Project – Four parts of final paper: 40% *You will complete your project as we proceed through the course. Each “part” will be completed, graded and you will receive the feedback. You should use this feedback to complete the Final Writing Project.*

Final grades will be determined according to your total percentage points. Please see the grading scale above to calculate your final grade in the course. All grades are recorded. In the Blackboard gradebook. You can access these grades in the “My Grades” tab. I am happy to help you calculate your score at any point.

Course Policies:

Requirement to submit coursework by the due date: You should interpret an established due date as the FINAL OPPORTUNITY for submitting corresponding coursework. Demonstration of personal responsibility is a core objective of this course, and this policy will be strictly enforced in pursuit of this objective. **You should complete all assignments by the due date.** Technical difficulties are not an excuse to turn in late work.

Late work: **No late work will be accepted in this course without a doctor’s note.** There are no exceptions to this policy. Please keep a calendar (or print out the calendar on the last page of the syllabus).

Requirement to submit coursework through Blackboard: All coursework must be submitted through the college’s online learning management system, Blackboard, unless instructed otherwise through official course communications. The instructor will not accept assignments submitted through email without prior approval. This allows the work to go through a Safe Assign and AI Detection programs.

Collaboration and Collusion: Students are encouraged to collaborate in learning with other students but strictly prohibited from colluding with others in completing assignments. Collaboration occurs when students share ideas, strategies, and understandings through discussion or study activities. Collusion occurs when students work with other persons to complete quizzes, tests, or any other assignment with the knowledge that the coursework will be submitted for course credit. Among other deceitful practices outlined in the Student Handbook, collusion is a form of academic dishonesty that will be reported.

Student/Instructor Communications: All students must regularly check for course communications within Dragonmail, course messages, and course announcements. You should feel comfortable contacting the instructor with any concerns or questions that may arise. The following guidelines have been established to facilitate communication efficiently. Outside of face-to-face conversation, email or Blackboard course messages are the preferred mode of student/instructor communication. To send the instructor a message, locate and select the “Course Messages” or “External Email” links on the course menu in Blackboard. Other acceptable modes of communication may include video conferencing sessions in Blackboard (available by request) or sending an email from your Dragonmail account (note: emails sent from private or high school issued email accounts may not receive an answer). Video conferencing will occur during office hours or by appointment. After sending electronic communications to the instructor, **students should expect a response within 24 hours (M-R) or the next business day** (emails received Friday through Sunday). If you contact the instructor by email, you must use your Dragonmail account or Blackboard to send and receive communications. You should identify yourself using your full name (as listed in the course) and by identifying the course and section for which you are enrolled. Be as detailed as possible when describing your questions, and be sure that your question is not due to a lack of reading the course syllabus or assignment instructions.

Important Notifications: Students should check course announcements regularly, as this method of communication will be used to dispense any important course notifications, including alterations to this course. Additional requirements communicated through course messages or other official correspondence are amendments to this syllabus if specified to be so. Receipt of notifications by course announcement is assumed.

Opening Assignments: All assignments are open according to the schedule. After Module 1, you will have approximately 2 weeks to complete each module. Exception: the Final Writing Project is open at day one. You can complete assignments early, as long as they are open. Always check the syllabus and the Course Calendar to ensure you are completing work on time.

The instructor may make alterations or amendments to this syllabus as needed.

Class Attendance:

Class attendance is critical for the successful completion of this course. The last day for a student to withdraw from a course with a grade of “W” is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

AI Policy

Artificial intelligence (AI) Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Week	Day 1	Day 2	Day 3	Day 4
Week 1- Aug. 24- 27	Syllabus; Assign Semester Project	Historians From Day 1: HW: Read Chapter 1 in OpenStax	Early North America (17)	Early North American Women PSA
Week 2- Aug. 31- Sept.3	PSA Discussion	Chapter 1 Quiz; HW: Read Chapter 2 in OpenStax	Cultural Encounters (42)	Queen Isabella PSA
Week 3- Sept. 8- 10	LABOR DAY	PSA Discussion	Chapter 2 Quiz; HW: Read Chapter 3 in OpenStax	Colonial Life (45)
Week 4- Sept. 14- 17	Colonial Women's Experience PSA	PSA Discussion	Chapter 3 Quiz; HW: Read Chapter 4 in OpenStax	Enlightenment (29)
Week 5- Sept. 21- 24	Enlightenment PSA; Audit Report Due	PSA Discussion	EXAM 1; Read Chapter 5	Women's American Revolution
Week 6- Sept. 28- Oct. 1	Were Women Revolutionary in the American Revolution?	PSA Discussion	Chapter 5 Quiz; HW: Read Chapter 6 in OpenStax	Loyalist PSA; or Declaration PSA
Week 7- Oct. 5-8	PSA Discussion	Chapter 6 Quiz; HW: Read Chapter 7 in OpenStax	Constitution PSA; HW: Bill of Rights Analysis	Life Before and After the Revolution PSA
Week 8- Oct. 12- 15	PSA Discussion	Chapter 7 Quiz; HW: Read Chapter 8 in Open Stax	Republican Motherhood (24)	Challenging Slavery PSA;
Week 9- Oct. 19- 22	PSA Discussion; The Constitutional Convention Analysis Due	Exam 2; HW: Read Chapter 9 in Open Stax	Abolition Movement (18)	Indentured Servitude vs. Slavery
Week 10 Oct. 26- 29	PSA Discussion	Chapter 9 Quiz; HW: Read Chapter 10 in Open Stax	Trail of Tears (45)	Trail of Tears
Week 11- Nov. 2-5	PSA Discussion	Chapter 10 Quiz; HW: Read Chapter 11 in Open Stax	Lewis and Clark PSA	Lewis and Clark PSA

Week 12- Nov. 9- 12	PSA Discussion; Bill of Rights Phase Due	Chapter 11 Quiz; HW: Read Chapter 12 in Open Stax	Slave Experiences in Antebullum America	Slave Experiences in Antebullum America
Week 13- Nov. 16- 19	PSA Discussion	Exam 3; HW: Chapter 13 in Open Stax	Seneca Falls PSA: Read Chapter 14 in Open Stax	PSA Discussion
Week 14- Nov. 30- Dec. 3	THANKSGIVING BREAK	THANKSGIVING BREAK	THANKSGIVING BREAK	THANKSGIVING BREAK
Week 15- Nov. 30- Dec. 3	Dred Scott vs. Sandford PSA	PSA Discussion	Work in the Civil War (26)	Women Fighting in the Civil War PSA
Week 16- Dec. 7- 10	Reconstruction (22); Phase 4 Due	Women vs. Men in the Reconstruction	Civil War and Reconstruction Discussion	FINAL EXAM (Chapters 14-16)

Course Hist 1301. 88N0
United States History I
Fall 2026

Instructor: Kelly Waltman-Payne, PhD.
Office: Greenville #204, SS Adjunct Offices.
Phone: 903.457-8726
Email: kpayne@parisjc.edu
Office Hours: M (GC) 10:00 am-12:15 pm
TR (SS) 9:15 am-12:15 pm
W (SS) 10:30-am 12:15 pm

Meeting Location: TEAMS
Meeting Days: TR
Meeting Times: 8:00-9:15 am

Course Description:

survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include: American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

Credits: 3

Prerequisite(s): None

*Note: ACGM courses typically require TSI compliance or waiver.
Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.*

Required Textbook(s) and Materials:

You are. Not required to purchase a textbook in this course. We will be using Openstax US History. This is a FREE online resource. You will find a link in Blackboard and link provided below:

Course Goals and Objectives:

Courses in this category focus on how ideas, values, beliefs and other aspects of culture reflect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Personal Responsibility -- to include the ability to connect choices, actions and consequences to ethical decision- making.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

History Student Learner Outcomes: Upon successful completion of this course students will:

1. Create an argument through the use of historical evidence.
2. Analyze and interpret primary and secondary sources.
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Course Requirements and Evaluation:

Syllabus Quiz - (5 points) *this is a mandatory quiz over the syllabus. This quiz is a required assignment to stay enrolled in the course. You have unlimited attempts to take this quiz up until the due date.*

MLA Quiz – (5 points) you will take a quiz over MLA formatting. After watching the videos, reading the material in the START HERE folder, you will take the quiz. You have unlimited attempts to take this quiz up until the due date.

AI Schedule (10 points). *You will create a schedule using AI.*

Chapters 1-16 Quizzes: (16 chapters. 20 points each. 60 points total) *You will take a 20 question multiple choice quiz based on the readings and videos for each chapter. These quizzes are timed. You will have one attempt.*

Discussion Board Assignments (6 boards. 10 points each. 60 points total) *You will complete one Discussion Board Assignment for each Module. This is your opportunity to reflect on what you have learned through your reading, the videos and your own research. Discussion Board Assignments are intended to take some time, research, and reflection. You should not wait until the last minute to complete these assignments. It is expected that the discussion board is written in your own words, not AI. Please see the AI policy to ensure you understand the potential penalties for copy/past from AI generators or any other websites. This is plagiarism.*

Special Assignments (6 assignments. 10 points each. 60 points total). *You will complete one special assignment for each module. These special assignments will vary, but overall will measure your knowledge of the content in that module and the professionalism of the assignment which reflects that knowledge.*

Primary Source Assignments (6 assignments, 10 points each, 60 points total) You will complete 6 primary source assignments.

Mid-term Exam (100 points total)– This exam will cover material from the first half of class. The mid-term exam will cover information from the weekly lectures (on TEAMS and recorded lectures) This exam is timed and will be given during class time on the designated date.

Final Exam (100 points total)– This exam will cover material from the second half of class. The final exam will cover information from the weekly lectures (on TEAMS and recorded lectures). This exam is timed and will be given during class time on the designated date.

Final Writing Project – Four parts of final paper (10 points each; 40 points total): You will complete your final paper project as we. Proceed through the course. Each “part” will be completed, graded and you will receive the feedback. You should use this feedback to complete the Final Writing Project.

Final Writing Project (100 points total) . . Please see Blackboard for more instructions. This is due prior to the end of semester, so start early.

SLO assessments (3 assessments, 10 points each, 30 points total). Your knowledge of the core objectives will be assessed through three assignments toward the end of the course.

- There will be a few (limited) extra credit assignments offered

Final grades will be determined according to your total accumulation of points earned. Point values can easily be converted to percentage points. Please see the grading scale above to calculate your final grade in the course. All grades are recorded. In the Blackboard gradebook. You can access these grades in the “My Grades” tab. I am happy to help you calculate your score at any point.

Please keep in mind that the Point system is not the percentage system. Please follow the scale below only.

Grading scale:

630 Total points possible

A = 630-567 points

B = 566- 504 points

C= 503- 504 points

D= 503-441 points

F= less then 441 points

Required Activity:

All students must complete the First Assignment- Syllabus Quiz located in the "Start HERE" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course. This assignment should be completed in Blackboard before September 8, 2026 11:59 pm.

Course Policies:

Requirement to submit coursework by the due date: You should interpret an established due date as the FINAL OPPORTUNITY for submitting corresponding coursework. Demonstration of personal responsibility is a core objective of this course, and this policy will be strictly enforced in pursuit of this objective. **You should complete all assignments by the due date.** Technical difficulties are not an

excuse to turn in late work.

Late work: **No late work will be accepted in this course without a doctor's note.** There are no exceptions to this policy. Please keep a calendar (or print out the calendar on the last page of the syllabus). In most cases, you have had one to two weeks (or more) to complete the work.

Requirement to submit coursework through Blackboard: All coursework must be submitted through the college's online learning management system, Blackboard, unless instructed otherwise through official course communications. The instructor will not accept assignments submitted through email without prior approval. This allows the work to go through a Safe Assign and AI Detection programs.

Collaboration and Collusion: Students are encouraged to collaborate in learning with other students but strictly prohibited from colluding with others in completing assignments. Collaboration occurs when students share ideas, strategies, and understandings through discussion or study activities. Collusion occurs when students work with other persons to complete quizzes, tests, or any other assignment with the knowledge that the coursework will be submitted for course credit. Among other deceitful practices outlined in the Student Handbook, collusion is a form of academic dishonesty that will be reported.

Student/Instructor Communications: All students must regularly check for course communications within Dragonmail, course messages, and course announcements. You should feel comfortable contacting the instructor with any concerns or questions that may arise. The following guidelines have been established to facilitate communication efficiently. Outside of face-to-face conversation, email or Blackboard course messages are the preferred mode of student/instructor communication. To send the instructor a message, locate and select the "Course Messages" or "External Email" links on the course menu in Blackboard. Other acceptable modes of communication may include video conferencing sessions in Blackboard (available by request) or sending an email from your Dragonmail account (note: emails sent from private or high school issued email accounts may not receive an answer). Video conferencing will occur during office hours or by appointment. After sending electronic communications to the instructor, **students should expect a response within 24 hours (M-R) or the next business day** (emails received Friday through Sunday). If you contact the instructor by email, you must use your Dragonmail account or Blackboard to send and receive communications. You should identify yourself using your full name (as listed in the course) and by identifying the course and section for which you are enrolled. Be as detailed as possible when describing your questions, and be sure that your question is not due to a lack of reading the course syllabus or assignment instructions.

Important Notifications: Students should check course announcements regularly, as this method of communication will be used to dispense any important course notifications, including alterations to this course. Additional requirements communicated through course messages or other official correspondence are amendments to this syllabus if specified to be so. Receipt of notifications by course announcement is assumed.

Opening Assignments: All assignments are open according to the schedule. After Module 1, you will have approximately 2 weeks to complete each module. Exception: the Final Writing Project is open at day one. You can complete assignments early, as long as they are open. Always check the syllabus and the Course Calendar to ensure you are completing work on time.

The instructor may make alterations or amendments to this syllabus as needed.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

AI Policy**Artificial intelligence (AI) Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.

- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

Dual credit students logged in to their high school's WIFI will not be prompted for MFA.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success

Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE (by weeks – Monday to Sunday)	TOPIC	READINGS ASSIGNMENTS CLASS PREPARATION	Assignments Due: all Blackboard assignments are due at 11:59 pm
8.24-8.30	Syllabus, expectations The Americas, Europe, and Africa Before 1492	In class: Syllabus and Course Expectations Read Chapters 1,2. Read all material and Watch all videos in Module 1 Folder. Find Final Paper Topic – create thesis. Write up intro	No Assignments due
8.31-9.6	Early Globalization: The Atlantic World, 1492–1650	Required to ensure continued enrollment. Read syllabus prior to taking the quiz	Saturday 9.5.26 DUE: Syllabus Quiz Due MLA Quiz AI Scheduled

11.23-11.29	Thanksgiving Break	No class	No assignments due
11.30-12.6		SLO Assessments(no prep needed)	12.3.26 –SLO Assessments 12.1.26 – Final Paper
12.7-12.20		Study for Final Exam (Chapters 9-16)	12.8.26 – Final Exam

Paris Junior College

History 1301.76A0 Syllabus Fall Semester 2026

Instructor Information

Name: James Owsley
Office Phone: 903 217-1536
Email: jowsley@parisjc.edu
Office Hours: by appointment

Course Information

Course Title: U.S. History to 1877
Course Number: HIST 1301
Course Description: HIST 1301 is a survey of the political, social, economic, military, cultural, and intellectual history of the United States from the discovery of America through Reconstruction.

Text/Required Materials: Hewitt, Nancy A., and Steven F. Lawson. *Exploring American Histories: a Survey with Sources*. Bedford/St. Martins, Macmillan Learning, 2019.

Additional Reading Material

The American Yawp

<https://www.americanyawp.com/>

Class Meets Monday, Wednesday at 10:02-10:56 am Lone Oak High School.

Student Learning Outcomes

Upon completion of HIST1301, students will be able to:

1. Compare and contrast various European nations' motives for and methods of exploration and colonization of the New World.
2. Identify and explain the causes and outcomes of the American Revolution.
3. Examine the Constitutional Convention from the perspectives of its purpose, participants, and outcomes.

Course Objectives

The student will be able to:

1. Comprehend the events and factors that led to the discovery of America.
2. Compare and contrast the Spanish, French, English, and other nations' colonial development in America.
3. Comprehend the causes and results of the American Revolution.
4. Comprehend the significance of the Constitutional Convention.
5. Comprehend America's expansion and growth of nationalism during the nineteenth century, with particular attention to the role and development of slavery.
6. Comprehend the concept of sectionalism in the US during the nineteenth century.
7. Evaluate the causes and consequences of the American Civil War.

Course Competencies

HIST 1301 will assist students in the development of the following competencies:

- examining social institutions and processes across a range of historical periods, social structures and cultures
- using and critiquing alternative explanatory systems or theories
- analyzing the effects of historical, social, political, economic, cultural and global forces on the area under study
- understanding the evolution and current role of the United States in the world
- differentiating and analyzing historical evidence (documentary and statistical) and differing points of view
- recognizing and applying reasonable criteria for the acceptability of historical evidence and social research
- identifying and understanding differences and commonalities within diverse cultures

Course Requirements/Format

This class will experience a variety of teaching methods, but usually the class will be in a lecture/guided discussion format.

Course requirements include four exams. The final exam will not be a comprehensive test over the entire term; instead, it will cover the material that follows exam #3.

Grading Policy

You must complete each of the four 100-point exams during the term. No make-up exams will be given after the final make-up date, which is usually the second Friday before the last class day. 80% of your grade will be from the tests, 10% will be based on attendance, 10% on Class participation. The grading scale is:

90-90= A 80-89= B 70-79 = C 60-69= D Below 59= F

Testing Policy

I expect each student to be prepared for each test. That includes being on time, having a pencil or pen, and being ready to do your own work.

Exams will mainly be multiple choice and matching, but I reserve the right to ask any type of question on any test. You will need #2 pencils or pen (Blue or Black).

If you miss an exam, it is your responsibility to contact me within one class day to set up a make-up test.

Examinations:

Exam 1	September 16 th
Exam 2	October 14 th
Exam 3	November 11 th
Final Exam	December 7 th

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Day and Month depending on term.*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted

in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude,

Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

MFA

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.

5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately

Dual credit students logging in to their high school wifi will not be required to complete the MFA process. Dual Credit students logging in anywhere else will be required to complete the MFA process.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Drop Policy

The student must notify the instructor if he/she desires to drop the course before the final date to drop. After the drop date, students may not drop. The final date for this semester is **November 12th**. The student has the responsibility to initiate a drop by requesting a withdrawal slip from the instructor. Failure to do so may result in a final grade of "F."

Week	Assignments, Classroom Lectures, etc.
1	• August 24th-Introduction and explanation of the course syllabi and course expectations • August 26th-Chapter 1, Mapping Global Frontiers
2	• August 31st- Chapter 2, Colonization and Conflict Quiz 1, Due August 30th at 11:59pm via Blackboard • September 2nd- Chapter 3, Colonial America amid Global Change
3	• September 7th-Holiday Quiz 2, Due September 8th at 11:59pm via Blackboard • September 9th-Chapter 4, Religious Strife and Social Upheavals
4	• September 14th-Exam Review • September 16th-First Exam
5	• September 21st-Chapter 5, Wars and Empires Quiz 3, Due September 22nd at 11:59pm via Blackboard • September 23rd-Chapter 6, The American Revolution
6	• September 28th- Chapter 6, The American Revolution • September 30th-Chapter 7, Forging A New Nation

7	• October 5th- Holiday • Quiz 4, Due October 6th at 11:59pm via Blackboard • October 7th-Chapter 8, The Early Republic
8	• October 12th-Exam Review • October 14th-Second Exam
9	• October 19th-Chapter 9, Defending and Redefining the Nation • Quiz 5, Due October 20th at 11:59pm via Blackboard • October 21st-Chapter 10, Social and Cultural Ferment in the North
10	• October 26th-Chapter 11, Slavery Expands South and West • October 28th- Chapter 11, Slavery Expands South and West
11	Quiz 6, Due November 1st at 11:59pm via Blackboard • November 2nd-Chapter 12, Imperial Ambitions and Sectional Crisis • November 4th- Chapter 12, Imperial Ambitions and Sectional Crisis
12	• November 9th-Exam Review • November 11th-Third Exam
13	• November 16th-Chapter 13, Civil War • Quiz 7, Due November 17th at 11:59pm via Blackboard • November 18th, Chapter 13, Civil War

14	• November 23th-Thanksgiving Holiday • November 25th- Thanksgiving Holiday
15	Quiz 8, Due November 29th at 11:59pm via Blackboard • November 30th-Chapter 14, Emancipation and Reconstruction • December 2nd-Final Exam Review
16	• December 7th-Final Exam

HIST 1302.10J0
United States History 2
Fall B 2026

Instructor: Micha Flowers
Office: FGC A104c
Phone: (903) 782-0728
Email: mflowers@parisjc.edu
Office Hours:

Monday- 1:00-3:30 PM
Tuesday- 1:00-3:30 PM
Wednesday- 1:00-3:30 PM
Thursday- 1:00-3:30 PM

Meeting Location: FGC 118A
Meeting Days: TR
Meeting Times: 9:30-10:45 AM

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

Credits: SCH = 3 lecture hours per week

TSI Requirement: xxx M, xxx R, xxx W.

Prerequisite(s): None

Required Textbook(s) and Materials:

- OpenStax US History Open Education Resource Textbook (Free, found online at <https://openstax.org/details/books/us-history>)
- Physical copies of the textbook can be purchased by student from Amazon, ISBN 978-1-938168-36-9
- Access to a computer with Internet access (the college has computers available in the library for student use).
- Webcam
- Note taking materials such as pen/pencil and notebook
- Respondus Lockdown Browser with Respondus Monitor

Course Goals and Objectives:

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture reflect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Students successfully completing this course will demonstrate competency in the following Core Objectives:

- Critical Thinking Skills- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Communication Skills- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Personal Responsibility- to include the ability to connect choices, actions, and consequences to ethical decision-making.
- Social Responsibility- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national and global communities.

History Student Learner Outcomes

Upon successful completion of this course students will:

- Create an argument through the use of historical evidence.
- Analyze and interpret primary and secondary sources.
- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Course Map of Core Objectives, Student Learner Outcomes, and Assignments

<u>Student Learner Outcome</u>	<u>Maps to Core Objective</u>	<u>Assessment Tool</u>
1- Create an argument through the use of historical evidence.	Critical Thinking Skills (CT)	SLO 1 Assessment
	Communication Skills (CS)	SLO 1 Assessment
	Personal Responsibility (PR)	SLO 1 Assessment
	Social Responsibility (SR)	SLO 1 Assessment
2- Analyze and interpret primary and secondary sources.	Critical Thinking Skills (CT)	SLO 2 Assessment
	Communication Skills (CS)	SLO 2 Assessment
	Personal Responsibility (PR)	SLO 2 Assessment
	Social Responsibility (SR)	SLO 2 Assessment
3- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.	Critical Thinking Skills (CT)	SLO 3 Assessment
	Communication Skills (CS)	SLO 3 Assessment
	Personal Responsibility (PR)	SLO 3 Assessment
	Social Responsibility (SR)	SLO 3 Assessment

Course Requirements and Evaluation:

Course Components		Grading Schema	
Attendance	10%	A	90-100%
Video Lectures	25%	B	80-89%
Module Assignments	25%	C	70-79%
Examinations/Term Project	40%	D	60-69%
<u>TOTAL</u>	<u>100%</u>	F	Below 60%

Attendance

Attendance is critical for the successful completion of this class, and will be recorded daily. You cannot expect to succeed if you do not attend regularly or punctually. As you will see in the course schedule, we are doing something every day, and habitually missing class will severely hamper your ability to learn and retain the information. Punctual attendance is defined as being in the classroom, in your seat, before I begin for the day, and remaining in the classroom for the duration of the class period. Punctual attendance receives full credit, tardiness or absence from the room for less than 5 minutes receives half credit, and tardiness or absence from the room for greater than 5 minutes or unexcused absence receives no credit.

Video Lectures with Embedded Questions

Video Lectures are posted in Blackboard but are completed in EdPuzzle. EdPuzzle tracks and saves your individual progress in 10% increments, When completing the lectures, I recommend taking thorough notes in Cornell style- you will be able to use your handwritten notes on the exams. You can repeat sections as needed, and If you are unsatisfied with your overall grade on a video lecture, you can complete it up to three times.

In Class Assignments

You are expected to actively engage in the assignments, which we will complete in class. This includes actively taking notes, contributing to class discussions, engaging in the assignments, and being on task throughout the class. All in-class assignments are due at the end of class, unless otherwise specified.

Midterm Examination

The midterm examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Lecture 1 (American Colossus)	13	26
Lecture 2 (Anxious Decades)	14	28
Lecture 3 (World War Two)	13	26
TOTALS	50	100

Final Examination

The Final Examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Lecture 4 (The Cold War)	13	26
Lecture 5 (Civil Rights Movement)	14	28
Lecture 6 (From Nixon to the New World Order)	13	26
TOTALS	50	100

Historic Site Scrapbook Term Project

One of both the institutional goals and my goals for this class is to build partnerships with community members and institutions. To that end, a significant part of your overall grade will come from a term project designed to get you out into the community and engaged with local history. No matter where you are in the United States, there are a lot of historic sites and historical organizations who maintain buildings, display artifacts, and provide

educational opportunities for the public. Chances are if you find yourself in a city of any size, you are never more than 5 miles away from a public history site at any given time. Your assignment will be to visit one of these sites, document your visit there, and create a scrapbook over your experience.

A rubric, along with more information about the project, will be provided to you in Blackboard that will detail exactly what I am looking for. This is a chance for you to be creative and make a unique historical argument in a unique way. If a particular site offers guided tours, I would suggest attending one- generally speaking, you'll learn a lot more that way. The more you put into this, the more you'll get out of it! This assignment will be due in Week 7 of the course, but don't let that sneak up on you.

Course Policies

Instructor Absence and Communication

In the rare case that I am indisposed you will receive notification in Blackboard. Instructions for that class day will be provided to you. To contact me, please email me from your Dragonmail to the email address listed on the front page of the syllabus- do not use the internal messaging function in Blackboard. In the body of the email, please ensure you put your name, your course and section number, and your PJC student ID so I can most effectively help you. Expect a reply within 24 hours Monday through Thursday, and by the next business day Friday through Sunday.

Required Activity

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24th**.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. Treat other people the way you want to be treated.

Outside resources including, but not limited to, online articles, "homework help" apps or websites, artificial intelligence programs, or other people are almost always prohibited unless

otherwise specified by the instructor. In nearly all cases, I have given you everything you will need to complete these in-class assignments. The point of these exercises is to help teach you how to successfully meet the Student Learner Outcomes and the Core Objectives of both the department and college. Accordingly, if you're relying on something or someone else telling you what the answer to a particular question is, you are not demonstrating your mastery of literally any of those objectives or outcomes, and accordingly, you will not get any credit for them.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Online Resources

The Paris Junior College Social Science Division uses the Blackboard online learning management system for both online and face-to-face courses. The PJC Blackboard login web page can be found at: <https://parisjc.blackboard.com> The Blackboard login username is each student's school-issued student ID number (without dashes) and the login password is the student's 8-digit birthday (month, day, four-digit year). For technical assistance with Blackboard contact the PJC Help Desk at 903-782-0496 or techsupport@parisjc.edu.

All students have a dedicated email address that serves as the primary method of contact between themselves and the college, including this course. Activate your Dragonmail account as soon as possible. Information and instructions can be found at this link:

<https://www.parisjc.edu/main/activate-dragonmail/>

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Other Resources for Students

Licensed Professional Counselors at Paris Junior College may assist currently enrolled students with short-term, personal counseling services. Services include resolving personal problems, managing stress, depression, and other mental health-related issues that may impede academic success.

The Licensed Professional Counselors are based at the Paris location, however, they can schedule appointments at off-site locations and are available via phone, email and Zoom on a daily basis. For more information, contact Advising and Counseling at counseling@parisjc.edu or 903-782-0426.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

HIST 1302.20E0
United States History 2
Fall A 2026

Instructor: Micha Flowers
Office: FGC A104c
Phone: (903) 782-0728
Email: mflowers@parisjc.edu
Office Hours:

Monday- 1:00-3:30 PM
Tuesday- 1:00-3:30 PM
Wednesday- 1:00-3:30 PM
Thursday- 1:00-3:30 PM

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

Credits: SCH = 3 lecture hours per week

TSI Requirement: xxx M, xxx R, xxx W.

Prerequisite(s): None

Required Textbook(s) and Materials:

- OpenStax US History Open Education Resource Textbook (Free, found online at <https://openstax.org/details/books/us-history>)
- Physical copies of the textbook can be purchased by student from Amazon, ISBN 978-1-938168-36-9
- Access to a computer with Internet access (the college has computers available in the library for student use).
- Webcam
- Note taking materials such as pen/pencil and notebook
- Respondus Lockdown Browser with Respondus Monitor

Course Goals and Objectives:

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture reflect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Students successfully completing this course will demonstrate competency in the following Core Objectives:

- Critical Thinking Skills- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Communication Skills- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Personal Responsibility- to include the ability to connect choices, actions, and consequences to ethical decision-making.
- Social Responsibility- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national and global communities.

History Student Learner Outcomes

Upon successful completion of this course students will:

- Create an argument through the use of historical evidence.
- Analyze and interpret primary and secondary sources.
- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Course Map of Core Objectives, Student Learner Outcomes, and Assignments

<u>Student Learner Outcome</u>	<u>Maps to Core Objective</u>	<u>Assessment Tool</u>
1- Create an argument through the use of historical evidence.	Critical Thinking Skills (CT)	SLO 1 Assessment
	Communication Skills (CS)	SLO 1 Assessment
	Personal Responsibility (PR)	SLO 1 Assessment
	Social Responsibility (SR)	SLO 1 Assessment
2- Analyze and interpret primary and secondary sources.	Critical Thinking Skills (CT)	SLO 2 Assessment
	Communication Skills (CS)	SLO 2 Assessment
	Personal Responsibility (PR)	SLO 2 Assessment
	Social Responsibility (SR)	SLO 2 Assessment
3- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.	Critical Thinking Skills (CT)	SLO 3 Assessment
	Communication Skills (CS)	SLO 3 Assessment
	Personal Responsibility (PR)	SLO 3 Assessment
	Social Responsibility (SR)	SLO 3 Assessment

Course Requirements and Evaluation:

Course Components		Grading Schema	
Video Lectures	25%	A	90-100%
Module Assignments	25%	B	80-89%
Examinations	30%	C	70-79%
Term Project	20%	D	60-69%
<u>TOTAL</u>	<u>100%</u>	F	Below 60%

Attendance

Attendance is critical for the successful completion of this class, and will be recorded daily. You cannot expect to succeed if you do not attend regularly or punctually. As you will see in the course schedule, we are doing something every day, and habitually missing class will severely hamper your ability to learn and retain the information. Punctual attendance is defined as being in the classroom, in your seat, before I begin for the day, and remaining in the classroom for the duration of the class period. Punctual attendance receives full credit, tardiness or absence from the room for less than 5 minutes receives half credit, and tardiness or absence from the room for greater than 5 minutes or unexcused absence receives no credit.

Video Lectures with Embedded Questions

Video Lectures are posted in Blackboard but are completed in EdPuzzle. EdPuzzle tracks and saves your individual progress in 10% increments. When completing the lectures, I recommend taking thorough notes in Cornell style- you will be able to use your handwritten notes on the exams. You can repeat sections as needed, and If you are unsatisfied with your overall grade on a video lecture, you can complete it up to three times.

In Class Assignments

You are expected to actively engage in the assignments, which we will complete in class. This includes actively taking notes, contributing to class discussions, engaging in the assignments, and being on task throughout the class. All in-class assignments are due at the end of class, unless otherwise specified.

Midterm Examination

The midterm examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Lecture 1 (American Colossus)	13	26
Lecture 2 (Anxious Decades)	14	28
Lecture 3 (World War Two)	13	26
TOTALS	50	100

Final Examination

The Final Examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Lecture 4 (The Cold War)	13	26
Lecture 5 (Civil Rights Movement)	14	28
Lecture 6 (From Nixon to the New World Order)	13	26
TOTALS	50	100

Historic Site Scrapbook Term Project

One of both the institutional goals and my goals for this class is to build partnerships with community members and institutions. To that end, a significant part of your overall grade will come from a term project designed to get you out into the community and engaged with local history. No matter where you are in the United States, there are a lot of historic sites and historical organizations who maintain buildings, display artifacts, and provide educational opportunities for the public. Chances are if you find yourself in a city of any size, you are never more than 5 miles away from a public history site at any given time.

Your assignment will be to visit one of these sites, document your visit there, and create a scrapbook over your experience.

A rubric, along with more information about the project, will be provided to you in Blackboard that will detail exactly what I am looking for. This is a chance for you to be creative and make a unique historical argument in a unique way. If a particular site offers guided tours, I would suggest attending one- generally speaking, you'll learn a lot more that way. The more you put into this, the more you'll get out of it! This assignment will be due in Week 7 of the course, but don't let that sneak up on you.

Course Policies

Instructor Absence and Communication

In the rare case that I am indisposed you will receive notification in Blackboard. Instructions for that class day will be provided to you. To contact me, please email me from your Dragonmail to the email address listed on the front page of the syllabus- do not use the internal messaging function in Blackboard. In the body of the email, please ensure you put your name, your course and section number, and your PJC student ID so I can most effectively help you. Expect a reply within 24 hours Monday through Thursday, and by the next business day Friday through Sunday.

Required Activity

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st**.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. Treat other people the way you want to be treated.

Outside resources including, but not limited to, online articles, "homework help" apps or websites, artificial intelligence programs, or other people are almost always prohibited unless

otherwise specified by the instructor. In nearly all cases, I have given you everything you will need to complete these in-class assignments. The point of these exercises is to help teach you how to successfully meet the Student Learner Outcomes and the Core Objectives of both the department and college. Accordingly, if you're relying on something or someone else telling you what the answer to a particular question is, you are not demonstrating your mastery of literally any of those objectives or outcomes, and accordingly, you will not get any credit for them.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Testing Procedures and Policies

The examinations you take in this course will be based on the video lectures and assignments. You will have 75 minutes to complete each exam, and you must use Respondus Lockdown Browser with Respondus Monitor to complete the exam. During the exams, you may use your physical copies of your notes- you will be asked to "show your work" at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

During the exams, you may use your physical copies of your notes- you will be asked to "show your work" at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

While taking the exam, please stay in your seat and focus on the computer screen until the exam is complete. If an interruption occurs, briefly explain what happened by speaking directly to your webcam. And, finally, remember that you cannot exit the exam until all questions are completed and submitted for grading.

Respondus Monitor notifies me if there are irregularities in the testing session. Excessive irregularities, including, but not limited to, students missing from frame, items that block the webcam, or turning the webcam off, will be interpreted as cheating on exams, and will therefore be subject to the Academic Honesty Policy as defined in the syllabus.

I am sympathetic to privacy concerns you may have utilizing Respondus Monitor. If that is the case, it will be necessary for you to make an appointment at the PJC testing center of your choice to take the exam.

Artificial Intelligence

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Online Resources

The Paris Junior College Social Science Division uses the Blackboard online learning management system for both online and face-to-face courses. The PJC Blackboard login web page can be found at: <https://parisjc.blackboard.com> The Blackboard login username is each student's school-issued student ID number (without dashes) and the login password is the student's 8-digit birthday (month, day, four-digit year). For technical assistance with Blackboard contact the PJC Help Desk at 903-782-0496 or techsupport@parisjc.edu.

All students have a dedicated email address that serves as the primary method of contact between themselves and the college, including this course. Activate your Dragonmail account as soon as possible. Information and instructions can be found at this link:

<https://www.parisjc.edu/main/activate-dragonmail/>

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Other Resources for Students

Licensed Professional Counselors at Paris Junior College may assist currently enrolled students with short-term, personal counseling services. Services include resolving personal problems, managing stress, depression, and other mental health-related issues that may impede academic success.

The Licensed Professional Counselors are based at the Paris location, however, they can schedule appointments at off-site locations and are available via phone, email and Zoom on a daily basis. For more information, contact Advising and Counseling at counseling@parisjc.edu or 903-782-0426.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Expect a reply within 24 hours Monday through Thursday, and by the next business day Friday through Sunday.

Required Activity

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24th**

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. Treat other people the way you want to be treated.

Outside resources including, but not limited to, online articles, "homework help" apps or websites, artificial intelligence programs, or other people are almost always prohibited unless otherwise specified by the instructor. In nearly all cases, I have given you everything you will need to complete these in-class assignments. The point of these exercises is to help teach you

how to successfully meet the Student Learner Outcomes and the Core Objectives of both the department and college. Accordingly, if you're relying on something or someone else telling you what the answer to a particular question is, you are not demonstrating your mastery of literally any of those objectives or outcomes, and accordingly, you will not get any credit for them.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Testing Procedures and Policies

The examinations you take in this course will be based on the video lectures and assignments. You will have 75 minutes to complete each exam, and you must use Respondus Lockdown Browser with Respondus Monitor to complete the exam. During the exams, you may use your physical copies of your notes- you will be asked to "show your work" at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

During the exams, you may use your physical copies of your notes- you will be asked to "show your work" at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

While taking the exam, please stay in your seat and focus on the computer screen until the exam is complete. If an interruption occurs, briefly explain what happened by speaking directly to your webcam. And, finally, remember that you cannot exit the exam until all questions are completed and submitted for grading.

Respondus Monitor notifies me if there are irregularities in the testing session. Excessive irregularities, including, but not limited to, students missing from frame, items that block the webcam, or turning the webcam off, will be interpreted as cheating on exams, and will therefore be subject to the Academic Honesty Policy as defined in the syllabus.

I am sympathetic to privacy concerns you may have utilizing Respondus Monitor. If that is the case, it will be necessary for you to make an appointment at the PJC testing center of your choice to take the exam.

Artificial Intelligence

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Online Resources

The Paris Junior College Social Science Division uses the Blackboard online learning management system for both online and face-to-face courses. The PJC Blackboard login web page can be found at: <https://parisjc.blackboard.com> The Blackboard login username is each student's school-issued student ID number (without dashes) and the login password is the student's 8-digit birthday (month, day, four-digit year). For technical assistance with Blackboard contact the PJC Help Desk at 903-782-0496 or techsupport@parisjc.edu.

All students have a dedicated email address that serves as the primary method of contact between themselves and the college, including this course. Activate your Dragonmail account as soon as possible. Information and instructions can be found at this link:

<https://www.parisjc.edu/main/activate-dragonmail/>

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Other Resources for Students

Licensed Professional Counselors at Paris Junior College may assist currently enrolled students with short-term, personal counseling services. Services include resolving personal problems, managing stress, depression, and other mental health-related issues that may impede academic success.

The Licensed Professional Counselors are based at the Paris location, however, they can schedule appointments at off-site locations and are available via phone, email and Zoom on a daily basis. For more information, contact Advising and Counseling at counseling@parisjc.edu or 903-782-0426.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

**HIST 1302.40H0
US HISTORY TWO
Fall 2026**

Instructor: Matt White
Office: GC 211
Phone: 903-453-8712
Email: matt.white@parisjc.edu
My Office Hours:

Monday 7:30-8:00; 10:45-12:15; 1:30-2:30
Tuesday 7:30-8:00; 9:15-11:00
Wednesday 7:30-8:00; 10:45-12:15; 1:30-2:30
Thursday 7:30-8:00; 9:15-11:00

Meeting Location: GC RM 126
Meeting Days: Tuesday and Thursday
Meeting Times: 11:00-12:15

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

Maximum SCH per student.....	3
Maximum SCH per course	3
Maximum contact hours per course.....	48

Required Textbook(s) and Materials:

Insert required text including ISBN and materials

Course Goals and Objectives:

History 1302 Program and Course Outcomes: Upon successful completion of this course, students will:

1. Create an argument through the use of historical evidence.
2. Analyze and interpret primary and secondary sources. 150
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Three Grades—mid-term (33%) and final exam (33%) and assorted daily or weekly quizzes and homework assignments (33%)—will be averaged to calculate final grade.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

Meeting Days: Online
Meeting Times: Online

Course Description:

A survey of the social, political, economic, cultural, religious, and intellectual history of the world from the emergence of human cultures through the 15th century. The course examines major cultural regions of the world in Africa, the Americas, Asia, Europe, and Oceania and their global interactions over time. Themes include the emergence of early societies, the rise of civilizations, the development of political and legal systems, religion and philosophy, economic systems and trans-regional networks of exchange. The course emphasizes the development, interaction and impact of global exchange.

SCH = 3 lecture hours per week

TSI Requirement: xxx M, xxx R, xxx W.

Prerequisite(s): None

Required Textbook(s) and Materials:

- *World History, Volume 1: To 1500* by OpenStax. Open Education Resource Textbook (Free, found online at <https://openstax.org/details/books/world-history-volume-1>)
- Physical copies of the textbook can be purchased online, ISBN 9781711471426
- Access to a computer with Internet access (the college has computers available in the library for student use).
- Webcam
- Note taking materials such as pen/pencil and notebook
- Respondus Lockdown Browser with Respondus Monitor

Course Goals and Objectives:

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture reflect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Students successfully completing this course will demonstrate competency in the following Core Objectives:

- Critical Thinking Skills- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Communication Skills- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Personal Responsibility- to include the ability to connect choices, actions, and consequences to ethical decision-making.
- Social Responsibility- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national and global communities.

History Student Learner Outcomes

Upon successful completion of this course students will:

- Create an argument through the use of historical evidence.
- Analyze and interpret primary and secondary sources.
- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of world history.

Course Map of Core Objectives, Student Learner Outcomes, and Assignments

<u>Student Learner Outcome</u>	<u>Maps to Core Objective</u>	<u>Assessment Tool</u>
1- Create an argument through the use of historical evidence.	Critical Thinking Skills (CT)	SLO 1 Assessment
	Communication Skills (CS)	SLO 1 Assessment
	Personal Responsibility (PR)	SLO 1 Assessment
	Social Responsibility (SR)	SLO 1 Assessment
2- Analyze and interpret primary and secondary sources.	Critical Thinking Skills (CT)	SLO 2 Assessment
	Communication Skills (CS)	SLO 2 Assessment
	Personal Responsibility (PR)	SLO 2 Assessment
	Social Responsibility (SR)	SLO 2 Assessment
3- Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of world history.	Critical Thinking Skills (CT)	SLO 3 Assessment
	Communication Skills (CS)	SLO 3 Assessment
	Personal Responsibility (PR)	SLO 3 Assessment
	Social Responsibility (SR)	SLO 3 Assessment

Course Requirements and Evaluation:

Course Components		Grading Schema	
Video Lectures	30%	A	90-100%
Module Assignments	25%	B	80-89%
SLO Assessments	15%	C	70-79%
Examinations	30%	D	60-69%
<u>TOTAL</u>	<u>100%</u>	F	Below 60%

Video Lectures with Embedded Questions

Video Lectures are posted in Blackboard but are completed in EdPuzzle. EdPuzzle tracks and saves your individual progress in 10% increments, but I highly recommend you (a) watch through a question break and answer the questions, and (b) use Google Chrome, to ensure you don't have to repeat sections due to technical errors on EdPuzzle's part.. When completing the lectures, I recommend taking thorough notes in Cornell style- you will be able to use your handwritten notes on the exams. You can repeat sections as needed, and If you are unsatisfied with your overall grade on a video lecture, you can complete it up to three times.

Module Assignments

You are expected to actively engage in the assignments. This includes actively taking notes, contributing to class discussions, engaging in the assignments, and being on task throughout the assignment.

SLO Assessments

SLO Assessments are designed to help measure your mastery of the student learning outcomes for this course. These will take various forms, and will be clearly noted.

Midterm Examination

The midterm examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Ancient World Lecture	13	26
Classical World Lecture	13	26
Roman Republic Lecture	14	28
TOTALS	50	100

Final Examination

The Final Examination will be 50 multiple choice questions, broken down as follows. You will have 75 minutes to complete the exam. You may use your handwritten notes on the exam.

<u>Question Subject</u>	<u>Number of Questions</u>	<u>Total Points</u>
Historical Thinking Skills	5	10
Primary Source Analysis	5	10
Roman Empire Lecture	14	28
The Middle Ages Lecture	13	26
Transition to Modernity Lecture	13	26
TOTALS	50	100

Course Policies

Work Load/Late Work

This is a fairly compressed schedule. Time management is always important, but it's REALLY important in an 8-week course like this one. A calendar/daily planner is your friend. I'm sympathetic to the fact that life happens sometimes, so if you need something reopened, come talk to me, I'm not an ogre. The worst thing I can do is say no, but be warned, habitual late work will eventually be met with that "no."

Instructor Absence and Communication

In the rare case that I am indisposed you will receive notification in Blackboard. Instructions for that class day will be provided to you. To contact me, please email me from your Dragonmail to the email address listed on the front page of the syllabus- do not use the internal messaging function in Blackboard. In the body of the email, please ensure you put your name, your course and section number, and your PJC student ID so I can most effectively help you. Expect a reply within 24 hours Monday through Thursday, and by the next business day Friday through Sunday.

Required Activity

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st**.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook. Treat other people the way you want to be treated.

Outside resources including, but not limited to, online articles, "homework help" apps or websites, artificial intelligence programs, or other people are almost always prohibited unless otherwise specified by the instructor. In nearly all cases, I have given you everything you will need to complete these in-class assignments. The point of these exercises is to help teach you how to successfully meet the Student Learner Outcomes and the Core Objectives of both the department and college. Accordingly, if you're relying on something or someone else telling you what the answer to a particular question is, you are not demonstrating your mastery of literally any of those objectives or outcomes, and accordingly, you will not get any credit for them.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Testing Procedures and Policies

The examinations you take in this course will be based on the video lectures and assignments. You will have 75 minutes to complete each exam, and you must use Respondus Lockdown Browser with Respondus Monitor to complete the exam. During the exams, you may use your physical copies of your notes- you will be asked to “show your work” at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

During the exams, you may use your physical copies of your notes- you will be asked to “show your work” at the end of the exam- this is where you will upload pictures of your handwritten notes. You MAY NOT use other technological devices, and you MAY NOT communicate with other people.

While taking the exam, please stay in your seat and focus on the computer screen until the exam is complete. If an interruption occurs, briefly explain what happened by speaking directly to your webcam. And, finally, remember that you cannot exit the exam until all questions are completed and submitted for grading.

Respondus Monitor notifies me if there are irregularities in the testing session. Excessive irregularities, including, but not limited to, students missing from frame, items that block the webcam, or turning the webcam off, will be interpreted as cheating on exams, and will therefore be subject to the Academic Honesty Policy as defined in the syllabus.

I am sympathetic to privacy concerns you may have utilizing Respondus Monitor. If that is the case, it will be necessary for you to make an appointment at the PJC testing center of your choice to take the exam.

Artificial Intelligence

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Online Resources

The Paris Junior College Social Science Division uses the Blackboard online learning management system for both online and face-to-face courses. The PJC Blackboard login web page can be found at: <https://parisjc.blackboard.com> The Blackboard login username is each student's school-issued student ID number (without dashes) and the login password is the student's 8-digit birthday (month, day, four-digit year). For technical assistance with Blackboard contact the PJC Help Desk at 903-782-0496 or techsupport@parisjc.edu.

All students have a dedicated email address that serves as the primary method of contact between themselves and the college, including this course. Activate your Dragonmail account as soon as possible. Information and instructions can be found at this link:

<https://www.parisjc.edu/main/activate-dragonmail/>

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Other Resources for Students

Licensed Professional Counselors at Paris Junior College may assist currently enrolled students with short-term, personal counseling services. Services include resolving personal problems, managing stress, depression, and other mental health-related issues that may impede academic success.

The Licensed Professional Counselors are based at the Paris location, however, they can schedule appointments at off-site locations and are available via phone, email and Zoom on a daily basis. For more information, contact Advising and Counseling at counseling@parisjc.edu or 903-782-0426.

Syllabus

I reserve the right to alter the syllabus at any time. Students will always be notified of any changes that occur.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

HIST-1301.78A0
US History I
Fall 2026

Instructor: Crystal Tafuro
Office: 9017
Phone: 903-945-2192
Email: ctafuro@parisjc.edu
Office Hours: Monday-Friday 2:45-3:45 PM

Meeting Location: Room 9017
Meeting Days: Monday-Friday
Meeting Times: 2:00-2:45 PM

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

Required Textbook(s) and Materials:

<https://openstax.org/details/books/us-history> Multiple choice questions will be available on Blackboard. Students are required to have a computer and dependable internet to access online readings and assignments. Many assignments will be given during the class period.

Credits: 3

TSI Requirement: 351 R

Prerequisite(s): N/A

Course Goals and Objectives:

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

1. Critical Thinking Skills -- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Personal Responsibility -- to include the ability to connect choices, actions and consequences to ethical decision- making.
4. Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

History Student Learner Outcomes: Upon successful completion of this course students will:

1. Create an argument through the use of historical evidence.

2. Analyze and interpret primary and secondary sources.
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Course Requirements and Evaluation:

Grades in this course will be weighted. Course grades will be determined as follows:

Daily In-Class Activities:	60%
Exams:	<u>40%</u>
	100%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Assignments and readings will be on Blackboard and given in class. Assignments not submitted by the due date and time will be counted as a late grade. Three days after the due date, the assignment will be counted as zero in the gradebook.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division

Vice President or the College President and may result in suspension or expulsion from the college.

Artificial intelligence

(AI) tools are not permitted in this course. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- Example of permitted use: Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- Example of prohibited use: Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Appeal

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Course Schedule:

DATE	TOPIC
8/24-28	Pre-Columbian Era
8/31-9/4	European Colonization

9/7-11	European Wars in North America
9/14-18	American Colonies
9/21-25	American Revolution
9/28-10/2	Early American self-government
10/5-10/9	A New Nation/ A Growing Concern
10/12-10/16	War of 1812/ Texas
10/19-10/23	Slavery and Sectionalism
10/26-10/30	Tension in America and Westward Expansion
11/2-11/6	The Civil War
11/14-11/18	The Civil War
11/21-11/25	Thanksgiving Break
11/28-12/4	Reconstruction
12/7-12/11	Final Exam

Course # HIST1301 10H1
Course Title: United States History I
Fall Subterm A 2026

Instructor: Ken Hanushek
Office: FCG A104F
Phone: (903) 782-0767
Email: khanushek@parisjc.edu

Meeting Location: FGC145A
Meeting Days: TR
Meeting Time: 11:00-12:15

Office Hours: MTWR 8:30-10:30; 1:30-2:30; other times by appointment

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

Credits: SCH = 3 lecture hours per week

TSI Requirement = College-level reading required

Required Textbook(s) and Materials:

The openstax textbook, [U. S. History](#), is *available at no cost* to students and is available on the “Start” page in Blackboard. In addition, corresponding textbook chapters are linked to the reading assignments throughout the course. *Students have no need to seek a free trial period for the textbook.* ISBN 978-1-947172-08-1

Computer Requirement: In addition to the required text, students must have internet access and regular access to a computer capable of supporting Blackboard Learn, the Respondus LockDown Browser (webcam monitoring), and common computer applications (e.g., Microsoft Word and PowerPoint). Phones and tablets may not be compatible with Blackboard and should not be used to access course material.

Course Goals and Objectives:

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture reflect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Students successfully completing this course will demonstrate competency in the following Core Objectives:

- Critical Thinking Skills- to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- Communication Skills- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Personal Responsibility- to include the ability to connect choices, actions, and consequences to ethical decision-making.
- Social Responsibility- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national and global communities.

History Student Learner Outcomes

Upon successful completion of this course students will:

- Create an argument through the use of historical evidence.
- Analyze and interpret primary and secondary sources.
- Identify key events, geographies, concepts, and people in this period of United States history.

NOTE: IF YOU SEE SOMETHING PECULIAR, ODD, OR INCOMPREHENSIBLE (ASIDE FROM ME), FEEL FREE TO LET ME KNOW. IN ALL LIKELIHOOD, THERE WILL BE MODIFICATIONS TO THIS SCHEDULE AND TO THIS COURSE.

Course Requirements and Evaluation:

<u>Course Components</u>		<u>Grading Scheme</u>	
Components	Percentage	Letter Grade	Percentages
Examinations	400 pts = 40%	A	900-999 pts = 90-100%
Class Activities	100 pts = 10%	B	800-899 pts = 80-89%
Writing Assignment	300 pts = 30%	C	700-799 pts = 70-79%
Personal Accountability	100 pts = 10%	D	600-699 pts = 60-69%
Outcome Quizzes	100 pts = 10%	F	Below 600 pts = Below 60%
TOTAL	100%		

Exams

This course offers two exams, the midterm and the final, worth 200 points each. Both generally consist of 50 objective questions, but short answer and essays are sometimes included. You will be advised of the structure of each exam prior to its administration. The midterm covers Weeks 1-4; the final covers Weeks 5-8.

Class Activities

Four class activities are planned throughout the term; each is worth up to 25 points. These activities come in all shapes and sizes. Some will be group efforts, and some will be individual work. Some will be written, and some will be oral. Some will be during class, and some might be outside of class. You will be given the information and materials needed for each activity when the activity begins.

Writing Assignment

You will prepare a 300-point analysis paper for this course. The topic deals with specific historical events and includes the use of primary and secondary sources. Specific instructions will be available during Week 2.

Personal Accountability

With this being a hybrid course, more than ever, success in the course depends upon the nature of the student. As your instructor, I can guide you through the course and provide all the help I can give. But students' time management, sense of responsibility, dependability, and accountability are critical aspects needed for success. You start the course with 100 accountability points. They are yours to keep or lose.

