Central Line Dressing Change (12.5%)	50%
Overall Total	100%

ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE

Grading Scale

A = 89.5-100
B = 80.5-89.49
C = 74.5-80.49
D = 69.5-74.49
F = 69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. Late assignments must still be completed, but after the three days, a zero will be placed into the gradebook.

For example: If an assignment is due at 0830 Monday morning, at 0831 it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0900 it is now a 20-point deduction.

A standard deduction will be applied for failure to bring required equipment and/or paperwork to class/lab. (Stethoscope, penlight, Paris Junior College Nursing Skills Notebook form, lab supply kit)

This course must be taken as a co-requisite to RNSG 1226, RNSG 1324 and RNSG 22160. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. Refer to blackboard assignments for instructions on which format to use.

No extra credit will be offered.

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result is completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the "five-up" rule allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Remediation/Success Program

Students who are unable to satisfactorily meet course requirements, course standards, objectives, such as failure of a skill check-off, may be referred for remediation. Students can self-refer or be referred by faculty for reasons other than unsatisfactory scores to enhance student success in the program.

Official Student Email Policy and Communication Expectations:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Voice and email communication will be acknowledged by assigned faculty within 36 hours during their designated office hours. Students are expected to acknowledge voice and email communication within 36 hours of receipt.

General announcements that apply to the entire class will be uploaded in Blackboard. The same expectation applies to reading Blackboard announcements as applies to reading PJC emails. Paris Junior College Nursing Faculty office hours are on non-clinical days. Appointments are recommended with assigned faculty.

Course specific questions and/or concerns may be directed to the course lead. Utilizing the chain of command, any unresolved issues can be addressed with the Assistant Director of Nursing, then the Director of Nursing.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *November 12, 2026*.

Attendance related definitions:

1. Tardy= Arriving to or leaving class/clinical/lab/simulation 30 minutes or less
2. Absence= Arriving or leaving class/clinical/lab/simulation 30 minutes or more

Students arriving more than 30 minutes late will not be allowed to attend the lab day and will be required to make up the hours.

If unable to attend lab/sim, notify faculty (Ms. Vice) prior to the scheduled lab or sim via faculty email.

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 RN cohort blackboard page.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Detailed Description of Standards:

Students are evaluated for adherence to the Detailed Standards each specialty clinical and classroom/lab day. Points are deducted for failure to adhere to Clinical Standards. Points deducted are cumulative and will be deducted from the overall RNSG 1218 course grade. Detailed Description of Standards can be found in Blackboard under Detailed Standards in the Nursing Handbook. A student may be subject to immediate point deduction and/or disciplinary action for violation of the Detailed Description of Standards.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Blackboard

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8/25/26	Medication Administration Skills Lab (IV Priming, IMPB, IM/SQ, IVP)	ATI Skill Module 4.0 Medication Administration Prework
8/27/26	Medication Administration; Dosage Calculations	ATI Assessment – Skills: Medication Administration Post-Test; Math Lecture
8/31/26 & 9/1/26	IV insertion/removal, Central line dressing change, Medication Administration	Fluid, Electrolyte Acid Base Regulation Prework
9/3/26	Fluid, Electrolyte Acid Base Regulation; Dosage Calculations	ATI Assessment- Skills: Fluid Electrolyte Acid Base Regulation Post-Test; Math Lecture
9/8/26	Assessment	ATI Skills Module 4.0 Assessment Prework
9/10/26	Assessment; Dosage Calculations	ATI Assessment- Skills: Assessment Post-Test; Math Lecture
9/14/26 & 9/15/26	Foley, Wound Care, PPE, Oxygen Methods	ATI Skills Module 4.0 Elimination Prework
9/17/26	Elimination	ATI Assessment- Skills: Elimination Post-Test; Math Exam 1
9/21/26 & 9/22/26	Check-Offs	ATI Skills Module 4.0 Infection control Prework
9/24/26	Infection control	ATI Assessment- Skills: Infection control Post-Test; Math Exam 2

9/28/26 & 9/29/26	Skills Lab Practice	ATI Skills Module 4.0 Gas exchange and Oxygenation Prework
10/1/26	Gas exchange and oxygenation	ATI Assessment- Skills: Gas exchange and oxygenation Post-Test; Math Exam 3
10/5/26 & 10/6/26	Check-Offs	ATI Skills Module 4.0 Tissue Integrity Prework
10/8/26	Tissue Integrity	ATI Assessment -Skills: Tissue Integrity Post-Test
10/12/26 & 10/13/26	Check-Offs attempt 2	None
10/19/26 & 10/20/26	Simulation	None
10/21/26	Check-Offs attempt 3	None

RNSG 1324
Concept-Based Transition to Professional Nursing Practice
Fall 2026

Instructor: Rebcca Scott MSN, RN
Office: WTC 1044
Phone: 903-782-0246
Email: rscott@parisjc.edu
Office Hours: Wednesday 0730-1700

Meeting Location: WTC 1016
Meeting Days: Thursday
Meeting Times: 0800 AM – 3:00PM

See door schedule for additional
hours

Course Description:

Integration of previous health care knowledge and skills into the role development of the professional nurse as a provider of patient-centered care, patient safety advocate, member of health care team, and member of the profession. Emphasis is on clinical decision-making for patients and their families. Review of selected health care and professional nursing concepts with application through exemplars. Health care concepts include comfort, diversity, elimination, functional ability, human development, mobility, nutrition, sensory perception, sleep, coping, thermoregulation, tissue integrity, acid-base balance, clotting, cognition, fluid and electrolyte balance, gas exchange, immunity, metabolism, nutrition, grief, and perfusion. Professional nursing concepts include clinical judgment, communication, ethical-legal, evidence-based practice, health promotion, health information technology, patient-centered care, patient education, professionalism, safety, teamwork and collaboration. Introduces concepts of leadership and management.

3 Semester credit hours, 2 Didactic hours, 4 Laboratory hours

Co-requisites include: RNSG: 1218, RNSG 1226, RNSG 2160

TSI Compliant in Math, Reading and Writing required for degree conferral.

Required Textbook(s) and Materials:

Fall 2026:

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 9781975274429

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 9781975246112

Lippincott CoursePoint+ for Videbeck: Psychiatric-Mental Health Nursing, 10th ed. ISBN: 9781975274771

Spring 2027:

No additional textbooks required for Spring

Summer 2027:

No additional textbooks required for Summer

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-RN, (9th ed.), Elsevier-Saunders, ISBN: 9780323795307

Curren, A.M., (2020) Dimensional Analysis for Meds, (any edition), Delmar Cengage Learning. ISBN: 9781284248623

Course Goals and Objectives:**Course Outcomes:**

- Utilize a systematic process to analyze selected health care concepts to manage care for patients across the lifespan. (EPSLO 1)
- Describe the interrelatedness among health care concepts to assist in developing clinical judgement. (EPSLO 2,3)
- Describe the attributes and roles of the professional nurse including leadership, management, and principles of delegation. (EPSLO 4)
- Apply clinical reasoning processes for the development of clinical judgement. (EPSLO 2)
- Discuss the legal-ethical exemplars for professional nursing practice. (EPSLO 4)
- Utilize professional communication techniques in providing patient-centered care and collaborating with members of the health care team. (EPSLO 5)
- Identify health promotion needs for patients across the lifespan. (EPSLO 1,6)

End- of-Program Student Learning Outcomes:

1. Provide safe, compassionate, and patient-centered nursing care to individuals, families, and communities across the lifespan, incorporating cultural, developmental, and ethical considerations.
2. Apply clinical judgment and clinical reasoning to assess, plan, implement, and evaluate nursing care that promotes optimal patient outcomes in a variety of healthcare settings.
3. Integrate evidence-based practice, clinical guidelines, and nursing standards into decision-making to deliver high-quality, effective nursing care.

4. Demonstrate professional integrity, ethical practice, accountability, and legal compliance consistent with the role of the entry-level professional nurse.
5. Communicate and collaborate effectively with patients, families, and interprofessional healthcare team members to support coordinated, patient-centered care.
6. Promote health, wellness, and disease prevention through patient education, advocacy, and community-based care that supports the well-being of diverse populations.
7. Use healthcare technology and informatics to accurately document, manage, and communicate patient information in support of safe and efficient care delivery.

Course Requirements and Evaluation:

Content/Concepts:

Unit 1 Role Transition / Foundational Concepts of Nursing Practice

Unit 2 Fluid and Electrolyte Acid Base Balance / Homeostasis

Unit 3 Gastrointestinal / Digestion and Bowel Elimination

Unit 4 Skin and Nutrition / Tissue Integrity and Nutrition

Unit 5 Respiratory / Gas Exchange

Evaluation will be based on techniques designed to determine if course objectives are met.

These measures include:

Course Components	Percentage
Exams:	
Four (5)-unit exams and one (1) comprehensive final	80
ATI Fundamentals exams	5
ATI Nutrition exam	5
Assignments:	
Five (5) Prep-U	5
Five (5) ATI Modules	5

ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE

Grading Scale

A = 89.5-100

B = 80.5-89.49

C = 74.5-80.49

D = 69.5-74.49

F = 69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. After three days, a zero will be placed in the gradebook, but the assignment must still be completed.

For example: If an assignment is due at 0830 Monday morning, at 0831, it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0831 it is now a 20-point deduction.

This course must be taken as a co-requisite to RNSG 1218, RNSG 1226, and RNSG 2160. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. Refer to blackboard assignments for instructions on which format to use.

No extra credit will be offered.

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result are completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the "five-up" rule, allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Remediation/Success Program:

Students who are unable to satisfactorily meet course requirements, course standards, objectives, such as failure of a skill check-off, may be referred for remediation. Students can self-refer or be referred by faculty for reasons other than unsatisfactory scores to enhance student success in the program.

Course Components:

- **Unit Exams**

Five (5) Unit exams and one (1) comprehensive final will consist of questions divided among the lecture content as determined by the faculty. Each question is allotted 1.5 minutes of test time. Refer to the course calendar for dates and times.

Items for Exam Days: Recommend laptop and Pen/Pencil.

Missed Exams

Makeup Exams: In the event that a student is unable to take an exam on the scheduled date, a makeup exam may be offered at the faculty's discretion and must be taken within the week upon their return to class. **However, please note that up to 25% of the test items may be changed to alternate format items, which may include fill-in-the-blank, NextGen case studies, and essay questions.** The faculty will determine date, time, place, and type of make-up exam.

Exam Review

Test reviews will be conducted after all students have completed the exam and item analysis has been completed. Students may request a one-on-one with instructors to review exams.

- **ATI Fundamentals**

RN Fundamentals 2026 Practice Assessment 5 points	
Complete Practice Assessment A	Complete Practice Assessment B
All above components must be completed to receive a total of 5 points. No partial credit will be awarded. One point per day will be deducted up to three days. After three days no points will be awarded.	

****Fundamentals Proctored Assessment**

Level 3 = 5 points	Level 2 = 4 points	Level 1 = 3 points	Below Level 1 = 2 points
**Fundamentals Proctored Assessment may be retaken with the higher of the two levels achieved factoring into the points. No partial credit will be awarded.			
10/10 points = 100	9/10 points = 90	8/10 points = 80	7/10 points = 70

It is highly recommended to complete the *focus review* and *post study quiz* for practice A, practice B, and the *proctored assessment*. Depending on your score, you may not be assigned a *post study quiz*.

- **ATI Nutrition**

• RN Nutrition 2026 Assessment • 5 points	
Complete Practice Assessment A	Complete Practice Assessment B
All above components must be completed to receive a total of 5 points. No partial credit will be awarded. One point per day will be deducted up to three days. After three days no points will be awarded.	

**Nutrition Proctored Assessment			
Level 3 = 5 points	Level 2 = 4 points	Level 1 = 3 points	Below Level 1 = 2 points
**Nutrition Proctored Assessment may be retaken with the higher of the two levels achieved factoring into the points. No partial credit will be awarded.			
10/10 points = 100	9/10 points = 90	8/10 points = 80	7/10 points = 70

It is highly recommended to complete the *focus review* and *post study quiz* for practice A, practice B, and the *proctored assessment*. Depending on your score, you may not be assigned a *post study quiz*.

- **Prep-U's**

Five (5) Prep-U mastery level quizzes have been assigned. All quizzes have been set to a mastery level of 6. You must reach the mastery level of 6 by the due date to receive credit. Assignments with a mastery level of 6 may be submitted up to three days late with a ten-point deduction per day. After three days, a zero will be placed in the gradebook, but the assignment must still be completed. No partial credit will be given.

Students will need to join the course in "the Point" found under *Hinkle and Cheever: Textbook of Medical Surgical Nursing*. Enter class code 245MIA26JWZ

Students will need to join the course in "the Point" found under *Ricci, Kyle & Carman, Maternity and Pediatric Nursing*. Enter class code: 245MVM71U3Z

Students will need to join the course in "the Point" found under *Videbeck: Psychiatric-Mental Health Nursing Tenth edition*. Enter class code: 245MS4G37T

- **ATI Modules**

Five (5) ATI Modules have been assigned. These modules are to be completed prior to the lecture content that will be covered for each unit. They must be completed by the due dates found in your course calendar. The first attempt grade from each module's test will be posted in the grade book. Assignments may be submitted up to three days late with a ten-point deduction per day. After three days, a zero will be placed in the gradebook, but the assignment must still be completed. No partial credit will be given.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. September 8, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Faculty Office Hours and Communication Expectations:

Paris Junior College Nursing Faculty office hours are on non-clinical days. Appointments are recommended with assigned faculty.

Voice and email communication will be acknowledged by assigned faculty within 36 hours during their designated office hours. Students should acknowledge voice and email communication within 36 hours of receipt.

PJC Dragon email is the official form of written communication between a faculty member and a student. Class wide announcements are uploaded in Blackboard. Course specific questions and/or concerns may be directed to the course lead. Utilizing the chain of command, any unresolved issues can be addressed with the Assistant Director of Nursing, then the Director of Nursing.

Additional Course Faculty:

Kelly Merritt, MSN, APRN, FNP-C
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0766
Office: 1032
Email: kmerritt@parisjc.edu

Ashley Moss, MSN, RN

Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0746
Office: 1038
Email: amoss@parisjc.edu

Kelli Rial, MSN, RN, CNEcl
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0751
Office: 1042
Email: krial@parisjc.edu

Kimberly Vice, MSN-ed, RN
Instructor: Classroom/Simulation
Office Phone Number: 903-782-0730
Office 1036
Email: kvice@parisjc.edu

Director of Nursing:

Dwana Hollidai, MBA, BSN, BS, RN
Office Phone: 903-782-0758
Office:1008
Email: dhollidai@parisjc.edu

Assistant Director of Nursing

Brad Bolton, BSN, RN, EMT-P
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0754
Office:1004
Email: bbolton@parisjc.edu

Class Attendance:

Regular attendance is mandatory for success in the Associate Nursing Program.

Attendance related definitions:

1. Tardy = Arriving to or leaving class/clinical 30 minutes or less
2. Absence = Arriving or leaving class/clinical 30 minutes or more

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 ADN cohort blackboard page.

Withdrawal from a course:

The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):

Tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal,

State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below:
Class announcement and student Email

PJC IT Checklist:

Please review checklist prior to first day of lecture and set up multi-factor authentication(MFA)
<https://www.parisjc.edu/technology/pjc-it-checklist.php>

PJC Help Desk:

techsupport@parisjc.edu

Fall 2026

Instructor: Kelly Merritt, MSN, APRN, FNP-C

Office: WTC 1032

Phone: 903-782-0766

Email: kmerritt@parisjc.edu

Office Hours: Wednesday 0800-1700. See door schedule for additional office availability.

Meeting Location: Clinical Sites

Meeting Days: To be announced

Meeting Times: To be announced

Course Description:

A health-related work-based learning experience enabling the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This course lends itself to a concept-based approach.

1 semester credit hour, 0 Didactic, 6 Clinical hours

Co-requisites include: RNSG 1218, RNSG 1226, and RNSG 1324.

TSI Compliant in Math, Reading and Writing required for degree conferral.

Required Textbook(s) and Materials:

Fall 2026:

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 9781975221133

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 9781975246211

Lippincott CoursePoint+ for Videbeck: Psychiatric-Mental Health Nursing, 10th ed. ISBN: 9781975274771

Nursing Central (n.d.). Nursing central clinical and drug resource. Nursing Central. Digital Resource.

Spring 2027:

No additional textbooks required for Spring

Summer 2027:

No additional textbooks required for Summer

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-RN, (9th ed.), Elsevier-Saunders, ISBN: 9780323795307

Curren, A.M., (2020) Dimensional Analysis for Meds, (any edition), Delmar Cengage Learning.

ISBN: 9781284248623

Course Goals and Objectives:**Course Student Learning Outcomes:**

- As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry. (EPSLO #1,2,3,4,7)
- Will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and business/industry. (EPSLO #1,4,5,6,7)

End-of-Program Student Learning Outcomes:

1. Provide safe, compassionate, and patient-centered nursing care to individuals, families, and communities across the lifespan, incorporating cultural, developmental, and ethical considerations.
2. Apply clinical judgment and clinical reasoning to assess, plan, implement, and evaluate nursing care that promotes optimal patient outcomes in a variety of healthcare settings.
3. Integrate evidence-based practice, clinical guidelines, and nursing standards into decision-making to deliver high-quality, effective nursing care.
4. Demonstrate professional integrity, ethical practice, accountability, and legal compliance consistent with the role of the entry-level professional nurse.
5. Communicate and collaborate effectively with patients, families, and interprofessional healthcare team members to support coordinated, patient-centered care.
6. Promote health, wellness, and disease prevention through patient education, advocacy, and community-based care that supports the well-being of diverse populations.
7. Use healthcare technology and informatics to accurately document, manage, and communicate patient information in support of safe and efficient care delivery.

Course Requirements and Evaluation:

Evaluation will be based on techniques designed to determine if course objectives are met.

These measures include:

Course Components	Percentage
Total Patient Care Reflections/Evaluations (1 packet per patient during TPC days)	80
Specialty Area Clinical Reflections	20

ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE

Grading Scale

A = 89.5-100
B = 80.5-89.49
C = 74.5-80.49
D = 69.5-74.49
F = 69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. After three days, a zero will be placed in the gradebook, but the assignment must still be completed.

For example: If an assignment is due at 0830 Monday morning, at 0831, it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0831 it is now a 20-point deduction.

This course must be taken as a co-requisite to RNSG 1218, RNSG 1226, and RNSG 1324. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. If the student is absent the day an assignment is due, it must be submitted in Blackboard to receive full points. Refer to Blackboard assignments for instructions on which format to use.

NO EXTRA CREDIT WILL BE OFFERED.

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result are completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the “five-up” rule, allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Remediation/Success Program

Students who are unable to satisfactorily meet course requirements, course standards, objectives, such as failure of a skill check-off, may be referred for remediation. Students can self-refer or be referred by faculty for reasons other than unsatisfactory scores to enhance student success in the program.

Course Components:

- **Total Patient Care (TPC) Clinical Reflections Packet/Evaluation**

The student will complete one TPC packet for each patient assigned on their TPC day. Students must complete all required documentation for each TPC clinical day and reflect on 4 TPC days on the required TPC Clinical Day Evaluation Tool. The grading criteria for each TPC day can be found on the tool. Assignment instructions can be found on Blackboard under the Clinical Instructions/Paperwork tab. TPC Clinical Documentation and Reflections are due on Thursday morning at 8:30 to the clinical instructor. Templates for required clinical paperwork and reflections can be found on Blackboard under Clinical Instructions/Paperwork tab.

- **Specialty Area Clinical Reflections**

Students will complete a Specialty Area Reflection for each clinical day spent in a specialty area. An example of this may include a clinical day in Wound Care or ICU. Specialty Area Reflections will be due on Thursday morning at 8:30 and submitted in Blackboard under Specialty Area Assignment tab. Please refer to the Clinical Instructions/Paperwork tab in Blackboard for clinical specialty area reflections template.

- **Skills and Clinical Objectives**

Skills objectives are tasks that students are required to perform during clinical to gain experience that will further their nursing practice. Skills objectives are to be completed throughout the entire year; however, they are turned in at the end of each semester. In

contrast, clinical objectives are to be completed entirely in one semester. See Blackboard for further instructions and due dates.

- **Additional Total Patient Care Days**

Students who are not performing at the expected level in the clinical setting may be assigned additional total patient care days in lieu of specialty area clinical rotations. Students who demonstrate unsatisfactory performance may include characteristics such as (but are not limited to) the inability to perform skills, the inability to apply and identify basic principles of patient care, disorganization/lack of time management, focusing on self instead of patient, or is found to be unsafe. Students who are assigned additional total patient care days may also move clinical groups and clinical sites for further evaluation by nursing faculty.

Students who are required to complete additional total patient care days will receive a new grading scale based on the new number of total patient care days in addition to being placed on a performance improvement plan and/or probation.

- **Dosage Calculation Exam**

Students must score 100% on the Math Exam by the third attempt in order to administer medications at clinical.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 8, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Voice and email communication will be acknowledged by assigned faculty within 36 hours during their designated office hours. Students are expected to acknowledge voice and email communication within 36 hours of receipt.

General announcements that apply to the entire class will be uploaded in Blackboard. The same expectation applies to reading Blackboard announcements as applies to reading PJC emails.

Paris Junior College Nursing Faculty office hours are on non-clinical days. Appointments are recommended with assigned faculty.

Course specific questions and/or concerns may be directed to the course lead. Utilizing the chain of command, any unresolved issues can be addressed with the Assistant Director of Nursing, then the Director of Nursing.

Additional Course Faculty:

Rebecca Scott, MSN, RN, CCRN
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0246
Office: 1044
Email: rscott@parisjc.edu

Ashley Moss, MSN, RN
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0746
Office: 1038
Email: amoss@parisjc.edu

Kimberly Vice, MSN-ed, RN
Instructor: Classroom/Simulation
Office Phone: 903-782-0730
Office: 1036
Email: kvice@parisjc.edu

Kelly Rial, MSN, RN, CNEcl
Instructor: Classroom/Clinical/Simulation
Office Phone: 903-782-0751
Office: 1042
Email: krial@parisjc.edu

Director of Nursing:

Dwana Hollidai, MBA, BSN, BS, RN

Office Phone: 903-782-0758

Office:1008

Email: dhollidai@parisjc.edu

Assistant Director of Nursing

Brad Bolton, BSN, RN, EMT-P

Office Phone: 903-782-0754

Office:1004

Email: bbolton@parisjc.edu

Class Attendance:

Regular attendance is mandatory for success in the Associate Degree Nursing Program.

Attendance related definitions:

1. Tardy= Arriving to or leaving class/clinical 30 minutes or less
2. Absence= Arriving or leaving class/clinical 30 minutes or more

Students arriving more than 30 minutes late will not be allowed to attend the clinical day and will be required to make up clinical hours.

If unable to attend lab or clinical, notify faculty prior to scheduled lab or clinical via faculty email.

Students who report to clinical after working a night shift will be sent home and will receive an unexcused absence for that clinical day.

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 ADN cohort blackboard page.

Withdraw from a Course:

The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence:

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Class announcement and student Email

PJC IT Checklist:

Please review checklist prior to first day of lecture and set up multi-factor authentication (MFA)

PJC Help Desk:

techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course # Biol 1322
Nutrition and Diet Therapy
Fall 2026

Instructor: Angela Rouse
Office: RC CCA 313
PJC Email: arouse@parisjc.edu
RC Email: angela.rouse@rcisd.org

Meeting Location: RC CCA 313
Meeting Days: Monday - Friday
Meeting Times:
Office Hours: By appointment

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Credits: SCH = 3 Lecture

Prerequisite(s): none

Course Materials

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and McGraw Hill via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will not need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Biol 1322, Smith 12: Wardlaws Contemporary Nutrition ISBN#9781260790023. will be delivered digitally in your Blackboard Ultra course or via the URL provided by your instructor.

Course Goals and Objectives:

THECB Science Core Objectives:

- Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
- Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication
- Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions
- Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Learning Outcomes Upon successful completion of this course, students will:

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.
2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.

3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Requirements and Evaluation:

GRADING

Students will be given the following opportunities to demonstrate knowledge of class material. The course has a total of 1000 points.

Lecture Grades:

Exams: ***	400 points (4 exams; each exam is worth 100 points)
Comprehensive Final:	100 points (1)
Quizzes:***	200 points (11 quizzes; 20 points each, lowest quiz grade will be dropped)
Course Assignments:	200 points (12 assignments, 20 points each, lowest score will be dropped)
PJC SI/THECB Activities:	100 points (5 activities, 20 points each)

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

***Note: Quizzes may not be completed late. Quizzes are online and cannot be made up in the event of an absence but they may be taken off campus within the assigned window. There is one dropped quiz grade. Students must pre plan for exams. If you are absent on exam dates, arrangements should be made BEFORE missing the exam. Students are expected to schedule a tutorial time to make up missed exam prior to their absence. Failure to complete an exam according to these guidelines will result in an exam grade of zero.

Midterm Grade: PJC instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working for them. Please meet with your instructor if you have a concern about your grades at the mid-term.

Course Policies

Cell phone use will be restricted during class time in order to encourage active learning. Note taking is an important part of any college lecture course. Students are expected to engage in all parts of the lesson and provide feedback on their learning needs. Content quizzes will be given weekly in order to assess the topics and activities. Quizzes will be completed online and if you are absent, you must complete the quiz online before the availability window closes. Unless announced, quizzes will open when class begins and close at 4PM. Content quizzes build the exams. You may use your notes on the content quizzes but not on the exams. There will be 4 content exams and an additional comprehensive final exam. Exams are taken in class only. You may not retake or make up missed exams. YOU MUST COMMUNICATE AN ABSENCE

IN ADVANCE OF MISSING AN EXAM. Missed exams without prior communication will result in a zero and no opportunity for retake.

Class Attendance:

Class attendance is critical for the successful completion of this course. Excessive absences will be reported to PJC. Please pre-plan with your instructor if you are going to be absent and utilize your copy of the textbook when you miss notes and discussions. Withdrawals must be initiated by the student. Last day to drop course with a "W" is November 12, 2026.

Class Conduct:

Please turn off or silence all cell phones and headphones before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

11/30	15	Ch 12	Protecting our food supply	Quiz 11 (11/30) Exam 4 (12/2), HW Ch 12
12/8	Week 16	Exam		Final exam (12/9/26)

*Last Day to Withdraw with a "W" is November 12, 2026

*NURA 1301.91B0
Nurse Aide for Health Care
Fall 2026*

Instructor: Kristi Shultz, RN
Office: WTC 1209
Phone: 903-782-0439
Email: kshultz@parisjc.edu
Office Hours: email to schedule appt.

Meeting Location: Royse City HS
Meeting Days: T/TH
Meeting Times: 8:15am-9:42am

Course Description:

Knowledge, skills, and abilities essential to provide basic care to residents of long-term care facilities. Topics include resident's rights, communication, safety, observation, reporting and assisting residents in maintaining basic comfort and safety. Emphasis on effective interaction with members of the health care team, restorative services, mental health, and social service's needs.

Credits: 3.3.0

Prerequisite(s): none

Required Textbook(s) and Materials:

Mosbey's Textbook for Long-Term Care Nursing Assistants 9th Edition
ISBN: 978-0-323-53073-6

Course Goals and Objectives:

At the completion of the course, the student will be able to discuss basic care of residents in a long-term care facility, communicate and interact effectively with residents and their families based on sensitivity to the psychosocial needs, discuss the rights of the residents, discuss safety and preventive measures in the care of residents, and demonstrate skills in observing and reporting, and function effectively as a member of the health care team.

Course Schedule:

Subject to change at the discretion of the instructor

Week 1-4- Chapter 1, 2,3,4,5,6,7,10,&46, Week 1-4 Chapter 11,12,14,15,16,17,24,31,32 and 44

Week 5-8 Chapters 18, 18,20, 22, 23,29, 39 and 40, Chapters 13, 27, 30, 42, 45 and final exam

All exams will be taken through blackboard on your own.

Course Requirements and Evaluation: *Homework assignments, quizzes, final exam and lab skills*

Grading Criteria

In order to pass MDCA 1309.200, the student must achieve a final average grade of 70 or higher. The average of the quizzes will be 70% of the final grade and the final exam will be 30%.

Course Policies

The certified nurse aide training consists of three sections 1. Classroom/skills, 2. Clinical, 3. State exam. The student must successfully complete each section in order to progress to the next section. The classroom/lab experience must be completed with a satisfactory grade of 70 or higher prior to advancing to the clinical experience.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Oct. 1, 2026*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus Subject to Change

Students will be updated of any change to syllabus or class schedule by email or blackboard announcement.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus Subject to Change

Students will be updated of any change to syllabus or class schedule by email or blackboard announcement.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course schedule:

Clinical experience at Royse City Medical Lodge

Course # IRWS 0301.10H0
Integrated Reading and Writing
Fall 2026, Flex A

Instructor: Susan H. Sanchez
Office: LRC 115
Phone: 903-782-0424
Email: ssanchez@parisjc.edu
Office Hours: 2:00-5:00pm M-Th

Meeting Location: MS 112
Meeting Days: MW
Meeting Times: 11:00am-12:15pm

Course Description:

This is a basic developmental course providing integrated reading and writing instruction to prepare students for college writing and reading. Students are placed into the course by test scores. The course may not be used to fulfill degree requirements (catalog).

Integration of critical reading and academic writing skills. Successful completion of this course, if taught at the upper level, fulfills TSI requirements for reading and/or writing.

Credits: 3 Credit Hours, 3 hours of class each week

TSI Requirement: 338 or below, Essay 2 or below

Prerequisite: None

Required Textbook(s) and Materials:

NA

Course Goals and Objectives:

1. Locate explicit textual information, draw complex inferences, and analyze and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.
5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of Standard English in reading and writing.

Course Requirements and Evaluation:

Grades will be determined by your writing, along with grammar exercises and readings. The course will include brief reading and writing assignments along with grammar instruction. Expect to read and write every meeting. Grammar exercises will also be part of most meetings.

Week 1: Course Introduction and Baseline Assessment

Week 2: Reading, Writing, Grammar

Week 3: Reading, Writing, Grammar

Week 4: Reading, Writing, Grammar

Week 5: Reading, Writing, Grammar

Week 6: Reading, Writing, Grammar

Week 7: Reading, Writing, Grammar

Week 8: Final Exam

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

You are expected to be in class prior to the designated start time. Students are expected to complete course work in an honest manner, using their own intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with their instructor. Some writing will be done in class, so bring a pen and paper. All essays done out of class must be typed following MLA format (12-point font, Times New Roman), and will not be accepted in any other form. You can reference the Purdue OWL for further assistance in this regard. Late work may be penalized or not accepted. Plagiarism will result in a zero.

Class Attendance:

Class attendance is critical for the successful completion of this course. If you are absent, it will be your responsibility to catch up before the next class. The expectation is that you will be in class prepared to work. Late essays, if accepted, will be penalized. **The last day for a student to withdraw from a course with a grade of "W" is October 1, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions

at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Student email and updated in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Sociology 1301.20E0 Course Syllabus
Introduction to Sociology (online)
Fall 2026, Subterm A

Instructor: Jon Rutherford B.S., M.S.

Meeting Location: online

Meeting Days: online

Meeting Times: online

Email: jrutherford@parisjc.edu

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

Students who successfully complete this course will receive 3 college credits. Students are required to be 'reading complete', with a minimum score of 351 on the TSI exam.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at

<https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Sociology 1301.20E0, Society: The Basics (Sixteenth Edition), will be delivered digitally in your Blackboard Ultra course provided by your instructor.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

After successful completion of SOCI 1301, the student will exhibit an understanding of sociology through the identification of the sociological perspective, including sociological theories. And, students will possess an understanding of the origins of sociology.

By the end of the course, the student will be able to demonstrate familiarity with sociological views on the following social institutions and processes:

- Culture
- Socialization
- Groups and organizations
- Deviance
- Social stratification and its ramifications
- Sex and gender
- Race and ethnicity
- Economics and politics

- Family and religion
- Education and medicine
- Population and Urbanization
- The environment
- Social change

Course Competencies:

- SOCI 1301 will assist students in the development of the following competencies:
- To employ the appropriate methods, technologies, and data that social and behavioral scientists use to investigate the human condition.
- To use and critique alternative explanatory systems or theories.
- To recognize and apply reasonable criteria for the acceptability of historical evidence and social research.
- To identify and understand differences and commonalities within diverse cultures.
- To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
- To examine social institutions and processes across a range of historical periods, social structures, and cultures.

Course Requirements and Evaluation:

Students who successfully complete this course should be able to:

1. Define sociology. Discuss the sociological perspective, as well as what is meant by sociological imagination. Discuss the major theories within the field, and develop a basic understanding of how social research is conducted by sociologists.
2. Define culture and discuss its various components.
3. Discuss the socialization process from infancy to old age.
4. Describe the elements of social structure and interaction.
5. Describe the dynamics and characteristics of social groups.
6. Discuss the impact of formal organizations in society as well as the components of modern day bureaucracy; discuss what is meant by the phrase 'McDonaldization of Society.'
7. Define and discuss deviance, the major theories of deviance, and the relative nature of deviance.

8. Understand stratification, and the similarities and differences among the various strata in this country. In addition, understand how sociologists determine social class ranking.
9. Discuss how race/ethnicity and gender impact the life chances of the individual in society.
10. Discuss the major theorists within the discipline; discuss sociology's emergence in the socio-historical context.
11. Discuss major trends within the modern family; discuss the sociological functions of the family, as well as conflict and interactionist analyses of the family as an institution.
12. Discuss the various stages of family life.
13. Discuss the impact of class, race, and gender on family life.
14. Discuss the various problems and issues associated with the family.
15. Discuss sexuality from a sociological point of view..
16. Discuss how each of the three theoretical orientations in sociology analyze sex and sexuality.
17. Discuss major demographic trends in the United States and abroad.
18. Discuss the process of urbanization, and its impact on cities, suburbia, and rural areas.
19. Discuss urbanism as a way of life, paying particular attention to the scholarly contributions of Ferdinand Tönnies, Emile Durkheim, George Simmel, and Robert Park.

Grading Policy:

Students' grades will be determined based on the following point scale:

540-600 points—A

480-539 points—B

420-479 points—C

360-420 points—D

Below 360 points—F

Testing Policy:

Students will be required to take 4 exams worth 100 possible points each. Students are allowed to complete major exams on their home computer. Each exam has 100 multiple choice questions, and 120 minutes are allowed to complete the test. Students are allowed 2 attempts per exam. If you complete a major unit exam, and if you aren't satisfied with the score, you have the option of taking it again. If you choose to take the exam twice, the highest of the two scores becomes the test grade. Also, it is worth noting that each test consists of randomized questions from a test bank; as such, if you take the same exam twice, it will cover the same content, but the questions will be different.

Exam Schedule:

All 4 major unit exams will open at 8 am on the first class day, August 24. These exams will remain open until 11:59 pm central standard time, October 13.

Calculation of grades: The maximum number of points that a student can earn in this course is 600. Students are required to complete 4 major unit exams worth 100 points each (400 possible). Also, students are required to complete 10 substantive postings for the balance of the semester, worth 10 points each (100 possible). Last, students are required to complete 10 chapter quizzes, worth 10 points each (100 possible). See the scale above for a breakdown of grades.

Class Attendance and Conduct Policy

1. Academic Integrity

Honesty and Fairness:

- Complete all academic work truthfully and submit only your own work.
- Avoid plagiarism, cheating, fabrication, or any form of academic dishonesty. Academic dishonesty is defined in Policy FLB(LOCAL).

Proper Attribution:

- Credit all courses appropriately in written, visual, or digital work and on all academic assignments.

Responsibility:

- Report any suspected violations of academic integrity to the appropriate authorities.
- Obey all classroom rules and instructions from faculty.
- Respectful behavior.

2. Interpersonal Respect

Respect for Others:

- Treat all peers, faculty, and staff with dignity, courtesy, and respect.
- Avoid any form of harassment, bullying, or discriminatory behavior.

Conflict Resolution:

- Address disagreements constructively.
- Seek mediation from faculty or administration when needed.

3. Personal Responsibility and Accountability

Attendance and Participation:

- Attend classes regularly, arrive on time, and participate actively.

Behavior on Campus:

- Follow all campus policies regarding conduct, facilities use, and participation in campus life.
- Exercise expressive activities in accordance with applicable law and PJC policies.

Accountability:

- Accept responsibility for your personal actions and decisions.
- Be open to feedback and willing to make changes when necessary.

4. Professional Conduct

Appropriate Communication:

- Use respectful and professional language in all forms of communication, including emails, social media, and in-person interactions.

Ethical Use of Technology:

- Use campus technology and online platforms responsibly and in accordance with college policies.

Representation:

- Represent yourself and the college with integrity in all public and professional settings.

5. Community Engagement and Safety

Safe Environment:

- Contribute to a campus atmosphere that is safe, welcoming, and free from any form of violence or intimidation.

Substance Use and Health:

- Abide by campus regulations regarding alcohol, drugs, and other substances.
- Prioritize your physical and mental health and seek help when needed.

Gang-Free Zone

College District property and surrounding areas are designated gang-free zones under Texas law. Certain criminal offenses committed within these areas may result in enhanced penalties.

Reporting Concerns:

- If you witness or experience behavior that undermines the community's values, report it to the appropriate authorities.

6. Compliance with Institutional Policies

Adherence to Rules:

- Follow all institutional policies, including those not explicitly covered in this code (e.g., safety protocols, housing regulations, etc.).

Consequences:

- Understand that violations of this code may lead to disciplinary actions, including reprimand, probation, suspension, or expulsion.
- The College may also impose temporary restrictions or interim suspension when necessary to protect safety or maintain order pending completion of the disciplinary process.

Due Process:

- Expect that reports of misconduct will be reviewed thoroughly, fairly, and confidentially.
- Students will be given notice, an opportunity to respond, and access to the appropriate appeal process.

7. Commitment to Continuous Improvement

Self-Development:

- Strive for continuous personal and academic growth.

- Engage in opportunities for leadership, community service, and self-improvement.

Feedback and Participation:

- Participate in evaluations and discussions aimed at enhancing campus policies and the overall student experience.

Conclusion

By adhering to PJC's Code of Conduct, students help maintain a vibrant, respectful, and dynamic learning environment. PJC's collective commitment to these principles ensures that everyone can benefit from a supportive and high-achieving academic community.

For questions or clarification about this Code, contact:

Director of Student Life

✉ StudentLife@parisjc.edu

☎ 903-782-0433

Link to the student handbook: <https://www.parisjc.edu/academics/catalog/about-handbook.php>.

Attendance

Attendance will be monitored in this class by access logs. As the instructor for this course I can see the date that you access our course via blackboard. You CAN NOT expect to do well in this class without attending class, doing the required homework (mostly the reading assignments), and participating in the various assignments.

Important You are required by Texas Law to log on to this course, and complete the syllabus quiz, by the official reporting day (ORD), August 31, or you will be dropped from the course. Just as a point of clarification here: you are required to complete the aforementioned syllabus quiz by 11:59 pm August 31.

Attendance, in this class, will be reported to a college data base, once a week.

The last day for a student to withdraw from a course with a grade of 'W' is Thursday, October 1, 2026.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Important note: Check the 'Start Here' tab regularly. Here, you will find an updated summary of assignments and course activity expectations.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

Weekly Schedule

The course is organized into four instructional modules. Each module opens on the date listed below. Chapters, discussions, quizzes, and exams become available on the first class day, and continue to be available until the last class day, which is May 27. Please DO NOT wait until the very end to do all of the work.

Module	Module Title	Chapters	Module Opens	Assignments Due
-----	-----	-----	-----	-----
Module 1	Sociology, Theory, and Culture	Chapters 1 and 2	August 24	September 2
		Module 1 Exam	August 24	September 2
Module 2	Socialization, Social Interaction, Groups, and Organizations	Chapters 3, 4, and 6	August 24	September 17
		Module 2 Exam	August 24	September 17
Module 3	Deviance, Social Stratification, and Gender Stratification	Chapters 8, 9, and 11	August 24	October 2
		Module 3 Exam (7-day window)	August 24	October 2
Module 4	Race, Ethnicity, Family, and Religion	Chapters 12 and 14	August 24	October 11
		Final Exam (7-day window)	August 24	October 11

Note: The final exam is not comprehensive.

This syllabus is subject to change, at any time. In the event of a change, the instructor will announce the change in an email through the Blackboard operating system.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Introduction to Sociology (online)
Fall 2026, Subterm A

Instructor: Mayra Camacho Cummings B.A., M.S., M.S.

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Email: mcummings@parisjc.edu

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

Students who successfully complete this course will receive 3 college credits. Students are required to be 'reading complete', with a minimum score of 351 on the TSI exam.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at

<https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Sociology 1301.20D0, Society: The Basics (Sixteenth Edition), will be delivered digitally in your Blackboard Ultra course provided by your instructor.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on Wednesday. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

After successful completion of SOCI 1301, the student will exhibit an understanding of sociology through the identification of the sociological perspective, including sociological theories. And, students will possess an understanding of the origins of sociology.

By the end of the course, the student will be able to demonstrate familiarity with sociological views on the following social institutions and processes:

- Culture
- Socialization
- Groups and organizations
- Deviance
- Social stratification and its ramifications
- Sex and gender
- Race and ethnicity
- Economics and politics
- Family and religion

- Education and medicine
- Population and Urbanization
- The environment
- Social change

Course Competencies:

- SOCI 1301 will assist students in the development of the following competencies:
- To employ the appropriate methods, technologies, and data that social and behavioral scientists use to investigate the human condition.
- To use and critique alternative explanatory systems or theories.
- To recognize and apply reasonable criteria for the acceptability of historical evidence and social research.
- To identify and understand differences and commonalities within diverse cultures.
- To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
- To examine social institutions and processes across a range of historical periods, social structures, and cultures.

Course Requirements and Evaluation:

Students who successfully complete this course should be able to:

1. Define sociology. Discuss the sociological perspective, as well as what is meant by sociological imagination. Discuss the major theories within the field, and develop a basic understanding of how social research is conducted by sociologists.
2. Define culture and discuss its various components.
3. Discuss the socialization process from infancy to old age.
4. Describe the elements of social structure and interaction.
5. Describe the dynamics and characteristics of social groups.
6. Discuss the impact of formal organizations in society as well as the components of modern day bureaucracy; discuss what is meant by the phrase 'McDonaldization of Society.'
7. Define and discuss deviance, the major theories of deviance, and the relative nature of deviance.

8. Understand stratification, and the similarities and differences among the various strata in this country. In addition, understand how sociologists determine social class ranking.
9. Discuss how race/ethnicity and gender impact the life chances of the individual in society.
10. Discuss the major theorists within the discipline; discuss sociology's emergence in the socio-historical context.
11. Discuss major trends within the modern family; discuss the sociological functions of the family, as well as conflict and interactionist analyses of the family as an institution.
12. Discuss the various stages of family life.
13. Discuss the impact of class, race, and gender on family life.
14. Discuss the various problems and issues associated with the family.
15. Discuss sexuality from a sociological point of view..
16. Discuss how each of the three theoretical orientations in sociology analyze sex and sexuality.
17. Discuss major demographic trends in the United States and abroad.
18. Discuss the process of urbanization, and its impact on cities, suburbia, and rural areas.
19. Discuss urbanism as a way of life, paying particular attention to the scholarly contributions of Ferdinand Tönnies, Emile Durkheim, George Simmel, and Robert Park.

Grading Policy:

Students' grades will be determined based on the following point scale:

540-600 points—A

480-539 points—B

420-479 points—C

360-420 points—D

Below 360 points—F

Testing Policy:

Students will be required to take 4 exams worth 100 possible points each. Students are allowed to complete major exams on their home computer. Each exam has 100 multiple choice questions, and 120 minutes are allowed to complete the test. Students are allowed 2 attempts per exam. If you complete a major unit exam, and if you aren't satisfied with the score, you have the option of taking it again. If you choose to take the exam twice, the highest of the two scores becomes the test grade. Also, it is worth noting that each test consists of randomized questions from a test bank; as such, if you take the same exam twice, it will cover the same content, but the questions will be different.

Exam Schedule:

All 4 major unit exams will open at 8 am on the first class day, August 24. These exams will remain open until 11:59 pm central standard time, October 13.

Calculation of grades: The maximum number of points that a student can earn in this course is 600. Students are required to complete 4 major unit exams worth 100 points each (400 possible). Also, students are required to complete 10 substantive postings for the balance of the semester, worth 10 points each (100 possible). Last, students are required to complete 10 chapter quizzes, worth 10 points each (100 possible). See the scale above for a breakdown of grades.

Class Attendance and Conduct Policy**1. Academic Integrity***Honesty and Fairness:*

- Complete all academic work truthfully and submit only your own work.
- Avoid plagiarism, cheating, fabrication, or any form of academic dishonesty. Academic dishonesty is defined in Policy FLB(LOCAL).

Proper Attribution:

- Credit all courses appropriately in written, visual, or digital work and on all academic assignments.

Responsibility:

- Report any suspected violations of academic integrity to the appropriate authorities.
- Obey all classroom rules and instructions from faculty.
- Respectful behavior.

2. Interpersonal Respect

Respect for Others:

- Treat all peers, faculty, and staff with dignity, courtesy, and respect.
- Avoid any form of harassment, bullying, or discriminatory behavior.

Conflict Resolution:

- Address disagreements constructively.
- Seek mediation from faculty or administration when needed.

3. Personal Responsibility and Accountability

Attendance and Participation:

- Attend classes regularly, arrive on time, and participate actively.

Behavior on Campus:

- Follow all campus policies regarding conduct, facilities use, and participation in campus life.
- Exercise expressive activities in accordance with applicable law and PJC policies.

Accountability:

- Accept responsibility for your personal actions and decisions.
- Be open to feedback and willing to make changes when necessary.

4. Professional Conduct

Appropriate Communication:

- Use respectful and professional language in all forms of communication, including emails, social media, and in-person interactions.

Ethical Use of Technology:

- Use campus technology and online platforms responsibly and in accordance with college policies.

Representation:

- Represent yourself and the college with integrity in all public and professional settings.

5. Community Engagement and Safety

Safe Environment:

- Contribute to a campus atmosphere that is safe, welcoming, and free from any form of violence or intimidation.

Substance Use and Health:

- Abide by campus regulations regarding alcohol, drugs, and other substances.
- Prioritize your physical and mental health and seek help when needed.

Gang-Free Zone

College District property and surrounding areas are designated gang-free zones under Texas law. Certain criminal offenses committed within these areas may result in enhanced penalties.

Reporting Concerns:

- If you witness or experience behavior that undermines the community's values, report it to the appropriate authorities.

6. Compliance with Institutional Policies

Adherence to Rules:

- Follow all institutional policies, including those not explicitly covered in this code (e.g., safety protocols, housing regulations, etc.).

Consequences:

- Understand that violations of this code may lead to disciplinary actions, including reprimand, probation, suspension, or expulsion.
- The College may also impose temporary restrictions or interim suspension when necessary to protect safety or maintain order pending completion of the disciplinary process.

Due Process:

- Expect that reports of misconduct will be reviewed thoroughly, fairly, and confidentially.
- Students will be given notice, an opportunity to respond, and access to the appropriate appeal process.

7. Commitment to Continuous Improvement

Self-Development:

- Strive for continuous personal and academic growth.

- Engage in opportunities for leadership, community service, and self-improvement.

Feedback and Participation:

- Participate in evaluations and discussions aimed at enhancing campus policies and the overall student experience.

Conclusion

By adhering to PJC's Code of Conduct, students help maintain a vibrant, respectful, and dynamic learning environment. PJC's collective commitment to these principles ensures that everyone can benefit from a supportive and high-achieving academic community.

For questions or clarification about this Code, contact:

Director of Student Life

✉ StudentLife@parisjc.edu

☎ 903-782-0433

Link to the student handbook: <https://www.parisjc.edu/academics/catalog/about-handbook.php>.

Attendance

Attendance will be monitored in this class by access logs. As the instructor for this course I can see the date that you access our course via blackboard. You CAN NOT expect to do well in this class without attending class, doing the required homework (mostly the reading assignments), and participating in the various assignments.

Important You are required by Texas Law to log on to this course, and complete the syllabus quiz, by the official reporting day (ORD), August 31, or you will be dropped from the course. Just as a point of clarification here: you are required to complete the aforementioned syllabus quiz by 11:59 pm August 31.

Attendance, in this class, will be reported to a college data base, once a week.

The last day for a student to withdraw from a course with a grade of 'W' is Thursday, October 1, 2026.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Important note: Check the 'Start Here' tab regularly. Here, you will find an updated summary of assignments and course activity expectations.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

Weekly Schedule

The course is organized into four instructional modules. Each module opens on the date listed below. Chapters, discussions, quizzes, and exams become available on the first class day, and continue to be available until the last class day, which is May 27. Please DO NOT wait until the very end to do all of the work.

SOCI 13001 — 16-Week Course Schedule

Module	Module Title	Chapters	Module Opens	Assignments Due
Module 1	Sociology, Theory, and Culture	Chapter 1	August 24	September 1
		Chapter 2	August 24	September 8
		Module 1 Exam Chapters 1–2	August 24	September 15
Module 2	Socialization, Social Interaction, Groups, and Organizations	Chapter 3	September 16	September 22
		Chapter 4	September 16	September 29
		Chapter 6	September 16	October 6
		Module 2 Exam Chapters 3, 4, and 6	September 16	October 13
Module 3	Deviance, Social Stratification, and Gender Stratification	Chapter 8	October 14	October 20
		Chapter 9	October 14	October 27
		Chapter 11	October 14	November 3
		Module 3 Exam (7-day window) Chapters 8, 9, and 11	October 14	November 24
Module 4	Race, Ethnicity, Family, and Religion	Chapter 12	November 11	December 1

Module	Module Title	Chapters	Module Opens	Assignments Due
		Chapter 14	November 11	December 1
	Module 4 Quiz	Chapters 12 and 14	November 11	December 1
	Final Exam (7-day window)	Chapters 12 and 14	November 11	December 8

This syllabus is subject to change, at any time. In the event of a change, the instructor will announce the change in an email through the Blackboard operating system.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Intermediate Spanish I

SPAN 2311.10LO

SPAN 2311.40LO

SPAN 2311.50LO

Fall 2026

Course Begins: Monday, August 24, 2026

Course Ends: Tuesday, December 8, 2026

Instructor: Mayra Camacho Cummings

Meeting: Paris Campus MS 212 | Greenville Center 124 | Sulphur Springs Center 108

Office: SSC 111

Phone: 903-885-1232 ext. 2209

Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 & T & TR 7:30-9:30 SSC or By Appointment

Course Description:

SPAN 2311

Intermediate Spanish I (3rd semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Approval Number: 16.0905.52 13 maximum SCH per student 3 maximum SCH per course 3 maximum contact hours per Course 80

SPAN 2311 is a hybrid course with BlackBoard online components

[See the end of the document for book access instructions.](#)

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes

Upon successful completion of this course, students will:

1. Summarize authentic spoken discourse produced by Spanish speakers of diverse origins.
2. Produce Spanish comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. Demonstrate increasing comprehension of authentic written texts in a variety of genres.
4. Write evaluations and critiques at a high intermediate level using complex grammatical structures.
5. Formulate cohesive paragraphs and essays.
6. Interpret cultural practices and products of the Spanish-speaking world drawing on authentic materials including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain

enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1*** by class on **08/27/2026** to retain enrollment in the course. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Connect Assignment Type	Critical Thinking Skills (CT)	Communication Skills (CS)	Personal Responsibility (PR)	Social Responsibility (SR)
Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.

Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Phone: [\(800\) 331-5094](tel:(800)331-5094)

Chat: [Chat with a Representative](#)

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy*) *importante* in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿;ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2311 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2311 (Chapters 11–14)

Connect Instructions

1. Click on the Connect link provided in the course.

2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information **Required Course Materials**

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
- Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Week	Chapter / Assessment	Topics / Focus	Assignments Due

Intermediate Spanish I
Fall 2026-FLEX B

Course Begins: Monday, October 19, 2026 **Course Ends:** Tuesday, December 8, 2026

Instructor: Mayra Camacho Cummings

Meeting: Paris Campus MS 212 | Greenville Center 124 | Sulphur Springs Center 108

Office: SSC 111

Phone: 903-885-1232 ext. 2209

Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 & T & TR 7:30-9:30 SSC or By Appointment

Course Description:

SPAN 2311

Intermediate Spanish I (3rd semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Approval Number: 16.0905.52 13 maximum SCH per student 3 maximum SCH per course 3 maximum contact hours per Course 80

SPAN 2311 is a hybrid course with BlackBoard online components

[See the end of the document for book access instructions.](#)

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes

Upon successful completion of this course, students will:

1. Summarize authentic spoken discourse produced by Spanish speakers of diverse origins.
2. Produce Spanish comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. Demonstrate increasing comprehension of authentic written texts in a variety of genres.
4. Write evaluations and critiques at a high intermediate level using complex grammatical structures.
5. Formulate cohesive paragraphs and essays.
6. Interpret cultural practices and products of the Spanish-speaking world drawing on authentic materials including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must

arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student.

The last day for a student to withdraw from a course with a grade of "W" is **NOV. 24, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 10/26/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 10/21/2026 to retain enrollment in the***

course. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Phone: [\(800\) 331-5094](tel:8003315094)

Online: [Submit a Support Request](#)

Chat: [Chat with a Representative](#)

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy*) *importante* in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2311 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59 pm**. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2311 (Chapters 11–14)

5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain

enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1*** by class on **08/27/2026** to retain enrollment in the course. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy*) *importante* in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿;ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2311 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2311 (Chapters 11–14)

Connect Instructions

1. Click on the Connect link provided in the course.

2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information **Required Course Materials**

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
- Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Intermediate Spanish I

SPAN 2311.25D0

Fall 2026

Course Begins: Monday, August 24, 2026

Course Ends: Tuesday, December 8, 2026

Instructor: Mayra Camacho Cummings

Office: SSC 111

Phone: 903-885-1232 ext. 2209

Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 & T & TR 7:30-9:30 SSC or By Appointment

Course Description:

SPAN 2311

Intermediate Spanish I (3rd semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Approval Number: 16.0905.52 13 maximum SCH per student 3 maximum SCH per course 3 maximum contact hours per Course 80

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

SPAN 2311 is a hybrid course with BlackBoard online components

[See the end of the document for book access instructions.](#)

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes

Upon successful completion of this course, students will:

1. Summarize authentic spoken discourse produced by Spanish speakers of diverse origins.
2. Produce Spanish comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. Demonstrate increasing comprehension of authentic written texts in a variety of genres.
4. Write evaluations and critiques at a high intermediate level using complex grammatical structures.
5. Formulate cohesive paragraphs and essays.
6. Interpret cultural practices and products of the Spanish-speaking world drawing on authentic materials including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy*) *importante* in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿;ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2311 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2311 (Chapters 11–14)

Connect Instructions

1. Click on the Connect link provided in the course.

2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information **Required Course Materials**

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
- Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Week	Chapter / Assessment	Topics / Focus	Assignments Due
Week 1	Course Introduction & Comprehensive Grammar Review	Course orientation; review of present indicative, preterite, imperfect, present subjunctive, commands, pronouns, and perfect tenses; vocabulary review; introduction to Connect/Lab activities	Course Orientation, Review Activities & Connect/Lab Practice
Week 2	Chapter 11: La salud	Health and wellness vocabulary; grammar review and application; communication skills; listening, speaking, reading, writing, culture, and authentic readings	Chapter 11 Connect Assignments & Application Activities

Course Description:

SPAN 2311

Intermediate Spanish I (3rd semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Approval Number: 16.0905.52 13 maximum SCH per student 3 maximum SCH per course 3 maximum contact hours per Course 80

SPAN 2311 is a hybrid course with BlackBoard online components

[See the end of the document for book access instructions.](#)

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes

Upon successful completion of this course, students will:

1. Summarize authentic spoken discourse produced by Spanish speakers of diverse origins.
2. Produce Spanish comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. Demonstrate increasing comprehension of authentic written texts in a variety of genres.
4. Write evaluations and critiques at a high intermediate level using complex grammatical structures.
5. Formulate cohesive paragraphs and essays.
6. Interpret cultural practices and products of the Spanish-speaking world drawing on authentic materials including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain

enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1*** by class on **08/27/2026** to retain enrollment in the course. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

☐

Connect Assignment Type	Critical Thinking Skills (CT)	Communication Skills (CS)	Personal Responsibility (PR)	Social Responsibility (SR)
Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.

Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Course Description:

SPAN 2311

Intermediate Spanish I (3rd semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Approval Number: 16.0905.52 13 maximum SCH per student 3 maximum SCH per course 3 maximum contact hours per Course 80

SPAN 2311 is a hybrid course with BlackBoard online components

[See the end of the document for book access instructions.](#)

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes

Upon successful completion of this course, students will:

1. Summarize authentic spoken discourse produced by Spanish speakers of diverse origins.
2. Produce Spanish comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. Demonstrate increasing comprehension of authentic written texts in a variety of genres.
4. Write evaluations and critiques at a high intermediate level using complex grammatical structures.
5. Formulate cohesive paragraphs and essays.
6. Interpret cultural practices and products of the Spanish-speaking world drawing on authentic materials including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must

arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student.

The last day for a student to withdraw from a course with a grade of "W" is **NOV. 24, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 10/26/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 10/21/2026 to retain enrollment in the***

course. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.
Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful	Apply language within authentic cultural and social contexts to strengthen

	problem-solving and critical analysis.		completion of communicative tasks.	intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the [PJC IT Checklist](https://www.parisjc.edu/technology/pjc-it-checklist.php) <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Phone: [\(800\) 331-5094](tel:8003315094)

Chat: [Chat with a Representative](#)

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy*) *importante* in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2311 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59 pm**. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2311 (Chapters 11–14)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select **“Register”** and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.

- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information **Required Course Materials**

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
 - Flex 2 Term: 10/28/2026
1. Go to <https://ACCESSPortal.follett.com:443/1836>
 2. Create an account using your student email account
 3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
 4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Week	Chapter / Assessment	Topics / Focus	Assignments Due
Week 1	Course Introduction & Comprehensive Grammar Review	Course orientation; review of present indicative, preterite, imperfect, present subjunctive, commands, pronouns, and perfect tenses; vocabulary review; introduction to Connect/Lab activities	Course Orientation, Review Activities & Connect/Lab Practice

Course Description:
SPAN 2312

SPAN 2312 Intermediate Spanish II (4th semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill):

Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes Upon successful completion of this course, students will: Engage in conversations using level-appropriate grammatical structures including narrating events that take place in the present and producing questions and responses on a variety of topics dealing with everyday life. Demonstrate understanding of level-appropriate spoken Spanish. Write simple sentences and organize them into short paragraphs. Read and comprehend level-appropriate texts. Identify and discuss traditions, customs and values of the Hispanic world. Compare and contrast the traditions, customs and values of the Hispanic world with characteristics of their own culture.

Learning Outcomes

Upon successful completion of this course, students will:

1. **Summarize** authentic spoken discourse produced by Spanish speakers of diverse origins.
2. **Produce Spanish** comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. **Demonstrate increasing comprehension** of authentic written texts in a variety of genres.
4. **Write evaluations and critiques** at a high intermediate level using complex grammatical structures.
5. **Formulate** cohesive paragraphs and essays.
6. **Interpret** cultural practices and products of the Spanish-speaking world drawing on authentic materials, including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.
Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through

such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. Tech Support for the online workbook - **McGraw Hill Connect – Puntos de Partida**

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy importante*) in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2312 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59 pm**. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the

assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2312 (Chapters 15–18)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

Course Schedule: Chapters Review - Chapters 15–18

Week	Chapter / Assessment	Topics / Focus	Assignments Due
Week 1	Course Introduction & Grammar Review	Review of present, preterite, imperfect, subjunctive, and perfect tenses; introduction to literature, vocabulary, culture, and Connect/Lab activities	Review Activities & Course Orientation
Week 2	Chapter 15: La tecnología y el mundo actual	Technology, media, and communication; formal commands; present perfect; culture, readings, and Connect activities	Chapter 15 Connect Assignments
Week 3	Chapter 15: La tecnología y el mundo actual	Grammar and vocabulary application; listening, speaking, reading, writing, culture, and literature	Chapter 15 Connect & Application Activities

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information

Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

· Fall Main & Flex 1 Term: 9/11/2026

· Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

SPAN 2312.20D0
Intermediate Spanish I
Fall 2026

Course Begins: Monday, August 24, 2026

Course Ends: Tuesday, December 8, 2026

Instructor: Mayra Camacho Cummings

Meeting: Online

Office: SSC 111

Phone: 903-885-1232 ext. 2209

Email: mcummings@parisjc.edu

Office Hours: Office Hours: M & W 8:00-10:00 | T & TR 7:30-9:30 @SSC

Course Description:

SPAN 2312

SPAN 2312 Intermediate Spanish II (4th semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill):

Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes Upon successful completion of this course, students will: Engage in conversations using level-appropriate grammatical structures including narrating events that take place in the present and producing questions and responses on a variety of topics dealing with everyday life. Demonstrate understanding of level-appropriate spoken Spanish. Write simple sentences and organize them into short paragraphs. Read and comprehend level-appropriate texts. Identify and discuss traditions, customs and values of the Hispanic world. Compare and contrast the traditions, customs and values of the Hispanic world with characteristics of their own culture.

Learning Outcomes

Upon successful completion of this course, students will:

1. **Summarize** authentic spoken discourse produced by Spanish speakers of diverse origins.
2. **Produce Spanish** comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.

3. **Demonstrate increasing comprehension** of authentic written texts in a variety of genres.
4. **Write evaluations and critiques** at a high intermediate level using complex grammatical structures.
5. **Formulate** cohesive paragraphs and essays.
6. **Interpret** cultural practices and products of the Spanish-speaking world drawing on authentic materials, including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work,

quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views.

Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 1411 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive**

learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice). Students will also complete **English grammar support activities**, a **Midterm Exam (Chapters 1–3)**, and a **Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 1411 (Chapters 1–5)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

Course Schedule: Chapters Review - Chapters 15–18

Week	Chapter / Assessment	Topics / Focus	Assignments Due

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information

Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
 - Flex 2 Term: 10/28/2026
1. Go to <https://ACCESSPortal.follett.com:443/1836>
 2. Create an account using your student email account
 3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
 4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Intermediate Spanish I
Fall 2026

Course Begins: Monday, August 24, 2026 **Course Ends:** Tuesday, December 8, 2026
Instructor: Mayra Camacho Cummings
Meeting: Locations: Greenville Center 124 | Sulphur Springs Center 108 | PJC MS 212

Office: SSC 111 **Phone:** 903-885-1232 ext. 2209
Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 | T & TR 7:30-9:30 @SSC

Course Description:
SPAN 2312

SPAN 2312 Intermediate Spanish II (4th semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill):

Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes Upon successful completion of this course, students will: Engage in conversations using level-appropriate grammatical structures including narrating events that take place in the present and producing questions and responses on a variety of topics dealing with everyday life. Demonstrate understanding of level-appropriate spoken Spanish. Write simple sentences and organize them into short paragraphs. Read and comprehend level-appropriate texts. Identify and discuss traditions, customs and values of the Hispanic world. Compare and contrast the traditions, customs and values of the Hispanic world with characteristics of their own culture.

Learning Outcomes

Upon successful completion of this course, students will:

1. **Summarize** authentic spoken discourse produced by Spanish speakers of diverse origins.
2. **Produce Spanish** comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. **Demonstrate increasing comprehension** of authentic written texts in a variety of genres.
4. **Write evaluations and critiques** at a high intermediate level using complex grammatical structures.
5. **Formulate** cohesive paragraphs and essays.
6. **Interpret** cultural practices and products of the Spanish-speaking world drawing on authentic materials, including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Connect Assignment Type	Critical Thinking Skills (CT)	Communication Skills (CS)	Personal Responsibility (PR)	Social Responsibility (SR)
Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.
Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through

such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email.*

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. Tech Support for the online workbook - **McGraw Hill Connect – Puntos de Partida**

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information

Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

· Fall Main & Flex 1 Term: 9/11/2026

· Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Intermediate Spanish I
Fall 2026

Course Begins: Monday, August 24, 2026 **Course Ends:** Tuesday, December 8, 2026
Instructor: Mayra Camacho Cummings
Meeting: Locations: Greenville Center 124 | Sulphur Springs Center 108 | PJC MS 212

Office: SSC 111 **Phone:** 903-885-1232 ext. 2209
Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 | T & TR 7:30-9:30 @SSC

Course Description:
SPAN 2312

SPAN 2312 Intermediate Spanish II (4th semester Spanish) The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill):

Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Learning Outcomes Upon successful completion of this course, students will: Engage in conversations using level-appropriate grammatical structures including narrating events that take place in the present and producing questions and responses on a variety of topics dealing with everyday life. Demonstrate understanding of level-appropriate spoken Spanish. Write simple sentences and organize them into short paragraphs. Read and comprehend level-appropriate texts. Identify and discuss traditions, customs and values of the Hispanic world. Compare and contrast the traditions, customs and values of the Hispanic world with characteristics of their own culture.

Learning Outcomes

Upon successful completion of this course, students will:

1. **Summarize** authentic spoken discourse produced by Spanish speakers of diverse origins.
2. **Produce Spanish** comprehensible to native speakers using complex grammatical structures to communicate analytical and interpretive information in both impromptu and prepared speech.
3. **Demonstrate increasing comprehension** of authentic written texts in a variety of genres.
4. **Write evaluations and critiques** at a high intermediate level using complex grammatical structures.
5. **Formulate** cohesive paragraphs and essays.
6. **Interpret** cultural practices and products of the Spanish-speaking world drawing on authentic materials, including literature and the visual arts.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Connect Assignment Type	Critical Thinking Skills (CT)	Communication Skills (CS)	Personal Responsibility (PR)	Social Responsibility (SR)
Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.
Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.
Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through

such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email*.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the **PJC IT Checklist** <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. Tech Support for the online workbook - **McGraw Hill Connect – Puntos de Partida**

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Phone: [\(800\) 331-5094](tel:8003315094)

Chat: [Chat with a Representative](#)

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy importante*) in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 2312 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59 pm**. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the

assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 2312 (Chapters 15–18)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

Course Schedule: Chapters Review - Chapters 15–18

Week	Chapter / Assessment	Topics / Focus	Assignments Due

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information

Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

· Fall Main & Flex 1 Term: 9/11/2026

· Flex 2 Term: 10/28/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

SPAN 1411.20D0
Beginning Spanish I

It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Adaptive Learning Assignments	Analyze, evaluate, and synthesize grammatical structures and vocabulary through adaptive, mastery-based activities.	Interpret and apply language forms to demonstrate understanding of written and spoken Spanish.	Demonstrate self-directed learning, persistence, and accountability by completing individualized learning paths.	Engage with culturally contextualized content to develop intercultural competence and global awareness.
Practice & Application Activities	Apply and synthesize language skills in contextualized scenarios that require problem-solving and critical analysis.	Develop and express ideas through meaningful written and oral communication.	Take responsibility for active participation and successful completion of communicative tasks.	Apply language within authentic cultural and social contexts to strengthen intercultural competence.
Homework	Reinforce comprehension and application of grammar, vocabulary, and course concepts through structured practice.	Strengthen written communication and interpretive language skills.	Demonstrate responsibility through independent work, organization, and effective time management.	Increase awareness of cultural perspectives embedded in language use.

Quizzes	Demonstrate comprehension and application of targeted concepts through formative assessments.	Communicate understanding using accurate and appropriate Spanish.	Maintain consistent engagement and responsibility for ongoing learning.	Identify and interpret cultural elements presented in language and context.
Exams	Demonstrate analysis, evaluation, and synthesis of linguistic and cultural knowledge through cumulative assessments.	Effectively interpret and produce written and/or oral communication in Spanish.	Exhibit accountability, academic integrity, and preparedness.	Demonstrate understanding of the practices, perspectives, and products of Spanish- s

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. IF changes occur students will be notified by email via *Blackboard Announcement and or email.*

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Technical Difficulties: Computer access is available on campus. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

PJC IT Checklist

Please review the [PJC IT Checklist](https://www.parisjc.edu/technology/pjc-it-checklist.php) <https://www.parisjc.edu/technology/pjc-it-checklist.php>, before the first day of class. It covers the technology you'll need to get started, including multi-factor authentication (MFA), which is required for all student accounts. MFA setup is included in Step 3. For technical help, email techsupport@parisjc.edu. All IT requests must go through the ticket system so your request can be tracked and addressed as quickly as possible. **Tech Support for the online workbook** - McGraw Hill Connect – Puntos de Partida

You will need access to **McGraw Hill Connect** for your *Puntos de Partida* assignments. If you have trouble registering, accessing Connect, or completing assignments, please contact McGraw Hill Support for assistance.

Chat: [Chat with a Representative](#)

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy importante*) in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.

3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 1411 Weekly Lesson Plan**

Plan

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 1411 (Chapters 1–5)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m., unless otherwise noted. All exams are required and must be completed in order to pass the course.**

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information

Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
 - Flex 2 Term: 10/28/2026
1. Go to <https://ACCESSPortal.follett.com:443/1836>
 2. Create an account using your student email account
 3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
 4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

SPAN 1411.20D0
Beginning Spanish I

Fall 2026

Course Begins: Monday, August 24, 2026

Course Ends: Tuesday, December 8, 2026

Instructor: Mayra Camacho Cummings

Meeting: Online

Office: SSC 111

Phone: 903-885-1232 ext. 2209

Email: mcummings@parisjc.edu

Office Hours: M & W 8:00-10:00 & T & TR 7:30-9:30 SSC

By Appointment

Course Description: SPAN Beginning Spanish II (2nd semester Spanish, 4 SCH version)
Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level.

Approval Number: 16.0905.51 13 maximum SCH per student 4 maximum SCH per course 4 maximum contact hours per Course 112 SPAN requires for students to upload and attach audio and video files for assignments/quizzes/laboratory/exams.

Required Textbook(s) and Materials

Dorwick, Thalia, and Ana María Pérez-Gironés. *Puntos: 2025 Release*. 12th ed., McGraw Hill, 2024.

Connect Platform (McGraw Hill): Students are required to access and complete all online assignments, activities, and assessments through the McGraw Hill Connect platform associated with the textbook as well as BlackBoard.

Course Goals and Objectives:

Course Learning Outcomes (SPAN 1411)

Upon successful completion of this course, students will be able to:

1. Engage in conversations using level-appropriate grammatical structures, including present tense narration and question/response exchanges about everyday life.
2. Demonstrate understanding of spoken Spanish at the introductory level.
3. Write simple sentences and organize them into short paragraphs.
4. Read and comprehend introductory Spanish texts.
5. Identify and discuss traditions, customs, and values of the Hispanic world.
6. Compare and contrast Hispanic cultural practices with their own culture.

Program Learning Outcomes:

1. **Communication & Expression** - Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** - Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** - Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** - Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. **Personal & Civic Responsibility** - Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Skills for Success in This Course

To be successful in this course, students will develop the ability to:

1. **Remember** – Recall vocabulary, structures, and meanings.
2. **Understand** – Explain meaning and recognize how and when language is used appropriately.
3. **Apply** – Use vocabulary and grammatical structures in a variety of communicative situations.
4. **Analyze** – Distinguish appropriate social settings, context, and language choices.
5. **Evaluate** – Revise, edit, paraphrase, and improve language use for clarity and accuracy.
6. **Create** – Produce original language, use circumlocution, and formulate creative responses in the target language.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

In order to be successful in this course, the student must keep up with the assignments and quizzes and turn in all assignments by the due date (Tuesday 11:59 am) on Connect on a daily/weekly basis. Only 1 make-up exam is allowed. It is the student's responsibility to make arrangements for all make-up work, quizzes, exams, and assignments. **Online students will be allowed only one make-up test.** If there are other circumstances, the student must contact the instructor. Please keep up with the weekly work in the assignment folder. All late work will have point deductions on daily assignment grades (instructor discretion) as well as participation (20%).

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Face-to-face students must not have more than 3 absences. Taking calls and texting during lectures are not allowed in the classroom. The student will be asked to leave after the first warning. The student must arrive on time to be counted as present. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **NOV. 12, 2026**.

Class Attendance is recorded daily on the PJC system. It is the student's responsibility to make arrangements for all make-up classwork, quizzes, exams, and notes missed from class.

Online students will have attendance recorded by Wednesday are the Tuesday submission. If the weekly assignments are not submitted, it will count as ABSENT. **Online** students will be counted absent on Wednesdays if there is no homework submission. Email instructor to notify them that there were pc/laptop and or internet connectivity issues. PJC has computer labs on campus. It is the student's responsibility to have internet, pc/laptop, and knowledge on how to upload documents, videos, and audio files on Blackboard that are compatible with the instructor's computer. Please note that there are 4 exams and 2 presentations that may require an audio link. On Blackboard, quizzes or assignments may be labeled as a test due to a Blackboard format option that I select. If the assignment or quiz is not named **EXAM** on the grade book, it is a quiz or an assignment.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Classroom and Online Behavior- Please be respectful in class and when participating in the class and or forum discussions. Please note that subjects addressed and questions asked in the Blackboard discussion forum and during class lectures are intended for the student to think critically, express ideas that may be different from other students, engage in meaningful thought, and appreciate different cultural views. Please be nice. Please be open-minded. Please be respectful of different views and life experiences. Please no texting in class. Laptops are allowed for taking notes.

Mid-Term Grades: Paris Junior College instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD), or they are to be dropped from the course on the **ORD 09/09/26**. In order to remain enrolled in this course, *students must actively participate* in the course. ***Students must submit the Syllabus Quiz and BlackBoard discussion #1 by class on 08/27/2026 to retain enrollment in the course.*** Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, Excel), and specialized software.

1. As a general rule, a computer manufactured within the last five years is adequate.
2. In addition to the basic system requirements, some courses may also require a flash drive, webcam, common application software such as (Word, PowerPoint, and Excel), and specialized software. Tablets and smartphones may not be adequate to perform all course functions.
3. Email techsupport@parisjc.edu for Blackboard technical assistance.

Accent Marks

Many Spanish words use accent marks, which can change the meaning of the word, and/or, change the stress of the word. As English speakers, these accent marks may mean nothing to you, but they are (*muy importante*) in the Spanish language. Learn them early, and they are not a big deal, actually becoming rather helpful in the language!

Typing Accent Marks How to type Spanish accents in Word?

Inserting accented letters with the menu bar or Ribbon

1. Open Microsoft **Word**.
2. Select the Insert tab on the Ribbon or click Insert in the menu bar.
3. On the Insert tab or the Insert drop-down, select the Symbol option, and click on Latin1-Supplement. Select the desired **accented** character.

Copy or Paste: áéíóú¿ñ ÁÉÍÓÚ Ñ

Change Language Setting:

<https://support.office.com/en-us/article/change-the-language-office-uses-in-its-menus-and-proofing-tools-f5c54ff9-a6fa-4348-a43c-760e7ef148f8>

Course Schedule:

Click on the Connect link. Every week all assignments should be turned in by Tuesday 11:59 pm or unless otherwise indicated. All exams must be taken to pass the course. **SPAN 1411 Weekly Lesson Plan**

Important Dates

Every week the following assignments should be turned in by **Tuesday @11:59** pm. or unless otherwise indicated. Week #1 is due Tuesday of Week #2, however, students must submit the Syllabus Quiz and Blackboard discussion #1 by class on **08/27/2026** to be counted as present. If a student fails to submit the assignment, the PJC procedure indicates that the student will be DROPPED for non-participation. **Please see the due dates on Blackboard under the Weekly Assignments.**

All files including audio must be submitted and be compatible with my PC/LAPTOP. Please no MAC files. If Google Docs are submitted, please make sure you attach them and do not grant permission because I am given access and I am not able to access documents. LAB is weekly

Online Assignments (Connect / Course Activities):

Each chapter (Capítulos 1–5) includes a set of required online assignments designed to develop reading, pronunciation, vocabulary, grammar, culture, and communication skills. Chapter assignments include **reader activities, pronunciation practice, vocabulary and grammar homework, adaptive learning (ALA) modules, Salu2 practice, chapter quizzes, and recordable video chats (oral practice)**. Students will also complete **English grammar support activities, a Midterm Exam (Chapters 1–3), and a Comprehensive Final Exam (Chapters 1–5)**. All assignments must be completed by the posted due dates in Blackboard/Connect.

Course Schedule: – SPAN 1411 (Chapters 1–5)

Connect Instructions

1. Click on the Connect link provided in the course.
2. Follow the on-screen instructions to log in or create an account.
3. If you are a new user, select “**Register**” and enter the required course information.
4. If you already have an account, log in using your existing credentials.
5. Once logged in, navigate to the course dashboard and begin the assigned activities.

Blackboard Instructions

- Additional assignments, discussions, and course materials will be posted in Blackboard.
- Students are responsible for logging in regularly and completing all required discussion, posts and assignments.

Students are expected to check both **Connect** and **Blackboard** regularly for announcements and to ensure all assignments, discussions, quizzes, and exams are completed on time. **Weekly coursework is due each Tuesday by 11:59 p.m.**, unless otherwise noted. **All exams are required and must be completed in order to pass the course.**

Course Schedule – Puntos de Partida, Chapters 6–10

Speaking & Interpersonal Communication	Application Activities, Video Chats, Exams
Listening Comprehension	Practice, Quizzes, Exams
Writing in Spanish	Homework, Application Activities, Exams
Reading Comprehension	Homework, Quizzes, Exams
Cultural Knowledge & Comparisons	Cultural Activities, Discussions, Exams

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Dragon Now Course Material Information
Required Course Materials

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- Fall Main & Flex 1 Term: 9/11/2026
 - Flex 2 Term: 10/28/2026
1. Go to <https://ACCESSPortal.follett.com:443/1836>
 2. Create an account using your student email account
 3. Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
 4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

SPCH 1315

Fundamentals of Public Speaking

Fall 2026-Flex B

Instructor: Alex Peevy

Office: MB104 (Paris)

Phone: 903-782-0321

Email: apeevy@parisjc.edu

Course Description: Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students' speaking abilities, as well as ability to effectively evaluate oral presentations. *Credits: 3 SCH = 3 lecture Hours. TSI Requirement: 351 R, 340 W.* Prerequisite(s): None

Required Textbook(s) and Materials: This course uses a free open-source e-textbook included in the course in PDF format. Students are required to have 3x5 index cards for presentations—other study materials as assigned. Details about information technology requirements will be provided in Blackboard.

Audience Requirements: This course includes mandatory audience requirements for Performance Exams. Depending on the assignment, students will present live on Zoom or upload a prerecorded video to YouTube and may be required to have up to four audience members (age 15 or older) physically present in the room. Specific audience and delivery requirements will be stated with each Performance Exam and are mandatory. Submissions that do not meet those requirements will not be graded.

Course Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Teamwork Skills—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Speech 1315 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate effective usage of technology when researching and/or presenting speeches.
- Identify how culture, ethnicity and gender influence communication.
- Develop proficiency in presenting a variety of speeches as an individual or group (e.g. narrative, informative or persuasive).
- Research, develop and deliver extemporaneous speeches with effective verbal and nonverbal techniques.
- Demonstrate an understanding of the foundational models of communication.
- Demonstrate ethical speaking and listening skills by analyzing presentations for evidence and logic.
- Apply elements of audience analysis.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- **Communication & Expression** Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- **Critical & Creative Thinking** — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- **Humanities & Cultural Literacy** — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- **Information Literacy** — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- **Personal & Civic Responsibility** — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Required Activity: All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Requirements and Evaluation: Students will complete four Performance Exams, with Exam 4 serving as the Final Exam, along with four unit tests.

<u>Grade Evaluation:</u>					
Performance Exams		Additional Coursework			%
Speech of Introduction	5%	Tests	20%	90%-100%=	A
Collaborative Analysis	10%	<u>Learning Activities</u>	<u>20%</u>	80%-89%=	B
Informative Speech	20%	Total	40%	70%-79%=	C
<u>Persuasive Speech (Final)</u>	<u>25%</u>			60%-69%=	D
Total	60%			0%-59%=	F

Course Policies:

- Documents must be submitted in .pdf format.
- Testing will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Performance exams will be scheduled in advance, and students are required to complete their presentation at the assigned date and time with all required elements included.
- At the instructor's discretion, missed performance exams or missing elements may be submitted by a new deadline by the instructor.
 - Presentations submitted under this provision will receive a grade reduction.
 - Failure to meet the new deadline will result in immediate failure with no further concessions.
- Internet access and/or software issues will not be taken into consideration for late submissions or missed testing. Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is November 24.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted as long as it does not change the student’s wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student’s responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change: This syllabus is subject to change at any time. When changes are made students will be informed of the change by the Bb Blackboard announcement and PJC email

Course Schedule: The instructor reserves the right to change the course schedule if deemed necessary. Students will be given advanced notice of alterations to the schedule. All updates will be reflected in the Blackboard Calendar tool.

SPCH 1315 20E1

Fundamentals of Public Speaking

Fall 2026

Instructor: Dr. Bryan Corbin

Office: Virtual

Phone: 346-800-2106

Email: bcorbin@parisjc.edu

Office Hours

Every day by appointment

Email is the best way to reach me.

Course Description: Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students' speaking abilities, as well as ability to effectively evaluate oral presentations. *Credits: 3 SCH = 3 lecture Hours. TSI Requirement: 351 R, 340 W.* Prerequisite(s): None

Required Textbook(s) and Materials: This course uses a free open-source e-textbook included in the course in PDF format. Students are required to have 3x5 index cards for presentations—other study materials as assigned. Details about information technology requirements will be provided in Blackboard.

Audience Requirements: Public speaking requires a live audience. Audience requirements in this course are non-negotiable. Any Performance Exam submission that does not meet these minimum requirements will not be graded. Depending on the assignment, students will either be required or given the option to meet one of the audience requirements below. (Requirements will be discussed during the course)

Pre-recorded Video (YouTube): Students record their presentations, upload them to YouTube, and submit them for review. **Five audience members** (age 8 or older) must be physically present in the same room, on Zoom, Facetime, or another remote meeting platform during the recording. Audience members must be shown in the first five seconds of the video. Pause long enough for them to be seen.

Course Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Teamwork Skills—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Speech 1315 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate effective usage of technology when researching and/or presenting speeches.
- Identify how culture, ethnicity and gender influence communication.
- Develop proficiency in presenting a variety of speeches as an individual or group (e.g. narrative, informative or persuasive).
- Research, develop and deliver extemporaneous speeches with effective verbal and nonverbal techniques.
- Demonstrate an understanding of the foundational models of communication.
- Demonstrate ethical speaking and listening skills by analyzing presentations for evidence and logic.

- Apply elements of audience analysis.

Required Activity: All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Performance Exam Requirements: All speeches must include a slide presentation of some sort. Google Slides, PowerPoint, Prezi, and others are options. You can have the slide show behind you on a TV or computer. You can also use in-line screen recording:

These links will help you:

<https://www.youtube.com/watch?v=wHZpZJWYj7M&t=1s>

https://www.youtube.com/watch?v=cFcj2rASx_k&t=15s

<https://www.youtube.com/watch?v=Q3we2EZVkY0>

<https://www.youtube.com/shorts/KC7CpJDalPO>

You should also dress in business casual for all speeches. This link explains what business casual is:

https://en.wikipedia.org/wiki/Business_casual

You also need to include the full transcript of each of your speeches. If you are missing the transcript, the speech will not be graded until the transcript is provided.

Course Requirements and Evaluation: Students will complete five Performance Exams, with Exam 5 serving as the Final Exam, along with five unit tests.

<u>Grade Evaluation:</u>					
Performance Exams		Additional Coursework			%
Speech of Introduction	5%	Tests	20%	90%-100%=	A
Speech Forum	10%	<u>Learning Activities</u>	<u>20%</u>	80%-89%=	B
Informative Speech	20%	Total	40%	70%-79%=	C
<u>Persuasive Speech (Final)</u>	<u>25%</u>			60%-69%=	D
Total	60%			0%-59%=	F

Course Policies:

- Documents must be submitted in .pdf format.
- Testing will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Performance exams will be scheduled in advance, and students are required to complete their presentation at the assigned date and time with all required elements included.
- At the instructor's discretion, missed performance exams or missing elements may be submitted by a new deadline by the instructor.

- Presentations submitted under this provision will receive a grade reduction.
- Failure to meet the new deadline will result in immediate failure with no further concessions.
- Internet access and/or software issues will not be taken into consideration for late submissions or missed testing. PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

SPCH 1315 25D0

Fundamentals of Public Speaking

Fall 2026

Instructor: Sarah Gonzales

Office: Virtual

Phone: 903-785-7661

Email: sgonzales@parisjc.edu

Office Hours: By Appointment

Course Description: Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students' speaking abilities, as well as ability to effectively evaluate oral presentations. *Credits: 3 SCH = 3 lecture Hours. TSI Requirement: 351 R, 340 W. Prerequisite(s): None*

Required Textbook(s) and Materials: This course uses a free open-source e-textbook included in the course in PDF format. Students are required to have 3x5 index cards for presentations—other study materials as assigned. Details about information technology requirements will be provided in Blackboard.

Audience Requirements: Public speaking requires a live audience. Audience requirements in this course are non-negotiable. Any Performance Exam submission that does not meet these minimum requirements will not be graded. Depending on the assignment, students will either be required or given the option to meet one of the audience requirements below. (Requirements will be discussed during the course)

Video Conference (Zoom): Students will present live during a scheduled Zoom session.

- **One adult audience member** (age 15 or older) must be physically present in the same room during the presentation.
- Classmates attending the Zoom session will serve as additional audience members.
- More details will be provided.
- ****This method of delivery is required for Speech of Introduction and Speech Forum. More details will be provided.****

Pre-recorded Video (YouTube): Students record their presentations, upload them to YouTube, and submit them for review.

Four adult audience members (age 15 or older) must be physically present in the same room during the recording. ****This option unavailable for the Speech of Introduction and Speech Forum. More details will be provided.****

Course Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Teamwork Skills—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Speech 1315 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate effective usage of technology when researching and/or presenting speeches.
- Identify how culture, ethnicity and gender influence communication.
- Develop proficiency in presenting a variety of speeches as an individual or group (e.g. narrative, informative or persuasive).
- Research, develop and deliver extemporaneous speeches with effective verbal and nonverbal techniques.
- Demonstrate an understanding of the foundational models of communication.
- Demonstrate ethical speaking and listening skills by analyzing presentations for evidence and logic.
- Apply elements of audience analysis.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- **Communication & Expression** Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- **Critical & Creative Thinking** — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- **Humanities & Cultural Literacy** — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- **Information Literacy** — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- **Personal & Civic Responsibility** — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Required Activity: All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Requirements and Evaluation: Students will complete four Performance Exams, with Exam 4 serving as the Final Exam, along with five unit tests.

<u>Grade Evaluation:</u>					
Performance Exams		Additional Coursework			%
Speech of Introduction	5%	Tests	20%	90%-100%=	A
Speech Forum	10%	<u>Learning Activities</u>	<u>20%</u>	80%-89%=	B
Informative Speech	20%	Total	40%	70%-79%=	C
<u>Persuasive Speech (Final)</u>	<u>25%</u>			60%-69%=	D
Total	60%			0%-59%=	F

Course Policies:

- Documents must be submitted in .pdf format.
- Testing will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Performance exams will be scheduled in advance, and students are required to complete their presentation at the assigned date and time with all required elements included.
- At the instructor's discretion, missed performance exams or missing elements may be submitted by a new deadline by the instructor.
 - Presentations submitted under this provision will receive a grade reduction.
 - Failure to meet the new deadline will result in immediate failure with no further concessions.
- Internet access and/or software issues will not be taken into consideration for late submissions or missed testing. Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted as long as it does not change the student's wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change: This syllabus is subject to change at any time. When changes are made students will be informed of the change by the Bb Blackboard announcement and PJC email

Course Schedule: *The instructor reserves the right to change the course schedule if deemed necessary. Students will be given advanced notice of alterations to the schedule. All updates will be reflected in the Blackboard Calendar tool.*

Business & Professional Communication

Fall 2026-Flex A

Instructor: Alex Peevy

Office: MB104 (Paris)

Phone: 903-782-0321

Email: apeevy@parisjc.edu

Office Hours

Mon-Thur

8:30-9:30a.m. 1:30-2:30p.m.

Zoom meetings may be scheduled upon request

Course Description: Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.

Credits: 3 SCH = 3 lecture Hours TSI Requirement: 351 R, 340 W. Prerequisite(s): None

Required Textbook(s) and Materials: This course uses a free open-source e-textbook included in the course in PDF format. Students are required to have 3x5 index cards for presentations—other study materials as assigned. Details about information technology requirements will be provided in Blackboard.

Audience Requirements: Public speaking requires a live audience. Audience requirements in this course are non-negotiable. Any Performance Exam submission that does not meet these requirements will not be graded. Depending on the assignment, students will either be required or given the option to meet one of the audience requirements below. (Requirements will be discussed during the course)

Video Conference (Zoom): Students will present live during a scheduled Zoom session with instructor and classmates for the Introduction of Self, the Facilitation Forum, and the Employment Interview. The Course final (persuasive presentation) requires an audience. One adult audience member if doing via Zoom, four adult audience members if doing via YouTube. *More details will be provided as we get closer to date.*

Course Goals and Objectives:

- Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Teamwork Skills—to Include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Speech 1321 Course-Level):

Upon successful completion of this course, students will:

- Utilize various technologies as they relate to competent communication.
- Demonstrate effective cross-cultural communication.
- Apply essential dyadic and small group processes as they relate to the workplace.
- Demonstrate communication competence and critical thinking through an understanding of the foundational communication models.
- Demonstrate written and oral competencies as it relates to employment (including job searches, interviews, interpersonal interaction, conflict management, leadership and performance appraisals.)
- Demonstrate essential public speaking skills in professional presentations.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- **Communication & Expression** Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- **Critical & Creative Thinking** — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- **Humanities & Cultural Literacy** — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- **Information Literacy** — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- **Personal & Civic Responsibility** — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Students will complete four major performance exams, four unit tests, and additional short learning activities throughout the term.

<u>Grade Evaluation:</u>					
Performance Exams		Additional Coursework			%
Introduction of Self	5%	Tests	20%	90%-100%=	A
Team Facilitation	10%	<u>Learning Activities</u>	<u>20%</u>	80%-89%=	B
Employment Interview	20%	Total	40%	70%-79%=	C
<u>Persuasive Presentation</u>	<u>25%</u>			60%-69%=	D
Total	60%			0%-59%=	F

Course Policies:

- Documents must be submitted in .pdf format.
- Testing will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Performance exams will be scheduled in advance, and students are required to complete their presentation at the assigned date and time with all required elements included.
- At the instructor's discretion, missed performance exams or missing elements may be submitted by a new deadline by the instructor.
 - Presentations submitted under this provision will receive a grade reduction.
 - Failure to meet the new deadline will result in immediate failure with no further concessions.
- Internet access and/or software issues will not be taken into consideration for late submissions or missed testing.

Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.

Class Attendance: Class attendance is critical for successfully completing this course. Students are expected to attend all scheduled class meetings and regularly access Blackboard.

- Up to three unexcused absences are permitted without an attendance penalty.
- The final course grade will be reduced by 5 percentage points for each additional unexcused absence.
- Students will not receive a passing grade if there are more than five absences.
- Arriving more than 15 minutes late or leaving more than 15 minutes early will count as an absence.
- Two late arrivals or early exits of 15 minutes or less will be recorded as one absence.
- Instructor-approved excused absences require documentation from an accepted source.
- Contact the instructor before the absence when possible, or immediately upon return, for more information
- Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Oct 1st.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

SPCH1321 20F0

Business & Professional Communication

Fall 2026-Flex B

Instructor: Alex Peevy

Office: MB104 (Paris)

Phone: 903-782-0321

Email: apeevy@parisjc.edu

Office Hours

Mon-Thur

8:30-9:30a.m. 1:30-2:30p.m.

Zoom meetings may be scheduled upon request

Course Description: Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.

Credits: 3 SCH = 3 lecture Hours TSI Requirement: 351 R, 340 W. Prerequisite(s): None

Required Textbook(s) and Materials: This course uses a free open-source e-textbook included in the course in PDF format. Students are required to have 3x5 index cards for presentations—other study materials as assigned. Details about information technology requirements will be provided in Blackboard.

Audience Requirements: Public speaking requires a live audience. Audience requirements in this course are non-negotiable. Any Performance Exam submission that does not meet these requirements will not be graded. Depending on the assignment, students will either be required or given the option to meet one of the audience requirements below. (Requirements will be discussed during the course)

Video Conference (Zoom): Students will present live during a scheduled Zoom session with instructor and classmates for the Introduction of Self, the Facilitation Forum, and the Employment Interview. The Course final (persuasive presentation) requires an audience. One adult audience member if doing via Zoom, four adult audience members if doing via YouTube. *More details will be provided as we get closer to date.*

Course Goals and Objectives:

- Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Teamwork Skills—to Include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Speech 1321 Course-Level):

Upon successful completion of this course, students will:

- Utilize various technologies as they relate to competent communication.
- Demonstrate effective cross-cultural communication.
- Apply essential dyadic and small group processes as they relate to the workplace.
- Demonstrate communication competence and critical thinking through an understanding of the foundational communication models.
- Demonstrate written and oral competencies as it relates to employment (including job searches, interviews, interpersonal interaction, conflict management, leadership and performance appraisals.)
- Demonstrate essential public speaking skills in professional presentations.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- **Communication & Expression** Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- **Critical & Creative Thinking** — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- **Humanities & Cultural Literacy** — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- **Information Literacy** — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- **Personal & Civic Responsibility** — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Students will complete four major performance exams, four unit tests, and additional short learning activities throughout the term.

<u>Grade Evaluation:</u>					
Performance Exams		Additional Coursework			%
Introduction of Self	5%	Tests	20%	90%-100%=	A
Team Facilitation	10%	<u>Learning Activities</u>	<u>20%</u>	80%-89%=	B
Employment Interview	20%	Total	40%	70%-79%=	C
<u>Persuasive Presentation</u>	<u>25%</u>			60%-69%=	D
Total	60%			0%-59%=	F

Course Policies:

- Documents must be submitted in .pdf format.
- Testing will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Performance exams will be scheduled in advance, and students are required to complete their presentation at the assigned date and time with all required elements included.
- At the instructor's discretion, missed performance exams or missing elements may be submitted by a new deadline by the instructor.
 - Presentations submitted under this provision will receive a grade reduction.
 - Failure to meet the new deadline will result in immediate failure with no further concessions.
- Internet access and/or software issues will not be taken into consideration for late submissions or missed testing.

Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Nov 24th.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted as long as it does not change the student's wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change: This syllabus is subject to change at any time. When changes are made students will be informed of the change by the Bb Blackboard announcement and PJC email

Course Schedule:

The instructor reserves the right to make changes to the course schedule if deemed necessary. Students will be given advanced notice of any alterations to the schedule.

<i>Week</i>	<i>Content Due</i>	<i>Due Date</i>	<i>Module Study</i>	<i>Chapter</i>

SPEECH 1315 25D1
Fundamentals of Public Speaking
Fall 26 - 16 weeks

Instructor: Rob Stanley
Office: Paris Campus Math Science
Phone: 903-782-0338 (office)
Meeting Times: Online

Meeting Location: Online
Meeting Days: Online
Email: rstanley@parisjc.edu
Office Hours: M-F 8:00am – 5:00pm

Course Description: Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students' speaking abilities, as well as ability to effectively evaluate oral presentations. Credits: SCH = 3

Required Textbook(s) and Materials:

Textbook: (PDF format, links to materials in each Unit)

Selected speaking genres for this Summer semester: Introduction, Informative, Inspirational, Instructional

What will you learn this semester? Student Learning Outcomes (Speech 1315 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate an understanding of the foundational models of communication.
2. Apply elements of audience analysis.
3. Demonstrate ethical speaking and listening skills by analyzing presentations for evidence and logic.
4. Research, develop and deliver extemporaneous speeches with effective verbal and nonverbal techniques.
5. Demonstrate effective usage of technology when researching and/or presenting speeches.
6. Identify how culture, ethnicity, and gender influence communication.
7. Develop proficiency in presenting a variety of speeches as an individual or group (e.g. narrative, informative, or persuasive)

Student Learning Outcomes (Speech Program-Level):

1. Demonstrate verbal, physical, and vocal elements consistent with acceptable fundamental speaking techniques and critically analyze other speaker's abilities.
2. Compose a structured verbal presentation utilizing an accepted outline format, verbal resources, and visual aids to add credibility to the speaker's message.
3. Utilize and define communication terms and principles as they apply to a one-on-one, public, and/or business setting

Course Schedule:

Important Dates: Class schedule

Syllabus quiz and PRCA-24 survey due September 8th

Unit One/Intro speech and Unit 1 test due September 29th

Unit Two/Special occasion speech and Unit 2 test due October 20th

Unit Three/Informative speech and Unit 3 test due November 10th

Unit Four/Pet Peeve speech with props and Unit 4 test due Dec 1st

Unit Five/ Persuasive speech and Unit 5 test due Dec 8

Above dates are approximate and may change based on class performance

Course Requirements and Evaluation:

During the course, students will complete five (5) major Performance Exams, one of which is the Final Exam for the course. Students will also compose short writing assignments of analysis.

Lastly, students will complete chapter quizzes contained in each unit and a syllabus quiz.

*Please note: This is a percentage-based course, not a points-based course. Each component-- Quizzes, Writing Assignments, and Performance Exams--makes up a percentage of the final course grade. Your grade is not complete until all components are graded. The six tests including the syllabus quiz accounts for 25% of the grade and the other 75% of the grade comes from the Performance exams that are weighted at 15% each. Blank copies of the rubrics used to grade Performance Exams and Writing Assignments in the course are available in Blackboard for students to view before submitting coursework. It is the student's responsibility to read and understand the grading procedures for the class. *

Grade Evaluation and Additional Coursework:

6 tests = 25%

TOTAL 25%

Performance Exams:

Exam 1: Speech of Introduction 15%

Exam 2: Special occasion speech 15%

Exam 3: Speech of Demonstration 15%

Exam 4: Pet Peeve Speech 15%

Exam 5: Persuasive Speech (Final) 15%

TOTAL 75%

*Please note: Performance Exams are the most heavily weighted grades.

Grading Scale: 90%-100% = A

80%-89% = B

70%-79% = C

60%-69% = D

0%-59%= F

Speech Presentations: For the "Live Audience on YouTube" Option, Please Note: *Performance Exam Videos that do not follow ALL the instructions in the "Tutorials for Successful Presentations" folder in the "START HERE" area on Blackboard will not be given consideration and will receive a grade of 0. Performance Exams submitted using this option without the instructor's approval will receive a grade of 0. *

*Performance Exam Videos submitted with an inattentive audience will not be given consideration and will receive a grade of 0. * *Performance Exam videos submitted without the minimum number must be approved prior to submission.

For Both Options, YouTube or Zoom, please note these Technology Requirements:

Access to a computer (desktop or laptop) and consistent, reliable access to the Internet are the student's responsibility. This course cannot be completed on a smart phone.

*Software: Adobe Acrobat Reader (free download at <https://get.adobe.com/reader/>), Microsoft PowerPoint, Microsoft Word, Firefox or Google Chrome as an internet browser, and a “YouTube” account.

Your professor does not accept ANY work turned in using Google tools (slides, doc, etc...).

Using a Google tool will result in an automatic ZERO “0” on the assignment. ***Please Note:** Apple and Google-based documents are NOT compatible with the course. Google Docs and Apple-based (ex: pages) attachments will receive a “0” if submitted, as they cannot be graded or plagiarism-checked through "Safe Assign" on Blackboard. Please use only Windows-based word processing and slideware programs or submit attachments in PDF format.

For your performance exams, you must have a Camera/Camera Phone/Smart Phone/Web Cam or any means of digitally recording and uploading content to your “YouTube” account. Recordings must be well-lit, clear, and of high enough video quality/resolution that you can be clearly seen and heard. YouTube privacy settings must be set to “unlisted.” Videos in which you are not clearly visible and audible will receive a grade of 0. Be sure to review your YouTube video links before submitting to ensure the link is working and will play your video when accessed.

Additional Materials: A pack of 4 x 6 note cards for speaking notes and a flash drive to store documents and visual aids

Technical Difficulties: Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until the deadline.

Course Policies & Faculty Classroom Policies:

Attendance Policy: Log into Blackboard daily, as you may receive messages, announcements are made often, coursework is due at intervals throughout the semester, new videos and content may become available, and changes may be made if needed.

Dragon Mail and Blackboard: Check your Dragon Mail daily. Be sure you are logging in to Blackboard daily to complete chapter readings and coursework, and to look for any new course announcements. All class correspondence will take place through PJC Dragon Mail and Blackboard.

Internet Access Requirement: Reliable access to the internet is the student’s responsibility. Lack of an internet connection will not be accepted as a reason to miss assignments or submit late work. Please monitor weather conditions carefully if internet service tends to be disrupted during storms and other inclement weather.

Audience Requirement: As stated previously, Public Speaking can only occur with an audience present.

All Performance Exams are required to have a minimum of four (4) adults or classmates (age 15+) to serve as an audience.

Timeliness of Assignments: All course work is due on the date specified by the instructor, as posted on the Course Calendar in Blackboard. Any work which is not turned in, including Performance Exams, will receive a grade of 0. Late work can only be submitted with the instructor’s approval. The last day to submit late/missing work with the instructor’s approval is March 1st.

Technical Difficulties: Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until the deadline.

Makeup Work:

1. The student is responsible for contacting the instructor regarding makeup work.
2. If a makeup submission is permitted for any assignment, the late work may be penalized and incur a deduction of 25% of the point value of the assignment, unless the work is accompanied with an acceptable documented excuse for absence (Example: documentation of hospital admittance or other documented emergency).
3. Weddings, birthdays, vacations, graduations, technical difficulties, etc. are not acceptable reasons to miss a due date.
4. Late submissions will not be accepted and earn an automatic grade of “0” if the student has not contacted the instructor for approval prior to submitting the assignment after the original due date.

Final Exam: Performance Exam 5 serves as the final exam and is a culmination and application of all the information in the course. No late submissions for the Final Exam are accepted for any reason.

Paris Junior College Policies: Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 12**.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory.

No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Official Report Date (ORD) or they are to be dropped from the course on the ORD. To remain enrolled in this course, students must actively participate in the course. **For the Fall 26 second 816week term, the ORD is September 8, 2026. Students must submit the Syllabus Quiz by September 8** to retain enrollment in the course. Failure to complete this quiz by the due date may result in being dropped from the course before the Official Report Date (ORD).

Last Date to Withdraw: **November 12, 2026** is the last date to drop the course and receive an automatic “W.” Withdrawal is the student’s responsibility.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your

reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Instructor: Rob Stanley, J.D.
Office: Math Science 111b
Phone: 903-782-0338
Email: rstanley@parisjc.edu
Office Hours: M-F 8:00A.M. – 5:00P.M.

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

The course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.

Credits: 3.3.0

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score below 945 and an ELAR Diagnostic Test score of 5 or 6 and an Essay Test score of 5 or higher.

Prerequisite(s): High school coursework in U.S. history and government, or equivalent.

Required Textbook(s) and Materials:

Law for Business; John Ashcroft, Katherine Ashcroft, and Martha Patterson; South-Western Cengage Learning, 2017, ISBN - 978-1-305-65492-1.

Course Goals and Objectives:

1. Describe the origins and structure of the U.S. legal system.
2. Describe the relationship of ethics and law in business.
3. Define relevant legal terms in business.
4. Explain basic principles of law that apply to business and business transactions.
5. Describe business law in the global context.
6. Describe current law, rules, and regulations related to settling business disputes.

Course Schedule: As soon as you log in please do the “First Assignment” – this allows me to know that you can access the course and that you are participating in the course – If you have not participated in the class and you have not done the syllabus quiz by 11:59 August 30th – you will be dropped from the course for non-participation. All work is done in Blackboard.

Week Of	TOPIC	ASSIGNMENTS
Aug 24	Chapters 1-4, Legal System & Environment	Read pages 2-45, review PowerPoints, complete homework assignment online
	Chapters 5-7, Contracts	Read pages 48-74, review PowerPoints, complete homework assignment online

Course Requirements and Evaluation:

Possible Points:

1. Class Assignments - 30% or 150 pts.
2. Ethics and Legal Case questions - 10% or 50pts.
3. Exams - 60% or 300 pts.

Grade Determination:

450 to 500 points	=	A
400 to 449 points	=	B
350 to 399 points	=	C
300 to 349 points	=	D
299 or below	=	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

*BUSI 2301.20F0
Business Law
Fall 2026 Flex B*

Instructor: Rob Stanley, J.D.
Office: Math Science 111b
Phone: 903-782-0338
Email: rstanley@parisjc.edu
Office Hours: M-F 8:00A.M. – 5:00P.M.

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

The course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.

Credits: 3.3.0

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score below 945 and an ELAR Diagnostic Test score of 5 or 6 and an Essay Test score of 5 or higher.

Prerequisite(s): High school coursework in U.S. history and government, or equivalent.

Required Textbook(s) and Materials:

Law for Business; John Ashcroft, Katherine Ashcroft, and Martha Patterson; South-Western Cengage Learning, 2017, ISBN - 978-1-305-65492-1.

Course Goals and Objectives:

1. Describe the origins and structure of the U.S. legal system.
2. Describe the relationship of ethics and law in business.
3. Define relevant legal terms in business.
4. Explain basic principles of law that apply to business and business transactions.
5. Describe business law in the global context.
6. Describe current law, rules, and regulations related to settling business disputes.

Course Schedule: As soon as you log in please do the “First Assignment” – this allows me to know that you can access the course and that you are participating in the course – If you have not participated in the class and you have not done the syllabus quiz by 11:59 October 25th – you will be dropped from the course for non-participation. All work is done in Blackboard.

Week Of	TOPIC	ASSIGNMENTS
October 19	Chapters 1-4, Legal System & Environment	Read pages 2-45, review PowerPoints, complete homework assignment online
	Chapters 5-7, Contracts	Read pages 48-74, review PowerPoints, complete homework assignment online
October 26	Chapters 8-10, Contracts	Read pages 77-107, review PowerPoints, complete homework assignment online, complete ethics question online
	Chapters 11-13, Contracts	Read pages 110-141, review PowerPoints, complete homework assignment online
November 2	Chapters 14-15, Personal Property	Read pages 150-174, review PowerPoints, complete homework assignment online
October 29-November 3	EXAM 1	Exam 1 covers Chapters 1 through 13
	Chapters 16-19, Sales	Read pages 182-230, review PowerPoints, complete homework assignment online, complete ethics question online
November 9	Chapters 20-22, Negotiable Instruments	Read pages 238-268, review PowerPoints, complete homework assignment online
	Chapters 23-24, Negotiable Instruments	Read pages 271-291, review PowerPoints, complete homework assignment online
November 16	Chapters 25-27, Agency and Employment	Read pages 300-331, review PowerPoints, complete homework assignment online, complete Case Studies online
November 12 – November 17	EXAM 2	Exam 2 covers Chapters 14 through 24
	Chapters 28, Agency and Employment	Read pages 334-349, review PowerPoints, complete homework assignment online
November 23	Chapters 29-31, Business Organizations	Read pages 358-389, review PowerPoints, complete homework assignment online
	Chapters 32-34, Business Organizations	Read pages 392-421, review PowerPoints, complete homework assignment online,

		complete Ethics question online
Nov 30	Chapters 35-38, Business Organizations	Read pages 430-473, review PowerPoints, complete homework assignment online
	Chapters 39-41, Read Property	Read pages 482-509, review PowerPoints, complete homework assignment online
	Chapters 42-43, Real Property	Read pages 512-538, review PowerPoints, complete homework assignment online
Dec 3 – Dec 7	FINAL EXAM	Final Exam covers Chapter 28 through 43

Course Requirements and Evaluation:

Possible Points:

1. Class Assignments - 30% or 150 pts.
2. Ethics and Legal Case questions - 10% or 50pts.
3. Exams - 60% or 300 pts.

Grade Determination:

450 to 500 points	=	A
400 to 449 points	=	B
350 to 399 points	=	C
300 to 349 points	=	D
299 or below	=	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Tuesday, October 1.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course # (CNBT 2310)
Course Title (Commercial/Industrial Blueprint Reading)
Fall A 2026

Instructor: Russell Dieterich

Office: WTC 1102

Phone: 903-782-0720

Email: rdieterich@parisjc.edu

Office Hours: M,W 8AM-10AM & 12PM-1PM

T,R 8AM-9AM & 12PM-1PM

Meeting Location: WTC 1213

Meeting Days: M,W & T,R

Meeting Times: 10AM-11:40AM & 9AM-9:50AM

Course Description:

Provides an integrated look at the practice of Blueprint reading for Commercial/Industrial construction.

Credits: 3 SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

Print Reading For Construction Author: Brown

Edition: 8th, © 2023

ISBN: 9781649259851

1 – Engineering Scale

1 – Architect Scale

Course Goals and Objectives:

Scale commercial/industrial prints with architectural and engineering scales; identify construction blueprint symbols and abbreviations; interpret a set of commercial/industrial construction contract documents; and correlate elevations, sections, details, plan views, schedules, and general notes.

Course Schedule:

Week Topic

Week 1 -Construction Drawing Organization

-Construction math and Application

Week 2 -Reading Measuring Tools and Using Scales

-Lines and Symbols

Week 3 -Fundamental Drawing Practices

-Specifications and Building Codes

-Construction Materials-Types and uses

Week 4 -Site Plans

-Site & Architectural Plans

Week 5 -Foundation & Structural Plans
-Residential Framing Plans
-Plumbing & HVAC Plans
Week 6 - Electrical Plans
Week 7 -Welding Plans
- Estimating Construction Cost / Review
Week 8 -Finals

Course Requirements and Evaluation:

Testing, 50% of total grade:

Attendance, 50% of total grade;

Beginning with the spring semester 2001, a grade of “D” will not be given. An average of 70 or above will be considered passing while a grade below 70 will be considered failing.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student.

Students are expected to be present at each class meeting for the entire session. Points lost for tardiness or for leaving class early: 5 minutes 1 point, 6 minutes to 20 minutes 10 points, 21 minutes to 30 minutes 20 points, 31 minutes to 45 minutes 30 points, over 45 minutes 100 points. Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Oct 1st*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI is Prohibited:

This course assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity do the writing of any substantive portion of an assignment for them, which includes hiring a person or a company to write assignments and using artificial intelligence tools like ChatGPT.

ADA Statement

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Oct 1st*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI is Prohibited:

This course assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity do the writing of any substantive portion of an assignment for them, which includes hiring a person or a company to write assignments and using artificial intelligence tools like ChatGPT.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change in the classroom.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

"For students in this course who may have a criminal background, please be advised that the background could keep you from being licensed by the State of Texas. If you have a question about your background and licensure, please speak with your faculty member or the department chair. You also have the right to request a criminal history evaluation letter from the applicable licensing agency."

SOCIAL SECURITY NUMBER – Social security number disclosure is required by Section 231.302(c)(1) of the Texas Family Code in order to obtain a license.

Course # (ELPT-1225)
Course Title (National Electrical Code I)
Fall B 2025

Instructor: Russell Dieterich

Office: WTC 1102

Phone: 903-782-0720

Email: rdieterich@parisjc.edu

Office Hours: 8AM-10AM &12PM-1PM

Meeting Location: WTC 1213

Meeting Days: MW

Meeting Times: 10AM – 11:40PM

Course Description:

An introductory study of the National Electric Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring design, protection, methods, and materials; equipment for general use; and basic calculations.

Credits: 2 SCH = 2 lecture

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

National Electrical Code 2026 ISBN # 978-1455932207 NFPA

Course Goals and Objectives:

Locate and interpret the sections in the NEC that pertain to electrical installations; calculate the size of conductors, boxes, raceways, and overcurrent protective devices for branch circuits supplying electrical equipment; calculate conductors, overcurrent protection, and service equipment as applied to building services; and compute the size of branch circuits, feeders, and equipment for motors.

Course Schedule:

Week Topic

1	Chapter 1	General
2	Chapter 2	Wiring and Protection
3,4,5	Chapter 3	Wiring Methods and Materials
6,7	Chapter 4	Equipment for General Use
8	Final Exam	

Course Requirements and Evaluation:

Testing, 50% of total grade:

Attendance, 50% of total grade;

Beginning with the spring semester 2001, a grade of "D" will not be given. An average of 70 or above will be considered passing while a grade below 70 will be considered failing.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 14th.

Students are expected to be present at each class meeting for the entire session. Points lost for tardiness or for leaving class early: 5 minutes 1 point, 6 minutes to 20 minutes 10 points, 21 minutes to 30 minutes 20 points, 31 minutes to 45 minutes 30 points, over 90 minutes 100 points. Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Oct 1st*.

Course # (ELPT-1411)
Course Title (Basic Electrical Theory)
Fall A 2026

Instructor: Russell Dieterich

Office: WTC 1102

Phone: 903-782-0720

Email: rdieterich@parisjc.edu

Office Hours: M,W 8AM-10AM & 12PM-1PM

T,R 8AM-9AM & 12PM-1PM

Meeting Location: WTC 1213

Meeting Days: TR

Meeting Times: 10AM – 4PM

Course Description:

Basic theory and practice of electrical circuits. Includes calculations as applied to alternating and direct current.

