

BIOL 2401.650
Human Anatomy and Physiology I
Fall 2026

Instructor: Ryan Skidmore
Office: Science 1
Phone: 903.737.2800
Email: rskidmore@parisjc.edu
Office Hours: 7:30 - 8:26am

Meeting Location: Science 1
Meeting Days: Tuesday - Friday
Meeting Times: 9:30-10:26am

Course Description:

This course is a study of the structure and function of the human body, including cells, tissues, and organs of the following systems: integumentary, skeletal, muscular, nervous, and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 3 lecture and 1 laboratory hours per week

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Hole's Anatomy and Physiology**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes:Lecture

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

Lab

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general labware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing to make decisions, recommendations, and predictions.

Course Requirements and Evaluation:

Grades will be calculated based on two categories:

- A. Test (50%) – Short answer and essay items covering lecture material
- B. Daily Grades (50%) – Includes daily quizzes, participation, and lab practical

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Procedures: Students are expected to be in their seats with notes and writing utensils out before the tardy bell rings. With few exceptions, every class will begin with a lecture. The lecture will either be interspersed or concluded with independent, partner, or class activities: calculations, case studies, problem sets, etc.

Expectations: I have tremendously high expectations for all my students and refuse to accept sub-par work, disruptions, or idleness. The standards will be set and remain high all year long. You will be expected to work hard from bell-to-bell each and every day in this classroom. Students should also be prepared to study intensely and frequently for quizzes and tests. This is an Honors class so you can anticipate difficult assignments, complex labs, and rigorous assessments.

I want to provide an enjoyable class for all students and any motivations contrary to this goal will not be tolerated. My professional responsibility is to ensure that all students are able to learn in a safe, focused academic environment. My aim is for all students to master the content of this course to ensure success and competence in future medical programs.

Absences: When you are absent, it is *your* responsibility to come see me and get your work made up. You have as much extra time to make up your work as you were absent. For example, if you were absent one day, you have one extra day to make it up.

If you are absent on a test or quiz day, you will take the assessment the day you come back; each day after will result in a 10% deduction off of your grade. Also, you will only be allowed to miss one test without penalty. After you miss a test once, each test thereafter will have 10 points (increasingly) deducted; E-days will not count against this, but any other reason will. There are only four tests per semester, so the likelihood of multiple absences occurring specifically on test days is very unlikely. I do not allow for retests.

Labs: Because of safety issues, I am extremely particular about students' knowledge in this area. We will go into detail about proper procedures. These must be followed with great care. A lab safety exam will be administered at the beginning of the year and a score of 80 or better is required to participate.

Any student not focusing on the laboratory procedure during laboratory exercises (e.g. talking with students in another group, playing on cell phone, etc.) will be removed from the lab and receive a zero; the same goes for any students that are being disruptive or not following proper lab safety procedures. Additionally, a grade can only be assigned to students that participate during labs, thus standing idly for the period will also result in a grade of zero.

Miscellanea: Personal business should be attended to in between classes. Students will not be allowed to leave the class unless called by the office or another teacher. All assignments must be turned in before the tardy bell of the due date; late assignments will receive a 20% deduction and will not be accepted 24 hours after the due date.

Cell phones, smartwatches, and earbuds should be kept put away at all times; they will be confiscated if seen during class.

While Chromebooks will be used in relevant class activities, they *must* remain closed in class unless otherwise instructed. Notes must be taken with pen and paper.

Each six weeks, I will drop your lowest daily grade and replace *one missed* quiz grade with the unit test grade.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Thursday, November 12th.*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)
You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below: email and in-class announcement.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24/26	Intro to A&P	Regions and Quadrants
8/31/26	Intro to A&P	Medical Terminology, Quiz 1
9/7/26	Chemistry	Biomolecule Labs
9/14/26	Cells	Cellular Organelles Lab, Quiz 2
9/21/26	Cells and Metabolism	Diffusion and Osmosis Lab
9/28/26	Metabolism & Tissues	Respiration Lab
10/5/26	Histology	Microscopy, Exam 1
10/12/26	Integumentary System	Microscopy, Quiz 3
10/19/26	Skeletal System	Bone identification, Exam 2
10/26/26	Skeletal System+Joints	Bone Practical, Quiz 4
11/2/26	Muscular System	Cat Dissection, Exam 3
11/9/26	Nervous System I	Cat Dissection, Quiz 5
11/16/26	Nervous System II	Sheep Brain Dissection, Quiz 6
11/23/26	Thanksgiving Break	Thanksgiving Break
11/30/26	Nervous System III	Eye Dissection, Exam 4
12/7/26	Final Exam	Final Exam

Course Schedule:

Exam #1: Chapters 1-3

Week 8- Integumentary System | Lab: Histology Practical

Exam #2: Chapters 4-6

Week 9- Skeletal System | Lab: Bone Identification

Exam #3: Chapters 7-9

Week 12- Nervous System I | Lab: Continue Cat Dissection (Muscles)

Week 13- Nervous System I & Nervous System II | Lab: Sheep Brain Dissection

Week 14- Nervous System II & Nervous System III | Lab: Cow Eye Dissection

Week 15- Nervous System III Cont'd | Lab: Cranial Nerve Assessment

Exam #4: Chapters 10-12

Week 16- **Final Exam (Dec. 7 – 10)**

BIOL 1408.650
Biology for Non-Science Majors I
Fall 2026

Instructor: Ryan Skidmore
Office: Science 1
Phone: 903.737.2800
Email: rskidmore@parisjc.edu
Office Hours: 7:30am – 8:26am

Meeting Location: Science 1
Meeting Days: Tuesday - Friday
Meeting Times: 10:30am – 11:26am

Course Description:

This course provides a survey of biological principles with emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction.

Credits: SCH = 3 lecture and 1 laboratory hours per week

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Mader Inquiry Into Life**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes:

Lecture Objectives

1. Distinguish between prokaryotic, eukaryotic, plant and animal cells, and identify major cell structures.
2. Identify stages of the cell cycle, mitosis (plant and animal), and meiosis.
3. Interpret results from cell physiology experiments involving movement across membranes, enzymes, photosynthesis, and cellular respiration.
4. Apply genetic principles to predict the outcome of genetic crosses and statistically analyze results.
5. Describe karyotyping, pedigrees, and biotechnology and provide an example of the uses of each.
6. Identify parts of a DNA molecule, and describe replication, transcription, and translation.
7. Analyze evidence for evolution and natural selection.

Laboratory Objectives

1. Apply scientific reasoning to investigate questions, and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem-solving to make informed decisions in the laboratory.
3. Communicate effectively the results of scientific investigations.
4. Distinguish between prokaryotic, eukaryotic, plant and animal cells, and identify major cell structures.
5. Identify stages of the cell cycle, mitosis (plant and animal), and meiosis.
6. Interpret results from cell physiology experiments involving movement across membranes, enzymes, photosynthesis, and cellular respiration.
7. Apply genetic principles to predict the outcome of genetic crosses and statistically analyze results.
8. Identify the importance of karyotypes, pedigrees, and biotechnology.
9. Identify parts of a DNA molecule, and describe replication, transcription, and translation.
10. Analyze evidence for evolution and natural selection.

Course Requirements and Evaluation:

Grades will be calculated based on two categories:

- A. Test (50%) – Short answer and essay items covering lecture material
- B. Daily Grades (50%) – Includes daily quizzes, participation, and lab practical

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Procedures: Students are expected to be in their seats with notes and writing utensils out before the tardy bell rings. With few exceptions, every class will begin with a lecture. The lecture will either be interspersed or concluded with independent, partner, or class activities: calculations, case studies, problem sets, etc.

Expectations: I have tremendously high expectations for all my students and refuse to accept sub-par work, disruptions, or idleness. The standards will be set and remain high all year long. You will be expected to work hard from bell-to-bell each and every day in this classroom. Students should also be prepared to study intensely and frequently for quizzes and tests. This is an Honors class so you can anticipate difficult assignments, complex labs, and rigorous assessments.

I want to provide an enjoyable class for all students and any motivations contrary to this goal will not be tolerated. My professional responsibility is to ensure that all students are able to learn in a safe, focused academic environment. My aim is for all students to master the content of this course to ensure success and competence in future medical programs.

Absences: When you are absent, it is *your* responsibility to come see me and get your work made up. You have as much extra time to make up your work as you were absent. For example, if you were absent one day, you have one extra day to make it up.

If you are absent on a test or quiz day, you will take the assessment the day you come back; each day after will result in a 10% deduction from your grade. Also, you will only be allowed to miss one test without penalty. After you miss a test once, each test thereafter will have 10 points (increasingly) deducted; E-days will not count against this, but any other reason will. There are only six tests per semester, so the likelihood of multiple absences occurring specifically on test days is very unlikely. I do not allow for retests.

Labs: Because of safety issues, I am extremely particular about students' knowledge in this area. We will go into detail about proper procedures. These must be followed with great care. A lab safety exam will be administered at the beginning of the year and a score of 80 or better is required to participate.

Any student not focusing on the laboratory procedure during laboratory exercises (e.g. talking with students in another group, playing on cell phone, etc.) will be removed from the lab and receive a zero; the same goes for any students that are being disruptive or not following proper lab safety procedures. Additionally, a grade can only be assigned to students that participate during labs, thus standing idly for the period will also result in a grade of zero.

Miscellanea: Personal business should be attended to in between classes. Students will not be allowed to leave the class unless called by the office or another teacher. All assignments must be turned in before the tardy bell of the due date; late assignments will receive a 20% deduction and will not be accepted 24 hours after the due date.

Cell phones, smartwatches, and earbuds should be kept put away at all times; if they are seen, they will be turned into the office.

While Chromebooks will be used in relevant class activities, they *must* remain closed in class unless otherwise instructed. Notes must be taken with pen and paper.

Each six weeks, I will drop your lowest daily grade and replace *one missed* quiz grade with the unit test grade.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Thursday, November 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Student Signature: _____

BCIS 1305 91A0
Business Computer Applications
Fall 2026

Instructor: Tammie Lewis

Office: CCA-304

Phone: 972-636-9991 (Front Office)

Email: Tammie.Lewis@rcisd.org

Office Hours: Posted

Meeting Location: CCA-304

Meeting Days: M, T, W, Th, F

Meeting Times: RCHS Student Schedule

Course Description:

Introduces and develops foundational skills in applying essential and emerging business productivity information technology tools. The focus of this course is on business productivity software applications, including Word Processing, Spreadsheets, Databases, Presentation Graphics, Data Analytics, and Business-Oriented utilization of the Internet.

Required Textbook(s) and Materials:

This class will utilize the textbook, Workplace Software and Skills from OpenStax which can be found at <https://openstax.org/details/books/workplace-software-skills> Opt-Out of the inclusive access when paying for your class.

You will need a Spiral-Bound or Composition-style notebook in which you will record the Software Sequences for project completion.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Describe the fundamentals of computing infrastructure components: hardware, application software, operating systems, and data communications systems.
2. Delineate and discuss societal issues related to computing, including the guiding principles of professional and ethical behavior.
3. Demonstrate the ability to create and use documents, spreadsheets, presentations and databases in order to communicate and store information as well as to support problem solving.
4. Describe the need and ways to maintain security in a computing environment

Course Requirements and Evaluation:

All quizzes, exams, and projects must be turned in by the posted due date. It is your responsibility during class to notify the teacher if you need additional clarification or explanation on the assignment details.

NO LATE Assignments Accepted: If you are unable to complete an assignment, turn in what you did complete by the posted due date so you can receive partial credit because **Late papers are not accepted.**

'Assignment Name' Requirements: Each Assignment must contain your Class Period, Assignment Name and Your Name in the designated format. Failure to complete this task will result in -30 points from your total assignment score.

Make sure that you keep up! *Failure to plan may result in a failing grade.*

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by September 4, 2026 3:40 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This is an **in-person** course and will meet room CCA-304 of Royse City High School each day of the semester. In the event the class is relocated due to testing, etc., you will be notified where to report.

- Students **MUST** understand that technical problems are not reasons for missing deadlines or due dates.
- Students **MUST** be independent, self-motivated learners to be successful in this in-person course. It is the student's responsibility to attempt assignments in a timely manner, giving them enough time to complete the assignment.
- Students **MUST** be excellent time managers, meet posted deadlines, and schedule adequate time each day to complete the course requirements.
- Students **MUST** have a reliable personal computer and internet service that meets the minimum requirement of the course software, Microsoft Office, and course web sites. It is recommended that you use a PC to do your assignments. Some options are not available for a Mac including Microsoft Access and the Office suite is not available for Chromebooks.
- Students **MUST possess computer skills** necessary to:
 - Access internet sites, create accounts, locate and read "online material".
 - Download and install software on their personal computers, if necessary
 - Manage files on the network ie. Downloading, Cutting/Pasting into OneDrive
 - Use computer applications, internet browsers, email, and system utilities
- Students **MUST** have reliable access to Microsoft Office 2019 or higher that includes **Word, PowerPoint, Excel, and Access**. RCHS has software installed on all computers in CCA-304 to use during class time and scheduled tutorial time before- or after-school.
- In the event that extracurricular activities the student will notify the instructor both verbally and by email prior to the absence. All projects that are assigned during the absence are required to be turned in by the due date posted.
- Students **MUST** realize that family obligations, work schedules, number of courses enrolled, extra-curricular activities and other life events **do not** supersede this course's requirements, due dates, assignments, or deadlines. Neither do they justify a request for extended time.

EXPECTATIONS:

- Students are expected to use computers in CCA-304 to complete projects, quizzes, and exams.
- Students who will be missing more than 2 classes due to extra-curricular activities will need to have a full-version copy of Microsoft Office on a personal computer in order to complete projects by the posted date.
- Students are expected to let the instructor know when questions arise during the class period. If they cannot be adequately addressed during the class time, the student will be expected to schedule a face-to-face tutoring session with the instructor.
- Students are expected to attempt, complete, and submit all assignments, quizzes, and exams within their respective scheduled class period.
- Students are expected to login, read and comply with all announcements, document assignments, instructions, etc.
- Students are expected to access the Microsoft software installed in CCA-304 while in class to complete all assignments. Many projects will not be able to be completed on a Chromebook so on-time and regular attendance is very important.
- If you experience technical difficulties logging into your computer let the instructor know immediately so that if technical help is required, it can be secured promptly.
- CCA-304 Computers are to be used exclusively for assignments. No Online Gaming, Music, YouTube, etc.
- Students will follow the RCHS published Dress Code, including wearing Student IDs
- No Food or Drink allowed at the workstations. No Outside Drink allowed inside the school after lunch period.
- Students will remain in their seat until the bell rings for class dismissal.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026.

Class Conduct:

Please turn off or silence and put all cell phones, pagers, iPod, headphones, etc. inside your backpack and put your backpack in the appropriate bin before class starts. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or

repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by a Google Classroom Post or Student Email.

PARIS JUNIOR COLLEGE
PARIS, GREENVILLE & SULPHUR SPRINGS, TEXAS

ENGL 1301-650
Composition and Rhetoric and Reading
(Fall - 2026)

Instructor: Kaitlin Jeffery
Office: Virtual
Phone: 940-703-8826
Email: kjeffery@parisjc.edu
Office Hours: Monday-Friday 2:45 AM -3:20 PM

Meeting Location: Online
Meeting Days: Monday - Friday
Meeting Times: Online

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Required Textbook(s) and Materials:

*Patterns for College Writing Kirsznar Edition 16th Publisher MPS ISBN-13
9781319532345*

Novels:

Orwell, George. 1984. Signet Classics, 1950.

Course Goals and Objectives:

1. Exhibit a knowledge of proper research and writing skills, which include an understanding of databases and writing procedures.
2. Exhibit Communication Skills- Students will be able to communicate written, visual, and oral ideas effectively.
3. Exhibit Independent responsibility for one's work which includes completing writing and reading assignments, as well as presentations.
4. Exhibit the ability to work with peers and be open to various interpretations and perspectives.

Course Schedule:

ENGL 1301 calendar and weekly assignments will be uploaded in PJC Blackboard. The calendar is subject to change based on the instructor.

Course Requirements and Evaluation:

Semester Grades:

Discussion Post: 100 points each

Quizzes: 100 points each

Essays: Narrative (300 points), Descriptive (300 points), and Exemplification(300 points).

Research (500 points)

The Lab is 15% of your FINAL grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Discussions:

You must post by 11:59 PM on the assigned day and you must respond to one classmate by Saturday at 11:59 PM. Your initial post should be 250 words. Your response should be no less than three sentences.

Grading:

Students will be graded based on their quality of work at the discretion of the instructor. The final grade is determined by the instructor. Work will be graded by seven days after the due date.

Respondus Lock Down:

Your essays, tests, and quizzes will be monitored by Respondus Lockdown. This means that you will only be able to access that page when completing your essays, tests, and quizzes. If you are on a school issued computer, please make sure to check with your IT Department and make sure that it will not be blocked. If you run into problems, please email me.

Emailing Instructor: Please expect a response within 24-48 hours.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 1st.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

English AI Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level

competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical Responsibility.

Please look at blackboard under the calendar for due dates.

**ENGL 1301.20E3
Composition I
(8 Weeks) Fall 2026**

Instructor:	Charles Conrad Martin	Meeting Location:	Online
Office:	Paris/MS/111M	Meeting Days:	Weekly
Phone:	Ext. 1485	Meeting Times:	Weekly
Email:	cmartin@parisjc.edu	Office Hours:	M/W: 9:30AM – 12:30PM; T/R: 7:00 AM – 9:00 AM

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Credits: 3 SCH = 3 lecture hours per week; required online lab assignments are completed outside scheduled classroom time.

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score.

Prerequisite(s): Placement into ENGL 1301 according to current PJC standards or successful completion of required developmental coursework.

Required Textbook(s) and Materials:

- Kirszner, Laurie G. and Stephen R. Mandell. Patterns for College Writing: A Rhetorical Reader and Guide. 16th ed. Bedford/St. Martin's, 2024. ISBN: 9781319532345.
- Fahrenheit 451, Ray Bradbury, [Edition, and format requirement] Any complete print or e-book edition approved by the instructor.
- Any current MLA style handbook or reliable online MLA source, such as the Purdue OWL MLA Formatting and Style Guide:
https://owl.purdue.edu/owl/research_and_citation/mla_style/mla_formatting_and_style_guide/mla_formatting_and_style_guide.html
- Reliable access to Blackboard, PJC email, a word processor capable of MLA formatting, and a way to save/submit files in the required format.

Syllabus, Campus-Wide Access Program

Dragon Now Course Material Information:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**
- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

To ensure that you have all appropriate school and class materials and resources, please refer to PJC's [IT Checklist](#).

Course Goals and Objectives

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Course Focus:

This course emphasizes nonfiction essays/readings, modes of writing, MLA documentation, and a fictional novel. Students will practice writing as a process: invention, planning, drafting, peer review, revision, editing, documentation, and reflection.

Required Core Objectives - Student Learning Outcomes (Core Curriculum-Level):

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Team Work--to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- Demonstrate Personal Responsibility--to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

- Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
- Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.

- Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate knowledge of individual and collaborative writing processes.
- Develop ideas with appropriate support and attribution.
- Write in a style appropriate to audience and purpose.
- Read, reflect, and respond critically to a variety of texts.
- Use Edited American English in academic essays.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Rubrics

Students will complete a minimum of five full essays in various modes, including at least one documented essay using MLA documentation. Essays will emphasize rhetorical choices, audience awareness, academic organization, revision, support, attribution, and Edited American English.

Course Grade Weight Rubric:

Category	Value	Description
Narrative, Compare and Contrast, and Cause and Effect Essays	30%	Three varying essay types that 1 – 2-pages in length on a writing option of your choosing from the available list that must be completed in MLA style.
Research Paper	15%	A 3 – 4-page thoroughly researched and well-sourced paper regarding a writing option of your choosing from the available list that must be completed in MLA style.
Labs	15%	Required online lab assignments and diagnostics averaged by Blackboard into a single LAB grade.
Attendance, Participation, and Discussion	15%	Complete the required weekly board discussions by creating a unique response to the original post with a minimum of 3 sentences, and respond to at least 2 other classmates posts.

Category	Value	Description
Test	10%	Test covering the novel Fahrenheit 451.
Final Exam	15%	Monitored revisions required for non-exempt students. Exempted students will not have a final exam grade included in the course average.

Essay Assessment Rubric:

Criterion	Value	Description
Thesis, Focus, and Purpose	20%	Clear central claim or controlling idea; appropriate response to the assignment; purposeful rhetorical choices.
Development and Support	25%	Specific evidence, examples, analysis, and explanation; source support when required.
Organization and Coherence	20%	Effective introduction, body structure, conclusion, paragraphing, transitions, and logical arrangement.
Style, Audience, and Voice	15%	Academic tone, sentence variety, precise language, and choices appropriate to audience and purpose.
MLA Documentation and Source Use	10%	Accurate MLA format, attribution, quotation/paraphrase integration, and Works Cited when required. For non-documented essays, this category may be applied to assignment-specific requirements.
Edited American English / Mechanics	10%	Grammar, punctuation, spelling, usage, and proofreading consistent with college-level writing.

Grading Scale: A = 90-100; B = 80-89; C = 70-79; D = 60-69; F = 0-59.

Final Exam Exemptions:

- Students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam.
- Remaining students will write a 5th essay at the time of the final, and the grade will replace the lowest essay grade of the first 4 essays.
- The 5th essay grade will also count as the final exam grade.
- Averages for exempted students will not include a final exam grade; the remaining grade categories will be used to calculate the course average.
- The exemption is not mandatory; students may choose to write the 5th essay.

Course Policies

Submission Format:

Unless otherwise stated, essays must be typed in 12 pt. Times New Roman font style, double-spaced, formatted according to MLA guidelines, and submitted through Blackboard via an uploaded Word Document by the posted deadline. Students should save backup copies of all drafts and submissions.

Late Work:

Assignment deadlines are firm. Unless an extension has been approved before the deadline. Online lab due dates are governed by the ENGL 1301 lab policy and will not be reopened under any circumstances.

Research and Documentation:

Students are responsible for ethical research practices, accurate MLA citation, careful source evaluation, and clear distinction between their own ideas and the ideas, language, or media of others. Research work may require drafts, source notes, conferences, or process materials in addition to the final paper.

Exams:

All quizzes or exams must be taken in class or arranged to be taken online via Blackboard Respondus Monitoring with a camera. Some make-up work may be required at a Paris JC Testing Center.

Revision and Drafting:

If the student would like to improve their essay grade, they can revise any graded essays up until the beginning of week 7. Research Paper revisions will be done via Respondus for the Final Exam.

Reading and Participation:

Students should come to class prepared, having completed assigned readings before class. Participation includes attentive listening, respectful discussion, collaboration, workshops, and completion of any in-class writing activities.

Technology:

Students are responsible for maintaining access to Blackboard, PJC email, and required course materials. Technology issues do not automatically excuse late work; students should plan ahead and communicate with the instructor before deadlines whenever possible.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is October 1st, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

English A.I. Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Credits: 3 SCH = 3 lecture hours per week; required online lab assignments are completed outside scheduled classroom time.

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score.

Prerequisite(s): Placement into ENGL 1301 according to current PJC standards or successful completion of required developmental coursework.

Required Textbook(s) and Materials:

- Kirsznner, Laurie G. and Stephen R. Mandell. Patterns for College Writing: A Rhetorical Reader and Guide. 16th ed. Bedford/St. Martin's, 2024. ISBN: 9781319532345.
- Fahrenheit 451, Ray Bradbury, [Edition, and format requirement] Any complete print or e-book edition approved by the instructor.
- Any current MLA style handbook or reliable online MLA source, such as the Purdue OWL MLA Formatting and Style Guide:
https://owl.purdue.edu/owl/research_and_citation/mla_style/mla_formatting_and_style_guide/mla_formatting_and_style_guide.html
- Reliable access to Blackboard, PJC email, a word processor capable of MLA formatting, and a way to save/submit files in the required format.

Syllabus, Campus-Wide Access Program

Dragon Now Course Material Information:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**
- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

To ensure that you have all appropriate school and class materials and resources, please refer to PJC's [IT Checklist](#).

Course Goals and Objectives

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Course Focus:

This course emphasizes nonfiction essays/readings, modes of writing, MLA documentation, and a fictional novel. Students will practice writing as a process: invention, planning, drafting, peer review, revision, editing, documentation, and reflection.

Required Core Objectives - Student Learning Outcomes (Core Curriculum-Level):

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Team Work--to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- Demonstrate Personal Responsibility--to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

- Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
- Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.

- Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate knowledge of individual and collaborative writing processes.
- Develop ideas with appropriate support and attribution.
- Write in a style appropriate to audience and purpose.
- Read, reflect, and respond critically to a variety of texts.
- Use Edited American English in academic essays.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Rubrics

Students will complete a minimum of five full essays in various modes, including at least one documented essay using MLA documentation. Essays will emphasize rhetorical choices, audience awareness, academic organization, revision, support, attribution, and Edited American English.

Course Grade Weight Rubric:

Category	Value	Description
Narrative, Compare and Contrast, and Cause and Effect Essays	30%	Three varying essay types on a writing option of your choosing that must be completed in MLA style.
Research Paper	15%	A thoroughly researched and well-sourced paper regarding a writing option of your choosing from the available list that must be completed in MLA style.
Labs	15%	Required online lab assignments and diagnostics averaged by Blackboard into a single LAB grade.
Attendance, Participation, and Discussion	15%	Complete the required weekly board discussions by creating a unique response to the original post with a minimum of 3 sentences, and respond to at least 2 other classmates posts.

Category	Value	Description
Test	10%	Test covering the novel Fahrenheit 451
Final Exam	15%	Monitor revisions required for non-exempt students. Exempted students will not have a final exam grade included in the course average.

Essay Assessment Rubric:

Criterion	Value	Description
Thesis, Focus, and Purpose	20%	Clear central claim or controlling idea; appropriate response to the assignment; purposeful rhetorical choices.
Development and Support	25%	Specific evidence, examples, analysis, and explanation; source support when required.
Organization and Coherence	20%	Effective introduction, body structure, conclusion, paragraphing, transitions, and logical arrangement.
Style, Audience, and Voice	15%	Academic tone, sentence variety, precise language, and choices appropriate to audience and purpose.
MLA Documentation and Source Use	10%	Accurate MLA format, attribution, quotation/paraphrase integration, and Works Cited when required. For non-documented essays, this category may be applied to assignment-specific requirements.
Edited American English / Mechanics	10%	Grammar, punctuation, spelling, usage, and proofreading consistent with college-level writing.

Grading Scale: A = 90-100; B = 80-89; C = 70-79; D = 60-69; F = 0-59.

Final Exam Exemptions:

- Students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam.
- Remaining students will write a 5th essay at the time of the final, and the grade will replace the lowest essay grade of the first 4 essays.
- The 5th essay grade will also count as the final exam grade.
- Averages for exempted students will not include a final exam grade; the remaining grade categories will be used to calculate the course average.
- The exemption is not mandatory; students may choose to write the 5th essay.

Course Policies

Submission Format:

Unless otherwise stated, essays must be typed in 12 pt. Times New Roman font style, double-spaced, formatted according to MLA guidelines, and submitted through Blackboard via an uploaded Word Document by the posted deadline. Students should save backup copies of all drafts and submissions.

Late Work:

Assignment deadlines are firm. Unless an extension has been approved before the deadline. Online lab due dates are governed by the ENGL 1301 lab policy and will not be reopened under any circumstances.

Research and Documentation:

Students are responsible for ethical research practices, accurate MLA citation, careful source evaluation, and clear distinction between their own ideas and the ideas, language, or media of others. Research work may require drafts, source notes, conferences, or process materials in addition to the final paper.

Exams:

All quizzes or exams must be taken in class or arranged to be taken online via Blackboard Respondus Monitoring with a camera. Some make-up work may be required at a Paris JC Testing Center.

Revision and Drafting:

If the student would like to improve their essay grade, they can revise any graded essays up until the beginning of week 14.

Reading and Participation:

Students should come to class prepared, having completed assigned readings before class. Participation includes attentive listening, respectful discussion, collaboration, workshops, and completion of any in-class writing activities.

Technology:

Students are responsible for maintaining access to Blackboard, PJC email, and required course materials. Technology issues do not automatically excuse late work; students should plan ahead and communicate with the instructor before deadlines whenever possible.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is November 12th, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

English A.I. Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Class announcement
- Blackboard
- Student e-mail

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Each row corresponds to one scheduled Tuesday or Thursday class meeting. Readings listed for a date should be completed before that meeting unless otherwise announced. The schedule is tentative and may be adjusted to meet class needs. Students are responsible for announcements made in class, posted in Blackboard, and sent through official PJC email.

!!!EACH WEEK INCLUDES A BLACKBOARD DISCUSSION!!!

!!!LABS CAN BE COMPLETED AT YOUR OWN PACE, BUT REMEMBER, THEY ARE REQUIRED TO COMPLETE THE COURSE!!!

!!!ALL ASSIGNMENTS ARE DUE BY 11:59PM THE NIGHT OF THE DUE DATE!!!

Week 15 <u>Tuesday</u> 12/01	Fiction Novel	Readings: Fahrenheit 451 Part 3
<u>Thursday</u> 12/03	Test Day	Fahrenheit 451 Test Via Respondus.
Week 16 <u>Tuesday</u> 12/08	Peer Review	Peer Review
<u>Thursday</u> 12/10	Last Day of Class Revision Exam Day	Research Paper Revision Exam Revisions will be done in class.
<u>Friday</u> 12/11	Grades due by 9:00 AM Commencement	

Dual Credit English 1301.730 and .731/Junior English

Fall 2026

Instructor: Karon Jones

Room: 1609

E-mail: joneskd@greenvilleisd.com

Tutoring: Monday, Tuesday, Thursday by appointment.

Course Description:

Dual Credit English III is designed for students to complete both junior-level high school English and the first two semesters (1301 and 1302) of English at Paris Junior College. The goal is to develop and strengthen skills in language arts, both as a reader and a writer. **This class will be an intensive study of and practice in the writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis will be placed on effective rhetorical choices, including audience, purpose, arrangement, and style and focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.** This class covers a combination of fiction and nonfiction texts across a variety of genres. Traditionally, English III focuses on American literature; however, other texts may be explored. Successful completion of this class will result in dual credit for the student. Credits: 3 SCHs.

Textbook: Kirsznner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide* (packed with *Achieve* for labs). 16th ed. Bedford/St. Martin's, 2024 and Hacker *A Pocket with Writing about Literature*. ISBN: 9781319532345

Novel: Instructor's choice. Because this is a college-level class, all assigned texts will be at a college level as specified by Paris Junior College.

Course Goals and Objectives:

The general course goals of 1301 are to have students improve writing abilities and increase proficiency in **critical reading and in writing nonfiction prose** with emphasis on narration, description, exposition, and persuasion. The general purpose of high school junior English is to improve **analytical reading and writing skills** using American literature as a foundation.

Course Requirements and Evaluation

PJC 1301 Required Text and Assignments:

- Minimum of 5 full essays, various modes
- At least one of the 5 full essays should be a documented essay (using 2021 MLA and applying the assessment rubric)
- Final exam Exemptions:
 - Students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam.
 - Remaining students will write a 5th essay at the time of the final and the grade will replace the lowest essay grade of the first 4 essays
 - The 5th essay grade will also count as the final exam grade

- Averages for exempted students will not include a final exam grade
- The exemption is not mandatory; students may choose to write a 5th essay
- LAB (in Blackboard)
 - Will count 15% of the final grade
 - Automatic grading of quizzes and averaging by Blackboard will create a single Lab grade

ENGL 1301 Labs: Online

Lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed **outside of the scheduled classroom time**. The labs **MUST** be completed by the stated due dates. **They will NOT be reopened under ANY circumstances.** Plan ahead and complete them by the scheduled due dates - December 1st. **There are a total of 15 lab items and two diagnostic tests.** Expect to spend, on average, an hour for each of the labs and 30 minutes on each diagnostic test, for a total of **16 hours**.

Completion Requirements:

- Final Score of 70 or above in the class
- TSI Requirement: Reading, 340 +; Writing, 4 or above

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a **grade of "W" is Thursday, November 12th**. The expectation for attendance for GHS is 90%; however, to be successful in this class, attendance and punctuality (avoiding tardiness) is crucial.

Students are responsible for notes and assignments that are missed. **No more than one late paper will be allowed. A late paper will be penalized five points per day and will not be accepted after one week.**

Please keep in mind that these make-up policies apply to extracurricular absences as well.
You are not penalized for an extra-curricular absence.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. At GHS phones must be completely out of sight and powered off.

No obscene/vulgar language will be permitted in the classroom.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. (Both the PJC and GHS student handbooks are on the schools' websites.)

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in **honest academic endeavor to the highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others, including the use of AI without proper documentation will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903.782.0211.

Artificial intelligence (AI) English

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever

(100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. Changes will be posted in Google Classroom.

Mental Health Conditions

Mental health conditions are common and treatable.

Suicide is preventable.

A suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.

4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of **oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.**

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate **Critical Thinking Skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate **Communications Skills**—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate **Team Work**—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate **Personal Responsibility**—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) Language and apply correct forms of English that is most widely accepted as clear and proper
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to an audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluations:

Writing assignments, in-class writing or editing workshops, group work, class discussions, tests and quizzes, lecture/notes, and reading assignments.

Course Policies Concerning Essays:

Essay Assignments: All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due. Submit as a Word or Google Doc attachment.

A research paper turned in without proper documentation (works cited page OR parenthetical citation) will receive a zero. Such an act constitutes plagiarism and will be subject to the above consequences.

Peer Review Assignments:

There will be an in-class peer review exercise for each assigned essay. These scheduled peer review exercises count as quiz grades.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

GHS Classroom Procedures:

- **Cell phones:** Cell phones or any other electronic devices are not allowed to be on during the academic day. They must be powered off and stored away. The specifics and consequences are covered in the Student Handbook and Code of Conduct.
- **Absences:** It is your responsibility to find out what you missed after an absence. Please ask a classmate for assistance to overcome missing assignments]. At the end of class, I will dismiss you. Please do not start gathering your belongings until instructed to do so.
- **Daily objectives and expectations will be in Google Classroom.** Some work will be done through Google Classwork. Other assignments will be on paper or in your notebook. **Make up work:** All make up work must be completed within 2 days of returning to school unless you have personally obtained an extension from your teacher for extenuating circumstances.
- **Late work:** All late work may be subjected to a point deduction, especially if it is habitual.
- **Starting & finishing class:** With rare exceptions, you will have an assignment on the board when class begins. I should not have to ask you to begin this assignment.
- **Cheating** - I believe that your ideas are important—use them. If you borrow from others' work, document appropriately. Avoid plagiarism. Cheating carries an automatic zero; cheating includes presenting someone else's work or work from an online or offline source as your own, assisting others in cheating, copying from a classmate or online or offline source, or any other means of dishonestly gaining an unfair advantage on any classroom assignment.

Grading Policy: Grades for each grading period will be calculated according to the following percentages:

Essays and Projects: 70%

Lab: 15%

Peer Reviews, daily assignments: 15%

Both the final exam and the documented argumentative essay are required. Evaluation rubrics are posted in Google Classroom for each writing assignment.

GHS AI Policy

In addition to Paris Junior College's expectations regarding AI, the following is true for GHS:

You may use AI programs e.g. ChatGPT in ethical ways in this classroom; in fact, we will explore many ethical uses throughout the course. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. Beware that use may also stifle your own independent thinking and creativity. **You may not submit any work generated by an AI program as your own.** Any unethical use of AI, submitting the ideas or text as your own, is covered under the Academic Honesty statement above. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work.**

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. **It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form.** For more information, please refer to the Paris Junior College Catalog or Student Handbook. Accommodation requests must be filed with PJC for dual credit classes; **GHS accommodations do not apply to dual credit classes.**

Tentative Course Schedule/Outline (subject to change):

First 9 Weeks: August 17- October 16:

Celebrating Differences: Reading/Writing with an Analytical Perspective and Pre-Colonial and Colonial America

Standards of focus:

- Language Usage: Vocabulary / Literary Conventions
- Reading and Analyzing Literature
- Reading and Analyzing Informational Text
- Speaking & Listening
- Narrative and Descriptive Writing

Patterns of College Writing: 29-47, 97-101, 151-159,

Assignments:

- Focused Notes
- Personal Narrative Essay #1
- Various Content Assignments
- Descriptive Essay #2
- Grammar & conventions practice through daily Bell Ringers
- Required Labs (PJC)

Literature:

- *The Extraordinary Life of Sam Hell*, a narrative/descriptive novel
- Literature, Speeches, Historical Documents
 - [“The World on the Turtle’s Back”](#)
 - Indigenous Mythology - Assignment
 - Snippets of Day-to-Day Life in Colonial Times
 - [“Discovering Columbus” - non-fiction](#)
 - [“Speech in the Virginia Convention” 1775 - speech](#)
 - [“The Declaration of Independence” 1776 -document](#)

Second 9 Weeks: October 19- December 18:

Celebrating Differences: Reading/Writing with an Analytical Perspective on War and the American Renaissance

Standards of focus:

- Language Usage: Vocabulary / Literary Conventions
- Reading and Analyzing Literature:
- Reading and Analyzing Informational Texts
- Speaking & Listening
- Argumentative Research

Patterns of College Writing: 519-545, 201-206, 209-210,

Assignments:

- Argumentative Essay #3
- Demonstrating elements of research Essay #4 (MLA 2021)
- Various assignments related to the novel; Essay #5 (timed)
- Collaborative work on selected pieces (examples listed below)
- Grammar & conventions practice through daily Bell Ringers
- Required Labs (PJC)

Literature:

- Selected works
 - [“Ain’t I a Woman?” Sojourner Truth](#)
 - Excerpts: Harriet Tubman and Loretta Velasquez
 - [“The Devil and Tom Walker”](#) by Washington Irving
 - various pieces “Self-Reliance” by Ralph Waldo Emerson;
 - “Walden by Henry David Thoreau
 - [“The Minister’s Black Veil”](#) by Nathaniel Hawthorne
 - from [“What the Black Man Wants”](#) by Fredrick Douglass
 - Edgar Allan Poe – individual choice/annotation

NOTE: The contents of this syllabus are subject to change. Should a change be made, students will be notified and a new syllabus will be posted in Google Classroom.

ENGL 1302.10H0
Composition II
(8-Weeks) Fall 2026

Instructor:	Charles Conrad Martin	Meeting Location:	Math & Science: Room 112
Office:	Paris/MS/111M	Meeting Days:	Tuesday/Thursday
Phone:	Ext. 1485	Meeting Times:	11:00 AM – 12:15 PM
Email:	cmartin@parisjc.edu	Office Hours:	M/W: 9:30AM – 12:30PM; T/R: 7:00 AM – 9:00 AM

Course Description:

Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions.

Credits: 3 SCH; this 8-week section completes the equivalent required lecture contact hours on an accelerated schedule. Required online lab assignments are completed outside scheduled classroom time.

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score.

Prerequisite(s): Successful completion of ENGL 1301 or its equivalent.

Required Textbook(s) and Materials:

- Schilb, John and John Clifford. *Arguing about Literature: A Guide and Reader*. 4th ed. Bedford/St. Martin's, 2024. ISBN: 9781319532048.
- Any current MLA style handbook or reliable online MLA source, such as the Purdue OWL MLA Formatting and Style Guide:
https://owl.purdue.edu/owl/research_and_citation/mla_style/mla_formatting_and_style_guide/mla_formatting_and_style_guide.html
- Reliable access to Blackboard, PJC email, a word processor capable of MLA formatting, and a way to save/submit files in the required format.

Syllabus, Campus-Wide Access Program

Dragon Now Course Material Information:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**
- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

To ensure that you have all appropriate school and class materials and resources, please refer to PJC's [**IT Checklist**](#).

Course Goals and Objectives

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Course Focus:

This course emphasizes fiction (short story, poetry, and drama), literary analysis and criticism, research, MLA documentation, and research-based expository and persuasive writing. Students will practice close reading, source evaluation, synthesis, argumentation, and revision as part of an ethical academic research process.

Required Core Objectives - Student Learning Outcomes (Core Curriculum-Level):

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Team Work--to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- Demonstrate Personal Responsibility--to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

- Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
- Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
- Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1302 Course-Level):

Upon successful completion of this course, students will:

- Demonstrate knowledge of individual and collaborative research processes.
- Develop ideas and synthesize primary and secondary sources within focused academic arguments, including one or more research-based essays.
- Analyze, interpret, and evaluate a variety of texts for the ethical and logical uses of evidence.
- Write in a style that clearly communicates meaning, builds credibility, and inspires belief or action.
- Apply the conventions of style manuals for specific academic disciplines (e.g., APA, CMS, MLA, etc.).

Course Requirements and Evaluation**Required Activity:**

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1302 Labs (Online):

Online lab assignments are a required component for all ENGL 1302 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Rubrics

Students will complete a minimum of four full essays connected to the course's literary and research units. Required essay types include a Critical Evaluation Essay, a Synthesis Essay, an Analysis Essay, and a Research Argumentation Essay using MLA documentation and the course assessment rubric. Major writing assignments will emphasize short story, poetry, drama, literary criticism, research, ethical source use, synthesis, argumentation, and revision.

Course Grade Weight Rubric:

Category	Value	Description
Critical Evaluation Essay	15%	A 2 – 3-page essay that judges the strengths, weaknesses, and overall value of a text using clear facts and solid proof
Analysis Essay	15%	A 2 – 3-page essay that breaks down a complex text into smaller parts to examine how those pieces work together to create meaning
Research Essay	30%	A 4 – 6-page Research Argumentation Essay required for non-exempt students and optional for exempted students choosing to write it. Exempted students will not have a final exam grade included in the course average.

Category	Value	Description
Labs	15%	Required online lab assignments and diagnostics averaged by Blackboard into a single LAB grade.
Attendance, Participation, and Discussion	10%	Do the Readings, show up, and participate in class and on discussion boards.
Synthesis Essay	15%	A single page essay in which the student will combine and analyze information from multiple sources to support a single, unified main idea or argument

Essay Assessment Rubric:

Criterion	Value	Description
Thesis, Argument, and Purpose	20%	Clear interpretive or argumentative claim; focused response to the assignment; purposeful rhetorical choices.
Literary Analysis and Critical Thinking	20%	Careful reading of short fiction, poetry, and/or drama; insightful interpretation; logical reasoning and evaluation.
Research, Evidence, and Source Synthesis	20%	Relevant primary and secondary evidence; effective synthesis; ethical source integration and support.
Organization and Coherence	15%	Effective introduction, body structure, conclusion, paragraphing, transitions, and logical arrangement.
Style, Audience, and Credibility	10%	Academic tone, sentence variety, precise language, and style appropriate to audience, purpose, and literary argument.
MLA Documentation	10%	Accurate MLA format, in-text citations, quotation/paraphrase integration, and Works Cited when required.
Edited American English / Mechanics	5%	Grammar, punctuation, spelling, usage, and proofreading consistent with college-level writing.

Grading Scale: A = 90-100; B = 80-89; C = 70-79; D = 60-69; F = 0-59.

Final Exam Essay Exemptions:

- Students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam.
- Remaining students will write a 4th essay at the time of the final, and the grade will replace the lowest essay grade of the first 3 essays.

- The 4th essay grade will also count as the final exam grade.
- Averages for exempted students will not include a final exam grade; the remaining grade categories will be used to calculate the course average.
- The exemption is not mandatory; students may choose to write the 4th essay.

Course Policies

Submission Format:

Unless otherwise stated, essays must be typed in 12 pt. Times New Roman font style, double-spaced, formatted according to MLA guidelines, and submitted through Blackboard via an uploaded Word Document by the posted deadline. Students should save backup copies of all drafts and submissions.

Late Work:

Assignment deadlines are firm. Unless an extension has been approved before the deadline. Online lab due dates are governed by the ENGL 1302 lab policy and will not be reopened under any circumstances.

Research and Documentation:

Students are responsible for ethical research practices, accurate MLA citation, careful source evaluation, and clear distinction between their own ideas and the ideas, language, or media of others. Research work may require drafts, source notes, conferences, or process materials in addition to the final paper.

Revision and Drafting:

If the student would like to improve their essay grade, they can revise any graded essays up until the beginning of week 7.

Exams:

All quizzes or exams must be taken in class or arranged to be taken online via Blackboard Respondus Monitoring with a camera. Some make-up work may be required at a Paris JC Testing Center.

Reading and Participation:

Students should come to class prepared, having completed assigned readings before class. Participation includes attentive listening, respectful discussion, collaboration, workshops, and completion of any in-class writing activities.

Technology:

Students are responsible for maintaining access to Blackboard, PJC email, and required course materials. Technology issues do not automatically excuse late work; students should plan ahead and communicate with the instructor before deadlines whenever possible.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is October 1st, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

English A.I. Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Class announcement
- Blackboard
- Student e-mail

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

This accelerated 8-week schedule covers the same required content and assignments as a 16-week section. Each row corresponds to one scheduled Tuesday or Thursday class meeting; readings listed for a date should be completed before that meeting unless otherwise announced. The schedule is tentative and may be adjusted to meet class needs. Students are responsible for announcements made in class, posted in Blackboard, and sent through official PJC email.

!!!LABS CAN BE COMPLETED AT YOUR OWN PACE, BUT REMEMBER, THEY ARE REQUIRED TO COMPLETE THE COURSE!!!

!!!ALL ASSIGNMENTS ARE DUE BY 11:59PM THE NIGHT OF THE DUE DATE!!!

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 <u>Tuesday</u> 08/25	Introduction to the Class	<u>"What Is Argument?" (Chapter 1)</u> Beginning of Course Discussion Board is Open.
<u>Thursday</u> 08/27	Literary Arguments	<u>"Writing Effective Arguments" (Chapter 2)</u> <u>"How to Argue about Literature" (Chapter 3)</u>
Week 2 <u>Tuesday</u> 09/01	Poetry Focus Official Reporting Day	<u>"The Reading Process" (Chapter 4)</u> <u>"The Writing Process" (Chapter 5)</u> <u>"Writing about Literary Poems" (Chapter 6)</u> Due by 08/31 before 11:59PM: Beginning of Course Discussion Board If you have not participated in the class before the Official Reporting Day, you will be dropped from the course.
<u>Thursday</u> 09/03	Poetry Focus	Readings: "Forgiving My Father," "Those Winter Sundays," "My Papa's Waltz," "My Father, In Heaven, Is Reading Out Loud," "Daddy," "From Plath's Incarnations," "From Sylvia Plath: A Critical Study"
Week 3 <u>Tuesday</u> 09/08	Drama Focus	Readings: "POOF!"
<u>Thursday</u> 09/10	Drama Focus	Readings: "Antigone," "Inmates' Hunger Strikes Take Powerful Stands Against Injustice" Due: Poetry Evaluation Essay
Week 4 <u>Tuesday</u> 09/15	Short Story Focus	<u>"Writing about Stories" (Chapter 6)</u>
<u>Thursday</u> 09/17	Short Story Focus	Readings: "Araby," "Yellow Woman," "The Love of My Life," "A Rose for Emily." Due: Literary Analysis Essay
Week 5 <u>Tuesday</u> 09/22	Critical Lenses	<u>Writing with Critical Approaches to Literature</u>

<u>Thursday</u> 09/24	Critical Lenses	Readings: “Counterparts,” “Eveline”
Week 6 <u>Tuesday</u> 09/29	Researching	<u>“Writing Researched Arguments” (Chapter 7)</u>
<u>Thursday</u> 10/01	Researching Last Day to Drop Class with W	Readings: Readings: “The Masque of the Red Death,” “Super-Rich jet off to Disaster Bunkers Amid Coronavirus Outbreak,” “Liar!,” “A.I. Is Not Sentient. Why Do People Say It Is?” Due: <u>Research and Argumentation Essay</u>
Week 7 <u>Tuesday</u> 10/06	Creating Literary Connections: Short Stories	Readings: “The Tell-Tale Heart,” “Clean,” “A Good Man Is Hard To Find,” “From Mystery and Manners,” From ‘One of My Babies’: The Misfit and the Grandmother”
<u>Thursday</u> 10/08	Creating Literary Connections: Poetry	Readings: “Death Be Not Proud,” Do Not Go Gentle Into That Good Night,” Because I Could Not Stop For Death,” “The Road Not Taken,” “From the Road Not Taken: Finding America In The Poem Everyone Loves and Almost Everyone Gets Wrong” End of Course Discussion Board is Open.
Week 8 <u>Tuesday</u> 10/13	Final Exam	Due: <u>Synthesis Essay Exam</u>
<u>Thursday</u> 10/15	Last Day	<u>Class Reflection</u> Due: <u>End of Course Discussion Board</u>
<u>Friday</u> 10/16	Grades Due by 9:00AM	

DMSO-1342.10A0
INTERMEDIATE ULTRASOUND PHYSICS
Fall 2026

Instructor: Hector Martinez
Office: WTC-1103
Phone: 903-782-0734
Email: hmartinez@parisjc.edu

Meeting Location: WTC1106
Meeting Days: Wednesday
Meeting Times: 8:00am – 12:00pm
Office Hours: Scheduled Only

Course Description:

Continuation of Basic Ultrasound Physics. includes interaction of ultrasound with tissues, mechanics of ultrasound production and display, various transducer designs and construction, quality assurance, bioeffects, and image artifacts. May introduce methods of Doppler flow analysis.

Credits: SCH = 2 lecture and 4 laboratory hours per week, from approved course list

Prerequisite(s):
DMSO 1302
DMSO 2351

Required Textbook(s) and Materials:

Understanding Ultrasound Physics
ISBN 9780962644450

Course Goals and Objectives:

1. Describe pulse-echo principles and actions.
2. Identify instrument options and transducer selection.
3. Identify common image artifacts; and describe potential bioeffects

Course Requirements and Evaluation:

In order to pass DMSO 1342, the student must complete all objectives and achieve a final average grade of 75 or higher:

Exams 50%
Quizzes 30%
Final Exam 10%
Lab Assignments 10%

The weighted average of the exams (unit and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the weighted exam average is below 75.0%, the student will receive the grade of "D", or lower for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination and must be completed by the next scheduled class day.

Missed quizzes cannot be made up and will result in a grade of zero.

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades. No extra credit will be offered.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student.

The last day to withdraw with a grade of "W" will be November 12, 2026.

Diagnostic Medical Sonography students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of diagnostic sonography:

- 1. During inclement weather on classroom days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend clinical because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.*
- 2. Students missing 60 minutes or less of classroom during a given day will receive a tardy. Students missing more than 60 minutes will be given an absence. A tardy or absence such as arriving late or leaving early may occur at any point during the day.*
- 3. Three (3) tardies = one (1) absence.*
- 4. Permission to enter the classroom will be left to the discretion of the classroom instructor.
A. Students must demonstrate accountability. If a student reports to the classroom with an illness which may pose a threat to others, he/she will be dismissed from the classroom and will receive an absence.*
- 5. Students who are absent will be required to make up lab hours if required.
A. Should the student miss the make-up hours it will be considered an absence.*
- 6. Students missing any time after three (3) absences per course per semester must, upon return to school, make a request to the Program Coordinator or the Director of Health Occupations, to discuss absences and meet with the extenuating circumstance committee. The student must provide supporting evidence to validate the necessity of the absence*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

12/2 Week 15	Review	Review
12/07-12/09 Week 16	Finals	Final Exam

You will be expected to read the assigned content from the chapters before each class. Please reference your content sections, because it may not always be necessary to read the entire chapter. Expect a quiz each week. Missed quizzes result in a ZERO grade. Each exam may be comprehensive.

Biol 1406 40A0
Biology for Science Majors I
Fall 2026

Instructor: Dr. Jeanmarie Stiles

Office: GC 208

Phone: 903-457-8717

Email: jstiles@parisjc.edu

Office Hours: MTWR 11-1:30. Please email before visiting the Greenville Center to schedule an appointment.

Meeting Location: GC 218 Lect - GC 214 Lab

Meeting Days: MW Lec and TR Lab

Meeting Times: 8:00-9:15 pm Lec and Lab

Course Description:

Fundamental principles of living organisms will be studied, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Concepts of cytology, reproduction, genetics, and scientific reasoning are included.

Laboratory activities will reinforce the fundamental principles of living organisms, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Study and examination of the concepts of cytology, reproduction, genetics, and scientific reasoning are included.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Recommended prerequisite: MATH 1314 or 1414 Successful completion of College Algebra or concurrent enrollment in higher-level mathematics is recommended.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Brooker: Connect for Biology 6e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition to the McGraw-Hill resources, you will need a binder with loose leaf paper, a pen, pencil, fine tipped black sharpie marker and a dry erase marker. Bring a scantron form #882e and your pencil to every test and quiz. Scantrons can be purchased at the PJC Book Store.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Describe the characteristics of life.
2. Explain the methods of inquiry used by scientists.
3. Identify the basic requirements of life and the properties of the major molecules needed for life.
4. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
5. Describe the structure of cell membranes and the movement of molecules across a membrane.
6. Identify the substrates, products, and important chemical pathways in metabolism.
7. Identify the principles of inheritance and solve classical genetic problems.
8. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
9. Describe the unity and diversity of life and the evidence for evolution through natural selection.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem-solving to make informed decisions in the laboratory.

3. Communicate effectively the results of scientific investigations.
4. Describe the characteristics of life.
5. Explain the methods of inquiry used by scientist.
6. Identify the basic properties of substances needed for life.
7. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
8. Describe the structure of cell membranes and the movement of molecules across a membrane.
9. Identify the substrates, products, and important chemical pathways in metabolism.
10. Identify the principles of inheritance and solve classical genetic problems.
11. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
12. Describe the unity and diversity of life and the evidence for evolution through natural selection.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Lecture & Lab:	Lecture exams (5) & final exam	6 tests x 90 pts = 540 pts
	Lecture activities	15 homework x 10 pts = 150 pts
		Online quiz = 10 pts
	Lab activities and quizzes	= 260 pts
	Group project: Scientific Inquiry	= 40 pts
	Total	1000 pts

Grading Scale:

Points	Letter Grade
900 - 1000	A
800 – 899	B
700 – 799	C
600 – 699	D
0 – 599	F

There will be several major exams and one comprehensive final exam. Lecture assignments, such as McGraw-Hill Connect homework, quizzes, written assignments, and video or journal reviews will also be included in your grade. Lecture average is 70%, and laboratory work accounts for 30% of your total course grade. The lecture exams will include multiple choice, true-false, matching and subjective questions (critical thinking, essay, and short answer) over class notes, text readings, and any additional outside reading that may be assigned. About 50% to 80% of the points awarded on exams may come from subjective questioning (essay, short answer, and completion).

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard

under the Content tab. Your first task is to click on a MGH link, then you will be directed to Connect where you must register for the MGH Connect course. How to register is described in detail under the Start Here folder in Blackboard. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment. In addition, you must **complete the syllabus quiz before the college official reporting Day (ORD), Sept. 9th, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.**

When registering in MGH Connect, enter your PJC e-mail and select a password. Here is a link to set up your PJC email if you do not have yours activated yet:

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you are concerned about your grades at mid-term.

Make-Up Work: If you miss a major exam due to an emergency, at the instructor's discretion, you may be allowed to take a comprehensive make-up exam near the end of the semester. You are only allowed to miss one exam. If you are aware of a pending absence from class, notify your instructor as early as possible. You may be able to take the exam early with instructor approval. If permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours.

Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit an exam/assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 3 percent deduction per day, you may be given permission to submit homework assignments and quizzes up to two weeks late.

All online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Late assignments and exams will not be accepted two weeks prior to the final exam. Under no circumstances may the final exam be taken late. Most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Every student should come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand.

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Course Communication: Outside of the classroom, Bb messages is the preferred method of communication. Secondly, your official PJC email may be used and should include your full name and course number with all correspondences. You can expect a reply to your email within 24 hours, Monday - Thursday 8:00 am – 3:00 pm.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an in-class announcement, Bb announcement, and/or email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule:

Due 1 pm	Unit	Lesson	Lecture	Lab
8/27		Start Here folder	#1 Assignment: Syllabus Quiz Connect Orientation Assignment	
9/9		Start Here folder	Brainstorming activity	
9/9	1	1	Ch 1: Intro to Biology	Lab Safety
9/9	1	2	Ch 2: Chemistry I Chemistry activity	Metric System Metric Quiz
9/9	1	3	Ch 3: Chemistry II	Microscope Microscope Quiz
9/10	1		Unit 1 exam (Ch 1-3)	
9/23	2	4	Ch 4: Cells	Cells Cell Quiz
9/23	2	5	Ch 5: Membranes	Passive/Active Transport Quiz
9/23	2	6	Ch 6: Energy Enzymes activity	Biotech Lab
9/24	2		Unit 2 exam (Ch 4-6)	
10/7	3	7	Ch 7: Cell Respiration Cell respiration activity	Biotech lab
10/7	3	8	Ch 8: Photosynthesis	Photosynthesis Photosynthesis Quiz
10/8	3		Unit 3 exam (Ch 7-8)	
10/21	4	9	Ch 9: Cell Communication	Biotech Lab
10/21	4	10	Ch 16: Cell Cycle	Cell Cycle Cell Cycle Quiz
10/21	4	11	Ch 17: Inheritance	Genetics I & II Genetics Quiz
10/22	4		Unit 4 exam (Ch 9, 16, 17)	
11/11	5	12	Ch 11: DNA	Biotech Lab
11/11	5	13	Ch 12: Gene Expression I	Biotech Lab
11/11	5	14	Ch 14: Gene Expression III	Biotech Lab
11/11	5	15	Ch 15: Mutation	Biotech Lab
11/12	5		Unit 5 exam (Ch 11, 12, 14, 15)	

11/19		Group Project folder	Scientific Inquiry Group Project	Discuss Group Projects
12/2	6	16	Ch 18: Epigenetics	Biotech Lab
12/2	6	17	Ch 20: Developmental Genetics	Biotech Lab
12/2	6	18	Ch 21: Genetic Technologies	Biotech Lab
12/3	6	18	Unit 6 online quiz (Ch 18, 20-21)	Review for final exam
			Comprehensive final exam is 8-9:15 Monday, Dec.7	

Dual Credit and AP4 Senior English 2322.730

Senior English

Fall 2026

Instructor: Karon Jones

Room: 1609

E-mail: joneskd@greenvilleisd.com

Tutoring Hours: Monday and Thursday by appointment

Course Description:

Dual Credit English IV is designed for students to complete both senior level high school English and the second two semesters (2322 and 2323) of English at Paris Junior College. Dual Credit English IV is designed for students to develop and strengthen their skills in language arts, both as a reader and a writer. **This class will be a survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.** Students will also strengthen writing skills by producing carefully crafted projects and research papers. Traditionally, English IV focuses on British literature; however, other texts may be explored. The coursework is designed to help students master both the TEKS/ELA Standards and College and Career Readiness Standards.

Completion Requirements:

- Final Score of 70 or above in the class
- TSI Requirement: Reading, 340 +; Writing, 4 or above

Textbook:

Greenblatt, Stephen, eds. et al. The Norton Anthology of English Literature: Shorter 11th Edition, Volume 1. New York: Norton, 2024. ISBN#978-1-324-06292-9

Novel of Instructor's Choice. Because this is a college-level class, all assigned texts will be at a college level as specified by Paris Junior College.

Any MLA style book or online source, like Purdue Owl.

Required Assignment

Research paper, utilizing MLA documentation and applying the assessment rubric.

First Assignment:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a **grade of "W" is Thursday, November 12th**. The expectation for attendance for GHS is 90%; however, to be successful in this class, attendance and punctuality (avoiding tardiness) is crucial.

Students are responsible for notes and assignments that are missed. **No more than one late paper will be allowed. A late paper will be penalized five points per day and will not be accepted after one week.**

Please keep in mind that these make-up policies apply to extracurricular absences as well. You are not penalized for an extra-curricular absence.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. At GHS phones must be completely out of sight and powered off.

No obscene/vulgar language will be permitted in the classroom.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. (Both the PJC and GHS student handbooks are on the schools' websites.)

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in **honest academic endeavor to the highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others, including the use of AI without proper documentation will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903.782.0211.

Artificial intelligence (AI) English

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. Changes will be posted in Google Classroom.

Mental Health Conditions

Mental health conditions are common and treatable.

Suicide is preventable.

A suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Requirements and Evaluations:

Writing assignments, in-class writing or editing workshops, group work, class discussions, tests and quizzes, lecture/notes, and reading assignments.

Course Policies Concerning Essays:

Essay Assignments: All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due. Submit as a Word or Google Doc attachment.

A research paper turned in without proper documentation (works cited page OR parenthetical citation) will receive a zero. Such an act constitutes plagiarism and will be subject to the above consequences.

Peer Review Assignments:

There will be an in-class peer review exercise for each assigned essay. These scheduled peer review exercises count as quiz grades.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

GHS Classroom Procedures:

- **Cell phones:** Cell phones or any other electronic devices are not allowed to be on during the academic day. They must be powered off and stored away. The specifics and consequences are covered in the Student Handbook and Code of Conduct.
- **Absences:** It is your responsibility to find out what you missed after an absence. Please ask a classmate for assistance to overcome missing assignments]. At the end of class, I will dismiss you. Please do not start gathering your belongings until instructed to do so.
- **Daily objectives and expectations will be in Google Classroom.** Some work will be done through Google Classwork. Other assignments will be on paper or in your notebook. **Make up work:** All make up work must be completed within 2 days of returning to school unless you have personally obtained an extension from your teacher for extenuating circumstances.
- **Late work:** All late work may be subjected to a point deduction, especially if it is habitual.
- **Starting & finishing class:** With rare exceptions, you will have an assignment on the board when class begins. I should not have to ask you to begin this assignment.
- **Cheating** - I believe that your ideas are important—use them. If you borrow from others' work, document appropriately. Avoid plagiarism. Cheating carries an automatic zero; cheating includes presenting someone else's work or work from an online or offline source as your own, assisting others in cheating, copying from a classmate or online or offline source, or any other means of dishonestly gaining an unfair advantage on any classroom assignment.

Grading Policy: Grades for each grading period will be calculated according to the following percentages:
Essays and Projects: 70%

Lab: 15%

Peer Reviews, daily assignments: 15%

Both the final exam and the documented argumentative essay are required.
Evaluation rubrics are posted in Google Classroom for each writing assignment.

GHS AI Policy

In addition to Paris Junior College's expectations regarding AI, the following is true for GHS:

You may use AI programs e.g. ChatGPT in ethical ways in this classroom; in fact, we will explore many ethical uses throughout the course. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. Beware that use may also stifle your own independent thinking and creativity. **You may not submit any work generated by an AI program as your own.** Any unethical use of AI, submitting the ideas or text as your own, is covered under the Academic Honesty statement above. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work.**

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. **It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form.** For more information, please refer to the Paris Junior College Catalog or Student Handbook. Accommodation requests must be filed with PJC for dual credit classes; **GHS accommodations do not apply to dual credit classes.**

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.

4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Foundational Component Area: Language, Philosophy, and Culture

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate **Critical Thinking Skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate **Communications Skills**—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate **Team Work**—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate **Personal Responsibility**—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 2322 Course-Level):

1. Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.
2. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
3. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
4. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
5. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in **honest academic endeavor to the highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college. **The students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup**

work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

GHS AI Policy

In accordance with the institution's Academic Honesty Policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

You may use AI programs e.g. ChatGPT in ethical ways in this classroom; in fact, we will explore many ethical uses throughout the course. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. Beware that use may also stifle your own independent thinking and creativity. **You may not submit any work generated by an AI program as your own.** Any unethical use of AI, submitting the ideas or text as your own, is covered under the Academic Honesty statement above. **These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work.**

Course Policies:

Essay Assignments: All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due. Submit as a Word or Google Doc attachment.

The student will be required to complete reading assignments, participate in class group discussions, write research papers over assigned topics, present oral research projects as part of an assigned group, and perform satisfactorily on daily assignments/products. He/She will take exams concerned with ideas presented by literature, techniques discovered in the literature, biographical information on authors, and historical perspective.

PJC Required Text and Assignments:

- Research projects, utilizing 2021 MLA documentation and applying the assessment rubric
- Oral Presentations
- Novel Selections
- Daily Assignments

First 9 Weeks: August 17 - October 16

Reading/Writing with an Analytical Perspective and The Middle Ages and 14th Century Brit Lit

Standards of focus:

- Language Usage: Vocabulary / Literary Conventions
- Reading and Analyzing Literature
- Reading and Analyzing Informational Text
- Speaking & Listening
- Writing in Response - 2 essays will be due this 9 weeks.

Assignments:

- Focused Notes
- Various Content Related Assignments
- Research Paper/Process (MLA 2021): Six Elements of the Epic/student choice of literary epic tales
- Grammar & conventions practice through daily Bell Ringers

Literature:

The Great Greeks: Socrates, Plato, Aristotle, Euripides
Various early world literature pieces

- Literature, Poetry
 - ["The Dream of the Rood"](#)
 - Epic Qualities: ["Beowulf"](#)
 - ["Sir Gawain and the Green Knight"](#)
 - Dante's Inferno*

Second 9 Weeks: October 17- December 18

**Reading/Writing with an Analytical Perspective and the 15th through the 18th Centuries
Brit Lit**

Standards of focus:

- Language: (Vocabulary and Conventions)
- Reading and Analyzing Literature
- Reading Informational
- Speaking & Listening
- Argumentative Strategies and Research Methods (MLA 2021)

Assignments:

- Argumentative Essay (MLA 2021)
- Critical Evaluation Essay (MLA 2021)
- Various assignments related to the literature
- Collaborative work on selected pieces
- Grammar & conventions practice through daily Bell Ringers
- PJC Required Labs

Literature:

- *Frankenstein*
- Selected works
 - Chaucer - "Canterbury Tales" (*The Knight* - movie clips)
 - Fabliau - "The General Prologue"
 - "The Miller"
 - "The Wife of Bath"
 - "Legend of King Arthur" - [notes](#)
 - Shakespeare's "Othello" - the play

Course Schedule/Outline (subject to change):

I have received a copy of this syllabus and agree to abide by the expectations of both PJC and GHS as set forth in the syllabus.

Name:

Date:

ENGL 2322.10N0/64N0
British Literature I
(16 Weeks) Fall 2026

Instructor:	Charles Conrad Martin	Meeting Location:	Math & Science: Room 116/BlackBoard Collaborate
Office:	Paris/MS/111M	Meeting Days:	Monday/Wednesday
Phone:	Ext. 1485	Meeting Times:	8:00 AM – 9:15 AM
Email:	cmartin@parisjc.edu	Office Hours:	M/W: 9:30AM – 12:30PM; T/R: 7:00 AM – 9:00 AM

Course Description:

A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Credits: 3 SCH = 3 lecture hours and 0 laboratory hours per week.

TSI Requirement: A score in the range of 945–990 on the ELAR CRC Test and a score of at least 5 on the Essay Test or an ELAR CRC Test score.

Prerequisite(s): Successful completion of ENGL 1301 and ENGL 1302.

Required Textbook(s) and Materials:

- Greenblatt, Stephen, ed. et al. The Norton Anthology of English Literature: Eleventh Edition, Package I. New York: Norton, 2024. ISBN: 978-1-324-06275-2.
- Any current MLA style handbook or reliable online MLA source, such as the Purdue OWL MLA Formatting and Style Guide:
https://owl.purdue.edu/owl/research_and_citation/mla_style/mla_formatting_and_style_guide/mla_formatting_and_style_guide.html
- Reliable access to Blackboard, PJC email, a word processor capable of MLA formatting, and a way to save/submit files in the required format.

Syllabus, Campus-Wide Access Program

Dragon Now Course Material Information:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives

Foundational Component Area: Language, Philosophy, and Culture

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Course Focus:

This course focuses on British literary history from the Anglo-Saxon period through the Eighteenth Century; major literary genres including prose, poetry, drama, and early fiction; historical, linguistic, and cultural contexts; literary analysis and criticism; research; and MLA documentation.

Required Core Objectives - Student Learning Outcomes (Core Curriculum-Level):

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Social Responsibility--to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
- Demonstrate Personal Responsibility--to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

- Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
- Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
- Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 2322 Course-Level):

This course is designed to prepare students with skills for lifelong learning. Upon successful completion of this course, students will:

- Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.

- Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
- Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
- Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
- Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Course Requirements and Evaluation

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Rubrics

Students will complete regular reading, discussion, and a required research paper that utilizes MLA documentation and applies the assessment rubric. The instructor may adjust minor assignment values as needed, but the research paper will remain a major required assignment.

Course Grade Weight Rubric:

Category	Value	Description
Research Paper	30%	A 4 – 6-page required research-based critical paper using MLA documentation and appropriate critical approaches to literature.
Group Presentation	15%	Students will be placed into small groups and will craft a 5-minute video presentation on a British author and one of their works. Your group's presentation will be uploaded onto Blackboard for the purpose of a Discussion Board.
Paper Proposal	10%	Provide a first draft, introductory paragraph for your Research Paper that includes a thesis that can reasonably be argued for and against.
Quizzes	20%	Quizzes covering the course reading material.
Attendance, Participation, and Discussion	10%	Thoughtful in-class discussion, collaborative work, respectful engagement, and any instructor-assigned Discussion Boards. Complete the required weekly discussion boards by creating a unique response to the original

Category	Value	Description
		post with a minimum of 3 sentences, and respond to at least 2 other classmates posts.
Final Exam	15%	Exam will be done in class or via Respondus, and will cover all literary material from the course.

Research Paper Assessment Rubric:

Criterion	Value	Description
Thesis, Argument, and Critical Approach	20%	Clear, arguable literary claim; focused purpose; appropriate critical lens or interpretive method.
Literary Analysis and Historical/Cultural Context	20%	Close reading of assigned texts; meaningful use of historical, linguistic, cultural, political, or religious context.
Research Quality and Source Evaluation	20%	Credible scholarly sources; thoughtful evaluation of evidence; relevant primary and secondary support.
Organization and Synthesis	15%	Logical structure; coherent paragraph development; effective synthesis of textual evidence and research.
Style, Voice, and Academic Credibility	10%	Clear academic prose, precise diction, appropriate tone, and persuasive presentation of ideas.
MLA Documentation	10%	Accurate MLA format, in-text citations, quotation/paraphrase integration, and Works Cited page.
Edited American English / Mechanics	5%	Grammar, punctuation, spelling, usage, and proofreading consistent with college-level writing.

Grading Scale: A = 90-100; B = 80-89; C = 70-79; D = 60-69; F = 0-59.

Course Policies

Submission Format:

Unless otherwise stated, essays and research assignments must be typed in 12 pt. Times New Roman font style, double-spaced, formatted according to MLA guidelines, and submitted through Blackboard via an uploaded Word Document by the posted deadline. Students should save backup copies of all work.

Late Work:

Assignment deadlines are firm. Unless an extension has been approved before the deadline.

Research and Documentation:

Students are responsible for ethical research practices, accurate MLA citation, careful source evaluation, and clear distinction between their own ideas and the ideas, language, or media of others. Research work may require drafts, source notes, conferences, or process materials in addition to the final paper.

Revision and Drafting:

Students may request to revise their research paper for an improved grade if time permits. It is at the instructor's discretion if the request will be accepted.

Exams:

All exams must be taken in class or arranged to be taken online via Blackboard Respondus Monitoring with a camera. Some make-up work may be required at a Paris JC Testing Center.

Reading and Participation:

Students should come to class prepared, having completed assigned readings before class. Participation includes attentive listening, respectful discussion, collaboration, written preparation, and thoughtful engagement with challenging texts and ideas, and completion of any in-class writing activities.

Technology:

Students are responsible for maintaining access to Blackboard, PJC email, and required course materials. Technology issues do not automatically excuse late work; students should plan ahead and communicate with the instructor as soon as problems arise.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12th, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

English A.I. Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Class announcement
- Blackboard
- Student e-mail

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

The schedule is tentative and may be adjusted to meet class needs. Students are responsible for announcements made in class, posted in Blackboard, and sent through official PJC email.

!!!ALL ASSIGNMENTS ARE DUE BY 11:59PM THE NIGHT OF THE DUE DATE!!!

DATE	TOPIC	READINGS/LECTURES/ASSIGNMENTS
Week 1 <u>Monday</u> 08/24	Introduction/Syllabus/Literature of the Early Middle Ages.	Readings: Bede and Caedmon's Hymn, The Wife's Lament Discussion Board Week
<u>Wednesday</u> 08/26	Literature of the Early Middle Ages.	Readings: The Beowulf: Youth
Week 2 <u>Monday</u> 08/31	Literature of the Early Middle Ages.	Readings: The Beowulf: Age Due: Discussion Board #1
<u>Wednesday</u> 09/02	Literature of the Twelfth and Thirteenth Centuries	Readings: The Beowulf Catch-up if necessary, Chevrefoil Quiz Week: Literature of the Twelfth and Thirteenth Century
Week 3 <u>Monday</u> 09/07	No Class	
<u>Wednesday</u> 09/09	Literature of the Twelfth and Thirteenth Centuries Official Reporting Day	Readings: The Madness of Tristan, The Deaths of Tristan and Ysolt If you have not participated in the class before the Official Reporting Day, you will be dropped from the course. Due: Literature of the Twelfth and Thirteenth Century Quiz
Week 4 <u>Monday</u> 09/14	Literature of the Twelfth and Thirteenth Centuries	Readings: Lanval, Bisclavret Quiz Week: Literature of the Twelfth and Thirteenth Centuries
<u>Wednesday</u> 09/16	Literature of the Fourteenth and Fifteenth Centuries	Readings: Sir Gawain and the Green Knight: Fitt I & II
Week 5 <u>Monday</u> 09/21	Literature of the Fourteenth and Fifteenth Centuries	Readings: Sir Gawain and the Green Knight: Fitt III & IV Due: Literature of the Twelfth and Thirteenth Centuries Quiz
<u>Wednesday</u> 09/23	Literature of the Fourteenth and Fifteenth Centuries	Readings: The Canterbury Tales: The General Prologue
Week 6 <u>Monday</u> 09/28	Literature of the Fourteenth and Fifteenth Centuries	Readings: The Canterbury Tales: The Miller's Prologue and Tale
<u>Wednesday</u> 09/30	Literature of the Fourteenth and Fifteenth Centuries	Readings: The Canterbury Tales: The Wife of Bath's Prologue and Tale
Week 7 <u>Monday</u>	Literature of the Fourteenth and Fifteenth Centuries	Readings: The Canterbury Tales: The Nun's Priest Tale

10/05		Quiz Week: Literature of the Fourteenth and Fifteenth Centuries Discussion Board Week
<u>Wednesday</u> 10/07	Literature of the Sixteenth Century Petrarchan Love Poems	Readings: Whoso List to Hunt, The Passionate Shepherd to His Love, The Bait, The Nymph's Reply to the Shepherd, The Lie
Week 8 <u>Monday</u> 10/12	No Class	Due: Literature of the Fourteenth and Fifteenth Centuries Quiz, Discussion Board #2
<u>Wednesday</u> 10/14	Literature of the Sixteenth Century	Readings: Doctor Faustus: Prologue – Chorus 3
Week 9 <u>Monday</u> 10/19	Literature of the Sixteenth Century	Readings: Doctor Faustus: Scene 9 – Epilogue
<u>Wednesday</u> 10/21	Literature of the Sixteenth Century	Readings: Sonnets: 1, 3, 19, 20, 129, 130 Quiz Week: Literature of the Sixteenth Century Due: Group Video Presentation
Week 10 <u>Monday</u> 10/26	Literature of the Seventeenth Century Metaphysical Poems	Readings: The Sun Rising, The Indifferent, The Canonization, The Flea, Elegy 19, Holy Sonnet 10, Holy Sonnet 14 Discussion Board Week
<u>Wednesday</u> 10/28	Literature of the Seventeenth Century	Readings: The Duchess of Malfi: Act I & Act II Due: Literature of the Sixteenth Century Quiz
Week 11 <u>Monday</u> 11/02	Literature of the Seventeenth Century	Readings: The Duchess of Malfi: Act III Due: Discussion Board #3 (Presentation Discussion)
<u>Wednesday</u> 11/04	Literature of the Seventeenth Century	Readings: The Duchess of Malfi: Act IV & V Due: Paper Proposal
Week 12 <u>Monday</u> 11/09	Literature of the Seventeenth Century The Counter Movement	Readings: When I consider How My Light Is Spent, Paradise Lost: Book 1, 1 – 798
<u>Wednesday</u> 11/11	Literature of the Seventeenth Century	Readings: Paradise Lost: Book 2 (The Epic Counsel), 1 - 485, Paradise Lost: Book 4 (Satan's Soliloquy only), 1 - 130
<u>Thursday</u> 11/12	Last Day to Drop Class with a W	
Week 13 <u>Monday</u> 11/16	Literature of the Seventeenth Century	Readings: Paradise Lost: Book 9, All Discussion Board Week
<u>Wednesday</u> 11/18	Literature of the Seventeenth Century	Readings: Paradise Lost: Book 10 (The Judgment), 1 – 228, Paradise Lost: Book 10 (First Fight and Reconciliation), 720 – 1104, Paradise Lost: Book 12 (The End), 624 – 649 Quiz Week: Literature of the Seventeenth Century
Week 14		

<u>Monday</u> 11/23	No Class	Due: Final Research Paper, Discussion Board #4
<u>Wednesday</u> 11/25	Thanksgiving Break No Class	Due: Literature of the Seventeenth Century Quiz
Week 15 <u>Monday</u> 11/30	Literature of the Restoration and the Eighteenth Century	Readings: A Description of a City Shower, Verses on the Death of Dr. Swift, A Modest Proposal Discussion Board Week
<u>Wednesday</u> 12/02	Literature of the Restoration and the Eighteenth Century	Readings: An Essay on Man: Epistle 1 & 2, Epistle to Dr. Arbuthnot Quiz Week: Literature of the Eighteenth Century
Week 16 <u>Monday</u> 12/07	Class Review	Class Reflections/Going forward Due: Literature of the Eighteenth Century Quiz, Discussion Board #5
<u>Wednesday</u> 12/09	Last Day Final Exam	British Literature Exam Will be completed in class or via Respondus.
<u>Friday</u> 12/11	Grades Due by 9:00 AM Commencement	

Biol 2401 40A0
Anatomy and Physiology I
Fall 2026

Instructor: Dr. Jeanmarie Stiles

Office: Greenville Center, room 208

Phone: 903-457-8717

Email: jstiles@parisjc.edu (best contact)

Office Hours: MTWR 11-1:30. Please email before visiting the Greenville Center to schedule an appointment.

Meeting Location: GC 218

Meeting Days: MW

Meeting Times: 9:30-10:45 AM

Course Description:

This course will consist of a study of structures and functions of human organ systems and how these organ systems interact to create a functional organism. We will also discuss how various diseases and disorders can disrupt the proper functioning of the organ systems of the human body.

Anatomy & Physiology is a course at PJC for students entering fields in allied health sciences, psychology, physical therapy, physical education, biology, geology, ecology, anthropology, agriculture, and any student who needs a basic understanding of structure and function of the human body and who has an entry level background in biology or nursing. This course is specially designed to be completed in two semesters. The topics discussed in this course are organized so that they form a core that is suitable to satisfy the prerequisites for student advancement.