Outcome Quizzes

The three outcome quizzes, worth a total of 100 points, measure students' mastery of the history student learning outcomes. They will be available towards the end of the term and will allow students to demonstrate what they learned throughout the course.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD), August 31, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

- **Requirement to submit coursework by the due date:** You should interpret an established due date as the final opportunity for submitting corresponding coursework. Demonstrating personal responsibility is a core objective of this course, and this policy will be strictly enforced to achieve it. **You are required to complete all assignments by the due date**, and coursework not submitted by the due date will likely receive zero points. Your instructor does not accept late coursework for any reason beyond those specified by Paris Junior College policy or state and federal law. Unacceptable excuses for failure to submit assignments by the due date include technical difficulties and personal emergencies that occur near assignment due dates
- **Requirement to submit coursework through Blackboard:** All coursework must be submitted through the college's online learning management system, Blackboard, unless instructed otherwise through official course communications. The instructor will not accept assignments submitted through email without prior approval.
- **Collaboration and Collusion:** Students are encouraged to collaborate in learning with other students but are strictly prohibited from colluding with others in completing assignments. Collaboration occurs when students share ideas, strategies, and understandings through discussion or study activities. Collusion occurs when students work with others to complete quizzes, tests, or other assignments, with the knowledge that the coursework will be submitted for course credit. Among other deceitful practices outlined in the Student Handbook, collusion is a form of academic dishonesty that will be reported.
- **Student/Instructor Communications:** All students must regularly check for course communications within Dragonmail, course messages, text messages, and course announcements. You should feel comfortable contacting the Instructor with any questions or concerns that arise. The following guidelines have been established to facilitate communication efficiently. Outside of face-to-

face conversation, email or Blackboard course messages are the preferred mode of student/instructor communication. After sending electronic communications to the instructor, students should expect a response within 24 hours or the next business day. If you contact the instructor by email, you must use your Dragonmail account or Blackboard to send and receive communications. You should identify yourself using your full name (as listed in the course) and **by identifying the course and section for which you are enrolled.** Be as detailed as possible when describing your questions, and be sure that your question is not due to a lack of reading the course syllabus or assignment instructions.

- **Important Notifications:** Students must check course announcements regularly, as this method of communication will be used to dispense any important course notifications, including alterations to this course. Most importantly, Blackboard requires additional requirements communicated through course messages or other official correspondence for amendments to this syllabus. Receipt of notifications by course announcement is assumed.
- **Miscellaneous:** Please don't sleep in my class. If you are so tired that you can't stay awake, excuse yourself from the class.

Remember that class time is history time, not the time for homework for other classes, reading books, or using your phone or computer for anything other than history class.

No headphones, AirPods, or iPods, please.

Refrain, to the best of your ability, from leaving the classroom until the class is dismissed. Make your phone calls, send texts, and use the restroom before or after class.

Class Attendance:

Class attendance is critical for the successful completion of this course. If you arrive late for class, see me after class so that I can mark you present. *For online courses, students must complete work promptly and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. by the time class begins. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, **others will immediately receive a score of zero on the exam/assignment involved, or collusion.** Depending on the nature and severity of the situation, the instructor may

impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook. Any student with accommodations who wishes to take the exams in class in lieu of the test center must give the instructor that desire in writing prior to the test.

Social Science Department Artificial Intelligence Statement:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change via Blackboard and student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COURSE SCHEDULE

NOTE: ON NON-ATTENDANCE DAYS, YOU SHOULD READ THE DESIGNATED CHAPTER IN PREPARATION FOR CLASS DISCUSSION DURING THE FOLLOWING IN-CLASS LESSON.

<u>WEEK</u>	<u>TOPIC</u>	<u>ASSIGNMENT</u>

Exam 2	Final - Objective Exam		10/15

HIST1301 20E0
US HISTORY I
Subterm Fall A 2026

Instructor:	Ken Hanushek	Meeting Location:	Online
Office:	FGC A104F	Meeting Days:	Online
Phone:	(903) 782-0767	Meeting Times:	Online
Email:	khanushek@parisjc.edu		
Office Hours:	MWTR 8:30-10:30; 1:30-2:30; other times by appointment		

Course Description:

A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

Credits: SCH = 3 lecture hours per week. TSI Requirement = College-level reading required

Required Textbook(s) and Materials:

The openstax textbook, U. S. History, is *available at no cost* to students and is available on the “Start” page in Blackboard. In addition, corresponding textbook chapters are linked to the reading assignments throughout the course. Students have no need to seek a free trial of the textbook. ISBN 978-1-947172-08-1

Computer Requirement: In addition to the required text, students must have access to the internet and regular access to a computer capable of supporting Blackboard Ultra, the Respondus LockDown Browser, and common computer applications (e.g., Microsoft Word and PowerPoint). Phones and tablets may not be compatible with Blackboard and should not be used to access course material.

Core Objectives and Student Learning Outcomes:

Interpreting Objectives and Planning for Success: The Texas Higher Education Coordinating Board established the core objectives and learning outcomes of this course as requirements of the Texas Core Curriculum. Competent demonstration of outcomes and objectives should be understood as minimum performance requirements. Students committed to success will complete all learning activities, assignments, pretests, posttests, and exams on time to produce acceptable evidence that objectives and outcomes have been met or exceeded.

Core Objectives:

Students completing this course will demonstrate competency in the following Core Objectives:

- 1) Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
- 2) Communication Skills—to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- 3) Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.
- 4) Social Responsibility—to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

History Student Learning Outcomes:

Upon successful completion of this course, students will

- Create an argument through the use of historical evidence.
- Analyze and interpret primary and secondary sources.
- Identify key events, geographies, concepts, and people in this period of United States history.

Course Schedule:

Available	Modules & Learning Activities	Assignments	Due Date
08/24	Syllabus Reading (Complete Immediately)	Syllabus Quiz	08/28
08/24	Module 1 Topic: Early America, Exploration, and Colonization - Readings: Chapters 1.1, 2,3,4	Discussion 1 Quiz – Module 1	09/04 09/06

Exams	Description	Available	Due Date
Exam 1	Midterm - Objective Exam	09/10	09/16
Exam 2	Final - Objective Exam	10/07	10/13

Course Requirements and Evaluation:

General Course Design: This course is organized into four modules consisting of the following assignments: a syllabus quiz, readings and lessons, online class discussions, module quizzes, (1 per learning module), and two exams. Each assignment provides opportunities to accumulate points. Collectively, course assignments provide an opportunity to accumulate up to 1000 points.

Specific topics for lessons are included in the course schedule..

- **Important first requirement for remaining in this course: Syllabus quiz** Before moving into any learning material, *you must study this syllabus and complete the syllabus quiz*, which is worth 5 points. First, obtain a full understanding of the course and its requirements. After doing so, complete the syllabus quiz immediately to demonstrate and acknowledge an understanding of course requirements. The syllabus quiz is located in the “Syllabus Quiz” link on the Start page.
 - **Notice:** If you fail to attend class (or, for online students, fail to complete the syllabus quiz) *before the official reporting date, August 31, 2026, you will be administratively withdrawn (Dropped!) from the course without exception. Simply logging in to Blackboard won’t meet the requirement to remain in the course.*
- **Module Quizzes:** Module quizzes allow you to demonstrate and practice knowledge acquisition. Each module includes one quiz that should be attempted after completing the module’s readings and learning activities. Module quizzes do not require proctoring, and you may reference notes and approved learning materials while attempting quizzes. Scores on quizzes are calculated as part of your final grade. You will have **two** attempts on quizzes *before the due date*, and the points accumulated will reflect the highest score of both attempts. There are four module quizzes in the course, each consisting of 10 questions worth three points apiece. Your quiz scores can add up to 120 points toward your course total.
- **Discussion Assignments:** You will complete four online class discussions, one per learning module. Discussions, each worth 100 points, include a specific activity. Each requires essay-style responses to prompts that develop critical thinking skills, framed by the course’s learning objectives. Original posts for discussions must be between 200 and 300 words. Then you must comment on your peers’ posts. Consult the grading rubric provided in the instructions to plan to receive maximum points for this assignment. The total value of the four discussions is 400 points.
- **Exams:** You will complete two exams, one midterm (Exam 1) and one final exam (Exam 2). These exams will allow you to demonstrate knowledge, understanding, and higher-order thinking skills. Each exam is composed of 50 objective questions. Specific instructions and requirements for the exam are provided within the course. Collectively, exams offer the opportunity to earn up to 400 points toward your course total.

Outcome Quizzes: The three outcome quizzes, worth a total of 100 points, measure students’ mastery of the history student learning outcomes. They will be available towards the end of the term and will allow students to demonstrate what they learned throughout the course.

Required Activity: All students must complete the First Assignment located in the “Course Content” section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD), August 31, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Assignment Category by possible points**Grading Scale (1000 possible points)**

Syllabus Quiz	5 pts	900 – 1000	A
Exams	400 pts	800 – 899	B
Quizzes	120 pts	700 – 799	C
Discussions	400 pts	600 – 699	D
Outcome Quizzes	75 pts	Below 600	F
TOTAL PTS	1000 PTS		

Course Policies:

- **Requirement to submit coursework by the due date:** Interpret each due date as the day an assignment must be completed to receive full credit. Coursework not submitted by the due date may receive zero points. Your instructor has the discretion to accept or reject late coursework for any reason beyond those specified by Paris Junior College policy or state and federal law. Unacceptable excuses for failure to submit assignments by the due date may include technical difficulties and personal emergencies that occur near assignment due dates..
- **Requirement to submit coursework through Blackboard:** All coursework must be submitted through the college's online learning management system, Blackboard Learn, unless instructed otherwise through official course communications. The instructor will not accept assignments submitted through email without prior approval.
- **Collaboration and Collusion:** Students are encouraged to collaborate in learning with other students but strictly prohibited from colluding with others in completing assignments. Collaboration occurs when students share ideas, strategies, and understandings through discussion or study activities. Collusion occurs when students work with other persons to complete quizzes, tests, or any other assignment with the knowledge that the coursework will be submitted for course credit. Among other deceitful practices outlined in the Student Handbook, collusion is a form of academic dishonesty that will be reported.

Student/Instructor Communications: All students **must** regularly check for course communications within DragonMail, Blackboard course messages, and Blackboard course announcements. You should feel comfortable contacting the instructor with any concerns or questions that may arise. Outside of face-to-face or telephone conversations (available during office hours or by appointment), email is the preferred mode of student/instructor communication. Email your instructor from your official PJC DragonMail account. Emails sent from private or high school-issued email accounts may not receive an answer. Other acceptable modes of communication may include video conferencing sessions in Blackboard (available by request). Video conferencing will occur during office hours or by appointment. After sending electronic communications to the instructor, students should expect a response within 24 hours or the next business day.

You should identify yourself using your full name (as listed in the course) and by identifying the course and section for which you are enrolled. Be as detailed as possible when describing your questions, and **be sure that your question is not due to a lack of reading the course syllabus or assignment instructions.**

- **Important Notifications:** Students must check course announcements, Dragonmail, course messages, and text messages regularly, as these methods of communication will be used to dispense any important course notifications, including alterations to this course. Receipt of notifications by course announcement is assumed.
- **Proctoring Requirements for Online Dual-credit Students:** Dual-credit students taking an online version of this course will be required to abide by additional proctoring requirements imposed and administered by their high school. Dual-credit students with such requirements are responsible for supplying the dual-credit coordinator at their high school with a copy of this syllabus and scheduling proctored exams before the due date.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work promptly and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1, 2026.

Class Conduct:

(Face-to-face students) Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. That means nothing in the ears but hearing aids. Computers may be used **ONLY** for this course's-related purposes. You must have the instructor's permission to use a cell phone in class.

(All students) No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog and Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with **others will immediately receive a score of zero on the exam/assignment involved.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Social Sciences Department Artificial Intelligence Statement:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook. Any student with accommodations who wishes to take an exam in class in lieu of the test center must give the instructor that desire in writing prior to the test.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made, students will be informed of the change via Blackboard and student email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Policies:

- **Requirement to submit coursework by the due date:** Interpret each due date as the day an assignment must be completed to receive full credit. Coursework not submitted by the due date may receive zero points. Your instructor has the discretion to accept or reject late coursework for any reason beyond those specified by Paris Junior College policy or state and federal law. Unacceptable excuses for failure to submit assignments by the due date may include technical difficulties and personal emergencies that occur near assignment due dates. Successful students will plan ahead and submit assignments within a timeframe that allows for adequate learning, preparation of assignments as instructed, and management of issues that may delay the proper submission of coursework. If you feel you have a valid excuse for turning in an assignment late, promptly contact your instructor and explain the circumstances.
- **Requirement to submit coursework through Blackboard:** All coursework must be submitted through the college's online learning management system, Blackboard Learn, unless instructed otherwise through official course communications. The instructor will not accept assignments submitted through email without prior approval.
- **Collaboration and Collusion:** Students are encouraged to collaborate in learning with other students but strictly prohibited from colluding with others in completing assignments. You should feel comfortable contacting the instructor with any concerns or questions that may arise. Outside of face-to-face or telephone conversations (available during office hours or by appointment), email is the preferred mode of student/instructor communication. Email your instructor from your official PJC DragonMail account. Emails sent from private or high school-issued email accounts may not receive an answer. Other acceptable modes of communication may include video conferencing sessions in Blackboard (available by request). Video conferencing will occur during office hours or by appointment. After sending electronic communications to the instructor, students should expect a response within 24 hours or the next business day.

You should identify yourself using your full name (as listed in the course) and by identifying the course and section for which you are enrolled. Be as detailed as possible when describing your

questions, and **be sure that your question is not due to a lack of reading the course syllabus or assignment instructions.**

- **Important Notifications:** Students must check course announcements, Dragonmail, course messages, and text messages regularly, as these methods of communication will be used to dispense any important course notifications, including alterations to this course. Receipt of notifications by course announcement is assumed.
- **Proctoring Requirements for Online Dual-credit Students:** Dual-credit students taking an online version of this course will be required to abide by additional proctoring requirements imposed and administered by their high school. Dual-credit students with such requirements are responsible for supplying the dual-credit coordinator at their high school with a copy of this syllabus and scheduling proctored exams before the due date.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work promptly and follow due dates.* The student must initiate withdrawals. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1, 2026.

Class Conduct:

(Face-to-face students) Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. That means nothing in the ears but hearing aids. Computers may be used **ONLY** for this course's-related purposes. You must have the instructor's permission to use a cell phone in class.

(All students) No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog and Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with **others will immediately receive a score of zero on the exam/assignment involved.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Social Sciences Department Artificial Intelligence Statement:

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook. Any student with accommodations who wishes to take an exam in class in lieu of the test center must give the instructor that desire in writing prior to the test.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

- Your symptoms are getting better overall, and
- You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

HITT1305.20E0
Medical Terminology
Fall 2026 A

Instructor: Jennifer Washington	Meeting Location: online
Office:	Meeting Days: -
Phone: 903.782.0731	Meeting Times: -
Email: jwashington@parisjc.edu	
Office Hours: Monday-Thursday 10:00-11:00 2:00-3:00 – Paris Campus Fridays 9:30-11:30 <i>virtual</i>	

Course Description:

Study of medical terms through word origin and structure. Introduction to abbreviations and symbols, surgical and diagnostic procedures, and medical specialties.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

*Provided via DragonNow – No additional purchase necessary
McGraw Hill Connect*

Course Goals and Objectives:

Recognize and know the meaning of common medical terms and the ability to use medical research/resource materials to apply medical terminology in appropriate contexts when completing allied health documentation, medical transcription reports, or medical billing information.

Course Requirements and Evaluation:

Students are expected to follow the due dates ON THE SYLLABUS, not based on blackboard alone. The mandatory first post/Syllabus Quiz is due 06/12 or you will be dropped for non-participation.

Students should read Announcements carefully, as the instructor will use this option to communicate with the class on schedule changes and various other issues.

The best way to reach your instructor is via email listed at the top of the syllabus.

Students should ensure they have access to a laptop or desktop call 903-782-1496 Help Desk if questions of compatibility.

If you are an adult learner, you may qualify for additional services from Adult Education and Literacy (AEL). Email ssanchez@parisjc.edu for more info.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (**08/31/2026**). Completion of this assignment serves as verification of course participation. Students who do

not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Late work is accepted up until the last week of class.

No work is accepted after 10/14/26 midnight.

Email/Text is the quickest way to reach your instructor.

Please allow 24-48 hours for responses.

No work is accepted via email. All submissions must come through blackboard unless otherwise indicated.

Changes to the syllabus/assignments/schedule are at the discretion of the instructor.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be *initiated by the student*. The last day for a student to withdraw from a course with a grade of "W" is **10/01/2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Health Information Technology students who violate the AHIMA code of ethics will be referred to the Dean of Business and Industry and may be suspended or expelled from the program.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, **students must cite** any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Health Information Technology students who violate the AHIMA code of ethics will be referred to the Dean of Business and Industry and may be suspended or expelled from the program.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, **students must cite** any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Blackboard Announcements

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
08/24	Ch 2/8	Discussion Board, Cornell Notes, Test
08/31	Ch 9/10	Discussion Board, Cornell Notes, Test, HIPAA Assignment, Visual Report
09/07	Ch 11/12	Cornell Notes, Test
09/14	Ch 14	Cornell Notes, Test
09/21	Ch 16	Discussion Board, Cornell Notes, Test
09/28	Ch 18	Cornell Notes, Test
10/05	Ch 19	Cornell Notes, Test; Extra Credit Ch 21
10/12	Final	Final Exam – all due 10/14

HITT1441.20E0
Coding & Classification Systems
Fall 2026 A

Instructor: Jennifer Washington	Meeting Location: online
Office: A153	Meeting Days: -
Phone: 903.782.0731	Meeting Times: -
Email: jwashington@parisjc.edu	
Office Hours: Monday-Thursday 10:00-11:00 2:00-3:00 – Paris Campus Fridays 9:30-11:30 <i>virtual</i>	

Course Description:

Fundamentals of coding rules, conventions, and guidelines using clinical classification systems. This course requires concurrent enrollment in HITT 1442 or HITT1342

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

*Provided via DragonNow – No additional purchase necessary
McGrawHill Connect*

Course Goals and Objectives:

HITT 1441 is designed to prepare the student to enter the health information environment with entry-level inpatient coding knowledge. Using established guidelines, the student will be able to accurately assign ICD-10- CM/PCS codes for diagnoses and procedures based on the clinical documentation

Course Requirements and Evaluation:

Grades will be weighted as follows

*SmartBook(s) 20%
Practice 10%
Homework 40%
Module Quiz 15%
Final 15%*

If you are an adult learner, you may qualify for additional services from Adult Education and Literacy (AEL). Email ssanchez@parisjc.edu for more info.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (**08/30/2026**). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Late work is accepted up until the last week of class.

No work is accepted after 10/14/26 midnight.

Email/Text is the quickest way to reach your instructor.

Please allow 24-48 hours for responses.

No work is accepted via email. All submissions must come through blackboard unless otherwise indicated.

Changes to the syllabus/assignments/schedule are at the discretion of the instructor.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be *initiated by the student*. The last day for a student to withdraw from a course with a grade of "W" is **10/01/2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Health Information Technology students who violate the AHIMA code of ethics will be referred to the Dean of Business and Industry and may be suspended or expelled from the program.

HITT2335.20E0
Coding & Reimbursement Methodologies
Fall 2026 A

Instructor: Jennifer Washington	Meeting Location: online
Office: A153	Meeting Days: -
Phone: 903.782.0731	Meeting Times: -
Email: jwashington@parisjc.edu	
Office Hours: Monday-Thursday 10:00-11:00 2:00-3:00 – Paris Campus Fridays 9:30-11:30 <i>virtual</i>	

Course Description:

Advanced coding techniques with emphasis on case studies, health records, and federal regulations regarding prospective payment systems and methods of reimbursement.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

*Provided via DragonNow – No additional purchase necessary
Bring your coding manuals from last semester*

Course Goals and Objectives:

Upon completing the course, the student will have accomplished the following course outcomes:

Validate reimbursement classification system assignments. c5, c6, f7, f8

Identify and utilize the tools in coding and billing as they relate to reimbursement. c5, f1, f7, f8, f9

Course Requirements and Evaluation:

This is a capstone course that improves upon the skills developed in previous coding courses and prepares students to sit for the CCA Exam at the conclusion of this course.

Grading Breakdown:

Domain Activities: 40%

Coding Exercises/VLAB (w/ and w/o CAC)- 30%

CCA Practice 1: 10%

CCA Practice 2: 10%

Final CCA Exam: 20%

If you are an adult learner, you may qualify for additional services from Adult Education and Literacy (AEL). Email ssanchez@parisjc.edu for more info.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (**08/30/2026**).

Completion of this assignment serves as verification of course participation. Students who do

not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

You will be sitting for your official CCA exam as part of this course. It is in your best interest to participate fully in the reading, flashcards, and activities provided in Cengage. Coding is only 1 domain (albeit the largest), you need to be comfortable in all 6 domains.

Course Policies:

Late work is accepted up until the last week of class.

No work is accepted after 10/14/26 midnight.

Email/Text is the quickest way to reach your instructor.

Please allow 24-48 hours for responses.

MUSI 1306.25D0
Music Appreciation
Fall 2026 16 Weeks

Instructor:	Dr. Chad Houk	Meeting Location:	Online
Office:	Music Bldg., Rm. 108	Meeting Days:	Online
Phone:	(903) 782-0342	Meeting Times:	Online
Email:	chouk@parisjc.edu		
Office Hours:	M/T/W/Th 1:00-3:00 pm, T/Th 11:00 am-12:00 pm, and by appointment		

Course Description:

Understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. (Does not apply to a music major degree.)

Required Textbook(s) and Materials:

A History and Appreciation of Western Music by Dr. Michael J. Holderer. This is a **free** online textbook. It is available as a PDF through Blackboard.

Program Learning Outcomes:

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression—Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts
2. Critical & Creative Thinking—Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning
3. Humanities & Cultural Literacy—Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society
4. Information Literacy—Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making
5. Personal & Civic Responsibility—Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility

Student Learning Outcomes:

Upon successful completion of this course, students will:

1. Identify musical works and elements in a variety of styles
2. Analyze the elements and structures of music using appropriate terminology
3. Critically evaluate the influence of social, political, technological, and/or cultural ideas on music
4. Articulate the significance of music as an art form within historical, cultural and social contexts

Course Requirements and Evaluation:

Exam 1	100 points
Exam 2	100 points
Exam 3	100 points
Mid-Term Exam	200 points

Exam 4	100 points
Exam 5	100 points
Concert Report 1	50 points
Concert Report 2	50 points
<u>Final Exam</u>	<u>200 points</u>
TOTAL	1000 points

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is November 12.**

Late Work Policy:

In order to keep up in this course, and so that your work may be graded in a timely manner, it is essential that you turn assignments in on time. Therefore, while a grace period of 24 hours may be offered for daily homework assignments with no penalty, exams and concert reports will not be accepted for credit after their due dates without prior authorization of the instructor.

Technology Policy:

While the technological restrictions placed upon in-person classes do not transfer directly to online environments, students should still do their utmost to rid themselves of distractions during the learning process. Turning off phones and televisions, closing unnecessary web browsers, and avoiding other distracting devices will help to ensure a more productive learning environment.

Although extraneous use of technology should be avoided, students still need to make sure that their devices and online accounts are working properly. To this end, they will want to work through the PJC IT checklist during the first week of school: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence

Paris Junior College supports the constructive use of technology to enhance students' academic development, provided it does not compromise the authenticity of their work. Students are encouraged to utilize AI tools for basic spelling and grammar checking, as well as for initial concept generation or

exploring creative ideas. However, using generative AI to create or automate final assignment submissions is strictly prohibited. A student's unique voice and individual creative process are vital components of the learning experience and must be clearly perceived at all times.

AI may also be used as a research aid to help students locate and explore relevant information, but students remain responsible for evaluating, verifying, and citing the sources they use. This includes explicitly documenting any databases, websites, or digital materials utilized for assignments. More detailed instructions concerning the proper use of AI with particular projects will be provided as needed.

Balancing modern digital tools with personal accountability protects intellectual growth and builds the critical thinking necessary for a future career. Students should consult their instructor if they are unsure whether a program or a process aligns with these goals.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence

Paris Junior College supports the constructive use of technology to enhance students' academic development, provided it does not compromise the authenticity of their work. Students are encouraged to utilize AI tools for basic spelling and grammar checking, as well as for initial concept generation or

exploring creative ideas. However, using generative AI to create or automate final assignment submissions is strictly prohibited. A student's unique voice and individual creative process are vital components of the learning experience and must be clearly perceived at all times.

AI may also be used as a research aid to help students locate and explore relevant information, but students remain responsible for evaluating, verifying, and citing the sources they use. This includes explicitly documenting any databases, websites, or digital materials utilized for assignments. More detailed instructions concerning the proper use of AI with particular projects will be provided as needed.

Balancing modern digital tools with personal accountability protects intellectual growth and builds the critical thinking necessary for a future career. Students should consult their instructor if they are unsure whether a program or a process aligns with these goals.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

	<u>TOPICS</u>	<u>READING</u>	<u>ASSIGNMENTS</u>
Week 1 8/24-8/28	Music Basics	Ch. 1	Syllabus Quiz (due 8/30) Exam 1 (due 8/31)
Week 2 8/31-9/4	Ancient/Medieval Music; The Renaissance	Chs. 2-3	Exam 2 (due 9/7)
Week 3 9/8-9/11	Baroque Music	Ch. 4	Exam 3 (due 9/14)
Week 4 9/14-9/18	The Classical Era	Ch. 5	Mid-Term Exam (due 9/16)
Week 5 9/21-9/25	Romanticism	Ch. 6, pp. 108-132	Exam 4 (due 9/24)
Week 6 9/28-10/2	Romanticism (Cont'd)	Ch. 6, pp. 132-162	Concert Report 1 (due 10/1) Exam 5 (due 10/5)
Week 7 10/5-10/9	20th Century and Beyond	Ch. 7, pp. 163-178	Concert Report 2 (due 10/8)
Week 8 10/12-10/16	20th Century and Beyond (Cont'd)	Ch. 7, pp. 178-191	Final Exam (due 10/14)

MUSI 1306.200
Music Appreciation
Fall 2026 First 8 Weeks

Instructor:	Dr. Chad Houk	Meeting Location:	Online
Office:	Music Bldg., Rm. 108	Meeting Days:	Online
Phone:	(903) 782-0342	Meeting Times:	Online
Email:	chouk@parisjc.edu		
Office Hours:	M/T/W/Th 1:00-3:00 pm, T/Th 11:00 am-12:00 pm, and by appointment		

Course Description:

Understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. (Does not apply to a music major degree.)

Required Textbook(s) and Materials:

A History and Appreciation of Western Music by Dr. Michael J. Holderer. This is a **free** online textbook. It is available as a PDF through Blackboard.

Program Learning Outcomes:

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression—Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts
2. Critical & Creative Thinking—Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning
3. Humanities & Cultural Literacy—Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society
4. Information Literacy—Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making
5. Personal & Civic Responsibility—Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility

Student Learning Outcomes:

Upon successful completion of this course, students will:

1. Identify musical works and elements in a variety of styles
2. Analyze the elements and structures of music using appropriate terminology
3. Critically evaluate the influence of social, political, technological, and/or cultural ideas on music
4. Articulate the significance of music as an art form within historical, cultural and social contexts

Course Requirements and Evaluation:

Exam 1	100 points
Exam 2	100 points
Exam 3	100 points
Mid-Term Exam	200 points

Exam 4	100 points
Exam 5	100 points
Concert Report 1	50 points
Concert Report 2	50 points
<u>Final Exam</u>	<u>200 points</u>
TOTAL	1000 points

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is October 1.**

Late Work Policy:

In order to keep up in this course, and so that your work may be graded in a timely manner, it is essential that you turn assignments in on time. Therefore, while a grace period of 24 hours may be offered for daily homework assignments with no penalty, exams and concert reports will not be accepted for credit after their due dates without prior authorization of the instructor.

Technology Policy:

While the technological restrictions placed upon in-person classes do not transfer directly to online environments, students should still do their utmost to rid themselves of distractions during the learning process. Turning off phones and televisions, closing unnecessary web browsers, and avoiding other distracting devices will help to ensure a more productive learning environment.

Although extraneous use of technology should be avoided, students still need to make sure that their devices and online accounts are working properly. To this end, they will want to work through the PJC IT checklist during the first week of school: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence

Paris Junior College supports the constructive use of technology to enhance students' academic development, provided it does not compromise the authenticity of their work. Students are encouraged to utilize AI tools for basic spelling and grammar checking, as well as for initial concept generation or

exploring creative ideas. However, using generative AI to create or automate final assignment submissions is strictly prohibited. A student's unique voice and individual creative process are vital components of the learning experience and must be clearly perceived at all times.

MUSI 1306.10B0
Music Appreciation
Fall 2026 First 8 Weeks

Instructor:	Dr. Chad Houk	Meeting Location:	Music Bldg., Rm. 101
Office:	Music Bldg., Rm. 108	Meeting Days:	Tuesday/Thursday
Phone:	(903) 782-0342	Meeting Times:	9:30-10:45 a.m.
Email:	chouk@parisjc.edu		
Office Hours:	M/T/W/Th 1:00-3:00 pm, T/Th 11:00 am-12:00 pm, and by appointment		

Course Description:

Understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. (Does not apply to a music major degree.)

Required Textbook(s) and Materials:

Forney, Kristine, and Andrew Dell'Antonio. *The Enjoyment of Music: Essential Listening Edition*, 5th ed., W. W. Norton & Company, 2024.

Note: All the required course materials for your classes are being delivered through Dragon Now, the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital eBook accessed through the "My Materials" link in Blackboard. You will also receive an email directly from Kortext (no-reply@kortext.com), with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below by:

- **Fall Main & Flex 1 Term: 9/11/2026**
 - **Flex 2 Term: 10/28/2026**
- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
 - 2) Create an account using your student email account
 - 3) Select "Opt-Out" to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
 - 4) You can also opt out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Program Learning Outcomes:

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression—Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts

2. Critical & Creative Thinking—Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning
3. Humanities & Cultural Literacy—Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society
4. Information Literacy—Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making
5. Personal & Civic Responsibility—Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility

Student Learning Outcomes:

Upon successful completion of this course, students will:

1. Identify musical works and elements in a variety of styles
2. Analyze the elements and structures of music using appropriate terminology
3. Critically evaluate the influence of social, political, technological, and/or cultural ideas on music
4. Articulate the significance of music as an art form within historical, cultural and social contexts

Course Requirements and Evaluation:

Concert Report 1	50 points
Concert Report 2	50 points
Attendance	100 points
Mid-Term Exam	200 points
Final Exam	200 points
<u>InQuizitive Exercises</u>	<u>400 points</u>
TOTAL	1000 points

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of “W” is October 1.**

Late Work Policy:

In order to keep up in this course, and so that your work may be graded in a timely manner, it is essential that you turn assignments in on time. Therefore, while a grace period of 24 hours may be offered for daily homework assignments with no penalty, exams and concert reports will not be accepted for credit after their due dates without prior authorization of the instructor.

Technology Policy:

The use of cell phones and computers for non-class purposes is prohibited during class time. During class, all phones should be turned off or silenced. If a cell phone needs to be used for medical reasons or for an emergency, its use needs to be cleared with the instructor before class. Laptops and tablets may be used to access course materials and complete classroom tasks; however, use of these devices for some reason not related to this class is not permitted. Unauthorized use of a cellphone, laptop, or tablet during class may result in the student receiving a failing grade for that day's attendance.

While the use of technology is curtailed during class time, students will still need to make sure that their devices and online accounts are working properly. To this end, they will want to work through the PJC IT checklist during the first week of school: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. Course: HPRS 2301.200
Introduction to Human Disease: Pathology and
Pathophysiology Correlations 12th ed
HPRS 2301.200
Fall 2026

Instructor: Kandice Pryor, MSN, RN
Office: Online
Phone: 903-782-5281
Email: kpryor@parisjc.edu
Office Hours: online

Meeting Location: Web-Based Online
Meeting Dys: August 24-December 10
Meeting Times: Online

Course Description:

This course is designed to introduce students to the concepts and vocabulary necessary to learn about human disease.

Required Textbook(s) and Materials:

Crowley's An Introduction to Human Disease-Pathology and Pathophysiology Correlations 12th Ed.-ISBN9781284303056 paperback. You will receive an email with instructions on how access Navigate eBook for Crowley's An Introduction to Human Disease: Pathology and Pathophysiology Correlations, Twelfth Edition.

Course Goals and Objectives:

Strategic Goals

1. Maintain a level of high-quality instruction.
2. Increase workforce training in program offerings and in the number of students.
3. Increase the tax base to secure the institution's future.
4. Continue to focus on and strengthen student retention and success agenda.
5. Obtain and make available current technology for administrative and student use.

Course Outcomes

Upon completion of this course, students will be equipped to:

- Understand concepts and vocabulary used to discuss human disease.
 - Distinguish environmental factors, physical, psychosocial, and cognitive characteristics of various diseases and conditions. **C5, C6, F1, F9, F11***

- Identify implications of therapeutic interventions for common diseases and conditions. **C5, C6, F1, F9, F11***
- Succeed in higher-level disease studies such as medical technology, nursing, or medical school.

*All outcomes require SCANS competencies F1-F7.

SCANS Course Competencies

The Secretary's (of the U.S. Department of Labor) Commission on Achieving Necessary Skills has identified several Competencies and Skills that are necessary for today's workforce. The following competencies and skills are included in this course:

	Resources: Identifies, organizes, plans, and allocates resources
C1	Allocates Time – Selects goal-relevant activities, ranks them, allocates time, and prepares and follows schedules
C2	Allocates Money – Uses or prepares budgets, makes forecasts, keeps records, and makes adjustments to meet objectives
C3	Material and Facilities – Acquires, stores, allocates, and uses materials or space efficiently
C4	Human Resources – Assesses skills and distributes work accordingly, evaluates performance and provides feedback
	Information: Acquires and uses information
C5	Acquires and Evaluates Information
C6	Organizes and Maintains Information
C7	Interprets and Communicates Information
C8	Uses Computers to Process Information
	Interpersonal: Works with others
C9	Participates as Members of a Team – Contributes to group effort
C10	Teaches Others New Skills
C11	Serves Clients/Customers – Works to satisfy customer's expectations
C12	Exercises Leadership – Communicates ideas to justify position, persuades and convinces others, responsibly challenges existing procedures and policies
C13	Negotiates – Works toward agreements involving exchange of resources, resolves divergent interests
C14	Works with Diversity – Works well with men and women from diverse backgrounds
	Systems: Understands complex relationships
C15	Understands Systems – Knows how social, organizational, and technological systems work and operates effectively with them
C16	Monitors and Corrects Performance – Distinguishes trends, predicts impacts on system operations, diagnoses systems' performance and corrects malfunctions
C17	Improves or Designs systems – Suggest modifications to existing systems and develops new or alternative systems to improve performance
	Technology: Works with a variety of technologies
C18	Selects Technology – Chooses procedures, tools or equipment including computers and related technologies
C19	Applies Technology to Task – Understands overall intent and proper procedures for setup and operation of equipment
C20	Maintains and Troubleshoots Equipment – Prevents, identifies, or solves problems with equipment, including computers and other technologies
	Basic Skills: Reads, writes, performs arithmetic and mathematical operations, listens and speaks
F1	Reading – Locates, understands, and interprets written information in prose and in documents such as manuals, graphs, and schedules
F2	Writing – Communicates thoughts, ideas, information, and messages in writing; and creates documents such as letters, directions, manuals, reports, graphs, and flow charts
F3	Arithmetic – Performs basic computations; uses basic numerical concepts such as whole numbers, etc.
F4	Mathematics – Approaches practical problems by choosing appropriately from a variety of mathematical techniques
F5	Listening – Receives, attends to, interprets, and responds to verbal messages and other cues
F6	Speaking – Organizes ideas and communicates orally
	Thinking Skills: Thinks creatively, makes decisions, solves problems, visualizes, knows how to learn, and reasons
F7	Creative Thinking – Generates new ideas
F8	Decision Making – Specifies goals and constraints, generates alternatives, considers risks, and evaluates and chooses best alternative
F9	Problem Solving – Recognizes problems and devises and implements plan of action
F10	Seeing Things in the Mind's Eye – Organizes and processes symbols, pictures, graphs, objects, and other information
F11	Knowing How to Learn – Uses efficient learning techniques to acquire and apply new knowledge and skills
F12	Reasoning – Discovers a rule or principle underlying the relationship between two or more objects and applies it when solving a problem
	Personal Qualities: Displays responsibility, self-esteem, sociability, self-management, and integrity and honesty
F13	Responsibility – Exerts a high level of effort and preserves towards goal attainment
F14	Self-Esteem – Believes in own self-worth and maintains a positive view of self

F15	Sociability – Demonstrates understanding, friendliness, adaptability, empathy, and politeness in group settings
F16	Self-Management – Assesses self accurately, sets personal goals, monitors progress, and exhibits self-control
F17	Integrity/Honesty – Chooses ethical courses of action

Course Requirements and Evaluation:

Course Structure and Organization

1. Complete all coursework with a final average grade of 70% or higher.
2. Student workbook, chapter quizzes, and other material to enhance learning are located on the eBook which you will have access to
3. PowerPoint Presentations
4. Assignments, tests, and the final exam provide the grade for the course.
5. All assignments start on Monday at 0600 and end in two weeks on Sunday at 2359. Follow the schedule located in this syllabus for dates, times and content.

Grading System and Evaluations

To pass HPRS 2301, the student must achieve a final average grade of 70 or higher. The final grade will consist of:

- 6 Assignments (averaged) 40%
- 3 Tests 40%
- Comprehensive Final 20%

Grading Scale:

A - 4 grade points per credit hour

B - 3 grade points per credit hour

C - 2 grade points per credit hour

D - 1 grade point per credit hour

F - 0 grade points per credit hour

W-Withdrawal: 0 grade points per credit hour

X- Incomplete: 0 grade points per credit hour

- A=90 and above
- B=80-89
- C=70-79
- D=60-69
- F= 59 and below

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). September 8 is the due date for this assignment. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Technology Requirements

- Software: Microsoft Office -Word
- Browser: Google Chrome, Safari (Mac)
- Laptop or PC no Chrome Notebooks
- If using a Mac computer, you must have MS word installed.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students. The last day for a student to withdraw from a course with a grade of "W" is Thursday, *November 12, 2026*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Changes to the syllabus will be posted under announcements in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

HRGY1319
Basic Horology I
Fall 2026

Instructor: Garrin Frazee
Office: AS131
Phone: 903.782.0361
Email: gfrazee@parisjc.edu
Office Hours: Concurrent with class hours

Meeting Loc: AS130
Meeting Days: M–R
Meeting Times: 8:00am–4:30pm

Course Description:

Introduction to watchmaking profession and customer service concepts. Emphasis on tool preparation, component handling, metrology, and product identification.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497Th	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Identify various tools and their functions; commission workbench and tools for efficient workflow; manipulate small parts with hand tools; measure miniature components with calipers and micrometers; classify various timepieces into technological groups; and identify various styles of encasing components by style and function.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please refer to the PJC Horology Student Handbook for course and program policies.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st for sub-term A, and November 24th for sub-term B.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Blackboard or approved Remind 101 Channel

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
11/2	Practical	Fitting a watch stem, setting the dial and hands, encasing a watch.
11/9	Practical	Swapping a movement and servicing a three-piece watch case.
11/18	Theory	Watchmaking theory continued; friction and tribology (lubrication).
11/18	Practical	Commissioning dip oilers.
11/23	Practical	Oil grids; lubrication techniques.
12/7-12/8	Review	Final Exam Review
12/9-12/10	CUMULATIVE ASSESSMENT	FINAL EXAM
CONTINUOUS	WORK ETHIC	Attendance and classroom behavior.
CONTINUOUS	ASSIGNMENTS	Homework assignments in Blackboard course.

HRGY1381
Cooperative Education - Horology
Fall 2026

Instructor:	Micah Minjarez	Meeting Loc:	Online
Office:	AS132	Meeting Days:	R
Phone:	903.782.0257	Meeting Times:	3:00P-4:00P
Email:	mminjarez@parisjc.edu		
Office Hours:	Concurrent with class hours		

Course Description:

Applies horological principles to industry environment in partnership with employers through hands-on work.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Apply sound fundamental skills to real-world service, repair, maintenance, fabrication, or assembly operations as dictated by an employer.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please refer to the PJC Horology Student Handbook for course and program policies.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st for sub-term A, and November 24th for sub-term B.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as

they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Intermediate Horology I
Fall 2026

Instructor: Garrin Frazee
Office: AS131
Phone: 903.782.0361
Email: gfrazee@parisjc.edu
Office Hours: Concurrent with class hours

Meeting Loc: AS130
Meeting Days: Physical: M–R
Meeting Times: 8:00am-4:30pm

Course Description:

Introduction to the functional theory of both mechanical and quartz watches with emphasis on movement fault analysis using a systematic approach as required by each technology.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Analyze in detail the eight effects on isochronism; sketch power flow diagram; compare and contrast precision and accuracy as they apply to service process; examine multiple systems to determine faults; evaluate movement condition using industry standard testing and analyzing equipment on both mechanical and quartz watches; compare and contrast fault analysis of mechanical and quartz timepieces; and distinguish faults according to their effects on isochronism.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Intermediate Horology II
Fall 2026

Instructor: Garrin Frazee
Office: AS131
Phone: 903.782.0361
Email: gfrazee@parisjc.edu
Office Hours: Concurrent with class hours

Meeting Loc: AS130
Meeting Days: M–R
Meeting Times: 8:00am–4:30pm

Course Description:

Continuation of Intermediate Horology I with emphasis on disassembly and reassembly of mechanical and quartz movements; clean and careful handling of movement components; work–holding; tool selection and application; enhanced kinesthetic skills; tribology and the effect of friction on mechanical and quartz technologies; and lubrication techniques.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Identify components responsible for each system function in mechanical and quartz timepieces; identify winding and setting components by name and function; identify parts using industry standard nomenclature for mechanical and quartz timepieces; compare and contrast discrete components by function for mechanical and quartz timepieces; judge lubrication requirements based on pressure, torque, and speed; and, select proper lubricant according to friction demands with functional consideration of effect of lubricant choice on amplitude in mechanical watches and consumption in quartz watches.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Intermediate Horology III
Fall 2026

Instructor: Garrin Frazee
Office: AS131
Phone: 903.782.0361
Email: gfrazee@parisjc.edu
Office Hours: Concurrent with class hours

Meeting Loc: AS130
Meeting Days: M–R
Meeting Times: 8:00am–4:30pm

Course Description:

Continuation of Intermediate Horology II with emphasis on winding/setting mechanism; mainspring and barrel; and gear train.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Demonstrate understanding of various winding and setting mechanisms as implemented on a variety of mechanical and quartz movements; demonstrate safe removal and replacement of mainspring; evaluate condition of mainspring; examine train wheels for trueness and manipulate as necessary; evaluate safe functionality of gear train; distinguish effective cannon pinion friction – adjusting as necessary; and demonstrate ability to move jewels to effect gear train end–shake.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st for sub-term A, and November 24th for sub-term B.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as

they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Blackboard or approved Remind 101 Channel

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
10/20	Mechanical	Servicing the ST-36.
10/22	Repair	Adjusting division and end-shake.
12/5-6	Review	Review for final exam.
12/7-8	CUMULATIVE ASSESSMENT	FINAL EXAM
CONTINUOUS	WORK ETHIC	Attendance and classroom behavior.
CONTINUOUS	ASSIGNMENTS	Homework assignments in Blackboard course.

HRGY2304
Intermediate Horology IV
Fall 2026

Instructor: Garrin Frazee Office: AS131 Phone: 903.782.0361 Email: gfrazee@parisjc.edu Office Hours: Concurrent with class hours	Meeting Loc: AS130 Meeting Days: M–R Meeting Times: 8:00am–4:30pm
--	--

Course Description:

Continuation of Intermediate Horology III with emphasis on escapement functions and adjustment.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

Number	Description	Source
N/A	Watchmaking Toolkit	PJC Tool Room
Landau 3163	35in White Tailored Lab Coat	www.scrubsandbeyond.com
Bertech ESDFC-B	Static Dissipative Finger Cots	www.amazon.com

Course Goals and Objectives:

Construct and deliver a lesson on an instructor selected topic related to escapements; judge condition and demonstrate ability to replace shellac on impulse pin and pallet stone; and analyze and adjust various escapement components for maximum chronometry.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Please refer to the PJC Horology Student Handbook for course and program policies.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st for sub-term A, and November 24th for sub-term B.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. HRGY2342
Advanced Horology Systems II
Fall 2026

Instructor:	Micah Minjarez	Meeting Loc:	AS148
Office:	AS132	Meeting Days:	M–R
Phone:	903.782.0257	Meeting Times:	8:00am–4:30pm
Email:	mminjarez@parisjc.edu		
Office Hours:	Concurrent with class hours		

Course Description:

A continuation of Advanced Horology Systems I with emphasis on chronographs with additional complications such as automatic winding and calendar mechanisms.

Credits: 3.0

TSI Requirement: N/A

Prerequisite(s): See PJC Catalog

Required Textbook(s) and Materials:

ISBN/ASIN	Title	Author	Source
9782940025497	The Theory of Horology	Charles Reymondin	www.awci.com

IRWS 0301.50B0
Integrated Reading and Writing
Fall 2026 Flex A

Instructor: Mylissa Bailey
Office: Front offices by the wall
Meeting Phone: 903-885-1232
Email: mbailey@parisjc.edu
Office Hours: M/W 8:00-9:30; 1:30-3:00 T/R 7:30-8:00; 9:30-10:00; 1:30-3:00

Meeting Location: Room 103
Meeting Days: M/W
Meeting Times: 11:00-12:15

Course Description:

This is a basic developmental course providing integrated reading and writing instruction to prepare students for college writing and reading. Students are placed into the course by test scores. The course may not be used to fulfill degree requirements (Catalog).

Integration of critical reading and academic writing skills. Successful completion of this course, if taught at the upper (exit) level, fulfills TSI requirements for reading and/or writing. (CB)

Credits: 3 Credit Hours, 3 Hours of class each week

TSI Requirement: 338 or below; Essay 2 or below.

Prerequisite: None

Required Textbook(s) and Materials:

No Textbook Required.

Course Goals and Objectives:

1. Locate explicit textual information, draw complex inferences, and analyze and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.
5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate the relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of Standard English in reading and writing.

Course Requirements and Evaluation:

Grades will be determined by your writing, participation, online components, and reading assessments. Extra credit may be given at the instructor's discretion. Your grade is determined by using a points system, not an average. Simply add your points to determine your grade.

Course Policies

You are expected to be in class prior to the designated start time. Students are expected to complete coursework in an honest manner, using their own intellect and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with their instructor. All essays must be typed following MLA format (12-point font, Times New Roman), and will not be accepted in any other form. You can reference the Purdue OWL for further assistance in this regard.

Class Attendance:

Class attendance is critical for the successful completion of this course. If you are absent, it will be your responsibility to catch up before the next class. The expectation is that you will be in class prepared to work. Do not come to class, call, or email me asking what you missed. Late essays, if accepted, will be penalized. The last day for a student to withdraw from a course with a grade of “W” is October 1st.

Class Conduct:

Please silence all mobile devices before entering the classroom/laboratory. No obscene/vulgar language is permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations

may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule:

Tentative (Subject to change at instructor's discretion)

Week 1:

Syllabus and Introductions
How to Navigate the Course
Understanding College Schedules
Assignment: Essay Struggles Self-Assessment (In Class)
Assignment: Fables 1 and 2 Read and Response (Online)

Week 2:

Lesson 1 – Learn through parables and fables
Lesson 1 – Sentence and Paragraph Construction
Assignment: Writing a Full Paragraph (In Class)
Assignment: Fable 3 Read and Response (Online)

Week 3:

Lesson 2 – Topic Sentences, Thesis, Intro and Conclusions, Organization
Assignment: Write an Intro and Conclusion for a Personal Narrative (In Class)
Assignment: Fables 4 and 5 Read and Response (Online)

Week 4:

Lesson 3 – Organization of Ideas, MLA, Writing a Narrative Body
Assignments – Write the Personal Narrative Body (In Class)
Assignments – Write and Proof the Personal Narrative Essay (Online)
Assignments – Fable 6 Read and Response (Online)

Week 5:

Lesson 3 – Revising and Editing, Collaborative Writing
Assignment: Revise and Edit the Personal Narrative (In Class)
Assignment: Fables 7 and 8 Read and Response (Online)

Week 6:

Lesson 4 - Learning Different Writing Modes, Descriptive Writing
Lesson 4 – Process Analysis (How To) Essay
Assignment: Descriptive Writing Practice (In Class)
Assignment: Fable 9 Read and Response (Online)
Assignment: Process Analysis (How To) Essay (Online)

Week 7:

Lesson 5 – Writing a Fable
Assignment: Write a 2-page Fable Practice (In Class)
Assignment: Fable 10 Read and Response (Online)

Week 8: FINALS

Assignment: Improvement Self-Assessment (In Class)

IRWS 0302.50B0
Integrated Reading and Writing
Fall A Term - 2026

Instructor: Mylissa Bailey
Office: Front offices by the wall
Meeting Phone: 903-885-1232
Email: mbailey@parisjc.edu
Office Hours: M/W 8:00-9:30; 1:30-3:00 T/R 7:30-8:00; 9:30-10:00; 1:30-3:00

Meeting Location: Room 103
Meeting Days: M/W
Meeting Times: 11:00-12:15

Course Description:

“Integration of critical reading and academic writing skills. Successful completion of this intervention fulfills TSI requirements for reading and/or writing. Students are placed into the course by test scores. The course may not be used to fulfill degree requirements,” (Catalog). Credits: 3 Credit Hours, 3 Hours of class each week
TSI Requirement: 339 or below; Essay 3 or below.
Prerequisite: None

Required Textbook(s) and Materials:

Kirsznner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 15th ed. Bedford/St. Martin's, 2021. ISBN: 9781319447717 (The same text as English 1301)
Novel as required for English 1301.

Course Goals and Objectives:

1. Locate explicit textual information, draw complex inferences, and analyze and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.
5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of Standard English in reading and writing.

Course Requirements and Evaluation:

Grades will be determined by your writing, participation, online components, and reading assessments. Extra credit may be given at the instructor's discretion.

Course # (ITNW 1325 20F0)
Fundamentals of Networking
Fall 2026

Instructor: James Proctor
Office: Online
Phone:
Email: jproctor@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Instruction in networking technologies and their implementation. Topics include the OSI reference model, network protocols, transmission media, and networking hardware and software. *3 Credit Hours*

Required Textbook(s) and Materials:

Insert required text including ISBN and materials

Course Goals and Objectives:

Cengage Unlimited

CompTIA Network+ Guide to Networks

10th Edition

Jill West

A working computer with internet access.

Course Requirements and Evaluation:

All quizzes and assignments will remain open. A zero will be entered as the grade for any quiz, assignment or exam not completed. Once closed, quizzes, exams, and projects will not be reopened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

To ensure academic integrity, this course requires students to take a proctored Midterm or Final Exam at a Paris Junior College testing facility.

The following formula/criteria will be used to determine your Final Course Grade:

25% EXAMS

50% Labs and Assignments

25% Quizzes

COURSE GRADE = (Average Exams * 25%) + (Average Assignments * 50%) + (Average Quizzes * 25%)

GRADE SCALE is based on calculated Course average:

A = 90-100	B = 80-89	C = 70-79	D = 60-69	F = 0-59
-------------------	------------------	------------------	------------------	-----------------

EXAMS (25%):

Exams demonstrate the student's acquired skill of course material by assessing their ability to recall, understand, and apply the knowledge and concepts learned throughout the course. There are two Exams “**Midterm and Final Exam**” in the course.

ASSIGNMENTS (50%):

Assignments will be scheduled throughout the semester. Assignments may include Virtual labs, Simulations, Critical Thinking and Hands-On Projects from the book. All assignments are available the first day to work at your own pace.

QUIZZES (25%):

Quizzes will be scheduled throughout the semester. All quizzes are administered under the Honesty Policy. You will have three attempts to complete each quiz. The highest grade will be recorded as the quiz grade. Quizzes are scheduled after each chapter. I recommend that you read the corresponding chapter before attempting a quiz.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets **Online**. Assignments must be completed via the Internet through the Blackboard [Bb] Learning Management System and Cengage MindTap.

Email Response Time: If you send an email Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

If you experience technical difficulties, logging into your Bb course contact

techsupport@parisjc.edu Customer service information for Cengage is located on your Cengage login page.

Open labs are available on each campus.

Paris:

1. The Learning Center 903-782-0415

- Monday-Wednesday: 7:30 a.m. - 9 p.m.
- Thursday: 7:30 a.m. - 6 p.m.
- Friday: 8 a.m. - 4 p.m.
- Saturday: Closed
- Sunday: 5 p.m. to 9 p.m.

Greenville Center Library 903-457-8729 • Monday - Thursday: 8 a.m. – 7 p.m.

- Saturday and Sunday: Closed

Sulphur Springs Center Library 903-885-2201 • Monday – Thursday: 8 a.m. – 8:30 p.m.

- Friday – Sunday: Closed

You must complete the First Assignment located in the **Start Here** section of your Blackboard course by **October 25, 2026**, in order to remain in the class. Students who do not complete the assignment by the due date will be dropped for this class. **Class**

Attendance:

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **Tuesday, November 24th**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. Email Response Time: If you send an email Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

If you experience technical difficulties, logging into your Bb course contact techsupport@parisjc.edu Customer service information for Cengage

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- Students will be informed via an announcement on Blackboard and through their student email address.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Monday Aug. 24	Introduction to the Course	First Assignment "Start Here" section located on Blackboard
Wednesday Aug. 26	Module 1: Taking a Computer Apart and Putting it Back Together	Module 1: Disassembling and Reassembling a Computer, Labs and Quizzes
Monday Aug. 31	Module 2: All About Motherboards	Module 2: Motherboards, Labs and Quizzes
Wednesday Sept. 2	Module 3: Supporting Processors and Upgrading Memory	Module 3: Processors and Memory, Labs and Quizzes
Wednesday Sept. 9	Module 4: Module 04 Power Supplies and Troubleshooting Computer Problems	Module 4: Power Supplies and Troubleshooting Computer Problems, Labs and Quizzes
Monday Sept. 14	Module 5: Hard Drives and Other Storage Devices	Module 5: Hard Drives and Other Storage Devices Labs and Quizzes Midterm Review
Wednesday Sept. 16	Midterm Exam	Midterm Exam
Monday Sept. 21	Module 6: Supporting I/O Devices	Module 6: Supporting I/O Devices Labs and Quizzes
Wednesday Sept. 23	Module 7: Networking Fundamentals	Module 7: Networking Fundamentals Labs and Quizzes
Monday Sept. 28	Module 8: Network Infrastructure and Cloud Computing	Module 8: Network Infrastructure and Cloud Computing Labs and Quizzes
Wednesday Sept. 30	Module 9: Supporting Mobile Devices & Module	Module 9: Supporting Mobile Devices Labs and Quizzes
Monday Oct. 5	Module 10: Supporting Printers	Module 10: Supporting Printers Labs and Quizzes
Wednesday Oct. 7	Final Exam Review	Final Exam Review
Oct. 12 - 15	Final Exam	Final Exam

ITSC 1325.40H0
Personal Computer Hardware
(Fall 2026)

Instructor: Cedric Crawford

Office: AS 141

Phone: 903-782-0359

Email: ccrawford@parisjc.edu

Office Hours: Monday and Wednesday 12:30pm – 1pm & 4:30pm – 5:00pm

Tuesday and Thursday 12pm – 1pm & 4:00pm – 4:30pm

Meeting Location: GV/121

Meeting Days: Tuesday & Thursday

Meeting Times: 1pm – 3pm

Course Description:

Current personal computer hardware including assembly, upgrading, setup, configuration, and troubleshooting. *3 Credit Hours 2 Lecture Hours and 4 Lab Hours*

Required Textbook(s) and Materials:

This class is a part of the Inclusive Access program.