Credits: 4 SCH = 3 lecture and 3 laboratory

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

Electrical Principles and Practices 4th edition ISBN # 978-0-8269-1811-6

Glen A. Mazur, Peter A. Zurlis

UGLY'S Electrical References ISBN # 9781284315752

Jones & Bartlett

Tool Kit as provided with course

Course Goals and Objectives:

Explain atomic structure and basic values such as voltage, current, resistance, and power; determine electrical values for combination circuits in direct current (DC) and alternating current (AC) containing resistance, inductance, and capacitance; summarize the principles of magnetism; calculate voltage drop based on conductor length, type of material, and size; and utilize electrical measuring instruments. Basic theory and practice of electrical circuits. Includes calculations as applied to alternating and direct current.

Course Schedule:

Week Topic

1	Ch 1&2	Electrical Principles, Basic Quantities
2	Ch 3&4	Ohm's Law, Safety
3	Ch 5,6,8	Math Principles, Applications, Meter Abbreviations & Display
4	Ch 9,10,11	Taking Standard Measurement's, Symbols and Printreading Circuit Conductors, Connections & Protection
5	Ch 12,13,14	Series Circuits, Parallel Circuits, Series/Parallel Circuits
6	Ch 15,16,17	Transformers and Smart Grid Technology, Electric Motors Resistance, Inductance and Capacitance
7	Ch18,19,20,21	Circuit Requirements, Residential, Commercial, Industrial
8	Finals	

Course Requirements and Evaluation:

Testing, 50% of total grade:

Attendance, 50% of total grade;

Beginning with the spring semester 2001, a grade of "D" will not be given. An average of 70 or above will be considered passing while a grade below 70 will be considered failing.

Course # (ELPT-1429)
Course Title (Residential Wiring)
Fall B 2026

Instructor: Russell Dieterich

Office: WTC 1102

Phone: 903-782-0720

Email: rdieterich@parisjc.edu

Office Hours: 8AM-10AM & 12PM-1PM

Meeting Location: WTC 1213

Meeting Days: MTWR

Meeting Times: 1PM-4:20PM

Course Description:

Wiring methods for single family and multi-family dwellings. Includes load calculations, service entrance sizing, proper grounding techniques, and associated safety procedures.

Credits: 4 SCH = 2 lecture and 6 laboratory

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

Residential Wiring and Smart Home Technology

ISBN # 978-0-8269-1833-8

Gary J Rockis

Course Goals and Objectives:

Compute the circuit sizes needed for the installation of branch circuits, feeders, and service entrance conductors; explain the proper installation of wiring devices according to electrical codes; demonstrate grounding methods; install ground fault circuits; identify residential wiring methods; and demonstrate proper safety procedures.

Course Schedule:

Week Topic

1	Ch.1,2,3,4	Power Generation, Distribution, and Smart Grid Systems, Electrical Quantities, Voltage Sources, and Generators Service Entrances and Smart Meter Installation Electrical Grounding and Overcurrent Protection
2	Chapter 5,6,7	Electrical Safety, Tools, and Test Instruments Electrical Prints and Diagrams Electrical Connections
3	Chapter 8,9,10	Nonmetallic-Sheathed Cable Metallic- Sheathed Cable Conduit
4	Chapter 11,12	Receptacles Switches and Branch Circuit Installation
5	Chapter 13,14	Smart Home Infrastructure Security Systems and Smart Home Applications

6	Chapter 15,16	Fire Alarm Systems and Smart Home Applications Home Energy Management and Smart Home App.
7	Chapter 17	Lifestyle Applications of the Smart Home
8	Finals	

Course Requirements and Evaluation:

Testing, 50% of total grade:

Course # (ELPT-1221) Dual Credit
Course Title (Introduction to Electrical Safety and Tools)
Fall 2026

Instructor: David Hartman
Office: Greenville A122
Phone: 903-457-8738
Office Hours: 9:15AM-10AM

Meeting Location: Greenville A120
Meeting Days: MTWR
Meeting Times: 8:00AM to 9:15AM
Email: dhartman@parisjc.edu

Course Description:

Safety rules and regulations. Includes the selection, inspection, use, and maintenance of common tools for electricians.

Credits 2 SCH = 1 lecture and 3 laboratory hours

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

Electrical Safety a Practical Guide to OSHA and NFPA70E

Required Textbook(s) and Materials:

Electrical Safety a Practical Guide to OSHA and NFPA70E James R White ISBN# 9780826935816

Course Goals and Objectives:

Explain electrical hazards and how to avoid them in the workplace; discuss safety issues concerning lockout/tagout procedures; and demonstrate safe work habits using common hand and power tools for electricians

Course Schedule/Weekly Lesson Plan:

WEEK OF	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24	Chapter 1	Electrical Hazards and Basic Electrical Safety
8/31	Chapter 1	Electrical Hazards and Basic Electrical Safety
9/7	Chapter 2	Multi-Employer Worksites and Electrical Safety Programs
9/14	Chapter 2	Multi-Employer Worksites and Electrical Safety Programs
9/21	Chapter 3	Training of Qualified and Unqualified Workers
9/28	Chapter 3	Training of Qualified and Unqualified Workers
10/5	Chapter 4	Approach Boundaries for Shock and Arc Flash Hazards
10/12	Lab / Review	
10/14-10/15	Mid Term	Testing
10/19	Chapter 4	Approach Boundaries for Shock and Arc Flash Hazards
10/26	Chapter 5	Performing a Risk Assessment
11/2	Chapter 6	Establishing an Electrically Safe Work Condition
11/9	Chapter 7	Working on Energized Conductors and Circuit Parts
11/16	Chapter 8	Portable Electric Tools and Flexible Cords
11/23	Chapter 9	Selecting and Inspecting Personal Protective Equipment
11/30	Chapter 10	Guidelines for Common Electrical Tasks
12/7	Lab / Review	
12/9-12/10	Final	Testing

Course Requirements and Evaluation:

Testing, 25% of total grade/Attendance, 50% of total grade/Daily Grade 25% of total grade

Beginning with the spring semester 2001, a grade of "D" will not be given. An average of 70 or above will be considered passing while a grade below 70 will be considered failing.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

"For students in this course who may have a criminal background, please be advised that the background could keep you from being licensed by the State of Texas. If you have a question about your background and licensure, please speak with your faculty member or the department chair. You also have the right to request a criminal history evaluation letter from the applicable licensing agency."

SOCIAL SECURITY NUMBER – Social security number disclosure is required by Section 231.302(c)(1) of the Texas Family Code in order to obtain a license.

Casting I
Fall 2026

Instructor: Ms. Ashton Henderson
Office: AS 126
Phone: 903-782-0249
Email: ahenderson@parisjc.edu

Meeting Location: AS 126
Meeting Days: Monday through Thursday
Meeting Times: 8:00 a.m. to 4:30 p.m.

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.
Friday from 8:00 a.m. to 12:00 p.m.

Course Description:

An introduction to the Lost Wax Casting process – using injected wax models and/or resin models. Covering both the Centrifugal and Vacuum Casting processes.

Required Textbook(s) and Materials:

ISBN, Title, Author:

9780979996221, Jewelry Metals, MJSA Jewelry

978-0871922403, The Complete Metal-smith, Tim McCreight

978-0964355033, Jeweler's Resource, Bruce G. Knuth

978-097134952, The AJM Guide to Lost Wax Casting, Contributors of AJM Mag.

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Prepare projects for casting by spruing, investing and creating burning out models; describe units of weight and characteristics of metal alloys, wax and/or resin; calculate weight of metal alloy for casting; identify potential problem areas in models and spruing procedures; demonstrate basic jewelry casting processes and use of related materials and equipment; finish castings as jewelry pieces using industry standards.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (ahenderson@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students are expected to remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment, &/or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Use of college equipment and supplies for *private use or gain* is **strictly prohibited**.
2. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
3. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
4. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
5. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's

responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 October 19 th – 22 nd	Casting Process/ Demos	The Casting Process & The Wax Process Lectures
Week 2 October 26 th – 29 th	Gents Flat Top Ring	The Investment Process Lecture
Week 3 November 2 nd – 5 th	Channel Ring	How to Cast – Using the Centrifugal & Vacuum Casting Processes
Week 4 November 9 th – 12 th	Square Bright Cut Ring	How to Cast – Using the Centrifugal & Vacuum Casting Processes (Continued)
Week 5 November 16 th – 19 th	7 Stone Cluster Tops & 5 Stone Fishtail Ring	How to Water Blast Flasks Lecture
Week 6 November 23 rd – 24 th	Gents Oval Bezel Ring	How to Clean up Castings Lecture
Week 7 November 30 th – December 3 rd	Bright Cut Wedding Band	How to Clean up Castings Lecture (Continued)
Week 8 December 7 th – 10 th	7 Stone Cluster Ring & Final Exam	Final Exam

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.
Friday from 8:00 a.m. to 12:00 p.m.

Meeting Location: AS 126 & AS 117
Meeting Days: Monday through Thursday
Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description

Introduction to stone setting with an emphasis on precision placement, secure mounting, and prevention of stone damage through proper use of tools.

Required Textbook(s) and Materials

Jewelry Making by Murray Bovin **ISBN-13:** 978-0910280013
The Complete Metal-smith by Tim McCreight **ISBN13:** 978-0871922403
The Theory & Practice of Goldsmithing by Erhard Brehol **ISBN-13:** 978-0961598495
MJSA Lost Wax Casting by MJSA press **ISBN** 0-9713495-2-5
Second Semester Jewelry Tool Kit
All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives

Distinguish between the various types of stone setting styles & it's required tools; including gravers, prong pushers, burnishers, and burs; classify tools by application; demonstrate how to modify tools for fit and use; prepare rings for stone setting; & properly set stones with prongs and surface-setting methods.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable

accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>
For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 August 24 th – 27 th	Faceted Round Stones, Burs, Gravers, & Prong Pushers	Anatomy of a Faceted Round Stone, Burs, Gravers, & Prong Pushers Lecture
Week 2 August 31 st – September 3 rd	4 Prong Rings – Assembly & Setting the Stone	Fabricate, Assemble, & Set the Stone – 4 Prong Ring Lecture
Week 3 September 8 th – 10 th	4 Prong Rings – Assembly & Setting the Stone (Continued)	Fabricate, Assemble, & Set the Stone – 4 Prong Ring Lecture (Continued)
Week 4 September 14 th – 17 th	6 Prong Rings – Assembly & Setting the Stone	Fabricate, Assemble, & Set the Stone – 6 Prong Ring Lecture
Week 5 September 21 st – 24 th	6 Prong Rings – Assembly & Setting the Stone (Continued)	Fabricate, Assemble, & Set the Stone – 6 Prong Ring Lecture (Continued)
Week 6 September 28 th – October 1 st	Square Bright Cut Ring	How to set the Stone in a Square Bright Cut Ring Lecture
Week 7 October 5 th – 8 th	Square Bright Cut Ring (Continued) & Gents Hexagon Bright Cut Ring	How to set the Stone in a Square Bright Cut Ring Lecture (Continued) & How to set the Stone in a Gents Hexagon Bright Cut Ring Lecture
Week 8 October 12 th – 15 th	Gents Hexagon Bright Cut Ring (Continued) & Final Exam	How to set the Stone in a Gents Hexagon Bright Cut Ring Lecture (Continued) & Review for Final Exam

**JLRY 1342.10B0
Stone Setting II
Fall 2026**

**Instructor: Ms. Ashton Henderson
Mrs. Serina Omori**

**Office: (Ms. Ashton Henderson): AS 126
(Mrs. Serina Omori): AS 117**

**Phone: (Ms. Ashton Henderson): 903-782-0249
(Mrs. Serina Omori): 903-782-0363**

Email: ahenderson@parisjc.edu & somori@parisjc.edu

**Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.
Friday from 8:00 a.m. to 12:00 p.m.**

Meeting Location: AS 126 & AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Continuation of Stone Setting I - using advanced stone setting techniques used in fine jewelry. Focus on setting single and multiple round faceted gemstones in various style mountings.

Required Textbook(s) and Materials:

Jewelry Making by Murray Bovin **ISBN-13:** 978-0910280013

The Complete Metal-smith by Tim McCreight **ISBN13:** 978-0871922403

The Theory & Practice of Goldsmithing by Erhard Brehol **ISBN-13:** 978-0961598495

MJSA Lost Wax Casting by MJSA press **ISBN** 0-9713495-2-5

Second Semester Jewelry Tool Kit

All Handouts are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Distinguish between the various types of stone setting styles & it's required tools; including gravers, prong pushers, burnishers, and burs; classify tools by application; demonstrate how to modify tools for fit and use; prepare rings for stone setting; & properly set stones with prongs and surface-setting methods.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (ahenderson@parisjc.edu or somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 August 24 th – 27 th	Re-Tip, Re-Prong, & Re-Bead	How to Re-Tip a 6 Prong Ring, How to Re-Prong a 4 Prong Ring, & How-To Re-Bead a Bright Cut Ring Lecture
Week 2 August 31 st – September 3 rd	Ladies Channel Set Ring	Ladies Channel Set Ring Lecture
Week 3 September 8 th – 10 th	Ladies Channel Set Ring (Continued)	Ladies Channel Set Ring Lecture (Continued)
Week 4 September 14 th – 17 th	Ladies 4 Prong Illusion Top Solitaire Ring	Ladies 4 Prong Illusion Top Solitaire Ring Lecture
Week 5 September 21 st – 24 th	Ladies 4 Prong Illusion Top Solitaire Ring (Continued)	Ladies 4 Prong Illusion Top Solitaire Ring Lecture (Continued)

Week 7 October 5 – 8 th	Ladies 4 Prong Fishtail Solitaire Ring (Continued)	Ladies 4 Prong Fishtail Solitaire Ring Lecture (Continued)
Week 8 October 12 th – 15 th	Final Exam	Review for Final Exam

JLRY 1343.10B0/JLRY1343.10C0
Stone Setting IV
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Continuation of Precious Metals II with an emphasis on advanced setting techniques including pave and a comprehensive review of bench techniques.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Create projects in precious metal alloys; attach precious metal findings to shanks and mountings; set stones; finish project to industry standards; layout, drill, seat, and bead set multiple stones in common pave arrangements; display work ethics and characteristics valued by the jewelry industry.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment,

working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student will be dismissed for the entire class day. The missed time will be recorded in the class roll as

absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>
For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student will be dismissed for the entire class day. The missed time will be recorded in the class roll as

absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>
For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

JLRY 1348.10B0
Jewelry Repair & Fabrication I
Fall 2026

Instructor: Ms. Ashton Henderson
Office: AS 126
Phone: 903-782-0249
Email: ahenderson@parisjc.edu

Meeting Location: AS 126
Meeting Days: Monday through Thursday
Meeting Times: 8:00 a.m. to 4:30 p.m.

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.
Friday from 8:00 a.m. to 12:00 p.m.

Course Descriptions

Emphasis upon techniques, fabrication, and repair of jewelry. Students will be introduced to various equipment and techniques of jewelry manufacturing.

Required Textbook(s) and Materials

ISBN, Title, Author:

9780979996221, Jewelry Metals, MJSA Jewelry

978-0871922403, The Complete Metal-smith, Tim McCreight

978-0964355033, Jeweler's Resource, Bruce G. Knuth

978-0-9799962-2-1, Jewelry Metals, James Binnon

Second Semester Jewelry Tool Kit

All Handouts are posted on Blackboard for the student's convenience

Course Goals and Objectives

Assess damage of metalwork and determine repair procedures; fabricate mountings using accurate soldering, sawing, and filing techniques; polish and apply finishes/textures to jewelry items; forge & properly assemble moving parts together; fabricate jewelry for everyday wear; explain pricing guidelines; identify types of solders used in the jewelry industry; & explain the processes used to manufacture gold-filled, rolled gold plate.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (ahenderson@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's

responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

Office: AS 126

Phone: 903-782-0249

Email: ahenderson@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m.

Meeting Location: AS 126

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description

Continuation of Jewelry Repair/Fabrication I with emphasis on techniques, fabrication, and repair of jewelry.

Required Textbook(s) and Materials

ISBN, Title, Author:

9780979996221, Jewelry Metals, MJSA Jewelry

978-0871922403, The Complete Metal-smith, Tim McCreight

978-0964355033, Jeweler's Resource, Bruce G. Knuth

978-097134952, The AJM Guide to Lost Wax Casting, Contributors of AJM Mag.

Second Semester Jewelry Tool Kit

All Handouts are posted on Blackboard for the student's convenience

Course Goals and Objectives

Assess damage of metal work & determine the proper repair procedures; continue skills learned through polishing; demonstrate knowledge of how to layout & drill pilot holes; continuation of becoming proficient in ring sizing - up & down; fabricate mountings using accurate soldering, sawing and filing techniques; fit and solder chain together for repairs - as well as, attach findings; identify types of solders used in the jewelry industry; explain the processes used to manufacture gold-filled, rolled gold plate; & explain the nature of jewelry repair - how to assess the jewelry properly that is needing repair, how to problem solve, & how to complete the task correctly and efficiently.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (ahenderson@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable

accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>
For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 August 24 th – 27 th	Polish Wedding Bands & Gents Flat Top Rings	Polish Wedding Bands & Gents Flat Top Rings Lecture
Week 2 August 31 st – September 3 rd	Drilling Pilot Holes in Wedding Bands	Drilling Pilot Holes in Wedding Bands Lecture
Week 3 September 8 th – 10 th	Drilling Pilot Holes in Gents Flat Top Rings	Drilling Pilot Holes in Gents Flat Top Rings Lecture
Week 4 September 14 th – 17 th	Drilling Pilot Holes in Gents Flat Top Rings (Continued)	Drilling Pilot Holes in Gents Flat Top Rings Lecture (Continued)
Week 5 September 21 st – 24 th	Textures & Finishes	Textures & Finishes Lecture
Week 6 September 28 th – October 1 st	Re-Tip, Re-Prong, & Re-Bead	How to Re-Tip a 6 Prong Ring, How to Re-Prong a 4 Prong Ring, & How-To Re-Bead a Bright Cut Ring Lecture
Week 7 October 5 th – 8 th	Electroplating	Electroplating Lecture
Week 8 October 12 th – 15 th	Final Exam	Review for Final Exam

Casting II
Fall 2026**

Instructor: Ms. Ashton Henderson
Office: AS 126
Phone: 903-782-0249
Email: ahenderson@parisjc.edu

Meeting Location: AS 126
Meeting Days: Monday through Thursday
Meeting Times: 8:00 a.m. to 4:30 p.m.

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.
Friday from 8:00 a.m. to 12:00 p.m.

Course Description

A continuation of Casting I to refine and expand casting skills through the Lost Wax Casting process.

Required Textbook(s) and Materials

ISBN, Title, Author:

9780979996221, Jewelry Metals, MJSA Jewelry

978-0871922403, The Complete Metal-smith, Tim McCreight

978-0964355033, Jeweler's Resource, Bruce G. Knuth

978-097134952, The AJM Guide to Lost Wax Casting, Contributors of AJM Mag.

Second Semester Jewelry Tool Kit

All Handouts are posted on Blackboard for the student's convenience

Course Goals and Objectives

Prepare injected wax models and/or resin models for casting; use wax injectors and/or 3D prints to reproduce multiple copies of patterns; sprue, invest, and cast single or multiple objects at once in metal using the centrifugal and vacuum casting processes; transform raw castings into jewelry pieces using individual and mass-finishing methods that are up to the jewelry industries standards.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. 5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Security of Personal Projects:

In preparation for the workforce; each student will be issued an assigned project box that is to be left in the instructor's office. All projects need to be deposited into the student's project box at the end of each day. The project box will contain all of the metal being used for projects.

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructor's office each morning.

3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's

responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 October 19 th – 22 nd	Gents Hexagon Rings	How to Clean up Castings Lecture (Continued)
Week 2 October 26 th – 29 th	Ring Shanks	How to Clean up Castings Lecture (Continued)
Week 3 November 2 nd – 5 th	Ring Guard	How to Clean up Castings Lecture (Continued)
Week 4 November 9 th – 12 th	Tube Rings	How to Clean up Castings Lecture (Continued)
Week 5 November 16 th – 19 th	Cathedral Basket Head (Finding)	How to Clean up Castings Lecture (Continued)
Week 6 November 23 rd – 24 th	6 Prong Head (Finding)	How to Clean up Castings Lecture (Continued)
Week 7 November 30 th – December 3 rd	4 Prong Head & 4 Prong Fishtail Head (Findings)	How to Clean up Castings Lecture (Continued)
Week 8 December 7 th – 10 th	4 Prong Illusion Top (Finding) & Casting Technical Final Exam	Review for Casting Technical Final Exam

JLRY 2335.10B0/JLRY2335.10C0
Precious Metals I
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Application of jewelry-making techniques using precious metals, with an emphasis on assembly and/or multiple setting styles. Includes an introduction to types of welding used in the industry for fabrication and repair such as laser welding and pulse arc welding.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Create projects in precious metals; assemble complex project components such as attaching heads and setting stones within tolerances; demonstrate soldering and/or welding techniques used with precious metals; describe the characteristics and uses of precious metals prevalent in the jewelry industry; explain regulatory guidelines that govern the jewelry industry; finish all projects to industry standards.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

PRECIOUS METALS (GOLD AND PLATINUM)**Class Procedures:**

Paris Junior College recognizes that certain inevitable losses of metal occur during sawing, filing and polishing activities that may or may not be subsequently recovered. Therefore, the school will accept a set percentage of metal loss for each project. Examples listed below:

1. 9% loss on pave'

2. 6% loss on bright cuts

3. 4% loss on all other projects

Losses over the set allowable percentage will be billed to students at the school's current metal price.

Broken Stones and melted or over-burred findings will have to be replaced by the student with request from the gold room at current prices. The original (ruined) findings are then the students' property and may be used by weight for credit against gold loss.

Students will collect their bench filings and place all bench filings in the plastic jar on their bench daily; bench filings are considered part of the allowable loss and are the property of the college.

Metal recovered from buffing machine filters, traps, floor sweeps, casting machine and crucibles, vacuum cleaner, etc. are part of the percentage loss factor and are property of the college.

Metal issued to the student remains the property of the college and it is the responsibility of the student to return it.

When working with gold, students may only use 14k cadmium-free solders. Students are not allowed to use gold other than that issued by TIJT. Students may not purchase their projects; students should instead document their work using the photo studio in the classroom to build a portfolio.

Any metal (including but not limited to projects, grain, stock, wire, buttons and shot) found in the classroom by a student must be turned in to the instructor immediately.

In the rare case of metal contamination, all the metal for that project will be returned to the gold room and new metal will be issued. The student is responsible for gold loss on both issues of metal as well as for the findings.

Students may ask to be issued metal for up to five projects at a time. This makes it extremely important that students keep the metal separated according to the projects, especially buttons and sprues after casting. It is the responsibility of the student to keep buttons and all other metal with the correct project envelopes.

Buttons and sprues must be returned to the gold room immediately after they have been removed from the castings. The weight of the button and sprues is recorded on the job envelope for credit to the student. It is not the gold room clerk's job to sort out switched/misplaced buttons.

Project envelopes used in the precious metals classroom are triple copy job envelopes designed and printed by Jewelers of America as they are used in our industry.

Metal weight, findings and stones issued to the student are recorded on the envelope; students sign the envelope to acknowledge that they received the metal, findings and stones. The contents of the envelope are then the responsibility of the student.

The top copy (original) is removed and stays in the gold room. The second copy stays on the envelope and in the student's possession. After casting and as soon as the button and sprues have been removed from the project, the student must return them to the gold room. The clerk will put the weight of the returned button and sprues on the copy (original) and on the student's copy (attached to envelope).

After the project has been graded, the student will return the project, and all material issued with the project to the gold room for calculation of metal loss.

If the gold loss exceeds the allowable percentage for that project, Students will receive a Student Gold Loss Invoice that is due to be paid within 7 days. This is paid to the tool room clerk through the small window in the classroom Monday –Thursday 8am to 11am and 1pm to 4pm; they will receive two paid receipts; one must be given to the gold room clerk to verify that gold loss has been paid the other one is for students' records. Students will not be issued additional gold if unpaid gold loss exceeds \$40.00.

Abbreviation of documentation on job envelopes:

“I” is for issued “R” is for returned “IF” is for issued finding “B” is for button
“NG” is for new gold “S” is for shot

Gold room Office Hours: 8:00 a.m. until 9:30 a.m. 2:30 p.m. until 5:00 p.m.

Recasting:

If a student needs to recast a project, they must first get the instructor's approval. The instructor will sign the back of the project envelope to indicate to the gold room clerk that a recast is approved. The student will then return all the original metal to the gold room clerk, it will be checked for quality, and then 10% new metal will be issued to the student for the new casting. This will ensure the karat and quality of the recast. It is best to submit a new metal request slip with the original project envelope to ensure the correct amount of metal is issued.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student

will be dismissed for the entire class day. The missed time will be recorded in the class roll as absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PROJECT SCHEDULE

JLRY 2335.10B0: August 24th- October 15th, 2026 (Flex A)
JLRY 2335.10C0: October 19th-December 10th, 2026 (Flex B)

Day 1	800-Chain Repair	Weave 4 chains (issued) together and solder. <u>(Inject waxes and invest to cast first 2-3 projects)</u>
Day 2	820- 9 Stone Pave	Cast one bronze square top ring and pave set 9- 3mm round stones. Bright cut the outer edge and milligrain. [9-3mm round]
Day 4	804- Laser Weld Screws	Tack, Weld and smooth the backs of two steel screws together.
Day 5	801-Six Prong Peg Head Solitaire	Cast one 14KY gold ring shank; attach 1-14KW gold 6 prong head (issued) , and set stone. [1-5.5mm czs]
Day 7	802-Wedding Set	Cast ring 802 (engagement ring) and 802A(wedding band) in 14KY gold. Fit and solder 14KW gold 4 prong peg head (issued) in engagement ring. Size up, set the stone, solder the set together. [1-5mm cz] <u>After 1st grading, re-tip 2 prongs and turn in for 2nd grade.</u>
Day 8	803-Three Stone Channel Ring	Cast one 14KY gold ring. Size down and channel set three stones. [1-3.5mm, 1- 3mm, 1-2.5mm cz]

Day 10	805-Freeform Ring	Cast one 14KY gold ring; attach 4-14KW gold 4 prong heads (issued) , size down and set stones. [1-3.5mm, 3-3mm czs]
Day 12	806-Bright cut setting	Cast one 14KY gold ring and size up. Bead set and bright cut five stones. [5-2mm cz]
Day 15	Test	

JLRY 2335.10B0/JLRY2335.10C0
Precious Metals I
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Application of jewelry-making techniques using precious metals, with an emphasis on assembly and/or multiple setting styles. Includes an introduction to types of welding used in the industry for fabrication and repair such as laser welding and pulse arc welding.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Create projects in precious metals; assemble complex project components such as attaching heads and setting stones within tolerances; demonstrate soldering and/or welding techniques used with precious metals; describe the characteristics and uses of precious metals prevalent in the jewelry industry; explain regulatory guidelines that govern the jewelry industry; finish all projects to industry standards.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the

instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

PRECIOUS METALS (GOLD AND PLATINUM)**Class Procedures:**

Paris Junior College recognizes that certain inevitable losses of metal occur during sawing, filing and polishing activities that may or may not be subsequently recovered. Therefore, the school will accept a set percentage of metal loss for each project. Examples listed below:

1. 9% loss on pave'

2. 6% loss on bright cuts

3. 4% loss on all other projects

Losses over the set allowable percentage will be billed to students at the school's current metal price.

Broken Stones and melted or over-burred findings will have to be replaced by the student with request from the gold room at current prices. The original (ruined) findings are then the students' property and may be used by weight for credit against gold loss.

Students will collect their bench filings and place all bench filings in the plastic jar on their bench daily; bench filings are considered part of the allowable loss and are the property of the college.

Metal recovered from buffing machine filters, traps, floor sweeps, casting machine and crucibles, vacuum cleaner, etc. are part of the percentage loss factor and are property of the college.

Metal issued to the student remains the property of the college and it is the responsibility of the student to return it.

When working with gold, students may only use 14k cadmium-free solders. Students are not allowed to use gold other than that issued by TIJT. Students may not purchase their projects; students should instead document their work using the photo studio in the classroom to build a portfolio.

Any metal (including but not limited to projects, grain, stock, wire, buttons and shot) found in the classroom by a student must be turned in to the instructor immediately.

In the rare case of metal contamination, all the metal for that project will be returned to the gold room and new metal will be issued. The student is responsible for gold loss on both issues of metal as well as for the findings.

Students may ask to be issued metal for up to five projects at a time. This makes it extremely important that students keep the metal separated according to the projects, especially buttons and sprues after casting. It is the responsibility of the student to keep buttons and all other metal with the correct project envelopes.

Buttons and sprues must be returned to the gold room immediately after they have been removed from the castings. The weight of the button and sprues is recorded on the job envelope for credit to the student. It is not the gold room clerk's job to sort out switched/misplaced buttons.

Project envelopes used in the precious metals classroom are triple copy job envelopes designed and printed by Jewelers of America as they are used in our industry.

Metal weight, findings and stones issued to the student are recorded on the envelope; students sign the envelope to acknowledge that they received the metal, findings and stones. The contents of the envelope are then the responsibility of the student.

The top copy (original) is removed and stays in the gold room. The second copy stays on the envelope and in the student's possession. After casting and as soon as the button and sprues have been removed from the project, the student must return them to the gold room. The clerk will put the weight of the returned button and sprues on the copy (original) and on the students copy (attached to envelope).

After the project has been graded, the student will return the project, and all material issued with the project to the gold room for calculation of metal loss.

If the gold loss exceeds the allowable percentage for that project, Students will receive a Student Gold Loss Invoice that is due to be paid within 7 days. This is paid to the tool room clerk through the small window in the classroom Monday –Thursday 8am to 11am and 1pm to 4pm; they will receive two paid receipts; one must be given to the gold room clerk to verify that gold loss has been paid the other one is for students' records. Students will not be issued additional gold if unpaid gold loss exceeds \$40.00.

Abbreviation of documentation on job envelopes:

“I” is for issued “ R” is for returned “IF” is for issued finding “B” is for button
“NG” is for new gold “S” is for shot

Gold room Office Hours: 8:00 a.m. until 9:30 a.m. 2:30 p.m. until 5:00 p.m.

Recasting:

If a student needs to recast a project, they must first get the instructor's approval. The instructor will sign the back of the project envelope to indicate to the gold room clerk that a recast is approved. The student will then return all the original metal to the gold room clerk, it will be checked for quality, and then 10% new metal will be issued to the student for the new casting. This will ensure the karat and quality of the recast. It is best to submit a new metal request slip with the original project envelope to ensure the correct amount of metal is issued.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student

will be dismissed for the entire class day. The missed time will be recorded in the class roll as absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PROJECT SCHEDULE

JLRY 2335.10B0: August 24th- October 15th, 2026 (Flex A)
JLRY 2335.10C0: October 19th-December 10th, 2026 (Flex B)

Day 1	800-Chain Repair	Weave 4 chains (issued) together and solder. <u>(Inject waxes and invest to cast first 2-3 projects)</u>
Day 2	820- 9 Stone Pave	Cast one bronze square top ring and pave set 9- 3mm round stones. Bright cut the outer edge and milligrain. [9-3mm round]
Day 4	804- Laser Weld Screws	Tack, Weld and smooth the backs of two steel screws together.
Day 5	801-Six Prong Peg Head Solitaire	Cast one 14KY gold ring shank; attach 1-14KW gold 6 prong head (issued) , and set stone. [1-5.5mm czs]
Day 7	802-Wedding Set	Cast ring 802 (engagement ring) and 802A(wedding band) in 14KY gold. Fit and solder 14KW gold 4 prong peg head (issued) in engagement ring. Size up, set the stone, solder the set together. [1-5mm cz] <u>After 1st grading, re-tip 2 prongs and turn in for 2nd grade.</u>
Day 8	803-Three Stone Channel Ring	Cast one 14KY gold ring. Size down and channel set three stones. [1-3.5mm, 1- 3mm, 1-2.5mm cz]

Day 10	805-Freeform Ring	Cast one 14KY gold ring; attach 4-14KW gold 4 prong heads (issued) , size down and set stones. [1-3.5mm, 3-3mm czs]
Day 12	806-Bright cut setting	Cast one 14KY gold ring and size up. Bead set and bright cut five stones. [5-2mm cz]
Day 15	Test	

JLRY 2336.10B0/JLRY2336.10C0
Precious Metals II
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Continuation of Precious Metals I with a focus on productivity, incorporating precision elements such as mechanisms, fancy-shaped stone settings, and/or highly symmetric structures, with and introduction to working with platinum.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Construct projects in gold and/or platinum alloys; assemble components such as: gold heads, shanks, mechanisms, and mountings; set round and fancy-shaped stones in heads and mountings; finish and polish projects to industry standards; describe the unique characteristics of platinum family metals; apply best practices when working with platinum.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment,

working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

PRECIOUS METALS (GOLD AND PLATINUM)

Class Procedures:

Paris Junior College recognizes that certain inevitable losses of metal occur during sawing, filing and polishing activities that may or may not be subsequently recovered. Therefore, the school will accept a set percentage of metal loss for each project. Examples listed below:

1. 9% loss on pave'
2. 6% loss on bright cuts

3. 4% loss on all other projects

Losses over the set allowable percentage will be billed to students at the school's current metal price.

Broken Stones and melted or over-burred findings will have to be replaced by the student with request from the gold room at current prices. The original (ruined) findings are then the students' property and may be used by weight for credit against gold loss.

Students will collect their bench filings and place all bench filings in the plastic jar on their bench daily; bench filings are considered part of the allowable loss and are the property of the college.

Metal recovered from buffing machine filters, traps, floor sweeps, casting machine and crucibles, vacuum cleaner, etc. are part of the percentage loss factor and are property of the college.

Metal issued to the student remains the property of the college and it is the responsibility of the student to return it.

When working with gold, students may only use 14k cadmium-free solders. Students are not allowed to use gold other than that issued by TIJT. Students may not purchase their projects; students should instead document their work using the photo studio in the classroom to build a portfolio.

Any metal (including but not limited to projects, grain, stock, wire, buttons and shot) found in the classroom by a student must be turned in to the instructor immediately.

In the rare case of metal contamination, all the metal for that project will be returned to the gold room and new metal will be issued. The student is responsible for gold loss on both issues of metal as well as for the findings.

Students may ask to be issued metal for up to five projects at a time. This makes it extremely important that students keep the metal separated according to the projects, especially buttons and sprues after casting. It is the responsibility of the student to keep buttons and all other metal with the correct project envelopes.

Buttons and sprues must be returned to the gold room immediately after they have been removed from the castings. The weight of the button and sprues is recorded on the job envelope for credit to the student. It is not the gold room clerk's job to sort out switched/misplaced buttons.

Project envelopes used in the precious metals classroom are triple copy job envelopes designed and printed by Jewelers of America as they are used in our industry.

Metal weight, findings and stones issued to the student are recorded on the envelope; students sign the envelope to acknowledge that they received the metal, findings and stones. The contents of the envelope are then the responsibility of the student.

The top copy (original) is removed and stays in the gold room. The second copy stays on the envelope and in the student's possession. After casting and as soon as the button and sprues have been removed from the project, the student must return them to the gold room. The clerk will put the weight of the returned button and sprues on the copy (original) and on the students copy (attached to envelope).

After the project has been graded, the student will return the project, and all material issued with the project to the gold room for calculation of metal loss.

If the gold loss exceeds the allowable percentage for that project, Students will receive a Student Gold Loss Invoice that is due to be paid within 7 days. This is paid to the tool room clerk through the small window in the classroom Monday –Thursday 8am to 11am and 1pm to 4pm; they will receive two paid receipts; one must be given to the gold room clerk to verify that gold loss has been paid the other one is for students' records. Students will not be issued additional gold if unpaid gold loss exceeds \$40.00.

Abbreviation of documentation on job envelopes:

“I” is for issued “ R” is for returned “IF” is for issued finding “B” is for button
“NG” is for new gold “S” is for shot

Gold room Office Hours: 8:00 a.m. until 9:30 a.m. 2:30 p.m. until 5:00 p.m.

Recasting:

If a student needs to recast a project, they must first get the instructor's approval. The instructor will sign the back of the project envelope to indicate to the gold room clerk that a recast is approved. The student will then return all the original metal to the gold room clerk, it will be checked for quality, and then 10% new metal will be issued to the student for the new casting. This will ensure the karat and quality of the recast. It is best to submit a new metal request slip with the original project envelope to ensure the correct amount of metal is issued.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student

will be dismissed for the entire class day. The missed time will be recorded in the class roll as absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PROJECT SCHEDULE

JLRY 2336.10B0: August 24th- October 15th, 2026 (Flex A)
JLRY 2336.10C0: October 19th-December 10th, 2026 (Flex B)

Day 1	810-Five Stone Channel Ring	Cast one 14KY gold ring. Size up, set 5 stones. [5-2.5mm czs]
Day 3	808-Three Stone Baguette Rings	Cast 2-14KY gold rings (808). Size up one ring, set 3 straight baguettes in each ring. [6-3x2mm czs]
Day 5	811-Hollow Ball Earrings	Solder 14KY posts to 14KY hollow domes, both (issued).
Day 6	812-Marquise/Baguette Wedding Set	Cast one 14KY gold engagement ring (812), and one 14KY gold wedding ring (812A). Size down, set stones and solder rings together. [1-10x5mm, 2-4 x 1.5 x 1mm, 2-4.5 x 2.5 x 1.5mm]
Day 9	813- Oval Bezel/Flush set Ring	Cast one 14KY gold ring. Bezel set oval stone, flush set 2 round stones on each side of oval stone. [1-8x6mm, 2-3mm]
Day 11	814-Princess Cut Solitaire Ring	Cast one 14KW gold “V” prong princess head, cast one 14KW ½ round shank. Assemble, size down and set stone. [1-4x4mm]

Day 13	815-Platinum Band	Cut platinum band (issued) in three places: weld one joint, and solder two joints with different temperature solders. Or fabricate a band from ½ round stock issued. Must have one weld and two solder joints.
Day 14	Lecture/Assignment	Take in Procedures
Day 15	Test	

JLRY 2338.10B0/JLRY2338.10C0
Precious Metals IV
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Continuation of Precious Metals III with emphasis on shop practices and bench techniques promoting speed, quality, and employability.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Cast/fabricate, set, and finish all projects in precious metals, including casting of wax and/or resin models, assembly of findings, stone setting, and advanced fabrication; build a portfolio and prepare an industry-specific resume.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar

items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

PRECIOUS METALS (GOLD AND PLATINUM)

Class Procedures:

Paris Junior College recognizes that certain inevitable losses of metal occur during sawing, filing and polishing activities that may or may not be subsequently recovered. Therefore, the school will accept a set percentage of metal loss for each project. Examples listed below:

1. 9% loss on pave'
2. 6% loss on bright cuts

3. 4% loss on all other projects

Losses over the set allowable percentage will be billed to students at the school's current metal price.

Broken Stones and melted or over-burred findings will have to be replaced by the student with request from the gold room at current prices. The original (ruined) findings are then the students' property and may be used by weight for credit against gold loss.

Students will collect their bench filings and place all bench filings in the plastic jar on their bench daily; bench filings are considered part of the allowable loss and are the property of the college.

Metal recovered from buffing machine filters, traps, floor sweeps, casting machine and crucibles, vacuum cleaner, etc. are part of the percentage loss factor and are property of the college.

Metal issued to the student remains the property of the college and it is the responsibility of the student to return it.

When working with gold, students may only use 14k cadmium-free solders. Students are not allowed to use gold other than that issued by TIJT. Students may not purchase their projects; students should instead document their work using the photo studio in the classroom to build a portfolio.

Any metal (including but not limited to projects, grain, stock, wire, buttons and shot) found in the classroom by a student must be turned in to the instructor immediately.

In the rare case of metal contamination, all the metal for that project will be returned to the gold room and new metal will be issued. The student is responsible for gold loss on both issues of metal as well as for the findings.

Students may ask to be issued metal for up to five projects at a time. This makes it extremely important that students keep the metal separated according to the projects, especially buttons and sprues after casting. It is the responsibility of the student to keep buttons and all other metal with the correct project envelopes.

Buttons and sprues must be returned to the gold room immediately after they have been removed from the castings. The weight of the button and sprues is recorded on the job envelope for credit to the student. It is not the gold room clerk's job to sort out switched/misplaced buttons.

Project envelopes used in the precious metals classroom are triple copy job envelopes designed and printed by Jewelers of America as they are used in our industry.

Metal weight, findings and stones issued to the student are recorded on the envelope; students sign the envelope to acknowledge that they received the metal, findings and stones. The contents of the envelope are then the responsibility of the student.

The top copy (original) is removed and stays in the gold room. The second copy stays on the envelope and in the student's possession. After casting and as soon as the button and sprues have been removed from the project, the student must return them to the gold room. The clerk will put the weight of the returned button and sprues on the copy (original) and on the student's copy (attached to envelope).

After the project has been graded, the student will return the project, and all material issued with the project to the gold room for calculation of metal loss.

If the gold loss exceeds the allowable percentage for that project, Students will receive a Student Gold Loss Invoice that is due to be paid within 7 days. This is paid to the tool room clerk through the small window in the classroom Monday –Thursday 8am to 11am and 1pm to 4pm; they will receive two paid receipts; one must be given to the gold room clerk to verify that gold loss has been paid the other one is for students' records. Students will not be issued additional gold if unpaid gold loss exceeds \$40.00.

Abbreviation of documentation on job envelopes:

“I” is for issued “ R” is for returned “IF” is for issued finding “B” is for button
“NG” is for new gold “S” is for shot

Gold room Office Hours: 8:00 a.m. until 9:30 a.m. 2:30 p.m. until 5:00 p.m.

Recasting:

If a student needs to recast a project, they must first get the instructor's approval. The instructor will sign the back of the project envelope to indicate to the gold room clerk that a recast is approved. The student will then return all the original metal to the gold room clerk, it will be checked for quality, and then 10% new metal will be issued to the student for the new casting. This will ensure the karat and quality of the recast. It is best to submit a new metal request slip with the original project envelope to ensure the correct amount of metal is issued.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student

will be dismissed for the entire class day. The missed time will be recorded in the class roll as absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PROJECT SCHEDULE

JLRY 2338.10B0: August 24th- October 15th, 2026 (Flex A)

JLRY 2338.10C0: October 19th-December 10th, 2026 (Flex B)

Day 1	825-Buttercup Earrings	Set stones in 14KY earrings (issued). [2-2.5mm czs]
Day 2	826-Emerald Cut Ring	Cast one 14KY ring and set stones. [1-10x8mm, 24-1.5mm]
Day 5-11	Capstone Test	Directions given in class
Day 12	827- Hand carved Wax Ring	Lay out, carve and finish a hand carved wax model as specified on assigned design. <u>This project can be cast with silver casting grain purchased from the tool room.</u>

JLRY 2338.10B0/JLRY2338.10C0
Precious Metals IV
Fall 2026

Instructor: Serina Omori

Office: AS 116

Phone: 903-782-0363

Email: somori@parisjc.edu

Office Hours: Monday through Thursday from 8:00 a.m. to 4:30 p.m.

Friday from 8:00 a.m. to 12:00 p.m. by appointment

Meeting Location: AS 117

Meeting Days: Monday through Thursday

Meeting Times: 8:00 a.m. to 4:30 p.m.

Course Description:

Continuation of Precious Metals III with emphasis on shop practices and bench techniques promoting speed, quality, and employability.

Required Textbook(s) and Materials:

Jeweler's Resource, ISBN 13: 978-0964355033

The Complete Metalsmith, ISBN13: 978-0871922403

Jewelry Metals, ISBN 13: 978-0979996221

The AJM Guide to Lost Wax Casting: ISBN 0-9713495-2-5

Diamond Setting, The Professional Approach: 978-0961354510

First Semester Jewelry Tool Kit

Second Semester Jewelry Tool Kit

All Handouts, PowerPoints, & Videos are posted on Blackboard for the student's convenience

Course Goals and Objectives:

Cast/fabricate, set, and finish all projects in precious metals, including casting of wax and/or resin models, assembly of findings, stone setting, and advanced fabrication; build a portfolio and prepare an industry-specific resume.

Course Requirements and Evaluation:

To achieve a Certificate and/or an Associate Degree in Jewelry - a student must have accumulated a 2.0 grade point average (GPA). A grade of at least "D" (60%) is required for completion of all Jewelry Technology courses. To receive credit for a Jewelry course, students must complete all projects listed in the instructor's guide for that course. A grade of "D" (60%), or higher is required to complete a project in order to advance to the next project. Projects, that were graded lower than a "60" must be started over from the beginning. On occasions, the instructor may allow a project to be modified to a passing grade. Projects with modifications will be re-graded two times at maximum. If the project is not modified to a passing grade at this time, the project turns into a "redo". After performing the modification, the original integrity of the project must have been maintained. Dates and order of the projects may differ from the syllabus at the instructor's discretion.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory training:

- I. Alcohol & Other Drugs
- II. Sexual Assault Prevention for Community College Students
- III. Mental Well-Being for Students

Students are responsible for completing all assigned training by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor to receive credit for this requirement. Failure to complete the training and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated *by the student*.

Students are expected to arrive on time and are expected to be properly prepared to engage appropriately with course content. The student's active participation in classroom discussions, activities, and projects is an essential and critical part of the course.

Class attendance, whether in-person or virtual, is required and expected for successful class performance.

An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; if there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as meet with the instructor to receive any missed assignment(s)/lectures/exams.

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom.

If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Jewelry Program Absence Policies and Professionalism:

Jewelry program absence policies in no way voids, modifies, or circumvents Paris Junior College Class Attendance policies.

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor via email (somori@parisjc.edu) by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, or a doctor's note/receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar

items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.

10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Tests/Essays:

Test and/or Essays will be graded on the accuracy of the answers and content on a scale from 0 to 100. Test and/or Essays must be completed to pass the course. A final test/essay will be given at the end of each course. Dates for midterms and final tests will be listed on the course project schedules, will be listed in Blackboard, and/or will be announced in person verbally during class.

The Course Grade is compiled as follows:

Project Average:	70%
Workplace Ethics:	20%
Written Final:	10%
Final Course Grade:	100%

Grade Scale:	A: 90-100%
	B: 80-89%
	C: 70-79%
	D: 60-69%
	F: 0-59%
	X: Incomplete

Incomplete Course Work:

To qualify for an incomplete: the student must have **completed 75%** of the required projects by the end of the course. Incomplete course work must be completed by the end of the *next long semester*, or the grade of **X** will turn to an **F**.

Students with an incomplete are responsible for setting up a schedule with the instructor to complete the course work. The maximum allotted time to finish incomplete course work is **28 hours**.

If the student completes the required projects to a grade of "60" or better by the end of the scheduled allotted time, the student will then be assigned a course grade.

Friday Lab Time Requirements:

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety:

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video producing or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security:

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

PRECIOUS METALS (GOLD AND PLATINUM)

Class Procedures:

Paris Junior College recognizes that certain inevitable losses of metal occur during sawing, filing and polishing activities that may or may not be subsequently recovered. Therefore, the school will accept a set percentage of metal loss for each project. Examples listed below:

1. 9% loss on pave'
2. 6% loss on bright cuts

3. 4% loss on all other projects

Losses over the set allowable percentage will be billed to students at the school's current metal price.

Broken Stones and melted or over-burred findings will have to be replaced by the student with request from the gold room at current prices. The original (ruined) findings are then the students' property and may be used by weight for credit against gold loss.

Students will collect their bench filings and place all bench filings in the plastic jar on their bench daily; bench filings are considered part of the allowable loss and are the property of the college.

Metal recovered from buffing machine filters, traps, floor sweeps, casting machine and crucibles, vacuum cleaner, etc. are part of the percentage loss factor and are property of the college.

Metal issued to the student remains the property of the college and it is the responsibility of the student to return it.

When working with gold, students may only use 14k cadmium-free solders. Students are not allowed to use gold other than that issued by TIJT. Students may not purchase their projects; students should instead document their work using the photo studio in the classroom to build a portfolio.

Any metal (including but not limited to projects, grain, stock, wire, buttons and shot) found in the classroom by a student must be turned in to the instructor immediately.

In the rare case of metal contamination, all the metal for that project will be returned to the gold room and new metal will be issued. The student is responsible for gold loss on both issues of metal as well as for the findings.

Students may ask to be issued metal for up to five projects at a time. This makes it extremely important that students keep the metal separated according to the projects, especially buttons and sprues after casting. It is the responsibility of the student to keep buttons and all other metal with the correct project envelopes.

Buttons and sprues must be returned to the gold room immediately after they have been removed from the castings. The weight of the button and sprues is recorded on the job envelope for credit to the student. It is not the gold room clerk's job to sort out switched/misplaced buttons.

Project envelopes used in the precious metals classroom are triple copy job envelopes designed and printed by Jewelers of America as they are used in our industry.

Metal weight, findings and stones issued to the student are recorded on the envelope; students sign the envelope to acknowledge that they received the metal, findings and stones. The contents of the envelope are then the responsibility of the student.

The top copy (original) is removed and stays in the gold room. The second copy stays on the envelope and in the student's possession. After casting and as soon as the button and sprues have been removed from the project, the student must return them to the gold room. The clerk will put the weight of the returned button and sprues on the copy (original) and on the student's copy (attached to envelope).

After the project has been graded, the student will return the project, and all material issued with the project to the gold room for calculation of metal loss.

If the gold loss exceeds the allowable percentage for that project, Students will receive a Student Gold Loss Invoice that is due to be paid within 7 days. This is paid to the tool room clerk through the small window in the classroom Monday –Thursday 8am to 11am and 1pm to 4pm; they will receive two paid receipts; one must be given to the gold room clerk to verify that gold loss has been paid the other one is for students' records. Students will not be issued additional gold if unpaid gold loss exceeds \$40.00.

Abbreviation of documentation on job envelopes:

“I” is for issued “ R” is for returned “IF” is for issued finding “B” is for button
“NG” is for new gold “S” is for shot

Gold room Office Hours: 8:00 a.m. until 9:30 a.m. 2:30 p.m. until 5:00 p.m.

Recasting:

If a student needs to recast a project, they must first get the instructor's approval. The instructor will sign the back of the project envelope to indicate to the gold room clerk that a recast is approved. The student will then return all the original metal to the gold room clerk, it will be checked for quality, and then 10% new metal will be issued to the student for the new casting. This will ensure the karat and quality of the recast. It is best to submit a new metal request slip with the original project envelope to ensure the correct amount of metal is issued.

Project Grading/Boxes:

Students must deposit completed projects that are ready to be graded into the instructor's grade box. All other projects need to be deposited into the student's metal project box and placed on the vault cart at 4:15pm. Students that leave projects out overnight, or leave their project boxes at their bench overnight, will not be able to return to class until after the first break the next morning. Should this occur a second time, the student may not return to the classroom until after lunch. If the box or the projects are left out for the third time, the student

will be dismissed for the entire class day. The missed time will be recorded in the class roll as absences and will be reflected in the work ethics grade. Take care to only handle your own projects if you see another student has left out their work, please notify the instructor.

Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in locked metal project boxes.

Projects are not allowed outside the classroom.

Personal Property and Accessories:

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.

Phone & Earbud Usage Policy:

With instructor permission - students may use their phones to listen to music, podcasts, or audiobooks while working independently at their designated bench. Only *one* earbud may be worn at a time, so students remain aware of announcements or emergencies. Phones may not be used for watching videos, visual content, or taking calls during class. If phone use becomes a distraction, interferes with instruction, &/or the students work – this privilege may be revoked.

Work Benches/Classroom Maintenance:

1. Each student's workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - *all* students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment:

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner & are responsible for returning them to where they belong.
3. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
4. Any special tools supplied by an instructor should be returned upon request or at the end of the day.
- 5.

Damage/Loss of Equipment or Other School Property:

Students may incur additional charges for damage to school property; including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code:

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and will be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Disrespect for Authority:

Failure to comply with instructions and directions of college officials and/or law enforcement officers acting in the performance of their duties; or any student who fails to heed a summons to report to an administrative official or instructor's office will not be condoned and subjects himself/herself to immediate disciplinary action from the college.

Use of Tobacco, Food, or Drink:

1. Smoking, vaping, or use of alcohol or drugs is not allowed in any classroom area. Tobacco in any form is not allowed.
2. Food is prohibited in the classrooms. Drinks must have a lid that closes and should be kept off the bench at all times.

Artificial intelligence (AI):

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made, students will be notified through *verbal discussion in person during class*, through *Blackboard*, and/or through the *students PJC email*.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

Included is a link to the PJC IT Checklist, and I encourage you to work through it the first week of class: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For computer or log in issues - please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PROJECT SCHEDULE

JLRY 2338.10B0: August 24th- October 15th, 2026 (Flex A)

JLRY 2338.10C0: October 19th-December 10th, 2026 (Flex B)

Day 1	825-Buttercup Earrings	Set stones in 14KY earrings (issued). [2-2.5mm czs]
Day 2	826-Emerald Cut Ring	Cast one 14KY ring and set stones. [1-10x8mm, 24-1.5mm]
Day 5-11	Capstone Test	Directions given in class
Day 12	827- Hand carved Wax Ring	Lay out, carve and finish a hand carved wax model as specified on assigned design. <u>This project can be cast with silver casting grain purchased from the tool room.</u>

English IV Dual Credit
ENGL1301 Section 790
(Fall 2026)

Instructor: Barbara McGill
Office: PHS Room 2411
Phone: (903) 737-7400
Email: bmcgill@parisjc.edu

Meeting Location: PHS Room 2411
Meeting Days: M-F
Meeting Times: 1st, 2nd, and 5th periods

ENGL Courses Requirements/Guidelines: ENGL 1301

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Textbooks:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase. For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

☐ Fall Main: Flex 1 Term: 9/10/2026

Kirszner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 16th ed. Bedford/St. Martin's, 2024, ISBN: 9781319411817

Novel of instructor's choice – Instructor may require physical copies of the novels, may allow e-books, and/or may provide links to free copies from open source.

Focus:

Nonfiction essays/readings, modes of writing, MLA documentation, and fictional novel

Required Assignments:

*Minimum of 5 full essays, various modes

*Documented essay (**using MLA documentation** and applying the assessment rubric)—at least 1 of the 5 essays

*Final exam exemptions

- students with 4 or fewer absences and an essay average of 80 or higher **may** be exempted from the final exam;
- remaining students will write a 5th essay at the time of the final and the grade will replace the lowest essay grade of the first 4 essays;
- the 5th essay grade will also count as the final exam grade;
- averages for exempted students will not include a final exam grade

- the exemption is not mandatory; students may choose to write the 5th essay LAB (in Blackboard)—instructor's choice of grade value;
- must fall in 15%-25% range of entire course grade;
- automatic grading of quizzes and averaging by Bb to create a single LAB grade

Credits: 3 SCHs

TSI Requirement: Reading, 340+; Writing 4 or above

Required Lab Statements for Course Syllabi:

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Course Goals and Objectives:

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.

5. Use Edited American English in academic essays.

Course Schedule:

Week 1-Lesson 1.1: Monday, August 25th Completion of the Style, Punctuation, and Mechanics Diagnostic pre-test (click ENGL 1301 Lab link) is required to remain enrolled in the course. You will be dropped from the course if the pre-test is not completed.

Week 2-Lesson 1.2: Monday, August 24th

Week 3-Lesson 1.3: Monday, August 31st

Week 4-Lesson 1.4: Tuesday, September 8th

Week 5-Lesson 1.5: Monday, September 14th

Week 6-Unit II: Novel and Research Paper; Lesson 2.1: Monday, September 21st

Week 7-Lesson 2.2: Monday, September 28th

Week 8-Lesson 2.3: Monday, October 5th h

Week 9-Research paper

Week 10-Research paper

Week 11-Unit III: Exemplification Essay and Final Exam; Lesson 3.1: Monday, November 2nd

Week 12-Lesson 2.4: Monday, November 9th

Week 13-Lesson 2.6: Monday, November 16th

Week 14-Exemplification paper

Week 15-Exemplification paper

Week 16-Lesson 3.2: Monday, December 4th (Final Exams)

Course Requirements and Evaluation:

Methods of Course Instruction/Delivery:

Writing assignments and exercises, in-class writing or editing workshops, group work, class discussions, tests, quizzes (quizzes may be announced or unannounced), lecture, and reading.

Semester Grade Determination:

Writing (Narration, Description, Exemplification)	30%
Argumentation Essay (Required)	15%
Quizzes and Peer Reviews	10%
Novel Exam	10%
Lab Exercises (Located in Blackboard)	15%
Participation/Discussion (includes in-class work)	10%
Final Essay	10%
Total:	100%

Both the final exam and the documented argumentative essay are required; failure to complete either one will result in failure of the course.