Credits: SCH = 4 (3 Lecture and 1 Lab) per week

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh: Connect for Hole's Anatomy and Physiology with Proctorio+ 16th edition**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition to McGraw-Hill access, a physical textbook is highly recommended but not required. Other required course materials include a properly functioning computer with a stable internet connection, a webcam (internal or external), and microphone. If taking a traditional face to face course, bring a folder with loose leaf paper, pen, pencil, and dry erase marker to each class. Purchase one package of scantrons #882e at the beginning of the semester as well as two pencils with erasers to bring to every test and quiz.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.

3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Topic	Points
Scientific Inquiry Group Project	40
Lecture homework assignments 12 x 20 points =	240
Lecture exams 5 x 75 points =	375
Lecture Activities	45
Lab Activities	200
Lab Exams 2 x 50 points =	100
Total points	1000

Course Curve: 5 pts will be added to your total points earned if all course work has been sincerely attempted and submitted prior to due date posted. This is how course points equate to your final letter grade:

Grading Scale

- A** - 900 points and higher
- B** - 800 points and higher
- C** - 700 points and higher
- D** - 600 points and higher
- F** – 599 points and below

Total Course Points = 1000, so if you earn 862/1000 pts that is an 86.2 or B avg. See the Gradebook tab within Blackboard for a list of all grades. Each assignment clearly indicates the point value and high scores are taken on MGH assignments with 2 attempts.

Orientation/Introductory Assignments are crucial to navigate the course. Other lecture activities such as discussion boards, worksheets, and video assignments may be found within the lesson folders of the Blackboard shell (not MGH).

Metric Quiz has 10 questions, is 20 points, and allows for only 1 attempt. Calculators, phones, notes, internet, etc. are not permitted. Review the metric system before attempting this quiz. You will be asked to complete various conversions. This quiz is timed and proctored.

Chapter Homework Assignments involve 12 assignments at 20 pts each = 240 pts. You have 1 attempt at each assignment. Before attempting an assignment, print the slideshow in outline form, read the chapter in your book and add notes to the slideshow. Assignments are not timed and you can do a little work at a time and then return later. Homework assignments

are designed to help you understand the subject matter and study for exams. You may see similar questions again on your unit exams. You may take notes to help you study. The chapter assignments may be submitted late with a 5% per day penalty.

Lecture Exams are timed, proctored, and predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- 1 attempt- 75 pts

Exam 2- 1 attempt- 75 pts

Exam 3- 1 attempt- 75 pts

Exam 4- 1 attempt- 75 pts

Comprehensive final exam – 1 attempt – 75 pts

Final Exam: The review for the final exam is uploaded in Blackboard, but if you have questions contact me. Make yourself a good review and you should do well. The final exam is directly related to the topics in the review. Questions on the final exam are not exact repeats from previous homework and exams. If submitted by the posted due date and time, the final exam replaces a low or missed lecture exam.

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered. Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course. No notes, ebook, websites, phones, calculators, etc. may be used on proctored exams and quizzes.

Scientific Inquiry Group Assignment is found on Blackboard (not MGH) and is worth 40 pts. You will be assigned to a group after ORD. Assignment instructions and an example paper are posted. This is a lengthy assignment, so read the instructions and rubric for expectations and consider sending a tentative experimental design or early rough draft to your instructor for review. Allow at least one week for feedback. Demonstrate individual contributions to the group by posting regularly to the Discussion.

Virtual Labs include numerous online lab activities for 200 pts possible. Labs are user friendly and brief. Watch the tutorial for a thorough explanation of the concept and simulated activity. If you experience technical problems, give MGH staff a call immediately and they will help you. If necessary, email your instructor with a case number and detailed description of the problem after first contacting MGH.

Bone and Muscle Lab Exams are timed, worth 50 pts each, and are based on the practice exams found in Connect. **No notes, internet, books, etc. may be used when taking the actual exam. No exceptions.** Complete the practice exams multiple times to do well on the actual exams. The practice exams can be taken as many times as you like until the posted due date and time, after which they close and will not reopen. The actual lab exam opens the morning after the practice lab exam closes. These exams primarily utilize the Anatomy and Physiology Revealed (APR) resource found within the McGraw-Hill platform. This is where

you can find most of the images seen on the test. It is part of the learning process to find the answers, so answers will not be provided for you. Take a little time to familiarize yourself with this valuable tool and begin early to study for these exams. By utilizing links to APR found throughout the ebook, you will gain a deeper understanding of human anatomy.

Extra Credit assignments provide dedicated students with the opportunity to earn a couple of extra points. These assignments are scattered throughout the Bb course content, so move through each folder sequentially to find, complete, and submit them. These assignments may only be submitted if all other assignments and the exam for a particular unit have been completed as scheduled. **Extra credit cannot be submitted late and there is no big extra credit assignment offered at the end of the semester.** Submit extra credit for a particular unit prior to the unit exam due date and time. If all questions on an extra credit assignment are sincerely attempted, one point may be earned. If all questions are complete and correct, two points may be earned. If one or more questions are omitted or carelessly/incompletely answered, no credit is earned.

This is a challenging course, but you have an excellent chance of success if you complete all assignments on time and try your best.

Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, then you will be directed to MGH Connect where you must register for the MGH Connect course. A MGH folder is posted within the Start Here section of your course. If you have trouble getting access, give MGH staff a call immediately. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment and all other MGH assignments and exams. In addition, you must **complete the syllabus quiz prior to the college official reporting day (ORD), Sept 9th, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.**

When registering in MGH Connect, enter your PJC e-mail and select a password. System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System
<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units plus the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (recall some similar questions in the homework may reappear on your unit exams), complete the labs for each unit, and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Make-Up Work: Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit a MGH lecture assignment as scheduled, email your instructor with an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5% deduction per day, a student may be given permission to submit MGH homework assignments up to two weeks late. For a face to face course, if permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours, and within two weeks of the exam. Make up exams may include both multiple choice and essay questions. Online students may submit exams early, but not late. **Online lab activities may not be submitted late.**

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, Bb messages is the preferred method of communication. Secondly, your official PJC email may be used and should include your full name and course number with all correspondences. You can expect a reply to your email within 24 hours, Monday - Thursday 8:00 am – 3:00 pm.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day to withdraw from a course with a grade of **“W” is Nov 12th**. Failure to officially withdraw will result in your receiving a grade of F.

Class Conduct: Do not photograph or make a video or audio of the class lectures, labs or your instructor. Turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence: (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Due 1:00 PM	Unit	Lesson	Lecture Assignments	Lab Assignments
8/27		Start Here folder	#1 Assignment: Syllabus Quiz MGH Connect Orientation Assignment APR Introduction Assignment Virtual Labs Introduction Assignment Practice taking a proctored quiz	
9/15	1	1	Homework (HW) Chapter (Ch) 1 Introduction	Safety Lab
9/15	1	2	HW Ch 2: Chemical Basis	Metric Labs Metric Quiz TBA Chemistry Labs
9/15	1	3	HW Ch 3: Cells	Cell Labs
9/16	1		Exam 1 (chapter 1, 2, 3)	
10/6	2	4	HW Ch 4: Cellular Metabolism	Cell Metabolism Labs Enzyme Labs
10/6	2	5	HW Ch 5: Tissues	Histology Labs
10/6	2	6	HW Ch 6: Integumentary System	Integumentary Lab
10/7	2		Exam 2 (chapter 4, 5, 6)	
10/27	3	7	HW Ch 7: Skeletal System	Practice Bones Exam: closes 11/3/2026 at 1pm Bones Lab Exam: opens 11/4/2026, 7am and is due by 11/7/2026, 1pm
10/27	3	8	HW Ch 8: Joints of the Skeletal System	
10/27	3	9	HW Ch 9: Muscular System	Muscle Labs due 3/27 Practice Muscle Exam: Closes 11/3/2026 at 1pm Muscle Lab Exam: opens 11/4/2026, 7am and is due by 11/7/2026, 1pm

10/28	3	9	Exam 3 (chapter 7, 8, 9)	
11/19			Scientific Inquiry Group Project	
11/22	4	10	HW Ch 10: Nervous System I – Basic Structure	Nervous System Labs
11/22	4	11	HW Ch 11: Nervous System II – Divisions	
11/22	4	12	HW Ch 12: Nervous System III – Senses	Senses Labs
11/23	4		Exam 4 (chapter 10, 11, 12)	
	5	13	Comprehensive final exam is Wednesday, Dec. 9, 9:30-10:45 AM	Course ends

Biol 2401 20D2
Anatomy and Physiology I
Fall 2026

Instructor: Dr. Jeanmarie Stiles

Office: Greenville Center, room 208

Phone: 903-457-8717

Email: jstiles@parisjc.edu (best contact)

Office Hours: MTWR 11-1:30. Please email before visiting the Greenville Center to schedule an appointment.

Meeting Location: internet

Meeting Days: internet

Meeting Times: internet

Course Description:

This course will consist of a study of structures and functions of human organ systems and how these organ systems interact to create a functional organism. We will also discuss how various diseases and disorders can disrupt the proper functioning of the organ systems of the human body.

Anatomy & Physiology is a course at PJC for students entering fields in allied health sciences, psychology, physical therapy, physical education, biology, geology, ecology, anthropology, agriculture, and any student who needs a basic understanding of structure and function of the human body and who has an entry level background in biology or nursing. This course is specially designed to be completed in two semesters. The topics discussed in this course are organized so that they form a core that is suitable to satisfy the prerequisites for student advancement.

Credits: SCH = 4 (3 Lecture and 1 Lab) per week

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh: Connect for Hole's Anatomy and Physiology with Proctorio+ 16th edition**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition to McGraw-Hill access, a physical textbook is highly recommended but not required. Other required course materials include a properly functioning computer with a stable internet connection, a webcam (internal or external), and microphone. If taking a traditional face to face course, bring a folder with loose leaf paper, pen, pencil, and dry erase marker to each class. Purchase one package of scantrons #882e at the beginning of the semester as well as two pencils with erasers to bring to every test and quiz.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.

3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Topic	Points
Scientific Inquiry Group Project	40
Lecture homework assignments 12 x 20 points =	240
Lecture exams 5 x 75 points =	375
Lecture Activities	45
Lab Activities	200
Lab Exams 2 x 50 points =	100
Total points	1000

Course Curve: 5 pts will be added to your total points earned if all course work has been sincerely attempted and submitted prior to due date posted. This is how course points equate to your final letter grade:

Grading Scale

- A** - 900 points and higher
- B** - 800 points and higher
- C** - 700 points and higher
- D** - 600 points and higher
- F** – 599 points and below

Total Course Points = 1000, so if you earn 862/1000 pts that is an 86.2 or B avg. See the Gradebook tab within Blackboard for a list of all grades. Each assignment clearly indicates the point value and high scores are taken on MGH assignments with 2 attempts.

Orientation/Introductory Assignments are crucial to navigate the course. Other lecture activities such as discussion boards, worksheets, and video assignments may be found within the lesson folders of the Blackboard shell (not MGH).

Metric Quiz has 10 questions, is 20 points, and allows for only 1 attempt. Calculators, phones, notes, internet, etc. are not permitted. Review the metric system before attempting this quiz. You will be asked to complete various conversions. This quiz is timed and proctored.

Chapter Homework Assignments involve 12 assignments at 20 pts each = 240 pts. You have 1 attempt at each assignment. Before attempting an assignment, print the slideshow in outline form, read the chapter in your book and add notes to the slideshow. Assignments are not timed and you can do a little work at a time and then return later. Homework assignments

are designed to help you understand the subject matter and study for exams. You may see similar questions again on your unit exams. You may take notes to help you study. The chapter assignments may be submitted late with a 5% per day penalty.

Lecture Exams are timed, proctored, and predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- 1 attempt- 75 pts

Exam 2- 1 attempt- 75 pts

Exam 3- 1 attempt- 75 pts

Exam 4- 1 attempt- 75 pts

Comprehensive final exam – 1 attempt – 75 pts

Final Exam: The review for the final exam is uploaded in Blackboard, but if you have questions contact me. Make yourself a good review and you should do well. The final exam is directly related to the topics in the review. Questions on the final exam are not exact repeats from previous homework and exams. If submitted by the posted due date and time, the final exam replaces a low or missed lecture exam.

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered. Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course. No notes, ebook, websites, phones, calculators, etc. may be used on proctored exams and quizzes.

Scientific Inquiry Group Assignment is found on Blackboard (not MGH) and is worth 40 pts. You will be assigned to a group after ORD. Assignment instructions and an example paper are posted. This is a lengthy assignment, so read the instructions and rubric for expectations and consider sending a tentative experimental design or early rough draft to your instructor for review. Allow at least one week for feedback. Demonstrate individual contributions to the group by posting regularly to the Discussion.

Virtual Labs include numerous online lab activities for 200 pts possible. Labs are user friendly and brief. Watch the tutorial for a thorough explanation of the concept and simulated activity. If you experience technical problems, give MGH staff a call immediately and they will help you. If necessary, email your instructor with a case number and detailed description of the problem after first contacting MGH.

Bone and Muscle Lab Exams are timed, worth 50 pts each, and are based on the practice exams found in Connect. **No notes, internet, books, etc. may be used when taking the actual exam. No exceptions.** Complete the practice exams multiple times to do well on the actual exams. The practice exams can be taken as many times as you like until the posted due date and time, after which they close and will not reopen. The actual lab exam opens the morning after the practice lab exam closes. These exams primarily utilize the Anatomy and Physiology Revealed (APR) resource found within the McGraw-Hill platform. This is where

you can find most of the images seen on the test. It is part of the learning process to find the answers, so answers will not be provided for you. Take a little time to familiarize yourself with this valuable tool and begin early to study for these exams. By utilizing links to APR found throughout the ebook, you will gain a deeper understanding of human anatomy.

Extra Credit assignments provide dedicated students with the opportunity to earn a couple of extra points. These assignments are scattered throughout the Bb course content, so move through each folder sequentially to find, complete, and submit them. These assignments may only be submitted if all other assignments and the exam for a particular unit have been completed as scheduled. **Extra credit cannot be submitted late and there is no big extra credit assignment offered at the end of the semester.** Submit extra credit for a particular unit prior to the unit exam due date and time. If all questions on an extra credit assignment are sincerely attempted, one point may be earned. If all questions are complete and correct, two points may be earned. If one or more questions are omitted or carelessly/incompletely answered, no credit is earned.

This is a challenging course, but you have an excellent chance of success if you complete all assignments on time and try your best.

Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, then you will be directed to MGH Connect where you must register for the MGH Connect course. A MGH folder is posted within the Start Here section of your course. If you have trouble getting access, give MGH staff a call immediately. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment and all other MGH assignments and exams. In addition, you must **complete the syllabus quiz prior to the college official reporting day (ORD), Sept 9th, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.**

Biol 2402 40G0
Anatomy and Physiology II
Fall 2026

Instructor: Dr. Jeanmarie Stiles
Office: Greenville Center, room 208
Phone: 903-457-8717
Email: jstiles@parisjc.edu (best contact)

Meeting Location: GC 218
Meeting Days: TR
Meeting Times: 9:30-10:45 AM

Office Hours: 11-1:30 MTWR. To best serve you, please email before visiting the Greenville Center so we can schedule an in-person meeting at my office or arrange for a phone conversation.

Course Description:

This course will consist of a study of structures and functions of human organ systems and how these organ systems interact to create a functional organism. We will also discuss how various diseases and disorders can disrupt the proper functioning of the organ systems of the human body.

Anatomy & Physiology is a course at PJC for students entering fields in allied health sciences, psychology, physical therapy, physical education, biology, geology, ecology, anthropology, agriculture, and any student who needs a basic understanding of structure and function of the human body and who has an entry level background in biology or nursing. This course is specially designed to be completed in two semesters. The topics discussed in this course are organized so that they form a core that is suitable to satisfy the prerequisites for student advancement.

Credits: SCH = 4 (3 lecture and 1 laboratory)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh: Connect for Hole's Anatomy and Physiology with Proctorio+ 16th edition**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition to McGraw-Hill access, a physical textbook is highly recommended but not required. Other required course materials include a properly functioning computer with a stable internet connection, a webcam (internal or external), and microphone. If taking a traditional face to face course, bring a folder with loose leaf paper, pen, pencil, and dry erase marker to each class. Purchase one package of scantrons #882e at the beginning of the semester as well as two pencils with erasers to bring to every test and quiz.

Course Goals and Objectives:
THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.

5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Topic	Points
Scientific Inquiry Group Project	40
Lecture homework assignments	12 x 20 points = 240
Lecture exams	5 x 75 points = 375
Lecture Activities	45
Lab Activities	200
Lab Exam	100
Total points	1000

Course Curve: 5 pts will be added to your total points earned if all work has been sincerely attempted and submitted by posted deadlines. This is how points equate to your final letter grade:

Grading Scale

- A** - 900 points and higher
- B** - 800 points and higher
- C** - 700 points and higher
- D** - 600 points and higher
- F** – 599 points and below

Total Course Points equals 1000, so if you earn 875/1000 pts that is an 87.5 or “B”. See the Gradebook tab within Blackboard for a list of all grades. Each assignment clearly indicates the point value, and all points are equally weighted. Total points are not displayed, so add points earned as you go. Estimate the remaining points you think you can earn, then add these to your accumulated points. Compare this number to the posted grading scale to determine the grade you may earn at the end.

Orientation/Introductory Assignments are crucial to navigate the course. Other lecture activities such as discussion boards, worksheets, and video assignments may be found within the lecture folders of the Blackboard shell (not MGH). There is a short practice quiz on the first assigned chapter of your book. You may have multiple attempts at this quiz because it is designed to determine if your computer is compatible with MGH and their proctoring service. **You need a webcam, either internal or external, to take this quiz. Some other lecture and lab exams are also proctored remotely. If you do not have a webcam, order one online today and/or check your local Walmart store. Some cost about \$20. This is an unavoidable and inexpensive requirement for this course, so do not delay.**

Metric Quiz has 10 questions, is 20 points, and allows for only 1 attempt. Calculators, phones, notes, internet, etc. are not permitted. Review the metric system before attempting this quiz. You will be asked to complete various conversions. This quiz is timed and proctored.

Chapter Homework Assignments involve 12 assignments at 20 pts each = 240 pts. You have 1 attempt at each assignment. Before attempting an assignment, print the slideshow in outline form, read the chapter in your book and add notes to the slideshow. Assignments are not timed and you can do a little work at a time and then return later. Homework assignments are designed to help you understand the subject matter and study for exams. You may see similar questions again on your unit exams. You may take notes to help you study. The chapter assignments may be submitted late with a 5% per day penalty.

Lecture Exams are timed, proctored, and predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- 1 attempt- 75 pts

Exam 2- 1 attempt- 75 pts

Exam 3- 1 attempt- 75 pts

Exam 4- 1 attempt- 75 pts

Comprehensive final exam – 1 attempt – 75 pts

Final Exam: The review for the final exam is uploaded in Blackboard, but if you have questions contact me. Make yourself a good review and you should do well. The final exam is directly related to the topics in the review. Questions on the final exam are not exact repeats from previous homework and exams. If submitted by the posted due date and time, the final exam replaces a low or missed lecture exam.

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered. Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course. No notes, ebook, websites, phones, calculators, etc. may be used on proctored exams and quizzes.

Scientific Inquiry Group Assignment is found on Blackboard (not MGH) and is worth 40 pts. You will be assigned to a group after ORD. Assignment instructions and an example paper are posted. This is a lengthy assignment, so read the instructions and rubric for expectations and consider sending a tentative experimental design or early rough draft to your instructor for review. Allow at least one week for feedback. Demonstrate individual contributions to the group by posting regularly to the Discussion.

Virtual Labs include numerous online lab activities for 200 pts possible. Labs are user friendly and brief. Watch the tutorial for a thorough explanation of the concept and simulated activity. If you experience technical problems, give MGH staff a call immediately and they will help you. If necessary, email your instructor with a case number and detailed description of the problem after first contacting MGH.

Cadaver Lab Exam is timed, proctored, worth 100 pts, and is based on the practice exam found in Connect. **No notes, internet, books, etc. may be used when taking the actual exam. No exceptions.** Complete the practice exam multiple times to do well on the actual exam. The practice exam can be taken as many times as you like until the posted due date and time, after which it closes and will not reopen. The actual lab exam opens the morning after the practice lab exam closes. These exams primarily utilize the Anatomy and Physiology Revealed (APR) resource found within the McGraw-Hill platform. This is where you can find most of the images seen on the test. It is part of the learning process to find the answers, so answers will not be provided for you. Take a little time to familiarize yourself with this valuable tool and begin early to study for these exams. By utilizing links to APR found throughout the ebook, you will gain a deeper understanding of human anatomy.

Extra Credit assignments provide dedicated students with the opportunity to earn a couple of extra points. These assignments are scattered throughout the Bb course content, so move through each folder sequentially to find, complete, and submit them. These assignments may only be submitted if all other assignments and the exam for a particular unit have been completed as scheduled. **Extra credit cannot be submitted late and there is no big extra credit assignment offered at the end of the semester.** Submit extra credit for a particular unit prior to the unit exam due date and time. If all questions on an extra credit assignment are sincerely attempted, one point may be earned. If all questions are complete and correct, two points may be earned. If one or more questions are omitted or carelessly/incompletely answered, no credit is earned.

This is a challenging course, but you have an excellent chance of success if you do your best.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. These MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, indicated by a rocket icon. Then, you will be directed to MGH Connect where you must register for the MGH Connect course. A MGH folder is posted within the Start Here section of your course. If you have trouble getting access, give MGH staff a call immediately. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment and all other MGH assignments. In addition, you must **complete the syllabus quiz prior to the college official reporting day**

(ORD), **Sept 9th**, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.

When registering in MGH Connect, enter your PJC e-mail and select a password. Here is a link to set up your PJC email if you do not have yours activated yet:

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units plus the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (recall some similar questions in the homework may reappear on your unit exams), complete the labs for each unit, and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Make-Up Work: Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit a MGH lecture assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5 percent deduction per day, a student may be given permission to submit MGH homework assignments up to two weeks late. Students are expected to take exams as scheduled. For a face to face course, if permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours, and within two weeks of the exam. Make up exams may include both multiple choice and essay questions. Online students may submit exams early, but not late. **Online lab activities may not be submitted late.**

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, Bb messages is the preferred method of communication. Secondly, your official PJC email may be used and should include your full name and course number with all correspondences. You can expect a reply to your email within 24 hours, Monday - Thursday 8:00 am – 3:00 pm.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day to withdraw from a course with a grade of **"W" is Nov. 12th**. Failure to officially withdraw will result in your receiving a grade of F.

Class Conduct:

Do not photograph or make a video of the class lectures/labs or your instructor. Turn off or silence and put away all cell phones, pagers, ipods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence: (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are

known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by in-class announcement, Bb announcement and/or email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule:

Allow at least one week for feedback. Demonstrate individual contributions to the group by posting regularly to the Discussion.

Virtual Labs include numerous online lab activities for 200 pts possible. Labs are user friendly and brief. Watch the tutorial for a thorough explanation of the concept and simulated activity. If you experience technical problems, give MGH staff a call immediately and they will help you. If necessary, email your instructor with a case number and detailed description of the problem after first contacting MGH.

Cadaver Lab Exam is timed, proctored, worth 100 pts, and is based on the practice exam found in Connect. **No notes, internet, books, etc. may be used when taking the actual exam. No exceptions.** Complete the practice exam multiple times to do well on the actual exam. The practice exam can be taken as many times as you like until the posted due date and time, after which it closes and will not reopen. The actual lab exam opens the morning after the practice lab exam closes. These exams primarily utilize the Anatomy and Physiology Revealed (APR) resource found within the McGraw-Hill platform. This is where you can find most of the images seen on the test. It is part of the learning process to find the answers, so answers will not be provided for you. Take a little time to familiarize yourself with this valuable tool and begin early to study for these exams. By utilizing links to APR found throughout the ebook, you will gain a deeper understanding of human anatomy.

Extra Credit assignments provide dedicated students with the opportunity to earn a couple of extra points. These assignments are scattered throughout the Bb course content, so move through each folder sequentially to find, complete, and submit them. These assignments may only be submitted if all other assignments and the exam for a particular unit have been completed as scheduled. **Extra credit cannot be submitted late and there is no big extra credit assignment offered at the end of the semester.** Submit extra credit for a particular unit prior to the unit exam due date and time. If all questions on an extra credit assignment are sincerely attempted, one point may be earned. If all questions are complete and correct, two points may be earned. If one or more questions are omitted or carelessly/incompletely answered, no credit is earned.

This is a challenging course, but you have an excellent chance of success if you do your best.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. These MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, indicated by a rocket icon. Then, you will be directed to MGH Connect where you must register for the MGH Connect course. A MGH folder is posted within the Start Here section of your course. If you have trouble getting access, give MGH staff a call immediately. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment and all other MGH assignments. In addition, you must **complete the syllabus quiz prior to the college official reporting day**

(ORD), **Sept 9th**, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.

When registering in MGH Connect, enter your PJC e-mail and select a password. Here is a link to set up your PJC email if you do not have yours activated yet:

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units plus the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (recall some similar questions in the homework may reappear on your unit exams), complete the labs for each unit, and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Make-Up Work: Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit a MGH lecture assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5 percent deduction per day, a student may be given permission to submit MGH homework assignments up to two weeks late. Students are expected to take exams as scheduled. For a face to face course, if permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours, and within two weeks of the exam. Make up exams may include both multiple choice and essay questions. Online students may submit exams early, but not late. **Online lab activities may not be submitted late.**

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, Bb messages is the preferred method of communication. Secondly, your official PJC email may be used and should include your full name and course number with all correspondences. You can expect a reply to your email within 24 hours, Monday - Thursday 8:00 am – 3:00 pm.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day to withdraw from a course with a grade of **"W" is Nov. 12th**. Failure to officially withdraw will result in your receiving a grade of F.

Class Conduct:

Do not photograph or make a video of the class lectures/labs or your instructor. Turn off or silence and put away all cell phones, pagers, ipods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence: (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are

known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by in-class announcement, Bb announcement and/or email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

**English 1301.83A0
Composition I
Fall 2026**

Instructor: Heather Collins
Office: Rm 206 Prairiland High School
Phone: (903) 609-9305
Email: hcollins@parisjc.edu
Office Hours: 1:00-1:45 pm

Meeting Location: Prairiland High School
Meeting Days: M-F
Meeting Times: 10:00 am - 10:45 am

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Credits: 3 SCHs

TSI Requirement: Reading, 340 +; Writing, 4 or above

Prerequisites:

English 0302 with a grade of C or above, or placement by department (based on admission information).

Required Textbook(s) and Materials:

Kirszner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 15th ed. Bedford/St. Martin's, 2021, packaged with Hacker A Pocket Manual with Writing about Literature. ISBN: 9781319532383

Roth, Veronica. *Divergent*. HarperCollins, 2011. ISBN: 9780062024039

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

Fall Main & Flex 1 Term: 9/11/2026

Flex 2 Term: 10/28/2026

1) Go to <https://ACCESSPortal.follett.com:443/1836>

2) Create an account using your student email account

3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.

4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- 1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.*
- 2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.*
- 3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.*
- 4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.*
- 5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.*

The general course goals of 1301 are to have students improve their writing abilities and increase their proficiency in critical reading and in writing nonfiction prose, with emphasis on narration, exposition, and persuasion.

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

- Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
- Demonstrate Communications Skills—to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

- Students will be able to identify, arrange, and evaluate the effectiveness of a thesis statement.

- Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
- Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to the audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Methods of Course Instruction/Delivery:

Writing assignments and exercises, in-class writing or editing workshops, group work, class discussions, tests or quizzes (quizzes may be announced or unannounced), lectures, and reading.

Semester Grade Determination:

Quizzes & Peer Reviews	100
Novel Quiz	100
Lab Exercises Tests (Located in Blackboard)	150
Participation/Annotations/Discussion (includes in-class work)	100
Writing Exam (Narration, Description, Definition)	300
Argumentative Essay Exam (Required)	150
Final Essay Exam (Compare/Contrast)	100
Total:	1000

Both the final exam and the documented argumentative essay are required; failure to complete either one will result in failure for the course.

Evaluation rubrics are posted in BB for each writing assignment & at the end of this document.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due (except for final drafts that must be submitted by 11:59 pm). Submit as a Word or PDF attachment to the "Submit Writing Assignment" folder in BB. Do not submit as a PDF. Do not submit essays via email.

An essay/writing assignment must meet the minimum length requirement before I will grade it (a score of zero will be assigned). Assignments that do not meet the length requirement are not considered as valid submissions

and will likely receive a grade of zero. A minimum of 15 points will be deducted for an essay that is close to the required length, yet does not quite meet it.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates!

There are a total of 14 lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs and 30 minutes on each diagnostic test, for a total of 16 hours.

Attendance and Make-up Work:

Class attendance is **expected**. If a student is more than five minutes late, the student will be counted absent. If a student leaves class early (without prior arrangements), the student will be counted absent. A student who stops attending after the last drop date will receive an F in the course.

Students are responsible for notes and assignments missed. No late papers will be accepted. Papers are considered late if they are submitted after the due date.

***Please keep in mind that these make-up policies apply to extracurricular absences as well.* You are not penalized for an extra-curricular absence.**

Writing Center:

Students seeking assistance with writing assignments will receive one-on-one help in AD125 on the Paris campus. This can be beneficial tutoring for students at ALL writing levels, and it's free! Call 903-782-0314 for an appointment. You can also email your paper to writingcenter@parisjc.edu. Include the essay topic with your paper, so the tutor can assist you.

ENGL 1301 Exemption Rules for Final:

To be exempt from the final, a student must meet the following criteria:

- Any student who
- a.) submits all prior essays,
 - b.) earns an **80 essay average**, and
 - c.) has 4 or less class absences

Students who do **NOT** qualify for exemption:

- Any student who
- a.) does not submit all prior essays **and/or**
 - b.) earns **an essay average less than 80** and/or
 - c.) has more than 4 absences

Students who are not exempt will write an essay for the final exam. In addition, this essay grade will replace the student's lowest essay grade (one exception: the research paper grade **CANNOT** be replaced).

If a student qualifies for exemption, but still wishes to write an essay for the final in an effort to improve overall course average, he/she may do so.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 12th**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

HPRS 1202 – WELLNESS AND HEALTH PROMOTION
2026-2027 Fall 16 Week term

Instructor: Juliana Osornio
Office: 903-994-4817
Phone: 903-243-7077
Email: Juliana.osornio@cumbyisd.net
Office Hours: 9am-4pm

Meeting Location: CCHS room 308
Meeting Days: M-F
Meeting Times: 11:07am-11:54am

Course Description: An overview of wellness theory and its application throughout the life span. The course focuses on the development of healthy attitudes and behaviors, the influence of cultural beliefs on health, and effective communication of wellness concepts.

Students will examine the many factors that influence individual and community health and apply wellness concepts to real-life situations.

College Credit: 2 semester hours

Prerequisite: None, but prior health science coursework is recommended.

Required Textbook(s) and Materials:

Access to Internet for research and online assignments
Hardbound sketchbook 8.5" x 11"

Course Goals and Objectives:

Upon successful completion of this course, students should be able to:

1. Explain personal, social, cultural, nutritional, and environmental components of wellness and disease prevention.
2. Correlate concepts of wellness with healthy lifestyle choices.
3. Identify factors that influence personal health behaviors and attitudes.
4. Examine wellness throughout the lifespan.
5. Discuss the relationship between physical, emotional, social, intellectual, spiritual, environmental, occupational, and financial wellness.
6. Analyze the effects of nutrition, physical activity, sleep, and stress on overall health.
7. Recognize behaviors that increase or decrease the risk of chronic disease.
8. Examine the impact of culture, family, community, and environment on health decisions.
9. Evaluate reliable sources of health information.
10. Develop practical health-promotion strategies for individuals and communities.

Course Requirements and Evaluation:

Students are expected to participate actively in this college-level course and complete all assigned coursework.

1. Class Assignments

Students will complete individual and group activities related to wellness and health promotion. Activities may include:

- Guided notes
- Case studies
- Health scenarios
- Wellness assessments
- Research activities
- Reflections
- Healthcare applications
- Interactive notebook activities

2. Personal Wellness Activities

Students will periodically evaluate different aspects of their own wellness and identify realistic strategies for maintaining or improving healthy behaviors.

Students will not be required to disclose private medical information. Personal wellness activities should focus on healthy decision-making, goal setting, and health-promotion concepts.

3. Wellness & Health Promotion Projects

Students will complete projects that require them to research and communicate accurate health information.

Projects may include:

- Wellness infographic
- Health education campaign
- Disease-prevention project
- Community health project
- Health promotion presentation

4. Quizzes

Quizzes will assess understanding of wellness concepts, terminology, health behaviors, prevention strategies, and course content.

5. Unit Exams

Unit examinations will assess students' ability to understand and apply wellness concepts to real-world situations.

6. Comprehensive Final Assessment

Students will complete a comprehensive final examination or final wellness/health-promotion project demonstrating knowledge gained throughout the semester.

COURSE EVALUATION

Evaluation Category	Percentage
Daily/Class Assignments	25%
Wellness Activities & Reflections	15%
Quizzes	20%
Projects/Presentations	15%
Unit Exams	15%
Final Exam/Final Project	10%
TOTAL	100%

GRADING SCALE

Grade	Course Average
A	90–100
B	80–89
C	70–79
D	60–69
F	Below 60

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on Friday, August 28th, 2026.

Course Policies:

Because this is a college-level dual-credit course, students are expected to:

- Attend class regularly and arrive prepared.
- Complete assignments by established deadlines.
- Participate appropriately in classroom activities.
- Maintain an organized course notebook.
- Study medical vocabulary outside of class.
- Use professional language and behavior.
- Take responsibility for missed assignments following an absence.
- Follow academic integrity expectations on all assignments and assessments.

Health Information & Privacy:

Wellness topics sometimes involve personal or sensitive information.

Students will never be required to disclose private health information, medical diagnoses, family medical history, weight, mental health information, or other personal health information to the class.

Students may use hypothetical examples when completing assignments involving sensitive wellness topics.

Respectful discussion and confidentiality are expected during classroom activities.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026. Regular attendance and active participation are important for success in this course.

Students are responsible for obtaining and completing coursework missed due to an absence according to school and college policies.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Course Philosophy:

Wellness is more than simply being free from illness. It involves the choices, behaviors, relationships, environments, and resources that influence health throughout life.

The purpose of this course is not simply to memorize health information. Students will learn to evaluate health information, recognize risk and protective factors, make informed decisions, and communicate strategies that promote healthier individuals and communities.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.
In person and via Cumby ISD student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week	Topic	Major Focus
1	Introduction to Wellness	Health vs. wellness, wellness continuum, personal responsibility
2	Dimensions of Wellness	Physical, emotional, social, intellectual, spiritual, environmental, financial & occupational
3	Personal Health & Goal Setting	Health behaviors, SMART goals, behavior change
4	Nutrition	Nutrients, balanced eating, food labels, healthy choices
5	Physical Activity & Fitness	Components of fitness, exercise recommendations, benefits of activity
6	Weight & Body Composition	Energy balance, healthy weight management, body image
7	Stress Management	Stress response, coping strategies, resilience and relaxation
8	Mental & Emotional Wellness	Emotional health, coping, relationships and seeking appropriate support
9	Sleep & Rest	Sleep requirements, sleep hygiene and effects of sleep deprivation
10	Substance Use & Prevention	Tobacco/nicotine, alcohol, drugs, addiction and prevention
11	Disease Prevention	Risk factors, screenings, immunizations and preventive healthcare
12	Chronic Disease & Lifestyle	Cardiovascular disease, diabetes, cancer and other lifestyle-related conditions
13	Environmental & Community Health	Environmental influences, community resources and public health
14	Culture & Health	Cultural beliefs, health disparities and communication of wellness

15	Wellness Across the Lifespan	Health promotion from childhood through older adulthood; course review
16	Final Assessment	Comprehensive final examination/project

MAJOR COURSE PROJECT

Personal Wellness & Health Promotion Project

During the semester, students will apply course concepts to develop a realistic wellness plan.

The project may include:

Part 1 – Wellness Assessment

Evaluate strengths and areas for potential improvement across the dimensions of wellness.

Part 2 – Goal Setting

Develop appropriate SMART wellness goals.

Part 3 – Health Promotion Strategies

Identify evidence-based strategies that could help an individual achieve the selected goals.

Part 4 – Barriers & Resources

Identify potential barriers and appropriate resources or support systems.

Part 5 – Reflection

Explain how wellness behaviors can affect health throughout the lifespan.

**Title HITT 1305 Medical Terminology I
2026-2027 Fall 16 Week term**

Instructor: Juliana Osornio
Office: 903-994-4817
Phone: 903-243-7077
Office Hours: 9am-4pm

Meeting Location: CCHS room 308
Meeting Days: M-F
Meeting Times: 9:25am – 10:12am

Course Description: This course introduces the language of medicine through the study of word parts, medical terms, abbreviations, and pronunciation related to body systems, diseases, diagnostics, and treatments. Students will develop a working vocabulary for careers in healthcare and be able to interpret medical documentation accurately.

College Credit: 3 semester hours

Prerequisite: None, but prior health science coursework is recommended.

Required Textbook(s) and Materials:

Access to Internet for research and online assignments
Hardbound sketchbook 8.5" x 11"

Course Goals and Objectives:

By the end of the course, students will be able to:

- Identify, pronounce, define, and correctly spell medical terms.
- Recognize common medical prefixes, suffixes, word roots, and combining forms.
- Analyze medical terms by separating them into their component parts.
- Construct medical terms using appropriate word parts.
- Use medical terminology appropriately in context.
- Translate commonly used medical abbreviations.
- Interpret common healthcare symbols.
- Recognize terminology associated with diagnostic and surgical procedures.
- Apply appropriate terminology to diseases and disorders of the major body systems.
- Communicate using accurate medical terminology in healthcare-related situations.

Course Requirements and Evaluation:

Students will complete a variety of assignments designed to develop medical vocabulary and the ability to use terminology in healthcare situations.

Weekly Terminology Assignments

Students will practice:

- Word roots and combining forms
- Prefixes and suffixes

- Definitions
- Correct spelling
- Pronunciation
- Medical abbreviations
- Word analysis

Body System Vocabulary

Students will maintain vocabulary for each body system and identify terminology related to:

Anatomy • Diseases • Signs/Symptoms • Diagnostic Procedures • Treatments • Surgical Procedures • Medical Specialties

Medical Word Building

Students will practice constructing and decoding medical terms using word parts.

Example: **cardiomyopathy**

cardi/o = heart

my/o = muscle

-pathy = disease

Meaning: disease of the heart muscle

Healthcare Application Activities

Students will apply terminology to realistic healthcare situations, including:

- Patient charts
- Case studies
- Medical reports
- Provider orders
- Diagnostic reports
- Patient scenarios
- Healthcare documentation

ASSESSMENT

Suggested grading structure:

Category	Percentage
Daily/Class Assignments	20%

Medical Terminology Vocabulary & Activities	20%
Quizzes	20%
Unit Exams	25%
Final Exam/Comprehensive Assessment	15%
TOTAL	100%

QUIZZES & EXAMS

Students should expect regular vocabulary quizzes throughout the semester.

Quizzes may include:

Matching

- Multiple choice
- Medical word analysis
- Prefix/suffix identification
- Abbreviations
- Spelling
- Definition of terms
- Constructing medical words
- Applying terminology to patient scenarios

Unit examinations will assess both vocabulary knowledge and the student's ability to **use medical terminology in context**.

MEDICAL TERMINOLOGY NOTEBOOK

Students are expected to maintain an organized Medical Terminology notebook or course binder.

The notebook may include:

- Prefixes
- Suffixes
- Word roots
- Combining forms
- Body-system vocabulary
- Abbreviations
- Medical specialties
- Diagnostic procedures
- Surgical procedures

- Class notes
- Practice activities

Students should use this notebook as an ongoing study resource throughout the semester.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on Friday, August 28th, 2026.

Course Policies:

Because this is a college-level dual-credit course, students are expected to:

- Attend class regularly and arrive prepared.
- Complete assignments by established deadlines.
- Participate appropriately in classroom activities.
- Maintain an organized course notebook.
- Study medical vocabulary outside of class.
- Use professional language and behavior.
- Take responsibility for missed assignments following an absence.
- Follow academic integrity expectations on all assignments and assessments.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12, 2026.

Students are responsible for obtaining and completing coursework missed due to an absence according to school and college policies.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or

repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

In person and via Cumby ISD student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week 1 – Course Intro & Word Structure

Topics:

- Course overview, syllabus review
- Word parts: roots, prefixes, suffixes
- Pronunciation rules & combining forms

Vocabulary:

Prefix, Suffix, Root word, Combining vowel, Eponyms, Acronyms, Medical abbreviation, Anatomical position

Quiz Focus: Identify and define parts of a term, match examples

Week 2 – Suffixes

Topics:

- Common suffixes for procedures (-ectomy, -plasty, -graphy)
- Condition & disease suffixes (-itis, -osis, -pathy)

Vocabulary:

-itis, -osis, -pathy, -ectomy, -plasty, -graph, -gram, -graphy, -scope, -scopy

Quiz Focus: Match suffix to definition, build terms using suffixes

Week 3 – Prefixes

Topics:

- Directional, quantitative, and time-related prefixes (pre-, post-, hyper-, hypo-, brady-, tachy-)

Vocabulary:

pre-, post-, hyper-, hypo-, brady-, tachy-, peri-, endo-, epi-, intra-

Quiz Focus: Define prefixes, use in correct context

Week 4 – The Human Body in Health & Disease

Topics:

- Anatomical planes, cavities, regions
- Body organization & homeostasis

Vocabulary:

Superior, Inferior, Anterior, Posterior, Medial, Lateral, Proximal, Distal, Dorsal, Ventral

Quiz Focus: Label diagrams, apply terms to scenarios

Week 5 – Musculoskeletal System

Topics:

- Bones, joints, muscles
- Common disorders & procedures

Vocabulary:

Oste/o, My/o, Arthr/o, Chondr/o, Tendin/o, Ligament/o, Fracture, Sprain, Strain, Arthritis

Quiz Focus: Identify word roots in medical reports, match term to body structure

Week 6 – Cardiovascular System

Topics:

- Heart anatomy & circulation
- Blood vessels & common diseases

Vocabulary:

Cardi/o, Angi/o, Arteri/o, Ven/o, Thromb/o, Embol/o, Ischemia, Myocardial infarction, Arrhythmia, Hypertension

Quiz Focus: Match terms to definitions, read an ECG report for key terms

Week 7 – Blood, Lymphatic, & Immune Systems

Topics:

- Blood cells & immunity
- Lymph organs & common diseases

Vocabulary:

Hemat/o, Leuk/o, Erythr/o, Thromb/o, Immun/o, Lymph/o, Anemia, Leukemia, Immunodeficiency, Lymphoma

Quiz Focus: Word part breakdown, disease matching

Week 8 – Respiratory System

Topics:

- Lungs & airways
- Diagnostic tests & disorders

Vocabulary:

Pneum/o, Pulmon/o, Bronch/o, Trache/o, Nas/o, Rhin/o, Hypoxia, Asthma, Pneumonia, Bronchitis

Quiz Focus: Label respiratory anatomy, define terms

Week 9 – Digestive System

Topics:

- GI tract anatomy & digestion process
- Common disorders

Vocabulary:

Gastr/o, Enter/o, Col/o, Hepat/o, Cholecyst/o, Pancreat/o, Ulcer, Hepatitis, Cholelithiasis, Colitis

Quiz Focus: Build terms from roots/prefixes/suffixes

Week 10 – Urinary System

Topics:

- Kidneys, bladder, ureters, urethra
- Common diseases & tests

Vocabulary:

Nephr/o, Ren/o, Cyst/o, Urethr/o, Ureter/o, Lith/o, Hematuria, Incontinence, Nephritis, Dialysis

Quiz Focus: Match conditions to body structures

Week 11 – Reproductive Systems

Topics:

- Male & female anatomy
- Fertility, pregnancy terms

Vocabulary:

Gynec/o, Andro/o, Uter/o, Oophor/o, Test/o, Spermat/o, Obstetrics, Endometriosis, Prostatitis, Infertility

Quiz Focus: Identify correct root for male/female structures

Week 12 – Nervous System

Topics:

- Brain, spinal cord, nerves
- Neurological disorders

Vocabulary:

Neur/o, Encephal/o, Myel/o, Cerebr/o, Mening/o, Epilepsy, Stroke, Neuropathy, Dementia, Meningitis

Quiz Focus: Match condition to affected area

Week 13 – Special Senses

Topics:

- Eye & ear anatomy
- Common disorders & procedures

Vocabulary:

Ophthalm/o, Ocul/o, Ot/o, Audi/o, Tympan/o, Cataract, Glaucoma, Otitis, Tinnitus, Myopia

Quiz Focus: Identify terms from a vision/hearing screening report

Week 14 – Endocrine System

Topics:

- Hormones & glands
- Common disorders

Vocabulary:

Endocrin/o, Thyroid/o, Adren/o, Pituitar/o, Insulin, Diabetes, Hyperthyroidism, Hypothyroidism, Cushing's syndrome, Addison's disease

Quiz Focus: Match hormone to gland

Week 15 – Integumentary System

Topics:

- Skin anatomy & disorders
- Dermatology procedures

Vocabulary:

Dermat/o, Cutane/o, Melan/o, Onych/o, Alopecia, Psoriasis, Dermatitis, Melanoma, Biopsy, Lesion

Quiz Focus: Apply terms in dermatology scenarios

Week 16 – Review & Final Exam

Topics:

- Comprehensive review of all systems
- Medical chart interpretation

Vocabulary:

All previously learned terms

Quiz Focus: Full cumulative review before final

BIOL 1322
Nutrition
Fall 8-week term 1 -2026

Instructor: Jennifer Hudson

Office: MS 210B

Phone: 782-0319 ex. 1369

Email: jhudson@parisjc.edu

Office Hours: M-8:30-9:30, 10:45-3:00, T&H-7:30-8:00, 10:45-4:00, W-7:30-9:30, 10:45-4:00

Meeting Location: MS 214

Meeting Days: T, H

Meeting Times: 8:00- 9:15

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect Smith : Wardlaw's Contemporary Nutrition 26 release(Evergreen) Wardlaw's Contemporary Nutrition. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.

2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.
3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	50% of course grade
Daily work (Questions over notes, quizzes, other work)	50% of course grade

100%

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **October 1**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the syllabus quiz located in the "Start here" section of Blackboard by 11:59 p.m. on August 30. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils Tests must be taken with a #2 pencil. Bring a scantron form and your pencil to every test. The required scantron can be found in the PJC Book Store; the scantron number you need is **#882e**.

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless

approved by the instructor—no food /or beverages to class. Please turn off or silence all cell phones before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **October 1.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Link to the PJC IT checklist: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable

accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

BIOL 1322
Nutrition
Fall 8-week term 2 -2026

Instructor: Jennifer Hudson

Office: MS 210B

Phone: 782-0319 ex. 1369

Email: jhudson@parisjc.edu

Office Hours: M-8:30-9:30, 10:45-3:00, T&H-7:30-8:00, 10:45-4:00, W-7:30-9:30, 10:45-4:00

Meeting Location: MS 214

Meeting Days: T, H

Meeting Times: 8:00- 9:15

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect Smith : Wardlaw's Contemporary Nutrition 26 release(Evergreen) Wardlaw's Contemporary Nutrition. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.

2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.
3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	50% of course grade
Daily work (Questions over notes, quizzes, other work)	50% of course grade

100%

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **November 24**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the syllabus quiz located in the "Start here" section of Blackboard by 11:59 p.m. on October 25. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils Tests must be taken with a #2 pencil. Bring a scantron form and your pencil to every test. The required scantron can be found in the PJC Book Store; the scantron number you need is **#882e**.

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless

approved by the instructor—no food /or beverages to class. Please turn off or silence all cell phones before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 24**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Link to the PJC IT checklist: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable

accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Biol 2401.740
Anatomy and Physiology 1
Fall 2026

Instructor: Colleen Shearer
Office: Room 119
Phone: 903 – 378 – 2264 Ext. 319
Email: cshearer@parisjc.edu
Office Hours: T– F 7:15 -4:15

Meeting Location: Honey Grove High School
Meeting Days: T-F
Meeting Times: 10:25 – 11:17

Course Description:

Anatomy and Physiology 1 is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a hands-on learning experience for the exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and McGraw Hill via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will not need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please get in touch with the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Biol 2401, **Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**, will be delivered digitally in your Blackboard Ultra course or via the URL provided by your instructor. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account.

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data, and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations, and predictions.
11. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
12. Describe the unity and diversity of life and the evidence for evolution through natural selection.

Course Requirements and Evaluation:

Exams	60% of course grade
Daily Work and Labs	40%

Make-Up Work

If you miss a major exam, you will be allowed to make up the exam by appointment with the instructor. The appointment must be made at least two days prior to the day of makeup. Every exam must be made up within one week of the original date of the exam.

All homework and laboratory assignments will be accepted on the due date at the beginning of the period only. NO LATE PAPERS OR ASSIGNMENTS. NO EXCEPTIONS.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand.

Respect your classmates' right to an education.

Give your full attention to the course and to anyone who is speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor. No food /or beverages to class. Please turn off or silence all cell phones, before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. Students absent, for any reason, are still responsible for lecture materials and any required assignments. I am fully aware that there are times when you may not be able to attend and I expect notification of your absence if possible. Excessive absences will ultimately hinder your success in this course. *Withdrawals* must be initiated by the student. The last day for a student to withdraw from a course with a grade of W is **Thursday, November 12th**.

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system. Once entered, each student's attendance record may be viewed by College personnel with the need to monitor this information. This includes student records, student financial aid, academic advising and counseling, campus police department, and administrative staff. Excessive absences may adversely impact a student's grades and financial aid awards.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to other students and the instructor in both lecture and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Topics of Study:

Introduction to A & P
Chemistry of Life
The Cell
Cell Metabolism
Tissues
The Integumentary System
Skeletal System
Joints
Muscular System
Nervous Systems
Human Senses

Laboratory Schedule: Virtual Labs by MGH Connect Lab Schedule: *Labs will follow the lecture schedule.*

BIOL 2401.50G0
Anatomy & Physiology I (Lecture + Lab) – Hybrid Course
Fall 2026

Instructor: Dr. Beverly Kopachena

Office: SS #112

Phone: 903-885-1232

Email: bkopachena@parisjc.edu (please use **EMAIL** or **Bb Messages** for all outside-of-class communication)

Office Hours: MW 10:45-11:30, 1:00-3:00; TR 9:00-11:30, 1:00-3:00; by appointment or whenever my door is open

Meeting Location, Days, & Times: SS#117, MW 9:30-10:45am

Course Description:

Anatomy and Physiology I is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses. Fee charged. Core Curriculum satisfied for Natural Lab Sciences. Prerequisites: none. 4 SCH

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**Welsh, Hole's Anatomy & Physiology.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In order to access your online Connect course materials, click on the **First Assignment: Connect Syllabus Quiz (Required!)**

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Learning Outcomes – Lecture:

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

Learning Outcomes – Lab:

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations, and predictions.

Course Requirements and Evaluation:

Connect Homework	25%
Lecture Tests (four @10% each)	40%
Comprehensive Final Exam (all chapters)	10%
Lab grade (lab average 40%, practical test 50%, group project 10%)	<u>25%</u>
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the student's responsibility to keep track of grades. **All college students are expected to be able to do simple mathematics – do not ask the instructor to calculate the number of points needed to receive a certain grade in the course.** All grades will be available in the **Gradebook in Blackboard**. Your **Overall Course Grade** will be available in the Gradebook throughout the semester.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Friday, Oct. 16th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Course Schedule:

See last page of the Course Syllabus.

Required Activity:

All students must complete the **First Assignment: Syllabus Quiz** located in the **Start Here! Module** section of Blackboard by **11:59 pm on Sunday, Sept. 9th**, before the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of course participation. **Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.**

Course Policies:

1. This course is not self-paced; there are **specific** due dates for all assignments. Labs and homework are available to complete on the first day of the semester – you can work ahead, but they **must** be completed by the due dates. They each should take approximately one hour but may take longer based on your performance. Connect grades should upload to My Grades in Blackboard in about an hour. **Please do your assignments well before the due dates and do not procrastinate.**

Late work is not accepted for Connect Homework or Labs (absolutely NO exceptions) – please do not ask to submit them late.

2. The lab practical tests are open for approximately one week and cover material from the lab exercises. They close at midnight on the due date.
3. The lecture tests will consist of 40 multiple choice questions and will cover three chapters each. The final exam will consist of ~100 questions from all of the chapters. A missed test must be made up within seven days. Please see your instructor if you have questions about this policy.
4. To avoid possible cheating, you will be able to review your test after all students have taken the test.
5. You will have a required group project that is worth 10% of your lab grade.
6. **No test grades (including zeros) will be dropped when calculating final overall grades.**
7. Any extra credit will be available to the entire class ONLY – **no individual extra credit will be given – please DO NOT ASK.**
8. This class is hybrid and uses many online and digital resources. Therefore, you must have access to a strong internet connection. Speakers are also recommended. Problems with internet service are **not** an excuse for missing assignments – do your assignments well before the due dates to avoid this issue. If you have problems with your internet service, the College computer labs, public libraries, and many businesses offer free WiFi service.
9. If Connect is not working correctly, please go to the **Start Here!** Module and run a **Check Your Computer**. Please click on that link **BEFORE** contacting your instructor. In most cases, enabling pop-ups and updating your internet browser fixes problems. If that does not work, please contact the **Connect Help Site**. The link is found in the **McGraw-Hill's Connect Information** folder in the **Start Here! Module**. Your instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.
10. **It is NOT recommended that you use cell phones for Blackboard or your Connect HW or labs.** Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
11. All students must register for and monitor their PJC Dragon Mail account **daily**. All correspondence from the instructor and the College will be delivered to the Dragon Mail account. See **“PJC Official Dragon Mail Information”** in Blackboard for more information.
12. If you want an actual paper textbook, you can purchase a loose-leaf copy through your Connect course. Connect access includes the eBook (online textbook.)
13. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
 - a. Blackboard Username: Your PJC student ID number, without dashes.
 - b. Blackboard Password: Your birthday (month, day, four-digit year, without marks).
14. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For all courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the **student (see instructions in Blackboard.)** **The last day for a student to withdraw from a course with a grade of “W” is Thurs., Nov. 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, earbuds, headphones, etc. before entering the classroom/laboratory. Laptops or tablets will be permitted by instructor consent only. No obscene, vulgar,

rude, or insulting language will be permitted in the classroom/laboratory for any reason. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

PJC Science Department - Artificial Intelligence Statement:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students **must** cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be included in your reference list. Please verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, please stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher.) You can return to your normal activities when, **for at least 24 hours**, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by PJC email and Blackboard Messages.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable. This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at **988**. Help is also available on your campus in PJC's Counseling Center in Alford Center in Paris (counseling@parisjc.edu) and in the community.

A&P 1 Course Schedule – Fall 2026

Please print and check off items as you complete them – all items are due at midnight

All Connect HW & Labs open 8/24. Late work is never accepted for HW or Labs.

First Day of Semester: Monday, August 24th, 2026

- ☐ **Connect Syllabus Quiz: Due Sunday, Sept. 6th**

- ☐ **MODULE 1: all items due 9/13**
Chs. 1, 2, 3
Connect HW Set 1
Connect Labs Set 1
Test 1 (Chs. 1, 2, 3): TBA

- ☐ **MODULE 2: all items due 10/11**
Chs. 4, 5, 6
Connect HW Set 2
Connect Labs Set 2
Test 2 (Chs. 4, 5, 6): available TBA

- ☐ **Lab Practical Test 1 (Labs Sets 1 & 2): available 10/12 – 10/18**

- ☐ **MODULE 3: all items due 11/1**
Chs. 7, 8, 9
Connect HW Set 3
Connect Labs Set 3
Test 3 (Chs. 7, 8, 9): available TBA

- ☐ **MODULE 4: all items due 11/29**
Chs. 10, 11, 12
Connect HW Set 4
Connect Labs Set 4
Test 4 (Chs. 10, 11, 12): available TBA

- ☐ **Lab Practical Test 2 (Lab Sets 3 & 4): available 11/30 – 12/6**

- ☐ **Group Project: due 11/29**

- ☐ **Comprehensive Final Exam: available 11/30 – 12/8**

Last Day of Semester: Thursday, December 10th, 2026

The Course Syllabus & Schedule are subject to change by the instructor.

BIOL 2401.20D0
Anatomy & Physiology 1 (Lecture + Lab) – Online Course
Fall 2026

Instructor: Dr. Beverly Kopachena

Office: SSC #112

Phone: 903-885-1232 (please use **Email** or **Blackboard Messages** for all communication)

Email: bkopachena@parisic.edu

Office Hours: Online; messages will be answered within 24 hours, 7 days a week

Meeting Location, Days, Times: Online

Course Description:

Anatomy and Physiology I is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses. Fee charged. Core Curriculum satisfied for Natural Lab Sciences. Prerequisites: none. 4 SCH

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**Welsh, Hole's Anatomy & Physiology.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In order to access your online Connect course materials, click on the **Connect Syllabus Quiz**.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Learning Outcomes – Lecture:

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

Learning Outcomes – Lab:

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations, and predictions.

Course Requirements and Evaluation:

Connect Homework	25%
Lecture Tests (four @10% each) - proctored with Respondus/Webcam	40%
Comprehensive Final Exam (all chapters)	10%
Lab grade (lab average 40%, practical test 50%, group project 10%)	<u>25%</u>
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the student's responsibility to keep track of grades. **All college students are expected to be able to do simple mathematics – do not ask the instructor to calculate the number of points needed to receive a certain grade in the course.** All grades will be available in the **Gradebook** in **Blackboard**. Your **Overall Course Grade** will be available in the Gradebook throughout the semester.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Friday, Oct. 16th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Course Schedule:

See last page of the Course Syllabus.

Required Activity:

All students must complete the **First Assignment: Syllabus Quiz** located in the **Start Here! Module** section of Blackboard by **11:59 pm on Sunday, Sept. 9th**, before the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of course participation. **Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.**

Course Policies:

1. This course is **not** self-paced; there are **specific due dates** for all assignments (please see the Course Schedule on the last page of the Syllabus.)
2. All Connect Labs and Homework (HW) open on the first day of the semester. You are strongly urged to work ahead on HW and Labs. All assignments **must** be completed by the posted due dates.

Late work is not accepted for Connect Homework or Labs (absolutely NO exceptions.)

3. Connect HW and Labs take approximately one hour, based on your performance. You have **unlimited** attempts; your highest attempt score will be used as your grade. Please **do not procrastinate**. Connect grades should upload to the Blackboard Gradebook in about an hour.
4. The Lab Practical tests will open for approximately one week and will cover material from the lab exercises. They will close at midnight on the due date.
5. The four Lecture Tests will consist of 40 multiple choice questions (worth 10% each.) They are proctored using **Respondus Monitor (with Webcam.)** If you have an emergency situation and know that you cannot complete the test by the due date, please email your instructor **immediately**. Make up tests will **not** be allowed for the Final Exam. Please email your instructor if you have questions about this policy.
6. **Only one Lecture Test may be made up in a semester**, and it must be taken within **seven** days. Any makeup Tests will be given at the discretion of the instructor.
7. You will have a required group project that is worth 10% of your lab grade.
8. If you are not able to use a webcam, you may go to a PJC Testing Center. Instructions regarding how to do this are found in the **Respondus Lockdown Browser Download HERE & Instructions for Use** link in the **Start Here! Module**.
9. If you have questions, please go to the **FAQs Module**. Answers to most of your questions are found there. If not, send a message to your instructor.
10. To avoid possible cheating, you will be able to review your test grades after all students have taken the test.
11. **No test grades (including zeros) will be dropped when calculating final overall grades.**
12. Extra credit will be available to the entire class ONLY.

No individual extra credit will be given – please DO NOT ASK.

13. This class is online and uses many online and digital resources. Students must have access to a strong internet connection. You will need a webcam and speakers. If you do not have a webcam, they can be purchased at around \$10.
14. Problems with internet service are **not** an excuse for missing assignments – do your assignments **BEFORE** the due dates to avoid this issue. If you have problems with your internet service, the College computer labs, public libraries, and many businesses offer free WiFi service.
15. If Connect is not working correctly, please go to the **Start Here! Module** and run a **Check Your Computer**. Please click on that link **BEFORE** contacting your instructor. In most cases, enabling pop-ups and updating your internet browser fixes problems. If that does not work, please contact the **Connect Help Site**. The link is found in the **McGraw-Hill's Connect Information** folder in the **Start Here! Module**. Your instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.

16. It is **NOT** recommended that you use cell phones for Blackboard or your Connect HW or labs. Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
17. Microsoft Edge, Firefox, and Google Chrome work best with Connect.
18. Please communicate through PJC email or Blackboard Messages **only**.
19. If you want an actual paper textbook, you can purchase a loose-leaf copy through your Connect course. The eBook (online textbook) is found in your Connect course.
20. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
 - a. Blackboard Username: Your school-issued student ID number, without dashes.
 - b. Blackboard Password: Your birthday (month, day, four-digit year, without marks).
21. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For all courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the **student (see instructions in Blackboard.)** **The last day for a student to withdraw from a course with a grade of “W” is Thurs., Nov. 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, earbuds, headphones, etc. before entering the classroom/laboratory. Laptops or tablets will be permitted by instructor consent only. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

PJC Science Department - Artificial Intelligence Statement:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students **must** cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be included in your reference list. Please verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, please stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher.) You can return to your normal activities when, **for at least 24 hours**, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by PJC email and Blackboard Messages.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at **988**. Help is also available on your campus in PJC's Counseling Center in Alford Center in Paris (counseling@parisjc.edu) and in the community.

Respondus Lockdown Browser + Webcam (Required)

This course requires the use of LockDown Browser and a webcam for online exams. The webcam can be the type that's built into your computer or one that plugs in with a USB cable. Watch this brief video to get a basic understanding of LockDown Browser and the webcam feature.

<https://www.respondus.com/products/lockdown-browser/student-movie.shtml>

Download and install LockDown Browser from this link:

<https://download.respondus.com/lockdown/download.php?id=919835320>

Once Installed

Instructions for using Respondus with Blackboard Ultra:

1. Use a regular browser (Chrome, Firefox, etc.) to log in to your **Blackboard Ultra** course.
2. Navigate to the exam, and click the "Start Attempt" button.
3. LockDown Browser will then launch, if installed on the computer (or iPad). If not installed, you will be prompted to download the LockDown Browser and perform the install.
4. The test will open, and if a webcam is required, then you will be taken to the pre-test webcam check.
5. After submitting the exam, LockDown Browser will terminate, and you will be back where you started in your regular browser.

Guidelines

- Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.
- Turn off other devices (e.g. tablets, phones, second computers) and place them outside of your reach.
- Before starting the test, know how much time is available and that you have enough time to complete it.
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices.
- Remain at your computer for the duration of the test.
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam.
- LockDown Browser will prevent you from accessing other websites or applications; **you will be unable to exit the test until all questions are completed and submitted.**

Getting Help

Several resources are available if you encounter problems with LockDown Browser:

- The Windows and Mac versions of LockDown Browser have a "Help Center" button located on the toolbar. Use the "System & Network Check" to troubleshoot issues. If an exam requires you to use a webcam, also run the "Webcam Check" from this area
- 24/7/365 Live Chat Support is also available from the Help Center, or from within the "it's not working" troubleshooter.
- Respondus has a Knowledge Base available from support.respondus.com. Select "LockDown Browser & Respondus Monitor" as the product to view helpful articles.
- If you're still unable to resolve a technical issue with LockDown Browser, go to support.respondus.com and select "Submit a Ticket". Provide detailed information about your problem and what steps you took to resolve it.

A&P 1 Online Course Schedule – Fall 2026

Please print and check off items as you complete them – all items are due at midnight

All Connect HW & Labs open 8/24. Late work is never accepted for HW or Labs.

First Day of Semester: Monday, August 24th, 2026

- ☐ **Connect Syllabus Quiz: Due Sunday, Sept. 6th**
- ☐ **Respondus Monitor/Webcam Quiz: Due Sunday, Sept. 6th**
- ☐ **MODULE 1: all items due 9/13**
Chs. 1, 2, 3
Connect HW Set 1
Connect Labs Set 1
Test 1 (proctored with Respondus) (Chs. 1, 2, 3): available 9/7 – 9/13
- ☐ **MODULE 2: all items due 10/11**
Chs. 4, 5, 6
Connect HW Set 2
Connect Labs Set 2
Test 2 (proctored with Respondus) (Chs. 4, 5, 6): available 10/5 – 10/11
- ☐ **Lab Practical Test 1 (Labs Sets 1 & 2): available 10/12 – 10/18**
- ☐ **MODULE 3: all items due 11/1**
Chs. 7, 8, 9
Connect HW Set 3
Connect Labs Set 3
Test 3 (proctored with Respondus) (Chs. 7, 8, 9): available 10/26 – 11/1
- ☐ **MODULE 4: all items due 11/29**
Chs. 10, 11, 12
Connect HW Set 4
Connect Labs Set 4
Test 4 (proctored with Respondus) (Chs. 10, 11, 12): available 11/23 – 11/29
- ☐ **Lab Practical Test 2 (Lab Sets 3 & 4): available 11/30 – 12/6**
- ☐ **Group Project: due 11/29**
- ☐ **Comprehensive Final Exam: available 11/30 – 12/8**

Last Day of Semester: Thursday, December 10th, 2026

The Course Syllabus & Schedule are subject to change by the instructor.

Biology 2401.20D0
Anatomy & Physiology I
Fall 2026

Instructor: Gregory Potts

Office: MS 210E

Phone: (903) 782-0332

Email: gpotts@parisjc.edu

Office Hours: M-Th 8:30 AM to 10:30 AM, 1:30 PM to 4:30 PM.

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Anatomy and Physiology I is the first half of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides learning experiences for exploration of human system components and basic physiology.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect - **Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e (2025 Release)**. You will be able to access the textbook and learning materials directly through Blackboard Ultra. If you do not want to participate in the Dragon Now Program and would prefer to procure your required course materials elsewhere, you must opt out. If you'd like to opt out of this program, please follow the steps below **before the college ORD date of September 9th, 2026**.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Course Format

This is a student-centered online course with materials and content delivered using McGraw-Hill's Connect. Full participation is essential to understanding and doing well. It is the student's responsibility to keep track of assignments and labs posted in Connect and complete them within the allotted time frame. Each assignment can be accessed directly in McGraw-Hill Connect or through the class page on Blackboard. Each assignment is linked in Blackboard and by clicking on any assignment your browser will redirect to McGraw-Hill Connect and automatically open the assignment. If you need direct access such as for study or reading the textbook then you need to log directly into McGraw-Hill Connect. It is very important that the student complete each assignment before they are due as McGraw-Hill will record a zero for any assignment not completed and submitted properly. Keep track of all of your work and notify me if there are any discrepancies.

There will be 4 unit exams and 2 Lab based exams. The class consists of 12 Smartbook assignments, 12 homework assignments, 12 quiz assignments some of which are proctored, virtual labs and APR labs. Any proctored assignments will be done through **McGraw-Hill Proctorio** for Connect.

Any announcements will be made through Blackboard and/or through your PJC email address. Always check your school email as that is the email I am required to use.

Course Policies:

Students are expected to conduct themselves as mature adults. You are expected to exhibit civility and patience and to participate in the class as directed by your instructor. You will show respect for your instructor and the other students in the class. Any student who is disruptive will be asked to leave the class. After a conference with the instructor and the director or division chair, the student may be allowed to return to the classroom.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (10-16-2026). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Grading Criteria

Students will be given the following opportunities to demonstrate knowledge of class material: Please note that exams and quizzes will be proctored using Proctorio through Connect. You will have to have a web cam and a microphone for this course.

40% 4 Unit Exams + Final Exam
10% SmartBook Exercises
10% Homework
10% Quizzes
30% Virtual Labs in McGraw-Hill's Connect+ Bones Exam + Muscles Exam
(Bones and Muscles exams account for 30% of Lab Grade)

A: 90-100%
B: 80-89%
C: 70-79%
D: 60-69%
E: 59% and under

Proctored assignments:

All proctored assignments including exams, quizzes and the final are **TIMED and Proctored using McGraw-Hill Proctorio**. Each Exam will consist of similar questions from your chapter homework. It is important to know the information. Please read the chapters and study the material including all diagrams, charts, models, pictures and tables. Once time expires and your exam closes I will not be able to reopen it. See the schedule for the exams' open and close dates. **Plan your attack well**, and never begin an exam late at night on the last day it is due, if you can avoid it! Expect 60-100 questions similar to what you see in the chapter homework and quiz assignments.

Proctorio Exam Proctoring:

- **Webcam and audio required for all exams**
- **Photo ID (Driver's license, passport, college/university ID, or military ID)**
- **You must download the Proctorio App**
- **Make sure you allow your webcam to allow Proctorio access to it**

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. All of the proctored assignments will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome

<https://proctorio.com/support#settingUp>

Minimum System Requirements

<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

- Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.
- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone use is **strictly prohibited** during the exam!
- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.
- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.

All assignments must be done by the due dates set, so please stay on top of assignments and **avoid procrastination**. I will only reopen assignments if the Connect system has issues or in unavoidable and verifiable cases that I approve of individually, such as an unexpected hospitalization. If you cannot make the due dates, you should drop the class before the final withdrawal date of **November 12th, 2026**. If Connect is working on my end, then the web page is good, so make sure you have an updated computer and a reliable connection to the internet for this course!

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course is online and will require a time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace, but please do not let due dates approach and assume you can finish the work in a day or 2. Your course is divided into four central units, covering three chapters each. You can see when all assignments open and close in MGH Connect, but this syllabus also covers this. In each unit, you will have 3 chapters, read and study each (take notes and pay attention to bold terms), complete the SB and homework assignment with each chapter. Plan out a good schedule for when you want to complete each task before the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. Email me with your desire to drop and I will send you instructions on how to initiate the request. The last day for a student to withdraw from a course with a grade of "W" is Wednesday, November 12th, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be

in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic needs assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help and emphasize that help and resources are available on campus and in the community. It also supports Texas higher education institutions in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Note: This schedule is tentative but will be followed to the best of our ability. We will adjust this schedule as necessary.

Course Schedules:

Unit 1 Ch. 1: Introduction to A&P
 Ch. 2: Chemistry of Life
 Ch. 3: Cells

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 9-13-26!

Proctored Exam 1: Ch. 2, 3 & 4 available 9-13-26 until 9-19-27

Unit 2 Ch. 4: Cellular Metabolism
 Ch. 5: Tissues
 Ch. 6: Integumentary System

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 10-11-26!

Proctored Exam 2: Ch. 5, 6 & 7 available 10-11-26 until 10-16-26

Unit 3 Ch. 7: Skeletal System
 Ch. 8: Joints of the Skeletal System
 Ch. 9: Muscular System

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 11-1-26!

Proctored Exam 3: Ch. 8, 9 & 23 available 11-2-26 until 11-6-26.

Bones Exam available 10-25 to 10-30. The bones exam is timed and proctored. The bones exam is based on the bones practice exam which is open from 8-24 to 10-25. You can practice it as many times as you want until it closes the day before the Bones exam becomes available.

Unit 4 Ch. 10: Nervous System I
Ch. 11: Nervous System II
Ch. 12: Nervous System III (Senses)

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 11-29-26!

Proctored Exam 4: Ch. 24, 25 & 26 available 11-30 until 12-4!

Muscles Exam available 11-15 to 11-20. The Muscles exam is timed but not proctored. The muscles exam is based on the muscles practice exam which is open from 8-24 to 11-15. You can practice it as many times as you want until it closes the day before the exam becomes available.

Final Exam is available from 12-2-26 until 12-8-26!!!!!!

Lab Schedule

APR Labs

APR Introduction	8-24 to 9-8
APR Tutorial	8-24 to 9-8
Integument APR Lab	8-24 to 10-4
Histology APR Lab	8-24 to 10-4
Skull and Bone Histology APR Lab	8-24 to 10-25
Skeletal APR Lab – Hand and Foot	8-24 to 10-25
Brain and Cranial Nerves APR Lab	8-24 to 11-22
Senses APR Lab	8-24 to 11-22

Regular Labs

1. Virtual Lab Tutorial	8-24 to 9-8
2. Lab Safety – Personal	8-24 to 9-8
3. Lab Safety – Hand Washing	8-24 to 9-8
4. Metric Measurement – Length	8-24 to 9-13
5. Metric Measurement – Temperature	8-24 to 9-13
6. Metric Measurement – Volume	8-24 to 9-13

7.	Metric Measurement – Weight	8-24 to 9-13
8.	Mitosis	8-24 to 9-13
9.	Transcription, Translation, and Mutation	8-24 to 9-13
10.	Osmosis	8-24 to 9-20
11.	Epithelial Tissue Histology	8-24 to 9-20
12.	Connective Tissue Histology	8-24 to 9-20
13.	Test for Proteins	8-24 to 9-27
14.	Test for Fats	8-24 to 9-27
15.	Test for Starch	8-24 to 9-27
16.	Test for Sugars	8-24 to 9-27
17.	Diff Across a Selectively Perm Membrane	8-24 to 10-4
18.	Eff. Of Media Density on Diffusion	8-24 to 10-4
19.	Cell Respiration – Yeast	8-24 to 10-4
20.	Enzyme Activity	8-24 to 10-11
21.	Enzymes – Effect of Temp.	8-24 to 10-11
22.	Enzymes – Effect of Concentration	8-24 to 10-11
23.	Enzymes – Effect of pH	8-24 to 10-11
24.	Operation of a Brightfield Microscope	8-24 to 10-18
25.	Microscopy – Oil Immersion Lens	8-24 to 10-18
26.	Muscle Tissue Histology	8-24 to 11-8
27.	Electromyography – Motor Unit Recruitment	8-24 to 11-8
28.	Electromyography – Time to Fatigue	8-24 to 11-8
29.	Skeletal Muscle Physiology	8-24 to 11-8

30.	Skeletal Muscle – Electrical Stimulation	8-24 to 11-8
31.	Demonstrate Monosynaptic Reflexes	8-24 to 11-15
32.	Nervous Tissue Histology	8-24 to 11-15
33.	Eye Dissection	8-24 to 11-15
34.	Accommodation of the Lens	8-24 to 11-15
35.	Convergent Reflex Test	8-24 to 11-22
36.	Astigmatism Test	8-24 to 11-22
37.	Pupillary Reflex Test	8-24 to 11-22

*****Note*** On all assignments pay close attention to the availability and the due date of each assignment..**

All assignments have specific start and due dates. Make sure to get the work completed and submitted before the due date elapses. If an assignment is due on 9-13-26 at 10 pm then submission at 10:30 pm means McGraw-Hill will automatically give you a zero for all work completed after 10 pm. If you cannot get an assignment done before the cutoff time/date let me know immediately and we can work out something. Do not do an assignment after the due date without discussing the situation with me first. Keep good records of your grades and email me with any discrepancies. Everyone deserves full credit for their work. All proctored exams and quizzes will be done through Proctorio on Connect. At the instructor's discretion any assignment may be added, modified or cancelled depending upon class circumstance. This includes any homework, quizzes, exams or other assigned work such as presentations, group work or in class activity. Due dates are subject to change depending upon class circumstances.

Biology 2401.25D0
Anatomy & Physiology I
Fall 2026

Instructor: Gregory Potts

Office: MS 210E

Phone: (903) 782-0332

Email: gpotts@parisjc.edu

Office Hours: M-Th 8:30 AM to 10:30 AM, 1:30 PM to 4:30 PM.

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Anatomy and Physiology I is the first half of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides learning experiences for exploration of human system components and basic physiology.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect - **Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e (2025 Release)**. You will be able to access the textbook and learning materials directly through Blackboard Ultra. If you do not want to participate in the Dragon Now Program and would prefer to procure your required course materials elsewhere, you must opt out. If you'd like to opt out of this program, please follow the steps below **before the college ORD date of September 9th, 2026**.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Course Format

This is a student-centered online course with materials and content delivered using McGraw-Hill's Connect. Full participation is essential to understanding and doing well. It is the student's responsibility to keep track of assignments and labs posted in Connect and complete them within the allotted time frame. Each assignment can be accessed directly in McGraw-Hill Connect or through the class page on Blackboard. Each assignment is linked in Blackboard and by clicking on any assignment your browser will redirect to McGraw-Hill Connect and automatically open the assignment. If you need direct access such as for study or reading the textbook then you need to log directly into McGraw-Hill Connect. It is very important that the student complete each assignment before they are due as McGraw-Hill will record a zero for any assignment not completed and submitted properly. Keep track of all of your work and notify me if there are any discrepancies.

There will be 4 unit exams and 2 Lab based exams. The class consists of 12 Smartbook assignments, 12 homework assignments, 12 quiz assignments some of which are proctored, virtual labs and APR labs. Any proctored assignments will be done through **McGraw-Hill Proctorio** for Connect.

Any announcements will be made through Blackboard and/or through your PJC email address. Always check your school email as that is the email I am required to use.

Course Policies:

Students are expected to conduct themselves as mature adults. You are expected to exhibit civility and patience and to participate in the class as directed by your instructor. You will show respect for your instructor and the other students in the class. Any student who is disruptive will be asked to leave the class. After a conference with the instructor and the director or division chair, the student may be allowed to return to the classroom.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (10-16-2026). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Grading Criteria

Students will be given the following opportunities to demonstrate knowledge of class material: Please note that exams and quizzes will be proctored using Proctorio through Connect. You will have to have a web cam and a microphone for this course.

40% 4 Unit Exams + Final Exam
10% SmartBook Exercises
10% Homework
10% Quizzes
30% Virtual Labs in McGraw-Hill's Connect+ Bones Exam + Muscles Exam
(Bones and Muscles exams account for 30% of Lab Grade)

A: 90-100%
B: 80-89%
C: 70-79%
D: 60-69%
E: 59% and under

Proctored assignments:

All proctored assignments including exams, quizzes and the final are **TIMED and Proctored using McGraw-Hill Proctorio**. Each Exam will consist of similar questions from your chapter homework. It is important to know the information. Please read the chapters and study the material including all diagrams, charts, models, pictures and tables. Once time expires and your exam closes I will not be able to reopen it. See the schedule for the exams' open and close dates. **Plan your attack well**, and never begin an exam late at night on the last day it is due, if you can avoid it! Expect 60-100 questions similar to what you see in the chapter homework and quiz assignments.

Proctorio Exam Proctoring:

- **Webcam and audio required for all exams**
- **Photo ID (Driver's license, passport, college/university ID, or military ID)**
- **You must download the Proctorio App**
- **Make sure you allow your webcam to allow Proctorio access to it**

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. All of the proctored assignments will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome

<https://proctorio.com/support#settingUp>

Minimum System Requirements

<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

- Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.
- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone use is **strictly prohibited** during the exam!
- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.
- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.

All assignments must be done by the due dates set, so please stay on top of assignments and **avoid procrastination**. I will only reopen assignments if the Connect system has issues or in unavoidable and verifiable cases that I approve of individually, such as an unexpected hospitalization. If you cannot make the due dates, you should drop the class before the final withdrawal date of **November 12th, 2026**. If Connect is working on my end, then the web page is good, so make sure you have an updated computer and a reliable connection to the internet for this course!