Cengage Unlimited

CompTIA A+ Guide to Information Technology Technical Support

by Jean Andrews, Joy Dark Shelton, Nicholas Pierce

11th Edition | Copyright 2023

A working computer with internet access.

Course Goals and Objectives:

Upon Completion of this course, students will:

1. Assemble/setup and upgrade personal computer systems.
2. Diagnose and isolate faulty components.
3. Optimize system performance.
4. Install/connect peripherals.

Course Requirements and Evaluation:

All quizzes and assignments will remain open. **A zero will be entered as the grade for any quiz, assignment or exam not completed.** Once closed, quizzes, exams, and projects will not be re-opened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

To ensure academic integrity, you may be required to take a proctored Midterm or Final Exam at a Paris Junior College testing facility.

The following formula/criteria will be used to determine your Final Course Grade:

25% EXAMS

50% Labs and Assignments

25% Quizzes

COURSE GRADE = (Average Exams * 25%) + (Average Assignments * 50%) + (Average Quizzes * 25%)

GRADE SCALE is based on calculated Course average:

A = 90-100	B = 80-89	C = 70-79	D = 60-69	F = 0-59
-------------------	------------------	------------------	------------------	-----------------

EXAMS (25%):

Exams demonstrate the student's acquired skill of course material by assessing their ability to recall, understand, and apply the knowledge and concepts learned throughout the course.

There are two Exams “**Midterm and Final Exam**” in the course.

ASSIGNMENTS (50%):

Assignments will be scheduled throughout the semester. Assignments may include Virtual labs, Simulations, Critical Thinking and Hands-On Projects from the book. All assignments are available on the first day to work at your own pace.

QUIZZES (25%):

Quizzes will be scheduled throughout the semester. All quizzes are administered under the Honesty Policy. You will have three attempts to complete each quiz. The highest grade will be recorded as the quiz grade. Quizzes are scheduled after each chapter. I recommend that you read the corresponding chapter before attempting a quiz.

Required Activity:

All students must complete the **First Assignment** located in the “**Course Content**” section of Blackboard by **11:59 p.m. on the day prior to the Official Reporting Day (ORD) August 31st 2026**. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

This course meets every **Tuesday & Thursday at 1pm in room 121 at the Greenville Center**. Assignments must be completed via the Internet through the Blackboard [Bb] Learning Management System and Cengage MindTap.

Email Response Time: If you send an email Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday with the exception of holidays and closures.

If you experience technical difficulties, logging into your Bb course contact techsupport@parisjc.edu Customer service information for Cengage

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

- *Students will be informed via an announcement on Blackboard and through their student email address.*

ITSC-1305.20E0
Introduction to PC Operating Systems
Fall 2026

Instructor: James Proctor
Office: Online
Phone:
Email: jproctor@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Introduction to personal computer operating systems including installation, configuration, file management, memory and storage management, control of peripheral devices, and use of utilities. 3 Credit Hours

Required Textbook(s) and Materials:

Cengage Unlimited

CompTIA Network+ Guide to Networks

10th Edition

Jill West

A working computer with internet access.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Identify and use network transmission media.
2. Explain the OSI model.
3. Identify the characteristics of network topologies and protocols.
4. Identify the functions of a network operating system and distinguish between centralized, client/server, and peer-to-peer systems.
5. Distinguish between Local Area Networks (LANs) and Wide Area Networks (WANs).
6. Identify the components used to expand a LAN into a WAN.

Course Requirements and Evaluation:

All quizzes and assignments will remain open. A zero will be entered as the grade for any quiz, assignment or exam not completed. Once closed, quizzes, exams, and projects will not be reopened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

To ensure academic integrity, this course requires students to take a proctored Midterm or Final Exam at a Paris Junior College testing facility.

The following formula/criteria will be used to determine your Final Course Grade:

25% EXAMS

50% Labs and Assignments

25% Quizzes

COURSE GRADE = (Average Exams * 25%) + (Average Assignments * 50%) + (Average Quizzes * 25%)

GRADE SCALE is based on calculated Course average:

Thursday Oct. 15	Final Exam	Final Exam is due.

ITSC-1354.20E0
Implementing and Supporting Servers
Fall 2026

Instructor: James Proctor
Office: Online
Phone:
Email: jproctor@parisjc.edu

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Implement, administer, and troubleshoot information systems that incorporate servers in a networked computing environment. End-of-Course Outcomes: Configure peripherals and devices; set up servers; configure directory replication; manage licensing; create and manage system policies and profiles; administer remote servers and disk resources; create and share resources; implement fault-tolerance; configure servers for interoperability; install and configure Remote Access Service (RAS); and identify and monitor performance bottlenecks and resolve configuration problems. *3 Credit Hours*

Required Textbook(s) and Materials:

Cengage Unlimited

MindTap for Eckert's Hands-On Microsoft Windows Server 2022, 1 term Instant Access
Jason Eckert
A working computer with internet access.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Setup and configure servers
2. Install Active Directory Domain Services (AD DS) and DNS
3. Manage user accounts, groups, and organizational units
4. Configure Disk resources, file access, and fault tolerance
5. Monitor server performance and resolve configuration issues

Course Requirements and Evaluation:

All quizzes and assignments will remain open. A zero will be entered as the grade for any quiz, assignment or exam not completed. Once closed, quizzes, exams, and projects will not be reopened for any reason.

We will be submitting midterm grades this semester. Everything that is due by midterm must be submitted by the due date.

Monday - Wednesday Oct. 5-7	Chapter 12 and Final Exam Review: Monitoring and Troubleshooting Windows Server 2022 and Final Exam Review	Chapter 12 and Review for Final Exam.
Thursday Oct. 15	Final Exam	Final Exam is due.

ITSW 1304.20E0
Introduction to Spreadsheets
Fall 2026 – Flex A: 1st 8-weeks

Instructor: Wanda Duncan

Office: AS 151

Phone: 903.782.0378

Email: wduncan@parisjc.edu

Office Hours: TBD (Posted within BlackBoard)

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Instruction in the concepts, procedures, and application of electronic spreadsheets. End-of-Course Outcomes: Define spreadsheet terminology and concepts; create formulas and functions; use formatting features; and generate charts, graphs, and reports.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Shelly Cashman Series: Microsoft Office 365: Comprehensive.

Freund/Starks/Schemieder

Cengage Learning

Inclusive Access: 9780357676660

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

You do **not** have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard "Announcements" for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate. **MacBooks** and **ChromeBooks** are **NOT supported** in this course. You will need a **Windows-based** computer to complete assignments.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Defined spreadsheet terminology and concepts
2. Created formulas and functions
3. Used formatting features
4. Generated charts, graphs, and reports

Student Learning Outcomes:

1. Utilized industry standard application software to produce personal, business, and academic reports, and presentations.
2. Demonstrated knowledge of computer industry terminology and jargon.

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Date (**August 31**) to avoid being dropped.

This is an **8-week** course that runs from **August 24** to **October 15**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for homework assignments
- Take examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There will be a Capstone Project:

- The Capstone will be available to you to take on your home computer using the honor system.
- You need to complete your work early so that if you encounter a problem you can contact me in time to get a response and resolve the problem.

Students should read all modules and review assessments to prepare for the exams. If you fail to complete module assessments during its availability period, then the assessment may not be available for review.

Chapter Assessments: All chapter assessments will be completed within **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the exams. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of your BlackBoard course.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor, call the Instructor, and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include training, projects, exams, capstone, a BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz. All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

1719 - 1910 = A	90 - 100 = A
1528 - 1718 = B	80 - 89 = B
1337 - 1527 = C	70 - 79 = C
1146 - 1336 = D	60 - 69 = D
0 - 1145 = F	0 - 59 = F

The assessments are broken-down as follows:

Syllabus Quiz = 1 assessment

BlackBoard Discussion Board Forum = 1 assessment

Training (PRACTICE) Projects = 6 assessments

Textbook Projects = 6 assessments

Project 1 = 5 assessments

Exams = 6 assessments

Capstone = 1 assessment

Checking your Grade:

To check your grades, click “My Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are normally posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All module assessments will be completed by logging into **BlackBoard**, select a “module,” and then select the “assignment” you are wanting to complete. Once you have selected the assignment, the “**MindTap**” window will appear and you can then begin working on the assignment.

MindTap assessments can be taken **three (3) times** to improve grade.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the “Course Content” section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of

this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked into BlackBoard.

You must log into BlackBoard to complete all assignments. The assignment must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **October 1**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before the Official Reporting Day (ORD) to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put “ITSW 1304 Question” or “ITSW 1304 Question About” as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check “Announcements” in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn’t be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person’s humorous comment may push another person’s buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like “emoticons,” acronyms, and extra punctuation, but use them judiciously.
7. Respect other people’s intellectual property. Don’t post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.

8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **August 31.**

Labor Day Holiday is **September 7.**

Last Day to Drop Classes with a “W” is **October 1.**

Final Exams is **October 12 - 15.**

All assignments must be completed by **11:59 p.m., Wednesday, October 14.**

Course Schedule:

Week 1	IceBreaker Discussion Board, Syllabus Quiz, Register for MindTap
Week 2	Module 1: Creating a Worksheet and a Chart
Week 3	Module 2: Formulas, Functions, and Formatting
Week 4	Module 3: Working with Large Worksheets, Charting, and What-If Analysis
Week 5	Capstone: Modules 1 – 3
Week 6	Module 4: Financial Functions, Data Tables, and Amortization Schedules
Week 7	Module 5: Working with Multiple Worksheets and Workbooks
Week 8	Module 6: Creating, Sorting, and Querying a Table

ITSW 1310.20F0
Introduction to Presentation Graphics
Fall 2026: Flex B – 2nd 8-weeks

Instructor: Tasha Whitaker & Wanda Duncan
Office: AC 103
Phone: 903.782.0430
Email: twhitaker@parisjc.edu
Office Hours: TBA

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Instruction in the utilization of presentation software to produce multimedia presentations. Graphics, text, sound, animation and/or vide may be used in presentation development.
3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Shelly Cashman Series, Microsoft Office 365 & PowerPoint: Comprehensive.
Susan Sebok
Cengage Learning
ISBN: 978-0-357-88169-9

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

Other Course Materials:

None

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard "Announcements" for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate. **MacBooks** and **Chromebooks** are NOT supported. You will need a Windows-based computer to complete the assignments for this course.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Identified presentation media terminology and concepts.
2. Generated presentations using text, visual and/or sound elements.
3. Utilized effective compositions and style.
4. Produced presentations for distribution on computers or other media.
5. Modified sequence and slide master.

Student Learning Outcomes:

1. Demonstrated proficiency utilizing industry application software.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Module 1: Creating and Editing Presentations with Pictures
Week 2:	Module 2: Enhancing Presentations with Shapes and SmartArt
Week 3:	Module 3: Inserting WordArt, Charts, and Tables Modules 1 – 3 Capstone
Week 4:	Module 4: Customizing Slide Masters and Presentations
Week 5:	Module 5: Collaborating and Adding Animation
Week 6:	Module 6: Formatting Tables and Charts
Week 7:	Module 7: Adding Media and Enhancing SmartArt
Week 8:	Modules 4 – 7 Capstone

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Date (**October 26**) to avoid being dropped.

This is an **8-week** course that runs from **October 19** to **December 10**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**. The student will use the access code (purchased with the textbook) to access course documents, assessments, and exams in order to complete all course assessments. Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Purchase required materials
- Access to necessary computer resources

- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying, and entering data into PowerPoint. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook. Students are encouraged to study with classmates to assist in mastery of the course content.

The course will cover **seven** (7) modules and **two** (2) capstones.

- Modules 1 - 3
- Modules 4 – 7
 - The capstones will be available to you to take on your home computer using the honor system.
 - You need to complete your work early so that if you encounter a problem you can contact the instructor in time to get a response and resolve the problem.

Students should read all modules and complete the assessments to prepare for the capstones.

Module Assessments: All module assessments will be completed via **BlackBoard** and **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the capstones. The due date of each module and capstones are listed in the schedule which can be accessed from the Modules tab of the BlackBoard course.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include MindTap assessments, capstones, and exams.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

2169 – 2410 = A	90 - 100 = A
1928 – 2168 = B	80 - 89 = B
1687 – 1927 = C	70 - 79 = C
1446 – 1686 = D	60 - 69 = D
0 – 1445 = F	0 - 59 = F

All **assessments** will be completed in **MindTap**. The following list details how many times an assessment can be taken:

- Module Projects can be taken up to three (3) times.
- Training Projects can only be taken one (1) time.
- Module Exams can be taken up to three (3) times.
- Capstones can be taken up to three (3) times.

Checking your Grade:

To check your grades, click “My Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are usually posted in BlackBoard within one week following the due date.

The student must log into **BlackBoard** to complete **ALL MindTap** assessments.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student's final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (call or e-mail for an appointment)

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should

be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked into BlackBoard. **You must log into BlackBoard to complete all assignments.** They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 24**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Date (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor’s preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put “ITSW 1310 Question” or “ITSW 1310 Question About” as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check “Announcements” in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing “R U” instead of “are you”. There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **October 26**.

Last Day to Drop Classes with a "W" is **November 24**.

Thanksgiving Holiday is **November 25 – 27**.

Final Exam is **December 7 - 10**.

Fall Commencement is **December 11**.

All assignments must be completed and submitted by 11:59 p.m., Wednesday, December 9.

ITSW 1401.20E0
Introduction to Word Processing
Spring 2026: Flex A – 2nd 8weeks

Instructor: Christopher Withrow & Wanda Duncan
Office: AS 151
Phone: N/A
Email: cwithrow@parisjc.edu
Office Hours: TBA

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Course Description:

Intermediate study of computer applications from business productivity software suites. Instruction in embedding data and linking and combining documents using word processing, spreadsheets, databases, and/or presentation media software.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Shelly Cashman Series, Microsoft Office 365: Comprehensive.
Misty Vermaat
Cengage Learning
Inclusive Access: 9780357676660

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at

home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard “Announcements” for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate. **MacBooks** and **Chromebooks** are **NOT** supported. To complete the assignments a **Windows**-based computer will be needed.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Demonstrated the ability to use intermediate word processing, spreadsheet, database, and/or presentation software techniques.
2. Demonstrated the ability to apply integration techniques to produce documents.

Student Learning Outcomes:

1. Demonstrated proficiency using industry application software.

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before ORD (**August 31**) to avoid being dropped.

This is an **8-week** course that runs from **August 24** to **October 15**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations

- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying, and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

The course will cover seven (7) modules and two (2) capstones.

- Modules 1 - 3.
- Modules 4 – 7
 - The capstones will be available to you to take on your home computer using the honor system.
 - You need to complete your work early so that if you encounter a problem you can contact the instructor in time to get a response and resolve the problem.

Students should read all modules and complete the assessments to prepare for the capstones. **Module Assessments:** All module assessments will be completed via **BlackBoard** and **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the capstones. The due date of each module and capstones are listed in the schedule which can be accessed from the Homepage of the BlackBoard course.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include MindTap assessments, Capstones, Exams, a BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale: 2259 – 2510 = A 90 - 100 = A
2008 – 2258 = B 80 - 89 = B
1757 – 2007 = C 70 - 79 = C
1506 – 1756 = D 60 - 69 = D
0 – 1505 = F - 59 = F

All **assessments** will be completed within **BlackBoard** utilizing **MindTap**.

The following list details how many times an assessment can be taken:

- Module Projects can be taken up to three (3) times.
- Training Projects can only be taken one (1) time.
- Module Exams can be taken up to three (3) times.
- Capstones can be taken up to three (3) times.

Checking your Grade:

To check your grades, click “My Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are usually posted in BlackBoard within one week following the due date. The student must log into **BlackBoard** to complete **ALL MindTap** assessments.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152 - TBD

One-on-one tutoring available (email for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD)(**August 31**). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked into BlackBoard. **You must log into BlackBoard to complete all assignments.** The assignments must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before ORD will be withdrawn from the course by the institution. Students enrolled in an online course must "log in" and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be

considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor's preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put "ITSW 1401 Question" or "ITSW 1401 Question About" as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check "Announcements" in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.

8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising &

Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **August 31**.

Labor Day Holiday is **September 7**.

Last Day to Drop Classes with a “W” is **October 1**.

Final Exam is **October 12 - 15**.

All assignments must be completed by 11:59 p.m. on Wednesday, October 14.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Module 1: Creating and Modifying a Flyer
Week 2:	Module 2: Creating a Research Paper
Week 3:	Module 3: Creating a Business Letter Modules 1 – 3 Capstone
Week 4:	Module 4: Creating a Multipage Document
Week 5:	Module 5: Creating a Resume and Sharing Documents
Week 6:	Module 6: Using Mail Merge
Week 7:	Module 7: Creating a Newsletter
Week 8:	Modules 4 – 7 Capstone

ITSW 2334.20F0
Advanced Spreadsheets
Fall 2026 – Flex B: 2nd 8-weeks

Instructor: Wanda Duncan

Office: AS 151

Phone: 903.782.0378

Email: wduncan@parisjc.edu

Office Hours: TBA within BlackBoard/DragonMail

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Advanced techniques for developing and modifying spreadsheets. Includes macros and data analysis functions.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): ITSW 1304. It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students must be TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Shelly Cashman Series: Microsoft Office 365: Comprehensive.

Freund/Starks/Schemieder

Cengage Learning

Inclusive Access: 9780357676660

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard "Announcements" for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate. **MacBooks** and **Chromebooks** are **NOT** supported. To complete the assignments for this course a **Windows**-based computer will be needed.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Create and Design Macros
2. Use Data Analysis Features
3. Develop Solutions using Linked Worksheet

Student Learning Outcomes:

1. Utilized industry standard application software to produce personal, business, and academic reports, and presentations.
2. Demonstrated knowledge of computer industry terminology and jargon.

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Date (**October 26**) to avoid being dropped.

This is an **8-week** course that runs from **October 19** to **December 10**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Purchase required materials
- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each

chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There is one **Capstone Project**:

- Modules 8 - 11
- There are **three** attempts to achieve the highest grade possible.
- You need to complete your work early so that if you encounter a problem you can contact me in time to get a response and resolve the problem.

Students should read and complete Modules 8 – 11 and review assessments to prepare for the capstone project. If you fail to complete the module assessments during its availability period, then the assessment may not be available for review.

Chapter Assessments: All module assessments will be completed through BlackBoard where all assessments are linked to **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the exams. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of your BlackBoard course.

MindTap assessments can be taken **three (3) times** to improve grade.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor, call the Instructor, and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include training, projects, exams, capstone, a BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

1449 - 1610 = A	90 - 100 = A
1288 - 1448 = B	80 - 89 = B
1127 - 1287 = C	70 - 79 = C
966 - 1126 = D	60 - 69 = D
0 - 965 = F	0 - 59 = F

The assessments are broken-down as follows:

Syllabus Quiz = 1 assessment

BlackBoard Discussion Board Forum = 1 assessment

Training (PRACTICE) Projects = 5 assessments

Textbook Projects = 5 assessments

Projects = 4 assessments

Exams = 5 assessments

Capstone = 1 assessment

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades as usually posted in BlackBoard within one week following the due date.

All module assessments will be completed by logging into **BlackBoard**, select “Modules” tab, select a “module,” and then select the “assignment” you are wanting to complete. Once you have selected the assignment, the “**MindTap**” window will appear and you can then begin working on the assignment.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (call or e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the “Course Content” section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked into **BlackBoard**.

You must log into BlackBoard to complete all assignments. The assignment must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 24**.

All work is to be completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must “log in” and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor's preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put "ITSW 2334 Question" or "ITSW 2334 Question About" as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check "Announcements" in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**

11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **October 26**.

Last Day to Drop Classes with a “W” is **November 27**.

Thanksgiving Holiday is **November 25 – 27**.

Fall Commencement is **December 11**.

Final Exam is **December 7 – 10**.

All assignments must be completed by **11:59 p.m., Wednesday, December 9**.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Register for MindTap
Week 2:	Module 7: Creating Templates, Importing Data, and Working with SmartArt, Images, and Screenshots
Week 3:	Module 8: Working with Trendlines, PivotTables, PivotCharts, and Slicers
Week 4:	Module 9: Formula Auditing, Data Validation, and Complex Problem Solving
Week 5:	Module 10: Data Analysis with Power Tools and Creating Macros
Week 6:	Module 11: User Interfaces, Visual Basic for Applications (VBA), and Collaboration Features
Week 7:	Capstone: Modules 8 – 11
Week 8:	Complete any missing assignment(s)

KAREN JAN ELMORE

Emory, Texas | 903-474-1047 | jelmore@parisjc.edu

PROFESSIONAL PROFILE

Experienced educator with more than 30 years of classroom teaching experience spanning higher education, secondary education, mathematics, and the sciences. Currently serving as an Adjunct Mathematics Instructor at Paris Junior College, teaching Developmental Mathematics. Holds a Master of Science in Physics and a Bachelor of Science in Composite Science and Secondary Education, along with a Texas Lifetime Teaching Certificate in Biology, Chemistry, Physics, and Earth Sciences. Extensive experience in curriculum development, student instruction, educational technology, grant programs, textbook adoption, and academic leadership.

HIGHER EDUCATION TEACHING EXPERIENCE

PARIS JUNIOR COLLEGE — Paris, Texas

Adjunct Mathematics Instructor | 2023–Present

Course Taught: Developmental Mathematics

Provide mathematics instruction and academic support to college students, with an emphasis on strengthening foundational mathematical skills, problem-solving, and preparation for college-level coursework.

EAST TEXAS STATE UNIVERSITY — Commerce, Texas

Summer Laboratory Instructor | One Term

- Served as a summer laboratory instructor in a university setting.
- Provided laboratory instruction and student supervision.
- Supported students through hands-on laboratory activities and science instruction.

SECONDARY EDUCATION EXPERIENCE

COMO-PICKTON CISD — Como, Texas

Science Teacher | 1990–2007

- Taught secondary science courses across multiple disciplines.
- Developed and implemented classroom and laboratory instruction.
- Served as Curriculum Leader.
- Participated in the Communities in Schools grant program.
- Incorporated educational technology into classroom instruction.
- Supported curriculum development and instructional improvement initiatives.

RAINS HIGH SCHOOL — Emory, Texas

Science Teacher | 2007–2012

- Taught secondary science courses and provided classroom and laboratory instruction.
- Supported students in developing scientific reasoning and problem-solving skills.

Substitute Teacher | 2013–2015

Science Teacher — Retire/Rehire | 2015–2022

- Returned to classroom teaching following retirement and continued providing secondary science instruction and student support.

ALBA-GOLDEN ISD

Substitute Teacher | 2023–Present

- Provide substitute instructional services across the district.

EDUCATION

Texas A&M; University-Commerce

Master of Science — Physics

East Texas State University

Bachelor of Science — Composite Science and Secondary Education | 1986–1989

Southwest Missouri State University

Undergraduate Studies | 1974–1977

Clever High School

Clever, Missouri

TEXAS TEACHING CERTIFICATION

Texas Lifetime Teaching Certificate

- Biology
- Chemistry
- Physics
- Earth Sciences

PROFESSIONAL HONORS, GRANTS & SERVICE

- Region 8 Technology Teacher of the Year
- NASA Colleague
- Toyota Tapestry Grant Recipient
- National Science Teachers Association (NSTA) Grant Reading Committee — Washington, D.C.
- Texas State Textbook Adoption Committee — Physical Science Textbooks
- Communities in Schools Grant Program — Como-Pickton CISD
- Curriculum Leader — Como-Pickton CISD

AREAS OF TEACHING EXPERTISE

Developmental Mathematics • Mathematics Education • Physics • Chemistry • Biology • Earth Sciences • Composite Science • Laboratory Instruction • Science Curriculum Development • Educational Technology • STEM Education • Student Academic Support • Curriculum Leadership • Textbook Selection and Adoption • Grant-Funded Educational Programs

ADDITIONAL PROFESSIONAL EXPERIENCE

OWNER & OPERATOR — GROCERY STORE AND DELI

Sulphur Bluff, Texas | 1980–1986

Owned and operated an independent grocery store and deli, with responsibility for daily business operations, customer service, purchasing, inventory, and financial management.

KRAFT FOODS

1974–1977

PROFESSIONAL SUMMARY

Karen Jan Elmore brings extensive experience in mathematics and science education, curriculum development, laboratory instruction, educational technology, and student support. Her combination of university laboratory instruction, college developmental mathematics teaching, and decades of secondary classroom experience provides a broad foundation for serving students at Paris Junior College.

PARIS JUNIOR COLLEGE
PARIS, GREENVILLE & SULPHUR SPRINGS, TEXAS

ENGL 1301-20E0
Composition and Rhetoric and Reading
(Fall A- 2026)

Instructor: Kaitlin Jeffery
Office: Virtual
Phone: 940-703-8826
Email: kjeffery@parisjc.edu
Office Hours: Monday-Friday 2:45 AM -3:20 PM

Meeting Location: Online
Meeting Days: Monday - Friday
Meeting Times: Online

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Required Textbook(s) and Materials:

*Patterns for College Writing Kirsznar Edition 16th Publisher MPS ISBN-13
9781319532345*

Novels:

*Bradbury, Ray. Fahrenheit 451. 60th Anniversary ed. Simon & Schuster Paperbacks, 2013.
ISBN: 978-1-4516-7331-9*

Course Goals and Objectives:

- 1. Exhibit a knowledge of proper research and writing skills, which include an understanding of databases and writing procedures.*
- 2. Exhibit Communication Skills- Students will be able to communicate written, visual, and oral ideas effectively.*
- 3. Exhibit Independent responsibility for one's work which includes completing writing and reading assignments, as well as presentations.*
- 4. Exhibit the ability to work with peers and be open to various interpretations and perspectives.*

Course Schedule:

ENGL 1301 calendar and weekly assignments will be uploaded in PJC Blackboard. The calendar is subject to change based on the instructor.

Course Requirements and Evaluation:

Semester Grades:

Discussion Post: 100 points each

Quizzes: 100 points each

*Essays: Narrative (300 points), Descriptive (300 points), and Exemplification(300 points).
Research (500 points)*

The Lab is 15% of your FINAL grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs (Online):

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Discussions:

You must post by 11:59 PM on the assigned day and you must respond to one classmate by Saturday at 11:59 PM. Your initial post should be 250 words. Your response should be no less than three sentences.

Grading:

Students will be graded based on their quality of work at the discretion of the instructor. The final grade is determined by the instructor. Work will be graded by seven days after the due date.

Respondus Lock Down:

Your essays, tests, and quizzes will be monitored by Respondus Lockdown. This means that you will only be able to access that page when completing your essays, tests, and quizzes. If you are on a school issued computer, please make sure to check with your IT Department and make sure that it will not be blocked. If you run into problems, please email me.

Emailing Instructor: Please expect a response within 24-48 hours.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, October 1st.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

English AI Policy:

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level

competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical Responsibility.

Please look at blackboard under the calendar for due dates.

**AGRI 2321
Livestock Evaluation
Fall 2026**

Instructor: Taylor Russell
Office: Ag 100
Phone: (972) 636-9991
Email: trussell@parisjc.edu
Office Hours: 8:15 am - 3:40 pm

Meeting Location: AG 100
Meeting Days: Monday - Friday
Meeting Times: 2:02 - 2:25 pm

Course Description:

Evaluation and grading of market cattle, swine, sheep, and goats and their carcasses and wholesale cuts.

Emphasis will be placed on value determination. Selection and evaluation of breeding cattle, sheep, swine, and goats with emphasis on economically important traits.

Prerequisite: None

Corequisite: None

Credits: 3 hours

Required Textbook(s) and Materials: None

Course Goals and Objectives:

Upon successful completion of this course, students will:

- *Accurately evaluate and grade meat animals (cattle, swine, sheep, and goats), their carcasses, and wholesale cuts according to USDA and industry standards. Determine market value for meat animals, carcasses, and whole cuts.*
- *Evaluate and select breeding animals based upon their economic potential in common production scenarios.*
- *Apply knowledge of both subjective and objective techniques, tools, and information in order to make evaluation, grading, and selection decisions in practical production scenarios.*

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material. The course has a total of 850 points.

Assignments:	275 points (11 assignments, 25 points each, lowest score will be dropped)
Exams:	200 points (2 exams, 100 points each, lowest score will be dropped)
Midterm Exam:	150 points (1)
Comprehensive Final:	225 points (1)

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

***Note: Assignments may not be completed late. Assignments are in person and cannot be made up in the event of an absence but they may be completed off campus within the assigned window. There is one dropped Assignment grade. Students must pre plan for exams. If you are absent on exam dates, arrangements should be made BEFORE missing the exam. Students are expected to schedule a tutorial time to make up missed exam prior to their absence. Failure to complete an exam according to these guidelines will result in an exam grade of zero. There is one dropped Exam grade.

Course Policies:

Cell phone use will be restricted during class time in order to encourage active learning. Note taking is an important part of any college lecture course. Students are expected to engage in all parts of the lesson and provide feedback on their learning needs. Content discussions will be posted weekly in order to assess the topics and activities. Assignments will be completed in person and if you are absent, you must complete the assignment before the availability window closes. Exams are taken in class only. You may not retake or make up missed exams. YOU MUST COMMUNICATE AN ABSENCE IN ADVANCE OF MISSING AN EXAM. Missed exams without prior communication will result in a zero and no opportunity for retake.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is 11/12/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24 - 28	History, Terminology, & Industry	Lecture & Assignment
8/31 - 9/4	Beef Cattle Operations & Identification	Lecture & Assignment
9/8 - 11	Beef Cattle Anatomy & Evaluation	Lecture & Assignment
9/14 - 18	Beef Cattle Meat Cuts: Wholesale & Retail	Lecture & Assignment
9/21 - 25	Exam	Exam
9/28 - 10/2	Swine Operation & Identification	Lecture & Assignment
10/5 - 9	Midterm	Exam
10/12 - 16	-	
10/19 - 23	Swine Anatomy & Evaluation	Lecture & Assignment
10/26 - 30	Swine Meat Cuts: Wholesale & Retail	Lecture & Assignment
11/2 - 6	Exam	Exam
11/9 - 13	Sheep & Goats Operation	Lecture & Assignment
11/16 - 20	Sheep Anatomy & Evaluation	Lecture & Assignment
11/23 - 27	Goat Anatomy & Evaluation	Lecture & Assignment
11/30 - 12/4	Sheep & Goat Meat Cuts: Wholesale & Retail	Lecture & Assignment
12/7 - 11	Final	Exam

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

**MATH 0300.30A0/PJCM 0300.03E (CRN 84885)
Elementary Algebra
Fall 2026**

Instructor: Jeff Norris

Office: PJC GC

Phone: (903)-885-1232

Email: jnorris@parisjc.edu

Office Hours: 30 minutes before class or by appointment

Meeting Location: DTH-325

Meeting Days: Tuesdays; Thursdays

Meeting Times: 9:30 a.m – 10:45 a.m.

Course Description:

Topics covered include operations on signed numbers, properties of real numbers, evaluating and simplifying variable expressions, linear equations and inequalities, application of linear equations, formulas and problem solving, graphs and functions, and solving systems of linear equations. Prerequisite: Placement by ETAMU based on math placement score.

Textbook:

Developmental Mathematics, 4th ed. Lial/Hornsby/McGinnis/Hestwood

NOTE: Students are not required to purchase the text. The cost of online access to the text and required homework assignments is covered with the tuition payment for the course.

Course Goals/Objectives:

- Student will perform indicated operations on signed integers and rational numbers; use the Order of Operations agreement to simplify algebraic expressions; use the rules of exponents to simplify exponential expressions.
- Student will solve one-step linear equations in one variable; evaluate and simplify variable expressions; solve simple problems involving perimeter, area and volume.
- Student will solve linear equations in one variable; solve problems involving mixtures, motion, and formulas; solve linear inequalities in one variable and graph their solution set
- Student will be able to use rules of exponents to simplify algebraic expressions
- Student will accurately perform arithmetic operations (addition, subtraction, multiplication, and division) on polynomials
- Student will be able to factor polynomials and use factoring to solve quadratic equations

Student Learning Objectives:

- The student is expected to use arithmetic, algebraic and critical thinking to model and solve real-world problems.
- The student is expected to interpret basic mathematical information verbally and graphically.
- The student is expected to evaluate basic mathematical information numerically and symbolically.

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, four major tests, and the comprehensive final examination. Course grades are calculated as follows:

Homework Average	50%
Test Average (4 Major Tests)	40%
Comprehensive Final Exam	10%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

First Assignment:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Homework:

Each homework assignment consists of multimedia items (textbook, instructional videos, etc.) and roughly 10 to 12 homework problems. Your homework average constitutes 50% of your overall course grade. Any work done after the due date for a given assignment will be subject to a 20% penalty.

Tests:

We will have 4 major tests in the course as well as a comprehensive, departmental final exam. Test dates will be announced two weeks in advance and you will be given a practice test at least one week before each exam to help you prepare. Each test grade makes up 10% of your course average. I give makeup exams only for valid, unavoidable circumstances. At the end of the semester, I'll replace your lowest major test grade with your score on the final exam (if the final exam score is the higher of the two). Tests are traditional free response math tests taken in class. The final exam is a comprehensive, multiple choice exam and constitutes 10%

of your overall course average. You must take the final exam to be eligible to pass the course. Our final exam will be administered in class on **Thursday, December 10th at 8:00 a.m. in DTH - 325.**

Course Policies:

Class will start promptly each class day. Please be on time and prepared. If you are unavoidably late, you will likely find our classroom door locked. If so, please knock and I'll let you in. Obviously, this will be very disruptive to our class, so make every effort to be on time. It is important that you check your PJC Dragon email account regularly as this is my best means of communication outside of class meetings.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Campus Concealed Carry: Texas Senate Bill - 11 (Government Code 411.2031, et al.)

authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a

concealed handgun in restricted locations. For a list of locations, please refer to (<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>) and/or consult your event organizer). Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Disclaimer:

Course policies and procedures outlined in this document are subject to change in case of extenuating circumstances.

Course Schedule:

DATE	ASSIGNMENT	DATE	ASSIGNMENT
8/25	2.5: Multiplying Fractions 2.7: Dividing Fractions	10/15	Test 2 – Chapter 10
8/27	3.1: Adding and Subtracting Like Fractions 3.2: Least Common Multiples 3.3: Adding and Subtracting Unlike Fractions	10/20	12.3: An Application of Exponents: Scientific Notation
9/1	9.1: Exponents, Order of Operations, and Inequality	10/22	12.4: Adding and Subtracting Polynomials
9/3	9.2: Variables, Expressions, and Equations	10/27	12.5: Multiplying Polynomials
9/8	9.3: Real Numbers and the Number Line	10/29	12.6: Special Products
9/10	9.4: Adding Real Numbers 9.5: Subtracting Real Numbers	11/3	13.1: Greatest Common Factors; Factor by Grouping
9/15	9.6: Multiplying and Dividing Real Numbers 9.7: Properties of Real Numbers	11/5	Test 3 – Chapter 12
9/17	9.8: Simplifying Expressions	11/10	13.2: Factoring Trinomials 13.3: Factoring Trinomials by Grouping
9/22	10.1: The Addition Property of Equality 10.2: The Multiplication Property of Equality	11/12	13.4: Factoring Trinomials Using the FOIL Method
9/24	Test 1 – Chapters 2, 3, & 9	11/17	13.5: Special Factoring Techniques
10/29	10.3: More on Solving Linear Equations	11/19	Test 4 - Chapter 13
10/1	10.4: An Introduction to Applications of Linear Equations	11/26	Thanksgiving Break
10/6	10.5: Formulas and Additional Applications from Geometry	12/1	Tie up loose ends
10/8	10.6: Solving Linear Inequalities	12/1,3	Semester Review
10/13	12.1: The Product Rule and Power Rules for Exponents 12.2: Integer Exponents and the Quotient Rule	12/10	Final Exam @ 8:00 a.m. – 10:00 p.m.

These dates are tentative and are intended as a general guide to what we will be covering and when.

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. **Math 1314.10A1
College Algebra
Fall 2026**

Instructor: John Fornof
Office: MS 111L
Phone: 903-782-0331
Email: jfornof@parisjc.edu

Meeting Location: MS 114
Meeting Days: TR
Meeting Times: 11:00 – 12:15

Office Hours:
Monday and Wednesday
Tuesday and Thursday

8:00 – 9:30; 3:00 – 4:00
12:30 – 4:00

Course Description: Lecture Course

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: SCH = 3 credit hours per week.

TSI Requirement: Math 950

Prerequisite(s): Appropriate score on placement test

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Algebra and Trigonometry 7th ed. Blitzer; ISBN: 978-0-13-692217-9). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Student must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:**Student Learning Outcomes (Core Curriculum-Level)**

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Course Requirements and Evaluation:

There will be four tests. Each test will contribute 12% to the final grade making a total of 48%. The final exam will be worth another 12%, leaving 40% for homework. *The final exam will be administered December 8th and is comprehensive. The student must take it to pass the course. If the grade on the final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade make on the final exam.* Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Class Attendance:

You are expected to attend and participate in class and complete all assignments by the assigned due date. You CAN NOT expect to do well in this class without attending class or completing all assignments. Absences are considered unexcused unless due to sickness, emergencies, or sanctioned school activities. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the

nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Syllabus, MyLab

1.2 Linear Equations and Rational Equations

1.4 Complex Numbers

1.5 Quadratic Equations

1.6 Other Types of Equations

1.7 Linear Inequalities and Absolute Value Inequalities

8.1 Systems of Linear Equations in Two Variables Including Cramer's Rule

Test 1

2.1 Basics of Functions and Their Graphs

2.2 More on Functions and Their Graphs

2.3 Linear Functions and Slope

2.4 More on Slope

2.6 Combinations and Composite Functions

2.7 Inverse Functions

Test 2

3.1 Quadratic Functions

3.2 Polynomial Functions and Their Graphs

3.3 Dividing Polynomials

3.4 Zeros of Polynomial Functions

3.5 Rational Functions and Their Graphs

Test 3

4.1 Exponential Functions

4.2 Logarithmic Functions

4.3 Properties of Logarithms

4.4 Exponential and Logarithmic Functions

Test 4

Review

Final Exam (December 8)

**Math 1314.65A0
College Algebra
Fall 2026**

Instructor: John Forno
Office: MS 111L
Phone: 903-782-0331
Email: jforno@parisjc.edu

Meeting Location: Chisum HS
Meeting Days: TR
Meeting Times: 8:00 – 9:15

Office Hours:
Monday and Wednesday
Tuesday and Thursday

8:00 – 9:30; 3:00 – 4:00
12:30 – 4:00

Course Description: Lecture Course

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: SCH = 3 credit hours per week.

TSI Requirement: Math 950

Prerequisite(s): Appropriate score on placement test

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Algebra and Trigonometry 7th ed. Blitzer; ISBN: 978-0-13-692217-9). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Student must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:**Student Learning Outcomes (Core Curriculum-Level)**

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Course Requirements and Evaluation:

There will be four tests. Each test will contribute 12% to the final grade making a total of 48%. The final exam will be worth another 12%, leaving 40% for homework. *The final exam will be administered December 8th and is comprehensive. The student must take it to pass the course. If the grade on the final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade make on the final exam.* Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Class Attendance:

You are expected to attend and participate in class and complete all assignments by the assigned due date. You CAN NOT expect to do well in this class without attending class or completing all assignments. Absences are considered unexcused unless due to sickness, emergencies, or sanctioned school activities. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the

nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

Final Exam (December 8)

MATH 1314.10A0
College Algebra
Fall 2026

Instructor: Caleb Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: MS 113
Meeting Days: Monday & Wednesday
Meeting Times: 8:00-9:15 AM

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Blitzer Algebra and Trigonometry, 7th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (SLO)

Upon successful completion of this course, students will:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework and Section 8.1 Homework on Monday, September 21 since the Chapter 1 Test is scheduled for Wednesday, September 23. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will cover material from the stated chapter. A review will be uploaded to Blackboard at least a week before each test with an Answer Key for you to check your work. Completing the homework and working through the reviews are the best ways to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is MANDATORY. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures. Late work will not be accepted. Missed tests must be made up on the first day back at school or the morning of the test if you are missing school due to extracurricular activities.

Missed tests will not be allowed to be made up without prior documentation. If you know you will be absent on the day of a test, it is your responsibility to email me to set up a time to make it up. Any assignment that is missed without communication will receive an automatic grade of zero.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	Homework Due Sunday
8/24	Syllabus, MyLab Set Up, Section 1.2: Linear Equations and Rational Equations	
8/26	Section 1.2: Linear Equations and Rational Equations Section 1.4: Complex Numbers	Section 1.2
8/31	Section 1.4: Complex Numbers Section 1.5: Quadratic Equations	
9/02	Section 1.5: Quadratic Equations	Sections 1.4 & 1.5
9/09	Section 1.6: Other Types of Equations	Section 1.6
9/14	Section 1.7: Linear and Absolute Value Inequalities	
9/16	Section 8.1: Systems of Equations in Two Variables	Sections 1.7 & 8.1
9/21	Section 2.1: Basics of Functions and Their Graphs	
9/23	Exam 1 – Covers Chapter 1 and Section 8.1	Section 2.1
9/28	Section 2.2: More on Functions and Their Graphs	
9/30	Section 2.3: Linear Functions and Slope	Sections 2.2 & 2.3
10/05	Section 2.4: More on Slope	
10/07	Section 2.6: Combinations of Functions; Composite Functions	Sections 2.4 & 2.6
10/12	Section 2.7: Inverse Functions	
10/14	Section 3.1: Quadratic Functions	Sections 2.7 & 3.1
10/19	Section 3.2: Polynomial Functions and Their Graphs	
10/21	Exam 2 – Covers Chapter 2	Section 3.2
10/26	Section 3.3: Polynomial Division	
10/28	Section 3.4: Zeros of Polynomial Functions	Sections 3.3 & 3.4
11/02	Section 3.5: Rational Functions and Their Graphs	
11/04	Section 4.1: Exponential Functions	Sections 3.5 & 4.1
11/09	Section 4.2: Logarithmic Functions	
11/11	Exam 3 – Covers Chapter 3	Section 4.2
11/16	Section 4.3: Properties of Logarithms	
11/18	Section 4.4: Exponential and Logarithmic Equations	Sections 4.3 & 4.4
11/23	Exam 4 – Covers Chapter 4	
11/30	Final Exam Review	
12/02	Final Exam Review	
12/07	Final Exam	All Pearson assignments

Homework assignments are due on Sundays at 11:59 PM. The most current due dates for assignments can also be viewed in MyLab.

MATH 1314.10N0/40N0/50N0

College Algebra

Fall 2026

Instructor: Jeff Norris

Office: GC-201

Phone: 903.454.9333

Email: jnorris@parisjc.edu

Office Hours: 30 minutes before and
after class or by appointment

Meeting Location: MS-112/GC-125/SSC-114

Meeting Days: Wednesdays

Meeting Times: 6:00 – 9:00 p.m.

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3

TSI Requirement: 950+ Math

Prerequisite(s): Adequate placement score or concurrently enrolled in MATH 0401.

Required Textbook and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Blitzer Algebra and Trigonometry, 7th Edition*). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.
- 5.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

You will also need a scientific or graphing calculator.

Course Goals and Objectives:

Foundational Component Area: Mathematics Courses in this category focus on quantitative literacy in logic, patterns, and relationships. Courses involve the understanding of key

mathematical concepts and thse application of appropriate quantitative tools to everyday experience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level):

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, three major tests, and the comprehensive final examination. Course grades are calculated as follows:

Homework Average	20%
Test Average (4 Major Tests)	60%
Comprehensive Final Exam	20%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

First Assignment:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Each homework assignment must be completed on or before it's due date. Work submitted after the due date will be subject to a 20% penalty. I only give makeup exams in the most extreme circumstances. Please be present and prepared for each exam. If you miss an exam due to unavoidable circumstances, you must communicate with me ASAP.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not

permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher) .

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Day One – Syllabus/Expectations/Introduction

1.2 Linear Equations and Rational Equations

1.4 Complex Numbers

1.5 Quadratic Equations

1.6 Other Types of Equations

1.7 Linear Inequalities and Absolute Value Inequalities

8.1 Systems of Linear Equations in Two Variables

Test 1

2.1 Basics of Functions and Theirs Graphs

2.2 More on Functions and Their Graphs

2.3 Linear Functions and Slope

2.4 More on Slope

2.5 Graph Transformations

2.6 Combinations and Composite Functions

2.7 Inverse Functions

Test 2

3.1 Quadratic Functions

3.2 Polynomial Functions and their Graphs

3.4 Zeros of Polynomials

3.5 Rational Functions and Inequalities

Test 3

4.1 Exponential Functions

4.2 Logarithmic Functions

4.3 Properties of Logarithms

4.4 Exponential and Logarithmic Equations

Test 4

Course Review

Final Exam (December 9, 2026)

MATH 1314.10N1/40N1
College Algebra
Fall 2026

Instructor: Caleb Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: MS 112/GC 125
Meeting Days: Tuesday & Thursday
Meeting Times: 9:30-10:45 AM

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Blitzer Algebra and Trigonometry, 7th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (SLO)

Upon successful completion of this course, students will:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework and Section 8.1 Homework on Monday, September 21 since the Chapter 1 Test is scheduled for Thursday, September 24. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will cover material from the stated chapter. A review will be uploaded to Blackboard at least a week before each test with an Answer Key for you to check your work. Completing the homework and working through the reviews are the best ways to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is MANDATORY. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures. Late work will not be accepted. Missed tests must be made up on the first day back at school or the morning of the test if you are missing school due to extracurricular activities.

Missed tests will not be allowed to be made up without prior documentation. If you know you will be absent on the day of a test, it is your responsibility to email me to set up a time to make it up. Any assignment that is missed without communication will receive an automatic grade of zero.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	Homework Due Sunday
8/25	Syllabus, MyLab Set Up, Section 1.2: Linear Equations and Rational Equations	
8/27	Section 1.2: Linear Equations and Rational Equations Section 1.4: Complex Numbers	Section 1.2
9/01	Section 1.4: Complex Numbers Section 1.5: Quadratic Equations	
9/03	Section 1.5: Quadratic Equations	Sections 1.4 & 1.5
9/08	Section 1.6: Other Types of Equations	
9/10	Section 1.7: Linear and Absolute Value Inequalities	Section 1.6 & 1.7
9/15	Section 8.1: Systems of Equations in Two Variables	
9/17	Section 2.1: Basics of Functions and Their Graphs	Sections 8.1 & 2.1
9/22	Section 2.2: More on Functions and Their Graphs	
9/24	Exam 1 – Covers Chapter 1 and Section 8.1	Section 2.2
9/29	Section 2.3: Linear Functions and Slope	
10/01	Section 2.4: More on Slope	Sections 2.3 & 2.4
10/06	Section 2.6: Combinations of Functions; Composite Functions	
10/08	Section 2.7: Inverse Functions	Sections 2.6 & 2.7
10/13	Section 3.1: Quadratic Functions	
10/15	Section 3.2: Polynomial Functions and Their Graphs	Sections 3.1 & 3.2
10/20	Section 3.3: Polynomial Division	
10/22	Exam 2 – Covers Chapter 2	Section 3.3
10/27	Section 3.4: Zeros of Polynomial Functions	
10/29	Section 3.4: Zeros of Polynomial Functions	Sections 3.3 & 3.4
11/03	Section 3.5: Rational Functions and Their Graphs	
11/05	Section 4.1: Exponential Functions	Sections 3.5 & 4.1
11/10	Section 4.2: Logarithmic Functions	
11/12	Exam 3 – Covers Chapter 3	Section 4.2
11/17	Section 4.3: Properties of Logarithms	
11/19	Section 4.4: Exponential and Logarithmic Equations	Sections 4.3 & 4.4
11/24	Exam 4 – Covers Chapter 4	
12/01	Final Exam Review	
12/03	Final Exam Review	
12/10	Final Exam	

Homework assignments are due on Sundays at 11:59 PM. The most current due dates for assignments can also be viewed in MyLab.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework and Section 8.1 Homework on Monday, September 14 since the Chapter 1 Test is scheduled for to close on Sunday, September 20. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will open on Monday and close on Sunday of the week listed in the class schedule. Tests will cover material from the stated chapter. A review will be uploaded to Blackboard at least a week before each test with an Answer Key for you to check your work. Completing the homework and working through the reviews are the best ways to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is MANDATORY. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from extended absence from Blackboard. Missed tests will not be extended due to being open for a week at a time.

It is your responsibility to communicate with me any time you need help or have questions. The best way to get ahold of me is via email. Be sure to include your course and section number in the Subject line when emailing me so that it is easy to identify which course you are in.

Tests will be administered directly through Blackboard and will utilize Respondus Monitor and Lockdown Browser. You must have a webcam to utilize this feature. If you do not have access to a PC/laptop with a webcam, you may take your proctored exams at one of PJC's Testing Centers. There are Testing Centers on all three of our campuses. If you need to use the Testing Center, please email me as soon as possible to begin the process of scheduling an appointment.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.**

5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework and Section 8.1 Homework on Monday, September 14 since the Chapter 1 Test is due back to me by Thursday, September 17. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

During the first week of class, it is your responsibility to get me in contact with your school counselor to set up test proctoring. There will be a reminder of this in announcements throughout the week. It is imperative that you do this as soon as possible. Your tests must be proctored by an employee at your school, and it is their responsibility to make sure that the tests get to you and to me. Establishing this communication is crucial and is your responsibility.

Tests will be given during the weeks specified on the Class Schedule at the end of this syllabus. Schedule a time with your school's proctor to take the tests. You may take them anytime from Monday to Thursday of the week they are listed in the Class Schedule at the end of the syllabus. Tests will cover material from the stated chapter and will be multiple choice, in the same format of the Test Reviews. A Test Review will be uploaded to Blackboard at least a week before each test along with its Answer Key. Completing the homework and doing the Test Reviews are the best way to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is **MANDATORY**. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from extended absence from Blackboard. Missed tests will not be extended due to being open for a week at a time.

It is your responsibility to communicate with me any time you need help or have questions. The best way to get ahold of me is via email. Be sure to include your course and section number in the Subject line when emailing me so that it is easy to identify which course you are in.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 12*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week	Dates	Assignments
Week 1	8/24-8/30	Section 1.2: Linear Equations and Rational Equations Section 1.4: Complex Numbers
Week 2	8/31-9/06	Section 1.5: Quadratic Equations Section 1.6: Other Types of Equations
Week 3	9/07-9/13	Section 1.7: Inverse Functions Section 8.1: Systems of Equations in Two Variables
Week 4	9/14-9/20	Exam 1 – Covers Chapter 1 and Section 8.1 by 9/17
Week 5	9/21-9/27	Section 2.1: Basics of Functions and Their Graphs Section 2.2: More on Functions and Their Graphs
Week 6	9/28-10/4	Section 2.3: Linear Functions and Slope Section 2.4: More on Slope
Week 7	10/05-10/11	Section 2.6: Combinations of Functions; Composite Functions Section 2.7: Inverse Functions
Week 8	10/12-10/18	Exam 2 – Covers Chapter 2 by 10/15
Week 9	10/19-10/25	Section 3.1: Quadratic Functions Section 3.2: Polynomial Functions and Their Graphs
Week 10	10/26-11/01	Section 3.3: Dividing Polynomials; Remainder and Factor Theorems Section 3.4: Zeros of Polynomial Functions
Week 11	11/02-11/08	Section 3.5: Rational Functions and Their Graphs Section 4.1: Exponential Functions Section 4.2: Logarithmic Functions
Week 12	11/09-11/15	Exam 3 – Covers Chapter 3 by 11/12
Week 13	11/16-11/22	Section 4.3: Properties of Logarithms Section 4.4: Exponential and Logarithmic Equations
Week 14	11/23-11/29	Exam 4 – Covers Chapter 4 (Online, Not Proctored)
Week 15	11/30-12/06	Final Exam opens Tuesday, December 1 (Online, Not Proctored)
Week 16	12/7-12/08	Final Exam closes Tuesday, December 8 at 11:59 PM

Homework assignments are due on Sundays at 11:59 PM. The most current due dates for assignments can also be viewed in MyLab.

MATH 1314.60A0

College Algebra

Fall 2026

Instructor: [REDACTED]

Office: [REDACTED]

Phone: [REDACTED]

Email: [REDACTED]

Office Hours: 07:00-07:50 Daily

Meeting Location: [REDACTED]

Meeting Days: [REDACTED]

Meeting Times: [REDACTED]

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3.3.0

TSI Requirement: 350+ M, 342 R, 310 W.

Prerequisite(s): None

Required Textbook(s) and Materials:

Blitzer, Robert F. *Algebra & Trigonometry* 7th ed. Pearson 2021

ISBN-10: 0134463218

ISBN-13: 978-0134463216

NOTE: All the required course materials for your classes are being delivered through Dragonow the campus-wide affordable course materials program. Your book is billed with your tuition; you will not need to make a separate purchase. For this course, we will be using a digital eBook accessed through Brytewave. You will receive an email from Brytewave donotreply@redshelf.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf. The first time you access the eBook you will see a screen prompting you to "View Course Materials".