Evaluation rubrics are posted in BB for each writing assignment & at the end of this document.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

English AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Required AI Statement for ALL ENGL Courses:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Biol 1322 40J0
Nutrition and Diet Therapy
Fall 2026 - Flex B

Instructor: Dr. Jeanmarie Stiles
Office: Greenville Center, room 208
Phone: 903-457-8717
Email: jstiles@parisjc.edu

Meeting Location: GC 218
Meeting Days: TR
Meeting Times: 1:00-2:15 PM

Office Hours: MW 12:30-3; TR 11-1; 2:30-3. To best serve you, please email before visiting the Greenville Center so we can schedule an in-person meeting at my office or arrange for a phone conversation.

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Credits: SCH = 3 Lecture

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and McGraw Hill via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will not need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account.
<https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Biol 1322 is Smith: *Connect for Wardlaw's Contemporary Nutrition* 12th edition with Proctorio+. It will be delivered digitally in your Blackboard Ultra course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date**.

- 1) Go to Opt-out portal
- 2) Create an account using your student email account
- 3) Select the course(s) you are choosing to Opt-Out of
- 4) You can also opt-out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

In addition to McGraw-Hill access, a properly functioning computer with a stable internet connection is needed. Online students will need a webcam (internal or external) and microphone. If taking a traditional face to face course, bring a folder with loose leaf paper, pen, pencil, and dry erase marker to each class. Purchase one package of scantrons #882e at the beginning of the semester as well as two pencils with erasers to bring to every test and quiz.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Learning Outcomes

Upon successful completion of this course, students will:

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.
2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.
3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Assignment	Points
Introductory assignments	5
12 homework assignments at 30 points each	360
Scientific Inquiry Group Project	40
12 Chapter quizzes at 15 points each	180
4 Exams at 90 points each	360
Metric quiz	20
Nutrition Calc Plus Project 7 day diet tracking	35
Total	1000

Course Curve: 5 pts will be added to your total points earned if all course work has been sincerely attempted and submitted on time. This is how course points equate to your final letter grade:

Grading Scale

A - 900 points and higher

B - 800 points and higher

C - 700 points and higher

D - 600 points and higher

F – 599 points and below

Total Course Points = 1000, so if you earn 862/1000 pts that is an 86.2 or B avg. See the Gradebook tab within Blackboard for a list of all grades. Each assignment clearly indicates the point value and high scores are taken on MGH assignments with 2 attempts.

Orientation/Introductory Assignments are crucial to help you navigate the course. Other lecture activities such as discussion boards, worksheets, and video assignments may be found within the lecture folders of the Blackboard shell (not MGH).

Chapter Homework Assignments involve 12 assignments at 30 pts each = 360pts. Do these assignments after reading your chapter and try your best. They are not timed and you can do a little work at a time and then return later. You may see similar questions again on your unit exams.

Metric Quiz is 20 pts, allows for only 1 attempt, and is proctored. This quiz has ten questions. Review the metric system before attempting this quiz, especially the practice problem set. You will be asked to complete various conversions. No notes, calculator, etc. may be used during this quiz.

Lecture Exams are timed, proctored and predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- 1 attempt- 90pts

Exam 2- 1 attempt- 90pts

Exam 3- 1 attempt- 90pts

Exam 4 is the comprehensive final exam - 1 attempt- 90pts

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later! Likewise, there will not be time to search for answers. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered.

Scientific Inquiry Group Assignment is found on Blackboard (not MGH) and is worth 40pts. You will be assigned to a group. Information pertaining to this project is posted to your course and will be explained after ORD. This is a lengthy assignment that involves working with a team and is carefully graded. Review the rubric for details and consider sending a draft to your instructor for review to obtain maximum points. Allow one week for review.

This is a challenging course, but you have an excellent chance of success if you complete all assignments on time and try your best. Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as an unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, then you will be directed to MGH Connect where you must register for the MGH Connect course. A MGH folder is posted within the Start Here section of your course. If you have trouble getting access, give MGH staff a call immediately. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment and all other MGH assignments and exams. In addition, you must **complete the syllabus quiz prior to the college official reporting Day (ORD), Oct. 27, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.**

When registering in MGH Connect, enter your PJC e-mail and select a password. Here is a link to set up your PJC email if you do not have yours activated yet:

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units, including the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (recall some similar questions in the homework may reappear on your unit exams), and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Every student should come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand.

Rules for all written assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Make-Up Work: If you miss a major exam due to an emergency, at the instructor's discretion, you may be allowed to take a make-up exam. If you are aware of a pending absence from class, notify your instructor as early as possible. You may be able to take the exam early with instructor approval. If permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours.

Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit an exam/assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5% deduction per day, you may be given permission to submit homework assignments and quizzes up to two weeks late.

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Late assignments and exams will not be accepted one week prior to the final exam. Under no circumstances may the final exam be taken late. Most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, email is the preferred method of communication. Always use your PJC email and include your full name and course number with all correspondences. Due to federal student privacy laws, grades cannot be discussed via email. Select the My Grades tab within your course to review your grades. You can expect a reply to your email within 24 hours, Monday - Friday 8:00 am – 3:00 pm.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be

initiated by the student. The last day to withdraw from a course with a grade of **“W” is Nov. 24.** Failure to officially withdraw will result in your receiving a grade of F.

Class Conduct:

Do not photograph or make a video of the class lectures/labs or your instructor. Turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence: (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by in-class announcement, Bb announcement, and/or e-mail.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Due 1 PM	Unit	Lesson	Lecture

	4		Unit 4 Exam is the final exam Thursday, Dec. 10, 1-2:15

Exam 4 is the Final Exam and only covers Chapters 10,11,12.

Biol 1322.460
Nutrition and Diet Therapy
Fall 2026

Instructor: Justin Anderton

Lab Room: A127

Email: Justin.Anderton@commerceisd.org

Meeting Location: Commerce HS

Meeting Days: Mon-Fri

Tutoring Hours: Wednesday from 4pm- 5pm

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Credits: SCH = 3 Lecture

Prerequisite(s): none

Required Textbook(s) and Materials:

Smith's - Wardlaw's Contemporary Nutrition 24 w/ Proctorio + (Connect 180-day access)

By: Collene

Edition: 12th

ISBN: 9781265225216

Author: Collene

Publisher: MCGRAW HILL (CUSTOM PUBLISHING)

Formats: Adobe Digital Editions

Publication Date: TBD

****If you do not want the hard copy book you can use the e-book that comes with the connect plus code for the above text and you do not have to purchase the hard copy book. You will also need an up to date computer with a stable internet connection. Important: you must have an access code and register on McGraw Hill Connect to complete most of the work in this course and to access your assignments.**

Required Materials:

1 ½ inch Binder

12 Tab Dividers

1 subject notebook.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.

2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.

3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Learning Outcomes

Upon successful completion of this course, students will:

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.

2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.

3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.

4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.

5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.

6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Exam 5 is the Final Exam and covers concepts from **ALL CHAPTERS**. This schedule is tentative. Test dates are announced in class.

Unit 1

Chapter 1 – Nutrition Food Choices and Health

Chapter 2 – Designing a Healthy Eating Pattern

Chapter 3 – The Human Body: A Nutrition Perspective

Unit 2

Chapter 4 – Carbohydrates

Chapter 5 – Lipids

Chapter 6 – Proteins

Unit 3

Chapter 7 – Energy Balance and Weight Control Alcohol

Chapter 8 – Vitamins

Chapter 9 – Water and Minerals

Unit 4

Chapter 10 – Nutrition: Fitness and Sports

Chapter 11 – Eating Disorders

Chapter 12 – Protecting Our Food Supply

Course Requirements and Evaluation: Evaluation Methods:

All SMARTBOOK, quizzes, and exams must be accessed through Blackboard. When you click on your first McGraw Hill assignment in Black Board it will ask you to register and you will either provide the code you have already purchased or you can buy one at that time with a credit card. Any assignments accessed outside of your Blackboard page will not award you credit and I will not be responsible for the assignment of point values to be found and moved back into Blackboard. Therefore, only access assignments from your Blackboard course page.

Students will be given the following opportunities to demonstrate knowledge of class material:

Assignment	Points
4 Article Summaries 20points each	80
12 Smart book homework assignments at 10 points each	120
12 Chapter quizzes at 10 points each	120
4 Exams at 100 points each	400
Nutrition Tracker Analysis Assignment	100
Final Exam	180
Total	1000

Late Assignments will not be accepted...

Grading Scale:

Points	Letter Grade
900 - 1000	A
800 – 899	B
700 – 799	C
600 – 699	D
0 – 599	F

Because the course has a total of 1000 points, it is easy to calculate your grade. For example, if at the end of the course you have a total of 850 points you have managed to earn 85% of the total points available. This means you have an 85 in the class or a B letter grade.

Midterm Grade: PJC instructors are required to enter mid-term grades by **(October16th)**. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are submitted. They do not directly impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working for them. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work: If you miss a major exam due to an emergency, at the instructor's discretion, you may be allowed to take a comprehensive make-up exam. You are only allowed to miss one exam. If you are aware of a pending absence from class, notify your instructor as early as possible. You may be able to take the exam early with instructor approval. If permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours.

Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit an exam/assignment as scheduled, email your instructor with documentation

and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5 percent deduction per day, you may be given permission to submit homework assignments and quizzes up to two weeks late.

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Late assignments and exams will not be accepted one week prior to the final exam. Under no circumstances may the final exam be taken late. Most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Policies

Every student should come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand.

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

McGraw Hill Technical Help Line 1-800-331-5094

PJC Computer Help Desk 903-782-0496

Instructor/Student communication: Email is the best form of communication outside of class. I will respond within 24 business hours, Monday-Friday 9am-5pm. If you do not get a reply from me within that time period, then I probably did not receive your email. You must email me from your PJC Dragon mail, not Blackboard messages or some other email. Always make sure your full name and course number are included in the email. If for some reason you cannot get through to me with an email, please call during office hours.

All Students must have a PJC Dragon email account and check it frequently along with adequate access to a computer connected to the internet. **Correspondence for the course will be sent to your Dragon email address.** Students must use appropriate language in all emails, class discussions, and postings. Paris Jr. College is not responsible for faulty intermittent internet connections belonging to students. Intermittent internet connections can sometimes cause issues on timed one attempt assignments. If you have one of these types of connections it would be advisable to use one of the school's computers which are at our campuses and available for student use.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12th**.

exams early, but not late. **Online lab activities and online lab exams may not be submitted late.**

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Late work will not be accepted the last week of the semester. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, email is the preferred method of communication. Always use your PJC email and include your full name and course number with all correspondences. Due to federal student privacy laws, grades cannot be discussed via email. Select the My Grades tab within your course to review your grades. You can expect a reply to your email within 24 hours, Monday - Friday 8:00 am – 3:00 pm.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student.

Class Conduct:

Do not photograph or make a video or audio of the class lectures, labs or your instructor. Turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Your instructor strongly discourages the use of Artificial intelligence (AI). However, AI tools are permitted in this course. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Warning: AI-generated content is known to falsify information and academic citations, which should be corrected in your completed document. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

NOTE: The contents of this syllabus and course schedule are subject to change.

PSYC 2314.25D0
Lifespan Growth and Development
FALL 2026

Instructor: Shawna Brown
Office: Online
Phone:
Email: sbrown@parisjc.edu
Office Hours: Online

Meeting Location: Internet
Meeting Days: Internet
Meeting Times: Internet

Course Description:

The study of Lifespan Growth and Development is a study of social, emotional, cognitive, and physical factors and influences of a developing human from conception to death. Core Curriculum satisfied for Social and Behavioral Science.

Credits: 3 SCH

TSI Requirement: College-level reading is required.

Prerequisite(s): None

Required Textbook(s) and Materials:

The required course materials for this class—including the textbook and all associated digital learning tools—are delivered digitally through Dragon Now, PJC's Equity Access Program. PJC partners with the Follett Access Program and Pearson to ensure affordability and immediate access for all students.

This program provides instant, first-day access to your required course materials at a substantial discount. A course charge for these materials will be automatically applied to your student account, and **you will NOT need to purchase the textbook or digital tools separately.** Students are responsible for paying the charge applied to their account.

If you have any questions regarding billing or charges to your student account, contact the PJC Business Office. Additional information is available at: <https://www.parisjc.edu/business/index.php>.

Your required e-textbook and course materials for PSYC 2314 are Feldman, R. S. (2023) Lifespan Development: A Topical Approach with PEARSON/REVEL 5th ed., which will be delivered digitally through your Blackboard Ultra course. When you register and activate your PEARSON/REVEL account, use your PJC Dragon email address.

Course Goals and Objectives:

Foundational Component Area: Lifespan Growth and Development

Social and Behavioral Science Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

- 1) Critical Thinking Skills -- to include creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.
- 2) Communication Skills -- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- 3) Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- 4) Social Responsibility -- to include intercultural competence, knowledge of civic responsibility,

and the ability to engage effectively in regional, national, and global communities.

Psychology Student Learner Outcomes: Upon successful completion of this course, students will:

1. Demonstrate knowledge of the major theoretical perspectives in psychology.
2. Interpret what constitutes valid research in the field of psychology.
3. Identify physiological and psychological variables influencing adaptive and maladaptive human behavior and mental processes.

Course Level Student Learner Outcomes: Upon successful completion of PSYC 2314, the student will:

1. Describe the stages of the developing person at different periods of the life span from birth to death.
2. Discuss the social, political, economic, and cultural forces that affect the development process of the individual.
3. Identify factors of responsible personal behavior about issues such as sexual activity, substance abuse, marriage, and parenting.
4. Explain the biosocial, cognitive, and psychological influences throughout the lifespan as an ongoing set of processes, involving both continuity and change.
5. Describe the different developmental perspectives of the major theories of development (i.e., cognitive, learning, humanistic, and psychodynamic).
6. Identify examples of some of the cultural and ethnic differences that influence development throughout the lifespan.
7. Discuss the various causes or reasons for disturbances in the developmental process.

Course Requirements and Evaluation:

Evaluation Methods:

- Students will have two major closed-book objective exams to demonstrate their knowledge of the course material. Each exam is worth 100 points. Students can earn up to 200 points on major exams.
- Students can earn up to 100 points on quizzes for the semester (25 points for each section).
- Engagement is an important part of Internet classes; therefore, students can earn up to 100 points for engagement (15 points for the RAC Assignment, 15 points for the APA Quiz, 20 points for the cross-cultural Psychology Assignments, and 50 points for surveys).
- Students can earn up to 100 points on embedded Pearson Textbook Comprehension quizzes referred to as REVEL
- 100 points on discussions.
- Extra Credit is built into the course: Students can earn up to seven extra credit points on the syllabus quiz and one extra credit point for the student acknowledgment form. Students who activate their PEARSON/REVEL inclusive access (IA) within the three days of class will earn an extra credit point for a total of nine extra credit points.

Grading Criteria:

Students can earn up to a total of 600 points during the semester:

- **200 points – Two Proctored Major Exams:** Students will complete an online Midterm and Final examination. Each exam is worth 100 points.
- **100 points – Quizzes**

- 100 points – Embedded textbook PEARSON/REVEL Comprehension Quizzes
 - 100 points – Discussions
 - 15 points – RAC Assignment
 - 15 points – APA Quiz
 - 20 points – Cross-Cultural Psychology Assignment
 - 50 points – Surveys
- =600 total possible points**

- The following grading scale will be used
 - 540 points and above = A
 - 480-539 = B
 - 420-479 = C
 - 360-419 = D
 - 359 points and below = F

Course Requirements:

Required Activities: The first assignment, Content Specific Quiz, and the Student Acknowledgment are due on the first day of class, August 28th, by 11:59 PM CST. All students must complete the First Assignment, Content Specific Quiz, and Student Acknowledgment located in the “Start Here” folder on the “Course Content” tab of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignments by the deadline will be reported as non-attending and will be dropped from the course. Do not wait until the last minute to complete these assignments.

Exams: Students will complete **two major proctored objective exams**, each worth **100 points**, to demonstrate their understanding of the course material. A detailed course schedule is provided in the syllabus at the beginning of the semester; therefore, students are responsible for being aware of all scheduled exam dates from the first week of class.

During exams, **cell phones must be turned off and stored out of sight unless being used as the second camera**. The use of notes, textbooks, computers, smart devices, or any other external materials is strictly prohibited. These items must be closed, put away, and are not allowed to be accessed during the exam.

Students are responsible for downloading and installing Respondus LockDown Browser from the PJC website prior to the exam. **Respondus LockDown Browser requires a webcam to record the screen strokes and frontal facial view, along with a second camera (smartphone or tablet) that records a side view of your entire testing environment and hands throughout the entire testing session.** Detailed instructions for downloading and installing the LockDown Browser are provided within the exam folders in Blackboard.

Proctoring Details:

- Exams can be take **at home** using **Respondus LockDown Browser with Monitor**.
- A **webcam** and a second camera (the second can be your cellphone or a tablet) are **required** for monitoring during the exam.
- Students must **download and install** the LockDown Browser from the **PJC website**. Installation instructions are available in the exam folders.

Testing Environment Requirements: Respondus LockDown Monitor records your environment, movements, audio, computer screen, and keyboard keystrokes during the exam. To ensure academic integrity, the following guidelines must be strictly followed:

Before the Exam

- **Complete a tech check** at least 24 hours before the exam to verify webcam functionality and LockDown Browser installation.
- Ensure your computer is **fully charged or plugged in**.
- **Power your computer off and then power it back on** before the exam to close all background applications.

Webcam & Room Scan

At the start of the exam, you must perform a **360° room scan** showing your entire workspace, including your desk, surroundings, and any materials present.

- Your environment should be free of all unauthorized material, and you should not access the materials at any time during the exam period.
- Additionally, **NO other individuals should be present** while you are taking the exam.
- You must **NOT** engage in any form of conversation during this time.
- **Accessing unauthorized materials or engaging in a conversation with others during the exam will result in an automatic zero, with no opportunity for a makeup.**
- Your **entire face and workspace** must remain clearly visible throughout the exam.

Setting Up Your Second Camera During Exam Startup

These are **the two angles that I want to be able to see: Side View and View from the Computer.**

Positioning for a Side View

- Place the phone/tablet **flat** on a stable surface.
- Point it **perpendicular to your body** so it shows your desk, keyboard, mouse, and immediate surroundings. **You will receive a score of zero if I see a cell phone visible or don't have a Side View.**
- Avoid tilting or moving it during the exam.
- Ensure it has a clear view of your workspace and face (for reference)

Post-Exam

- The second camera recording stops automatically when you submit.
- Do **not** close the browser on your second device until the upload completes and you see "Session complete."
 - If you do not wait until you receive the notification "Session Complete," Blackboard will record a score of zero. This will count as a testing attempt. Students receive one attempt to complete the exam.
- Instructors can view the side-view video alongside the frontal webcam and screen recording in the proctoring dashboard

Device Requirements

- **Primary device:** Computer with a working webcam and internet connection.
- **Second device:** Smartphone or tablet with:
 - iOS 18+ or recent Android
 - Working camera and microphone
 - Ability to scan QR codes
 - Stable internet connection

I also do Screen Recording, which records your keystrokes and the view of the testing screen.

When you start your exam, follow these steps to connect your second camera:

- Start the normal exam startup steps on your computer
- After the Webcam Check step, you'll see a QR code on your screen
- Use your mobile device to scan the QR code
- Your mobile browser will open a webpage
- When the browser prompts you to allow microphone and camera access, allow access.

iOS

Android

Troubleshooting: Enabling System Permissions

- If the browser doesn't prompt you for permissions, or if you accidentally denied access, you'll need to enable permissions in your device settings.

For iOS/iPad Devices

- *To enable microphone access:*
- Open Settings on your device, then tap Apps, then Safari (or your default browser), then Microphone, and select **Ask**.
- *To enable camera access:*
- Open Settings on your device, then tap Apps, then Safari, then Camera, and select **Ask**.

For Android Devices

- *To enable microphone access:*
- Open Settings on your device, then tap Security & Privacy, then Privacy Controls, and turn on **Microphone Access**.
- *To enable camera access:*
- Open Settings on your device, then tap Security & Privacy, then Privacy Controls, and turn on **Camera Access**.

Prohibited Items & Behaviors

- The testing area must be **free of unauthorized materials**, including:
 - Cell phones
 - Tablets
 - Smartwatches
 - Textbooks
 - Notes
 - Headphones/AirPods
 - Any other electronic or personal items (this includes music playing)
- **No other individuals** may be present in the room during the exam.
- **No communication** (verbal or non-verbal) with others is allowed.

- **No background applications or browser tabs** may be open or opened during testing. LockDown Browser restricts access, but students are responsible for ensuring compliance. Attempts to open additional tabs or applications will result in auto-submission of the exam. This will count as an attempt. Students have one attempt. Additional will NOT be permitted due to auto-submissions of exams due to failure to follow instructions.

Monitoring & Review

- LockDown Monitor flags irregularities such as:
 - Leaving the camera view
 - Background noise or voices
 - Use of unauthorized materials
 - Suspicious movements or eye tracking
 - Suspicion of cell phone use or other electronic use
 - Attempting to open additional tabs.
 - Conversations with other people in the room
 - Etc.
- All flagged or suspected incidents will be reviewed. **Violations will result in a score of zero** and possible disciplinary action.

Final Reminders

- **Do not wait until the last minute** to verify your setup.
- **Start the exam within the designated time window (exams are open for one week before the closure date).** Late starts will not be permitted.
- If you experience technical issues, **report them immediately** through the designated support channel. To contact PJC Tech Support, call (903) 782-0496 or email tech support at techsupport@parisjc.edu.

Respondus-proctored major exams are available **for one week before the final closure date of the exam**. The exam **MUST** be **submitted during the week that the exam is available**, as would normally occur in an in-person exam setting. **No exceptions will be granted.**

Failure to submit the exam by the stated deadline will result in an **automatic score of zero**. Students are provided with ample advance notice of exam dates and are responsible for planning accordingly to ensure timely completion.

All students are responsible for converting the exam deadline to their **local time zone** and submitting the exam on time. **Misunderstandings or miscalculations related to time zones will not be accepted as valid excuses for late submission.**

Course Policies:

Extension Policy-

Will only be granted in the case of documented, verifiable extenuating circumstances. These are strictly limited to serious medical emergencies (e.g., hospitalization) or the death of an immediate family member (documentation of extenuating circumstances is required).

Documentation must be submitted within 48 hours of the missed deadline and must come from a licensed professional or official source. No other circumstances will be considered.

The following are NOT considered extenuating circumstances and will NOT justify an extension under any condition:

- Waiting until the last day to take the exam

- Forgetting the 11:59 PM CST deadline
- Miscalculating time zones
- Changes in work schedules or being scheduled to work during the exam window
- Being called in to work and not completing the exam on time because you were called into work unexpectedly.
- Technology issues, including internet outages, device failure, or platform access problems.

The exam will be available for a one-week period, which is sufficient time for all students to plan and complete the exam within the designated window.

Students are expected to test their access and resolve any technical issues well in advance of the deadline. Institutional systems are monitored for outages; claims of technical failure must be substantiated with evidence. It is the student's sole responsibility to ensure they have the necessary resources and availability to complete the exam on time.

This policy is designed to ensure fairness and uphold academic integrity. No exceptions will be made outside the clearly defined parameters above. **Plan ahead and act early.**

Once the exam window closes, the exam will no longer be accessible and will not be reopened or re-administered under any circumstances. Excuses for failing to complete the exam during the open period will not be accepted. Students are expected to manage their time responsibly and plan ahead. For the **midterm exam only**, students with a valid and verifiable excuse—limited strictly to serious medical emergencies (e.g., hospitalization) or the death of an immediate family member—**may be permitted to complete an essay-based make-up exam.** This make-up must be completed within **three days** of the midterm exam's closure. Extensions beyond this three-day window will not be granted. It is the student's responsibility to:

- Contact the instructor to request approval for the make-up exam
- Submit appropriate documentation (e.g., doctor's note, obituary) with your name listed.
- Arrange a time to complete the essay make-up exam within the three-day window

Failure to complete the make-up exam within this timeframe will result in a **zero** for the midterm grade.

Make-up exams or extensions are not available for the final exam period. Students must complete the final exam during the scheduled exam window.

Students will have exactly **75 minutes** to complete each proctored exam—the midterm and the final. Time limits are strictly enforced. Students must begin and complete the exam within this window; no additional time will be granted for any reason (except for approved ADA accommodations).

The **midterm exam** will cover **Chapters 1–8**, and the **final exam** will cover **Chapters 9–15**.

All exams are **closed-book and closed-note**. Students are strictly prohibited from using textbooks, notes, unauthorized technology (including phones, smartwatches, or AI tools), or any external materials during the exam. Any violation of this policy will be treated as academic dishonesty and will result in disciplinary action that includes a score of zero, no opportunity of a makeup, and forfeit any future bonus points.

A second suspected violation of academic dishonesty will result in a final grade of "F" for the course.

All course content—including required readings, PowerPoint notes, quizzes, and supplemental resources—may be sampled for exam questions. Students are responsible for reviewing all materials provided throughout the course.

Exams will consist of **objective question formats**, including: true/false, multiple-choice, and matching.

Students are allowed only one attempt to take each exam. Once the exam is started, it must be completed in one sitting. Students are unable to pause the exam and then restart or retake the exam for any reason.

During proctored exams, students are required to remain fully engaged and visible for the entire duration of the testing session.

Respondus LockDown Browser Monitoring will immediately notify the instructor of any unauthorized behavior during a proctored exam. This submission will be considered the student's **only attempt and will receive a score of zero.**

Directions for accessing the exam:

To access and complete proctored exams, students must follow the steps below **exactly as outlined**. Failure to complete any step will result in the exam being inaccessible. No exceptions will be made.

Requirements:

- Respondus LockDown Browser must be downloaded and installed before being able to access the exam.
- All other applications must be closed before launching the exam.
- A valid photo ID (government-issued or school-issued student ID) must be available for identity verification.

Access Steps:

1. Log in to Blackboard and navigate to the course.
2. Open the **Exam Folder**.
3. View all items in the folder **in order**, including:
 - Instructions for downloading and installing Respondus LockDown Browser
 - Exam review materials
 - Exam Acknowledgment form

Note: If any item is skipped, the Exam Acknowledgment and the exam will remain hidden.
4. Click on the **Exam Acknowledgment**, read it thoroughly, and answer the required question. You will be held accountable for the instructions contained in the exam acknowledgment forms for the Midterm and final exams.

You will not be able to access the exam without completing this step.
5. Click on the **exam link**.
 - If the LockDown Browser is not installed, you will be prompted to install it before proceeding.
6. **Do not click "Start"** until you have read all instructions and are fully prepared to begin.

You are responsible for all information contained in the Exam Acknowledgment.
7. Clicking "Start" activates LockDown Browser Monitoring and begins your exam session.

Important Notes:

- Students are allowed **only one attempt** per exam.
- Exams must be completed in one sitting within the allotted time (75 minutes).
- Any violation of exam protocols may result in automatic submission and a score of zero.

Students must be aware of the following conditions when taking a proctored exam using Respondus LockDown Browser Monitoring:

- **Once the exam is started, it must be completed in one sitting.** Pausing, exiting, or leaving the exam session for any reason is strictly prohibited.
- **Any of the following behaviors will trigger automatic submission of the exam** by Respondus LockDown Browser Monitoring:
 - Leaving the exam session before completion
 - Opening another browser tab, window, or application
 - Viewing or accessing unauthorized materials
 - Having the student's face or testing environment out of view at any time
 - Speaking to or interacting with another person
 - Using unauthorized technology or devices
 - Any other behavior deemed suspicious or noncompliant with exam protocols
- **Automatic submission is final.** If the LockDown Browser auto-submits the exam due to any violation, it will be recorded as the student's **only attempt**, regardless of how many questions were completed.
- **No extensions will be granted.** The exam will not be reopened or made available again under any circumstances.
- **Students are responsible for maintaining full compliance throughout the entire exam session.** This includes remaining visible, silent, and focused until the exam is submitted.

Below are examples of the type of instructor notifications (video is also provided and marked with testing exceptions).

DATE	WARNINGS
14 Nov 2025 @ 11:05 AM	Student exited Lock Down Browser early. Reason stated: Student attempted to switch away from the browser: session terminated.
13 Nov 2025 @ 8:41 PM	Student exited Lockdown Browser early. Reason stated: "face and environment not visible, warning was provided. Session terminated."

- **Respondus LockDown Browser Monitoring** records the student's face, testing environment, and computer screen for the **duration** of the exam. Continuous visibility and compliance are required at all times.
- The exam is **timed**. Students have **75 minutes** to complete the exam. The timer begins once the exam is launched—students must monitor their time carefully.
- At the end of the 75-minute limit, the exam will **automatically submit**. Once submitted—whether manually or automatically—the exam **cannot be reopened** under any circumstances. Students will not be permitted to resume or complete any unanswered questions after the time limit has expired.

The midterm exam must be submitted by **11:59 PM CST on October 14th**, and the final exam must be submitted by **11:59 PM CST on December 9th**. **These deadlines are firm. I am unable to extend the due date or time for any reason.** Students must ensure that they complete and submit each exam before the deadline on the scheduled date. Late submissions will not be accepted, and exams will not be reopened under any circumstances. Plan accordingly to avoid missing these critical deadlines.

Students may complete their exams in a PJC Testing Center. Students are required to contact the PJC Testing Center of their choice to schedule an appointment in advance. Upon arrival, students must present a government-issued ID (driver's license, passport, etc.) or a PJC Student ID. Be aware that all PJC Testing Centers video-record testing sessions. In addition, Respondus LockDown Browser will continue to record keystrokes and capture the exam screen throughout the testing session.

Quizzes: Quizzes are an essential part of the course, designed to encourage students to stay engaged with the material and develop disciplined reading habits. Each quiz corresponds to the chapters currently being covered and must be completed by the due date listed in the course syllabus schedule. Students are allowed only one attempt per quiz. Quizzes are set to forced completion, meaning that once a quiz is started, it must be finished in one sitting—exiting and returning later is not permitted.

Each quiz has a sufficient time limit for students who have completed the assigned readings. While students may use their textbook and other course materials during the quiz, the time limit does not allow for looking up every answer. Therefore, students are strongly encouraged to read and study the assigned chapters before beginning the quiz.

Quizzes consist of multiple-choice, true/false, and matching questions. Once a quiz closes, it will no longer be accessible, and students will not be able to submit or earn points. Late submissions will receive a grade of zero, and quizzes will not be reopened under any circumstances. **Late coursework is not accepted.** Students are encouraged to reflect on their quiz performance and review missed questions in preparation for major exams. Although correct answers are not revealed in quiz results to preserve academic integrity, all answers can be found in the textbook. Students are expected to locate and review the correct information independently. Up to 100 quiz points can be earned over the course of the semester.

Engagement: Students will earn engagement points throughout the semester based on their active participation in the online classroom. These points are tied to specific assignments, including the RAC Quiz, APA Quiz, Cross-Cultural Assignment (worth a combined 50 points), and Surveys (worth 50 points), totaling **100 engagement points** for the semester. Students are expected to attend class regularly by signing into the course platform and completing all assigned work by the posted deadlines. Consistent engagement is required from the start to the end of the semester; failure to remain actively involved may negatively impact the student's overall performance and engagement score.

Discussions: Discussion topics will be posted for Sections 1, 2, and 3. These discussions are intended to help students apply course concepts and develop critical-thinking skills.

Each discussion assignment has **unique instructions**, expectations, and learning objectives. Students are required to **carefully read and follow** the instructions for **each discussion**, including but not limited to word limits, required content, and formatting per APA specifications. Students should **not assume** that discussions follow a uniform format, instruction set, or grading criteria.

Before writing and submitting a response, students must thoroughly review both the **discussion instructions** and the **grading rubric**. Failure to follow the posted guidelines may result in a reduction of points.

Students are required to use the current assigned course textbook exclusively as the supporting source for discussion responses. No other sources are permitted unless explicitly stated otherwise in the discussion instructions.

Important Reminders

- Proper grammar, punctuation, spelling, word usage, and textbook citation are required for all submissions.
- To earn the maximum number of points, students must fully and clearly address **all required components** of the discussion topic as outlined in the instructions and grading rubric.
- Students are permitted **one submission per discussion**. Multiple attempts or revisions are not allowed.

- Discussions close on the **due date listed in the syllabus schedule**. Once a discussion closes, **late submissions will not be accepted**, and **no credit will be awarded**, regardless of circumstances.
- Emailed submissions, hard copies, or submissions sent through any method other than the designated discussion link will **not be accepted**.

Grading Criteria

Discussion is worth 100 points for the semester and is evaluated according to the following criteria (see the grading rubric for detailed descriptions):

- Development of Ideas – 50%
- Focus and Coherence – 20%
- Organization – 10%
- Conventions (Grammar and Mechanics) – 10%
- Voice – 10%
- Use of unauthorized sources, plagiarism, and late submissions will receive – 0%

The grading rubric **includes multiple performance levels**. Point values within each criterion are determined by the **quality, depth, and accuracy** of the student's response and how effectively the discussion topic is addressed. For example, a score of "4" in *Development of Ideas* indicates that the student correctly and thoroughly addresses **all** required aspects of the relevant theory or school of thought.

Discussion grades and feedback may be viewed via the score link in the course gradebook by clicking on the submitted assignment score; this will open the discussion. After the discussion opens, click on the score on the discussion page; this will display the instructor's comments and rubric-based scoring. Please note: **Discussion assignments are graded after the section has closed**.

REVEL: REVEL is the required publisher's interactive learning platform for this course, providing access to the course e-textbook and embedded comprehension adaptive quizzes for each chapter. These quizzes are integrated directly within the e-textbook on the publisher's platform and are a mandatory component of the course. Through the **Dragon Now** program, students receive automatic first-day access to the e-textbook. Embedded textbook comprehension quizzes are embedded throughout each chapter of the textbook. The embedded comprehension quiz consists of **5–7 questions**. REVEL comprehension quizzes close on the due date listed in the syllabus schedule.

Students are responsible for completing all assigned embedded textbook comprehension quizzes by the deadlines specified in the course syllabus. Consistent access to the REVEL platform is required to successfully fulfill the course REVEL point requirements.

Students **must** activate their Equity Access (Dragon Now) REVEL account using the **Pearson Tools** link in Blackboard. Step-by-step access instructions are available in the **Start Here** folder.

- **Access Requirements**
- Students must use the **Pearson Tools** link in Blackboard to:
 - Activate their REVEL account to:
 - Access the e-textbook
 - Complete all embedded comprehension quizzes

Accessing Revel through any other path may prevent grades from syncing properly with Blackboard. Students are responsible for using the correct access link.

- **Account Setup Requirements:** To ensure proper grade transfer:
 - Students must use their **legal name exactly as it appears on the official course roster** when creating the REVEL account.
 - The name must match **letter-for-letter** between Revel and the college course roster.

- Using a nickname, shortened name, initials, or any alternate variation may prevent grade syncing.
- The instructor is **unable to** correct grade issues caused by incorrect account setup.

Students must contact the Publisher Tech Support to correct name issues.

Failure to follow these guidelines **may negatively affect your final course grade.**

- **Accessibility Features: REVEL includes built-in accessibility tools, including:**

- **Audio (read-aloud)** functionality
- Access via the free **REVEL mobile app** (smartphone or tablet)

Important: Students must first **set up and activate their Pearson account on a computer** before accessing course materials through the mobile app.

- **REVEL is designed to enhance:**
 - Reading comprehension
 - Long-term retention
 - Exam preparation
 - Active engagement with course material
- **Embedded Comprehension Quiz Policies:**
 - All comprehension quizzes **close** on the due dates listed in the syllabus schedule.
 - All comprehension quizzes close at **11:59 PM CST** on the posted due date.
 - Once a quiz closes, students **lose the ability to access or earn credit** for that quiz.
 - Closed quizzes may be reviewed **for study purposes only** in preparation for major exams.
 - **No late submissions, extensions, or makeup opportunities** are permitted for REVEL comprehension quizzes under any circumstances.
- **Points and Grading**
 - The comprehension quiz points are **CUMULATIVE ACROSS THE SEMESTER.**
 - A total of **675 comprehension quiz points** is available for the semester.
 - Comprehension quiz points contribute to the **Engagement** portion of the final course grade.
 - Points are calculated based on the **total number of comprehension quiz points earned. To earn the full 100 REVEL points for the semester, students must earn at least 500 points by the end of the semester.**
 - **REVEL comprehension quiz points are not posted until the end of the semester.**

Students are responsible for monitoring their quiz completion in REVEL and ensuring all work is submitted **before each posted deadline.**

- **Required REVEL assignments are limited to:**
 - Reading the assigned textbook content
 - Completing the embedded comprehension quizzes

All other graded coursework is located within the appropriate section folders in Blackboard.

Due Date: All assignments must be submitted by the due dates listed in the course syllabus schedule, located in the final pages of the syllabus.

Students must **NOT** rely on the “Gradebook” or “Calendar” tabs in Blackboard Ultra to **determine assignment deadlines**. *Assignments that are not open will not appear in those areas, and failure to consult the syllabus schedule may result in missed work.* I use the syllabus schedule—**NOT** the Gradebook or Calendar— to determine whether an assignment is late.

Students who miss an assignment because they did not follow the syllabus schedule will not be granted access once the assignment has closed.

Students are strongly encouraged to submit assignments in advance of the deadline to avoid potential issues such as technical difficulties, illness, or scheduling conflicts. Missed assignments will not be re-opened.

Final Exam: Students are required to complete and submit the final exam by the closure date listed in the syllabus schedule. The final exam must be submitted no later than 11:59 PM CST **on the scheduled due date. There are no exceptions to this deadline.** It is the student's sole responsibility to plan ahead, manage their time, and ensure timely submission. Late submissions will not be accepted under any circumstances.

Extra Credit: Students can earn extra credit points by completing extra credit assignments built into the class. Extra credit assignments are worth varying points. Extra credit assignments are not designed to replace missed assignments or exams. Students will not be eligible to earn points on these activities once the extra credit assignment closes. The following are the extra credit opportunities available **during the first class week:**

- The First Assignment Quiz is worth two (2) points.
- The Course Content Specific Quiz is worth seven (7) points.
- The Student Acknowledgment is worth one (1) point.
- Students who create their REVEL account **using their name as it appears on the course roster** during the first day of class will earn one (1) extra credit point. This opportunity is only available during the first week of class. Your textbook is provided through the Dragon Now program and will be available to you beginning on the first week of class.

Class Attendance:

Class attendance is critical for the successful completion of this course. Students are expected to attend and participate in classes regularly (log into the course often) and **complete all assignments by the due date**. You CANNOT expect to do well in this class without attending class and completing the online assignments on time. While instructors do have the right to withdraw any student from a course for excessive absences, please be aware that this is NOT my policy. Students wishing to withdraw from a course with a grade of "W" should initiate the withdrawal on MyPJC. Students should not just stop attending (stop logging into the course to complete assignments) and assume that the instructor will withdraw him or her. I will record a zero (0) for all assignments that a student fails to complete.

Students are required to log in to the course regularly and complete all weekly scheduled assignments to remain in good academic standing and avoid the initiation of a retention alert. It is strongly recommended that students log in and work on assignments multiple times per week to stay on track with course expectations. Weekly attendance and academic progress are documented and reported to the college database every **Friday at 8:00 AM CST**.

To be marked as present online for the week, students must complete **ALL** scheduled assignments between **Friday at 12:00 AM CST and Thursday at 11:59 PM CST**. Failure to complete the required work within this timeframe will result in the student being reported as absent for that week.

At the midpoint of the semester, a midterm grade will be submitted to the college database. This grade will be accessible to students and shared with relevant departments, including financial aid, athletics, and the scholarship office. It is the student's responsibility to remain consistently engaged and meet all weekly expectations to maintain eligibility and academic progress.

****IMPORTANT**** Internet students are required by Texas law to log into the course and complete the first assignments *by the official report day (ORD), September 9th*, at 11:59 PM CST, or they will be dropped from the course. The First assignment, *Syllabus Quiz*, and *Student Acknowledgment* are located in the **Start Here** folder. In addition, there are required assignments in the **Section 1** folder in Blackboard that must be completed **before the Official Reporting Date (ORD)** and will be graded. All assignments in both the *Start Here* and *Section 1* folders must be submitted by their posted deadlines.

Late submissions are not permitted, and students will **not** be able to complete, make up, or reopen any assignment after it closes.

Withdrawal Policy: The student must notify the instructor if he or she desires to withdraw from the course before the final date of withdrawal from a course with a grade of “W” (check the PJC Calendar and Student Handbook for specific withdrawal dates for each semester). Students wishing to withdraw from a course should initiate the withdrawal by

- logging into MyPJC,
- Once in MyPJC, select the STUDENT Tab,
- Select Reports and Form Admin on the left menu,
- Scroll down and select the Withdrawal Form.
- Select the course you are requesting to drop,
- Select if you receive financial aid,
- Click Go to the next page,
- Select the reason for the withdrawal.
- Check the box indicating you certify the form,
- Select Submit.

It is to be noted that all drops must be processed before the semester withdrawal date (**November 12th**) to receive a grade of “W”. After the official withdrawal date, a student cannot withdraw from a course with a grade of “W”.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse: The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process: Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use: Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- Example of permitted use: Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- Example of prohibited use: Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements: When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification: The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt: If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook. You may contact the Student Advising & Counseling Center at (903) 782-0426 or visit <https://www.parisjc.edu/advising/accommodations.php>. Students presenting a "Letter of Accommodations for timed assignments and exams who choose not to utilize their approved accommodations must sign an accommodation waiver. Students with oral testing accommodations should arrange details with their instructor at least two weeks before an exam.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by course messages inside the course in Blackboard.

PSYC 2314 Class Schedule/Study Schedule:

***The instructor may adapt or adjust the syllabus schedule as needed.

DATE	DISCUSSION/CLASS ACTIVITIES	ASSIGNMENTS/EXAMS Due Dates and Closure Dates	Points
August 28	Introduction to Course and Syllabus Review	- Read the Syllabus - First Assignment Quiz—online--DUE - Course-Specific Content (Syllabus) Quiz – online--DUE - Statement of Acknowledgement – online--DUE	2 points EC 7 points EC 1 point EC

Non-discrimination clause: Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

BIOL 2401
Anatomy and Physiology 1
Fall 2026

Instructor: Jennifer Hudson

Office: MS 210B

Phone: 782-0319 ex. 1369

Email: jhudson@parisjc.edu

Office Hours: M-8:30-9:30, 10:45-3:00, T&H-7:30-8:00, 10:45-4:00, W-7:30-9:30, 10:45-4:00

Meeting Location: MS 214

Meeting Days: M, W

Meeting Times: 9:30- 10:45

Course Description:

Anatomy and Physiology I is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a hands-on learning experience for the exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	50% of course grade
Lab – Virtual MGH Connect	50% of course grade

100%

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **November 12**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F. All labs are completed through blackboard. You will have unlimited attempts.

Required Activity:

All students must complete the syllabus quiz located in the "Start here" section of Blackboard by 11:59 p.m. on August 30. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils Tests must be taken with a #2 pencil. Bring a scantron form and your pencil to every test. The required scantron can be found in the PJC Book Store; the scantron number you need is **#882e**.

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor—no food /or beverages to class. Please turn off or silence all cell

phones *before* coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Link to the PJC IT checklist: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's

responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

SRGT 1441 10A0
SRGT 1441 Surgical Procedures I
Fall 2026

Instructor: Daisy Henson

Office: WTC 1048

Phone: 903-782-0729

Email: dhenson@parisjc.edu

Office Hours: Before/After Class; By Appointment

Meeting Location: WTC #1055 or TBA

Meeting Days: Thursdays

Meeting Times: 9:00am-12:00; 1:00-3:00pm

Your classes at Paris Junior College provide you with the very best educational opportunities possible. They have been very carefully planned and designed. Each class fulfills specific requirements or goals established by Paris Junior College and the Accreditation Review Committee on Surgical Technology and Surgical Assistants (ARC-STSA) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP).

Paris Junior College is an affirmative action/equal opportunity educational institution and employer. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, disability, or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as Amended in 1972, and with Executive Order 11246 as Amended by Executive Order 11375.

COURSE DESCRIPTION:

SRGT 1441 is an introduction to surgical pathology and related surgical procedures. Emphasis is on surgical procedures within the GENERAL, ORTHOPEDIC, OB/GYN, EENT and GENITOURINARY surgical specialties, incorporating anatomy, procedure, instrumentation, equipment, and supplies for safe patient care.

Course Credit: SRGT1441 (4.3.2): 4 SH = 3 lecture and 2 laboratory hours per week.

TSI Requirements: College-level *Math, Reading, Writing* assessment complete or exempt.

Prerequisites: Successful completion of both, SRGT 1405 and SRGT 1409 with a “C” or better within the same semester (SRGT courses C=75-80%).

Co-requisite: This course requires concurrent enrollment in SRGT 2461, and both courses must be passed with a “C” or better within the same semester (SRGT courses C=75-80%).

Course Rationale: SRGT 1441 is designed to prepare the student to enter the surgical environment with entry-level knowledge.

Course Relevance to Professional Outcome:

This course and related content constitute a portion of the accredited core-curriculum related to the Surgical Technology profession approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is offered in conjunction with additional program content. Successful completion of program content intends to convey eligibility to pursue professional credential via national board examination*; however, in accordance with HB1508 of the State of Texas, be advised that personal criminal records could prevent state licensure or limit future employment opportunities. If you have questions regarding background information, please speak with a faculty member or department chair. You have the right to request a criminal history evaluation letter from the licensing agency when applicable.

*Licensure or credentialing examination results will vary by individual and may determine professional outcome.

Required Textbook(s) and Materials:

Surgical Technology for the Surgical Technologist A Positive Care Approach 2024, 6th ed. Caruthers, Delmar Publishing.

Study Guide for Surgical Technology for the Surgical Technologist 2024. Junge, Delmar Publishing. (Note: Electronic Access Code and E-book bundle, ISBN 9780357625804); Printed Hardback Option, ISBN: 9780357625736 at additional cost.

Recommended Textbook(s) and Materials:

Surgical Instrumentation: An Interactive Approach, Nemitz, 4th ed. Elsevier Publishing. ISBN:978-0-323-77693-6

Medical Dictionary: **Either**, *Mosby's Medical, Nursing, & Allied Health Dictionary*, **or** *Taber's Cyclopedic Medical Dictionary* (any recent edition).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

Given textbook, classroom discussion, appropriate handouts, and laboratory practicum, the student will have accomplished the following course outcomes:

1. Relate the relevant anatomy and pathology to indications for selected surgical procedures.
2. Summarize patient preparation for selected surgical procedures.
3. Select appropriate instruments, equipment, supplies and continue to utilize basic concepts of pharmacology for selected surgical procedures.
4. Reconstruct the sequence for selected surgical procedures.
5. Identify expected outcomes and possible complications for selected procedures.
6. Demonstrate professional accountability by providing safe effective care.

Course Schedule: (see below)

IT Support: techsupport@parisjc.edu (DragonMail, Dragon Alerts, On-Line Courses, etc.)

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Requirements and Evaluation:

The student will demonstrate a broad understanding of surgical intervention techniques within multiple specialties. Commensurate to online, classroom, and laboratory experience, students will be subject-to rubric-based evaluations related to instrument-recognition, equipment and supply needs, and surgical-case maintenance. Rubric-based evaluations of retained knowledge regarding common surgical procedures of various specialties will contribute to final-grade computation.

Grading Criteria:

In order to pass SRGT 1441, the student must achieve a final average grade of 70 or higher. The final grade average will consist of:

4-5 Exams (averaged)	60%
Daily Grades (averaged)	20%
Comprehensive Final Exam	20%

Daily grades may consist of written assignments, graded on-line assignments, critical thinking exercises, lab exercises, and unannounced quizzes (if you are absent, an unannounced quiz **cannot** be made-up). Many Lab Activities must be completed in a safe manner and assessed through demonstration.

Late assignments will have 10 points deducted for every class day that it is late.

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be compiled in a different format (i.e. fill in the blank or essay).

Students who have unsatisfactory progress in the classroom will be given written notification and a plan for remediation will be completed.

Course Policies:

See course-specific Course Requirement/Evaluation, Attendance, and Conduct statements contained in this syllabus. Students are also expected to read and abide by all policies contained in the PJC Student Handbook and **Surgical Technology Student Handbook**.

All course-related tuition, fees, and state-mandated immunization expenses are the student's responsibility. It is college policy that each student in the program assumes financial responsibility for his/her own health care. Personal medical insurance is recommended.

To All Health Occupation Students:

COVID-19 Vaccination Requirements: All clinical facilities receiving federal funds (Medicare, Medicaid, etc.) have mandatory immunization policies in place, requiring COVID vaccination or a Record of Exemption status. Policies and implementation method (exemption forms, record-keeping, etc.) varies by institution, and multiple exemption requests may be necessary if the federal individual vaccination record is not available.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student and require an institutional withdrawal form with instructor signature. The student is expected to consult appropriate faculty and financial-aid advisors prior to submitting the form to the Student Records Office for processing. The last day for a student to withdraw from a

course with a grade of “W” is **Thursday, November 12, 2026**. Failure to take the final exam as assigned/scheduled will result in a grade of "F" in the course. There are no “excused” absences, all are recorded and after 2 absences in a single semester, a student conference is mandatory and disciplinary action may be taken. Please see the Surgical Technology Student Handbook for further details regarding absences and tardiness.

Classroom/Lab/Clinical Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod headphones, etc. before entering the classroom/laboratory or clinical patient-care areas. No obscene/vulgar language will be permitted in the classroom/laboratory or clinical setting. Professional behavior, including appropriate communication, proper hygiene, timely-attendance, surgical attire (including PPE), patient confidentiality, and appropriate student identification are expected. Clinical activities and presence MUST be properly supervised, and financial compensation for clinical activities is prohibited. Be aware of inherent risks always associated with the OR environment and/or training laboratories and take appropriate precautions as necessary. Potential risks include, but are not limited to: exposure to blood borne pathogens and other infectious materials, fire/electrical hazard, fall and lifting hazards, sharps injury, chemical exposure, exposure to ionizing radiation, LASERs, etc. Faculty reserves the right to drop/withdraw a student from the program for violations of the Student Conduct Policy as listed in the PJC Student Handbook and/or Surgical Technology Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence:

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

SRGT 1441 FALL 2026

SCHEDULE

<u>WEEK</u>	<u>LECTURE CONTENT</u>	<u>EXAMS and Assignments Due</u>	<u>Procedures / Lab (exemplar, actual TBA)</u>
08/27	Orientation, syllabus Unit I - GENERAL Clinical Requirements	Read Ch 16	
09/03	Unit I continued (STST Ch. 16) Clinical Begins: Monday 08/31/26		Open Cholecystectomy with cholangiogram (IOC) CBDE with choledochoscopy; “T”-tube Laparoscopic cholecystectomy (IOC)
09/10	Unit I continued		Small bowel resection Gastric bypass Colonoscopy Colectomy ,Colostomy, APR Open/Laparoscopic appendectomy
09/17	Unit I continued	DA#1-3	Herniorrhaphy (umbilical, ventral, incisional, and inguinal) Breast Biopsy, Lumpectomy, Mastectomy, Thyroidectomy
09/24	Unit II – ORTHOPEDICS (STST Ch. 23)	Unit I Exam Ch16 WB Chapter 16 Read Ch 23 DA#4-6	Orthopedic instruments External fixation, ORIF Verbalize adjustments for: Bone graft, Colles’ fracture, AKA, BKA
10/01	Unit II continued	DA#7-9	Carpal Tunnel Release, Rotator cuff repair Verbalize adjustments for: Shoulder arthroscopy / arthroplasty (TSA)
10/08	Unit II continued	DA#10-12	Total Knee Arthroplasty, Total Hip Arthroplasty Verbalize adjustments for Knee Arthroscopy

10/15	Unit III – OB/GYN (STST Ch. 17)	Unit II Exam Ch23 WB Chapter 23 Read Ch 17 DA#13-15	Colposcopy, Hysteroscopy, Laparoscopy Cesarean Section, TAH w/ BSO Verbalize adjustment for: Ectopic pregnancy resolution, Micro tubal re-anastomosis, Pelvic exenteration
10/22	Unit III continued	DA#16-18	Vaginal hysterectomy w/ A&P repair, D & C w/ cone biopsy (LEEP vs “cold-cone”) Verbalize adjustments for: Endometrial ablation, Vulvectomy, Balloon therapy, Laparoscopic assisted vaginal hysterectomy
10/29	Unit IV – Eye/ ENT (STST Ch. 18 and Ch 19)	Unit III Exam Ch17 WB Chapter 17 Read Ch 18-19 DA#19-21	Strabismus Correction, Cataract Extraction, Vitrectomy, Enucleation
11/05	Unit IV continued	DA#22-24	T & A, BMT, Caldwell-Luc, Parotidectomy, UPPP, Laryngoscopy, Thyroglossal Duct Cystectomy Radical Neck Dissection
11/12	Unit IV continued	DA#25-27	
11/12	<u>LAST DAY TO WITHDRAW</u>		
11/19	Unit V – Urology (STST Ch. 22)	Unit IV Exam WB Chptrs.18 &19 Read Ch 22 DA#28-30	Cystoscopy, Circumcision Verbalize adjustments for: Orchiopexy, Vasectomy Nephrectomy Verbalize adjustments for Adrenalectomy
11/25-27	Holiday	Holiday	Holiday
12/03	Unit V – continued	DA#31-32	
12/08 TUESDAY	No clinical this week, unless make-up. Review old exams. Deadline for submitting any late assignments.	WB Chapter 20 DA#33-35 COMPREHENSIVE FINAL EXAM as scheduled	FINAL EXAM week Clinical make-up days Submit any late assignments
12/10	Class does NOT meet unless taking final		

The above schedule, policies, procedures and assignments in this course are subject to change in the event of extenuating circumstances.

STST = *Surgical Technology for the Surgical Technologist A Positive Care Approach 2017*, 6th ed. Caruthers, Delmar Publishing. (Course Textbook)

WB = Study Guide (Work Book) to accompany the above text.

DA = “Daily Assessment” forms; Clinical documentation form completed by student and assigned preceptors.

Unit I: General Surgery (STST Chapter 16)

Select Key Terms; Introduction; Equipment and Supplies; Abdominal Incisions; Procedural-Related Anatomy/Pathology, Incisions, and Step-by-Step Considerations; Hernia Types and Characteristics; Principles of Bowel Resection/Anastomosis/Diversion (i.e. colostomy); Surgical Procedures: Herniorrhaphy (variations: open/laparoscopic, incisional, inguinal, umbilical, hiatal, etc.), Nissen Fundoplication (open/laparoscopic/robotic-assist), Gastrectomy (diversions: Billroth, gastrostomy); Appendectomy (open/laparoscopic), Small Bowel Release (running-technique, lysis of adhesion, Roux-en-Y anastomosis); Colon Resection (colostomy), Anorectal Procedures (fissure, fistula, pilonidal cyst, hemorrhoidectomy); Liver Resection, Cholecystectomy (open/laparoscopic/robotic-assist, IOL), Pancreaticoduodenectomy (Whipple), Splenectomy (open/laparoscopic), Breast Biopsy (sentinel-node/localization), Modified Radical Mastectomy (node-dissection, vs Radical/Simple), Thyroidectomy.

Unit II: Orthopedic Surgery (STST Chapter 23)

Select Key Terms; Bone and Bone Tissues (types, joints, physiology, healing factors/complications); Equipment and Supplies; Patient Positioning and Draping; Procedural-Related Anatomy/Pathology (arthritis, fractures, and diagnostic procedures); Incisions, and Step-by-Step Considerations; Surgical Procedures: Shoulder Arthroscopy, Bankart Shoulder Dislocation Relief (open/arthroscopic), Shoulder Replacement (total arthroplasty), Rotator Cuff Repair (RCR) with Acromioplasty (open/arthroscopic), Colles' Radius Fracture Fixation (external-fixation/ORIF), Hip Replacement (total arthroplasty), Femoral Neck Fracture Fixation (ORIF), Femoral Shaft Fracture Fixation (external/ORIF), Knee Arthroscopy, Knee Replacement (total arthroplasty), Ligament Repair (ACL, open/arthroscopic), Leg

Amputations (AKA, BKA), Tenorrhaphy (achilles), Joint Fusion (ankle-triple arthrodesis), Bunionectomy (various techniques)

Unit III: Gynecological and Obstetrical Surgery (STST Chapter 17)

Select Key Terms; Introduction; Equipment and Supplies; Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Cervical Biopsy, Cervical Cerclage (Shirodkar's), Cesarean Section (c-section), Perineal Laceration, Sterilization Procedures (tubal ligation, ablation, etc.), Ectopic-Pregnancy, Tuboplasty, Diagnostic Laparoscopy, Hysteroscopy, Marsupialization of Bartholin's gland (cystectomy), Vulvectomy, Labioplasty, Dilation and Curettage (D&C), Oophorectomy, Salpingectomy, Ablation of Condylomata, Endometrial Ablation, Myomectomy, Hysterectomy (vaginal, laparoscopic, total abdominal, robotic-assist), Uterine Radiation Seeding, Wertheim Procedure, Total Pelvic Exenteration, Anterior and Posterior (A&P) Repair (colporrhaphy).