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course is online and will require a time commitment equal to or above that of a traditional class, depending on the student. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic needs assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help and emphasize that help and resources are available on campus and in the community. It also supports Texas higher education institutions in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Note: This schedule is tentative but will be followed to the best of our ability. We will adjust this schedule as necessary.

Course Schedules:

Unit 1 Ch. 1: Introduction to A&P
 Ch. 2: Chemistry of Life
 Ch. 3: Cells

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 9-13-26!

Proctored Exam 1: Ch. 2, 3 & 4 available 9-13-26 until 9-19-27

Unit 2 Ch. 4: Cellular Metabolism
 Ch. 5: Tissues
 Ch. 6: Integumentary System

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 10-11-26!

Proctored Exam 2: Ch. 5, 6 & 7 available 10-11-26 until 10-16-26

Unit 3 Ch. 7: Skeletal System
 Ch. 8: Joints of the Skeletal System
 Ch. 9: Muscular System

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 11-1-26!

Proctored Exam 3: Ch. 8, 9 & 23 available 11-2-26 until 11-6-26.

Bones Exam available 10-25 to 10-30. The bones exam is timed and proctored. The bones exam is based on the bones practice exam which is open from 8-24 to 10-25. You can practice it as many times as you want until it closes the day before the Bones exam becomes available.

- Unit 4**
- Ch. 10: Nervous System I
 - Ch. 11: Nervous System II
 - Ch. 12: Nervous System III (Senses)

Note - All chapter exercises including Smartbook exercises, Homework and Quizzes are due by 11-29-26!

Proctored Exam 4: Ch. 24, 25 & 26 available 11-30 until 12-4!

Muscles Exam available 11-15 to 11-20. The Muscles exam is timed but not proctored. The muscles exam is based on the muscles practice exam which is open from 8-24 to 11-15. You can practice it as many times as you want until it closes the day before the exam becomes available.

Final Exam is available from 12-2-26 until 12-8-26!!!!!!

Lab Schedule

APR Labs

APR Introduction	8-24 to 9-8
APR Tutorial	8-24 to 9-8
Integument APR Lab	8-24 to 10-4
Histology APR Lab	8-24 to 10-4
Skull and Bone Histology APR Lab	8-24 to 10-25
Skeletal APR Lab – Hand and Foot	8-24 to 10-25
Brain and Cranial Nerves APR Lab	8-24 to 11-22
Senses APR Lab	8-24 to 11-22

Regular Labs

1.	Virtual Lab Tutorial	8-24 to 9-8
2.	Lab Safety – Personal	8-24 to 9-8
3.	Lab Safety – Hand Washing	8-24 to 9-8
4.	Metric Measurement – Length	8-24 to 9-13
5.	Metric Measurement – Temperature	8-24 to 9-13
6.	Metric Measurement – Volume	8-24 to 9-13

7.	Metric Measurement – Weight	8-24 to 9-13
8.	Mitosis	8-24 to 9-13
9.	Transcription, Translation, and Mutation	8-24 to 9-13
10.	Osmosis	8-24 to 9-20
11.	Epithelial Tissue Histology	8-24 to 9-20
12.	Connective Tissue Histology	8-24 to 9-20
13.	Test for Proteins	8-24 to 9-27
14.	Test for Fats	8-24 to 9-27
15.	Test for Starch	8-24 to 9-27
16.	Test for Sugars	8-24 to 9-27
17.	Diff Across a Selectively Perm Membrane	8-24 to 10-4
18.	Eff. Of Media Density on Diffusion	8-24 to 10-4
19.	Cell Respiration – Yeast	8-24 to 10-4
20.	Enzyme Activity	8-24 to 10-11
21.	Enzymes – Effect of Temp.	8-24 to 10-11
22.	Enzymes – Effect of Concentration	8-24 to 10-11
23.	Enzymes – Effect of pH	8-24 to 10-11
24.	Operation of a Brightfield Microscope	8-24 to 10-18
25.	Microscopy – Oil Immersion Lens	8-24 to 10-18
26.	Muscle Tissue Histology	8-24 to 11-8
27.	Electromyography – Motor Unit Recruitment	8-24 to 11-8
28.	Electromyography – Time to Fatigue	8-24 to 11-8
29.	Skeletal Muscle Physiology	8-24 to 11-8

30.	Skeletal Muscle – Electrical Stimulation	8-24 to 11-8
31.	Demonstrate Monosynaptic Reflexes	8-24 to 11-15
32.	Nervous Tissue Histology	8-24 to 11-15
33.	Eye Dissection	8-24 to 11-15
34.	Accommodation of the Lens	8-24 to 11-15
35.	Convergent Reflex Test	8-24 to 11-22
36.	Astigmatism Test	8-24 to 11-22
37.	Pupillary Reflex Test	8-24 to 11-22

*****Note*** On all assignments pay close attention to the availability and the due date of each assignment..**

All assignments have specific start and due dates. Make sure to get the work completed and submitted before the due date elapses. If an assignment is due on 9-13-26 at 10 pm then submission at 10:30 pm means McGraw-Hill will automatically give you a zero for all work completed after 10 pm. If you cannot get an assignment done before the cutoff time/date let me know immediately and we can work out something. Do not do an assignment after the due date without discussing the situation with me first. Keep good records of your grades and email me with any discrepancies. Everyone deserves full credit for their work. All proctored exams and quizzes will be done through Proctorio on Connect. At the instructor's discretion any assignment may be added, modified or cancelled depending upon class circumstance. This includes any homework, quizzes, exams or other assigned work such as presentations, group work or in class activity. Due dates are subject to change depending upon class circumstances.

ACCT 2301.20D1
Principles of Financial Accounting
Fall 2026

Instructor:	Pam Thompson	Meeting Location:	Online
Office/Location:	Online	Meeting Days:	N/A
Phone:	N/A	Meeting Times:	N/A
Email:	pthompson@parisjc.edu		
Office Hours:	By appointment		

Semester Dates: August 24, 2026 – December 10, 2026

Key Dates:

- Check with Advising for the last day for schedule changes
- Sep 7: Labor Day (College holiday)
- Sep 9: Census date: students must participate and pay by this deadline or be dropped
- Nov 12: Last day to drop with a “W”
- Nov 25-27: Thanksgiving Holiday (College holiday)
- Dec 7-10: Final Exam window

Course Description:

This course introduces the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems used to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare and interpret the primary financial statements for external users.

Credits:

SCH = 3 (3 Lecture and 0 Lab)

Required Textbook(s) and Materials:

Spiceland, Sepe, Nelson, and Thomas. Financial Accounting (6th ed.)

All required course materials are delivered through DragonNow, the campus-wide digital course materials program. Digital courseware (e.g., McGraw-Hill Connect) is accessed through Blackboard.

Your PJC account will be charged automatically; you will not need to make a separate purchase for the course material.

Students are responsible for verifying access to course materials and ensuring they remain enrolled in DragonNow unless they choose to opt out by the published opt-out deadline.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Sep 9th**.

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.

- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Course Goals and Objectives:

- Critical Thinking Skills: creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information
- Communication Skills: effective development, interpretation, and expression of ideas through written, oral, and visual communication
- Empirical and Quantitative Skills: manipulation and analysis of numerical data or observable facts resulting in informed conclusions
- Teamwork: ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes:

1. Record business transactions using the double-entry accounting model and apply the accounting cycle (adjusting and closing).
2. Explain and apply the conceptual framework and generally accepted accounting principles (GAAP) to routine transactions.
3. Prepare, present, and interpret financial statements (income statement, balance sheet, statement of cash flows, and statement of equity).
4. Account for and report on cash, receivables, inventories, long-lived assets, and related depreciation/amortization.
5. Account for liabilities and equity transactions, including notes payable, bonds, and corporate equity.
6. Use financial statement information to evaluate a company's profitability, liquidity, and solvency.

Course Requirements and Evaluation:

Category	Weight
Syllabus Quiz	Required by: 09.09.26
Exams (3 Ch Exams, 1 practice, 1 Final Exam)	33%
Graded Chapter Assignments	27%
Data Visualization/Excel	29%
SEC Analysis	9%
Other (reflections, discussions)	2%
Total (category percentage rounded)	100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

For this course, the required First Assignment is title **First Assignment Syllabus Quiz**, found in Blackboard near the top.

Course Policies:

Mid-Term Grades: Instructors must enter mid-term grades during the ninth week of the semester (October 25, 2026). Mid-term grades may change and do not impact GPA; they are provided to help students evaluate progress. Please schedule a meeting with your instructor if you are concerned about your midterm grades.

Power of the Final:

Because we do not offer make-up opportunities for missed exams, the final exam is comprehensive. You must take the final exam; however, the final exam may replace a missed or low exam score.

Due Dates, Late Work, and Withdrawal:

Assignments are due by the posted deadlines in Blackboard. Late work or extensions are not given unless the student has a verifiable and unavoidable excuse.

Students are responsible for initiating withdrawals.

Last day to drop the course with a grade of "W" is Thursday, November 12, 2026.

Failure to officially withdraw may result in a grade of F.

Census Date Requirement: By Wednesday, September 09, 2026, students must participate *and* be financially clear by the deadline or may be administratively dropped. Contact the Business Office and/or Financial Aid for any questions. Students are responsible for understanding their payment status at census date.

Completion of the SYLLABUS QUIZ satisfies the participation requirement for this course. Students who do not submit this assignment will be reported to the Registrar as 'Never Attended' and dropped without further notice.

Online Attendance / Participation:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. . Participation includes, but is not limited to: logging into Blackboard, completing graded activities, posting to discussions, submitting assignments, and taking assessments.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Communication and Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)

Institutional Policy: Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Course specific policy: AI tools are permitted in this course for students who wish to use them to support the learning process. AI use is **NOT** permitted during exams. Students are strongly encouraged to complete all graded assignments without excessive reliance on AI tools as this can diminish the overall learning process.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any syllabus changes with an announcement posted in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule

Readings refer to Spiceland, Financial Accounting (6th ed.), Chapters 1–10. Specific assignment due dates will be posted in Blackboard and noted in the syllabus.

Fall 2026 ACCT 2301 Calendar						
Week(s)	Dates			Chapter	Topic	Description
1	08/24	to	08/30	1	A Framework for Financial Accounting	Introduces financial accounting, financial statements, GAAP, and the conceptual framework used to provide useful information for business decision making.
2	8/31	to	09/06	2	The Accounting Cycle: During the Period	Explains how business transactions affect the accounting equation and how transactions are recorded using debits and credits, journals, ledgers, and a trial balance.
3	09/07	to	9/13	3	The Accounting Cycle: End of Period	Covers accrual accounting, adjusting entries, preparation of financial statements, and the closing process at the end of an accounting period.
4	9/14	to	9/20	4	Cash & Internal Controls Exam 1 (open 9/18-9/20)	Examines internal controls, cash and cash equivalents, controls over cash receipts and disbursements, bank reconciliations, and cash flow reporting.
5	9/21	to	9/27	5	Receivables & Sales	Covers accounting for credit sales, accounts and notes receivable, sales adjustments, uncollectible accounts, and related revenue and interest recognition.
6	9/28	to	10/04	6	Inventory and Cost of Goods Sold	Explains inventory and cost of goods sold, alternative inventory costing methods, perpetual inventory accounting, and lower-of-cost-and-net-realizable-value reporting.
7 & 8	10/05	to	10/18	7	Long-Term Assets Exam 2 (Open 10/16 - 10/18)	Examines the acquisition, use, depreciation or amortization, subsequent expenditures, and disposal of property, plant, equipment, and intangible assets.
9	10/19	to	10/25	8	Current Liabilities	Covers the recognition and accounting for current liabilities, including notes payable, payroll-related obligations, other short-term liabilities, and contingencies.
10 & 11	10/26	to	11/08	9	Long-Term Liabilities	Introduces long-term financing and accounting for installment notes, leases, and bonds, along with the effects of debt on financial risk and return.

12 & 13	11/09	to	11/22	10	Stockholders' Equity	Examines corporate ownership and accounting for common and preferred stock, treasury stock, retained earnings, dividends, stock splits, and stockholders' equity reporting.
14	11/23	to	11/29		No new material - course wrap-up. Thanksgiving Break. Exam 3 (Open 11/23-11/24)	Note: This exam period is only two days due to the upcoming break for Thanksgiving.
15	11/30	to	12/06		Final Exam Review Final Exam (Open 12/01 - 12/07)	
16	12/07	to	12/10		Final Exam (Open 12/01 - 12/07)	

Exam Information:

Exams will be taken online using Proctorio to make education more equal, by giving each student an opportunity to earn the grades they deserve. The US Federal Government also requires that all schools have a process in place for verifying student identity to protect against Federal Student Aid (FSA) fraud.

Proctorio is a trusted resource for remote proctoring because of the company's commitment to student privacy. Proctorio uses a single sign-on through Connect and only approved individuals at our institution will have access to your exam data. Proctorio never requires personally identifiable information from students and will never sell your data to third parties.

Proctorio only runs as an extension in your browser. This means that Proctorio works within a sandbox and has limited access to your computer system unlike traditionally installed software applications that have complete access to your computer's hard drive, or other resources.

Proctorio does not run constantly in Connect. Proctorio only runs while you are taking your proctored exams on Connect and when you take your proctored assignment. After your semester ends, you may uninstall the extension by right-clicking on it. All student data is kept safe using zero-knowledge encryption, meaning student data is scrambled and unreadable by anyone outside of the learning platform.

Before getting started on your first proctored exam, please attempt the '*Practice Exam with Proctoring in Connect*'. This will be available in Blackboard. This will ensure that everything will run smoothly on the day of the proctored exams. If you have any trouble while using Connect & Proctorio, you can contact PJC tech support at helpdesk@parisjc.edu or 903.782.0496.

Course Schedule: Fall 2026: 08/24/2026 - 12/11/2026

Note: This schedule contains information pertinent to the course and does not have all the semester calendar information. [Click this link to access the PJC Fall 2026 semester calendar.](#)

Due Date		Graded Activity
<i>NOTE: Most due dates are on Sundays - but not all of them. Watch your dates!</i>		
8/31/2026		Syllabus Quiz (Required to show you are active in the course.)
9/13/2026		Chapter 1 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 2 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 3 graded assignments (Assignment, Excel, SEC, etc.)
		Practice Exam with Proctor
None		Complete Practice questions for Exam 1 (not graded, no due date)
9/20/2026		Exam 1 - Ch 1-3 (open 09/18/2026 to 09/20/2026)
10/11/2026		Chapter 4 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 5 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 6 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 7 graded assignments (Assignment, Excel, SEC, etc.)
None		Complete Practice questions for Exam 2 (not graded, no due date)
10/19/2026		Exam 2 - Ch 4-7 (open 10/16/2026 - 10/19/2026)
11/22/2026		Chapter 8 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 9 graded assignments (Assignment, Excel, SEC, etc.)
		Chapter 10 graded assignments (Assignment, Excel, SEC, etc.)
None		Complete Practice questions for Exam 3 (not graded, no due date)
11/24/2026		Exam 3 - Ch 8-10 (open 11/23/2026 - 11/24/2026)
12/7/2026		Final Exam - comprehensive (open 12/01/2026 - 12/07/2026)

ACNT 1303.10J0
Introduction to Accounting I
Fall 2026 – Flex B

Instructor: Wanda Duncan
Office: AS 151
Phone: 903.782.0378
Email: wduncan@parisjc.edu
Office Hours: TBA

Meeting Location: AS 152
Meeting Days: Tuesday/Thursday
Meeting Times: 9:30 a.m. – 11:15 a.m.

Course Description:

A study of analyzing, classifying, and recording business transactions in a manual and computerized environment. Emphasis on understanding the complete accounting cycle and preparing financial statements, bank reconciliations, and payroll.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

College Accounting, Chapters 1-9, 23rd edition.

Heintz & Perry

Cengage Learning

Inclusive Access: 9781337913379

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard “Announcements” for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Described the purpose of accounting
2. Described the accounting process
3. Constructed the accounting equation
4. Analyzed business transactions
5. Showed the effects of business transactions on the accounting equation
6. Prepared and described the purposes of a simple income statement, statement of owner's equity, and balance sheet
7. Described the effects of debits and credits on specific types of accounts
8. Described the flow of data from source documents to the trial balance
9. Journalized transactions
10. Posted to the general ledger and prepare a trial balance
11. Prepared end-of-period adjustments
12. Posted adjusting entries to the general ledger
13. Prepared financial statements with the aid of a work sheet
14. Journalized and post-closing entries
15. Prepared a post-closing trial balance

Student Learning Outcomes:

1. Defined accounting terminology
2. Analyzed and recorded business transactions in a manual and computerized environment
3. Completed the accounting cycle
4. Prepared financial statements
5. Applied accounting concepts related to cash and payroll

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Day (**October 26**) to avoid being dropped.

This is an **8-week** course that runs from **October 19** to **December 10**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **CengageNOWv2**. Inclusive Access gives the student access to course documents, assessments, and exams. Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Registering Cengage NOWv2 through BlackBoard
- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for homework assignments and the Final Exam
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in lecture sessions and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There will be a Final Exam:

- The Final Exam will be available to you to take on your home computer using the honor system.
- The exam will be available from November 30 to December 10.
- There are three attempts to achieve the highest grade possible.
- You need to complete your work early so that if you encounter a problem you can contact me in time to get a response and resolve the problem.

Students should read all chapters, review assessments, and/or practice assessments to prepare for the Final Exam. If you fail to complete chapter assessments and practice assessments during its availability period, then the assessment may not be available for review.

Chapter Assessments: All chapter assessments will be completed within **CengageNOWv2**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the final exam. The due date of each chapter and exam are listed in the schedule which can be accessed from the Homepage of your BlackBoard course. Each assessment has three attempts to achieve the highest grade possible.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on completion of assessments which include homework, Final Exam, BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

1089 – 1210 = A	90 – 100 = A
968 – 1088 = B	80 – 89 = B
847 – 967 = C	70 – 79 = C
726 – 846 = D	60 – 69 = D
0 – 725 = F	0 – 59 = F

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are normally posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All module assessments will be completed by logging into **BlackBoard**, select a “chapter,” and then select the “assessment” you are wanting to complete. Once you have selected the assessment, the “**CengageNOWv2**” window will appear and you can then begin working on the assessment.

CengageNOWv2 assessments can be taken **three (3) times** to improve grade.

Course Procedures:

- **Microsoft Office 365** and **CengageNOWv2** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class.

- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (email for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **CengageNOWv2** are linked into **BlackBoard**.

You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are

listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.

- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before the Official Reporting Day (ORD) to be considered an active student or to be considered attending class. Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put “ACNT 1303 Question” or “ACNT 1303 Question About” as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check “Announcements” in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn’t be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person’s humorous comment may push another person’s buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.

6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words, without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills.
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **October 26**.

Last Day to Drop Classes with a "W" is **November 24**.

Thanksgiving Holiday is **November 25 – 27**.

Final Exams is **December 7 – December 10**.

All assignments must be completed by **11:15 A.M. on Thursday, December 10**.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Chapter 1: Introduction to Accounting
Week 2:	Chapter 2: Analyzing Transactions: The Accounting Equation
Week 3:	Chapter 3: The Double-Entry Framework
Week 4:	Chapter 4 – Journalizing and Posting Transactions
Week 5:	Chapter 5: Adjusting Entries and the Work Sheet Chapter 5 Appendix: Depreciation Methods
Week 6:	Chapter 6: Financial Statements and the Closing Process Chapter 6 Appendix: Statement of Cash Flows
Week 7:	Practice Final Exam
Week 8:	Final Exam

ACNT 1303.20E0
Introduction to Accounting I
Fall 2026 – Flex B

Instructor: Wanda Duncan
Office: AS 151
Phone: 903.782.0378
Email: wduncan@parisjc.edu
Office Hours: TBA

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

A study of analyzing, classifying, and recording business transactions in a manual and computerized environment. Emphasis on understanding the complete accounting cycle and preparing financial statements, bank reconciliations, and payroll.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

College Accounting, Chapters 1-9, 23rd edition.

Heintz & Perry

Cengage Learning

Inclusive Access: 9781337913379

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard "Announcements" for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Described the purpose of accounting
2. Described the accounting process
3. Constructed the accounting equation
4. Analyzed business transactions
5. Showed the effects of business transactions on the accounting equation
6. Prepared and described the purposes of a simple income statement, statement of owner's equity, and balance sheet
7. Described the effects of debits and credits on specific types of accounts
8. Described the flow of data from source documents to the trial balance
9. Journalized transactions
10. Posted to the general ledger and prepare a trial balance
11. Prepared end-of-period adjustments
12. Posted adjusting entries to the general ledger
13. Prepared financial statements with the aid of a work sheet
14. Journalized and post-closing entries
15. Prepared a post-closing trial balance

Student Learning Outcomes:

1. Defined accounting terminology
2. Analyzed and recorded business transactions in a manual and computerized environment
3. Completed the accounting cycle
4. Prepared financial statements
5. Applied accounting concepts related to cash and payroll

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Day (**August 31**) to avoid being dropped.

This is an **8-week** course that runs from **August 24** to **October 15**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **CengageNOWv2**. Inclusive Access gives the student access to course documents, assessments, and exams. Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Registering Cengage NOWv2 through BlackBoard
- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for homework assignments and the Final Exam
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in lecture sessions and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There will be a Final Exam:

- The Final Exam will be available to you to take on your home computer using the honor system.
- The exam will be available from October 1 to October 14.
- There are three attempts to achieve the highest grade possible.
- You need to complete your work early so that if you encounter a problem you can contact me in time to get a response and resolve the problem.

Students should read all chapters, review assessments, and/or practice assessments to prepare for the Final Exam. If you fail to complete chapter assessments and practice assessments during its availability period, then the assessment may not be available for review.

Chapter Assessments: All chapter assessments will be completed within **CengageNOWv2**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the final exam. The due date of each chapter and exam are listed in the schedule which can be accessed from the Homepage of your BlackBoard course. Each assessment has three attempts to achieve the highest grade possible.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on completion of assessments which include homework, Final Exam, BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

1089 – 1210 = A	90 – 100 = A
968 – 1088 = B	80 – 89 = B
847 – 967 = C	70 – 79 = C
726 – 846 = D	60 – 69 = D
0 – 725 = F	0 – 59 = F

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are normally posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All module assessments will be completed by logging into **BlackBoard**, select a “chapter,” and then select the “assessment” you are wanting to complete. Once you have selected the assessment, the “**CengageNOWv2**” window will appear and you can then begin working on the assessment.

CengageNOWv2 assessments can be taken **three (3) times** to improve grade.

Course Procedures:

- **Microsoft Office 365** and **CengageNOWv2** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class.

- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (email for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **CengageNOWv2** are linked into **BlackBoard**.

You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are

listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.

- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before the Official Reporting Day (ORD) to be considered an active student or to be considered attending class. Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put “ACNT 1303 Question” or “ACNT 1303 Question About” as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check “Announcements” in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn’t be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person’s humorous comment may push another person’s buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.

6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words, without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills.
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **August 31**.

Last Day to Drop Classes with a "W" is **October 1**.

Labor Day Holiday is **September 7**.

Final Exams is **October 12 – October 14**.

All assignments must be completed by **11:59 PM on Wednesday, October 14**.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Chapter 1: Introduction to Accounting
Week 2:	Chapter 2: Analyzing Transactions: The Accounting Equation
Week 3:	Chapter 3: The Double-Entry Framework
Week 4:	Chapter 4 – Journalizing and Posting Transactions
Week 5:	Chapter 5: Adjusting Entries and the Work Sheet Chapter 5 Appendix: Depreciation Methods
Week 6:	Chapter 6: Financial Statements and the Closing Process Chapter 6 Appendix: Statement of Cash Flows
Week 7:	Practice Final Exam
Week 8:	Final Exam

**AERM 1303
Shop Practices
Fall 2026,**

Instructor: Tim Sullivan

Office: A124

Phone: 903-457-8721

Email: tsullivan@parisjc.edu

Office Hours: 10AM-2PM Mon-Thurs

Meeting Location: A123

Meeting Days: Mon-Thurs

Meeting Times: 8:15-9:05 AM

Course Description:

An introduction to shop safety, the correct use of hand tools, equipment, and precision measurement, identification of aircraft hardware, and the fabrication of fluid lines and tubing. Emphasis on procedures for testing, heat treating, and inspection of aircraft structures.

AERM 1303 Shop Practices: 4 hrs./wk., 16wks, 64 Contact hours

Required Textbook(s) and Materials:

None

Course Goals and Objectives:

- Perform basic shop safety and shop operations.
- Perform precision measurement procedures.
- Perform safety wiring techniques.
- Identify and select non-destructive testing methods and heat-treating procedures.
- Perform non-destructive testing.
- Identify and select aircraft hardware and materials.
- Fabricate and install fluid lines and fittings.
- Inspect welds.
- Demonstrate employability skills as an Aviation Maintenance General Technician.
- Exhibit punctuality, initiative, courtesy, loyalty, and honesty.
- Identify appropriate responses to criticism from employer, supervisor, or employees.
- Identify and adopt acceptable work habits.
- Attempt NC3 Hand Tool Identification and Safety Certification.
- Attempt NC3 Precision Measurement Instruments Certification.
- Attempt NC3 Mechanical and Electronic Torque Certification.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READING AND ASSIGNMENTS
25 Aug 2026	Lesson 1 Intro to Shop Safety	Review Lesson 1 PowerPoint
26 Aug 2026	Lesson 2 Eye and Hand Safety	Review Lesson 2 PowerPoint
2 Sep 2026	Lesson 2A Human Factors	Review Lesson 2A Human Factors Quiz
8 Sep 2026	Lesson 2B Soldering Basics	Review Lesson 3 PowerPoint
9 Sep 2026	Lesson 3 General Purpose Tools	Review Lesson 4 PowerPoint
14 Sep 2026	Lesson 4 Countersinks and Micrometers	Review Lesson 5 PowerPoint
16 Sep 2026	Lesson 5 Punches and Cutting Tools	Review Lesson 6 PowerPoint
21 Sep 2026	Lesson 6 Drilling and Forming Tools	Review Lesson 7 PowerPoint
23 Sep 2026	Lesson 7 Metals, Alloys, and Heat Treatment	Review Lesson 8 PowerPoint
28 Sep 2026	Lesson 8 Metal Working Processes	Review Lesson 9 PowerPoint
30 Sep 2026	Lesson 9 Hardness Testing and Composites	Review Lesson 10 PowerPoint
5 Oct 2026	Lesson 10 Aircraft Hardware	Review Lesson 11 PowerPoint
7 Oct 2026	Lesson 11 Aircraft Washers and Rivets	Review Lesson 12 PowerPoint
12 Oct 2026	Lesson 12 Aircraft Fasteners and Nut Plates	Review Lesson 13 PowerPoint FAA Regulations Quiz

14 Oct 2026	Lesson 13 Control Cables and Safety Wiring	Review Lesson 14 PowerPoint
21 Oct 2026	Lesson 14 Fluid Lines and Tubing	Review Lesson 15 PowerPoint
28 Oct 2026	Lesson 15 Basic Inspection	Review Lesson 15 PowerPoint
3 Nov 2026	Lesson 16 Annual Progressive, and Special Inspections	Review Lesson 16 PowerPoint
10 Nov 2026	Lesson 17 NDI and NDT	Review Lesson 17 PowerPoint
17 Nov 2026	Lesson 18 NDI and NDT Cont	Review Lesson 18 PowerPoint
7 Dec 2026	Final Exam	

Course Requirements and Evaluation:

Lesson 2	Human Factors Quiz	40 pts.
Lesson 2	Aviation Safety Quiz	50 pts
Lesson 5	Hand Tool and Measuring devices Quiz	50 pts
Lesson 9	Aircraft Processes Quiz	150 pts
Lesson 12	Aviation Hardware Quiz	100 pts
Lesson 16	Inspection Concept Assignment	50 pts
Lesson 18	Aircraft Inspection Quiz	100 pts
Final Exam		<u>100 pts</u>

- Total 640 pts.

Grade Determination:

576-640 points	=	A
512-575 points	=	B
448-511 points	=	C
384-447 points	=	D
383 or below	=	F

Quizzes	=	490 pts or 76.5%
Assignments	=	50 pts or 8%
Final Exam	=	<u>100 pts or 15.5%</u>
Total		640 pts or 100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Classes will be in person, in the classroom or lab as specified by the instructor.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Notice of any changes will be by Blackboard announcement.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

**AERM 1315
Aviation Science
Fall 2026,**

Instructor: Jim Dilavore
Office: A124
Phone: 903-457-8721
Email: jdilavore@parisjc.edu
Office Hours: 10AM-2PM Mon-Thurs

Meeting Location: A126
Meeting Days: Mon-Thurs
Meeting Times: 8:00 AM

Please use Blackboard Email to Email the Instructor. Assignments are due at the end of the week assigned.

Course Description:

Course Description: Fundamentals of mathematics, physics, and drawings as they apply to aircraft principles and operations as required by the Federal Aviation Administration (FAA) for airframe and powerplant mechanics.

Required Textbook(s) and Materials:

There is no textbook required. All materials are in Blackboard.

Course Goals and Objectives:

- Extract roots and raise numbers to a given power.
- Calculate areas and volumes of various geometrical shapes by solving problems for volume, weight, area, circumference, and perimeter measurements for rectangles, squares, and cylinders.
- Solve ratio, proportion, and percentage problems.
- Perform algebraic operations involving addition, subtraction, multiplication, and division of positive and negative numbers.
- Apply the principles of simple machines, sound, fluid, and heat dynamics.
- Apply the principles of basic aerodynamics, aircraft structures, and flight theory.
- Understand molecular action as a result of temperature extremes, chemical reaction, and moisture content.
- Draw conclusions or make inferences from data.
- Understand pressure measurement in terms of PSI, inches of mercury, and KPA.
- Interpret aircraft drawings, symbols, and system schematics.
- Draw sketches of repairs and alterations.
- Interpret blueprint information, graphs, and charts.

Course Schedule:

DATE	TOPIC	READING AND ASSIGNMENTS
26 Aug 2026	Lesson 1 (Math) Whole Numbers and Fractions	Read the syllabus Review Lesson 1 PowerPoint Quiz
2 Sept 2026	Lesson 2 (Math) Decimal Numbers	Review Lesson 2 PowerPoint Complete Lesson 2 Math Assignment Math Lab Decimal Numbers
9 Sept 2026	Lesson 3 (Math) Ratios and Proportions	Review Lesson 3 PowerPoint Quiz
10 Sept 2026	Lesson 4 (Math) Powers and Roots	Review Lesson 4 PowerPoint Quiz Math Lab Positive and Negative Numbers
14 Sept 2026	Lesson 5 (Math) Algebra	Review Lesson 5 PowerPoint Quiz Math Lab Roots, Raised numbers, Algebra
15 Sept 2026	Lesson 6 (Math) Computing Area of Two-Dimensional Solids	Review Lesson 6 PowerPoint Quiz
17 Sept 2026	Lesson 7 (Math) Computing Area of Three-Dimensional Solids	Review Lesson 7 PowerPoint
21 Sept 2026	Lesson 8 (Math) Measurement Systems	Review Lesson 8 PowerPoint Math Lab Practical Exercise
22 Sept 2026	Lesson 9 (Physics) Characteristics of Matter	Review Lesson 9 PowerPoint Quiz Physics Essay Assignment
23 Sept 2026	Lesson 10 (Physics) Energy and Force	Review Lesson 10 PowerPoint
29 Sept 2026	Lesson 11 (Physics) Simple Machines, Levers and Pulleys	Review Lesson 11 PowerPoint Lab for Simple Machines
1 Oct 2026	Lesson 12 (Physics) Stress Factors	Review Lesson 12 PowerPoint Quiz

DATE	TOPIC	READING AND ASSIGNMENTS
7 Oct 2026	Lesson 13 (Physics) Heat, Energy and Transfer	Review Lesson 13 PowerPoint
14 Oct 2026	Lesson 14 (Physics) Pressure of Gasses	Review Lesson 14 PowerPoint Mid-Term Exam
21 Oct 2026	Lesson 15 (Physics) Fluid Mechanics	Review Lesson 15 PowerPoint Physics Lab for Gasses
26 Oct 2026	Lesson 16 (Physics) Sound, Speed and Measurement	Review Lesson 16 PowerPoint Quiz Physics Lab Exercise
28 Oct 2026	Lesson 17 (Physics) The Atmosphere	Review Lesson 17 PowerPoint Quiz
2 Nov 2026	Lesson 18 (Physics) Airfoils and Flight Characteristics	Review Lesson 18 PowerPoint Quiz
4 Nov 2026	Lesson 19 (Physics) Aircraft Stability	Review Lesson 19 PowerPoint Physics Lab for Aerodynamics
9 Nov 2026	Lesson 20 (Physics) High Speed Aerodynamics	Review Lesson 20 PowerPoint
11 Nov 2026	Lesson 21 (Physics) Helicopter Aerodynamics	Review Lesson 21 PowerPoint Quiz
16 Nov 2026	Lesson 22 (Physics) Flexible wing and Powered Parachute Aerodynamics	Review Lesson 22 PowerPoint
19 Nov 2026	Lesson 23 (Drawings) Drawing Types	Review Lesson 23 PowerPoint Drawing Essay Assignment
23 Nov 2026	Lesson 24 (Drawings) Standard Drawing Information	Review Lesson 24 PowerPoint Drawing Lab
1 Dec 2026	Lesson 25 (Drawings) Methods of Illustration	Review Lesson 25 PowerPoint
3 Dec 2026	Lesson 26 (Drawings) Lines and Their Meanings	Review Lesson 26 PowerPoint Drawing Lab
7 Dec 2026	Lesson 27 (Drawings) Reading and Interpreting Drawings	Review Lesson 27 PowerPoint Drawing Lab Review and Prepare for Final Exam
8 Dec 2026	Final Exam	Final Exam

Course Requirements and Evaluation:

Lesson 1	Quiz	10 pts.
Lesson 2	Decimal Numbers Assignment	30 pts
Lesson 2	Math Lab	20 pts
Lesson 3	Quiz	30 pts.
Lesson 4	Quiz	10 pts.
Lesson 4	Math Lab Positive and Negative Numbers	20 pts
Lesson 5	Quiz	5 pts.
Lesson 5	Math Lab Roots, Raised Numbers, Algebra	20 pts
Lesson 6	Quiz	10 pts.
Lesson 8	Math Lab Practical Exercise	20 pts

Labs	=	220 pts or 35%
Mid/Final Exam	=	<u>150 pts or 24%</u>
Total		620 pts or 100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. Students must complete work in a timely manner and follow due dates. Work must be turned in by the deadline and there will be no extra credit. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports

Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

AGRI 1131.250
The Agricultural Industry
Fall Flex Term A 2026 (Aug. 24-Oct. 14)

Instructor: Ms Charle D. Fox
Office: PJC Learning Center, Rm 94
Phone: 903-782-0414 ext, 1414
Email: cfox@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: As Requested

Office Hours: by appointment (via zoom, phone or in-person).

Course Description:

This course will provide students with an overview of the multiple facets to the Agriculture Industry with emphasis on Agricultural Sciences. Students will be given a brief history of Agriculture, a glimpse of the large variety of occupations associated with Agriculture, the role of Agricultural Leadership and a condensed description of the many divisions of Agricultural Sciences. These sciences include, but are not limited to: Soil Quality, Air Quality, Animal Science, Food Science, Horticulture, Crop Sciences, Biotechnology and Natural Resource Management.

Credits: 1 credit hour

Required Textbook(s) and Materials:

No textbook required

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Explain the history and importance of agriculture.
2. Identify the various industries of agriculture.
3. Assess careers in agriculture and related educational requirements.
4. Apply verbal and written communication skills in agricultural contexts.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Requirements and Evaluation:

First Assignment must be completed by Monday, Aug. 31, 2026, to avoid being dropped for non-participation.

Course Requirements and Evaluation:

Possible Points:

Each section will have a quiz. They are worth 30% of total grade

Assignment worth are worth 30% of total grade

There will be 2 Discussions worth 10%

Mid-Term Exam is worth 15%

Final Exam is worth 15%

Grades are averaged

Grade Determination:

Average of 90%-100% = A

Average of 80%-89% = B

Average of 70%-79% = C

Average of 60%-69% = D

Average of 59% or less = F

No Text Required. The majority of the course will be taught from Agriscience, Fundamentals and Applications, 5th Edition by L. DeVere Burton

Course Policies

- Late work will receive a 10% reduced grade and be further reduced for each week it is late. **UNLESS** you contact me and grant you more time without penalty based which will be based on need and merit.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1, 2026

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Course Schedule/Weekly Lesson Plan:

Module One: Due: Aug. 30, 2026

Lesson One:

First Assignment Due For ORD, Participation: Aug. 31, 2026

What is Agriculture?

- Defining Agriculture
- Brief History of Agriculture
- Introduction to Biotechnology

Lesson Two:

Career Development

- Career Options in Agriculture/Agriscience
- Supervised Agriculture Experience
- Leadership Development in Agriscience

Module Two: Due: Sept. 6, 2026

Lesson Three:

Natural Resource Management

- Air Quality
- Water and Soil Conservation
- Soils and Hydroponics Management

Lesson Four:

Integrated Pest Management

- Biological Cultural and Chemical Control of Pests
- Safe Use of Pesticides

Module Three: Due: Sept. 13, 2026

Mid-Term Due: Sept. 16, 2026

Lesson Five

Natural Resource Management cont.

- Forest Management
- Wildlife Management
- Aquaculture

Module Four

Lesson Six: Due: Sept. 20, 2026

Plant Science

- Plant Structures and Taxonomy
- Plant Physiology
- Plant Reproduction

Lesson Seven

Crop Science

- Grains
- Hay Production
- Nursery & Landscaping

Module Five Due: Sept. 27, 2026

Lesson Eight

Communications and Management in Agriscience

- Marketing in Agriculture
- Agribusiness Planning
- Entrepreneurship in Agriculture

Lesson Nine

Pandemic and Climate Change effects on Agriculture

- Agricultural responses to the Pandemic: Local and Global
- Climate Change effects on Agriculture
- Disaster Readiness in Agriculture

Module Six Due: Oct 4, 2026

Lesson Ten

Animal Sciences

- Animal Anatomy, Physiology and Nutrition
- Animal Health
- Genetics, Breeding and Reproduction
- Small Animal Care and Management

Lesson Eleven

Animal Sciences Continued

- Dairy and Livestock Management
- Horse Management

Module Seven Due: Oct. 11, 2026

Lesson Twelve

Pandemic and Climate Change effects on Agriculture

- Agricultural responses to the Pandemic: Local and Global
- Climate Change effects on Agriculture
- Disaster Readiness in Agriculture

Final Review

Module Eight Due: Oct. 16, 2026

Final Exam* Due by Oct. 16, 2026

*Proctored thorough Respondus

AGRI 1329.260
The Principles of Food Science
Fall Flex Term A 2026 (Aug. 24-Oct. 14)

Instructor: Ms Charle D. Fox
Office: PJC Learning Center, Rm 94
Phone: 903-782-0414 ext, 1414
Email: cfox@parisjc.edu
Office Hours: by appointment (via zoom, phone or in-person).

Meeting Location: Online
Meeting Days: Online
Meeting Times: As Requested

Course Description:

This course will provide students with an overview of the multiple faucets of the principles and components of Food Science. Students begin with a brief history of Food Science and a look at the occupations associated with Food Science. The main topics included in the course: Basic Chemistry, Sugars, Complex Carbohydrates, Lipids, Proteins, Enzymes, Micro Components, Food Microbiology, and Food Preservation and Packaging. We end with modern industry trends.

Credits: 3 credit hours

Required Textbook(s) and Materials:

No textbook required

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Identify the principles of food science related to food production, quality, safety, nutrition, and distribution.
2. Describe common and emerging technologies in food science.
3. Explain how engineering, microbiology, and chemistry are applied in food production and processing systems.
4. Describe food safety procedures in U.S. production systems.
5. Demonstrate appropriate food handling/food safety procedures.
6. Explain nutrient composition and the link between nutrition and health.
7. Examine the dynamics of global food supply.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Requirements and Evaluation:

First Assignment must be completed by Monday, Aug. 31, 2026, to avoid being dropped for non-participation.

**Course Requirements and Evaluation:
Possible Points:**

Each section will have a quiz. They are worth 30% of total grade

Assignment worth are worth 30% of total grade

There will be 2 Discussions worth 10%

Mid-Term Exam is worth 15%

Final Exam is worth 15%

Grades are averaged

AGRI 1131
The Agricultural Industry
Fall 2026

Instructor: Taylor Russell
Office: Ag 100
Phone: (972) 636-9991
Email: trussell@parisjc.edu
Office Hours: 8:15 am - 3:40 pm

Meeting Location: AG 100
Meeting Days: Monday & Friday
Meeting Times: 2:55 - 3:38 pm

Course Description:

Overview of agriculture and the American agricultural system, including an examination of career opportunities and requirements.

Prerequisite: None

Corequisite: None

Approval Number: 0101035201

Maximum SCH per Student: 1

Maximum SCH per Course: 1

Maximum Contact Hours per Course: 32

Required Textbook(s) and Materials: None

Course Goals and Objectives:

Upon successful completion of this course, students will:

- Explain the history and importance of agriculture. Identify the various industries of agriculture.
- Assess careers in agriculture and related educational requirements.
- Apply verbal and written communication skills in agricultural contexts.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material. The course has a total of 300 points.

Lecture Grades:

Midterm Exam:	70 points (1)
Comprehensive Final:	100 points (1)
Discussions:	130 points (13 discussions , 10 points each, lowest score will be dropped)

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

***Note: Discussion may not be completed late. Discussions are online and cannot be made up in the event of an absence but they may be completed off campus within the assigned window. There is one dropped Discussion grade. Students must pre plan for exams. If you are absent on exam dates, arrangements should be made BEFORE missing the exam. Students are expected to schedule a tutorial time to make up missed exam prior to their absence. Failure to complete an exam according to these guidelines will result in an exam grade of zero.

Course Policies:

Cell phone use will be restricted during class time in order to encourage active learning. Note taking is an important part of any college lecture course. Students are expected to engage in all parts of the lesson and provide feedback on their learning needs. Content discussions will be posted weekly in order to assess the topics and activities. Discussions will be completed online and if you are absent, you must complete the discussion online before the availability window closes. Discussions will open by 8 am Monday morning and close at 3:40 pm of the same week on Friday. Exams are taken in class only. You may not retake or make up missed exams. YOU MUST COMMUNICATE AN ABSENCE IN ADVANCE OF MISSING AN EXAM. Missed exams without prior communication will result in a zero and no opportunity for retake.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is 11/12/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. Course Description:

This course will consist of a study of structures and functions of human organ systems and how these organ systems interact to create a functional organism. We will also discuss how various diseases and disorders can disrupt the proper functioning of the organ systems of the human body.

Anatomy & Physiology is a course at PJC for students entering fields in allied health sciences, psychology, physical therapy, physical education, biology, geology, ecology, anthropology, agriculture, and any student who needs a basic understanding of structure and function of the human body and who has an entry level background in biology or nursing. This course is specially designed to be completed in two semesters. The topics discussed in this course are organized so that they form a core that is suitable to satisfy the prerequisites for student advancement.

Author: Welsh

Publisher: MCGRAW HILL (CUSTOM PUBLISHING)

The Textbook and CONNECT access necessary to complete homework, exam, quizzes and virtual lab activities. In addition to a functional computer with a stable internet connection, you need a folder with loose leaf paper, a pen and colored pencils.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard under the **Course Content tab**. Your first assignment is to click on a MGH link, then you will be directed to Connect where you must **register** for the MGH Connect course. How to register is described in detail under the **Start Here Tab** in Blackboard. Once you have registered in MGH Connect you will be able to complete the

When registering in MGH Connect, you will need to enter an e-mail and password. Use your **PJC Dragon E-mail** and choose a password you will remember. The link to set up your PJC Dragon Mail is located below if you do not have yours activated yet.

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

Article Summary are 10 pts each. There will be one article summary due at the end of each unit and they should run 1 to 2 pages in length. Please Follow the template that is provided for you in Blackboard.

Chapter Homework Assignments involve 12 assignments at 20pts each = 240pts. You have 2 attempts at each assignment. You should complete both attempts because the highest score will be recorded in My Grades of Blackboard and is used to calculate your final course grade. Do these assignments after reading your chapter and try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You will get detailed feedback after each question explaining anything you missed, so take notes. Homework assignments are designed to help you study for each chapter and excel on the exams. You may see some of these homework questions again on your unit exams. You may take notes to help you study. If you have a question there is an “ask the instructor” function in your homework.

Lecture Exams are predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- Timed, 1 attempt- 60pts

Exam 2- Timed, 1 attempt- 60pts

Exam 3- Timed, 1 attempt- 60pts

Exam 4- Timed, 1 attempt- 60pts

Comprehensive final exam – Timed, 1 attempt – 100 pts

Final Exam: Make yourself a good review and you should do well. The questions on the Final Exam are not exact repeats from the homework as you may have been accustomed to in the past. **The Final Exam can replace a low or missed exam.**

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later! Likewise, there will not be time to search for answers. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered.

Virtual Labs include numerous online lab activities. These are very user friendly, enjoy them, and be sure to watch the tutorial on them. They guide you, so the key is taking your time and following directions! Most are pretty short.

Grading Scale:

A - 90%- 100%

B - 80%- 89%

C - 70%-79%

D - 60%-69%

F – 59% and below

This is a challenging course, but you have an excellent chance of success if you complete all assignments on time and to the best of your ability. Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as an unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course.

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units plus the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (*recall that some questions in the homework may reappear on your unit exams*), complete the labs for each unit, and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Course Policies:

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Make-Up Work: Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit a MGH lecture assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5 percent deduction per day, a student may be given permission to submit MGH homework assignments up to two weeks late. For a face to face course, if permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours, and within two weeks of the exam. Make up exams may include both multiple choice and essay questions. Online students may submit exams early, but not late. **Online lab activities and online lab exams may not be submitted late.**

Most online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Late work will not be accepted the last week of the semester. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Course Communication: Outside of the classroom, email is the preferred method of communication. Always use your PJC email and include your full name and course number with all correspondences. Due to federal student privacy laws, grades cannot be discussed via email. Select the My Grades tab within your course to review your grades. You can expect a reply to your email within 24 hours, Monday - Friday 8:00 am – 3:00 pm.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student.

Class Conduct:

Do not photograph or make a video or audio of the class lectures, labs or your instructor. Turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.* **Your instructor strongly discourages the use of Artificial intelligence (AI).** However, AI tools are permitted in this course. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Warning: AI-generated content is known to falsify information and academic citations, which should be corrected in your completed document. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Class Chapter Schedule

Unit 1

- **Chapter 1 Introduction**

- Chapter 2 The Chemistry of Life
- Chapter 3 Cells
- Unit 1 Case Study (Mandatory Attendance)

Unit 2

- Chapter 4 Cellular Metabolism
- Chapter 5 Tissue
- Chapter 6 Integumentary System
- Unit 2 Case Study (Mandatory Attendance)

Unit 3

- Chapter 7 Muscle System
- Chapter 8 Skeletal System
- Chapter 9 Joints of the Skeletal System
- Unit 3 Case Study (Mandatory Attendance)

Unit 4

- Chapter 10 Nervous System 1
- Chapter 11 Nervous System 2
- Chapter 12 Nervous System 3
- Unit 4 Case Study (Mandatory Attendance)

Final Exam will be due on the Monday of Finals week!

****Dates in the syllabus are subject to change****

Biol 2401.150 Anatomy and Physiology I Fall 2026

Instructor: Kristin Craven
Office: GHS 1611
Phone: 903-453-3665
Email: cravenk@greenvilleisd.com

Meeting Location: GHS 1611
Meeting Days: MTWRF
Meeting Times: MTW 4:10 – 4:40
Mornings/ other days by appointment

Course Description:

Anatomy and Physiology I is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a hands-on learning experience for the exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragonow the campus-wide affordable course materials program. Your book is billed with your tuition; you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Sept 10.**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method, and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Unit Exams & Comprehensive Final	35% of course grade
Lab – Virtual and In-Person	35% of course grade
Homework Assignments & Quizzes	30% of course grade

Mid-Term Grades: PJC instructors must enter mid-term grades during the ninth week of the semester. Each student's mid-term grade may be viewed by College personnel with the need to monitor such information as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock of what may or may not be working. Please meet with your instructor if you are concerned about your midterm grades.

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **November 13, 2025**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but please do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 6 main units and a final exam. You can see when all assignments open and close in MGH Connect but the basic overview is also detailed in this syllabus. In a standard unit, you will have 2 chapters to cover, read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter, complete the labs for each unit, and the unit exam covering the 2 chapters. Plan a good schedule for when you want to complete each well before the due date.

Grading Scale:

Points	Letter Grade
900 – 1000	A
800 – 899	B
700 – 799	C
600 – 699	D
0 – 599	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 5, 2026. Completion of this assignment serves as

verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Format

This is an inquiry-based lecture course with materials and content delivered using McGraw-Hill's Connect. Students will complete online virtual labs in McGraw-Hill Connect. Each chapter comes with a SmartBook exercise. Additionally, there are 12 homework assignments, one for each chapter we will study this semester, that also must be completed in the on-line portion of the class. Each of these homework assignments has specific due dates and can be taken three times with the student able to update and correct their answers. There will also be a quiz for each chapter. Students may take the quiz only once.

It is the student's responsibility to keep track of assignments and labs posted in Connect and complete them within the allotted time frame. It is very important that students complete each assignment before they are due as McGraw-Hill will record a zero for any assignment not completed and submitted properly. Keep track of all of your work. Make sure that when you complete an assignment to take a picture with your phone and/or record the grade. We do not want to have any students not rewarded for their diligent work. There will be 4 lecture exams and 1 final exam along with daily work, homework, online virtual labs and quizzes. Lecture exams will include multiple choice, true-false, matching, short answer and essay questions over any materials covered in class or assigned. For in-class exams the student will be expected to bring a #2 pencil. Any announcements will be made through Blackboard, Google Classroom and/or through your PJC email address. Always check your school email as that is the email I am required to use.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook (any type will work for notes) and pens or pencils.

Rules for ALL Written Assignments

1. Use Microsoft Word
2. 12pt Type and Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor—no food /or beverages to class. REMEMBER – NO CELL PHONES ARE ALLOWED. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. The **student** must

initiate withdrawals. The last day for a student to withdraw from this course with a grade of “W” is **November 13**. Students absent are still responsible for lecture/lab materials covered during the absence and any required due assignments. Please get in touch with your instructor as soon as possible if you are absent so that you can remain current on the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to attend each class session and record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to others and the instructor in lectures and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule

Unit	Lesson	Lecture Assignments	Lab Assignments
1	1	Homework (HW) Chapter (Ch) 1 Introduction	Safety Labs
1	2	- Ch 2: Chemical Basis Homework - Ch 2 Quiz	Metric Labs & Quiz Chemistry Lab
1	3	- Ch 3: Cells Homework - Ch 3 Quiz	Membrane Transport Labs Osmosis and Diffusion Labs
1		Exam 1 (chapter 1, 2, 3)	

2	4	• Ch 4: Cellular Metabolism Homework • Ch. 4 Quiz	Cell Metabolism Labs Enzyme Labs
2	5	• Ch 5: Tissues Homework • Ch. 5 Quiz	Microscopy Labs Histology APR Lab
2	6	• Ch 6: Integumentary System Homework • Ch. 6 Quiz	Integumentary APR Lab
2		Exam 2 (chapter 4, 5, 6)	
3	7	• Ch 7: Skeletal System Homework • Ch. 7 Quiz	APR Bone Lab BONES LAB EXAM
3	8	• Ch 8: Joints of the Skeletal System Homework • Ch. 8 Quiz	
3	9	• HW Ch 9: Muscular System	Muscle Labs MUSCLE LAB EXAM
4	10	• Ch 10: Nervous System I – Basic Structure Homework • Ch. 10 Quiz	Nervous System Labs and APR
4	11	• Ch 11: Nervous System II – Divisions Homework • Ch. 11 Quiz	
4	12	• Ch 12: Nervous System III – Senses Homework • Ch. 12 Quiz	Eye and Vision Labs
4		Exam 4 (chapter 10, 11, 12)	
5	13	Comprehensive final exam	

The syllabus and course schedule are subject to change.

AP Senior English 2322.730 — Senior English
Fall 2026

Instructor: Brittany Figueroa

Room: 2009

E-mail: figueroab@greenvilleisd.com

Tutoring: Monday, Wednesday, Thursday, Friday 4:10–4:40 p.m.

Course Description

Dual Credit English IV is designed for students to complete senior-level high school English. Dual Credit English IV is designed for students to develop and strengthen their skills in language arts, both as a reader and a writer.

This class will be a survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Students will also strengthen writing skills by producing carefully crafted projects and research papers. Traditionally, English IV focuses on British literature; however, other texts may be explored. The coursework is designed to help students master both the TEKS/ELA Standards and College and Career Readiness Standards.

Completion Requirements

- Final Score of 70 or above in the class
 - TSI Requirement: Reading, 340+; Writing, 4 or above
-

Course Goals and Objectives

The general course goals of Senior English IV are to focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. This course involves the exploration of ideas that encourage aesthetic and intellectual creation in order to understand the human condition across cultures.

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively.

Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes — Core Curriculum Level

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
2. Demonstrate Communication Skills—to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.

3. Demonstrate Teamwork—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes — English Program Level

1. Students will be able to identify, arrange, and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes

1. Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.
2. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
3. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
4. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
5. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Course Policies

Essay Assignments

All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due. Submit as a Word or Google Doc attachment.

Students will be required to complete reading assignments, participate in class group discussions, write research papers over assigned topics, present oral research projects as part of an assigned group, and perform satisfactorily on daily assignments/products.

Students will take exams concerned with ideas presented by literature, techniques discovered in the literature, biographical information on authors, and historical perspective.

Class Attendance

Class attendance is critical for the successful completion of this course.

Students are responsible for notes and assignments missed.

Please keep in mind that these make-up policies apply to extracurricular absences as well. You are not penalized for an extracurricular absence.

Peer Review Assignments

There will be an in-class peer review exercise for each assigned essay. These scheduled peer review exercises count as quiz grades.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom.

No obscene/vulgar language will be permitted in the classroom.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity.

Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work.

A research paper submitted without a Works Cited page in MLA format and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

Note: The contents of this syllabus/calendar are subject to change.

GHS Classroom Procedures

Cell Phones

Cell phones are not allowed to be in sight without specific connection to an assignment as permitted by your teacher.

Absences

It is your responsibility to find out what you missed after an absence. Please contact a classmate or teacher to overcome missing work from absences.

Daily Objectives

Daily objectives and expectations will be in Google Classroom. Some work will be done through Google Classwork. Other assignments will be on paper or in your notebook.

Make-Up Work

All make-up work must be completed within 2 days of returning to school unless you have personally obtained an extension from me.

Late Work

All late work may be subject to a point deduction, especially if it is habitual.

Starting & Finishing Class

With rare exceptions, you will have an assignment on the board when class begins. Please begin this assignment at the beginning of class without a reminder to do so.

At the end of class, I will dismiss you. Please do not start gathering your belongings until instructed to do so.

Cheating

I believe that your ideas are important—use them. If you borrow from others, document appropriately. Avoid plagiarism.

Cheating carries an automatic zero.

Grading Policy

Grades for each grading period will be calculated according to the following percentages:

- Essays and Projects: 70%
- Peer Reviews and Daily Assignments: 30%

Required Text and Assignments

Greenblatt, Stephen, ed. et al. *The Norton Anthology of English Literature: Major Authors*, 9th ed. New York: Norton, 2013. ISBN#: 978-0-393-91963-9.

Assignments

- Research projects utilizing 2021 MLA documentation and applying the assessment rubric
- Oral Presentations
- Novel Selections
- Daily Assignments

First 9 Weeks

August 17 – October 16, 2026

Reading/Writing with an Analytical Perspective and The Middle Ages and 14th Century British Literature

Standards of Focus

- Language Usage: Vocabulary / Literary Conventions
- Reading and Analyzing Literature
- Reading and Analyzing Informational Text
- Speaking & Listening
- Writing in Response — 2 essays will be due this 9 weeks

Assignments

- Focused Notes
- Various Content Related Assignments
- Research Paper/Process (MLA 2021): Six Elements of the Epic/student choice of literary epic tales
- Grammar & conventions practice through daily Bell Ringers

Literature

The Great Greeks: Socrates, Plato, Aristotle, Euripides

- Various early world literature pieces
- Literature, Poetry
- “The Dream of the Rood”
- Epic Qualities: “Beowulf” / Movie
- “Sir Gawain and the Green Knight”
- Dante’s *Inferno*

Second 9 Weeks

October 19 – December 17, 2026

Reading/Writing with an Analytical Perspective and the 15th through the 18th Centuries British Literature

Standards of Focus

- Language: Vocabulary and Conventions
- Reading and Analyzing Literature
- Reading Informational
- Speaking & Listening
- Argumentative Strategies and Research Methods (MLA 2021)

Assignments

- Argumentative Essay (MLA 2021)
- Critical Evaluation Essay (MLA 2021)
- Various assignments related to the literature
- Collaborative work on selected pieces
- Grammar & conventions practice through daily Bell Ringers

Literature

- *Frankenstein*
- Selected works
- Chaucer — “Canterbury Tales” (The Knight — movie clips)
- Fabliau — “The General Prologue”
- “The Miller”
- “The Wife of Bath”
- “Legend of King Arthur” — notes
- Shakespeare's *Othello* — the play
- Swift — *Gulliver's Travels*

English 1301.79A0
Fall 2026

Instructor: Melissa Arnold
Office: NLHS / Room 107
Phone: 903-737-2011
Email: Blackboard Email (preferred)
marnold@parisjc.edu
marnold@northlamar.net
Office Hours:
Tuesday, 10:30 a.m. – 11:21 a.m.
Wednesday, 10:30 a.m. – 11:21 a.m.

Meeting Location: North Lamar High School
Meeting Days: Tuesday through Friday
Meeting Times: 1st, 2nd, and 3rd

Course Description

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. Three credit hours. Prerequisite(s): IRWS0302 with a grade of C or above or placement by department (based on admission information). TSI Requirement: Reading 341 and Writing 4

Required Course Materials

Kirsznner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 16th ed. Bedford/St. Martin's, 2024. ISBN: 9781319532345.

The digital copy of the required textbook will be available through the online part of the class, which is called Blackboard. This means that textbook fees will be incorporated into students' tuition and fees payment, and the student will have access to the required textbook on the first day of class. The digital copy of the required textbook will be available through the online part of the class, which is called Blackboard. This means that textbook fees will be incorporated into students' tuition and fees payment, and the student will have access to the required textbook on the first day of class.

All the required course materials for your classes are being delivered through Dragon Now, which is the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase. For this course, we will be using a digital eBook accessed through the My Materials link in Blackboard. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual Bookshelf.

If you wish to opt-out of this program, please follow the steps below by:
Fall Main Term: 09/11/2026

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Additional Resources

Holt McDougal Literature: American Literature. Houghton Mifflin. 2010. (Note: This book will be provided by North Lamar High School.)

Novel: *Of Mice and Men* by Steinbeck, John. Penguin Books: Publication date. September 1, 1993: ISBN: 978-0140177398 (The North Lamar High School library will have copies of the novel, too.)

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication and Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical and Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities and Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal and Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Goals and Objectives

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate *Critical Thinking Skills*—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate *Communications Skills*—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate *Team Work*—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate *Personal Responsibility*—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to an audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation

Students are encouraged to monitor grades on the Blackboard *My Grades* module and notify the instructor of missing grade. More importantly, it is the student's responsibility to monitor the grades and the average throughout the semester.

Grading Policy

Formative Assessments – Daily Grades - (25%)

- Daily exercises, various quizzes, and class productivity and participation– Daily grades
- Prewriting activities for major essays and short answer responses (Brainstorm/Free-write/Journal) – One daily grade each essay
- Homework assignments
- Typed or cursive outlines for major essays – Two daily grades each essay
- Completed and typed rough drafts for major essays – Three daily grades each essay
- Sources (annotated) for the research paper – Each source is a daily grade
- Peer-editing Workshops – Daily Grades

Summative Assessments – Test Grades – (55%)

- 3 - Major Essays - Each final draft of the essays will count as **two** test grades each.
- 1 – Documented Argumentative Essay (Research Paper) – The research paper will count as **four** test grades
- 1 - Final Essay – This exam will count as **four** test grades.
- Novel Exams – These exams will count as **two** test grades each.

ENGL 1301 Labs

Lab Average – (20%)

- The average of the required labs will count as twenty percent of the total average for the final grade.
- ENGL 1301 Labs (Online): Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will NOT be reopened under ANY circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Important Note:

***You CANNOT pass this course if you do not submit ALL essays. Successful completion of ALL five essays is REQUIRED.**

Essay Assignments:

All essays/writing assignments should be submitted no later than the due date. Submit as a Word or as a PDF. Do not submit essays via email; they MUST be submitted in Blackboard.

An essay/writing assignment must meet the minimum length requirement before I will grade it (a score of zero will be assigned). Assignments that do not meet the length requirement are not considered as valid submissions and will likely receive a grade of zero. A minimum of fifteen points will be deducted for an essay that is close to the required length, yet does not quite meet it.

Required Activity

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Students are expected to complete coursework honestly, using their own intellects and resources as allowable by the course instructor. All essays must be typed following the MLA format (12-point font, Times New Roman), and the essays will not be accepted in any other form. You can reference the Purdue OWL for further assistance in this regard.

Side note: Most (if not all) of the assignments for my class represent social issues, real-world situations, and personal experiences because I strive to make this class relevant to real-life experiences. Some of the material may "hit a nerve," but my goal in this class is to allow critical thinking and critical problem-solving skills to surface. Also, contents of this syllabus are subject to change, and **pop quizzes will be given over all reading assignments that are assigned.**

Parent/Guardian Signature _____

Grading Rubric

Grading Rubric: Letter Grade Description: For Written Papers and Essay Exams: The "A" Essay: An "A" essay is error free or nearly so in grammar. It addresses the topic directly and in detail. It provides very good, clear examples and illustrations. It provides enough elaboration to cover the topic and does so in an easy-to-read manner without straying from the topic. It uses proper MLA documentation and a works cited if required.

Grading Rubric: Letter Grade Description: The "B" Essay: The "B" essay response is well written and contains few grammar problems. It addresses the topic adequately and provides some illustrations or examples. It provides a good level of detail, but not as much as the "A" paper. It may stray a little from the topic, but is generally on track. It provides MLA documentation and a works cited if required, but it may need some minor amendment.

Grading Rubric: Letter Grade Description: The "C" Essay: The "C" essay likely contains some substantial grammar problems, and it does not have the level of detail desired for an essay response. It may provide something in the way of illustration or example, but not as much as needed or the examples used may not be so good. It may stray from the topic or not address it as directly as desired. MLA documentation and a bibliography may be present if required, but the documentation and works cited may be in need of substantial revision.

Grading Rubric: Letter Grade Description: The "D" Essay: The "D" essay likely has substantial grammar problems or it is simply inadequate in length or detail. It lacks substance and often strays from the topic or does not address it very well. It may contain some information that is on track, but it is marred by grammar problems or suffers from a lack of development. Inadequate documentation appears if required, and the works cited needs substantial work.

Grading Rubric: Letter Grade Description: The "F" Essay: The "F" essay likely does not address the topic or is severely hampered by grammar problems. It lacks development and simply does not provide an adequate response at the college level. It lacks adequate documentation and the works cited, if present, does not follow MLA style.

Grading Rubric: Letter Grade Description: The "0" Essay: The "0" essay is a copy and paste essay or one that is otherwise plagiarized or not original to the student enrolled in the course. Don't even think about it. You will not only get a "0" for this paper, but you may fail the course as well.

90-100=A 89-80=B 79-70=C 69-60=D 59-0=F

Disclaimer

The instructor of ENGL 1301 reserves the right to make modifications in content, schedule, and policies as necessary to promote the best education possible within prevailing conditions of the course/semester.

Nature of the Course

This is a face-to-face/online course; therefore, you are expected to come to class every day. However, there is online component to the class, which is located on the **Blackboard site:** www.parisjc.edu; Click on *Online and Internet Courses*; click on Blackboard link; sign in with your PJC student ID and date of birth (8 digits). Check internal email (Bb/email/messages in Blackboard) at least once per day. Watch for **ANNOUNCEMENTS** when you sign in to Blackboard.

Communication

Use the email messaging system in Blackboard for communication. I can find your message in Bb and keep it organized. Students are welcome to come by my classroom, and PJC instructors strive to be prompt in returning emails. Therefore, if an email is sent Tuesday through Friday, you may expect a response within twenty-four hours. However, if an email is sent after school on Friday through Monday, you should expect an answer on Tuesday.

Official Report Date (ORD) and Participation: The Texas Higher Education Coordinating Board (THECB) requires that online students show active participation in the course prior to the Office Report Date (ORD) or they are to be dropped from the course on the ORD. In order to remain enrolled in this course, *students must actively participate* in the course. For the **Fall 2026** semester, the ORD is September 9; however, *students must submit the Syllabus Quiz in class on August 27 to retain enrollment in the course*. Failure to complete this quiz by the due date may result in dropping from the course before the Official Report Date (ORD).

Last Date to Withdraw: November 12, 2026, is the last date to drop the course and receive an automatic “W.” A withdrawal request is the student’s responsibility.

Tardy

You are expected to arrive to class on time. Important note: quizzes will be spot-quizzes; that is, they will not be announced in advance, and they will be administered at the **beginning** of each class. If you are late to class and if a quiz is in progress, you will not be allowed to make-up the quiz. Please make every effort to be on time, and feel free to contact me if you are having trouble with the assigned readings. NOTE: For each tardy, ten points will be deducted from the “Class Participation” grade, which will be a test grade added at the end of the semester.

Leaving Class Early

Since this is a college class, you are expected to stay for the entirety of the class. If you leave early without prior arrangements, ten points will be deducted from your participation grade.

Electronic Devices and Messaging

For face-to-face classes, all electronic devices must be turned off, including Smart watches. They should be OUT OF SIGHT—NOT ON YOUR TABLE OR DESK. If you need a laptop for class, I will let you know.

***You CANNOT pass this course if you do not submit all of the required essays. Successful completion of all five essays is REQUIRED ***

- **Major Writing Assignments** – Most essays are written as in-class essays and outside of class. These papers are self-edited and peer-edited before students type the final copies. Students will compose **at least one essay from each** of the following categories: narrative essay, descriptive essay, process essay, compare/contrast essay, an analytical essay, argumentative essays, and a documented argumentative essay, which is also known as the research paper. Students must submit all revised and edited copies with the final copy. There will also be novel exam essays, which will predominately be analytical or argumentative in nature. Furthermore, summative tests in various formats will be given to assess competency on rhetorical strategies and techniques and their function in certain passages. Essay Format: We will use MLA style on papers that analyze literature, and we will use the MLA style for all essays in this course. Format all essays accordingly. These styles also addressed in the texts. Please consult them. Files submitted in Bb should be in Word or pdf format. Some writing will be required during class for f-2-f classes. Please write so that I can read it. If I cannot read it, it must be wrong and will be graded accordingly. It is the responsibility of the student to submit work in an acceptable format. If you do not have *Microsoft Word*, please go to the following address to retrieve information on how to get a **free** version of *Word*, *but you must have a school email to receive the free version for students*. [Office 365 Education](#) At the end of the semester, a final exam will be given and is required; **failure to complete the final exam for PJC credit (unless exempt) and the documented argumentative essay will result in failure for the course. No exceptions.**

All essays/writing assignments must be submitted by the due date. Submit as a Word or as a PDF. Do not submit essays via email.

- **Quizzes** - Quizzes will be spot-quizzes; that is, they will not be announced in advance, and they will be administered at the **beginning** of each class. If you are late to class and if a quiz is in progress, you will not be allowed to make-up the quiz. Quizzes are used primarily for reading and basic understanding of a text, including but not limited to novel

reading assignments and short story reading assignments. They are NOT designed to make subtle distinctions between degrees of understanding. Instead, they are designed to make sure students keep up with the reading and to make sure that students have a good comprehension of detail. Please make every effort to be on time, and feel free to contact me if you are having trouble with the assigned readings. A tardy will have an adverse effect on the participation grade. If an absence is prearranged, which will include E days, quizzes and tests may be taken **in advance**. Daily assignments include but are not limited to the following: quizzes, notes, homework, journals assignments, annotation of texts, and individual steps that lead to a larger project, such as proposals, research, drafts, and edits for major essays.

- **Participation** - In order to learn, a student must be in class and participate in class. Therefore, there are a few stipulations regarding my definition of participation. Also, in-class discussions engage all students, so please make sure to stay involved in class activities and discussions.
 - **In-class Participation** is required. I am aware, of course, that some people enjoy talking more than others do, but students who never talk in class should expect to be called upon. Also, the reverse is true for the “talkers.” I strive to have all students engaged in the class discussions. Since **part of your grade is based on participation**, communication is essential in this class.
 - **Socratic Seminar Participation** – Periodically, we will conduct Socratic Seminars in order to discuss our novels. Each student will be graded on the quality of the comments and discussion. Therefore, please remember to actually mention the book and specific page numbers during the discussions. If a student fails to mention details from the book, then the final discussion grade will reflect the lack of depth to the discussion.
- **Major Tests** – Major tests will include novels tests and comprehension tests over various concepts taught throughout the semester.
- **Peer Review Assignments:**
There will be an in-class peer review exercise for each assigned essay. These scheduled peer-review exercises count as daily grades and attendance **is expected** on these days. **It is especially important that you are not tardy on these class days.** Please be on time.
- **Labs** – Each student is responsible for completing all lab exercises on PJC’s Blackboard. The labs are located in this class’s Blackboard, and you will need to plan to complete **at least** one or more labs per week by their due dates.
- **Final Exam** – The final exam will be an in-class essay. The type of essay will be announced as the semester progresses.

*PJC’s English Department’s Final Exam Exemptions Policy:

- students with four or fewer absences **AND** an essay average of 80 or higher may be exempted from the final exam;
- remaining students will write a fifth essay at the time of the final
- the fifth essay grade will count as the final exam grade;
- averages for exempted students will not include a final exam grade
- the exemption is not mandatory; students may choose to write the fifth essay

Attendance

Face-to-Face Students

For success in a college class, attendance is essential. However, sometimes other courses or extra-curricular activities demand that you miss this class. In order for your absence to be excused, the coach or sponsor will need to notify me that you will be missing class for a school-sanctioned activity. Even though your absence is excused, you are not excused from course work. If you require extended time for an activity because of a school-sanctioned absence, please have your

coach/sponsor let me know in the notification. Students are responsible for all notes and assignments that are missed, and all deadlines are in the Blackboard schedule well-ahead of the due date; therefore, absolutely no late work will be accepted! Note: The only exception to the “No Late Work” rule is in the event of a catastrophic life event. FYI: Internet failures, computer failures, and procrastination issues do not warrant a catastrophic life event. If a true, catastrophic life event occurs, please contact me immediately through email. If you need a definition of a catastrophic life event, please see me during my office hours.

Students are responsible for all notes and assignments that are missed, and absolutely no late work will be accepted unless the absence is a school-sanctioned event or a catastrophic life event! However, if a student is absent due to one of the aforementioned reasons on the day an assignment is due, the student is expected to have the assignment turned in, notes copied, and quizzes *taken before the next class period*. No exceptions!! However, if a student misses a due date for an assignment due to a catastrophic life event, the student is expected to contact me as soon as possible.

Student Signature: _____

Assignment Due Dates

Assignments are due on the date shown on the syllabus or in the corresponding tabs in Blackboard. **Late** means that an assignment was not submitted in class or via Blackboard by the appropriate date and designated time. There are no exceptions for technical difficulties like computer glitches, Internet went down, explosions, etc. except when the college’s Blackboard or web system has gone down. At that point, the instructor will reset the due date. **Due dates for various lessons are located on the syllabus.**

Office Hours:

My office hours are written on page one of this syllabus, so if you ever need extra help, please come by my classroom. If you need to schedule a time for extra tutoring, just email me, and we can make an appointment.

Disruptive Behavior:

An open and friendly classroom environment with discussion on the related topics is desired; however, sometimes it does become necessary to remind ourselves of our reason for meeting and the work to be completed. If a student is disruptive to the point of interfering with the learning of other students or fails to treat the instructor and other members of the class with civility and respect, the student may be asked to leave the classroom; the student will need to meet with the instructor or other college officials before being allowed back into the classroom. Repeated requests to leave, refusal to leave the classroom when asked, or severe disturbance may lead to withdrawal from the course.

Technical Difficulties:

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- A. Paris
 - 1. The Learning Center (Check availability)
 - 2. AS 150
 - 3. The Writing Center (Check availability)
- B. Greenville Center Library

Technical Difficulties: Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

INSTRUCTIONAL RESOURCES

The Paris Junior College Calendar and Student Handbook is available in print or online at <http://www.parisjc.edu/downloads/student-handbook.pdf>. Every student should make sure to look over a copy of the handbook and to refer to it if situations arise during the semester. The calendar section contains vital deadlines and other events on campus.

The Writing Lab is a unique setting on the Paris campus in which students can work on writing assignments for any class. Computers are available for student educational use. Tutors are available to assist students with all phases of the writing process. This free service is available to any PJC student, and it is available in AD 125.

Paris Junior College Library: The library at Paris Junior College has a selection of materials as well as access to numerous databases. The library also has computer and staff available for coursework. Online resources and assistance are also available. Check the Library website (under Informative on the home page) for library hours and for information on all campuses.

The Virtual Reference Desk is available after the library closes from the access point on the left side of each library Web page (parisjc.edu; click on Quick Links link and then click on Library Services). Reference librarians are available online to help you with your research questions. Our Bboard course will also have an embedded librarian who will contact you (and you may contact him) via Bboard email messages.

Note: The contents of this syllabus are subject to change. Also, unless otherwise noted, all reading assignments are to be finished before each class period, and every essay must follow MLA guidelines. All quizzes are unannounced.

Class Attendance

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, **November 12, 2026**.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory/discussions. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty and AI (Artificial Intelligence) Policy

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author of ALL work submitted for the course. Allowing another individual or AI to complete assignments or copying work from the Internet constitutes fraud and academic dishonesty. Should such behavior come to the attention of the instructor, the instructor will discuss the situation with the student and discipline, up to and including removal from the course with a grade of *F*, will be determined. Failure to utilize MLA parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

In accordance with the institution’s Academic Honesty policy, each student commits to being the

sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

If AI is suspected, it is incumbent upon the student to prove innocence. Students may be asked to produce essays under proctored monitoring in the PJC Testing Center if the essay in question is subject to authentication. Failure to do so will result in a 0 score and removal from the course.

Plagiarism:

Plagiarism is the use of another's words or ideas without proper citation, and it can take various forms:

- Copying another's work verbatim without proper citation
- Copying another's work and changing a few words without proper citation
- Presenting another's original ideas as one's own, even if entirely paraphrased

Note: Whether the individual intentionally or unintentionally plagiarized, it does not matter. In other words, if any assignment of yours exhibits the qualities of plagiarism, you have plagiarized whether or not you intended to do so. Pleading your case with the "I forgot to put in the footnote"; "I didn't know I was supposed to cite that author"; "I don't understand MLA format"; or "I didn't write the paper; my mom did" excuses does not constitute honesty in a college level class. For your success in this class, please read the "Academic Integrity" and the "Avoiding Plagiarism" handouts that are available on Blackboard for more detailed information concerning academic honesty. By signing your name, you agree to be the author of your own work, and you acknowledge that you understand the consequences of academic dishonesty.

A research paper submitted without a works cited page (in *MLA* format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

Complaint Procedures

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable. This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Note: The contents of this syllabus are subject to change. Also, unless otherwise noted, all reading assignments are to be finished before each class period, and every essay must follow MLA guidelines. All quizzes are unannounced.

Course Schedule

Unit One – Reading, Writing, and Annotating – One Week

- Aug. 4** Read and annotate this syllabus. There will be a test over the syllabus on **August 27**, so please take this time to read AND to annotate the entire syllabus. By the way, if you have never heard of the word “syllabus,” it is the course information and list of assignments, which is what you are reading at this moment. The required textbook will be available on August 24 through the online part of this class, which is Blackboard. Please see page one of the syllabus for the names of the books for the class. **Note: The novel for the class will not be available on Blackboard; it can be purchased through Amazon, and it can be checked out from the North Lamar High School library.** If you finish reading and annotating the syllabus before class is over, please begin the cursive practice for August 5.
- Aug. 5** Cursive Practice A-G (A grade will be taken over each cursive assignment.)
- Aug. 6** Cursive Practice H-Z (A grade will be taken over each cursive assignment.)
- Aug. 7** Read AND annotate the handouts entitled “Reading to Write: Becoming a Critical Reader,” “Cutting and Pasting: A Senior Thesis by (Insert Name)” and “The YouTube Effect.” Then, you will need to copy the first two paragraphs of “The YouTube Effect” in cursive on notebook paper. The cursive practice pages, the annotations over the assigned readings, and “The YouTube Effect” assignment are due at the beginning of the class on August 11.

Unit Two – Narrative Reading and The Writing Process – Two Weeks

- Aug. 11** **Begin Narrative Reading and Writing** - Chapter 6 (*Patterns* 99-104) Read and annotate 99-104; Read, annotate, and complete the questions over the narrative entitled “Surrendering” (*Handout*) (This assignment is due at the beginning of class on August 12.)
- Aug. 12** Continue **Narrative Reading and Writing**: Read, annotate, and complete the questions over the narrative entitled “Indian Education” (*Handout*) (This assignment is due at the end of class on August 13.)
- Aug. 13** Continue **Narrative Reading and Writing**: Read, annotate, and complete the questions over the narrative entitled “Indian Education” (*Handout*) (This assignment is due at the end of class on August 13.)
- Aug. 14** Begin the **Writing Process** and Arnold’s Writing Packet
- Aug. 18** Continue the **Writing Process** and Arnold’s Writing Packet
- Aug. 19** Conclude the **Writing Process** and Arnold’s Writing Packet
- Aug. 20** Continue **Narrative Reading and Writing**: Begin reading and annotating the narrative entitled “Distillation” (*Handout*) (This assignment is due at the end of class on August 21.)
- Aug. 21** Continue **Narrative Reading and Writing**: Continue reading and annotating (if necessary) the narrative entitled “Distillation,” and then, please complete the assignment over this narrative, which is due at the end of class on August 21.