Other materials:

Electronic device that can access Blackboard®

Graphing calculator (minimum TI-84 Plus or equivalent).

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.

4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.
5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions, and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Schedule:

24-27AUG	Linear and Rational Equations and Complex Numbers
31AUG-03SEP	Quadratic Relationships and Other Types of Functions
07SEP	<i>Labor Day Holiday</i>
08-10SEP	Linear and Absolute Value Inequalities
14-16SEP	Systems of Linear Equations
17SEP	Exam 1
21-24SEP	Functions and Their Graphs
28SEP-01OCT	Linear Equations
05-07OCT	Combination and Composite Functions
08-13OCT	<i>Fall Break</i>
14-15OCT	Inverse Functions
19OCT	Exam 2
20-22OCT	Characteristics of Quadratic Functions
26-29OCT	Polynomial Functions and Their Graphs
02-05NOV	Polynomial Functions: Division, Roots, and Zeroes
9-11NOV	Rational Functions and Their Graphs
12NOV	Exam 3
16-19NOV	Exponential and Logarithmic Functions
17-20NOV	Properties of Exponential and Logarithmic Functions
23-26NOV	<i>Thanksgiving Break</i>
30NOV-02DEC	Exponential and Logarithmic Functions
03DEC	Exam 4
07-08DEC	Review
09DEC	Final Exam

Other Important Dates for the Fall 2026 Semester

18-21AUG	Last Change Registration – All Locations
24AUG	First class day for Fall 16-Week Semester and 1st 8-Week Flex Term
09SEP	Official Reporting Day for Fall Semester
12NOV	Last day to drop with a "W" for Fall semester
11DEC	Final Grades Due
12DEC	Offices closed, 5 p.m.; Commencement, 7 p.m.

Course Requirements and Evaluation:

Grading Scales Grades are letter based and represent the percentage of points earned versus the total number of points available:

A	90-100
B	89-80
C	79-70
D	60-69
F	≤59

A maximum of 6300 total points will be available and will be based on the following:

<u>Category</u>	<u>Point value each</u>	<u>Total Points</u>	<u>Percent of Total</u>
Homework (22)	100	2200	59.5%
Section Exams (4)	250	1000	27.0%
Final	500	500	13.5%

Course Policies

All campus and district policies will be adhered to in accordance with the Bland ISD and PJC *Student Handbook* and *Student Code of Conduct*.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.

Class Conduct:

This course is conducted in a Texas public school during normal school hours. Therefore, the prohibition of personal communication devices, as per HB 1481, applies. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Artificial Intelligence:

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. I will inform you verbally and via Google Classroom of any significant alterations.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

**Mental health conditions are common and treatable. Suicide is preventable.**

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

MATH 1314.67A0
College Algebra
Fall 2026

Instructor: Caleb Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Blitzer Algebra and Trigonometry, 7th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (SLO)

Upon successful completion of this course, students will:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework and Section 8.1 Homework on Monday, September 14 since the Chapter 1 Test is scheduled due back to me by Thursday, September 17. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

During the first week of class, it is your responsibility to get me in contact with your school counselor to set up test proctoring. There will be a reminder of this in announcements throughout the week. It is imperative that you do this as soon as possible. Your tests must be proctored by an employee at your school, and it is their responsibility to make sure that the tests get to you and to me. Establishing this communication is crucial and is your responsibility.

Tests will be given during the weeks specified on the Class Schedule at the end of this syllabus. Schedule a time with your school's proctor to take the tests. You may take them anytime from Monday to Thursday of the week they are listed in the Class Schedule at the end of the syllabus. Tests will cover material from the stated chapter and will be multiple choice, in the same format of the Test Reviews. A Test Review will be uploaded to Blackboard at least a week before each test along with its Answer Key. Completing the homework and doing the Test Reviews are the best way to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is **MANDATORY**. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from extended absence from Blackboard. Missed tests will not be extended due to being open for a week at a time.

It is your responsibility to communicate with me any time you need help or have questions. The best way to get ahold of me is via email. Be sure to include your course and section number in the Subject line when emailing me so that it is easy to identify which course you are in.

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices.

Credits: 3 Hours

TSI Requirement: 950 Math

Prerequisite(s): Algebra II & appropriate score on TSIA2

Required Textbook(s) and Materials:

Blitzer Algebra and Trigonometry, 7th Edition

*All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. For this course, we will be using courseware integrated with Pearson (**MyLab & Mastering**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.*

A graphing calculator (TI-83, TI-84) is recommended for this course but not required.

Spiral Notebook is recommended.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills – to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.
4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.
5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

There will be four tests, homework, quizzes, and a comprehensive final. There will be no make-up on any of the quizzes, homework or the tests. The final exam is comprehensive. Homework will be assigned regularly. Homework will be done on an online system called MyLab which is directly integrated into your Blackboard course.

Grading:

<u>Grade scale</u>	<u>Grade Weighting System</u>
A 90-100	Homework – 40%
B 80-89	Tests & Final – 60%
C 70-79	
D 60-69	
F 0-59	

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Students are expected to conduct themselves in a manner of common decency and display acceptable behavior conducive to a positive learning environment. Classroom disruptions will not be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students.

The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment**. Depending on the nature and severity of the situation, the instructor may impose additional

academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC
Week 1 8/24 – 8/27	Syllabus and Quiz 1.2 Linear & Rational Equations
Week 2 8/31 – 9/3	1.4 Complex Numbers 1.5 Quadratic Equations
Week 3 9/7 – 9/10	1.6 Other Types of Equations 1.7 Linear & Absolute Value Inequalities
Week 4 9/14 – 9/17	8.1 Systems of Linear Equations in Two Variables (including Cramer's Rule) Exam 1
Week 5 9/21 – 9/24	2.1 Basics of Functions & Their Graphs 2.2 More on Functions & Their Graphs
Week 6 9/28 – 10/1	2.3 Linear Functions and Slope 2.4 More on Slope
Week 7 10/5 – 10/8	2.6 Combinations & Composite Functions 2.7 Inverse Functions
Week 8 10/12 – 10/15	Exam 2 3.1 Quadratic Functions
Week 9 10/19 – 10/22	3.2 Polynomial Functions & Their Graphs 3.3 Dividing Polynomials
Week 10 10/26 – 10/29	3.4 Zeros of Polynomials 3.5 Rational Functions & Inequalities
Week 11 11/2 – 11/5	Exam 3 4.1 Exponential Functions
Week 12 11/9 – 11/12	4.2 Logarithmic Functions 4.3 Properties of Logarithms
Week 13 11/16 – 11/19	4.4 Exponential & Logarithmic Equations Exam 4
Week 14 11/23 – 11/26	Thanksgiving Break
Week 15 11/30 – 12/3	Review for Final Exam
Week 16 12/7 – 12/10	Final Exam -to be completed by Tuesday, 12/8

MATH 1314.84A0
College Algebra
Fall 2026

Instructor: Cheryl Shepperd
Office: Ford H.S. 2303
Phone: 903-356-1600
Email: cshepperd@parisjc.edu
Office Hours: MTWTh: 7:00 – 7:25am
 MTTh: 4:00 – 5:00pm

Meeting Location: Ford H.S. 2303
Meeting Days: MTWTh
Meeting Times: 9:28 – 10:22

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Blitzer Algebra and Trigonometry, 7th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Upon successful completion of this course, students will:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 40%

Tests: 60%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen a Chapter's homework during the week of the Chapter Test that covers its material. For example, I will reopen all of the Chapter 1 Homework on Monday, September 15 since the Chapter 1 Test is scheduled for Wednesday, September 17. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show example and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will cover material from the stated chapter and will be short answer. A review will be uploaded to Blackboard at least a week before each test, and the key for the review will be uploaded to Blackboard on each Monday the week of the test. Completing the homework and studying for tests is the best way to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is *MANDATORY*. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures. Late work will not be accepted. Missed tests must be made up on the first day back at school or the morning of the test if you are missing school due to extracurricular activities.

Missed tests will not be allowed to be made up without prior documentation. If you know you will be absent on the day of a test, it is your responsibility to email me to set up a time to make it up. Any assignment that is missed without communication will receive an automatic grade of Zero.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-Discrimination Clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law. Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Class Schedule:

Week	Dates	Assignments
Week 1	8/24 – 8/30	Section 1.2: Linear Equations and Rational Equations
Week 2	8/31 – 9/6	Section 1.4: Complex Numbers Section 1.5: Quadratic Equations
Week 3	9/7 – 9/13	Section 1.6: Other Types of Equations Section 1.7: Linear Inequalities and Absolute Value Inequalities No Class on Monday, September 7 – Labor Day
Week 4	9/14 – 9/20	Section 8.1: Systems of Equations in Two Variables Section 9.5: Determinants and Cramer's Rule
Week 5	9/21 – 9/27	Section 2.1: Basics of Functions and Their Graphs Section 2.2: More on Functions and Their Graphs EXAM 1 on Thursday, September 27
Week 6	9/28 – 10/4	Section 2.3: Linear Functions and Slope Section 2.4: More on Slope
Week 7	10/5 – 10/11	Section 2.6: Combinations of Functions; Composite Functions Section 2.7: Inverse Functions
Week 8	10/12 – 10/18	Section 3.1: Quadratic Functions EXAM 2 on Thursday October 18
Week 9	10/19 – 10/25	Section 3.2: Polynomial Functions and Their Graphs Section 3.3: Polynomial Division
Week 10	10/26 – 11/1	Section 3.4: Zeros of Polynomial Functions
Week 11	11/2 – 11/8	Section 3.5: Rational Functions and Their Graphs Section 4.1: Exponential Functions
Week 12	11/9 – 11/15	Section 4.2: Logarithmic Functions EXAM 3 on Thursday November 15
Week 13	11/16 – 11/22	Section 4.3: Properties of Logarithms Section 4.4: Exponential and Logarithmic Equations
Week 14	11/23 – 11/29	NO CLASS: HAPPY THANKSGIVING
Week 15	11/30 – 12/6	Review for Final Exam EXAM 4 on Tuesday December 1
Week 16	12/7 – 12/10	Final Exam on Tuesday December 8 Final Exam MUST be taken by Wednesday, December 9

All homework for each section covered in a week is due at 11:59 P.M., Sunday of that week.

***Dates subject to change**

MATH 1324.10N0/40N0/50N0
MATHEMATICS FOR BUSINESS
FALL 2026

Instructor: Tasha Horton
Office: PJC MS 111K
Phone: (903) 782-0317
Email: thorton@parisjc.edu

Meeting Location: Paris/MS/113 – GRNV/126 – SSC/117
Meeting Days: MW 11am – 12:15pm
Office Hours: MW: 8am – 9am & 1 – 3pm
TR (SS): 9 – 10am & 2 – 3pm

Course Description:

The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; system of linear equations, matrices; linear programming; and probability, including expected value.

Credit: 3 hours

TSI Requirements: 950 in Math

Prerequisite: Meet TSI college-readiness standard for Mathematics, or equivalent.

Required Textbook(s) and Materials:

College Mathematics for Business, Economics, Life Sciences, and Social Sciences, 14th ed.,
Barnett/Ziegler/Byleen/Stocker.

This course has MyLab integrated directly into Blackboard which includes an e-text. A hard copy of the textbook is optional and will be an additional expense. Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab.

A graphing calculator (TI-83, TI-84) is recommended for this course but not required.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills – to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.
4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.
5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (MATH 1324 Course-Level)

1. Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic and exponential functions to solving real-world problems.
2. Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
3. Apply basic matrix operations, including linear programming methods, to solve application problems.
4. Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
5. Apply matrix skills and probability analyses to model applications to solve real-world problems.

Course Requirements and Evaluation:

There will be four tests, homework, quizzes, and a comprehensive final. Homework will be assigned regularly. Homework will be done on an online system called MyLab which is directly integrated into your Blackboard course.

Grading:

<u>Grade scale</u>	<u>Grade Weighting System</u>
A 90-100	Homework – 40%
B 80-89	Tests & Final – 60%
C 70-79	
D 60-69	
F 0-59	

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner to resolve any issues that could occur from missing lectures. Late work will not be accepted. Missed tests must be made up on the first day back at school or the morning of the test if you are missing school due to extracurricular activities.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students.

The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment**.

Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; system of linear equations, matrices; linear programming; and probability, including expected value.

Credit: 3 hours

TSI Requirements: 950 in Math

Prerequisite: Meet TSI college-readiness standard for Mathematics, or equivalent.

Required Textbook(s) and Materials:

College Mathematics for Business, Economics, Life Sciences, and Social Sciences, 14th ed.,
Barnett/Ziegler/Byleen/Stocker.

This course has MyLab integrated directly into Blackboard which includes an e-text. A hard copy of the textbook is optional and will be an additional expense. Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab.

All tests can be taken online if you have a webcam; otherwise, all tests will need to be taken at a testing center.

A graphing calculator (TI-83, TI-84) is recommended for this course but not required.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills – to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.
4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.

5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (MATH 1324 Course-Level)

1. Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic and exponential functions to solving real-world problems.
2. Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
3. Apply basic matrix operations, including linear programming methods, to solve application problems.
4. Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
5. Apply matrix skills and probability analyses to model applications to solve real-world problems.

Course Requirements and Evaluation:

There will be four tests, homework, quizzes, and a comprehensive final. Homework will be assigned regularly. Homework will be done on an online system called MyLab which is directly integrated into your Blackboard course. All tests can be taken online if you have a webcam; otherwise, all tests will need to be taken at a testing center.

Grading:

Grade scale

A 90-100
B 80-89
C 70-79
D 60-69
F 0-59

Grade Weighting System

Homework – 40%
Tests & Final – 60%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students.

The last day for a student to withdraw from a course with a grade of "W" is **October 1, 2026**.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment**.

Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Class Overview

All homework and tests will be in Blackboard. Select the assignment link to access them.

Each homework assignment includes **videos and examples** that explain how to work the problems. These resources can be found in the **Chapter Videos and Textbook** sections listed before each homework assignment. Your online textbook is also available there.

All homework will open on the first day of class. Homework for each chapter will remain open until the **due date of that chapter's exam**. Because each section contains several problems, **don't wait until the last minute!** I recommend completing at least **one homework section each day** and trying to take each exam by the **Friday before the exam deadline**.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC
Week 1 & 2 8/24 – 9/6 Exam 1 opens 8/31 Exam 1 & HW close 9/6 @11:59pm	Syllabus and Quiz 1.1 Linear Equations & Inequalities 1.2 Graphs & Lines 5.1 Linear Inequalities in Two Variables 5.2 Systems of Linear Inequalities in Two Variables 5.3 Linear Programming in Two Variables: A Geometric Approach Exam 1
Week 3 & 4 9/7 – 9/20 Exam 2 opens 9/14 Exam 2 & HW close 9/20 @11:59pm	2.1 Functions 2.2 Elementary Functions: Graphs & Transformations 2.3 Quadratic Functions 2.4 Polynomial & Rational Functions 2.5 Exponential Functions 2.6 Logarithmic Functions Exam 2
Week 5 9/21 – 9/27 Exam 3 opens 9/21 Exam 3 & HW close 9/27 @11:59pm	3.1 Simple Interest 3.2 Compound & Continuous Compound Interest 3.3 Future Value of an Annuity; Sinking Funds 3.4 Present Value of an Annuity; Amortization Exam 3
Week 6 & 7 9/28 – 10/11 Exam 4 opens 9/30 Exam 4 & HW close 10/6 @11:59pm Final Exam opens 10/8	4.1 Review: Systems of Linear Equations in Two Variables 4.2 Systems of Linear Equations & Augmented Matrices 4.3 Gauss-Jordan Elimination 4.4 Matrices: Basic Operations 4.5 Inverse of a Square Matrix Exam 4 Final opens 10/8
Week 8 10/12 – 10/13	Final Exam closes 10/13 at 11:59pm

Instructor: Jackilyn Abbott
Office: RCHS CCA 206
Phone: 972-636-9991
Email: jabbott@parisjc.edu

Meeting Location: RCHS CCA 206
Meeting Days: MTWThF
Meeting Times: Various

Office Hours: Tues – Thur 7:35 – 8:05am & 3:50 – 4:50pm

Course Description: Lecture Course

The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; system of linear equations, matrices; linear programming; and probability, including expected value.

Credit: 3 hours

TSI Requirements: 950 in Math

Prerequisite: Meet TSI college-readiness standard for Mathematics, or equivalent.

Required Textbook(s) and Materials:

College Mathematics for Business, Economics, Life Sciences, and Social Sciences, 14th ed., Barnett/Ziegler/Byleen/Stocker. This course has Pearson MathLab integrated directly into Blackboard which includes an e-text. A hard copy of the textbook is optional and will be an additional expense. Everything you will need is contained within the software.

Graphing calculator TI-83, TI-84, or TI-89 is required and allowed to use during lectures and partially during exams.

Student must have the necessary basic computer skills to successfully utilize Blackboard and Pearson MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MyLab.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.

2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1324 Course-Level)

1. Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic, and exponential functions to solving real-world problems.
2. Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.
3. Apply basic matrix operations, including linear programming methods, to solve application problems.
4. Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.
5. Apply matrix skills and probability analyses to model applications to solve real-world problems.

Course Requirements and Evaluation:

Students are expected to “attend class regularly. Grades for the semester are calculated based on the student’s performance on homework, test reviews, three major tests, quizzes, attendance time requirements, and the comprehensive final examination. Course grades are calculated as follows:

Quizzes/Projects	10%
Homework Average	15%
Exams	60%
Comprehensive Final Exam	15%

If the grade on the comprehensive final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade make on the final exam.

Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

If you have to miss a class, please email Mrs. Abbott so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Cell Phones: While in class, taking exams, or taking quizzes CELL PHONES AND OTHER ELECTRONIC DEVICES MUST BE TURNED OFF AND STORED OUT OF THE STUDENT'S REACH. The only electronic device allowed during class, tests and quizzes is a stand-alone calculator (such as a TI-34, TI-83, TI-84, etc.), and only with the instructor's permission.

Homework: For homework assignments click on the link within Blackboard to access Pearson MyLab. Follow due dates of every assignment on MyLab and/or syllabus calendar. No late work will be accepted.

Exams: We will have 3 exams and a comprehensive final exam. All Exams will be in class in paper/pencil format. Makeup exams will NOT be given, unless a student contacted me before the exam. The lowest exam grade will be replaced by your final exam (final not included).

Quizzes: For every lecture day we will have an assignment in MyLab that has to be completed. These assignments are to help prepare for quizzes. Quizzes will be given in class periodically to assess your knowledge. No make up quizzes will be given unless a student has contacted the instructor before the quiz.

Projects: During the semester we will have a couple of projects

Class Attendance:

Being in the habit of regularly studying, doing homework, and checking email daily is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday November 12, 2024.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule: You can access the tentative schedule through blackboard which will be the most up to date schedule. Below is a rough outline of what will be covered each week.

Week	Dates	Events	Comments
0	8/17 – 8/21	Syllabus; Algebra Rev; Section 1.1	
1	8/24 – 8/28	Section 1.2, 5.1; Quiz (1.1 – 1.2)	
2	8/31 – 9/4	Section 5.2, 5.3; Quiz (5.1 – 5.2)	
3	9/7 – 9/11	Review; Exam #1	9/7 - No School
4	9/14 – 9/18	Section 2.1, 2.2, 2.3; Quiz (2.1 – 2.2)	
5	9/21 – 9/25	Section 2.4, 2.5; Quiz (2.3 – 2.4)	9/21 & 9/22 – No School
6	9/28 – 10/2	Section 2.6; Review; Exam #2	
7	10/5 – 10/9	Section 3.1, 3.2; Quiz (3.1 - 3.2)	
10/12 – 10/16 Fall Break – No School			
8	10/19 – 10/23	Sections 3.3, 3.4; Review	10/19 – No School
9	10/26 – 10/29	Exam #3; Section 4.1	
10	11/2 – 11/6	Sections 4.2, 4.3; Quiz (4.1 – 4.3)	
11	11/9 – 11/13	Section 4.4, 4.5; Quiz (4.4 – 4.5)	
12	11/16 – 11/20	Review; Exam #4	
11/23 – 11/27 Thanksgiving Break – No School			
13	11/30 – 12/4	Review for Final Exams	
14	12/7 – 12/10	Final Exam Week	

Math 1325.10N0.40N0.50N0
Calculus for Business & Social Sciences Syllabus
Fall 2026

Instructor: John Fornof
Office: MS 111L
Phone: 903-782-0331
Email: jfornof@parisjc.edu

Meeting Location: MS114 GC127 SSC1
Meeting Days: MW
Meeting Times: 9:30 – 10:45

Office Hours:
Monday and Wednesday
Tuesday and Thursday

8:00 – 9:30; 3:00 – 4:00
12:30 – 4:00

Course Description: Lecture Course:

This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences. This course is not a substitute for MATH 2413, Calculus I.

Credits: SCH = 3

TSI Requirement: 950 Math

Prerequisite(s): MATH 1314 or 1324

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using *College Mathematics for Business, Economics, Life Sciences, and Social Sciences 14th ed.*--Barnett, Ziegler, Byleen, and Stocker; ISBN: 987-0-13-467414-8.. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1)** Go to <https://ACCESSPortal.follett.com:443/1836>
- 2)** Create an account using your student email account
- 3)** Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4)** You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Students must have a graphing calculator or a scientific calculator. I prefer the TI-84+ graphing calculator, but a simple scientific calculator will work. Students must have the necessary basic computer skills to successfully utilize Blackboard and MathLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet

service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MathLab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:**Required Core Objectives**

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. To apply arithmetic, algebra, and calculus to modeling and solving real-world situations.
2. To represent and evaluate mathematical information verbally, numerically, graphically and symbolically.
3. To expand mathematical reasoning skills and formal logic to develop convincing mathematical arguments.
4. To use appropriate technology to enhance mathematical thinking and understanding and to solve mathematical problems and judge the reasonableness of the result.
5. To interpret mathematical models such as formulas, graphs and tables, and draw inferences from them.
6. To develop the view that mathematics is an evolving discipline, interrelated with human culture, and understand its connections to other disciplines.

Student Learning Outcomes (MATH 1325 Course-Level)

1. The student is expected to analyze the limits and derivatives of polynomial, rational, exponential and logarithmic functions and apply the concepts to real life situations.

2. The student is expected to interpret maxima, minima, concavity, and curve sketching of polynomial, rational, exponential and logarithmic functions.
3. The student is expected to analyze the integration of polynomial, rational, exponential and logarithmic functions and apply the concepts to real life situations.

Course Requirements and Evaluation:

There will be four tests. The fourth test will be the final exam. Each test will contribute 15% to the final grade making a total of 60%, and homework will contribute the remaining 40%.

Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams. Homework assignments are due weekly by Sunday night at 11:59pm.

Class Attendance:

You are expected to attend and participate in class and complete all assignments by the assigned due date. You CAN NOT expect to do well in this class without attending class or completing all assignments. Absences are considered unexcused unless due to sickness, emergencies, or sanctioned school activities. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

<u>Section</u>	<u>Topic</u>
9.1	<u>Introduction to Limits</u>
9.2	<u>Infinite Limits and Limits at Infinity</u>
9.3	<u>Continuity</u>
9.4	<u>The Derivative</u>

Test 1

<u>9.5</u>	<u>Basic Differentiation Properties</u>
<u>9.7</u>	<u>Marginal Analysis in Business and Economics</u>
<u>10.1</u>	<u>The constant e and Continuous Compound Interest</u>
<u>10.2</u>	<u>Derivatives of Exponential and Logarithmic Functions</u>
<u>10.3</u>	<u>Derivatives of Products and Quotients</u>
<u>10.4</u>	<u>The Chain Rule</u>

Test 2

<u>10.5</u>	<u>Implicit Differentiation</u>
<u>10.7</u>	<u>Elasticity of Demand</u>
<u>11.1</u>	<u>First Derivative and Graphs</u>
<u>11.2</u>	<u>Second Derivative and Graphs</u>
<u>11.5</u>	<u>Absolute Maxima and Minima</u>
<u>11.6</u>	<u>Optimization</u>

Test 3

<u>12.1</u>	<u>Antiderivatives and Indefinite Integrals</u>
<u>12.2</u>	<u>Integration by Substitution</u>
<u>12.5</u>	<u>The Definite Integral and the Fundamental Theorem of Calculus</u>

The Final Exam (test 4) will be during regular class time December 9th.

Math 1325.20D0
Calculus for Business & Social Sciences Syllabus
Fall 2026

Instructor: John Fornof
Office: MS 111L
Phone: 903-782-0331
Email: jfornof@parisjc.edu

Meeting Location: Online
Meeting Days: N/A
Meeting Times: N/A

Office Hours: Available in my office in Paris MS 111L, or virtually through Zoom at the address below.

<https://parisjc.zoom.us/j/85627443036?pwd=dmdJc2YxQ0hVZzJkSjMzRTgyNVBvUT09>

Monday and Wednesday

8:00 – 9:30; 3:00 – 4:00

Tuesday and Thursday

12:30 – 4:00

****IMPORTANT**** All students must complete the First Assignment (Section 9.1) located in Pearson's MyLab by 11:59 p.m. September 8th—the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Make sure to observe all due dates for homework and tests. These due dates are in this syllabus below, and also in MyLab which is accessed through Blackboard. Also, be sure to check your dragon mail daily.

Course Description: Online Course:

This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences. This course is not a substitute for MATH 2413, Calculus I.

Credits: SCH = 3

TSI Requirement: 950 Math

Prerequisite(s): MATH 1314 or 1324

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using *College Mathematics for Business, Economics, Life Sciences, and Social Sciences 14th ed.*--Barnett, Ziegler, Byleen, and Stocker; ISBN: 987-0-13-467414-8.. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Students must have a graphing calculator or a scientific calculator. I prefer the TI-84+ graphing calculator, but a simple scientific calculator will work. Students must have the necessary basic computer skills to successfully utilize Blackboard and MathLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and MathLab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. To apply arithmetic, algebra, and calculus to modeling and solving real-world situations.
2. To represent and evaluate mathematical information verbally, numerically, graphically and symbolically.
3. To expand mathematical reasoning skills and formal logic to develop convincing mathematical arguments.

4. To use appropriate technology to enhance mathematical thinking and understanding and to solve mathematical problems and judge the reasonableness of the result.
5. To interpret mathematical models such as formulas, graphs and tables, and draw inferences from them.
6. To develop the view that mathematics is an evolving discipline, interrelated with human culture, and understand its connections to other disciplines.

Student Learning Outcomes (MATH 1325 Course-Level)

1. The student is expected to analyze the limits and derivatives of polynomial, rational, exponential and logarithmic functions and apply the concepts to real life situations.
2. The student is expected to interpret maxima, minima, concavity, and curve sketching of polynomial, rational, exponential and logarithmic functions.
3. The student is expected to analyze the integration of polynomial, rational, exponential and logarithmic functions and apply the concepts to real life situations.

Course Requirements and Evaluation:

There will be four tests. The fourth test will be the final exam. Each test will contribute 15% to the final grade making a total of 60%, and homework will contribute the remaining 40%.

Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Required Activity:

All students must complete the First Assignment (Section 9.1) located in Pearson's MyLab by 11:59 p.m. September 8th—the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams. Homework assignments are due weekly by Sunday night at 11:59pm

Testing Policy:

Four tests will be given for the semester covering assigned homework material. It is the responsibility of the student to note test dates. See the schedule below for the dates each test will be open and available to take. **The online tests will utilize the Respondus Lock Down Browser which will require you to have a webcam.** Most laptops already have a webcam built in. If you do not have a webcam, or if you prefer, you can also take the tests proctored at an approved testing center. Proctored tests taken at a PJC testing center must be scheduled. The phone number for the testing center on the Paris campus is 903-782-0446. For Greenville, the number is 903-454-9333, and in Sulphur Springs you can call 903-885-1232. If you wish to use a different testing center, give me their contact information so I can send them the necessary information to access the test. Be sure you know your blackboard login information when going to the testing center. Be sure not to wait to the last possible date to take exams in the event last minute conflicts or personal

problems occur. Remember there are no make-up exams. No cell phones, tablets, books, or electronic materials may be used by students during testing. **However, you may use a calculator and one page of notes (front and back) for each test.**

Class Attendance:

Being in the habit of regularly studying, doing homework, and checking email daily is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th.**

Class Conduct:

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule

Week	Assignment
Aug 24 – Aug 30	9.1 Introduction to Limits
Aug 31 – Sep 6	9.2 Infinite Limits and Limits at Infinity 9.3 Continuity
Sep 7 – Sep 13	9.4 The Derivative
Sep 14 – Sep 20	Test 1 (Sep 14-20) 9.5 Basic Differentiation Properties
Sep 21 – Sep 27	9.7 Marginal Analysis in Business and Economics 10.3 Derivatives of Products and Quotients
Sep 28 – Oct 4	10.2 Derivatives of Exponential and Logarithmic Functions 10.4 The Chain Rule
Oct 5 – Oct 11	10.4 The Chain Rule Test 2 (Oct 7-14)
Oct 12 – Oct 18	Test 2 (Oct 7-14) 10.5 Implicit Differentiation
Oct 19 – Oct 25	10.7 Elasticity of Demand 11.1 First Derivative and Graphs
Oct 26 – Nov 1	11.2 Second Derivative and Graphs
Nov 2 – Nov 8	11.5 Absolute Maxima and Minima 11.6 Optimization
Nov 9 – Nov 15	11.6 Optimization Test 3 (Nov 11-18)
Nov 16 – Nov 22	Test 3 (Nov 11-18) 12.1 Antiderivatives and Indefinite Integrals
Nov 23 – Dec 1	12.2 Integration by Substitution 12.5 The Definite Integral and the Fundamental Theorem of Calculus
	Review
Dec 2 – Dec 9	Final Exam (Proctored)

MATH 1342.10A0
ELEMENTARY STATISTICS
FALL 2026

Instructor: Tasha Horton
Office: PJC MS 111K
Phone: (903) 782-0317
Email: thorton@parisjc.edu

Meeting Location: Paris/MS/113
Meeting Days: MW 9:30am – 10:45am
Office Hours: MW: 8am – 9am & 1 – 3pm
TR (SS): 9 – 10am & 2 – 3pm

Course Description:

Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

Credits: 3 hours

TSI Requirement: 350 Math

Prerequisite: MATH 0400 or appropriate placement test.

Required Textbook(s) and Materials:

This course will rely on the TI-83 or TI-84 calculator and therefore a calculator is STONGLY RECOMMENDED.

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson (Elementary Statistics: Using the TI-83/84 Plus Calculator, 5th edition) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

This course has Pearson Course Materials integrated directly into Blackboard which includes an e-text. A hard copy of the textbook is optional and will be an additional expense. Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service for a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills – to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.
4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.
5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (MATH 1342 Course-Level)

1. Explain the use of data collection and statistics as tools to reach reasonable conclusions.
2. Recognize, examine and interpret the basic principles of describing and presenting data.
3. Compute and interpret empirical and theoretical probabilities using the rules of probabilities and combinatorics.
4. Explain the role of probability in statistics.
5. Examine, analyze and compare various sampling distributions for both discrete and continuous random variables.
6. Describe and compute confidence intervals.
7. Solve linear regression and correlation problems.
8. Perform hypothesis testing using statistical methods.

Course Requirements and Evaluation:

There will be four tests, homework, quizzes, and a comprehensive final. The final exam is comprehensive. Homework will be assigned regularly.

Grading:

Grade scale

A 90-100
B 80-89
C 70-79
D 60-69
F 0-59

Grade Weighting System

Homework – 40%
Tests & Final – 60%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner to resolve any issues that could occur from missing lectures. Late work will not be accepted. Missed tests must be made up on the first day back at school or the morning of the test if you are missing school due to extracurricular activities.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students.

The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their

discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC
Week 1 8/24 – 8/27	Syllabus and Quiz 1.1 – Statistical and Critical Thinking
Week 2 8/31 – 9/3	1.2 – Types of Data 1.3 – Collecting Sample Data 2.1 – Frequency Distributions and Organizing and Summarizing Data
Week 3 9/7 – 9/10	Labor Day Holiday 2.2 – Histograms 2.3 – Graphs that Enlighten and Graphs that Deceive
Week 4 9/14 – 9/17	3.1 – Measures of Center 3.2 – Measures of Variation
Week 5 9/21 – 9/24	3.3 – Measures of Relative Standing and Boxplots Exam 1
Week 6 9/28 – 10/1	4.1 – Basic Concepts of Probability 4.2 – Addition Rule and Multiplication Rule
Week 7 10/5 – 10/8	4.3 – Complements, Conditional Probability, and Bayes' Theorem 4.4 – Counting
Week 8 10/12 – 10/15	5.1 – Probability of Distributions 5.2 – Binomial Probability Distribution
Week 9 10/19 – 10/22	Review Exam 2
Week 10 10/26 – 10/29	6.1 – The Standard Normal Distribution 6.2 – Real Applications and Normal Distributions
Week 11 11/2 – 11/5	6.4 – The Central Limit Theorem 7.1 – Estimating a Population Proportion
Week 12 11/9 – 11/12	7.2 – Estimating a Population Mean Exam 3
Week 13 11/16 – 11/19	8.1 – Basics of Hypothesis Testing 8.2 – Testing a Claim About a Proportion
Week 14 11/23 – 11/26	8.3 – Testing a Claim About a Mean
Week 15 11/30 – 12/3	2.4 – Scatterplots, Correlation, and Regression 10.2 – Regression Exam 4
Week 16 12/7 – 12/9	Review for Final Exam Final Exam - Wednesday, 12/9

MATH 1342.10N0/50N0
Elementary Statistics
Fall 2026

Instructor: Caleb Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: MS 114/SSC 115
Meeting Days: Tuesday & Thursday
Meeting Times: 1:00-2:15 PM

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Elementary Statistics Using the TI-83/84 Plus Calculator, 5th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

A TI-84 Plus Calculator is *STRONGLY* recommended for the successful completion of this course.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (SLO)

Upon successful completion of this course, students will:

1. Explain the use of data collection and statistics as tools to reach reasonable conclusions.
2. Recognize, examine and interpret the basic principles of describing and presenting data.
3. Compute and interpret empirical and theoretical probabilities using the rules of probabilities and combinatorics.
4. Explain the role of probability in statistics.
5. Examine, analyze and compare various sampling distributions for both discrete and continuous random variables.
6. Describe and compute confidence intervals.
7. Solve linear regression and correlation problems.
8. Perform hypothesis testing using statistical methods.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen homework during the week of the Exam that covers its material. For example, I will reopen all of the Chapter 1, 2, and 3 Homework on Monday, September 14 since the Chapter 1 Test is scheduled for Thursday, September 17. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will cover material from the stated chapters. A review will be uploaded to Blackboard at least a week before each test with an Answer Key for you to check your work. Completing the homework and working through the reviews are the best ways to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is MANDATORY. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures. Late work will not be accepted.

Missed tests will not be allowed to be made up without prior documentation. If you know you will be absent on the day of a test, it is your responsibility to email me to set up a time to make it up. Any assignment that is missed without communication will receive an automatic grade of zero.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	Homework Due Sunday
8/25	Syllabus, MyLab Set Up, 1-1: Statistical and Critical Thinking	
8/27	1-2: Types of Data 1-3: Collecting Sample Data	1-1, 1-2, & 1-3
9/01	2-1: Frequency Distributions	
9/03	2-2: Histograms 2-3: Graphs That Enlighten and Graphs That Deceive	2-1, 2-2, & 2-3
9/08	3-1: Measures of Center 3-2: Measures of Variation	
9/10	3-2: Measures of Variation 3-3: Measures of Relative Standing and Boxplots	3-1, 3-2, & 3-3
9/15	4-1: Basic Concepts of Probability	
9/17	Exam 1 – Covers Chapters 1, 2, and 3	4-1
9/22	4-2: Addition Rule and Multiplication Rule	
9/24	4-3: Complements, Conditional Probability, and Bayes' Theorem	4-2 & 4-3
9/29	4-4: Counting	
10/01	5-1: Probability Distributions	4-4 & 5-1
10/06	5-2: Binomial Probability Distributions	
10/08	6-1: The Standard Normal Distribution	5-2 & 6-1
10/13	6-2: Real Applications of Normal Distributions	
10/15	Exam 2 – Covers Chapters 4 and 5	6-2
10/20	6-4: The Central Limit Theorem	
10/22	7-1: Estimation a Population Proportion	6-4 & 7-1
10/27	7-2: Estimating a Population Mean	
10/29	8-1: Basics of Hypothesis Testing	7-2 & 8-1
11/03	8-2: Testing a Claim About a Proportion	
11/05	Exam 3 – Covers Chapters 6 and 7	8-2
11/10	8-3: Testing a Claim About a Mean	
11/12	2-4: Scatterplots, Correlation, and Regression 10 – Correlation and Regression	8-3, 2-4, & 10
11/17	Review for Exam 4	
11/19	Exam 4 – Covers Chapters 8, 10, and 2-4	
11/24	Catch-Up/Final Exam Review	
12/01	Final Exam Review	
12/03	Final Exam Review	
12/10	Final Exam	All Pearson assignments

Homework assignments are due on Sundays at 11:59 PM. The most current due dates for assignments can also be viewed in MyLab.

MATH 1342.20D0
Elementary Statistics
Fall 2026

Instructor: Caleb Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

Credits: 3 Lecture Hours per Week

TSI Requirement: Mathematics if you have not met the requirements regarding STAAR testing scores. Check with PJC to determine.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (*Elementary Statistics Using the TI-83/84 Plus Calculator, 5th Edition.*) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

A TI-84 Plus Calculator is *STRONGLY* recommended for the successful completion of this course.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (SLO)

Upon successful completion of this course, students will:

1. Explain the use of data collection and statistics as tools to reach reasonable conclusions.
2. Recognize, examine and interpret the basic principles of describing and presenting data.
3. Compute and interpret empirical and theoretical probabilities using the rules of probabilities and combinatorics.
4. Explain the role of probability in statistics.
5. Examine, analyze and compare various sampling distributions for both discrete and continuous random variables.
6. Describe and compute confidence intervals.
7. Solve linear regression and correlation problems.
8. Perform hypothesis testing using statistical methods.

Course Requirements and Evaluation:

Your final grade for the course will be determined as follows:

Homework: 50%

Tests: 50%

Your homework is fully online and will be open for a week at a time. Initial due dates will always be on Sunday evenings at 11:59 PM. I will reopen homework assignments during the week of the Exam that covers its material. For example, I will reopen all of the Chapter 1, 2, and 3 Homework Assignments on Monday, September 14 since the Chapter 1 Test is scheduled for to close on Sunday, September 20. You will have unlimited attempts at each homework problem, so take advantage of this. The homework has tools built in that show examples and that walk you through each question. There are also videos and examples that can be viewed within each homework section.

Tests will be given on the dates specified in the Class Schedule at the end of this syllabus. Tests will open on Monday and close on Sunday of the week listed in the class schedule. Tests will cover material from the stated chapter. A review will be uploaded to Blackboard at least a week before each test with an Answer Key for you to check your work. Completing the homework and working through the reviews are the best ways to ensure success on the Tests. The Final Exam is cumulative and will be multiple choice. The Final Exam is weighted the same as all the other tests and is MANDATORY. Your final exam grade will replace your lowest test grade if it is higher.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from extended absence from Blackboard. Missed tests will not be extended due to being open for a week at a time.

It is your responsibility to communicate with me any time you need help or have questions. The best way to get ahold of me is via email. Be sure to include your course and section number in the Subject line when emailing me so that it is easy to identify which course you are in.

Tests will be administered directly through Blackboard and will utilize Respondus Monitor and Lockdown Browser. You must have a webcam to utilize this feature. If you do not have access to a PC/laptop with a webcam, you may take your proctored exams at one of PJC's Testing Centers. There are Testing Centers on all three of our campuses. If you need to use the Testing Center, please email me as soon as possible to begin the process of scheduling an appointment.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Week	Dates	Assignments
Week 1	8/24-8/30	1-1: Statistical and Critical Thinking 1-2: Types of Data 1-3: Collecting Sample Data
Week 2	8/31-9/06	2-1: Frequency Distributions 2-2: Histograms 2-3: Graphs That Enlighten and Graphs That Deceive
Week 3	9/07-9/13	3-1: Measures of Center 3-2: Measures of Variation 3-3: Measures of Relative Standing and Boxplots
Week 4	9/14-9/20	Exam 1 – Covers Chapters 1, 2, and 3
Week 5	9/21-9/27	4-1: Basic Concepts of Probability 4-2: Addition Rule and Multiplication Rule
Week 6	9/28-10/4	4-3: Complements, Conditional Probability, and Bayes' Theorem 4-4: Counting
Week 7	10/05-10/11	5-1: Probability Distributions 5-2: Binomial Probability Distributions
Week 8	10/12-10/18	Exam 2 – Covers Chapters 4 and 5
Week 9	10/19-10/25	6-1: The Standard Normal Distribution 6-2: Real Applications of Normal Distributions 6-4: The Central Limit Theorem
Week 10	10/26-11/01	7-1: Estimation a Population Proportion 7-2: Estimating a Population Mean
Week 11	11/02-11/08	Exam 3 – Covers Chapters 6 and 7
Week 12	11/09-11/15	8-1: Basics of Hypothesis Testing 8-2: Testing a Claim About a Proportion
Week 13	11/16-11/22	8-3: Testing a Claim About a Mean 2-4: Scatterplots, Correlation, and Regression 10 – Correlation and Regression
Week 14	11/23-11/29	Exam 4 – Covers Chapters 8, 10, and 2-4
Week 15	11/30-12/06	Final Exam opens Tuesday, December 1
Week 16	12/7-12/08	Final Exam closes Tuesday, December 8 at 11:59 PM

Homework assignments are due on Sundays at 11:59 PM. The most current due dates for assignments can also be viewed in MyLab.

MATH 1350.20D0
FUNDAMENTALS OF MATHEMATICS I
FALL 2026

Instructor: Tasha Horton
Office: PJC MS 111K
Phone: (903) 782-0317
Email: thorton@parisjc.edu

Meeting Location: ONLINE

Office Hours: MW: 8am – 9am & 1 – 3pm
TR (SS): 9 – 10am & 2 – 3pm

Course Description:

This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the conceptual development of the following: sets, functions, numeration systems, number theory, and properties of the various number systems with an emphasis on problem solving and critical thinking.

Credits: 3 HOURS

Prerequisite(s): MATH 1314 College Algebra

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson (A Problem Solving Approach to Mathematics for Elementary and Middle School Teachers, 14th edition) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

This course has Pearson Course Materials integrated directly into Blackboard which includes an e-text. A hard copy of the textbook is optional and will be an additional expense. Students must have the necessary basic computer skills to successfully utilize Blackboard and MyLab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service for a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard.

All tests can be taken online if you have a webcam; otherwise, all tests will need to be taken at a testing center.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level)

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills – to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills – to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Communication & Quantitative Literacy — Communicate effectively in written and oral forms, and apply mathematical and quantitative reasoning to interpret data, solve problems, and support evidence-based conclusions.
2. Scientific Inquiry & Critical Thinking — Apply the principles of scientific reasoning and the scientific method to evaluate evidence, analyze problems, and draw logical conclusions across natural and social phenomena.
3. Technological & Information Competency — Locate, assess, and ethically apply information and technology to conduct research, analyze data, and communicate findings effectively.
4. Interdisciplinary Knowledge — Demonstrate foundational knowledge spanning the natural sciences, social sciences, and humanities, recognizing the connections between disciplines in understanding the world.

5. Personal & Professional Readiness — Exhibit behaviors and skills associated with academic success, ethical responsibility, and preparation for transfer to a four-year institution or entry into a professional field.

Student Learning Outcomes (MATH 1350 Course-Level)

1. Explain and model the arithmetic operations for whole numbers and integers.
2. Explain and model computations with fractions, decimals, ratios, and percentages.
3. Describe and demonstrate how factors, multiples, and prime numbers are used to solve problems.
4. Apply problem solving skills to numerical applications.
5. Represent and describe relationships among sets using the appropriate mathematical terminology and notation.
6. Compare and contrast structures of numeration systems

Course Requirements and Evaluation:

There will be four tests, homework, quizzes, and a comprehensive final. The final exam is comprehensive. Homework will be assigned regularly. All tests can be taken online if you have a webcam; otherwise, all tests will need to be taken at a testing center.

Grading:

Grade scale

A 90-100
B 80-89
C 70-79
D 60-69
F 0-59

Grade Weighting System

Homework – 40%
Tests & Final – 60%

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Adhere to the policies set in place by the PJC Student Handbook.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the students.

The last day for a student to withdraw from a course with a grade of "W" is **November 12, 2026.**

Class Conduct:

No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserves the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.**

Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Class Overview

All homework and tests will be on Blackboard. Select the assignment link to access them.

Each homework assignment includes **videos and examples** that explain how to work the problems. These resources can be found in the **Chapter Videos and Textbook** sections listed before each homework assignment. Your online textbook is also available there.

All homework will open on the first day of class. Homework for each chapter will remain open until the **due date of that chapter's exam**. Because each section contains several problems, **don't wait until the last minute!** I recommend completing at least **one homework section each day** and trying to take each exam by the **Friday before the exam deadline**.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC
Week 1 & 2 8/24 – 9/6 Exam 1 opens 8/31 Exam 1 & HW close 9/6 @11:59pm	Syllabus and Quiz 1.1 Mathematics & Problem Solving 1.2 Explorations with Patterns 2.2 Describing Sets 2.3 Other Set Operations Exam 1
Week 3 – 5 9/7 – 9/27 Exam 2 opens 9/21 Exam 2 & HW close 9/27 @11:59pm	3.1 Numeration Systems 3.2 Addition of Whole Numbers 3.3 Subtraction of Whole Numbers 3.4 Multiplication of Whole Numbers 3.5 Division of Whole Numbers Exam 2

Meeting Location: MS114 GC127 SSC1
Meeting Days: TR
Meeting Times: 9:30 – 10:45

Office Hours:
Monday and Wednesday
Tuesday and Thursday

8:00 – 9:30; 3:00 – 4:00
12:30 – 4:00

Course Description: Lecture Course

In-depth combined study of algebra, trigonometry, and other topics for calculus readiness. Topics covered in this course include algebraic, logarithmic, and exponential functions and equations, graphing techniques, trigonometric functions, right and oblique triangles, graphs of trig functions, inverse functions, trig identities and equations, Law of Sines, Law of Cosines, and vectors.

Credits: SCH = 3

TSI Requirement: 950 Math

Prerequisite(s): MATH 1314 with a "C" or better or by placement test

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Aleks (Precalculus 2nd ed. Julie Miller, Donna Gerken; ISBN: 978-1-264-24842-1). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Graphing calculator TI-83, TI-84, or TI-89 is required and allowed to use during lectures and partially during exams.

Student must have the necessary basic computer skills to successfully utilize Blackboard and Aleks. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Aleks.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 2312 Course-Level)

1. Demonstrate and apply knowledge of properties of functions.
2. Recognize and apply algebraic and transcendental functions and solve related equations.
3. Apply graphing techniques to algebraic and transcendental functions.
4. Compute the values of trigonometric functions for key angles in all quadrants of the unit circle measured in both degrees and radians.
5. Prove trigonometric identities.
6. Solve right and oblique triangles.

Course Requirements and Evaluation:

There will be three tests. Each test will contribute 15% to the final grade making a total of 45%. The final exam will be worth another 15%, leaving 5% for the Review Module, and 35% for homework. ***The final exam will be administered December 10th and is comprehensive. The student must take it to pass the course. If the grade on the final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade make on the final exam.*** Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams. Homework assignments are due weekly by Sunday night at 11:59pm.

Class Attendance:

Being in the habit of regularly studying, doing homework, and checking email daily is critical for the successful completion of this course. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the

nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Syllabus, Review of Basic Algebra, Inverse, Exponential, and Logarithmic Functions

4.1 Angles and Their Measure

4.2 Trigonometric Functions Defined on the Unit Circle

4.3 Right Triangle Trigonometry

Test 1

4.4 Trigonometric Functions of Any Angle

4.5 Graphs of Sine and Cosine Functions

4.6 Graphs of Other Trigonometric Functions

4.7 Inverse Trigonometric Functions

Test 2

5.1 Fundamental Trigonometric Identities

5.2 Sum and Difference Formulas

5.3 Double-Angle, Power-Reducing, and Half-Angle Formulas

5.4 Product-to-Sum and Sum-to-Product Formulas

5.5 Trigonometric Equations

6.1 Applications of Right Triangles

6.2 The Law of Sines

6.3 The Law of Cosines

Test 3

7.4 Vectors

7.5 Dot Product

Final Exam Thursday December 10th.

Fall 2026**

Instructor: Jackilyn Abbott
Office: RCHS CCA 206
Phone: 972-636-9991
Email: jabbott@parisjc.edu
Office Hours: Tues – Thur 7:35 – 8:05am & 3:50 – 4:50pm

Meeting Location: RCHS CCA 206
Meeting Days: MTWThF
Meeting Times: 2:53 – 3:40 pm

Course Description: Lecture Course

In-depth combined study of algebra, trigonometry, and other topics for calculus readiness. Topics covered in this course include algebraic, logarithmic, and exponential functions and equations, graphing techniques, trigonometric functions, right and oblique triangles, graphs of trig functions, inverse functions, trig identities and equations, Law of Sines, Law of Cosines, and vectors.

Credits: SCH = 3

TSI Requirement: 950 Math

Prerequisite(s): MATH 1314 with a “C” or better or by placement test

Required Textbook(s) and Materials:

Precalculus 2nd ed. Julie Miller, Donna Gerken; ISBN: 978-1-264-24842-1. A hard copy of the textbook is optional and will be an additional expense. You do not need to purchase a physical copy of the book unless you want one. Everything you will need is contained within the software.

Graphing calculator TI-83, TI-84, or TI-89 is required and allowed to use during lectures and partially during exams.

Student must have the necessary basic computer skills to successfully utilize Blackboard and Aleks. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Aleks.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.

2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 2312 Course-Level)

1. Demonstrate and apply knowledge of properties of functions.
2. Recognize and apply algebraic and transcendental functions and solve related equations.
3. Apply graphing techniques to algebraic and transcendental functions.
4. Compute the values of trigonometric functions for key angles in all quadrants of the unit circle measured in both degrees and radians.
5. Prove trigonometric identities.
6. Solve right and oblique triangles.

Course Requirements and Evaluation:

Students are expected to “attend class regularly. Grades for the semester are calculated based on the student’s performance on homework, test reviews, three major tests, quizzes, attendance time requirements, and the comprehensive final examination. Course grades are calculated as follows:

Quizzes/Projects	10%
Homework Average	15%
Test Average	55%
Comprehensive Final Exam	20%

If the grade on the comprehensive final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade make on the final exam.

Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

If you have to miss a class, please email Mrs. Abbott so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice

necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Cell Phones: While in class, taking exams, or taking quizzes CELL PHONES AND OTHER ELECTRONIC DEVICES MUST BE TURNED OFF AND STORED OUT OF THE STUDENT'S REACH. The only electronic device allowed during class, tests and quizzes is a stand-alone calculator (such as a TI-34, TI-83, TI-84, etc.), and only with the instructor's permission.

Homework: For homework assignments click on the link within Blackboard to access ALEKS. Follow due dates of every assignment on ALEKS and/or syllabus calendar. No late work will be accepted.

Exams: We will have 3 exams and a comprehensive final exam. All Exams will be in class in paper/pencil format. Makeup exams will NOT be given, unless a student contacted me before the exam. The lowest exam grade will be replaced by your final exam (final not included).

Quizzes: For every lecture day we will have an assignment on ALEKS that has to be completed. These assignments are to help prepare for quizzes. Quizzes will be given in class periodically to assess your knowledge. No make up quizzes will be given unless a student has contacted the instructor before the quiz.

Projects: During the semester we will have a couple of projects

Class Attendance:

Being in the habit of regularly studying, doing homework, and checking email daily is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday November 12, 2024.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule: You can access the tentative schedule through blackboard which will be the most up to date schedule. Below is a rough outline of what will be covered each week.

Week	Dates	Events	Comments
0	8/17 – 8/21	Syllabus; Algebra & Geometry Review	
1	8/24 – 8/28	Section 4.1, 4.2	
2	8/31 – 9/4	Section 4.3, Review, Exam #1	
3	9/7 – 9/11	Section 4.4, 4.5	9/7 - No School
4	9/14 – 9/18	Section 4.6, 4.7	
5	9/21 – 9/25	Review; Exam #2	9/21 & 9/22 – No School
6	9/28 – 10/2	Section 5.1, 5.2	
7	10/5 – 10/9	Section 5.3, 5.4	
10/12 – 10/16 Fall Break – No School			
8	10/19 – 10/23	Section 5.5	10/19 – No School
9	10/26 – 10/29	Section 6.1, 6.2	
10	11/2 – 11/6	Section 6.3	
11	11/9 – 11/13	Review, Exam #3	
12	11/16 – 11/20	Section 7.4, 7.5	
11/23 – 11/27 Thanksgiving Break – No School			
13	11/30 – 12/4	Final Exam Review	
14	12/7 – 12/10	Final Exam Week

Phone: 903-782-0331
Email: jfornof@parisjc.edu

Meeting Location: MS 114, GC 127, SSC 1
Meeting Days: MW
Meeting Times: 1:00 – 2:45

Office Hours:
Monday and Wednesday
Tuesday and Thursday

8:00 – 9:30; 3:00 – 4:00
12:30 – 4:00

Course Description: Lecture Course

Calculus is a collection of mathematical ideas used to describe and analyze phenomena that are in a state of flux or change, for example, moving objects and population growth. Topics covered in this course include: limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule; and definite integration of algebraic, trigonometric, and transcendental functions, with an application to calculation of areas.

Credits: SCH = 4

TSI Requirement: 950 Math

Prerequisite(s): MATH 1314 and 1316 or 2312; or two years of high school algebra and high school trigonometry or pre-calculus

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Calculus Early Transcendentals 3rd ed.--Briggs, Cochran, Gillett, and Schultz; ISBN:987-0-13-476364-4). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Graphing calculator TI-83, TI-84, or TI-89 is required and allowed to use during lectures and partially during exams.