Unit IV: Eye and Otorhinolaryngologic (EENT) Surgery (STST Chapters 18 and 19)

Select Key Terms; Introduction; Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Chalazion Excision, Entropion/Ectropion Repair, Iridectomy, Strabismus Correction (recession, resection), Scleral Buckle, Dacryocystorhinostomy, Enucleation, Keratoplasty, Extracapsular Cataract Extraction, Traumatic Laceration Repair, Myringotomy (i.e. tube placement, BMT), Tympanoplasty, Mastoidectomy, Stapedectomy, Cochlear Implant, Septoplasty, Turbinectomy, Nasal Polypectomy, Choanal Atresia, Endoscopic Sinus Surgery (FESS), Nasal Antrostomy, Tonsillectomy and Adenoidectomy (T&A), Parotidectomy, Uvulopalatopharyngoplasty (UPPP), Laryngectomy, Radical Neck Dissection (mandibulectomy); Glossectomy (supplemental text), Temporomandibular Joint (TMJ) Arthroplasty (arthroscopy), Tracheotomy/Tracheostomy.

Unit V: Genitourinary Surgery (STST Chapter 22)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (H&P, Laboratory, Radiology, Biopsy, Endoscopy); Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Wilm's Tumor Excision (Adrenalectomy), Nephrectomy, Kidney Transplant, Ureteroscopy, Ureteropyelithotomy, Transurethral Resection of Bladder Tumor (TUR-BT), Cystectomy with Ileal Conduit, Bladder Neck Suspension Procedures (pubovaginal sling, vesicourethral suspension (Marshall-Marchetti-Krantz, MMK), TVT/sling), Transurethral Resection of Prostate (TURP), Prostatectomy (radical, suprapubic, laparoscopic, robotic-assist), Prostate Seeding (radiation implant), Hydrocelectomy, Orchiopexy, Orchiectomy, Circumcision, Hypospadias/Epispadias Repair, Penile Implant, Penectomy.

EDUC1100.20E0
Learning Framework
Fall 2026 Sub Term A

Instructor: Dr. Lanny Mathews
Office: MS 111E
Phone: 903-782-0237
Email: lmathews@parisjc.edu
Office Hours: Online

Meeting Location: Online
Meeting Days: Online
Meeting Times: By Appt.

Course Description:

EDUC - (Education) EDUC 1100 Learning Framework (1 SCH version) A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1300) Note: (NOTE: While traditional study skills courses include some of the same learning strategies – e.g., note-taking, reading, test preparation etc. – as learning framework courses, the focus of study skills courses is solely or primarily on skill acquisition. Study skills courses, which are not under-girded by scholarly models of the learning process, are not considered college-level, and, therefore, are distinguishable from Learning Framework courses.)
Prerequisite(s): None

Required Textbook(s) and Materials:

Our textbook for this class is *College Success* by OpenStax (2020).

A copy of this book can be found under the Start Here tab in your Black Board system.

Course Goals and Objectives:

EDUC Program Student Learning Outcomes:

1. Understand the importance of goal setting and build decision-making and goal setting skills.
2. Complete an inventory to determine personality type.
3. Develop critical thinking skills.
4. Complete a learning inventory and identify your personal learning style.
5. Understand the educational degree requirements for different types of careers and occupations.
6. Complete an interest inventory to determine matches between your interests and skills and occupations and degrees.

7. Complete a degree plan in the certificate or degree area you plan to pursue.
8. Understand the causes of stress and ways to manage stress.
9. Understand how diet, nutrition, exercise and physical fitness affect your life.
10. Develop note taking skills.
11. Develop study skills.
12. Understand test taking strategies.
13. Develop time management skills.
14. Understand money, banking, and credit.
15. Understand basic saving and investing principles.
16. Understand a resume.
17. Understand basic job interview skills.
18. Understand the benefits of service learning and citizenship responsibilities.
19. Develop team building skills.
20. Develop problem solving skills.

Course Map Table: CT-Critical Thinking, COM- Communication Skills, EQS- Empirical & Quantitative Skills, TW- Teamwork, PR- Personal Responsibility, SR- Social Responsibility

Course Objective	Program Outcome (PLO)	Texas Core Objective	Assignments / Modules
1. Goal setting & decision-making	PLO 1, PLO 5	CT, PR	Module 1 – Ch. 1–2 Assignment & Quiz
2. Personality inventory	PLO 1	CT	Module 1 Assignment
3. Critical thinking skills	PLO 3	CT	All Module Quizzes; Final Project
4. Learning inventory & learning style	PLO 2, PLO 5	CT, PR	Module 2 – Ch. 3–4 Assignment
5. Degree requirements for careers	PLO 4	CT	Module 2 Assignment
6. Interest inventory for careers	PLO 4	CT	Module 3 – Ch. 5–6 Assignment
7. Complete a degree plan	PLO 4	CT, COM	Module 5 – Final Project
8. Stress & stress management	PLO 1	PR	Module 3 Assignment

9. Diet, nutrition, exercise & fitness	PLO 1	PR	Module 3 Quiz
10. Note-taking skills	PLO 2	CT	Module 2 Assignment
11. Study skills	PLO 2	CT, PR	Module 2 Assignment
12. Test-taking strategies	PLO 2	CT	Module 4 Assignment
13. Time management	PLO 2, PLO 5	PR	Module 4 Assignment
14. Money, banking & credit	PLO 5	CT, EQS, PR	Module 4 Quiz
15. Saving & investing	PLO 5	CT, EQS	Module 4 Assignment
16. Understand a resume	PLO 4	COM	Module 5 – Final Project
17. Job interview skills	PLO 4	COM, PR	Module 5 – Final Project
18. Service learning & citizenship	PLO 5	SR, PR	Module 4 Assignment
19. Team-building skills	PLO 5	TW	Module 3 Assignment
20. Problem-solving skills	PLO 3	CT	All quizzes; Final Project

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) 8/30/2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Course Requirements and Evaluation:

Grading Scale (Total: 1,385 points)

Percentage Point Range Letter Grade

100–90%	1385 – 1247	A
89–80%	1246 – 1108	B
79–70%	1107 – 970	C
69–60%	969 – 831	D
59–0%	830 – 0	F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is 10/1/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

ITSY 1300.20E0
Fundamentals of Information Security
Fall 2026

Instructor: Pat Watson
Office: Online
Phone:
Email: pwatson@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

An introduction to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed. 3 Credit Hours 2 Lecture Hours and 4 Lab Hours

Required Textbook(s) and Materials:

Cengage Unlimited

Whitman/Mattord's Principles of Information Security, 7th Edition
Michael E. Whitman; Herbert J. Mattord

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Outline best practices for the information security goals of confidentiality.
2. Integrity and availability
3. Explain ethical practices.
4. Define vocabulary/terminology related to information security.

Course Requirements and Evaluation:

All quizzes and assignments will remain open. A zero will be entered as the grade for any quiz, assignment or exam not completed. Once closed, quizzes, exams, and projects will not be re-opened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

To ensure academic integrity, this course requires students to take a proctored Midterm or Final Exam at a Paris Junior College testing facility.

The following formula/criteria will be used to determine your Final Course Grade:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets Online. Assignments must be completed via the Internet through the Blackboard [Bb] Learning Management System and Cengage MindTap.

Email Response Time: If you send an email Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

If you experience technical difficulties, logging into your Bb course contact techsupport@parisjc.edu Customer service information for Cengage is located on your Cengage login page.

Open labs are available on each campus.

Paris:

- The Learning Center 903-782-0415
- Monday-Wednesday: 7:30 a.m. - 9 p.m.
- Thursday: 7:30 a.m. - 6 p.m.
- Friday: 8 a.m. - 4 p.m.
- Saturday: Closed
- Sunday: 5 p.m. to 9 p.m.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **September 1, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that

informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. ITSY 2301.20E0
Firewalls and Network Security
Fall 2026

Instructor: Pat Watson
Office: Online
Phone:
Email: pwatson@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Identify elements of firewall design, types of security threats and responses to security attacks. Use Best Practices to design, implement, and monitor a network security plan. Examine security incident postmortem reporting and ongoing network security activities. 3 Credit Hours
2 Lecture Hours and 4 Lab Hours

Required Textbook(s) and Materials:

Jones and Bartlett Learning

Navigate 2 eBook Access for Network Security, Firewalls, and VPNs with Cloud Labs
Third Edition

ISBN: 9781284184655

J.Michael Stewart; Denise Kinsey, PhD, CISSP, PMP

Course Goals and Objectives:

- Demonstrate system security skills through firewall implementation and testing
- Use system tools, practices, and relevant technologies to implement a security plan
- Evaluate practices, tools, and technologies to identify security breaches, sources of attacks, and protect mission critical systems.
- Establish an appropriate level of security based on an analysis of security logs.
- Use relevant tools to secure a network, respond to and follow up on various types of attacks

Course Requirements and Evaluation:

All quizzes and assignments will remain open. A zero will be entered as the grade for any quiz, assignment or exam not completed. Once closed, quizzes, exams, and projects will not be re-opened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

To ensure academic integrity, this course requires students to take a proctored Midterm or Final Exam at a Paris Junior College testing facility.

The following formula/criteria will be used to determine your Final Course Grade:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets Online. Assignments must be completed via the Internet through the Blackboard [Bb] Learning Management System and Cengage MindTap.

Email Response Time: If you send an email Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

If you experience technical difficulties, logging into your Bb course contact techsupport@parisjc.edu Customer service information for Cengage is located on your Cengage login page.

Open labs are available on each campus.

Paris:

- The Learning Center 903-782-0415
- Monday-Wednesday: 7:30 a.m. - 9 p.m.
- Thursday: 7:30 a.m. - 6 p.m.
- Friday: 8 a.m. - 4 p.m.
- Saturday: Closed
- Sunday: 5 p.m. to 9 p.m.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **September 1, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Aug. 24	Course Intro & Ch. 1 Fundamentals of Network Security	First Assignment “Start Here” section located on Blackboard & Module 1: Labs and Quizzes

JLRY 1301.10B0
Jewelry Techniques
Fall 2026

Instructor: Arby Magill

Office: AS134

Phone: 903 782-0383

Email: amagill@parisjc.edu

Office Hours: By appointment and concurrent with class.

Meeting Location: AS133

Meeting Days: Mon - Thurs

Meeting Times: 8:00 am – 4:30 pm

Course Description: Introduction to the fundamentals of jewelry fabrication and repair. Emphasis on prevailing industry standards

Required Textbook(s) and Materials: All textbooks and materials required will be provided in the toolkit or in class, except for consumables.

The Complete Metalsmith by Tim McCreight ISBN 978-0871922403

Jeweler's Resource by Bruce G. Knuth ISBN 978-0964355033

Jewelry Metals by James Binnion ISBN 9780979996221

Items not supplied in the tool kit, but are highly recommended:

Minor first aid supplies, bandages, burn cream, etc.

Pen, pencil, extra fine permanent marker

Writing paper, notebook, folders, binders

A fully sealable beverage container.

A lock for your tool box.

Money for consumables including abrasive paper, solders, drills, burs, etc. Solder is not supplied but it is required. These can be purchased from the toolroom onsite, or you can purchase directly from the vendor, but it must specifically be the solder we dictate for consistency in grading.

Course Goals and Objectives: Lay out a design with appropriate metal; saw and file metal to specifications; finish to polish-ready condition; demonstrate proper use and maintenance of jewelry-making equipment; describe the characteristics of materials and supplies used.

Course Requirements and Evaluation:

Each project is listed with its start date, its due date is the next projects start date. Projects are graded on a 100 point scale, with a minimum of 70 average being needed to pass and receive any certificate or degree. The final grade for the course is a composite of project scores, counting for 70% of the grade; your work ethics score, counting for 20% of the grade; and written test scores; counting for 10% of the grade.

Required Activity:

As part of this course, *all students* are required to complete the following mandatory trainings:

1. Alcohol & Other Drugs
2. Sexual Assault Prevention for Community College Students
3. Mental Well-Being for Students

Students are responsible for completing all assigned trainings by the designated deadline. Students will receive the links for mandatory training in their student email. Proof of completion must be provided to the instructor in order to receive credit for this requirement. Failure to complete the trainings and/or provide verification of completion may result in the student not receiving a grade for this portion of the course.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is October 1st. An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Door Lock

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom. If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole."

Class Conduct:**Jewelry Program Absence Policies and Professionalism**

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor (amagill@parisjc.edu) via email by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, a doctor's note or a receipt from a care clinic in the case of illness of the student or a dependent.

5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.
8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are: lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.
10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Friday Lab Time Requirements

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. **Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.**
2. Cell phones and any other sound/video player or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn at all times when performing operations that might cause eye injury.

Security

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.
4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Personal Projects

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructors office each morning.
3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. **Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and personal tools are the responsibility of the student.**

Work Benches/Classroom Maintenance

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.

3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - all students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students may not use equipment that they have not received instruction and demonstration on in this class.
3. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.
4. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
5. Any special tools supplied by an instructor should be returned upon request or at the end of the day.

Damage/Loss of Equipment or Other School Property

Students may incur additional charges for damage to school property, including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

If at all possible, students should address all in class complaints or concerns with their course instructor first. If the issue is of a more sensitive nature, or if has not been resolved to the students satisfaction, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. Jewelry Techniques
Fall 2026

Instructor: Arby Magill

Office: AS134

Phone: 903 782-0383

Email: amagill@parisjc.edu

Office Hours: By appointment and concurrent with class.

Meeting Location: AS133

Meeting Days: Mon - Thurs

Meeting Times: 8:00 am – 4:30 pm

Course Description: Continue the development of jewelry fabrication skills to include precision layout, sawing, and filing; complex assembly tasks; and finishing to professional standards.

Required Textbook(s) and Materials: All textbooks and most materials required will be provided in the toolkit or in class, except for consumables.

The Complete Metalsmith by Tim McCreight ISBN 978-0871922403

Jeweler's Resource by Bruce G. Knuth ISBN 978-0964355033

Jewelry Metals by James Binnion ISBN 9780979996221

Items not supplied in the tool kit, but are highly recommended:

Minor first aid supplies, bandages, burn cream, etc.

Pen, pencil, extra fine permanent marker

Writing paper, notebook, folders, binders

A fully sealable beverage container.

A lock for your tool box.

Money for consumables including abrasive paper, solders, drills, burs, etc. Solder is not supplied but it is required. These can be purchased from the toolroom onsite, or you can purchase directly from the vendor, but it must specifically be the solder we dictate for consistency in grading.

Course Goals and Objectives: Layout complex designs; operate torches to anneal metals; solder metal components of similar and dissimilar weight; finish projects to professional standards.

Course Requirements and Evaluation:

Each project is listed with its start date, its due date is the next projects start date. Projects are graded on a 100 point scale, with a minimum of 70 average being needed to pass and receive any certificate or degree. The final grade for the course is a composite of project scores, counting for 70% of the grade; your work ethics score, counting for 20% of the grade; and written test scores; counting for 10% of the grade.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is October 1st. An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Door Lock

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom. If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole."

Class Conduct:**Jewelry Program Absence Policies and Professionalism**

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor (amagill@parisjc.edu) via email by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, a doctor's note or a receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.

8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are; lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.
10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Friday Lab Time Requirements

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video player or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn when performing operations that might cause eye injury.

Security

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.

4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Personal Projects

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructors office each morning.
3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. **Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and tools are the responsibility of the student.**

Work Benches/Classroom Maintenance

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - all students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students may not use equipment that they have not received instruction and demonstration on in this class.
3. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.

4. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
5. Tools supplied by an instructor should be returned at the end of the day.

Damage/Loss of Equipment or Other School Property

Students may incur additional charges for damage to school property, including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Academic Honesty:

It is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

If at all possible, students should address all in class complaints or concerns with their course instructor first. If the issue is of a more sensitive nature, or if has not been resolved to the students' satisfaction, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

JLRY 1302.10C0
Jewelry Techniques
Fall 2026

Instructor: Arby Magill

Office: AS134

Phone: 903 782-0383

Email: amagill@parisjc.edu

Office Hours: By appointment and concurrent with class.

Meeting Location: AS133

Meeting Days: Mon - Thurs

Meeting Times: 8:00 am – 4:30 pm

Course Description: Continue the development of jewelry fabrication skills to include precision layout, sawing, and filing; complex assembly tasks; and finishing to professional standards.

Required Textbook(s) and Materials: All textbooks and most materials required will be provided in the toolkit or in class, except for consumables.

The Complete Metalsmith by Tim McCreight ISBN 978-0871922403

Jeweler's Resource by Bruce G. Knuth ISBN 978-0964355033

Jewelry Metals by James Binnion ISBN 9780979996221

Items not supplied in the tool kit, but are highly recommended:

Minor first aid supplies, bandages, burn cream, etc.

Pen, pencil, extra fine permanent marker

Writing paper, notebook, folders, binders

A fully sealable beverage container.

A lock for your tool box.

Money for consumables including abrasive paper, solders, drills, burs, etc. Solder is not supplied but it is required. These can be purchased from the toolroom onsite, or you can purchase directly from the vendor, but it must specifically be the solder we dictate for consistency in grading.

Course Goals and Objectives: Layout complex designs; operate torches to anneal metals; solder metal components of similar and dissimilar weight; finish projects to professional standards.

Course Requirements and Evaluation:

Each project is listed with its start date, its due date is the next projects start date. Projects are graded on a 100 point scale, with a minimum of 70 average being needed to pass and receive any certificate or degree. The final grade for the course is a composite of project scores, counting for 70% of the grade; your work ethics score, counting for 20% of the grade; and written test scores; counting for 10% of the grade.

Course Policies:

This is in no way intended to void, modify, or circumvent any of the policies and/or procedures contained in the Student Handbook and events calendar; but rather, is intended to define and emphasize certain of these policies as they apply to the Jewelry students.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is October 1st. An absence for any reason does not relieve a student of responsibility for any part of the work covered in the class during the period of absence. Absences are excused in the event of a personal illness or family emergency; as long as there is proper documentation. In those instances, it is the student's responsibility to provide the proper documentation; as well as, meet with the instructor in order to receive any missed assignment(s)/lectures/exams.

Door Lock

Please be aware that this classroom utilizes a door-locking system. If the student arrives after the door has been locked, the student may not be able to enter the classroom until the next designated time the door is opened. Late arrival does not guarantee immediate access to the classroom. If the student anticipates being late, it is the student's responsibility to notify the instructor as soon as possible and provide a reason for the late arrival. However, notifying the instructor does not guarantee that the student will be permitted to enter the classroom immediately. Ultimately, it is each student's responsibility to plan accordingly and arrive to class on time every day. Consistent punctuality contributes to a productive, respectful, and successful learning experience for both the student and the class as a whole."

Class Conduct:**Jewelry Program Absence Policies and Professionalism**

1. Students are expected to attend all classes on a regular and punctual basis. Students are allowed one absence per eight-week flex term, additional absences can impact the student's grade/success.
2. Students must notify instructor (amagill@parisjc.edu) via email by no later than 9:00 a.m. of the day being missed. An unexcused absence will be recorded if timely notification is not given.
3. Students with 3 unexcused absences are subject to failing the course.
4. Documented and justifiable absences may be excused. Examples of this would include memorial cards from a friend or family member's funeral, a doctor's note or a receipt from a care clinic in the case of illness of the student or a dependent.
5. Students should notify instructors before stepping out of class. Failure to do so may result in an unexcused absence.
6. Students are responsible for obtaining all notes, assignments and announcements covered during any class session they miss. The instructor will *not* provide individual make-up lectures or notes for missed classes.
7. A major part of attendance is participation, i.e. working on assigned projects. Students not participating may have an unexcused absence recorded and be removed from class for a time. This would apply to students sleeping in class, excessive talking while not working, activities on phones or watches, or any other activity keeping them or their classmates from being productive.

8. To maintain a productive learning environment, students should remain in their assigned classroom and avoid interrupting instruction or student work in other classrooms.
9. A lack of professionalism may also require the removal of a student from class. Some actions which would be considered unprofessional are; lack of respect given to the instructor or other students, coarse or prejudicial language, misuse of class equipment, working on personal projects, inappropriate attire, wearing head phones or similar items. Students lacking professionalism may have an unexcused absence recorded and be removed from class for a time.
10. Students are expected to use the hallways quietly and respectfully. Running, loitering, disruptive behavior & inappropriate language are *not* permitted, as hallways are shared learning spaces.

Friday Lab Time Requirements

1. Friday morning lab time is designated for the completion of class projects. Students with excessive absences and tardiness will need instructor approval for lab time.
2. Friday lab time begins promptly at 8:00am, and classroom entrance is not guaranteed after 8:00am.
3. Students will be asked to leave if they are talking &/or distracting other students.

Safety

1. There are certain elementary precautions that **MUST** be observed when working with sharp objects, machines/equipment or hot metals. Therefore, all items of clothing must be of at least 50% natural fibers. Shorts, halters, open toed shoes, sleeveless shirts, hats, sweatshirt hoods, and other clothing worn on the head are not permitted in classroom areas.
2. Cell phones and any other sound/video player or recording device(s) may not be present nor used in the polishing rooms & casting areas.
3. Students must be trained and authorized by the instructor on each piece of equipment before use.
4. The student is expected to act in a manner that will not injure any other person or damage any components, tools, equipment, instructional aids, or reference material.
5. All oral and/or written safety rules and instructions must be followed.
6. Students are required to report any accident or safety violation to the instructor as soon as possible.
7. The Safety Data Sheet (SDS) manual is located in the office of AS 126
8. Safety glasses must be worn when performing operations that might cause eye injury.

Security

1. Security of the tools, supplies, and materials in the jewelry program at PJC is the responsibility of all participants. Any breach of security should be reported to an instructor immediately.
2. Students must enter and exit the classroom using the designated main entrance. Other entrances are to be used *only* in the event of an emergency.
3. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be used for personal projects or projects that are not part of an assignment approved by an instructor.

4. At no time should tools, supplies, or materials belonging to the jewelry program at PJC be removed from the department.
5. Student access to storage rooms is prohibited except by express consent of instructor for each instance.
6. All locking cupboards containing tools, supplies, and materials are to be accessed by instructors only (whether locked or unlocked).
7. No student should handle or attempt to otherwise gather information from papers and other documents on instructor workbenches and office desk.
8. Photographs, videos, and audio recordings should not be made without permission of instructor and all parties involved.

Personal Projects

1. Students are not allowed to work on personal projects in the classroom at any time. Personal work can be confiscated by the instructor and held until the end of the semester. There should be no personal items stored in students project boxes.
2. Students will retrieve their projects from their project box in the instructors office each morning.
3. The college reserves the right to randomly check individual students project box contents.
4. Any project that the student has finished that is ready to be graded will be placed in the instructors grading box.

Personal Property and Accessories

1. Toolboxes will be kept under the students' bench when not in use. These toolboxes will be picked up and placed on top of benches at the end of each day.
2. Walk areas and isles between the benches must be kept clear for other students and the instructor. This includes returning your chair under your bench when leaving your bench.
3. Purses, backpacks, satchels, book bags, etc. - should be kept neat. **Neither PJC or faculty assumes any responsibility for loss of personal items or tools. The security of personal items and tools are the responsibility of the student.**

Work Benches/Classroom Maintenance

1. Each students' workspace and bench tops will be kept tidy each day.
2. Turn off each bench light & wax pen when not in use.
3. Each student is responsible for maintaining their bench and surrounding area. Any items on the floor will be picked up by the students at the end of each day and placed on top or inside of the student's bench.
4. At times designated by the instructor - all students are to participate in cleaning the classroom/workshop/lab areas.

Use of Classroom Tools and Equipment

1. Classroom tools, equipment, teaching aids, etc. are property of Paris Junior College.
2. Students may not use equipment that they have not received instruction and demonstration on in this class.
3. Students are individually responsible for the tools and equipment they use, are responsible for using them in a safe and cautious manner, & are responsible for returning them to where they belong.

4. Using a piece of equipment that is not in good working order is prohibited and such conditions should be reported to an instructor.
5. Tools supplied by an instructor should be returned at the end of the day.

Damage/Loss of Equipment or Other School Property

Students may incur additional charges for damage to school property, including, but not limited to: Benches; bench lamps; chairs; hand tools; equipment; supplies, etc.

Dress Code

In addition to proper dress for safety, the following requirements must be observed. These requirements are part of the overall work ethics:

1. Students without proper attire will be dismissed from class. This dismissal will have a negative effect on the student's grade for work ethics and be recorded and reported as an unauthorized absence.
2. No hats of any kind are to be worn in the lab at any time.
3. Long hair should be tied back at all times.
4. Students are expected to practice proper personal hygiene and exercise cleanliness in all things while in the classrooms/workshops.
5. Dress and Grooming: Student's attire and grooming must not materially or substantially interfere with normal school operations.
6. Protective Clothing – Safety rules and the wearing of protective clothing and equipment, i.e., safety goggles, dust mask, full face shield, apron, gloves, etc., must be followed when working with equipment, chemicals, and specialty tools. Loose clothing can be a physical hazard when operating certain equipment.

Academic Honesty:

It is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

If at all possible, students should address all in class complaints or concerns with their course instructor first. If the issue is of a more sensitive nature, or if has not been resolved to the students' satisfaction, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course Description:

The course supports students in developing skills, strategies, and reasoning needed to succeed in mathematics, including communication and appropriate use of technology. Topics include the study of numeracy and the real number system; algebraic concepts, notation, and reasoning; quantitative relationships; mathematical models; and problem solving. This course is not for college-level credit.

Credits: SCH = 0

Prerequisite(s): placement in this course based on placement test scores

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. For this course, we will be using courseware integrated with ALEKS. You will be able to access the textbook (Developmental Mathematics: Basic Mathematics and Algebra, 4th edition, ISBN 9780134764863, Lial, Pearson) and learning materials directly through your Blackboard account.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

This course is designed to assist students in the following objectives:

- To develop conceptual understanding of mathematics with a focus on underlying structures
- Development of ideas and problem solving

Course Requirements and Evaluation:

Grading: Your grade in this course will be calculated as follows:

Exams (3 Exams @ 10% each)	30%
Final Exam	20%
Homework (MATHXL)	40%
Attendance	10%

*****Your grade is available to you 24/7 in Pearson (the Blackboard gradebook is not used).*****

If you click on Gradebook in Pearson, you can see your overall average for the course as well as your grade for each assignment and test. Attendance grades will only be updated monthly.

A numerical grade of 60 – 100 is considered a passing grade.

This course is conducted using a traditional lecture format, but all homework will be done using Pearson which you will be able to access through Blackboard.

1. **Homework:** All assignments will be done online using Pearson. No code or book required! We will discuss and demonstrate this tool in class. Assignments will always be due Sunday night by midnight. **Homework assignments** are a collection of problems designed to give students the opportunity to practice new skills or reinforce past learning. You have unlimited attempts at each problem allowing you to earn a grade of 100 if completed by the due date. Late homework will be penalized 20 points, but this penalty only applies to the problems that you complete AFTER the due date.
2. **Tests:** There will be 3 tests given throughout the semester. You may use a calculator (except on the first test) and one **4x6 notecard**. In the event that a student is absent or late and misses a test, the grade for that test will be a 0. **No make-up tests will be given.** You will be allowed to replace one test grade with your Final Exam grade.

After Exam 1, students may use a basic four function calculator – NOT a scientific calculator. Students may use one notecard on all exams and the final exam (front and back).

Course Policies:

Come to class prepared EVERY time. You should have a notebook with all materials: copy of course contract, syllabus, notes, PENCIL, etc. Showing up unprepared shows any instructor that you are not interested in your education or his/her class.

Please keep in mind you may miss out on important information if you are late for class. Do not expect me and other students in the classroom to inform you about what you missed. Students in college courses are expected to conduct themselves as adults. Any student who is disruptive will be asked to leave the class.

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun.

Note: It is the responsibility of the student to provide the instructor with an up-to-date phone number. The only email that I will use to communicate with you is your DragonMail that is in your MyPJC account.

Anyone who is not enrolled in MATH0300 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. The material in this course will move quickly from one concept to the next. To be counted present, you must be in class the entire class period.

Each tardy reduces your Attendance grade 1 point, each absence reduces your grade by 3 points, leaving early reduces your grade by 1 point. If you come in late and attendance has already been checked, it is YOUR responsibility **after class** to let me know that you are not absent so it can be changed in my records.

You do not have the right to disrupt the class and disturb other students by coming into the classroom late, going in and out of the room during class, or leaving the classroom early. It is not fair for you to expect the instructor to go over material that was covered while you were absent when other students are ready to move ahead. There is a video lesson and other media in each Homework section. These do not count toward your grade, but are very helpful if you miss class.

If you decide to drop or withdraw from this class, it is your responsibility to initiate the withdrawal process and complete a drop form in order to receive a grade of W. **Students will receive a grade of F if students quit attending class but do not complete the withdrawal process.** The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.

Class Conduct:

Please turn off or silence and put away all cell phones, computers, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Cell Phones: Cell phone usage is forbidden during class. This includes text messaging. Please turn all cell phones on silent and **put them away**. **Cell phones may not be used for a calculator**. Use of a cell phone is cause for you to be asked to leave class. Any student who is asked to leave the classroom more than once will receive an automatic “F” in the class. This may have repercussions for financial aid and scholarship eligibility.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

THINK BEFORE YOU SPEAK: Remember that no everyone is at the same level in this class – some people do not have their multiplication tables memorized, haven't done math in 30 years, and more than a few "hate math". There are others who can do most of the class in a couple of weeks, just had a bad testing day and they know most of the answers before I do. Because of this HUGE range of ability, I have two commandments in my class.

1. Do NOT EVER make someone feel badly for asking a question – even if they ask questions that you think are "easy". What's easy to you, is not always easy others.
2. If you know all the answers, good for you. You could always retest and drop this class. Although I LOVE participation, I want everyone to have a chance to think about it and be allowed to participate so please don't be the "know it all" in the class.

****BOTTOM LINE: IF YOU COMPLETE EACH ASSIGNMENT ON TIME, ATTEND CLASS, & PARTICIPATE, YOU WILL EXCELL IN THIS COURSE****

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Aug. 24	Syllabus, Intro to Pearson, Pretest	Oct. 19	Review for Test 2 (Chapter 2)
Aug. 26	1.1 Intro to Whole Numbers	Oct. 21	Test 2 (Chapter 2)
Aug. 30	1.2 Adding and Subtracting Whole Numbers	Oct. 26	3.1 Simplifying Expressions and Combining Like Terms
Sept. 2	1.3 Rounding and Estimating	Oct. 28	3.2 Addition and Subtraction Properties of Equality
Sept. 7	Labor Day Holiday!	Nov. 2	3.3 Multiplication and Division Properties of Equality
Sept. 9	1.4 Multiplying Whole Numbers	Nov. 4	3.4 Solving Equation with Multiple Steps
Sept. 14	1.5 Division Whole Numbers	Nov. 9	Review for Test 3 (Chapter 3)
Sept. 16	1.6 Exponents, Algebraic Expressions and PEMDAS	Nov. 11	Test 3 (Chapter 3)
Sept. 21	1.7 Applications and Mean	Nov. 16	4.1 Intro to Fractions
Sept. 23	Review for Test 1 (Chapter 1)	Nov. 18	4.2 Simplifying Fractions
Sept. 28	Test 1 (Chapter 1)	Nov. 23	4.3 Multiplying and Dividing Fractions
Sept. 30	2.1 Integers, Absolute Value, and Opposite	Nov. 25	Thanksgiving Holiday!
Oct. 5	2.2 Addition of Integers	Nov. 30	4.4 Least Common Multiple and Equivalent Fractions
Oct. 7	2.3 Subtraction of Integers	Dec. 2	Review for Final Exam
Oct. 12	2.4 Multiplication and Division of Integers	Dec. 7	Final Exam
Oct. 14	2.5 Order of Operations and Algebraic Expressions		

**Math 1314.25D0
College Algebra
Fall 2026**

Instructor: Nicole Lorraine

Office: Greenville 204

Phone: 903-457-8711

Email: nlorraine@parisjc.edu

Office Hours: Online or by appointment (email is the best and fastest way to contact me)

Meeting Location: online

Meeting Days: N/A

Meeting Times: N/A

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. Credits: SCH = 3 hours.

TSI Requirement: Math 950

Prerequisite(s): Appropriate score on placement test

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. You will be able to access the textbook (Algebra and Trigonometry: Blitzer, 7th Edition, Pearson) and learning materials directly through your Blackboard account. You do NOT need to purchase a code or a book.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Course Requirements and Evaluation:

Evaluation Methods:

Grade scale

A – 90-100
B – 80-89
C – 70-79
D – 60-69
F – 0-59

Grade Weighting System

1st test – 12% (Proctored at your school)
2nd test – 12%
3rd test – 12% (Proctored at your school)
4th test – 12%
Final Exam - 12% (Proctored at your school)
Homework - 40%

IMPORTANT

There is an assignment that must be done BEFORE the Official Reporting Day, by midnight of Tuesday, September 8th called “First week of class ASSIGNMENT - Software Orientation”. It is DUE by midnight on Sunday, August 30th. As with all Homework assignments, if you complete it after the DUE date, you will lose 30%. The Software Orientation contains some exercises that simply teach you how to use the tools in MyLab Math. **Any student who is not active in the Blackboard class site BY the Official Reporting class day (before Tuesday, September 8th) and has not completed the Software Orientation, will be dropped from the course on Wednesday, September 9th.** This is mandated by the state of Texas to remain in the course.

There will be four exams, homework, and a comprehensive final exam. **There are NO makeup exams or re-takes. NO test will not be opened again after the due date.** If you miss a test or do poorly on a test, the final exam may be substituted for a missed test grade or lower test grade, thus counting the final exam grade twice. If you have a conflict, email me and you may take a test early, but never late.

Please follow this link to see how to access your Dragonmail, your MyPJC, and Blackboard accounts as well as information about the new two factor authentication via the web: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

I will communicate with you via PJC DragonMail NOT Blackboard OR Pearson email/messages. Blackboard and Pearson email/messages are disabled in all my classes and you will NOT get a response.

Email should be checked at least every other day. You should expect to spend online at least as much time as you would spend attending a traditional class each week. Students must possess basic computer skills necessary to be successful in an online course. **Students are expected to begin coursework on the first day of class.**

Testing Policy:

Four tests and a comprehensive final will be given for the semester covering assigned homework material. Each exam will be worth 100 points. Two of the four Tests (Test #1 and Test #3) and the Final Exam must be **proctored at your school or taken at a PJC Testing Center** during scheduled testing periods indicated in the syllabus. **To make an appointment to take a proctored test**, call the testing location of your choice:

Paris: 903-782-0446

Greenville: 903-454-9333

Sulphur Springs: 903-885-1232.

Not all Testing Centers are open everyday so make sure to check the schedule of the Testing Center that you plan to use. The Greenville Center does not do testing on Fridays.

Each proctored test will be available for ONE WEEK (week being school days). Be sure not to wait until the last possible date to take exams in the event last minute conflicts or personal problems occur. Remember there are **no make-up exams**. If you can't complete the Review for a Test with just your cheatsheet, paper, and a calculator in the 2 hours you are allowed for the Test, then you are not prepared to take it. You can work through the Review like you would work the Homework. **When you have a grade that you are happy with, then go back into the Review and click Review & Practice and you will get problems VERY similar to the original problems to practice and it will not affect the grade you already made.** That is true for all the Homework assignments as well.

No cell phones, pagers, tablets, books, notes, or electronic materials may be used by students during proctored testing.

You may use a calculator and ½ sheet of paper (cheatsheet) on the three proctored tests. Yes, you can write on both sides. You must have an ID to take a test at a Testing Center.

The best thing to use to prepare for the Tests is the Reviews that are included in your Homework Assignments. The first one is called Review for Test #1. The Reviews are prerequisites for the Tests. **You CANNOT take a Test until you make at least a 70 on the Review.** If you want to put problems from the Review on your Cheat Sheet, that's totally ok! You can put anything you want on the cheat sheet. You only get one chance to input answers on the Test. It's not like the Homework that allows you to input the answer over and over until you get it right.

Tests are to be taken by the deadlines scheduled. It is the responsibility of the student to note test dates. Remember, there are no make-up tests. It is a good idea to set reminders in your phone and/or keep the last page (with all the dates) of this Syllabus handy.

Homework Exercises:

The purpose of the homework is to give you the practice necessary to become proficient in each mathematical concept, to examine various applications of the given concept, and to prepare for the exams. The Homework assignments will open in groups. The group that is open now is only relevant to Test #1 (and the Final Exam). This first group of Homework will close the night before Test #1 opens. The second group of Homework will open the same day that Test #1 opens. This process repeats for all 4 groups of Homework. Due dates are always listed on the Homework, but **use the last page of your Syllabus for all dates because it is color-coded and easy to understand.** You do NOT have to do the Homework assignments in order. You do not have to complete an assignment when you open it. You can do one problem and get out – **it will automatically save**

your answers. You can work on the problems in any order. **Any work done after the due date will be penalized 30%!**

IMPORTANT NOTES ABOUT HOMEWORK ASSIGNMENTS:

Everyone can get a 100 on every Homework Assignment! Each problem can be worked over and over again until you get it right. You get 3 chances to enter the answer before it tells you the correct answer and marks the problem wrong. BUT you do not have to get it wrong - just select Similar Exercise and you can work another problem just like the one you missed (it will just be different numbers). Then you have 3 more chances to enter your answer. You can do this over and over until you get it right which means that you can get a 100 on every homework assignment. If you are not a good test taker, having all A's on the homework can really help if you do poorly on a couple of the tests.

If you miss problems and want to go back to them later, you can still change your answers at any time by clicking on the assignment, then click **Improve Score** and you can fix any problem that is marked wrong by clicking **Similar Question** and reworking it until you get it right.

There are media aids in the Homework assignments like videos and Powerpoints. You MUST at least click on the media to get points on the Homework. You cannot make a 100 on Homework if you have not clicked on each media item – so basically the media provides you FREE points on your Homework.

There is also a link called “Material from Mrs. Hood”. This has a tab for every section with printable NOTES and VIDEOS for every section. These are the same notes used in a face-to-face class and should be very helpful after you have gone through the available media aids.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Attendance will be monitored in this class by access logs and recorded on Fridays. As the instructor for this course, I can see the date that you access the course via blackboard and the work that you have done.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)
You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

****Record these dates on a calendar****. Maybe set Reminders in your phone. **Test Reviews** (which are VERY HELPFUL) are part of your Homework Assignments and must be completed with at least a grade of 70 before you can open the Tests. **Proctored Tests** open on a Monday and close on Friday. If a test is NOT proctored, you can take it at home and it will not be due until Sunday. The **Final Exam** opens on a Wednesday and closes the next Tuesday. You are allowed to have a calculator and a cheat sheet (1/2 piece of paper) for all proctored tests. You may put ANYTHING you want on the Cheat Sheet.

Dates	Assignment
August 24 - 30 (Mon. – Sun.) <i>First Week of Class Assignment – you will be dropped if you do not complete by midnight Tuesday, September 8th, but it is DUE Aug. 30</i>	1. Login MATH1314 through Blackboard and complete the First Week of Class Assignment. 2. Login to your Dragon email account to verify that you have access to it.
August 24 – September 13 <i>Group 1 of Homework</i>	1.2 Linear Equations and Rational Equations 1.4 Complex Numbers 1.5 Quadratic Equations 1.6 Other Types of Equations 1.7 Linear Inequalities and Absolute Value Inequalities 8.1 Systems in Two Variables Chapter 1 Test Review <i>(must make at least 70 to open Test 1)</i>
September 14 – 18 (Mon – Fri)	Test 1 ** PROCTORED at your school or at a PJC Testing Center **
September 14 – October 11 <i>Group 2 of Homework</i>	2.1 Basics of Functions and Their Graphs 2.2 More on Functions and Their Graphs 2.3 Linear Functions and Slope 2.4 More on Slope 2.6 Combinations and Composite Functions 2.7 Inverse Functions Chapter 2 Test Review <i>(must make at least 70 to open Test 2)</i>
October 12 – 18 (Mon – Sun)	Test 2 (not proctored – you can take it at home)
October 12 – November 1 <i>Set 3 of Homework</i>	3.1 Quadratic Functions 3.2 Polynomial Functions and Their Graphs 3.3 Dividing Polynomials 3.4 Zeros of Polynomials 3.5 Rational Functions and Inequalities Chapter 3 Test Review <i>(must make at least 70 to open Test 3)</i>
November 2 – 6 (Mon – Fri)	Test 3 ** PROCTORED at your school or at a PJC Testing Center **
November 2 - 22 <i>Set 4 of Homework</i>	4.1 Exponential Functions 4.2 Logarithmic Functions 4.3 Properties of Logarithms 4.4 Exponential and Logarithmic Functions Chapter 4 Test Review <i>(must make at least 70 to open Test 4)</i>
November 23 – 29 (Mon – Sun) Yes, I know you are out of school for Thanksgiving	Test 4 (not proctored – you can take it at home)
November 23 – December 8	Review for Final Exam <i>(must make a 70 to open the Final)</i>
December 1 - 8	Final Exam

(Tuesday – Tuesday)

I.T. Checklist for First Class Day:

Visit <https://www.parisjc.edu/technology/pjc-it-checklist.php> for a checklist of events to complete before the first class day such as access to your MyPJC portal, Dragonmail, Blackboard, Microsoft Authenticator, Microsoft Office, and Respondus LockDown Browser.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course. This could effect financial aide and your current registration status.

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. Credits: 3

TSI Requirement: 950+ Math

Prerequisite(s): Adequate placement score or concurrently enrolled in MATH 0401.

Required Textbook(s) and Materials:

The Book (optional): Algebra and Trigonometry, 7th ed., Blitzer. All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. The Book and homework assignments are located in Blackboard→ Pearson. You will need to bring a journal or spiral, along with something to write with, to class every day. (If you wish to write with a stylus on a computer, you can.)

The Computer & Accessories: Students must have access to Wi-Fi and a computer. Zooms work well if you have a Webcam but is not necessary. Check with your Academic Advisor for financial aid to purchase a computer or possibly a loaner laptop.

The Internet: Students must have access to their PJC DragonMail and PJC Blackboard. Students will use Pearson for hmwks, quizzes, gradebook, etc. The price of Pearson is included in your tuition and there is no additional money you pay. Pearson is inside your Blackboard and is a click away.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Goals and Objectives:

Foundational Component Area: Mathematics Courses in this category focus on quantitative literacy in logic, patterns, and relationships. Courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level):

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Calculator Use:

You can use any type of calculator at home. These include purchased handheld calculators, those on phones, and those on computers. On Testing Days, you can use your cell phone calculator if you sit on the front rows so the teacher can watch your screens.

Calculators that you can use while testing in Testing Centers. (If testing in Morrison's classroom, may use Calc84 cell phone app for FREE)		Calculators that you can NOT use in Testing centers.

These do not reflect 2026 prices.		

If you are eligible for TRIO Services: check with your advisor to see if you can check out or borrow a calculator using your TRIO benefits

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, three major tests, attendance, quizzes, and the comprehensive final examination. Course grades are calculated as follows:

Attendance	5%
Quizzes	15%
Homework Average	20%
Test Average (3 Major Tests)	40%
Test 4 "Final Exam"	20%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Course Policies:

Class will start promptly each class day. Class will not end early on purpose.

Walk in, sign the attendance sheet, grab any handouts, sit down and write down the Warm-Up in your journal. Silence your phone.

If you are late, please walk in quickly. Take pictures of missed notes later.

Bring your journal, packet of handouts, and something to write with.

Ask questions. Ask to slow down. Ask to rephrase. Ask to draw a picture.

Have the calculator downloaded on phone, or a non-internet calculator in your hand and charged.

No outside visitors, unless from Mrs. Morrison's other classes, or PJC staff.

It is important that you check our course page in Blackboard as well as your PJC Dragon email account regularly as this is my best means of communication outside of class meetings.

Attendance (1%):

Grade for attendance will be input at the end of the semester from the sign in sheets. Students must sign in every class period. If a student is absent, please email the teacher as a heads up. If your excuse was unavoidable, then your attendance is excused and you do not earn a 0 for that day.

There is no need for documentation. We trust you. Unavoidable absences: Sickness with or without a doctors notes, childcare duties, random transportation issues, court dates, new job training, change of job, family sicknesses, etc. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, April 9, 2026 LAST DAY TO DROP.**

Online Notes (not graded):

The homework platform provides notes, videos, powerpoints, and the textbook for you. They sometimes skip steps.

Check Out Mrs. Mo's Blank Handouts:

She uses these handouts in her YouTube videos. She uses these handouts to bring up old math, new formulas, and new info. Teacher will give you 1 printed packet of handouts. After that, if you need another, you must print off yourself from Blackboard.

Worked Out Handouts (not graded):

These are the aftermath of the YouTube teaching videos with the Blank handouts from Mrs. Mo

YouTube Playlist with Mrs. Mo's Teaching videos (not graded):

@Mrs.MoGville on YouTube.

These are the "lessons" you would learn in class. Mrs. Mo uses the blank online handouts to work out examples from the homework. If you need a face-to-face teacher, first watch Mrs. Mo's YouTube video for that hmwk.

Online Homework (worth 20% of your grade):

All homework is now available, and students are allowed to work ahead. However, once a homework assignment is started, your grade drops until the whole hmwk is completed. The homeworks, quizzes, and test reviews are found under this icon on Blackboard.

Due dates are listed next to each assignment in the homework program and can also be found under Blackboard. The calendar is also on the back of the syllabus.

Late Homework Policy: Late homework will be accepted with a 30% penalty. The final deadline to submit late assignments is **Wednesday, December 9, 2026**

Homework Goal: All students should aim for a 90 or higher on their homework because:

1. **Multiple Attempts:** You get three chances to answer each question correctly.

2. **Retry with Similar Exercises:** If you get a question wrong after three attempts, press "Similar Question" to try again with a new version of the problem. Once completed correctly, your previous incorrect attempts are erased and won't affect your grade. You can also use this feature to review similar problems before a test.

3. **Step-by-Step Examples:** Click "View an Example" to see a detailed step-by-step explanation with different numbers. The process shown in this feature matches the explanations in Mrs. Morrison's YouTube videos. Watch Mrs. Mo's videos if you get confused with the View An Example.

4. Use **"Help me solve this"** Carefully: While this option provides a guided walkthrough of the problem, you will not receive full credit for using it.

5. **View the Textbook:** Under Get more Help

6. **Score Adjustments:** If your answer matches the correct answer exactly but is marked wrong, take a picture and email it to Mrs. Mo. She will adjust your score accordingly.

7. **Late Submission Details:** The 30% penalty only applies to problems completed after the due date. You only need to redo incorrect or incomplete problems to improve your grade.

- Example: John correctly completes half of his homework before the due date, earning a 50. After the deadline, he finishes the remaining problems correctly, and his score jumps from 50 → 85!

8. **Publisher Media:** Every homework assignment includes videos, PowerPoints, and PDFs from the book publisher to learn from. Viewing these resources counts as a homework check mark, earning you points. You can watch them fully, partially, or simply open and close them for credit.

9.2 Multistage Experiments and Modeling Games (0/1) 

Multistage Experiments and Modeling Games (0/1) 

9.2 Multistage Experiments and Modeling Games (0/1) 

[Question 1 \(0/1\)](#)

[Question 2 \(0/1\)](#)

- For additional explanations using simpler terms, check out Mrs. Morrison's YouTube channel.

Quizzes (worth 15% of your grade):

Quiz Policies & Deadlines: If your quiz average is 0, the highest possible final grade you can earn in the course is 90.

1. Quiz Availability & Due Date: All quizzes are open and must be completed by December 9th at midnight. You can take them weekly or all at once, but procrastinating is risky!

2. ONLY THREE Attempts Allowed per quiz: You can retake quizzes 3 times before the deadline. For example, John attempts Quiz 1 in January (43%), March (76%), and April until he finally scores 100%.

3. Pearson Score Tracking: Pearson displays all your attempts, but only the highest attempt is recorded in black. Lower attempts will still be visible but grayed out. For example, you may see 43, 76, and 100, but only the 100% counts toward your final grade.

4. Quizzes vs. Homework: Quizzes do not include extra tools like SIMILAR EXERCISE, VIEW AN EXAMPLE, or HELP ME SOLVE THIS. Pull out your journal and handouts to eyeball.

5. Full Quiz Retake Required: If you want to improve your score, you must retake the entire quiz.

6. Grade Expectations: Mrs. Mo expects students to maintain a 90 or higher quiz average. 😊

Final Quiz Deadline: All quizzes must be completed by Wednesday, December 9th, 2026

Exams (40%):

Partial credit is available for problems **with work shown that is partially right.**

Calculator can be used on all exams. Acceptable calculators are listed earlier in the syllabus.

One page of cheats, front and back, freshly handwritten, can be used on the test for help.

Take bathroom break before or after, not during.

No questions will be answered by Mrs. Mo. UNLESS you find a mistake 😊 Then ask Mrs. Mo, not your buddy.

Exams will be graded by the end of the day (or within minutes of turning in). Emails will be sent if it takes longer.

Your Final Test “Exam” will replace your lowest test grade (if you have a low test grade), and will also count as the final.

To make it easier, the tests will look like reviews. Same order of topics and problems. Different numbers inside the problems.

Final Exam (20%):

Your final exam score will replace your lowest test score (if you have one) AND will count as a separate grade worth 20% of your overall grade. Same rules apply from above

Exam Makeups:

If a student is absent, please email Mrs. Mo as a heads up a.s.a.p.. If your excuse was unavoidable, then your attendance is excused and you do not earn a 0 for that day.

If your absence was unavoidable, then you can take your makeup exam in the testing center OR in Mrs. Mo’s office in free time. (If you test in testing center, you can NOT use Calc 84 free phone app. You can borrow a brick calculator from the center).

Class Conduct (not graded):

Faculty reserve the right to ask a student to leave the classroom and/ or drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Please see below for class conduct not allowed:

- 1) Use of technology other than the approved calculator in class.
- 2) Language (including online) that creates a hostile learning or teaching environment.
- 3) Hand motions, body language, or online images that creates a hostile learning or teaching environment.

Students who cannot control their own behavior will be asked to leave the class for the day. Severe or constant disruptive behavior will cause students to be removed from the class permanently. Removal from class can cause issues with financial aide.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be

sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. *Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Statistically, historically, students who use Ai for this course are less likely to pass the next two required math classes.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by verbal communication, as well as an announcement to Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

2. **Retry with Similar Exercises:** If you get a question wrong after three attempts, press "Similar Question" to try again with a new version of the problem. Once completed correctly, your previous incorrect attempts are erased and won't affect your grade. You can also use this feature to review similar problems before a test.

3. **Step-by-Step Examples:** Click "View an Example" to see a detailed step-by-step explanation with different numbers. The process shown in this feature matches the explanations in Mrs. Morrison's YouTube videos. Watch Mrs. Mo's videos if you get confused with the View An Example.

4. Use **"Help me solve this"** Carefully: While this option provides a guided walkthrough of the problem, you will not receive full credit for using it.

5. **View the Textbook:** Under Get more Help

6. **Score Adjustments:** If your answer matches the correct answer exactly but is marked wrong, take a picture and email it to Mrs. Mo. She will adjust your score accordingly.

7. **Late Submission Details:** The 30% penalty only applies to problems completed after the due date. You only need to redo incorrect or incomplete problems to improve your grade.

- Example: John correctly completes half of his homework before the due date, earning a 50. After the deadline, he finishes the remaining problems correctly, and his score jumps from 50 → 85!

8. **Publisher Media:** Every homework assignment includes videos, PowerPoints, and PDFs from the book publisher to learn from. Viewing these resources counts as a homework check mark, earning you points. You can watch them fully, partially, or simply open and close them for credit.

9.2 Multistage Experiments and Modeling Games (0/1) 

Multistage Experiments and Modeling Games (0/1) 

9.2 Multistage Experiments and Modeling Games (0/1) 

[Question 1 \(0/1\)](#)

[Question 2 \(0/1\)](#)

- For additional explanations using simpler terms, check out Mrs. Morrison's YouTube channel.

Quizzes (worth 15% of your grade):

Quiz Policies & Deadlines: If your quiz average is 0, the highest possible final grade you can earn in the course is 90.

1. Quiz Availability & Due Date: All quizzes are open and must be completed by December 9th at midnight. You can take them weekly or all at once, but procrastinating is risky!

2. ONLY THREE Attempts Allowed per quiz: You can retake quizzes 3 times before the deadline. For example, John attempts Quiz 1 in January (43%), March (76%), and April until he finally scores 100%.

3. Pearson Score Tracking: Pearson displays all your attempts, but only the highest attempt is recorded in black. Lower attempts will still be visible but grayed out. For example, you may see 43, 76, and 100, but only the 100% counts toward your final grade.

4. Quizzes vs. Homework: Quizzes do not include extra tools like SIMILAR EXERCISE, VIEW AN EXAMPLE, or HELP ME SOLVE THIS. Pull out your journal and handouts to eyeball.

5. Full Quiz Retake Required: If you want to improve your score, you must retake the entire quiz.

6. Grade Expectations: Mrs. Mo expects students to maintain a 90 or higher quiz average. 😊

Final Quiz Deadline: All quizzes must be completed by Wednesday, December 9th, 2026

Exams (40%):

Partial credit is available for problems **with work shown that is partially right.**

Calculator can be used on all exams. Acceptable calculators are listed earlier in the syllabus.

One page of cheats, front and back, freshly handwritten, can be used on the test for help.

Take bathroom break before or after, not during.

No questions will be answered by Mrs. Mo. UNLESS you find a mistake 😊 Then ask Mrs. Mo, not your buddy.

Exams will be graded by the end of the day (or within minutes of turning in). Emails will be sent if it takes longer.

Your Final Test “Exam” will replace your lowest test grade (if you have a low test grade), and will also count as the final.

To make it easier, the tests will look like reviews. Same order of topics and problems. Different numbers inside the problems.

Final Exam (20%):

Your final exam score will replace your lowest test score (if you have one) AND will count as a separate grade worth 20% of your overall grade. Same rules apply from above

Exam Makeups:

If a student is absent, please email Mrs. Mo as a heads up a.s.a.p.. If your excuse was unavoidable, then your attendance is excused and you do not earn a 0 for that day.

If your absence was unavoidable, then you can take your makeup exam in the testing center OR in Mrs. Mo’s office in free time. (If you test in testing center, you can NOT use Calc 84 free phone app. You can borrow a brick calculator from the center).

Class Conduct (not graded):

Faculty reserve the right to ask a student to leave the classroom and/ or drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Please see below for class conduct not allowed:

- 1) Use of technology other than the approved calculator in class.
- 2) Language (including online) that creates a hostile learning or teaching environment.
- 3) Hand motions, body language, or online images that creates a hostile learning or teaching environment.

Students who cannot control their own behavior will be asked to leave the class for the day. Severe or constant disruptive behavior will cause students to be removed from the class permanently. Removal from class can cause issues with financial aide.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be

sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. *Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Statistically, historically, students who use Ai for this course are less likely to pass the next two required math classes.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by verbal communication, as well as an announcement to Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Wk	Dates	Topic	Due Dates
1	Monday 8/24	☐ Syllabus Talk ☐ 1.2 Linear Equations and Rational Equations	Sunday 8/30 ☐ PJC Blackboard "First assign. Syllabus Quiz" ☐ 1.2 HW
	Wednesday 8/26	☐ Syllabus Talk ☐ 1.2 Linear Equations and Rational Equations ☐ 1.4 Imaginary Numbers

16	FINAL EXAM / Test 4 WEEK	My Test 4 "Final Exam" is on:	

MATH1332.10N0
Contemporary Mathematics
Fall 2026

Instructor: Nicole Lorraine
Office: Greenville Center 204
Phone: (903)457-8711
Email: nlorraine@parisjc.edu

Meeting Location: Paris MS Bldg
Meeting Days: Tuesday and Thursday
Meeting Times: 11:00 – 12:15

Office Hours:

Monday	Tuesday	Wednesday	Thursday	Friday
8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	
12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	

Course Description:

Topics may include introductory treatments of sets, logic, number systems, number theory, relations, functions, probability and statistics. Appropriate applications are included.

Credits: SCH = 3

TSI Requirement: Math score must be 950 or above

Prerequisite(s): Satisfactory placement score or with MATH0400 as a co-requisite

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. For this course, we will be using courseware integrated with ALEKS. You will be able to access the textbook (Thinking Mathematically, 8th Edition, ISBN 9780137551224, Blitzer, Pearson) and learning materials directly through your Blackboard account.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab Math.

Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab Math.

The computers in the Library are available for your use anytime during the semester.

Course Goals and Objectives:

1. Competence in describing sets, subsets, and performing set operations.
2. Competence in operations involving integers and radicals.
3. Competence in operations using exponents and scientific notation.
4. Competence in solution of linear equations and their applications.
5. Competence in solution of linear inequalities.
6. Competence in graphing linear equations in two variables.
7. Competence in solution of quadratic equations by factoring or the quadratic formula.
8. Competence in the algebra of functions, their graphs and applications.
9. Competence in solving systems of linear equations and their applications.
10. Competence in solving systems of linear inequalities.
11. Competence in solving consumer math problems, including percents, loans, simple and compound interest, and mortgage payments.
12. Competence in solving probability problems, including single- and multi-stage experiments.
13. Competence in applications with permutations and combinations.
14. Competence in finding measures of central tendency.
15. Competence in discerning correct information from various types of graphs.

Course Requirements and Evaluation:

Assignments: All homework will be done online using Pearson's MyLab Math in Blackboard. We will discuss and demonstrate this tool in class. If you are unable to attend class, have a classmate's number so you can contact him/her to see if we have varied from the online assignments. The Homework is accessible even after the due date. Any work done on the Homework after the due date will be penalized 30%.

Tests: Major tests will be given periodically. In addition, a comprehensive departmental final exam will be given. No make-up tests will be given. However, the final exam grade will replace a missed test grade or your lowest test grade.

4 Exams @ 10% each	40%
Final Exam	20%
Homework	30%
Attendance	10%

90-100	A
80-89	B
70-79	C
60-69	D
BELOW 60	F

*****Your grade** is available to you 24/7 in Pearson via Blackboard. There is a tab below Homework & Tests where you do your Homework that is titled Gradebook. If you click on this tab, you can see your overall average for the course as well as your grade for each assignment and test. Do not look at the Gradebook at the top of the page in Blackboard – it will not be correct. Attendance grades will only be updated monthly.

Calculator: You must have a scientific calculator for this class. Your calculator needs to have one of the following keys: x^y or $\wedge$ or y^x . This item should not cost more than \$10! **A cellphone can NEVER be used as a calculator!**

Course Policies:

Come to class prepared EVERY time. You should have a notebook with all materials: copy of course contract, syllabus, notes, PENCIL, etc. Showing up unprepared shows any instructor that you are not interested in your education or his/her class.

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun. If you are late, that does NOT mean that you cannot enter the class! You need to let me know after class that you were not absent so I can change it online and in my records.

Note: It is the responsibility of the student to provide the instructor with an up-to-date phone number. The only email that I will use to communicate with you is your DragonMail.

Anyone who is not enrolled in MATH1332 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. The material in this course will move quickly from one concept to the next. Every class period we will be covering new material that **you will be responsible for in the event of an absence**. I will take Attendance each day of class as required by Paris Junior College. If you decide to drop or withdraw from this class, it is your responsibility to initiate the withdrawal process in order to receive a grade of W. **Students will receive a grade of F if students quit attending class but do not complete the withdrawal process.** The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 12th*.

You are required to be in class regularly and on time. As a student, YOU have the responsibility to make arrangements to meet this class and to be on time. To be counted present, you must stay for the entire class period. In addition, attendance is 50% of your grade. Each tardy reduces your attendance grade 1 point, each absence reduces your grade by 3 points, leaving early reduces your grade by 1 point. If you come in late and attendance has already been checked, it is YOUR responsibility after class to let me know that you are not absent so it can be changed in my records.

You do not have the right to disrupt the class and disturb other students by coming into the classroom late, going in and out of the room during class, or leaving the classroom early. It is not fair for you to expect the instructor to go over material that was covered while you were absent when other students are ready to move ahead. The media that is included in each Homework section is there for you to use as a review or in place of a lesson that you may have missed from being absent.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)
You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Aug. 25	Syllabus and MyLab Math demonstration		Oct. 22	5.2 The Integers: Order of Operations
Aug. 27	1.1 Inductive and Deductive Reasoning 1.2 Estimation, Graphs, and Mathematical Models		Oct. 27	5.3 The Rational Numbers
Sept. 1	2.1 Basic Set Concepts		Oct. 29	5.6 Exponents and Scientific Notation
Sept. 3	2.2 Subsets		Nov. 3	Review
Sept. 8	Labor Day Holiday		Nov. 5	Test 3
Sept. 10	2.3 Venn Diagrams and Set Operations		Nov. 10	6.1 Algebraic Expressions and Formulas
Sept. 15	Review		Nov. 12	6.2 Linear Equations in One Variable and Proportions
Sept. 17	Test 1		Nov. 17	7.1 Graphing and Functions
Sept. 22	11.1 The Fundamental Counting Principle, 11.4 Fundamentals of Probability		Nov. 19	7.2 Linear Functions and Their Graphs
Sept. 24	11.6 Events Involving <i>Not</i> and <i>Or</i> ; Odds		Nov. 24	Review
Sept. 29	11.7 Events Involving <i>And</i> ; Conditional Probability		Nov. 26	Thanksgiving Holiday
Oct. 1	12.1 Sampling, Frequency Distributions, and Graphs		Dec. 1	Test 4
Oct. 6	12.2 Measures of Central Tendency 12.3 Measures of Dispersion		Dec. 3	Final Exam Review
Oct. 8	Review		Dec. 8	Final Exam (Tuesday)
Oct. 13	Test 2			
Oct. 15	8.1 Percent, Sales Tax, and Discounts 8.3 Simple Interest			
Oct. 20	5.1 Number Theory: Prime and Composite			

****BOTTOM LINE: IF YOU COMPLETE EACH ASSIGNMENT ON TIME, ATTEND CLASS, & PARTICIPATE, YOU WILL EXCELL IN THIS COURSE****

Math 1332.20D0

Contemporary Math

Fall 2026

Instructor: Nicole Lorraine

Office: Greenville 204

Phone: 903-457-8711

Email: nlorraine@parisjc.edu

Office Hours: Online or by appointment (email is the best and fastest way to contact me)

Meeting Location: online

Meeting Days: N/A

Meeting Times: N/A

Course Description: Topics may include introductory treatments of sets, logic, number systems, number theory, relations, functions, probability and statistics. Appropriate applications are included. Credits: SCH = 3 hours.

TSI Requirement: Math 950 or enrollment in corequisite MATH0400

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. You will be able to access the textbook (Thinking Mathematically, 8th Edition, ISBN 9780137551224, Blitzer, Pearson) and learning materials directly through your Blackboard account.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab Math. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab Math.

Course Goals and Objectives:

By the end of the semester the student shall demonstrate:

1. Competence in describing sets, subsets, and performing set operations.
2. Competence in operations involving integers and radicals.
3. Competence in operations using exponents and scientific notation.
4. Competence in solution of linear equations and their applications.
5. Competence in solution of linear inequalities.
6. Competence in graphing linear equations in two variables.
7. Competence in solution of quadratic equations by factoring or the quadratic formula.
8. Competence in the algebra of functions, their graphs and applications.
9. Competence in solving systems of linear equations and their applications.
10. Competence in solving systems of linear inequalities.
11. Competence in solving consumer math problems, including percent, loans, simple and compound interest, and mortgage payments.
12. Competence in solving probability problems, including single- and multi-stage experiments.
13. Competence in applications with permutations and combinations.
14. Competence in finding measures of central tendency.
15. Competence in discerning correct information from various types of graphs.

Course Requirements and Evaluation:

You must **check your PJC Dragon email at least every other day** to receive the necessary information for this online class. Attendance will be monitored in this class by access logs and recorded on Fridays. As the instructor for this course, I can see the date that you access the course via blackboard and what work you have done.

Evaluation Methods:

Grade scale

A – 90-100
B – 80-89
C – 70-79
D – 60-69
F – 0-59

Grade Weighting System

1st test – 12%
2nd test – 12%
3rd test – 12%
4th test - 12%
Final Exam - 12%
Homework - 40%

*****IMPORTANT*****

Everything you need for this online course can be found by logging into Blackboard which should be done ASAP so that you may start learning and working the homework exercises.

There is an assignment that must be done by midnight on Tuesday, Sept. 8th or you will be dropped from the class. It is called “Chapter 1.1 Inductive and Deductive Reasoning”. It is due by midnight on Sunday, January 18th. As with all homework assignments, you will lose 30% if you complete it after the due date. You must also send an email to me (nlorraine@parisjc.edu) **FROM YOUR DragonMail account with your name and class (MATH1332).** Click on the **Start Here** tab in Blackboard to find instructions for how to access your DragonMail. The email is also for a grade! **Any student, who is not active in the Blackboard class by midnight on Tuesday, September 8th and has not completed the first homework assignment, will be dropped from the course on September 9th.** This is mandated by the state of Texas to remain in the course.

Course Requirements:

There will be four exams, homework, and a comprehensive final exam. **There are NO makeup exams or re-takes.** The final exam may be substituted for a missed test grade or lower test grade, thus counting the final exam grade twice. The final exam is comprehensive.

Please follow this link go through the checklist for all technical things at PJC includings Dragonmail, MyPJC, and Blackboard accounts as well as the new 2 factor authentication requirement:

<https://www.parisjc.edu/technology/pjc-it-checklist.php>

I will communicate with you via email (PJC DragonMail). **Email should be checked at least every other day.** You should expect to spend online at least as much time as you would spend attending a traditional class each week. Students must possess basic computer skills necessary to be successful in an online course. **Students are expected to begin course work the first day of class.**

Testing Policy: **(This is Important!)**

Four tests and a comprehensive final will be given for the semester covering assigned homework material. Each exam will be worth 100 points. Two of the four Tests (Test 1 and Test 3) **and** the Final Exam must be taken using Respondus Lockdown Browser OR at a PJC campus testing center during scheduled testing periods indicated in the syllabus. You must have a picture ID to take a test at the Testing Centers. To **make an appointment to take a proctored test at a Testing Center**, call the testing location of your choice:

Paris: 903-782-0446

Greenville: 903-454-9333

Sulphur Springs: 903-885-1232

Not all Testing Centers are open everyday so make sure to check the schedule of the Testing Center that you plan to use. Greenville does not have testing on Fridays.

Each test will be available for ONE WEEK (week being school days if you plan to take it at a Testing Center since Testing Centers are not open on weekends). Be sure not to wait until the last possible date to take exams in the event last minute conflicts or personal problems occur. Remember there are **no make-up exams**.

If you can't complete the Review for a Test with just your cheatsheet, paper, and a calculator in the 2 hours you are allowed for the Test, then you are not prepared to take it. You can work through the Review like you would work the Homework. When you have a grade that you are happy with, then go back into the Review and click Review & Practice and you will get problems VERY similar to the original problems to practice and it will not affect the grade you already made. That is true for all the Homework assignments as well.

No cell phones, pagers, tablets, books, notes, or electronic materials may be used by students during proctored testing.

You may use a calculator and ½ sheet of paper (cheatsheet) on the three proctored tests.

The best thing to use to prepare for the Tests is the Reviews that are included in your Homework Assignments. The first one is called Review for Test 1. The Reviews are **prerequisites** for the Tests. You CANNOT take a proctored Test until you make at least a 70 on the Review. If you want to put problems from the Review on your Cheat Sheet, that's totally ok! You can put anything you want on the cheat sheet. You only get one chance to input answers on the Tests. It's not like the Homework that allows you to input the answer over and over until you get it right.

Tests are to be taken by the deadlines scheduled. **It is the responsibility of the student to note test dates.** Remember, there are **no make-up tests**. It is a good idea to set reminders in your phone and/or keep this Syllabus nearby because all the dates are at the end.

Homework/Class Exercises: The homework is an on-line component using MyLab Math which is the software supported in Blackboard. The purpose of these activities is to give you the practice necessary to become proficient in each mathematical concept, to examine various applications of the given concept, and to prepare for the exams. The Homework assignments will open in groups. The group that is open now is only relevant to Test 1 (and the Final Exam). The second group of Homework will open the same day as the first Test. This process repeats for all 4 groups of Homework.

All due opening dates and due dates for all assignments including TESTS are listed in the table on the last page. You should set reminders in your phone and also keep a printout of those dates handy. You do NOT have to do the Homework assignments in order. You do not have to complete an assignment when you open it. You can do one problem and get out – **it will automatically save your answers.** Any work done after the due date will be penalized 30%!

IMPORTANT NOTES ABOUT HOMEWORK ASSIGNMENTS:

Everyone can get a 100 on every Homework Assignment! Each problem can be worked over and over again until you get it right. You get 3 chances to enter the answer before it tells you the correct answer and marks the problem wrong. BUT you do not have to get it wrong - just select Similar Exercise and you can work another problem just like the one you missed (it will just be different numbers). Then you have 3 more chances to enter your answer. You can do this over and over until you get it right.

If you miss problems and want to go back to them later, you can still change your answers at any time by clicking on the assignment, then click **Improve Score** and you can fix any problem that is marked wrong by clicking **Similar Question**.

There are media aids in the Homework assignments like videos and Powerpoints. You MUST at least click on the media to get points on the Homework. You cannot make a 100 on Homework if you have not clicked on each media item – so basically the media provides you FREE points on your Homework.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Attendance will be monitored in this class by access logs and recorded on Fridays. As the instructor for this course, I can see the date that you access the course via blackboard and the work that you have done.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Record these dates on a calendar. **Test Reviews** (which are VERY HELPFUL) are part of your Homework Assignments and must be completed with at least a grade of 70 before you can open the Tests. **Proctored Tests** open on a Monday and close on Friday. If a test is NOT proctored, you can take it at home or anywhere there is Wifi and will not be due until Sunday. You are allowed to take a calculator and a cheat sheet (1/2 piece of paper). You may put ANYTHING you want on the Cheat Sheet. All Homework due dates are listed on the homework in MyLab Math also.

Class Schedule:

Dates	Assignment
August 24 - 30 (Mon. – Sun.) Chapter 1.1 Inductive and Deductive Reasoning <i>You will be dropped if you do not complete by midnight Tuesday, September 8th, but it is DUE Aug. 30</i>	1. Login MATH1332 through Blackboard and click on Pearson to complete Chapter 1.1 (it's patterns and not difficult) 2. Verify that you have signed into your Dragonmail account by sending me an email with your NAME and CLASS (MATH1332.20D0) to nlorraine@parisjc.edu . This is how I will communicate with you throughout the semester and the email counts as a Homework grade.
August 24 – September 13 <i>Group 1 of Homework</i>	1.2 Estimation, Graphs, and Mathematical Models 1.3 Problem Solving 2.1 Basic Set Concepts 2.2 Subsets 2.3 Venn Diagrams and Set Operations Review for Test 1 (<i>must make at least 70 to open Test 1</i>)
September 14 – 18 (Mon – Fri)	Test 1 ** PROCTORED using Respondus Lockdown Browser or at a PJC Testing Center **
September 14 – October 11 <i>There is no Review for Test 2 since it is not a proctored Test</i>	5.1 Number Theory: Prime and Composite Numbers 5.2 The Integers: Order of Operations 5.6 Exponents and Scientific Notation 6.1 Algebraic Expressions and Formulas 6.2 Linear Equations in One Variable and Proportions
October 12 – 18 (Mon – Sun)	Test 2 (not proctored – you can take it at home)
October 12 – November 1 <i>Set 3 of Homework</i>	7.1 Graphing and Functions 7.2 Linear Functions and their Graphs 8.1 Percent, Sales Tax, and Discounts 8.3 Simple Interest 11.1 The Fundamental Counting Principles 11.4 Fundamentals of Probability Review for Test 3 (<i>must make at least 70 to open Test 3</i>)
November 2 – 6 (Mon – Fri)	Test 3 ** PROCTORED using Respondus Lockdown Browser or at a PJC Testing Center **

November 2 - 22 <i>There is no Review for Test 4 since it is not a proctored Test</i>	11.6 Events Involving Not and Or 11.7 Events Involving And; Conditional Probability 12.1 Sampling, Frequency Distributions, and Graphs 12.2 Measures of Central Tendency 12.3 Measures of Dispersion
November 23 – 29 (Mon – Sun)	Test 4 (not proctored – you can take it at home)
November 23 – December 8	Review for Final Exam <i>(must make a 70 to open the Final)</i>
December 1 - 8 (Tuesday – Tuesday)	Final Exam ** PROCTORED using Respondus Lockdown Browser or at a PJC Testing Center **

MATH1332.40N0
Contemporary Mathematics
Fall 2026

Instructor: Nicole Lorraine
Office: Greenville Center 204
Phone: (903)457-8711
Email: nlorraine@parisjc.edu

Meeting Location: Greenville 220
Meeting Days: Tuesday and Thursday
Meeting Times: 11:00 – 12:15

Office Hours:

Monday	Tuesday	Wednesday	Thursday	Friday
8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	
12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	

Course Description:

Topics may include introductory treatments of sets, logic, number systems, number theory, relations, functions, probability and statistics. Appropriate applications are included.

Credits: SCH = 3

TSI Requirement: Math score must be 950 or above

Prerequisite(s): Satisfactory placement score or with MATH0400 as a co-requisite

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase. For this course, we will be using courseware integrated with ALEKS. You will be able to access the textbook (Thinking Mathematically, 8th Edition, ISBN 9780137551224, Blitzer, Pearson) and learning materials directly through your Blackboard account.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab Math.

Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab Math.

The computers in the Library are available for your use anytime during the semester.

Course Goals and Objectives:

1. Competence in describing sets, subsets, and performing set operations.
2. Competence in operations involving integers and radicals.
3. Competence in operations using exponents and scientific notation.
4. Competence in solution of linear equations and their applications.
5. Competence in solution of linear inequalities.
6. Competence in graphing linear equations in two variables.
7. Competence in solution of quadratic equations by factoring or the quadratic formula.
8. Competence in the algebra of functions, their graphs and applications.
9. Competence in solving systems of linear equations and their applications.
10. Competence in solving systems of linear inequalities.
11. Competence in solving consumer math problems, including percents, loans, simple and compound interest, and mortgage payments.
12. Competence in solving probability problems, including single- and multi-stage experiments.
13. Competence in applications with permutations and combinations.
14. Competence in finding measures of central tendency.
15. Competence in discerning correct information from various types of graphs.

Course Requirements and Evaluation:

Assignments: All homework will be done online using Pearson's MyLab Math in Blackboard. We will discuss and demonstrate this tool in class. If you are unable to attend class, have a classmate's number so you can contact him/her to see if we have varied from the online assignments. The Homework is accessible even after the due date. Any work done on the Homework after the due date will be penalized 30%.

Tests: Major tests will be given periodically. In addition, a comprehensive departmental final exam will be given. No make-up tests will be given. However, the final exam grade will replace a missed test grade or your lowest test grade.

4 Exams @ 10% each	40%
Final Exam	20%
Homework	30%
Attendance	10%

90-100	A
80-89	B
70-79	C
60-69	D
BELOW 60	F

*****Your grade** is available to you 24/7 in Pearson via Blackboard. There is a tab below Homework & Tests where you do your Homework that is titled Gradebook. If you click on this tab, you can see your overall average for the course as well as your grade for each assignment and test. Do not look at the Gradebook at the top of the page in Blackboard – it will not be correct. Attendance grades will only be updated monthly.

Calculator: You must have a scientific calculator for this class. Your calculator needs to have one of the following keys: x^y or $\wedge$ or y^x . This item should not cost more than \$10! **A cellphone can NEVER be used as a calculator!**

Course Policies:

Come to class prepared EVERY time. You should have a notebook with all materials: copy of course contract, syllabus, notes, PENCIL, etc. Showing up unprepared shows any instructor that you are not interested in your education or his/her class.

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun. If you are late, that does NOT mean that you cannot enter the class! You need to let me know after class that you were not absent so I can change it online and in my records.

Note: It is the responsibility of the student to provide the instructor with an up-to-date phone number. The only email that I will use to communicate with you is your DragonMail.

Anyone who is not enrolled in MATH1332 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. The material in this course will move quickly from one concept to the next. Every class period we will be covering new material that **you will be responsible for in the event of an absence**. I will take Attendance each day of class as required by Paris Junior College. If you decide to drop or withdraw from this class, it is your responsibility to initiate the withdrawal process in order to receive a grade of W. **Students will receive a grade of F if students quit attending class but do not complete the withdrawal process.** The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 12th*.

You are required to be in class regularly and on time. As a student, YOU have the responsibility to make arrangements to meet this class and to be on time. To be counted present, you must stay for the entire class period. In addition, attendance is 50% of your grade. Each tardy reduces your attendance grade 1 point, each absence reduces your grade by 3 points, leaving early reduces your grade by 1 point. If you come in late and attendance has already been checked, it is YOUR responsibility after class to let me know that you are not absent so it can be changed in my records.

You do not have the right to disrupt the class and disturb other students by coming into the classroom late, going in and out of the room during class, or leaving the classroom early. It is not fair for you to expect the instructor to go over material that was covered while you were absent when other students are ready to move ahead. The media that is included in each Homework section is there for you to use as a review or in place of a lesson that you may have missed from being absent.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)
You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Aug. 25	Syllabus and MyLab Math demonstration		Oct. 22	5.2 The Integers: Order of Operations
Aug. 27	1.1 Inductive and Deductive Reasoning 1.2 Estimation, Graphs, and Mathematical Models		Oct. 27	5.3 The Rational Numbers
Sept. 1	2.1 Basic Set Concepts		Oct. 29	5.6 Exponents and Scientific Notation
Sept. 3	2.2 Subsets		Nov. 3	Review
Sept. 8	Labor Day Holiday		Nov. 5	Test 3
Sept. 10	2.3 Venn Diagrams and Set Operations		Nov. 10	6.1 Algebraic Expressions and Formulas
Sept. 15	Review		Nov. 12	6.2 Linear Equations in One Variable and Proportions
Sept. 17	Test 1		Nov. 17	7.1 Graphing and Functions
Sept. 22	11.1 The Fundamental Counting Principle, 11.4 Fundamentals of Probability		Nov. 19	7.2 Linear Functions and Their Graphs
Sept. 24	11.6 Events Involving <i>Not</i> and <i>Or</i> ; Odds		Nov. 24	Review
Sept. 29	11.7 Events Involving <i>And</i> ; Conditional Probability		Nov. 26	Thanksgiving Holiday
Oct. 1	12.1 Sampling, Frequency Distributions, and Graphs		Dec. 1	Test 4
Oct. 6	12.2 Measures of Central Tendency 12.3 Measures of Dispersion		Dec. 3	Final Exam Review
Oct. 8	Review		Dec. 8	Final Exam (Tuesday)
Oct. 13	Test 2			
Oct. 15	8.1 Percent, Sales Tax, and Discounts 8.3 Simple Interest			
Oct. 20	5.1 Number Theory: Prime and Composite			

****BOTTOM LINE: IF YOU COMPLETE EACH ASSIGNMENT ON TIME, ATTEND CLASS, & PARTICIPATE, YOU WILL EXCELL IN THIS COURSE****

MATH1332.50N0
Contemporary Mathematics
Fall 2026

Instructor: Nicole Lorraine

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun. If you are late, that does NOT mean that you cannot enter the class! You need to let me know after class that you were not absent so I can change it online and in my records.

Note: It is the responsibility of the student to provide the instructor with an up-to-date phone number. The only email that I will use to communicate with you is your DragonMail.

Anyone who is not enrolled in MATH1332 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. The material in this course will move quickly from one concept to the next. Every class period we will be covering new material that **you will be responsible for in the event of an absence**. I will take Attendance each day of class as required by Paris Junior College. If you decide to drop or withdraw from this class, it is your responsibility to initiate the withdrawal process in order to receive a grade of W. **Students will receive a grade of F if students quit attending class but do not complete the withdrawal process.** The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 12th*.

You are required to be in class regularly and on time. As a student, YOU have the responsibility to make arrangements to meet this class and to be on time. To be counted present, you must stay for the entire class period. In addition, attendance is 50% of your grade. Each tardy reduces your attendance grade 1 point, each absence reduces your grade by 3 points, leaving early reduces your grade by 1 point. If you come in late and attendance has already been checked, it is YOUR responsibility after class to let me know that you are not absent so it can be changed in my records.

You do not have the right to disrupt the class and disturb other students by coming into the classroom late, going in and out of the room during class, or leaving the classroom early. It is not fair for you to expect the instructor to go over material that was covered while you were absent when other students are ready to move ahead. The media that is included in each Homework section is there for you to use as a review or in place of a lesson that you may have missed from being absent.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)
You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Aug. 25	Syllabus and MyLab Math demonstration		Oct. 22	5.2 The Integers: Order of Operations
Aug. 27	1.1 Inductive and Deductive Reasoning 1.2 Estimation, Graphs, and Mathematical Models		Oct. 27	5.3 The Rational Numbers
Sept. 1	2.1 Basic Set Concepts		Oct. 29	5.6 Exponents and Scientific Notation
Sept. 3	2.2 Subsets		Nov. 3	Review
Sept. 8	Labor Day Holiday		Nov. 5	Test 3
Sept. 10	2.3 Venn Diagrams and Set Operations		Nov. 10	6.1 Algebraic Expressions and Formulas
Sept. 15	Review		Nov. 12	6.2 Linear Equations in One Variable and Proportions
Sept. 17	Test 1		Nov. 17	7.1 Graphing and Functions
Sept. 22	11.1 The Fundamental Counting Principle, 11.4 Fundamentals of Probability		Nov. 19	7.2 Linear Functions and Their Graphs
Sept. 24	11.6 Events Involving <i>Not</i> and <i>Or</i> ; Odds		Nov. 24	Review
Sept. 29	11.7 Events Involving <i>And</i> ; Conditional Probability		Nov. 26	Thanksgiving Holiday
Oct. 1	12.1 Sampling, Frequency Distributions, and Graphs		Dec. 1	Test 4
Oct. 6	12.2 Measures of Central Tendency 12.3 Measures of Dispersion		Dec. 3	Final Exam Review
Oct. 8	Review		Dec. 8	Final Exam (Tuesday)
Oct. 13	Test 2			
Oct. 15	8.1 Percent, Sales Tax, and Discounts 8.3 Simple Interest			
Oct. 20	5.1 Number Theory: Prime and Composite			

****BOTTOM LINE: IF YOU COMPLETE EACH ASSIGNMENT ON TIME, ATTEND CLASS, & PARTICIPATE, YOU WILL EXCELL IN THIS COURSE****

MATH 1342.40A0
Elementary Statistical Methods
Fall 2026

Instructor: Sarah Morrison
Office: GC-210
Phone: (903)457-8713
Email: smorrison@parisjc.edu
Course Type: Face-to-face

Meeting Location: GC-125
Meeting Days: TH
Meeting Times: 8am-9:15am
ZOOM link for online office hours/tutorials:
<https://us06web.zoom.us/j/95211478382>

Office Hours:

One-on-One Help: If you need individual assistance, email Mrs. Morrison as soon as possible with a few available dates and times over the next week. Be sure to mention whether you prefer Zoom or face-to-face for the meeting. Together, we'll find a time that works. To prepare, write down the specific homework assignments and problem numbers you need help with. See Teaching & Office Hours Schedule on Blackboard under START HERE. Zoom Link on Blackboard.

Monday	Tuesday	Wednesday	Thursday	Friday
PJC 9:20a-10:50a	PJC 9:30a-10:45a	PJC 9:20a-10:50a	PJC 9:30a-10:45a	PJC 8am-Noon.
PJC 1p-4p	ETAMU 11:30a-12:30p	PJC 1p-4p	ETAMU 11:30a-12:30p	Will not show up if no appts
Email to request a ZOOM outside hours.	Email to request a ZOOM outside hours.	Email to request a ZOOM outside hours.	Email to request a ZOOM outside hours.	

Course Description:

Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

Credits: MATH 1342 is a 3 credit hour course.

TSI Requirement: Math score must be 950 or above

Prerequisite(s): Acceptable placement score or with MATH 0400 as a co-requisite.

Required Textbook(s) and Materials:

The Book (optional): **Elementary Statistics Using the TI-83/84 Plus Calculator 5th Edition is found in your Pearson account through Blackboard. Do not purchase a handheld book. The book lives in the internet.** All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Aleks (**Bluman: Elementary Statistics: A Step by Step Approach, 11th Ed.**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

1. Create an account using your student email account

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

The Free Phone App (mandatory): Cell phone app calculators are allowed during notes and exams if Mrs. Mo is present. iPhone users should all download the Calc84 app in case your handheld graphing calculator dies (or if you do not want to purchase one). When you use the phone app, some of the screens look different. Mrs. Mo will teach the steps using a handheld calculator, iphone app, and android app so all students know see their version. All students should download the app in case your handheld calculator is not around.

The Handheld Graphing Calculator (optional): Only purchase TI, or Texas Instruments, products. No need to purchase if you are happy with Phone app. Calculators that are older and do not charge through USB will need AAA batteries. Calculators can be purchased in the bookstore, amazon, eBay, pawn shops, Staples, Wal-Mart, etc. Before you purchase, ask any 18+ year old's if they have one at home you can borrow for the semester.

Calculators for us (Texas Instruments 83,83+, 84, 84+):	Calculators not for us (Scientifics, Casio, Texas Instruments->Nspires):
Texas Instruments TI-84 PLUS CE... \$113.99 Amazon.com Free shipping Texas Instruments TI-84 Plus Graphin... \$139.00 Walmart ★★★★★ (3k+) Texas Instruments TI-84 Plus C Silver... \$114.88 Amazon.com Refurbished	<u>Texas Instruments TI-30XS MultiView Scientific Calculator</u> \$19.99 <u>Amazon.com</u> CASIO PRIZM FX-CG50 Color... \$98.88 Amazon.com Free shipping Texas Instruments TI-Nspire CX II CA... \$148.45 Amazon.com Free shipping Scientific Calculator with... \$39.99 Amazon.com Free shipping Casio fx-9750GII Graphing... \$52.88 Amazon.com Refurbished

The Supplies for Notes(mandatory): Please have something to write with. You will need something with pockets to hold handouts. Mrs. Mo uses a folder to keep all handouts. Colored pens, markers, or highlighters are a great for distinguishing different parts of a problem.

The Computer & Accessories: Students must have access to Wi-Fi and a computer. If a student does not have these, they can do their work in the computer lab across the hall. ZOOMs work well if you have a Webcam, but is not necessary. Check with your Academic Advisor for financial aide to purchase a computer or possibly a loaner laptop.

The Internet: Students must have access to their PJC DragonMail, PJC Blackboard, Calc84 phone app. Mrs. Mo. Students will use Blackboard→Aleks for hmwks, quizzes, gradebook, etc. The price of Aleks is included in your tuition and there is no additional money you pay. Aleks is inside your Blackboard and is a click away.

Official Student Email Policy Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Goals and Objectives:

Foundational Component Area: Mathematics courses in this category focus on quantitative literacy in logic, patterns, and relationships. Courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

Required Core Objectives Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1342 Course-Level):

1. The student is expected to organize, sketch, and interpret summary measures for univariate and bivariate data sets.
2. The student is expected to demonstrate proficiency in solving probability problems involving the concepts of independent and mutually exclusive events, binomial and normal distributions.

3. The student is expected to demonstrate proficiency in solving probability problems involving the concepts of independent and mutually exclusive events, binomial and normal distributions.
4. The student is expected to test hypothesis, using traditional, p-value, and confidence interval methods.

Course Schedule: Mrs. Mo will send out an email/ Blackboard Announcement if she cancels class. Check all three every day before you drive to class so you do not waste gas. Below is a tentative schedule that will change due to Bad Weather cancellations, maintenance to Blackboard/MathXL/ DragonMail, etc. Always check the Weekly Announcements on Blackboard for up to date info.

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, three major tests, and the comprehensive final examination. The last day for a student to withdraw from a course with a grade of "W" is Thursday, April 10, 2025. Course grades are calculated as follows:

Attendance	10%	(or 10 out of 100 points)
Homework Average	30%	(or 30 out of 100 points)
Test Average (3 Major Tests)	40%	(or 40 out of 100 points)
Comprehensive Final Exam	20%	(or 20 out of 100 points)

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

- Final Exam replaces lowest test grade and counts as the final exam grade.

Course Policies:

Attendance/ Tardiness (10% or 10 out of 100 points):

If you come to class 0 times, the highest you can make for the semester is a 90.

If you are going to be absent:

1.All absences: If you know you are going to be absent and tell Mrs. Mo ahead of time, you can make up all assignments with no penalty points. Please email dates of vacations, work conferences, children's school functions, etc. as soon as possible. Your attendance grade for the day will be converted to 100. The daily roll sheets will have "excused" written next to your name. The email is the documentation that protects you.

2.Exam absences: Exams can be made up if documentation of a valid excuse is emailed/ handed to Mrs. Mo. Valid excuses are:

- Illness with documentation including your name (or child's, spouse, partner, or elder's name who you care for), doctor name, doctor workplace (ER, doctor's office, Teladoc, etc.)
- Unexpected Transportation issues with documentation such as picture of flat tire selfie, picture of crashed car selfie, invoice from tow truck, rental car, receipt from dealership, etc. Dual Credits: you get two free "I missed the bus" excused absences
- Legal Requirements such as child custody hearings, speeding ticket court dates, jury duty, divorce court, etc.
- Natural disasters like housefire, flooding, iced driveway/roads selfie, etc.
- Dual Credit Students: School Activity such as PSAT, SAT, Drill Competition, College Visits, Driver's License, Band Competition, Rodeo, FFA, etc. are excused with documentation.

Documentation is how you protect yourself and guarantee your right to make up the exam. All documentation should have your name and date, place of occurrence, and name of doctor. Do not include any information that could be used to steal your identity such as social security numbers, credit card numbers, addresses, phone numbers, etc.

3. Makeup Exams for Excused Absences: Can be scheduled during the next class in the testing center across the hall, outside class time in testing center, or outside class time in Mrs. Mo's office with the door open. No makeup tests will be allowed to be taken at home. Please email Mrs. Mo your wish so she can have it for documentation.

4. Attendance Grades: Roll sheets will be present at the start of every class. Sign it before you leave. Sign it → 100 attendance grade for the day. Do not sign it → 0 for attendance grade for the day. Documentation of Valid excuses → 100 attendance grade for the day.

The last day for a student to withdraw from a course with a grade of "W" is **Thursday, April 9, 2025**
LAST DAY TO DROP.

Withdrawing from a course is your decision, but Mrs. Mo will give you as much info as she can so you can make the right choice.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Class Notes (not graded):

Notes will consist of:

- i. Handouts with fill in the blanks, pictures, tables, vocabulary, flow charts, calculator buttons, hmwk toolbar buttons, and examples over K-8th grade math. These handouts will contain examples directly copied and pasted from your hmwks.
- ii. It is vital to write everything Mrs. Mo writes and keep your handouts beside you while you complete hmwk.
- iii. If there is a calculator trick, students must first go through the pain of paper/pencil math to see how the formulas work. After the pain, students will be taught the shortcuts and the shortcuts can be used for every test.
- iv. Pictures of the Worked Out Notes are on Blackboard in case you are absent.

Homework (30% or 30 of 100 points):

If you have a 0 average for hmwks, the highest semester grade you will make is a 70.

It is dangerous to procrastinate. All accompanying hmwks must be a 70 or higher to gain access to quizzes. If you do not attempt the hmwks until after the due date, then you must get every question perfect (100%) with a 30% penalty.

All homework is open and can be worked.

Before you get click happy, you can work ahead, however, once you start a hmwk, the grade assigned is part of your whole grade. (So, if you click into a hmwk and do nothing→ you get a 0 until you finish the assignment.)

Mrs. Mo will speak the due dates in class, write them in class, post a Blackboard announcement, sends out reminder email, texts due dates through Remind, and the due dates will be visible through the online hmwk platform MathXL.

Online assignments are due Sunday at midnight, or the night before an exam.

All students should have a goal of 90 or higher on their homework BECAUSE:

1)You get THREE chances to get each question correct.

2)You can press SIMILAR QUESTION after you get the question wrong with your first 3 chances. Once you complete the newly generated question correctly, the previous wrong attempt is forgotten and will not affect your score. You can also use this feature to repeatedly try problems of the same type to review for a test.

3) Press  to see a step by step example exactly the same, but with different numbers. It is vital to

come to class since our notes will have exact phrases EXAMPLE . Class notes will often have

an easier method compared to EXAMPLE .

4) Try not to press Explanation. This will walk you through the problem step by step; however, you do

not receive full credit for the problem.

Explanation 

5) The 30% penalty only applies to the questions attempted after the due date. You only have to do the incomplete or wrong problems to improve your grade after the due date. For example: John finished half of his hmwk problems correctly by the due date. He gets a 50. After the due date, he completes the other half of his hmwk problems correctly, but only gets 35 points added on. His score goes from a 50 → 85! The on-time problems are given full credit. The late problems are not full credit.

6) ALWAYS try as much hmwk as you can before the due date. Only time for the pictures? DO THEM. Only have time for the fill in the blanks? DO THEM. It is dangerous to procrastinate. All accompanying hmwks must be a 70 or higher to gain access to quizzes. If you do not attempt the hmwks until after the due date, then you must get every question perfect with a 30% penalty.

7) Mrs. Mo's YouTube Playlist @Mrs.MoGvillePJC has tagged videos that will explain the vocabulary, math, and calculator buttons needed. There are no Mo videos, just other content creators.

8) Absolute Last Day for any hmwks improvements: Wednesday, May 6, 2025

Online Exam Reviews & Final Exam Review (included in the 30% hmwk):

1) Are not posted yet.

2) All online reviews are OPTIONAL. You can do all of the problems or two. You can do #7 four times to generate different problems to practice. If the grade is lower than your hmwk average, it will be omitted (will not bring your grade down. Your grade will back up to what it was before you did the review. If the grade is higher than your hmwk average, it will stay to keep your grade high.

3) If time permits, Mrs. Mo will copy/paste/create an additional paper exam review (that includes formulas, calculator buttons, hints) that will be done in class for no grade.

4) The exam will always have the same-ish problems as the reviews. Same-ish means same order, repeats removed, and different numbers or small changes to words.

5) You will make a 1 page front and back of cheats for each exam. The cheats can be formulas, calculator buttons, the math, etc.

Exams (40% or 40 out of 100 points):

If you have a 0 average for your tests, then the highest you can make in the class is a 70 until you take.

- 1) Tests are in class, unless time runs out and we need a take-home test around the end of the semester.
- 2) Cell Phone App Calc 84 or Texas Instruments graphing calculators can be used. Students using this app should sit on the front row and be aware that Mrs. Mo might stare at your hand movements or hover to see student screens.
- 3) If you go to the bathroom, leave your cell phone on desk.
- 4) No questions will be answered by Mrs. Mo UNLESS you find a mistake☺ Then ask Mrs. Mo, not your buddy.
- 5) Exams will be a mixture of multiple choice, fill in the blank, calculator problems, formula problems, and vocabulary.
- 6) On the next class day, Mrs. Mo will hand back tests in order for anyone to argue their case for a higher grade for about 10 minutes. (Mrs. Mo did not add points correctly, did not see where you wrote part of the answer, or could not read your handwriting.) After that, points will not be given back unless it was Mrs. Mo's fault.
- 7) Your final will replace your lowest test grade (if you have a lowest-test grade), and will also count as the final.
- 8) You will make a 1 page front and back of cheats. For each exam

Final Exam (20% or 20 points out of 100):

If get a 0 on the final, the highest grade you can make in the class is an 80.

- Final Exam will cover material from the 1st day- last day (comprehensive).
- Made by Paris, taken by all stats students.
- 1 page of cheats can be used.
- Day and Time will be determined by Paris.
- Your final will replace your lowest test grade (if you have a lowest-test grade), and will also count as the final. That means the Final could be worth $20\% + 13\% = 33\%$ of your entire grade.

Class Conduct (not graded):

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Please see below for class conduct not allowed:

- 1) Talking over the teacher.
- 2) Talking over classmates.

- 3) Use of calculator technology other than the approved calculator in class.
- 4) Language (including online) that creates a hostile learning or teaching environment.
- 5) Hand motions, body language, or online images that creates a hostile learning or teaching environment.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI.

Students who are suspected of cheating due to questionable activities may be required to prove their innocence by completing math problems in front of the teacher without a phone, alternative exam without a phone, or provide handwritten work for past assignments. It is suggested to do hmwks in a different spiral section and label each page. This is the easiest way to prove innocence on hmwks.

All hmwks are word problems. PhotoMath has trouble with analyzing word statistical word problems.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

If you have received accommodations in previous semesters, in high school, or at your current job:

- 1) Visit <https://www.parisjc.edu/main/disabilities/>
- 2) View Request for Accommodations Form. This is what you need to fill out and turn in.
- 3) Call 903-454-9333 for an appointment with an advisor from the Counseling Center or stop by if you have more questions.
- 4) Fax 903-782-0796 the form with a cover letter including your name, ID number and advisor.
- 5) Email results to Mrs. Mo so she can provide accommodations in class.

Most useful accommodations for this class: extended test taking time x2, copy of teacher's notes.

Meeting Times: 9:30 – 10:45

Monday	Tuesday	Wednesday	Thursday	Friday
8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	
12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	

Course Description:

This course surveys a variety of mathematical topics needed to prepare students for college level statistics or quantitative reasoning. Topics include: numeracy with an emphasis on estimation and fluency with large numbers; evaluating equations; linear models; data interpretations including graphs and tables; verbal, algebraic and graphical representations of functions; exponential models.

Credits: SCH = 0 lecture

Prerequisite(s): Satisfactory placement test score

Course Goals and Objectives:

1. Student will graph various equations.
2. Student will solve equations, word problems, and solve formulas for a given variable.
3. Student will evaluate functions and obtain the domain and the range of a function.
4. Student will apply operations with polynomials.
5. The student will factor completely using several factoring techniques.
6. The student will solve quadratic equations by using several techniques.
7. Student will simplify and perform indicated operations on rational expressions and solve equations involving rational expressions.
8. Student will simplify and perform operations with radicals and solve equations containing radicals.
9. Student will simplify a complex number and perform operations with complex numbers.
10. Students will graph and write linear functions.
11. Student will simplify expressions using the rule of exponents.

Required Textbook(s) and Materials:

There is no book requirement for this course. We will be working in your MATH1332 class or your MATH1342 class.

Instructors teaching developmental co-requisite mathematics courses with a legitimate educational interest may access student performance data in related on-level mathematics courses for instructional and support purposes only, consistent with FERPA and institutional policy.

Course Requirements and Evaluation:

This course is conducted using a traditional lecture format, but all homework will be done on Blackboard.

Assignments: All homework will be done online using MyLab Math which is the software in Blackboard. No code or book required! We will discuss and demonstrate this tool in class.

Attendance:

Class attendance is critical for the successful completion of this course. The material in this course will move quickly from one concept to the next. Every class period we will be covering new material that **you will be responsible for in the event of an absence**. I will take Attendance each day of class as required by Paris Junior College.

You are required to be in class regularly and on time. As a student, YOU have the responsibility to make arrangements to meet this class and to be on time. To be counted present, you must stay for the entire class period. In addition, attendance is 50% of your grade. Each tardy reduces your attendance grade 1 point, each absence reduces your grade by 3 points, leaving early reduces your grade by 1 point. If you come in late and attendance has already been checked, it is YOUR responsibility **after class** to let me know that you are not absent so it can be changed in my records.

Evaluation Methods

Homework from college-level class	50%
Attendance	50%

90-100	A
80-89	B
70-79	C
60-69	D
BELOW 60	F

Course Policies:

Come to class prepared EVERY time. You should have a notebook with all materials: copy of course contract, syllabus, notes, PENCIL, etc. Showing up unprepared shows any instructor that you are not interested in your education or his/her class.

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun. If you are late, that does NOT mean that you cannot enter the class!

Note: It is the responsibility of the student to provide the instructor with an up-to-date address and phone number. The only email that I will use to communicate with you is your DragonMail that is in your MyPJC account.

Anyone who is not enrolled in MATH0400 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by an Announcement posted in Blackboard which will also be emailed to your Dragonmail account – your official college email address. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

This class will follow the schedule of your college-level math class.

MATH0401.40A0
Foundations of Algebraic Reasoning
Fall 2026

Instructor: Nicole Lorraine
Office: 204
Phone: (903)457-8711
Email: nlorraine@parisjc.edu
Office Hours:

Meeting Location: 220
Meeting Days: Monday and Wednesday
Meeting Times: 9:30 – 10:45

Monday	Tuesday	Wednesday	Thursday
8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	8:00 - 9:30
12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	12:15 – 1:15

Course Description:

This course is a co-requisite to be paired with MATH 1314 (College Algebra) or MATH1324 (Business Math).

Credits: 0

Required Textbook(s) and Materials: None. We will be using the materials from your college-level math course.

Course Goals and Objectives:

1. Student will graph various equations.
2. Student will solve equations, word problems, and solve formulas for a given variable.
3. Student will evaluate functions and obtain the domain and the range of a function.
4. Student will apply operations with polynomials.
5. The student will factor completely using several factoring techniques.
6. The student will solve quadratic equations by using several techniques.
7. Student will simplify and perform indicated operations on rational expressions and solve equations involving rational expressions.
8. Student will simplify and perform operations with radicals and solve equations containing radicals.
9. Student will simplify a complex number and perform operations with complex numbers.
10. Students will graph and write linear functions.
11. Student will simplify expressions using the rule of exponents.

Course Requirements and Evaluation:

Assignments: If you have a laptop, you will need to bring it to every class so I can help you with homework from your college level math class. All homework will be done online using MyLab Math which is the software in Blackboard. No code or book required! We will discuss and demonstrate this tool in class.

If you are unable to attend class, have a classmate's number so you can contact him/her to see if we have varied from the online assignments.

Evaluation Methods:

In class work from your college-level class	50%
Attendance	50%

90-100	A
80-89	B
70-79	C
60-69	D
BELOW 60	F

A numerical grade of 60 – 100 is considered a passing grade.

Course Policies:

Come to class prepared EVERY time. You should have a notebook with all materials: copy of course contract, syllabus, notes, PENCIL, etc. Showing up unprepared shows any instructor that you are not interested in your education or his/her class.

Personal Needs: Please attend to your personal needs before class begins. This includes bathroom, supplies, refreshments, etc. It is inconsiderate and disruptive to me and your peers to have students leave once class has begun. If you are late, that does NOT mean that you cannot enter the class!

Note: It is the responsibility of the student to provide the instructor with an up-to-date address and phone number. The only email that I will use to communicate with you is your DragonMail address that is in your MyPJC account.

Anyone who is not enrolled in MATH0401 may NOT be in the classroom. Do NOT bring your child to class – there are liability concerns that put PJC at risk and it will not be allowed.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Class Conduct: Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will **immediately receive a score of zero on the exam/assignment involved.** Depending on the nature and

severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Course Schedule:

This class will follow the schedule of your college-level math class.

*Spanish 2311.790
Intermediate Spanish I
Fall 2026*

Instructor: Patricia Baroody
Office: Rm.2408
Phone: 903-737-7400 Ext: 2580
Email: pbaroody@parisjc.edu

Meeting Location: PHS 2408
Meeting Days: Monday-Friday
Meeting Times: 12:40-1:35

Office Hours: 10:00-11:00 or by appointment

Course Description:

SPAN 2311- 790 Intermediate Spanish1 (16.0905.52 13) The consolidation of skills acquires at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation and interpretation of the cultures of the Spanish-speaking world.

Required Textbook(s) and Materials:

Dorwick.Puntos de Partida with Connect & Sharpen Companion. 2024 ed. McGraw Hill. ISBN 9781265800994.

Course Goals:

By the end of the semester, it is expected that the students will be able to:

1. Engage in real-world communication.
2. Speak and write using correct grammatical forms and expanded vocabulary.
3. Understand and produce paragraphs and strings of paragraphs.
4. Understand conversations and narratives on familiar topics.
5. Interact using culturally appropriate language.
6. Demonstrate an understanding and appreciation of the Spanish/Hispanic cultures.
7. Demonstrate an awareness of the global community.
8. Understand the need for proficient communication in a second language.
9. Conjugate and use verbs in the simple present, past, imperfect tenses and the subjunctive.

Course Objectives:

1. *Narrate and describe events in the present, past, and future tenses using indicative and subjunctive modes.*
2. *Use Spanish to communicate more complex facts, questions, and opinions. converse in and comprehend Spanish using the simple tenses, and narrate and describe events in the present, past, future about everyday topics, such as description and narration about childhood and other stages of life, celebrations and social life.*

3. *Read and comprehend short articles and stories in Spanish from authentic texts on topics related to Hispanic culture such as identity and social issues, music, art, literature, history and politics.*
4. *Students will be able to write short paragraphs in the past using preterit and imperfect tenses, the subjunctive and indicate modes.*
5. *Students will be able to identify, compare, contrast and discuss the traditions, customs and values of the Hispanic world.*

Course Schedule:

- *Review foundational material given in Spanish 1 & 2*
- *Present tense of regular and irregular verbs. The verbs **ir, dar, estar**.*
- *Preterit and imperfect of regular and irregular verbs*
- *The verbs interesar, aburrir, gustar.*
- *Indirect and direct object pronouns*
- *Uses of the preterit and imperfect*
- *The present perfect tense*
- *Regular and irregular past participles*
- *Double object pronouns*
- *The subjunctive*
- *Formal commands*
- *The subjunctive with impersonal*
- *The subjunctive of stem-changing verbs*
- *The comparison of like things*
- *Possessive pronouns*
- *The subjunctive to express wishes, emotions, doubt*
- *The pluperfect, conditional perfect and future perfect tenses*
- *The imperfect subjunctives*
- *The subjunctive vs. the infinitive*
- *Suffixes*
- *Irregular noun*
- *The present perfect and pluperfect*
- *Si clauses*
- *Adverbs ending in – **mente***
- *Passive voice*
- *Relative pronouns*
- ***Por** and **para***
- *Culture: Frida Kahlo and museum in Coyoacan. Mexico*
- *Federico García Lorca*
- *Mayan ruins in Copán, Honduras*
- ***Las meninas** by Diego Velázquez*
- ***El oso y el madroño** in Madrid, Spain*
- *Don Quijote and Sancho Panza*
- *La boca, an artistic neighborhood in Buenos Aires*
- ***La liberación del peón** by Diego Rivera*
- *Havana, Cuba*

Requirements and Evaluation:

1st nine –weeks grade=40%

2nd nine-week grade=40%

Semester Exam grade=20%

Semester grade=100%

Test grades=75%+Daily grades=25%

Test grades=75%+Daily grades=25%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

There will be a weekly test.

Quizzes will count one time.

Chapter test will count twice.

Participating in class, speaking the language will be an important part of your grade; it will count as one weekly grade.

Retest is not allowed.

Cheating on a test will result in a zero and PHS procedure will be followed.

No extra credit work is given.

Assignments:

Daily class assignments are posted on my page.

According to the PHS Handbook all students with an E-Day are to return to class prepared for that day.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, Nov. 12th.*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic

dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI):

Tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

SRGT 2130 100
Professional Readiness SRGT
Fall 2026

Instructor: Norm Gilbert, CST, SA-TX, BS **Meeting Location:** Hybrid or TBA
Office: WTC #1046 **Meeting Days:** TBA
Phone: (903) 782-0734 or (903) 782-0738 **Meeting Times:** online or 9:00am – 10:00am
Email: ngilbert@parisjc.edu
Office Hours: Before/After Class; Friday 8-10:00am; Appointment

Course Description:

Overview of professional readiness for employment, attaining certification, and maintaining certification status.

Course Credit:

SRGT2130 (4.3.2): 1 SCH = 1 lecture hours per week

SI Requirements: College-level *Math*, *Reading*, and *Writing* assessments complete, or *exempt*.

Prerequisite(s):

Completion of SRGT1441 and SRGT2461 with a “C” or better. (C=75-80%)

Co-requisite:

None

Course Rationale:

SRGT 2130 is designed to prepare the student for professional success with regard to communication skills, job-seeking skills, and certification/credential preparedness and maintenance.

Course Relevance to Professional Outcome:

This course and related content constitutes a portion of the accredited core-curriculum related to the Surgical Technology profession approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is offered in conjunction with additional program content. Successful completion of program content intends to convey eligibility to pursue professional credential via national board examination*; however, in accordance to HB1508 of the State of Texas, be advised that personal criminal records could prevent state licensure or limit future employment opportunities. If you have questions regarding background information, please speak with a faculty member or department chair. You have the right to request a criminal history evaluation letter from the licensing agency when applicable.

*Licensure or credentialing examination results will vary by individual and may determine professional outcome.

Required Textbook(s) and Materials (used for SRGT 1405 / 1409 / 1441 / 1442):

Surgical Technology for the Surgical Technologist A Positive Care Approach 2024, 6th ed.
Caruthers, Delmar Publishing.

Study Guide for Surgical Technology for the Surgical Technologist 2024. Junge, Delmar Publishing. (ISBN: 978-0-357-62573-6)

Recommended Textbook(s) and Materials:

None.

Course Goals and Student Learning Objectives:

Self-Awareness regarding the Affective Domain of learning and professional applications, Communication-Skills Awareness, Application of Job-Seeking Techniques (Search, Resume, Interview), Identification of strengths/weaknesses in preparation for certification examination, professional association membership (AST), Certification Exam application and awareness of credential maintenance requirements.

Course Policies:

See course-specific Course Requirement/Evaluation, Attendance, and Conduct statements contained in this syllabus. Students are also expected to read and abide by all policies contained in the PJC Student Handbook and **Surgical Technology Student Handbook**. All course-related tuition, fees, and state-mandated immunization expenses are the student's responsibility. It is college policy that each student in the program assumes financial responsibility for his/her own health care. Personal medical insurance is recommended.

Course Requirements and Evaluation:

Complete all course work with a final-grade computation of 75% or better. Complete all lab activities successfully and in a safe manner.

Grading Criteria:

In order to pass SRGT 2130, the student must achieve a final-grade computation of 75% or higher. The final-grade computation will consist of:

Skills/Assessment Activities 20%

Assignments 20%

BoardVitals Participation 30%

PAE (Secure Practice Exam) 10%

Successful AST Membership and CST Exam Application/Scheduling 20%

Skills/Assessment activities will involve communication, role-play and mock interviews.

Assignments will include Affective Domain self-assessment, practice exams, and use of online job-search portals. BoardVitals will include portal log-in and on-line participation. PAE is the NBSTSA on-line "Secure Practice Exam" for CST Exam self-assessment. AST membership and CST application/scheduling are online activities through the AST and NBSTSA websites in preparation for credential examination. All activities, assignments, exams and applications must be completed must be completed to instructor's satisfaction as scheduled.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance as scheduled is critical for the successful completion of this course. For online activities, students must complete work in a timely manner and adhere to due dates provided. Withdrawals must be initiated by the student, and require an institutional withdrawal form with instructor signature. The student is expected to consult appropriate faculty and financial-aid advisors prior to submitting the form to the Student Records Office for processing. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12, 2026**. Failure to complete application, schedule, and receive authorization to participate in the professional credential certification process will result in failure, "F" in the course..

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, headphones, ear-buds, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Student Handbook and/or Surgical Technology Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence. Use of Artificial Intelligence (AI) resources is not prohibited in your learning experience, just be careful to properly disclose and cite use of these resources.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus and Schedule Subject to Change:

Students will be notified of any changes, as necessary, through various methods, including: classroom notification, Blackboard, student email, phone or text messaging, etc.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

**Course Schedule:**

Subject to Change; General outline follows and changes will be provided through the Blackboard portal with additional instructions.

Course Schedule/Weekly Lesson Plan:

DATE/WEEK	TOPIC: READINGS ASSIGNMENTS LECTURES
Week 1	No Activity
Week 2	Introduction Blackboard and Discussion portals
Week 3-4	Discussion: Practice of professionalism, and Affective Domain self-assessment
Week 5	Discussion: Elements of effective communication
Week 6	BoardVitals account set-up/log-in for on-going access
Week 7	Board Exam Review Techniques and Topics (on-going)
Week 8	TBA (practice exams/questions) (on-going)
Week 9	Online Job Search
Week 10	Resume Preparation
Week 11	Mock Interviews
Week 12	AST Membership Application
Week 13	NBSTSA Board Exam (CST) Application
Week 14	Thanksgiving Holiday
Week 15-16	PAE Examination (Secure Practice CST) and Assessment

SRGT 1442 100
Surgical Procedures II
Fall 2026

Instructors: Norm Gilbert, CST, SA-TX, BS **Meeting Location:** WTC #1055 or TBA
Chelsey Speed, CST
Office: WTC #1046 **Meeting Days:** Monday
Phone: (903) 782-0734 or (903) 782-0738 **Meeting Times:** 9:00am - 3:00pm
Email: ngilbert@parisjc.edu ; cspeed@parisjc.edu
Office Hours: Before/After Class; Friday 9-11:00am; Appointment

Course Description:

Introduction to surgical pathology and its relationship to surgical procedures. Emphasis on surgical procedures related to the cardiothoracic, peripheral vascular, plastic/reconstructive, ophthalmology, oral/maxillofacial, and neurological surgical specialties incorporating instruments, equipment, and supplies required for safe patient care.