Unit Three – The Writing Process and Narrative Writing – Three Weeks

- Aug. 25** **PJC Officially Begins:** Blackboard tutorial, lab tutorial, and the **Writing Process quiz** and the **Thesis Statement** quiz
- Aug. 26** **Continue Narrative Reading and Writing:** Assign narrative essay writing assignment; begin revising a sample student narrative essay; student sample outline
- Aug. 27** **Syllabus Quiz (timed);** Brainstorm a topic, develop a thesis, and begin a handwritten outline for the narrative essay
- Aug 28** Continue **Narrative Writing** - Continue the handwritten outline for the narrative essay
- Aug. 31** **(Monday) Complete LAB ONE no later than 11:59 p.m. on Blackboard**
- Sept. 1** Continue **Narrative Writing** – Continue the handwritten outline for the narrative essay (Please make sure that the narrative is telling only ONE story. Ask this question to make sure ... Does my essay have a conflict, complications, climax, and a resolution? If not, then it is not a narrative. Please think back to the narratives you have read over the past few weeks. They all have a climax and a resolution.)
- Sept. 2** Introduce John Steinbeck's novel entitled *Of Mice and Men* (Bring the novel to class for a book grade.)
- Sept. 3** Continue **Narrative Writing** – *MLA* format tutorial; Begin typing the narrative essay.
- Sept. 4** Work on narrative essay typed draft
- Sept. 7** **(Monday) Labor Day; Complete LAB TWO no later than 11:59 p.m. on Blackboard**
- Sept. 8** **Narrative Essay Rough Draft Is Due (Typed/ *MLA* format) at the beginning of class (**PRINT hard copy for peer-review BEFORE class begins**) - Beware of being tardy; **Peer-Review Writer's Workshop Day 1** / Pick a partner before class begins. Also, please be sure to bring the handwritten outline and the prewriting strategies to class; **NOTE: The typed essay MUST match the handwritten outline.****
- Sept. 9** **Narrative Essay Peer-Review Writer's Workshop Day Two**; Continue to work with your partner from the previous day; Also, please be sure to bring the handwritten outline and the prewriting strategies to class
- Sept. 10** Complete the peer-editing of the narrative essay; begin revising the narrative essay; Blackboard tutorial
- Sept. 11** **Homecoming!!** (Work on the labs or on the narrative essay)
- Sept. 14** **(Monday) Narrative Final Draft (*MLA* format) must be uploaded to Blackboard no later than 11:59 p.m. in Blackboard.** The essay must be typed, and it must match the handwritten outline. Review the video on how to upload an essay into Blackboard if you need a refresher; **Complete LAB THREE no later than 11:59 p.m., on Blackboard**

Unit Four– Descriptive Reading and Writing – Three Weeks

- Sept. 15** Begin **Descriptive Writing** (*Patterns* Chapter 7 147-199) Bring the peer-edited and typed Narrative rough draft, outline, and prewrites to class.

- Sept. 16 Continue **Descriptive Writing** – Analyze the photograph on page 167 in *Patterns* and on notebook paper, answer questions 1, 2, and 3 **BEFORE** class begins; Analyze the subjective and objective details in three music videos; Assign descriptive essay (Topic will be given in class.)
- Sept. 17 Continue **Descriptive Writing** Read and take notes **IN** class “The Ways We Lie” (*Patterns* 473-480)
- Sept. 18 Continue reading and taking notes over “The Ways We Lie” (*Patterns* 473-480). The notes are due at the end of class today’s class.
- Sept. 21 **(Monday) Complete LAB FOUR no later than 11:59 p.m. on Blackboard**
- Sept. 22 Continue **Descriptive Writing** – Continue analyzing the subjective and objective details in three music videos; figurative language lecture
- Sept. 23 How to Add Quotes that Are Not Dumped; write a collaborative open-ended response
- Sept. 24 ***Of Mice and Men* novel test – Chapters One, Two, and Three** (Open-ended responses) – Bring novel to class.
- Sept. 25 Continue **Descriptive Writing** – Brainstorm a topic, develop a thesis, and start a handwritten outline
- Sept. 28 **(Monday) Complete LAB FIVE (no later than 11:59 p.m., in Blackboard**
- Sept. 29 Continue **Descriptive Writing**; Continue the handwritten outline for the descriptive essay
- Sept. 30 Continue **Descriptive Writing** – Complete the handwritten outline (by the end of class); please make sure that the essay shows the significance of the description.
- Oct. 1 Continue **Descriptive Writing** - Begin typing the descriptive essay in the *MLA* format.
- Oct. 2 Continue **Descriptive Writing**; Work on the descriptive essay.
- Oct. 5 **(Monday) Complete LAB SIX no later than 11:59 p.m. in Blackboard**
- Oct. 6 **Descriptive Essay Rough Draft Due (Typed *MLA* format) at the beginning of class (bring hard copy for peer-review) – Day One of Peer-review; Beware of being tardy; Pick a partner before class begins. Also, please be sure to bring the outline and the prewriting strategies to class;**
- Oct. 7 **Descriptive Essay Peer-Review Writer’s Workshop Day Two;** Continue to work with your partner from the previous day; Also, please be sure to bring the handwritten outline and the prewriting; review Socratic Seminar guidelines
- Oct. 8 Complete the peer-editing of the process essay; begin revising the process essay
- Oct. 9 Continue the revisions of the process essay (Remember: the final draft must match the handwritten outline.)
- Oct. 12 **(Monday) Process Essay Final Draft (*MLA* format) must be uploaded to Blackboard no later than 11:59 p.m. The essay must be typed, and the essay must match the handwritten outline; **Complete LAB SEVEN (no later than 11:59 p.m. in Blackboard)****

Unit Five– Compare and Contrast Reading and Writing – Three Weeks

- Oct. 13 *Of Mice and Men* novel test (Socratic Seminar over chapters one, two, three, **and four**) (Write five higher-level thinking questions.); Bring the peer-edited and typed process essay rough draft, outline, and prewrites to class.
- Oct. 14 **Begin Compare and Contrast Writing (Patterns) Chapter 11** (371-390); Read **BEFORE** class “Fake Meat vs. Real Meat” (*Patterns* 400-403); Assign Compare/Contrast topic; show examples of compare and contrast writing
- Oct. 15 **Continue Compare and Contrast Writing**; Begin brainstorming and organizing with a Venn Diagram or a Double T-chart; work on Venn diagram/Double T-chart
- Oct. 16 **Continue Compare and Contrast Writing**; Begin brainstorming and organizing with a Venn Diagram or a Double T-chart; work on Venn diagram/Double T-chart; **PJC Midterm Grades are due**
- Oct. 19 (Monday) Complete **LABS EIGHT and NINE** no later than 11:59 p.m., on Blackboard
- Oct. 20 *Of Mice and Men* novel test, (Socratic Seminar over chapters **five and six**) (Write five higher-level thinking questions)
- Oct. 21 **Continue Compare and Contrast Writing**; How to construct a formal outline for the compare/contrast; continue brainstorming and organizing with a Venn Diagram or a Double T-chart; work on outline in class
- Oct. 22 **Continue Compare and Contrast Writing**; Work on formal outline in class
- Oct. 23 **Continue Compare and Contrast Writing**; Work on formal outline in class
- Oct. 26 (Monday) Complete **LAB TEN** no later than 11:59 p.m., on Blackboard
- Oct. 27 **Compare and Contrast formal outline (typed) due** at the **beginning** of class. Bring a printed, typed hard copy of the outline to class for instructor’s review and comments; Beware of being tardy; Work on compare/contrast essay in class. Outline is worth two test grades;
- Oct. 28 Work on Compare and Contrast essay in class; How to Create a Works Cited Page
- Oct. 29 Work on Compare and Contrast essay in class
- Oct. 30 Work on Compare and Contrast essay in class
- Nov. 2 (Monday) **Compare/Contrast Final Draft Due By 11:59 p.m. on Blackboard; Complete LABS ELEVEN and TWELVE** no later than 11:59 p.m. on Blackboard

Unit Six – Documented Argumentative Writing (Research Paper) – Five Weeks

- Nov. 3 **Begin Argumentative Writing (Patterns) – Chapter 14** (533-560); Research Handouts; Databases and Sources; **Assign Argumentative Documented Essay (AKA the Research Paper)**; For extra credit, bring a typed and Peer-edited rough draft for Compare/Contrast (peer-edit markings must be visible to receive credit, and the peer-editor’s name must be written on the essay.)
- Nov. 4 **Continue Argumentative Writing (Patterns) – Chapter 14**; Learn how to use the PJC library databases in class

- Nov. 5** Choose a topic of debate from the PJC databases for the required sources for the research paper; NOTE: If a topic in this debate section disturbs you, please feel free to skip that topic and then proceed to another topic of debate.
- Nov. 6** Continue researching topics.
- Nov. 9** (Monday) Complete LABS THIRTEEN and FOURTEEN no later than 11:59 p.m. on Blackboard
- Nov. 10** Continue **Argumentative Writing** (*Patterns*) - Avoiding plagiarism; parenthetical documentation and Works Cited page;
- Nov. 11** Continue **Argumentative Writing** (*Patterns*); Parenthetical documentation practice
- Nov. 12** Last date to drop with a "W"; continue to work on the research paper (Parenthetical documentation practice)
- Nov. 13** Continue **Argumentative Writing** (*Patterns*) – Continue to work on the research paper
- Nov. 16** (Monday) Complete LAB FIFTEEN no later than 11:59 p.m. on Blackboard
- Nov. 17** Documented Argumentative Essay Complete Rough Draft Due (Typed *MLA* format) for Peer Review Day 1; Also, bring the four annotated sources, the outline, and the prewrite activities
- Nov. 18** Peer Review Day 2; Continue working with your partner; Also, bring the four annotated sources, the outline, and the prewrite activities
- Nov. 19** If needed, complete the peer-editing workshop with your partners.
- Nov. 20** Revise Documented Argumentative essay in class
- Nov. 23-27** Thanksgiving Break
- Nov. 30** (Monday) Complete LAB SIXTEEN no later than 11:59 p.m., in Blackboard
- Dec. 1** Documented Argumentative Essay Complete Rough Draft Due (Typed *MLA* format) for Peer Review Day 1; Also, bring the four annotated sources, the outline, and the prewrite activities
- Dec. 2** Peer Review Day 2; Continue working with your partner; Also, bring the four annotated sources, the outline, and the prewrite activities
- Dec. 3** If needed, complete the peer-editing workshop with your partners.
- Dec. 4** Documented Argumentative (Research Paper/*MLA* Format) Final Draft is due and must be uploaded to Blackboard no later than 11:59 p.m.; please make sure to bring the peer-edited rough draft, the outline, the annotated sources, and the prewrites to class.
- PJC Final Exam Week**
- Dec. 8** Review for the PJC final exam/essay
- Dec. 9** PJC FINAL ESSAY for those students not eligible for exemption, according to PJC's criteria-Essay average of an 80 or above and no more than four absences, excluding "E" days.
- Dec. 10** Bring a book to class to read and **Dec. 11** PJC Grades Due by 9:00 a.m.

**ARTS1301
ART APPRECIATION
FALL 2026**

Instructor: Lena Spencer
Office: Art Building
Phone: 903-782-0438
Email: Lspencer@parisjc.edu
Office Hours: 1:00pm-4:00pm

Meeting Location: Art Building
Meeting Days: Online
Meeting Times: Online

Course Description:

A general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical contexts.

Prerequisite: None

Corequisite: None

Approval Number: 5007035126
Maximum SCH per Student: 3
Maximum SCH per Course: 3
Maximum Contact Hours per Course: 48

Required Textbook(s) and Materials:

Open resource, no textbook needed

Course Goals and Objectives:

Course Goals and Objectives:

Foundational Component Area: Creative Arts

Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Student Learning Outcomes (Core Curriculum-Level):

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (Program Level)

1. Demonstrate the ability to recognize in a work of art chosen randomly from any culture or historical period these three examples of design elements: color harmony, use of perspective, and understanding of dimension.

Student Learning Outcomes (Course Level)

1. Apply art terminology as it specifically relates to works of art.
2. Demonstrate knowledge of art elements and principles of design.
3. Differentiate between the processes and materials used in the production of various works of art.
4. Critically interpret and evaluate works of art.
5. Demonstrate an understanding of the impact of arts on culture.

Course Requirements and Evaluation:

Each unit may consist of quizzes, art projects, written papers and one final assignment for a total of 1000 available points for the semester.

Quizzes, Discussions, Artwork and Writing Assignments	800 points
Artwork Assignment	100 points
Final Exam (Essay or Artwork)	100 points
Total Points available.....	1,000 points

900-1000 points will equal= 90-100 A

800-899 points will equal = 80-89 B

700-799 points will equal = 70-79 C

600-699 points will equal = 60-69 D 599 -0

points will equal = 0-59 = F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *November 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) AI Visual Arts Academic Integrity, Plagiarism and AI Policy

Your ideas and creative process are important. Academic integrity means being clear about what work is your own, where your ideas come from, and what tools, sources, and collaborators you use. Being transparent about your process prepares you for ethical work as an artist, designer, and scholar. Research, references, inspiration, and experimentation are essential to creative practice. But the examples and research of others, or of that produced by Artificial Intelligence (AI), must be acknowledged, transformed, and integrated into your own work.

AI can be used as part of your process, but the final submitted work must demonstrate primary human authorship.

AI may support ideation, exploration, or development. Your final submission must reflect meaningful transformation, decision-making, and authorship by you.

Plagiarism occurs when you use material from other sources, human or AI, without proper acknowledgment or sufficient transformation.

This includes: Copying text, images, or media without citation, Submitting another person's work (in whole or part) or misrepresenting how a work was created.

You are required to cite AI use when it materially contributes to your submitted works. A brief statement describing how AI was used, AI tools utilized, Key prompt/s and process documentation, if requested.

Citation Examples: "AI-generated images were used as a reference for early concept development. Final design and execution are my own." Or "AI was used to help generate an initial outline. All writing and analysis are my own."

Policy Violations:

Alleged violations are reviewed individually, and students will be given the opportunity to speak to explain and defend their work.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the

Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan In An 16 Week Course:

DATE	TOPIC	READINGS - ASSIGNMENTS - LECTURES
Week One	INTRO ASSIGNMENT	10 pts Required Introduction Quiz
Week One	PREHISTORIC ART GRAFITTI /MURALS	50 pts Prehistoric Quiz 40 pts Writing Assignment
Week Two	CLASSICAL ART ADVERTISING	50 pts Classical Quiz 50 pts compare and contrast
Week Three	BYZANTINE ART	50 pts Byzantine Quiz
Week Four	RENAISSANCE ART	50 pts Renaissance Quiz Renaissance Video
Week Five	IMPRESSIONISM, & CUBISM	50 pts Imp/Post Imp Quiz
Week Six	NON-OBJECTIVE, ABST. & REP.	50 pts Non-Objective Quiz
Week Seven	ELEMENTS & PRINCIPLES OF DESIGN	50 pts Elements Quiz 50 pts Principles Quiz
Week Eight	SURREALISM & ABSTRACT EXPRESSIONISM & JUDY PFAFF	50 pts Art Style of Judy Pfaff Writing Assignment

Week Nine	POP ART, CULTURE	50 pts Pop Art Quiz 100 pts Pop Art Artwork
Week Ten	2D MEDIUMS	50 pts 2 D Quiz
Week Eleven	3D MEDIUMS	50 pts 3D Quiz
Week Twelve	INSTALLATION ART- ART 21	50 pts Art 21 Artists Quiz
Week Thirteen	KINETIC ART	50 pts Kinetic Quiz
Week Fourteen	WORK ON FINAL	
Week Fifteen	FINAL DUE 12/9	100 pts Final Test

This includes: Copying text, images, or media without citation, Submitting another person's work (in whole or part) or misrepresenting how a work was created.

You are required to cite AI use when it materially contributes to your submitted works. A brief statement describing how AI was used, AI tools utilized, Key prompt/s and process documentation, if requested.

Citation Examples: "AI-generated images were used as a reference for early concept development. Final design and execution are my own." Or "AI was used to help generate an initial outline. All writing and analysis are my own."

Policy Violations:

Alleged violations are reviewed individually, and students will be given the opportunity to speak to explain and defend their work.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the

Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan In An 8 Week Course:

DATE	TOPIC	READINGS - ASSIGNMENTS - LECTURES
Week One	INTRO ASSIGNMENT	10 pts Required Introduction Quiz
Week One	PREHISTORIC ART GRAFITTI /MURALS	50 pts Prehistoric Quiz 40 pts Writing Assignment
Week Two	CLASSICAL ART ADVERTISING	50 pts Classical Quiz 50 pts compare and contrast
Week Two	BYZANTINE ART	50 pts Byzantine Quiz
Week Three	RENAISSANCE ART	50 pts Renaissance Quiz Renaissance Video
Week Three	IMPRESSIONISM, & CUBISM	50 pts Imp/Post Imp Quiz
Week Four	NON-OBJECTIVE, ABST. & REP.	50 pts Non-Objective Quiz
Week Four	ELEMENTS & PRINCIPLES OF DESIGN	50 pts Elements Quiz 50 pts Principles Quiz

**ARTS1301
ART APPRECIATION
FALL 2026**

Instructor: Lena Spencer
Office: Art Building
Phone: 903-782-0438
Email: Lspencer@parisjc.edu
Office Hours: 1:00pm-4:00pm

Meeting Location: Art Building
Meeting Days: T/TH
Meeting Times: 8:00am-9:15am

Course Description:

A general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical contexts.

Prerequisite: None

Corequisite: None

Approval Number: 5007035126
Maximum SCH per Student: 3
Maximum SCH per Course: 3
Maximum Contact Hours per Course: 48

Required Textbook(s) and Materials:

Open resource, no textbook needed

Course Goals and Objectives:

Course Goals and Objectives:

Foundational Component Area: Creative Arts

Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Student Learning Outcomes (Core Curriculum-Level):

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (Program Level)

1. Demonstrate the ability to recognize in a work of art chosen randomly from any culture or historical period these three examples of design elements: color harmony, use of perspective, and understanding of dimension.

Student Learning Outcomes (Course Level)

1. Apply art terminology as it specifically relates to works of art.
2. Demonstrate knowledge of art elements and principles of design.
3. Differentiate between the processes and materials used in the production of various works of art.
4. Critically interpret and evaluate works of art.
5. Demonstrate an understanding of the impact of arts on culture.

Course Requirements and Evaluation:

Each unit may consist of quizzes, art projects, written papers and one final assignment for a total of 1000 available points for the semester.

Quizzes, Discussions, Artwork and Writing Assignments	800 points
Artwork Assignment	100 points
Final Exam (Essay or Artwork)	100 points
Total Points available.....	1,000 points

900-1000 points will equal= 90-100 A
800-899 points will equal = 80-89 B
700-799 points will equal = 70-79 C
600-699 points will equal = 60-69 D 599 -0
points will equal = 0-59 = F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *OCTOBER 1ST*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) AI Visual Arts Academic Integrity, Plagiarism and AI Policy

Your ideas and creative process are important. Academic integrity means being clear about what work is your own, where your ideas come from, and what tools, sources, and collaborators you use. Being transparent about your process prepares you for ethical work as an artist, designer, and scholar. Research, references, inspiration, and experimentation are essential to creative practice. But the examples and research of others, or of that produced by Artificial Intelligence (AI), must be acknowledged, transformed, and integrated into your own work.

AI can be used as part of your process, but the final submitted work must demonstrate primary human authorship.

AI may support ideation, exploration, or development. Your final submission must reflect meaningful transformation, decision-making, and authorship by you.

Plagiarism occurs when you use material from other sources, human or AI, without proper acknowledgment or sufficient transformation.

This includes: Copying text, images, or media without citation, Submitting another person's work (in whole or part) or misrepresenting how a work was created.

You are required to cite AI use when it materially contributes to your submitted works. A brief statement describing how AI was used, AI tools utilized, Key prompt/s and process documentation, if requested.

Citation Examples: "AI-generated images were used as a reference for early concept development. Final design and execution are my own." Or "AI was used to help generate an initial outline. All writing and analysis are my own."

Policy Violations:

Alleged violations are reviewed individually, and students will be given the opportunity to speak to explain and defend their work.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the

Course Catalog & Student Handbook for the official complaint or grievance procedure.

DRAWING I
FALL 2026**

Instructor: Lena Spencer
Office: Art Building
Phone: 903-782-0438
Email: Lspencer@parisjc.edu
Office Hours: 1:00pm-4:00pm

Meeting Location: Art Building
Meeting Days: M/W
Meeting Times: 9:30-12:15

Course Description:

A foundation studio course exploring drawing with emphasis on descriptive, expressive and conceptual approaches. Students will learn to see and interpret a variety of subjects while using diverse materials and techniques. Course work will facilitate a dialogue in which students will engage in critical analysis and begin to develop their understanding of drawing as a discipline.

Prerequisite: None

Corequisite: None

Approval Number: 5007055226

Maximum SCH per Student: 3

Maximum SCH per Course: 3

Maximum Contact Hours per Course: 96

Required Textbook(s) and Materials:

Open resource, no textbook needed

Course Goals and Objectives:

Foundational Component Area: Creative Arts

Student Learning Outcomes (Core Curriculum-Level):

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (Program Level)

1. Demonstrate the ability to recognize in a work of art chosen randomly from any culture or historical period these three examples of design elements: color harmony, use of perspective, and understanding of dimension.

Student Learning Outcomes (Course Level)

Upon successful completion of this course, students will:

1. Describe visual subjects through the use of accurate and sensitive observation.
2. Generate drawings which demonstrate descriptive, expressive, and conceptual approaches.
3. Utilize varied materials and techniques with informed aesthetic and conceptual strategies.
4. Demonstrate an appropriate level of professional practice, including safety, craft and presentation.
5. Analyze and critique drawings verbally and/or in writing.
6. Relate drawing to design, art history and contemporary artistic production.

Course Requirements and Evaluation:

Each unit may consist of quizzes, art projects, written papers and one final assignment for a total of 1000 available points for the semester.

900-1000 points will equal= 90-100 A

800-899 points will equal = 80-89 B

700-799 points will equal = 70-79 C

600-699 points will equal = 60-69 D 599 -0

points will equal = 0-59 = F

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan

DATE	TOPIC	READINGS - ASSIGNMENTS – LECTURES
WEEK ONE	REVIEW ELEMENTS - SHAPE, SPACE, PERSPECTIVE FORM, VALUE, TEXTURE	REVIEW PRINCIPLES – CONTRAST, BALANCE, UNITY, VARIETY, EMPHASIS, PROPORTION, REPETITION, RHYTHM, PATTERN, HIERARCHY REVIEW SIMPLE SHAPES
WEEK TWO	CHIAROSCURO PROJECT #1 STILL LIFE	
TBA	PROJECT #2 PERSPECTIVE - BUILDING ELEMENTS / SURREAL BACKGROUND	
TBA	COLOR THEORY - REFLECTIONS - TRANSPARENCY PROJECT #3 GLASS	

TBA	EXPRESSIVE LINES DRYPOINT, PRINTMAKING PROJECT #4	
WEEK 15/16	PREPARE FOR STUDENT EXHIBITION PROJECT #5 AND CRITIQUE	

**ARTS1311
DESIGN I
FALL 2026**

Instructor: Lena Spencer
Office: Art Building
Phone: 903-782-0438
Email: Lspencer@parisjc.edu
Office Hours: 1:00pm-4:00pm

Meeting Location: Art Building
Meeting Days: T/TH
Meeting Times: 9:30-12:15

Course Description:

An introduction to the fundamental terminology, concepts, theory, and application of two-dimensional design.

Prerequisite:

None

Corequisite:

None

Approval Number: 5004015326
Maximum SCH per Student: 3
Maximum SCH per Course: 3
Maximum Contact Hours per Course: 96

Required Textbook(s) and Materials:

Open resource, no textbook needed

Course Goals and Objectives:

Course Goals and Objectives:

Foundational Component Area: Creative Arts

Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Student Learning Outcomes (Core Curriculum-Level):

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (Program Level)

1. Demonstrate the ability to recognize in a work of art chosen randomly from any culture or historical period these three examples of design elements: color harmony, use of perspective, and understanding of dimension.

Student Learning Outcomes (Course Level)

1. Identify and apply the elements of art and principles of two-dimensional design.
2. Employ discipline specific vocabulary in the evaluation of two-dimensional design problems.
3. Demonstrate creative skill in aesthetic problem solving within assigned parameters.
4. Demonstrate an appropriate level of professional practice, including safety, craft and presentation.

Course Requirements and Evaluation:

Each unit may consist of quizzes, art projects, written papers and one final grade for the student exhibition for a total of 1000 available points for the semester.

Total Points available.....1,000 points

900-1000 points will equal= 90-100 A

800-899 points will equal = 80-89 B

700-799 points will equal = 70-79 C

600-699 points will equal = 60-69 D 599 -0

points will equal = 0-59 = F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *November 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others

will immediately receive ..a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) AI Visual Arts Academic Integrity, Plagiarism and AI Policy

Your ideas and creative process are important. Academic integrity means being clear about what work is your own, where your ideas come from, and what tools, sources, and collaborators you use. Being transparent about your process prepares you for ethical work as an artist, designer, and scholar. Research, references, inspiration, and experimentation are essential to creative practice. But the examples and research of others, or of that produced by Artificial Intelligence (AI), must be acknowledged, transformed, and integrated into your own work.

AI can be used as part of your process, but the final submitted work must demonstrate primary human authorship.

AI may support ideation, exploration, or development. Your final submission must reflect meaningful transformation, decision-making, and authorship by you.

Plagiarism occurs when you use material from other sources, human or AI, without proper acknowledgment or sufficient transformation.

This includes: Copying text, images, or media without citation, Submitting another person's work (in whole or part) or misrepresenting how a work was created.

You are required to cite AI use when it materially contributes to your submitted works. A brief statement describing how AI was used, AI tools utilized, Key prompt/s and process documentation, if requested.

Citation Examples: "AI-generated images were used as a reference for early concept development. Final design and execution are my own." Or "AI was used to help generate an initial outline. All writing and analysis are my own."

Policy Violations:

Alleged violations are reviewed individually, and students will be given the opportunity to speak to explain and defend their work.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising &

Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. Course Schedule/Weekly Lesson Plan for 16 Week Course:

Week One	Principles and Elements of Design Non Objective collages demonstrating the P&E
Week Two	Using photography as a tool and create a mixed media artwork Project #1
Week Three	Continue #Project 1 Critique
Week Four	Continue #Project 1 Critique
Week Five	Use composition to reinforce and enhance visual impact Project #2 Painting - Introduce Color Mixing
Week Six	Continue Project #2
Week Seven	Continue Project #2
Week Eight	Texture – Create a collagraph design Project #3
Week Nine Midterm	Continue Project #3
Week Ten	Continue Project #3
Week Eleven	Learn Illustrator basics to create a vectored design Project #4
Week Twelve	Create t-shirt design for screen printing Project#5

Week Thirteen	Continue Project #5
Week Fourteen	Continue Project #5
Week Fifteen	Preparing for Student Show
Week Sixteen	Final Critique/ Deinstall artwork

ENG 1301.20E1 (Online)
English Composition I
Fall A 2026

Instructor: Donald Bates
Office: online
Phone: (903) 785-7661
Email: dbates@parisjc.edu
Office Hours: By appointment via Zoom

Meeting Location: online
Meeting Days: online
Meeting Times: online

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis

Required Textbook(s) and Materials:

Kirszner, Laurie G. and Stephen R. Mandell. Patterns for College Writing: A Rhetorical Reader and Guide. 15th ed. Bedford/St. Martin's, 2021, ISBN: 19781319523497

Due to Edition variations, the page numbers for reading assignments may not match the enclosed e-book version. Good News? You get an e-book. And a simple Table of Contents Reference or Google search should locate what you need.

Fahrenheit 451 by Ray Bradbury
ISBN: 978-1-4516-7331-9

Computer and Webcam – Some exams will be taken using Respondus Monitor and will require a webcam. A computer is needed for this course

Course Goals and Objectives:

*Insert course objectives or Core Course Competencies Foundational Component Area:
Communication*

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.

4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Module 1 Narrative Essay

Module 2 Descriptive Essay

Module 3 Fahrenheit 451 Novel Exams (2)

Module 4 Compare/Contrast Essay

Module 5 Argumentative Research Essay

Module 6 Final Exam (May be exempted if ESSAY AVG. exceeds 80%)

Grammar Labs: Self-directed LABS must be completed BEFORE Finals Week

Semester Grade Determination:

<i>Writing (Narration, Description, C/C, and Research Essays)</i>	45%
<i>Lab Exercises (Online outside of class)</i>	20%
<i>Novel Exams</i>	10%
<i>Quizzes</i>	15%
<i>Final Essay</i>	10%
Total:	100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Students violating policy will be asked to leave the class. If a student has multiple violations, they may be dropped from the course. If a cell phone is visible during an exam, the instructor will collect the test and the student will be asked to leave the classroom.

Laptop/Tablet Policy: Use your Tablet computing device to accomplish the tasks related to the class only. Do not use them for personal communication or other non-related activities.

Students are responsible for printing all course handouts from BB. Please have these printed BEFORE each class meeting begins.

Technical Difficulties: Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is October 1, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Office: Online
Phone: (903) 785-7661
Email: dbates@parisjc.edu
Office Hours: Zoom by appointment

Meeting Location: online
Meeting Days: online
Meeting Times: online

Course Description:

Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions.

Credits: 3 (= 3 lecture hours). Prerequisite(s): ENGL 1301. Course Format: Lecture

Required Textbook(s) and Materials:

- *Schilb, John and John Clifford. Arguing About Literature: A Guide and Reader. 3rd ed. Bedford/St. Martin's, 2017. With Launchpad. ISBN: 978-1-319-03532-7.*
- *Note: Due to Edition variations, the page numbers for reading assignments may not match the course-book version. Good News? You get an e-book. And a simple Table of Contents Reference or Google search should locate what you need.*
- *Hacker, Diana, and Nancy Sommers. A Pocket Style Guide. 8th ed. Bedford/St. Martin's, 2018. ISBN: 978-1-319-05740-4*

Computer and Webcam – Some exams will be taken using Respondus Monitor and will require a webcam. A computer is needed for this course.

Course Goals and Objectives:

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. *Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.*
2. *Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.*
3. *Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.*

4. *Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.*

Student Learning Outcomes (English Program-Level):

1. *Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.*
2. *Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.*
3. *Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.*

Student Learning Outcomes (ENGL 1302 Course-Level):

Upon successful completion of this course, students will:

1. *Demonstrate knowledge of individual and collaborative research processes.*
2. *Develop ideas and synthesize primary and secondary sources within focused academic arguments, including one or more research-based essays.*
3. *Analyze, interpret, and evaluate a variety of texts for the ethical and logical uses of evidence.*
4. *Write in a style that clearly communicates meaning, builds credibility, and inspires belief or action.*
5. *Apply the conventions of style manuals for specific academic disciplines (e.g., APA, CMS, MLA, etc.)*

Course Requirements and Evaluation:

Course Schedule:

Module 1 Poetry

Module 2 Short Story

Module 3 Drama

Module 4 Final Exam

Course Requirements and Evaluation:

This is a composition course which means that the essays are of the utmost importance.

Literature will be used as the basis for the essays in this class. As outlined above, the Essays are 30% of your total grade. In this class, you will be required to write (3)

College Essays:

1. ***Poetry – Evaluation of the elements and meaning of (2) Poems.***
2. ***Short Story – Research/Argumentation of (2) Short Stories.***
3. ***Drama –Essay over a 3 Act Play.***

The essays are extremely important to your final grade. Make sure to turn in each one on time: ☺

There also be a Final Analytical Essay for all students who do not qualify to exempt it. In order to exempt from the final, a student must meet the following criteria:

Any student who a) *submits all prior essays,*
 b) *earns an 80 essay average, and*
 c) *has 4 or less class absences*

Students who do NOT qualify for exemption:

a) Does not submit all prior essays and/or

- b) Earns an essay average less than 80 and/or*
 - c) Has more than (4) unexcused absences*
- Students who are not exempt will write an essay for the final exam.*

Note: All essays must be submitted to electronically to Blackboard by the specified deadline date/time. Essays received after the due date/time will not be graded. Do not submit via email without prior arrangement with me. Do not submit your essay on paper unless specified by the instructor.

Gradebook averages:

Essays	45%
Labs	20%
Exams	20%
Quizzes	5%
Final	10%
TOTAL	100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

BCIS 1305 25D0
Introduction to Computing
Fall 2026

Instructor: Dr. Mark Kjellander
Office: GC 209
Phone: 903.782.8716
Email: mkjellander@parisjc.edu

Office Hours: Monday and Wednesday by appointment

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Introduces and develops foundational skills in applying essential and emerging business productivity information technology tools. The focus of this course is on business productivity software applications, including word processing, spreadsheets, databases, presentation graphics, data analytics, and business-oriented utilization of the internet.

3 Credit Hours: 2 Lecture Hours and 2 Lab Hours per week.

Required Textbook(s) and Materials:

*This class is part of the Inclusive Access program. Unless you opt out, your materials are provided. You will have access to a digital version of In Practice, Nordell – Office Intro, on the McGraw-Hill SIMnet® online platform. SIMnet teaches Microsoft Office skills and computing concepts. A USB flash drive may also be needed to save assignments when working on a public computer, including computers at the Paris, Greenville, and Sulphur Springs centers. Inclusive Access information:
<https://www.parisjc.edu/main/inclusive-access/>*

Course Goals and Objectives:

Upon successful completion of this course, students will:

- 1. Describe the fundamentals of information technology concepts - hardware, software, security, and privacy.*
- 2. Demonstrate proper file management techniques to manipulate electronic files and folders in local, network, and online environments.*
- 3. Create business documents with word processing software using spelling and grammar check, format and layout, tables, citations, graphics, and mail merge.*
- 4. Create business documents and analyze data with spreadsheet software using tables, sorting, filtering, charts and graphics, pivot tables, macros, statistical, financial, logical and look-up functions and formulas, and add-ins.*
- 5. Create business multimedia presentations with presentation software using templates, lists, groups, themes, colors, clip art, pictures, tables, transitions, animation, video, charts, and views.*
- 6. Create databases and manage data with database software using tables, fields, relationships, indexes, keys, views, queries, forms, reports, and import/export functions.*
- 7. Integrate business software applications.*
- 8. Use web-based technologies to conduct ethical business research.*
- 9. Use goal seeking and what-if analysis to solve problems and make adjustments/recommendations in a business environment.*

Course Requirements and Evaluation:

All assignments have completion dates that should be followed. The grade shown in SIMnet and Blackboard reflects submitted work; before progress reports, midterm grades, or final grades are submitted, a zero may be entered for work that is due but not submitted. Students should keep up with completion dates because projects can be time consuming.

Final Course Grade:

35% Exams

45% Independent and Challenge Projects

20% Let Me Try

Grade Scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D; 0-59 = F.

Exams: Three application exams and one comprehensive final exam are scheduled in SIMnet for Word, PowerPoint, Excel, and Access. Students have two attempts on application exams and one attempt on the final exam.

Assignments: An Independent and Challenge project is assigned for each Word, PowerPoint, and Excel chapter. Students may correct the original document and resubmit one time after receiving feedback.

Let Me Try: SIMbook/SIMnet activities are graded for completion. Show Me and Guide Me activities support learning but are not graded.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets via the Internet through Blackboard and SIMnet. Students are responsible for reliable computer equipment and internet service, attempting assignments early enough to address technical problems, managing their time effectively, and possessing the computer skills necessary to use internet sites, manage files, use applications, browsers, email, and system utilities. Technical problems do not excuse missed deadlines. Students experiencing personal computer or internet problems are expected to use available PJC computer labs. Students should read and comply with course announcements, documents, and instructions. For Blackboard login or computer issues, contact techsupport@parisjc.edu.

Class Attendance:

Class attendance is critical for successful completion of this course. For this online course, attendance is measured through timely participation and completion of course work. Attendance will be checked weekly, and students who complete no work during a week may be counted absent. Withdrawals must be initiated by the student. The official withdrawal deadline for Fall A 2026 should be verified through the PJC academic calendar/Blackboard.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of syllabus changes through Blackboard and/or PJC student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 - 8/30	Course Introduction; Windows, Office, File Management, Hardware, Software, and the Internet	Read syllabus; familiarize yourself with class; complete First Assignment; chapter readings and Let Me Try
Week 2 - 9/6	Networking, Security, Change the World, Understanding AI & Copilot	Chapter readings and Let Me Try
Week 3 - 9/13	Word: Creating and Editing Documents	Reading; Let Me Try; Independent Project 1-4; Challenge Yourself 1.3

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 4 - 9/20	Word: Formatting and Customizing Documents	Reading; Let Me Try; Independent Project 2-6; Challenge Yourself 2.3
Week 5 - 9/27	Word: Collaborating with Others and Working with Reports	Reading; Let Me Try; Independent Project 3-6; Word review
Week 6 - 10/4	Word Exam; PowerPoint: Creating and Editing Presentations	Word Exam; Reading; Let Me Try; Independent Project 1-5; Challenge Yourself 1.4
Week 7 - 10/11	PowerPoint: Illustrating with Pictures and Information Graphics	Reading; Let Me Try; Independent Project 2-6; Challenge Yourself 2.4
Week 8 - 10/18	PowerPoint: Preparing for Delivery and Using a Slide Presentation	Reading; Let Me Try; Independent Project 3-7; Challenge Yourself 3.4; PowerPoint review
Week 9 - 10/25	PowerPoint Exam; Excel: Creating and Editing Workbooks	PowerPoint Exam; Reading; Let Me Try; Independent Project 1-6; Challenge Yourself 1.3
Week 10 - 11/1	Excel: Working with Formulas and Functions	Reading; Let Me Try; Independent Project 2-5; Challenge Yourself 2.4
Week 11 - 11/8	Excel: Creating and Editing Charts	Reading; Let Me Try; Independent Project 3-4; Challenge Yourself 3.3
Week 12 - 11/15	Excel: Getting and Managing Data	Reading; Let Me Try; Independent Project 4-5; Challenge Yourself 4.3
Week 13 - 11/22	Excel Review and Excel Exam	Complete Excel review activities and Excel Exam
Week 14 - 11/29	Access: Creating a Database, Tables, and Data Validation	Reading and Let Me Try; database and table practice
Week 15 - 12/6	Access: Relationships and Queries; Course Review	Reading and Let Me Try; relationships and query practice; comprehensive review
Week 16 - 12/13	Comprehensive Final Exam	Complete Comprehensive Final Exam

BCIS 1305 250
Introduction to Computing
Fall A 2026

Instructor: Dr. Mark Kjellander
Office: GC 207
Phone: 903-457-8716
Email: mkjellander@parisjc.edu
Office Hours: Monday 10-12

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description: Overview of computer systems—hardware, operating systems, the Internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.

Required Textbook(s) and Materials:

Materials are part of the included project. A usb storage drive is highly recommended.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Aug 25- 30	Word	Word Module
Aug 31- Sep 6	Word	Word Module /
Sep 7- 13	Power Point	Power Point Module
Sep 14- 20	Power Point	Power Point Module
Sep 21- 27	Excel	Excel Module
Sep 28- Oct 4	Excel	Excel Module
Oct 5- 11	Access	Access Module
Oct 12- 19	Access	Access Module

Course Requirements and Evaluation:

All quizzes, exams, and projects will close at midnight on the due date listed. If you miss the due date, a zero will be entered as the grade for said assignment. Once closed, quizzes, exams, and projects will not be re-opened for any reason. Make sure that you keep up! *Failure to do so usually results in a failing grade.*

We will be submitting midterm grades this semester. This means that everything that is due by midterm must be submitted by the due date.

The following formula/criteria will be used to determine your Final Course Grade:

40% EXAMS

40% Labs and Assignments

20% Quizzes

Course Policies:

Work is due in the week it assigned unless otherwise instructed.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Day and Month depending on term.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising &

Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Changes will be communicated via announcements and email

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

English 1301.81A0 & .82A0 Composition I Fall 2026

Instructor: Preslee Beumer
Office: PTAA Greenville Campus
Phone: 903-257-3920
Email: pbeumer@parisjc.edu

Meeting Location: PTAA Greenville Campus
Meeting Days: Mon & Wed
Meeting Times: 2:10 - 3:45pm
Office Hours: Tuesday & Thur 8:00 - 8:30

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Credit Hours: 3

Required Textbook(s) and Materials:

- Kirsznar, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 16th ed. Bedford/St. Martin's, 2021, ISBN: 9781319523497 **AVAILABLE ONLINE THROUGH BLACKBOARD**
- Fahrenheit 451 by Ray Bradbury ISBN 10: 9781451673319

Course Goals and Objectives:

The general course goals of 1301 are to have students improve their writing abilities and increase their proficiency in critical reading and in writing nonfiction prose, with emphasis on narration, exposition, and persuasion.

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.

2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Graded Work

The tables below provide a summary of the graded work in this course and an explanation of how your final course grade will be calculated.

Summary of Graded Work

Assignments	% of Grade
Labs in Blackboard	15%
Discussions	15%
Journal Entries	10%
Peer Reviews	10%
Essays	50%

TOTAL: 100%

Final Grade

Percentages	Letter Grade
90-100%	A
80-89%	B
70-79%	C
60-69%	D
0-59%	F

ENGL 1301 Exemption Rules for Final:

In order to be exempt from the final essay, a student must meet the following criteria:

- Any student who
- a.) submits all 4 prior essays,
 - b.) earns an **85 essay average**, and
 - c.) has 4 or less class absences

Students who do **NOT** qualify for exemption:

- Any student who
- a.) does not submit all 4 prior essays **and/or**
 - b.) earns **an essay average less than 85 and/or**
 - c.) has more than 4 absences

Students who are not exempt will write an essay for the final exam. In addition, this essay grade will replace the student's lowest essay grade (one exception: the research paper grade CANNOT be replaced).

If a student qualifies for exemption, but still wishes to write an essay for the final in an effort to improve overall course average, he/she may do so.

Course Policies:

Attendance and Make-up Work:

Class attendance is **expected**. A student may not have more than **four absences**. After the fourth absence, five points per absence will be deducted from the student's grade. If a student is more than ten minutes late, the student will be counted absent. If a student leaves class early (without prior arrangements), the student will be counted absent. A student who stops attending after the last drop date will receive an F in the course.

Students are responsible for notes and assignments missed. No more than one late paper shall be allowed. A paper will receive a five-point deduction per day (including non-class days) and will not be accepted more than one week late. Papers are considered late if they are not handed in at the **BEGINNING** of the class in which the assignment is due.

Writing Center:

Students seeking assistance with writing assignments will receive one-on-one help in AD125 on the Paris campus. This can be beneficial tutoring for students at ALL writing levels, and **it's free!** Call 903-782-0314 for an appointment. You can also e-mail your paper to writingcenter@parisjc.edu. Include the essay topic with your paper, so the tutor can assist you.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of 16 lab items. Expect to spend, on average, an hour for each of the labs, for a total of 16 hours.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day a student can withdraw from a course with a grade of "W" is November 12, 2026.

Class Conduct:

Please give your undivided attention during class time so that you get the most out of this course and so that you do not waste my or your time. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating, plagiarism, use of AI, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college. These students will immediately receive a score of zero on the assignment in question with no possibility of makeup work. Students who are suspected of cheating due to questionable activity may be required to prove their innocence. Please note: the burden of proof rests upon the student, not the professor. In order for students to prove questioned innocence at any time during the semester, it is highly recommended that essay drafts be typed into Google Docs so that the version history may be pulled as evidence.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all the applicable federal, state and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard Announcement.

*All labs to be completed in Blackboard are each due by Monday at 11:59 p.m. of each week unless otherwise noted.

*All assigned readings are to be completed BY THE DAY DESIGNATED FOR A JOURNAL CHECK. NO EXCEPTIONS. Please make note of note check days on the calendar.

CHECK. NO EXCEPTIONS. Please make note of note check days on the calendar.

Week	Topic(s)	Readings and Assignments
Week 1 8/25 - 8/31	Course Introduction Syllabus Digital Journal Textbook Readings and Notes	- Go through course syllabus and expectations - Required readings: - Chapter 1 - Chapter 2 - Chapter 3 - Make sure to take notes on ALL required readings in your digital journal - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero. - Complete Discussion - Complete assigned "pre-test" lab in Blackboard
Week 2 9/1 - 9/7 NO SCHOOL MONDAY	MLA Resource Textbook Readings and Notes	- Required readings: - Chapter 4 - Chapter 5 - Read MLA Paper Example - Make sure to take notes on ALL required readings in your digital journal - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero.. - Complete Discussion - Complete assigned lab in Blackboard
Week 3 9/8 - 9/14	Textbook Readings and Notes Personal Narrative Essay	- Required readings: - Chapter 6 - Make sure to take notes on ALL required readings in your digital journal in Google Classroom. - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero. - Go through instructions and expectations for the Personal Narrative Essay - Work on the first draft of the <u>Personal Narrative Essay</u> - Complete Discussion - Complete assigned lab in Blackboard
Week 4 9/15-9/21	Personal Narrative Essay	- Upload your first draft of the <u>Personal Narrative Essay</u> to the peer review discussion board BY TUESDAY 9/16 11:59 p.m - Complete a peer review using the peer review sheet provided for TWO of your classmates BY FRIDAY 9/19 11:59 p.m.

	Peer Review Workshop	• Submit the final draft of the <u>Personal Narrative Essay</u> to Blackboard BY SUNDAY 9/21 11:59 p.m. • Complete Discussion • Complete assigned lab in Blackboard
Week 5 9/22-9/28	Nonfiction Summaries	• Read assigned article and watch BOTH assigned videos • Write an objective summary for the article and each video • Complete Discussion • Complete assigned lab in Blackboard
Week 6 9/29-10/5	Textbook Readings and Notes Definition Essay	• Required readings: 1) Chapter 13 • Make sure to take notes on ALL required readings in your digital journal in Google Classroom. - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero. • Go through instructions and expectations for the <u>Definition Essay</u> • Complete first draft of the <u>Definition Essay Due</u> • Complete Discussion • Complete assigned lab in Blackboard
Week 7 10/6-10/12	Definition Essay Peer Review Workshop	• Upload your first draft of the <u>Definition Essay</u> to the peer review discussion board BY TUESDAY 10/9 11:59 p.m. • Complete a peer review using the peer review sheet provided for TWO of your classmates BY FRIDAY 10/10 11:59 p.m. • Submit the final draft of the <u>Definition Essay</u> to Blackboard BY MONDAY 10/12 11:59 p.m. • Complete Discussion • Complete assigned lab in Blackboard
Week 8 10/13-10/19 NO SCHOOL WEDNESDAY-FRIDAY	Novel	• Read ½ of Fahrenheit 451 Ray Bradbury • Start working on Project • Complete Discussion • Complete assigned lab in Blackboard *Although PTAA has days off this week, PJC students are still responsible for completing college work!
Week 9 10/20-10/26	Novel	• Read ½ of Fahrenheit 451 Ray Bradbury • Project Due Monday 10/27 • Complete Discussion • Complete assigned lab in Blackboard
Week 10 10/27-11/2	Textbook Readings and Notes Argumentative Essay	• Required readings: 1) Chapter 14 • Make sure to take notes on ALL required readings in your digital journal - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero. • Go through instructions and expectations for the <u>Argumentative Essay</u> • Choose ONE prompt from the list provided - pg 667 - 668

		• Work on the first draft of the <u>Argumentative Essay</u> • Complete Discussion • Complete assigned lab in Blackboard
Week 11 11/3-11/9	Argumentative Essay Peer Review Workshop	• Upload your first draft of the <u>Argumentative Essay</u> to the peer review discussion board BY TUESDAY 11/4 11:59 p.m • Complete a peer review using the peer review sheet provided for TWO of your classmates BY FRIDAY 11/6 11:59 p.m. • Submit the final draft of the <u>Definition Essay</u> to Blackboard BY MONDAY 11/9 11:59 p.m. • Complete Discussion • Complete assigned lab in Blackboard
Week 12 11/10-11/16 *last day to withdraw: 11/12	Speech Analysis Rhetorical Situation	• Submit the final draft of the <u>Definition Essay</u> to Blackboard BY MONDAY 11/9 11:59 p.m. • Read BOTH assigned speeches • Complete a rhetorical identification for each speech • Complete Discussion • Complete assigned lab in Blackboard
Week 13 11/17-11/22	Textbook Readings and Notes Comparison and Contrast Essay	• Required readings: 1) Chapter 11 • Make sure to take notes on ALL required readings in your digital journal - Due Monday. If you do not have any notes in your journal over the assigned readings, you will receive a zero. • Go through instructions and expectations for the Comparison and Contrast Essay • Work on the first draft of the <u>Comparison and Contrast Essay</u> - Due by Sunday 11/22 • Complete Discussion • Complete assigned lab in Blackboard
11/23 - 11/27		THANKSGIVING BREAK
Week 15 12/1-12/7	Comparison and Contrast Essay Peer Review Workshop	• Complete a peer review using the peer review sheet provided for TWO of your classmates BY FRIDAY 12/5 11:59 p.m. • Submit the final draft of the <u>Definition Essay</u> to Blackboard BY MONDAY 12/7 11:59 p.m. • Begin working on <u>Final Essay</u> - Due 12/9 • Complete Discussion • Complete assigned lab in Blackboard
Week 16 12/8-12/9 *semester ends on Friday	Finals Week	• If you did not meet the requirements to be exempt from the final exam or you are choosing to complete the final exam, the College Application Essay must be turned in by 12/9 11:59 p.m. NO ESSAYS WILL BE ACCEPTED AFTER THIS DATE! • If applicable: Go through instructions and expectations for the final essay: College Application Essay • Complete assigned lab in Blackboard

*Course # Biol 1322.20E0
Nutrition and Diet Therapy
Subterm A Fall 2026*

Instructor: Jason Taylor
Office: NA
Phone: 903-689-1098
Email: jtaylor@parisjc.edu
Office Hours: By appointment

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Credits: SCH = 3 Lecture

Prerequisite(s): none

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Smith: Connect for Wardlaw's Contemporary Nutrition w/Proctorio+ 12e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Learning Outcomes

Upon successful completion of this course, students will:

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.
2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.
3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Schedule: class begins 8-24-2026 and ends 10-13-2026

Unit 1.

Chapter 1 – Nutrition Food Choices and Health

Chapter 2 – Designing a Healthy Eating Pattern

Chapter 3 – The Human Body: A Nutrition Perspective

Proctored Exam 1

Unit II

Chapter 4 – Carbohydrates

Chapter 5 – Lipids

Chapter 6 – Proteins

Proctored Exam 2

Unit III

Chapter 7 – Energy Balance and Weight Control Alcohol

Chapter 8 – Vitamins

Chapter 9 –Water and Minerals

Proctored Exam 3

Unit IV

Chapter 10 – Nutrition: Fitness and Sports

Chapter 11 – Eating Disorders

Chapter 12 – Protecting Our Food Supply

Proctored Exam 4 “The final exam” only tests over the last chapters covered in Unit IV

10-9-2026 to 10-13-2026. Exam 4 Final (only covers Chapters 10,11,12) **Final Must Be Completed NO LATER Than **10-13-2026** at 11:59 pm. No Exceptions!!!!!! The final also cannot be taken early!! The final can be taken at home and is **PROCTORED**.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material.

*****Note all assignments must be accessed through Black Board. When you click on your first McGraw Hill assignment in Black Board it will ask you to register. **Please make sure and use your name as it appears on the school class roll.** When registering in MGH Connect, you must enter an email and password. Please use your **PJC Dragon Email** only and use a password that you will remember. If you do not yet have yours activated, the link to set up your PJC Dragon Mail is below.

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

Proctorio Practice Exam: I will have a 5-10 question **Practice Exam with unlimited attempts**. You will want to take this practice exam a few times before you try taking Exam 1 to **ensure everything is working well** on your end. 5pts

Unit Exams:

(All Unit Exams 4 at 75 each (300pts) are **TIMED and Proctored using Proctorio**) This means you can take them at home but you must have a webcam see below– Each Exam will consist of **repeated questions** from your chapter homework and quizzes. All Unit Exams are timed to 75 minutes. Once the time expires, your exam closes, and I will not reopen it. **Plan your attack well**, and never begin an exam late at night on the last day it is due, if you can avoid it! Expect about 60 multiple choice questions similar to what you see in the chapter homework assignments.

Proctorio Exam Proctoring:

- **Webcam and audio required for all exams**
- **Photo ID (Driver's license, passport, college/university ID, or military ID)**
- **You must download the Proctorio App**
- **Make sure you allow your webcam to allow Proctorio access to it**

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. **All major Unit exams and the Bones lab exam**, will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome

<https://proctorio.com/support#settingUp>

Minimum System Requirements

<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

- Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.
- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone use is **strictly prohibited** during the exam!
- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.
- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.
- Make Ensure you fully view the webcam during the exam.

Evaluation Methods:

Proctorio Proctored Exam 1- Timed, and 1 attempt- **75pts**

Proctorio Proctored Exam 2- Timed, and 1 attempt- **75pts**

Proctorio Proctored Exam 3- Timed, and 1 attempt- **75pts**

Proctorio Proctored Exam 4- Timed, and 1 attempt- **75pts**

Nutrition Calc Plus Project 7 day diet tracking=45 points

Proctorio video intro 4 points

Proctorio Proctored Practice exam 5 points

2-Introduction Video assignments are 7.5 each

Syllabus Quizz 13 points

Why Study Nutrition video assignment 15 points

Chapter quizzes and metric quiz 13 total quizzes are 15 points each

Each day a quiz is late will deduct 15% off of your quiz grade.

Smart Book reading assignments 12 total assignments 34 points each

Extra Credit (not mandatory) Smart Book Chapter 13 30 points

*Note the above reading assignments can not be submitted late and will not award partial credit for late assignments.

The course has a total of 1000 points so it is easy to calculate your grade. For example if at the end of the course you have a total of 850 points you have managed to earn 85% of the total points available. This means you have an 85 in the class or a B letter grade.

Midterm Grade: PJC instructors are required to enter mid-term grades during the ninth week of the semester (9-18-2026). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working for them. Please meet with your instructor if you have a concern about your grades at the mid-term.

** No makeup exams or retests are allowed.

***Note the Smart Book assignments and Exam 4 do not allow for late submission and will not award partial credit for work done past the due date they will automatically submit with a grade of zero past the due date.

McGraw Hill Technical Help Line 1-800-331-5094

PJC Computer Help Desk 903-782-0496

Important Read Now!! Due to Federal Department of Education regulations you must complete a short assignment by (8-31-2026) here at the college to prove attendance in an internet based class. If you do not complete the syllabus quiz you will be dropped from the class and can't reenroll this semester!!!! Please complete this first!!

Course Policies

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Questions about the course: If you have a question about course content you must send me an email to jtaylor@parisjc.edu and I will reply to your email in a timely manner.

Email Response Time: If the email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is 10-1-2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)- tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Blackboard messages and or student Dragon email

Biol 1406.100
Biology for Science Majors I
Fall 2026

Instructor: Dr. Jack Brown

Office: MS 210F

Phone: 903-782-0319

Email: jbrown@parisjc.edu

Office Hours: MTWR 11:00 – 12:00 and 1:00 – 4:00; F 8:00-12:00 – 1:00- 3:00

Meeting Location: MS 201 Lect - MS 203 Lab

Meeting Days: MW Lecture TR Lab

Meeting Times: 8:00 – 9:15

Course Description:

Fundamental principles of living organisms will be studied, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Concepts of cytology, reproduction, genetics, and scientific reasoning are included.

Laboratory activities will reinforce the fundamental principles of living organisms, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Study and examination of the concepts of cytology, reproduction, genetics, and scientific reasoning are included.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Recommended prerequisite: MATH 1314 or 1414. Successful completion of College Algebra or concurrent enrollment in higher-level mathematics is recommended.

Required Textbook(s) and Materials:

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Brooker: Connect for Biology 6e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Sept 9th**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Describe the characteristics of life.
2. Explain the methods of inquiry used by scientists.
3. Identify the basic requirements of life and the properties of the major molecules needed for life.
4. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
5. Describe the structure of cell membranes and the movement of molecules across a membrane.
6. Identify the substrates, products, and important chemical pathways in metabolism.
7. Identify the principles of inheritance and solve classical genetic problems.
8. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
9. Describe the unity and diversity of life and the evidence for evolution through natural selection.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem-solving to make informed decisions in the laboratory.
3. Communicate effectively the results of scientific investigations.

4. Describe the characteristics of life.
5. Explain the methods of inquiry used by scientist.
6. Identify the basic properties of substances needed for life.
7. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
8. Describe the structure of cell membranes and the movement of molecules across a membrane.
9. Identify the substrates, products, and important chemical pathways in metabolism.
10. Identify the principles of inheritance and solve classical genetic problems.
11. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
12. Describe the unity and diversity of life and the evidence for evolution through natural selection.

Course Requirements and Evaluation:

Exams – 65%

Laboratory – 25%

MGH Connect - 10%

The lecture exams will include multiple-choice, true-false, and matching) and subjective questions (critical thinking, essay, and short answer) over class notes, text readings, and any additional outside reading that may be assigned. 50% to 80% of the points awarded on your exams will come from subjective questioning (essay, short answer, completion).

Mid-Term Grades: PJC instructors must enter mid-term grades during the ninth week of the semester (**Oct 16**). Each student's mid-term grade may be viewed by College personnel with the need to monitor such information as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock of what may or may not be working. Please meet with your instructor if you are concerned about your mid-term grades.

Make-Up Work

If you miss a major exam, you can take the **comprehensive** make-up exam scheduled for the week before finals (**Nov 30- Dec 4**). You are only allowed to miss one exam. If you know of a pending absence from class, notify me as soon as possible. You may take exams early with instructor approval or one day late with permission.

All homework and laboratory assignments will be accepted on the due date at the beginning of the period only—NO LATE PAPERS OR ASSIGNMENTS. NO EXCEPTIONS. The **student** must initiate withdrawals online using their MyPJC account. The last day to drop the course with a grade of W is Thursday, **November 12, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils. Tests must be taken with a #2 pencil. Bring a Scantron form and your pencil to every test. The required Scantron can be found in the PJC Library or can be picked up in the Math and Writing Lab; the Scantron number you need is **#882e**.

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor—no food /or beverages are allowed in class. Please turn off or silence all cell phones before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is Thursday, **November 12th**. Students absent are still responsible for lecture/lab materials covered during the absence and any required assignments due. Please get in touch with your instructor as soon as possible if you are absent so that you can remain current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to others and the instructor in lectures and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student based on sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is Paris Junior College's policy to provide reasonable accommodations for qualified individuals with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines regarding reasonable accommodations as required to afford equal educational opportunity. The student must arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. Please refer to the Paris Junior College Catalog or Student Handbook for more information.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that cannot be explained by another cause. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change by the method listed below.

In class, via Blackboard Announcement, and via student email

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs

and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedules:

Lecture Schedule: *MW 8:00-9:15 MS 207*

Aug. 24- Introduction

Aug 26 - Chemistry of Life

Aug 31 – Carbon Chemistry

Sept 2 - Carbon Chemistry

Sept. 7 – Labor Day

Sept. 9- **Exam 1**

Sept. 14- The Plasma Membrane

Sept. 16- Ground Rules of Metabolism

Sept. 21- Exam 2

Sept. 23- How Cells Acquire Energy (Photosynthesis)

Sept 28- (Photosynthesis)

Sept. 30- How Cells Release Energy (Cellular Respiration)

Oct. 5- (Cellular Respiration)

Oct. 7- Test 3

Oct. 12- Cell Division (Mitosis)

Oct. 14- Cell Division (Meiosis)/Cell Communication

Oct. 19- Cell Communication

Oct. 21- Genetics

Oct 26- Genetics

Oct 28- Test 4

Nov. 2- DNA Structure and Function

Nov. 4- DNA Structure and Function

Nov. 9- The Central Dogma

Nov. 11- The Central Dogma

Nov 16- Test 5

Nov 18 - Gene Expression and Regulation

Nov -23- Gene Expression and Regulation

Nov 25-27 Thanksgiving Holidays No Class

Nov 30 - Genomes and Their Evolution

Dec 2- Test 6??

Dec 7- Comprehensive Final Exam

Laboratory Schedule: TR 8:00 – 9:15 MS 203

Lab Schedule: Labs may change!!

Topic

Aug 25	Biology Lab Safety/Metric Units
Aug 27	Metric and Safety
Sept 1	Exercise #1 – Microscopy Introduction
Sept 3	Exercise #2 – Microscopy Introduction
Sept 8	Exercise #3 – Cell Chemistry (Macromolecules)
Sept 10	Exercise # 5 – Cell Membranes
Sept 15	Exercise # 4 – Diffusion and Osmosis
Sept 17	Exercise # 4 – Diffusion and Osmosis
Sept 22	Exercise # 8 –Photosynthesis
Sept 24	Exercise # 8 –Photosynthesis
Sept 28	Cell Respiration Lab
Oct 1	Cell Respiration Lab
Oct 6	Exercise # 9 –Cell Division
Oct 8	Exercise # 9 –Cell Division
Oct 13	Biotech (DNA Fingerprinting)
Oct 15	Biotech (DNA Fingerprinting)
Oct 20	Biotech (SEC) (Ex 10-11Genetics WKS)
Oct 22	Biotech (DNA Extraction Lab)
Oct 27	Biotech (Bacterial Transformation)
Oct 29	Biotech (Bacterial Transformation)
Nov 3	Biotech (PCR Basics Lab) or BioBits
Nov 5	Biotech (PCR Basics Lab) or BioBits
Nov 10	PV92 Informatics PCR Lab
Nov 12	PV92 Informatics PCR Lab
Nov 17	Scientific Inquiry Work Day
Nov 19	Scientific Inquiry Work Day
Nov 24	Scientific Inquiry Group Project Due
Nov 25-27	<i>TG Break</i>
Dec 1	CRISPR Lab
Dec 3	CRISPR Lab

Biol 2401.10H0 Anatomy and Physiology I Fall 2026

Instructor: Dr. Jack Brown
Office: MS 210F
Phone: 903-782-0319
Email: jbrown@parisjc.edu

Meeting Location: MS 101
Meeting Days: MTWR
Meeting Times: 9:30 -10:45

Office Hours: MTWR 11:00 – 12:00 and 1:00 – 4:00; TR F 8:00-12:00 – 1:00-3:00

Course Description:

Anatomy and Physiology I is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a hands-on learning experience for the exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Aug 30th**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to the required digital materials and will need to purchase them on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method, and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.

7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	40% of course grade
Lab – Virtual MGH Connect	50% of course grade
Bones & Muscles Exam (5% each)	10% of course grade
	100%

Mid-Term Grades: PJC instructors must enter mid-term grades during the ninth week of the semester (**Sept 18**). Each student's mid-term grade may be viewed by College personnel who need to monitor student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock of what may or may not be working. Please meet with your instructor if you are concerned about your midterm grades.

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is Thursday, **Oct. 1, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils. Tests must be taken with a #2 pencil. Bring a Scantron form and your pencil to every test. The required Scantron can be found in the PJC Library or Math and Writing Lab; the Scantron number you need is **#882e**.

Rules for ALL Written Assignments

1. Use Microsoft Word
2. 12pt Type and Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor—no food /or beverages to class. Please turn off or silence all cell phones before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. The **student** must initiate withdrawals. The last day for a student to withdraw from this course with a grade of “W” is Thursday, **October 1**. Students absent are still responsible for lecture/lab materials covered during the absence and any required due assignments. Please get in touch with your instructor as soon as possible if you are absent so you can stay current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to attend each class session and record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to others and the instructor in lectures and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis

prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

Paris Junior College's policy is to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. The student is responsible for arranging an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. Please refer to the Paris Junior College Catalog or Student Handbook for more information.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that cannot be explained by another cause. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help and emphasize that help and resources are available on campus and in the community. It also supports Texas higher education institutions in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule

Aug 24 - Introduction to A&P

Aug 25 - Introduction to A&P

Aug 26 - Chemistry of Life

Aug 27 - Chemistry of Life

Aug 31 - The Cell

Sept 1- *Labor Day (No Class)*

Sept. 2- The Cell

Sept. 3- The Cell

Sept. 7- Exam 1

Sept. 8- Cell Metabolism

Sept. 9- Cell Metabolism

Sept 10- Tissues

Sept 14- Tissues

Sept 15- Integument

Sept 16- Integument

Sept 17- Exam 2

Sept 21- Skeletal

Sept 22- Skeletal

Sept 23- Joints (Bones Exam**)**

Sept 24- Muscular System

Sept 28- Muscular System

Sept 29- Exam 3

Sept 30- Nervous System

Oct 1- Nervous System (Get Final Exam Reviews)

Oct 5- Nervous System

Oct 6 - Nervous System

Oct 7 - Nervous System (**Muscles Exam**)

Oct 8- Senses

Oct 9- Senses

Oct 12 - **Exam 4**

Oct 13- Final Exam Review

Oct 14- Final Exam

Laboratory Schedule: Virtual Labs by MGH Connect

Lab Schedule: *Labs will follow the lecture schedule, and all due dates will be apparent in MGH Connect. We will cover this in class and hopefully mix in a few FTF labs or demonstrations.*

Biol 2402.10J0 Anatomy and Physiology II Fall 2026

Instructor: Dr. Jack Brown
Office: MS 210F
Phone: 903-782-0319
Email: jbrown@parisjc.edu

Meeting Location: MS 101
Meeting Days: MTWR
Meeting Times: 9:30 -10:45

Office Hours: MTWR 11:00 – 12:00 and 1:00 – 4:00; TR F 8:00-12:00 – 1:00-3:00

Course Description:

Anatomy and Physiology II is the second part of a two-course sequence. It is a study of the structure and function of the human body, including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a hands-on learning experience for the exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Oct 25th**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to the required digital materials and will need to purchase them on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method, and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.

7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	40% of course grade
Lab – Virtual MGH Connect	50% of course grade
Group Project	10% of course grade
	100%

Mid-Term Grades: PJC instructors must enter mid-term grades during the ninth week of the semester (**Nov 13**). Each student's mid-term grade may be viewed by College personnel who need to monitor student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock of what may or may not be working. Please meet with your instructor if you are concerned about your midterm grades.

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is Thursday, **Nov. 24, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic. All students will need a notebook and pens or pencils. Tests must be taken with a #2 pencil. Bring a Scantron form and your pencil to every test. The required Scantron can be found in the PJC Library or Math and Writing Lab; the Scantron number you need is **#882e**.

Rules for ALL Written Assignments

1. Use Microsoft Word
2. 12pt Type and Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Respect your classmates' right to an education.

Give your full attention to the course and anyone speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor—no food /or beverages to class. Please turn off or silence all cell phones before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. The **student** must initiate withdrawals. The last day for a student to withdraw from this course with a grade of “W” is Thursday, **November 24**. Students absent are still responsible for lecture/lab materials covered during the absence and any required due assignments. Please get in touch with your instructor as soon as possible if you are absent so you can stay current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to attend each class session and record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to others and the instructor in lectures and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis

prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

Paris Junior College's policy is to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. The student is responsible for arranging an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. Please refer to the Paris Junior College Catalog or Student Handbook for more information.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that cannot be explained by another cause. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help and emphasize that help and resources are available on campus and in the community. It also supports Texas higher education institutions in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedules:

Oct 19 – Introduction
Oct 20 - Endocrine
Oct 21 - Endocrine
Oct 22 – Blood
Oct 26 - Blood
Oct 27 – Cardiovascular
Oct 28 – Cardiovascular
Oct 29 – **Exam 1**
Nov 2 – Lymphatic and Immunity
Nov 3 - Lymphatic and Immunity
Nov 4 –Digestive
Nov 5 - Digestive
Nov 9 - Nutrition and Metabolism
Nov 10 - Nutrition and Metabolism
Nov 11 – **Exam 2**
Nov 12 – Respiratory
Nov 16 – Respiratory
Nov 17 – Urinary
Nov 18 – Urinary
Nov 19 - Water, Electrolyte, and Acid-Base Balance
Nov 23- Water, Electrolyte, and Acid-Base Balance
Nov 24 – **Exam 3**
Nov 25-27 – NO CLASS Happy Thanksgiving
Nov 30 – Reproductive
Dec 1 – Reproductive
Dec 2- Pregnancy, Growth, and Development
Dec 3 – Genetics
Dec 7 – Genetics
Dec 8 – **Exam 4**
Dec 9 - Final Exam Review
Dec 10 – **Proctored Final Exam**

Laboratory Schedule: Virtual Labs by MGH Connect

Lab Schedule: *Labs will follow the lecture schedule, and all due dates will be apparent in MGH Connect. We will cover this in class and hopefully mix in a few FTF labs or demonstrations.*

Biol 2420.10G0
Microbiology for Non-Science Majors
Spring 2026

Instructor: Gregory Potts

Office: MS 210E

Phone: 903-782-0332

Email: gpotts@parisjc.edu

Office Hours: MTWR 8:30 – 10:30 am and 1:30 pm – 4:30 pm

Meeting Location: MS 209

Meeting Days: TR

Meeting Times: 11:00 am – 12:15 pm

Course Description:

This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It introduces historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health.

The lab covers the basics of culture and identification of bacteria and microbial ecology. This course is primarily directed at pre-nursing and other pre-allied health majors and covers the basics of microbiology. Emphasis is on medical microbiology, infectious diseases, and public health.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect - **Biol 2420 – Cowan: Connect for Microbiology Fundamentals w/Proctorio+ 4e**. You will be able to access the textbook and learning materials directly through Blackboard Ultra. If you do not want to participate in the Dragon Now Program and would prefer to procure your required course materials elsewhere, you must opt out. If you'd like to opt out of this program, please follow the steps below **before the college ORD date of September 9th, 2026**.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method, and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Describe distinctive characteristics and diverse growth requirements of prokaryotic organisms compared to eukaryotic organisms.
2. Provide examples of the impact of microorganisms on agriculture, environment, ecosystem, energy, and human health, including biofilms.
3. Distinguish between mechanisms of physical and chemical agents to control microbial populations.
4. Explain the unique characteristics of bacterial metabolism and bacterial genetics.
5. Describe the evidence for the evolution of cells, organelles, and major metabolic pathways from early prokaryotes and how phylogenetic trees reflect evolutionary relationships.
6. Compare characteristics and replication of acellular infectious agents (viruses and prions) with characteristics and reproduction of cellular infectious agents (prokaryotes and eukaryotes).
7. Describe functions of host defenses and the immune system in combating infectious diseases and explain how immunizations protect against specific diseases.
8. Explain transmission and virulence mechanisms of cellular and acellular infectious agents.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Use and comply with laboratory safety rules, procedures, and universal precautions.
2. Demonstrate proficient use of a compound light microscope.

3. Describe and prepare widely used stains and wet mounts and discuss their significance in identification of microorganisms.
4. Perform basic microbiology procedures using aseptic techniques for transfer, isolation and observation of commonly encountered, clinically significant bacteria.
5. Use different types of bacterial culture media to grow, isolate, and identify microorganisms.
6. Perform basic bacterial identification procedures using biochemical tests.
7. Estimate the number of microorganisms in a sample using methods such as direct counts, viable plate counts, or spectrophotometric measurements.
8. Demonstrate basic identification protocols based on the microscopic morphology of some common fungi and parasites.

Course Requirements and Evaluation:

40%	Exams – 4 Unit Exams + Final Exam (Unit Exams may be online or in class)
25%	McGraw-Hill Connect Virtual Labs
15%	McGraw-Hill Connect homework assignments, Quizzes - In class or online Activities
20%	Vaccine and Evolution Papers 1-page disease/microbe reports + short presentation (these will be assigned in class) Critical Thinking Assignments

A:	90-100%
B:	80-89%
C:	70-79%
D:	60-69%
E:	59% and under

When registering in MGH Connect, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember. The link to set up your PJC Dragon Mail is located below if you do not have yours activated yet.

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

Much of your course grade will come from the homework, labs, written work, and Unit Exams found in **MGH Connect**. **Nothing in MGH Connect**, including the Exams, **is proctored**, so you may use help to complete these assignments. Many assignments will have more than one attempt, and I will take the highest score in the end, so take advantage of that!

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the semester. These will be turned in on **October 16th, 2026** for this course. Once entered, each student's mid-term grade may be viewed by college personnel with the need to monitor such information as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you are concerned about your mid-term grades.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Policies

Students are expected to conduct themselves as mature adults. You are expected to exhibit civility and patience and to participate in the class as directed by your instructor. You will show respect for your instructor and the other students in the class. Any student who is disruptive will be asked to leave the class. After a conference with the instructor and the director or division chair, the student may be allowed to return to the classroom. Online students need to display the same etiquette as in person students. While the class dynamics may be different it is important to be socially engaged and civil to everyone.

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand. All students will need a notebook and pens or pencils Tests must be taken with a #2 pencil. Bring a scan-tron form and your pencil to every test. The required scan-tron can be found in the PJC Book Store, the scan-tron number you need is **#882e**.

Rules for ALL Written Assignments

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Please note that due to the rise in AI and students using AI to generate written assignments we will conduct the written critical thinking exercises in class using blue books or something very similar. Learning and utilizing AI is a fantastic supplement to learning but cannot replace the need for us to organize our thoughts, think clearly and interpret ideas and concepts. Every student needs to learn to critically evaluate information and students cannot learn to do that by

being reliant on unvetted information and accepting things as true when they may or may not be true.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. Email me with your desire to drop and I will send you instructions on how to initiate the request. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th, 2026.

System Requirements for MGH Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be informed in class and any changes will also be clearly posted in Blackboard as an announcement.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedules:

Aug 25	Syllabus / Ch 1: Introduction to Microbes
Aug 27	Ch. 3: Bacteria and Archaea
Sept 1	Ch. 4: Eukaryotic Cells and Microorganisms
Sept 3	Ch. 5: Viruses and Prions
Sept 8	Ch. 6: Microbial Nutrition & Growth / Ch. 7: Microbial Metabolism
Sept 10	Ch. 7: Microbial Metabolism / Ch. 8: Microbial Genetics
Sept 15	Exam I Review / Ch. 9: Physical and Chemical Control of Microbes
Sept 17	Exam I Select Topics – Chapters 1, 3, 4, 5, 6, 7, & 8
Sept 22	Ch 9: Physical and Chemical Control /
	Ch. 11 Interactions Between Microbes and Humans
Sept 24	Ch 11: Interactions Between Microbes and Humans
Sept 29	Ch 12: Host Defenses I (NS)
Oct 1	Ch 12: Host Defenses I (NS) / Ch 13: Host Defenses II (Specific)
Oct 6	Ch 13: Host Defenses II (Specific)
Oct 8	Ch 14: Disorder of Immunity / Exam II Review
Oct 13	Exam II – Chapters 9, 11, 12, & 13
Oct 15	Ch 14: Disorder of Immunity /
	Ch 16: Infectious Diseases Affecting the Skin and Eyes
Oct 20	Ch 16: Infectious Diseases Affecting the Skin and Eyes
Oct 22	Ch 17: Infectious Diseases Affecting the Nervous System
Oct 27	Ch 17: Nervous System / Ch. 18 Cardiovascular and Lymphatic
Oct 29	Ch 18: Infectious Diseases Affecting the Cardiovascular and Lymphatic
Nov 3	Exam 3: Ch. 14, 16, 17 & 18
Nov 5	Ch 19: Infectious Diseases Affecting the Respiratory System
Nov 10	Ch 19: Infectious Diseases Affecting the Respiratory System /
	Chapter 20 - Infectious Diseases Affecting the Gastrointestinal Tract
Nov 17	Chapter 20 - Infectious Diseases Affecting the Gastrointestinal Tract
Nov 19	Chapter 21-Infectious Diseases Affecting the Genitourinary Systems
Nov 24	Chapter 22-One Health
Nov 26	Thanksgiving
Dec 1	Exam 4: Ch. 19, 20, 21 & 22
Dec 3	Final Exam Review
Dec 8	Final Exam (Comprehensive)

Laboratory Schedule:

All Laboratory exercises are done using McGraw-Hill Connect and are open from the 1st day of class. Each lab or group of labs have specific due dates. Additional labs may be added at any time during the semester.

Lab 1: Lab Safety – Hand Washing Procedure	Due 9-8
Lab 2: Microscopy – Operation of a Brightfield Microscope	Due 9-8
Lab 3: Microscopy – Oil Immersion	Due 9-8
Lab 4: Effects of Antiseptics and Disinfectants	Due 9-20
Lab 5: Staining – Gram Staining	Due 9-20
Lab 6: Capsule Staining	Due 9-20
Lab 7: Diversity of Microorganisms	Due 9-20
Lab 8: Staining – Spore Staining	Due 10-4
Lab 9: Natural Selection – Antibiotic-resistant Bacteria	Due 10-4
Lab 10: Innate Immunity Overview	Due 10-4
Lab 11: Adaptive Immunity Overview	Due 10-4
Lab 12: Antimicrobial Sensitivity Testing (Kirby-Bauer Method)	Due 10-18
Lab 13: Biochemical Testing – MacConkey Agar	Due 10-18
Lab 14: Microbial Growth - Effects of Temperature	Due 10-18
Lab 15: Microbial Growth – Effects of pH	Due 10-18
Lab 16: Microbial Growth – Oxygen Requirements and Anaerobic Jar	Due 10-18
Lab 17: Microbial Growth – Oxygen requirements and fluid thioglycolate	Due 11-8
Lab 18: Biochemical Testing – CAMP	Due 11-8
Lab 19: Biochemical Testing – Coagulase Test	Due 11-8
Lab 20: Biochemical Testing – Mannitol Salt Agar	Due 11-8
Lab 21: Isolation Methods – Quadrant Streak Plate Method	Due 11-22
Lab 22: Isolation Methods – Quantitative Dilution of Bacteria	Due 11-22
Lab 23: Quantification by Colony Counting	Due 11-22
Lab 24: Unknown Bacterial Identification – Sample #3	Due 11-22
Lab 25: Unknown Bacterial Identification - Sample #4	Due 11-22

BIOL 1408.200
Biology for Non-science Majors I
Fall 2026

Instructor: Kristin Craven
Office: GHS 1611
Phone: 903-453-3665
Email: cravenk@greenvilleisd.com

Meeting Location: GHS 1611
Meeting Days: MTWRF
Tutoring Times: MTW 4:10 – 4:40 PM
Morning by Appointment

Course Description:

Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Laboratory activities will reinforce the fundamental principles of living organisms, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Study and examination of the concepts of cytology, reproduction, genetics, and scientific reasoning are included.

Credits: SCH = 3 lecture and 1 laboratory hours per week, from approved course list

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

Inquiry Into Life, 17th edition, by Sylvia Mader ISBN 9781264654277 provides McGraw-Hill Connect online access card and ebook, A physical textbook is highly recommended but not required. Exams will be given in class and monitored by the teacher. You will need to use the provided laptop or Chromebook computer.

If you wish to opt out of this program, please follow the steps below **before the ORD date of Sept 9**.

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or

observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Describe the characteristics of life.
2. Explain the methods of inquiry used by scientists.
3. Identify the basic requirements of life and the properties of the major molecules needed for life.
4. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
5. Describe the structure of cell membranes and the movement of molecules across a membrane.
6. Identify the substrates, products, and important chemical pathways in metabolism.
7. Identify the principles of inheritance and solve classical genetic problems.
8. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
9. Describe the unity and diversity of life and the evidence for evolution through natural selection.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem-solving to make informed decisions in the laboratory.
3. Communicate effectively the results of scientific investigations.
4. Describe the characteristics of life.
5. Explain the methods of inquiry used by scientist.
6. Identify the basic properties of substances needed for life.
7. Compare and contrast the structures, reproduction, and characteristics of viruses, prokaryotic cells, and eukaryotic cells.
8. Describe the structure of cell membranes and the movement of molecules across a membrane.
9. Identify the substrates, products, and important chemical pathways in metabolism.
10. Identify the principles of inheritance and solve classical genetic problems.
11. Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
12. Describe the unity and diversity of life and the evidence for evolution through natural selection.