Student must have the necessary basic computer skills to successfully utilize Blackboard and Mylab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Mylab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 2413 Course-Level)

1. Define and interpret the concepts of limit, continuity, and derivative of a function verbally, algebraically, and graphically.
2. Evaluate limits of functions.
3. Interpret the derivative at a point in multiple ways, including slope of a tangent line and instantaneous rate of change.
4. Calculate derivatives of a wide variety of functions obtained by applying transformations, algebraic operations, and compositions.
5. Interpret the definite integral in multiple ways, including area and total change.

Course Requirements and Evaluation:

There will be three tests. Each test will contribute 20% to the final grade making a total of 60%. The final exam will be worth another 20%, leaving 20% for home work. *The final exam will be administered December 9th and is comprehensive. The student must take it to pass the course. If the grade on the final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade made on the final exam.* Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Class Attendance:

You are expected to attend and participate in class and complete all assignments by the assigned due date. You CAN NOT expect to do well in this class without attending class or completing all assignments. Absences are considered unexcused unless due to sickness, emergencies, or sanctioned school activities. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

12:30 – 4:00

Course Description: Lecture Course

This course is a continuation of the integrated study of analytic geometry and calculus with an emphasis on an understanding of fundamental concepts. Topics include: parametric equations and polar coordinates, vectors, vector-valued functions, functions of several variables, partial derivatives and their application, and multiple integrals and their application.

Credits: SCH = 4

TSI Requirement: 950 Math

Prerequisite: MATH 2414 Calculus II

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Calculus Early Transcendentals 3rd ed.--Briggs, Cochran, Gillett, and Schultz; ISBN:987-0-13-476364-4). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Graphing calculator TI-83, TI-84, or TI-89 is recommended and allowed to be used during exams—however all work must be shown.

Student must have the necessary basic computer skills to successfully utilize Blackboard and Mylab. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Mylab.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause:

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College. Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Goals and Objectives:

Required Core Objectives

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 2415 Course-Level)

1. Define and interpret the different types of functions (parametric, vector-valued, implicit, explicit, and multi-variable) and coordinate systems and the calculus of each.
2. Analyze vectors and vector-valued functions including topics such as motion in space, curvature, and normal vectors.
3. Evaluate partial derivatives and their applications.
4. Interpret the derivative in multiple dimensions, including concepts like level curves, directional derivatives, and the gradient.
5. Evaluate double integrals in multiple ways.

Course Requirements and Evaluation:

There will be three tests. Each test will contribute 20% to the final grade making a total of 60%. The final exam will be worth another 20%, leaving 20% for home work. *The final exam is comprehensive and the student must take it to pass the course. If the grade on the final exam is higher than the lowest test score, I will drop the lowest test score and replace that grade with the higher grade made on the final exam.* Grades will be determined by overall percentage at the end of the course.

90 – 100	A
80 – 89	B
70 – 79	C
60 – 69	D
< 60	F

Course Policies:

It is important to be ready to go with your paper and pencil out at the beginning of each class. Do your best to not be tardy, but if you are late, it is better to show up late than not at all. If you have to miss a class, please email me at jfornof@parisjc.edu so I can let you know what you missed. Homework will be assigned regularly. The purpose of these activities is to give you the practice necessary to become proficient in a given mathematical concept, to examine various applications of the given concept, and to prepare for the exams.

Class Attendance:

You are expected to attend and participate in class and complete all assignments by the assigned due date. You CAN NOT expect to do well in this class without attending class or completing all assignments. Absences are considered unexcused unless due to sickness, emergencies, or sanctioned school activities. **Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others

will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Statement on AI usage:

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change:

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email and an announcement in Blackboard.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Math 2415 Course Outline:

Sections 12.1-12.3 – Parametric and Polar Curves

Test I

Sections 13.1-13.5 and 14.1-14.5 -- Vectors and Vector-Valued Functions

Test II

Sections 15.1-15.7 -- Functions of Several Variables, Partial Derivatives, Applications

Test III

Sections 16.1-16.3 -- Multiple Integrals, Applications

Review, **Final Exam: Monday December 7th**

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

**PJCM 300.30A4
Elementary Algebra
Fall 2026**

Instructor: Sarah Morrison
Office: PJC Gville 210
Phone: (903)457-8713
Email: smorrison@parisjc.edu
ZOOM link for office hours:
<https://us06web.zoom.us/j/95211478382>

Meeting Location: ETAMU Hall of Languages 325
Meeting Days: TR
Meeting Times: 12:30pm-1:45pm
Course Type: Face-to-face

Office Hours: Face-to-Face or ZOOM

See Teaching & Office Hours Schedule on Blackboard under START HERE.

I.T. Checklist for First Class Day:

Visit <https://www.parisjc.edu/technology/pjc-it-checklist.php> for a checklist of events to complete before the first class day such as access to your MyPJC portal, Dragonmail, Blackboard, Microsoft Authenticator, Microsoft Office, and Respondus LockDown Browser.

Course Description:

Course Description: Topics covered include operations on signed numbers, properties of real numbers, evaluating and simplifying variable expressions, linear equations and inequalities, application of linear equations, formulas and problem solving, graphs and functions, and solving systems of linear equations. Prerequisite: LSKL 0306 or satisfactory score on placement test.

Required Textbook(s) and Materials:

Developmental Mathematics, 4th ed. Lial/Hornsby/McGinnis/Hestwood NOTE: Students are not required to purchase the text. The cost of online access to the text and required homework assignments is covered with the tuition payment for the course.

Every class, students will bring their notes packet and something to write with. Students will need a calculator if they are uncomfortable with $+$, $-$, $\cdot$, $\div$ numbers, including negatives. Best calculators have (parentheses) buttons. Cell phones calculators like Calculate84 from the App Store can NOT be used on tests, but can be used at home or in class. Students must have a non-internet calculator on tests. Calculators can be borrowed from the Math Department of ETAMU. Check Blackboard for details

At home, students will use the internet, computer, various websites, phone or computer calculator, or an approved handheld calculator.

Course Goals and Objectives:

Foundational Component Area: Mathematics Courses in this category focus on quantitative literacy in logic, patterns, and relationships. Courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):**Chapter 8: The Real Number System**

- Student will perform indicated operations on signed integers and rational numbers; use the Order of Operations agreement to simplify algebraic expressions; use the rules of exponents to simplify exponential expressions.

Chapter 9: Introduction to Algebra

- Student will solve one-step linear equations in one variable; evaluate and simplify variable expressions; solve simple problems involving perimeter, area and volume.

Chapter 10: Equations, Inequalities, and Applications

- Student will solve linear equations in one variable; solve problems involving mixtures, motion, and formulas; solve linear inequalities in one variable and graph their solution set

Chapter 12: Exponents and Polynomials

- Student will be able to use rules of exponents to simplify algebraic expressions • Student will accurately perform arithmetic operations (addition, subtraction, multiplication, and division) on polynomials

Chapter 13: Factoring and Applications

- Student will be able to factor polynomials and use factoring to solve quadratic equations

Student Learning Outcomes (MATH 1314 Course-Level):

- 1) The student is expected to use arithmetic, algebraic and critical thinking to model and solve real-world problems.
- 2) The student is expected to interpret basic mathematical information verbally and graphically.
- 3) The student is expected to evaluate basic mathematical information numerically and symbolically.

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, three major tests, and the comprehensive final examination. Grades can be found in Blackboard inside the Aleks program, along the left toolbar. Course grades are calculated as follows:

<i>Participation</i> (Sign-in sheets, 20% Activities, Communication)	
<i>Homework Average</i>	20%
<i>Test Average (3 Major Tests)</i>	40%
<i>Final Test "Exam"</i>	20%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course. This could effect financial aide and your current registration status.

Course Policies:

Class will start promptly each class day. The door will shut once class starts because of how loud your teacher is. If you are late, please knock, wait, and shut the door after you.

Bring your notes-packet and something to write with. If you forget, come to class anyway.

No outside visitors, unless from Mr. Norris's, Mr. Tharp's, or Mrs. Morrison's other classes.

It is important that you check our course page in Blackboard as well as your PJC Dragon email account regularly as this is my best means of communication outside of class meetings. Teacher will NOT email your ETAMU account. Teacher is only given 1) Your name, and 2) Your pjc email address.

Participation (Sign-in sheets, Activities, Communication) 20%:

20% of your grade will be based on activities, games, and communication with the teacher both inside and outside the classroom.

Sign the attendance sheets when you enter class. Or when you exit.

Play games, card sorts, or other activities in class as communicated by the teacher.

Ask questions in class and answer questions from your classmates.

Email the teacher questions outside of class and read responses.

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Academic Testing Center (ATC) is in Education South (EDS), Room 125, until sometime in Fall 2026. Then it moves to the Student Success Center (Teacher will let you know when they have moved.)

Math Skills Center (MSC) is located on the 3rd floor of the library until sometime in Fall 2026. Then it will move to the 2nd floor of the library

Withdrawals must be initiated by the student. The absolute last day to withdraw with a 0% refund is November 12th.

Class Notes-packet (not graded):

The notes-packet is available on Blackboard if students lose theirs. The teacher will provide 1 copy in color. Bring to class every day. Notes cover 1st-9th grade math.

Homework (20%):

Students will work through examples from the notes-packet with the teacher during class. Students will then complete online homework examples through Blackboard in a program called Pearson. Hmwks are due on Sundays, with penalty points taken off for late problems worked.

Exams (40%):

In class only. Absent students will have an automatic 3 days to take the missed exam in the testing center. After that, a 0 is earned.

Academic Testing Center (ATC) is in Education South (EDS), Room 125, until sometime in Fall 2026. Then it moves to the Student Success Center (Teacher will let you know when they have moved.)

Math Skills Center (MSC) is located on the 3rd floor of the library until sometime in Fall 2026. Then it will move to the 2nd floor of the library.

Partial credit is available for problems **with work shown that is partially right.**

No cell phones on tests. Cell phones out during a test are a 0 earned.

Calculator can be used on all exams. Acceptable calculators are scientific, graphing, or basic \$1 calculators. Look for the calculator that types the parentheses () on your screen.

Calculators can be rented through the ETAMU math department located in Room 113 of Education North. The form is available through Blackboard under **START HERE.**

No cheat sheets, exam reviews, or viewable materials allowed on tests.

Take bathroom break before or after, not during.

No questions will be answered by Mrs. Mo. UNLESS you find a mistake☺ Then ask Mrs. Mo, not your buddy.

Exams will be graded by the end of the day (or within minutes of turning in). Emails will be sent if it takes longer.

Your Final Test “Exam” will replace your lowest test grade (if you have a low test grade), **and will also count as the final.**

To make it easier, the tests will look like reviews. Same order of topics and problems. Different numbers inside the problems.

Final Exam (20%):

Your final exam score will replace your lowest test score (if you have one) AND will count as a separate grade worth 20% of your overall grade. Same rules apply from above

Class Conduct (not graded):

Faculty reserve the right to ask a student to leave the classroom and/ or drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Please see below for class conduct not allowed:

- 1) Use of technology other than the approved calculator in class.
- 2) Language (including online) that creates a hostile learning or teaching environment.
- 3) Hand motions, body language, or online images that creates a hostile learning or teaching environment.

Students who cannot control their own behavior will be asked to leave the class for the day. Severe or constant disruptive behavior will cause students to be removed from the class permanently. Removal from class can cause issues with financial aide.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. *Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Statistically, historically, students who use Ai for this course are less likely to pass the next two required math classes.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by verbal communication, as well as an announcement to Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Campus Concealed Carry

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>

and/or consult your event organizer. Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

Tentative Course Schedule:

Wk	Dates	Topic	Due Dates
1	8/17-8/21	☐ Read syllabus, put playing cards in backpack. ☐ Watch RACKO video for game instructions	
2	Tuesday 8/25	☐ Syllabus Talk ☐ RACKO game: groups of 2-4, try to bring a deck of cards ☐ ABOUT YOU: Answer survey alone, as a group, as a class.	Sunday 8/30 ☐ PJC Blackboard "First assign. Syllabus Quiz"
	Thursday 8/27	☐ Addition, Subtraction, Multiplication, Division Card Sort, Bingo, etc. ☐ Worksheets until Hmwk Program is set up	
3	Tuesday 9/1	☐ 2.5: Multiplying Fractions	Sunday 9/6 ☐ 2.5 ☐ 2.7
	Thursday 9/3	☐ 2.7: Dividing Fractions	
4	Tuesday 9/8	☐ 3.1: Adding and Subtracting Like Fractions ☐ 3.2: Least Common Multiples	Sunday 9/13 ☐ 3.1 ☐ 3.2
	Thursday 9/10	☐ 3.3: Adding and Subtracting Unlike Fractions	
5	Tuesday 9/15	☐ 3.3: Adding and Subtracting Unlike Fractions	Sunday 9/20 ☐ 3.3 ☐ 9.1
	Thursday 9/17	☐ 9.1: Exponents, Order of Operations, and Inequality	
6	Tuesday 9/22	☐ 9.2: Variables, Expressions, and Equations	Sunday 9/27 ☐ 9.2 ☐ T1 Review
	Thursday 9/24	☐ T1 Paper Review	
7	Tuesday 9/29	☐ Test 1	Sunday 10/4 ☐ 9.3 ☐ 9.4
	Thursday 10/1	☐ 9.3: Real Numbers and the Number Line ☐ 9.4: Adding Real Numbers	
8	Tuesday 10/6	☐ 9.5: Subtracting Real Numbers ☐ 9.6: Multiplying and Dividing Real Numbers	Sunday 10/11 ☐ 9.5 ☐ 9.6 ☐ 9.7 ☐ 9.8
	Thursday 10/8	☐ 9.7: Properties of Real Numbers ☐ 9.8: Simplifying Expressions	
9	Tuesday 10/13	☐ 10.1: The Addition Property of Equality ☐ 10.2: The Multiplication Property of Equality	Sunday 10/18 ☐ 10.1 ☐ 10.2 ☐ 10.3 ☐ 10.4
	Thursday 10/15	☐ 10.3: More on Solving Linear Equations ☐ 10.4: An Introduction to Applications of Linear Equations	
10	Tuesday 10/20	☐ T2 Paper Review	Wednesday 10/21 ☐ T2 Review
	Thursday 10/22	☐ Test 2	

11	Tuesday 10/27	☐ 10.5: Formulas and Additional Applications from Geometry ☐ 10.6: Solving Linear Inequalities	Sunday 11/1 ☐ 10.5 ☐ 10.6 ☐ 12.1 ☐ 12.2
	Thursday 10/29	☐ 12.1: The Product Rule and Power Rules for Exponents ☐ 12.2: Integer Exponents and the Quotient Rule	
12	Tuesday 11/3	☐ 12.3: An Application of Exponents: Scientific Notation ☐ 12.4: Adding and Subtracting Polynomials	Sunday 11/8 ☐ 12.3 ☐ 12.4 ☐ 12.5 ☐ 12.6
	Thursday 11/5	☐ 12.5: Multiplying Polynomials ☐ 12.6: Special Products	
13	Tuesday 11/10	☐ 13.1: Greatest Common Factors; Factor by Grouping ☐ T3 Paper Review	Wednesday 11/15 ☐ 13.1 ☐ T3 Review
	Thursday 11/12	☐ Test 3	
14	Tuesday 11/17	☐ 13.2: Factoring Trinomials	Sunday 11/22 ☐ 13.2 ☐ 13.3
	Thursday 11/19	☐ 13.3: Factoring Trinomials by Grouping	
15	Tuesday 11/24	☐ 13.4: Factoring Trinomials Using the FOIL Method	Sunday 11/29 ☐ 13.4 ☐ 13.5
	Thursday 11/26	☐ 13.5: Special Factoring Techniques	
16	Tuesday 12/1	☐ Final Exam Review	Sunday 12/2 ☐ Final Exam Review ☐ Late hmwks
	Thursday 12/3	☐ Final Exam	

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

I.T. Checklist for First Class Day:

Visit <https://www.parisjc.edu/technology/pjc-it-checklist.php> for a checklist of events to complete before the first class day such as access to your MyPJC portal, Dragonmail, Blackboard, Microsoft Authenticator, Microsoft Office, and Respondus LockDown Browser.

Course Description:

Course Description: Topics covered include operations on signed numbers, properties of real numbers, evaluating and simplifying variable expressions, linear equations and inequalities, application of linear equations, formulas and problem solving, graphs and functions, and solving systems of linear equations. Prerequisite: LSKL 0306 or satisfactory score on placement test.

Required Textbook(s) and Materials:

Developmental Mathematics, 4th ed. Lial/Hornsby/McGinnis/Hestwood NOTE: Students are not required to purchase the text. The cost of online access to the text and required homework assignments is covered with the tuition payment for the course.

Every class, students will bring their notes packet and something to write with. Students will need a calculator if they are uncomfortable with $+$, $-$, $\cdot$, $\div$ numbers, including negatives. Best calculators have (parentheses) buttons. Cell phones calculators like Calculate84 from the App Store can NOT be used on tests, but can be used at home or in class. Students must have a non-internet calculator on tests. Calculators can be borrowed from the Math Department of ETAMU. Check Blackboard for details

At home, students will use the internet, computer, various websites, phone or computer calculator, or an approved handheld calculator.

Course Goals and Objectives:

Foundational Component Area: Mathematics Courses in this category focus on quantitative literacy in logic, patterns, and relationships. Courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):**Chapter 8: The Real Number System**

- Student will perform indicated operations on signed integers and rational numbers; use the Order of Operations agreement to simplify algebraic expressions; use the rules of exponents to simplify exponential expressions.

Chapter 9: Introduction to Algebra

- Student will solve one-step linear equations in one variable; evaluate and simplify variable expressions; solve simple problems involving perimeter, area and volume.

Chapter 10: Equations, Inequalities, and Applications

- Student will solve linear equations in one variable; solve problems involving mixtures, motion, and formulas; solve linear inequalities in one variable and graph their solution set

Chapter 12: Exponents and Polynomials

- Student will be able to use rules of exponents to simplify algebraic expressions • Student will accurately perform arithmetic operations (addition, subtraction, multiplication, and division) on polynomials

Chapter 13: Factoring and Applications

- Student will be able to factor polynomials and use factoring to solve quadratic equations

Student Learning Outcomes (MATH 1314 Course-Level):

- 1) The student is expected to use arithmetic, algebraic and critical thinking to model and solve real-world problems.
- 2) The student is expected to interpret basic mathematical information verbally and graphically.
- 3) The student is expected to evaluate basic mathematical information numerically and symbolically.

Course Requirements and Evaluation:

Students are expected to attend class regularly and to be prepared each time the class meets. Grades for the semester are calculated based on the student's performance on homework, three major tests, and the comprehensive final examination. Grades can be found in Blackboard inside the Aleks program, along the left toolbar. Course grades are calculated as follows:

<i>Participation</i> (Sign-in sheets, 20% Activities, Communication)	
<i>Homework Average</i>	20%
<i>Test Average (3 Major Tests)</i>	40%
<i>Final Test "Exam"</i>	20%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course. This could effect financial aide and your current registration status.

Course Policies:

Class will start promptly each class day. The door will shut once class starts because of how loud your teacher is. If you are late, please knock, wait, and shut the door after you.

Bring your notes-packet and something to write with. If you forget, come to class anyway.

No outside visitors, unless from Mr. Norris's, Mr. Tharp's, or Mrs. Morrison's other classes.

It is important that you check our course page in Blackboard as well as your PJC Dragon email account regularly as this is my best means of communication outside of class meetings. Teacher will NOT email your ETAMU account. Teacher is only given 1) Your name, and 2) Your pjc email address.

Participation (Sign-in sheets, Activities, Communication) 20%:

20% of your grade will be based on activities, games, and communication with the teacher both inside and outside the classroom.

Sign the attendance sheets when you enter class. Or when you exit.

Play games, card sorts, or other activities in class as communicated by the teacher.

Ask questions in class and answer questions from your classmates.

Email the teacher questions outside of class and read responses.

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates.

Academic Testing Center (ATC) is in Education South (EDS), Room 125, until sometime in Fall 2026. Then it moves to the Student Success Center (Teacher will let you know when they have moved.)

Math Skills Center (MSC) is located on the 3rd floor of the library until sometime in Fall 2026. Then it will move to the 2nd floor of the library

Withdrawals must be initiated by the student. The absolute last day to withdraw with a 0% refund is November 12th.

Class Notes-packet (not graded):

The notes-packet is available on Blackboard if students lose theirs. The teacher will provide 1 copy in color. Bring to class every day. Notes cover 1st-9th grade math.

Homework (20%):

Students will work through examples from the notes-packet with the teacher during class. Students will then complete online homework examples through Blackboard in a program called Pearson. Hmwks are due on Sundays, with penalty points taken off for late problems worked.

Exams (40%):

In class only. Absent students will have an automatic 3 days to take the missed exam in the testing center. After that, a 0 is earned.

Academic Testing Center (ATC) is in Education South (EDS), Room 125, until sometime in Fall 2026. Then it moves to the Student Success Center (Teacher will let you know when they have moved.)

Math Skills Center (MSC) is located on the 3rd floor of the library until sometime in Fall 2026. Then it will move to the 2nd floor of the library.

Partial credit is available for problems **with work shown that is partially right.**

No cell phones on tests. Cell phones out during a test are a 0 earned.

Calculator can be used on all exams. Acceptable calculators are scientific, graphing, or basic \$1 calculators. Look for the calculator that types the parentheses () on your screen.

Calculators can be rented through the ETAMU math department located in Room 113 of Education North. The form is available through Blackboard under **START HERE.**

No cheat sheets, exam reviews, or viewable materials allowed on tests.

Take bathroom break before or after, not during.

No questions will be answered by Mrs. Mo. UNLESS you find a mistake☺ Then ask Mrs. Mo, not your buddy.

Exams will be graded by the end of the day (or within minutes of turning in). Emails will be sent if it takes longer.

Your Final Test “Exam” will replace your lowest test grade (if you have a low test grade), **and will also count as the final.**

To make it easier, the tests will look like reviews. Same order of topics and problems. Different numbers inside the problems.

Final Exam (20%):

Your final exam score will replace your lowest test score (if you have one) AND will count as a separate grade worth 20% of your overall grade. Same rules apply from above

Class Conduct (not graded):

Faculty reserve the right to ask a student to leave the classroom and/ or drop a student for violations of the Student Conduct Policy as listed in the Student Handbook. Please see below for class conduct not allowed:

- 1) Use of technology other than the approved calculator in class.
- 2) Language (including online) that creates a hostile learning or teaching environment.
- 3) Hand motions, body language, or online images that creates a hostile learning or teaching environment.

Students who cannot control their own behavior will be asked to leave the class for the day. Severe or constant disruptive behavior will cause students to be removed from the class permanently. Removal from class can cause issues with financial aide.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial Intelligence:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Tools like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. *Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Statistically, historically, students who use Ai for this course are less likely to pass the next two required math classes.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by verbal communication, as well as an announcement to Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Campus Concealed Carry

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>

and/or consult your event organizer. Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

Tentative Course Schedule:

Wk	Dates	Topic	Due Dates
1	8/17-8/21	☐ Read syllabus, put playing cards in backpack. ☐ Watch RACKO video for game instructions	
2	Tuesday 8/25	☐ Syllabus Talk ☐ RACKO game: groups of 2-4, try to bring a deck of cards ☐ ABOUT YOU: Answer survey alone, as a group, as a class.	Sunday 8/30 ☐ PJC Blackboard "First assign. Syllabus Quiz"
	Thursday 8/27	☐ Addition, Subtraction, Multiplication, Division Card Sort, Bingo, etc. ☐ Worksheets until Hmwk Program is set up	
3	Tuesday 9/1	☐ 2.5: Multiplying Fractions	Sunday 9/6 ☐ 2.5 ☐ 2.7
	Thursday 9/3	☐ 2.7: Dividing Fractions	
4	Tuesday 9/8	☐ 3.1: Adding and Subtracting Like Fractions ☐ 3.2: Least Common Multiples	Sunday 9/13 ☐ 3.1 ☐ 3.2
	Thursday 9/10	☐ 3.3: Adding and Subtracting Unlike Fractions	
5	Tuesday 9/15	☐ 3.3: Adding and Subtracting Unlike Fractions	Sunday 9/20 ☐ 3.3 ☐ 9.1
	Thursday 9/17	☐ 9.1: Exponents, Order of Operations, and Inequality	
6	Tuesday 9/22	☐ 9.2: Variables, Expressions, and Equations	Sunday 9/27 ☐ 9.2 ☐ T1 Review
	Thursday 9/24	☐ T1 Paper Review	
7	Tuesday 9/29	☐ Test 1	Sunday 10/4 ☐ 9.3 ☐ 9.4
	Thursday 10/1	☐ 9.3: Real Numbers and the Number Line ☐ 9.4: Adding Real Numbers	
8	Tuesday 10/6	☐ 9.5: Subtracting Real Numbers ☐ 9.6: Multiplying and Dividing Real Numbers	Sunday 10/11 ☐ 9.5 ☐ 9.6 ☐ 9.7 ☐ 9.8
	Thursday 10/8	☐ 9.7: Properties of Real Numbers ☐ 9.8: Simplifying Expressions	
9	Tuesday 10/13	☐ 10.1: The Addition Property of Equality ☐ 10.2: The Multiplication Property of Equality	Sunday 10/18 ☐ 10.1 ☐ 10.2 ☐ 10.3 ☐ 10.4
	Thursday 10/15	☐ 10.3: More on Solving Linear Equations ☐ 10.4: An Introduction to Applications of Linear Equations	
10	Tuesday 10/20	☐ T2 Paper Review	Wednesday 10/21 ☐ T2 Review
	Thursday 10/22	☐ Test 2	

11	Tuesday 10/27	☐ 10.5: Formulas and Additional Applications from Geometry ☐ 10.6: Solving Linear Inequalities	Sunday 11/1 ☐ 10.5 ☐ 10.6 ☐ 12.1 ☐ 12.2
	Thursday 10/29	☐ 12.1: The Product Rule and Power Rules for Exponents ☐ 12.2: Integer Exponents and the Quotient Rule	
12	Tuesday 11/3	☐ 12.3: An Application of Exponents: Scientific Notation ☐ 12.4: Adding and Subtracting Polynomials	Sunday 11/8 ☐ 12.3 ☐ 12.4 ☐ 12.5 ☐ 12.6
	Thursday 11/5	☐ 12.5: Multiplying Polynomials ☐ 12.6: Special Products	
13	Tuesday 11/10	☐ 13.1: Greatest Common Factors; Factor by Grouping ☐ T3 Paper Review	Wednesday 11/15 ☐ 13.1 ☐ T3 Review
	Thursday 11/12	☐ Test 3	
14	Tuesday 11/17	☐ 13.2: Factoring Trinomials	Sunday 11/22 ☐ 13.2 ☐ 13.3
	Thursday 11/19	☐ 13.3: Factoring Trinomials by Grouping	
15	Tuesday 11/24	☐ 13.4: Factoring Trinomials Using the FOIL Method	Sunday 11/29 ☐ 13.4 ☐ 13.5
	Thursday 11/26	☐ 13.5: Special Factoring Techniques	
16	Tuesday 12/1	☐ Final Exam Review	Sunday 12/2 ☐ Final Exam Review ☐ Late hmwks
	Thursday 12/3	☐ Final Exam	

MATH 1314.790
DC Pre-Calculus/College Algebra
Fall 2026

Instructor: Angela Calvin

Office:

Phone:

Email: acalvin@parisjc.edu

Office Hours: Monday to Thursday 3:15 to 3:45

Meeting Location: Paris High School

Meeting Days: Monday - Thursday

Meeting Times:

Course Description:

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. Pre-requisite: MATH 0401 or two years high school algebra and appropriate placement test.

Required Textbook(s) and Materials:

Blitzer, R. (2022). *Algebra and trigonometry*. 7e Hoboken, NJ: Pearson. ISBN: 978-0-13-446321-6

- Binder or folder (for notes and assignments)
- Pencil (No pen is allowed except when writing notes.)
- Loose leaf paper
- TI 84 CE
- Headphones that can be used with a Chromebook

Course Goals and Objectives:

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level)

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (MATH 1314 Course-Level)

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.

Important Dates:

August 24th - First Class Day PJC

September 7th - Labor Day

September 9th - ORD

October 16th - Midterm Grades

November 12th - Last day to withdraw

November 25 - 27 - Thanksgiving Holiday

November 30 - Classes Resume

December 8th - Final

Course Requirements and Evaluation:

The grading scale is as follows for PJC. The same is true for PHS except that 69% and below is an F.

90% – 100%	A
80% – 89%	B
70% – 79%	C
60% – 69%	D
0% – 59%	F

The grade weighting will be as follows for PJC.

Assignments	10%
Quizzes	10%
Test 1	10%
Test 2	10%
Mid-Term	15%
Test 3	10%
Test 4	10%
All Test Reviews	5%
Final	20%

You will have several assignments, quizzes, and test reviews, as well as 4 tests, 1 mid-term, and 1 final over the course of the **SEMESTER**. I will keep a detailed gradebook on Blackboard and an updated grade in the PHS gradebook. If you want to know your current grade for PJC, you can log into My Math Lab and see your running grade, or you can check the PHS student portal.

Per PJC and PHS math department policies, there are no test retakes. This is a non-negotiable. You are not allowed to retake any test or quiz, even if you get below 70%. If you are absent the day a test is given, you will have 3 days to make it up, after school in SLAM. If the test is not made up after 3 days, that test will be graded as a 0%.

All tests must be finished on the day it was given. It will start at the beginning of class and be due at the end of class. You will have 55 minutes to do your exam. If you do not finish the test, it will be graded as is on the work that you have already completed. **NOTE:** Once you close out of your test, when you reopen your test, the questions that you have already seen are no longer available for you to go back and correct. Please make sure you do not look through the whole test. All tests are timed. Once you have ran out of time, the test will end and it will be graded. If you are *allowed* extra time, you must make arrangements **PRIOR** to the test. Once the test has begun, if you have not made any arrangements to use the extra time you are allowed, you will not be able to.

There will be several assignments given this semester. All assignments will have a due date and are due by 11:59pm 2 days before the test. The test review will be due the day before the test at 11:59 pm. No late work will be accepted, even if you were absent, unless you have a doctor's note. If you will be out the day an assignment is due, you still must turn it in on the due date. You are given plenty of time to do all the work that is required of you and there will be days in class where you are able to work on the assignments as well. You must learn how to manage your time properly.

Grades will not be rounded for any reason. If you have an 89.7%, it will remain an 89.7% which will be a B. This class is a weighted GPA class. This is the main reason for no rounding or no extra credit.

You may **NOT** exempt the final exam for any reason. However, if you do poorly on the final exam, you will be allowed to exempt the score from going into the PHS gradebook.

There is no extra credit for this class. This is a 6 point weighted class and all grades will stand as is.

If you have accommodations at PHS, you **MUST** go to PJC and fill out the forms for PJC. Your PHS accommodations will not apply to this class, you **MUST** have PJC accommodations. You will fill out the form, then you will bring it to me to sign. Once this happens, then your accommodations will begin at that time. Accommodations are **NOT** retro-active. They start from the moment I sign the PJC accommodation form. This is a non-negotiable. This has to be done for each semester.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

While in class, you will not be allowed to work on another teacher's assignment. If you are caught working on another teacher's assignment, that assignment will be taken up and returned to the teacher that assigned it to you. You will not have access to Google Docs, Sheets, Slides, or any other website the other teachers will be requesting. You will not have access to Google Classroom. If you have finished your assignment for this class, then you may read a book. You will not have access to YouTube, so do not ask for it to be unblocked.

You will be monitored via Go Guardian. You will have access to Delta Math and any other websites that are important for this class. If you are caught on another website that is not authorized or any type of games, especially those that are from extensions, you will lose access to the Chromebooks during this class period for the next 4 class periods.

All backpacks and purses will be stored at the front of the class in the backpack area. If you have a purse, you may need to place it in your backpack. You will not be allowed to take your backpack and/or purse to the restroom.

You will need to make sure that you take care of personal business before you come to class. Once the bell has rung, then you will be considered tardy. You will have the option of serving your lunch detention during lunch or you may come in during tutorials to do your lunch detention.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 12th*.

You must be present at least 90% for the semester and maintain at least a 70% in order to get credit for the class for PHS. This means that you cannot be absent more than 8 days a semester.

Per Paris ISD attendance policy: **A signed parent's note or doctor's note must be provided to the campus immediately upon return in order for the absence to be considered excused. Notes submitted more than three school days after the absence will NOT be considered, and the absence will remain unexcused.** If you are absent it is your responsibility to make arrangements: do not delay!

Cellphones and other Personal Electronic Devices

Texas House Bill 1481, also known as the "Texas Cell Phone Ban," requires all Texas school districts to develop and implement policies prohibiting student use of personal electronic devices, including cell phones, smartwatches, and tablets, during the school day. The bill applies to all public school districts and open-enrollment charter schools in the state of Texas. The school day is from the moment you enter the building to 4:15 pm. This means that you are not allowed to have any personal electronic devices during breakfast, passing period, lunch, or in class. You are allowed to have them during and after school activity or after 4:15 pm and on the school bus.

The law is designed to support student learning, reduce distractions, and limit the potential for cyberbullying.

What this means is as follows:

Students may not use personal communication devices at any time during the school day. All devices must be powered off and kept either in your backpack or you can request a locker. You are **NOT** allowed to have any personal electronic device on your person. This means you cannot have it in your purse, in your back pocket, on your wrist, or anywhere else. Either a backpack or in your assigned locker.

The following is a non-exhaustive list of personal electronic devices that fall under HB 1481:

- Personal Cell Phone
- Tablets
- Gaming Devices
- Smart Watches
- Bluetooth Headphones
- Bluetooth Earbuds
- Fitness Trackers
- Personal (Non-District Issued) Computers
- Two-Way Radios
- Any other device capable of digital communication

Failure to adhere to this law will result in the following consequences:

- 1st time – 2 days ISS
- 2nd time – 4 days ISS
- 3rd time – 8 days ISS or DAEP

If you refuse to give up your device(s), automatic 24 days at DAEP. There are **NO** warnings or grace periods. This will start day 1 of the school year and continue through the remainder of the year.

Substitutes

There will be times that I will not be here. Whoever covers my classes deserves the same respect that I am asking for. If there is an issue, just do what you were asked to do and we can talk about it when I am back. Do not make an issue worse by arguing. Also, per school policy, you are not allowed out of the classroom for any reason when there is a substitute. Make sure you handle all of your personal business before you get to class. If you are called out, that will be fine, but you will not be able to leave. This is a safety reason and is a non-negotiable.

Class Conduct:

No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Tutorials and Extra Help:

If you need additional help, my office hours are from 3:15 pm to 3:45 pm. If you need additional help, my office hours are from 3:15 pm to 3:45 pm and tutorials. There will be 1 day a week that there will not be tutorials, it will either be Wednesday or Thursday. That day will be announced shortly. In addition to this, you will have access to the math lab at the main PJC campus in the Math and Science Building. Please check their website for open times. Also, in Blackboard, you have access to [Tutor.com](https://www.tutor.com). This is a free service that is offered to you to get extra help. It is available 24 hours a day, 7 days a week.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas

institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

TOPICS: The topics to be discussed are listed below with an approximate pacing.

I. Introduction (week 1)

- Goals for Course
- Working in Groups
- Calculators & Computers
- Number System

II. Review (weeks 1 & 2)

- Absolute Values
- Inequalities
- Integer Exponents
- Polynomials
- Radicals & Fractional Exponents
- Pythagorean Theorem

III. Equations (weeks 3 & 4)

- Linear Equations
- Quadratic Equations
- Applications of Equations
- Other Equations

IV. Inequalities (weeks 5 & 6)

- Linear Inequalities
- Quadratic Inequalities
- Applications of Inequalities

V. Graphing (weeks 7, 8 & 9)

- Intro to Graphing
- Distance Midpoint Formulas
- Circles
- Lines

VI. Functions (weeks 10 & 11)

- Definition & Notation
- Function Operations
- Graphs of Functions
- Functions as Models
- Quadratic Functions
- One-to-One Functions & Inverses

VII. Exponentials & Logarithms (weeks 12, 13 & 14)

- Definitions & Graphs of Exponential Functions
- Exponential Growth & Decay
- Logarithmic Functions
- Exponential & Logarithmic Applications

MATH 1314.730
College Algebra
Fall 2026

Instructor: Amber Davis
Office: GHS 2223
Phone: (903) - 453 - 3708
Email: davisa1@greenvilleisd.com

Meeting Location: GHS 2223
Meeting Days: MTWRF
Tutoring Hours: M, T, Th 4:10 PM - 5:00 PM
Additional tutoring by appointment

Course Description:

This is a lecture-style course. Topics covered in this course typically include but are not limited to: equations, inequalities, mathematical models, functions, graphs, polynomial functions, rational functions, exponential functions, logarithmic functions, systems of equations, and determinants. This course also prepares students for SAT/ACT Math tests.

Credit: 3 hrs

TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragonow, the campus-wide affordable course materials program. Your book is billed with your tuition; you will not need to make a separate purchase.

For this course, we will be using a digital eBook accessed through Brytewave. You will receive an email from Brytewave donotreply@redshelf.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf. The first time you access the eBook you will see a screen prompting you to "View Course Materials".

You will also need a graphing calculator for this course. One will be provided during class, but you are expected to have access to a calculator outside of the classroom. Online, *Desmos* is a free calculator that works well. Available for free phone download is *Calculate84*.

The course will require Blackboard to complete assignments.

Course Goals and Objectives:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions, and solve related equations.

3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Schedule:

- 1.1 Fundamentals of Algebra
- 1.2 Linear and Rational Equations
- 1.3 Complex Numbers
- 1.4 Quadratic Equations
- 1.5 Other Types of Equations
- 1.6 Linear and Absolute Value Inequalities
- 1.7 Systems of Linear Equations in Two Variables

- 2.1 Basics of Functions and Their Graphs
- 2.2 More on Functions and Their Graphs
- 2.3 Linear Functions and Slope
- 2.4 More on Slope
- 2.5 Combinations of Functions, Composite Functions
- 2.6 Inverse Functions

- 3.1 Quadratic Functions
- 3.2 Polynomial Functions and Their Graphs
- 3.3 Dividing Polynomials
- 3.4 Zeros of Polynomial Functions
- 3.4 Rational Functions and Their Graphs

- 4.1 Exponential Functions
- 4.2 Logarithmic Functions
- 4.3 Properties of Logarithms
- 4.4 Exponential and Logarithmic Equations

Course Requirements and Evaluation:

- Test 1 - 15.75%
- Test 2 - 15.75%
- Test 3 - 15.75%
- Test 4 - 15.75%
- Final Exam - 10%
- Homework, Quizzes, & Other Daily Grades - 27%

Grades will be determined by overall percentages at the end of the course.

90 - 100 A
80 - 89 B
70 - 79 C
60 - 69 D
< 60 F

A grade of 70 or above is required to pass this course in order to receive dual credit.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

GHS Classroom Procedures:

- By state law, cell phones and other personal electronic devices cannot be visible during school hours. Please make sure that all devices are turned off and put away during class time.
- Absences: It is your responsibility to find out what you missed after an absence. Notes will be posted in Google Classroom for you to catch up. Assignment due dates listed in Blackboard will not change due to an absence. You are expected to complete all assignments by their due date.
- Cheating will result in an automatic zero on an assignment, and disciplinary action may be taken. Cheating in a college course can lead to expulsion from a university or college.

Dual Credit Classroom Procedures:

- Late work will not be accepted. All homework assignments in Blackboard have the due date listed. Due dates can also be found on the course calendar in Google Classroom.
- All test grades in this class will be final. There are no retakes or corrections on tests.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 13th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

AI Statement

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations.) Any AI tool must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Apps like Photomath can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4 F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication.)

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Disclaimer

This syllabus is subject to change by the instructor. Should a change be made, students will be notified and a new syllabus will be posted in Google Classroom.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

Course Description:

This is a lecture-style course. Topics covered in this course typically include but are not limited to: equations, inequalities, mathematical models, functions, graphs, polynomial functions, rational functions, exponential functions, logarithmic functions, systems of equations, and determinants. This course also prepares students for SAT/ACT Math tests.

Credit: 3 hrs
TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Blackboard. For this course, we will be using a digital eBook accessed through Pearson.

You will need a notebook in class daily to house your notes for the course. This notebook will be utilized at various opportunities, such as on quizzes and homework assignments.

You will also need a graphing calculator for this course. One will be provided during class, but you are expected to have access to a calculator outside of the classroom. Online, *Desmos* is a free calculator that works well. Available for free phone download is *Calculate84*.

Course Goals and Objectives:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions, and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher-degree polynomials and rational functions.
5. Recognize, solve, and apply systems of linear equations using matrices.

Course Schedule:

The calendar of due dates, sections covered by day, and testing dates will be maintained in Google Classroom. This calendar will be updated regularly. Please refer to it as needed to keep track of course progression.

1.0 Fundamentals of Algebra

- 1.1 Exponent Rules
- 1.2 Linear and Rational Equations
- 1.3 Complex Numbers
- 1.4 Quadratic Equations
- 1.5 Other Types of Equations
- 1.6 Linear and Absolute Value Inequalities
- 1.7 Systems of Linear Equations in Two Variables

2.1 Basics of Functions and Their Graphs

- 2.2 More on Functions and Their Graphs
- 2.3 Linear Functions and Slope
- 2.4 More on Slope
- 2.5 Combinations of Functions, Composite Functions
- 2.6 Inverse Functions

3.1 Quadratic Functions

- 3.2 Polynomial Functions and Their Graphs
- 3.3 Dividing Polynomials
- 3.4 Zeros of Polynomial Functions
- 3.4 Rational Functions and Their Graphs

4.1 Exponential Functions

- 4.2 Logarithmic Functions
- 4.3 Properties of Logarithms
- 4.4 Exponential and Logarithmic Equations

Course Requirements and Evaluation:

Major Grades (Tests, Projects, Final Exam) - 70%

Minor Grades (Homework, Quizzes, & Other Daily Grades) - 30%

**** Quizzes will be weighted as double-minor grades ****

Grades will be determined by overall percentages at the end of the course.

90 - 100 A

80 - 89 B

70 - 79 C

60 - 69 D

< 60 F

A grade of 70 or above is required to pass this course in order to receive dual credit.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). **Math 1314.91A0
College Algebra
Fall 2026**

Instructor: Jackilyn Abbott
Office: RCHS CCA 206
Phone: 972-636-9991
Email: jabbott@parisjc.edu

Meeting Location: RCHS CCA 206
Meeting Days: MTWThF
Meeting Times: various

Office Hours: Tues – Thur 7:35 – 8:05am & 3:50 – 4:50pm

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

Credits: SCH = 3

TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Blitzer Algebra and Trigonometry, 7th Edition.) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition, please get a 1" Binder and a package of loose leaf paper to keep and organize all notes and course materials. Graphing calculator TI-83, TI-84, or TI-89 is recommended and allowed to use during lectures and partially during exams. You can download an app on your phone or use the online emulator: <https://ti84calc.com/ti84calc>

Student must have the necessary basic computer skills to successfully utilize Blackboard and Pearson. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Pearson.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (Math 1314 course level):

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Students are expected to “attend class regularly. Grades for the semester are calculated based on the student’s performance on homework, test reviews, three major tests, quizzes, attendance time requirements, and the comprehensive final examination. Course grades are calculated as follows:

Quizzes/Projects	10%
Homework Average	15%
Test Average (4 Major Tests)	60%
Comprehensive Final Exam	15%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89.9	B
70-79.9	C
60-69.9	D
Below 60	F

Online Homework:

Homework: Homework will be assigned every class period. The homework is a must for success in this class. Homework is due a week after the day that is assigned (or before the exam day, whichever comes first). No late work will be accepted. Please do not wait until the due date to complete your homework to avoid emergency situations or running into technical difficulties. If a student experiences any technical difficulties with Pearson, be sure to use the online help and technical support from Pearson. If a student continues to have trouble accessing or navigating the software, please contact the instructor for some individual help. All students should have a goal of 90 or higher on their homework BECAUSE:

1. You get TWO chances to get each question correct.
2. You can press SIMILAR EXERCISE after you get the question wrong with your first 2 chances. Once you complete the newly generated question correctly, the previous wrong attempt is forgotten and will not affect your score. You can also use this feature to repeatedly try problems of the same type to review for a test.
3. Press VIEW AN EXAMPLE to see a step-by-step example that is exactly the same process, but with different numbers.
4. Try not to press SHOW ME HOW TO SOLVE. This will walk you through the problem step by step; however, you do not receive full credit for the problem.
5. If your answer looks identical to the answer they tell you, TAKE A PICTURE and email it to Mrs. Abbott. She will change your score accordingly.

Exams: We will have 4 exams and a comprehensive final exam. All exams will be in class in paper/pencil format. Makeup exams will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the exam. The lowest exam grade will be replaced by your final exam score.

Quizzes: Quizzes will be given in class periodically to assess your knowledge of course material and assignments. Makeup quizzes will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the quiz.

Projects: Projects may be given periodically throughout the semester. No late activities/projects will be accepted.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline (September 8) will be reported as non-attending and will be dropped from the course.

Course Policies

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures.

Cell Phones: While in class, taking exams, or taking quizzes, cell phones and other electronic devices must be **TURNED OFF** and stored in the student's backpack. The only electronic

device allowed during class, exams, and quizzes is a stand-alone calculator (such as a TI-84) and only with the instructor's permission.

Class Attendance

Class attendance is critical for successful completion of the course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday November 12, 2024.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Artificial intelligence (AI) tools like Photomath, can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

If you have received accommodations in previous semesters you will need to reapply:

- 1) Visit <https://www.parisjc.edu/main/disabilities/>
- 2) View Request for Accommodations Form. This is what you need to fill out and turn in.
- 3) Call 903-454-9333 for an appointment with an advisor from the Counseling Center or stop by if you have more questions.
- 4) Fax 903-782-0796 the form with a cover letter including your name, ID number and advisor.
- 5) Email results to Mrs. Abbott so she can provide accommodations in class.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule: You can access the tentative schedule through blackboard which will be the most up to date schedule. Below is a rough outline of what will be covered each week.

Week	Dates	Events	Comments
0	8/17 – 8/21	Syllabus; Algebra Rev; Section 1.2	
1	8/24 – 8/28	Section 1.4, 1.5	
2	8/31 – 9/4	Section 1.6, 1.7	
3	9/7 – 9/11	Section 8.1, Review, Exam #1	9/7 - No School
4	9/14 – 9/18	Section 2.1, 2.2, 2.3	
5	9/21 – 9/25	Section 2.4, 2.6	9/21 & 9/22 – No School
6	9/28 – 10/2	Section 2.7, Review, Exam #2	
7	10/5 – 10/9	Section 3.1, 3.2	
10/12 – 10/16 Fall Break – No School			
8	10/19 – 10/23	Sections 3.3, 3.4	10/19 – No School
9	10/26 – 10/29	Section 3.5, Review, Exam #3	
10	11/2 – 11/6	Section 4.1, 4.2	
11	11/9 – 11/13	Section 4.3, 4.4	
12	11/16 – 11/20	Review; Exam #4	
11/23 – 11/27 Thanksgiving Break – No School			
13	11/30 – 12/4	Final Exam Review	
14	12/7 – 12/10	Final Exam Week

Instructor: Tom Witt
Office: RCHS CCA 235
Phone: 972-636-9991
Email: twitt@parisjc.edu

Meeting Location: RCHS CCA 235
Meeting Days: MTWThF
Meeting Times: various

Office Hours: Tues – Thur 7:35 – 8:05am & 3:50 – 4:50pm

Course Description:

In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

Credits: 3 Lecture Hours per Week

Credits: SCH = 3

TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with Pearson MyLab (Blitzer Algebra and Trigonometry, 7th Edition.) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition, please get a 1" Binder and a package of loose leaf paper to keep and organize all notes and course materials. Graphing calculator TI-83, TI-84, or TI-89 is recommended and allowed to use during lectures and partially during exams. You can download an app on your phone or use the online emulator: <https://ti84calc.com/ti84calc>

Students must have the necessary basic computer skills to successfully utilize Blackboard and Pearson. Students must also have a personal computer with reliable internet service or access to a computer with reliable internet service a minimum of five days a week. The computer must meet the minimum system requirements of Blackboard and Aleks.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (Math 1314 course level):

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Course Requirements and Evaluation:

Students are expected to "attend class regularly. Grades for the semester are calculated based on the student's performance on homework, test reviews, three major tests, quizzes, attendance time requirements, and the comprehensive final examination. Course grades are calculated as follows:

Quizzes/Projects	10%
Homework Average	15%
Test Average (4 Major Tests)	60%
Comprehensive Final Exam	15%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89.9	B
70-79.9	C
60-69.9	D
Below 60	F

Online Homework:

Homework: Homework will be assigned every class period. The homework is a must for success in this class. Homework is due a week after the day that is assigned (or before the exam day, whichever comes first). No late work will be accepted. Please do not wait until the due date to complete your homework to avoid emergency situations or running into technical difficulties. If a student experiences any technical difficulties with Pearson, be sure to use the online help and technical support from Pearson. If a student continues to have trouble accessing or navigating the software, please contact the instructor for some individual help. All students should have a goal of 90 or higher on their homework BECAUSE:

1. You get TWO chances to get each question correct.
2. You can press SIMILAR EXERCISE after you get the question wrong with your first 2 chances. Once you complete the newly generated question correctly, the previous wrong attempt is forgotten and will not affect your score. You can also use this feature to repeatedly try problems of the same type to review for a test.
3. Press VIEW AN EXAMPLE to see a step-by-step example that is exactly the same process, but with different numbers.
4. Try not to press SHOW ME HOW TO SOLVE. This will walk you through the problem step by step; however, you do not receive full credit for the problem.
5. If your answer looks identical to the answer they tell you, TAKE A PICTURE and email it to Mrs. Abbott. She will change your score accordingly.

Exams: We will have 4 exams and a comprehensive final exam. All exams will be in class in paper/pencil format. Makeup exams will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the exam. The lowest exam grade will be replaced by your final exam score.

Quizzes: Quizzes will be given in class periodically to assess your knowledge of course material and assignments. Makeup quizzes will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the quiz.

Projects: Projects may be given periodically throughout the semester. No late activities/projects will be accepted.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline (September 8) will be reported as non-attending and will be dropped from the course.

Course Policies

Adhere to the policies set in place by the PJC Student Handbook. Communicate with your instructor regarding absences in a timely manner in order to resolve any issues that could occur from missing lectures.

Cell Phones: While in class, taking exams, or taking quizzes, cell phones and other electronic devices must be **TURNED OFF** and stored in the student's backpack. The only electronic device allowed during class, exams, and quizzes is a stand-alone calculator (such as a TI-84) and only with the instructor's permission.

Class Attendance

Class attendance is critical for successful completion of the course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday November 12, 2024.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Artificial intelligence (AI) tools like Photomath, can be useful when used to help understand the solutions in the homework; but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

If you have received accommodations in previous semesters you will need to reapply:

- 1) Visit <https://www.parisjc.edu/main/disabilities/>
- 2) View [Request for Accommodations Form](#). This is what you need to fill out and turn in.
- 3) Call 903-454-9333 for an appointment with an advisor from the Counseling Center or stop by if you have more questions.
- 4) Fax 903-782-0796 the form with a cover letter including your name, ID number and advisor.
- 5) Email results to Mrs. Abbott so she can provide accommodations in class.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule: You can access the tentative schedule through blackboard which will be the most up to date schedule. Below is a rough outline of what will be covered each week.

Week	Dates	Events	Comments
0	8/17 – 8/21	Syllabus; Algebra Rev; Section 1.2	
1	8/24 – 8/28	Section 1.4, 1.5	
2	8/31 – 9/4	Section 1.6, 1.7	
3	9/7 – 9/11	Section 8.1, Review, Exam #1	9/7 - No School
4	9/14 – 9/18	Section 2.1, 2.2, 2.3	
5	9/21 – 9/25	Section 2.4, 2.6	9/21 & 9/22 – No School
6	9/28 – 10/2	Section 2.7, Review, Exam #2	
7	10/5 – 10/9	Section 3.1, 3.2	
10/12 – 10/16 Fall Break – No School			
8	10/19 – 10/23	Sections 3.3, 3.4	10/19 – No School
9	10/26 – 10/29	Section 3.5, Review, Exam #3	
10	11/2 – 11/6	Section 4.1, 4.2	
11	11/9 – 11/13	Section 4.3, 4.4	
12	11/16 – 11/20	Review; Exam #4	
11/23 – 11/27 Thanksgiving Break – No School			
13	11/30 – 12/4	Final Exam Review	
14	12/7 – 12/10	Final Exam Week	

Math 1350.91A0
FUNDAMENTALS OF MATHEMATICS I
Fall 2026

Instructor: Jackilyn Abbott
Office: RCHS CCA 206
Phone: 972-636-9991
Email: jabbott@parisjc.edu
Office Hours: Tues – Thur 7:35 – 8:05am & 3:50 – 4:50pm

Meeting Location: RCHS CCA 206
Meeting Days: MTWThF
Meeting Times: 2:00pm – 2:47pm

Course Description:

This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the conceptual development of the following: sets, functions, numeration systems, number theory, and properties of the various number systems with an emphasis on problem solving and critical thinking. Credits: SCH = 3 lecture TSI Requirement: Math 950+. Prerequisite(s): MATH 1314 College Algebra

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

You will be able to access the textbook and learning materials directly through Blackboard Ultra. The following textbook is available a click away in your homework program by pressing VIEW TEXTBOOK. There is no need to purchase a physical copy of the book. A Problem Solving Approach to Mathematics, Billstein, Boschmans, Libeskind, Lott, 13th Edition. ISBN: 978-0-13-518388-5

If you wish to opt out of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills--to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills--to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Empirical and Quantitative Skills--to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

Student Learning Outcomes (Mathematics Program-Level):

1. Apply algebraic, analytic, geometric, or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline.
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them.
3. Construct and interpret mathematical models using numerical, graphical, symbolic, and verbal representations with the help of technology in order to draw conclusions or make predictions.