Course Credit:

SRGT1442 (4.3.2): 4 SCH = 3 lecture and 2 laboratory hours per week
SI Requirements: College-level *Math*, *Reading*, and *Writing* assessments complete, or *exempt*.

Prerequisite(s):

Completion of SRGT1441 and SRGT2461 with a "C" or better. (C=75-80%)

Co-requisite:

This course requires concurrent enrollment in SRGT 2462, and both courses must be passed with a "C" or better within the same semester. (C=75-80%)

Course Rationale:

SRGT 1442 is designed to prepare the student to enter the surgical environment with entry-level knowledge.

Course Relevance to Professional Outcome:

This course and related content constitutes a portion of the accredited core-curriculum related to the Surgical Technology profession approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is offered in conjunction with additional program content. Successful completion of program content intends to convey eligibility to pursue professional credential via national board examination*; however, in accordance to HB1508 of the State of Texas, be advised that personal criminal records could prevent state licensure or limit future employment opportunities. If you have questions regarding background information, please speak with a faculty member or department chair. You have the right to request a criminal history evaluation letter from the licensing agency when applicable.

*Licensure or credentialing examination results will vary by individual and may determine professional outcome.

Required Textbook(s) and Materials (used for SRGT 1405 / 1409 / 1441 / 1442):

Surgical Technology for the Surgical Technologist A Positive Care Approach 2024, 6th ed.
Caruthers, Delmar Publishing.

Study Guide for Surgical Technology for the Surgical Technologist 2024. Junge, Delmar

Publishing. (ISBN: 978-0-357-62573-6)

Scan-Tron Testing Forms: **ParSCORE** red (or TBA)

Recommended Textbook(s) and Materials:

Differentiating Surgical Instruments, 2nd ed., 2012. Rutherford, FA Davis Publishing. ISBN: 978-0-8036-2545-7

Medical Dictionary: **Either**, *Mosby's Medical, Nursing, & Allied Health Dictionary*, **or** *Taber's Cyclopedic Medical Dictionary* (any recent edition).

Course Goals and Student Learning Objectives:

The student will demonstrate broad understanding of surgical intervention techniques within multiple specialties. Upon completing the course, the student will have accomplished the following course outcomes:

Relate the relevant anatomy and pathology to indications for selected surgical procedures.

Summarize patient preparation for selected surgical procedures.

Select appropriate instruments, equipment, supplies and continue to utilize basic concepts of pharmacology for selected surgical procedures.

Reconstruct the sequence for selected surgical procedures.

Identify expected outcomes and possible complications for selected procedures.

Demonstrate professional accountability by providing safe effective care.

Course Policies:

See course-specific Course Requirement/Evaluation, Attendance, and Conduct statements contained in this syllabus. Students are also expected to read and abide by all policies contained in the PJC Student Handbook and **Surgical Technology Student Handbook**.

All course-related tuition, fees, and state-mandated immunization expenses are the student's responsibility. It is college policy that each student in the program assumes financial responsibility for his/her own health care. Personal medical insurance is recommended.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Requirements and Evaluation:

Complete all course work with a final-grade computation of 75% or better. Complete all lab activities successfully and in a safe manner. Commensurate to classroom/laboratory experience, students will be subject to rubric-based evaluations related to: instrument-recognition, equipment and supply needs, and surgical-case maintenance regarding common surgical procedures of various specialties. The rubric-based evaluations of retained knowledge regarding common surgical procedures of various specialties will contribute to final-grade computation (see computation form below, and/or on BlackBoard).

Grading Criteria:

In order to pass SRTG 1442, the student must achieve a final-grade computation of 75% or higher. The final-grade computation will consist of:

4-5 Exams (averaged) 60%

Daily Grades (averaged) 20%

Comprehensive Final Exam 20%

Daily grades may consist of written assignments, critical thinking exercises, lab exercises, and unannounced quizzes (if you are absent, an unannounced quiz cannot be made-up). All lab activities must be completed to instructor's satisfaction.

Late assignments will have 10-points deducted for every class day that it is late.

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be compiled in a different format (i.e. fill-in the blank or essay).

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed (see Surgical Technology Student Handbook).

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student, and require an institutional withdrawal form with instructor signature. The student is expected to consult appropriate faculty and financial-aid advisors prior to submitting the form to the Student Records Office for processing. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12, 2026**. Failure to take the final exam will result in a grade of "F" in the course. There are no "excused" absences, all are recorded and after 2 absences in a single semester, a student conference is mandatory and disciplinary action may be taken. Please see the Surgical Technology Student Handbook for further details regarding absences and tardiness.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, headphones, ear-buds, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Student Handbook and/or Surgical Technology Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence. Use of Artificial Intelligence (AI) resources is not prohibited in your learning experience, just be careful to properly disclose and cite use of these resources.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus and Schedule Subject to Change:

Students will be notified of any changes, as necessary, through various methods, including: classroom notification, Blackboard, student email, phone or text messaging, etc.

Course Schedule:
(see below)

SRGT 1442

Fall 2026 SCHEDULE

WEEK	CONTENT	EXAMS Assignments Due*	Procedures / Lab TBA
8/24	Begin Unit I (Ch 22) Urology	Read Chapter 22	Cystoscopy, Circumcision, Orchiopexy, Vasectomy, Wilms Tumor, Nephrectomy, Adrenalectomy
8/31	Unit I continued		Ileal Conduit, MMK, TURP, Prostatectomy, Hydrocele, Penile Prosthesis
9/07	Holiday		
9/14	Begin Unit II (Ch 20) Maxillofacial	UNIT I (Ch 22) EXAM WB Ch 22 Read Chapter 20 DCA #1-6	Tooth Extraction, Fractures/ Archbars, Lefort I, II, III, TMJ Procedures
9/21	Unit II continued	DCA #7-9	TBA
9/28	Begin UNIT III (Ch 21) Plastic/Reconstructive	UNIT II (Ch 20) EXAM WB Ch 20 Read Ch 21 DCA #10-12	Rhinoplasty, Rhytidectomy (face-lift), Skin grafts, Ganglion cysts
10/05	Unit III continued	DCA #13-15	Abdominoplasty, Mammoplasty (Reduction/Reconstruction)
10/12	Begin Unit IV (Ch 24) Cardiothoracic	UNIT III (Ch 21) EXAM WB Ch 21 Read Chapter 24 DCA #16-18	Cardio-thoracic anatomy Diagnostic (Bronchoscopy / Mediastinoscopy / Thoracoscopy), Thoracotomy (Wedge / Lobectomy/ Pneumonectomy)
10/19	Unit IV continued	DCA #19-21	CABG/Valve Replacement Aneurysm Repair, Coarctation
10/26	Unit IV continued	DCA #22-24	TBA
11/02	Begin Unit V (Ch 25) Peripheral Vascular	Unit IV (Ch 24) EXAM WB Ch 24 Read Ch 25 DCA #25-27	Declot, Vasc. Access, Fistulas, CEA
11/09	Unit V continued	DCA #28-30	Bypass: Aortofemoral, Fem-Pop, AX- Fem, Fem-Fem, AAA
11/16	Begin Unit VI (CH 26)	Unit V (Ch 25) EXAM	Carpal Tunnel Release, Neuroma, Ulnar Nerve Transposition

	Neurosurgery	WB Ch 25 Read Ch 26 DCA #31-33	
11/23	Unit VI continued	DCA #34-36	Laminectomy, Craniotomy
11/25-11/27 Wed.-Fri.	Thanksgiving Holiday NO CLINICAL	Holiday	Holiday
11/30	TBA	TBA DCA #37	TBA
12/07	PAE EXAM (Deadline for late assignments)	PAE EXAM DCA #38-40	PAE EXAM (Deadline for late assignments)
12/08 TUESDAY	Comprehensive Final Unit VI (neuro) EXAM will be part of the FINAL EXAM	WB Ch 26 COMPREHENSIVE FINAL EXAM as scheduled	FINAL EXAM week Clinical <u>make-up</u> days only

Final Exam: TUESDAY, December 08, 2026

Commencement: FRIDAY December 11, 2026

The above schedule, policies, procedures and assignments for this course are subject to change in the event of extenuating circumstances. Deadline for submitting late assignments: 12/07/2026

*DCA = Daily Clinical Assessment, WB = Workbook (Study Guide for STST, 6th Ed.)

UNIT CONTENT:

Unit I: Otorhinolaryngologic (ENT) Surgery (STST Chapters 19)

Select Key Terms; Myringotomy (i.e. tube placement, BMT), Tympanoplasty, Mastoidectomy, Stapedectomy, Cochlear Implant, Septoplasty, Turbinectomy, Nasal Polypectomy, Choanal Atresia, Endoscopic Sinus Surgery (FESS), Nasal Antrostomy, Tonsillectomy and Adenoidectomy (T&A), Parotidectomy, Uvulopalatopharyngoplasty (UPPP), Laryngectomy, Radical Neck Dissection (mandibulectomy); Glossectomy (supplemental text), Temporomandibular Joint (TMJ) Arthroplasty (arthroscopy), Tracheotomy/Tracheostomy.

Unit II: Genitourinary Surgery (STST Chapter 22)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (H&P, Laboratory, Radiology, Biopsy, Endoscopy); Equipment and Supplies, Patient

Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Wilm's Tumor Excision (Adrenalectomy), Nephrectomy, Kidney Transplant, Ureteroscopy, Ureteropyelithotomy, Transurethral Resection of Bladder Tumor (TUR-BT), Cystectomy with Ileal Conduit, Bladder Neck Suspension Procedures (pubovaginal sling, vesicourethral suspension (Marshall-Marchetti-Krantz, MMK), TVT/sling), Transurethral Resection of Prostate (TURP), Prostatectomy (radical, suprapubic, laparoscopic, robotic-assist), Prostate Seeding (radiation implant), Hydrocelectomy, Orchiopexy, Orchiectomy, Circumcision, Hypospadias/Epispadias Repair, Penile Implant, Penectomy.

Unit III: Cardiothoracic Surgery (STST Chapter 24)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (H&P, Laboratory, Radiography (x-ray, angiography, etc.), 12-lead EKG, Echocardiography, etc.); Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Bronchoscopy, Mediastinoscopy (Chamberlin, lymph node dissection/biopsy), Thoracoscopy (video assisted), Pectus Excavatum Repair (thoracotomy), Pulmonary Embolectomy (thoracotomy), Decortication (thoracotomy), Pulmonary Wedge Resection/Lobectomy (thoracotomy, video assisted), Pneumonectomy (thoracotomy, video-assisted (VAT)), Lung Transplant (thoracotomy), Cardiac Pacemaker Placement (epicardial, atrial, ventricular, dual-chamber), Coronary Artery Bypass Grafting (on/off pump, minimally-invasive, with circulatory support (IABP, VAD), saphenous vein graft, IMA pedicle graft), Heart Transplant, Ventricular Aneurysm Repair, Heart Valve Repair/Replacement (aortic, mitral), Septal Defect Repair (atrial, ventricular), Closure Patent Ductus Arteriosus, Aortic Coarctation Repair, Tetralogy of Fallot Repair

Unit IV: Peripheral Vascular Surgery (STST Chapter 25)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (H&P, Radiography (x-ray, angiography, etc.), Doppler, etc.); Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Angioscopy, Angioplasty (stent, endograft, cryo), Venous Access Device, Embolectomy/Thrombectomy, Carotid Endarterectomy (CEA) (general anesthesia, local with neurologic monitor), Abdominal Aortic Aneurysm (AAA) Repair (straight, bifurcated grafts), Arteriovenous Fistula/Shunt (AV graft); Arterial Bypass (aortofemoral, femorofemoral, femoropopliteal, axillofemoral, graft: synthetic, autogenous vessel, in-situ), Vena Cava Filter Placement, Vein Ligation and Stripping

Unit V: Oral and Maxillofacial Surgery (STST Chapter 20)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (Radiography); Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Odontectomy (tooth extraction), Maxillary and Mandibular Fracture Fixation (ORIF, arch bars), Orbital Fracture Fixation (ORIF), Maxillary Fracture Fixation (LeForte I-III)

Unit VI: Plastic and Reconstructive Surgery (STST Chapters 21)

Select Key Terms; Introduction; Diagnostic Procedures and Tests (H&P, Radiography (x-ray, MRI); Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Nevectomy (moles, neoplasm)/Scar Revision, Skin Graft (full-thickness (FTSG), split-thickness (STSG), bio-graft), Blephoroplasty, Brow-Lift, Malar Implants, Mentoplasty, Otoplasty, Rhinoplasty, Rhytidectomy, Cheiloplasty (augmentation, cleft-lip repair), Palatoplasty (cleft-palate repair), Breast Augmentation/Reduction, Mammoplasty (reconstruction, TRAM, nipple), Mastopexy, Lipectomy (liposuction), Abdominoplasty, Post-Traumatic Injury Revision (digits, microvascular pedicle grafts, etc.), Depuytren's Contracture Release, Trigger Release, Syndactyly/Polydactyly Release/Revision, Radial Dysplasia Repair

Unit VII: Neurosurgery (STST Chapter 26)

Select Key Terms; Introduction; Equipment and Supplies, Patient Positioning, Prep and Draping; Procedural-Related Anatomy/Pathology and Step-by-Step Considerations; Surgical Procedures: Cranioplasty; Craniotomy (craniosynostosis, aneurysm repair), Ventriculoperitoneal Shunt Placement, Ventriculoscopy, Transphenoidal Hypophysectomy, Stereotactic Procedures (craniotomy, biopsy, tumor resection), Laminectomy (lumbar-open/minimally invasive, thoracic, cervical-anterior/posterior), Discectomy/Fusion (lumbar, cervical-anterior/posterior), Rhizotomy, Carpal Tunnel Release (CTR), Ulnar Nerve Transposition

SRGT 1442

Name: _____

Course Grade Rubric:

The Final Course Grade is derived from weighted averages of the following grade categories:

Unit Exams (4-5), **Daily Grades** (X), **Final Exam** (1).

Satisfactory course completion requires: Over-all Course **Grade of 75%** or higher.

The following computation is applied:

Unit Exams: average equals 60% of final course grade (weighted-percent): _____%

Exam I Score: _____

Exam II Score: _____

Exam III Score: _____

Exam IV Score: _____

Exam V Score: _____

Exam VI Score: _____

Sum of Scores: _____ divided by the *number of exams* x equals average test-grade: _____.

Average test-grade multiplied by 0.60 equals the weighted-percent of final course-grade computation.

Daily Grades: average equals 20% of final course grade (weighted-percent): _____%

WB I Score: _____ PAE Score: _____

WB II Score: _____ Other Score: _____

WB III Score: _____ Score: _____

WB IV Score: _____ Score: _____

WB V Score: _____ Score: _____

Sum of Scores: _____ divided by the number of grades x equals the average daily-grade: _____.

Average daily-grade multiplied by 0.20 equals weighted-percent of final course-grade computation.

Final Exam: (comprehensive) equals 20% of final course grade (weighted-percent): _____%

Final Exam Score: _____ multiplied by 0.20 equals weighted-percent of final grade.

Final Grade for Course (sum of weighted-percentages): _____%

SRGT 2461 10A0
SRGT 2461 Surgical Technology; Clinical I
Fall 2026

Instructor: Daisy Henson

Office: WTC 1048

Phone: 903-782-0729

Email: dhenson@parisjc.edu

Office Hours: By appointment

Meeting Location: TBA

Meeting Days: Monday-Wednesday or
(Tuesday, Wednesday, Friday)

Meeting Times: 6:30 am until 3:00 pm at the
assigned medical facility, plus driving-time
allowance (*see clinical rotation schedule*).

facility, plus driving-time allowance (*see clinical rotation schedule*).

Instructor Office Hours: By appointment

Your classes at Paris Junior College provide you with the very best educational opportunities possible. They have been very carefully planned and designed. Each class fulfills specific requirements or goals established by Paris Junior College and the Accreditation Review Committee on Surgical Technology and Surgical Assistants (ARC-STSA) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP).

Paris Junior College is an affirmative action/equal opportunity educational institution and employer. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, disability, or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as Amended in 1972, and with Executive Order 11246 as Amended by Executive Order 11375.

COURSE DESCRIPTION:

SRGT2461 is a clinical-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts under direct supervision provided by the clinical professional (faculty or preceptor). Clinical education is an unpaid learning experience.

Course Credit: SRGT 2461 (4.0.20): 4 SH = approximately 20 hours per week (14-wks).

TSI Requirements: College-level *Math, Reading, Writing* assessment complete or exempt.

Prerequisites: Successful completion of both, SRGT 1405 and SRGT 1409 with a “C” or better within the same semester (SRGT courses C=75-80%).

Co-requisite: This course requires concurrent enrollment in SRGT 1441, and both courses must be passed with a “C” or better within the same semester (SRGT courses C=75-80%).

Course Rationale: SRGT 2461 is one of two courses designed to provide the student with environmental exposure and training opportunity in preparation for entry-level status as a surgical technology professional. Supervised clinical activities permit skills application and broad exposure to various procedures, specialties, technologies and professional expectations.

Course Relevance to Professional Outcome:

This course and related content constitute a portion of the accredited core-curriculum related to the Surgical Technology profession approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is offered in conjunction with additional program content. Successful completion of program content intends to convey eligibility to pursue professional credential via national board examination*; however, in accordance with HB1508 of the State of Texas, be advised that personal criminal records could prevent state licensure or limit future employment opportunities. If you have questions regarding background information, please speak with a faculty member or department chair. You have the right to request a criminal history evaluation letter from the licensing agency when applicable.

*Licensure or credentialing examination results will vary by individual and may determine professional outcome.

Required Textbook(s) and Materials:

Surgical Technology for the Surgical Technologist A Positive Care Approach 2024, 6th ed. Caruthers, Delmar Publishing.

Study

Guide for Surgical Technology for the Surgical Technologist 2024. Junge, Delmar Publishing.

(**Note:** Electronic Access Code and E-book bundle, **ISBN 9780357625804**); Printed Hardback Option, ISBN: 9780357625736 at additional cost.

Recommended Textbook(s) and Materials:

Surgical Instrumentation: An Interactive Approach, Nemitz, 4th ed. Elsevier Publishing. ISBN:978-0-323-77693-6

Medical Dictionary: **Either**, *Mosby's Medical, Nursing, & Allied Health Dictionary*, **or** *Taber's Cyclopedic Medical Dictionary* (any recent edition).

Course Goals and Objectives:

Given textbook, classroom discussion, appropriate handouts, and laboratory practicum, the student will have accomplished the following course outcomes:

- Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the surgical setting.
- Demonstrates legal and ethical behaviors, as well as safety practices.
- Demonstrates interpersonal and teamwork skills, and appropriate written and verbal communications skills using the terminology of the surgical technologist.

Student Learning Objective(s):

The student will demonstrate competency of application regarding recognized Principles of Asepsis (Sterile Technique) as a foundation to surgical intervention in various specialties through clinical-based experience.

Means of Assessment:

Commensurate to classroom/laboratory experience, students will be subject-to rubric- based evaluations related to instrument-recognition, equipment and supply needs, and surgical-case maintenance. Rubric-based evaluations of retained knowledge regarding common surgical procedures of various specialties will contribute to final-grade computation. Students are subject-to on-going evaluation by qualified preceptors, who indicate acceptable progress throughout the clinical experience, which contributes to final-grade computation for both SRGT 2461 and SRGT 2462 (component rubrics: Daily Clinical Assessment and Clinical Rotation Progress/ Evaluation Report; see below).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Grading Criteria:

Clinical grade computation is based upon observed performance, level of participation, and progress. To pass SRGT 2461, the student must achieve a final-grade average of 75 or higher. The course final-grade average will consist of:

➤ Instructor Evaluations during Clinical Attendance	35%
➤ Preceptor Evaluations	45%
➤ Instructor Assignments* (WB)	<u>20%</u>
	100% , less attendance penalty points (see below)

*Late assignments will have 10-points deducted for **every class day** that it is submitted late.

Students who demonstrate unsatisfactory progress in the classroom or clinical setting will be given written notification and a *Plan for Remediation* will be completed as applicable. See student handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Clinical Case Requirements:

By the end of the program (upon completion of SRGT 2461 and SRGT 2462) the student must have actively participated (**first** or **second scrub role**) in at least 120 surgical cases. No less than 80 of the 120 cases must be completed in a proficient first-scrub role (generally considered independent-capable) on designated case-types. See **role-descriptions** and **case-type designations** below. Student proficiency and role will be determined by clinical staff preceptors and will be documented on the clinical forms provided (Daily Clinical Assessment and Clinical Rotation Progress/ Evaluation Report; see below). Procedures that are simply observed, or when minimum first or second scrub criteria are not met, will not count toward meeting the clinical case requirements and are considered **observation scrub (OS)** assignments.

Students that do not achieve the case requirements will receive an "incomplete" (I) status instead of final course grades. The "incomplete" will convert to "failure" (F) according to institutional policy if the course requirements are not met before the end of a subsequent semester.

Scrub-Role Descriptions:

First-Scrub (1st) assignment requires all of the following specific duties to be performed proficiently* during the case:

- Verifies supplies and equipment needed for the surgical procedure.
- Sets-up the sterile field with instruments, supplies, and medications as needed for the procedure.
- Assist with patient-draping procedures whenever possible.
- Performs appropriate counts with the circulator (initial and closing) for the procedure.
- Passes instruments and supplies to sterile team members throughout the procedure.
- Maintains sterile technique; recognizes breaks in technique and corrects as appropriate.

Second-Scrub (2nd) assignment indicates that not all first-scrub duties were performed proficiently*, but active-participation in any of the following duties occurred throughout the case:

- Sponging blood or body fluid from the wound
- Suctioning blood or body fluid from the wound
- Cutting suture
- Holding Retractors
- Manipulating an endoscopic camera

Observation-Scrub (OS) assignment indicates that the team member simply observed or scrubbed and observed without performing any of the duties described above. This assignment will **not** count toward meeting the clinical case requirements.

*Proficiency is evaluated by an attending preceptor, and the role-assignment is validated by the preceptor's mark (PI).

Case-Types and Designated Requirements

Acceptable case-types and limited-alternatives fall under the following categories:

- General Surgery
- Specialty Surgery
- Diagnostic Endoscopy (limited to 10-assignments*, in the second-scrub role ONLY)
- Labor and Delivery (limited to 5-assignments* in the second-scrub role ONLY)

Thirty (30) of the 120 required cases must come from the general-surgery category, and at least 20 of them must be first-scrub assignments. Ninety (90) of the 120 required cases must come from the specialty-surgery category, and at least 60 of them must be first-scrub assignments.

Surgical “Specialties” include Eye, ENT, Genitourinary, OB-GYN, Oral-maxillofacial, Neuro, Orthopedic, peripheral vascular, Cardiothoracic, Plastic-reconstructive, or Transplant. All others are typically “General”.

Diagnostic Endoscopy may include use of scopes in any area of the body (i.e. bronchoscope, cystoscope, laryngoscope, ERCP, and EGD). Up to ten (10) diagnostic endoscopy procedures may be substituted for the second-scrub case requirements.

Labor and Delivery includes vaginal-delivery cases only. Up to five (5) vaginal-delivery procedures may be substituted for the second-scrub case requirements.

First-scrub assignments should be evenly distributed between procedure types, with no more than fifteen (15) occurring in any one specialty without similar exposure in other areas.

Course Policies:

See course-specific Course Requirement/Evaluation, Attendance, and Conduct statements contained in this syllabus. Students are also expected to read and abide by all policies contained in the PJC Student Handbook and Surgical Technology Student Handbook.

All course-related tuition, fees, and state-mandated immunization expenses are the student’s responsibility. It is college policy that each student in the program assumes financial responsibility for his/her own health care. Personal medical insurance is recommended.

To All Health Occupation Students:

COVID-19 Vaccination Requirements: All clinical facilities receiving federal funds (Medicare, Medicaid, etc.) have mandatory immunization policies in place, requiring COVID vaccination or a Record of Exemption status. Policies and implementation method (exemption forms, record-keeping, etc.) varies by institution, and multiple exemption requests may be necessary if the federal individual vaccination record is not available.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student and require an institutional withdrawal form with instructor signature. The student is expected to consult appropriate faculty and financial-aid advisors prior to submitting the

form to the Student Records Office for processing. The last day for a student to withdraw from a course with a grade of “W” is **Thursday, November 12, 2026**. Failure to take the final exam as assigned/scheduled will result in a grade of “F” in the course. There are no “excused” absences, all are recorded and after 2 absences in a single semester, a student conference is mandatory and disciplinary action may be taken. Please see the Surgical Technology Student Handbook for further details regarding absences and tardiness.

Classroom/Lab/Clinical Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod headphones, etc. before entering the classroom/laboratory or clinical patient-care areas. No obscene/vulgar language will be permitted in the classroom/laboratory or clinical setting. Professional behavior, including appropriate communication, proper hygiene, timely-attendance, surgical attire (including PPE), patient confidentiality, and appropriate student identification are expected. Clinical activities and presence MUST be properly supervised, and financial compensation for clinical activities is prohibited. Be aware of inherent risks always associated with the OR environment and/or training laboratories and take appropriate precautions as necessary. Potential risks include, but are not limited to: exposure to blood borne pathogens and other infectious materials, fire/electrical hazard, fall and lifting hazards, sharps injury, chemical exposure, exposure to ionizing radiation, LASERs, etc. Faculty reserves the right to drop/withdraw a student from the program for violations of the Student Conduct Policy as listed in the PJC Student Handbook and/or Surgical Technology Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence:

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student’s responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

***Mental health conditions are common and treatable. Suicide is preventable.***

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

**SRGT 2462 100
Clinical II
SPRING 2026**

Instructor: Norm Gilbert, CST, SA-TX, BS **Meeting Location:** TBA (see clinical schedule)
Office: WTC #1046 **Meeting Days:** Tuesday thru Thursday
Phone: (903) 782-0734 or (903) 782-0738 **Meeting Times:** 6:30am-3:00pm + drive-time
Email: ngilbert@parisjc.edu
Office Hours: Monday thru Thursday 3-4:30pm; Friday 9-11:00am; or Appointment

Course Description:

SRGT2462 is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Clinical education is an unpaid learning experience.

Course Credit:

SRGT2462 (4.0.20): 4 SCH = 0 lecture and 20 clinical hours per week
TSI Requirements: College-level *Math*, *Reading*, and *Writing* assessments complete, or *exempt*.

Prerequisite(s):

Completion of SRGT1441 and SRGT2461 with a "C" or better. (C=75-80%)

Co-requisite:

This course requires concurrent enrollment in SRGT 1442, and both courses must be passed with a "C" or better within the same semester. (C=75-80%)

Course Rationale:

SRGT 2462 is designed to prepare the student to enter the surgical environment with entry-level knowledge.

Course Relevance to Professional Outcome:

This course and related content constitutes a portion of the accredited core-curriculum related to the Surgical Technology profession approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is offered in conjunction with additional program content. Successful completion of program content intends to convey eligibility to pursue professional credential via national board examination*; however, in accordance to HB1508 of the State of Texas, be advised that personal criminal records could prevent state licensure or limit future employment opportunities. If you have questions regarding background information, please speak with a faculty member or department chair. You have the right to request a criminal history evaluation letter from the licensing agency when applicable.

*Licensure or credentialing examination results will vary by individual and may determine professional outcome.

Required Course Materials (used for SRGT 1405 / 1409 / 1441 / 1442):

Surgical Technology for the Surgical Technologist A Positive Care Approach 2024, 6th ed.
Caruthers, Delmar Publishing.

Study Guide for Surgical Technology for the Surgical Technologist 2017. Junge, Delmar Publishing. (ISBN: 978-0-357-62573-6)

Recommended Course Materials:

Differentiating Surgical Instruments, 2nd ed., 2012. Rutherford, FA Davis Publishing. ISBN: 978-0-8036-2545-7

Medical Dictionary: **Either**, *Mosby's Medical, Nursing, & Allied Health Dictionary*, **or** *Taber's Cyclopedic Medical Dictionary* (any recent edition).

Course Goals and Student Learning Objectives:

Upon completing the course, the student will have accomplished the following course outcomes:

Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws and interactions within and among political, economic, environmental, social, and legal systems associated with the surgical setting.

Demonstrates legal and ethical behaviors, as well as safety practices.

Demonstrates interpersonal and teamwork skills, and appropriate written and verbal communications skills using the terminology of the surgical technologist.

The student will demonstrate competency of application with regard to recognized Principles of Asepsis (Sterile Technique) as a foundation to surgical intervention in various specialties through clinical-based experience. The student will exhibit acceptable standards of professional practice for Surgical Technology at all times.

Course Schedule:

Assigned clinical-sites and rotation schedules are distributed as a separate course material and subject to change or variation depending upon: place of residence, clinical-site capacity, available case-load (census), individual student case-requirements, and other extenuating circumstances. In general, students are expected to rotate through numerous clinical-site assignments, attending 3-days each week (**Monday thru Wednesday***) for approximately 8-hrs each day over a period of several weeks at a time (see clinical rotation schedule posted on Blackboard), for three to four rotations each semester. ***Note: Some facilities may require an alternate day of attendance (i.e. Friday instead of Monday).** Strict attendance policies apply (see below), and clinical records **MUST** be accurately maintained, while satisfying programmatic accreditation standards. Clinical Schedule (See Blackboard Course Link; Clinical Schedule TAB).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

See course-specific Course Requirement/Evaluation, Attendance, and Conduct statements contained in this syllabus. Students are also expected to read and abide by all policies contained in the PJC Student Handbook and **Surgical Technology Student Handbook**.

All course-related tuition, fees, and state-mandated immunization expenses are the student's responsibility. It is college policy that each student in the program assumes financial responsibility for his/her own health care. Personal medical insurance is recommended.

Regarding students in Healthcare Programs, COVID-19 vaccination requirements vary by facility. All clinical facilities receiving federal funds (Medicare, Medicaid, etc.) have mandatory immunization policies in place, requiring COVID vaccination or a Record of Exemption status. Since policies and implementation methods (exemption forms, record-keeping, etc.) vary by institution, multiple exemption requests may be necessary if the federal individual vaccination record is not available. Seasonal Influenza vaccination is considered a required annual immunization for health care providers in the State of Texas (exemptions require special practices).

Course Requirements and Evaluation:

Commensurate to classroom/laboratory experience, students will be subject-to rubric-based evaluations related to: instrument-recognition, equipment and supply needs, and surgical-case maintenance. Rubric-based evaluations of retained knowledge regarding common surgical procedures of various specialties will contribute to final-grade computation. Students are subject-to on-going evaluation by qualified preceptors indicating acceptable-progress throughout the clinical experience, which contributes to final-grade computation for both SRGT 2461 and SRGT 2462 (component rubrics: Daily Clinical Assessment and Clinical Rotation Progress/ Evaluation Report; see below).

The rubric-based evaluations of retained knowledge regarding common surgical procedures of various specialties will contribute to final-grade computation (see computation form below, and/or on BlackBoard).

Grading Criteria:

Clinical grade computation is based upon observed performance, level of participation, and progress. In order to pass SRGT 2461, the student must achieve a final-grade average of 75% or higher. The course final-grade average will consist of:

Instructor Evaluations	35%
Preceptor Evaluations	45%
Instructor Assignments* (WB)	<u>20%</u>

100% less attendance penalty-points (see below)

Assignments submitted late will have 10-points deducted for **each class day** past-due.

Students who demonstrate unsatisfactory progress in the clinical setting will be given written notification and a *Plan for Remediation* will be completed as applicable (see Surgical Technology Student Handbook).

Clinical Case Requirements:

By the end of the program (upon completion of SRGT 2461 and SRGT 2462) the student must have actively participated (**first** or **second scrub role**) on at least 120 surgical cases. No less than 80 of the 120 cases must be completed in a proficient first-scrub role (generally considered independent-capable) on designated case-types. See **role-descriptions** and **case-type designations** below. Student proficiency and role will be determined by clinical staff preceptors and will be documented on the clinical forms provided (Daily Clinical

Assessment and Clinical Rotation Progress/ Evaluation Report; see below). Procedures that are simply-observed, or when minimum first or second scrub criteria are not met, will not count toward meeting the clinical case requirements and are considered **observation scrub (OS)** assignments.

Students that do not achieve the case requirements will receive an “incomplete” (I) status instead of final course grades. The “incomplete” will convert to “failure” (F) according to institutional policy if the course requirements are not met before the end of a subsequent semester.

Scrub-Role Descriptions:

First-Scrub (1st) assignment requires all of the following specific duties to be performed proficiently* during the case:

Verifies supplies and equipment needed for the surgical procedure

Sets-up the sterile field with instruments, supplies, and medications as needed for the procedure

Assist with patient-draping procedures whenever possible

Performs appropriate counts with the circulator (initial and closing) for the procedure

Passes instruments and supplies to sterile team members throughout the procedure

Maintains sterile technique; recognizes breaks in technique, and corrects as appropriate

Second-Scrub (2nd) assignment indicates that not all first-scrub duties were performed proficiently*, but active-participation in any of the following duties occurred throughout the case:

Sponging blood or body fluid from the wound

Cutting suture

Holding Retractors

Manipulating an endoscopic camera

Diagnostic Endoscopy and Vaginal Delivery procedures are limited to second-scrub-role

Observation-Scrub (OS) assignment indicates that the team member simply observed or scrubbed and observed without performing any of the duties described above. This assignment will not count toward meeting the clinical case requirements.

*proficiency is evaluated by an attending preceptor, and the role-assignment is validated by the preceptor's mark (PI).

Case-Types and Designated Requirements:

Acceptable case-types, and limited-alternatives, fall under the following categories:

General Surgery

Specialty Surgery

Diagnostic Endoscopy* (scope to assess only, no intervention procedure); These are limited to 10-assignments, in the second-scrub role ONLY.

Labor and Delivery** (Vaginal Delivery); These are limited to 5-assignments* in the second-scrub role ONLY.

*Diagnostic Endoscopy may include use of scopes in any area of the body (i.e. bronchoscope, cystoscope, laryngoscope, ERCP, and EGD), but generally refers to cases performed in the “GI Lab”. Up to ten (10) diagnostic endoscopy procedures may be substituted for the second-scrub case requirements.

****Labor and Delivery includes vaginal-delivery cases only. Up to five (5) vaginal-delivery procedures may be substituted for the second-scrub case requirements. *Note: C-Section procedures are not limited.***

Thirty (30) of the 120 required cases must come from the general-surgery category, and at least 20 of them must be first-scrub assignments. Ninety (90) of the 120 required cases must come from the specialty-surgery category, and at least 60 of them must be first-scrub assignments. First-scrub assignments should be evenly distributed between procedure types, with no more than fifteen (15) occurring in any one specialty without similar exposure in other areas.

Surgical “Specialties” include: Eye, ENT, Genitourinary, OB-GYN, Oral-maxillofacial, Neuro, Orthopedic, peripheral vascular, Cardiothoracic, Plastic-reconstructive, or Transplant. All others are typically “General”.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

Clinical Attendance:

Assigned clinical attendance is **mandatory** for successful completion of this course. **All missed clinical days must be made-up at the site originally scheduled**, involving pre-arrangement with the PJC Clinical Coordinator and the O.R Supervisor where the absence occurred. There are no “excused” absences*; all are recorded and after 2 absences in a single semester, a student conference is mandatory and disciplinary action may be taken. **After two (2) absences, missed clinical days will severely affect the student clinical grade if not made-up prior to course completion. Points will be deducted directly from the post-clinical grade for each occurrence (5-pts for each occurrence 3-4, and 10-pts for each additional occurrence). Final course grades below 75% will prevent student advancement to the next clinical course.** Withdrawals must be initiated by the student, and require an institutional withdrawal form with instructor signature. The student is expected to consult appropriate faculty and financial-aid advisors prior to submitting the form to the Student Records Office for processing. The last day for a student to withdraw from a course with a grade of “W” is **Thursday, November 12, 2026.**

*Absence due to extreme circumstances (i.e. hospitalization or MVA) may be considered *extenuating* upon board review (see Surgical Technology Student Handbook).

Classroom/Lab/Clinical Conduct:

It is the student’s responsibility to be prepared, unimpaired, and on-time as scheduled. Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before

entering the classroom/laboratory or clinical patient-care areas. No obscene/vulgar language will be permitted in the classroom/laboratory or clinical setting. Professional behavior, including: appropriate communication, proper hygiene, timely-attendance, surgical attire (including PPE), patient confidentiality, and appropriate student identification are expected. Clinical activities and presence MUST be properly supervised, and financial compensation for clinical activities is prohibited. Be aware of inherent risks always associated with the OR environment and/or training-laboratory and take appropriate precautions. Potential risks include, but are not limited to: exposure to blood borne pathogens and other infectious materials, fire/electrical hazard, fall and lifting hazards, sharps injury, chemical exposure, exposure to ionizing radiation, LASERs, etc. Faculty reserves the right to drop/withdraw a student from the program for violations of the Student Conduct Policy as listed in the PJC Student Handbook and/or Surgical Technology Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence. Use of Artificial Intelligence (AI) resources is not prohibited in your learning experience, just be careful to properly disclose and cite use of these resources.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus and Schedule Subject to Change:

Students will be notified of any changes, as necessary, through various methods, including: classroom notification, Blackboard, student email, phone or text messaging, etc.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

SRGT 2462

Name: _____

Course Grade Rubric:

The Final Course Grade is derived from weighted averages of the following grade categories: **Instructor Evaluation** (1), **Preceptor Evaluations** (X), and **Instructor Assignments** (x). Satisfactory course completion requires: Over-all Course **Grade of 75%** or higher. The following computation is applied:

Instructor Evaluation:

Average equals 35% of final course grade (weighted-percent): _____%

Instructor Evaluation: Score: _____

Evaluation Score: _____ multiplied by 0.35 equals weighted-percent of final grade.

Preceptor Evaluation (Rotation and Case Numbers):

Average equals 45% of final course grade (weighted-percent): _____%

Preceptor Evaluation Score: _____

Case Number(s) Score: _____

Sum of Scores: _____ divided by 2, and multiplied by 0.45 equals weighted-percent of final grade.

Instructor Assignments:

Average equals 20% of final course grade (weighted-percent): _____%

WB I Score: _____ WB V Score: _____

WB II Score: _____ Other Score: _____

WB III Score: _____ Other Score: _____

WB IV Score: _____ Other Score: _____

WB V Score: _____ Other Score: _____

WB VI Score: _____ Other Score: _____

Sum of Scores: _____ divided by (X), and multiplied by 0.20 equals weighted-percent of final grade.

Final Grade for Course (Sum of weighted-percentages): _____%

GERS 1301.20D0
Gerontology for Healthcare
Fall 2026

Instructor: LaTosha N. Ivery
Office: SS Campus 101A
Phone: 903-782-0002
Email: livery@parisjc.edu
Office Hours: email for an appointment

Meeting Location: online
Meeting Days: online
Meeting Times: online

Course Description:

Overview of the social, psychological, & biological changes that accompany aging. Focus on the implications of these changes for the individual, as well as for the larger society

Required Textbook(s) and Materials:

Gerontology for the Health Care Professional, (4th edition) Robnett, Regula, Jones & Barnett Learning ISBN: 978-1-284-14506-9; Study material in blackboard

Course Goals and Objectives:

At the completion of the course, the student will demonstrate the knowledge and ability to differentiate the multi-disciplinary aspect of theory, research, and practice in gerontology; articulate the implications of aging in American society; interpret the demographics of aging; and identify cultural aspects in aging

Course Requirements and Evaluation:

The student must achieve a final average grade of 70 or higher. The final grade will consist of exams worth 50% of final grade, Death and dying paper worth 20% and Interview Project worth 30% of Final Grade

The criteria for letter grades in this course are as follows 90-100=A; 80-89=B; 70-79=C; 60-69=D; Below 60=F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Students will conduct themselves in a professional manner. It will be the student's responsibility to read chapters and review any material in the course on blackboard before each exam. The student must complete and submit required material/course work,

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be

initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Course Description:

This course is designed to develop the knowledge and skills necessary to be effective as a civilian NON-CERTIFIED first responder to minor accidents, injuries, and sudden illness. Caregiving skills while formal medical response is enroute will be taught as well as accident prevention principles will be also included. THIS COURSE IS NOT A CERTIFICATION OF FORMAL MEDICAL TRAINING AND AS SUCH, DOES NOT AUTHORIZE THE PRACTICE OF ANY MEDICAL PROCEDURES WITHOUT THE SPECIFIED DIRECTION OF A PHYSICIAN. Any liabilities incurred by the student for any such Responder action(s) will be the sole responsibility of the student as a GOOD SAMARITAN, but NOT as a certified or licensed First Responder. Certification/License of that kind requires more/different training that is authorized by the Texas Department of Health Services and/or the Texas Department of Licensing and Regulation.

Prerequisite(s): N/A

Required Textbook(s) and Materials:

Responding to Emergencies, New and Revised edition, 2012 Publisher: American Red Cross, Krames Stay Well Publishers ISBN Number: 978-1-58480-554-0.

Course Goals and Objectives:

- 1. Develop the knowledge and skills needed to meet many different types of situations when emergency first aid care is needed and, medical assistance is not excessively delayed.*
- 2. Develop the knowledge and skills needed to aid the infant, the child or the adult who is experiencing a breathing emergency.*
- 3. Develop knowledge and skills in the use of the AED (Automated External Defibrillator)*
- 4. Develop knowledge and understanding of the many causes of accidents and injuries so that action can be taken to eliminate or minimize such causes.*

Course Requirements and Evaluation:

15 Chapter Quizzes @ 20 pts. Each = 300 Points
5 Discussion Board Assignments (Class Participation) @ 60 pts. Each = 300 Points
5 Unit Exams @ 100 pts. Each = 500 Points
Total = 1100 Possible Points

Grading Scale:
990-1100 = A

880-989 = B
770-879 = C
660-769 = D
Below 660 = F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on October 26th. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Students will be required to follow the course calendar while completing all assignments. There will be no make-ups for missed exams, unless arrangements are made prior to the day of the exam with the professor.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 24, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are

known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard message and student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

First Aid
Fall 2026

Instructor: Brittany Christian
Office: Hunt Gymnasium 104
Phone: 903-782-0207
Email: bchristian@parisjc.edu
Office Hours: Mon/Wed/Fri 9A-1P

Meeting Location: MS 116
Meeting Days: Tuesday & Thursday
Meeting Times: 9:30-10:45

Course Description:

This course is designed to develop the knowledge and skills necessary to be effective as a civilian NON-CERTIFIED first responder to minor accidents, injuries, and sudden illness. Caregiving skills while formal medical response is enroute will be taught as well as accident prevention principles will be also included. THIS COURSE IS NOT A CERTIFICATION OF FORMAL MEDICAL TRAINING AND AS SUCH, DOES NOT AUTHORIZE THE PRACTICE OF ANY MEDICAL PROCEDURES WITHOUT THE SPECIFIED DIRECTION OF A PHYSICIAN. Any liabilities incurred by the student for any such Responder action(s) will be the sole responsibility of the student as a GOOD SAMARITAN, but NOT as a certified or licensed First Responder. Certification/License of that kind requires more/different training that is authorized by the Texas Department of Health Services and/or the Texas Department of Licensing and Regulation.

Prerequisite(s): N/A

Course Description:

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

Students who successfully complete this course will receive 3 college credits. Students are required to be 'reading complete', with a minimum score of 351 on the TSI exam.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at

<https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Sociology 1301.10LO; Society: The Basics (Sixteenth Edition), will be delivered digitally in your Blackboard Ultra course provided by your instructor.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

After successful completion of SOCI 1301, the student will exhibit an understanding of sociology through the identification of the sociological perspective, including sociological theories. And, students will possess an understanding of the origins of sociology.

By the end of the course, the student will be able to demonstrate familiarity with sociological views on the following social institutions and processes:

- Culture
- Socialization
- Groups and organizations
- Deviance
- Social stratification and its ramifications
- Sex and gender
- Race and ethnicity
- Economics and politics

- Family and religion
- Education and medicine
- Population and Urbanization
- The environment
- Social change

Course Competencies:

- SOCI 1301 will assist students in the development of the following competencies:
- To employ the appropriate methods, technologies, and data that social and behavioral scientists use to investigate the human condition.
- To use and critique alternative explanatory systems or theories.
- To recognize and apply reasonable criteria for the acceptability of historical evidence and social research.
- To identify and understand differences and commonalities within diverse cultures.
- To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
- To examine social institutions and processes across a range of historical periods, social structures, and cultures.

Course Requirements and Evaluation:

SOCI 1301.10LO is a hybrid course. A "hybrid" course means that approximately half of the course will be completed in the classroom and the other half of the course is completed online utilizing the Blackboard Learning Management System (Blackboard). The lecture, midterm exam, final exam and the engagement component of the course will be conducted in the classroom while discussions and reading Quizzes will be administered via Blackboard. NOTE: Students cannot complete this course successfully utilizing only Blackboard (online) nor can a student expect to only attend the lecture component and complete this course successfully. Students must complete both components of a hybrid course to be successful.

Students who successfully complete this course should be able to:

1. Define sociology. Discuss the sociological perspective, as well as what is meant by sociological imagination. Discuss the major theories within the field, and develop a basic understanding of how social research is conducted by sociologists.

2. Define culture and discuss its various components.
3. Discuss the socialization process from infancy to old age.
4. Describe the elements of social structure and interaction.
5. Describe the dynamics and characteristics of social groups.
6. Discuss the impact of formal organizations in society as well as the components of modern day bureaucracy; discuss what is meant by the phrase 'McDonalldization of Society.'
7. Define and discuss deviance, the major theories of deviance, and the relative nature of deviance.
8. Understand stratification, and the similarities and differences among the various strata in this country. In addition, understand how sociologists determine social class ranking.
9. Discuss how race/ethnicity and gender impact the lifechances of the individual in society.
10. Discuss the major theorists within the discipline; discuss sociology's emergence in the socio-historical context.
11. Discuss major trends within the modern family; discuss the sociological functions of the family, as well as conflict and interactionist analyses of the family as an institution.
12. Discuss the various stages of family life.
13. Discuss the impact of class, race, and gender on family life.
14. Discuss the various problems and issues associated with the family.
15. Discuss sexuality from a sociological point of view..
16. Discuss how each of the three theoretical orientations in sociology analyze sex and sexuality.
17. Discuss major demographic trends in the United States and abroad.
18. Discuss the process of urbanization, and its impact on cities, suburbia, and rural areas.
19. Discuss urbanism as a way of life, paying particular attention to the scholarly contributions of Ferdinand Tonnies, Emile Durkheim, George Simmel, and Robert Park.

Coursework Required:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will

contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Grading Policy:

Students' grades will be determined based on the following point scale:

360-400 points—A

320-359 points—B

280-319 points—C

240-279 points—D

Below 240 points—F

Testing Policy:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Exam Schedule:

Midterm Exam (Chapters 1,2, 3, 4, and 6) In class on September 17, 2026

Final Exam (Chapters 8, 9, 11, 12 and 14) In class on October 15, 2026

Calculation of grades: The maximum number of points that a student can earn in this course is 400. Students are required to complete 2 major unit exams worth 100 points each (200 possible). Also, students are required to complete 10 substantive postings for the balance of the semester, worth 10 points each (100 possible). Last, students are required to complete 10 chapter quizzes, worth 10 points each (100 possible). See the scale above for a breakdown of grades.

Expectations for Student Conduct**1. Academic Integrity***Honesty and Fairness:*

- Complete all academic work truthfully and submit only your own work.
- Avoid plagiarism, cheating, fabrication, or any form of academic dishonesty. Academic dishonesty is defined in Policy FLB(LOCAL).

Proper Attribution:

- Credit all courses appropriately in written, visual, or digital work and on all academic assignments.

Responsibility:

- Report any suspected violations of academic integrity to the appropriate authorities.
- Obey all classroom rules and instructions from faculty.
- Respectful behavior.

2. Interpersonal Respect

Respect for Others:

- Treat all peers, faculty, and staff with dignity, courtesy, and respect.
- Avoid any form of harassment, bullying, or discriminatory behavior.

Conflict Resolution:

- Address disagreements constructively.
- Seek mediation from faculty or administration when needed.

3. Personal Responsibility and Accountability

Attendance and Participation:

- Attend classes regularly, arrive on time, and participate actively.

Behavior on Campus:

- Follow all campus policies regarding conduct, facilities use, and participation in campus life.
- Exercise expressive activities in accordance with applicable law and PJC policies.

Accountability:

- Accept responsibility for your personal actions and decisions.
- Be open to feedback and willing to make changes when necessary.

4. Professional Conduct

Appropriate Communication:

- Use respectful and professional language in all forms of communication, including emails, social media, and in-person interactions.

Ethical Use of Technology:

- Use campus technology and online platforms responsibly and in accordance with college policies.

Representation:

- Represent yourself and the college with integrity in all public and professional settings.

5. Community Engagement and Safety

Safe Environment:

- Contribute to a campus atmosphere that is safe, welcoming, and free from any form of violence or intimidation.

Substance Use and Health:

- Abide by campus regulations regarding alcohol, drugs, and other substances.
- Prioritize your physical and mental health and seek help when needed.

Gang-Free Zone

College District property and surrounding areas are designated gang-free zones under Texas law. Certain criminal offenses committed within these areas may result in enhanced penalties.

Reporting Concerns:

- If you witness or experience behavior that undermines the community's values, report it to the appropriate authorities.

6. Compliance with Institutional Policies

Adherence to Rules:

- Follow all institutional policies, including those not explicitly covered in this code (e.g., safety protocols, housing regulations, etc.).

Consequences:

- Understand that violations of this code may lead to disciplinary actions, including reprimand, probation, suspension, or expulsion.

- The College may also impose temporary restrictions or interim suspension when necessary to protect safety or maintain order pending completion of the disciplinary process.

Due Process:

- Expect that reports of misconduct will be reviewed thoroughly, fairly, and confidentially.
- Students will be given notice, an opportunity to respond, and access to the appropriate appeal process.

7. **Commitment to Continuous Improvement**

Self-Development:

- Strive for continuous personal and academic growth.
- Engage in opportunities for leadership, community service, and self-improvement.

Feedback and Participation:

- Participate in evaluations and discussions aimed at enhancing campus policies and the overall student experience.

Conclusion

By adhering to PJC's Code of Conduct, students help maintain a vibrant, respectful, and dynamic learning environment. PJC's collective commitment to these principles ensures that everyone can benefit from a supportive and high-achieving academic community.

For questions or clarification about this Code, contact:

Director of Student Life

 StudentLife@parisjc.edu

 903-782-0433

Attendance

Attendance will be monitored daily, at the beginning of each class session. You CAN NOT expect to do well in this class without attending class, doing the required homework (mostly the reading assignments), and participating in the various assignments.

Important You are required by Texas Law to log on to this course, and complete the syllabus quiz, by the official reporting day (ORD), August 31, or you will be dropped from the course.

Attendance, in this class, will be reported to a college data base, once a week.

The last day for a student to withdraw from a course with a grade of 'W' is October 1.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Online Weekly Schedule

The course is organized into four instructional modules. Each module opens on the date listed below. Chapters, discussions, quizzes, and exams become available when the corresponding module opens. Due dates follow the pacing used in the previous semester and are designed to provide consistent weekly workflow.

Module	Module Title	Chapters	Module Opens	Assignments Due
-----	-----	-----	-----	-----
Module 1	Sociology, Theory, and Culture	Chapters 1 and 2	August 24	September 2
Module 2	Socialization, Social Interaction, Groups, and Organizations	Chapters 3, 4, and 6	August 24	September 17
Module 3	Deviance, Social Stratification, and Gender Stratification	Chapters 8, 9, and 11	August 24	October 2
Module 4	Race, Ethnicity, Family, and Religion	Chapters 12 and 14	August 24	October 11

Note: The final exam is not comprehensive.

Important Note: Students will be allowed to complete online discussion postings and chapter quizzes AFTER the aforementioned deadlines. HOWEVER, if a student completes work after the due date, five points will automatically be deducted from the student's score. In other words, a student can only receive HALF CREDIT for late work.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

This syllabus is subject to change at any time, for any number of reasons. In the event of a change, an announcement will be made in class. Also, an email will be sent to all students through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Meeting Time: 8-9:15

Phone: 903 782-0721

Email: jrutherford@parisjc.edu

Office Hours: Monday—7–9:30; 10:45-11;11:30-3:30 Tuesday—7-8; 9:30-11:30. 12-3:30
Wednesday—7-9:30;10:45-11;11:30-3:30 Thursday—7—8; 9:30- 11:30. 12-3:30 Friday—7-
11:30

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

Students who successfully complete this course will receive 3 college credits. Students are required to be 'reading complete', with a minimum score of 351 on the TSI exam.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at

<https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Sociology 1301.10LO; Society: The Basics (Sixteenth Edition), will be delivered digitally in your Blackboard Ultra course provided by your instructor.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

After successful completion of SOCI 1301, the student will exhibit an understanding of sociology through the identification of the sociological perspective, including sociological theories. And, students will possess an understanding of the origins of sociology.

By the end of the course, the student will be able to demonstrate familiarity with sociological views on the following social institutions and processes:

- Culture
- Socialization
- Groups and organizations
- Deviance
- Social stratification and its ramifications
- Sex and gender
- Race and ethnicity
- Economics and politics

- Family and religion
- Education and medicine
- Population and Urbanization
- The environment
- Social change

Course Competencies:

- SOCI 1301 will assist students in the development of the following competencies:
- To employ the appropriate methods, technologies, and data that social and behavioral scientists use to investigate the human condition.
- To use and critique alternative explanatory systems or theories.
- To recognize and apply reasonable criteria for the acceptability of historical evidence and social research.
- To identify and understand differences and commonalities within diverse cultures.
- To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
- To examine social institutions and processes across a range of historical periods, social structures, and cultures.

Course Requirements and Evaluation:

SOCI 1301.10LO is a hybrid course. A "hybrid" course means that approximately half of the course will be completed in the classroom and the other half of the course is completed online utilizing the Blackboard Learning Management System (Blackboard). The lecture, midterm exam, final exam and the engagement component of the course will be conducted in the classroom while discussions and reading Quizzes will be administered via Blackboard. NOTE: Students cannot complete this course successfully utilizing only Blackboard (online) nor can a student expect to only attend the lecture component and complete this course successfully. Students must complete both components of a hybrid course to be successful.

Students who successfully complete this course should be able to:

1. Define sociology. Discuss the sociological perspective, as well as what is meant by sociological imagination. Discuss the major theories within the field, and develop a basic understanding of how social research is conducted by sociologists.

2. Define culture and discuss its various components.
3. Discuss the socialization process from infancy to old age.
4. Describe the elements of social structure and interaction.
5. Describe the dynamics and characteristics of social groups.
6. Discuss the impact of formal organizations in society as well as the components of modern day bureaucracy; discuss what is meant by the phrase 'McDonalldization of Society.'
7. Define and discuss deviance, the major theories of deviance, and the relative nature of deviance.
8. Understand stratification, and the similarities and differences among the various strata in this country. In addition, understand how sociologists determine social class ranking.
9. Discuss how race/ethnicity and gender impact the lifechances of the individual in society.
10. Discuss the major theorists within the discipline; discuss sociology's emergence in the socio-historical context.
11. Discuss major trends within the modern family; discuss the sociological functions of the family, as well as conflict and interactionist analyses of the family as an institution.
12. Discuss the various stages of family life.
13. Discuss the impact of class, race, and gender on family life.
14. Discuss the various problems and issues associated with the family.
15. Discuss sexuality from a sociological point of view..
16. Discuss how each of the three theoretical orientations in sociology analyze sex and sexuality.
17. Discuss major demographic trends in the United States and abroad.
18. Discuss the process of urbanization, and its impact on cities, suburbia, and rural areas.
19. Discuss urbanism as a way of life, paying particular attention to the scholarly contributions of Ferdinand Tonnies, Emile Durkheim, George Simmel, and Robert Park.

Coursework Required:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will

contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Grading Policy:

Students' grades will be determined based on the following point scale:

360-400 points—A

320-359 points—B

280-319 points—C

240-279 points—D

Below 240 points—F

Testing Policy:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Exam Schedule:

Midterm Exam (Chapters 1,2, 3, 4, and 6) In class on September 17, 2026

Final Exam (Chapters 8, 9, 11, 12 and 14) In class on October 15, 2026

Calculation of grades: The maximum number of points that a student can earn in this course is 400. Students are required to complete 2 major unit exams worth 100 points each (200 possible). Also, students are required to complete 10 substantive postings for the balance of the semester, worth 10 points each (100 possible). Last, students are required to complete 10 chapter quizzes, worth 10 points each (100 possible). See the scale above for a breakdown of grades.