Course Requirements and Evaluation:

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. These MGH Connect assignments are linked for you in Blackboard. Click on a MGH link, to be directed to Connect where you must **register** for the MGH Connect course. The process of registering is described in detail in the **Start Here folder** in Blackboard. Once you have registered in MGH Connect, you will be able to complete the **Connect Orientation Assignment**. Complete this assignment as soon as possible. In addition, the syllabus quiz must be completed by the official reporting day (ORD), **Sept. 9**, to be counted as present in the course. If you have not completed this assignment by this date you will be **dropped** from the course.

When registering in MGH Connect, you will need to enter an e-mail and password. Use your **PJC Dragon E-mail** and choose a password you will remember. The link to set up your PJC Dragon Mail is located below if you do not have yours activated yet.

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

Orientation/Introductory Assignments prepare you to take the course and utilize the online tools.

Metric Quiz is 10 pts and allows for only 1 attempt. This quiz has ten questions. Review the metric system before attempting this quiz. You will be asked to complete various conversions.

Chapter Homework Assignments involve 12 online homework assignments and may include assignments given in class. You have 2 attempts at each assignment. You should complete both attempts because the highest score will be recorded in My Grades of Blackboard and is used to calculate your final course grade. Do these assignments after reading your chapter and try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. Homework assignments are designed to help you study for each chapter and excel on the exams. You may see some similar questions on your unit exams.

Lecture Exams are predominantly multiple choice and true/false, but may include short answer questions as well. These exams will be timed.

Note: *Once you begin a **timed assignment or exam** you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later! Likewise, there will not be time to search for answers. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered.*

Unit Exams & Comprehensive Final	35% of course grade
Labs – Online and in-person	35% of course grade
Quizzes and Homework	30% of course grade

Mid-Term Grades: PJC instructors must enter mid-term grades during the ninth week of the semester. Each student's mid-term grade may be viewed by College personnel with the need to monitor such information as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in, and they do not impact your GPA. They are simply a measurement the student can use to take stock of what may or may not be working. Please meet with your instructor if you are concerned about your midterm grades.

Power of the Final

The Final Exam can replace a missed or low Unit Exam score.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **November 13, 2025**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but please do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 6 main units and a final exam. You can see when all assignments open and close in MGH Connect but the basic overview is also detailed in this syllabus. In a standard unit, you will have 2 chapters to cover, read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter, complete the labs for each unit, and the unit exam covering the 2 chapters. Plan a good schedule for

when you want to complete each well before the due date.

Grading Scale:

Points	Letter Grade
900 – 1000	A
800 – 899	B
700 – 799	C
600 – 699	D
0 – 599	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 5, 2026.. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Insert faculty procedures for class management

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule:

Unit	Lesson	Lecture	Lab
1	1	• Ch 2 Homework: Molecules • Ch.2 Quiz	Safety Lab Ph Balance Labs
1	2	• Ch 3 Homework: Cell Structure • Ch. 3 Quiz	Metric Measurements Lab Cell Structure Lab
1		• Unit 1 Exam (ch 2 & 3)	
2	3	• Ch 4 Homework: Cell Membranes • Ch. 4 Quiz	Diffusion and Osmosis Labs Membrane Transport Labs
2	4	• Ch 5 Homework: Cell Division • Ch 5 Quiz	Cell Division Labs
2		• Unit 2 Exam (ch 4 & 5)	
3	5	• Ch 6 Homework: Metabolism • Ch 6 Quiz	Enzymes Labs
3	6	• Ch 7 Homework: Cell Respiration • Ch 7 Quiz	Cell Respiration Labs
3		• Unit 3 Exam (ch 6 & 7)	

4	7	• Ch 8 Homework: Photosynthesis • Ch 8 Quiz	Photosynthesis Labs
4	8	• Ch 9: Homework: Plants • Ch 9 Quiz	Plants Labs
4		• Unit 4 Exam (ch 8 & 9)	
5	9	• Ch 23 Homework: Inheritance • Ch 23 Quiz	Mendelian Genetics Labs Bacterial Genetics Labs
5	10	• Ch 24 Homework: Chromosomes • Ch 24 Quiz	DNA Biology Labs
5		• Unit 5 Exam (ch 23 & 24)	
6	11	• Ch 25 Homework: DNA • Ch 25 Quiz	Human Genetics Labs
6	12	• Ch 26 Homework: Biotechnology • Ch 26 Quiz	Biotechnology and Bacterial Genetics Labs
6		• Unit 6 Exam (25 & 26)	
		• Comprehensive Final Exam	

The syllabus and course schedule are subject to change.

Biol 2402.20D1- Anatomy and Physiology II Fall 2026

Instructor: Cheryl Anderson, MS
Office: Online
Phone: NA
Email: canderson@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Office Hours: Online

Course Description:

Anatomy and Physiology II is the second part of a two-course sequence. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

The lab provides a learning experience for exploration of human system components and basic physiology. Systems to be studied include endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). *Credits: SCH = 4 (3 Lecture and 1 Lab)*

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Welsh Connect for Hole's Anatomy and Physiology w/Proctorio+ 16e**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below **before the ORD date of September 9, 2026**.

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to the required digital materials and will need to purchase them on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method, and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Use anatomical terminology to identify and describe locations of major organs of each system covered.
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.
3. Describe the interdependency and interactions of the systems.
4. Explain contributions of organs and systems to the maintenance of homeostasis.
5. Identify causes and effects of homeostatic imbalances.
6. Describe modern technology and tools used to study anatomy and physiology.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply appropriate safety and ethical standards.
2. Locate and identify anatomical structures.
3. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.
4. Work collaboratively to perform experiments.
5. Demonstrate the steps involved in the scientific method.
6. Communicate results of scientific investigations, analyze data and formulate conclusions.
7. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations and predictions.

Course Requirements and Evaluation:

Entering Your Course: This course utilizes the MGH Connect platform to deliver the assignments. I have linked you to these MGH Connect assignments in Blackboard. Your first assignments are the **MGH Connect Introductions**, where you will be directed to Connect and must **register** for the MGH Connect course and begin these assignments. You **must** complete these assignments by **September 8th at 11:59 PM**, prior to the college's official reporting Day (ORD) of September 9th, to be counted as present in the course. *You will be dropped from the course if you have not signed in and have not begun work in MGH Connect by this date.*

4 Unit Exams (All Proctored)	50% of course grade
MGH Connect Assignments (SB, HW, VL, APR, etc)	50% of course grade
	100%

Proctorio Exam Proctoring:

- Webcam and audio required for all exams
- Photo ID (Driver's license, passport, college/university ID, or military ID)
- You must download the Proctorio App
- Make sure you allow your webcam to allow Proctorio access to it

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. **All major Unit exams** will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome

<https://proctorio.com/support#settingUp>

Minimum System Requirements

<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.

- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone or tablet use is **strictly prohibited** during the exam!
- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.

- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.
- Make sure you are fully in view of the webcam during the exam.

All homework and laboratory assignments will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **Thursday, November 12, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. **Failure to officially withdraw will result in your receiving a grade of F.**

Required Activity:

All students must complete the first four Connect Assignments by **11:59 p.m. September 8th**. This is prior to the official reporting day (ORD) which is September 9th. Completion of these assignments serves as verification of course participation. Students who do not complete the assignments by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assignments must be done by the due dates set, so please stay on top of assignments and **avoid procrastination**. I will only reopen assignments if the Connect system or Blackboard has issues or in unavoidable and verifiable cases that I approve of individually, such as an unexpected hospitalization. If you cannot make the due dates, you should drop the class before the final withdrawal date of **November 12th**.

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course is online and will require a time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace, but please do not let due dates approach and assume you can finish the work in a day or 2. Your course is divided into four central units, covering three chapters each. You can see when all assignments open and close in Blackboard, but this syllabus also covers this. In each unit, you will have 3 chapters,

read and study each (take notes and pay attention to bold terms), complete the Smartbook and homework assignments with each chapter (***many of the questions in the homework will reappear on your unit exams***), complete the virtual labs, APR labs, any written assignments, and the proctored unit exam. Plan a good schedule for when you want to complete each task before the due dates.

You can find the WD from a course option in your MyPJC Account. The last day to drop the course with a grade of W is **November 12, 2026**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Extension Policy: I offer extensions on proctored exams on a case-by-case basis and only if you have a **verifiable and unavoidable** reason, like a hospitalization or something of that nature. I will reopen all of your other assignments in (Units 1-3) for everyone from **August 24th -December 9th**, except for Unit 4 assignments, since they are already open.

You may complete any missed assignments from Units 1-3 during this time. If you missed anything, plan your time well for this reopening opportunity. Take full advantage of it, and recall that I only use the highest score on assignments with more than one attempt, so max them out.

Class Attendance:

Class attendance is critical for the successful completion of this course. Do your best not to miss anything. The assignment start and end due dates are **crystal clear** in your syllabus and Blackboard.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to others and the instructor in lectures and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty:

In the pursuit of learning, students are expected to engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work. They will forego the right to receive any bonus points for the remainder of the semester. Students suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

Paris Junior College's policy is to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. The student is responsible for arranging an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. Please refer to the Paris Junior College Catalog or Student Handbook for more information.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that cannot be explained by another cause. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help and emphasize that help and resources are available on campus and in the community. It also supports Texas higher education institutions in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedules:

MGH Connect Introductions: These are your 1st assignments to be completed before the ORD date. They are just short tutorials that teach you about how your assignments and proctoring will work and look during the semester. They have unlimited attempts and are open **August 24 - September 8th for credit**, but I will re-open them after ORD for reference.

Proctorio Practice Exam: This practice exam will have the same settings as all of your proctored exams this semester. Make sure you take this practice exam before attempting your first proctored exam in Unit 1. This is a great way to get accustomed to Proctorio and to ensure you have everything you need functioning well on your computer.

Unit 1: Covers Ch 13-15-Endocrine System, Blood, Cardiovascular System

Open from 8/24/26 at 6:00am --- 9/23/26 at 11:59pm

Proctored Unit 1 Exam opens 9/19 closes 9/23

Unit 1 Tips: I suggest reading each chapter first, taking notes on bold terms, and paying careful attention to tables and charts that condense critical concepts in each chapter. Please watch the "How to Read Your Text" video posted in Blackboard.

*After reading, complete the SB assignment for each assigned chapter. There is also a homework assignment for each chapter. I suggest completing them after the SB. Recall that homework has unlimited attempts and that repetition is a key to learning, so take advantage of the extra attempts. Pay special attention to the **questions in each homework** assignment; **many will repeat** on your Unit Exams.*

The Unit Exams are timed and proctored (Proctorio), and you have one attempt. You cannot use help in any form on these exams. Take your time on the virtual labs and APR Labs, follow the instructions well, and you should have no problems with them.

Unit 2: Covers Ch 16-18 - Lymphatic and Immune System, Digestive System, Nutrition

Open from 8/24/26 at 6:00am --- 10/14/26 at 11:59pm

Proctored Unit 2 Exam opens 10/10 —10/14

Unit 2 Tips: Follow the same tips as you did for Unit 1!

Unit 3: Covers Ch 19--21 Respiratory System, Urinary System, Water & Electrolyte Balance

Open 8/24/26 at 6:00am --- 11/11/26 at 11:59pm

Proctored Unit 3 Exam opens 11/7---11/11

Unit 3 Tips: Follow the same tips as you did for Units 1 & 2!

Unit 4: Covers Ch 22-24 Reproductive System, Pregnancy, Genetics

Open 8/24/26 at 6:00am --- 12/9/26 at 11:59pm

Unit 4 Exam opens 12/5 —12/9

Unit 4 Tips: Follow the same tips as you did for Units 1-3!

Planning and investing your time is key to doing well in this course. If you were taking this course in person, you would be in class 2 to 3 days per week with a 3 hour lab. Keep in mind that this is just class time, not outside study time. Keep that in mind and invest your time well.

Biology 1408.20D0/1408.25D0
Biology for Non-Science Majors I
Fall 2026

Instructor: Gregory Potts

Office: MS 210E

Phone: (903) 782-0332

Email: gpotts@parisjc.edu

Office Hours: MTWTh 8:30AM-10:30AM, 1:30PM to 4:30PM

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction.

Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction

Credits: SCH = 4 (3 Lecture and 1 Lab)

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect - for **Biol 1408/1409 – Mader: Connect Inquiry into Life 17e (2025 Release)**. You will be able to access the textbook and learning materials directly through Blackboard Ultra. If you do not want to participate in the Dragon Now Program and would prefer to procure your required course materials elsewhere, you must opt out. If you'd like to opt out of this program, please follow the steps below **before the college ORD date of Sept. 9th, 2026**.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost. (Do not utilize this option! The Dragon Now program is awesome and provides you with instant access to all of your materials.)

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Distinguish between prokaryotic, eukaryotic, plant and animal cells, and identify major cell structures.
2. Identify stages of the cell cycle, mitosis (plant and animal), and meiosis.
3. Interpret results from cell physiology experiments involving movement across membranes, enzymes, photosynthesis, and cellular respiration.
4. Apply genetic principles to predict the outcome of genetic crosses and statistically analyze results.
5. Describe karyotyping, pedigrees, and biotechnology and provide an example of the uses of each.
6. Identify parts of a DNA molecule, and describe replication, transcription, and translation.
7. Analyze evidence for evolution and natural selection.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem solving to make informed decisions in the laboratory.
3. Communicate effectively the results of scientific investigations.
4. Distinguish between prokaryotic, eukaryotic, plant and animal cells, and identify major cell structures.
5. Identify stages of the cell cycle, mitosis (plant and animal), and meiosis.
6. Interpret results from cell physiology experiments involving movement across membranes, enzymes, photosynthesis, and cellular respiration.

7. Apply genetic principles to predict the outcome of genetic crosses and statistically analyze results.
8. Identify the importance of karyotypes, pedigrees, and biotechnology.
9. Identify parts of a DNA molecule, and describe replication, transcription, and translation.
10. Analyze evidence for evolution and natural selection.

Course Requirements and Evaluation:

Course Format

This is an inquiry-based lecture course with materials and content delivered using McGraw-Hill's Connect. Students will complete 36 online virtual labs in McGraw-Hill Connect. Each chapter comes with a SmartBook exercise. SmartBook assignments are an important study aid and are required for this course. Additionally, there are 12 homework assignments, one for each chapter we will study this semester, that also must be completed in the on-line portion of the class. There are also 12 quiz assignments, 1 for each chapter as well. Each of the homework assignments have specific due dates and can be taken twice with the student able to update and correct their answers. Quizzes can only be done once, have a 45 minute time limit and may or may not be proctored using McGraw-Hill's Proctorio or Blackboard's Respondus.

It is the student's responsibility to keep track of assignments and labs posted in Blackboard and Connect and to complete them within the allotted time frame. It is very important that students complete each assignment before they are due as McGraw-Hill will record a zero for any assignment not completed and submitted properly. Keep track of your work. Make sure that when you complete an assignment to take a picture with your phone and/or record the grade. We do not want to have any students not rewarded for their diligent work.

There will be 4 lecture exams and 1 final exam along with the smartbook assignments, homework, quizzes and the online virtual labs. Lecture exams will include multiple choice, true-false, matching, short answer and essay questions over any materials covered in class or assigned. Any proctored assignments will be done through **Proctorio** for Connect or through **Blackboard**.

Course Policies:

Any announcements will be made through Blackboard and/or through your PJC email address. Always check your school email as that is the email I am required to use.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (10-16-26). Once entered, each student's mid-term grade may be viewed by college personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. Midterm grades do not apply to the summer sessions.

Students are expected to conduct themselves as mature adults. You are expected to exhibit civility and patience and to participate in the class as directed by your instructor. You will show respect for your instructor and the other students in the class. Any student who is disruptive will be asked to leave the class. After a conference with the instructor and the director or division chair, the student may be allowed to return to the classroom. Online students need to display the same etiquette as in person students. While the class dynamics may be different it is important to be socially engaged and civil to everyone.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Grading Criteria

Students will be given the following opportunities to demonstrate knowledge of class material:

Please note that online exams and quizzes will be proctored using Proctorio through Connect or Respondus through Blackboard. You will have to have a web cam and a microphone for this course. Students have had trouble using a Chromebook so use a different computer using Microsoft Edge or Firefox. You can make an appointment with the testing center and use a computer there or you can use one of our great computer labs.

40% Exams - Lecture exams + Final Exam
10% Homework assignments / activities
10% Quizzes
30% Virtual Labs in McGraw-Hill's Connect
10% Smart Book

A: 90-100%
B: 80-89%
C: 70-79%
D: 60-69%
E: 59% and under

Proctored assignments:

All proctored assignments including exams, quizzes and the final are **TIMED and Proctored using McGraw-Hill Proctorio**. Each Exam will consist of similar questions from your chapter homework. It is important to know the information. Please read the chapters and study the material including all diagrams, charts, models, pictures and tables. Once time expires and your exam closes I will not be able to reopen it. See the schedule for the exams' open and close dates. **Plan your attack well**, and never begin an exam late at night on the last day it is due, if you can avoid it! Expect 60-100 questions similar to what you see in the chapter homework and quiz assignments.

Proctorio Exam Proctoring:

- Webcam and audio required for all exams
- Photo ID (Driver's license, passport, college/university ID, or military ID)
- You must download the Proctorio App
- Make sure you allow your webcam to allow Proctorio access to it

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. All of the proctored assignments will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome
<https://proctorio.com/support#settingUp>

Minimum System Requirements
<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

- Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.
- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone use is **strictly prohibited** during the exam!

- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.
- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.

All assignments must be done by the due dates set, so please stay on top of assignments and **avoid procrastination**. I will only reopen assignments if the Connect system has issues or in unavoidable and verifiable cases that I approve of individually, such as an unexpected hospitalization. If you cannot make the due dates, you should drop the class before the final withdrawal date of **November 12th, 2026**. If Connect is working on my end, then the web page is good, so make sure you have an updated computer and a reliable connection to the internet for this course!

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course is online and will require a time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace, but please do not let due dates approach and assume you can finish the work in a day or 2. Your course is divided into four central units, covering three chapters each. You can see when all assignments open and close in MGH Connect, but this syllabus also covers this. In each unit, you will have 3 chapters, read and study each (take notes and pay attention to bold terms), complete the SB and homework assignment with each chapter. Plan out a good schedule for when you want to complete each task before the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Week 1: 8-24	Chapter 1: Biology the Study of Life
Week 2: 8-31	Chapter 2: Molecules of Cells
Week 3: 9-7	Chapter 3: Cell Structure
Week 4: 9-14	Exam 1: Ch. 1, 2, & 3 available 9-14-26 until 9-19-26
Week 4: 9-21	Chapter 4: Membrane & Structure
Week 5: 9-28	Chapter 5: Cell Division
Week 6: 10-5	Chapter 6: Metabolism: Energy & Enzymes
Week 7: 10-12	Exam 2: Ch. 4, 5, & 6 available 10-12 until 10-16
Week 8: 10-19	Chapter 7: Cellular Respiration
Week 9: 10-26	Chapter 8: Photosynthesis
Week 10: 11-2	Chapter 23: Patterns of Gene Inheritance
Week 11: 11-9	Exam 3: Ch. 7, 8, & 23 available 11-2 until 11-6
Week 12: 11-16	Chapter 24: Chromosomal Basis of Inheritance
Week 13: 11-23	Chapter 25: DNA Structure & Gene Expression
Week 14: 11-30	Chapter 26: Biotechnology & Genomics Exam 4: Ch. 24, 25 & 26 available 11-30 until 12-4!
Week 15: 12-7	Final Exam available 12-3 until 12-10!!

Table of Assignments

Homework Assignments/Quizzes/Exams

*****Note*** On all assignments pay close attention to the availability and the due date of each assignment.**

All homework, Labs, Quizzes and Smart Book assignments are available beginning on the first day of class 1-13-25; however, each assignment has a specific due date. Make sure to get the work completed and submitted before the due date elapses. If an assignment is due on 1-18-25 at 10 pm then submission at 11:00 pm means McGraw-Hill will automatically give you a

zero for all work not completed before the cutoff time/date. If you cannot get an assignment done before the cutoff time/date let me know immediately and we can work out something. Do not do an assignment after the due date without discussing the situation with me first. Keep good records of your grades and email me with any discrepancies. Everyone deserves full credit for their work. All proctored exams and quizzes will be done through Proctorio on Connect or through Blackboard Respondus. Due dates are subject to change depending upon class circumstances. Any assignment not attempted will be counted as a zero. Smartbook assignments and Homework assignments comprise a significant portion of the grade so be advised to do these in a timely manner and not procrastinate. +

Course # Biol 1409.20D0
Biology for Non-Science Majors II
Fall 2026

Instructor: Gregory Potts

Office: MS 210E

Phone: 903-782-0332

Email: gpotts@parisjc.edu

Office Hours: MTWTH – 8:30 AM to 10:30 AM, 1:30 PM to 4:30 PM

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Biology 1409 provides a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology.

Credits: SCH = 4 (3 lecture and 1 lab)

Required Course Materials

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect - **Biology 1408/1409 – Mader: Connect Inquiry into Life 2025 Release**. You will be able to access the textbook and learning materials directly through Blackboard Ultra. If you do not want to participate in the Dragon Now Program and would prefer to procure your required course materials elsewhere, you must opt out. If you'd like to opt out of this program, please follow the steps below **before the college ORD date of Sept. 9th, 2026**.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Learning Outcomes

Upon successful completion of this course, students will:

1. Understand the Theory of Evolution, the Evidence of Evolution, the processes of Evolution and how this relates to diversity of bacteria, fungi, protists, plants, and animals.
2. Understand concepts of microbiological life forms.
3. Understand concepts of viruses, viroids and prions and how those affect human beings.
4. Be able to describe and understand protists and fungi.
5. Understand basic concepts concerning plants including evolutionary history, vascular and nonvascular plants as well as seed bearing plants
6. Understand evolutionary trends among animals. Understand basic concepts about both invertebrate and vertebrate animals.

7. Understand concepts of behavioral ecology including nature vs. nurture, environmental influences, communication, and how those affect fitness.
8. Understand concepts pertaining to conservation biology including biodiversity, value of biodiversity, threats to biodiversity, conservation and restoration, and how to build a sustainable society.

ACGM Laboratory Learning Outcomes

Upon successful completion of this course, students will:

1. Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
2. Use critical thinking and scientific problem solving to make informed decisions in the laboratory.
3. Explore and understand concepts relating to Evolution, Natural Selection, Microscopy, the Scientific Method, Ecosystem Sampling, PH and Cells, Homeostasis and DNA Biology and Technology.

Course Requirements and Evaluation:

Course Format

This is an inquiry-based lecture course with materials and content delivered using McGraw-Hill's Connect. Students will complete online virtual labs in McGraw-Hill Connect. Each chapter comes with a SmartBook exercise. SmartBook assignments are an important study aid and are required for this course. Additionally, there are 12 homework assignments, one for each chapter we will study this semester, that also must be completed in the on-line portion of the class. Each of these homework assignments has specific due dates and can be taken twice with the student able to update and correct their answers.

It is the student's responsibility to keep track of assignments and labs posted in Connect and complete them within the allotted time frame. It is very important that students complete each assignment before they are due as McGraw-Hill will record a zero for any assignment not completed and submitted properly. Keep track of all your work. Make sure that when you complete an assignment to take a picture with your phone and/or record the grade. There is space on the syllabus to record every grade and help you keep track of your assignments. We do not want to have any students not rewarded for their diligent work.

There will be 4 unit exams and 1 final exam along with daily work, homework, online virtual labs, critical thinking exercises and quizzes. Lecture exams will include multiple choice, true-false, matching, short answer and essay questions over any materials covered in class or

assigned. Any proctored assignments will be done through **Proctorio** for Connect or through **Blackboard**. For in-class exams the student will be expected to bring scantron 882-E along with a #2 pencil.

Any announcements will be made through Blackboard and/or through your PJC email address. Always check your school email as that is the email I am required to use.

Course Policies:

Students are expected to conduct themselves as mature adults. You are expected to exhibit civility and patience and to participate in the class as directed by your instructor. You will show respect for your instructor and the other students in the class. Any student who is disruptive will be asked to leave the class. After a conference with the instructor and the director or division chair, the student may be allowed to return to the classroom.

I expect every student to come to class prepared to interact with the instructor and the other students by listening, discussing, questioning and taking notes related to the topic. All students will need a notebook and pens or pencils.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (10-16-2026). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Grading Criteria

Students will be given the following opportunities to demonstrate knowledge of class material:

Please note that online exams and quizzes will be proctored using Proctorio through Connect or Respondus through Blackboard. You will have to have a web cam and a microphone for this course. Students have had trouble using a Chromebook so use a different computer using Microsoft Edge or Firefox. You can make an appointment with the testing center and use a computer there or you can use one of our great computer labs.

40% Exams: Lecture exams + Final Exam

25% Homework, quizzes or daily assignments
25% Virtual Labs in McGraw-Hill's Connect
10% Smart Book

A: 90-100%
B: 80-89%
C: 70-79%
D: 60-69%
F: 59% and under

Proctored assignments:

All proctored assignments including exams, quizzes and the final are **TIMED and Proctored using McGraw-Hill Proctorio**. Each Exam will consist of similar questions from your chapter homework. It is important to know the information. Please read the chapters and study the material including all diagrams, charts, models, pictures and tables. Once time expires and your exam closes I will not be able to reopen it. See the schedule for the exams' open and close dates. **Plan your attack well**, and never begin an exam late at night on the last day it is due, if you can avoid it! Expect 60-100 questions similar to what you see in the chapter homework and quiz assignments.

Proctorio Exam Proctoring:

- **Webcam and audio required for all exams**
- **Photo ID (Driver's license, passport, college/university ID, or military ID)**
- **You must download the Proctorio App**
- **Make sure you allow your webcam to allow Proctorio access to it**

Proctorio is a remote proctoring and browser locking program that promotes the academic integrity of exams. All of the proctored assignments will use this program with the settings described below. You **must have a webcam** on your computer to take your exams.

A good overview video for Proctorio has been assigned to you in MGH Connect. Please review the setup and system requirements for Proctorio below, and make sure you have them before taking your first proctored exam

For the best experience, we recommend you use Microsoft Edge or Google Chrome
<https://proctorio.com/support#settingUp>

Minimum System Requirements
<https://proctorio.com/support#minReqs>

<https://proctorio.com/support#faq>

Please review the settings and requirements for your exams below.

Proctorio will:

- Record video and audio from the test-taker's webcam during the exam. The system uses artificial intelligence monitoring to flag suspicious behaviors. The exam footage will be available to the professor after the exam.
- Control whether test takers can access other tabs or programs. Proctorio will block the use of other programs during the exam, other websites, and different monitors.
- Prevent content from entering or leaving the exam. Proctorio will disable the clipboard, disable the right click of your mouse, and disable printing. Proctorio will also record your computer screen during the exam.

Additional Considerations:

- Please focus on your exam and **avoid looking away** from the screen for extended periods.
- **NEVER** exit the exam once you begin. This will show multiple attempts on my end, and you could lose credit on the exam. Proctorio gives feedback to the instructor on your internet connection status during the exam. If you log out and say it was because of a bad connection, but the system showed no evidence of a slow or bad connection, this could be counted as cheating.
- Cell phone use is **strictly prohibited** during the exam!
- Notes/Books of any kind are **not allowed** on the exam.
- Treat all exams as you would an in-person exam that allows **no use of help** in any form during the exam.
- Any McGraw-Hill Connect assignment labeled "Proctored" utilizes the settings above and disallows the use of any extra help of any kind during the exam! Violating any of the requirements above will result in a zero on your exam. Suspicious activity caught by your webcam may also result in a zero if there is evidence of cheating, such as using notes, books, cell phones, etc., during an exam. Therefore, focusing on your exam and putting away all notes, books, and cell phones before beginning the exam is essential.

All assignments must be done by the due dates set, so please stay on top of assignments and **avoid procrastination**. I will only reopen assignments if the Connect system has issues or in unavoidable and verifiable cases that I approve of individually, such as an unexpected hospitalization. If you cannot make the due dates, you should drop the class before the final withdrawal date of **November 12th, 2026**. If Connect is working on my end, then the web page is good, so make sure you have an updated computer and a reliable connection to the internet for this course!

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course is online and will require a time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace, but please do not let due dates approach and assume you can finish the work in a day or 2. Your course is divided into four central units, covering three chapters each. You can see when all assignments open and close in MGH Connect, but this syllabus also covers this. In each unit, you will have 3 chapters, read and study each (take notes and pay attention to bold terms), complete the SB and homework assignment with each chapter. Plan out a good schedule for when you want to complete each task before the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Any changes will be announced through Blackboard Announcements along with an email sent to the students official PJC email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Table of Assignments

Homework Assignments/Quizzes/Exams

*****Note*** On all assignments pay close attention to the availability and the due date of each assignment.**

All homework-k, Labs, Quizzes and Smart Book assignments are available beginning on the first day of class 8-24-26; however, each assignment has a specific due date. Make sure to get the work completed and submitted before the due date elapses. If an assignment is due on 11-11-26 at 10 pm then submission at 11:00 pm means McGraw-Hill will automatically give you a zero for all work not completed before the cutoff time/date. If you cannot get an assignment done before the cutoff time/date let me know immediately and we can work out something. Do not do an assignment after the due date without discussing the situation with me first. Keep good records of your grades and email me with any discrepancies. Everyone deserves full credit for their work. All proctored exams and quizzes will be done through Proctorio on Connect or through Blackboard Respondus. Due dates are subject to change depending upon class circumstances. Any assignment not attempted will be counted as a zero. Quizzes, Smartbook assignments and Homework assignments comprise a significant portion of the grade so be advised to do these in a timely manner and not procrastinate.

BUSG 1301.20E0
Introduction to Business
Fall 2026 – Flex A

Instructor: Wanda Duncan

Office: AS 151

Phone: 903.782.0378

Email: wduncan@parisjc.edu

Office Hours: TBA within BlackBoard/DragonMail

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Fundamental business principles including structure, functions, resources, and operational processes.

3 Credit Hours 3 Lecture Hours 0 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Foundations of Business, 8th edition.

Pride/Hughes/Kapoor

Cengage Learning

Inclusive Access: 9780357717967

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard “Announcements” for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Identified business functions relating to accounting, management, marketing, and economics
2. Described the relationships of social responsibility, ethics, and law
3. Described the scope of global business enterprise

Student Learning Outcomes:

1. Describe the relationships of social responsibility, ethics, and law
2. Describe the scope of global business enterprise and technology

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Day (**August 31**) to avoid being dropped.

This is an **8-week** course that runs from **August 24** to **October 15**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Purchase required materials
- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital

for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There is **NO** Final Exam for this course.

Chapter Assessments: All chapter assessments will be completed through BlackBoard where all assessments are linked to **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the exams. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of your BlackBoard course.

For each assessment you will have **three (3) attempts**. Please read and follow the assessment instructions carefully.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include assignments, case activities, Parts 1 - 5 You Make the Decision, Buy Now Discussion Board Forum, an introductory BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

688 – 764 = A	90 - 100 = A
611 – 687 = B	80 - 89 = B
535 – 610 = C	70 - 79 = C
458 – 534 = D	60 - 69 = D
0 – 457 = F	0 - 59 = F

The assessments are broken-down as follows:

Syllabus Quiz = 1 assessment

IceBreaker Discussion Board Forum = 1 assessment

Assignments = 14 assessments

Case Activities = 14 assessments

Buy Now Discussion Forum = 1 assessment

Part 1 – 5 You Make the Decision = 5 assessments

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are normally posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All chapter assessments will be completed by logging into **BlackBoard**, select a “chapter,” and then select the “assessment” you are wanting to complete. Once you have selected the assessment, the “**MindTap**” window will appear and you can then begin working on the assessment.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student's final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked in BlackBoard.

You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **October 1**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete both assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put "BUSG 1301 Question" or "BUSG 1301 Question About" as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check "Announcements" in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others

will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **August 31**.

Last Day to Drop Classes with a "W" is **October 1**.

Labor Day Holiday is **September 7**.

Final Exam is **October 12 - 15**.

All assignments must be completed by **11:59 p.m., Wednesday, October 14**.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Chapter 1: Exploring the World of Business and Economics Chapter 2: Ethics and Social Responsibility in Business
Week 2:	Chapter 3: Global Business Part 1 You Make the Decision Chapter 4: Choosing a Form of Business Ownership
Week 3:	Chapter 5: Small Business, Entrepreneurship, and Franchises Part 2 You Make the Decision Chapter 6: Understanding the Management Process
Week 4:	Chapter 7: Creating a Flexible Organization Chapter 8: Producing Quality Goods and Services
Week 5:	Part 3 You Make the Decision Chapter 9: Attracting and Retaining the Best Employees Chapter 10: Motivating and Satisfying Employees
Week 6:	Part 4 You Make the Decision Chapter 11: Building Customer Relationships Through Effective Marketing Chapter 12: Creating and Pricing Products that Satisfy Customers
Week 7:	Chapter 13: Distributing and Promoting Products Part 5 You Make the Decision Chapter 14: Exploring Social Media and e-Business
Week 8:	Buy Now Discussion Board Forum

BUSI 1301.20E1
Business Principles
Fall 2026 – Flex A

Instructor: Tasha Whitaker & Wanda Duncan
Office: AC 103
Phone: 903.782.0430
Email: twhitaker@parisjc.edu
Office Hours: TBA within BlackBoard/DragonMail

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Fundamental business principles including structure, functions, resources, and operational processes. The student will identify business functions of accounting, management, marketing, and economics; and describe the relationships of social responsibility, ethics, and law; and describe the scope of global business enterprise.

3 Credit Hours 3 Lecture Hours 0 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Foundations of Business, 8th edition.
Pride/Hughes/Kapoor
Cengage Learning
Inclusive Access: 9780357717967

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard “Announcements” for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Identified business functions relating to accounting, management, marketing, and economics
2. Described the relationships of social responsibility, ethics, and law
3. Described the scope of global business enterprise

Student Learning Outcomes:

1. Evaluated the business functions including structure, functions, resources, and operational processes
2. Demonstrated proficiency using industry application software
3. Applied business concepts, practices, and/or techniques or ethical principles to effectively manage an organization

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Day (**August 31**) to avoid being dropped.

This is an **8-week** course that runs from **August 24** to **October 15**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Purchase required materials
- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There is **NO** Final Exam for this course.

Chapter Assessments: All chapter assessments will be completed through BlackBoard where all assessments are linked to **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the exams. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of your BlackBoard course.

For each assessment you will have **three (3) attempts**. Please read and follow the assessment instructions carefully.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include assignments, case activities, Parts 1 - 5 You Make the Decision, Buy Now Discussion Board Forum, an introductory BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

688 – 764 = A	90 - 100 = A
611 – 687 = B	80 - 89 = B
535 – 610 = C	70 - 79 = C
458 – 534 = D	60 - 69 = D
0 – 457 = F	0 - 59 = F

The assessments are broken-down as follows:

Syllabus Quiz = 1 assessment

IceBreaker Discussion Board Forum = 1 assessment

Assignments = 14 assessments
Case Activities = 14 assessments
Buy Now Discussion Forum = 1 assessment
Part 1 – 5 You Make the Decision = 5 assessments

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are normally posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All chapter assessments will be completed by logging into **BlackBoard**, select a “chapter,” and then select the “assessment” you are wanting to complete. Once you have selected the assessment, the “**MindTap**” window will appear and you can then begin working on the assessment.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the “Course Content” section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should

be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked in BlackBoard.

You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **October 1**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete both assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours

except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put “BUSI 1301 Question” or “BUSI 1301 Question About” as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check “Announcements” in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing “R U” instead of “are you”. There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not

in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **August 31**.

Last Day to Drop Classes with a "W" is **October 1**.

Labor Day Holiday is **September 7**.

Final Exam is **October 12 - 15**.

All assignments must be completed by **11:59 p.m., Wednesday, October 14**.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Chapter 1: Exploring the World of Business and Economics Chapter 2: Ethics and Social Responsibility in Business
Week 2:	Chapter 3: Global Business Part 1 You Make the Decision Chapter 4: Choosing a Form of Business Ownership
Week 3:	Chapter 5: Small Business, Entrepreneurship, and Franchises Part 2 You Make the Decision Chapter 6: Understanding the Management Process
Week 4:	Chapter 7: Creating a Flexible Organization Chapter 8: Producing Quality Goods and Services
Week 5:	Part 3 You Make the Decision Chapter 9: Attracting and Retaining the Best Employees Chapter 10: Motivating and Satisfying Employees
Week 6:	Part 4 You Make the Decision Chapter 11: Building Customer Relationships Through Effective Marketing Chapter 12: Creating and Pricing Products that Satisfy Customers
Week 7:	Chapter 13: Distributing and Promoting Products Part 5 You Make the Decision Chapter 14: Exploring Social Media and e-Business
Week 8:	Buy Now Discussion Board Forum

Instructor: Mario Munguia Jr
Email: mmunguia@parisjc.edu
mario.munguia.art@gmail.com

Meeting Location: Paris, Art Building, 113
Meeting Days: TR
Meeting Times: 5:00 - 8:00 PM

This is a 16 week, regular semester course. Semester starts August 24th, ends December 10th.

Course Description:

Ceramics 1: The class will function as an introductory course to working with clay/ceramic and will include learning about the properties of the material, surveying a history of ceramics predominantly in art, and build foundational skills through multiple artworks/assignments. The hands-on learning environment will allow students to reflect individually and encourage discussion among peers to develop a new way of creative thinking and problem solving. Hard work, dedication, and a constantly fluid yet receptive mind will be expected to produce significant results to satisfy the objectives for this course.

Ceramics 2: Returning students will develop their own independent studio practice and pursue topics and techniques of interest. Advanced students will meet with the instructor to set goals for the semester reflecting student ambitions in relation to learning or pursuing an art degree.

Required Textbook(s) and Materials:

No textbook required

Course Goals and Objectives:

Introduce fundamentals of working with clay:

- o hand building techniques
- o wheel-throwing
- o develop knowledge of firing processes
- o glaze application
- Discuss ceramics as art practice and art theory
- Promote self-motivated studio practice and the development of original ideas
- Generate exposure to working in the ceramic field through lectures, special presentations, possible trips, and workshop participation

Paris Junior College, Associate of Arts (AA) Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. **Communication & Expression** — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. **Critical & Creative Thinking** — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. **Humanities & Cultural Literacy** — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. **Information Literacy** — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. **Personal & Civic Responsibility** — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

IMPORTANT SEMESTER DATES FOR FALL 2026

	REGULAR SEMESTER 08/24/26 - 12/11/26	FIRST 8 WEEK TERM 08/24/26 -10/16/26	SECOND 8 WEEK TERM 10/19/26 - 12/11/26	WINTER MINI-TER M 12/14/26 - 01/06/27
FIRST CLASS DAY	AUG 24	AUG 24	OCT 19	DEC 14
LAST DAY FOR SCHEDULE CHANGES	AUG 27	AUG 25	OCT 20	[na]
ORD	SEPT 09	AUG 31	OCT 26	DEC 15
MID-TERM GRADES DUE	OCT 16	SEPT 18	NOV 13	[na]
LASTDAYTO WITHDRAW "W"	NOV 12	OCT 1	NOV 24	Dec 28
FINAL EXAMS	DEC 7-10	OCT 12-15	DEC 7-10	JAN 4, 2027

Course Requirements and Evaluation:

Your final grade will be broken down with the following:

70%- Project Work- We will begin with assignments as introductory practices and transition to individual and self-driven project work, therefore the final number of works will vary per student. The instructor will notify and actively discuss what constitutes well involved, worthwhile, and developed work that will justify a passing grade. The expectation is at least six considered artworks with glaze before the end of the semester. Consider craftsmanship, concept, and originality. Supplemental assignments on BlackBoard to meet institutional requirements.

30%- Attendance and Participation- your participation will be based on willingness and effort of hard work in and out class, dialogue during presentations and discussions, and attendance

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *November 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Art AI Policy

Academic integrity is a core principle at Paris Junior College and it's vital that all students uphold this principle-- whether using AI-based tools or otherwise. The use of an AI Generator such as ChatGPT, iA Writer, MidJourney, DALL-E, etc. is explicitly prohibited in this class. The information derived from these tools is based on previously published materials. Therefore, using these tools without proper citation constitutes plagiarism. Work created by AI tools may not be considered original work and instead, considered automated plagiarism. It is derived from previously created texts from other sources that the models were trained on, yet doesn't cite sources.

Additionally, be aware that the information derived from these tools is often inaccurate or incomplete. It's imperative that all work submitted should be your own. Any assignment that is found to have been plagiarized or to have used unauthorized AI tools may receive a zero and / or be reported for academic misconduct and result in disciplinary action described for plagiarism in the university's academic honesty policy. Finally, it's your responsibility to be aware of the academic integrity policy and take the necessary steps to follow this policy.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Fall 2026 Schedule

T, 8/25	<i>Studio Introduction</i> , Pinch Pots
R, 8/27	Slab Technique: Glaze Palettes, Cups
T, 9/1	<i>Ceramic Terms</i> , Coil Technique
R, 9/3	Studio
T, 9/8	Wheel Throwing
R, 9/10	Glazing, Wheel Throwing
T, 9/15	Slab Plate or Canvas, surface design
R, 9/17	Slab Plate or Canvas, surface design
T, 9/22	Food and Platter
R, 9/24	Food and Platter
T, 9/29	Relief or Sgraffito
R, 10/1	Relief, Sgraffito
T, 10/6	18 inch Decorative Coil Pot
R, 10/8	18 inch Decorative Coil Pot
T, 10/13	Mid-Term Critique, Studio
R, 10/15	Mid-Term Critique, Studio
T, 10/20	Figurative, Portrait or Animal
R, 10/22	Figurative, Portrait or Animal
T, 10/27	Shoe Assignment
R, 10/29	Shoe Assignment
T, 11/3	<i>Ceramic Artists</i> , Artist Inspired Piece
R, 11/5	<i>Ceramic Artists</i> , Artist Inspired Piece
T, 11/10	Studio

R, 11/12	Studio
T, 11/17	Studio
R, 11/19	Studio
T, 11/24	Studio
R, 11/26	Thanksgiving, NO CLASS
T, 12/1	Studio
R, 12/3	Studio Clean Up, Final Firing
T, 12/8	Potluck and Final Presentations
R, 12/10	NO CLASS

Terms:

3. stoneware
4. earthenware
5. porcelain
6. grog
7. Glaze
8. Greenware
9. Bisque
10. Kiln, gas kiln, electric kiln
11. Kiln brands: Skutt, Paragon, Geil, Blauw
12. Underglazes
13. Sgraffito
14. Mishima
15. Raku
16. Pyrometric cones/ Orton Cones
17. Cone Pack
18. Vitrification
19. Wedging
20. Slip and Score
21. Throwing bat, bat pins
22. Techniques: slab, pinch, coil
23. Common Firing Temps:

Bisque (Cone 03-08), Glaze (Cone 3-10, cone 6 and 10 are the most commonly used)

Course Number: (CETT 1409-10B0)
Course Title (DC-AC Circuits)
Fall 2026 1st 8 Week Subterm

Instructor: Bobby Fields
Office: WTC 1111B
Phone: 903-782-0722
Email: bfields@parisjc.edu
Office Hours: See door schedule

Meeting Location: WTC 1111
Meeting Days: Monday/Wednesday
Meeting Times: 5:00 PM – 9:00 PM

Course Description:

Fundamentals of DC circuits and AC circuits including Ohm's Law, Kirchoff's Laws, networks, transformers, resonance, phasers, capacitive and inductive circuits and circuit analysis techniques.

Required Textbook(s) and Materials:

Online Subscription to learnamator.com required. An electronic code will be provided after registering for class and must be given to instructor prior to gaining access to course material.

Course Goals and Objectives:

The student will gain the knowledge required to apply hands-on skills in the following objectives:

1. Fundamentals of Electricity, Electrical Circuit Components, Manual Input Devices, Output Devices.
2. Voltage Measurement, Introduction to Series and Parallel Circuits, Current Measurement, Resistance measurement.
3. Power in Series Circuits, Power in Parallel Circuits, Circuit Protection Devices.
4. Electromagnetism, Inductance, Capacitance, Characteristics of Capacitance, Inductor and Capacitor Applications.
5. Characteristics of Combination Circuits, Lighting Circuits, Voltage dividers, Troubleshooting Combination Circuits.
6. Introduction to Transformers, Sizing a Transformer, Transformer Types

Course Requirements and Evaluation:

There will be online quizzes and practical Skill Assessments for each Module.

Course grade will be computed as follows:

Grading:

50%: Unit Tests
50%: Labs

Grading Scale:

90 – 100	is an "A"
80 – 89	is a "B"
70 – 79	is a "C"
60 – 69	is a "D"

Course Policies:

Make up labs will not be scheduled for any module(s) that are over 3 weeks past due. Scheduling of make-up labs are the responsibility of the student. Requests for make-up labs will need to include more than one student if there are others that desire make-ups.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st**.

Class Conduct:

Please turn off or silence and put away all cell phones, personal electronics, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any change via Blackboard, student email, etc.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the

community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Please be sure to reference the IT Checklist at the link below:

<https://www.parisjc.edu/technology/pjc-it-checklist.php>

Course Schedule/Weekly Lesson Plan:

The primary method of instruction will be self-paced facilitator model. The instructor will serve as a facilitator for the student’s learning; therefore, enabling the student to move at his/her own pace. Multimedia computer-based learning modules and practical hands-on activities will be incorporated throughout the course. Classroom presentations will be used at the instructor’s discretion. Self-Reviews, Skill Activities, Quiz Assessments, and Skill Assessments will be used to evaluate the student’s competency.

A recommended schedule with weekly targets is as follows. Although this is a self-paced course and all Objectives and online quizzes can be completed at any time, Skill Assessments will not be scheduled for any module(s) that are over 3 weeks past due:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
1. Week of 8/24	Introductions, Handouts, Policies & Procedures Basic Electrical Circuits	Module 1
2. Week of 8/31	Basic Electrical Circuits	Module 1 & Quiz

3. Week of 9/7	Electrical Measurements	Module 2 & Quiz
4. Week of 9/14	Circuit Analysis	Module 3 & Quiz
5. Week of 9/21	Inductance and Capacitance	Module 4 & Quiz
6. Week of 9/28	Combination Circuits	Module 5 & Quiz
7. Week of 10/5	Transformers	Module 6
8. Week of 10/12	Transformers FINALS	Module 6 & Quiz

Course Description:

Fundamentals of DC circuits and AC circuits including Ohm's Law, Kirchoff's Laws, networks, transformers, resonance, phasers, capacitive and inductive circuits and circuit analysis techniques.

Required Textbook(s) and Materials:

Online Subscription to learnamator.com required. An electronic code will be provided after registering for class and must be given to instructor prior to gaining access to course material.

Course Goals and Objectives:

The student will gain the knowledge required to apply hands-on skills in the following objectives:

1. Fundamentals of Electricity, Electrical Circuit Components, Manual Input Devices, Output Devices.
2. Voltage Measurement, Introduction to Series and Parallel Circuits, Current Measurement, Resistance measurement.
3. Power in Series Circuits, Power in Parallel Circuits, Circuit Protection Devices.
4. Electromagnetism, Inductance, Capacitance, Characteristics of Capacitance, Inductor and Capacitor Applications.
5. Characteristics of Combination Circuits, Lighting Circuits, Voltage dividers, Troubleshooting Combination Circuits.
6. Introduction to Transformers, Sizing a Transformer, Transformer Types

Course Requirements and Evaluation:

There will be online quizzes, paper packets, and practical Skill Assessments for each Module, as well as a midterm and final exam.

Course grade will be computed as follows:

Grading:

25%: Online Quizzes

25%: Exams

50%: Participation and Skill Assessments

Grading Scale:

90 – 100 is an "A"

80 – 89 is a "B"

70 – 79 is a "C"

60 – 69 is a "D"

Course Policies:

Make up labs will not be scheduled for any module(s) that are over 1 week past due. Scheduling of make-up labs are the responsibility of the student. Requests for make-up labs will need to include more than one student if there are others that desire make-ups.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st.**

Class Conduct:

No open drinks, cans, bottles, or mugs in the classroom. All drinks must be in a spill proof container. Food will be permitted at the student's desk and not anywhere near mechatronics equipment. – If there is a Lunch break during your course, it is up to the instructor's discretion to change or amend these rules.

Please turn off or silence and put away all cell phones, laptops, tablets, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog &

Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any change via Blackboard, student email, etc.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Please be sure to reference the IT Checklist at the link below:

<https://www.parisjc.edu/technology/pjc-it-checklist.php>

Course Schedule/Weekly Lesson Plan:

The primary method of instruction will be self-paced facilitator model. The instructor will serve as a facilitator for the student’s learning; therefore, enabling the student to move at his/her own pace. Multimedia computer-based learning modules and practical hands-on activities will be incorporated throughout the course. Classroom presentations will be used at the instructor’s discretion. Self-Reviews, Skill Activities, Quiz Assessments, and Skill Assessments will be used to evaluate the student’s competency.

A recommended schedule with weekly targets is as follows. Although this is a self-paced course and all Objectives and online quizzes can be completed at any time, Skill Assessments will not be scheduled for any module(s) that are over 3 weeks past due:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
1. Week of 8/24	Introductions, Handouts, Policies & Procedures Basic Electrical Circuits	Module 1
2. Week of 8/31	Basic Electrical Circuits	Module 1, Quiz & Skill Assessment
3. Week of 9/7	Electrical Measurements	Module 2, Quiz & Skill Assessment
4. Week of 9/14	Circuit Analysis	Module 3, Quiz & Skill Assessment Midterm
5. Week of 9/21	Inductance and Capacitance	Module 4, Quiz & Skill Assessment
6. Week of 9/28	Combination Circuits	Module 5, Quiz & Skill Assessment
7. Week of 10/5	Transformers	Module 6
8. Week of 10/12	Transformers FINALS	Module 6 Quiz & Skill Assessment

NCBI 0004.20E1
Integrated Reading/Writing NCBO (Non Credit Based)
Fall A- 2026

Instructor: Charles Conrad Martin

Office: MS 111M

Phone: Ext. 1485

Email: cmartin@parisjc.edu

Office Hours: M/W: 9:30AM – 12:30PM; T/R: 7:00 AM – 9:00 AM

Meeting Location: Blackboard

Meeting Days: Weekly

Meeting Times: Weekly

Course Description: Support Course Model

Integration of critical reading and academic writing skills. Successful completion of this intervention fulfills TSI requirements for reading and/or writing. Students are placed into the course by test scores. The course may not be used to fulfill degree requirements.

Credits: 3 Credit Hours

TSI Requirement: 339 or below or Essay 3 or below.

Prerequisite: None

Required Textbook(s) and Materials:

None

To ensure that you have all appropriate school and class materials and resources, please refer to PJC's [IT Checklist](#).

Course Goals and Objectives:

1. Locate explicit textual information, draw complex inferences, and describe, analyze, and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.
5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of standard English in reading and writing.

Course Requirements and Evaluation:

This is an online lab-based course where no grades are issued. Course completion is a pass/fail based upon completing the online lab within Blackboard.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course

Course Policies

You are expected to be in class prior to the designated start time. Students are expected to complete course work in an honest manner, using their own intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with their instructor. All essays must be typed following MLA format (12-point font, Times New Roman), and will not be accepted in any other form.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of **"W" is October 1st.**

Class Conduct:

Please silence all mobile devices before entering the classroom/laboratory. No obscene/vulgar language is permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence Policy

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

English AI Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

Your symptoms are getting better overall, and

1. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 8/24/26	Let’s Get Started	<i>*Students who do not complete the first required activity/assignment by the due date are dropped from the course on August 31st</i> Due: Week One Check In
Week 2 8/30/26	Brainstorming	Due: the Power of Brainstorming Before You Write
Week 3 9/6/26	Thesis Statements	Due: Practicing a Thesis
Week 4 9/13/26	Time to Check In! Midterm Grades are submitted on Sept. 18th	Due: Week Four Check In
Week 5 9/20/26	Research	Due: Academic Database & Research Assessment
Week 6 9/27/26	Time to Check In, Again. Last day to withdraw with a “W” is Thursday, October 1st.	Due: Week Six Check In
Week 7 10/4/26		
Week 8 10/11/26	Final Exam Week	

**CHEM 1405.20D0 (Internet)
Introductory Chemistry I
Fall 2026**

Instructor: Mrs. Lisa Shelton

Office: MS 210C

Phone: 903-782-0481

Email: ishelton@parisjc.edu and Blackboard (Preferred method is Blackboard Messages)

Office Hours: MW 8:30-9:30 GC ; T 2:00-3:00 Paris; R 12:15-1:00 Paris

Meeting Location: Internet

Meeting Days: Internet

Meeting Times: Internet

Course Description:

Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for allied health students and for students who are not science majors.

Basic laboratory experiments supporting theoretical principles presented in CHEM 1405; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports. LAST DAY TO DROP with a "W" is **Nov 21, 2026**.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with ALEKS (Bauer: 6th edition McGraw Hill; ISBN 9781266625138) and **Carolina Science** for your lab kit Labs. You will be able to access the textbook and learning materials directly through Blackboard Ultra. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Note that reliable internet is required. A scientific calculator and webcam are mandatory for all proctored exams.

Watch the videos on Blackboard on how to navigate ALEKS and how to get your lab kit (you will get an email from Follett with your voucher code). Below is what your email should say from Follett. After redeeming your voucher code, you will receive a tracking number from Carolina Science in your dragonmail.

Greetings «Customer_Name»,
 TO REDEEM YOUR VOUCHER AND ORDER YOUR LAB KIT
 Follow the steps below to redeem this voucher and request shipment of your materials.

CODE: «Voucher_»

Place your order immediately so materials arrive in time for course work.

1. Go to www.carolina.com/vouchers
2. Enter your shipping information and redemption code from above.
3. Follow the instructions for reviewing your request and verify that the information on the website matches your school and the course for which you are enrolled.
4. Complete and submit the web form

Note:

Vouchers are non-refundable, non-transferable, and may not be exchanged for cash or credit. Redemption is strictly limited to the specific lab kits designated in the original order.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

Required Core Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. **Critical Thinking Skills** - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
2. **Communication Skills** - to include effective development, interpretation and expression of ideas through written, oral and visual communication
3. **Empirical and Quantitative Skills** - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions
4. **Teamwork** - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Physical Science Program-Level)

The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are:

1. To understand and apply method and appropriate technology to the study of chemistry,
2. To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing,
3. To identify and recognize differences among competing scientific theories,
4. To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies,
5. To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.

Student Learning Outcomes (CHEM 1405 Lecture):

Upon successful completion of this course, students will:

1. Understand the different states of matter and the difference among elements, compounds and mixtures and understand SI units and use dimensional analysis to perform calculations correctly with proper attention to units and to express results to the correct number of significant figures.
2. Understand the basic model of the atom including basic nuclear and electronic structure and identify trends in chemical and physical properties of the elements using the Periodic Table

Student Learning Outcomes (CHEM 1405 Lab):

Upon successful completion of this course, students will:

1. Use basic apparatus and apply experimental methodologies used in the chemistry laboratory.
2. Demonstrate safe and proper handling of laboratory equipment and chemicals.
3. Conduct basic laboratory experiments with proper laboratory techniques.
4. Make careful and accurate experimental observations.

3. Determine name and formulas of binary molecular compounds, ionic compounds, and acids. 4. Understand types of chemical bonds and describe the bonding in and the shape of simple molecules and ions. 5. Use the concept of the mole in quantitative chemical calculations and calculate solution concentration units such as molarity. 6. Balance chemical equations and identify basic types of chemical reactions. 7. Understand stoichiometric relationships involved in reactions and identify the limiting reactants. 8. Determine the role of energy in physical changes chemical reactions and solve energy-related problems. 9. Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems 10. Understand the acid/base and pH concept 11. Define nuclear decay processes, write nuclear decay equations, and solve half-life problems. 1.	5. Relate physical observations and measurements to theoretical principles. 6. Interpret laboratory results and experimental data, and reach logical conclusions. 7. Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports. 8. Design fundamental experiments involving principles of chemistry. 9. Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.
---	---

Course Requirements and Evaluation:

Final Grades:

Semester grades will be assigned according to semester averages within the limits of:

100 to 89.5-----A
89.49 to 79.5-----B
79.49 to 69.5-----C
69.49 to 59.5-----D
Below 59.5-----F

Major Grades:

Weighted totals: Official grades are posted in BlackBoard Ultra.

ALEKS Homework and other assignments (20%)
Labs (25%)
(4) Exams (45%)
(1) Final exam (10%)

Homework:

Watch my "Get Started" video over the syllabus and then my "ALEKS: Homework" video. I have linked you to these ALEKS assignments in Blackboard under the **Content**. Click on the link and you will then be directed to ALEKS where you **must register** for the ALEKS software. How to register is described in detail under your **Start Here Folder** in Blackboard. After Registration you will take a brief Tutorial, or introduction to the ALEKS interface. It shows you how to enter the various kinds of answers that you may be asked to provide in ALEKS. The ALEKS homework assignments have multiple attempts. Most questions have unlimited attempts on ALEKS. Make sure to access your online homework through Blackboard so your grade will be automatically imported into Blackboard. Due dates for all homework are in the syllabus and on ALEKS. When registering in ALEKS, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember.

Do the homework **after** reading your chapter, watching lecture videos, and filling in the Chapter notes. Try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You have one for each chapter we cover. Online homework and labs are setup to automatically submit grades at 11:59 PM on the due date.

LATE WORK POLICY: At the start of the semester, every student receives **two (2) "Flex Tokens"**. **What it does:** Allows a 48-hour extension on any homework or lab report (not exams) without penalty and without needing to provide an excuse. **How to use:** Blackboard message me *before* the original deadline stating, "I am using one of my tokens for [Assignment Name]." **Safety Net:** If not used, each token is worth +1% toward your final grade. Assignments submitted after the deadline (or after a token extension) will be accepted for partial credit: **Up to 24 hours late:** 20% penalty. **24–48 hours late:** 50% penalty. **More than 48 hours late:** A grade of zero will be recorded, unless approved for an emergency extension. No late work will be accepted after the final exam.

Labs:

You must show all your work to get credit for pre- and post-lab questions. It is better to work ahead of the schedule to give yourself some extra time at the end and for tests. I only want handwritten responses and work (Don't type your responses because it will take too long for equations). You can scan your work in but only submit it as either a pdf file or jpg or gif or png. I don't have Apple so don't use the .pages extension. Make sure to upload pictures of your lab when asked. You may have a lab partner for all labs. You just have to send me a Blackboard message who your lab partner is.

Tests Proctoring: (YOU MUST HAVE A WEBCAM FOR ALL EXAMS!!!)

Students will take 5 tests and a final exam on blackboard. You will take a Respondus Practice Test over the syllabus so you can learn how Respondus works. Each exam and final exam have a time limit of 120 minutes. Make sure that you have printed out a periodic table for the tests. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!** You are required to show your ID for each test. **Work on one question at a time and do not view test questions out of order in case you lose Wifi connection. If I have to reopen a test, I will have you start where you left off only for the questions you have not previously viewed. I can see what questions have been viewed. Blackboard uses Respondus LockDown Browser + Webcam Requirement.** LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted. **It is the student's responsibility to let me know if you have accommodations.** The final exam is the only test that is not opened ahead of time. **I can see what questions have been viewed and see your computer screen. This uses Respondus Lockdown browser – must have a webcam and ID. I review all videos and I must be able to see the surface of your table at all times so I don't want to see just the top of your head. You must have the front view webcam, side view second camera view, and no cell phone otherwise the test will be a zero.** The software also does a screen recording. It is the student's responsibility to let me know if you have accommodations

Guidelines

When taking an online exam, follow these guidelines:

- Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.
- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam
- To produce a good webcam video, do the following:
 - o Avoid wearing baseball caps or hats with brims
 - o Ensure your computer or device is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or other surface where the device (or you) are likely to move
 - o If using a built-in webcam, avoid readjusting the tilt of the screen after the webcam setup is complete
 - o Take the exam in a well-lit room, but avoid backlighting (such as sitting with your back to a window)
- **Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted**

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is

preventable.
This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedules:

Chapter 1: Matter and Energy

Chapter 3: Chemical Compounds

Chapter 4: Chemical Composition

Chapter 6: Quantities in Chemical Reactions

Chapter 9: The Gaseous State

Chapter 2: Atoms, Ions, and the Periodic Table

Chapter 8: Chemical Bonding

Chapter 5: Chemical Reactions and Equations

Chapter 7: Electron Structure in the Atom

Chapter 13: Acid and Bases

Chapter 15: Nuclear Chemistry

Week	Chapter	Labs and Assignments
1	Chapter 1	Safety Lab Quiz and Lab Safety Contract on Blackboard (Due 8/30) Chapter 1 Homework (Due 8/30) First Assignment on Blackboard (Due 8/31)
2	Chapter 2	Chapter 2 Homework (Due 9/6) Respondus Lockdown Browser Practice Test over Syllabus (Due 9/6)
3	Labs and Test #1	Measurement and Uncertainty Lab:(Due 9/13) Periodic Table Lab: (Due 9/13) Test #1 (Chapters 1 and 2) (Due 9/13)
4	Chapter 3	Chapter 3 Homework (Due 9/20)
5	Chapter 8	Chapter 8 Homework (Due 9/27)
6	Labs and Test #2	Nomenclature and Household Products (Due: 10/4) Molecular Geometry Lab: (Due 10/4) Test #2 (Chapters 3 and 8) (Due 10/4)
7	Chapter 4	Chapter 4 Homework (Due 10/11)
8	Chapter 5	Chapter 5 Homework (Due 10/18)
9	Test #3 and Labs	Mole Conversion/Empirical Formula/Dilutions Lab (Due 10/25) Investigating Types of Chemical Reactions Lab: Due 10/25) Test #3 (Chapters 4 and 5) (Due 10/25)

10	Chapter 6	Chapter 6 Homework (Due 11/1)
11	Chapter 7	Chapter 7 Homework (Due 11/8)
12	Test #4 and Labs	Single Replacement Reaction Stoichiometry Lab (Due 11/ 15) Fundamentals of Calorimetry/ Specific Heat Lab: (Due 11/ 15) Atomic Emission and Flame Test Lab (Due 11/15) Test #4 (Chapter 6 and 7) (Due 11/15)
13	Chapter 9	Chapter 9 Homework (Due 11/22) Engineering a Better Airbag Lab (Due 11/22)
14	Chapter 13	Chapter 13 Homework (Due 11/29) Acid Base Lab on ALEKS: (Due 11/29)
15	Chapter 15 Test #5	Chapter 15 Homework (Due 12/6) Half-Life and Identifying Unknown Radiation Lab (Due 12/6) Test #5 Chapter 10 and 15 (Due 12/6)
16	Final Exams	Final Exam (Due 12/9) by 11:59 PM and opens on 12/1

Chem 1411.10A0
General Chemistry
Fall Full Term (16 weeks) 2026

Instructor: Mrs. Lisa Shelton
Office: MS 210C
Phone: 903-782-0481
Email: ls Shelton@parisjc.edu and Blackboard email (Preferred method of contact is Blackboard Email/Messages)
Office Hours: MW 8:30-9:30 GC ;T 2:00-3:00 Paris; R 12:15-1:00

Meeting Location: MS 201 and MS 203
Meeting Days: Lecture: TR (Tues & Thurs); Lab: TR
Meeting Times: Lecture-9:30-10:45; Lab 11-12:15

Course Description:

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry.

Basic laboratory experiments supporting theoretical principles presented in CHEM 1411; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Pre-requisite: High School Algebra 1 & 2, College Algebra, or consent of instructor, or counselor.

Co-requisite: None

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with **ALEKS (Mcgraw Hill) for homework (ISBN: 9781266625138)**. You will be able to access the textbook -Openstax: General Chemistry free textbook by Rice University, ALEKS homework software, and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Note that reliable internet is required. A scientific calculator, webcam, and composition book are mandatory.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

<u>Required Core Objectives:</u> Student Learning Outcomes (Core Curriculum-Level) Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	<u>Student Learning Outcomes (Physical Science Program-Level)</u> The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are: - To understand and apply method and appropriate technology to the study of chemistry, - To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing, - To identify and recognize differences among competing scientific theories, - To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies, - To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.
---	--

<u>Student Learning Outcomes (CHEM 1411 Lecture):</u> Upon successful completion of this course, students will: - Define the fundamental properties of matter. - Classify matter, compounds, and chemical reactions. - Determine the basic nuclear and electronic structure of atoms. - Identify trends in chemical and physical properties of the elements using the Periodic Table. - Describe the bonding in and the shape of simple molecules and ions. - Solve stoichiometric problems. - Write chemical formulas. - Write and balance equations. - Use the rules of nomenclature to name chemical compounds. - Define the types and characteristics of chemical reactions. - Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems. - Determine the role of energy in physical changes and chemical reactions. - Convert units of measure and demonstrate dimensional analysis skills.	<u>Student Learning Outcomes (CHEM 1411 Lab):</u> Upon successful completion of this course, students will: - Use basic apparatus and apply experimental methodologies used in the chemistry laboratory. - Demonstrate safe and proper handling of laboratory equipment and chemicals. - Conduct basic laboratory experiments with proper laboratory techniques. - Make careful and accurate experimental observations. - Relate physical observations and measurements to theoretical principles. - Interpret laboratory results, experimental data, and reach logical conclusions. - Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports. - Design fundamental experiments involving principles of chemistry. - Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.
---	--

Course Requirements and Evaluation:

Grading scale: 100-90 = A 80-89 = B 79-70 = C 69-60 = D <59 = F

Weighted totals:

ALEKS Online Homework	15%
Lab Assignments	25%
Test 1, 2, 3, and 4	20%
Midterm Exam	20%
Final Exam	20%

Homework:

Watch my "Get Started" video over the syllabus and then my "ALEKS: Homework" video. I have linked you to these ALEKS assignments in Blackboard under the **Content**. Click on the link and you will then be directed to ALEKS where you **must register** for the ALEKS software. How to register is described in detail under your **Start Here Folder** in Blackboard. After Registration you will take a brief Tutorial, or introduction to the ALEKS interface. It shows you how to enter the various kinds of answers that you may be asked to provide in ALEKS. The ALEKS homework assignments have multiple attempts. Most questions have unlimited attempts on ALEKS. Make sure to access your online homework through Blackboard so your grade will be automatically imported into Blackboard. Due dates for all homework are in the syllabus and on ALEKS. When registering in ALEKS, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember.

Do the homework **after** reading your chapter, watching lecture videos, and filling in the Chapter notes. Try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You have one for each chapter we cover. Online homework and labs are setup to automatically submit grades at 11:59 PM on the due date. **LATE WORK POLICY:** At the start of the semester, every student receives **two (2) "Flex Tokens"**. **What it does:** Allows a 48-hour extension on any homework or lab report (not exams) without penalty and without needing to provide an excuse. **How to use:** Blackboard message me *before* the original deadline stating, "I am using one of my tokens for [Assignment Name]." **Safety Net:** If not used, each token is worth +1% toward your final grade. Assignments submitted after the deadline (or after a token extension) will be accepted for partial credit: **Up to 24 hours late:** 20% penalty. **24–48 hours late:** 50% penalty. **More than 48 hours late:** A grade of zero will be recorded, unless approved for an emergency extension. No late work will be accepted after the final exam.

Lab Assignments and Policies:

The lab average will be a simple average of all lab grades. Safety goggles are provided but you can bring your own safety goggles for labs which can be purchased at Home Depot or Lowe's. Other labs may be substituted at the instructor's discretion. **You are allowed to makeup one lab only** unless approved for an emergency extension. If you do not participate in the lab with your group, you will be removed from the group. Must show work on all labs and post-lab questions in order to get credit and all answers must be handwritten. Students must have these in their lab notebook before they are allowed to begin a lab: title, purpose, materials, and procedure.

Tests:

Students will take 4 tests on blackboard. Each exam has a time limit of 120 minutes. Make sure that you have printed out a periodic table for the tests. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!** **Work on one question at a time and do not view test questions out of order in case you lose Wifi connection. If I have to reopen a test, I will have you start where you left off only for the questions you have not previously viewed.** I can see what questions have been viewed and see your computer screen. This uses Respondus Lockdown browser – must have a webcam and ID. I review all videos and I must be able to see the surface of your table at all times so I don't want to see just the top of your head. It is the student's responsibility to let me know if you have accommodations.

Guidelines

When taking an online exam, follow these guidelines: Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.

- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam
- To produce a good webcam video, do the following:
 - o Avoid wearing baseball caps or hats with brims
 - o Ensure your computer or device is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or other surface where the device (or you) are likely to move
 - o If using a built-in webcam, avoid readjusting the tilt of the screen after the webcam setup is complete
 - o Take the exam in a well-lit room, but avoid backlighting (such as sitting with your back to a window)
- Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted

Midterm and Final Exam:

Students will take one Midterm and one Final proctored exam in the classroom (paper test). The Midterm Exam covers Chapter 1-4 and the Final Exam covers Chapter 5-9. I will give you a test review for each of these tests. Each exam has a time limit of 90 minutes. I will allow one sheet of notebook paper (both sides) for formulas and things that will help you on the test. I will give you a periodic table for each test. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!**

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. preventable.

Course Schedules:

Week	Lab Session - Tuesday	Lab Session - Thursday
1	Intro to Lab, Safety, Lab Reports, Lab Quiz/Lab Contract	Measurement Lab
2	Separating Mixture Lab	Measurement and Separating Mixture Lab
3	Periodic Table Lab – not in lab notebook	Nomenclature of Household Items Lab– not in lab notebook
4	Mole Conversion Lab	Percent Composition Lab
5	Empirical Formula Lab	Solutions/Molarity/Dilution Lab
6	Copper Toxic Lab	Precipitation and Redox Lab
7	Stoichiometry Fireworks – not in lab notebook	Stoichiometry/Percent Yield Lab
8	Titration of Aspirin Lab	Chapter 4 Post-labs
9	Specific Heat Lab	Hess's Law Lab
10	Flame Test and Electron Configuration Lab	Flame Test and Electron Configuration Lab Cont
11	Molecular Geometry Lab	Molecular Geometry Lab Cont
12	Boyle's Law and Gay Lussac's Law Lab Determining the Molar Volume of a Gas Lab	Determining the Universal Gas Constant Lab
13	Holiday/ Spectrophotometry – Apply Beer's Law to Determine Concentration of Dye Virtual Lab -- not in lab notebook	
14		
15	Final Exam Review	Final Exam Review

***Labs are subject to change per instructor decision.**

Assignments and Test Due Dates

1. Lab Quiz/Lab Contract (Due 8/30)
2. Respondus Practice Test over your Syllabus under Start Here (Due 8/30)
3. First Assignment (Due 8/31)
4. Chapter 1 Homework (Due 9/6)
5. Chapter 2 Homework (Due 9/20)
6. **Test #1: Chapter 1-2 (Due 9/25) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
7. Chapter 3 Homework (Due 9/27)
8. Chapter 4 Homework:(Due 10/11)
9. **Test #2: Chapter 3-4 (Due 10/16) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
10. **Midterm Exam over Chapter 1, 2, 3, and 4 in classroom (10/22)**
11. Chapter 5 Homework (Due 10/25)
12. Chapter 6 Homework (Due 11/1)
13. **Test #3: Chapter 5-6 (Due 11/6) Blackboard Respondus Monitoring (webcam) (online test) (timed test)**
14. Chapter 7 Homework (Due 11/15)
15. Chapter 8 Homework (Due 11/22)
16. Chapter 9 Homework (Due 11/29)
17. **Test #4: Chapter 7-9 (Due 11/29) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
18. **Final Exam over Chapter 5, 6, 7, 8, and 9 in classroom (12/10 at 9:30 AM)**

Chem 1411.20D0 (Internet)
General Chemistry
Fall 2026

Instructor: Mrs. Lisa Shelton

Office: MS 210C

Phone: 903-782-0481

Email: ls Shelton@parisjc.edu and Blackboard email (Preferred method of contact is Blackboard Email/Messages)

Office Hours: MW 8:30-9:30 GC ;T 2:00-3:00 Paris; R 12:15-1:00

Meeting Location: Internet

Meeting Days: Internet

Meeting Times: Internet

Course Description:

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry.

Basic laboratory experiments supporting theoretical principles presented in CHEM 1411; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Pre-requisite: High School Algebra 1 & 2, College Algebra, or consent of instructor, or counselor.

Co-requisite: None

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with ALEKS (Mcgraw Hill) **for homework (ISBN: 9781266625138)** and **Carolina Science** for your lab kit Labs. Students are provided with access codes or voucher codes via their dragonmail provided to us on the SIS data. Students can then redeem the voucher codes to receive their lab kits and determine where they would like them shipped.

You will be able to access the textbook (Openstax), ALEKS homework, Carolina Science Labs, and learning materials directly through Blackboard Ultra. **Openstax Essentials General Chemistry is the textbook that we are using and ALEKS is the homework software**

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Note that reliable internet is required. A scientific calculator and webcam are mandatory.

Watch the videos on Blackboard on how to navigate ALEKS and how to get your lab kit (you will get an email from Follett with your voucher code). Below is what your email should say from Follett. You will receive a tracking number in your dragonmail after you redeem your code.

Greetings «Customer_Name»,

TO REDEEM YOUR VOUCHER AND ORDER YOUR LAB KIT

Follow the steps below to redeem this voucher and request shipment of your materials.

CODE: «Voucher_»

Place your order immediately so materials arrive in time for course work.

1. Go to www.carolina.com/vouchers
2. Enter your shipping information and redemption code from above.
3. Follow the instructions for reviewing your request and verify that the information on the website matches your school and the course for which you are enrolled.
4. Complete and submit the web form

Note:

Vouchers are non-refundable, non-transferable, and may not be exchanged for cash or credit. Redemption is strictly limited to the specific lab kits designated in the original order.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

<u>Required Core Objectives:</u> Student Learning Outcomes (Core Curriculum-Level)	<u>Student Learning Outcomes (Physical Science Program-Level)</u> The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are:
1. Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information 2. Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication 3. Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions 4. Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	1. To understand and apply method and appropriate technology to the study of chemistry, 2. To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing, 3. To identify and recognize differences among competing scientific theories, 4. To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies, 5. To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.

Student Learning Outcomes (CHEM 1411 Lecture):

Upon successful completion of this course, students will:

1. Define the fundamental properties of matter.
2. Classify matter, compounds, and chemical reactions.
3. Determine the basic nuclear and electronic structure of atoms.
4. Identify trends in chemical and physical properties of the elements using the Periodic Table.
5. Describe the bonding in and the shape of simple molecules and ions.
6. Solve stoichiometric problems.
7. Write chemical formulas.
8. Write and balance equations.
9. Use the rules of nomenclature to name chemical compounds.
10. Define the types and characteristics of chemical reactions.
11. Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems.
12. Determine the role of energy in physical changes and chemical reactions.
13. Convert units of measure and demonstrate dimensional analysis skills.

Student Learning Outcomes (CHEM 1411 Lab):

Upon successful completion of this course, students will:

1. Use basic apparatus and apply experimental methodologies used in the chemistry laboratory.
2. Demonstrate safe and proper handling of laboratory equipment and chemicals.
3. Conduct basic laboratory experiments with proper laboratory techniques.
4. Make careful and accurate experimental observations.
5. Relate physical observations and measurements to theoretical principles.
6. Interpret laboratory results, experimental data, and reach logical conclusions.
7. Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports.
8. Design fundamental experiments involving principles of chemistry.
9. Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.

Course Requirements and Evaluation:

Grading scale: 100-90 = A 80-89 = B 79-70 = C 69-60 = D <59 = F

Weighted totals:

ALEKS Online Homework	15%
Lab Assignments	25%
Test 1, 2, 3, and 4	20% (5% each)(on Blackboard)
Midterm Exam	20% (at Testing Center)
Final Exam	20% (at Testing Center)

Homework:

Watch my "Get Started" video over the syllabus and then my "ALEKS: Homework" video. I have linked you to these ALEKS assignments in Blackboard under the **Content**. Click on the link and you will then be directed to ALEKS where you **must register** for the ALEKS software. How to register is described in detail under your **Start Here Folder** in Blackboard. After Registration you will take a brief Tutorial, or introduction to the ALEKS interface. It shows you how to enter the various kinds of answers that you may be asked to provide in ALEKS. The ALEKS homework assignments have multiple attempts. Most questions have unlimited attempts on ALEKS. Make sure to access your online homework through Blackboard so your grade will be automatically imported into Blackboard. Due dates for all homework are in the syllabus and on ALEKS. When registering in ALEKS, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember.

Do the homework **after** reading your chapter, watching lecture videos, and filling in the Chapter notes. Try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You have one for each chapter we cover. Online homework and labs are setup to automatically submit grades at 11:59 PM on the due date. **LATE WORK POLICY:** At the start of the semester, every student receives **two (2) "Flex Tokens"**. **What it does:** Allows a 48-hour extension on any homework or lab report (not exams) without penalty and without needing to provide an excuse. **How to use:** Blackboard message me *before* the original deadline stating, "I am using one of my tokens for [Assignment Name]." **Safety Net:** If not used, each token is worth +1% toward your final grade. Assignments submitted after the deadline (or after a token extension) will be accepted for partial credit: **Up to 24 hours late:** 20% penalty. **24–48 hours late:** 50% penalty. **More than 48 hours late:** A grade of zero will be recorded, unless approved for an emergency extension. No late work will be accepted after the final exam.

Lab Assignments and Policies:

The lab average will be a simple average of all lab grades. Must show work on all labs and post-lab questions in order to get credit. It is better to work ahead of the schedule to give yourself some extra time at the end and for tests. I only want handwritten responses and work (Don't type your responses because it will take too long for equations). You can scan your work in but only submit it as either a pdf file or jpg or gif or png. I don't have Apple so don't use the .pages extension. Make sure to upload pictures of your lab when asked. Check feedback on labs when grades and check to see if I need you to resubmit a lab. You may have a lab partner for all labs. You just have to send me a Blackboard message who your lab partner is.