Student Learning Outcomes (Math 1350 course level):

1. Explain and model the arithmetic operations for whole numbers and integers.
2. Explain and model computations with fractions, decimals, ratios, and percentages.
3. Describe and demonstrate how factors, multiples, and prime numbers are used to solve problems.
4. Apply problem solving skills to numerical applications.
5. Represent and describe relationships among sets using the appropriate mathematical terminology and notation.
6. Compare and contrast structures of numeration systems

Course Requirements and Evaluation:

Students are expected to “attend class regularly. Grades for the semester are calculated based on the student’s performance on homework, test reviews, three major tests, quizzes, attendance time requirements, and the comprehensive final examination. Course grades are calculated as follows:

Quizzes	10%
Homework Average	15%
Test Average (3 Major Tests)	60%
Comprehensive Final Exam	15%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89.9	B
70-79.9	C
60-69.9	D
Below 60	F

Online Homework: The due dates are next to each assignment in the homework program, and on the “Calendar of Dates, lessons, homeworks, Quizzes, Tests, and Appointments” in Blackboard-> Materials. Late homework will be NOT be accepted.

All students should have a goal of 90 or higher on their homework BECAUSE:

1. You get TWO chances to get each question correct.
2. You can press SIMILAR EXERCISE after you get the question wrong with your first 2 chances. Once you complete the newly generated question correctly, the previous wrong attempt is forgotten and will not affect your score. You can also use this feature to repeatedly try problems of the same type to review for a test.
3. Press VIEW AN EXAMPLE to see a step-by-step example that is exactly the same process, but with different numbers.
4. Try not to press SHOW ME HOW TO SOLVE. This will walk you through the problem step by step; however, you do not receive full credit for the problem.
5. If your answer looks identical to the answer they tell you, TAKE A PICTURE and email it to Mrs. Abbott. She will change your score accordingly.

Exams: We will have 3 exams and a comprehensive final exam. All exams will be in class in paper/pencil format. Makeup exams will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the exam. The lowest exam grade will be replaced by your final exam score.

Quizzes: Quizzes will be given in class periodically to assess your knowledge of course material and assignments. Makeup quizzes will **NOT** be given unless a student contacted Mrs. Abbott by email BEFORE the exam.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Cell Phones: While in class, taking exams, or taking quizzes, cell phones and other electronic devices must be TURNED OFF and stored in the student's backpack. The only electronic device allowed during class, exams, and quizzes is a stand-alone calculator (such as a TI-84) and only with the instructor's permission.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday November 12, 2024.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

If you have received accommodations in previous semesters you will need to reapply:

- 1) Visit <https://www.parisjc.edu/main/disabilities/>
- 2) View [Request for Accommodations Form](#). This is what you need to fill out and turn in.
- 3) Call 903-454-9333 for an appointment with an advisor from the Counseling Center or stop by if you have more questions.

- 4) Fax 903-782-0796 the form with a cover letter including your name, ID number and advisor.
- 5) Email results to Mrs. Abbott so she can provide accommodations in class.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by blackboard and student PJC email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule: You can access the tentative schedule through blackboard which will be the most up to date schedule. Below is a rough outline of what will be covered each week.

Week	Dates	Events	Comments
0	8/17 – 8/21	Syllabus; Algebra Rev; Section 1.1	
1	8/24 – 8/28	Section 1.2, 2.2	
2	8/31 – 9/4	Section 2.3, 3.1	
3	9/7 – 9/11	Section 3.2, 3.3	9/7 - No School
4	9/14 – 9/18	Section 3.4, 3.5

MATH 2413.74A0
Calculus I
Fall 2026

Instructor: Taylor Lulashnyk
Office: GHS 1606
Phone: (903) - 453 - 3733
Email: lulashnykt@greenvilleisd.com

Meeting Location: GHS 1606
Meeting Days: MTWRF
Tutoring Hours: T-Th 4:10 PM - 4:30 PM
Additional tutoring by appointment

Course Description:

This is a lecture-style course. This course examines differential and integral calculus of functions of one variable. Topics include limits, continuity, derivatives, curve sketching, applications of the derivative, the definite integral, derivatives and inverse trigonometric functions, and the use of computer technology.

Credit: 4 SCH

TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Blackboard and Google Classroom. For this course, we will be using a digital eBook accessed through Pearson.

You will need a notebook in class daily to house your notes for the course. This notebook will be utilized at various opportunities, such as on quizzes and homework assignments.

You will also need a graphing calculator for this course. One will be provided during class, but you are expected to have access to a calculator outside of the classroom. Online, *Desmos* is a free calculator that works well. Available for free phone download is *Calculate84*.

Course Goals and Objectives:

1. Develop solutions for tangent and area problems using the concepts of limits, derivatives, and integrals.
2. Draw graphs of algebraic and transcendental functions considering limits, continuity, and differentiability at a point.
3. Determine whether a function is continuous and/or differentiable at a point using limits.
4. Use differentiation rules to differentiate algebraic and transcendental functions.
5. Identify appropriate calculus concepts and techniques to provide mathematical models of real-world situations and determine solutions to applied problems.
6. Evaluate definite integrals using the Fundamental Theorem of Calculus.
7. Articulate the relationship between derivatives and integrals using the Fundamental Theorem of Calculus.

Course Schedule:

The calendar of due dates, sections covered by day, and testing dates will be maintained in Google Classroom. This calendar will be updated regularly. Please refer to it as needed to keep track of course progression.

- 2.1 – The Idea of Limits
- 2.2 – Definitions of Limits
- 2.3 – Techniques for Computing Limits
- 2.4 – Infinite Limits
- 2.5 – Limits at Infinity
- 2.6 – Continuity
- 2.7 – Precise Definitions of Limits

- 3.1 – Introducing the Derivative
- 3.2 – The Derivative as a Function
- 3.3 – Rules of Differentiation
- 3.4 – The Product and Quotient Rules
- 3.5 – Derivatives of Trigonometric Functions
- 3.7 – The Chain Rule
- 3.8 – Implicit Differentiation
- 3.9 – Derivatives of Logarithmic and Exponential Functions
- 3.10 – Derivatives of Inverse Trigonometric Functions
- 3.11 – Related Rates

- 4.1 – Maxima and Minima
- 4.2 – Mean Value Theorem
- 4.3 – What Derivatives Tell Us
- 4.5 – Optimization Problems
- 4.4 – Graphing Functions
- 4.7 – L'Hôpital's Rule
- 4.9 – Antiderivatives

- 5.0 – Sigma Notation and Limits of Finite Sums
- 5.1 – Approximating Areas Under Curves
- 5.2 – Definite Integrals
- 5.3 – Fundamental Theorem of Calculus
- 5.5 – Substitution Rule

Course Requirements and Evaluation:

Major Grades (Tests, Projects, Final Exam) - 70%

Minor Grades (Homework, Quizzes, & Other Daily Grades) - 30%

**** Quizzes will be weighted as double-minor grades ****

Grades will be determined by overall percentages at the end of the course.

90 - 100 A

80 - 89 B

70 - 79 C

60 - 69 D

< 60 F

A grade of 70 or above is required to pass this course in order to receive dual credit.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

GHS Classroom Procedures:

- By state law, cell phones and other personal electronic devices cannot be visible during school hours. Please make sure that all devices are turned off and put away during class time.
- Absences: It is your responsibility to find out what you missed after an absence. Notes will be posted in Google Classroom for you to catch up. Assignment due dates listed in Blackboard will not change due to an absence. You are expected to complete all assignments by their due date.
- Cheating will result in an automatic zero on an assignment, and disciplinary action may be taken. Cheating in a college course can lead to expulsion from a university or college.

Dual Credit Classroom Procedures:

- Late work will not be accepted. All homework assignments in Blackboard have the due date listed. Due dates can also be found on the course calendar in Google Classroom.
- All test grades in this class will be final. There are no retakes or corrections on tests.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 13th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

AI Statement

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Apps like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test, therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4 F or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication.)

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

MATH 2415.74A0
Calculus III
Fall 2026

Instructor: Taylor Lulashnyk
Office: GHS 1606
Phone: (903) - 453 - 3733
Email: lulashnykt@greenvilleisd.com

Meeting Location: GHS 1606
Meeting Days: MTWRF
Tutoring Hours: T-Th 4:10 PM - 4:30 PM
Additional tutoring by appointment

Course Description:

This is a lecture-style course. This course is a continuation of the integrated study of analytic geometry and calculus with an emphasis on an understanding of fundamental concepts. Topics include parametric equations and polar coordinates, vectors, applications of vectors, motion, partial derivatives and applications, and multiple integrals with two variables and applications. Credit: 4 SCH
TSI Requirement: 950 Math

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Blackboard and Google Classroom. For this course, we will be using a digital eBook accessed through Pearson.

You will need a notebook in class daily to house your notes for the course. This notebook will be utilized at various opportunities, such as on quizzes and homework assignments.

You will also need a graphing calculator for this course. One will be provided during class, but you are expected to have access to a calculator outside of the classroom. Online, *Desmos* is a free calculator that works well. Available for free phone download is *Calculate84*.

Course Goals and Objectives:

1. The student is expected to perform calculus operations on functions of several variables, including partial derivatives, directional derivatives, and multiple integrals.
2. The student is expected to apply arithmetic, algebraic and higher-order thinking to modeling and solving real-world solutions.
3. The student is expected to represent and evaluate mathematical information verbally, numerically, and graphically.

Course Schedule:

The calendar of due dates, sections covered by day, and testing dates will be maintained in Google Classroom. This calendar will be updated regularly. Please refer to it as needed to keep track of course progression.

11.1 Three-Dimensional Coordinate Systems

11.2 Spherical Figures

11.3 Quadric Surfaces

11.4 Vectors

11.5 The Dot Product

11.6 The Cross Product

11.7 Applications of the Dot and Cross Products

12.1 Writing Equations of Lines in Three-Dimensions

12.2 Equations of Planes in Three-Dimensions

12.3 Vector-Valued-Functions

12.4 Limits and Derivatives of VVFs

12.5 Integrals of VVFs

12.6 Applications of Integration with VVFs - Curvature, Arc Length

12.7 Motion in Space

13.1 Parametric Equations

13.2 Cartesian vs. Polar Coordinate Systems

13.3 More on Parametric Equations

13.4 Polar Coordinates

14.1 Functions of Several Variables; Level Curves

14.2 Limits & Continuity

14.3 Double Integrals Over Rectangular Regions

14.4 Double Integrals Over General Regions

14.5 Triple Integrals

Course Requirements and Evaluation:

Major Grades (Tests, Projects, Final Exam) - 70%

Minor Grades (Homework, Quizzes, & Other Daily Grades) - 30%

**** Quizzes will be weighted as double-minor grades ****

Grades will be determined by overall percentages at the end of the course.

90 - 100 A

80 - 89 B

70 - 79 C

60 - 69 D

< 60 F

A grade of 70 or above is required to pass this course in order to receive dual credit.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

GHS Classroom Procedures:

- By state law, cell phones and other personal electronic devices cannot be visible during school hours. Please make sure that all devices are turned off and put away during class time.
- Absences: It is your responsibility to find out what you missed after an absence. Notes will be posted in Google Classroom for you to catch up. Assignment due dates listed in Blackboard will not change due to an absence. You are expected to complete all assignments by their due date.
- Cheating will result in an automatic zero on an assignment, and disciplinary action may be taken. Cheating in a college course can lead to expulsion from a university or college.

Dual Credit Classroom Procedures:

- Late work will not be accepted. All homework assignments in Blackboard have the due date listed. Due dates can also be found on the course calendar in Google Classroom.
- All test grades in this class will be final. There are no retakes or corrections on tests.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Thursday, November 13th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

MDCA 1309.20D0
Anatomy and Physiology for Medical Assistants
Fall 2026

Instructor: Kendra Waldroup, RN
Office: Room 211
Phone: 903-737-2003
Email: kwaldroup@northlamar.net
Office Hours: email to schedule appt.

Meeting Location: Room 211
Meeting Days: Tuesday-Friday
Meeting Times: During Health Science Period

Course Description:

Emphasis on structure and function of human cells, tissues, organs, and systems with overview of common pathophysiology. The student will identify and correlate cells, tissues, organs, and systems of the human body; differentiate normal from abnormal structure and function; and differentiate all body systems, their organs, and relevant pathophysiology.

3 credit hours

Prerequisite(s): none

Required Textbook(s) and Materials:

The Human Body In Health & Illness 6th edition

Author: Herlihy

Publisher: Elsevier - Health Sciences Division

ISBN: 9780323498449

Recommended:

The Human Body In Health & Illness (SG) 6th edition – STUDY GUIDE

Author: Herlihy

Publisher: Elsevier - Health Sciences Division

ISBN: 9780323498364

Course Goals and Objectives:

At the conclusion of this course, students should be able to perform the following functions:

1. Apply knowledge of anatomy and physiology, and clinical disease processes
2. Identify and correlate cells, tissues, organs, and systems of the human body
3. Differentiate normal from abnormal structure and function
4. Identify all body systems, their organs, and relevant physiology

Course Requirements and Evaluation: Each week has a content folder with 2 chapters per folder (except Chapter 25-27). For each chapter there are 1 or 2 PRACTICE activities titled "Word Builder" or "Topic-By-Topic" a practice exam and one graded exam containing chapters. The practice activities are recommended, not required. The chapter exams are required and graded. Your weekly assignments are to read the assigned chapters, and complete (at minimum) the chapter exams.

In order to pass MDCA 1309.200, the student must achieve a final average grade of 70 or higher. The final grade average will consist of:

27 Chapter Exams taken on your own/at home, 7 UNIT exams, and 1 final exam The weights are as follows:

15 Chapter Exams +1 syllabus quiz – 50% total grade

6 Unit Exams – 40% total grade

1 Final Exam – 10% Total Grade

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Insert faculty procedures for class management

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **11/12/2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic needs assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Subject to change at the discretion of the instructor

Week 1-Introduction to the Human Body, Basic Chemistry

Week 2-Cells

Week 3-Cell Metabolism, Microbiology Basics

Week 4-Tissues and Membranes, Integumentary System and Body Temperature

Week 5-Skeletal System, Muscular System

Week 6-Nervous System

Week 7-Autonomic Nervous System, Sensory System

Week 8-Endocrine System, Blood

Week 9-Anatomy of the Heart, Function of the Heart

Week 10-Anatomy and Functions of the Blood Vessels

Week11-Lymphatic System, Immune System

Week12-Respiratory System, Digestive System

Week13-Urinary System, Water, Electrolyte, and Acid-Base Balance

Week 14- Reproductive Systems, Human Development and Heredity

Week 15/16 -Review, Final

BIOL 2420.20D0
Microbiology for Non-Science Majors (Lecture + Lab)
Fall 2026

Instructor: Dr. Beverly Kopachena

Office: SS #112

Phone: 903-885-1232 (please use **EMAIL** or **Blackboard Messages** for all communication)

Email: bkopachena@parisjc.edu

Office Hours: Online; messages will be answered within 24 hours, 7 days a week

Meeting Location, Days, & Times: Online; check Blackboard daily

Course Description:

This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It introduces historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health Lab activities cover basics of culture and identification of bacteria and microbial ecology.

Prerequisites: eight hours of biology or chemistry or consent of instructor. 4 SCH

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**Cowan, Microbiology Fundamentals: A Clinical Approach.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In order to access your online Connect course materials, click on the **Connect Syllabus Quiz**.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Lecture: Upon successful completion of this course, students will:

1. Describe distinctive characteristics and diverse growth requirements of prokaryotic organisms compared to eukaryotic organisms.
2. Provide examples of the impact of microorganisms on agriculture, environment, ecosystem, energy, and human health, including biofilms.
3. Distinguish between mechanisms of physical and chemical agents to control microbial populations.
4. Explain the unique characteristics of bacterial metabolism and bacterial genetics.
5. Describe evidence for the evolution of cells, organelles, and major metabolic pathways from early prokaryotes and how phylogenetic trees reflect evolutionary relationships.
6. Compare characteristics and replication of acellular infectious agents (viruses and prions) with characteristics and reproduction of cellular infectious agents (prokaryotes and eukaryotes).
7. Describe functions of host defenses and the immune system in combating infectious diseases and explain how immunizations protect against specific diseases.
8. Explain transmission and virulence mechanisms of cellular and acellular infectious agents.

Lab: Upon successful completion of this course, students will:

1. Use and comply with laboratory safety rules, procedures, and universal precautions.
2. Demonstrate proficient use of a compound light microscope.
3. Describe and prepare widely used stains and wet mounts, and discuss their significance in identification of microorganisms.
4. Perform basic microbiology procedures using aseptic techniques for transfer, isolation and observation of commonly encountered, clinically significant bacteria.
5. Use different types of bacterial culture media to grow, isolate, and identify microorganisms.
6. Perform basic bacterial identification procedures using biochemical tests.
7. Estimate the number of microorganisms in a sample using methods such as direct counts, viable plate counts, or spectrophotometric measurements.
8. Demonstrate basic identification protocols based on microscopic morphology of some common fungi and parasites.

Course Requirements and Evaluation:

Connect Homework	25%
Lecture Tests (four @10% each) - proctored with Respondus/Webcam	40%
Comprehensive Final Exam (all chapters)	10%
Lab grade (lab average 50%, practical test 50%)	<u>25%</u>
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the **student's** responsibility to keep track of grades. All college students are expected to be able to do simple mathematics – **do not ask the instructor to calculate the number of points needed to receive a certain grade in the course**. All grades will be available in the **Gradebook**.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Friday, Oct. 16th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Course Schedule:

See last page of the Course Syllabus.

Required Activity:

All students must complete the **First Assignment: Syllabus Quiz** located in the **Start Here! Module** section of Blackboard by **11:59 pm on Sunday, Sept. 9th**, before the **Official Reporting Day (ORD)**.

Completion of this assignment serves as verification of course participation. **Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.**

Course Policies:

1. This course is **not** self-paced; there are **specific due dates** for all assignments (please see the Course Schedule on the last page of the Syllabus.)
2. All Connect Labs and Homework (HW) open on the first day of the semester. You are strongly urged to work ahead on HW and Labs. All assignments **must** be completed by the posted due dates.

Late work is not accepted for Connect Homework or Labs (absolutely NO exceptions.)

3. Connect HW and Labs take approximately one hour, based on your performance. You have **unlimited** attempts; your highest attempt score will be used as your grade. Please **do not procrastinate**. Connect grades should upload to the Blackboard Gradebook in about an hour.
4. The Lab Practical tests will open for approximately one week and will cover material from the lab exercises. They will close at midnight on the due date.
5. The four Lecture Tests will consist of 40 multiple choice questions (worth 10% each.) They are proctored using **Respondus Monitor (with Webcam.)** If you have an emergency situation and know that you cannot complete the test by the due date, please email your instructor **immediately**. Make up tests will **not** be allowed for the Final Exam. Please email your instructor if you have questions about this policy.
6. Only one Lecture Test may be made up in a semester, and it must be taken within **seven** days. If a makeup test is allowed, it must be taken within seven days of the test due date. Any makeup tests will be given at the discretion of the instructor.
7. If you are not able to use a webcam, you may go to a PJC Testing Center. Instructions regarding how to do this are found in the **Respondus Lockdown Browser Download HERE & Instructions for Use** link in the **Start Here! Module**.
8. If you have questions, please go to the **FAQs Module**. Answers to most of your questions are found there. If not, send a message to your instructor.
9. To avoid possible cheating, you will be able to review your test grades after all students have taken the quiz.
10. **No test grades (including zeros) will be dropped when calculating final overall grades.**
11. Extra credit will be available to the entire class ONLY.

No individual extra credit will be given – please DO NOT ASK.

12. This class is online and uses many online and digital resources. Students must have access to a strong internet connection (dial up is NOT recommended.) You will need a webcam and speakers. If you do not have a webcam, they can be purchased at around \$10.
13. Problems with internet service are **not** an excuse for missing assignments – do your assignments **well before** the due dates to avoid this issue. If you have problems with your internet service, the College computer labs, public libraries, and many businesses offer free WiFi service.
14. If Connect is not working correctly, please go to the **Start Here! Module** and run a **Check Your Computer**. Please click on that link **BEFORE** contacting your instructor. In most cases, enabling pop-ups and updating your internet browser fixes problems. If that does not work, please contact the **Connect Help Site**. The link is found in the **McGraw-Hill's Connect Information** folder in the **Start Here! Module**. Your instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.
15. **It is NOT recommended that you use cell phones for Blackboard or your Connect HW or labs.** Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
16. Microsoft Edge, Firefox, and Google Chrome work best with Connect.

17. Please communicate through PJC email or Blackboard Messages **only**.
18. If you want an actual paper textbook, you can purchase a loose-leaf copy through your Connect course. Your eBook (online textbook is found in your Connect course.)
19. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
 - a. Blackboard Username: Your school-issued student ID number, without dashes.
 - b. Blackboard Password: Your birthday (month, day, four-digit year, without marks).
20. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For all courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the **student (see instructions in Blackboard.)** **The last day for a student to withdraw from a course with a grade of "W" is Thurs., Nov. 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, headphones, ear buds, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

PJC Science Department - Artificial Intelligence Statement:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students **must** cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be included in your reference list. Please verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, please stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher.) You can return to your normal activities when, **for at least 24 hours**, both are true:

- 1) Your symptoms are getting better overall, and
- 2) You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by PJC email and Blackboard Messages.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable. This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at **988**. Help is also available on your campus in PJC's Counseling Center in Alford Center in Paris (counseling@parisjc.edu) and in the community.

Respondus Lockdown Browser + Webcam (Required)

This course requires the use of LockDown Browser and a webcam for online exams. The webcam can be the type that's built into your computer or one that plugs in with a USB cable. Watch this brief video to get a basic understanding of LockDown Browser and the webcam feature.

<https://www.respondus.com/products/lockdown-browser/student-movie.shtml>

Download and install LockDown Browser from this link:

<https://download.respondus.com/lockdown/download.php?id=919835320>

Once Installed

Instructions for using Respondus with Blackboard Ultra:

1. Use a regular browser (Chrome, Firefox, etc.) to log in to your **Blackboard Ultra** course.
2. Navigate to the exam, and click the "Start Attempt" button.
3. LockDown Browser will then launch, if installed on the computer (or iPad). If not installed, you will be prompted to download the LockDown Browser and perform the install.
4. The test will open, and if a webcam is required, then you will be taken to the pre-test webcam check.
5. After submitting the exam, LockDown Browser will terminate, and you will be back where you started in your regular browser.

Guidelines

- Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.
- Turn off other devices (e.g. tablets, phones, second computers) and place them outside of your reach.
- Before starting the test, know how much time is available and that you have enough time to complete it.
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices.
- Remain at your computer for the duration of the test.
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam.
- LockDown Browser will prevent you from accessing other websites or applications; **you will be unable to exit the test until all questions are completed and submitted.**

Getting Help

Several resources are available if you encounter problems with LockDown Browser:

- The Windows and Mac versions of LockDown Browser have a "Help Center" button located on the toolbar. Use the "System & Network Check" to troubleshoot issues. If an exam requires you to use a webcam, also run the "Webcam Check" from this area.
- 24/7/365 Live Chat Support is also available from the Help Center, or from within the "it's not working" troubleshooter.
- Respondus has a Knowledge Base available from support.respondus.com. Select "LockDown Browser & Respondus Monitor" as the product to view helpful articles.
- If you're still unable to resolve a technical issue with LockDown Browser, go to support.respondus.com and select "Submit a Ticket". Provide detailed information about your problem and what steps you took to resolve it.

Micro Online Course Schedule – Fall 2026

Please check off items as you complete them – all assignments are due at midnight

All Connect HW & Labs open 8/24. Late work is never accepted for HW or Labs.

First Day of Semester: Monday, August 24th, 2026

- ☐ **Connect Syllabus Quiz: Due Sunday, Sept. 6th**
- ☐ **Respondus Monitor/Webcam Quiz: Due Sunday, Sept. 6th**
- ☐ **MODULE 1: all items due 9/13**
Chs. 1, 3 - 8
Connect HW Set 1
Connect Labs Set 1
Test 1 (proctored with Respondus): available 9/7 – 9/13
- ☐ **MODULE 2: all items due 10/11**
Chs. 9, 11 - 13
Connect HW Set 2
Connect Labs Set 2
Test 2 (proctored with Respondus): available 10/5 – 10/11
- ☐ **Lab Practical Test 1 (Labs Sets 1 & 2): available 10/12 – 10/18**
- ☐ **MODULE 3: all items due 11/1**
Chs. 14, 16 - 18
Connect HW Set 3
Connect Labs Set 3
Test 3 (proctored with Respondus): available 10/26 – 11/1
- ☐ **MODULE 4: all items due 11/29**
Chs. 19 - 22
Connect HW Set 4
Connect Labs Set 4
Test 4 (proctored with Respondus): available 11/23 – 11/29
- ☐ **Lab Practical Test 2 (Lab Sets 3 & 4): available 11/30 – 12/6**
- ☐ **Comprehensive Final Exam: available 11/30 – 12/8**

Last Day of Semester: Thursday, December 10th, 2026

The Course Syllabus & Schedule are subject to change by the instructor.

BIOL 2420.20D1
Microbiology for Non-Science Majors (Lecture + Lab)
Fall 2026

Instructor: Dr. Beverly Kopachena

Office: SS #112

Phone: 903-885-1232 (please use **EMAIL** or **Blackboard Messages** for all communication)

Email: bkopachena@parisic.edu

Office Hours: Online; messages will be answered within 24 hours, 7 days a week

Meeting Location, Days, & Times: Online; check Blackboard daily

Course Description:

This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It introduces historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health Lab activities cover basics of culture and identification of bacteria and microbial ecology.

Prerequisites: eight hours of biology or chemistry or consent of instructor. 4 SCH

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**Cowan, Microbiology Fundamentals: A Clinical Approach.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In order to access your online Connect course materials, click on the **Connect Syllabus Quiz**.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Lecture: Upon successful completion of this course, students will:

1. Describe distinctive characteristics and diverse growth requirements of prokaryotic organisms compared to eukaryotic organisms.
2. Provide examples of the impact of microorganisms on agriculture, environment, ecosystem, energy, and human health, including biofilms.
3. Distinguish between mechanisms of physical and chemical agents to control microbial populations.
4. Explain the unique characteristics of bacterial metabolism and bacterial genetics.
5. Describe evidence for the evolution of cells, organelles, and major metabolic pathways from early prokaryotes and how phylogenetic trees reflect evolutionary relationships.
6. Compare characteristics and replication of acellular infectious agents (viruses and prions) with characteristics and reproduction of cellular infectious agents (prokaryotes and eukaryotes).
7. Describe functions of host defenses and the immune system in combating infectious diseases and explain how immunizations protect against specific diseases.
8. Explain transmission and virulence mechanisms of cellular and acellular infectious agents.

Lab: Upon successful completion of this course, students will:

1. Use and comply with laboratory safety rules, procedures, and universal precautions.
2. Demonstrate proficient use of a compound light microscope.
3. Describe and prepare widely used stains and wet mounts, and discuss their significance in identification of microorganisms.
4. Perform basic microbiology procedures using aseptic techniques for transfer, isolation and observation of commonly encountered, clinically significant bacteria.
5. Use different types of bacterial culture media to grow, isolate, and identify microorganisms.
6. Perform basic bacterial identification procedures using biochemical tests.
7. Estimate the number of microorganisms in a sample using methods such as direct counts, viable plate counts, or spectrophotometric measurements.
8. Demonstrate basic identification protocols based on microscopic morphology of some common fungi and parasites.

Course Requirements and Evaluation:

Connect Homework	25%
Lecture Tests (four tests @10% each) - proctored with Respondus/Webcam	40%
Comprehensive Final Exam (all chapters)	10%
Lab grade (lab exercise avg. 50%, 2 practical tests @25%)	<u>25%</u>
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the **student's** responsibility to keep track of grades. All college students are expected to be able to do simple mathematics – **do not ask the instructor to calculate the number of points needed to receive a certain grade in the course**. All grades will be available in the **Gradebook**.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Oct. 16th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Course Schedule:

See last page of the Course Syllabus.

Required Activity:

All students must complete the **First Assignment: Syllabus Quiz** located in the **Start Here! Module** section of Blackboard by **11:59 pm on Sunday, Sept. 9th**, before the **Official Reporting Day (ORD)**. Completion of this assignment serves as verification of course participation. **Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.**

Course Policies:

1. This course is **not** self-paced; there are **specific due dates** for all assignments (please see the Course Schedule on the last page of the Syllabus.)
2. All Connect Labs and Homework (HW) open on the first day of the semester. You are strongly urged to work ahead on HW and Labs. All assignments **must** be completed by the posted due dates.

Late work is not accepted for Connect Homework or Labs (absolutely NO exceptions.)

3. Connect HW and Labs take approximately one hour, based on your performance. You have **unlimited** attempts; your highest attempt score will be used as your grade. Please **do not procrastinate**. Connect grades should upload to the Blackboard Gradebook in about an hour.
4. The Lab Practical tests will open for approximately one week and will cover material from the lab exercises. They will close at midnight on the due date.
5. The four Lecture Tests will consist of 40 multiple choice questions (worth 10% each.) They are proctored using **Respondus Monitor (with Webcam.)** If you have an emergency situation and know that you cannot complete the test by the due date, please email your instructor **immediately**. Make up tests will **not** be allowed for the Final Exam. Please email your instructor if you have questions about this policy.
6. Only one Lecture Test may be made up in a semester, and it must be taken within **seven** days. If a makeup test is allowed, it must be taken within seven days of the test due date. Any makeup tests will be given at the discretion of the instructor.
7. If you are not able to use a webcam, you may go to a PJC Testing Center. Instructions regarding how to do this are found in the **Respondus Lockdown Browser Download HERE & Instructions for Use** link in the **Start Here! Module**.
8. If you have questions, please go to the **FAQs Module**. Answers to most of your questions are found there. If not, send a message to your instructor.
9. To avoid possible cheating, you will be able to review your test grades **after** all students have taken the quiz.
10. **No test grades (including zeros) will be dropped when calculating final overall grades.**
11. Extra credit will be available to the entire class ONLY.

No individual extra credit will be given – please DO NOT ASK.

12. This class is online and uses many online and digital resources. Students **must** have access to a strong internet connection (dial up is NOT recommended.) You will need a webcam and speakers. If you do not have a webcam, they can be purchased at around \$10.
13. Problems with internet service are **not** an excuse for missing assignments – do your assignments **well before** the due dates to avoid this issue. If you have problems with your internet service, the College computer labs, public libraries, and many businesses offer free WiFi service.
14. If Connect is not working correctly, please go to the **Start Here! Module** and run a **Check Your Computer**. Please click on that link **BEFORE** contacting your instructor. In most cases, enabling pop-ups and updating your internet browser fixes problems. If that does not work, please contact the **Connect Help Site**. The link is found in the **McGraw-Hill's Connect Information** folder in the **Start Here! Module**. Your instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.
15. **It is NOT recommended that you use cell phones for Blackboard or your Connect HW or labs.** Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
16. Microsoft Edge, Firefox, and Google Chrome work best with Connect.

17. Please communicate through PJC email or Blackboard Messages **only**.
18. If you want an actual paper textbook, you can purchase a loose-leaf copy through your Connect course. Your eBook (online textbook is found in your Connect course.)
19. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
 - a. Blackboard Username: Your school-issued student ID number, without dashes.
 - b. Blackboard Password: Your birthday (month, day, four-digit year, without marks).
20. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For all courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the **student (see instructions in Blackboard.)** **The last day for a student to withdraw from a course with a grade of “W” is Thurs., Nov. 12th.**

Class Conduct:

Please turn off or silence and put away all cell phones, headphones, ear buds, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

PJC Science Department - Artificial Intelligence Statement:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students **must** cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be included in your reference list. Please verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, please stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher.) You can return to your normal activities when, **for at least 24 hours**, both are true:

- 1) Your symptoms are getting better overall, and
- 2) You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by PJC email and Blackboard Messages.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable. This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023. If you or someone you know is considering suicide, help is available at **988**. Help is also available on your campus in PJC's Counseling Center in Alford Center in Paris (counseling@parisjc.edu) and in the community.

Respondus Lockdown Browser + Webcam (Required)

This course requires the use of LockDown Browser and a webcam for online exams. The webcam can be the type that's built into your computer or one that plugs in with a USB cable. Watch this brief video to get a basic understanding of LockDown Browser and the webcam feature.

<https://www.respondus.com/products/lockdown-browser/student-movie.shtml>

Download and install LockDown Browser from this link:

<https://download.respondus.com/lockdown/download.php?id=919835320>

Once Installed

Instructions for using Respondus with Blackboard Ultra:

1. Use a regular browser (Chrome, Firefox, etc.) to log in to your **Blackboard Ultra** course.
2. Navigate to the exam, and click the "Start Attempt" button.
3. LockDown Browser will then launch, if installed on the computer (or iPad). If not installed, you will be prompted to download the LockDown Browser and perform the install.
4. The test will open, and if a webcam is required, then you will be taken to the pre-test webcam check.
5. After submitting the exam, LockDown Browser will terminate, and you will be back where you started in your regular browser.

Guidelines

- Select a location where you are comfortable having a video recording taken of yourself and your workspace environment. This area should be free of distractions and interruptions.
- Turn off other devices (e.g. tablets, phones, second computers) and place them outside of your reach.
- Before starting the test, know how much time is available and that you have enough time to complete it.
- Clear your desk or workspace of all external materials not permitted - books, papers, other devices.
- Remain at your computer for the duration of the test.
- If the computer, Wi-Fi, or location is different than what was used previously with the "Webcam Check" and "System & Network Check" in LockDown Browser, run the checks again prior to the exam.
- LockDown Browser will prevent you from accessing other websites or applications; **you will be unable to exit the test until all questions are completed and submitted.**

Getting Help

Several resources are available if you encounter problems with LockDown Browser:

- The Windows and Mac versions of LockDown Browser have a "Help Center" button located on the toolbar. Use the "System & Network Check" to troubleshoot issues. If an exam requires you to use a webcam, also run the "Webcam Check" from this area
- 24/7/365 Live Chat Support is also available from the Help Center, or from within the "it's not working" troubleshooter.
- Respondus has a Knowledge Base available from support.respondus.com. Select "LockDown Browser & Respondus Monitor" as the product to view helpful articles.
- If you're still unable to resolve a technical issue with LockDown Browser, go to support.respondus.com and select "Submit a Ticket". Provide detailed information about your problem and what steps you took to resolve it.

Micro Online Course Schedule – Fall 2026

Please check off items as you complete them – all assignments are due at midnight

All Connect HW & Labs open 8/24. Late work is never accepted for HW or Labs.

First Day of Semester: Monday, August 24th, 2026

- ☐ **Connect Syllabus Quiz: Due Sunday, Sept. 6th**
- ☐ **Respondus Monitor/Webcam Quiz: Due Sunday, Sept. 6th**
- ☐ **MODULE 1: all items due 9/13**
Chs. 1, 3 - 8
Connect HW Set 1
Connect Labs Set 1
Test 1 (proctored with Respondus): available 9/7 – 9/13
- ☐ **MODULE 2: all items due 10/11**
Chs. 9, 11 - 13
Connect HW Set 2
Connect Labs Set 2
Test 2 (proctored with Respondus): available 10/5 – 10/11
- ☐ **Lab Practical Test 1 (Labs Sets 1 & 2): available 10/12 – 10/18**
- ☐ **MODULE 3: all items due 11/1**
Chs. 14, 16 - 18
Connect HW Set 3
Connect Labs Set 3
Test 3 (proctored with Respondus): available 10/26 – 11/1
- ☐ **MODULE 4: all items due 11/29**
Chs. 19 - 22
Connect HW Set 4
Connect Labs Set 4
Test 4 (proctored with Respondus): available 11/23 – 11/29
- ☐ **Lab Practical Test 2 (Lab Sets 3 & 4): available 11/30 – 12/6**
- ☐ **Comprehensive Final Exam: available 11/30 – 12/8**

Last Day of Semester: Thursday, December 10th, 2026

The Course Syllabus & Schedule are subject to change by the instructor.

BIOL 2420 40J0
Microbiology
Fall 2026

Instructor: Dr. Jeanmarie Stiles
Office: Greenville Center room 208
Phone: 903-457-8717
Email: jstiles@parisjc.edu

Meeting Location: GC 218
Meeting Days: MTWR
Meeting Times: 11:00-12:15

Office Hours: MW 12:30-3; TR 11-1; 2:30-3. To best serve you, please email before visiting the Greenville Center so we can schedule an in-person meeting at my office or arrange for a phone conversation.

Course Description:

This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It is an introduction to historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health.

Credits: SCH = 4 (3 lecture and 1 laboratory)

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Cowen's 4th edition of *Microbiology Fundamentals – A Clinical Approach with Proctorio+***). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

In addition to McGraw-Hill access, a physical textbook is recommended but not required. Other required course materials include a properly functioning computer with a stable internet connection, a webcam (internal or external), and microphone. You need a folder with loose leaf paper, pen, pencil, dry erase marker, and stapler. Purchase one package of scantrons #882e at the beginning of the semester and bring two pencils with erasers to every test.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

Describe distinctive characteristics and diverse growth requirements of prokaryotic organisms compared to eukaryotic organisms.

Provide examples of the impact of microorganisms on agriculture, environment, ecosystem, energy, and human health, including biofilms.

Distinguish between mechanisms of physical and chemical agents to control microbial populations.

Explain the unique characteristics of bacterial metabolism and bacterial genetics.

Describe evidence for the evolution of cells, organelles, and major metabolic pathways from early prokaryotes and how phylogenetic trees reflect evolutionary relationships.

Compare characteristics and replication of acellular infectious agents (viruses and prions) with characteristics and reproduction of cellular infectious agents (prokaryotes and eukaryotes).

Describe functions of host defenses and the immune system in combating infectious diseases and explain how immunizations protect against specific diseases.

Explain transmission and virulence mechanisms of cellular and acellular infectious agents.

ACGM Lab Learning Outcomes

Upon successful completion of this course, students will:

Use and comply with laboratory safety rules, procedures, and universal precautions.

Demonstrate proficient use of a compound light microscope.

Describe and **prepare** widely used stains and wet mounts, and discuss their significance in identification of microorganisms.

Perform basic microbiology procedures using aseptic techniques for transfer, isolation and observation of commonly encountered, clinically significant bacteria.

Use different types of bacterial culture media to grow, isolate, and identify microorganisms.

Perform basic bacterial identification procedures using biochemical tests.

Estimate the number of microorganisms in a sample using methods such as direct counts, viable plate counts, or spectrophotometric measurements.

Demonstrate basic identification protocols based on microscopic morphology of some common fungi and parasites.

Course Requirements and Evaluation:

Students will be given the following opportunities to demonstrate knowledge of class material:

Topic	Points
Disease Reports 10 x 5 points =	50
Lecture homework assignments 14 x 10 points =	140
Lecture exams 5 x 100 points =	500
Lecture activities	10
Lab activities	30
Online labs	270
Total points	1000

Course Curve: 5 pts will be added to your total points earned if all course work has been sincerely attempted and submitted on time. This is how course points equate to your final letter grade:

Grading Scale

A - 900 points and higher

B - 800 points and higher

C - 700 points and higher

D - 600 points and higher

F – 599 points and below

Total Course Points = 1000, so if you earn 862/1000 pts that is an 86.2 or B avg. See the Gradebook tab within Blackboard for a list of all grades. Each assignment clearly indicates the point value.

Orientation/Introductory Assignments are crucial to navigate the course. Other lecture activities such as discussion boards, worksheets, and video assignments may be found within the lecture folders of the Blackboard shell (not MGH).

Chapter Homework Assignments involve 14 assignments at 10pts each = 140pts. You have 1 attempt at each assignment. Before attempting an assignment, print the slideshow in outline form, read the chapter in your book and add notes to the slideshow. Assignments are not timed and you can do a little work at a time and then return later. Homework assignments are designed to help you understand the subject matter and study for exams. You may see similar questions again on your unit exams. You may take notes to help you study. The chapter assignments may be submitted late with a 5% per day penalty.

Lecture Exams are predominantly multiple choice and true/false, but may include short answer questions as well.

Exam 1- Timed, 1 attempt- 100pts

Exam 2- Timed, 1 attempt- 100pts

Exam 3- Timed, 1 attempt- 100pts

Exam 4- Timed, 1 attempt- 100pts

Comprehensive final exam – Timed, 1 attempt – 100 pts

Final Exam: Make yourself a good review and you should do well. The questions on the final exam may not be exact repeats from the homework and previous exams. If taken by the posted due date and time, the final exam can replace a low or missed exam score.

Once you begin a timed assignment or exam you cannot stop the time, so be ready and make sure your internet connection is solid. Do not think you can close out and come back later! Likewise, there will not be time to search for answers. Before beginning the exam, you should study and be familiar with the concepts presented. The test stops when the time ends, regardless of whether all questions have been answered.

Virtual Labs include numerous online lab activities for 270 pts possible. Labs are user friendly and brief. Watch the tutorial for a thorough explanation of the concept and simulated activity. If you experience technical problems, give MGH staff a call immediately and they will help you. If necessary, email your instructor with a case number and detailed description of the problem after first contacting MGH.

Extra Credit assignments provide dedicated students with the opportunity to earn a couple of extra points. These assignments are scattered throughout the Bb course content, so move through each folder sequentially to find, complete, and submit them. However, these assignments may only be submitted if all other assignments and the exam for a particular unit have been completed prior to the due date and time. **Extra credit cannot be submitted late and there is no big extra credit assignment offered at the end of the semester.** Submit extra credit prior to the unit exam due date and time. If all questions on an extra credit

assignment are sincerely attempted, one point may be earned. If all questions are complete and correct, two points may be earned.

Assignments will only be reopened if the Connect system has issues or in extreme and verifiable cases approved on an individual basis, such as unexpected hospitalization. Basically, if Connect is working, then the web page is good so make sure you have an updated computer and reliable connection to the internet for this course.

Entering Your Course: This course utilizes the McGraw-Hill (MGH) Connect platform to deliver many assignments. Most of these MGH Connect assignments are linked for you in Blackboard under the Content tab. Your first task is to click on a MGH link, then you will be directed to Connect where you must register for the MGH Connect course. How to register is described in detail under the Start Here folder in Blackboard. Once you have registered in MGH Connect you will be able to complete the Connect orientation assignment. In addition, you must **complete the syllabus quiz prior to the college official reporting Day (ORD), Oct. 27th, to be counted as present in the course. If you have not completed this assignment before this date it is college policy for you to be dropped from the course.**

When registering in MGH Connect, enter your PJC e-mail and select a password. Here is a link to set up your PJC email if you do not have yours activated yet:

<http://www.parisjc.edu/pjc2/main/activate-dragonmail/>

System Requirements for Connect and Browser Test: Use this link to check your computer to ensure you have all that you need to run the Connect Learning System

<https://www.mheducation.com/highered/connect/support.html>

Tips/Time: This course will require a significant time commitment equal to or above that of a traditional class, depending on the student. Work at your own pace but do not let due dates approach and assume you can get the work done in a day or two. Your course is set up into 4 units plus the final exam. In a standard unit, you will have 3 chapters to cover, so read and study each (take notes and pay attention to bold terms), complete the homework assignment with each chapter (recall that some questions in the homework may reappear on your unit exams), complete the labs for each unit, and the unit exam covering the 3 chapters. Plan a good schedule for when you want to complete each well before the due date.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies: Every student should come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes related to the topic at hand. No food or drink allowed in lab. No open toe shoes allowed in lab. Long hair must be pulled back. Listen to lab instructions and follow all required safety procedures.

Rules for all written assignments:

1. 12 pt type
2. Times New Roman Font
3. Double space
4. Full citation both in the paper and a reference page (APA)
5. 1 in margins

Mid-Term Grades: PJC instructors are required to enter mid-term grades. Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff. Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you are concerned about your grades at the mid-term.

Make-Up Work: Stay well ahead of due dates so when the unexpected occurs, you will be able to submit assessments by the due date. However, if an unanticipated emergency arises and you are unable to submit an exam/assignment as scheduled, email your instructor with documentation and an explanation within 48 hours of the posted due date. At the instructor's discretion and with a 5% deduction per day, a student may be given permission to submit homework assignments and quizzes up to two weeks late. If permitted, it is the student's responsibility to schedule a makeup exam with the instructor during the instructor's office hours, and within two weeks of the exam. Make up exams may include both multiple choice and essay questions. **Online labs may not be submitted late.**

All online assignments are open for you to complete, so work ahead, especially if you anticipate a scheduling conflict. Under no circumstances may the final exam be taken late. All lab assignments and most lecture assignments must be completed by using the links provided in Blackboard to enter McGraw Hill's Connect.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day to withdraw from a course with a grade of **"W" is Nov. 24th**. Failure to officially withdraw will result in your receiving a grade of F.

Class Conduct:

Do not photograph or make a video of the class lectures/labs or your instructor. Turn off or silence and put away all cell phones, pagers, ipods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Course Communication: Outside of the classroom, Bb messages is the preferred method of communication. Secondly, your official PJC email may be used and should include your full name and course number with all correspondences. You can expect a reply to your email within 24 hours, Monday - Thursday 8:00 am – 3:00 pm.

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

Artificial intelligence: (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising &

Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an in-class announcement, Bb announcement, and/or email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Due 1:00 PM	Unit	Lesson	Lecture	Lab	Disease Report
10/23		Start Here folder	First Assignment: Syllabus Quiz Connect Orientation Videos Virtual Labs Tutorial		
10/27	1	1	Homework (HW) Chapter (Ch) 1: Introduction	Safety Labs	
	1	2	HW Ch 3 Bacteria	Metric System & Microscopy Labs	1 (Ch 16)
	1	3	HW Ch 4 Eukaryotic	Staining Labs	2 (Ch 16)
	1	4	HW Ch 5 Viruses	Isolation Methods Labs	3 (Ch 17)
	1	5	HW Ch 6 Microbial Nutrition		
	1	6	HW Ch 7 Metabolism		
	1	7	HW Ch 8 Genetics		
	1		Exam 1 (Ch 1, 3, 4, 5, 6, 7, 8)		
	2	8	HW Ch 9: Physical and Chemical Control of Microbes		
	2	9	HW Ch 11: Interactions Between Humans and Microbes	Aseptic Technique Labs	4 (Ch 17)
	2	10	HW Ch 12: Host Defenses I – Nonspecific Defenses	Microbial Growth Labs	5 (Ch 18)

	2	11	HW Ch 13: Host Defenses II – Specific Immunity	Control of Microbial Growth Labs	6 (Ch 18)
			Exam 2 (Ch 9, 11, 12, 13)		
	3	12	HW Ch 14: Disorders Immunity	Unknown Bacteria Identification Labs	7 (Ch 19)
	3	13	HW Ch 16: Diseases of Skin and Eyes	Bacterial Genetics Labs	8 (Ch 19)
	3	14	HW Ch 17: Diseases of Nervous System	DNA Biology and Technology Labs	9 (Ch 20)
	3	15	HW Ch 18: Diseases of Cardiovascular and Lymphatic	Biochemical Testing Labs	10 (Ch 20)
			Exam 3 (Ch 15 - 18)		
	4	16	HW Ch 19: Diseases of Respiratory System	Ubiquity of Microorganisms Labs	
	4	17	HW Ch 20: Diseases of GI Tract	Gram Stain Lab	
	4	18	HW Ch 21: Diseases of Genitourinary System		
	4	19	HW Ch 22 One Health		
			Exam 4 (Ch 19, 20, 21, 22)		
			Comprehensive Final Exam 11 AM -12:15 PM, Wed Dec 9	Course ends	

BIOL 2420
Microbiology for Non-Science Majors (Lecture + Lab)
Fall 2026

Instructor: Kristin Craven
Office: GHS 1611
Phone: 903-453-3665
Email: cravenk@greenvilleisd.com

Meeting Location: GHS 1611
Meeting Days: MTWRF
Meeting Times: MTW 4:10 – 4:40
Mornings/ other days by appointment

Course Description:

This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It introduces historical concepts of the nature of microorganisms, microbial diversity, the importance of microorganisms and acellular agents in the biosphere, and their roles in human and animal diseases. Major topics include bacterial structure as well as growth, physiology, genetics, and biochemistry of microorganisms. Emphasis is on medical microbiology, infectious diseases, and public health Lab activities cover basics of culture and identification of bacteria and microbial ecology. Prerequisites: eight hours of biology or chemistry or consent of instructor. 4 SCH

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through **Dragon Now**, the campus-wide, affordable course materials program. Your PJC account will be charged automatically so you will not need to make a separate purchase. For this course, we will be using courseware integrated with McGraw-Hill's Connect (**Cowan, Microbiology Fundamentals: A Clinical Approach.**) You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to **opt out** of this program, please follow the steps below:

1. Go to <https://ACCESSPortal.follett.com:443/1836>
2. Create an account using your student email account.
3. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
4. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own. If you have any questions about Dragon Now or the charge to your student account, please contact the Virtual Campus Store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas

through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level):

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Course Learning Outcomes (Spring 2021):

Lecture: Upon successful completion of this course, students will:

1. Describe distinctive characteristics and diverse growth requirements of prokaryotic organisms compared to eukaryotic organisms.
2. Provide examples of the impact of microorganisms on agriculture, environment, ecosystem, energy, and human health, including biofilms.
3. Distinguish between mechanisms of physical and chemical agents to control microbial populations.
4. Explain the unique characteristics of bacterial metabolism and bacterial genetics.
5. Describe evidence for the evolution of cells, organelles, and major metabolic pathways from early prokaryotes and how phylogenetic trees reflect evolutionary relationships.
6. Compare characteristics and replication of acellular infectious agents (viruses and prions) with characteristics and reproduction of cellular infectious agents (prokaryotes and eukaryotes).
7. Describe functions of host defenses and the immune system in combating infectious diseases and explain how immunizations protect against specific diseases.
8. Explain transmission and virulence mechanisms of cellular and acellular infectious agents.

Lab: Upon successful completion of this course, students will:

1. Use and comply with laboratory safety rules, procedures, and universal precautions.
2. Demonstrate proficient use of a compound light microscope.
3. Describe and prepare widely used stains and wet mounts, and discuss their significance in identification of microorganisms.
4. Perform basic microbiology procedures using aseptic techniques for transfer, isolation and observation of commonly encountered, clinically significant bacteria.
5. Use different types of bacterial culture media to grow, isolate, and identify microorganisms.
6. Perform basic bacterial identification procedures using biochemical tests.
7. Estimate the number of microorganisms in a sample using methods such as direct counts, viable plate counts, or spectrophotometric measurements.
8. Demonstrate basic identification protocols based on microscopic morphology of some common fungi and parasites.

Course Requirements and Evaluation:

Unit Exams & Comprehensive Final	35% of course grade
Lab – Virtual and In-Person	35% of course grade
Homework Assignments	30% of course grade
	100%

Final grades will be based upon the following: A=89.5-100%, B=79.5-89%, C=69.5-79%, D=49.5-69%, F=49% and below. It is the **student's** responsibility to keep track of grades. All college students are expected to be able to do simple mathematics – **do not ask the instructor to calculate the number of points needed to receive a certain grade in the course**. All grades will be available in the **Gradebook**.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Oct. 16th.**) Once entered, each student's mid-term grade may be viewed by College personnel that need to monitor such information, such as Student Records, Student Financial Aid, Academic Advising and Counseling, and administrative staff.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on September 5, 2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

1. This course is **not** self-paced; there are **specific due dates** for all assignments (please see the Course Schedule on the last page of the Syllabus.)
2. All Connect Labs and Homework (HW) open on the first day of the semester. You are strongly urged to work ahead on HW and Labs. All assignments **must** be completed by the posted due dates.

Late work is not accepted for Connect Homework or Labs (absolutely **NO exceptions.)**

3. Connect HW and Labs take approximately one hour, based on your performance. You have **unlimited** attempts; your highest attempt score will be used as your grade. Please **do not procrastinate**. Connect grades should upload to the Blackboard Gradebook in about an hour.
4. The Lab Practical test will open for approximately one week and will cover material from the lab exercises. It will close at midnight on the due date.
5. The four Lecture Tests will consist of 40 multiple choice questions (worth 10% each.) They are proctored using **Respondus Monitor (with Webcam.)** If you have an emergency situation and know that you cannot complete the test by the due date, please email your instructor **immediately**. Make up tests will **not** be allowed for the Final Exam. Please email your instructor if you have questions about this policy.
6. If you have questions, please go to the **FAQs Module**. Answers to most of your questions are found there. If not, send a message to your instructor.
7. To avoid possible cheating, you will be able to review your quiz and test grades after all students have taken the quiz.
8. **No test or quiz grades (including zeros) will be dropped when calculating final overall grades.**

9. Extra credit will be available to the entire class ONLY - If given at all!!

No individual extra credit will be given – please DO NOT ASK.

10. This class is online and uses many online and digital resources. Students must have access to a strong internet connection (dial up is NOT recommended.) You will need a webcam and speakers. If you do not have a webcam, they can be purchased at around \$10.
11. Problems with internet service are **not** an excuse for missing assignments – do your assignments well before the due dates to avoid this issue. If you have problems with your internet service, the College computer labs, public libraries, and many businesses offer free WiFi service.
12. If Connect is not working correctly, please go to the **Start Here!** Module and run a **Check Your Computer**. Please click on that link **BEFORE** contacting your instructor. In most cases, enabling pop-ups and updating your internet browser fixes problems. If that does not work, please contact the **Connect Help Site**. The link is found in the **McGraw-Hill's Connect Information** folder in the **Start Here! Module**. Your instructor has no control over technical problems with Connect – you must contact the Connect Help Site for technical problems.
13. **It is NOT recommended that you use cell phones for Blackboard or your Connect HW or labs.** Blackboard and Connect were not designed to be used on cell phones and items may not display or work correctly.
14. Microsoft Edge, Firefox, and Google Chrome work best with Connect.
15. Please communicate through PJC email or Blackboard Messages or in person.
16. If you want an actual textbook, you can purchase a loose-leaf copy through your Connect course.
17. Blackboard is your official course – **NOT CONNECT**. Log into Blackboard **daily**.
18. Please keep track of assignment due dates using the Course Schedule and the Modules in Blackboard. Do **NOT** rely on the Gradebook – it moves assignments based on due dates and may cause you to miss coursework.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or

repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

[Instructor: Insert any additional course-specific sanctions or expectations related to academic dishonesty that apply to your class.]

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

[Adjust policy as determined by department.]