Expectations for Student Conduct**1. Academic Integrity***Honesty and Fairness:*

- Complete all academic work truthfully and submit only your own work.
- Avoid plagiarism, cheating, fabrication, or any form of academic dishonesty. Academic dishonesty is defined in Policy FLB(LOCAL).

Proper Attribution:

- Credit all courses appropriately in written, visual, or digital work and on all academic assignments.

Responsibility:

- Report any suspected violations of academic integrity to the appropriate authorities.
- Obey all classroom rules and instructions from faculty.
- Respectful behavior.

2. Interpersonal Respect

Respect for Others:

- Treat all peers, faculty, and staff with dignity, courtesy, and respect.
- Avoid any form of harassment, bullying, or discriminatory behavior.

Conflict Resolution:

- Address disagreements constructively.
- Seek mediation from faculty or administration when needed.

3. Personal Responsibility and Accountability

Attendance and Participation:

- Attend classes regularly, arrive on time, and participate actively.

Behavior on Campus:

- Follow all campus policies regarding conduct, facilities use, and participation in campus life.
- Exercise expressive activities in accordance with applicable law and PJC policies.

Accountability:

- Accept responsibility for your personal actions and decisions.
- Be open to feedback and willing to make changes when necessary.

4. Professional Conduct

Appropriate Communication:

- Use respectful and professional language in all forms of communication, including emails, social media, and in-person interactions.

Ethical Use of Technology:

- Use campus technology and online platforms responsibly and in accordance with college policies.

Representation:

- Represent yourself and the college with integrity in all public and professional settings.

5. Community Engagement and Safety

Safe Environment:

- Contribute to a campus atmosphere that is safe, welcoming, and free from any form of violence or intimidation.

Substance Use and Health:

- Abide by campus regulations regarding alcohol, drugs, and other substances.
- Prioritize your physical and mental health and seek help when needed.

Gang-Free Zone

College District property and surrounding areas are designated gang-free zones under Texas law. Certain criminal offenses committed within these areas may result in enhanced penalties.

Reporting Concerns:

- If you witness or experience behavior that undermines the community's values, report it to the appropriate authorities.

6. Compliance with Institutional Policies

Adherence to Rules:

- Follow all institutional policies, including those not explicitly covered in this code (e.g., safety protocols, housing regulations, etc.).

Consequences:

- Understand that violations of this code may lead to disciplinary actions, including reprimand, probation, suspension, or expulsion.

- The College may also impose temporary restrictions or interim suspension when necessary to protect safety or maintain order pending completion of the disciplinary process.

Due Process:

- Expect that reports of misconduct will be reviewed thoroughly, fairly, and confidentially.
- Students will be given notice, an opportunity to respond, and access to the appropriate appeal process.

7. **Commitment to Continuous Improvement**

Self-Development:

- Strive for continuous personal and academic growth.
- Engage in opportunities for leadership, community service, and self-improvement.

Feedback and Participation:

- Participate in evaluations and discussions aimed at enhancing campus policies and the overall student experience.

Conclusion

By adhering to PJC's Code of Conduct, students help maintain a vibrant, respectful, and dynamic learning environment. PJC's collective commitment to these principles ensures that everyone can benefit from a supportive and high-achieving academic community.

For questions or clarification about this Code, contact:

Director of Student Life

 StudentLife@parisjc.edu

 903-782-0433

Attendance

Attendance will be monitored daily, at the beginning of each class session. You CAN NOT expect to do well in this class without attending class, doing the required homework (mostly the reading assignments), and participating in the various assignments.

Important You are required by Texas Law to log on to this course, and complete the syllabus quiz, by the official reporting day (ORD), August 31, or you will be dropped from the course.

Attendance, in this class, will be reported to a college data base, once a week.

The last day for a student to withdraw from a course with a grade of 'W' is October 1.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Online Weekly Schedule

The course is organized into four instructional modules. Each module opens on the date listed below. Chapters, discussions, quizzes, and exams become available when the corresponding module opens. Due dates follow the pacing used in the previous semester and are designed to provide consistent weekly workflow.

Module	Module Title	Chapters	Module Opens	Assignments Due
-----	-----	-----	-----	-----
Module 1	Sociology, Theory, and Culture	Chapters 1 and 2	August 24	September 2
Module 2	Socialization, Social Interaction, Groups, and Organizations	Chapters 3, 4, and 6	August 24	September 17
Module 3	Deviance, Social Stratification, and Gender Stratification	Chapters 8, 9, and 11	August 24	October 2
Module 4	Race, Ethnicity, Family, and Religion	Chapters 12 and 14	August 24	October 11

Note: The final exam is not comprehensive.

Important Note: Students will be allowed to complete online discussion postings and chapter quizzes AFTER the aforementioned deadlines. HOWEVER, if a student completes work after the due date, five points will automatically be deducted from the student's score. In other words, a student can only receive HALF CREDIT for late work.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

This syllabus is subject to change at any time, for any number of reasons. In the event of a change, an announcement will be made in class. Also, an email will be sent to all students through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

**Course RNSG 1226
Professional Nursing Concepts II
Fall 2026**

Instructor: Ashley Moss, MSN, RN
Office: 1038
Phone: 903-782-0746
Email: amoss@parisjc.edu
Office Hours: 8:00 – 5:00

Meeting Location: Rm. 1016
Meeting Days: Thursday
Meeting Times: See Course Calendar

Course Description:

Expanding professional nursing concepts and exemplars within the professional nursing roles. Applying concepts of clinical judgment, ethical-legal, evidence-based practice, patient-centered care, professionalism, safety, and team/collaboration to the exemplars presented in the Health Care Concepts II course. Introduces concepts of leadership and management. Emphasizes role development of the professional nurse. This course lends itself to a concept-based approach.

2 Semester credit hours, 2 Didactic hours

Co-requisites include: RNSG 1324, RNSG 1218, RNSG 2160

Associate's degree and level 2 certificates require TSI Complete in Math, Reading, and Writing to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Required Fall 2026:

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 9781975221133

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 9781975246211

Lippincott CoursePoint+ for Videbeck: Psychiatric-Mental Health Nursing, 10th Edition

Spring 2027:

No additional textbooks required for Spring

Summer 2027:

No additional textbooks required for Summer

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-RN, (9th ed.), Elsevier-Saunders, ISBN: 9780323795307

Curren, A.M., (2020) Dimensional Analysis for Meds, (any edition), Delmar Cengage Learning. ISBN: 9781284248623

Course Goals and Objectives:

- Demonstrate the attributes and roles of the professional nurse. (EPSLO #3,4)
- Apply clinical reasoning processes for the development of clinical judgment. (EPSLO #2)
- Identify the legal-ethical parameters for professional nursing practice as related to selected exemplars. (EPSLO #4)
- Describe professional nursing techniques in providing patient-centered care. (EPSLO #1,3)
- Describe professional collaboration with members of the health care team. (EPLSO #5)
- Discuss roles of leadership/management including principles of delegation. (EPSLO #1,5)

End-of-Program Student Learning Outcomes

1. Provide safe, compassionate, and patient-centered nursing care to individuals, families, and communities across the lifespan, incorporating cultural, developmental, and ethical considerations.
2. Apply clinical judgment and clinical reasoning to assess, plan, implement, and evaluate nursing care that promotes optimal patient outcomes in a variety of healthcare settings.
3. Integrate evidence-based practice, clinical guidelines, and nursing standards into decision-making to deliver high-quality, effective nursing care.

Course Requirements and Evaluation:

Unit 1: Test Taking Strategies

Unit 2: Ethical & Legal

Unit 3: Health Promotion, Wellness, and Disease Prevention

Unit 4: Patient Centered Care

Unit 5: Collaboration & Teamwork

Unit 6: Health Information Technology

Unit 7: Professionalism & Leadership

Evaluation will be based on techniques designed to determine if course objectives are met.

These measures include:

Course Components	Percentage
ATI Modules • Test Taking Skills 10% • Ethical & Legal 10% • Health Promotion, Wellness, and Disease Prevention 10% • Patient Centered Care 10% • Teamwork & Collaboration 10% • Health Information Technology 10% • Professionalism & Leadership 10%	70

Personal Identity Poster Board	10
Personal Service Hours (10%) and Reflection (10%)	20
TOTAL	100

ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE

Grading Scale

A = 89.5-100

B = 80.5-89.49

C = 74.5-80.49

D = 69.5-74.49

F = 69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. After three days, a zero will be placed in the gradebook, but the assignment must still be completed.

For example: If an assignment is due at 0830 Monday morning, at 0831, it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0831 it is now a 20-point deduction.

This course must be taken as a co-requisite to RNSG 1218, RNSG 1324, and RNSG 2160. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. Refer to blackboard assignments for instructions on which format to use.

No extra credit will be offered.

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result are completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the “five-up” rule, allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Course Components:

- **ATI Modules**
Student's will complete the assigned modules in ATI. The student must complete the associated module and pre and post quizzes if available. Students may take the module multiple times, but the first attempt grade will be recorded in the grade book. See Blackboard for a list of ATI Modules, further instructions, and due dates.
- **Personal Identity Poster Board**
Students will create a visual representation that reflects aspects of their personal and professional identity. See Blackboard and the course calendar for due dates and further instructions.
- **Personal Service Hours and Reflection**
In this service-learning experience, you will not only enhance your knowledge and skills but actively use those skills as you serve the community. Each student is expected to complete 4 hours of service learning as a part of the course. A reflection of the experience and connection to the health and wellness of the population served is required. This assignment aims to foster a commitment to the community and a desire to work collectively toward the health and welfare of their local community. See blackboard and the course calendar for due dates and further instructions.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 8, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Official Student Email Policy and Communication Expectations:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Voice and email communication will be acknowledged by assigned faculty within 36 hours during their designated office hours. Students are expected to acknowledge voice and email communication within 36 hours of receipt.

General announcements that apply to the entire class will be uploaded in Blackboard. The same expectation applies to reading Blackboard announcements as applies to reading PJC emails. Paris Junior College Nursing Faculty office hours are on non-clinical days. Appointments are recommended with assigned faculty.

Course specific questions and/or concerns may be directed to the course lead. Utilizing the chain of command, any unresolved issues can be addressed with the Assistant Director of Nursing, then the Director of Nursing.

Additional Course Faculty:

Kelly Merritt, MSN, APRN, FNP-C

Director of Nursing:

Dwana Hollidai, MBA, BSN, BS, RN

Office Phone: 903-782-0758

Office: 1008

Email: dhollidai@parisjc.edu

Assistant Director of Nursing:

Brad Bolton, BSN, RN, EMT-P

Office Phone: 903-782-0754

Office: 1004

Email: bbolton@parisjc.edu

Class Attendance:

Regular attendance is mandatory for success in the Associate Nursing Program. Attendance related definitions:

1. Tardy = Arriving to or leaving class/clinical 30 minutes or less
2. Absence = Arriving or leaving class/clinical 30 minutes or more

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 ADN cohort blackboard page.

Withdrawal from a course:

The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Plagiarism and Academic Dishonesty:

Plagiarism is the act of representing directly or indirectly another person's work as his or her own. It can involve copying someone else's work in a paper without citations; quoting without acknowledging the true source of the quoted material; performing a cut and paste of work from an internet source and submitting with your name on it, submitting a paper purchased or received from another source; along with similar infractions as detailed in the PJC Student Handbook and the PJC Nursing Student Handbook.

In this course, there may be individual assignments and/or group assignments. It is important that your individual assignments be completed with your thoughts alone but supported by authoritative sources through the use of citations and references, following APA style. Failing to use proper citations and references, whether intentional or unintentional, is plagiarism. To do so knowingly is dishonest and not fitting the standards expected of a professional. The faculty reserve the right to select assignments to be scanned by anti-plagiarism software. Students caught submitting plagiarized work will receive a zero for the assignment and further disciplinary action may result. The faculty and administration reserve the right to file a complaint for academic misconduct within the school for plagiarism. For more information, refer to the Nursing Student Handbook.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course # ENGL 1301.90A0
Composition 1
Fall 2026

Instructor: Elizabeth Moss
Office: Room 104
Phone: 903-537-2386
Email: emoss@salttilloisd.net
Office Hours: 9:54-10:41

Meeting Location: Room 104
Meeting Days: M-F
Meeting Times: 7:50-8:37 and 1:00-1:47

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual Bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

Fall Main Term: 9/11/2026

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (Core Curriculum-Level):

Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.

Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.

Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.

Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.

Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.

Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

Demonstrate knowledge of individual and collaborative writing processes.

Develop ideas with appropriate support and attribution.

Write in a style appropriate to audience and purpose.

Read, reflect, and respond critically to a variety of texts.

Use Edited American English in academic essays.

Course Requirements and Evaluation:

*Minimum of 5 full essays, various modes

*Documented essay (using MLA documentation and applying the assessment rubric)—at least 1 of the 5 essays

*Final exam exemptions

- students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam;
- remaining students will write a 5th essay at the time of the final and the grade will replace the lowest essay grade of the first 4 essays;
- the 5th essay grade will also count as the final exam grade;
- averages for exempted students will not include a final exam grade
- the exemption is not mandatory; students may choose to write the 5th essay

LAB (in Blackboard)

- 15% of overall grade
- automatic grading of quizzes and averaging by Bb to create a single LAB grade
- In addition to regular grammar and mechanics work done in the class

ENGL 1301 Labs (Online): Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course. **DUE DATE BEFORE SEPTEMBER 5, 2026**

Course Policies:

Students are expected to complete course work in an honest manner, using their own intellects and resources designated as allowable by the course instructor. All essays must be typed following MLA format (12-point font, Times New Roman), and will not be accepted in any other form. You can reference the Purdue OWL for further assistance in this regard.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty

reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence (AI) Policy: In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

The following link is for the PJC IT Checklist and is encouraged to work through it before the first-class day: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Course Description:

VNSG 1330 (3 Semester credit hours, 2 Didactic, 2 Laboratory)

A study of the biological, psychological, and sociological concepts applicable to basic needs of the family including childbearing and neonatal care. Utilization of the nursing process in the assessment and management of the childbearing family. Topics include physiological changes related to pregnancy, fetal development, and nursing care of the family during labor and delivery and puerperium.

Co-requisites include: VNSG 1509 & 1460.

If Applicable: TSI Requirement: Math, reading, and writing

Note: VNSG courses typically require TSI compliance or waiver.

TSI math, reading, and writing must be fulfilled before certificate conferral.

Required Textbook(s) and Materials:Required Summer 2026:

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 978-1-9752-7442-9

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 978-1-9752-4611-2

Lippincott CoursePoint+ Enhanced for Videbeck's Psychiatric-Mental Health Nursing, 10th ed. ISBN: 978-1-9752-7477-1

The above required books can only be purchased from the PJC bookstore or directly from the publisher through the provided link.

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-PN, (9th ed.), Elsevier-Saunders, ISBN: 978-0443112874

Curren, A.M., (2020) Dimensional Analysis for Meds, (any edition), Delmar Cengage Learning. ISBN: 9781284248623

Course Goals and Objectives:

1. Discuss human reproduction and fetal development as related to the normal aspects of childbearing. (EPSLO #1, 2)
2. Identify common complications of the mother and newborn during prenatal, antenatal, and postnatal periods. (EPSLO #1, 2)
3. Relate characteristics of the normal newborn and associated nursing interventions to meet identified health care needs utilizing the nursing process and clinical judgement model. (EPSLO #2, 3)

Course Requirements and Evaluation:

Required Activity: All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:30 p.m. September 8th, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Evaluation will be based on techniques designed to determine if course objectives are met. These measures include:

Course Components	Percentage
Four (4)-unit exams • Unit I = 17.5% • Unit 2 = 17.5% • Unit 3 = 17.5 % • Unit 4 = 17.5%	70%
Four (4) PrepUs • Ch. 3 = 5% • Ch. 12 = 5% • Ch. 14 = 5% • Ch. 18 = 5%	20%
ATI – Maternal Newborn Practice & Proctored Exams	10%
TOTAL	100%

***ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE**

Grading Scale

A =	89.5-100
B =	80.5-89.49
C =	74.5-80.49
D =	69.5-74.49
F =	69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in Blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. No assignment will be accepted after three days, and a zero will be placed into the gradebook. After three days, a zero will be placed in the gradebook, but the assignment must still be completed.

For example: If an assignment is due at 0830 Monday morning, at 0831, it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0831, it is now a 20-point deduction.

This course must be taken as a co-requisite to VNSG 1509 and VNSG 1460. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. Refer to blackboard assignments for instructions on which format to use.

No extra credit will be offered

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result are completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the "five-up" rule, allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Remediation/Success Program

Students who cannot satisfactorily meet course requirements, course standards, objectives, or score less than 75 on any component of the course may be referred to remediation. Students can self-refer or be referred by faculty for reasons other than scores below 75 to enhance student success in the program.

Unit Exams

Four (4) Unit exams will consist of questions divided among the lecture content as determined by the faculty. Each question is allotted for 1.5 minutes of test time. Refer to the course calendar for dates and times.

Items for Exam Days: Recommend laptop, Pen/Pencil.

Missed Exams

Makeup Exams: If a student is unable to take an exam on the scheduled date, a makeup exam may be offered at the faculty's discretion and must be taken within the week upon their return to class. However, please note that up to 25% of the test items may be changed to alternate format items, which may include fill-in-the-blank, NextGen case studies, and essay questions. The faculty will determine the date, time, place, and type of make-up exam.

Exam Review

Test reviews will be conducted after all students have completed the exam and item analysis has been completed. Students may request a one-on-one with instructors to review exams.

Prep-U's

Four (4) Prep-U mastery level quizzes have been assigned. All quizzes have been set to a mastery level of 8. You must reach the mastery level of 8 by the due date to receive credit. Assignments with a mastery level of 8 may be submitted up to three days late with a ten-point deduction per day. No assignment will be accepted after the three days, and a zero will be placed into the gradebook

Students will need to join the course in "the Point" found under *Ricci, Kyle, & Carman: Maternity and Pediatric Nursing*. Enter class code 248CG9K3YDV3

ATI Maternal Newborn Practice & Proctored Exams

PN Maternal Newborn Practice Assessment	
5 points	
Complete Practice Assessment A	Complete Practice Assessment B
All above components must be completed by the due date to receive a total of 5 points. No partial credit will be awarded and no late work will be accepted. One point per day will be deducted up to three days. After three days no points will be awarded.	

**Maternal Newborn Proctored Assessment			
Level 3 = 5 points	Level 2 = 4 points	Level 1 = 3 points	Below Level 1 = 2 points
**Maternal Newborn Proctored Assessment may be retaken with the higher of the two levels achieved factoring into the points.			
10/10 points = 100	9/10 points = 90	8/10 points = 80	7/10 points = 70

It is highly recommended to complete the *focused review* and *post study quiz* for practice A, practice B and the proctored assessments. Depending on your score, you may not be assigned a *post study quiz*.

Course Policies

Detailed Description of Standards:

Students are evaluated for adherence to the Detailed Standards for each clinical and classroom/lab

day. Points are deducted for failure to adhere to standards. The points deducted are cumulative and will be deducted from the overall VNSG 1330 course grade. Detailed Description of Standards can be located on Blackboard in the Nursing Handbook.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12th, 2026.

Attendance related definitions:

1. Tardy= Arriving to or leaving class/clinical 30 minutes or less
2. Absence= Arriving or leaving class/clinical 30 minutes or more

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 VN cohort blackboard page.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.**

Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal to an academic dishonesty of determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

VNSG 1460 (4 Semester credit hours, 0 Didactic, 12 Laboratory/Clinical)

A health-related work-based learning experience enabling the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional and will guide the vocational student into their independent practice under the direct supervision of an RN or other licensed health-care professional.

Co-requisites include: VNSG: 1330 & 1509

If Applicable: TSI Requirement: Math, reading, and writing

Note: VNSG courses typically require TSI compliance or waiver.

TSI math, reading, and writing must be fulfilled before certificate conferral.

Required Textbook(s) and Materials:Required Summer 2026:

Lippincott CoursePoint+ Enhanced for Brunner & Suddarth's Textbook of Medical-Surgical Nursing 16th ed. ISBN: 978-1-9752-7442-9

Lippincott CoursePoint+ Enhanced for Ricci, Kyle & Carman's Maternity and Pediatric Nursing 5th ed. ISBN: 978-1-9752-4611-2

Lippincott CoursePoint+ Enhanced for Videbeck's Psychiatric-Mental Health Nursing, 10th ed. ISBN: 978-1-9752-7477-1

The above required books can only be purchased from the PJC bookstore or directly from the publisher through the provided link.

Recommended:

Silvestri, Linda (2022) Saunders Comprehensive Review for NCLEX-PN, (9th ed.), Elsevier-Saunders, ISBN: 978-0443112874

Curren, A.M., (2020) Dimensional Analysis for Meds, (any edition), Delmar Cengage Learning. ISBN: 9781284248623

Course Goals and Objectives:

1. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry. EPSLO #1, 7

2. Will demonstrate legal and ethical behavior, safety practices, interpersonal and verbal communication skills using the terminology of the occupation and business/industry.
EPSLO #4, 5, 6

Course Requirements and Evaluation:

Evaluation will be based on techniques designed to determine if course objectives are met. These measures include:

Course Components	Percentage
Six Total Patient Care Reflections (15% each)	90
Three Skills Check Offs (1% each)	3
Seven Skills Modules (1% each)	7
Six Specialty Area Clinical Reflections	Complete/Incomplete
Skills and Clinical Objectives	Complete/Incomplete

***ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE**

Grading Scale

- A = 89.5-100
B = 80.5-89.49
C = 74.5-80.49
D = 69.5-74.49
F = 69.49 or below

All course components must be completed to receive full credit for the course. If any components are omitted or not completed, the student's grade may result in an incomplete or a failure.

Course components will be considered late if submitted after the deadline identified in the course content found in blackboard. Assignments may be submitted up to three days late with a ten-point deduction per day. Late assignments must still be completed, but after the three days, a zero will be placed into the gradebook.

For example: If an assignment is due at 0830 Monday morning, at 0831 it is a 10-point deduction. If this same assignment were to be submitted on Tuesday at 0900 it is now a 20-point deduction

This course must be taken as a co-requisite to VNSG 1222, VNSG 1423, and VNSG 1500. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester.

All submitted assignments, documents, and/or other material must be submitted in a MS word document or PDF format. If the student is absent a day an assignment is due,

it must be submitted in blackboard to receive full points. Refer to blackboard assignments for instructions on which format to use.

No extra credit will be offered.

Rounding of Final Grade:

Rounding of grades will only occur after all calculations leading to the final result are completed. Therefore, rounding grades for individual assignments is not an accepted practice. Rounding will be calculated using the “five-up” rule, allowing for decimal numbers that meet or exceed the halfway point between two values to be rounded up to the larger value. For example, a grade of 89.5 equals an A, whereas a grade of 89.49 equals a B. Therefore, faculty, prior to the awarding of final course grades, shall ensure gradebook software in a course is in alignment with this policy.

Remediation/Success Program

Students who cannot satisfactorily meet course requirements, course standards, or objectives such as failure of a skill check-off, may be referred for remediation. Students can self-refer or be referred by faculty for reasons other than unsatisfactory scores to enhance student success in the program.

Course Components

- **Specialty Area Clinical Reflections:**

Students will complete a Specialty Area Reflection for each clinical day spent in a specialty area. An example of this may be a clinical day spent in the ER or ICU. Specialty Area Reflections will be due the Monday following the student's clinical day. Since these assignments are for completion rather than a numerical grade, late assignments will be subject to Detailed Standards point deductions. All clinical reflection templates can be found in the Clinical Instructions/Paperwork tab in Blackboard. Detailed Standards point deductions may also be used for the point deductions in situations where students do not meet the Detailed Standards on their Specialty Area clinical day: for example, the student is late for the specialty area clinical day or behaves unprofessionally.

- **Total Patient Care (TPC) Clinical Reflections:**

Students must complete all required documentation for each TPC clinical day and reflect on six TPC clinical days on the required TPC Clinical Day Evaluation Tool. The grading criteria for each TPC day can be found on the tool. Assignment instructions can be found on Blackboard under the Clinical Instructions/Paperwork tab. TPC Clinical Documentation and Reflections are due the following Monday morning at 0830. Templates for required clinical paperwork and reflections can be found on Blackboard under Clinical Instructions/Paperwork tab. Students who are

absent from clinical are required to makeup missed clinical hours.

- **Skills and Clinical Objectives:**

Skills objectives are tasks that students are required to perform during clinical in order to gain experience that will further their nursing practice. Skills objectives are to be completed throughout the entire year, however, they are turned in at the end of each semester. In contrast, clinical objectives are to be completed entirely in one semester. See Blackboard for further instructions and due dates.

- **ATI Skills Modules:**

Students will complete seven assigned modules in ATI Skills Modules 3.0 and complete the associated pre and posttests for those modules. Students may attempt tests multiple times, but the first attempt grade will be recorded in the grade book. See Blackboard for further instructions and due dates.

- **Scenario Day Reflections:**

Students will complete reflection and debrief questions after each scenario day. At completion, these reflections will be loaded into blackboard as a pdf or word document. Each reflection is a complete/incomplete assignment and therefore subject to standard deduction points.

- **Skills Checkoffs:**

Students will complete three skills checkoffs to show competency on IV piggyback medication as well as Foley and NG insertion. These skills check-offs will be done in the Simulation Center (lab) and skills will be performed using a lab mannequin. Each checkoff will be timed. Students may use up to five additional minutes beyond the allotted time; however, point deductions will apply. If the student exceeds the extended time limit, the check-off will be considered a failure. Students will have three attempts to demonstrate competency on each of these skills and will participate in remediation between attempts. A third attempt at skills will be evaluated by two instructors and will be video recorded. Any student who is not successful on the third attempt will result in failure of the course. Grading criteria, skills checklists, and preparation packets will be found in the Blackboard Course under Skills Check-offs.

Medication Errors:

A medication error has been made when the student has performed their final check and presented the medications for administration to the instructor and the instructor has determined that one or more of the Five Rights have been violated (regardless of whether the medication was actually given to the patient). Upon the first medication error, the student will have an automatic failure for the clinical day and will receive remediation. The second medication error, the student will have another failure for the clinical day, be

placed on probation, and attend a root/cause/analysis meeting with faculty. A third medication error will result in failure from the nursing program. Medication errors are cumulative throughout the year. **Probation may supersede the three medication errors depending on the gravity of the medication error.*

Detailed Description of Standards:

Students are evaluated for adherence to the Detailed Standards each specialty clinical and classroom/lab day. Points are deducted for failure to adhere to Clinical Standards. Points deducted are cumulative and will be deducted from the overall VNSG 1460 course grade. Detailed Description of Standards can be located in Blackboard under Detailed Standards and the Nursing Handbook.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on 9/8/2026 to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Probation & Dismissal:

Students with poor or unsafe clinical performance will meet with the nursing faculty and be placed on a Performance Improvement Plan and/or probation. Any student may be dismissed from the program at any time if the student shows gross negligence, unsafe nursing care, lack of personal or professional integrity, breach of client confidentiality, or commits a criminal act. "Unsafe nursing" is defined as any act of omission or commission which places the client(s) in jeopardy of adverse changes in health status. Personal integrity and concern for clients' welfare are personal attributes essential for those entering the nursing profession.

Grounds for Immediate Dismissal include but are not limited to:

- Failure to maintain patient safety resulting in injury to the patient.
- A medication error which results in injury to the patient.
- The practice of academic dishonesty such as cheating on preparation for clinical, written assignments, and/or exams. Additionally, false entries into a patient's record or signing skills/objectives that have not been performed.
- The use of alcohol, illegal drugs, or misuse of prescription medications during school activities and/or reporting to class/clinical under the influence of drugs or alcohol.
- Appropriating medication, supplies, equipment, or personal items of the patient, employer, or any other person.

Dress Code:

Students are expected to adhere to the dress code as posted in the Nursing Student Handbook at all times. In addition, students are expected to adhere to the dress code established by their assigned clinical setting. Students may be sent home for not maintaining dress code and equipment requirements. This can directly affect the student's grade and may result in the student not passing the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12th, 2026.

Attendance related definitions:

1. Tardy= Arriving to or leaving class/clinical 30 minutes or less
2. Absence= Arriving or leaving class/clinical 30 minutes or more

Students arriving more than 30 minutes late will not be allowed to attend the clinical day and will be required to make up clinical hours.

Refer to the *PJC Nursing Student Handbook* for the attendance policy, found in the 2026-2027 VN cohort blackboard page.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
12 days of 12-hour clinicals. Please see Fall 2026 calendar in Blackboard for additional details.		

ENGL2322 781
British Literature
(Fall 2026)

Instructor: Dr. Linda Winfrey
Office: NLHS 109
Phone: 903 737-2011
Email: lwinfrey@northlamar.net
Office Hours: M-F 755-8:40

Meeting Location: NLHS 109
Meeting Days: M-F
Meeting Times: 1st, 2nd, and 5th periods

COURSE DESCRIPTION: A study of the masterworks of the literature of England from the Anglo-Saxon period beginning with the epic tradition as illustrated by Beowulf, to the decline of Neo-Classicism. Emphasis on the masterworks of principal authors. The goal of English 2322 is to present to the student a chronological study of the major trends, influences, and genres in English literature, thus acquainting the student with a body of literature and ideas that are culturally significant because of the common language.

REQUIRED TEXTBOOKS AND MATERIALS: Greenblatt, Stephen, General Editor. The Norton Anthology of English Literature: Shorter 11th edition. Volume 1. New York: Norton, 2024. ISBN: 9781324062929.

Associate of Arts (AA)—Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. **Communication and Expression**—Demonstrate effective written and oral communication skills by articulating ideas clearly, purposely, and with awareness of audience across a variety of contexts.
2. **Critical and Creative Thinking**—Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities and Cultural Literacy**—Examine human experience through the lens of history, literature, and the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy**—Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal and Civic Responsibility**—Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

COURSE GOALS AND OBJECTIVES: Designed to prepare students with skills for lifelong learning-

1. To participate effectively in groups with emphasis on listening, critical and reflective thinking, and responding;
2. To understand and apply basic principles of critical thinking;
3. To develop the ability to give an oral presentation.
4. To demonstrate awareness of the scope and variety of works in the humanities
5. To understand those works as expressions of individual and human values within an historical and social context;
6. To respond critically to works in the humanities;
7. To articulate an informed personal reaction to works in the humanities;
8. To demonstrate knowledge of the influence of literature on intercultural experiences

PREREQUISITE: Successful completion of English 1301 and English 1302 or approved equivalents.

Any MLA style book or online source, like Purdue Owl MLA

site: https://owl.purdue.edu/owl/research_and_citation/mla_style/mla_formatting_and_style_guide/mla_formatting_and_style_guide.html

Required Assignment:

Research paper, utilizing MLA documentation and applying the assessment rubric

Course Goals and Objectives (MUST be listed in course syllabus):

Foundational Component Area: Language, Philosophy, and Culture

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Social Responsibility—to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 2322 Course-Level):

This course is designed to prepare students with skills for lifelong learning—

1. Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.
2. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
3. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
4. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
5. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

COURSE REQUIREMENTS: The student will be required to complete reading assignments, participate in class and group discussions, write an essay on an assigned topic, present an oral research project, and perform satisfactorily on examinations and quizzes. He/She will take four unit exams concerned with ideas presented in the literature, techniques discovered in the literature, biographical information on authors, and historical perspective. The student may also be given announced/unannounced reading quizzes.

GRADING: The three exams, one essay, and oral project will count equally. The final exam (exam three) and the oral project are required; failure to complete these will result in a failing grade for the course.

COURSE POLICIES:

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Required AI Statement for ALL ENGL Courses:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment in this course will be subject to AI detection tools to validate student authorship.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Syllabus, Campus-Wide Access Program

Dragon Now Course Material Information

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase. For this course, we will use a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt out of this program, please follow the steps below:

- **Fall**

MainTerm:

9/10/2026

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

COURSE SCHEDULE:

August 6&7-Begin Anglo-Saxon Age-historical introduction, notes on literary terms. Begin *Beowulf*.

8&9 Complete *Beowulf*—discussion and quiz.

13&14-Elegiac poetry—"The Seafarer."

15&16-Anglo-Saxon riddles—present original riddles.

20&21-Vocabulary test. Review for major test.

22&23-Major Test-Anglo-Saxon Age.

27&28-Begin Middle Ages-historical introduction and notes on literary terms.

29&30-Discussion and quiz.

September 3&4-Scottish ballads. Introduce Chaucer and *The Canterbury Tales*.

5&6-Group work-*Prologue to Canterbury Tales*.

7&8-"Pardoner's Tale" "Wife of Bath's Tale."

12&13Selections from "Sir Gawain and the Green Knight" and Malory's *Morte D'Arthur*.

14&15-Discussion and quiz.

19&20-Major Test-The Middle Ages.

21&22-Vocabulary test. Begin Renaissance. Historical introduction and notes on literary terms.

26&27-Discussion and essay test 1984.

28&29-Shakespearean sonnets.

October 3&4-Selections from Marlowe, Raleigh, Jonson, & Donne—Cavalier poets.

5&6-Vocabulary test. Introduce *Macbeth*-Begin Act I.

10&11-Complete Acts I & II-quiz.

12&13-Act III of *Macbeth*-quiz.

17&18-*Macbeth*-Act IV.

19&20-Finish *Macbeth*-quiz.

24&25-Discussion and essay test-*The Book Thief*

26&27-Major Test-Renaissance.

. 31&1-Begin the Restoration and the Eighteenth Century—historical introduction and notes on literary terms.

November 2&3-Selections from Swift-*Gulliver's Travels* and "A Modest Proposal."

7&8-Selections from Pope-*Rape of the Lock*, *Essay on Man*, heroic couplets.

9&10-Discussion and quiz.

14&15-Vocabulary test. Selections from Pepy's *Diary*.

16&17-Selections from Defoe's *Journal of the Plague Year*.

21&22-Selections from Johnson's *Dictionary* and Letter to Lord
Chesterfield

23&24-Discussion and essay test-*Frankenstein*.

2829-Vocabulary test. Selections from Goethe's *Faust* and Gray's
"Elegy in a Country Churchyard."

December 30&1-Discussion and quiz.

5&6-Major Test-Restoration and the Eighteenth Century.

7&8-Vocabulary test. Begin *The Importance of Being Ernest*.

12&13-Continue reading.

14&15- Comparison and Contrast essays due. Continue play.

19&20- Complete *Importance*. Review for Exams

21&22-Final Exam

*Course WLDG 1317
Introduction to Layout and Fabrication
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

A fundamental course in layout and fabrication related to the welding industry. Major emphasis on structural shapes and use in construction.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Measuring Tape, Square & Aggregate Dimensions; Discuss Weld Designs, Loads, & Bracing Methods; Describe Structural Shapes, Reference Lines, Blueprint Symbols; Define Preheating & Heat Input; Discuss Estimating Welding Costs. Upon completion of this course the student should be able to demonstrate proficiency in the following: GMAW/OFC/PAC and defined Lab project.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or ear bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Nov. 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others

will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

12-7-26	Certification	

Course WLDG 1307
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	
8-31-26	Welding Safety	All sections in Module 29101
9-7-26	OxyFuel Cutting	All sections in Module 29102
9-14-26	Plasma Arc Cutting	All sections in Module 29103
9-21-26	GMAW-FCAW Equipment	All sections in Module 29205
9-28-26	GMAW-FCAW Equipment	All sections in Module 29205

*Course WLDG 1313
Introduction to Blueprint Reading
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

A study of industrial blueprints. Emphasis is placed on terminology, symbols, graphics descriptions, and welding processes, including systems of measurement and industry standards, interpretations of plans and drawings used by industry.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Demonstrate oxy-fuel welding and cutting safety procedures; classify fuels and filler metals; perform entry-level oxy-fuel welding and cutting operations and select proper equipment and materials.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10-19-26	Basic Safety	All sections in Module Coe 101

Course WLDG 1313
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. 12/7	Open Root Groove welds	Module 29112

*Course WLDG 1313
Introduction to Blueprint Reading
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

A study of industrial blueprints. Emphasis is placed on terminology, symbols, graphics descriptions, and welding processes, including systems of measurement and industry standards, interpretations of plans and drawings used by industry.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course, the student should be able to demonstrate proficiency in the following: define terms and abbreviations; and identify and explain object views, lines, and dimensions. The student will identify, explain, and interpret weld symbols; demonstrate the proper use of measuring devices; read and interpret blueprints.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Welding Department Rules and Dress Code:**

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

I will make an announcement in class and write it on whiteboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan: Week of: (Date)

Course WLDG 1317
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

*Course WLDG 1317
Introduction to Layout and Fabrication
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

A fundamental course in layout and fabrication related to the welding industry. Major emphasis on structural shapes and use in construction.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Measuring Tape, Square & Aggregate Dimensions; Discuss Weld Designs, Loads, & Bracing Methods; Describe Structural Shapes, Reference Lines, Blueprint Symbols; Define Preheating & Heat Input; Discuss Estimating Welding Costs. Upon completion of this course the student should be able to demonstrate proficiency in the following: GMAW/OFC/PAC and defined Lab project.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Welding Department Rules and Dress Code:**

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	

Course WLDG 1323
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

*Course WLDG 1323
Welding Safety, Tools, and Equipment
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:00-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

An introduction to welding equipment and safety practices, including OSHA standards for industry.

Credits: SCH = 3 lecture and 0 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Apply welding safety practices, OSHA and the Hazardous Communications Act, and DS; list hazards associated with welding equipment and processes; identify how to use and maintain tools and equipment; identify hazards associated with gases, fluxes, electrodes and equipment; and explain different welding processes and their operation.

1. Discuss different types of welding environments
2. Explain welding safety practices, involving Material Safety Data Sheets, the Hazardous Communications Act, and OSHA. List hazards associated with welding equipment and processes. Identify hazards associated with gasses, fluxes, electrodes, equipment and interpret an MSDS.
3. Use and maintain tools and equipment while practicing welding shop safety. Name the different welding tools and explain how they are safely used.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026.**

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	

*Course WLDG 1425 17AO
Introduction to Oxy-Fuel Welding and Cutting
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

An introduction to oxy-fuel welding and cutting, safety, setup and maintenance of oxy-fuel welding, and cutting equipment and supplies.

Credits: SCH = 3 lecture and 2 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Demonstrate oxy-fuel welding and cutting safety procedures; classify fuels and filler metals; perform entry-level oxy-fuel welding and cutting operations and select proper equipment and materials.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Oct. 1,,2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course WLDG 1425
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

I will make an announcement in class and write it on whiteboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	
8-31-26	Weld Safety	All sections in Module 29101
9-8-26	Oxy – Fuel Cutting	All sections in Module 29102
9-14-26	SMAW Set-Up	All sections in Module 29107
9-21-26	SMAW Electrodes	All sections in Module 29108
9-28-26	SMAW Electrodes	All sections in Module 29108
10-5-26	Plasma	All sections in Module 29103
10-12-26	1 st 8wk Finals	

*Course WLDG 1427
Welding Codes and Standards
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

An in-depth study of welding codes and their development in accordance with structural standards, welding processes, destructive and nondestructive test methods.

Credits: SCH = 4 lecture and 0 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Identify the major welding codes; identify welding procedures; Identify NDT test methods and welding discontinuities; Define Preheating & Heat Input. Upon completion of this course the student should be able to demonstrate proficiency in the following: Lab project

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Oct. 1,,2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division

Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	

Course WLDG 1427
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

I will make an announcement in class and write it on whiteboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	
8-31-26	Weld Safety	All sections in Module 29101
9-8-26	Oxy – Fuel Cutting	All sections in Module 29102
9-14-26	SMAW Set-Up	All sections in Module 29107
9-21-26	SMAW Electrodes	All sections in Module 29108
9-28-26	SMAW Electrodes	All sections in Module 29108
10-5-26	Plasma	All sections in Module 29103
10-12-26	1 st 8wk Finals	

*Course WLDG 1430
Introduction to Gas Metal Arc Welding
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

Principles of gas metal arc welding, setup and use of Gas Metal Arc Welding (GMAW) equipment, and safe use of tools/equipment. Instruction in various joint designs.

Credits: SCH = 3 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Describe welding positions with various joint designs; describe the effects of welding parameters in GMAW; apply safety rules; troubleshoot equipment used; perform visual inspection; weld various types of structural material; and diagnose welding problems

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Oct. 1,,2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

*Course WLDG 1434
Introduction to Gas Tungsten Arc Welding
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

*Course WLDG 1427
Welding Codes and Standards
FALL 2026*

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Discuss Gas Tungsten Arc Welding (GTAW) Process; Describe Welding Currents for Gas Tungsten Arc Welding (GTAW); Define GTAW Electrodes; Describe Power Sources for GTAW; Discuss Shielding Gases for GTAW; Discuss Welding Stainless Steel with the GTAW Process; Discuss Weldability of Stainless Steels. Upon completion of this course the student should be able to demonstrate proficiency in the following: BOP on carbon steel various positions; 2F Fillet weld on Carbon steel; 3G Groove weld on Carbon steel; 3" GTAW Pipe

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	

Course WLDG 1434
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F & 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

[illegible]

Course WLDG 1434
Introduction to Welding Using Multiple Processes
Fall 2026

Instructor: John Plemons

Office: SSC 103

Phone: 903-782-0385

Email: jplemons@parisjc.edu

Office Hours: 7AM – 8AM 2PM – 3:30PM

Meeting Location: 103

Meeting Days: M,T,W,R

Meeting Times: 7:30AM - 3:30PM

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. *Course WLDG 1434
Introduction to Gas Tungsten Arc Welding
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

Principles of gas tungsten arc welding (GTAW), including setup, GTAW equipment. Instruction in various positions and joint designs.

Credits: SCH = 2 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

6th edition NCCER Welding Level 3, 2nd semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Discuss Gas Tungsten Arc Welding (GTAW) Process; Describe Welding Currents for Gas Tungsten Arc Welding (GTAW); Define GTAW Electrodes; Describe Power Sources for GTAW; Discuss Shielding Gases for GTAW; Discuss Welding Stainless Steel with the GTAW Process; Discuss Weldability of Stainless Steels. Upon completion of this course the student should be able to demonstrate proficiency in the following: BOP on carbon steel various positions; 2F Fillet weld on Carbon steel; 3G Groove weld on Carbon steel; 3" GTAW Pipe

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	
8-31-26	Weld Safety	All sections in Module 29101
9-8-26	Oxy – Fuel Cutting	All sections in Module 29102
9-14-26	SMAW Set-Up	All sections in Module 29107
9-21-26	SMAW Electrodes	All sections in Module 29108
9-28-26	SMAW Electrodes	All sections in Module 29108
10-5-26	Plasma	All sections in Module 29103
10-12-26	1 st 8wk Finals	

*Course WLDG 1435
Introduction to Pipe Welding
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

An introduction to welding of pipe using the shielded metal arc welding process (SMAW), including electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 1G and 2G using various electrodes.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Define Pipe, Industrial Use of Pipe, Advantages of Welding vs Threaded Pipe; Discuss Pipe Description and Sizing; Discuss Backing Rings; Discuss uses of Consumable Insert; Describe ASME Code for Pressure Piping, B31.1 Power Piping; Define & Discuss Heat Input, Thermocouples & Pyrometers; Discuss types of corrosion. Upon completion of this course the student should be able to demonstrate proficiency in the following: Perform 1G with SMAW (E6010 & E7018) – stringer beads; perform 2G with SMAW (E6010 & E7018) – stringer beads.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Nov.24,,2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10/19	Introduction Construction Drawings	Module 00105
10/26	Welding Symbols	Module 29201
11/2	Reading Welding Detail Drawings	Module 29202
11/9	Introduction to Construction Math	Module 00102
11/16	Base Metal Preparation	Module 29105
11/23	SMAW - Equipment and Setup	Module 29107
11/30	SMAW – Beads, Fillet and Groove welds	Module 29109
12/7	Open Root Groove welds	Module 29112

Course WLDG 1435
Introduction to Welding Using Multiple Processes
Fall 2026

Instructor: John Plemons

Office: SSC 103

Phone: 903-782-0385

Email: jplemons@parisjc.edu

Office Hours: 7AM – 8AM 2PM – 3:30PM

Meeting Location: 103

Meeting Days: M,T,W,R

Meeting Times: 7:30AM - 3:30PM

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

*Course WLDG 1435
Introduction to Pipe Welding
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

An introduction to welding of pipe using the shielded metal arc welding process (SMAW), including electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 1G and 2G using various electrodes.

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

6th edition NCCER Welding Level 3, 2nd semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Define Pipe, Industrial Use of Pipe, Advantages of Welding vs Threaded Pipe; Discuss Pipe Description and Sizing; Discuss Backing Rings; Discuss uses of Consumable Insert; Describe ASME Code for Pressure Piping, B31.1 Power Piping; Define & Discuss Heat Input, Thermocouples & Pyrometers; Discuss types of corrosion. Upon completion of this course the student should be able to demonstrate proficiency in the following: Perform 1G with SMAW (E6010 & E7018) – stringer beads; perform 2G with SMAW (E6010 & E7018) – stringer beads.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of

this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course WLDG 1457
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

12/7	Open Root Groove welds	Module 29112

Course WLDG 1457
Introduction to Welding Using Multiple Processes
Fall 2026

Instructor: John Plemons

Office: SSC 103

Phone: 903-782-0385

Email: jplemons@parisjc.edu

Office Hours: 7AM – 8AM 2PM – 3:30PM

Meeting Location: 103

Meeting Days: M,T,W,R

Meeting Times: 7:30AM - 3:30PM

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10/19	Introduction Construction Drawings	Module 00105
10/26	Welding Symbols	Module 29201
11/2	Reading Welding Detail Drawings	Module 29202
11/9	Introduction to Construction Math	Module 00102
11/16	Base Metal Preparation	Module 29105
11/23	SMAW - Equipment and Setup	Module 29107
11/30	SMAW – Beads, Fillet and Groove welds	Module 29109
12/7	Open Root Groove welds	Module 29112

*Course WLDG 1457
Intermediate Shielded Metal Arc Welding
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

A study of the production of various fillets and groove welds. Preparation of specimens for testing in various positions.

Credits: SCH = 2 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Principles of Operation for Shielded Metal Arc Welding; Discuss Welding Techniques Used for 2G, 3F, 3G, and 4F Positions; Discuss Air Carbon Arc Cutting and Gouging; Describe Structural Welding Code (AWS D1.1); Identify Visual Acceptance Criteria of the AWS Structural Welding Code; Discuss AWS A5.5 Specification for Low-Alloy Steel Electrodes for SMAW; Discuss Prequalified Welding Procedure Requirements for SMAW within AWS D1.1; Identify Procedure Qualification Requirements within AWS D1.1, Identify Welding Personnel Qualification Requirements within AWS D1.1. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using E7018, Vertical & Overhead positions (3F & 4F); Groove welds using E7018, Vertical and Overhead positions (3G & 4G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be

initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course WLDG 2413
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10/19	Introduction Construction Drawings	Module 00105
10/26	Welding Symbols	Module 29201
11/2	Reading Welding Detail Drawings	Module 29202
11/9	Introduction to Construction Math	Module 00102
11/16	Base Metal Preparation	Module 29105
11/23	SMAW - Equipment and Setup	Module 29107
11/30	SMAW – Beads, Fillet and Groove welds	Module 29109
12/7	Open Root Groove welds	Module 29112

Course WLDG 2413
Introduction to Welding Using Multiple Processes
Fall 2026

Instructor: John Plemons

Office: SSC 103

Phone: 903-782-0385

Email: jplemons@parisjc.edu

Office Hours: 7AM – 8AM 2PM – 3:30PM

Meeting Location: 103

Meeting Days: M,T,W,R

Meeting Times: 7:30AM - 3:30PM

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

*Course WLDG 2413
Intermediate Welding Using Multiple Processes
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

Instruction using layout tools and blueprint reading with demonstration and guided practices with some of the following welding processes: oxy-fuel gas cutting and welding, shield metal arc welding (SMAW), gas metal arc welding (GMAW), flux-cored arc welding (FCAW), gas tungsten arc welding (GTAW), or any other approved welding process.

Credits: SCH = 2 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

6th edition NCCER Welding Level 3, 2nd semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Demonstrate skills training using more than one approved welding process; Apply knowledge on use of Welding Procedures; Develop welding procedures according to customer specification; Testing Welding Procedures to applicable codes or standards. Upon completion of this course the student should be able to demonstrate proficiency in the following: Perform 6G pipe welds using GTAW/SMAW Processes; Perform 6G pipe welds using GMAW/FCAW Processes

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete

the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic

dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

I will make an announcement in class and write it on whiteboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan: Week of: (Date)

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10-19-26	CAC-G	All sections in Module 29104
10-26-26	Intro to Construction	All sections in Module C00100
11-2-26	Safety	All sections in Module C00101
11-9-26	Safety	All sections in Module C00101
11-16-26	Hand Tools	All sections in Module C00103
11-23-26	Holiday	
11-30-26	Power Tools	All sections in Module C00104
12-8-26	2n 8wk Finals	Certification Dec. 9 th – Graduation Dec. 11th

*Course WLDG 2447
Advanced Gas Metal Arc Welding
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

Advanced topics in Gas Metal Arc Welding (GMAW). Includes welding in various positions.

Credits: SCH = 2 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Demonstrate GMAW in various positions; describe safety practices and equipment use; describe the effects of welding parameters in GMAW; and weld various joint designs and perform inspections.

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Welding Department Rules and Dress Code:

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	

Course WLDG 2451
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0518
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 10/1/26

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

[illegible]

*Course WLDG 2451
Advanced Gas Tungsten Arc Welding
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

Advanced topics in GTAW welding, including welding in various positions and directions.

Credits: SCH = 2 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

6th edition NCCER Welding Level 3, 2nd semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Demonstrate proficiency in various welding positions; Describe the effects of welding parameters in GTAW; Diagnose welding problems; Perform visual inspection. Upon completion of this course the student should be able to demonstrate proficiency in the following: GTAW welding on small diameter pipe; Aluminum BOP (Bead on Plate)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Welding Department Rules and Dress Code:**

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8-24-26	Orientation	
8-31-26	Weld Safety	All sections in Module 29101
9-8-26	Oxy – Fuel Cutting	All sections in Module 29102
9-14-26	SMAW Set-Up	All sections in Module 29107
9-21-26	SMAW Electrodes	All sections in Module 29108
9-28-26	SMAW Electrodes	All sections in Module 29108
10-5-26	Plasma	All sections in Module 29103
10-12-26	1 st 8wk Finals	

Course WLDG 2553
Introduction to Welding Using Multiple Processes
FALL 2026

Instructor: Clint Hutchins
Office: SS 104
Phone: 903-782-0517
Email: chutchins@parisjc.edu
Office Hours: 2:00-10:30 M-Th

Meeting Location: SS 104
Meeting Days: M, T, W, R
Meeting Times: 4-10:30

Course Description:

Basic welding processes. Includes oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW).

Credits: SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe Gas Metal Arc Welding (GMAW) & Flux Cored Arc (FCAW) and Safety; Discuss GMAW/FCAW Process Advantages/Disadvantages; Define Metal Transfer Modes; Describe GMAW/FCAW Variables and the Effects on Weld Beads; Define Properties of Shielding Gases. Upon completion of this course the student should be able to demonstrate proficiency in the following: Fillet welds using GMAW/FCAW, ALL positions (1F, 2F, 3F& 4F); Groove weld using GMAW/FCAW, Vertical positions (3G)

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test 30%

Lab – 60%

Discuss and learn Personal Protective Equipment (PPE). Discuss and use welding tools and implement welding safety practices. Discuss Material Safety Data Sheets (MSDS). Use and understand measuring devices (tape measure and speed square).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All students are expected to be in attendance during their scheduled periods of instruction (lecture and lab). This begins with the first scheduled class day of the term. All courses shall include use of online assignments and testing. The instructor's participation and course policy are as follows:

- To prevent classroom distractions, the instructor may choose to lock the door after instruction has begun.
- If you fail to answer when your name is called, you will be counted absent. A sign-in sheet may be used in lieu of roll call. When this is the case, it is your responsibility to sign your name. In either case, if you arrive late, it is your responsibility to inform the instructor. The instructor may take attendance (call roll) at any time during a class period. The instructor has authority to use his discretion to determine tardy and absent.
- Any missed instruction relating to safety or equipment operation must be completed prior to performing the related lab activities.
- Course work is to be completed during regular scheduled times, unless authorized by instructor of course. (Note: it is highly recommended that students keep a copy(s) of all course work for their records.) It is the student's responsibility to contact the instructor for any make up lecture or lab time. Any make-up work will be at the instructor's discretion.
- No re-test on any exams, unless authorized by instructor.
- The instructor reserves the right to change course calendar as necessary. Activities may take shorter or longer time than originally planned; therefore, deadlines will be adjusted accordingly. Such changes will be announced through Blackboard or classroom/lab. You are responsible for keeping up with these changes and for completing work as assigned and on time.

**All student grievances will be addressed in accordance to the Student Handbook and Student Code of Conduct. The student should be familiar with the policies set forth in the Student Handbook and the Student Code of Conduct. All complaints shall be written and submitted to the instructor for further action to be considered.*

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is 11/24/26

*Course WLDG 2553
Advanced Pipe Welding
FALL 2026*

Instructor: Matt Siddens
Office: AS 119
Phone: 903-782-0449
Email: msiddens@parisjc.edu
Office Hours: 7:30-8:00; 12:00-12:30; 3:00-4:00pm M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 8-3:00

Course Description:

Advanced topics involving welding of pipe using the shielded metal arc welding (SMAW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes.

Credits: SCH = 3 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Level 2, 1st semester tool kit

6th edition NCCER Welding Level 3, 2nd semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe equipment and required pipe preparation and perform 6G welds using various electrodes on pipe. Upon completion of this course the student should be able to demonstrate proficiency in the following: 2" – 6G pipe

Course Requirements and Evaluation:

Daily grade – (Safety, material usage, participation) 10%

Lecture – NCCER Module Test and homework 30%

Lab – 60%

Note: All grades will be posted in Blackboard in a timely manner; students will have to access to course to keep up to date. It is your responsibility to keep up with your grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Welding Department Rules and Dress Code:**

You are all adults and are expected to behave like adults.

Safety is paramount and will be monitored at ALL time.

1. No profanity tolerated
2. No sexual, racial or ethnic jokes
3. No horseplay
4. Class time starts promptly at specified time given by instructor. You are to show up 15 minutes prior, and be prepared for class.
5. Class ends at specified time given by instructor, not before.
6. Absenteeism/Tardiness will cause you to fail the class.
7. If, in the opinion of the instructor, you are not in a state to safely work in the weld shop, you will be asked to leave and it will count as an unexcused absence for the day.
8. Tennis shoes will not be allowed at any time, only leather boots or shoes.
9. Safety glasses will be worn at all times in the welding shop.
10. A clear face shield, ear plugs and gloves will be worn when using a grinder and/or equipment that produces sparks.
11. A #5 tinted face shield will be worn when using cutting equipment.
12. Gloves will be worn while welding, grinding, or handling metal.
13. No welding in tee shirts, ONLY long sleeve button up type welding shirts allowed (100% cotton or FR type, NO FR t-shirts as they are not UV protected).
14. No obscene or offensive stickers or writing on welding hoods or tool boxes.
15. Each student is responsible for his/her own tools and should have them properly marked.
16. All buildings on college campus are tobacco free: No tobacco except in designated areas. This includes smokeless cigarettes (Vaping)!!
17. No radios, iPod, or era bud allowed in shop.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

I will make an announcement in class and write it on whiteboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan: Week of: (Date)

*Course WLDG 2553
Advanced Pipe Welding
FALL 2026*

Instructor: Nick Leija
Office: AS 123
Phone: 903-782-0384
Email: nleija@parisjc.edu
Office Hours: 1:30-4:00 M-Th

Meeting Location: AS 120
Meeting Days: M,T,W,R
Meeting Times: 4:00-11:00PM

Course Description:

Advanced topics involving welding of pipe using the shielded metal arc welding (SMAW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes.

Credits: SCH = 3 lecture and 7 laboratory hours per week

TSI Requirement: NONE

Prerequisite(s): NONE

Required Textbook(s) and Materials:

6th edition NCCER CORE, Welding Level 1, Welding Leve 2, 1st semester tool kit

Course Goals and Objectives:

Upon completion of this course the student should be able to demonstrate proficiency in the following: Describe equipment and required pipe preparation and perform 6G welds using various electrodes on pipe. Upon completion of this course the student should be able to demonstrate proficiency in the following: 2" – 6G pipe