Tests:

Students will take 4 tests on blackboard. Each exam has a time limit of 120 minutes. Make sure that you have printed out a periodic table for the tests. **You may NOT use your textbook on the test, but you may use any kind of calculator *other than a cell phone calculator*!** **Work on one question at a time and do not view test questions out of order in case you lose Wifi connection. If I have to reopen a test, I will have you start where you left off only for the questions you have not previously viewed.** I can see what questions have been viewed and see your computer screen. This uses Respondus Lockdown browser – must have a webcam and ID. I review all videos and I must be able to see the surface of your table at all times so I don't want to see just the top of your head. **You must have the front view webcam, side view second camera view, and no cell phone otherwise the test will be a zero.** The software also does a screen recording. **It is the student's responsibility to let me know if you have accommodations**

Guidelines

When taking an online exam, follow these guidelines:

- Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.
- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam
- To produce a good webcam video, do the following:
 - Avoid wearing baseball caps or hats with brims
 - Ensure your computer or device is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or other surface where the device (or you) are likely to move
 - If using a built-in webcam, avoid readjusting the tilt of the screen after the webcam setup is complete
 - Take the exam in a well-lit room, but avoid backlighting (such as sitting with your back to a window)
- **Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted**

Midterm and Final Exam:

Students will take one Midterm and one Final proctored exam (paper test) at one of the testing centers offered by Paris Junior College or a local testing center close to you. **Email me the information for the testing center if you are using a testing center other than PJC at least one week before the midterm and final exam. Make sure to let the testing center know at least a week in advance to schedule a time (they run out of seats) and make sure they know you get accommodations if you have them. Testing centers other than PJC may charge a testing fee and is usually \$25-\$40 depending on the testing center.** The Midterm Exam covers Chapter 1-4 and the Final Exam covers Chapter 5-9. I will give you a test review for each of these tests. Each exam has a time limit of 90 minutes. I will allow one sheet of notebook paper (both sides) for formulas and things that will help you on the test. I will give you a periodic table for each test. **You may NOT use your textbook on the test, but you may use any kind of calculator *other than a cell phone calculator*!**

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedules:

Lectures and Labs
Chapter 1: Essential Ideas
Chapter 2: Atoms, Molecules, and Ions
Chapter 3: Composition of Substances and Solutions
Chapter 4: Stoichiometry of Chemical Reactions
Chapter 5: Thermochemistry
<u>Midterm Exam</u>
Chapter 6: Electronic Structure and Periodic Properties of Elements
Chapter 7: Chemical Bonding and Molecular Geometry
Chapter 8: Advanced Theories of Covalent Bonding
Chapter 9: Gases
Scientific Inquiry
<u>Final Exam</u>

Homework, Labs, and Test Due Dates

1. Syllabus Agreement form (Due 8/30)
2. Respondus Practice Test over Syllabus (assignment grade for this) (8/30)
3. Labs: Lab Safety Quiz and Lab Safety Contract (Due 8/30)
4. Chapter 1 Homework (Due 8/30)
5. First Assignment (Due 8/31)
6. Chapter 2 Homework (Due 9/6)
7. Chapter 1 and 2 Labs – Measurement/Separation of Mixture Lab and Periodic Table Lab and Nomenclature of Household Items Lab (Due 9/12)
8. Test #1: Chapter 1-2 (Due 9/13) Blackboard Respondus Monitoring (webcam) (online test)(timed test)
9. Chapter 3 Homework (Due 9/20)
10. Chapter 4 Homework (Due 9/27)
11. Chapter 3 and 4 Labs - Mole Conversion/Empirical Formula/Solution -Dilution Lab, Investigating Types of Chemical Reactions Lab, Single Replacement Reaction Stoichiometry Lab, and Titration Lab (Due 10/3)
12. Test #2: Chapter 3-4 (Due 10/4) Blackboard Respondus Monitoring (webcam) (online test)(timed test)
13. Midterm Exam (must be taken at a testing center: over Chapter 1, 2, 3, and 4) (Due 10/9)
14. Chapter 5 Homework (Due 10/18)
15. Chapter 6 Homework (Due 10/25)
16. Chapter 5 and 6 Labs - Specific Heat Lab, Enthalpy of Formation Using Hess's Law Lab, and Atomic Emission and Flame Test Lab (Due 10/31)
17. Test #3: Chapter 5-6 (Due 11/1) Blackboard Respondus Monitoring (webcam) (online test) (timed test)
18. Chapter 7 Homework (Due 11/8)
19. Chapter 8 Homework (Due 11/15)
20. Chapter 9 Homework (Due 11/22)
21. Chapter 7/8 and 9 Labs - Molecular Models Virtual Lab, Lewis Dot Structures and Molecular Geometry Lab , and Gas Law - Ideal Gas Law Constant Lab (Due 11/28)
22. Test #4: Chapter 7-9 (Due 11/29) Blackboard Respondus Monitoring (webcam) (online test)(timed test)
23. Final Exam over Chapter 5, 6, 7, 8, and 9 (Due 12/9) at testing center

Chem 1411.40AO
General Chemistry
Fall Full Term (16 weeks) 2026

Instructor: Mrs. Lisa Shelton

Office: MS 210C

Phone: 903-782-0481

Email: lselton@parisjc.edu and Blackboard email (Preferred method of contact is Blackboard Email/Messages)

Office Hours: MW 8:30-9:30 GC ;T 2:00-3:00 Paris; R 12:15-1:00

Meeting Location: MS 219 and MS 214

Meeting Days: Lecture: MW; Lab: MW

Meeting Times: Lecture-9:30-10:45; Lab 11-12:15

Course Description:

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry.

Basic laboratory experiments supporting theoretical principles presented in CHEM 1411; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Pre-requisite: High School Algebra 1 & 2, College Algebra, or consent of instructor, or counselor.

Co-requisite: None

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with **ALEKS (Mcgraw Hill) for homework (ISBN: 9781266625138)**. You will be able to access the textbook -Openstax: General Chemistry free textbook by Rice University, ALEKS homework software, and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Note that reliable internet is required. A scientific calculator, webcam, and composition book are mandatory.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

Required Core Objectives: Student Learning Outcomes (Core Curriculum-Level) Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	Student Learning Outcomes (Physical Science Program-Level) The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are: - To understand and apply method and appropriate technology to the study of chemistry, - To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing, - To identify and recognize differences among competing scientific theories, - To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies, - To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.
---	--

Student Learning Outcomes (CHEM 1411 Lecture): Upon successful completion of this course, students will: - Define the fundamental properties of matter. - Classify matter, compounds, and chemical reactions. - Determine the basic nuclear and electronic structure of atoms. - Identify trends in chemical and physical properties of the elements using the Periodic Table. - Describe the bonding in and the shape of simple molecules and ions. - Solve stoichiometric problems. - Write chemical formulas. - Write and balance equations. - Use the rules of nomenclature to name chemical compounds. - Define the types and characteristics of chemical reactions. - Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems. - Determine the role of energy in physical changes and chemical reactions. - Convert units of measure and demonstrate dimensional analysis skills.	Student Learning Outcomes (CHEM 1411 Lab): Upon successful completion of this course, students will: - Use basic apparatus and apply experimental methodologies used in the chemistry laboratory. - Demonstrate safe and proper handling of laboratory equipment and chemicals. - Conduct basic laboratory experiments with proper laboratory techniques. - Make careful and accurate experimental observations. - Relate physical observations and measurements to theoretical principles. - Interpret laboratory results, experimental data, and reach logical conclusions. - Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports. - Design fundamental experiments involving principles of chemistry. - Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.
---	--

Course Requirements and Evaluation:

Grading scale: 100-90 = A 80-89 = B 79-70 = C 69-60 = D <59 = F

Weighted totals:

ALEKS Online Homework	15%
Lab Assignments	25%
Test 1, 2, 3, and 4	20%
Midterm Exam	20%
Final Exam	20%

Homework:

Watch my "Get Started" video over the syllabus and then my "ALEKS: Homework" video. I have linked you to these ALEKS assignments in Blackboard under the **Content**. Click on the link and you will then be directed to ALEKS where you **must register** for the ALEKS software. How to register is described in detail under your **Start Here Folder** in Blackboard. After Registration you will take a brief Tutorial, or introduction to the ALEKS interface. It shows you how to enter the various kinds of answers that you may be asked to provide in ALEKS. The ALEKS homework assignments have multiple attempts. Most questions have unlimited attempts on ALEKS. Make sure to access your online homework through Blackboard so your grade will be automatically imported into Blackboard. Due dates for all homework are in the syllabus and on ALEKS. When registering in ALEKS, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember.

Do the homework **after** reading your chapter, watching lecture videos, and filling in the Chapter notes. Try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You have one for each chapter we cover. Online homework and labs are setup to automatically submit grades at 11:59 PM on the due date. **LATE WORK POLICY:** At the start of the semester, every student receives **two (2) "Flex Tokens"**. **What it does:** Allows a 48-hour extension on any homework or lab report (not exams) without penalty and without needing to provide an excuse. **How to use:** Blackboard message me *before* the original deadline stating, "I am using one of my tokens for [Assignment Name]." **Safety Net:** If not used, each token is worth +1% toward your final grade. Assignments submitted after the deadline (or after a token extension) will be accepted for partial credit: **Up to 24 hours late:** 20% penalty. **24–48 hours late:** 50% penalty. **More than 48 hours late:** A grade of zero will be recorded, unless approved for an emergency extension. No late work will be accepted after the final exam.

Lab Assignments and Policies:

The lab average will be a simple average of all lab grades. Safety goggles are provided but you can bring your own safety goggles for labs which can be purchased at Home Depot or Lowe's. Other labs may be substituted at the instructor's discretion. **You are allowed to makeup one lab only** unless approved for an emergency extension. If you do not participate in the lab with your group, you will be removed from the group. Must show work on all labs and post-lab questions in order to get credit and all answers must be handwritten. Students must have these in their lab notebook before they are allowed to begin a lab: title, purpose, materials, and procedure.

Tests:

Students will take 4 tests on blackboard. Each exam has a time limit of 120 minutes. Make sure that you have printed out a periodic table for the tests. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!** **Work on one question at a time and do not view test questions out of order in case you lose Wifi connection. If I have to reopen a test, I will have you start where you left off only for the questions you have not previously viewed.** I can see what questions have been viewed and see your computer screen. This uses Respondus Lockdown browser – must have a webcam and ID. I review all videos and I must be able to see the surface of your table at all times so I don't want to see just the top of your head. It is the student's responsibility to let me know if you have accommodations.

Guidelines

When taking an online exam, follow these guidelines: Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.

- Turn off all other devices (e.g. tablets, phones, second computers) and place them outside of your reach
- Before starting the test, know how much time is available for it, and also that you've allotted sufficient time to complete it
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices
- Remain at your computer for the duration of the test
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam
- To produce a good webcam video, do the following:
 - o Avoid wearing baseball caps or hats with brims
 - o Ensure your computer or device is on a firm surface (a desk or table). Do NOT have the computer on your lap, a bed, or other surface where the device (or you) are likely to move
 - o If using a built-in webcam, avoid readjusting the tilt of the screen after the webcam setup is complete
 - o Take the exam in a well-lit room, but avoid backlighting (such as sitting with your back to a window)
- Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted

Midterm and Final Exam:

Students will take one Midterm and one Final proctored exam in the classroom (paper test). The Midterm Exam covers Chapter 1-4 and the Final Exam covers Chapter 5-9. I will give you a test review for each of these tests. Each exam has a time limit of 90 minutes. I will allow one sheet of notebook paper (both sides) for formulas and things that will help you on the test. I will give you a periodic table for each test. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!**

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term,

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

preventable.

Course Schedules:

Week	Lab Session - Monday	Lab Session - Wednesday
1	Intro to Lab, Safety, Lab Reports, Lab Quiz/Lab Contract	Measurement Lab
2	Separating Mixture Lab	Periodic Table Lab – not in lab notebook
3	Holiday	Nomenclature of Household Items Lab– not in lab notebook
4	Mole Conversion Lab	Percent Composition Lab
5	Empirical Formula Lab	Solutions/Molarity/Dilution Lab
6	Copper Toxic Lab	Precipitation and Redox Lab
7	Stoichiometry Fireworks – not in lab notebook	Stoichiometry/Percent Yield Lab
8	Titration of Aspirin Lab	Chapter 4 Post-labs
9	Specific Heat Lab	Hess's Law Lab
10	Flame Test and Electron Configuration Lab	Flame Test and Electron Configuration Lab Cont
11	Molecular Geometry Lab	Molecular Geometry Lab Cont
12	Boyle's Law and Gay Lussac's Law Lab Determining the Molar Volume of a Gas Lab	Determining the Universal Gas Constant Lab
13	Holiday/ Spectrophotometry – Apply Beer's Law to Determine Concentration of Dye Virtual Lab -- not in lab notebook	
14		
15	Final Exam Review	Final Exam Review

***Labs are subject to change per instructor decision.**

Assignments and Test Due Dates

1. Lab Quiz/Lab Contract (Due 8/30)
2. Respondus Practice Test over your Syllabus under Start Here (Due 8/30)
3. First Assignment (Due 8/31)
4. Chapter 1 Homework (Due 9/6)
5. Chapter 2 Homework (Due 9/20)
6. **Test #1: Chapter 1-2 (Due 9/25) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
7. Chapter 3 Homework (Due 9/27)
8. Chapter 4 Homework:(Due 10/11)
9. **Test #2: Chapter 3-4 (Due 10/16) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
10. **Midterm Exam over Chapter 1, 2, 3, and 4 in classroom (10/22)**
11. Chapter 5 Homework (Due 10/25)
12. Chapter 6 Homework (Due 11/1)
13. **Test #3: Chapter 5-6 (Due 11/6) Blackboard Respondus Monitoring (webcam) (online test) (timed test)**
14. Chapter 7 Homework (Due 11/15)
15. Chapter 8 Homework (Due 11/22)
16. Chapter 9 Homework (Due 11/29)
17. **Test #4: Chapter 7-9 (Due 11/29) Blackboard Respondus Monitoring (webcam) (online test)(timed test)**
18. **Final Exam over Chapter 5, 6, 7, 8, and 9 in classroom (12/10 at 9:30 AM)**

Chem 1411.74A0
General Chemistry
Fall Full Term (16 weeks) 2026

Instructor: Lisa Shelton

Office: MS 210C

Phone: 903-782-0481

Email: lselton@parisjc.edu and Blackboard email (Preferred method of contact is Blackboard Email/Messages)

Office Hours: MW 8:30-9:30 and 2:00-3:00 GC ;T 2:00-3:00 Paris; R 4:00-5:00 Paris

Meeting Location: Internet

Meeting Days: Internet

Meeting Times: Internet

Course Description:

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry.

Basic laboratory experiments supporting theoretical principles presented in CHEM 1411; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Pre-requisite: High School Algebra 1 & 2, College Algebra, or consent of instructor, or counselor.

Co-requisite: None

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with **ALEKS (Mcgraw Hill) for homework (ISBN: 9781266625138)**. You will be able to access the textbook -Openstax: General Chemistry free textbook by Rice University, ALEKS homework software, and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

<u>Required Core Objectives:</u> Student Learning Outcomes (Core Curriculum-Level) 1. Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information 2. Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication 3. Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions 4. Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	<u>Student Learning Outcomes (Physical Science Program-Level)</u> The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are: 1. To understand and apply method and appropriate technology to the study of chemistry, 2. To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing, 3. To identify and recognize differences among competing scientific theories, 4. To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies, 5. To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.
---	---

<u>Student Learning Outcomes (CHEM 1411 Lecture):</u> Upon successful completion of this course, students will: 1. Define the fundamental properties of matter. 2. Classify matter, compounds, and chemical reactions. 3. Determine the basic nuclear and electronic structure of atoms. 4. Identify trends in chemical and physical properties of the elements using the Periodic Table. 5. Describe the bonding in and the shape of simple molecules and ions. 6. Solve stoichiometric problems. 7. Write chemical formulas. 8. Write and balance equations. 9. Use the rules of nomenclature to name chemical compounds. 10. Define the types and characteristics of chemical reactions. 11. Use the gas laws and basics of the Kinetic Molecular Theory to solve gas problems. 12. Determine the role of energy in physical changes and chemical reactions. 13. Convert units of measure and demonstrate dimensional analysis skills.	<u>Student Learning Outcomes (CHEM 1411 Lab):</u> Upon successful completion of this course, students will: 1. Use basic apparatus and apply experimental methodologies used in the chemistry laboratory. 2. Demonstrate safe and proper handling of laboratory equipment and chemicals. 3. Conduct basic laboratory experiments with proper laboratory techniques. 4. Make careful and accurate experimental observations. 5. Relate physical observations and measurements to theoretical principles. 6. Interpret laboratory results, experimental data, and reach logical conclusions. 7. Record experimental work completely and accurately in laboratory notebooks and communicate experimental results clearly in written reports. 8. Design fundamental experiments involving principles of chemistry. 9. Identify appropriate sources of information for conducting laboratory experiments involving principles of chemistry.
--	---

Course Requirements and Evaluation:

Grading scale: 100-90 = A 80-89 = B 79-70 = C 69-60 = D <59 = F

Weighted totals:

ALEKS Online Homework	15%
Lab Assignments	25%
Test 1, 2, 3, and 4	30%
Midterm Exam	15%
Final Exam	15%

Homework:

Watch my "Get Started" video over the syllabus and then my "ALEKS: Homework" video. I have linked you to these ALEKS assignments in Blackboard under the **Content**. Click on the link and you will then be directed to ALEKS where you **must register** for the ALEKS software. How to register is described in detail under your **Start Here Folder** in Blackboard. After Registration you will take a brief Tutorial, or introduction to the ALEKS interface. It shows you how to enter the various kinds of answers that you may be asked to provide in ALEKS. The ALEKS homework assignments have multiple attempts. Most questions have unlimited attempts on ALEKS. Make sure to access your online homework through Blackboard so your grade will be automatically imported into Blackboard. Due dates for all homework are in the syllabus and on ALEKS. When registering in ALEKS, you will need to enter an e-mail and password. Please use your **PJC Dragon E-mail** only and make sure you use a password that you will remember.

Do the homework **after** reading your chapter, watching lecture videos, and filling in the Chapter notes. Try your best on your first attempt. They are not timed and you can do a little work at a time and then return later. You have one for each chapter we cover. Online homework and labs are setup to automatically submit grades at 11:59 PM on the due date. **LATE WORK POLICY:** At the start of the semester, every student receives **two (2) "Flex Tokens"**. **What it does:** Allows a 48-hour extension on any homework or lab report (not exams) without penalty and without needing to provide an excuse. **How to use:** Blackboard message me *before* the original deadline stating, "I am using one of my tokens for [Assignment Name]." **Safety Net:** If not used, each token is worth +1% toward your final grade. Assignments submitted after the deadline (or after a token extension) will be accepted for partial credit: **Up to 24 hours late:** 20% penalty. **24–48 hours late:** 50% penalty. **More than 48 hours late:** A grade of zero will be recorded, unless approved for an emergency extension. No late work will be accepted after the final exam.

Lab Assignments and Policies:

The lab average will be a simple average of all lab grades. Must show work on all labs and post-lab questions in order to get credit. All labs will be uploaded on Blackboard. Scan your work in but only submit it as either a pdf file or jpg or png. Many students use their phone to scan their work (there are apps to use). I don't have Apple so don't use the pages extension. Must upload a picture of you performing the lab while also holding a piece of paper with the current date. Check feedback on labs when graded and check to see if I need you to resubmit a lab.

Tests:

Students will take one test for each chapter taken during class. You may use your notes on the chapter tests. Make sure that you have printed out a periodic table for the tests. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!** **Work on one question at a time and do not view test questions out of order in case you lose Wifi connection. If I have to reopen a test, I will have you start where you left off only for the questions you have not previously viewed.** I can see what questions have been viewed and your computer screen. **Blackboard uses Respondus Lockdown Browser to video you taking the test. It is the student's responsibility to let me know if you have accommodations.** Remember that LockDown Browser will prevent you from accessing other websites or applications; you will be unable to exit the test until all questions are completed and submitted

Midterm and Final Exam:

Students will take one Midterm and one Final proctored exam in the classroom (paper test). The Midterm Exam covers Chapter 1-4 and the Final Exam covers Chapter 5-9. I will give you a test review for each of these tests. Each exam will given during 2 class periods. I will allow one sheet of notebook paper (both sides) for formulas and things that will help you for each part of the test. I will give you a periodic table for each test. **You may NOT use your textbook on the test, but you may use any kind of calculator other than a cell phone calculator!**

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules:

Chapters
Chapter 1: Essential Ideas
Chapter 2: Atoms, Molecules, and Ions
Chapter 3: Composition of Substances and Solutions
Chapter 4: Stoichiometry of Chemical Reactions
<u>Midterm Exam</u>
Chapter 5: Thermochemistry
Chapter 6: Electronic Structure and Periodic Properties of Elements
Chapter 7: Chemical Bonding and Molecular Geometry
Chapter 8: Advanced Theories of Covalent Bonding
Chapter 9: Gases
<u>Final Exam</u>

Week		Lab Session
Aug 17		Intro to Lab, Safety, Lab Safety Quiz and Lab Safety Test – Instructor Introduction
Aug 24		Measurement Lab and Separating Mixture – Chapter 1
Aug 31		Periodic Table Lab and Nomenclature and Household Items (paper lab) – Chapter 2; Instructor Demo (alkali metals) on Sept 2
Sept 7		Empirical Formula/Dilutions Lab
Sept 14		Mole Conversion and Percent Composition Lab
Sept 21		Copper Torture Lab
Sept 28		Precipitation and Redox Lab – Instructor Led Stoichiometry Fireworks – Instructor Led
Oct 5		Stoichiometry/Percent Yield Lab
Oct 12		School Holiday: Oct 12, 13, and 14 Titration Lab (ALEKS)
Oct 19		Hess's Law and Specific Heat Lab
Oct 26		Flame Test and Electron Configuration Lab – Instructor Led on Wednesday
Nov 2		Molecular Geometry Lab
Nov 9		Continue Molecular Geometry Lab
Nov 16		Gas Law Lab
Nov 23		Thanksgiving Break
Nov 30		Finals review – no lab
Dec 7		Final exam week: no lab

***Labs are subject to change per instructor decision.**

Week	Weekly Assignments and Due Dates
Aug 17	1. Intro to Lab, Safety, Lab Safety Quiz and Lab Safety Test (Due 8/23) 2. Chapter 1 Homework (Due 8/30)
Aug 24	1. Measurement and Separating Mixture Lab (Due 8/30)
Aug 31	1. First Assignment on Blackboard (Due 8/31) 2. Chapter 2 Homework (Due 9/6) 3. Periodic Table Lab/Nomenclature of Household Items (Due 9/6) 4. Practice Test on how Blackboard Lockdown Browser and Monitoring System works (assignment grade for this) (Due 9/6)
Sept 7	1. Empirical Formula/Dilutions Lab (Due 9/20) 2. <u>Test #1: Chapter 1 (Due 9/9) during class (online test)(timed test)</u> 3. <u>Test #1: Chapter 2 (Due 9/10) during class (online test)(timed test)</u>

Chem 2423.100
Organic Chemistry
Fall 2026

Instructor: Mrs. Lisa Shelton

Office: MS 210C

Phone: 903-782-0481

Email: ls Shelton@parisjc.edu or blackboard (Preferred method of contact Blackboard messages)

Office Hours: MW 8:30-9:30 GC ; T 2:00-3:00 Paris; R 12:15-1:00

Meeting Location: MS 201 and MS 203

Meeting Days: Lecture TR; Lab R

Meeting Times: Lecture-8-9:30; Lab 1-4

Course Description:

Fundamental principles of organic chemistry will be studied, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. Laboratory activities will reinforce fundamental principles of organic chemistry, as previously listed. Methods for the purification and identification of organic compounds will be examined. THIS COURSE IS INTENDED FOR STUDENTS IN SCIENCE OR PRE-PROFESSIONAL PROGRAMS.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Prerequisites: General Chemistry I, General Chemistry II (Lecture and Laboratory), and Organic Chemistry II

Co-requisite: None

Laboratory activities will reinforce fundamental principles of organic chemistry, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. Methods for the purification and identification of organic compounds will be examined.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with ALEKS (Smith: Organic Chemistry 7e edition McGraw Hill; ISBN: 9781264692033) for homework. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Note that reliable internet is required. Goggles are provided lab, but you can purchase them at Lowe's or Home depot if you prefer.

Course Goals and Objectives:

Foundation Component Area: Life and Physical Sciences Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method. Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

<u>Required Core Objectives:</u> Student Learning Outcomes (Core Curriculum-Level) 1. Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information 2. Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication 3. Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions 4. Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	<u>Student Learning Outcomes (Physical Science Program-Level)</u> The main objective of the study of a natural sciences component of a core curriculum is to enable the student to understand, construct, and evaluate relationships in the natural sciences and to enable the student to understand the basis for building and testing theories. The exemplary educational core objectives for natural sciences are: 1. To understand and apply method and appropriate technology to the study of chemistry, 2. To recognize scientific and quantitative methods and the differences between these approaches and other methods of inquiry and to communicate findings, analyses, and interpretation both orally and in writing, 3. To identify and recognize differences among competing scientific theories, 4. To demonstrate knowledge of major issues and problems facing modern science, including issues that touch upon ethics, values and public policies, 5. To demonstrate knowledge of the interdependence of science and technology and their influence on, and contribution to, modern culture.
<u>Student Learning Outcomes (Chem 2423 Lecture):</u> Upon successful completion of this course, students will: 1. Classify organic compounds by structure, molecular orbitals, hybridization, resonance, tautomerism, polarity, chirality, conformation, and functionality. 2. Identify organic molecules using appropriate organic nomenclature. 3. Describe the principle reactions for syntheses of molecules, ions, and radicals. 4. Describe organic reactions in terms of radical and ionic mechanisms. 5. Describe the use of spectroscopic data to determine the structure of organic molecules. 6. Formulate appropriate reaction conditions for the synthesis of simple organic molecules	<u>Student Learning Outcomes (Chem 2423 Lab):</u> Upon successful completion of this course, students will: 1. Perform chemical experiments, analysis procedures, and waste disposal in a safe and responsible manner. 2. Utilize scientific tools such as glassware and analytical instruments to collect and analyze data. 3. Identify and utilize appropriate separation techniques such as distillation, extraction, and chromatography to purify organic compounds. 4. Record experimental work completely and accurately in laboratory notebooks, and communicate experimental results clearly in written reports. 5. Demonstrate a basic understanding of stereochemistry. 6. Classify organic compounds by structure, molecular orbitals, hybridization, resonance, tautomerism, polarity, chirality, conformation, and functionality in laboratory reports. 7. Identify organic molecules using appropriate organic nomenclature in laboratory reports. 8. Perform organic syntheses of molecules. 9. Describe organic reactions in terms of radical and ionic mechanisms in laboratory reports. 10. Use spectroscopic data to determine the structure of organic molecules. 11. Formulate appropriate reaction conditions for the synthesis of simple organic molecules.

Course Requirements and Evaluation:

Grading scale: 100 to 89.5--A 89.49 to 79.5--B 79.49 to 69.5--C 69.49 to 59.5--D Below 59.5--F

Weighted totals:

Quizzes (25%)

Lab Assignments (20%)

Attendance (5%)

4 Major Tests and Final (50%)

Tests:

The major tests will cover all lecture material discussed between the major test dates. Material covered on major tests dates in Lecture WILL NOT be on major tests. Major tests must be done in PENCIL and must have work shown. **You will need a periodic table for each major test—print one out (from BlackBoard) and bring it to tests.**

Labs:

The simple average of labs will count as the lab average. Lab reports are due every Sunday after a lab. You are only allowed to make-up one lab. The rest of the labs missed will result in a zero. A lab notebook is due at the end of the course and you must have the title, purpose, materials, and procedure of the lab filled out in your lab notebook before you can begin a lab.

Quizzes

A quiz will be given at the beginning of every lab to work on with your lab group. Quizzes will be given over each chapter. McGraw Hill ALEKS 360 will be used for extra credit assignments. These assignments have several attempts. You **do not** have to complete all attempts, but I do take the **highest score**.

Mid-Term Grades:

PJC instructors are required to enter mid-term grades during the eighth week of the semester (**October 16th**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. *Note:* Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) of **Sept 9th** to be counted as present in the course. **You must complete this assignment by Sept 8th at 11:59 PM.** Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. **The student will be asked to leave the classroom if they are on their cell phone or laptop per PJC Student Handbook.**

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. For online courses, students must complete work in a timely manner and follow due dates. LAST DAY TO DROP with a "W" is **Nov 12**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Common plagiarism cases in Chemistry that must be avoided: Students copy answers from the back of the book, each other, or online websites. Students sharing the same lab report or working on calculations together (collaborating). Students not providing proper in-text citations and sources. Students storing data in their graphing calculator during a quiz, or test.

Artificial Intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonest

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

preventable.

Course Schedules:

Lecture Schedule: See Course Calendar available on Blackboard (Chapters 1-11) Tentative.

Chapter 1: Structure and Bonding

Chapter 2: Acids and Bases

Test 1

Chapter 3: Introduction to Organic Molecules and Functional Groups

Chapter 4: Alkanes

Test 2

Chapter 5: Stereochemistry

Chapter 6: Understanding Organic Reactions

Test 3

Chapter 7: Alkyl Halides and Nucleophilic Substitution

Chapter 8: Alkyl Halides and Elimination Reactions

Chapter 9: Alcohols, Ethers, and Related Compounds

Test 4

Chapter 10: Alkenes and Addition Reactions

Chapter 11: Alkynes and Synthesis

Chapter 12: Oxidation and Reduction

Final

Week	Labs
1	Lab Safety, Lab Notebook, Lab Report, Lab Safety Contract, Molecular Models Lab, Quiz 1
2	Identifying An Organic Compound by Melting/Boiling pt Lab, Quiz 2
3	Test 1 over Chapter 1 and 2 ALEKS Lab - Organic Qualitative Analysis - Identifying Alkanes, Alkenes, and Alkyl Halides Due 9/13
4	Simple and Fractional Distillation of Unknown Mixture Lab, Quiz 3
5	Cis and Trans Lab, Quiz 4
6	Test 2 over Chapter 3 and 4
7	Polarimeter Lab, Quiz 5
8	Aspirin from Willow Bark Lab and Synthesis of an Aspirin Lab, Quiz 6
9	Test 3 over Chapter 5 and 6 ALEKS Lab - Nucleophilic Substitution Reaction • Miniscale Synthesis of 1-Bromobutane Due 10/25
10	Synthesis, Isolation, and Purification of Ester Lab, Quiz 7
11	Test 4 online on ALEKS over Chapters 7, 8, and 9 ALEKS Lab - Addition Reaction • Microscale Hydroboration of 3,3-Dimethyl-1-butene Due 11/8
12	Thin Layer Chromatography – TLC, Quiz 8
13	Saponification, Quiz 9
14	No Lab - Thanksgiving
15	Mass Spec and IR Paper Lab, Quiz 10
16	Final Exam (Chapters 10, 11, and 12)

Labs to tentatively be performed (Other labs may be substituted at the instructor's discretion):

Week 1:	Tuesday:	Syllabus Essentials –Chapter 1
	Thursday:	Chapter 1
Week 2:	Tuesday:	Chapter 1 and 2
	Thursday:	Chapter 2
Week 3:	Tuesday:	Chapter 2 and 3
	Thursday:	Chapter 3– Major Test #1 during lab time (Chapters 1 and 2)
Week 4:	Tuesday:	Chapter 3 and 4
	Thursday:	Chapter 4
Week 5:	Tuesday:	Chapter 4 and 5
	Thursday:	Chapter 5
Week 6:	Tuesday:	Chapter 5 and 6
	Thursday:	Chapter 6 - -Major Test #2 during lab time (Chapters 3 and 4)
Week 7:	Tuesday:	Chapter 6
	Thursday:	Chapter 7
Week 8:	Tuesday:	Chapter 7
	Thursday:	Chapter 7 and 8
Week 9:	Tuesday:	Chapter 8
	Thursday:	Chapter 9 - Major Test #3 during lab time (Chapters 5 and 6)
Week 10:	Tuesday:	Chapter 9
	Thursday:	Chapter 9

Week 11:	Tuesday:	Chapter 10
	Thursday:	Chapter 10 - - Major Test #4 online ALEKS Respondus Lockdown (Chapters 7-9)
Week 12:	Tuesday:	Chapter10
	Thursday:	Chapter 11
Week 13:	Tuesday:	Chapter 11
	Thursday:	Thanksgiving
Week 14:	Tuesday:	Chapter 12
	Thursday:	Chapter 12
Week 15:	Tuesday:	Chapter 12
	Thursday:	Final Exam Review
Week 16:	Final Exam (Major Test #5) Chapters 10,11,12	

Course # (CNBT 2310)
Course Title (Commercial/Industrial Blueprint Reading)
Fall A 2026

Instructor: David Hartman
Office: A122
Phone: 903-457-8738
Email: dhartman@parisjc.edu
Office Hours: MTWR 7AM-8AM
MTWR 9:05-10:00

Meeting Location: A120
Meeting Days: MW
Meeting Times: 10 AM to 12 AM
Meeting Days: TR
Meeting Times: 10 AM to 11 AM

Course Description:

Provides an integrated look at the practice of Blueprint reading for Commercial/Industrial construction.

Credits: 3 SCH = 2 lecture and 4 laboratory hours per week

TSI Requirement: NA- M, NA- R, NA- W.

Prerequisite(s): High school Diploma or GED

Required Textbook(s) and Materials:

Print Reading For Construction Author: Brown

Edition: 8th, © 2023

ISBN: 9781649259851

1 – Engineering Scale 1 – Architect Scale

Course Goals and Objectives:

Scale commercial/industrial prints with architectural and engineering scales; identify construction blueprint symbols and abbreviations; interpret a set of commercial/industrial construction contract documents; and correlate elevations, sections, details, plan views, schedules, and general notes.

Course Schedule:

Week Topic

- Week 1 -Construction Drawing Organization
 - Construction math and Application
- Week 2 -Reading Measuring Tools and Using Scales
 - Lines and Symbols
- Week 3 -Fundamental Drawing Practices
 - Specifications and Building Codes
 - Construction Materials-Types and uses
- Week 4 -Site Plans
 - Site & Architectural Plans
- Week 5 -Foundation & Structural Plans
 - Residential Framing Plans
 - Plumbing & HVAC Plans

Week 6 - Electrical Plans
Week 7 -Welding Plans
- Estimating Construction Cost / Review
Week 8 -Finals

Course Requirements and Evaluation:

Testing, 25% of total grade/Attendance, 50% of total grade/Daily Grade 25% of total grade

Beginning with the spring semester 2001, a grade of “D” will not be given. An average of 70 or above will be considered passing while a grade below 70 will be considered failing.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student.

Students are expected to be present at each class meeting for the entire session. Points lost for tardiness or for leaving class early: 5 minutes 1 point, 6 minutes to 20 minutes 10 points, 21 minutes to 30 minutes 20 points, 31 minutes to 45 minutes 30 points, over 45 minutes 100 points. Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Oct 1st*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI is Prohibited:

This course assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity

do the writing of any substantive portion of an assignment for them, which includes hiring a person or a company to write assignments and using artificial intelligence tools like ChatGPT.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change in the classroom.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support

Introduction to Mass Communication

Fall 2026-Flex1

Instructor: Jodi Pack

Office Hours

Office: N/A

Phone: 903-782-0321

Email: jpach@parisjc.edu

Zoom meetings may be scheduled upon request.

Use Bb messages for all course-related questions

Course Description: Survey of basic content and structural elements of mass media and their functions and influences on society. *Credits: 3 SCH = 3 lecture Hours*

TSI Requirement: 351 R, 340 W. Prerequisite(s): None

Required Textbook(s) and Materials: This course features a free OPEN SOURCE textbook. The Textbook and all course materials may be accessed through Blackboard.

Core Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Social Responsibility--to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Course-Level):

- Demonstrate understanding of the fundamental types, purposes, and relevance of mass communication.
- Demonstrate understanding of mass media in historic, economic, political, and cultural realms.
- Demonstrate understanding of the business aspects of mass media and the influence of commercialism.
- Demonstrate understanding of evolving media technologies and relevant issues and trends.
- Demonstrate understanding of mass media values, ethics, laws, and industry guidelines.
- Demonstrate understanding of globalization of mass media.
- Demonstrate understanding of media effects on society.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- Communication & Expression Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation: During the course, students will complete five unit exams, three major assignments, and learning activities that reflect the content and nature of unit topics.

Course Content and Evaluation			
Media Literacy Audit	15%	Final Grade	
Podcast Production	20%	90%-100%=	A
Final Project	25%	80%-89%=	B
Unit Exams	20%	70%-79%=	C
Learning Activities	20%	60%-69%=	D
Total	100%	0%-59%=	F

Course Policies:

- Submit all required documents in **.pdf** format unless otherwise stated.
- Exams will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Major Assignments may receive partial credit if submitted no more than three days after the due date/time.
 - Late Assignments will receive grade reductions.
 - Assignments more than three days late will not be accepted.
 - Final Project will not be accepted late.
 - Internet connectivity, device, or software issues will not be taken into consideration for missed deadlines or due dates.
- *Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.*

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is October 1.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted, as long as it does not change the student's wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change: This syllabus is subject to change at any time. When changes are made students will be informed of the change by the Bb Blackboard announcement and PJC email

Course Schedule: *The instructor reserves the right to change the course schedule if deemed necessary. Students will be given advanced notice of alterations to the schedule. All updates will be reflected in the Blackboard Calendar tool.*

Week	Content Due	Due Date	Topic study	Module Study
Week 1	First Assignment	Wed 8/26	Introduction	Module 1
			Media Theory	Module 2
Week 2	Unit 1: LA	Sun 8/30	Books	Module 3
	Unit 1 Exam	Wed 9/2	Newspapers	Module 4
Week 3	Media Literacy Audit	Wed 9/9	Magazines	Module 5
			Music & Radio	Module 6
Week 4	Unit 2: LA	Sun 9/13	Film	Module 7
	Unit 2 Exam	Wed 9/16	Television	Module 8
Week 5	Unit 3: LA	Sun 9/20	Video Games	Module 9
	Unit 3 Exam	Wed 9/23	Internet	Module 10
Week 6	Unit 4: LA	Sun 9/27	Advertising & PR	Module 11
	Unit 4 Exam	Wed 9/30	Media Ethics	Module 12
	Podcast Production	Sun 10/4	Media & Government	Module 13
Week 7	Unit 5: LA	Wed 10/7		
	Unit 5 Exam	Sun 10/11		
Week 8	Final Project	Mon 10/12

Course Description: Survey of basic content and structural elements of mass media and their functions and influences on society. *Credits:3 SCH = 3 lecture Hours*

TSI Requirement: 351 R, 340 W. Prerequisite(s): None

Required Textbook(s) and Materials: This course features a free OPEN SOURCE textbook. The Textbook and all course materials may be accessed through Blackboard.

Core Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Social Responsibility--to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Course-Level):

- Demonstrate understanding of the fundamental types, purposes, and relevance of mass communication.
- Demonstrate understanding of mass media in historic, economic, political, and cultural realms.
- Demonstrate understanding of the business aspects of mass media and the influence of commercialism.
- Demonstrate understanding of evolving media technologies and relevant issues and trends.
- Demonstrate understanding of mass media values, ethics, laws, and industry guidelines.
- Demonstrate understanding of globalization of mass media.
- Demonstrate understanding of media effects on society.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- Communication & Expression Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation: During the course, students will complete five unit exams, three major assignments, and learning activities that reflect the content and nature of unit topics.

Course Content and Evaluation			
Media Literacy Audit	15%	Final Grade	
Podcast Production	20%	90%-100%=	A
Final Project	25%	80%-89%=	B
Unit Exams	20%	70%-79%=	C
Learning Activities	20%	60%-69%=	D
Total	100%	0%-59%=	F

Course Policies:

- Submit all required documents in **.pdf** format unless otherwise stated.
- Exams will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Major Assignments may receive partial credit if submitted no more than three days after the due date/time.
 - Late Assignments will receive grade reductions.
 - Assignments more than three days late will not be accepted.
 - Final Project will not be accepted late.
 - Internet connectivity, device, or software issues will not be taken into consideration for missed deadlines or due dates.
- *Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.*

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Oct. 1st.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted as long as it does not change the student's wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change: This syllabus is subject to change at any time. When changes are made students will be informed of the change by the Bb Blackboard announcement and PJC email

Course Schedule: *The instructor reserves the right to change the course schedule if deemed necessary. Students will be given advanced notice of alterations to the schedule. All updates will be reflected in the Blackboard Calendar tool.*

Week	Content Due	Due Date	Topic study	Module Study
Week 1	First Assignment	Wed 8/26	Introduction	Module 1
			Media Theory	Module 2
Week 2	Unit 1: LA	Tue 9/1	Books	Module 3
	Unit 1 Exam	Tue 9/1	Newspapers	Module 4
Week 3	Media Literacy Audit	Thu 9/10	Magazines	Module 5
			Music & Radio	Module 6
Week 4	Unit 2: LA	Tue 9/15	Film	Module 7
	Unit 2 Exam	Tue 9/15	Television	Module 8

	Podcast Production	Thu 10/1	Media & Government	Module 13
Week 7	Unit 5: LA	Tue 10/6		
	Unit 5 Exam	Tue 10/6		
Week 8	Final Project	Mon 10/12		

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COMM 1307 20F0

Introduction to Mass Communication

Fall 2026-Flex2

Instructor: Alex Peevy

Office: MB104 (Paris)

Phone: 903-782-0321

Email: apeevy@parisjc.edu

Office Hours

Mon-Thur

8:30-9:30 a.m. 1:00-3:00 p.m.

Zoom meetings may be scheduled upon request.

Use Bb messages for all course-related questions

Course Description: Survey of basic content and structural elements of mass media and their functions and influences on society. *Credits:3 SCH = 3 lecture Hours*

TSI Requirement: 351 R, 340 W. Prerequisite(s): None

Required Textbook(s) and Materials: This course features a free OPEN SOURCE textbook. The Textbook and all course materials may be accessed through Blackboard.

Core Goals and Objectives: Core Course Competencies

- Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
- Demonstrate Social Responsibility--to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- Demonstrate Personal Responsibility—to include the ability to connect choices, actions and consequences to ethical decision-making.

Student Learning Outcomes (Course-Level):

- Demonstrate understanding of the fundamental types, purposes, and relevance of mass communication.
- Demonstrate understanding of mass media in historic, economic, political, and cultural realms.
- Demonstrate understanding of the business aspects of mass media and the influence of commercialism.
- Demonstrate understanding of evolving media technologies and relevant issues and trends.
- Demonstrate understanding of mass media values, ethics, laws, and industry guidelines.
- Demonstrate understanding of globalization of mass media.
- Demonstrate understanding of media effects on society.

Program Learning Outcomes: Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

- Communication & Expression Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
- Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
- Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
- Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
- Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation: During the course, students will complete five unit exams, three major assignments, and learning activities that reflect the content and nature of unit topics.

Course Content and Evaluation			
Media Literacy Audit	15%	Final Grade	
Podcast Production	20%	90%-100%=	A
Final Project	25%	80%-89%=	B
Unit Exams	20%	70%-79%=	C
Learning Activities	20%	60%-69%=	D
Total	100%	0%-59%=	F

Course Policies:

- Submit all required documents in **.pdf** format unless otherwise stated.
- Exams will not be reopened for failure to complete by the due date/time.
- Learning Activities will not be reopened for failure to complete by the due date/time.
- Major Assignments may receive partial credit if submitted no more than three days after the due date/time.
 - Late Assignments will receive grade reductions.
 - Assignments more than three days late will not be accepted.
 - Final Project will not be accepted late.
 - Internet connectivity, device, or software issues will not be taken into consideration for missed deadlines or due dates.
- *Exceptions to late submission policies may be made in unavoidable emergency circumstances. Students should contact their instructor immediately if such an emergency occurs. Concessions will require legitimate documentation and will be credited at the instructor's discretion.*

Class Attendance: Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Nov. 24th.

Class Conduct: Students will conduct themselves respectfully at all times. Any communication between other students will be presented in a supportive nature conducive to a constructive learning environment. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI), including generative AI services, tools, and features, may not be used, unless otherwise directed by the instructor, to write, rewrite, expand, reorganize, or otherwise generate work. Basic spelling and grammar checking is permitted as long as it does not change the student's wording, ideas, or organization. When permitted, students must verify all AI-generated information and then cite its use. Prohibited AI use is not made permissible through citation alone. Suspected unauthorized AI use will be reviewed and, if confirmed, treated as a violation of the academic honesty policy.

Complaint Procedures: Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. Dual Credit English 1301.730 and .731/Junior English

Fall 2026

Instructor: Brittany Figueroa

Room: 2009

E-mail: figueroab@greenvilleisd.com

Tutoring: Monday, Wednesday, Thursday, Friday 4:10-4:40 p.m.

Course Description:

Dual Credit English III is designed for students to complete both junior-level high school English and the first two semesters (1301 and 1302) of English at Paris Junior College. The goal is to develop and strengthen skills in language arts, both as a reader and a writer. **This class will be an intensive study of and practice in the writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis will be placed on effective rhetorical choices, including audience, purpose, arrangement, and style, and focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.** This class covers a combination of fiction and nonfiction texts across a variety of genres. Traditionally, English III focuses on American literature; however, other texts may be explored. Successful completion of this class will result in dual credit for the student. Credits: 3 SCHs.

Textbook: Kirsznner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide* (packed with *Achieve* for labs). 16th ed. Bedford/St. Martin's, 2024 and Hacker *A Pocket with Writing about Literature*. ISBN: 9781319532345

Novel: Instructor's choice.

Course Goals and Objectives:

The general course goals of 1301 are to have students improve writing abilities and increase proficiency in **critical reading and in writing nonfiction prose** with emphasis on narration, description, exposition, and persuasion. The general purpose of high school junior English is to improve **analytical reading and writing skills** using American literature as a foundation.

Course Requirements and Evaluation

PJC 1301 Required Text and Assignments:

- Minimum of 5 full essays, various modes
- At least one of the 5 full essays should be a documented essay (using 2021 MLA and applying the assessment rubric)
- Final exam Exemptions:
 - Students with 4 or fewer absences and an essay average of 80 or higher may be exempted from the final exam.
 - Remaining students will write a 5th essay at the time of the final, and the grade will replace the lowest essay grade of the first 4 essays
 - The 5th essay grade will also count as the final exam grade
 - Averages for exempted students will not include a final exam grade

- The exemption is not mandatory; students may choose to write a 5th essay
- LAB (in Blackboard)
 - Will count 15% of the final grade
 - Automatic grading of quizzes and averaging by Blackboard will create a single Lab grade

ENGL 1301 Labs: Online

Lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed **outside of the scheduled classroom time**. The labs **MUST** be completed by the stated due dates. **They will NOT be reopened under ANY circumstances.** Plan and complete them by the scheduled due dates - December 1st. **There are a total of 15 lab items and two diagnostic tests.** Expect to spend, on average, an hour for each of the labs and 30 minutes on each diagnostic test, for a total of **16 hours**.

Completion Requirements:

- Final Score of 70 or above in the class
- TSI Requirement: Reading, 340 +; Writing, 4 or above

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day before the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a **grade of "W" is Thursday, November 12th**. The expectation for attendance for GHS is 90%; however, to be successful in this class, attendance and punctuality (avoiding tardiness) are crucial.

Students are responsible for notes and assignments that are missed. **No more than one late paper will be allowed. A late paper will be penalized five points per day and will not be accepted after one week.**

Please keep in mind that these make-up policies apply to extracurricular absences as well.
You are not penalized for an extracurricular absence.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. At GHS, phones must be completely out of sight and powered off.

No obscene/vulgar language will be permitted in the classroom.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. (Both the PJC and GHS student handbooks are on the schools' websites.)

Academic Honesty:

In the pursuit of learning, it is expected that students will engage **in honest academic endeavor to the highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others, including the use of AI without proper documentation, will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903.782.0211.

Artificial intelligence (AI) English

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever

(100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below. Changes will be posted in Google Classroom.

Mental Health Conditions

Mental health conditions are common and treatable.

Suicide is preventable.

A suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.

4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of **oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.**

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate **Critical Thinking Skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
2. Demonstrate **Communications Skills**—to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
3. Demonstrate **Teamwork**—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate **Personal Responsibility**—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange, and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) Language and apply correct forms of English that are most widely accepted as clear and proper
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to an audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluations:

Writing assignments, in-class writing or editing workshops, group work, class discussions, tests and quizzes, lecture/notes, and reading assignments.

Course Policies Concerning Essays:

Essay Assignments: All essays/writing assignments should be submitted by the beginning of the class in which the assignment is due. Submit as a Word or Google Doc attachment.

A research paper turned in without proper documentation (works cited page OR parenthetical citation) will receive a zero. Such an act constitutes plagiarism and will be subject to the consequences outlined above.

Peer Review Assignments:

There will be an in-class peer review exercise for each assigned essay. These scheduled peer review exercises count as quiz grades.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

GHS Classroom Procedures:

- **Cell phones:** Cell phones or any other electronic devices are not allowed to be on during the academic day. They must be powered off and stored away. The specifics and consequences are covered in the Student Handbook and Code of Conduct.
- **Absences:** It is your responsibility to find out what you missed after an absence. Please ask a classmate for assistance to overcome missing assignments. At the end of class, I will dismiss you. Please do not start gathering your belongings until instructed to do so.
- **Daily objectives and expectations will be in Google Classroom.** Some work will be done through Google Classroom. Other assignments will be on paper or in your notebook. **Make-up work:** All make-up work must be completed within 3 days of returning to school, unless you have personally obtained an extension from your teacher due to extenuating circumstances.
- **Late work:** All late work will be subject to a point deduction, especially if it is habitual.
- **Starting & finishing class:** With rare exceptions, you will have an assignment on the board when class begins. I should not have to ask you to begin this assignment.
- **Cheating** - I believe that your ideas are important—use them. If you borrow from others' work, document appropriately. Avoid plagiarism. Cheating carries an automatic zero; cheating includes presenting someone else's work or work from an online or offline source as your own, assisting others in cheating, copying from a classmate or online or offline source, or any other means of dishonestly gaining an unfair advantage on any classroom assignment. In the first instance of plagiarism, you will be allowed to redo the assignment in tutorials for a max grade of 70. Any subsequent cheating will result in a zero with no chance to redo the assignment.

Grading Policy: Grades for each grading period will be calculated according to the following percentages:

Essays and Projects: 70%

Lab: 15%

Peer Reviews, daily assignments: 15%

Both the final exam and the documented argumentative essay are required.
Evaluation rubrics are posted in Google Classroom for each writing assignment.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. **It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form.** For more information, please refer to the Paris Junior College Catalog or Student Handbook. Accommodation requests must be filed with PJC for dual credit classes; **GHS accommodations do not apply to dual credit classes.**

Tentative Course Schedule/Outline (subject to change):

First 9 Weeks: August 17- October 16:

Celebrating Differences: Reading/Writing with an Analytical Perspective and Pre-Colonial and Colonial America

Standards of focus:

- Language Usage: Vocabulary / Literary Conventions
 - Reading and Analyzing Literature
 - Reading and Analyzing Informational Text
 - Speaking & Listening
 - Narrative and Descriptive Writing
- Patterns of College Writing: 29-47, 97-101, 151-159*

Assignments:

- Focused Notes
- Personal Narrative Essay #1
- Various Content Assignments
- Descriptive Essay #2
- Grammar & conventions practice through daily Bell Ringers
- Required Labs (PJC)

Literature:

- *The Extraordinary Life of Sam Hell*, a narrative/descriptive novel
- Literature, Speeches, Historical Documents
 - ["The World on the Turtle's Back"](#)
 - Indigenous Mythology - Assignment
 - Snippets of Day-to-Day Life in Colonial Times
 - ["Discovering Columbus" - non-fiction](#)
 - ["Speech in the Virginia Convention" 1775 - speech](#)
 - ["The Declaration of Independence" 1776 -document](#)

Second 9 Weeks: October 19- December 18:

Celebrating Differences: Reading/Writing with an Analytical Perspective on War and the American Renaissance

Standards of focus:

- Language Usage: Vocabulary / Literary Conventions
- Reading and Analyzing Literature:
- Reading and Analyzing Informational Texts
- Speaking & Listening
- Argumentative Research

Patterns of College Writing: 519-545, 201-206, 209-210,

Assignments:

- Argumentative Essay #3
- Demonstrating elements of research Essay #4 (MLA 2021)
- Various assignments related to the novel; Essay #5 (timed)
- Collaborative work on selected pieces (examples listed below)
- Grammar & conventions practice through daily Bell Ringers
- Required Labs (PJC)

Literature:

- Selected works

["Ain't I a Woman?" Sojourner Truth](#)

Excerpts: Harriet Tubman and Loretta Velasquez

- ["The Devil and Tom Walker"](#) by Washington Irving
- various pieces "Self-Reliance" by Ralph Waldo Emerson;
- "Walden" by Henry David Thoreau
- ["The Minister's Black Veil"](#) by Nathaniel Hawthorne
- from ["What the Black Man Wants"](#) by Frederick Douglass
- Edgar Allan Poe – individual choice/annotation

NOTE: The contents of this syllabus are subject to change. Should a change be made, students will be notified, and a new syllabus will be posted in Google Classroom.

COSC 1301.73A0
Introduction to Computing
Fall 2026

Instructor: Jennifer Rollins
Office: GHS 1312
Phone: 903.408.4772
Email: jrollins@parisjc.edu
Office Hours:
MTRF: 4:10 PM – 5:30 PM

Meeting Location: MTWRF
Meeting Days: MTWRF
Meeting Times: 8:30 AM – 9:15 AM

Course Description:

Overview of computer systems—hardware, operating systems, the Internet, and application software including word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other interdisciplinary settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.

3 Credit Hours 2 Lecture Hours 1 Lab Hours

Required Textbook(s) and Materials:

This class is a part of the Inclusive Access program. This means that unless you opt out, your book and materials are provided. You may also need a USB Flash drive to save your assignments if you are working on a public computer (including the computers in Paris, Greenville, and Sulphur Springs centers.)

What is inclusive Access:

<https://www.parisjc.edu/main/inclusive-access/>

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Describe the fundamentals of computing infrastructure components: hardware, application software, operating systems, and data communications systems.
2. Delineate and discuss societal issues related to computing, including the guiding principles of professional and ethical behavior.
3. Demonstrate the ability to create and use documents, spreadsheets, presentations and databases in order to communicate and store information as well as to support problem solving.
4. Describe the need and ways to maintain security in a computing environment.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
9/3	Course Introduction	Complete First Assignment Quiz
9/10	Word 1-Creating and Modifying a Flyer	Word 1 Textbook Project, Lab Project, and Quiz
9/17	Word 2-Creating a Research Paper	Word 2 Textbook Project, Lab Project, and Quiz
9/24	Word Exam	

10/01	PowerPoint 1-Creating and Editing Presentations with Pictures	PowerPoint 1 Textbook Project, Lab Project, and Quiz
10/8	PowerPoint 2-Enhancing Presentations with Shapes and SmartArt	PowerPoint 2 Textbook Project, Lab Project, and Quiz
10/15	PowerPoint Exam	
10/16	Midterm Grades	All Assignments for Word and PowerPoint are due and will receive a 0 if not submitted at this time.
10/22	Excel 1-Creating a Worksheet and a Chart	Excel 1 Textbook Project, Lab Project, and Quiz
10/29	Excel 2-Formulas, Functions, and Formatting	Excel 2 Textbook Project, Lab Project, and Quiz
11/05	Excel Exam	
11/12	Access 1-Databases and Database Objects	Access 1 Textbook Project, Lab Project, and Quiz
11/19	Access 2-Querying a Database	Access 2 Textbook Project Lab Project, and Quiz
11/26	Access Exam	
12/3	Last submission date	All assignments except the final exam must be submitted by midnight to receive a grade.
12/10	Final Exam	Multiple choice comprehensive exam

Course Requirements and Evaluation:

All quizzes, exams, and projects have a due date that should be followed. Please see calendar above for further details.

The grade that you see in Cengage and Blackboard is the average of what you have submitted, not everything that is due at the time. Before submitting progress reports, midterm or final grades, a zero will be entered for any assignment due but not submitted, bringing down the grade that you see in Blackboard or Cengage.

Make sure that you keep up! *Failure to do so usually results in a failing grade.*

The following formula/criteria will be used to determine your Final Course Grade:

40% EXAMS

40% Textbooks and End of Module Projects

20% Quizzes

COURSE GRADE = (Average Exams * .40) + (Average Assignments * .40) + (Average Quizzes *.20)

GRADE SCALE is based on calculated Course average:

90 – 100 = A

80 – 89 = B

70 – 79 = C

60 – 69 = D

0 – 59 = F

EXAMS (40%):

Exams demonstrate the student's acquired skill of a software application. There will be four Hands-On Application Exams scheduled at your Cengage course throughout the semester for Word, PowerPoint, Excel, and Access. The availability dates for these exams are listed in your course Calendar and at Cengage. Make a note of these dates and mark them on your personal calendar. You will have two attempts for each exam, with three attempts for each question. There will also be one comprehensive Final Exam.

ASSIGNMENTS (40%):

There will be a Textbook project and a SAM End of Module Project for each module.

Textbook Projects: There will be a folder on the Assignments link in Blackboard for each module that is assigned. Inside will be a link to the chapter in the book for the corresponding textbook project. The book will give step-by-step instructions for completing the project. You will be given a Start File and any resource files that you need. You must use the Start File. The start file will include a student's identifying code for project submission and grading. Once the assignment is submitted, it will be graded, and an in-depth explanation of errors will be provided. The student will have an opportunity to make corrections and resubmit the document twice before the respective project's availability period terminates totaling three attempts for each assignment. The students' highest grade of the three attempts will be recorded as the assignment grade.

SAM EOM Projects: SAM projects or labs will consist of an instructional document, a start file, and a resource file, if applicable. This lab will give students a chance to apply what they have learned from the textbook project. The start file will include a student's identifying code for project submission and grading. Once the assignment is submitted, it will be graded, and an in-depth explanation of errors will be provided. The student will have an opportunity to make corrections and resubmit the document twice before the respective project's availability period terminates totaling three attempts for each assignment. The students' highest grade of the three attempts will be recorded as the assignment grade. All attempts must be completed during the availability time of the project.

QUIZZES (20%):

Quizzes are scheduled after each chapter. It is recommended that you read the corresponding chapter before attempting a quiz. All quizzes are "open book" and administered under the Honesty Policy. Quizzes must be completed during the assigned availability period. You will have three attempts to complete each quiz. The highest grade will be recorded as the quiz grade.

Course Policies:

This course will meet via the Internet through the Blackboard [Bb] Learning Management System and Cengage Skills Assessment Manager.

REQUIREMENTS:

1. Students **MUST** understand that technical problems are not reasons for missing deadlines or due dates.
 - It is the student's responsibility to maintain reliable computer equipment and internet service.
 - It is the student's responsibility to attempt assignments in a timely manner, giving them enough time to complete the assignment.
2. Students **MUST** be **independent, self-motivated learners** to be successful in an internet or hybrid course.
3. Students **MUST** be excellent time managers, seldom miss deadlines, and schedule adequate time each week to complete the course requirements.
4. Students **MUST** have a reliable personal computer and internet service that meets the minimum requirement of the course software and course web sites. It is recommended that you use a PC to do your assignments. Some options are not available for a Mac including Microsoft Access, and the Office suite is not available for Chromebooks.
5. Students **MUST possess computer skills** necessary to:
 - Access internet sites, create accounts, locate and read "site user manuals."
 - Download and install software on their personal computers
 - Manage files on their storage devices,
 - Use computer applications, internet browsers, email, and system utilities
6. Students **MUST** have reliable access to Microsoft Office 365 that includes **Word, PowerPoint, Excel, and Access**. Instructions for downloading the software are on the Start Here page for this class.
7. Students **MUST** realize that family obligations, work schedules, number of courses enrolled, and other life events do **not** supersede this course's requirements, due dates, assignments, or deadlines. Neither do they justify a request for extended time.

EXPECTATIONS:

1. Students are expected to use the classroom LAB to complete quizzes, exams, and assignments when they are experiencing technical problems with their personal computer or internet provider. PJC provides computers with the necessary software and internet connections in labs on the Paris campus and the Greenville and Sulphur Springs centers.
2. Students are expected to schedule an appointment with the instructor when questions arise that cannot be adequately addressed via email or phone and require a demonstration or face to face help.
3. Students are expected to attempt, complete, and submit all assignments, quizzes, and exams within their respective scheduled time-period.
4. Students are expected to login, read and comply with all announcements, documents, instructions, etc.
5. Students are expected to have access to a personal computer with Microsoft Office 365. There are instructions on the Start Here page for this class for downloading the software if you do not already have access. **Many projects will not work on a Chromebook or Mac.**

Open labs are available at the library of the Paris campus. Rooms are also available at the Greenville Center and at the Sulphur Springs Center.

You must attend class and complete the First Assignment located in Blackboard before **Sept. 9, 2026** at midnight in order to remain in the class. Students who have not attended or who do not complete the assignment by the due date will be dropped from this class.

Students must obtain a Cengage Unlimited access code in order to complete the class. Your book, assignments, quizzes and exams will be available through the access code. The code can be purchased at the PJC bookstore or online. Instructions for purchasing online will be given in class.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog &

Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COSC 1436 20E0
Programming Fundamentals
Fall 2026

Instructor: Dr. Mark Kjellander
Office: GC 209
Phone: 903.782.8716
Email: mkjellander@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Office Hours: Tuesday and Thursday 1:00-4:00 or by appointment

Course Description:

Introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, functions, arrays, and the mechanics of running, testing, and debugging. Students will develop a solid understanding of fundamental programming concepts such as variables, control structures, functions, arrays, and pointers. Emphasis will be placed on writing clear, efficient, and maintainable code. Students will also gain practical experience through hands-on programming assignments and projects. This course assumes computer literacy.

3 Credit Hours: 2 Lecture Hours and 4 Lab Hours per week. Prerequisite(s): Math 1314 or Instructor's permission.

This course introduces students to the principles of structured programming using the C++ programming language.

Required Textbook(s) and Materials:

An Introduction to Programming with C++, 8th Edition by Diane Zak. You will receive an email with ebook information. Microsoft Visual Studio is required and can be downloaded from <https://visualstudio.microsoft.com/vs/>

Course Goals and Objectives:

Course Level Outcomes

- Describe how data are represented, manipulated, and stored in a computer.
- Categorize different programming languages and their uses.
- Understand and use the fundamental concepts of data types, structured programming, algorithmic design and user interface design.
- Demonstrate a fundamental understanding of software development methodologies, including modular design, pseudocode, flowcharting, structure charts, data types, control structures, functions, and arrays.
- Develop projects that utilize logical algorithms from specifications and requirements statements.
- Demonstrate appropriate design, coding, testing, and documenting of computer programs that implement project specifications and requirements.
- Apply computer programming concepts to new problems or situations.

Program Level Student Learning Outcomes

- Declare valid identifiers with appropriate data types.

- Create input/output data using (cout/cin) objects and file objects.
- Construct control structures - if statements, flags, logical operators, switch statements with appropriate arithmetic/relational operators.
- Produce looping/repetition structures - while loops, do-while loops, for loops.
- Create and use functions - void, value-returning, pass-by-reference.
- Create and process one-dimensional arrays.
- Demonstrate flow-charting, structure charts, and/or pseudocode techniques in program design.
- Construct programs using appropriate programming style.
- Apply integrated software to create, debug, and compile programs.
- Format output data.
- Process character arrays (c-strings), vectors, and the C++ string class.

Course Requirements and Evaluation:

Each unit consists of reading, visualize (short videos), coding (programming assignments), study (PowerPoints and flashcards), and a multiple-choice test. Programming assignments make up 50% of the course grade, three exams make up 25%, and multiple-choice tests make up 25%.

COURSE GRADE = Total points earned / total points possible.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Due dates are outlined in MindTap. If a student misses a due date on a multiple-choice test or lab assignment, the work may be completed within two weeks with a 10% penalty. Exams are available in Blackboard for one week. Prior arrangements must be made if a student cannot take an exam during the scheduled week. Once the exam period has passed, a 20% penalty applies if prior arrangements were not made.

Class Attendance:

Class attendance is critical for the successful completion of this course. Students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. Class participation is measured by completion and submission of assignments. Students missing 10% of the course content (assignments, exams, and tests) will be reported to the appropriate office for excessive absence and at-risk academic progress.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be

referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Course-specific expectation: Students are responsible for understanding all work they submit, including AI-assisted programming work. Misuse of AI or other resources in a manner that violates the course AI Acceptable Use Policy may result in academic sanctions consistent with PJC policy.

AI acceptable use policy

1. Purpose of the Policy

The goal of this policy is to clarify how AI tools can be utilized in the context of the course while preserving the principles of academic honesty and maximizing student learning outcomes. It is designed to ensure that students understand their responsibilities when using AI-powered tools such as code generators, debuggers, and assistants like ChatGPT, GitHub Copilot, or similar technologies.

2. Acceptable Uses of AI Tools

AI tools can be used to support learning, creativity, and skill development in the following ways:

Code Suggestions: You may use AI tools like GitHub Copilot to suggest code snippets or structures.

However, you are responsible for fully understanding any code suggested by AI tools and ensuring that it meets the course's requirements.

Debugging Assistance: AI-powered debuggers may be used to identify and fix errors in your code. You must still submit a final explanation of the issue and describe how it was resolved.

Learning Enhancement: AI tools can help clarify programming concepts, offer examples, and explain complex algorithms. These tools should be used to supplement learning, not replace individual problem-solving efforts.

Documentation and Commenting: Using AI to help generate explanations for your code (e.g., writing comments) is allowed, provided that the comments reflect the true purpose and functionality of your code.

3. Prohibited Uses of AI Tools

The following uses of AI tools are prohibited and will be considered violations of academic integrity:

Full Code Generation: Submitting code that is entirely or primarily generated by AI, without any modifications or understanding of its logic, is not permitted. Any AI-generated content must be thoroughly reviewed and adapted by the student.

Automated Assignment Completion: Using AI tools to generate answers or complete assignments without meaningful personal input is not allowed. This includes but is not limited to project work, problem sets, and coding challenges.

Plagiarism via AI: Copying AI-generated solutions or explanations and submitting them as your own without proper citation will be treated as plagiarism. Any AI assistance should be properly acknowledged (see Section 5 on Attribution).

Avoiding Learning: Using AI tools to bypass the learning objectives of the course, such as solving problems without putting in personal effort to understand the solution, is considered a violation.

4. Expectations for Student Code

Understanding Your Code: Whether AI-assisted or not, you are responsible for understanding every line of code you submit. You should be prepared to explain how your code works during discussions, in exams, or upon request.

Originality of Work: Your submissions must reflect your own work. While AI tools can assist in generating ideas or improving code, the bulk of the solution should represent your personal understanding and effort.

5. Attribution and Transparency

Students are required to acknowledge the use of AI tools in their assignments. If you used an AI tool, provide a brief note in your code or submission specifying:

Which AI tool was used.

How the AI assisted you (e.g., debugging, code suggestion, concept explanation).

What specific parts of the code were influenced by AI?

6. Academic Integrity

Misuse of AI tools to complete assignments dishonestly will be treated as academic misconduct. Violations of this policy will be dealt with according to the PJC's academic integrity guidelines, which may result in consequences such as:

Receiving a zero for the assignment.

Course failure.

Further disciplinary actions as outlined by the PJC honor code.

7. Ethical Considerations

Students are encouraged to use AI tools ethically and responsibly, keeping the following in mind:

Over-Reliance: Do not become dependent on AI tools for learning programming. The goal of the course is to develop critical thinking skills and a deep understanding of computer science fundamentals, which cannot be outsourced to an AI.

Bias and Limitations of AI: AI tools may sometimes produce incorrect or biased results. Always critically evaluate the outputs of these tools and double-check their suggestions.

8. Support and Guidance

If you are unsure about the acceptable use of AI tools for a specific assignment or task, please consult with the course instructor or teaching assistants before proceeding. We are here to help guide you on proper usage and support your learning journey.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of syllabus changes through Blackboard and/or PJC student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

COSC 1436 20E0
Programming Fundamentals
Fall 2026

Instructor: Dr. Mark Kjellander
Office: GC 209
Phone: 903.782.8716
Email: mkjellander@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Office Hours: Tuesday and Thursday 1:00-4:00 or by appointment

Course Description:

Introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, functions, arrays, and the mechanics of running, testing, and debugging. Students will develop a solid understanding of fundamental programming concepts such as variables, control structures, functions, arrays, and pointers. Emphasis will be placed on writing clear, efficient, and maintainable code. Students will also gain practical experience through hands-on programming assignments and projects. This course assumes computer literacy.

3 Credit Hours: 2 Lecture Hours and 4 Lab Hours per week. Prerequisite(s): Math 1314 or Instructor's permission.

This course introduces students to the principles of structured programming using the C++ programming language.

Required Textbook(s) and Materials:

An Introduction to Programming with C++, 8th Edition by Diane Zak. You will receive an email with ebook information. Microsoft Visual Studio is required and can be downloaded from <https://visualstudio.microsoft.com/vs/>

Course Goals and Objectives:

Course Level Outcomes

- Describe how data are represented, manipulated, and stored in a computer.
- Categorize different programming languages and their uses.
- Understand and use the fundamental concepts of data types, structured programming, algorithmic design and user interface design.
- Demonstrate a fundamental understanding of software development methodologies, including modular design, pseudocode, flowcharting, structure charts, data types, control structures, functions, and arrays.
- Develop projects that utilize logical algorithms from specifications and requirements statements.
- Demonstrate appropriate design, coding, testing, and documenting of computer programs that implement project specifications and requirements.
- Apply computer programming concepts to new problems or situations.

Program Level Student Learning Outcomes

- Declare valid identifiers with appropriate data types.

- Create input/output data using (cout/cin) objects and file objects.
- Construct control structures - if statements, flags, logical operators, switch statements with appropriate arithmetic/relational operators.
- Produce looping/repetition structures - while loops, do-while loops, for loops.
- Create and use functions - void, value-returning, pass-by-reference.
- Create and process one-dimensional arrays.
- Demonstrate flow-charting, structure charts, and/or pseudocode techniques in program design.
- Construct programs using appropriate programming style.
- Apply integrated software to create, debug, and compile programs.
- Format output data.
- Process character arrays (c-strings), vectors, and the C++ string class.

Course Requirements and Evaluation:

Each unit consists of reading, visualize (short videos), coding (programming assignments), study (PowerPoints and flashcards), and a multiple-choice test. Programming assignments make up 50% of the course grade, three exams make up 25%, and multiple-choice tests make up 25%.

COURSE GRADE = Total points earned / total points possible.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Due dates are outlined in MindTap. If a student misses a due date on a multiple-choice test or lab assignment, the work may be completed within two weeks with a 10% penalty. Exams are available in Blackboard for one week. Prior arrangements must be made if a student cannot take an exam during the scheduled week. Once the exam period has passed, a 20% penalty applies if prior arrangements were not made.

Class Attendance:

Class attendance is critical for the successful completion of this course. Students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. Class participation is measured by completion and submission of assignments. Students missing 10% of the course content (assignments, exams, and tests) will be reported to the appropriate office for excessive absence and at-risk academic progress.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be

referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Course-specific expectation: Students are responsible for understanding all work they submit, including AI-assisted programming work. Misuse of AI or other resources in a manner that violates the course AI Acceptable Use Policy may result in academic sanctions consistent with PJC policy.

AI acceptable use policy

1. Purpose of the Policy

The goal of this policy is to clarify how AI tools can be utilized in the context of the course while preserving the principles of academic honesty and maximizing student learning outcomes. It is designed to ensure that students understand their responsibilities when using AI-powered tools such as code generators, debuggers, and assistants like ChatGPT, GitHub Copilot, or similar technologies.

2. Acceptable Uses of AI Tools

AI tools can be used to support learning, creativity, and skill development in the following ways:

Code Suggestions: You may use AI tools like GitHub Copilot to suggest code snippets or structures.

However, you are responsible for fully understanding any code suggested by AI tools and ensuring that it meets the course's requirements.

Debugging Assistance: AI-powered debuggers may be used to identify and fix errors in your code. You must still submit a final explanation of the issue and describe how it was resolved.

Learning Enhancement: AI tools can help clarify programming concepts, offer examples, and explain complex algorithms. These tools should be used to supplement learning, not replace individual problem-solving efforts.

Documentation and Commenting: Using AI to help generate explanations for your code (e.g., writing comments) is allowed, provided that the comments reflect the true purpose and functionality of your code.

3. Prohibited Uses of AI Tools

The following uses of AI tools are prohibited and will be considered violations of academic integrity:

Full Code Generation: Submitting code that is entirely or primarily generated by AI, without any modifications or understanding of its logic, is not permitted. Any AI-generated content must be thoroughly reviewed and adapted by the student.

Automated Assignment Completion: Using AI tools to generate answers or complete assignments without meaningful personal input is not allowed. This includes but is not limited to project work, problem sets, and coding challenges.

Plagiarism via AI: Copying AI-generated solutions or explanations and submitting them as your own without proper citation will be treated as plagiarism. Any AI assistance should be properly acknowledged (see Section 5 on Attribution).

Avoiding Learning: Using AI tools to bypass the learning objectives of the course, such as solving problems without putting in personal effort to understand the solution, is considered a violation.

4. Expectations for Student Code

Understanding Your Code: Whether AI-assisted or not, you are responsible for understanding every line of code you submit. You should be prepared to explain how your code works during discussions, in exams, or upon request.

Originality of Work: Your submissions must reflect your own work. While AI tools can assist in generating ideas or improving code, the bulk of the solution should represent your personal understanding and effort.

5. Attribution and Transparency

Students are required to acknowledge the use of AI tools in their assignments. If you used an AI tool, provide a brief note in your code or submission specifying:

Which AI tool was used.

How the AI assisted you (e.g., debugging, code suggestion, concept explanation).

What specific parts of the code were influenced by AI?

6. Academic Integrity

Misuse of AI tools to complete assignments dishonestly will be treated as academic misconduct. Violations of this policy will be dealt with according to the PJC's academic integrity guidelines, which may result in consequences such as:

Receiving a zero for the assignment.

Course failure.

Further disciplinary actions as outlined by the PJC honor code.

7. Ethical Considerations

Students are encouraged to use AI tools ethically and responsibly, keeping the following in mind:

Over-Reliance: Do not become dependent on AI tools for learning programming. The goal of the course is to develop critical thinking skills and a deep understanding of computer science fundamentals, which cannot be outsourced to an AI.

Bias and Limitations of AI: AI tools may sometimes produce incorrect or biased results. Always critically evaluate the outputs of these tools and double-check their suggestions.

8. Support and Guidance

If you are unsure about the acceptable use of AI tools for a specific assignment or task, please consult with the course instructor or teaching assistants before proceeding. We are here to help guide you on proper usage and support your learning journey.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

Course Schedule/Weekly Lesson Plan:

COSC 1301 10J0
Introduction To Computing
Fall 2026

Instructor: Cedric Crawford

Office: AS 141

Phone: 903-782-0359

Email: ccrawford@parisjc.edu

Office Hours: Monday and Wednesday 12:30pm – 1pm & 4:30pm – 5:00pm

Tuesday and Thursday 12pm – 1pm & 4:00pm – 4:30pm

Meeting Location: AS/142

Meeting Days: Tuesday & Thursday

Meeting Times: 8am -10am

Course Description:

Overview of computer systems hardware, operating systems, and microcomputer application software, including the Internet, word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other modern settings are also studied.

3 Credit Hours 2 Lecture Hours 2 Lab Hours

Required Textbook(s) and Materials:

This class is a part of the Inclusive Access program. This means that unless you opt out, your book and materials are provided. You may also need a USB Flash drive to save your assignments if you are working on a public computer (including the computers in Paris, Greenville, and Sulphur Springs centers.)

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Describe the fundamentals of computing infrastructure components: hardware, application software, operating systems, and data communications systems.
2. Delineate and discuss societal issues related to computing, including the guiding principles of professional and ethical behavior.
3. Demonstrate the ability to create and use documents, spreadsheets, presentations and databases in order to communicate and store information as well as to support problem solving.
4. Describe the need and ways to maintain security in a computing environment.

Course Requirements and Evaluation:

All Projects and Final Exam have a due date that should be followed. Please see calendar above for further details.

Make sure that you keep up! *Failure to do so usually results in a failing grade.*

The following formula/criteria will be used to determine your Final Course Grade:

40% EXAM

60% Simbook Let Me Try, Guided and Independent Projects

COURSE GRADE = (Average Exam * .40) + (Average Assignments * .60)

GRADE SCALE is based on calculated Course average:

90 – 100 = A

80 – 89 = B

70 – 79 = C

60 – 69 = D

0 – 59 = F

EXAM (40%):

Exams demonstrate the student's acquired skill of a software application. There will be one Final Exam.

ASSIGNMENTS (60%):

There will be Simbook Let Me Try, Guided and Independent Projects for each Chapter.

Required Activity:

All students must complete the **First Assignment** located in the "**Course Content**" section of Blackboard by **11:59 p.m. on the day prior to the Official Reporting Day (ORD) Oct. 26th 2026**. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course will meet via the Internet through the Blackboard [Bb] Learning Management System and SIMnet.

REQUIREMENTS:

1. Students **MUST** understand that technical problems are not reasons for missing deadlines or due dates.
 - It is the student's responsibility to maintain reliable computer equipment and internet service.
 - It is the student's responsibility to attempt assignments in a timely manner, giving them enough time to complete the assignment.

2. Students **MUST** be **independent, self-motivated learners** to be successful in an internet or hybrid course.
3. Students **MUST** be excellent time managers, seldom miss deadlines, and schedule adequate time each week to complete the course requirements.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24th 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Students will be informed via an announcement on Blackboard and through their student email address.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Students will be informed via an announcement on Blackboard and through their student email address.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 Aug. 24 – Aug. 25	First Assignment & Technology In Action	Complete First Assignment Quiz & Technology In Action
Week 1 Aug. 26 – Aug 27	File Management/ Window/Outlook	File Management/ Window/Outlook
Week 1 Aug. 27	Generative AI	Generative AI
Week 2 Aug. 31 – Sept. 1	Word 1-Creating and Editing Documents	Word 1 Simbook Let Me Try, Guided and Independent Projects
Week 2 Sept. 2 – Sept. 4	Word 2-Creating a Research Paper	Word 2 Simbook Try Me, Guided and Independent Projects
Week 3 Sept. 7 – Sept. 9	Word 3 – Collaborating and Editing Presentations	Word 3 Simbook Try Me, Guided and Independent Projects
Week 3 Sept. 10 – Sept. 11	PowerPoint 1- Creating and Editing Presentations	PowerPoint 1 Simbook Try Me, Guided and Independent Projects
Week 4 Sept. 14 – Sept. 15	PowerPoint 2 -Illustrating with Pictures and Information Graphics	PowerPoint 2 Simbook Try Me, Guided and Independent Projects
Week 4 Sept. 16 – Sept. 18	PowerPoint 3 - Preparing for Delivery and Using Slide Presentations	PowerPoint 3 Simbook Try Me, Guided and Independent Projects
Week 5 Sept. 21 – Sept. 22	Excel 1 Creating and Editing Workbooks	Excel 1 Simbook Try Me, Guided and Independent Projects
Week 5 Sept. 23 – Sept. 25	Excel 2-Working with Formulas and Functions	Excel 2 Simbook Try Me, Guided and Independent Projects
Week 6 Sept. 28 – Sept. 30	Excel 3 -Creating and Editing Charts	Excel 3 Simbook Try Me, Guided and Independent Projects
Week 6 Oct. 1 – Oct. 2	Access 1- Creating a Database and Tables	Access 1 Simbook Try Me, Guided and Independent Projects
Week 7 Oct. 5 – Oct. 6	Access 2- Using Design View, Data Validation and Relationships	Access 2 Simbook Try Me, Guided and Independent Projects
Week 7 Oct. 7 – Oct. 8	Access 3 - Creating and Using Queries	Access 3 Simbook Try Me, Guided and Independent Projects
Week 8 Oct. 12 – Oct.15	Final Exam	Comprehensive exam

COSC 1301 25D0
Introduction To Computing
Fall 2026

Instructor: Cedric Crawford

Office: AS 141

Phone: 903-782-0359

Email: ccrawford@parisjc.edu

Office Hours: Monday and Wednesday 12:30pm – 1pm & 4:30pm – 5:00pm

Tuesday and Thursday 12pm – 1pm & 4:00pm – 4:30pm

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Overview of computer systems hardware, operating systems, and microcomputer application software, including the Internet, word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other modern settings are also studied.