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Micro Online Course Schedule – Fall 2026
All assignments are due at midnight

All Connect HW & Labs open 8/24. Late work is never accepted for HW or Labs.

First Day of Semester: Monday, August 24th, 2026

Connect Syllabus Quiz: Due Sunday, Sept. 6th

Respondus Monitor/Webcam Quiz: Due Sunday, Sept. 6th

MODULE 1: all items due 9/13

Chs. 1, 3 - 8

Connect HW Set 1

Connect Labs Set 1

Test 1 - will be taken on 9/12 & 9/13

MODULE 2: all items due 10/11

Chs. 9, 11 - 13

Connect HW Set 2

Connect Labs Set 2

Test 2 - will be taken on 10/10 & 10/11

MODULE 3: all items due 11/3

Chs. 14, 16 - 18

Connect HW Set 3

Connect Labs Set 3

Test 3 - will be taken on 11/2-11/3

MODULE 4: all items due 12/4

Chs. 19 - 22

Connect HW Set 4

Connect Labs Set 4

Test 4 - will be taken on 12/3 & 12/4

Comprehensive Final Exam: Will be taken on 12/8 - 12/9

Last Day of Semester: Thursday, December 10th, 2026

The Course Syllabus & Schedule are subject to change by the instructor.

MRKG 1311.20F0
Principles of Marketing
Fall 2026 – Flex B: 2nd 8-weeks

Instructor: Wanda Duncan

Office: AS 151

Phone: 903.782.0378

Email: wduncan@parisjc.edu

Office Hours: TBA within BlackBoard/DragonMail

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Introduction to the marketing mix functions and process. Includes identification of consumer and organizational needs and explanation of environmental issues.

3 Credit Hours 3 Lecture Hours 0 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Contemporary Marketing. 20th edition.

Boone/Kurtz

Cengage Learning

Inclusive Access: 9798214041117

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do not have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard “Announcements” for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Identified the marketing mix components in relation to market segmentation.
2. Explained the environmental factors which influence consumer and organizational decision-making processes.
3. Outlined a marketing plan.

Student Learning Outcomes:

1. Applied business concepts, practices, and/or techniques to effectively manage an organization.
2. Evaluated company production, profitability, and cost using managerial accounting tools.
3. Demonstrated proficiency using industry application software.

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Date (**October 26**) to avoid being dropped.

This is an **8-week** course that runs from **October 19** to **December 10**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**.

Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying, and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

The course will cover **fourteen** (14) chapters.

- There is **NO** Mid-Term Exam and **NO** Final Exam.
- You need to complete your work early so that if you encounter a problem you can contact the instructor in time to get a response and resolve the problem.

Chapter Assessments: All chapter assessments will be completed through **BlackBoard** where all assessments are linked to **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the tests. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of the BlackBoard course.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include MindTap assessments, video quizzes, a BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

518 – 576 = A	90 - 100 = A
461 – 517 = B	80 - 89 = B
403 – 460 = C	70 - 79 = C
346 – 402 = D	60 - 69 = D
0 – 345 = F	0 - 59 = F

All **assessments** will be completed in **BlackBoard**.

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades are usually posted in BlackBoard as soon as the assignment is completed or a couple hours thereafter.

All chapter assessments will be completed by logging into **BlackBoard**, select “Modules” tab, select a “module,” and then select the “assessment” you are wanting to complete. Once you have selected the assessment, the “**MindTap**” window will appear and you can then begin working on the assessment.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152

One-on-one tutoring available (call or e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked into BlackBoard. You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be

initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course complete the IceBreaker Discussion Board and Syllabus Quiz. Students must complete these assignments in each course to verify their course enrollment. **If you do not complete these assignments by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before ORD will be withdrawn from the course by the institution. Students enrolled in an online course must "log in" and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor's preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put "MRKG 1311 Question" or "MRKG 1311 Question About" as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check "Announcements" in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words without the use of non-verbal's with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the

student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

Meeting Times: TBD
Email: jheffel@parisjc.edu
Office Hours: MTWTh 3:30-5:00 p.m.

Course Description: *Introduction/Course Description*

Students enrolled for private music instruction receive one credit per semester for one half hour lesson per week, and two credits for a one hour lesson per week. Two credit hours of instruction is generally reserved for music majors declaring keyboard as major instrument. However, advanced and musically literate pianists may enroll in the Keyboard Major offering with advance approval of the instructor. Although there is no prerequisite for private instruction, all individuals enrolled are subject to an entrance audition. Prior to private instruction, Class Piano Instruction is highly recommended. Lesson times will be determined by the teacher and student in the first week of class. This appointment time will remain constant throughout the semester,

Course Outline

Week 1 Introduction and basics of the keyboard
Week 2 Foundational Skills/Beginning to read music
Week 3 Study of Technique and Repertoire Survey
Week 4 Introduction of Repertoire
Week 5 Advanced Technical Skills
Week 6 Study of Repertoire
Week 7 Special Considerations of Technique
Week 8 Fingering and technical skills
Week 9 Additional Repertoire
Week 10 Advanced scale work
Week 11 Study of repertoire
Week 12 Additional repertoire
Week 13 Technique and repertoire study
Week 14 Repertoire study
Week 15 Preparation for Jury
Week 16 Final Jury

Attendance/ Make-up Policy

Regular attendance at lessons is required. Each unexcused absence will lower your course grade by one letter. Absences will be recorded as excused at the discretion of the teacher. In most cases, an absence will be unexcused unless the teacher is notified in advance and the reason for missing is acceptable to the teacher. Make up lessons will be scheduled at the teacher's discretion. Tardiness to lesson times will accrue as an absence. For example, 50 minutes of time accrued in tardiness = 1 unexcused absence (25 minutes for 1 credit hour lessons). If late for a lesson the student will be given only the time remaining in the lesson, unless the instructor is responsible for the delay. Students missing more than three (3) lesson times will be withdrawn from the course.

Required Textbook(s) and Materials: No textbook required. All music resources will be determined throughout the balance of the semester.

Course Goals and Objectives:

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Be able to demonstrate and discuss productive keyboard technique	Classroom and individual study.	Periodic quizzes
2. Be able to demonstrate standard technical patterns	Classroom and individual study and practice	Quizzes in each class session
3. Be able to perform solo literature	Classroom and individual study and practice	Monitoring in class and quiz
4. Be able to perform on a music jury	Classroom preparation, memorization and rehearsal	Jury performance and examination

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Policies: *Procedures and Attendance*

Cell phones are generally prohibited in class. This includes ringing, vibrating, answering, “text messaging,” checking messages, or any other type of activity involved with cell phone usage. Wait for a break or the end of class to check your cell phone, but remember to turn it off upon re-entering the classroom.

Attendance and promptness to all lessons is extremely important, and expected of students. This includes absences and chronic tardiness.

Absences and general tardiness will be seriously taken into account in the final grading process, and attendance will be accurately taken each week. Grading will be determined by attendance, attitude, demonstration of progress at the keyboard via consistent practice, and demonstration of repertoire and technique

Lesson Attendance:

Class attendance is critical for the successful completion of this course. Assignments should be completed by the due date provided. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12, 2026.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are

known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Fall Semester, 2026**

Instructor: Dr. James Heffel
Meeting Location: 107 Musical Arts Building
Office: Suite 100, Musical Arts Building
Meeting Days: TBD
Phone: 903-782-0343
Meeting Times: TBD
Email: jheffel@parisjc.edu
Office Hours: MTWTh 3:30-5:00 p.m.

Course Description: *Introduction/Course Description*

Students enrolled for private music instruction receive one credit per semester for one half hour lesson per week, and two credits for a one hour lesson per week. Two credit hours of instruction is generally reserved for music majors declaring keyboard as major instrument. However, advanced and musically literate pianists may enroll in the Keyboard Major offering with advance approval of the instructor. Although there is no prerequisite for private instruction, all individuals enrolled are subject to an entrance audition. Prior to private instruction, Class Piano Instruction is highly recommended. Lesson times will be determined by the teacher and student in the first week of class. This appointment time will remain constant throughout the semester,

Course Outline

Week 1 Introduction and basics of the keyboard
Week 2 Foundational Skills/Beginning to read music
Week 3 Study of Technique and Repertoire Survey
Week 4 Introduction of Repertoire
Week 5 Advanced Technical Skills
Week 6 Study of Repertoire
Week 7 Special Considerations of Technique
Week 8 Fingering and technical skills
Week 9 Additional Repertoire
Week 10 Advanced scale work
Week 11 Study of repertoire
Week 12 Additional repertoire
Week 13 Technique and repertoire study
Week 14 Repertoire study
Week 15 Preparation for Jury
Week 16 Final Jury

Attendance/ Make-up Policy

Regular attendance at lessons is required. Each unexcused absence will lower your course grade by one letter. Absences will be recorded as excused at the discretion of the teacher. In most cases, an absence will be unexcused unless the teacher is notified in advance and the reason for missing is acceptable to the teacher. Make up lessons will be scheduled at the teacher's discretion. Tardiness to lesson times will accrue as an absence. For example, 50 minutes of time accrued in tardiness = 1 unexcused absence (25 minutes for 1 credit hour lessons). If late for a lesson the student will be given only the time remaining in the lesson, unless the instructor is responsible for the delay. Students missing more than three (3) lesson times will be withdrawn from the course.

Required Textbook(s) and Materials: No textbook required. All music resources will be determined throughout the balance of the semester.

Course Goals and Objectives:

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Be able to demonstrate and discuss productive keyboard technique	Classroom and individual study.	Periodic quizzes
2. Be able to demonstrate standard technical patterns	Classroom and individual study and practice	Quizzes in each class session
3. Be able to perform solo literature	Classroom and individual study and practice	Monitoring in class and quiz
4. Be able to perform on a music jury	Classroom preparation, memorization and rehearsal	Jury performance and examination

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Policies: *Procedures and Attendance*

Cell phones are generally prohibited in class. This includes ringing, vibrating, answering, “text messaging,” checking messages, or any other type of activity involved with cell phone usage. Wait for a break or the end of class to check your cell phone, but remember to turn it off upon re-entering the classroom.

Attendance and promptness to all lessons is extremely important, and expected of students. This includes absences and chronic tardiness.

Absences and general tardiness will be seriously taken into account in the final grading process, and attendance will be accurately taken each week. Grading will be determined by attendance, attitude, demonstration of progress at the keyboard via consistent practice, and demonstration of repertoire and technique

Lesson Attendance:

Class attendance is critical for the successful completion of this course. Assignments should be completed by the due date provided. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12, 2026.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are

known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

MUEN 1141 11AO
Chorale
Fall Semester, 2026

Instructor: Dr. James Heffel
Meeting Location: 107 Musical Arts Building
Office: Suite 100, Musical Arts Building
Meeting Days: MW
Phone: 903-782-0343
Meeting Times: 11:00 a.m. -12:15 p.m.
Email: jheffel@parisjc.edu
Office Hours:

Course Description: This course provides academic and practical experience in a **vocal ensemble** (such as a Concert Choir or Chorale). Students study, rehearse, and perform a broad range of traditional and contemporary choral literature. The curriculum develops vital technical skills, including **proper breath support, vocal tone production, sight-reading, and intonation** through targeted aural training.

Required Textbook(s) and Materials: All ensemble related musical resources are provided.

Course Goals and Objectives:

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Learn to perform the correct rhythms of the music	In rehearsal study and application	Class participation
2. Learn to perform the correct pitches of the music	In rehearsal study and application	Class participation
3. Learn to perform with dynamic control	In rehearsal study and application	Class participation
4. Increase knowledge of literature for the ensemble	Class discussion	Class discussion and participation
5. Have the ability to perform with other musicians in concert	Performance	Public Performance

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. **Communication & Expression** — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation:

Chorale is the Flagship Choral Ensemble at Paris Junior College. It is our goal to study, rehearse and present classic and contemporary choral literature at the highest level of artistic excellence. This is achieved through diligent, consistent and highly focused rehearsal and study. There are no pre-requisites for this class, and no audition necessary.

Course Outline/Rehearsal/Performance Timeline

- Week 1 Introduction, Building a Sound, Familiarization with Vocalise
- Week 2 Repertoire Rehearsal
- Week 3 Rehearsal of selected repertoire
- Week 4 Rehearsal of selected repertoire
- Week 5 Rehearsal and determination of 1 or 2 sets of repertoire for semester
- Week 6 Rehearsal of repertoire
- Week 7 Final preparations for first performance (as applicable)
- Week 8 First Performance
- Week 9 Rehearsal of 2nd set of repertoire or continuation/expansion of 1st set.
- Week 10 Rehearsal of repertoire
- Week 11 Rehearsal of repertoire
- Week 12 Rehearsal of repertoire
- Week 13 Rehearsal of repertoire
- Week 14 Preparations for final concert(s)
- Week 15 Preparations for final concert(s)
- Week 16 Final Concert

sert subject matter of each lecture or lab activity

Course Policies: *Rehearsal Procedures and Attendance*

Cell phones are prohibited in rehearsal. This includes ringing, vibrating, answering, “text messaging,” checking messages, or any other type of activity involved with cell phone usage. Wait for a rehearsal break to check your cell phone, but remember to turn it off upon re-entering the rehearsal hall. If you are expecting an emergency or critical call during rehearsal time, do not attend rehearsal, if the call is of this type of importance.

Attendance and promptness to all rehearsals is extremely important, and expected of group members. The ensemble is only as strong as its weakest link, and it is discourteous, rude, selfish and unfair to everyone involved to diminish the effectiveness and artistic viability of the group through lack of expertise due to missed rehearsal time. This includes absences and chronic tardiness. If late for a rehearsal in progress, enter the hall and get to your chair as unobtrusively as possible, so as not to disrupt the current activity and break concentration of the group.

Absences and general tardiness will be seriously taken into account in the final grading process (credit). Attendance will be accurately taken at each rehearsal. **If a choir member has missed more than three rehearsals or the equivalent through tardiness (three tardies = one absence), the director may dismiss that member from the group.** As this course is designed as a “lab” format, there are no “make-ups” available for missed rehearsals. In the event that you must miss or be late for a rehearsal, please notify the director **prior** to that rehearsal.
insert faculty procedures for class management

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12, 2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

MUSI 1311 10AO
Music Theory I
Fall Semester, 2026

Instructor: Dr. James Heffel
Meeting Location: 107 Musical Arts Building
Office: Suite 100, Musical Arts Building
Meeting Days: TTH
Phone: 903-782-0343
Meeting Times: 11:00 a.m. -12:15 p.m.
Email: jheffel@parisjc.edu
Office Hours: MTWTh 3:30-5:00 p.m.

Course Description: This course covers the analysis and writing of tonal melody and diatonic harmony, focusing on fundamental music concepts, scales, intervals, triads, seventh chords, and early four-part voice leading.

Required Textbook(s) and Materials: Musical Staff Paper and Pencils for Notation and Dictation. Open source materials for reference will be utilized.

Course Goals and Objectives:

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Familiarization of Musical symbols and associated language	Class lecture and in-class practice	Class participation, assigned exercises and individual study.
2. Aural recognition of musical constructs	Class lecture and in-class practice	Class participation, assigned exercises and individual study
3.gain proficiency in musical notation skills/pitch values/rhythms	Class lecture and in-class practice	Class participation, outside practice and study
4.Increase knowledge of literature for analysis of Common Practice Tonal Theory	Class discussion	Class discussion and participation
5Accurate representations of musical examples as developed in dictation exercises	In class practice	Class participation, assigned exercises and individual study

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.

2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation:

This course is the first of a sequence of four. Upon successful completion of the sequence, the Student will command a solid understanding and skills related to the Theory of Western Music in Common Practice. This first semester covers the ‘language’ of music—notation, rhythm, grammar and other fundamental elements of Western Tonal Music.

Course Outline

- Week 1 Introduction of History of Western Tonal Music
- Week 2 Staves, Clefs and note values
- Week 3 Rhythm/Scales
- Week 4 Associated terminology.
- Week 5 Exam/ Listening
- Week 6 Note relationships/Intervals
- Week 7 Introduction to Melodic Elements
- Week 8 Primary Melodic Dictation and Interval work.
- Week 9 Exam/Implications of Harmonic Content.
- Week 10 Exercise/Dictation
- Week 11 Introduction to the Triad
- Week 12 Triads/Implications of Sonority
- Week 13 Exam/Review
- Week 14 Dictation/Practice
- Week 15 Final Review of Material
- Week 16 Final Examination

Course Policies: *Procedures and Attendance*

Cell phones are generally prohibited in class. This includes ringing, vibrating, answering, “text messaging,” checking messages, or any other type of activity involved with cell phone usage. Wait for a break or the end of class to check your cell phone, but remember to turn it off upon re-entering the classroom.

Attendance and promptness to all classes is extremely important, and expected of students. This includes absences and chronic tardiness. If late for a class in progress, enter the room and get to your chair as unobtrusively as possible, so as not to disrupt the current activity and break concentration of the group.

Absences and general tardiness will be seriously taken into account in the final grading process, and attendance will be accurately taken at each class session. A series of exams will be administered over the course of the semester. Grading is based upon a percentile of 100-90% A, 90-80% B, 80-70% C 70-60% D, and 60-0% F.

Class Attendance:

Class attendance is critical for the successful completion of this course. Assignments should be completed by the due date provided. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, November 12, 2026.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Sociology 1301.10HO) Course Syllabus
Introduction to Sociology
Fall, 2026 Sub-term A

Instructor: Jon Rutherford B.S., M.S.

Meeting Location: Frank Grimes Center, Room 128A

Office: Frank Grimes Center Room A104E

Meeting Days: Mondays and Wednesdays

Meeting Time: 9:30-10:45

Phone: 903 782-0721

Email: jrutherford@parisjc.edu

Office Hours: Monday—7–9:30; 10:45-11;11:30-3:30 Tuesday—7-8; 9:30-11:30. 12-3:30
Wednesday—7-9:30;10:45-11;11:30-3:30 Thursday—7—8; 9:30- 11:30. 12-3:30 Friday—7-
11:30

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Course Description:

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

Students who successfully complete this course will receive 3 college credits. Students are required to be 'reading complete', with a minimum score of 351 on the TSI exam.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/main/business-office/>

Your required e-textbook and course materials for Sociology 1301.10HO; Society: The Basics (Sixteenth Edition), will be delivered digitally in your Blackboard Ultra course provided by your instructor.

Course Goals and Objectives:

After successful completion of SOCI 1301, the student will exhibit an understanding of sociology through the identification of the sociological perspective, including sociological theories. And, students will possess an understanding of the origins of sociology.

By the end of the course, the student will be able to demonstrate familiarity with sociological views on the following social institutions and processes:

- Culture
- Socialization
- Groups and organizations
- Deviance
- Social stratification and its ramifications
- Sex and gender
- Race and ethnicity
- Economics and politics
- Family and religion
- Education and medicine
- Population and Urbanization
- The environment
- Social change

Course Competencies:

- SOCI 1301 will assist students in the development of the following competencies:
- To employ the appropriate methods, technologies, and data that social and behavioral scientists use to investigate the human condition.
- To use and critique alternative explanatory systems or theories.
- To recognize and apply reasonable criteria for the acceptability of historical evidence and social research.
- To identify and understand differences and commonalities within diverse cultures.
- To analyze the effects of historical, social, political, economic, cultural, and global forces on the area under study.
- To examine social institutions and processes across a range of historical periods, social structures, and cultures.

Course Requirements and Evaluation:

SOCI 1301.10HO is a hybrid course. A "hybrid" course means that approximately half of the course will be completed in the classroom and the other half of the course is completed online utilizing the Blackboard Learning Management System (Blackboard). The lecture, midterm exam, final exam and the engagement component of the course will be conducted in the classroom while discussions and reading Quizzes will be administered via Blackboard. NOTE: Students cannot complete this course successfully utilizing only Blackboard (online) nor can a student expect to only attend the lecture component and complete this course successfully. Students must complete both components of a hybrid course to be successful.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Students who successfully complete this course should be able to:

1. Define sociology. Discuss the sociological perspective, as well as what is meant by sociological imagination. Discuss the major theories within the field, and develop a basic understanding of how social research is conducted by sociologists.
2. Define culture and discuss its various components.

3. Discuss the socialization process from infancy to old age.
4. Describe the elements of social structure and interaction.
5. Describe the dynamics and characteristics of social groups.
6. Discuss the impact of formal organizations in society as well as the components of modern day bureaucracy; discuss what is meant by the phrase 'McDonaldization of Society.'
7. Define and discuss deviance, the major theories of deviance, and the relative nature of deviance.
8. Understand stratification, and the similarities and differences among the various strata in this country. In addition, understand how sociologists determine social class ranking.
9. Discuss how race/ethnicity and gender impact the lifechances of the individual in society.
10. Discuss the major theorists within the discipline; discuss sociology's emergence in the socio-historical context.
11. Discuss major trends within the modern family; discuss the sociological functions of the family, as well as conflict and interactionist analyses of the family as an institution.
12. Discuss the various stages of family life.
13. Discuss the impact of class, race, and gender on family life.
14. Discuss the various problems and issues associated with the family.
15. Discuss sexuality from a sociological point of view..
16. Discuss how each of the three theoretical orientations in sociology analyze sex and sexuality.
17. Discuss major demographic trends in the United States and abroad.
18. Discuss the process of urbanization, and its impact on cities, suburbia, and rural areas.
19. Discuss urbanism as a way of life, paying particular attention to the scholarly contributions of Ferdinand Tonnies, Emile Durkheim, George Simmel, and Robert Park.

Coursework Required:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Grading Policy:

Students' grades will be determined based on the following point scale:

360-400 points—A

320-359 points—B

280-319 points—C

240-279 points—D

Below 240 points—F

Testing Policy:

Students will be required to complete two major unit exams, a midterm and final, worth 100 points each. In addition, students will be required to complete ten quizzes. Each quiz will contain 10 questions, worth 1 point per question. Last, students will be required to complete ten discussion postings, worth 10 points per discussion.

Exam Schedule:

Midterm Exam (Chapters 1,2, 3, 4, and 6) In class on September 16, 2026

Final Exam (Chapters 8, 9, 11, 12 and 14) In class on October 14, 2026

Calculation of grades: The maximum number of points that a student can earn in this course is 400. Students are required to complete 2 major unit exams worth 100 points each (200 possible). Also, students are required to complete 10 substantive postings for the balance of the semester, worth 10 points each (100 possible). Last, students are required to complete 10 chapter quizzes, worth 10 points each (100 possible). See the scale above for a breakdown of grades.

Expectations for Student Conduct**1. Academic Integrity***Honesty and Fairness:*

- Complete all academic work truthfully and submit only your own work.
- Avoid plagiarism, cheating, fabrication, or any form of academic dishonesty. Academic dishonesty is defined in Policy FLB(LOCAL).

Proper Attribution:

- Credit all courses appropriately in written, visual, or digital work and on all academic assignments.

Responsibility:

- Report any suspected violations of academic integrity to the appropriate authorities.
- Obey all classroom rules and instructions from faculty.
- Respectful behavior.

2. Interpersonal Respect

Respect for Others:

- Treat all peers, faculty, and staff with dignity, courtesy, and respect.
- Avoid any form of harassment, bullying, or discriminatory behavior.

Conflict Resolution:

- Address disagreements constructively.
- Seek mediation from faculty or administration when needed.

3. Personal Responsibility and Accountability

Attendance and Participation:

- Attend classes regularly, arrive on time, and participate actively.

Behavior on Campus:

- Follow all campus policies regarding conduct, facilities use, and participation in campus life.
- Exercise expressive activities in accordance with applicable law and PJC policies.

Accountability:

- Accept responsibility for your personal actions and decisions.
- Be open to feedback and willing to make changes when necessary.

4. Professional Conduct

Appropriate Communication:

- Use respectful and professional language in all forms of communication, including emails, social media, and in-person interactions.

Ethical Use of Technology:

- Use campus technology and online platforms responsibly and in accordance with college policies.

Representation:

- Represent yourself and the college with integrity in all public and professional settings.

5. Community Engagement and Safety

Safe Environment:

- Contribute to a campus atmosphere that is safe, welcoming, and free from any form of violence or intimidation.

Substance Use and Health:

- Abide by campus regulations regarding alcohol, drugs, and other substances.
- Prioritize your physical and mental health and seek help when needed.

Gang-Free Zone

College District property and surrounding areas are designated gang-free zones under Texas law. Certain criminal offenses committed within these areas may result in enhanced penalties.

Reporting Concerns:

- If you witness or experience behavior that undermines the community's values, report it to the appropriate authorities.

6. Compliance with Institutional Policies

Adherence to Rules:

- Follow all institutional policies, including those not explicitly covered in this code (e.g., safety protocols, housing regulations, etc.).

Consequences:

- Understand that violations of this code may lead to disciplinary actions, including reprimand, probation, suspension, or expulsion.
- The College may also impose temporary restrictions or interim suspension when necessary to protect safety or maintain order pending completion of the disciplinary process.

Due Process:

- Expect that reports of misconduct will be reviewed thoroughly, fairly, and confidentially.
- Students will be given notice, an opportunity to respond, and access to the appropriate appeal process.

7. **Commitment to Continuous Improvement**

Self-Development:

- Strive for continuous personal and academic growth.
- Engage in opportunities for leadership, community service, and self-improvement.

Feedback and Participation:

- Participate in evaluations and discussions aimed at enhancing campus policies and the overall student experience.

Conclusion

By adhering to PJC's Code of Conduct, students help maintain a vibrant, respectful, and dynamic learning environment. PJC's collective commitment to these principles ensures that everyone can benefit from a supportive and high-achieving academic community.

For questions or clarification about this Code, contact:

Director of Student Life

✉ StudentLife@parisjc.edu

☎ 903-782-0433

Attendance

Attendance will be monitored daily, at the beginning of each class session. You CAN NOT expect to do well in this class without attending class, doing the required homework (mostly the reading assignments), and participating in the various assignments.

Important You are required by Texas Law to log on to this course, and complete the syllabus quiz, by the official reporting day (ORD), August 31, or you will be dropped from the course.

Attendance, in this class, will be reported to a college data base, once a week.

The last day for a student to withdraw from a course with a grade of 'W' is October 1.

Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI)

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Online Weekly Schedule

The course is organized into four instructional modules. Each module opens on the date listed below. Chapters, discussions, quizzes, and exams become available when the corresponding module opens. Due dates follow the pacing used in the previous semester and are designed to provide consistent weekly workflow.

Module	Module Title	Chapters	Module Opens	Assignments Due
-----	-----	-----	-----	-----
Module 1	Sociology, Theory, and Culture	Chapters 1 and 2	August 24	September 2
Module 2	Socialization, Social Interaction, Groups, and Organizations	Chapters 3, 4, and 6	August 24	September 17
Module 3	Deviance, Social Stratification, and Gender Stratification	Chapters 8, 9, and 11	August 24	October 2
Module 4	Race, Ethnicity, Family, and Religion	Chapters 12 and 14	August 24	October 11

Note: The final exam is not comprehensive.

Important Note: Students will be allowed to complete online discussion postings and chapter quizzes AFTER the aforementioned deadlines. HOWEVER, if a student completes work after the due date, five points will automatically be deducted from the student's score. In other words, a student can only receive HALF CREDIT for late work.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

This syllabus is subject to change at any time. In the event of a change, the instructor will notify students in class, and by an email inside of Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

NCBI 0004.20E0
Non-Course-Based Remediation in Reading and Writing
Fall 2026 - A Term -2026

Instructor: Mylissa Bailey

Office: SS Center

Phone: 903-885-1232

Email: mbailey@parisjc.edu

Office Hours: M/W 8:00-9:30; 1:30-3:00 T/R 7:30-8:00; 9:30-10:00; 1:30-3:00

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Non-Course-Based Remediation in Reading and Writing is designed to fast-track students into college courses by allowing them to take those college-level courses with remediation as a co-requisite rather than requiring a full semester of remediation before allowing students to enter a college-level course.

Credits: 1 Credit Hours, 1 Hour of class each week

TSI Requirement: 349 TSI and/or 4 essays

Prerequisite: None

Required Textbook(s) and Materials:

No textbook.

Course Goals and Objectives:

NCBI is designed to assist students by developing the skills needed to complete the associated college-level course. Students, the Instructor of Record in the NCBI, and the instructor in the college-level course will work together to help students gain the skills needed to succeed in college-level work.

Upon successful completion of this course, students will demonstrate the student learning outcomes identified as needed through testing or other evaluation. Not all students will complete all of these learning outcomes. By the very nature of the course, it is understood that students will have the majority of these skills since they are only 2-3 points away from entering a college-level course.

1. Locate explicit textual information, draw complex inferences, analyze, and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Describe, analyze, and evaluate information within and across a range of texts.
4. Identify and analyze the audience, purpose, and message across a variety of texts.
5. Describe and apply insights gained from reading a variety of texts.
6. Compose a variety of texts that demonstrate clear focus, the logical development of ideas, and the use of appropriate language that advances the writer's purpose.
7. Determine and use effective approaches and rhetorical strategies for given writing situations.
8. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
9. Develop and use effective revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Edit writing to conform to the conventions of Standard English.

Course Requirements and Evaluation:

Grades in this course are Pass/Fail. This course is based solely on participation: so long as the student completes the required assignments/check-ins, they will receive a "P" (Pass) at the end of the semester. Students who do not participate will receive an "NP" (Non-Passing).

Students who fail to complete the required number of hours, but who pass the paired college-level course, will also pass the course. The whole idea behind this course is that students will gain the support needed to pass the college-level course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *Oct 1st*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

NCBM 0004.20D0
Non-Course Based Remediation in Mathematics
Fall 2026

Instructor: Robert Talley
Office: MS 111H
Phone: 903.782.0335
Email: rtalley@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Monday	Tuesday	Wednesday	Thursday
7:00-8:00 9:30-11:30	7:00-9:00	7:00-8:00 9:30-11:30	7:00-9:00

Course Description:

The NCBO supports students in developing skills, strategies, and reasoning needed to succeed in mathematics, including communication and appropriate use of technology. Topics include the study of numeracy and the real number system; algebraic concepts, notation, and reasoning; quantitative relationships; mathematical models; and problem solving.

Credits: No credit

TSI Requirement: Students who score within two-three points of entry into a college-level mathematics course are allowed to take the college-level course with the NCBM as a corequisite. Because you are allowed to take this course based on your enrollment in NCBM 0004, if you fail to attend and participate in this course, you are out of compliance with TSI requirements.

Required Textbook(s) and Materials:

N/A

Course Goals and Objectives:

Upon successful completion of this course, students will complete the student learning outcomes determined to be needed by testing or other evaluation. Not all students will complete all of these learning outcomes. By the very nature of the course, it is understood that students will have the majority of these skills since they are only 1 point away from entering a college-level mathematics course.

Upon successful completion of this course, students will:

1. Define, represent, and perform operations on real and complex numbers.
2. Recognize, understand, and analyze features of a function.
3. Recognize and use algebraic (field) properties, concepts, procedures (including factoring), and algorithms to combine, transform, and evaluate absolute value, polynomial, radical, and rational expressions.
4. Identify and solve absolute value, polynomial, radical, and rational equations.
5. Identify and solve absolute value and linear inequalities.
6. Model, interpret and justify mathematical ideas and concepts using multiple representations.
7. Connect and use multiple strands of mathematics in situations and problems, as well as in the study of other disciplines.

Course Requirements and Evaluation:

Grades in this course are Pass/Fail. Students are required to complete 4 hours of instruction in order to pass the course. This instruction must be documented by your correspondence via email or phone during week 1, 5, 9, and 13. The NCBO will end in the 14th week of the regular spring and fall semesters and the 6th week in the 8 week terms, and it may be repeated once if needed. **You are required to converse with your NCBM instructor once a week throughout the duration of the semester. *** You will be dropped from this lab class AND your math class after your fourth instance of noncommunication*****

Course Policies:

Please email or call me during the first week of class to let me know what for-credit math course you are taking at PJC. Please make sure that you are aware of due dates and are keeping up with your homework in your for-credit math course; please do not wait until the last minute to work on all of the homework assignments. Do not hesitate to email or call me if you need help or assistance in your for-credit math course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Math Department Artificial Intelligence (AI) Policy

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

Course Schedule:

Students may complete their work on the computer using My Math Lab or getting tutoring from the tutors in math lab, their instructor, or the instructor of record in this course. The instructor of record, additional instructors as available, and tutors will assist students as needed. Students may meet with the instructor of this course to complete test reviews or other homework or to ask questions not answered in the classroom. Please refer to the schedule found in the syllabus for your for-credit class.

Correspondence for this course will take place during Week 1 (August 24-28), Week 5 (September 21-25), Week 9 (October 19-23), and Week 13 (November 16-20.) Be sure to check your email during these weeks, as I will reach out to you to inquire about your progress in your for-credit math course.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule:

Students may complete their work on the computer using My Math Lab or getting tutoring from the tutors in math lab, their instructor, or the instructor of record in this course. The instructor of record, additional instructors as available, and tutors will assist students as needed. Students may meet with the instructor of this course to complete test reviews or other homework or to ask questions not answered in the classroom. Please refer to the schedule found in the syllabus for your for-credit class.

Be sure to check your email on a weekly basis. I will email you on Monday of each week to inquire about your progress in your for-credit math course.

NCBM 0116.40A0
Non-Course Based Remediation in Mathematics
Fall 2026

Instructor: Nicole Lorraine
Office: Greenville 204
Phone: 903.457.8711
Email: nlorraine@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Monday	Tuesday	Wednesday	Thursday	Friday
8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	8:00 - 9:30	
12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	12:15 – 1:15	

Course Description:

The NCBO supports students in developing skills, strategies, and reasoning needed to succeed in mathematics, including communication and appropriate use of technology. Topics include the study of numeracy and the real number system; algebraic concepts, notation, and reasoning; quantitative relationships; mathematical models; and problem solving.

Credits: No credit

TSI Requirement: Students who score within two-three points of entry into a college-level mathematics course are allowed to take the college-level course with the NCBM as a corequisite. Because you are allowed to take this course based on your enrollment in NCBM 0116, if you fail to attend and participate in this course, you are out of compliance with TSI requirements.

Required Textbook(s) and Materials:

N/A

Course Goals and Objectives:

Upon successful completion of this course, students will complete the student learning outcomes determined to be needed by testing or other evaluation. Not all students will complete all of these learning outcomes. By the very nature of the course, it is understood that students will have the majority of these skills since they are only 2 points away from entering a college-level mathematics course.

Upon successful completion of this course, students will:

1. Define, represent, and perform operations on real and complex numbers.
2. Recognize, understand, and analyze features of a function.
3. Recognize and use algebraic (field) properties, concepts, procedures (including factoring), and algorithms to combine, transform, and evaluate absolute value, polynomial, radical, and rational expressions.
4. Identify and solve absolute value, polynomial, radical, and rational equations.
5. Identify and solve absolute value and linear inequalities.
6. Model, interpret and justify mathematical ideas and concepts using multiple representations.
7. Connect and use multiple strands of mathematics in situations and problems, as well as in the study of other disciplines.

Course Requirements and Evaluation:

Grades in this course are Pass/Fail. Students are required to complete 16 hours of instruction in order to pass the course. This instruction must be documented by your weekly correspondence via email or phone. The NCBO will end in the 14th week of the regular spring and fall semesters and the 6th week in the 8 week terms, and it may be repeated once if needed. **You are required to converse with your NCBM instructor once a week throughout the duration of the semester. *** You will be dropped from this lab class AND your math class after your fourth instance of noncommunication*****

Course Policies:

Please email or call me during the first week of class to let me know what for-credit math course you are taking at PJC. Please make sure that you are aware of due dates and are keeping up with your homework in your for-credit math course; please do not wait until the last minute to work on all of the homework assignments. Do not hesitate to email or call me if you need help or assistance in your for-credit math course.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Math Department Artificial Intelligence (AI) Policy

Artificial intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ENGL 1301 20E2
Composition I
Spring 8-week A – Spring 2026

Instructor: Christopher Nichols
Office: Greenville Center, Room 210
Phone: 903-457-8714
Email: cnichols@parisjc.edu

Meeting Location: Greenville Center, Room 223

Meeting Days: ONLINE

Meeting Times: ONLINE

Office Hours:

Office Hours – M W, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, SPRING A

Office Hours – T R, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, SPRING A

Office Hours – M W, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, SPRING B

Office Hours – T R, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, SPRING B

Course Description:

ACGM and Catalog Description

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by:**

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Team Work—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Grading Breakdown and Related Policies: (explanations of these assignments appear in the section "Major Assignment Types and Brief Descriptions" further in this syllabus)

Miscellaneous Exercises and Short Assignments (M.E.S.A.)	5%	(various)
5 of the Assigned Reading Quizzes	5%	(1% apiece)
ALL 16 LAB Assignments (Pretest, Posttest, 14 Lab Quizzes)	15%	
<u>Narrative Essay</u>	10%	
<u>Cause/Effect Essay</u>	10%	
<u>Comparison/Contrast Essay</u>	10%	
Research Paper Planning		(unlocks Annotated Bib)
<u>Annotated Bibliography for Research Paper</u>	10%	(unlocks Peer
Review)		
Research Paper Peer Review		(unlocks Research Paper)
<u>Research Paper</u>	20%	(unlocks Presentation)
Research Presentation	10%	
Final Exam (Handwritten Essay Exam)	5%	
Total	100%	

Note on above: All items are color coded based on their category in Blackboard. All of the purple assignments fall under the “Major Assignments” category, which includes all major essay assignments and research assignments. The underlined items represent the five items that are used to calculate your weighted Essay Average (Narrative, Cause/Effects, Comparison/Contrast, Annotated Bibliography, Research Paper). If your weighted Essay Average is 80 or higher at the time of the Final Exam Essay’s due date, you will be exempt from the Final Exam Essay and your Essay Average will become your Final Exam Essay grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will NOT be reopened under ANY circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Course Policies:

Email Response Time

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- a. Paris
 - 1. The Learning Center
 - 2. AS150
- b. Greenville Center Library
- c. Sulphur Springs Center Library

Basic computer Requirements

- a. As a general rule, a computer manufactured within the last five years is adequate.
- b. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as Word, PowerPoint, Excel, or other specialized software.

Disruptive Behavior

Hopefully, this will never become an issue, but in the case of disruptive behavior in a student, the student will be asked to leave for the initial disruption. Should disruption occur again, the student will be dropped from the course. If you feel a student is being disruptive in a way that has not been made clear to me, the teacher, and inhibits your ability to learn effectively in the classroom, then feel free to email me of such behavioral disruptions at cnichols@parisjc.edu.

Cell Phones

Cell phones can be disruptive. It's important to set priorities in order to succeed. If you have a pressing matter you're currently dealing with, I will be understanding as long as you let me know you need to have your phone available. Otherwise, and especially if it distracts other students, cell phone use will be considered "disruptive behavior" as outlined previously in the syllabus.

Laptops/Tablets

Laptops and tablets can also be disruptive. Whereas cell phones may be disruptive at the individual level, laptops and tablets can often be disruptive for the entire classroom. If other students are using their laptops or tablets for purposes other than that of our English classroom or are utilizing class time to complete assignments rather than taking notes in a way that is distracting to you, feel free to email me of such disruptions at cnichols@parisjc.edu.

Food and Drink

No food or drink will be allowed into class. The only exception is water in a bottle.

Grade Posting Dates

Paris Junior College will post Final Grades as usual this semester, with grades being posted after Final Exam week has been completed. Some instructors post Final Grades during Final Exams week, but I will not post them until the Friday of Final Exam week, with no exceptions. Each instructor will also be responsible for posting Midterm Grades this semester (after Week 8), letting you know how you are doing in the class up to the Midterm point. Not all instructors will be administering a Midterm Exam, however (this class will not), but many instructors will be. In my case, since there is no Midterm Exam in this class, the Midterm Grade will be based on all work submitted up to that point.

Related Statements

As an open door community college, Paris Junior College provides a comprehensive experience meeting the educational and cultural needs of all students and citizens of Paris and the service area. **It is assumed that all students in this class will have received a high school diploma or a GED; therefore, instruction will be at the high school level or above, including both difficulty and maturity.**

Class Attendance:

Class attendance is critical for the successful completion of this course. All instructors at PJC are now required to report class attendance to myPJC on a daily basis, so there will be an institutional record of your absences. These absences may affect various institutional eligibilities. *For online courses, students must complete work in a timely manner and follow due dates.* *Withdrawals must be initiated by the student.* *The last day for a student to withdraw from a course with a grade of "W" is Thursday, February 19th.*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211. In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author for ALL work submitted for the course. Allowing another student to complete assignments constitutes fraud and academic dishonesty. Submitting an assignment already submitted in another course (in whole or in part, even if it was the same course but in a different semester) is not permitted. Cheating on exams is also not permitted. Should such behavior come to the attention of the instructor (whether that student committed an infraction intentionally or unintentionally), the instructor will implement appropriate penalties, such as a 0 for the assignment, an F for the course, or referral to a disciplinary committee. Failure to utilize parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. (Keep in mind; not including a References page

OR Internal Citation on a research assignment technically constitutes plagiarism and will be given an automatic zero until such items are supplied.)

AI (Artificial Intelligence) Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COURSE CALENDAR

Complete all assignments according to the due dates listed below. All assignments must be submitted on Blackboard. **Pink items are from the Miscellaneous Exercises and Short Assignments area.** Purple items are major essays and research-related assignments. Green items are the required literary readings from the textbook. The Labs are in Orange to match

up with Blackboard. Red items are Quizzes over the readings/lessons. The Final Exam is Dark Yellow/Goldenrod. DO NOT write about any of the works in light blue. The light blue items will be included in Quizzes & Exams but must not be used at all otherwise.

WEEKLY COURSE CONTENT

WEEK 1 – All Due Sunday, 8/23, by 11:59pm

View LESSON VIDEO 1.1 – Short Intro Video - Review Course and Syllabus, Assign Information Form, Assign Syllabus Quiz, Assign Engl 1301 LABS

Read **RESOURCE 1.1 - Syllabus**

Complete MESA01 – The Syllabus/Intro Video Quiz (worth 2% of Final Grade)

Complete MESA02 – The Information Form Assignment (worth 3% of Final Grade)

Read READING SET 1 – “Reading to Write” (13-28), “Narration” (95-110), “Description” (151-168), “Invention” (29-48), “Arrangement” (49-64), “Drafting and Revising” (65-80), “Editing and Proofreading” (81-94)

View LESSON VIDEO 1.2 – Invention, Arrangement, Narration, Description, Drafting, Revising, Editing, and Proofreading, **ASSIGN ESSAY01 - NARRATIVE ESSAY**

Complete QUIZ01 – Quiz 1 over READING SET 1

Submit LAB01 – Lab Assignment 1 – The Pretest

Submit ESSAY01 – The Narrative Essay

WEEK 2 – All Due Sunday, 8/30, by 11:59pm

Read READING SET 2 – “Cause and Effect” (313-330), “Why Rational People Buy into Conspiracy Theories” (338-343), “Peaceful Woman Explains Why She Carries a Gun” (348-353), “Exemplification” (201-216), “Girl” (251-253), “Process” (257-272), “Classification and Division” (429-436), “The Ways We Lie” (463-472), “Definition” (479-491), “Why Chinese Mothers are Superior” (396-401)

View LESSON VIDEO 2.1 – Discuss Cause/Effect, **ASSIGN ESSAY02 - CAUSE/EFFECT ESSAY**

View LESSON VIDEO 2.2 – Cause/Effect Discussion Continued (A Study of Evil)

(Note: Essay average of 80 exempts from Final Exam in Engl 1301 and Engl 1302)

ENGL 1301 40H0
Composition I
Fall 8-week A – Fall 2026

Instructor: Christopher Nichols
Office: Greenville Center, Room 210
Phone: 903-457-8714
Email: cnichols@parisjc.edu
Office Hours:

Meeting Location: Greenville Center, Room 223
Meeting Days: Monday and Wednesday
Meeting Times: 8:00-9:15

Office Hours – M W, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – T R, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – M W, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL B
Office Hours – T R, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL B

Course Description:

ACGM and Catalog Description

Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by:**

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

English Program Learning Outcomes:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Grading Breakdown and Related Policies: (explanations of these assignments appear in the section “Major Assignment Types and Brief Descriptions” further in this syllabus)

Miscellaneous Exercises and Short Assignments (M.E.S.A.)	5%	(various)
5 of the Assigned Reading Quizzes	5%	(1% apiece)
ALL 16 LAB Assignments (Pretest, Posttest, 14 Lab Quizzes)	15%	
Narrative Essay	10%	
Cause/Effect Essay	10%	
Comparison/Contrast Essay	10%	
Research Paper Planning		(unlocks Annotated Bib)

<u>Annotated Bibliography for Research Paper</u>	10%	(unlocks Peer Review)
<u>Research Paper Peer Review</u>		(unlocks Research Paper)
<u>Research Paper</u>	20%	(unlocks Presentation)
<u>Research Presentation</u>	10%	
<u>Final Exam (Handwritten Essay Exam)</u>	5%	
Total	100%	

Note on above: All items are color coded based on their category in Blackboard. All of the purple assignments fall under the “**Major Assignments**” category, which includes all major essay assignments and research assignments. The underlined items represent the five items that are used to calculate your weighted **Essay Average (Narrative, Cause/Effects, Comparison/Contrast, Annotated Bibliography, Research Paper)**. If your weighted Essay Average is 80 or higher at the time of the Final Exam Essay’s due date, you will be exempt from the Final Exam Essay and your Essay Average will become your Final Exam Essay grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1301 Labs

Online lab assignments are a required component for all ENGL 1301 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Course Policies:

Email Response Time

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- a. Paris
 1. The Learning Center
 2. AS150
- b. Greenville Center Library
- c. Sulphur Springs Center Library

Basic computer Requirements

- a. As a general rule, a computer manufactured within the last five years is adequate.
- b. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as Word, PowerPoint, Excel, or other specialized software.

Disruptive Behavior

Hopefully, this will never become an issue, but in the case of disruptive behavior in a student, the student will be asked to leave for the initial disruption. Should disruption occur again, the student will be dropped from the course. If you feel a student is being disruptive in a way that has not been made clear to me, the teacher, and inhibits your ability to learn effectively in the classroom, then feel free to email me of such behavioral disruptions at cnichols@parisjc.edu.

Cell Phones

Cell phones can be disruptive. It's important to set priorities in order to succeed. If you have a pressing matter you're currently dealing with, I will be understanding as long as you let me know you need to have your phone available. Otherwise, and especially if it distracts other students, cell phone use will be considered "disruptive behavior" as outlined previously in the syllabus.

Laptops/Tablets

Laptops and tablets can also be disruptive. Whereas cell phones may be disruptive at the individual level, laptops and tablets can often be disruptive for the entire classroom. If other students are using their laptops or tablets for purposes other than that of our English classroom or are utilizing class time to complete assignments rather than taking notes in a way that is distracting to you, feel free to email me of such disruptions at cnichols@parisjc.edu.

Food and Drink

No food or drink will be allowed into class. The only exception is water in a bottle.

Grade Posting Dates

Paris Junior College will post Final Grades as usual this semester, with grades being posted after Final Exam week has been completed. Some instructors post Final Grades during Final Exams week, but I will not post them until the Friday of Final Exam week, with no exceptions. Each instructor will also be responsible for posting Midterm Grades this semester (after Week 8), letting you know how you are doing in the class up to the Midterm point. Not all instructors will be administering a Midterm Exam, however (this class will not), but many instructors will be. In my case, since there is no Midterm Exam in this class, the Midterm Grade will be based on all work submitted up to that point.

Related Statements

As an open door community college, Paris Junior College provides a comprehensive experience meeting the educational and cultural needs of all students and citizens of Paris and the service area. **It is assumed that all students in this class will have received a high school diploma or a GED; therefore, instruction will be at the high school level or above, including both difficulty and maturity.**

Class Attendance:

Class attendance is critical for the successful completion of this course. All instructors at PJC are now required to report class attendance to myPJC on a daily basis, so there will be an institutional record of your absences. These absences may affect various institutional eligibilities. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211. In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author for ALL work submitted for the course. Allowing another student to complete assignments constitutes fraud and academic dishonesty. Submitting an assignment already submitted in another course (in whole or in part, even if it was the same course but in a different semester) is not permitted. Cheating on exams is also not permitted. Should such behavior come to the attention of the instructor (whether that student committed an infraction intentionally or unintentionally), the instructor will implement appropriate penalties, such as a 0 for the assignment, an F for the course, or referral to a disciplinary committee. Failure to utilize parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. (Keep in mind; not including a References page OR Internal Citation on a research assignment technically constitutes plagiarism and will be given an automatic zero until such items are supplied.)

AI (Artificial Intelligence) Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an Announcement on Blackboard that sends an Email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COURSE CALENDAR

Complete all assignments according to the due dates listed below. All assignments must be submitted on Blackboard. **Pink items are from the Miscellaneous Exercises and Short Assignments area.** Purple items are major essays and research-related assignments. Green items are the required literary readings from the textbook. The Labs are in Orange to match up with Blackboard. Red items are Quizzes over the readings/lessons. The Final Exam is Dark Yellow/Goldenrod. DO NOT write about any of the works in light blue. The light blue items will be included in Quizzes & Exams but must not be used at all otherwise.

Course Description:

ACGM and Catalog Description

English 1302 is a continuation of English 1301. Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. Three credit hours. Prerequisite(s): ENGL 1301.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by:**

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

English Program Learning Outcomes:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (ENGL 1302 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative research processes.
2. Develop ideas and synthesize primary and secondary sources within focused academic arguments, including one or more research-based essays.
3. Analyze, interpret, and evaluate a variety of texts for the ethical and logical uses of evidence.
4. Write in a style that clearly communicates meaning, builds credibility, and inspires belief or action.
5. Apply the conventions of style manuals for specific academic disciplines (e.g., APA, CMS, MLA, etc.)

Course Requirements and Evaluation:

Grading Breakdown and Related Policies: (explanations of these assignments appear in the section “Major Assignment Types and Brief Descriptions” further in this syllabus)

Miscellaneous Exercises and Short Assignments (M.E.S.A.) 5% (various)
ALL 16 LAB Assignments (Pretest, Posttest, 14 Lab Quizzes) 15%
Quizzes 5%

<u>Evaluation/Synthesis Essay 1 (E/S1) over Fiction</u>	10%
<u>Evaluation/Synthesis Essay 2 (E/S2) over Drama (<i>Antigone</i> only)</u>	10%
<u>Critical Analysis Essay (CA)</u>	10%

<u>Evaluation/Synthesis Essay 3 (E/S3) over Poetry</u>	10%
Research Argumentation Essay Peer Review	(unlocks Research Paper)
<u>Research Argumentation Essay (RAE)</u>	20% (unlocks Presentation)
Research Argumentation Essay Presentation	10%
<u>Final Exam (Handwritten Essay Exam)</u>	5%
Total	100%

90-100 = **A**; 80-90 = **B**; 70-80 = **C**; 60-70 = **D**; <60 = **F**

Note on above: All items are color coded based on their category in Blackboard. All of the purple assignments fall under the “Major Assignments” category, which includes all major essay assignments and research assignments. The underlined items represent the five items that are used to calculate your weighted **Essay Average** (Evaluation/Synthesis 1, Evaluation/Synthesis 2, Critical Analysis, Evaluation/Synthesis 3, Research Paper). If your weighted Essay Average is 80 or higher at the time of the Final Exam Essay’s due date, you will be exempt from the Final Exam Essay and your Essay Average will become your Final Exam Essay grade.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

ENGL 1302 Labs

Online lab assignments are a required component for all ENGL 1302 students at Paris Junior College and are to be completed outside of the scheduled classroom time. The labs **MUST** be completed by the stated due dates. They will **NOT** be reopened under **ANY** circumstances. Plan ahead and complete them by the scheduled due dates! There are a total of fourteen lab items and two diagnostic tests. Expect to spend, on average, an hour for each of the labs for a total of sixteen hours.

Assignments and Exercises - Conditions

Blackboard discussion posts must be completed using the default font for Blackboard, or Times New Roman 12-point font. Please do not copy/paste posts into the box in any other fonts. Essays and Research Paper materials must be typed in Times New Roman, 12-point font, with 1-inch page margins, a heading, a title, and page numbers on all but the first page (MLA style). The Evaluation/Synthesis essays must be written in first-person while the other essays must be written in third-person. These must be submitted on Blackboard (<http://parisjc.blackboard.com>) by 11:59pm on the date listed. (Note: Assignments submitted through Blackboard must be typed using a word processing program and uploaded to Blackboard. Students may **NOT** type their paper into the submission box directly.) Late

assignments must also be submitted to Blackboard, so it's best to just become familiar with submitting essays on Blackboard, as intended.

Course Policies:

Email Response Time

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- a. Paris
 - 1. The Learning Center
 - 2. AS150
- b. Greenville Center Library
- c. Sulphur Springs Center Library

Basic computer Requirements

- a. As a general rule, a computer manufactured within the last five years is adequate.
- b. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as Word, PowerPoint, Excel, or other specialized software.

Disruptive Behavior

Hopefully, this will never become an issue, but in the case of disruptive behavior in a student, the student will be asked to leave for the initial disruption. Should disruption occur again, the student will be dropped from the course. If you feel a student is being disruptive in a way that has not been made clear to me, the teacher, and inhibits your ability to learn effectively in the classroom, then feel free to email me of such behavioral disruptions at cnichols@parisjc.edu.

Cell Phones

Cell phones can be disruptive. It's important to set priorities in order to succeed. If you have a pressing matter you're currently dealing with, I will be understanding as long as you let me know you need to have your phone available. Otherwise, and especially if it distracts other students, cell phone use will be considered "disruptive behavior" as outlined previously in the syllabus.

Laptops/Tablets

Laptops and tablets can also be disruptive. Whereas cell phones may be disruptive at the individual level, laptops and tablets can often be disruptive for the entire classroom. If other students are using their laptops or tablets for purposes other than that of our English classroom or are utilizing class time to complete assignments rather than taking notes in a way that is distracting to you, feel free to email me of such disruptions at cnichols@parisjc.edu.

Food and Drink

No food or drink will be allowed into class. The only exception is water in a bottle.