3 Credit Hours 2 Lecture Hours 2 Lab Hours

Required Textbook(s) and Materials:

This class is a part of the Inclusive Access program. This means that unless you opt out, your book and materials are provided. You may also need a USB Flash drive to save your assignments if you are working on a public computer (including the computers in Paris, Greenville, and Sulphur Springs centers.)

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Describe the fundamentals of computing infrastructure components: hardware, application software, operating systems, and data communications systems.
2. Delineate and discuss societal issues related to computing, including the guiding principles of professional and ethical behavior.
3. Demonstrate the ability to create and use documents, spreadsheets, presentations and databases in order to communicate and store information as well as to support problem solving.
4. Describe the need and ways to maintain security in a computing environment.

Course Requirements and Evaluation:

All Projects and Final Exam have a due date that should be followed. Please see calendar above for further details.

Make sure that you keep up! *Failure to do so usually results in a failing grade.*

The following formula/criteria will be used to determine your Final Course Grade:

40% EXAM

60% Simbook Let Me Try, Independent Projects, Challenge Projects and Capstones

COURSE GRADE = (Average Exam * .40) + (Average Assignments * .60)

GRADE SCALE is based on calculated Course average:

90 – 100 = A

80 – 89 = B

70 – 79 = C

60 – 69 = D

0 – 59 = F

EXAM (40%):

Exams demonstrate the student's acquired skill of a software application. There will be one Final Exam.

ASSIGNMENTS (60%):

There will be Simbook Let Me Try, Independent Projects, Challenge Projects for each Chapter.

Required Activity:

All students must complete the **First Assignment** located in the "**Course Content**" section of Blackboard by **11:59 p.m. on the day prior to the Official Reporting Day (ORD) Sept. 9th 2026**. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course will meet via the Internet through the Blackboard [Bb] Learning Management System and SIMnet.

REQUIREMENTS:

1. Students **MUST** understand that technical problems are not reasons for missing deadlines or due dates.
 - It is the student's responsibility to maintain reliable computer equipment and internet service.
 - It is the student's responsibility to attempt assignments in a timely manner, giving them enough time to complete the assignment.

2. Students **MUST** be **independent, self-motivated learners** to be successful in an internet or hybrid course.
3. Students **MUST** be excellent time managers, seldom miss deadlines, and schedule adequate time each week to complete the course requirements.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12th 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Students will be informed via an announcement on Blackboard and through their student email address.

COSC 1301.40H0
Introduction to Computing
Fall A 2026

Instructor: Dr. Mark Kjellander
Office: GC 209
Phone: 903.782.8716
Email: mkjellander@parisjc.edu

Office Hours: Monday and Wednesday by appointment

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Introduces and develops foundational skills in applying essential and emerging business productivity information technology tools. The focus of this course is on business productivity software applications, including word processing, spreadsheets, databases, presentation graphics, data analytics, and business-oriented utilization of the internet.

3 Credit Hours: 2 Lecture Hours and 2 Lab Hours per week.

Required Textbook(s) and Materials:

*This class is part of the Inclusive Access program. Unless you opt out, your materials are provided. You will have access to a digital version of In Practice, Nordell – Office Intro, on the McGraw-Hill SIMnet® online platform. SIMnet teaches Microsoft Office skills and computing concepts. A USB flash drive may also be needed to save assignments when working on a public computer, including computers at the Paris, Greenville, and Sulphur Springs centers. Inclusive Access information:
<https://www.parisjc.edu/main/inclusive-access/>*

Course Goals and Objectives:

Upon successful completion of this course, students will:

- 1. Describe the fundamentals of information technology concepts - hardware, software, security, and privacy.*
- 2. Demonstrate proper file management techniques to manipulate electronic files and folders in local, network, and online environments.*
- 3. Create business documents with word processing software using spelling and grammar check, format and layout, tables, citations, graphics, and mail merge.*
- 4. Create business documents and analyze data with spreadsheet software using tables, sorting, filtering, charts and graphics, pivot tables, macros, statistical, financial, logical and look-up functions and formulas, and add-ins.*
- 5. Create business multimedia presentations with presentation software using templates, lists, groups, themes, colors, clip art, pictures, tables, transitions, animation, video, charts, and views.*
- 6. Create databases and manage data with database software using tables, fields, relationships, indexes, keys, views, queries, forms, reports, and import/export functions.*
- 7. Integrate business software applications.*
- 8. Use web-based technologies to conduct ethical business research.*
- 9. Use goal seeking and what-if analysis to solve problems and make adjustments/recommendations in a business environment.*

Course Requirements and Evaluation:

All assignments have completion dates that should be followed. The grade shown in SIMnet and Blackboard reflects submitted work; before progress reports, midterm grades, or final grades are submitted, a zero may be entered for work that is due but not submitted. Students should keep up with completion dates because projects can be time consuming.

Final Course Grade:

35% Exams

45% Independent and Challenge Projects

20% Let Me Try

Grade Scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D; 0-59 = F.

Exams: Three application exams and one comprehensive final exam are scheduled in SIMnet for Word, PowerPoint, Excel, and Access. Students have two attempts on application exams and one attempt on the final exam.

Assignments: An Independent and Challenge project is assigned for each Word, PowerPoint, and Excel chapter. Students may correct the original document and resubmit one time after receiving feedback.

Let Me Try: SIMbook/SIMnet activities are graded for completion. Show Me and Guide Me activities support learning but are not graded.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets via the Internet through Blackboard and SIMnet. Students are responsible for reliable computer equipment and internet service, attempting assignments early enough to address technical problems, managing their time effectively, and possessing the computer skills necessary to use internet sites, manage files, use applications, browsers, email, and system utilities. Technical problems do not excuse missed deadlines. Students experiencing personal computer or internet problems are expected to use available PJC computer labs. Students should read and comply with course announcements, documents, and instructions. For Blackboard login or computer issues, contact techsupport@parisjc.edu.

Class Attendance:

Class attendance is critical for successful completion of this course. For this online course, attendance is measured through timely participation and completion of course work. Attendance will be checked weekly, and students who complete no work during a week may be counted absent. Withdrawals must be initiated by the student. The official withdrawal deadline for Fall A 2026 should be verified through the PJC academic calendar/Blackboard.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. 9/13	Creating and Editing Presentations	Reading; Let Me Try; Independent Project 1-5; Challenge Yourself 1.4
9/20	Illustrating with Pictures and Information Graphics	Reading; Let Me Try; Independent Project 2-6; Challenge Yourself 2.4
9/20	Preparing for Delivery and Using a Slide Presentation; PowerPoint Exam	Reading; Let Me Try; Independent Project 3-7; Challenge Yourself 3.4
9/27	Creating and Editing Workbooks	Reading; Let Me Try; Independent Project 1-6; Challenge Yourself 1.3
9/27	Working with Formulas and Functions	Reading; Let Me Try; Independent Project 2-5; Challenge Yourself 2.4
9/27	Creating and Editing Charts	Reading; Let Me Try; Independent Project 3-4; Challenge Yourself 3.3
10/4	Getting and Managing Data; Excel Exam	Reading; Let Me Try; Independent Project 4-5; Challenge Yourself 4.3
10/4	Access - Creating a Database, Tables, Data Validation, Relationships, and Queries	Reading and Let Me Try
10/15	Comprehensive Final Exam	Final Exam

COSC 1336.765
Programming Fundamentals
Fall 2026

Instructor: Dr. Mark Kjellander
Office: GC 209
Phone: 903.782.8716
Email: mkjellander@parisjc.edu

Meeting Location: GVHS
Meeting Days: Tuesday/Thursday
Meeting Times: 8:00-9:20

Office Hours: Tuesday and Thursday 1:00-4:00 or by appointment

Course Description:

Introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, functions, arrays, and the mechanics of running, testing, and debugging. Students will develop a solid understanding of fundamental programming concepts such as variables, control structures, functions, arrays, and pointers. Emphasis will be placed on writing clear, efficient, and maintainable code. Students will also gain practical experience through hands-on programming assignments and projects. This course assumes computer literacy.

3 Credit Hours: 2 Lecture Hours and 4 Lab Hours per week. Prerequisite(s): Math 1314 or Instructor's permission.

This course introduces students to the principles of structured programming using the C++ programming language.

Required Textbook(s) and Materials:

An Introduction to Programming with C++, 8th Edition by Diane Zak. You will receive an email with ebook information. Microsoft Visual Studio is required and can be downloaded from <https://visualstudio.microsoft.com/vs/>

Course Goals and Objectives:

Course Level Outcomes

- *Describe how data are represented, manipulated, and stored in a computer.*
- *Categorize different programming languages and their uses.*
- *Understand and use the fundamental concepts of data types, structured programming, algorithmic design and user interface design.*
- *Demonstrate a fundamental understanding of software development methodologies, including modular design, pseudocode, flowcharting, structure charts, data types, control structures, functions, and arrays.*
- *Develop projects that utilize logical algorithms from specifications and requirements statements.*
- *Demonstrate appropriate design, coding, testing, and documenting of computer programs that implement project specifications and requirements.*
- *Apply computer programming concepts to new problems or situations.*

Program Level Student Learning Outcomes

- *Declare valid identifiers with appropriate data types.*

- Create input/output data using (cout/cin) objects and file objects.
- Construct control structures - if statements, flags, logical operators, switch statements with appropriate arithmetic/relational operators.
- Produce looping/repetition structures - while loops, do-while loops, for loops.
- Create and use functions - void, value-returning, pass-by-reference.
- Create and process one-dimensional arrays.
- Demonstrate flow-charting, structure charts, and/or pseudocode techniques in program design.
- Construct programs using appropriate programming style.
- Apply integrated software to create, debug, and compile programs.
- Format output data.
- Process character arrays (c-strings), vectors, and the C++ string class.

Course Requirements and Evaluation:

Each unit consists of reading, visualize (short videos), coding (programming assignments), study (PowerPoints and flashcards), and a multiple-choice test. Programming assignments make up 50% of the course grade, three exams make up 25%, and multiple-choice tests make up 25%.

COURSE GRADE = Total points earned / total points possible.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Due dates are outlined in MindTap. If a student misses a due date on a multiple-choice test or lab assignment, the work may be completed within two weeks with a 10% penalty. Exams are available in Blackboard for one week. Prior arrangements must be made if a student cannot take an exam during the scheduled week. Once the exam period has passed, a 20% penalty applies if prior arrangements were not made.

Class Attendance:

Class attendance is critical for the successful completion of this course. Students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. Class participation is measured by completion and submission of assignments. Students missing 10% of the course content (assignments, exams, and tests) will be reported to the appropriate office for excessive absence and at-risk academic progress.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be

referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Course-specific expectation: Students are responsible for understanding all work they submit, including AI-assisted programming work. Misuse of AI or other resources in a manner that violates the course AI Acceptable Use Policy may result in academic sanctions consistent with PJC policy.

AI acceptable use policy

1. Purpose of the Policy

The goal of this policy is to clarify how AI tools can be utilized in the context of the course while preserving the principles of academic honesty and maximizing student learning outcomes. It is designed to ensure that students understand their responsibilities when using AI-powered tools such as code generators, debuggers, and assistants like ChatGPT, GitHub Copilot, or similar technologies.

2. Acceptable Uses of AI Tools

AI tools can be used to support learning, creativity, and skill development in the following ways:

Code Suggestions: You may use AI tools like GitHub Copilot to suggest code snippets or structures.

However, you are responsible for fully understanding any code suggested by AI tools and ensuring that it meets the course's requirements.

Debugging Assistance: AI-powered debuggers may be used to identify and fix errors in your code. You must still submit a final explanation of the issue and describe how it was resolved.

Learning Enhancement: AI tools can help clarify programming concepts, offer examples, and explain complex algorithms. These tools should be used to supplement learning, not replace individual problem-solving efforts.

Documentation and Commenting: Using AI to help generate explanations for your code (e.g., writing comments) is allowed, provided that the comments reflect the true purpose and functionality of your code.

3. Prohibited Uses of AI Tools

The following uses of AI tools are prohibited and will be considered violations of academic integrity:

Full Code Generation: Submitting code that is entirely or primarily generated by AI, without any modifications or understanding of its logic, is not permitted. Any AI-generated content must be thoroughly reviewed and adapted by the student.

Automated Assignment Completion: Using AI tools to generate answers or complete assignments without meaningful personal input is not allowed. This includes but is not limited to project work, problem sets, and coding challenges.

Plagiarism via AI: Copying AI-generated solutions or explanations and submitting them as your own without proper citation will be treated as plagiarism. Any AI assistance should be properly acknowledged (see Section 5 on Attribution).

Avoiding Learning: Using AI tools to bypass the learning objectives of the course, such as solving problems without putting in personal effort to understand the solution, is considered a violation.

4. Expectations for Student Code

Understanding Your Code: Whether AI-assisted or not, you are responsible for understanding every line of code you submit. You should be prepared to explain how your code works during discussions, in exams, or upon request.

Originality of Work: Your submissions must reflect your own work. While AI tools can assist in generating ideas or improving code, the bulk of the solution should represent your personal understanding and effort.

5. Attribution and Transparency

Students are required to acknowledge the use of AI tools in their assignments. If you used an AI tool, provide a brief note in your code or submission specifying:

Which AI tool was used.

How the AI assisted you (e.g., debugging, code suggestion, concept explanation).

What specific parts of the code were influenced by AI?

6. Academic Integrity

Misuse of AI tools to complete assignments dishonestly will be treated as academic misconduct. Violations of this policy will be dealt with according to the PJC's academic integrity guidelines, which may result in consequences such as:

Receiving a zero for the assignment.

Course failure.

Further disciplinary actions as outlined by the PJC honor code.

7. Ethical Considerations

Students are encouraged to use AI tools ethically and responsibly, keeping the following in mind:

Over-Reliance: Do not become dependent on AI tools for learning programming. The goal of the course is to develop critical thinking skills and a deep understanding of computer science fundamentals, which cannot be outsourced to an AI.

Bias and Limitations of AI: AI tools may sometimes produce incorrect or biased results. Always critically evaluate the outputs of these tools and double-check their suggestions.

8. Support and Guidance

If you are unsure about the acceptable use of AI tools for a specific assignment or task, please consult with the course instructor or teaching assistants before proceeding. We are here to help guide you on proper usage and support your learning journey.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of syllabus changes through Blackboard and/or PJC student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:
See course shell.

CRIJ 1301.91A0
Introduction to Criminal Justice
Fall 2026

Instructor: Lauren M. Mullens

Office: RCHS CCA Room 242

Phone: 972.636.9991

Email: lmullens@parisjc.edu

Office Hours: M-F 2:53 p.m. – 3:40 p.m.

Meeting Location: Royse City High School CCA 242

Meeting Days: M,Tu,W,Th,F

Meeting Times: 2:00 p.m. – 2:47 p.m.

Course Description:

This course is a study of the history and philosophy of criminal justice including ethical considerations. Topics include the definition of crime, the nature and impact of crime, an overview of the criminal justice system, law enforcement, court system, prosecution and defense, trial process, and corrections.

Credits: 3 SCH (Semester Credit Hours)

Prerequisite(s): None

TSI Requirement: College Ready in Reading and Writing (or TSI Complete in ELAR)

Note: ACGM courses typically require TSI compliance or waiver.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Criminal Justice: An Introduction, 14th Edition by Frank Schmallenger

ISBN: **99780138105358 (eText)**

Course Goals and Objectives:

Upon successful completion of this course, students should be able to:

- 1. Describe the history and philosophy of the American criminal justice system.*
- 2. Explain the nature and extent of crime in America.*
- 3. Analyze the impact and consequences of crime.*
- 4. Evaluate the development, concepts, and functions of law in the criminal justice system.*

Course Requirements and Evaluation:

Required Assignments

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more details.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion Board, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Quizzes

*There are **14 Chapter Quizzes** during the semester (14x50pts). Each quiz will consist of multiple-choice or T/F questions and **will be administered on Blackboard**. Each of these questions will vary in points. Students will have 7 DAYS to complete the weekly exam. No late work will be accepted and it is up to the student to keep up with ALL deadlines. Makeup quizzes will NOT be given, unless a student contacted me before the exam.*

Exams

*There are **2 Exams** during the semester (2x100pts). Each exam will consist of multiple-choice or T/F questions and **will be administered on Blackboard**. Each of these questions will vary in points. Makeup exams will NOT be given, unless a student contacted me before the exam. Students will have 7 days to complete the mid-term examination and the final examination will be administered in class at the instructor’s discretion.*

Discussion Boards

*Students will complete **four (4)** asynchronous online discussion boards (4x25pts) throughout the semester to evaluate their critical thinking, textbook synthesis, and ability to construct evidence-based arguments. For each assignment, students must submit one initial response (250–300 words) addressing the prompt and one substantive peer reply to a classmate who took an opposing viewpoint. Posts must integrate formal in-text citations from the textbook, adhere to academic tone, and demonstrate clear grammar, spelling, and organization. No late work will be accepted and it is up to the student to keep up with ALL deadlines.*

Grading

Categories	Points Possible	Percentage
Chapter Quizzes (14x50 pts ea.)	700	70
Discussion Boards (4x25 pts ea.)	100	10
Mid-Term and Final Exams (2x100 pts.)	200	20
Total Possible	1000	100

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division

Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. **Do not attend class if you have a fever (100.4°F or higher).**

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week	Dates	Topics, Readings, Assignments, Deadlines
1	08/24- 08/28	What is Criminal Justice - <i>Read Chapter 1</i> (Ch. 1 Quiz)
2	08/31- 09/04	The Crime Picture - <i>Read Chapter 2</i> (Ch. 2 Quiz; Discussion Board #1)
	09/07	Labor Day- NO SCHOOL
3	09/08- 09/11	Criminal Law - <i>Read Chapters 3</i> (Ch. 3 Quiz)
4	09/14- 09/18	Policing: Agencies and Structure- <i>Read Chapter 4</i> (Ch. 4 Quiz)
5	09/21- 09/25	Policing: Purpose and Organization - <i>Read Chapter 5</i> (Ch. 5 Quiz)
6	09/28- 10/02	Policing: Legal Aspects - <i>Read Chapter 6</i> (Ch. 6 Quiz)
7	10/05- 10/09	Policing: Issues and Challenges - <i>Read Chapter 7</i> (Ch. 7 Quiz; Discussion Board #2)
8	10/12- 10/16	The Courts: Structure and Participants - <i>Read Chapter 8</i> (Ch. 8 Quiz; *** Mid-Term EXAM ***)
9	10/19- 10/23	Pretrial Activities and the Criminal Trial- <i>Read Chapter 9</i> (Ch. 9 Quiz)
10	10/26- 10/30	Sentencing - <i>Read Chapter 10</i> (Ch. 10 Quiz; Discussion Board #3)
11	11/02- 11/06	Probation, Parole, and Community Corrections - <i>Read Chapters 11</i> (Ch. 11 Quiz)
12	11/09- 11/13	Prisons and Jails - <i>Read Chapter 12</i> (Ch. 12 Quiz)
13	11/16- 11/20	Prison Life - <i>Read Chapter 13</i> (Ch. 13 Quiz; Discussion Board #4)
14	11/25- 11/27	Thanksgiving Break- NO SCHOOL
15	11/30- 12/04	Justice-Involved Youth- <i>Read Chapter 14</i> (Ch. 14 Quiz)
16	12/07- 12/10	FINAL EXAMS

CRIJ 2313.91A0
Correctional Systems and Practices
Fall 2026

Instructor: Lauren M. Mullens

Office: RCHS CCA Room 242

Phone: 972.636.9991

Email: lmullens@parisjc.edu

Office Hours: M-F 2:53 p.m. – 3:40 p.m.

Meeting Location: Royse City High School CCA 242

Meeting Days: M,Tu,W,Th,F

Meeting Times: 10:34 a.m. – 11:21 a.m. and 1:07 p.m. – 1:54 p.m.

Course Description:

This course is a survey of institutional and non-institutional corrections. Emphasis will be placed on the organization and operation of correctional systems; treatment and rehabilitation; populations served; Constitutional issues; and current and future issues.

Credits: 3 SCH (Semester Credit Hours)

Prerequisite(s): None

TSI Requirement: College Ready in Reading and Writing (or TSI Complete in ELAR)

Note: ACGM courses typically require TSI compliance or waiver.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Corrections- The Justice Series, 3rd Edition by Leanne Alarid and Philip Reichel

ISBN: **9780134548975 (eText)**

Course Goals and Objectives:

Upon successful completion of this course, students should be able to:

- 1. Describe the organization and operation of correctional systems and alternatives to institutionalization.*
- 2. Describe treatment and rehabilitative programs.*
- 3. Differentiate between short-term incarceration and long-term institutional environments.*
- 4. Evaluate current and future correctional issues.*
- 5. Identify the Constitutional rights applicable to the correctional setting.*

Course Requirements and Evaluation:

Required Assignments

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more detail.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion post, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Quizzes

*There are **5 Chapter Quizzes** during the semester (5x50pts). Each quiz will consist of multiple-choice or T/F questions and **will be administered on Blackboard**. Each of these questions will vary in points. Students will have 7 DAYS to complete the weekly exam. **No late work will be accepted** and it is up to the student to keep up with ALL deadlines. **Makeup quizzes will NOT be given, unless a student contacted me before the exam.***

Exams

*There is **1 Exam** during the semester (1x100pts). Each exam will consist of multiple-choice or T/F questions and **will be administered on Blackboard**. Each of these questions will vary in points. **Makeup exams will NOT be given, unless a student contacted me before the exam.** The final examination will be administered in class at the instructor’s discretion.*

Discussion Boards

*Students will complete **(12) weekly** asynchronous online discussion boards (12x25pts) throughout the semester to evaluate their critical thinking, textbook synthesis, and ability to construct evidence-based arguments. For each assignment, students must submit one initial response (250–300 words) addressing the prompt and one substantive peer reply to a classmate who took an opposing viewpoint. Posts must integrate formal in-text citations from the textbook, adhere to academic tone, and demonstrate clear grammar, spelling, and organization. **No late work will be accepted** and it is up to the student to keep up with ALL deadlines.*

Research Paper

Students will complete a brief, formal research paper (3–5 pages) evaluating a contemporary correctional issue, policy, or landmark court decision within the criminal justice system. The

*paper must be grounded in academic scholarship, requiring a minimum of three (3) peer-reviewed journal articles or official legal sources beyond the course textbook. All submissions must adhere to standard APA format (7th edition), including a title page, running head, in-text citations, and a reference list. Papers will be evaluated on the clarity of the thesis, effective integration of scholarly research, critical analysis, and college-level writing mechanics (grammar, spelling, and organization). **No late work will be accepted** and it is up to the student to keep up with ALL deadlines.*

Grading

Categories	Points Possible	Percentage
<i>Chapter Quizzes (5x50 pts ea.)</i>	<i>250</i>	<i>25</i>
<i>Exams (1x100 pts ea.)</i>	<i>100</i>	<i>10</i>
<i>Discussion Boards (12x25 pts ea.)</i>	<i>300</i>	<i>30</i>
<i>Research Paper</i>	<i>350</i>	<i>35</i>
<i>Total Possible</i>	<i>1000</i>	<i>100</i>

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is

not responsible for missed communications due to a student's failure to check their official email account

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Meeting Days: M,Tu,W,Th,F
Meeting Times: 11:27 a.m. – 12:27 p.m.

Course Description:

This course examines the establishment, role and function of police in a democratic society. It will focus on types of police agencies and their organizational structure, police-community interaction, police ethics, and use of authority.

Credits: 3 SCH (Semester Credit Hours)

Prerequisite(s): None

TSI Requirement: College Ready in Reading and Writing (or TSI Complete in ELAR)

Note: ACGM courses typically require TSI compliance or waiver.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Policing, 4th Edition by John L. Worrall
ISBN: **9780134453514 (eText)**

Course Goals and Objectives:

Upon successful completion of this course, student should be able to:

- 1. Describe the types of police agencies and explain the role of police in America within the context of a democratic society.*
- 2. Describe means and methods utilized to ensure police accountability.*
- 3. Explain the historical development of policing.*
- 4. Describe the selection process for police officers.*
- 5. Compare and contrast organizational structures, policies, strategies and tactics employed to ensure police effectiveness, efficiency and equity.*

Course Requirements and Evaluation:

Required Assignments

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more detail.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week	Dates	Topics, Readings, Assignments, Deadlines
1	08/24- 08/28	Origins and Evolution of American Policing – <i>Read Chapter 1</i> (Discussion Board #1)
2	08/31- 09/04	Policing in the American Context – <i>Read Chapter 2</i> (Quiz: Ch. 1&2)
	09/07	Labor Day- NO SCHOOL
3	09/08- 09/11	Law Enforcement Agencies and Their Organization – <i>Read Chapter 3</i> (Discussion Board #2)
4	09/14- 09/18	Becoming a Cop – <i>Read Chapter 4</i> (Quiz: Ch. 3&4)
5	09/21- 09/25	Police Subculture – <i>Read Chapter 5</i> (Discussion Board #3)
6	09/28- 10/02	Police Discretion and Behavior – <i>Read Chapter 6</i> (Quiz: Ch. 5&6)
7	10/05- 10/09	Core Police Functions – <i>Read Chapter 7</i> (Discussion Board #4)
8	10/12- 10/16	Community Policing and Community Involvement – <i>Read Chapter 8</i> (Quiz: Ch. 7&8; ***Mid-Term Exam***)
9	10/19- 10/23	Police in the Modern Era – <i>Read Chapter 9</i> (Discussion Board #5)
10	10/26- 10/30	Policing and the Law – <i>Read Chapter 10</i> (Quiz: Ch. 9&10)

12	11/09- 11/13	Deviance, Ethics, and Professionalism – <i>Read Chapter 12</i> (Quiz: Ch. 11&12)

13	11/16- 11/20	The Use of Force – <i>Read Chapter 13</i> (Discussion Board #7; Ch. 13 Quiz; Research Paper Topic Due)
14	11/25- 11/27	Thanksgiving Break- NO SCHOOL (Research Paper)
15	11/30- 12/04	Work on Research Paper
16	12/07- 12/10	FINAL EXAMS (Research Paper Due)

PARIS JUNIOR COLLEGE

Fall 2026 Course Syllabus

Course Information

CRIJ 1301 Introduction to Criminal Justice (10L0) – 8-weeks

Location: MS-212

Schedule: Hybrid

Statements for the Texas Success Initiative (TSI)

Students are responsible for meeting Texas Success Initiative (TSI) requirements as mandated by the State of Texas. Students who are not TSI complete may be required to enroll in developmental or co-requisite support courses. Contact the Advising or Testing Center for assistance with TSI status and requirements.

Our course involves a substantial amount of reading and may feel overwhelming for students who struggle with time management, particularly in the accelerated 8-week format. The material will be covered rapidly, with multiple chapters assigned each week. Without effective time management strategies, students risk falling behind in their studies.

Professor Contact Information

Paul Guidry, Ed.D.

Email: pguidry@parisjc.edu

Phone: 903.782.0318

Office location: Math and Science Bldg. (CJ) Office #111D

Available – Monday through Thursday, 1:30pm to 4:00pm

Illness Policy:

Per **CDC guidelines**, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Pre-requisites, Co-requisites, and/or Other Restrictions

None

Course Description

This course is a study of the history and philosophy of criminal justice including ethical considerations. Topics include the definition of crime, the nature and impact of crime, an overview of the criminal justice system, law enforcement, court system, prosecution and defense, trial process, and corrections.

Exploration Objectives

 Discover how the criminal justice system works and how law enforcement, courts, and corrections work together to maintain public safety and justice.

 Examine crime and its impact on society, including why crime occurs, who is affected, and how communities respond to criminal behavior.

 Learn about policing, criminal law, and the court process, from investigations and arrests to trials, sentencing, and appeals.

 Explore corrections and rehabilitation, including probation, parole, prisons, jails, and the challenges of juvenile justice in America.

Student Learning Outcomes

Upon successful completion of this course, students should be able to:

1. Describe the history and philosophy of the American criminal justice system.
2. Explain the nature and extent of crime in America.
3. Analyze the impact and consequences of crime.
4. Evaluate the development, concepts, and functions of law in the criminal justice system.

5. Describe the structure of contemporary federal, state, and local justice agencies and processes.

PJC Inclusive Access Dragon Now Program Textbook Information

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the **Dragon Now**, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office by scanning the QR code below if you have questions about charges to your student account.

Required Textbook – PURCHASE

Criminal Justice – A Brief Introduction

Author:	Schmalleger
Edition:	14th
ISBN:	99780138105358 eText

Required First Assignment and Attendance Verification

All students are required to complete the First Assignment located in the Course Content section of Blackboard no later than 11:59 p.m. on **August 30, 2026**, the Official Reporting Day (ORD). Completion of this assignment serves as verification of active participation in the course. Students who fail to complete the assignment by the stated deadline will be reported as non-attending and may be administratively dropped from the course in accordance with college procedures.

Required Weekly Assignments & Academic Calendar

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more details.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Table 1 Course Schedule, with each week containing a weekly discussion board and quiz/quizzes.

Week	Topics, Readings, Assignments, Deadlines
------	--

1	Introduction to Criminal Justice/Syllabus Quiz
---	--

1	What is Criminal Justice - <i>Read Chapter 1</i>
---	--

2	The Crime Picture - <i>Read Chapter 2</i>
---	---

2	Criminal Law - <i>Read Chapters 3</i>
---	---------------------------------------

3	Policing: Purpose and Organization - <i>Read Chapter 4</i>
---	--

3	Policing: Legal Aspects - <i>Read Chapter 5</i>
---	---

4	Policing: Issues and Challenges - <i>Read Chapter 6</i>
---	---

4	The Courts - <i>Read Chapter 7</i>
---	------------------------------------

5	The Courtroom Work Group and the Criminal Trial - <i>Read Chapter 8</i>
---	---

- 5 Sentencing - *Read Chapter 9*
- 6 Probation, Parole, and Community Corrections - *Read Chapters 10*
- 6 Prisons and Jails - *Read Chapter 11*
- 7 Prison Life - *Read Chapter 12*
- 7 Juvenile Justice - *Read chap 13*
- 8 **Final exams week: Oct 12th –Oct 15th**

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion post, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Exams

There will be **EIGHT EXAMS** during the semester (8x75pts). In general, these exams will consist of various questions (multiple-choice, T/F, short answer essays). Each of these questions will vary in points. **All exams will be taken on Blackboard.** Students will have 7 DAYS to complete the weekly exam.

Learning Outcome Quizzes

To assess your understanding of course concepts and measure achievement of the course learning outcomes, students will complete **Four Learning Outcome Quizzes** throughout the semester. Each quiz is worth 25 points and is designed to evaluate your knowledge of key topics, critical thinking skills, and ability to apply course concepts. Quizzes may include multiple-choice, short-answer, or scenario-based questions. Students are expected to complete all quizzes by the assigned due dates. Successful performance on these assessments demonstrates progress toward meeting the course learning outcomes.

Writing Assignment

Short answer essays during chapter exams

Grading

Categories	Points	Percentage
Chapter Exams (8x75 pts ea.)	600	85
4 LO Quizzes	100	15
Total Possible	700	100

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Attendance, IT Checklist, and Email Policies:

Class Attendance Policy

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner by adhering to the weekly due dates. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st, 2026.**

Paris Junior College IT Checklist:

Technology Requirements: Students are responsible for completing the PJC IT Checklist, including activation of their DragonMail account, Microsoft Authenticator, MyPJC Portal access, Blackboard access, Microsoft Office installation, and Respondus LockDown Browser setup. Students should check DragonMail regularly, as it is the College's official communication method. The IT Checklist can be found by scanning the QR Code below:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account

Student Conduct & Discipline:

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Scan the QR Code for more information on the Student Code of Conduct.

Alternate Operations During Campus Closure

In the event of an emergency or announced campus closure because of a natural disaster or pandemic, it may be necessary for Paris Junior College (PJC) to move to altered operations. During this time, PJC may opt to continue delivery of instruction through methods that include, but are not limited to: an online learning management system (Blackboard), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor PJC's website (www.parisjc.edu) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and PJC email for important general information.

Artificial Intelligence Statement

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student based on sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the **highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Paris Junior College is an affirmative action/equal employment opportunity educational institution. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, handicap or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as amended in 1972, and with Executive Order 11246 as amended by Executive Order 11375.

****Please refer to the Paris Junior College Catalog for College Policies regarding any and all other(s) policies NOT listed in this syllabus.**

TITLE IX

PJC policy prohibits discrimination on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex, sexual orientation, spousal affiliation and protected veterans' status. Furthermore, Title IX prohibits sex discrimination to include sexual misconduct: sexual violence (sexual assault, rape), sexual harassment and retaliation. To learn more about TITLE IX, scan the QR Code below:

PJC Cares

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CARE

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Paris Junior College is not responsible for illness/injury that occurs during the normal course of classroom/lab/clinical experiences. These descriptions and timelines are subject to change at the discretion of the Professor.

Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Paris Junior College is an affirmative action/equal employment opportunity educational institution. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, handicap or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as amended in 1972, and with Executive Order 11246 as amended by Executive Order 11375.

****Please refer to the Paris Junior College Catalog for College Policies regarding any and all other(s) policies NOT listed in this syllabus.**

TITLE IX

PJC policy prohibits discrimination on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex, sexual orientation, spousal affiliation and protected veterans' status. Furthermore, Title IX prohibits sex discrimination to include sexual misconduct: sexual violence (sexual assault, rape), sexual harassment and retaliation. To learn more about TITLE IX, scan the QR Code below:

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CARE

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Paris Junior College is not responsible for illness/injury that occurs during the normal course of classroom/lab/clinical experiences. These descriptions and timelines are subject to change at the discretion of the Professor.

PARIS JUNIOR COLLEGE

Fall 2026 Course Syllabus

Course Information

CRIJ 1301 Introduction to Criminal Justice (40L0) – 8-weeks

Location: MS-212

Schedule: Hybrid

Statements for the Texas Success Initiative (TSI)

Students are responsible for meeting Texas Success Initiative (TSI) requirements as mandated by the State of Texas. Students who are not TSI complete may be required to enroll in developmental or co-requisite support courses. Contact the Advising or Testing Center for assistance with TSI status and requirements.

Our course involves a substantial amount of reading and may feel overwhelming for students who struggle with time management, particularly in the accelerated 8-week format. The material will be covered rapidly, with multiple chapters assigned each week. Without effective time management strategies, students risk falling behind in their studies.

Professor Contact Information

Paul Guidry, Ed.D.

Email: pguidry@parisjc.edu

Phone: 903.782.0318

Office location: Math and Science Bldg. (CJ) Office #111D

Available – Monday through Thursday, 1:30pm to 4:00pm

Illness Policy:

Per **CDC guidelines**, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Pre-requisites, Co-requisites, and/or Other Restrictions

None

Course Description

This course is a study of the history and philosophy of criminal justice including ethical considerations. Topics include the definition of crime, the nature and impact of crime, an overview of the criminal justice system, law enforcement, court system, prosecution and defense, trial process, and corrections.

Exploration Objectives

 Discover how the criminal justice system works and how law enforcement, courts, and corrections work together to maintain public safety and justice.

 Examine crime and its impact on society, including why crime occurs, who is affected, and how communities respond to criminal behavior.

 Learn about policing, criminal law, and the court process, from investigations and arrests to trials, sentencing, and appeals.

 Explore corrections and rehabilitation, including probation, parole, prisons, jails, and the challenges of juvenile justice in America.

Student Learning Outcomes

Upon successful completion of this course, students should be able to:

1. Describe the history and philosophy of the American criminal justice system.
2. Explain the nature and extent of crime in America.
3. Analyze the impact and consequences of crime.
4. Evaluate the development, concepts, and functions of law in the criminal justice system.

5. Describe the structure of contemporary federal, state, and local justice agencies and processes.

PJC Inclusive Access Dragon Now Program Textbook Information

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the **Dragon Now**, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office by scanning the QR code below if you have questions about charges to your student account.

Required Textbook – PURCHASE

Criminal Justice – A Brief Introduction

Author:	Schmalleger
Edition:	14th
ISBN:	99780138105358 eText

Required First Assignment and Attendance Verification

All students are required to complete the First Assignment located in the Course Content section of Blackboard no later than 11:59 p.m. on **August 30, 2026**, the Official Reporting Day (ORD). Completion of this assignment serves as verification of active participation in the course. Students who fail to complete the assignment by the stated deadline will be reported as non-attending and may be administratively dropped from the course in accordance with college procedures.

Required Weekly Assignments & Academic Calendar

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more details.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Table 1 Course Schedule, with each week containing a weekly discussion board and quiz/quizzes.

Week	Topics, Readings, Assignments, Deadlines
1	Introduction to Criminal Justice/Syllabus Quiz
1	What is Criminal Justice - <i>Read Chapter 1</i>
2	The Crime Picture - <i>Read Chapter 2</i>
2	Criminal Law - <i>Read Chapters 3</i>
3	Policing: Purpose and Organization - <i>Read Chapter 4</i>
3	Policing: Legal Aspects - <i>Read Chapter 5</i>
4	Policing: Issues and Challenges - <i>Read Chapter 6</i>
4	The Courts - <i>Read Chapter 7</i>
5	The Courtroom Work Group and the Criminal Trial - <i>Read Chapter 8</i>

- 5 Sentencing - *Read Chapter 9*
- 6 Probation, Parole, and Community Corrections - *Read Chapters 10*
- 6 Prisons and Jails - *Read Chapter 11*
- 7 Prison Life - *Read Chapter 12*
- 7 Juvenile Justice - *Read chap 13*
- 8 Final exams week: Oct 12th –Oct 15th

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion post, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Exams

There will be **EIGHT EXAMS** during the semester (8x75pts). In general, these exams will consist of various questions (multiple-choice, T/F, short answer essays). Each of these questions will vary in points. **All exams will be taken on Blackboard.** Students will have 7 DAYS to complete the weekly exam.

Learning Outcome Quizzes

To assess your understanding of course concepts and measure achievement of the course learning outcomes, students will complete **Four Learning Outcome Quizzes** throughout the semester. Each quiz is worth 25 points and is designed to evaluate your knowledge of key topics, critical thinking skills, and ability to apply course concepts. Quizzes may include multiple-choice, short-answer, or scenario-based questions. Students are expected to complete all quizzes by the assigned due dates. Successful performance on these assessments demonstrates progress toward meeting the course learning outcomes.

Writing Assignment

Short answer essays during chapter exams

Grading

Categories	Points	Percentage
Chapter Exams (8x75 pts ea.)	600	85
4 LO Quizzes	100	15
Total Possible	700	100

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Attendance, IT Checklist, and Email Policies:

Class Attendance Policy

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner by adhering to the weekly due dates. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st, 2026.**

Paris Junior College IT Checklist:

Technology Requirements: Students are responsible for completing the PJC IT Checklist, including activation of their DragonMail account, Microsoft Authenticator, MyPJC Portal access, Blackboard access, Microsoft Office installation, and Respondus LockDown Browser setup. Students should check DragonMail regularly, as it is the College's official communication method. The IT Checklist can be found by scanning the QR Code below:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account

Student Conduct & Discipline:

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Scan the QR Code for more information on the Student Code of Conduct.

Alternate Operations During Campus Closure

In the event of an emergency or announced campus closure because of a natural disaster or pandemic, it may be necessary for Paris Junior College (PJC) to move to altered operations. During this time, PJC may opt to continue delivery of instruction through methods that include, but are not limited to: an online learning management system (Blackboard), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor PJC's website (www.parisjc.edu) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and PJC email for important general information.

Artificial Intelligence Statement

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student based on sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the **highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Paris Junior College is an affirmative action/equal employment opportunity educational institution. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, handicap or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as amended in 1972, and with Executive Order 11246 as amended by Executive Order 11375.

****Please refer to the Paris Junior College Catalog for College Policies regarding any and all other(s) policies NOT listed in this syllabus.**

TITLE IX

PJC policy prohibits discrimination on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex, sexual orientation, spousal affiliation and protected veterans' status. Furthermore, Title IX prohibits sex discrimination to include sexual misconduct: sexual violence (sexual assault, rape), sexual harassment and retaliation. To learn more about TITLE IX, scan the QR Code below:

PJC Cares

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CARE

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Paris Junior College is not responsible for illness/injury that occurs during the normal course of classroom/lab/clinical experiences. These descriptions and timelines are subject to change at the discretion of the Professor.

PARIS JUNIOR COLLEGE

Fall 2026 Course Syllabus

Course Information

CRIJ 1306 Court Systems and Practices (20E0) – 8-weeks

Location: Online

Schedule: Online

Statements for the Texas Success Initiative (TSI)

Students are responsible for meeting Texas Success Initiative (TSI) requirements as mandated by the State of Texas. Students who are not TSI complete may be required to enroll in developmental or co-requisite support courses. Contact the Advising or Testing Center for assistance with TSI status and requirements.

Our course involves a substantial amount of reading and may feel overwhelming for students who struggle with time management, particularly in the accelerated 8-week format. The material will be covered rapidly, with multiple chapters assigned each week. Without effective time management strategies, students risk falling behind in their studies.

Professor Contact Information

Paul Guidry, Ed.D.

Email: pguidry@parisjc.edu

Phone: 903.782.0318

Office location: Math and Science Bldg. (CJ) Office #111D

Available – Monday through Thursday, 1:30pm to 4:00pm

Illness Policy:

Per **CDC guidelines**, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Pre-requisites, Co-requisites, and/or Other Restrictions

None

Course Description

The judiciary in the criminal justice system is explained. The structure of the American Court System is defined. Due process rights during criminal proceedings are explained. Other areas covered are pretrial release, grand juries, adjudication process, and types of rules of evidence and sentencing.

Exploration Objectives

-  Discover how America's courts work by exploring federal, state, juvenile, and specialty courts and the important role each plays in the justice system.
-  Step inside the courtroom and learn how judges, prosecutors, defense attorneys, jurors, defendants, and victims work together throughout a criminal case.
-  Follow a criminal case from start to finish, from pretrial procedures and plea bargains to trials, sentencing, and appeals.
-  Examine the constitutional rights that protect individuals in court, including due process, legal protections, and the rules that shape fair trials.

Student Learning Outcomes

Upon successful completion of this course, students should be able to:

1. Describe the American judicial systems (civil, criminal, and juvenile), their jurisdiction, development, and structure.
2. Analyze the function and dynamics of the courtroom work group.
3. Identify judicial processes from pretrial to appeal.

4. Describe the significant Constitutional Amendments, doctrines, and other sources of law in the American judicial system

PJC Inclusive Access Dragon Now Program Textbook Information

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the **Dragon Now**, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office by scanning the QR code below if you have questions about charges to your student account.

Required Textbook

Courts and Criminal Justice in America

Author: **Siegel**

Edition: **3rd**

ISBN: **9780134526744 (eText Version)**

Required First Assignment and Attendance Verification

All students are required to complete the First Assignment located in the Course Content section of Blackboard no later than 11:59 p.m. on **August 30, 2026**, the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of active participation in the course. Students who fail to complete the assignment by the stated deadline will be reported as non-attending and may be administratively dropped from the course in accordance with college procedures.

Required Assignments & Academic Calendar

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more detail.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Table 1 Course Schedule, with each week containing a weekly discussion board and quiz/quizzes.

Week	Topics, Readings, Assignments, Deadlines
1	Introduction to Courts/Syllabus Quiz
1	Legal Foundations – <i>Read Chapter 1</i>
2	Who Controls the Courts - <i>Read Chapter 2</i>
2	Federal Courts - <i>Read Chapter 3</i>
3	State Courts - <i>Read Chapter 4</i>
3	Juvenile Courts - <i>Read Chapter 5</i>
4	Specialized Courts - <i>Read Chapter 6</i>
4	Judges - <i>Read Chapter 7</i>
5	Prosecutors - <i>Read Chapter 8</i> & Defense Attorneys - <i>Read Chapter 9</i>
5	Defendants & Victims- <i>Read Chapter 10</i>

- 6 Pretrial Procedures - *Read Chapter 11*
 - 6 Plea Bargaining and Guilty Pleas - *Read Chapter 12*
 - 7 The Jury and the Trial - *Read Chapters 13*
 - 7 Sentencing, Appeals and Habeas Corpus - *Read Chapter 14*
 - 8 **Final exams week: Oct 12th –Oct 15th**
-

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion post, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Exams

There will be **EIGHT EXAMS** during the semester (8x75pts). In general, these exams will consist of various questions (multiple-choice, T/F, short answer essays). Each of these questions will vary in points. **All exams will be taken on Blackboard.** Students will have 7 DAYS to complete the weekly exam.

Learning Outcome Quizzes

To assess your understanding of course concepts and measure achievement of the course learning outcomes, students will complete **Four Learning Outcome Quizzes** throughout the semester. Each quiz is worth 25 points and is designed to evaluate your knowledge of key topics, critical thinking skills, and ability to apply course concepts. Quizzes may include multiple-choice, short-answer, or scenario-based questions. Students are expected to complete all quizzes by the assigned due dates. Successful performance on these assessments demonstrates progress toward meeting the course learning outcomes.

Writing Assignment

Short answer essays during chapter exams and quizzes.

Grading

Categories	Points	Percentage
Chapter Exams (8x75 pts ea.)	600	85
4 LO Quizzes	100	15
Total Possible	700	100

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Attendance, IT Checklist, and Email Policies:

Class Attendance Policy

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner by adhering to the weekly due dates. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st, 2026.**

Paris Junior College IT Checklist:

Technology Requirements: Students are responsible for completing the PJC IT Checklist, including activation of their DragonMail account, Microsoft Authenticator, MyPJC Portal access, Blackboard access, Microsoft Office installation, and Respondus LockDown Browser setup. Students should check DragonMail regularly, as it is the College's official communication method. The IT Checklist can be found by scanning the QR Code below:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account

Student Conduct & Discipline:

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Scan the QR Code for more information on the Student Code of Conduct.

Alternate Operations During Campus Closure

In the event of an emergency or announced campus closure because of a natural disaster or pandemic, it may be necessary for Paris Junior College (PJC) to move to altered operations. During this time, PJC may opt to continue delivery of instruction through methods that include, but are not limited to: an online learning management system (Blackboard), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor PJC's website (www.parisjc.edu) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and PJC email for important general information.

Artificial Intelligence Statement

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student based on sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to

admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the **highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Paris Junior College Policies:

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Course Pre-requisites, Co-requisites, and/or Other Restrictions

None

Course Description

A study of the nature of criminal law is presented. The philosophical and historical development of criminal law is covered. Major definitions and concepts are given. The classification of crime is covered. The elements of crimes and penalties are discussed using Texas statutes as illustrations. Criminal responsibility is defined.

Exploration Objectives

- Discover how criminal laws are created and why they are important to society.
- Learn the elements that must be present for a crime to occur.
- Explore Texas criminal laws to determine possible criminal charges in real-world situations.
- Examine criminal defenses, levels of responsibility, and the possible penalties for criminal offenses.

Student Learning Outcomes

Upon successful completion of this course, the student should be able to:

1. Identify the elements of crimes and defenses under Texas statutes, Model Penal Code, and case law.
2. Classify offenses and articulate penalties for various crimes.
3. Compare culpable mental states when assigning criminal responsibility.
4. Assess the impact of history and philosophy on current criminal laws.

5. Evaluate the application of criminal law to other areas of criminal justice such as law enforcement and corrections.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Paris Junior College Policies:

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Paris Junior College is an affirmative action/equal employment opportunity educational institution. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, handicap or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as amended in 1972, and with Executive Order 11246 as amended by Executive Order 11375.

****Please refer to the Paris Junior College Catalog for College Policies regarding any and all other(s) policies NOT listed in this syllabus.**

TITLE IX

PJC policy prohibits discrimination on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex, sexual orientation, spousal affiliation and protected veterans' status.

Furthermore, Title IX prohibits sex discrimination to include sexual misconduct: sexual violence (sexual assault, rape), sexual harassment and retaliation.

PJC Cares

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CARE

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Paris Junior College is not responsible for illness/injury that occurs during the normal course of classroom/lab/clinical experiences. These descriptions and timelines are subject to change at the discretion of the Professor.

PARIS JUNIOR COLLEGE

Fall 2026 Course Syllabus

Course Information

CRIJ 2313 Correctional Systems and Practices (20F0) – 8-weeks

*Location: **Online***

*Schedule: **Online***

Statements for the Texas Success Initiative (TSI)

Our course involves a substantial amount of reading and may feel overwhelming for students who struggle with time management, particularly in the accelerated 8-week format. The material will be covered rapidly, with multiple chapters assigned each week. Without effective time management strategies, students risk falling behind in their studies.

*A **hybrid class** combines traditional face-to-face learning in the classroom with online learning that students complete outside of the classroom. This course is not strictly lecture-based. A large majority of the content will be derived from our videos, PowerPoints, and your own self-exploration of the assigned material. Remember that what you get out of this course is based on what you put into this course.*

Professor Contact Information

Paul Guidry, Ed.D.

Email: pguidry@parisjc.edu

Phone: 903.782.0318

Office location: Math and Science Bldg. (CJ) Office #111D

Available – Monday through Thursday, 1:30pm to 4:00pm

Illness Policy:

Per **CDC guidelines**, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Pre-requisites, Co-requisites, and/or Other Restrictions

None

Course Description

This course is a survey of institutional and non-institutional corrections. Emphasis will be placed on the organization and operation of correctional systems; treatment and rehabilitation; populations served; Constitutional issues; and current and future issues.

Exploration Objectives

- Discover the history, purpose, and components of the American correctional system.
- Explore the roles and responsibilities of correctional professionals in prisons, jails, probation, and parole agencies.
- Learn about the various correctional programs, offender treatment strategies, and rehabilitation approaches used within the justice system.
- Examine contemporary issues and challenges in corrections, including inmate rights, institutional safety, and offender reentry into society.

Student Learning Outcomes

Upon successful completion of this course, students should be able to:

1. Describe the organization and operation of correctional systems and alternatives to institutionalization.
2. Describe treatment and rehabilitative programs.

3. Differentiate between short-term incarceration and long-term institutional environments.
4. Evaluate current and future correctional issues.
5. Identify the Constitutional rights applicable to the correctional setting.

PJC Inclusive Access Program Textbook Information

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the **Dragon Now**, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office by scanning the QR code below if you have questions about charges to your student account.

Required Textbook

Title: Corrections

Author: Alarid

Edition: 3rd

**ISBN: 9780134548975
(eText Version)**

Suggested Course Materials

None

Required First Assignment and Attendance Verification

All students are required to complete the First Assignment located in the Course Content section of Blackboard no later than 11:59 p.m. on **October 25th, 2026**, the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of active participation in the course. Students who fail to complete the assignment by the stated deadline will be reported as non-attending and may be administratively dropped from the course in accordance with college procedures.

Required Assignments & Academic Calendar

Each week there will be a reading assignment that will correspond with each week's lecture. Read the chapter of the text each week to prepare for lectures and assignments. See the Course Schedule for more detail.

In case of inclement weather, emergency closings, or other unforeseen disruptions to scheduled classes, students must log onto their Blackboard accounts for directions on where or how to continue their coursework.

Table 1 Course Schedule, with each week containing a weekly discussion board and quiz/quizzes.

Week	Topics, Readings, Assignments, Deadlines
1	Introduction to Corrections/Syllabus Quiz
1	An Evidence-Based Approach – <i>Read Chapter 1</i>
2	Why Do We Punish? – <i>Read Chapter 2</i>
2	Correction Practices – <i>Read Chapter 3</i>
3	Sentencing – <i>Read Chapter 4</i>
3	Probation and Community Supervision – <i>Read Chapter 5</i>
4	Jails and Pretrial Release – <i>Read Chapter 6</i>
4	Managing Prisons and Prisoners – <i>Read Chapter 7</i>

- 5 Prison Life – *Read Chapter 8*
- 5 Special Correctional Populations – *Read Chapter 9*
- 6 Reentry and Parole – *Read Chapter 10*
- 6 Legal Issues in Corrections – *Read Chapter 11*
- 7 Capital Punishment – *Read Chapter 12*
- 7 Juvenile Corrections – *Chapter 13*
- 8 Final exams week: Dec 7th – Dec 10th

Methods of Evaluation

The student is required to read chapter assignments and read and participate in online discussions. In addition, exams will also be administered to ensure students are reading and reviewing the currently assigned chapters.

Failure to submit any Assignment, Discussion post, Research Paper, or complete a Quiz or Exam will result in a ZERO “0” grade for that item. Students should understand that this will SIGNIFICANTLY affect their overall course grade.

Exams

There will be **EIGHT EXAMS** during the semester (8x75pts). In general, these exams will consist of various questions (multiple-choice, T/F, short answer essays). Each of these questions will vary in points. **All exams will be taken on Blackboard.** Students will have 7 DAYS to complete the weekly exam.

Learning Outcome Quizzes

To assess your understanding of course concepts and measure achievement of the course learning outcomes, students will complete **Four Learning Outcome Quizzes** throughout the semester. Each quiz is worth 25 points and is designed to evaluate your knowledge of key topics, critical thinking skills, and ability to apply course concepts. Quizzes may include multiple-choice, short-answer, or scenario-based questions. Students are expected to complete all quizzes by the assigned due dates. Successful performance on these assessments demonstrates progress toward meeting the course learning outcomes.

Writing Assignment

Short answer essays during chapter exams

Grading

Categories	Points	Percentage
Chapter Exams (8x75 pts ea.)	600	85
4 LO Quizzes	100	15
Total Possible	700	100

Methods of Instruction:

Classroom and online lectures, reading assignments, and independent research

Attendance, IT Checklist, and Email Policies:

Class Attendance Policy

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner by adhering to the weekly due dates. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Wednesday, November 24th, 2026.**

Paris Junior College IT Checklist:

Technology Requirements: Students are responsible for completing the PJC IT Checklist, including activation of their DragonMail account, Microsoft Authenticator, MyPJC Portal access, Blackboard access, Microsoft Office installation, and Respondus LockDown Browser setup. Students should check DragonMail regularly, as it is the College's official communication method. The IT Checklist can be found by scanning the QR Code below:

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account

Student Conduct & Discipline:

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Scan the OR Code for more information on the Student Code of Conduct.

Alternate Operations During Campus Closure

In the event of an emergency or announced campus closure because of a natural disaster or pandemic, it may be necessary for Paris Junior College (PJC) to move to altered operations. During this time, PJC may opt to continue delivery of instruction through methods that include, but are not limited to: an online learning management system

(Blackboard), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor PJC's website (www.parisjc.edu) for instructions about continuing courses remotely, Blackboard for each class for course-specific communication, and PJC email for important general information

Artificial Intelligence Statement

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student based on sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the **highest degree of honor and integrity**. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty

member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Paris Junior College Policies:

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

None

Course Description

This course examines the establishment, role and function of police in a democratic society. It will focus on types of police agencies and their organizational structure, police-community interaction, police ethics, and use of authority.

Exploration Objectives

- Explore the history, structure, and functions of policing in the United States.
- Examine the roles and responsibilities of law enforcement officers in serving and protecting their communities.
- Discover legal, ethical, and professional standards that guide police decision-making and conduct.
- Examine contemporary issues in policing, including community relations, accountability, and emerging challenges facing law enforcement agencies.

Student Learning Outcomes

Upon successful completion of this course, student should be able to:

1. Describe the types of police agencies and explain the role of police in America within the context of a democratic society.
2. Describe means and methods utilized to ensure police accountability.
3. Explain the historical development of policing.

4. Describe the selection process for police officers.
5. Compare and contrast organizational structures, policies, strategies and tactics employed to ensure police effectiveness, efficiency and equity.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable.

Student violations involving a question of academic honesty are handled by the faculty member(s) involved. Should the student object to the decision of the faculty member(s), the appeals procedures for instructional due process may be utilized. Students engaging in academic dishonesty will receive an F in the course.

Paris Junior College Policies:

Reference is made to all the contents of the Paris Junior College Catalog regarding campus policy and procedure.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Refer to the Paris Junior College Catalog for complete instructions.

Services for students with disabilities are coordinated by the Counseling/Advising Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

Students with disabilities are encouraged to contact a counselor or advisor from the Counseling/Advising Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

Paris Junior College is an affirmative action/equal employment opportunity educational institution. Its students and employees are selected and/or assigned without regard to their race, color, age, sex, handicap or national origin, consistent with Titles VI and VII of the Civil Rights Act of 1964, and Title IX of the Higher Education Acts as amended in 1972, and with Executive Order 11246 as amended by Executive Order 11375.

****Please refer to the Paris Junior College Catalog for College Policies regarding any and all other(s) policies NOT listed in this syllabus.**

TITLE IX

PJC policy prohibits discrimination on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex, sexual orientation, spousal affiliation and protected veterans' status. Furthermore, Title IX prohibits sex discrimination to include sexual misconduct: sexual violence (sexual assault, rape), sexual harassment and retaliation.

MENTAL HEALTH CARE

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Paris Junior College is not responsible for illness/injury that occurs during the normal course of classroom/lab/clinical experiences. These descriptions and timelines are subject to change at the discretion of the Professor.

EDUC 1300.81A0

Learning Frameworks
Fall 2026

Instructor: Dawn Fouse - Guzman
Office: 207
Phone: 903-257-3920
Email: dguzman@parisjc.edu
Office Hours: Online & M/W 4pm – 5pm

Meeting Location: Online & In-Person
Meeting Days: A-Days on Campus
Meeting Times: By Appt.

Course Description:

A study of research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned.

Credits:

Student Success Course 3.00 or 1.00 or 2.00

This course progresses quickly, and the content demands consistent focus. With only 16 weeks to complete it, staying engaged and on schedule is crucial to your success.

Prerequisite(s): N/A

Required Textbook(s) and Materials:

Our textbook for this class is ***College Success* by OpenStax (2020).**

A copy of this book can be found under the Start Here tab in your Black Board system.

Course Goals and Objectives:

1. Understand the importance of goal setting and build decision-making and goal setting skills.
2. Complete an inventory to determine personality type.
3. Develop critical thinking skills.
4. Complete a learning inventory and identify your personal learning style.

5. Understand the educational degree requirements for different types of careers and occupations.
6. Complete an interest inventory to determine matches between your interests and skills and occupations and degrees.
7. Complete a degree plan in the certificate or degree area you plan to pursue.
8. Understand the causes of stress and ways to manage stress.
9. Understand how diet, nutrition, exercise and physical fitness affect your life.
10. Develop note taking skills.
11. Develop study skills.
12. Understand test taking strategies.
13. Develop time management skills.
14. Understand money, banking, and credit.
15. Understand basic saving and investing principles.
16. Understand a resume.
17. Understand basic job interview skills.
18. Understand the benefits of service learning and citizenship responsibilities.
19. Develop team building skills.
20. Develop problem solving skills.

Course Schedule:

*Course Schedule Subject & Assignments Change

Module	Learning Outcome	Activity	Due Date
9/4	First Assignment Course Syllabus Quiz	Complete quiz for ORD recognition and daily grade	ORD IS SEPTEMBER 9TH
8/24 - 9/18	Chapter 1&2 LESSON 1	- Read the chapter - Review the PowerPoint - Complete procrastination busting action plan - Assignment: Time management & Task prioritization - Assignment Scenarios - Complete discussion - Complete the Test 1	FACULTY ROSTER CERTIFICATION DATE 9/10 - 9/14
9/19 – 10/4	Chapter 3	- Read the chapter - Review the PowerPoint - Complete the Assignments - Complete discussion post	Mid-Term Grades are due October 16th

	LESSON 2	• Complete the Quiz	
10/5 - 10/18	Chapter 4 LESSON 3	• Read the chapter • Review the PowerPoint • Complete the Assignment • Complete the Quiz	The last day to withdraw is November 12th
10/19 - 11/1	Chapter 5 LESSON 4	• Read the chapter • Review the PowerPoint • Complete the Assignment • Complete the Quiz	
11/2 - 11/15	Chapter 6 LESSON 5	• Read the chapter • Review the PowerPoint • Complete the Assignment • Complete the Quiz Test 5	
11/16 - 11/29	Chapter 7 LESSON 6	• Read the chapter • Review the PowerPoint • Complete the Assignment • Complete the Quiz Test 6	PJC Thanksgiving Break is 11/25 - 11/27
11/30 - 12/6	Chapter 8 LESSON 7	• Read the chapter • Discussion post • Assignment – planning your future • Career path assignment	
12/7 - 12/10	FINAL EXAM	• FINAL EXAM	FINAL EXAM 12/7 - 12/10
			GRADES DUE 12/11 @ 9AM

Course Requirements and Evaluation:

Points are accumulated through daily assignments, discussion posts, quizzes, chapter tests, a final exam.

Grading Scale:

100-90% = A 1100- 900 pts = A

89-80% = B 899-800 pts = B

79-70% = C 799-700 pts = C

69- 60% = D 699 – 600 pts = D

59-0% = F 599- 0 pts = F

Course Policies:

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is Oct. 2, 2025.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

MFA

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.

2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately

Dual credit students logging in to their high school wifi will not be required to complete the MFA process. Dual Credit students logging in anywhere else will be required to complete the MFA process.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course # DFTG 1305 10J0
Course Title: Technical Drafting
Fall 2026

Instructor: *Chris Malone*

Office: *WTC 1211*

Phone: *903-782-0391*

Email: *cmalone@parisjc.edu*

Office Hours: *See the instructors office door schedule*

Meeting Location: *WTC 1211*

Meeting Days: *MTWR*

Meeting Times: *1:00pm – 5:00pm*

Course Description:

An introduction to reading, interpreting, and developing technical drawings, including the principles of drafting and computer-aided design.

Credits: SCH = 3

TSI Requirement: NA

Prerequisite(s): DFTG 1309

Required Textbook(s) and Materials:

Certiport Testing Voucher

1 - USB Flash Drive – 32 GB minimum

1 - Pair of Headphones

1 - Yellow Highlighter

1 - Writing utensil (Pen or Pencil)

1 - Computer w/ CAD software

Course Goals and Objectives:

Produce technical sketches and drawings, including, annotations, scales, line styles, orthographic projections, pictorial views, dimension drawings, calculations, and measurements; and identify terminology and basic functions used with 2D and 3D computer-aided drafting software.

Course Requirements and Evaluation:

Course Evaluation

Assignments: 60% of total grade

Final Exam/Project: 40% of total grade

Grade Scale

90-100 A

80-89 B

70-79 C

60-69 D

00-59 F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All class work is due on time and must be turned in by the specified time on the due date. Late work will be penalized by an automatic grade deduction of 20%. No late work will be accepted the last week of class. The due dates are set to keep the class progressing, students are welcome to work ahead on any lessons that are available. Work at your preferred pace, just be sure to meet the deadlines set on the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Tuesday, November 24th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any changes through your student email.

Tech Support:

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	ASSIGNMENTS
08-24-2026	Intro & Draw Commands	Lessons 01 & 02
08-31-2026	Coordinates	Lessons 03 & 04
09-07-2026	Basic Draw & Modify Commands	Lessons 05 & 06
09-14-2026	Basic Draw & Modify Commands	Lessons 07 & 08
09-21-2026	Snaps and Inquiry Tools	Lessons 09 & 10
09-28-2026	Annotations	Lessons 11 & 12
10-05-2026	Styles and Layers	Lessons 13 & 14
10-12-2026	Dimensions and Hatches	Lessons 15 & 16
10-19-2026	Scales and Scaling	Lessons 17 & 18
10-26-2026	Scaling Text and Dim Styles	Lessons 19 & 20
11-02-2026	Printing in Model & Paper Space	Lessons 21 & 22
11-09-2026	Cabin Project and Blocks	Lessons 23 & 24
11-16-2026	Templates	Lessons 25 & 26
11-23-2026	Thanksgiving	
11-30-2026	Advanced Dimensioning	Lessons 27 & Review
12-07-2026	Final Exam & Project	Final

Course # DFTG 1317 10H0
Course Title: Architectural Drafting - Residential
Fall 2026

Instructor: *Chris Malone*

Office: *WTC 1211*

Phone: *903-782-0391*

Email: *cmalone@parisjc.edu*

Office Hours: *See the instructors office door schedule*

Meeting Location: *WTC 1211*

Meeting Days: *MTWR*

Meeting Times: *1:00pm – 5:00pm*

Course Description:

Architectural drafting procedures, practices, terms, and symbols. Preparation of detailed working drawings for residential structures. Emphasis on light frame construction methods.

Credits: SCH = 3

TSI Requirement: NA

Prerequisite(s): None

Required Textbook(s) and Materials:

No Textbook Required

1 - USB Flash Drive – 32 GB minimum

1 - Pair of Headphones

1 - Yellow Highlighter

1 - Writing utensil (Pen or Pencil)

1 - Computer w/ CAD software

Course Goals and Objectives:

Utilize architectural terms, symbols, residential construction materials, and processes to produce a set of residential construction drawings including site plan, floor plan, elevations, wall sections, schedules, details, and foundation plan using reference materials.

Course Requirements and Evaluation:

Course Evaluation

Assignments: 50% of total grade

House Projects: 50% of total grade

Grade Scale

90-100 A

80-89 B

70-79 C

60-69 D

00-59 F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All class work is due on time and must be turned in by the specified time on the due date. Late work will be penalized by an automatic grade deduction of 20%. No late work will be accepted the last week of class. The due dates are set to keep the class progressing, students are welcome to work ahead on any lessons that are available. Work at your preferred pace, just be sure to meet the deadlines set on the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, October 1st**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	ASSIGNMENTS
08-24-2026	Intro & Sketch Tools	Lessons 01 & 02
08-31-2026	Intro to Features	Lessons 03 & 04
09-07-2026	Reference Geometry and Patterns	Lessons 05 & 06
09-14-2026	Part Modeling	Lessons 07 & 08
09-21-2026	Analyzing Parts & Configurations	Lessons 09 & 10
09-28-2026	Part Assignments	Part Assignments
10-05-2026	Intro into Assemblies	Lessons 11 & 12 & 13
10-12-2026	Assembly Assignments	Assembly Assignments
10-19-2026	Intro to Drawings	Lessons 14 & 15
10-26-2026	Sections and Alignments	Lessons 16 & 17
11-02-2026	Annotations	Lessons 18 & 19 & 20
11-09-2026	Drawing Assignments 1	Drawing Assignments 1
11-16-2026	Drawing Assignments 2	Drawing Assignments 2
11-23-2026	Thanksgiving	
11-30-2026	Review	Review
12-07-2026	Final Project	Final

Course # DFTG 2319 10J0
Course Title: Intermediate Computer-Aided Drafting
Fall 2026

Instructor: *Chris Malone*

Office: *WTC 1211*

Phone: *903-782-0391*

Email: *cmalone@parisjc.edu*

Office Hours: *See the instructors office door schedule*

Meeting Location: *WTC 1211*

Meeting Days: *MTWR*

Meeting Times: *1:00pm – 5:00pm*

Course Description:

A continuation of practices and techniques used in basic computer-aided drafting including the development and use of prototype drawings, construction of pictorial drawings, extracting data, and basics of 3D.

Credits: SCH = 3

TSI Requirement: NA

Prerequisite(s): DFTG 1309

Required Textbook(s) and Materials:

No Textbook Required

1 - USB Flash Drive – 32 GB minimum

1 - Pair of Headphones

1 - Yellow Highlighter

1 - Writing utensil (Pen or Pencil)

1 - Computer w/ CAD software

Course Goals and Objectives:

Produce 2D and 3D drawings, pictorial drawings; use external referencing of multiple drawings to construct a composite drawing; and import and extract data utilizing attributes.

Course Requirements and Evaluation:

Course Evaluation

Assignments: 60% of total grade

Final Exam/Project: 40% of total grade

Grade Scale

90-100 A

80-89 B

70-79 C

60-69 D

00-59 F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All class work is due on time and must be turned in by the specified time on the due date. Late work will be penalized by an automatic grade deduction of 20%. No late work will be accepted the last week of class. The due dates are set to keep the class progressing, students are welcome to work ahead on any lessons that are available. Work at your preferred pace, just be sure to meet the deadlines set on the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Tuesday, November 24th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any changes through your student email.

Course # DFTG 2323 10G0
Course Title: Pipe Drafting
Fall 2026

Instructor: *Chris Malone*

Office: *WTC 1211*

Phone: *903-782-0391*

Email: *cmalone@parisjc.edu*

Office Hours: *See the instructors office door schedule*

Meeting Location: *WTC 1211*

Meeting Days: *T*

Meeting Times: *1:00pm – 5:00pm*

Course Description:

A study of pipe fittings, symbols, specifications and their applications to a piping process system. Creation of symbols and their usage in flow diagrams, plans, elevations, and isometrics.

Credits: SCH = 3

TSI Requirement: NA

Prerequisite(s): None

Required Textbook(s) and Materials:

No Textbook Required

1 - USB Flash Drive – 32 GB minimum

1 - Pair of Headphones

1 - Yellow Highlighter

1 - Writing utensil (Pen or Pencil)

1 - Computer w/ CAD software

Course Goals and Objectives:

Create drawings of foundations, structural supports, and process equipment; identify symbols and research specifications; generate a bill of material list; use charts and standards; generate isometric drawings; and calculate measurements for pipe fittings.

Course Requirements and Evaluation:

Course Evaluation

Assignments: 60% of total grade

Final Exam/Project: 40% of total grade

Course # DFTG 2338 10G0
Course Title: Final Project - Advanced Drafting
Fall 2026

Instructor: *Chris Malone*

Office: *WTC 1211*

Phone: *903-782-0391*

Email: *cmalone@parisjc.edu*

Office Hours: *See the instructors office door schedule*

Meeting Location: *WTC 1211*

Meeting Days: *W*

Meeting Times: *1:00pm – 5:00pm*

Course Description:

An advanced course in which students produce a comprehensive project from conception to conclusion.

Credits: SCH = 3

TSI Requirement: NA

Prerequisite(s): None

Required Textbook(s) and Materials:

No Textbook Required

1 - USB Flash Drive – 32 GB minimum

1 - Pair of Headphones

1 - Yellow Highlighter

1 - Writing utensil (Pen or Pencil)

Course Goals and Objectives:

Conceptualize, design and present a complete project in a prescribed discipline. Integrate problem solving and related technologies to identify solutions; use discipline specific industry standards, and produce documentation.

Course Requirements and Evaluation:

Course Evaluation

Final Project: 100% of total grade

Grade Scale

90-100 A

80-89 B

70-79 C

60-69 D

00-59 F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All class work is due on time and must be turned in by the specified time on the due date. Late work will be penalized by an automatic grade deduction of 20%. No late work will be accepted the last week of class. The due dates are set to keep the class progressing, students are welcome to work ahead on any lessons that are available. Work at your preferred pace, just be sure to meet the deadlines set on the due dates.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified of any changes through your student email.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

DMSO 2341.100
Sonography of Abdominopelvic Pathology
3rd Semester Fall 2026

Instructor: Tiana Reaves
Office: WTC 1105
Phone: 903-782-0494
Email: treaves@parisjc.edu
Office Hours: 7:45am – 5:00pm

Meeting Location: WTC-1106
Meeting Days: Monday/Wednesday
Meeting Times: 1:00-4:00 Monday Lecture
1:00-4:00 Wednesday Lab

Course Description:

Pathologies and disease states of the abdomen and pelvis as related to scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols.

Credits: SCH = 2 lecture and 4 laboratory hours per week, from approved course list

Prerequisite(s):
DMSO 1341

Required Textbook(s) and Materials:

Textbook of Diagnostic Sonography, Ninth Edition Vol. 1 & 2
ISBN: 978-0-323-82761-4

Course Goals and Objectives:

1. Identify abnormal abdominal and pelvic structures.
2. Identify scanning techniques using standard protocol guidelines.
3. Evaluate patient history, other imaging modalities, and laboratory data as it relates to abdominopelvic pathology.

Course Requirements and Evaluation:

To pass DMSO 2341, the student must complete all objectives and achieve a final average grade of **74.5** or higher:

Exams	50%
Quizzes	30%
Final Exam	10%
Lab Assignments	10%

The weighted average of the exams (unit and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the weighted exam average is below 75.0%, the student will receive the grade of “D”, or lower for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination and must be completed by the next scheduled class day.

Missed quizzes cannot be made up and will result in a grade of zero.

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th 2026**. Diagnostic Medical Sonography students will follow the absence and tardy policies as stated in the DMS handbook.

1. During inclement weather on classroom days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend class because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Students missing 60 minutes or less of classroom during a given day will receive a tardy. Students missing more than 60 minutes will be given an absence. A tardy or absence such as arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Permission to enter the classroom will be left to the discretion of the classroom instructor. Students must demonstrate accountability. If a student reports to the classroom with an illness which may pose a threat to others, he/she will be dismissed from the classroom and will receive an absence.
5. Students who are absent will be required to make up lab hours if required. Should the student miss the make-up hours it will be considered an absence.
6. Students missing any time after three (3) absences per course per semester must, upon return to school, make a request to the Program Coordinator or the Director of Health Occupations, to discuss absences. The student must provide supporting evidence to validate the necessity of absence.

Procedure for Reporting an Absence or Tardy

When a student must be late or absent from the classroom, that individual must notify the instructor/college by telephone. When calling, the student should attempt to contact the person in charge, but if this person is unavailable, speak to the next person in line of authority. The student should then convey his/her message be relayed to the instructor when he/she arrives. The student must obtain the name and position of the person contacted about the absence. Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in a termination from the program.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. Course Schedule: Lecture on Monday's 1-4 and Lab on Wednesday's 1-4

Bring USB to Lab every week!

DMSO 2341 COURSE SCHEDULE

08/24 09/26	WELCOME BACK! Syllabus, Entrance Quiz, Assign Project, Disease Process Scanning RUQ
09/31 10/2	Week 2: Chapter 8-Vascular System Path. LAB: Mesenteric vasculature
09/7 09/9	Week 3: Labor Day-Campus closed Lecture will be on Wednesday!!! Quiz #1 Lecture: Chapter 9-Liver Path. LAB: Liver/hepatic vasculature
09/14 09/16	Week 4: EXAM 1 Chapter 10-Gallbladder and Biliary System Path. LAB: GB and Biliary, scanning RUQ
09/21 09/23	Week 5: Quiz #2 Chapter 11-Spleen Path. LAB: Spleen, scanning ABD complete
09/28 09/30	Week 6: EXAM 2 Chapter 12- Pancreas Path. LAB: Pancreas, scanning ABD complete
10/05 10/07	Week 7: Quiz # 3 Chapter 13-Gastrointestinal Tract Path. LAB: GI Tract, Appendix
10/12 10/14	Week 8: EXAM 3 Chapter 14-Perit. Cavity and Abd. Wall Path. LAB: Ascites, Pleural effusions
10/19 10/21	Week 9: Chapter 15-Urinary System Path. LAB: Renal and Bladder, Renal Vasculature
10/26 10/28	Week 10: EXAM 4 Chapter 16-Retroperitoneum Path. LAB: Adrenal glands, Para-Aortic nodes
11/02 11/04	Week 11: Quiz # 4 Chapters 25,26 Pediatric Abdomen, Adrenal and Urinary system LAB: Pediatric
11/09 11/11	Week 12: EXAM 5 Chapters 17,19,20 – Abd. App. of US Contrast Agents, Emergent US Proc., Sono. Tech. in the Transplant Patient LAB: FAST Scan Protocol: page 564
11/16 11/18	Week 13: Last Day to drop with a “W”!!! EXAM 6 Chapter 43-Path. of the Uterus, – assign review questions. LAB: Pelvic TV/TA
11/23 11/25	Week 14: Thanksgiving Week!!! Chapter 44,45 Path. Ovaries, Adnexa – assign EXAM 7 No Lab due to Holiday-PJC closed Nov.25th-27th
11/30 12/02	Week 15: Present Pathology Projects (TEST GRADE), Review- ALL Pathology- Quizlet made by class.
12/07	Week 16: FINAL EXAM

DMSO 2342. 100
Sonography of High-Risk Obstetrics

3rd Semester Fall 2026

Instructor: Tate Power

Office: 1103

Phone: 281-825-8459

Email: tpower@parisjc.edu

Office Hours: By appointment only

Meeting Location: WTC 1106

Meeting Days: Mondays

Meeting Times: 8:00-12:00

Course Description:

Maternal disease and fetal abnormalities. Includes scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols.

Credits: SCH = 2 lecture and 2 laboratory hours per week, from approved course list

Prerequisite(s):

DMSO 2305

Required Textbook(s) and Materials:

Textbook of Diagnostic Sonography, Vol. Two, 9th Edition

ISBN: 978-0-323-82762-1

Course goals and Objectives:

1. Identify and differentiate normal and abnormal fetal and maternal structures.
2. Demonstrate pertinent measurement techniques and scanning techniques using standard protocols.
3. Evaluate patient history and laboratory data as it relates to ultrasound.
4. Select appropriate transducer for area of interest.

Course Requirements and Evaluation:

In order to pass DMSO 2342, the student must complete all objectives and achieve a final average grade of **74.5** or higher.

Exams	50%
Quizzes	30%
Final Exam	10%
Lab Assignments	10%

The weighted average of the exams (unit and final) MUST be 75.0% or greater before ANY other course grades are averaged to compose the final grade. If the weighted exam average is below 75.0%, the student will receive the grade of “D”, or lower for the course regardless of any other grade(s).

If you miss an exam, you must contact the instructor as soon as possible. Make-up exams may be an alternate examination and must be completed by the next scheduled class day.

Missed quizzes cannot be made up and will result in a grade of zero.

Students who have unsatisfactory progress in classroom will be given written notification and a plan for remediation will be completed. A plan will be recommended to improve future grades.

No extra credit will be offered.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

The last day to withdraw with a "W" is Thursday, November 16th, 2024. Diagnostic Medical Sonography students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of diagnostic sonography:

1. During inclement weather on classroom days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend clinical because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Students missing 60 minutes or less of classroom during a given day will receive a tardy. Students missing more than 60 minutes will be given an absence. A tardy or absence such as arriving late or leaving early may occur at any point during the day.
3. Three (3) tardies = one (1) absence.
4. Permission to enter the classroom will be left to the discretion of the classroom instructor.
 - a. Students will demonstrate accountability. If a student reports to the classroom with an illness which may pose a threat to others he/she will be dismissed from the classroom and will receive an absence.
5. Students who are absent will be required to make up lab hours if required.
 - a. Should the student miss the make-up hours it will be considered an absence.
6. Students missing any time after three (3) absences per course per semester must, upon return to school, make a request to the Program Coordinator or the Director of Health Occupations to discuss absences and meet with the extenuating circumstance committee.

Procedure for Reporting an Absence or Tardy:

When a student must be late or absent from the classroom, that individual must notify the instructor/college by telephone. When calling, the student should attempt to contact the person in charge but if this person is unavailable, speak to the next person in line of authority. The student should then convey his/her message be relayed to the instructor when he/she arrives. The student must obtain the name and position of the person contacted about the absence. Failure to comply with the requirements may results in automatic probation. Abuse of these rules may results in a termination from the program.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

DMSO 2362.100

Clinical - Diagnostic Medical Sonography/Sonographer and Ultrasound Technician *3rd Semester Fall 2026*

Instructor: Tiana Reaves

Meeting Location: WTC-1106

Office: 1105

Phone: 903-782-0494

Email: treaves@parisjc.edu

Office Hours: 07:45am- 05:00pm

Meeting Days: Tuesday / Thursday / Friday

Meeting Times: TBA

Course Description:

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

Credits: SCH = 0 lecture and 12 clinical/laboratory hours per week

Prerequisite(s): DMSO 1261

Required Textbook(s) and Materials:

Clinical Guide to Sonography, Second Edition

Exercises for Critical Thinking

ISBN: 978-0-323-09164-0

Course Goals and Objectives:

1. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry.
2. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

Course Requirements and Evaluation:

To successfully complete DMSO 2362, students are expected to demonstrate progress in achieving the mandatory and elective clinical competencies outlined by the ARRT. Grades will be calculated based on a weighted average that includes the completion of competencies, evaluations from clinical instructors, participation in clinical discussions, weekly log submissions, and attendance.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Grading Scale:

Depending on proficiencies/competencies completed, evaluations, clinical participation, submission of time sheets, exam logs, and clinical discussions.

DMSO 2362 Weighted Average:

Final Proficiency Comp:	30%
Clinical Evaluations:	25%
Weekly Lab Assignments:	15%
Clinical Discussion:	15%
<u>Weekly exam Log:</u>	15%
	100%

The student is responsible for updating digital clinical exam logs and uploading via Blackboard weekly by Sunday afternoon. Students will be responsible for monitoring their own competencies on a weekly basis to ensure their completion at the end of the semester. All failed competencies must be turned in each week or **5 points** will be taken off the student's final grade. After the 3rd incident, it may be grounds for dismissal.

Must have time submitted correctly in Trajecsyst and have journal for clinical discussion in class or to be submitted via Blackboard weekly. Journal must have preceptor signature daily, if signature is missing there will be a **2-point** deduction from final grade for each occurrence. The weekly clinical discussion will require the student to verbally or in Blackboard discuss procedures they assisted, observed, and performed during the prior week to their classmates for group discussion.

The evaluations of the students will be thoroughly assessed. Any issues identified will be addressed during clinical discussions to ensure that the entire group can benefit from the feedback. Additionally, students and instructors will meet twice each semester to discuss individual evaluations.

Students who demonstrate unsatisfactory progress during clinical rotations will receive written notification, be placed on probation, and a remediation plan will be developed. Continued unsatisfactory progress following remediation may lead to dismissal from the program.

Evaluations that do not meet minimum requirements are deemed unsatisfactory progress in the course.

Evaluation Grading Rubric

1= Unsatisfactory (Skills/criteria not met, student is not performing to standards)

2= Improvement Needed (Some criteria met)

3=Criteria Met (Student meets all criteria)

4=Above Standards (Student meets all skills/criteria on every patient daily)

Average points:		Average grade:
4.0	=	95
3.5-3.9	=	90-94
3.0-3.4	=	85-89
2.5-2.9	=	80-84
2.0-2.4	=	75-79

Students whose evaluations are below 75% will be given a conference with the clinical coordinator to be given written notification of a plan for improvement and sign the structured plan. If the student does not show improvement, the probationary status will be implemented.

DMSO 2362 Weighted Average:

Final Proficiency Comp: 30%

Clinical Evaluations: 25%

Weekly Lab Assignments: 15%

Clinical Discussion: 15%

Weekly exam Log: 15%

100%

Class Attendance:

The last day to withdraw from the course with a “W” is November 12, 2026.

Diagnostic Medical Sonography students will follow the absence and tardy policies of Paris Junior College as discussed in the school catalog, with the following modifications because of the nature of diagnostic sonography:

1. During inclement weather on clinical days, the student must make his/her own decision regarding safety for travel to school. A student who decides not to attend clinical because of inclement weather will receive an absence unless official notification by the college has been made that classes are closed.
2. Any student arriving at the clinical area later than 60 minutes will be given an absence. Students arriving 60 minutes or less at the clinical area will receive a tardy. A tardy or absence such as arriving late or leaving early may occur at any point during the day. Students may miss up to 60 minutes of clinical and receive a tardy (i.e. the student who arrives 15 minutes late to clinical and leaves 45 minutes early from post-conference would miss 60 minutes or less and receive a tardy).
3. Three (3) tardies = one (1) absence.
4. Permission to enter the clinical will be left to the discretion of the clinical instructor.
 - A. Students must demonstrate accountability. If a student reports to clinical with an illness which may pose a threat to others, he/she will be dismissed from the clinical area and will receive a clinical absence.
5. Students who are absent will be required to make up the clinical hours on finals week. Should the student miss the make-up hours it will be considered an absence.
6. Students missing any time after three (3) absences per course per semester must, upon return to school, make a request to the Program Coordinator or the Dean of Health Occupations, to discuss absences. The student must provide supporting evidence to validate the necessity of absence.

Daily class attendance is critical for the successful completion of this course. All practicum work experience will be made up at the convenience of the facility and the instructor.

Withdrawal requests must be initiated by the student. Failure to complete all practicum objectives will result in a grade of "F" in the course.

Procedure for Reporting an Absence or Tardy

When a student must be late or absent from the clinical site, that individual must notify the clinical instructor by telephone. If the assignment is in a hospital or clinic, the agency must be notified as soon as possible, always before the schedule shift begins.

When calling, the student should attempt to contact the person in charge/ clinical instructor, but if this person is unavailable, speak to the next person in line of authority. The student must obtain the name and position of the person contacted about the absence, as well as the time. The student should then convey his/her message to the clinical coordinator via by telephone (call or text message) with the documented information (name, position, time).

Failure to comply with the requirements may result in automatic probation. Abuse of these rules may result in a termination from the program.

Class Conduct:

Please put away all cell phones, pagers, iPods, headphones, recording devices, smart watches, cameras, etc. before entering the classroom/laboratory/clinical site. Students may access their devices during break times or in case of an emergency. No obscene/vulgar language will be permitted in the classroom/laboratory/clinical site. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

Students will be notified in person or by GroupMe and changes will be made via Blackboard if the syllabus is to change.

Please utilize this IT checklist to ensure you are ready for class.

Please send IT requests to techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

DRAM 1120/2121.10A0
Theater Practicum I
Fall 2026

Instructor: William Walker	Meeting Location: MB 103
Office: ADMIN 158	Meeting Days: MW
Phone: 903-782-0488	Meeting Times: 3:45-5:00
Office Hours: Office Hours Posted Below	Email: wwalker@parisjc.edu

Course Description:

Practicum in theater open to all students with emphasis on technique and procedures with experience gained in play productions.

Credits: SCH = 1

TSI Requirement: 350 M, 351 R, 340 W.

Prerequisite(s): None

Required Textbook(s) and Materials:

This course uses *OPEN SOURCE* materials inside Blackboard and *HANDS ON* learning in the Ray E. Karrer Theatre

Materials: Acceptable shop attire that is functional and safe, including:

- o Close-toed shoes
- o Binding for long hair
- o "Paint" Clothing
- o Fitted, rugged clothing

Additional Optional Items/Materials: You may wish to have these items to protect your skin from paint and heat, and to protect your ears. Faculty do not recommend sharing ear protection.

- Non-latex gloves for paint projects
- Leather work gloves, rigging, or other heat/electrical protective gloves for lighting projects, fly rail operation, etc.
- Ear protection

Course Goals and Objectives:

This course involves time spent working in the PJC scene shop, paint shop, lighting/sound shop, costume shop, and/or production office. Students will be given projects to complete while acquiring skills, knowledge, and an appreciation for technical theatre and production. Students will improve collaboration and organizational skills while developing a sense of quality, consistency, and responsibility. Students will also participate in PJC Department of Drama productions as an actor, technician, or in a responsibility assigned by the instructor of record.

"Never let the fear of striking out stop you from playing the game." —Babe Ruth

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Objectives

Student Learning Outcomes (Program Level)

1. Show proficiency with the basic usage of hardware and equipment associated to various technical theatre areas in a safe manner while being able to correctly identify and utilize technical theatre terminology.

Student Learning Outcomes (Course-Level):

Upon successful completion of this course, students will:

1. Use collaboration in the creation of theatrical productions.
2. Demonstrate the practical application of appropriately leveled theatrical skills and procedures
3. Apply critical thinking skills required for the creation of a theatrical production

Course Requirements and Evaluation:

Quarterly assessments will be completed by the instructor to ascertain students' development in the course learning outcomes based on performance in scheduled classes and lab hours. Assessments will be completed by the instructor at the completion of each production to ascertain students' application of skills and knowledge gained in the course. Students will also be graded based on successful completion of "work calls" and "strikes" for all semester productions. Students will complete a *minimum* of 10 lab hours outside of class time working on a technical aspect of all semester productions. Students who fail to complete 10 lab hours cannot pass the class.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet service providers, computers, or not backing up one's work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

Quarterly Assessments	40%
10 Lab Hours (minimum)	10%
Production Assessments	20%
Work Calls	15%
Final/Semester Strike	15%

Grading Procedures

1. Quarterly Assessments (40% of Course Grade):

- Students will complete quarterly assessments designed to evaluate their understanding and application of the skills, techniques, terminology, and procedures covered throughout the course.
- Assessments may include written questions, practical demonstrations, identification exercises, and/or hands-on applications of course material.
- Students are expected to demonstrate both knowledge of theatrical practices and the ability to apply that knowledge in a practical setting.

2. 10 Lab Hours – Minimum (10% of Course Grade):

- Each student is required to complete a minimum of **10 hours of approved laboratory work** during the semester.
- Lab hours provide students with practical, hands-on experience applying the concepts and skills learned in class.
- Lab work may include activities such as scenery construction, scenic painting, properties, lighting, sound, costumes, makeup, backstage work, or other approved technical theatre assignments.
- Students are responsible for recording their completed lab hours according to the procedures established by the instructor.
- Students who do not complete the required minimum of 10 lab hours may not receive full credit for this portion of the course.

3. Production Assessments (20% of Course Grade):

- Students will be assessed on their participation in assigned production-related activities throughout the semester.
- Production assessments will evaluate the student's ability to apply classroom knowledge and technical skills in an actual theatrical production environment.
- Assessments may include preparation, execution of assigned responsibilities, technical skills, problem-solving, teamwork, safety practices, and overall contribution to the production.
- Students are expected to arrive prepared and on time and to complete assigned production responsibilities as directed.

4. Work Calls (15% of Course Grade):

- Students will participate in scheduled work calls as assigned by the instructor or production staff.
- Work calls may include scenery construction and painting, properties, costumes, lighting, sound, stage preparation, organization, maintenance, load-in, strike, or other production-related activities.
- Students are expected to arrive on time, remain for the scheduled work period, follow instructions, work safely, and contribute positively to the production process.
- Attendance and participation during work calls will be considered when determining the student's grade.

5. Final/Semester Strike (15% of Course Grade):

- Students are required to participate in the **final production strike at the conclusion of the semester**.
- The semester strike may include the removal, organization, storage, cleaning, and proper disposal of scenery, props, costumes, lighting equipment, sound equipment, and other production materials.
- Students are expected to work cooperatively, follow all safety procedures, and remain actively engaged until their assigned responsibilities have been completed.
- The Final/Semester Strike is a required component of the course and provides students with practical experience in the final stage of the theatrical production process.

6. Extra Credit:

Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

7. Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**September 8**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

1) Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026**.

2) **Classroom Conduct:**

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) **Academic Honesty:**

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) **Drama AI Policy**

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one’s own original artistic or academic work, constitutes academic dishonesty.

5) **Complaint Procedures:**

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

6) **ADA Statement**

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) **Illness Policy:**

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) **Syllabus Subject to Change**

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

“Never let the fear of striking out stop you from playing the game.” —Babe Ruth

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Additional Information

1) **Student Email Policy**

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

2) **Email Response Time**: If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

3) **Technical Difficulties**: Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library.

4) **Basic Computer Requirements**: As a rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

Important Production Dates and Requirements

Fall 2026

This class meets on M/W throughout the semester, with Lab Hours as scheduled, unless otherwise noted on the schedule. The dates below are final deadlines for major course projects and departmental productions. Daily participation is expected throughout the semester.

***Note:** This schedule is meant as a guide, and the actual dates and order of events are in no way fixed. The instructor reserves the right to change the dates and/or the order of events upon their choosing or as needed.*

Fall Semester Work Days:

Just Rob, in the Hood November 6 9:00-5:00 Required

*Additional workdays may be added at the instructor's discretion and are TBD

* Crew watch dates may be added at the instructor's discretion and are TBD

Fall Semester Tech Weeks:

Just Rob, in the Hood Nov. 8-15 Includes all rehearsals/performances

Fall Semester Production Strikes:

Just Rob, in the Hood Nov. 16 The Monday immediately following performance

*It is the student's responsibility to read and understand all policies and procedures defined in this syllabus. The instructor reserves the right to make changes to the syllabus if necessary. Students will be informed of these changes ahead of time, and changes should not greatly affect the material covered or grading procedures. *

Course Schedule/Weekly Lesson Plan

START HERE – Roadmap of the Course (August 24-October 11)

- Instructor Information
- Syllabus
- First Assignment Syllabus Quiz - ***Due by August 30 at 11:59 PM***

Attend on regular class meeting days and attend on assigned lab days. Attend all scheduled work calls and strikes.

Important Dates:

August 24, 2026: First Day of Class

August 31, 2026: Official Reporting Day

October 1, 2026: Last day to drop with a "W."

October 11, 2026: All Assignments close at 11:59 PM

October 12-14, 2026: Final Exam

October 16, 2026: Grades are due.

DRAM 1330.10A0

Stagecraft I

Fall 2026

Instructor: William Walker	Meeting Location: MB 103
Office: Music Building 106	Meeting Days: TR
Phone: 903-782-0488	Meeting Times: 2:15 -4:45
Office Hours: Office Hours Upon Request	Email: wwalker@parisjc.edu

Course Description:

Study and application of the methods and components of theatrical production which may include one or more of the following: theater facilities, scenery construction and painting, properties, lighting, costume, makeup, sound, and theatrical management.

Credits: 3.2.4

TSI Requirement: 350 M, 351 R, 340 W.

Prerequisite(s): None

Required Textbook(s) and Materials:

This course uses *OPEN-SOURCE* materials.

Course Goals and Objectives:

- Courses in this category focus on developing skills used by theatre technicians and craftspeople in areas of scenery, costume, lighting and sound, while understanding the process of creating a theatrical production as it goes from page to stage through the use of theatrical tools and materials responsibly and in accordance with industry safety guidelines.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.

3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

1. Show proficiency with the basic usage of hardware and equipment associated to various technical theatre areas in a safe manner while being able to correctly identify and utilize technical theatre terminology.
2. Demonstrate proficiency in character development through physical and vocal techniques and character analysis.
3. Identify the major stages of development in various dramatic forms in Western and Eastern cultures.

Outcomes (Course Level):

Upon successful completion of this course, student will be able to:

1. Apply a vocabulary and knowledge of the environment, tools, and skills required to mount a theatrical production.
2. Demonstrate knowledge of the variety of work required to mount a theatrical production.
3. Describe the collaborative nature of production within theatre arts.

Course Requirements and Evaluation:

Requirements:

This course will require students to work with both hand tools and electrical tools, write technical based papers; complete a midterm exam, complete practical projects, complete lab hours, and a final practical exam.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet service providers, computers, or not backing up ones work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

<i>Lab Hours</i>	25%
<i>Final Exam</i>	25%
<i>Technical Builds</i>	25%
<i>Practical Project Quizzes</i>	25%

Grading Procedures

Lab Hours (25% of Course Grade):

Each student must complete 10 lab hours outside of class. **These hours, along with all other assignments, must be completed in order to pass the course.**

Final Exam (25% of Course Grade):

The final exam will be a comprehensive exam covering all practical exercises covered in the course. This exam will be taken in person as it is based on practical applications of technical theatre.

Technical Builds (25% of Course Grade):

Students will participate in construction of scenic elements for department productions.

Practical Project Quizzes (25% of Course Grade):

Students will participate in individual and group practical project quizzes. Each quiz will be based on an element learned during the course. These quizzes will test students' retention of skills and basic knowledge. Each project will be a practical, a cube, flat, platform, etc., that can be used in any theatrical production.

Extra Credit:

Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

Course Policies

See Class Conduct Below.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**September 8**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Drama AI Policy

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one’s own original artistic or academic work, constitutes academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:
Your symptoms are getting better overall, and

You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Additional Information:

Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Email Response Time:

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties:

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library.

Basic Computer Requirements: As a rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

Final Exam – (December 7-10)

Important Dates:

August 24, 2026: First Day of Class

September 09, 2026: Official Reporting Day

October 16, 2026: Mid-term Grades Due

November 12, 2024: Last day to drop with a "W"

December 06, 2026 at 11:59 PM: All Assignments will close except for the final exam

December 6-9, 2026: Final Exams

December 11, 2026: Grades are due

DRAM 1351 10A0
Acting I
Fall 2026

Instructor: William Walker	Meeting Location: MB 103
Office: MB 106	Meeting Days: MW
Phone: 903-782-0488	Meeting Times: 1:00-3:30
Office Hours: Office Hours Posted Below	Email: wwalker@parisjc.edu

Course Description:

An introduction to the fundamental principles and tools of acting as used in auditions, rehearsals, and performances. This may include ensemble performing, character and script analysis, and basic theater terminology. This exploration will emphasize the development of the actor's instrument: voice, body, and imagination.

Credits: SCH = 3

Prerequisite(s): None

Required Textbook(s) and Materials:

Textbook(s): This course uses *OPEN SOURCE* materials inside Blackboard and handouts distributed in class

Materials:

- *Movement clothing such as sweats, work-out, or yoga-type clothing (No pajamas)
- *Hair ties or methods to keep hair out of face
- * Recommended: A yoga mat, towel, and/or bottle of water for movement-focused days

Course Goals and Objectives:

Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

"Alone we can do so little, together we can do so much." —Helen Keller

2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

1. Demonstrate proficiency in character development through physical and vocal techniques and character analysis.

Outcomes (Course-Level):

Upon successful completion of this course, students will:

1. Analyze scripts from the viewpoint of the actor.
2. Analyze, develop, and perform a character.
3. Demonstrate effective and safe use of the voice and body.
4. Define and discuss terms and concepts using the vocabulary of theater.
5. Perform at an appropriately skilled level in ensemble building exercises, scenes and final projects, which may include participation in plays.

Course Requirements and Evaluation:

Requirements:

This course will require students to work with both hand tools and electrical tools, write technical based papers; complete a midterm exam, complete practical projects, complete lab hours, and a final practical exam.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet service providers, computers, or not backing up ones work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

Performance Exam 1	10%
Performance Exam 2	10%
Performance Exam 3	10%
Performance Exam 4	10%
Self & Peer Reviews (4 total at 5% each)	20%
Daily Participation	15%
Journal Entries	25%

Grading Procedures

- 1. Performance Exam 1 (10% of Course Grade):**
 - Students will prepare and perform an assigned acting scene demonstrating the foundational performance skills introduced in the course.
 - This first performance exam will establish a baseline for each student's work and will focus on preparation, memorization, character development, basic acting technique, and commitment to the scene.
 - Students are expected to apply the techniques and terminology discussed in class and demonstrate a willingness to take direction and make performance choices.
- 2. Performance Exam 2 (10% of Course Grade):**
 - Students will prepare and perform a new acting scene that builds upon the skills demonstrated in Performance Exam 1.
 - Students are expected to demonstrate continued growth in character development, memorization, physical and vocal choices, listening, interaction with scene partners, and overall commitment to the circumstances of the scene.
 - The goal of this exam is not simply to complete another performance, but to demonstrate advancement in the student's acting abilities.
- 3. Performance Exam 3 (10% of Course Grade):**
 - Students will prepare and perform an acting scene that requires them to further develop and apply the skills introduced throughout the course.
 - Performances should demonstrate increased confidence, stronger character choices, greater vocal and physical control, improved scene work, and a deeper understanding of the character and circumstances.
 - Students should demonstrate that they have incorporated feedback from previous performances and are actively applying that feedback to their continued development as actors.

4. Performance Exam 4 (10% of Course Grade):

- Students will prepare and perform a final acting scene demonstrating the cumulative skills developed throughout the course.
- This performance should represent the student's strongest and most developed work of the semester and should demonstrate significant advancement from Performance Exam 1.
- Students will be evaluated on character development, memorization, vocal and physical technique, listening and reacting, emotional commitment, scene relationships, preparation, and overall performance quality.
- Students are expected to demonstrate their ability to independently apply the acting techniques and principles studied throughout the course.

Performance Exam Progression:

- Each Performance Exam is intended to **build upon the previous exam**. Students should demonstrate measurable growth throughout the semester rather than simply completing four separate performances.
- Advancement may be demonstrated through stronger character choices, improved memorization, greater vocal and physical control, more effective use of space, deeper scene analysis, stronger relationships with scene partners, increased confidence, and the successful application of instructor feedback.
- Students who do not demonstrate growth or who repeat the same performance problems from previous exams may have their grade affected.

5. Self & Peer Reviews – 4 Total (5% Each / 20% of Course Grade):

- Students will complete a Self & Peer Review following each Performance Exam.
- Students will evaluate their own performance as well as the performance of assigned classmates using criteria provided by the instructor.
- Reviews should be specific, constructive, and connected to the acting concepts and terminology studied in class.
- Students should identify strengths, areas for improvement, and specific goals for their next performance.
- The purpose of these reviews is to help students develop the ability to critically evaluate acting performances and recognize their own continued growth as performers.

6. Daily Participation (15% of Course Grade):

- Daily participation is an important part of this performance-based course.
- Students are expected to arrive prepared, participate in class exercises and activities, contribute to discussions, work productively with scene partners and classmates, and demonstrate a professional attitude toward the work.
- Participation includes active engagement in rehearsals, acting exercises, improvisations, observations, and other activities assigned by the instructor.
- Simply being present does not constitute participation. Students are expected to be actively involved in the learning process.

7. Journal Entries (25% of Course Grade):

- Students will maintain an acting journal throughout the course to document their development as performers.
- Journal entries may include reflections on class activities, acting exercises, rehearsals, assigned scenes, instructor feedback, performance experiences, character development,

and personal goals.

- Students should use the journal to reflect honestly on their progress, identify challenges, and consider how they can improve as actors.
- Entries should demonstrate thoughtful engagement with the course material rather than simply describing what happened in class.
- The journal will provide a record of the student's growth and development throughout the semester and may be used to help prepare for future Performance Exams.

8. Required Activity:

1. All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**September 8**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

1) Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026**.

2) Classroom Conduct:

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) Drama AI Policy

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one’s own original artistic or academic work, constitutes academic dishonesty.

5) **Complaint Procedures:**

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

6) **ADA Statement**

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student’s responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) **Illness Policy:**

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Instructor: William Walker	Meeting Location: MB 103
Office: Music Building 106	Meeting Days: TR
Phone: 903-782-0488	Meeting Times: 11:00-12:15
Office Hours: Office Hours Upon Request	Email: wwalker@parisjc.edu

Course Description:

Survey and analyze cinema including history, film techniques, production procedures, selected motion pictures, and cinema's impact on and reflection of society.

Credits: 3.2.2

TSI Requirement: 350 M, 351 R, 340 W.

Prerequisite(s): Basic computer skills

Required Textbook(s) and Materials:

- **Textbook:** *Moving Pictures: An Introduction to Cinema* by Russell Sharman (Included in Course.)
- Access to assigned films (provided in class or via streaming platforms outside of class.)
- Notebook or digital device for in-class journal reflections

Course Goals and Objectives:

- Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

Upon successful completion of this course, the student will be able to:

1. Identify the major stages of development in various dramatic forms in Western and Eastern cultures.

Outcomes (Course Level):

Upon successful completion of this course, student will be able to:

1. Analyze film through written response.
2. Demonstrate a basic knowledge of film history, form, and genre.
3. Describe the collaborative nature of cinema and the many jobs required to develop a motion picture.
4. Discuss/Describe the relationship of cinema to society as it relates to his/her perspective.

Course Requirements and Evaluation

Requirements:

Students are expected to actively engage with the films and activities that form the foundation of this course. Requirements include watching assigned films in their entirety outside of class, participating in class discussions and activities, maintaining a Movie Journal with thoughtful responses and observations about each film that demonstrates an understanding of film terminology, storytelling, acting, directing, cinematography, editing, sound, design, themes, and historical or cultural context. Students should come to class prepared to discuss assigned films and contribute meaningfully to the learning environment.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet

service providers, computers, or not backing up one's work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

<u>Component</u>	<u>% of Final Grade</u>
Class Participation & Discussion	15%
Journal Entries	20%
Short Film Analysis Papers (2)	15%
Midterm Exam	20%
Final Project / Presentation	30%

Grading Procedures

1. **Class Participation & Discussion** – 15%

Active engagement is essential to understanding film as an art form. Students are expected to contribute thoughtfully to group discussions, respond to classmates' ideas, and participate in all in-class activities. This includes sharing perspectives during clip analysis, responding to prompts, and offering respectful feedback during peer presentations.

2. **Journal Entries** – 20%

At the end of most class sessions, you will complete a short, written reflection or creative response related to the day's film, topic, or activity. Journals encourage personal connection to the material, deeper observation, and the practice of articulating your thoughts about film. Selected entries will be shared in small groups to foster dialogue.

3. **Short Film Analysis Papers (2)** – 15%

Two short papers (2–3 pages each) will require you to analyze a scene or sequence from one of the films studied in class. These papers focus on identifying cinematic techniques (mise-en-scène, cinematography, editing, sound, performance) and explaining how they contribute to meaning, mood, or theme.

4. **Midterm Exam (Film Terms & Concepts) – 20%**

The midterm will assess your understanding of concepts from lectures, and analytical approaches introduced in class.

5. **Final Project / Presentation – 30%**

Assignment Overview:

In the final week of the course, students will deliver a **5–7-minute presentation** analyzing a film of their choice, with instructor approval. The presentation should demonstrate the student's ability to apply the concepts, terminology, and analytical skills developed throughout the course. Projects will be completed **in pairs or if need be, trios** and must include visual examples such as film stills, short clips, or other relevant visual material.

Evaluation Criteria

Final Project / Presentation Rubric — 30%

Group/Student Name(s): _____

Film/Topic: _____

Date: _____ **Score:** _____ / 100

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Film Analysis	Provides insightful analysis that goes well beyond plot summary and examines the film's artistic, technical, and/or thematic elements.	Provides clear analysis with some depth beyond plot summary.	Provides basic analysis but relies somewhat on plot summary.	Provides little analysis and primarily summarizes the plot.	/30

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Application of Film Concepts	Effectively and accurately applies multiple film concepts and terminology from the course.	Applies several appropriate film concepts with minor errors or omissions.	Applies some film concepts but with limited depth or accuracy.	Uses few or no appropriate film concepts or terminology.	/25
Film Significance	Clearly and thoughtfully explains the film's historical, cultural, artistic, or cinematic significance.	Clearly explains the film's significance with supporting examples.	Identifies significance but provides limited explanation or support.	Provides little or no explanation of the film's significance.	/20
Visual Examples	Uses highly relevant stills/clips that strongly support and enhance the analysis.	Uses appropriate visual examples that support the presentation.	Includes visual examples but their connection to the analysis is limited.	Uses few, inappropriate, or ineffective visual examples.	/10
Organization & Presentation	Exceptionally organized, engaging, clear, and within the 5–7 minute requirement.	Well organized and clearly presented; generally within the time requirement.	Some organizational or presentation issues; may be slightly outside the time requirement.	Disorganized, difficult to follow, or significantly outside the time requirement.	/10

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Preparation & Professionalism	Demonstrates excellent preparation, confidence, professionalism, and thorough knowledge of the film.	Demonstrates good preparation and knowledge of the film.	Demonstrates adequate preparation but relies on notes or shows limited familiarity.	Appears poorly prepared or unfamiliar with the material.	/5
TOTAL					/100

Presentation Expectations: Students should focus on analysis rather than plot summary and use specific examples from the film to support their observations. All visual material should contribute directly to the presentation. Students presenting in pairs should demonstrate meaningful participation by both presenters.

6. **Extra Credit:**

- a. Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

1) **Required Activity:**

- All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**August 30**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

1) **Class Attendance:**

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The

student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of “W” is **October 1, 2026**.

2) **Classroom Conduct:**

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) **Academic Honesty:**

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) **Drama AI Policy**

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one’s own original artistic or academic work, constitutes academic dishonesty.

5) Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

6) ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

***PJC Cares about our students!
Please help us help you by
completing our basic need
assessment by scanning the QR code:***

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Additional Information

1) Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

2) **Email Response Time:** If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

3) **Technical Difficulties:** Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library.

- 4) **Basic Computer Requirements:** As a rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

Course Schedule/Weekly Lesson Plan

START HERE – Roadmap of the Course (August 24-October 11)

- Instructor Information
- Syllabus
- First Assignment Syllabus Quiz - *Due by August 30 at 11:59 PM*

Week 1 – The Power of World-Building & Fantasy

- **Session 1:** *Labyrinth* – practical effects, puppetry, surreal design; activity: freeze-frame world-building analysis
- **Session 2:** *The Dark Crystal* – non-human performance, visual storytelling; activity: silent visual storyboards

Week 2 – Animation & Cultural Perspectives

- **Session 3:** *Spirited Away* – symbolism & cultural context in animation; activity: symbol hunt
- **Session 4:** *The Black Cauldron* – tone through color and lighting; activity: palette comparison

Week 3 – Technological Breakthroughs

- **Session 5:** *The Wizard of Oz* – transition from B/W to Technicolor; activity: imagining scenes in different formats
- **Session 6:** *The Time Machine* – editing time; activity: time-lapse clue identification

Week 4 – Visual Storytelling & Cinematic Tone

- **Session 7:** *Dark City* – architecture & mood; activity: city transformation sketches
- **Session 8:** *The Others* – sound and silence in suspense; activity: create silent horror scenes

Week 5 – Surrealism & Editing Innovation

- **Session 9:** *Alice* (Švankmajer) – surreal editing & dream logic; activity: scene reordering exercise

- **Session 10:** *Monty Python and the Holy Grail* – absurdism & breaking narrative rules; activity: rewrite serious scene absurdly

Week 6 – Sound & Music as Narrative Tools

- **Session 11:** *Jaws* – motif and musical suspense; activity: watch with/without sound
- **Session 12:** *Spirited Away* (music focus) – score integration; activity: scene silence analysis

Week 7 – Performance & Stage-to-Screen

- **Session 13:** *Gypsy* – theatrical vs. cinematic acting; activity: stage-to-film comparison
- **Session 14:** *The Wizard of Oz* (performance focus) – intimacy of camera; activity: act out scene in stage & film styles

Week 8 – Integration & Legacy

- **Session 15:** Cross-film connections & influence mapping; activity: create a visual “film influence family tree”
- **Session 16:** Final Reflection – how to watch films actively; final journal share and discussion

Final Exam – (October 12-15, 2025)

Important Dates:

August 24, 2026: First Day of Class

August 31, 2026: Official Reporting Day

October 1, 2026: Last day to drop with a "W."

October 11, 2026: All Assignments close at 11:59 PM

October 12-14, 2026: Final Exam

October 16, 2026: Grades are due.

DRAM 2366.40L0
Film Appreciation
Fall A 2026

Instructor: William Walker	Meeting Location: GRNV/GRNV 1/127
Office: Music Building 106	Meeting Days: TR
Phone: 903-782-0488	Meeting Times: 11:00-12:15
Office Hours: Office Hours Upon Request	Email: wwalker@parisjc.edu

Course Description:

Survey and analyze cinema including history, film techniques, production procedures, selected motion pictures, and cinema's impact on and reflection of society.

Credits: 3.2.2

TSI Requirement: 350 M, 351 R, 340 W.

Prerequisite(s): Basic computer skills

Required Textbook(s) and Materials:

- **Textbook:** *Moving Pictures: An Introduction to Cinema* by Russell Sharman (Included in Course.)
- Access to assigned films (provided in class or via streaming platforms outside of class.)
- Notebook or digital device for in-class journal reflections

Course Goals and Objectives:

- Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

Upon successful completion of this course, the student will be able to:

1. Identify the major stages of development in various dramatic forms in Western and Eastern cultures.

Outcomes (Course Level):

Upon successful completion of this course, student will be able to:

1. Analyze film through written response.
2. Demonstrate a basic knowledge of film history, form, and genre.
3. Describe the collaborative nature of cinema and the many jobs required to develop a motion picture.
4. Discuss/Describe the relationship of cinema to society as it relates to his/her perspective.

Course Requirements and Evaluation

Requirements:

Students are expected to actively engage with the films and activities that form the foundation of this course. Requirements include watching assigned films in their entirety outside of class, participating in class discussions and activities, maintaining a Movie Journal with thoughtful responses and observations about each film that demonstrates an understanding of film terminology, storytelling, acting, directing, cinematography, editing, sound, design, themes, and historical or cultural context. Students should come to class prepared to discuss assigned films and contribute meaningfully to the learning environment.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet

service providers, computers, or not backing up one's work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

<u>Component</u>	<u>% of Final Grade</u>
Class Participation & Discussion	15%
Journal Entries	20%
Short Film Analysis Papers (2)	15%
Midterm Exam	20%
Final Project / Presentation	30%

Grading Procedures

1. **Class Participation & Discussion** – 15%

Active engagement is essential to understanding film as an art form. Students are expected to contribute thoughtfully to group discussions, respond to classmates' ideas, and participate in all in-class activities. This includes sharing perspectives during clip analysis, responding to prompts, and offering respectful feedback during peer presentations.

2. **Journal Entries** – 20%

At the end of most class sessions, you will complete a short, written reflection or creative response related to the day's film, topic, or activity. Journals encourage personal connection to the material, deeper observation, and the practice of articulating your thoughts about film. Selected entries will be shared in small groups to foster dialogue.

3. **Short Film Analysis Papers (2)** – 15%

Two short papers (2–3 pages each) will require you to analyze a scene or sequence from one of the films studied in class. These papers focus on identifying cinematic techniques (mise-en-scène, cinematography, editing, sound, performance) and explaining how they contribute to meaning, mood, or theme.

4. **Midterm Exam (Film Terms & Concepts) – 20%**

The midterm will assess your understanding of concepts from lectures, and analytical approaches introduced in class.

5. **Final Project / Presentation – 30%**

Assignment Overview:

In the final week of the course, students will deliver a **5–7-minute presentation** analyzing a film of their choice, with instructor approval. The presentation should demonstrate the student's ability to apply the concepts, terminology, and analytical skills developed throughout the course. Projects will be completed **in pairs or if need be, trios** and must include visual examples such as film stills, short clips, or other relevant visual material.

Evaluation Criteria

Final Project / Presentation Rubric — 30%

Group/Student Name(s): _____

Film/Topic: _____

Date: _____ **Score:** _____ / 100

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Film Analysis	Provides insightful analysis that goes well beyond plot summary and examines the film's artistic, technical, and/or thematic elements.	Provides clear analysis with some depth beyond plot summary.	Provides basic analysis but relies somewhat on plot summary.	Provides little analysis and primarily summarizes the plot.	/30

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Application of Film Concepts	Effectively and accurately applies multiple film concepts and terminology from the course.	Applies several appropriate film concepts with minor errors or omissions.	Applies some film concepts but with limited depth or accuracy.	Uses few or no appropriate film concepts or terminology.	/25
Film Significance	Clearly and thoughtfully explains the film's historical, cultural, artistic, or cinematic significance.	Clearly explains the film's significance with supporting examples.	Identifies significance but provides limited explanation or support.	Provides little or no explanation of the film's significance.	/20
Visual Examples	Uses highly relevant stills/clips that strongly support and enhance the analysis.	Uses appropriate visual examples that support the presentation.	Includes visual examples but their connection to the analysis is limited.	Uses few, inappropriate, or ineffective visual examples.	/10
Organization & Presentation	Exceptionally organized, engaging, clear, and within the 5–7 minute requirement.	Well organized and clearly presented; generally within the time requirement.	Some organizational or presentation issues; may be slightly outside the time requirement.	Disorganized, difficult to follow, or significantly outside the time requirement.	/10

Evaluation Criteria	Excellent	Good	Satisfactory	Needs Improvement	Points
Preparation & Professionalism	Demonstrates excellent preparation, confidence, professionalism, and thorough knowledge of the film.	Demonstrates good preparation and knowledge of the film.	Demonstrates adequate preparation but relies on notes or shows limited familiarity.	Appears poorly prepared or unfamiliar with the material.	/5
TOTAL					/100

Presentation Expectations: Students should focus on analysis rather than plot summary and use specific examples from the film to support their observations. All visual material should contribute directly to the presentation. Students presenting in pairs should demonstrate meaningful participation by both presenters.

6. **Extra Credit:**

- a. Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

1) **Required Activity:**

- All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**August 30**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

1) **Class Attendance:**

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The

student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of “W” is **October 1, 2026**.

2) **Classroom Conduct:**

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) **Academic Honesty:**

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) **Drama AI Policy**

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one’s own original artistic or academic work, constitutes academic dishonesty.

5) Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

6) ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

***PJC Cares about our students!
Please help us help you by

Phone: 903-782-0488	Meeting Times: 11:00-12:15
Office Hours: Office Hours Upon Request	Email: wwalker@parisjc.edu

Course Description:

Survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Three credit hours. Credits: 3.2.4

TSI Requirement: 350 M, 351 R, 340 W.

Required Textbook(s) and Materials:

Mitchel, Charlie. *Theatrical Worlds*. (Included in the class in PDF format.)

Miller, Arthur. *The Crucible*. (Included in the class in PDF format.)

Sophocles. *Oedipus Rex*. (Included in the class in PDF format.)

Course Goals and Objectives:

- Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.

3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

1. Show proficiency with the basic usage of hardware and equipment associated to various technical theatre areas in a safe manner while being able to correctly identify and utilize technical theatre terminology.
2. Demonstrate proficiency in character development through physical and vocal techniques and character analysis.
3. Identify the major stages of development in various dramatic forms in Western and Eastern cultures.

Outcomes (Course Level):

Upon successful completion of this course, student will be able to:

1. Analyze theater through written responses to play texts and/or live performance.
2. Demonstrate a basic knowledge of theater history and dramatic works.
3. Describe the collaborative nature of theater arts.
4. Demonstrate the relationship of the arts to everyday life as well as broader historical and social contexts.

Course Requirements and Evaluation

Requirements:

This course will require students to watch theatre, write objective reviews; complete quizzes and discussions based on readings, watch videos, write an essay and create a PowerPoint presentation based on that essay, write and submit a formal email with a file attached, and take a mid-term and final exam.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet service providers, computers, or not backing up one's work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

Who Am I? Assignment	10%
Quizzes Average	15%
Final Exam	15%
Discussions & Responses	20%
Live Performance Review & Selfie	40%

Grading Procedures

1) **Who Am I? Assignment** (10% of Course Grade):

- This assignment consists of a short (approx. half page) biography of the student and a picture of the student either doing something they love or a favorite picture of themselves that is inserted at the end of the biography. These must be a singular document and not two individual documents to receive full credit.

2) **Quizzes** (15% of Course Grade):

- Students will complete short quizzes based on the readings of *Oedipus Rex* by Sophocles, and *The Crucible* by Arthur Miller, and Modules 1 – 4.

3) **Final Exam** (15% of Course Grade):

- The final exam will consist of a collection of comprehensive questions covering the entire course.

4) **Discussion Posts & Responses** (20% of Course Grade):

- Students will go to the Paris Junior College website and access the Blackboard platform.
- Upon finding and selecting this course the students will utilize the Navigation panel to the left to search and find their Module Assignments.
- Students will search the Module Assignments for the Discussion Assignments in each, open, and complete.

- All members of the course will participate in discussion threads in class throughout the semester.
- Each student will post an initial response to a discussion question given by the instructor online through Blackboard and then respond to one other class member's post.
- That is a total of 2 posts per discussion.
- All responses must contribute to the nature of discussion, therefore there will be no credit given to responses such as "I agree", "Well stated", etc.
 - We want to cultivate original thoughts and ideas.
- The posts are worth 50 points each, which gives you 100 points for each online discussion participated in.
- Substantial posts beyond the required two per question will receive extra credit based on the discretion of the instructor.

5) Performance Review with Selfie (40% of Course Grade):

- All students are required to attend/watch one performance over the course of the semester and then fill in the associated Google form (link provided in assignment).
- The form consists of short and long answer questions as well as a place for you to upload your selfie.
- The grade for this assignment is in the details. Give as many specific details as possible for each question that asks for them.
- Google Form must be submitted by the stated due date, no computer problems, no emails, and no excuses.
- Copy/Paste the Submission Message you receive into the "Create Submission" box on the submission page for this assignment.

NOTE: *I strongly suggest that you attend a live performance...*

6) Extra Credit:

- Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

7) Required Activity:

- All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**Oct. 25**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

1) Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of “W” is **November 24, 2026**.

2) Classroom Conduct:

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) Drama AI Policy

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI

to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one's own original artistic or academic work, constitutes academic dishonesty.

5) **Complaint Procedures:**

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

6) **ADA Statement**

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) **Illness Policy:**

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) **Syllabus Subject to Change**

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

"Alone we can do so little, together we can do so much." —Helen Keller

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Additional Information

1) Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

2) **Email Response Time:** If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

3) **Technical Difficulties:** Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. Therefore, assignments should not be put off until near the deadline. Paris Campus (The Learning Center and AS150), Greenville Center Library, and Sulphur Springs Center Library.

- 4) **Basic Computer Requirements:** As a rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as (Word, PowerPoint, Excel), and specialized software.

Course Schedule/Weekly Lesson Plan

START HERE – Roadmap of the Course (October 19-December 10)

- Instructor Information
- Syllabus
- First Assignment Syllabus Quiz - *Due by October 25 at 11:59 PM*

WHO AM I? – A Tell Me a Little Bit About Yourself Exercise (October 19-December 10)

- Welcome to the Module
- Who Am I? Assignment - *Due by December 6 at 11:59 PM*

MODULE 1A – From the Beginnings (October 19-December 10)

- Module Expectations
- PowerPoint
- PowerPoint Quiz - *Due by December 6 at 11:59 PM*

OEDIPUS REX MODULE – (October 19-December 10)

- Module Expectations
- Read *Oedipus the King*
- *Oedipus the King* Quiz - *Due by December 6 at 11:59 PM*
- Discussion *Oedipus the King* - *Due by December 6 at 11:59 PM*

MODULE 1B – Theatrical Influencers of the Renaissance (October 19-December 10)

- Module Expectations
- PowerPoint
- PowerPoint Quiz - *Due by December 6 at 11:59 PM*

MODULE 2 – Theater: East & West (October 19-December 10)

- Module Expectations
- PowerPoint
- PowerPoint Quiz - *Due by December 6 at 11:59 PM*

MODULE 3 – The What and the Who (October 19-December 10)

- Module Expectations

- PowerPoint
- PowerPoint Quiz - *Due by December 6 at 11:59 PM*

THE CRUCIBLE MODULE – (October 19-December 10)

- Module Expectations
- Read *The Crucible*
- *The Crucible* Quiz - *Due by December 6 at 11:59 PM*
- Discussion *The Crucible* - *Due by December 6 at 11:59 PM*

MODULE 4 – Evolution of Musical Theater (October 19-December 10)

- Module Expectations
- PowerPoint
- PowerPoint Quiz - *Due by December 6 at 11:59 PM*

WRITING MODULE – Putting into Practice (October 19-December 10)

- Welcome to the Writing Module
- Live Performance Review and Selfie - *Due by December 6 at 11:59 PM*
- *Musical Movies List*

Final Exam – (Dec. 7-10, 2026)

Important Dates:

October 19, 2026: First Day of Class

October 26, 2026: Official Reporting Day

November 24, 2026: Last day to drop with a "W."

December 06, 2026: All Assignments close at 11:59 PM

December 7-10, 2026: Final Exam

December 11, 2026: Grades are due.

DRAM 1310.20E0
Theater Appreciation
Fall A 2026

Instructor: William Walker	Meeting Location: INTERNET
Office: Music Building 106	Meeting Days: INTERNET
Phone: 903-782-0488	Meeting Times: INTERNET
Office Hours: Office Hours Upon Request	Email: wwalker@parisjc.edu

Course Description:

Survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Three credit hours. Credits: 3.2.4

TSI Requirement: 350 M, 351 R, 340 W.

Required Textbook(s) and Materials:

Mitchel, Charlie. *Theatrical Worlds*. (Included in the class in PDF format.)

Miller, Arthur. *The Crucible*. (Included in the class in PDF format.)

Sophocles. *Oedipus Rex*. (Included in the class in PDF format.)

Course Goals and Objectives:

- Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination. Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

Required Core Objectives

Associate of Arts (AA) - Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.

3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Outcomes (Program Level)

1. Show proficiency with the basic usage of hardware and equipment associated to various technical theatre areas in a safe manner while being able to correctly identify and utilize technical theatre terminology.
2. Demonstrate proficiency in character development through physical and vocal techniques and character analysis.
3. Identify the major stages of development in various dramatic forms in Western and Eastern cultures.

Outcomes (Course Level):

Upon successful completion of this course, student will be able to:

1. Analyze theater through written responses to play texts and/or live performance.
2. Demonstrate a basic knowledge of theater history and dramatic works.
3. Describe the collaborative nature of theater arts.
4. Demonstrate the relationship of the arts to everyday life as well as broader historical and social contexts.

Course Requirements and Evaluation

Requirements:

This course will require students to watch theatre, write objective reviews; complete quizzes and discussions based on readings, watch videos, write an essay and create a PowerPoint presentation based on that essay, write and submit a formal email with a file attached, and take a mid-term and final exam.

Timeliness of Assignments:

All work will be completed and uploaded on time. Late work will be accepted at the instructor's discretion. Excuses for late work will only be accepted with verifiable documented proof from a reputable source. (Example: In an emergency room for multiple days) Problems with Internet service providers, computers, or not backing up one's work will not be considered acceptable. Become familiar with alternatives such as the public library, Internet cafés, or friends.

IF YOU ARE LATE FOR AN ASSIGNMENT THERE IS NO MAKEUP UNLESS IT IS DUE TO VERIFIABLE ILLNESS OR PERSONAL/FAMILY EMERGENCY.

Grade Evaluation

Who Am I? Assignment	10%
Quizzes Average	15%
Final Exam	15%
Discussions & Responses	20%
Live Performance Review & Selfie	40%

Grading Procedures

1) **Who Am I? Assignment** (10% of Course Grade):

- This assignment consists of a short (approx. half page) biography of the student and a picture of the student either doing something they love or a favorite picture of themselves that is inserted at the end of the biography. These must be a singular document and not two individual documents to receive full credit.

2) **Quizzes** (15% of Course Grade):

- Students will complete short quizzes based on the readings of *Oedipus Rex* by Sophocles, and *The Crucible* by Arthur Miller, and Modules 1 – 4.

3) **Final Exam** (15% of Course Grade):

- The final exam will consist of a collection of comprehensive questions covering the entire course.

4) **Discussion Posts & Responses** (20% of Course Grade):

- Students will go to the Paris Junior College website and access the Blackboard platform.
- Upon finding and selecting this course the students will utilize the Navigation panel to the left to search and find their Module Assignments.
- Students will search the Module Assignments for the Discussion Assignments in each, open, and complete.

- All members of the course will participate in discussion threads in class throughout the semester.
- Each student will post an initial response to a discussion question given by the instructor online through Blackboard and then respond to one other class member's post.
- That is a total of 2 posts per discussion.
- All responses must contribute to the nature of discussion, therefore there will be no credit given to responses such as "I agree", "Well stated", etc.
 - We want to cultivate original thoughts and ideas.
- The posts are worth 50 points each, which gives you 100 points for each online discussion participated in.
- Substantial posts beyond the required two per question will receive extra credit based on the discretion of the instructor.

5) **Performance Review with Selfie (40% of Course Grade):**

- All students are required to attend/watch one performance over the course of the semester and then fill in the associated Google form (link provided in assignment).
- The form consists of short and long answer questions as well as a place for you to upload your selfie.
- The grade for this assignment is in the details. Give as many specific details as possible for each question that asks for them.
- Google Form must be submitted by the stated due date, no computer problems, no emails, and no excuses.
- Copy/Paste the Submission Message you receive into the "Create Submission" box on the submission page for this assignment.

NOTE: *I strongly suggest that you attend a live performance...*

6) **Extra Credit:**

- Extra Credit is at the discretion of the instructor, who shall accept or deny such requests.

7) **Required Activity:**

- All students must complete the First Assignment located in the "Course Content" section of Blackboard by **11:59 p.m.** on the day prior to the Official Reporting Day (ORD) [**August 30**]. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

1) Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of “W” is **October 1, 2026**.

2) Classroom Conduct:

Please turn off/silence and put away all electronic communication devices before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

3) Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

4) Drama AI Policy

Artificial Intelligence (AI) Use: Is permitted in this course when used thoughtfully and appropriately to support learning, creativity, and the exploration of theater, acting, directing, and design. Students may use AI to brainstorm ideas, explore character development, investigate theatrical styles, develop design concepts, or examine approaches to staging and directing; however, AI should supplement—not replace—the student’s own artistic judgment, creative process, and critical thinking. Any AI-generated material that informs a student’s work must be appropriately acknowledged and cited, including in-text citations when material is directly quoted, and any AI tool used must be included in the reference list. Students are responsible for verifying the accuracy of AI-generated information, as AI tools can produce inaccurate, misleading, or fabricated information and citations. Throughout the course, we may also use generative AI to examine how emerging technologies can influence theatrical creation, performance, directing, design, and production. Students will receive specific guidance regarding when and how AI may be used for assignments and how its use should be attributed. Using AI

to generate or substantially develop work without appropriate attribution or presenting AI-generated work as one's own original artistic or academic work, constitutes academic dishonesty.

5) **Complaint Procedures:**

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

6) **ADA Statement**

It is the policy of Paris Junior College to provide reasonable accommodation for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook or click or go to this link <http://www.parisjc.edu/index.php/pjc2/main/disabilities>

7) **Illness Policy:**

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

8) **Syllabus Subject to Change**

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

***PJC Cares about our students!

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Additional Information

1) Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

- 2) **Email Response Time:** If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.
- 3) **Technical Difficulties:** Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. GEOL 1401.20E0
Earth Science for Non-Science Majors 1 (Lecture + Lab) – 100% Online Course
Fall Term A 2026

Instructor: Dr. Beverly Kopachena

Office: SS #112

Phone: 903-885-1232 (please use **EMAIL** or **Blackboard Messages** for all communication)

Email: bkopachena@parisjc.edu

Office Hours: Online; messages will be answered within 24 hours, 7 days a week

Meeting Location, Days, & Times: Online; check Blackboard daily

Course Description:

Survey of geology, meteorology, oceanography, and astronomy. Prerequisites: eight hours of biology or chemistry or consent of instructor. This laboratory-based course accompanies GEOL 1401, Earth Sciences I. Activities will cover methods used to collect and analyze data in geology, meteorology, oceanography, and astronomy. Pre/Co-requisite: GEOL 1401 Earth Science for Non-Science Majors I (lab) 4 SCH.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**McConnell, The Good Earth.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

To access your online Connect course materials, click on the **Connect Syllabus Quiz**.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Earth Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Lecture: Upon successful completion of this course, students will:

1. Explain the current theories concerning the origin of the Universe and of the Solar System.
2. Explain the place of Earth in the Solar System and its relationships with other objects in the Solar System.
3. Relate the origin and evolution of Earth's internal structures to its resulting geologic systems, including Earth materials and plate tectonic activities.
4. Explain the operation of Earth's geologic systems and the interactions among the atmosphere, the geosphere, and the hydrosphere, including meteorology and oceanography.
5. Explain the history of the Earth including the evolution of earth systems and life forms.

Lab: Upon successful completion of this course, students will:

1. Classify rocks and minerals based on chemical composition, physical properties, and origin.
2. Apply knowledge of topographic maps, diagrams, and/or photographs to identify landforms and explain the processes that created them.
3. Differentiate the types of plate boundaries, explain the processes that occur at each and identify associated structural features on maps, block diagrams and cross sections.
4. Apply relative and numerical age-dating techniques to construct geologic histories.
5. Measure atmospheric processes that affect weather and climate.
6. Describe the composition and motion of ocean water and analyze the factors controlling both.
7. Compare properties and motions of objects in the solar system.
8. Demonstrate the collection, analysis, and reporting of data.

Course Requirements and Evaluation:

Connect Homework	25%
Connect Labs	25%
Lecture Tests 1	10%
Lecture Tests 2	10%
Lecture Tests 3	10%
Lecture Tests 4	10%
Comprehensive Final Exam	<u>10%</u>
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the **student's** responsibility to keep track of grades. All college students are expected to be able to do simple mathematics – do not ask the instructor to calculate the number of points needed to receive a certain grade in the course. All grades will be available in the **Gradebook** in Blackboard.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Friday, Sept. 18th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Course Schedule (see last page of Course Syllabus)

Required Activity:

All students must complete the **First Assignment: Syllabus Quiz** located in the **Start Here! Module** section of Blackboard by **11:59 pm on Sunday, August 30th**, before the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of course participation. **Students who do not complete the assignment by the deadline will be reported as non-attending and will be DROPPED from the course.**

Course Policies:

1. This course is not self-paced; there are **specific** due dates for all assignments. Labs and homework are open and available to complete on the first day of the semester. They each should take approximately one hour but may take longer based on your performance. You have **unlimited** attempts for homework and labs; your highest attempt score will be used as your grade. You are **strongly** recommended to work ahead on homework and labs. Please do them well **before** the due dates and **do not procrastinate**. Connect grades should upload to Blackboard in about an hour.

Late work is not accepted for Connect Homework or Labs (absolutely NO exceptions) – please do not ask to submit them late.

2. The four Lecture Tests consist of 25 multiple choice questions and cover two chapters each. They will be open for approximately one week and will be taken through Blackboard.
3. A missed Lecture Test must be made up within **seven** days. If you have an emergency situation and know that you cannot take the test by the due date, please email your instructor **immediately**. If a makeup quiz is allowed, it must be taken within seven days of the test due date; **only one Test may be made up in a semester**. Any makeup Test will be given at the discretion of the instructor. Please email your instructor if you have questions about this policy.
4. The Comprehensive Final Exam (worth 10%) will consist of 80 multiple choice questions. It will be available for approximately one week.
5. To avoid possible cheating, you will be able to review test grades after all students have taken the test.
6. **No grades (including zeros) will be dropped when calculating final overall grades.**
7. Any extra credit will be available to the entire class ONLY – **no individual extra credit will be given – please DO NOT ASK.**
8. This class is online and uses many online and digital resources. Therefore, students must have access to a strong internet connection (dial up is NOT recommended.) You will need a webcam. Speakers are also recommended. Problems with internet service are **not** an excuse for missing assignments – do your assignments **well before** the due dates to avoid this issue. If you have problems with your internet service, the College computer labs are available for use, and public libraries also have computers with internet service. Further, many businesses offer free WiFi.
9. If you have trouble with graphics in Connect, there are two links in the **Start Here! Module** in Blackboard, in the Connect Information folder, that will help you: **Connect Help Site** and **Connect Issues - Check Your Computer**. Please click on the link to check your computer's compatibility **BEFORE** contacting your instructor. In most cases, updating your internet browser fixes problems. Please be aware that the instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.
10. **It is NOT recommended that you use cell phones for Blackboard or your Connect HW or labs.** Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
11. All students must register for and monitor their PJC Dragon Mail account **daily**. All correspondence from the instructor and the College will be delivered to the Dragon Mail account. See **"PJC Official Dragon Mail Information"** in Blackboard for more information.
12. Please communicate through PJC email or Blackboard Messages **only**.

13. If you want an actual paper textbook, you can purchase a loose-leaf copy through your Connect course. The eBook (online textbook) is found in your Connect course.
14. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
 - a. Blackboard Username: Your school-issued student ID number, without dashes.
 - b. Blackboard Password: Your birthday (month, day, four-digit year, without marks).
15. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments in the Gradebook based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For all courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the **student (see instructions in Blackboard.)** **The last day for a student to withdraw from a course with a grade of “W” is Thursday, Oct. 1st, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

PJC Science Department - Artificial Intelligence Statement:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students **must** cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be included in your reference list. Please verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, please stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher.) You can return to your normal activities when, **for at least 24 hours**, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by PJC email and Blackboard Messages.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Basic Needs Survey

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at **988**. Help is also available on your campus in PJC's Counseling Center in Alford Center in Paris (counseling@parisjc.edu) and in the community.

Earth Science 1 Online Course Schedule

Fall Term A 2026

Please print and check off items as you complete them

All HW & Labs open Monday, August 24th.

Late work is never accepted for Connect HW or Labs.

- ☐ **Assignment 1: Connect Syllabus Quiz:** Due 8/30 at midnight

MODULE 1: Intro & Astronomy – HW & Labs due 8/30

Ch. 1 Introduction

Ch. 2 Earth in Space

- ☐ Homework Set 1
- ☐ Labs Set 1
- ☐ **Test 1 (Chs. 1 & 2)** available 8/31 – 9/6

MODULE 2: Geology – HW & Labs due 9/13

Ch. 4 Plate Tectonics

Ch. 7 Rocks & Minerals

- ☐ Homework Set 2
- ☐ Labs Set 2
- ☐ **Test 2 (Chs. 4 & 7):** available 9/14 – 9/20

MODULE 3: Geologic Time & Oceans – HW & Labs due 9/27

Ch. 8 Geologic Time

Ch. 13 Oceans & Coastlines

- ☐ Homework Set 3
- ☐ Labs Set 3
- ☐ **Test 3 (Chs. 8 & 13):** available 9/28 – 10/4

MODULE 4: Meteorology – HW & Labs due 10/11

Ch. 14 The Atmosphere

Ch. 15 Weather Systems

- ☐ Homework Set 4
- ☐ Labs Set 4
- ☐ **Test 4 (Chs. 14 & 15):** available 10/5 – 10/13

- ☐ **Comprehensive Final Exam:** available 10/5 – 10/13

This Course Syllabus and Schedule are subject to change by the instructor.

Paris Junior College
Principles of Macroeconomics – ECON 2301
Hybrid Course
Fall 2026 – Flex A

Instructor: Benjamin Burden

E-Mail: bburden@parisjc.edu

Office: FGC A106

Office Phone: (903) 782-0497

Office Hours: Monday: 8:00am -- 9:30am, 12:15pm-1:30pm
(FGC A106) Tuesday: 8:00am -- 9:30am, 12:15pm-1:30pm
 Wednesday: 8:00am -- 9:30am, 12:15pm-1:30pm
 Thursday: 8:00am -- 9:30am, 12:15pm-1:30pm
 Friday: (and other times) By appointment only

Required Text and Online Bundle:

Principles of Macroeconomics, v5.0. Libby Rittenberg, Alan Grant, and Timothy Tregarthen. FlatWorld Knowledge. Pub. 2024. eISBN: 979-8-88794-525-5.

There is a link imbedded in your Blackboard course shell. It will take you directly to our online reader. You do not have to register for the text once you are enrolled in the class.

Course Description: This course surveys the American economic system emphasizing the analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

Course Objectives: The primary objectives of economics courses at Paris Junior College are designed to maximize students' capacity to:

1. Explain the role of scarcity, specialization, opportunity cost, and cost/benefit analysis in economic decision-making.
2. Identify the determinants of supply and demand; demonstrate the impact of shifts in both market supply and demand curves on equilibrium price and output.
3. Compare alternative economic systems with respect to the role of government and the private sector.
4. Define and measure national income and rates of unemployment and inflation.
5. Identify the phases of the business cycle and the problems caused by cyclical fluctuations in the market economy.
6. Define money and the money supply; describe the process of money creation by the banking system and the role of the central bank.
7. Construct the aggregate demand and aggregate supply model of the macro economy and use it to illustrate macroeconomic problems and potential monetary and fiscal policy solutions.
8. Explain the mechanics and institutions of international trade and their impact on the macro economy.
9. Define economic growth and identify sources of economic growth

Course Requirements/ Evaluation: Your grade will be determined by your average at the end of the semester. The grading scale will be as follows:

100% - 89.5%	A
89.4% - 79.5%	B
79.4% - 69.5%	C
69.4% - 59.5%	D
Below 59.5%	F

Further, your course average will be determined by four exams (20% each) as well as numerous homework assignments and in class quizzes (20% total). **There are no make-up homework assignments.** If you miss an exam, it is your obligation to inform your instructor as soon as possible. You must have verifiable documentation (doctor's note, etc...) in order not to receive a ZERO for the exam. Your instructor will arrange for you to make up the exam provided you have approved documentation for the absence. Homework will not be made up. However, the two lowest homework grades for the course will be dropped at the end of the term. Students are responsible for any material covered and assignments due if they are absent.

Academic Integrity: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Attendance: Roll will be taken during each class. If you must miss class it is your responsibility to make appropriate arrangements with your instructor or academic advisor. Any work you miss without an excused absence will be scored a ZERO (please see above) and will affect your final grade. In any case, you will still be responsible for your own grade. If you have not submitted the first assignment by August 31 you may be dropped for non-attendance. The instructor is not responsible for dropping students who are currently failing the course. If you have questions please consult your instructor immediately. The last day to drop for the term is **October 1**.

Classroom Conduct: Students are strongly encouraged to participate in class discussions. The instructor will consider this in determining your final grade. However, rude or disruptive behavior will not be tolerated. Cell phones and other electronic devices must be turned off. Also, there will be *no food or drink in the classroom*. See your Student Handbook for Paris Junior College's policy on disruptive students. Students with disabilities or requiring support services should refer to the ADA statement below.

Tentative Schedule Fall 2026 (1st 8 Weeks):

This schedule is only tentative. The instructor reserves the right to change dates and times of material covered and exams. Changes will be announced in class as the semester progresses. Students are responsible for making themselves aware of any deviations from the projected syllabus

<i>Week 1 (Aug 24 – Aug 30):</i>	<i>Chapters 1,2</i>
<i>Week 2 (Aug 31 – Sep 6):</i>	<i>Chapter 3 4</i>
<i>Week 3 (Sep 7 – Sep 13):</i>	<i>Chapter 5,6 Exam 1{Ch's 1, 2, 3, 4 & Labor Day Sep 7}</i>
<i>Week 4 (Sep 14 – Sep 20):</i>	<i>Chapter 7, 8</i>
<i>Week 5 (Sep 21 – Sep 27):</i>	<i>Chapter 9,10, Exam 2{Ch's 5,6,7,8}</i>
<i>Week 6 (Sep 28 – Oct 4):</i>	<i>Chapter 11, 12, Exam 3{Ch's 9,10,11}</i>
<i>Week 7 (Oct 5 – Oct 11):</i>	<i>Chapter 13,17</i>
<i>Week 8 (Oct 12 – Oct 15):</i>	<i>Chapter Final Exam Week {Ch's 12,13,17}</i>

It is important that students keep up with the material. They are encouraged to spend at least one hour of dedicated study time outside of class for each hour spent in class. This is in addition to time spent completing assignments or preparing for exams. Your instructor is a valuable resource for understanding the material and performing well on exams. Students who ask questions in class, contact the instructor during office hours and ask questions via email tend to perform better than those who do not. Please be prepared to spend time outside the classroom studying the material. The effort is critical to earning a good grade.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford an equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information please refer to the Paris Junior College Catalogue or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Artificial intelligence Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Attendance: Roll will be taken during each class. If you must miss class it is your responsibility to make appropriate arrangements with your instructor or academic advisor. Any work you miss without an excused absence will be scored a ZERO (please see above) and will affect your final grade. In any case, you will still be responsible for your own grade. If you have not submitted the first assignment by October 26 you may be dropped for non-attendance. The instructor is not responsible for dropping students who are currently failing the course. If you have questions please consult your instructor immediately. The last day to drop for the term is **November 24**.

Classroom Conduct: Students are strongly encouraged to participate in class discussions. The instructor will consider this in determining your final grade. However, rude or disruptive behavior will not be tolerated. Cell phones and other electronic devices must be turned off. Also, there will be *no food or drink in the classroom*. See your Student Handbook for Paris Junior College's policy on disruptive students. Students with disabilities or requiring support services should refer to the ADA statement below.

Tentative Schedule Fall 2026 (2nd 8 Weeks):

This schedule is only tentative. The instructor reserves the right to change dates and times of material covered and exams. Changes will be announced in class as the semester progresses. Students are responsible for making themselves aware of any deviations from the projected syllabus

<i>Week 1 (Oct 19 – Oct 25):</i>	<i>Chapters 1, 2</i>
<i>Week 2 (Oct 26 – Nov 1):</i>	<i>Chapter 3, 4</i>
<i>Week 3 (Nov 2 – Nov 8):</i>	<i>Chapter 5, 6 Exam 1{Ch's 1, 2, 3, 4}</i>
<i>Week 4 (Nov 9 – Nov 15):</i>	<i>Chapter 7, 8</i>
<i>Week 5 (Nov 16 – Nov 22):</i>	<i>Chapter 9, 10, Exam 2{Ch's 5,6,7,8 Thanksgiving Nov 25, 26, 27}</i>
<i>Week 6 (Nov 23 – Nov 29):</i>	<i>Chapter 11, 12, Exam 3{Ch's 9,10,11}</i>
<i>Week 7 (Nov 30 – Dec 6):</i>	<i>Chapter 13, 17</i>
<i>Week 8 (Dec 7 – Dec 10):</i>	<i>Final Exam Week {Ch's 12,13,17}</i>

It is important that students keep up with the material. They are encouraged to spend at least one hour of dedicated study time outside of class for each hour spent in class. This is in addition to time spent completing assignments or preparing for exams. Your instructor is a valuable resource for understanding the material and performing well on exams. Students who ask questions in class, contact the instructor during office hours and ask questions via email tend to perform better than those who do not. Please be prepared to spend time outside the classroom studying the material. The effort is critical to earning a good grade.

Principles of Macroeconomics, v5.0. Libby Rittenberg, Alan Grant, and Timothy Tregarthen. FlatWorld Knowledge. Pub. 2024. eISBN: 979-8-88794-525-5.

There is a link imbedded in your Blackboard course shell. It will take you directly to our online reader. You do not have to register for the text once you are enrolled in the class.

Course Description: This course surveys the American economic system emphasizing the analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

Course Objectives: The primary objectives of economics courses at Paris Junior College are designed to maximize students' capacity to:

1. Explain the role of scarcity, specialization, opportunity cost, and cost/benefit analysis in economic decision-making.
2. Identify the determinants of supply and demand; demonstrate the impact of shifts in both market supply and demand curves on equilibrium price and output.
3. Compare alternative economic systems with respect to the role of government and the private sector.
4. Define and measure national income and rates of unemployment and inflation.
5. Identify the phases of the business cycle and the problems caused by cyclical fluctuations in the market economy.
6. Define money and the money supply; describe the process of money creation by the banking system and the role of the central bank.
7. Construct the aggregate demand and aggregate supply model of the macro economy and use it to illustrate macroeconomic problems and potential monetary and fiscal policy solutions.
8. Explain the mechanics and institutions of international trade and their impact on the macro economy.
9. Define economic growth and identify sources of economic growth

Course Requirements/ Evaluation: Your grade will be determined by your average at the end of the semester. The grading scale will be as follows:

100% - 89.5%	A
89.4% - 79.5%	B
79.4% - 69.5%	C
69.4% - 59.5%	D
Below 59.5%	F

Further, your course average will be determined by four exams (20% each) as well as numerous homework assignments and in class quizzes (20% total). **There are no make-up homework assignments.** If you miss an exam, it is your obligation to inform your instructor as soon as possible. You must have verifiable documentation (doctor's note, etc...) in order not to receive a ZERO for the exam. Your instructor will arrange for you to make up the exam provided you have approved documentation for the absence. Homework will not be made up. However, the two lowest homework grades for the course will be dropped at the end of the term. Students are responsible for any material covered and assignments due if they are absent.

Academic Integrity: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Artificial intelligence Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a

brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Attendance: Roll will be taken during each class. If you must miss class it is your responsibility to make appropriate arrangements with your instructor or academic advisor. Any work you miss without an excused absence will be scored a ZERO (please see above) and will affect your final grade. In any case, you will still be responsible for your own grade. If you have not submitted the first assignment by Sept. 9 you may be dropped for non-attendance. The instructor is not responsible for dropping students who are currently failing the course. If you have questions please consult your instructor immediately. The last day to drop for the term is **October 1**.

Classroom Conduct: Students are strongly encouraged to participate in class discussions. The instructor will consider this in determining your final grade. However, rude or disruptive behavior will not be tolerated. Cell phones and other electronic devices must be turned off. Also, there will be *no food or drink in the classroom*. See your Student Handbook for Paris Junior College's policy on disruptive students. Students with disabilities or requiring support services should refer to the ADA statement below.

Tentative Schedule Fall 2026:

This schedule is only tentative. The instructor reserves the right to change dates and times of material covered and exams. Changes will be announced in class as the semester progresses. Students are responsible for making themselves aware of any deviations from the projected syllabus

<i>Week 1 (Aug 24 – Aug 30):</i>	<i>Chapters 1,2</i>
<i>Week 2 (Aug 31 – Sep 6):</i>	<i>Chapter 3 4</i>
<i>Week 3 (Sep 7 – Sep 13):</i>	<i>Chapter 5,6 Exam 1{Ch's 1, 2, 3, 4 & Labor Day Sep 7}</i>
<i>Week 4 (Sep 14 – Sep 20):</i>	<i>Chapter 7, 8</i>
<i>Week 5 (Sep 21 – Sep 27):</i>	<i>Chapter 9,10, Exam 2{Ch's 5,6,7,8}</i>
<i>Week 6 (Sep 28 – Oct 4):</i>	<i>Chapter 11, 12, Exam 3{Ch's 9,10,11}</i>
<i>Week 7 (Oct 5 – Oct 11):</i>	<i>Chapter 13,17</i>
<i>Week 8 (Oct 12 – Oct 15):</i>	<i>Chapter Final Exam Week {Ch's 12,13,17}</i>

It is important that students keep up with the material. They are encouraged to spend at least one hour of dedicated study time outside of class for each hour spent in class. This is in addition to time spent completing assignments or preparing for exams. Your instructor is a valuable resource for understanding the material and performing well on exams. Students who ask questions in class, contact the instructor during office hours and ask questions via email tend to perform better than those who do not. Please be prepared to spend time outside the classroom studying the material. The effort is critical to earning a good grade.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford an equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information please refer to the Paris Junior College Catalogue or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

<i>Week 6 (Sep 28 – Oct 4):</i>	<i>Chapter 6</i>
<i>Week 7 (Oct 5 – Oct 11):</i>	<i>Chapter 7</i>
<i>Week 8 (Oct 12 – Oct 18):</i>	<i>Chapter 8</i>
<i>Week 9 (Oct 19 – Oct 25):</i>	<i>Chapter 9, Exam 2{Ch's 5,6,7,8}</i>
<i>Week 10 (Oct 26 – Nov 1):</i>	<i>Chapter 10</i>
<i>Week 11 (Nov 2 – Nov 8):</i>	<i>Chapter 11</i>
<i>Week 12 (Nov 9 – Nov 15):</i>	<i>Chapter 12, Exam 3{Ch's 9,10,11}</i>
<i>Week 13 (Nov 16 – Nov 22):</i>	<i>Chapter 13</i>
<i>Week 14 (Nov 23 – Nov 29):</i>	<i>Chapter 17 {Thanksgiving Nov 25, 26, 27}</i>
<i>Week 15 (Nov 30 – Dec 6):</i>	<i>Chapter 17 con't</i>
<i>Week 16 (Dec 7 – Dec 10):</i>	<i>Final Exam Week {Ch's 12,13,17}</i>

It is important that students keep up with the material. They are encouraged to spend at least one hour of dedicated study time outside of class for each hour spent in class. This is in addition to time spent completing assignments or

preparing for exams. Your instructor is a valuable resource for understanding the material and performing well on exams. Students who ask questions in class, contact the instructor during office hours and ask questions via email tend to perform better than those who do not. Please be prepared to spend time outside the classroom studying the material. The effort is critical to earning a good grade.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford an equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information please refer to the Paris Junior College Catalogue or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of

Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

ECON 2301.25D1
Principles of Macroeconomics
Fall 2026

Instructor: Jeffrey C Tarrant
Office: GC 207
Phone: 903.457.8720
Email: jtarrant@parisjc.edu
Office Hours:

Meeting Location:
Meeting Days:
Meeting Times:

Course Description:

An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

Credits: 3 SCH = 3 lecture and 0 laboratory hours per week, from approved course list.

TSI requirement: College Level Reading Required

Prerequisite(s): None

Required Textbook(s) and Materials:

Principles of Macroeconomics, v5.0. Libby Rittenberg, Alan Grant and Timothy Tregarthen. FlatWorld. 2024. **ISBN (Digital):** 979-8-88794-525-5.

Standard calculator.

Face-to-face sections will also need one Scantron, Form No. 882-E.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Explain the role of scarcity, specialization, opportunity cost and cost/benefit analysis in economic decision-making.
2. Identify the determinants of supply and demand; demonstrate the impact of shifts in both market supply and demand curves on equilibrium price and output.
3. Define and measure national income and rates of unemployment and inflation.
4. Identify the phases of the business cycle and the problems caused by cyclical fluctuations in the market economy.
5. Define money and the money supply; describe the process of money creation by the banking system and the role of the central bank.
6. Construct the aggregate demand and aggregate supply model of the macro economy and use it to illustrate macroeconomic problems and potential monetary and fiscal policy solutions.
7. Explain the mechanics and institutions of international trade and their impact on the macro economy.
8. Define economic growth and identify sources of economic growth.

Course Schedule:

Week 1-Syllabus

Economics: The Study of Choice

Week 2-Confronting Scarcity: Choices in Production

Week 3-Supply and Demand

Week 4-Applications of Supply and Demand

Week 5-Introduction to the Macroeconomy; Measuring the Economy's Output

Week 6-The Price Level and Inflation

Week 7-Unemployment

Week 8-Aggregate Demand and Aggregate Supply

Week 9-Economic Growth

Week 10-The Nature and Creation of Money

Financial Markets and the Economy

Week 11-Monetary Policy and the Fed

Week 12-Government and Fiscal Policy

Week 13-Consumption and the Aggregate Expenditures Model

Week 14-Investment and Economic Activity

Week 15-Net Exports and International Finance

Week 16-Comprehensive Final Exam

This schedule is a rough guide only and is subject to change as the semester progresses.

Course Requirements and Evaluation:

Letter grades will be assigned on the following scale:

90% - 100% = A

80% - 89% = B

70% - 79% = C

60% - 69% = D

0 - 59% = F

Average will be calculated with the following formula:

Exams = 50%

Assignments = 50%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the instructor.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

Investment and Economic Activity

Week 8-Net Exports and International Finance

Comprehensive Final Exam

This schedule is a rough guide only and is subject to change as the semester progresses.

Course Requirements and Evaluation:

Letter grades will be assigned on the following scale:

90% - 100% = A

80% - 89% = B

70% - 79% = C

60% - 69% = D

0 - 59% = F

Average will be calculated with the following formula:

Exams = 50%

Assignments = 50%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the instructor.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

ECON 2301.64A0
Principles of Macroeconomics
Fall 2026

Instructor: Jeffrey C Tarrant
Office: GC 207
Phone: 903.457.8720
Email: jtarrant@parisjc.edu
Office Hours:

Meeting Location:
Meeting Days:
Meeting Times:

Course Description:

An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

Credits: 3 SCH = 3 lecture and 0 laboratory hours per week, from approved course list.

TSI requirement: College Level Reading Required

Prerequisite(s): None

Required Textbook(s) and Materials:

Principles of Macroeconomics, v5.0. Libby Rittenberg, Alan Grant and Timothy Tregarthen. FlatWorld. 2024. **ISBN (Digital):** 979-8-88794-525-5.

Standard calculator.

Face-to-face sections will also need one Scantron, Form No. 882-E.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Explain the role of scarcity, specialization, opportunity cost and cost/benefit analysis in economic decision-making.
2. Identify the determinants of supply and demand; demonstrate the impact of shifts in both market supply and demand curves on equilibrium price and output.
3. Define and measure national income and rates of unemployment and inflation.
4. Identify the phases of the business cycle and the problems caused by cyclical fluctuations in the market economy.
5. Define money and the money supply; describe the process of money creation by the banking system and the role of the central bank.
6. Construct the aggregate demand and aggregate supply model of the macro economy and use it to illustrate macroeconomic problems and potential monetary and fiscal policy solutions.
7. Explain the mechanics and institutions of international trade and their impact on the macro economy.
8. Define economic growth and identify sources of economic growth.

Course Schedule:

Week 1-Syllabus

Economics: The Study of Choice

Week 2-Confronting Scarcity: Choices in Production

Week 3-Supply and Demand

Week 4-Applications of Supply and Demand

Week 5-Introduction to the Macroeconomy; Measuring the Economy's Output

Week 6-The Price Level and Inflation

Week 7-Unemployment

Week 8-Aggregate Demand and Aggregate Supply

Week 9-Economic Growth

Week 10-The Nature and Creation of Money

Financial Markets and the Economy

Week 11-Monetary Policy and the Fed

Week 12-Government and Fiscal Policy

Week 13-Consumption and the Aggregate Expenditures Model

Week 14-Investment and Economic Activity

Week 15-Net Exports and International Finance

Week 16-Comprehensive Final Exam

This schedule is a rough guide only and is subject to change as the semester progresses.

Course Requirements and Evaluation:

Letter grades will be assigned on the following scale:

90% - 100% = A

80% - 89% = B

70% - 79% = C

60% - 69% = D

0 - 59% = F

Average will be calculated with the following formula:

Exams = 50%

Assignments = 50%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the instructor.

Principles of Macroeconomics, v5.0. Libby Rittenberg, Alan Grant, and Timothy Tregarthen. FlatWorld Knowledge. Pub. 2024. eISBN: 979-8-88794-525-5.

There is a link imbedded in your Blackboard course shell. It will take you directly to our online reader. You do not have to register for the text once you are enrolled in the class.

Course Description: This course surveys the American economic system emphasizing the impact of choices made by consumers and firms on the total level of economic activity. Introduces the fundamental economic principles underlying the economic problem; special emphasis on market economic analysis; determinants of policy; economic growth; microeconomic equilibrium, profit maximization. Specific topics are examined using basic methods of economics. College level reading is required.

Course Objectives: The primary objectives of economics courses at Paris Junior College are designed to maximize students' capacity to:

1. Explain the role of scarcity, specialization, opportunity cost, and cost/benefit analysis in economic decision-making.
2. Identify the determinants of supply and demand; demonstrate the impact of shifts in both market supply and demand curves on equilibrium price and output.
3. Summarize the law of diminishing marginal utility; describe the process of utility maximization.
4. Calculate supply and demand elasticities, identify the determinants of price elasticity of demand and supply, and demonstrate the relationship between elasticity and total revenue.
5. Describe the production function and the Law of Diminishing Marginal Productivity; calculate and graph short-run and long-run costs of production.
6. Identify the four market structures by characteristics; calculate and graph the profit maximizing price and quantity in the output markets by use of marginal analysis.
7. Determine the profit maximizing price and quantity of resources in factor markets under perfect and imperfect competition by use of marginal analysis.