Grade Posting Dates

Paris Junior College will post Final Grades as usual this semester, with grades being posted after Final Exam week has been completed. Some instructors post Final Grades during Final Exams week, but I will not post them until the Friday of Final Exam week, with no exceptions. Each instructor will also be responsible for posting Midterm Grades this semester (after Week 8), letting you know how you are doing in the class up to the Midterm point. Not all instructors will be administering a Midterm Exam, however (this class will not), but many instructors will be. In my case, since there is no Midterm Exam in this class, the Midterm Grade will be based on all work submitted up to that point.

Related Statements

As an open door community college, Paris Junior College provides a comprehensive experience meeting the educational and cultural needs of all students and citizens of Paris and the service area. **It is assumed that all students in this class will have received a high school diploma or a GED; therefore, instruction will be at the high school level or above, including both difficulty and maturity.**

Class Attendance:

Class attendance is critical for the successful completion of this course. All instructors at PJC are now required to report class attendance to myPJC on a daily basis, so there will be an institutional record of your absences. These absences may affect various institutional eligibilities. Within my course itself, a student will be counted absent if that student is not present for 15 total minutes of a class meeting, regardless of whether it happens at the beginning, during the middle, or at the end of a class meeting. If a student does not arrive at the time at which class is meant to begin, that student will be considered late. Two lates equals an absence. Absences remove students from learning, and success on assignments is almost impossible without the proper knowledge to execute those assignments effectively. Attending increases the likelihood of success. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. **The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211. In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author for ALL work submitted for the course. Allowing another student to complete assignments constitutes fraud and academic dishonesty. Submitting an assignment already submitted in another course (in whole or in part, even if it was the same course but in a different semester) is not permitted. Cheating on exams is also not permitted. Should such behavior come to the attention of the instructor (whether that student committed an infraction intentionally or unintentionally), the instructor will implement appropriate penalties, such as a 0 for the assignment, an F for the course, or referral to a disciplinary committee. Failure to utilize parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. (Keep in mind; not including a References page OR Internal Citation on a research assignment technically constitutes plagiarism and will be given an automatic zero until such items are supplied.)

AI (Artificial Intelligence) Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an Announcement on Blackboard that sends an Email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

COURSE CALENDAR

Complete all assignments according to the due dates listed below. All assignments must be submitted on Blackboard. **MESA assignments are in pink. The Labs are in Orange. Purple indicates major assignments such as the 5 Essay assignments and Research assignments. Green assignments are Readings. Red assignments are Quizzes over the Readings you’ve read and discussed. DO NOT do any assignments over any of the works in blue.** Some works have a **bold URL link** instead of page numbers because you’ll read them online, not in the book. **The Final Exam Essay is in Puke Green/Yellow because it is horrible.**

Content for each Week on Blackboard will be made available by the end of the Monday of that Week (for example, the full folder of lessons and assignments for Week 2 will be available by 11:59pm on the next Monday, perhaps sooner), Topics of Lesson Videos may change and Lesson Videos may end up with a different Titling Scheme (Lesson Video 1.1 instead of Week 1 Class, for example). Class videos may contain different date references than the actual due dates in the course, as they were recorded in prior semester when the dates were different, but designations by Week number (such as “due Week 11”) should remain accurate.

WEEKLY COURSE CONTENT

WEEK 1 – All Due Sunday, 8/23, by 11:59pm

Read the Welcome Note to the Course (or **Watch Welcome Video – Short Intro to the Course**)

Read the Syllabus

~~Watch Lesson Video 1.1 – Extended Introduction to the Course~~

Complete QUIZ01 over Syllabus

~~Watch Lesson Video 1.2 – Introduction to Literature and Evaluation/Synthesis~~

Complete MESA01 – Information Form Assignment (worth 3% of final grade)

Submit LAB01 – LABS ASSIGNMENT – Pre-test

READ FICTION SET 1: Faulkner’s “A Rose for Emily” (445-452), Gilman’s “The Yellow Wallpaper” (211-224), “Barn Burning” (<https://shorturl.at/bABX6>)

READ FICTION SET 2: O’Connor’s “A Good Man is Hard to Find” (738-750), Ellison’s “Battle Royal” (886-897), O’Connor’s “Good Country People” (<https://bit.ly/2P8YzST>)

WEEK 2 – All Due Sunday, 8/30, by 11:59pm

~~Watch Lesson Video 2.1 over Fiction Set 1~~

Complete QUIZ02 over Fiction Set 1

~~Watch Lesson Video 2.2 over Fiction Set 2~~

Complete QUIZ03 over Fiction Set 2

Submit LAB02 – LABS ASSIGNMENT – Graded Quiz on Plagiarism and Documentation

Submit LAB03 – LABS ASSIGNMENT – Graded Quiz on Academic Writing

Submit LAB04 – LABS ASSIGNMENT – Graded Quiz on Essay Organization

READ FICTION SET 3: Le Guin’s “The Ones Who Walk Away from Omelas” (<https://www.jstor.org/stable/20719019>), Carver’s “What We Talk About When We Talk About Love” (<https://tinyurl.com/5anp3km5>), Liu’s “Paper Menagerie” (<https://tinyurl.com/5n8yb23v>)

Submit ESSAY01 – EVALUATION/SYNTHESIS ESSAY 1 (over an **assigned** Short Story from Fiction Set 1, 2, or 3, but **not *Antigone***)

WEEK 3 – All Due Sunday, 9/6, by 11:59pm

~~Watch Lesson Video 3.1 over Fiction Set 3~~

[Complete QUIZ04 over Fiction Set 3](#)

[READ DRAMA: Sophocles' *Antigone* \(381-413\)](#)

~~Watch Lesson Video 3.2 over Drama—Antigone part 1~~

~~Watch Lesson Video 3.3 over Drama—Antigone part 2~~

[Complete QUIZ05 over Drama \(Sophocles' *Antigone*\)](#)

[Submit LAB05 – LABS ASSIGNMENT – Graded Quiz on Thesis](#)

[Submit LAB06 – LABS ASSIGNMENT – Graded Quiz on Evaluating Sources](#)

[Submit LAB07 – LABS ASSIGNMENT – Graded Quiz on MLA Format](#)

[READ POETRY SET 1: Housman's "When I was One and Twenty" \(\[bit.ly/2wZOyO4\]\(https://bit.ly/2wZOyO4\)\),
Hayden's "Those Winter Sundays" \(335\), Roethke's "My Papa's Waltz" \(336\), Marvell's
"To His Coy Mistress" \(<https://bit.ly/3m6yShY>\), Owens' "Dulce et Decorum Est" \(250-
251\)](#)

[READ POETRY SET 2: Blake's "The Chimney Sweeper" \(706-707\), Cullen's "Incident"
\(<https://tinyurl.com/mdphwns2>\), Hughes' "Open Letter to the South" \(721-724\), Hughes'
"Harlem" \(726\)](#)

[Submit ESSAY02 – EVALUATION/SYNTHESIS ESSAY 2 \(MUST be over *Antigone*\)](#)

WEEK 4 – All Due Sunday, 9/13, by 11:59pm

~~Watch Lesson Video 4.1 over Poetry Set 1~~

[Complete QUIZ06 over Poetry Set 1](#)

~~Watch Lesson Video 4.2 over Poetry Set 2~~

[Complete QUIZ07 over Poetry Set 2](#)

[Submit LAB08 – LABS ASSIGNMENT – Graded Quiz on MLA Documentation](#)

[Submit LAB10 – LABS ASSIGNMENT – Graded Quiz on the Outline](#)

~~Watch Lesson Video 4.3 over Critical Analysis Essay~~

~~Watch Lesson Video 4.4 (optional) Overly Detailed Explanation of Critical Analysis Essay~~

READ POETRY SET 3: Dickinson: "Some keep the Sabbath going to Church"

(bit.ly/2gQ9ZaB), ~~"Faith' is a Fine Invention"~~ (bit.ly/2w5pK51), "Much Madness is
Divinest Sense" (531), "I dwell in Possibility" (bit.ly/2h2NheU), "The Soul selects her
own Society" (bit.ly/1PhLX3u), "Tell all the Truth but tell it slant" (531).

READ POETRY SET 4: Frost: "Road Not Taken" (876-878), "Mowing" (bit.ly/2NgIHrW),
"Stopping by Woods on a Snowy Evening" (91), "Mending Wall" (61-62), "After Apple-
Picking" (bit.ly/2fV6Jtn), "Birches" (bit.ly/2P14SCU)

Submit ESSAY03 – CRITICAL ANALYSIS ESSAY (no *Antigone*)

WEEK 5 – All Due Sunday, 9/20, by 11:59pm

~~Watch Lesson Video 5.1 over Poetry Set 3 – Dickinson~~

~~Complete QUIZ08 over Poetry Set 3 – Dickinson~~

~~Watch Lesson Video 5.2 over Poetry Set 4 – Frost~~

~~Complete QUIZ09 over Poetry Set 4 – Frost~~

~~Submit LAB11 – LABS ASSIGNMENT – Graded Quiz on Sentence Structure~~

~~Submit LAB12 – LABS ASSIGNMENT – Graded Quiz on Transitions~~

~~Submit LAB13 – LABS ASSIGNMENT – Graded Quiz on Parallelism~~

~~READ POETRY SET 5: Eliot’s “Love Song of J. Alfred Prufrock” (bit.ly/3mhyi1c)~~

~~Submit ESSAY04 – EVALUATION/SYNTHESIS ESSAY 3 (over one **assigned** poem from Poetry Set 1, 2, 3, 4, or 5)~~

~~Watch Lesson Video 5.3 over all aspects of the Research Paper Assignment~~

~~Submit RPPLAN – RESEARCH PAPER PLANNING (grade of 8 required before being allowed to submit Research Paper)~~

WEEK 6 – All Due Sunday, 9/27, by 11:59pm

~~Watch Lesson Video 6.1 over Poetry Set 5~~

~~Complete QUIZ10 due over Poetry Set 5~~

~~Submit LAB14 – LABS ASSIGNMENT – Graded Quiz on Paragraph Unity and Cohesion~~

~~Submit LAB15 – LABS ASSIGNMENT – Graded Quiz on Editing~~

~~Watch Lesson Video 6.2 over the Research Paper Peer Review~~

~~Watch Lesson Video 6.3 over the Research Paper Rubric~~

~~Submit RPPEER – RESEARCH PAPER PEER REVIEW~~

~~Submit ESSAY05 – RESEARCH ARGUMENTATION ESSAY (worth 20%)~~

WEEK 7 – All Due Sunday, 10/4, by 11:59pm

~~Watch Lesson Video 7.1 over the Research Presentation Assignment~~

[Submit LAB16 – LABS ASSIGNMENT – Posttest](#)

[Submit RPPRES – RESEARCH PRESENTATION](#)

[Submit ALL FINAL PAPER REVISIONS](#)

[Complete MESA02 – END OF COURSE OPINION POST 1](#)

[Complete MESA03 – END OF COURSE OPINION POST 2](#)

WEEK 8 – All Due Thursday, 10/11, by 11:59pm (CLASS OVER THURSDAY NIGHT)

Submit Final Revisions by Tuesday

Finish [RESEARCH PRESENTATION](#) if 2 Questions/2 Answers aren't complete (by Tuesday)

Submit FINAL EXAM ESSAY (if not exempt from Final Exam)

(Note: Essay average of 80 exempts from Final Exam in Engl 1301 and Engl 1302)

IRWS 0301 40H0
Integrated Reading and Writing
Fall 8-week A – Fall 2026

Instructor: Christopher Nichols
Office: Greenville Center, Room 210
Phone: 903-457-8714
Email: cnichols@parisjc.edu
Office Hours:

Meeting Location: Greenville Center, Room 223
Meeting Days: Mondays and Wednesdays
Meeting Times: 11:00am to 12:15pm

Office Hours – M W, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – T R, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – M W, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL B
Office Hours – T R, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL B

Course Description:

ACGM and Catalog Description

Integration of critical reading and academic writing skills. Successful completion of this intervention fulfills TSI requirements for reading and/or writing.

Students are placed into the course by test scores. The course may not be used to fulfill degree requirements

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives:

English Program Learning Outcomes:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Student Learning Outcomes (IRWS 0302 Course-Level):

Upon successful completion of this course, students will:

1. Locate explicit textual information, draw complex inferences, and describe, analyze, and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.
5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of standard English in reading and writing.

Course Requirements and Evaluation:

Grading Breakdown and Related Policies: (explanations of these assignments appear in the section "Major Assignment Types and Brief Descriptions" further in this syllabus)

Information Form, Syllabus Quiz, and Introduction Post	10% (5%, 3%, 2%)
Modules	80%
Final Exam	10%
Total	100%

90-100 = **A**; 80-90 = **B**; 70-80 = **C**; 60-70 = **D**; <60 = **F**

Note on above: All items are color coded based on their category in Blackboard. I tried to make the colors different enough in categories that are far different than their counterparts in Engl 1301 but similar where there are similarities. I didn't feel the need to make you do a completely different Information Form because the information would likely be the same, but I did want a different Syllabus Quiz because of the different requirements. I made the Outline/Planning assignments associated with your Engl 1301 essays to be blue so as not to get confused with the purple of the actual assignments in the other syllabus. The yellow is used for the Q&A Forum Posts because the only other time I use yellow as a color in my classes is in Engl 1302, where it basically works like weekly forum posts as you'll have here.

Assignments and Exercises - Conditions

In-class assignments and exercises should be double-spaced on standard notebook paper with either blue or black ink and will be submitted during class time. Essays and Research Paper materials must be typed in Times New Roman, 12-point font, with 1-inch page margins,

with a page heading and page numbers on all but the first page (APA or MLA style). The Narrative Essay is written in 1st person POV, but all others must be written in 3rd person POV. All essays must be submitted on Blackboard (<http://parisjc.blackboard.com>) by 11:59pm on the date listed. Emailed nor printed assignments will be accepted. (Note: Assignments submitted through Blackboard must be typed using a word processing program such as Microsoft Word or Google Docs and be uploaded to Blackboard. Students may NOT type their paper into the submission box directly.)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Email Response Time

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- a. Paris
 - 1. The Learning Center
 - 2. AS150
- b. Greenville Center Library
- c. Sulphur Springs Center Library

Basic computer Requirements

- a. As a general rule, a computer manufactured within the last five years is adequate.
- b. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as Word, PowerPoint, Excel, or other specialized software.

Disruptive Behavior

Hopefully, this will never become an issue, but in the case of disruptive behavior in a student, the student will be asked to leave for the initial disruption. Should disruption occur again, the student will be dropped from the course. If you feel a student is being disruptive in a way that has not been made clear to me, the teacher, and inhibits your ability to learn effectively in the classroom, then feel free to email me of such behavioral disruptions at cnichols@parisjc.edu.

Cell Phones

Cell phones can be disruptive. It's important to set priorities in order to succeed. If you have a pressing matter you're currently dealing with, I will be understanding as long as you let me know you need to have your phone available. Otherwise, and especially if it distracts other

students, cell phone use will be considered “disruptive behavior” as outlined previously in the syllabus.

Laptops/Tablets

Laptops and tablets can also be disruptive. Whereas cell phones may be disruptive at the individual level, laptops and tablets can often be disruptive for the entire classroom. If other students are using their laptops or tablets for purposes other than that of our English classroom or are utilizing class time to complete assignments rather than taking notes in a way that is distracting to you, feel free to email me of such disruptions at cnichols@parisjc.edu.

Food and Drink

No food or drink will be allowed into class. The only exception is water in a bottle.

Grade Posting Dates

Paris Junior College will post Final Grades as usual this semester, with grades being posted after Final Exam week has been completed. Some instructors post Final Grades during Final Exams week, but I will not post them until the Friday of Final Exam week, with no exceptions. Each instructor will also be responsible for posting Midterm Grades this semester (after Week 8), letting you know how you are doing in the class up to the Midterm point. Not all instructors will be administering a Midterm Exam, however (this class will not), but many instructors will be. In my case, since there is no Midterm Exam in this class, the Midterm Grade will be based on all work submitted up to that point.

Related Statements

As an open door community college, Paris Junior College provides a comprehensive experience meeting the educational and cultural needs of all students and citizens of Paris and the service area. **It is assumed that all students in this class will have received a high school diploma or a GED; therefore, instruction will be at the high school level or above, including both difficulty and maturity.**

Class Attendance:

Class attendance is critical for the successful completion of this course. All instructors at PJC are now required to report class attendance to myPJC on a daily basis, so there will be an institutional record of your absences. These absences may affect various institutional eligibilities. **For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is Thursday, October 1st.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others

will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211. In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author for ALL work submitted for the course. Allowing another student to complete assignments constitutes fraud and academic dishonesty. Submitting an assignment already submitted in another course (in whole or in part, even if it was the same course but in a different semester) is not permitted. Cheating on exams is also not permitted. Should such behavior come to the attention of the instructor (whether that student committed an infraction intentionally or unintentionally), the instructor will implement appropriate penalties, such as a 0 for the assignment, an F for the course, or referral to a disciplinary committee. Failure to utilize parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. (Keep in mind; not including a References page OR Internal Citation on a research assignment technically constitutes plagiarism and will be given an automatic zero until such items are supplied.)

AI (Artificial Intelligence) Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an Announcement on Blackboard that sends an Email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Assignments listed must be completed BEFORE the class day on which they appear. (For example, Week 1 Day 2 says to do reading from the book. This means you must do that reading BEFORE class on Week 1 Day 2). **Items in Pink are the Syllabus Quiz and Intro Post assignments.** **Items in Yellow are Q&A assignments.** **Items in Blue are Writing Assignments.**

Discussions/Lessons will generally be reactive to the content in the Engl 1301 class and will explore information to assist in the completion of and success on those assignments.

However, keep in mind that this course's entire purpose is to aid in the completion of your Engl 1301 course; the lesson content for all class days can change at a moment's notice in IRWS 0302 depending on the needs of the students. So, the content of each class day is unlikely to match up perfectly with what is currently listed, and will often have a significant portion of the class time dedicated to answer questions from the Q&A assignments allowed.

WEEKLY COURSE CONTENT

Week 1: Introduction and Brief Reading, Writing, and Grammar

Week 2: Reading, Writing, Grammar

Week 3: Reading, Writing, Grammar

Week 4: Reading, Writing, Grammar

Week 5: Reading, Writing, Grammar

Week 6: Reading, Writing, Grammar

Week 7: Reading, Writing, Grammar

Week 8: Final Exam

Integrated Reading and Writing
Fall 8-week A – Fall 2026

Instructor: Christopher Nichols
Office: Greenville Center, Room 210
Phone: 903-457-8714
Email: cnichols@parisjc.edu
Office Hours:

Meeting Location: Greenville Center, Room 223
Meeting Days: Mondays and Wednesdays
Meeting Times: 11:00am to 12:15pm

Office Hours – M W, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – T R, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – M W, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL B
Office Hours – T R, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL B

Course Description:

ACGM and Catalog Description

Integration of critical reading and academic writing skills. Successful completion of this intervention fulfills TSI requirements for reading and/or writing.

Students are placed into the course by test scores. The course may not be used to fulfill degree requirements

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/11/2026**
- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

English Program Learning Outcomes:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Student Learning Outcomes (IRWS 0302 Course-Level):

Upon successful completion of this course, students will:

1. Locate explicit textual information, draw complex inferences, and describe, analyze, and evaluate the information within and across multiple texts of varying lengths.
2. Comprehend and use vocabulary effectively in oral communication, reading, and writing.
3. Identify and analyze the audience, purpose, and message across a variety of texts.
4. Describe and apply insights gained from reading and writing a variety of texts.

5. Compose a variety of texts that demonstrate reading comprehension, clear focus, logical development of ideas, and use of appropriate language that advance the writer's purpose.
6. Determine and use effective approaches and rhetorical strategies for given reading and writing situations.
7. Generate ideas and gather information relevant to the topic and purpose, incorporating the ideas and words of other writers in student writing using established strategies.
8. Evaluate relevance and quality of ideas and information in recognizing, formulating, and developing a claim.
9. Develop and use effective reading and revision strategies to strengthen the writer's ability to compose college-level writing assignments.
10. Recognize and apply the conventions of standard English in reading and writing.

Course Requirements and Evaluation:

Grading Breakdown and Related Policies: (explanations of these assignments appear in the section "Major Assignment Types and Brief Descriptions" further in this syllabus)

Information Form, Syllabus Quiz, and Introduction Post	10% (5%, 3%, 2%)
Writing Assignments	80% (10% apiece)
Final Exam	10%
Total	100%

90-100 = **A**; 80-90 = **B**; 70-80 = **C**; 60-70 = **D**; <60 = **F**

Note on above: All items are color coded based on their category in Blackboard. I tried to make the colors different enough in categories that are far different than their counterparts in Engl 1301 but similar where there are similarities. I didn't feel the need to make you do a completely different Information Form because the information would likely be the same, but I did want a different Syllabus Quiz because of the different requirements. I made the Outline/Planning assignments associated with your Engl 1301 essays to be blue so as not to get confused with the purple of the actual assignments in the other syllabus. The yellow is used for the Q&A Forum Posts because the only other time I use yellow as a color in my classes is in Engl 1302, where it basically works like weekly forum posts as you'll have here.

Assignments and Exercises - Conditions

In-class assignments and exercises should be double-spaced on standard notebook paper with either blue or black ink and will be submitted during class time. Essays and Research Paper materials must be typed in Times New Roman, 12-point font, with 1-inch page margins, with a page heading and page numbers on all but the first page (APA style). The Narrative Essay is written in 1st person POV, but all others must be written in 3rd person POV. All essays must be submitted on Blackboard (<http://parisjc.blackboard.com>) by 11:59pm on the date listed. Emailed nor printed assignments will be accepted. (Note: Assignments submitted through Blackboard must be typed using a word processing program such as Microsoft Word or Google Docs and be uploaded to Blackboard. Students may NOT type their paper into the submission box directly.)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Email Response Time**

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

- a. Paris
 - 1. The Learning Center
 - 2. AS150
- b. Greenville Center Library
- c. Sulphur Springs Center Library

Basic computer Requirements

- a. As a general rule, a computer manufactured within the last five years is adequate.
- b. In addition to the basic system requirements, some courses may also require flash drive, web cam, common application software such as Word, PowerPoint, Excel, or other specialized software.

Disruptive Behavior

Hopefully, this will never become an issue, but in the case of disruptive behavior in a student, the student will be asked to leave for the initial disruption. Should disruption occur again, the student will be dropped from the course. If you feel a student is being disruptive in a way that has not been made clear to me, the teacher, and inhibits your ability to learn effectively in the classroom, then feel free to email me of such behavioral disruptions at cnichols@parisjc.edu.

Cell Phones

Cell phones can be disruptive. It's important to set priorities in order to succeed. If you have a pressing matter you're currently dealing with, I will be understanding as long as you let me know you need to have your phone available. Otherwise, and especially if it distracts other students, cell phone use will be considered "disruptive behavior" as outlined previously in the syllabus.

Laptops/Tablets

Laptops and tablets can also be disruptive. Whereas cell phones may be disruptive at the individual level, laptops and tablets can often be disruptive for the entire classroom. If other students are using their laptops or tablets for purposes other than that of our English

classroom or are utilizing class time to complete assignments rather than taking notes in a way that is distracting to you, feel free to email me of such disruptions at cnichols@parisjc.edu .

Food and Drink

No food or drink will be allowed into class. The only exception is water in a bottle.

Grade Posting Dates

Paris Junior College will post Final Grades as usual this semester, with grades being posted after Final Exam week has been completed. Some instructors post Final Grades during Final Exams week, but I will not post them until the Friday of Final Exam week, with no exceptions. Each instructor will also be responsible for posting Midterm Grades this semester (after Week 8), letting you know how you are doing in the class up to the Midterm point. Not all instructors will be administering a Midterm Exam, however (this class will not), but many instructors will be. In my case, since there is no Midterm Exam in this class, the Midterm Grade will be based on all work submitted up to that point.

Related Statements

As an open door community college, Paris Junior College provides a comprehensive experience meeting the educational and cultural needs of all students and citizens of Paris and the service area. **It is assumed that all students in this class will have received a high school diploma or a GED; therefore, instruction will be at the high school level or above, including both difficulty and maturity.**

Class Attendance:

Class attendance is critical for the successful completion of this course. All instructors at PJC are now required to report class attendance to myPJC on a daily basis, so there will be an institutional record of your absences. These absences may affect various institutional eligibilities. **For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, October 1st.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment in. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at

ss@parisjc.edu or 903-782-0211. In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. By registering and taking this course, the officially enrolled student declares that he/she will be the author for ALL work submitted for the course. Allowing another student to complete assignments constitutes fraud and academic dishonesty. Submitting an assignment already submitted in another course (in whole or in part, even if it was the same course but in a different semester) is not permitted. Cheating on exams is also not permitted. Should such behavior come to the attention of the instructor (whether that student committed an infraction intentionally or unintentionally), the instructor will implement appropriate penalties, such as a 0 for the assignment, an F for the course, or referral to a disciplinary committee. Failure to utilize parenthetical documentation for sources (including borrowing/using information without giving credit to the source) will constitute plagiarism. (Keep in mind; not including a References page OR Internal Citation on a research assignment technically constitutes plagiarism and will be given an automatic zero until such items are supplied.)

AI (Artificial Intelligence) Policy

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an Announcement on Blackboard that sends an Email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Course Schedule:

Assignments listed must be completed BEFORE the class day on which they appear. (For example, Week 1 Day 2 says to do reading from the book. This means you must do that reading BEFORE class on Week 1 Day 2). **Items in Pink are the Syllabus Quiz and Intro Post assignments.** **Items in Yellow are Q&A assignments.** **Items in Blue are Writing Assignments.** Discussions/Lessons will generally be reactive to the content in the Engl 1301 class and will explore information to assist in the completion of and success on those assignments. However, keep in mind that this course's entire purpose is to aid in the completion of your Engl 1301 course; the lesson content for all class days can change at a moment's notice in IRWS 0302 depending on the needs of the students. So, the content of each class day is unlikely to match up perfectly with what is currently listed, and will often have a significant portion of the class time dedicated to answer questions from the Q&A assignments allowed.

NCBI 0004 20E3
Non-Course Based Remediation in Reading and Writing
Fall 8-week A – Fall 2026

Instructor: Chris Nichols
Office: GC 210
Phone: (903) 457-8714
Email: cnichols@parisjc.edu
Office Hours:

Meeting Location: Online
Meeting Days: Online
Meeting Times: Online

Office Hours – M W, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – T R, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL A
Office Hours – M W, 11:00-12:30, 12:30-1:30, Greenville Center, GC 210, FALL B
Office Hours – T R, 9:30-10:30, 12:30-1:30, Greenville Center, GC 210, FALL B

Course Description:

Non-Course Based Remediation in Reading and Writing is designed to fast-track students into college courses by allowing them to take those college-level courses with remediation as a co-requisite rather than requiring a full semester of remediation before allowing students to enter a college-level course. Prerequisite: None
Credits: 1 Credit Hours, 1 Hour of class each week
TSI Requirement: 349 TSI and/or 4 essay

Illness Policy

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher). You can return to your normal activities when, for at least 24 hours, both of the following are true: 1. Your symptoms are getting better overall and 2. you have not had a fever (and are not using fever-reducing medication). When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. You will be charged automatically, so you will not need to make a separate purchase.

For this course we will be using a digital **eBook accessed through the My Materials link in Blackboard**. You will also receive an email directly from Kortext no-reply@kortext.com, with a link to access your account. Please follow directions in the email to access your virtual bookshelf.

If you wish to opt-out of this program, please follow the steps below **by:**

- **Fall Main & Flex 1 Term: 9/11/2026**

- **Flex 2 Term: 10/28/2026**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Course Goals and Objectives:

NCBI is designed to assist students by developing the skills needed to successfully complete the associated college-level course. Students, the Instructor of Record in the NCBI, and the instructor in the college-level course will work together to assist the student in gaining the skills needed to be successful in college-level work.

English Program Learning Outcomes:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.
5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Student Learning Outcomes (ENGL 1301 Course-Level):

Upon successful completion of this course, students will:

1. Demonstrate knowledge of individual and collaborative writing processes.

2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Grades in this course are Pass/Fail. Students are required to complete 16 hours of instruction with 70% accuracy in order to pass the course.

Course Policies:**Email Response Time**

If an email was sent Monday – Thursday, expect a response within 24 hours. If the email was sent Friday – Sunday, expect an answer on Monday.

Technical Difficulties

Computer access is available at the following PJC locations. Technical issues are not an excuse to miss deadlines. This is why assignments should not be put off until near the deadline.

Course Schedule:

All work should be completed by the course deadline, September 30th, which is 4 weeks into the semester. Otherwise, the schedule is variable, depending on the student. All essays must be typed following MLA (12-point font, Arial or Times New Roman), and will not be accepted in any other form. You can reference the Purdue OWL for further assistance in this regard.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by an Announcement on Blackboard that sends an Email.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

*NURA 1260.900
Nurse Aide for Health Care
Clinical Course Fall 2026*

Instructor: Randa Parris, MSN, RN
Office: WTC 1205
Phone: 903-782-0753
Email: rparris@parisjc.edu

Meeting Location: PJC WTC
Class Days: Monday/Wednesday
Meeting Times: 8:00 AM–12:00 PM
Office Hours: Thursday, 7:30 AM–4:00 PM
Please email to schedule an appointment.

Course Description:

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

Credits: 3.3.0

Prerequisite(s): none

Required Textbook(s) and Materials:

Mosby's Textbook for Long-Term Care Nursing Assistants, Ninth Edition
ISBN: 9780323877695

IT Support: PJC Help Desk contact email/phone: techsupport@parisjc.edu, 903-782-0496
IT Checklist link: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

Course Sequence/Clinical Eligibility:

NURA 1260 is the clinical component of the Nurse Aide training sequence and follows the NURA 1301 Nurse Aide for Health Care didactic/classroom and skills component. Students must successfully complete all required NURA 1301 coursework and skills competencies before beginning the NURA 1260 clinical experience.

Course Goals and Objectives:

At the completion of the course, the student will be able to discuss basic care of residents in a long-term care facility, communicate and interact effectively with residents and their families based on sensitivity to the psychosocial needs, discuss the rights of the residents, discuss safety and preventive measures in the care of residents, and demonstrate skills in observing and reporting, and function effectively as a member of the health care team.

Course Schedule:

Weeks 1-2: The skills lesson #1 correlates with your lecture content from Weeks 1- 2: Chapters 1, 2,3,4,5,6,7,10, & 46,

- Chapter 1: The Nursing Assistant Working in Long-Term Care
- Chapter 2: Resident Rights, Ethics, and Laws
- Chapter 3: Work Ethics
- Chapter 4: Communicating with the Health Team
- Chapter 5: Assisting with the Nursing Process
- Chapter 6: Understanding the Resident
- Chapter 7: Culture and Religion
- Chapter 10: Sexuality
- Chapter 46: Getting a Job-Career Management

Weeks 2-4: The skills lesson #2 correlates with your lecture content from Weeks 2-4: Chapters 11,12,14,15,16,17,24,31,32 and 44. Chapter 11: Safety

- Chapter 12: Preventing Falls
- Chapter 14: Preventing Infection
- Chapter 15: Body Mechanics and Safe Resident Handling, Moving, and Transfers
- Chapter 16: The Resident's Unit
- Chapter 17: Bedmaking
- Chapter 24: Exercise and Activity
- Chapter 31: Wound Care
- Chapter 32: Pressure Injuries
- Chapter 44: Basic Emergency Care

Weeks 4-8: The skills lesson correlates with your lecture content from Weeks 4-8: Chapters 18, 19, 20, 22, 23, 29, 39, and 40; Chapters 13, 27, 30, 42, 45. • Chapter 18: Hygiene

- Chapter 19: Grooming
- Chapter 20: Nutrition and Fluids
- Chapter 22: Urinary Elimination
- Chapter 23: Bowel Elimination
- Chapter 29: Collecting and Testing Specimens
- Chapter 39: Mental Health Problems
- Chapter 40: Confusion and Dementia • Chapter 13: Restraint Alternatives and Safe Restraint Use
- Chapter 27: Measuring Vital Signs
- Chapter 30: Admissions, Transfers, and Discharges
- Chapter 42: Rehabilitation and Restorative Nursing Care
- Chapter 45: End-of-Life Care

Weeks 9-16: NURA 1260 clinical experience, clinical skills practice, make-up clinical as needed, completion of the Nursing Home Training Skills Check-off Form, and preparation for the state competency examination.

Course Requirements and Evaluation:

Successful completion of NURA 1301, including all required coursework, examinations, and skills competencies, is required before beginning NURA 1260 clinical.

Course Schedule/Weekly Lesson Plan (40 hours of clinical experience in a long-term care facility, after the completion of NURA 1301 weekly assignments):

First Day of Class Orientation: Monday, August 24th 08:30 AM-12:00 PM, Room #1208.

Weeks 1–2: Chapters 1, 2, 3, 4, 5, 6, 7, 10, and 46.

Weeks 2–4: Chapters 11, 12, 14, 15, 16, 17, 24, 31, 32, and 44.

Weeks 4–6: Chapters 18, 19, 20, 22, 23, 29, 39, and 40.

Weeks 6–8: Chapters 13, 27, 30, 42, and 45.

Week 8: Final examination.

Weeks 9–16: 40 hours of clinical experience in a long-term care facility, and completion of the Nursing Home Training Skills Check-off Form is due December 11 at 08:30 AM.

Course Requirements and Evaluation:

Student Learning Outcomes: laboratory skills competency and satisfactory clinical performance.

Course Component	Grade/Percentage
Laboratory Skills Competency	Complete/Incomplete
Nursing Home Training Skills Check-off Form	Complete/Incomplete
Required Clinical Hours -40 Hours	Complete/Incomplete
Overall Course Evaluation	Complete/Incomplete

ALL NURA 1260 CLINICAL REQUIREMENTS ARE MANDATORY AND MUST BE SUCCESSFULLY COMPLETED TO RECEIVE CREDIT FOR THE COURSE.

Course Policies:

The certified nurse aide training consists of three sections: 1. Classroom/Skills, 2. Clinical, and 3. State Examination. The student must successfully complete each section before progressing to the next section. The classroom/skills portion must be completed with a minimum numerical grade of 70% before advancing to the clinical experience. Tests #1–6 will account for 70% of the final numerical grade, and the Final Examination will account for 30%. All required quizzes and laboratory skills competencies are graded as Complete/Incomplete and must be completed before progressing to the clinical portion. The Nursing Home Training Skills Check-off Form must also be completed during the clinical portion of the course. Clinical performance must be satisfactory, and all skills must be successfully completed to complete the clinical portion of the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *November 12, 2026*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure to verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus Subject to Change:

This syllabus is subject to change as needed. Students will be notified of any changes through an announcement posted in Blackboard for the course in which the changes occur.

PJC Cares about our students! Please help us help you by completing our basic needs assessment by scanning the QR code below:

Tests #1–6	70%
Final Examination	30%
Quizzes	Complete/Incomplete
Laboratory Skills Competency	Complete/Incomplete
Nursing Home Training Skills Check-off Form	Complete/Incomplete
Total Numerical Grade	100%

ALL ABOVE COURSE COMPONENTS ARE MANDATORY AND MUST BE COMPLETED TO RECEIVE A GRADE

Grading Scale

A = 89.5-100

B = 80.5-89.49

C = 74.5-80.49

D = 69.5-74.49

F = 69.49 or below

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on August 31st, before the Official Reporting Day (ORD) on September 9th. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

The certified nurse aide training consists of three sections: 1. Classroom/Skills, 2. Clinical, and 3. State Examination. The student must successfully complete each section before progressing to the next section. The classroom/skills portion must be completed with a minimum numerical grade of 70% before advancing to the clinical experience. Tests #1–6 will account for 70% of the final numerical grade, and the Final Examination will account for 30%. All required quizzes and laboratory skills competencies are graded as Complete/Incomplete and must be completed before progressing to the clinical portion. The Nursing Home Training Skills Check-off Form must also be completed during the clinical portion of the course. Clinical performance must be satisfactory, and all skills must be

successfully completed to complete the clinical portion of the course.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is *November 12, 2026.*

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will immediately receive a score of zero on the exam/assignment. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI):

(AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure to verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations

form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Official Student Email Policy:

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Syllabus Subject to Change:

This syllabus is subject to change as needed. Students will be notified of any changes through an announcement posted in Blackboard for the course in which the changes occur.

PJC Cares about our students! Please help us help you by completing our basic needs assessment by scanning the QR code below:

***Mental health conditions are common and treatable. Suicide is preventable.***

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas

institutions of higher education in partially meeting the legal requirements of 88(R) SB 532, passed in 2023.

If you or someone you know is considering suicide, help is available at 988, and help is available on your campus in PJC's Counseling Center in the Alford Center (counseling@parisjc.edu) and in the community.

DATE	TOPIC	READINGS, ASSIGNMENTS, LECTURES, & SKILLS LAB
8/24/26 Class Orientation	Course Orientation & Syllabus review at 08:30 AM-12:00 PM, Room #1208.	First Course Assignment and syllabus quiz due by August 31 st at 11:59 PM.
Weeks 1–2	Introduction to Long-Term Care; Resident Rights; Ethics & Laws; Work Ethics; Communication; Nursing Process; Understanding the Resident; Culture & Religion; Sexuality; Career Management.	Online/hybrid Read: Ch. 1, 2, 3, 4, 5, 6, 7, 10 & 46. Quizzes: Ch. 1, 2, 3, 4, 5, 6, 7, 10 & 46; Test #1
Weeks 2–4	Resident Safety; Fall Prevention; Infection Prevention; Body Mechanics; Safe Resident Handling, Moving & Transfers; Resident Unit; Bedmaking; Exercise & Activity; Wound Care; Pressure Injuries; Emergency Care.	Online/hybrid Read: Ch. 11, 12, 14, 15, 16, 17, 24, 31, 32 & 44. Quizzes: Ch. 11, 12 & 14; Glossary of Terms/ Vocabulary Test; Test #2; Test #3; Clinical Skills Lab, Lesson #1 in person, room 1208.
Weeks 4–6	Personal Hygiene & Grooming; Nutrition & Fluids; Urinary & Bowel Elimination; Exercise & Activity; Specimen Collection; Mental Health; Confusion & Dementia	Online/hybrid Read: Ch. 18, 19, 20, 22, 23, 29, 39 & 40. Quizzes: Ch. 18, 19, 20, 22, 23, 29, 39 & 40; Test #4; Test #5; Clinical Skills Lab, Lesson #2 in person, room 1208.
Weeks 6–8	Restraint Alternatives & Safe Restraint Use; Vital Signs; Admissions, Transfers & Discharges; Rehabilitation & Restorative Care; End-of-Life Care	Online/hybrid Read: Ch. 13, 27, 30, 42 & 45. Quizzes: Ch. 13, 27, 30, 42 & 45; Homework Packet(s) due; Test #6; Clinical Skills Lab, Movie Day-Mental Health; Clinical Skills Lab, Lesson #3 in person, room 1208.
Week 8	Course Review & Final Examination	Final Exam due 10/16/26 by 11:59 PM. All required quizzes, tests, and assignments must be complete before progressing to the clinical portion of the course. Clinical Skills Lab, open for practice.
Weeks 9–16 Clinical NURA 1260	Nurse Aide Clinical Experience. The PJC Nursing Home Training Skills Check-off Form is due December 11 at 8:30 AM.	Clinical begins 10/19/26. Students will complete 40 clinical hours at the assigned clinical site over an 8-week clinical period.

BIOL 1322
Nutrition
Fall 8-week term 1 -2026-Online

Instructor: Jennifer Hudson

Office: MS 210B

Phone: 782-0319 ex. 1369

Email: jhudson@parisjc.edu

Office Hours: M-8:30-9:30, 10:45-3:00, T&H-7:30-8:00, 10:45-4:00, W-7:30-9:30, 10:45-4:00

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect Smith : Wardlaw's Contemporary Nutrition 26 release(Evergreen) Wardlaw's Contemporary Nutrition. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Biological Science Program-Level)

1. Apply nutritional knowledge to analyze personal dietary intakes, to plan nutritious meals using nationally established criteria to meet recommended goals, and to evaluate food labels and the validity of nutritional claims.
2. Trace the pathways and processes that occur in the body to handle nutrients and alcohol through consumption, digestion, absorption, transport, metabolism, storage and waste excretion.

3. Discuss functions, sources, deficiencies, and toxicities of macro- and micronutrients, including carbohydrates, lipids, proteins, water, vitamins, and minerals.
4. Apply the concept of energy balance and its influences at the physical, emotional, societal, and cellular level to evaluate advantages and disadvantages of various methods used to correct energy imbalances.
5. Utilize concepts of aerobic and anaerobic energy systems, and knowledge about macronutrients, vitamins, minerals, ergogenic, and supplements and relate them to fitness and health.
6. Describe health and disease issues related to nutrition throughout the life cycle, including food safety, corrective dietary modifications, and the influence of specific nutrients on diseases.

Course Requirements and Evaluation:

4 Unit Exams & 1 Comprehensive Final	50% of course grade
Daily work (Smart book, quizzes, other assignments)	50% of course grade
	100%

All daily work will be accepted on the due date. Late work or extensions are not given unless you have a **verifiable and unavoidable** excuse. The last day to drop the course with a grade of W is **October 1**. If circumstances require you to withdraw from this course, you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the syllabus quiz located in the "Start here" section of Blackboard by 11:59 p.m. on August 30. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

All assignments will be available on the first day of class, however due dates will vary. All assignments for the unit will be due by midnight the day of the test for that unit. You are allowed **two attempts on each quiz**. All tests will be proctored online. There are some introduction assignments that you will need to complete before the course work. There is a syllabus quiz that must be completed by August 30. The exams will be open for four days- Monday-Thursday- of the week that they are scheduled for.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the

classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Course Number (OSHT 1220-10C0)
Course Title (Energy Industrial Safety)
Fall 2026 - 2nd 8 Week Subterm

Instructor: Bobby Fields
Office: WTC 1111B
Phone: 903-782-0722
Email: bfields@parisjc.edu
Office Hours: See door schedule

Meeting Location: WTC 1111
Meeting Days: Tuesday/Thursday
Meeting Times: 5:00-7:30 PM

Course Description:

An overview for industrial workers of state/federal regulations and guidelines which require industrial safety training. Topics include the 29 CFR. 1910, 1926 and National Fire Protection Association (NFPA) 70E standards such as confined space entry, emergency action, lock out/tag out, arc flash, and other work related subjects. We will also be including the NC3 Snap-On Hand Tools curriculum and MSSC CPT training. *Credits: SCH = 2 lecture and 4 laboratory hours, No TSI Requirements, No Prerequisite(s).*

Required Textbook(s) and Materials:

OSHA Safety Training Handbook, 9th Edition, 2024, J.J. Keller; ISBN-13: 979-8-88912-481-8

Course Goals and Objectives:

After studying the course materials, students will be able to:

1. Define the mission of OSHA and discuss its role with employees.
2. Define the OSH Act and its history; explain the scope and importance of the General Duty Clause.
3. Identify the purpose and scope of the Inspections, Citations, and Penalties Standard.
4. Discuss the inspection process and types of citations.
5. Identify walking and working surface safety requirements.
6. Detail crane and ladder safety requirements.
7. Discuss fire prevention and control measures.
8. Address heat stress, back safety, eye safety, and ergonomics.
9. Identify and correct occupational noise exposure issues.

10. Define precautions and remedial actions for medical/first aid and bloodborne pathogens.
11. Discuss machine guarding requirements.
12. Identify hazardous materials handling requirements.
13. Identify tools for developing safety and health programs.
14. Define key terms related to lockout/tagout.
15. Define key terms related to confined spaces.
16. Identify prerequisites for welding, cutting, or brazing work.
17. Discuss general electrical safety requirements.

Course Requirements and Evaluation:

There will be online quizzes and practical Skill Assessments for each Module.

Course grade will be computed as follows:

Grading:

25%: Unit Tests and Final
25%: Hands-on Skills
25%: Homework
25%: NC3 Exams

Grading Scale:

90 – 100 is an “A”
80 – 89 is a “B”
70 – 79 is a “C”
60 – 69 is a “D”

Course Policies:

Make up labs will not be scheduled for any module(s) that are over 3 weeks past due. Scheduling of make-up labs are the responsibility of the student. Requests for make-up labs will need to include more than one student if there are others that desire make-ups.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **November 24th.**

Class Conduct:

Please turn off or silence and put away all cell phones, personal electronics, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change through student email and/or Blackboard.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Schedule/Weekly Lesson Plan:

The primary method of instruction will be a self-paced facilitator model. The instructor will serve as a facilitator for the student's learning, thus enabling the student to move at his/her own pace. Computer-based learning modules and practical hands-on lab activities will be incorporated throughout the course. Classroom presentations will be used at the instructor's discretion. Self-Reviews, Skill Activities, Quiz Assessments, and Skill Assessments will be used to evaluate the student's competency.

A recommended schedule with weekly targets is as follows. Although this is a self-paced course and all Objectives and online quizzes can be completed at any time, the weekly hands-on skill activities will be completed in class each week. Make up labs will not be scheduled for any module(s) that are over 3 weeks past due:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
1. Week of 10/19	Introductions, Handouts, Policies & Procedures Introduction to OSHA, Electrical Safety	NC3 Snap-On Hand Tools; Chapter 1; An Introduction to OSHA, Review Questions Chapter 4; Electrical Safety, Review Questions

OSHT 1220.40B0
Industrial Safety
Fall 2026 – 2027 Sub Term A

Instructor: Lucas Arnold
Office: A115
Phone: 903-457-8737
Email: larnold@parisjc.edu

Location: Greenville, Workforce Building A113
Meeting Days: T and R
Meeting Times: 10:00am-12:30pm
Office Hours: See Door Schedule

Course Description:

An overview for industrial workers of state/federal regulations and guidelines which require industrial safety training. Topics include the 29 C.F.R. 1910, 1926 and National Fire Protection Association (NFPA) 70E standards such as confined space entry, emergency action, lockout/tag out, arc flash, and other work-related subjects.

Credits: 2 SCH

Prerequisite(s): N/A

TSI Requirement: N/A

Required Textbook(s) and Materials:

Online access to NC3, which will be instructor provided.

Textbook: OSHA Safety Training Handbook - ISBN: 979-8-88912-481-8

Course Goals and Objectives:

The goal of this training is to provide students with the knowledge and skills necessary to safely perform material handling and storage activities, recognize and control workplace hazards, and follow applicable industry safety regulations. Topics include an introduction to OSHA, proper use of personal protective equipment (PPE), fall protection, fire prevention, first aid and bloodborne pathogens, hazard communication and SDS, hearing conservation and respiratory protection, lockout/tagout (LOTO) and machine guarding, electrical safety, and workplace violence prevention. Students will also learn safe material handling practices involving ropes, chains, slings, hoisting and conveying equipment, as well as methods for preventing slips, trips, falls, and lifting-related injuries through proper ergonomics. The training will emphasize identifying hazards, establishing appropriate precautions and controls, and applying safe work practices in an industrial environment.

Course Requirements and Evaluation:

There will be online quizzes, a midterm, a final exam, labs, and projects.

Course grade will be computed as follows:

Grading:

25%: Quizzes

25%: Exams

50%: Attendance and Participation

Grading Scale:

90 – 100 is an “A”

80 – 89 is a “B”

70 – 79 is a “C”

60 – 69 is a “D”

Course Policies:

Make up labs will not be scheduled for any chapters that are over 1 week past due. Scheduling of make-up labs are the responsibility of the student.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **October 1st**.

Class Conduct:

No open drinks, cans, bottles, or mugs in the classroom. All drinks must be in a spill proof container. Food will be permitted at the student's desk and not anywhere near mechatronics equipment. – If there is a Lunch break during your course, it is up to the instructor's discretion to change or amend these rules.

Please turn off or silence and put away all cell phones, laptops, tablets, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
1. Week of 08/24	Introductions, Handouts, Policies & Procedures OSHA, PPE	Intro Pages 1-10 – Intro to OSHA, Pages 55-62 – Eye Protection Pages 101-108 – Foot Protection
2. Week of 08/31	PPE	Pages 119-124 – Hand Protection Pages 144-148 – Head Protection

OSHT 1220.45A0
Industrial Safety
Fall 2026 –2027 16 Week Term

Instructor: Lucas Arnold
Office: A115
Phone: 903-457-8737
Email: larnold@parisjc.edu

Location: Greenville, Workforce Building A113
Meeting Days: M, T, W, and R
Meeting Times: 8:00am-9:00am
Office Hours: See Door Schedule

Course Description:

An overview for industrial workers of state/federal regulations and guidelines which require industrial safety training. Topics include the 29 C.F.R. 1910, 1926 and National Fire Protection Association (NFPA) 70E standards such as confined space entry, emergency action, lockout/tag out, arc flash, and other work-related subjects.

Credits: 2 SCH

Prerequisite(s): N/A

TSI Requirement: N/A

Required Textbook(s) and Materials:

Online access to NC3, which will be instructor provided.

Textbook: OSHA Safety Training Handbook - ISBN: 979-8-88912-481-8

Course Goals and Objectives:

The goal of this training is to provide students with the knowledge and skills necessary to safely perform material handling and storage activities, recognize and control workplace hazards, and follow applicable industry safety regulations. Topics include an introduction to OSHA, proper use of personal protective equipment (PPE), fall protection, fire prevention, first aid and bloodborne pathogens, hazard communication and SDS, hearing conservation and respiratory protection, lockout/tagout (LOTO) and machine guarding, electrical safety, and workplace violence prevention. Students will also learn safe material handling practices involving ropes, chains, slings, hoisting and conveying equipment, as well as methods for preventing slips, trips, falls, and lifting-related injuries through proper ergonomics. The training will emphasize identifying hazards, establishing appropriate precautions and controls, and applying safe work practices in an industrial environment.

Course Requirements and Evaluation:

There will be online quizzes, a midterm, a final exam, labs, and projects.

Course grade will be computed as follows:

Grading:

25%: Quizzes

25%: Exams

25%: Attendance and Participation

25%: Projects

Grading Scale:

90 –100 is an “A”

80 – 89 is a “B”

70 – 79 is a “C”

60 – 69 is a “D”

Course Policies:

Make up labs will not be scheduled for any chapters that are over 1 week past due. Scheduling of make-up labs are the responsibility of the student.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 12th**.

Class Conduct:

No open drinks, cans, bottles, or mugs in the classroom. All drinks must be in a spill proof container. Food will be permitted at the student's desk and not anywhere near mechatronics equipment. – If there is a Lunch break during your course, it is up to the instructor's discretion to change or amend these rules.

Please turn off or silence and put away all cell phones, laptops, tablets, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

ENGL 1301 60AD
Composition I
Fall 2026

Instructor: Dr. R Partin
Office: PJC – Greenville
Phone: 903.454.9333
Email: rpartin@parisjc.edu
Office Hours: before/after class

Meeting Location: Bland High School
Meeting Days: TR
Meeting Times: 7:45 – 9:00 a.m.

Course Description:

Intensive study of and practice in writing processes, from invention and researching to drafting, revising and editing, both individually and collaboratively. Emphasis is on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus is on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

Credits: 3 credit hours + Department required labs on Blackboard.

TSI Requirement: 341 or better with an essay score of 4 or better.

Prerequisite(s): IRWS 0302 with a grade of C or above or placement by department (based on admission information).

Required Textbook(s) and Materials:

Kirszner, Laurie G. and Stephen R. Mandell. *Patterns for College Writing: A Rhetorical Reader and Guide*. 16th ed. Boston: Bedford/St. Martin's, 2024.

ISBN: 9781319532345

Novel: *The Great Gatsby* or *Fahrenheit 451*

Amazon.com, commercial bookstore, e-books, library

Course Goals and Objectives:

Foundational Component Area: Communication

Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives:

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills – to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.
2. Demonstrate Communication Skills -- to include effective development, interpretation and expression of ideas through written, oral, and visual communication.
3. Demonstrate Team Work -- to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.

4. Demonstrate Personal Responsibility – to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program –Level):

1. Students will be able to identify, arrange, and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 1301 Course – Level):

1. Demonstrate knowledge of individual and collaborative writing processes.
2. Develop ideas with appropriate support and attribution.
3. Write in a style appropriate to audience and purpose.
4. Read, reflect, and respond critically to a variety of texts.
5. Use Edited American English in academic essays.

Course Requirements and Evaluation:

Week 1 Introduction to course; review of syllabus and expectations for course. Diagnostic essay to be written.

Week 2 Grammar/sentence structure review. (Chapters 1 and 2; begin reading of assigned novel.

Week 3 Paragraphing; topic/thesis sentences; basic punctuation review. Chapter 3; reading of assigned novel.

Week 4 Paragraphing; pre-writing, drafting, revising; Chapters 4—5; reading of assigned novel.

Week 5 Pre-writing, drafting, revising, Chapters 4 – 5; Objective Description, Chapter 7. Reading of assigned novel.

Week 6 Narrative/Subjective Description writing, Ch. 6. Finish reading of assigned novel.

Week 7 Exemplification writing; formal business letter writing. In-class discussion of assigned Novel.

Week 8 Exemplification/Process writing. Written evaluation of novel.

Week 9 Comparison/Contrast writing. Discussion of organization options for essay.

Week 10 Comparison/Contrast Writing. Begin Unit on using research/sources in writing, Chapters 16 and 17.

Week 11 Cause/Effect writing, Ch. 10 Using research/sources in writing. Research paper will use either Cause/Effect or Argumentation as primary mode. Read Ch. 14 on Argumentation.

Week 12 Discuss Chapter 14, Argumentation. Using research/sources in writing, Chapters 16, 17, and 18. Discuss MLA/APA formats for documentation of sources in research paper. Work on research paper.

Week 13 Continue work on documented paper; review proper documentation format for the research paper.

Week 14 Be completing work on documented paper, revise carefully, and check proper format and documentation of sources for information used within the paper. Paper is due end of the Week. Review Chapters 12 and 13 on Definition and Classification for next week.

Week 15. Discussion of Definition and Classification. Work on pre-writing (collection of ideas

to be discussed in final exam essay using classification as mode of development.
Week 16 Final exam using classification as mode of development.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. For face-to-face classes, regular and punctual class attendance is required. Absences are considered to be unauthorized unless due to illness, valid emergencies, or sanctioned school activities. Excessive absences can cause serious consequences for overall grade averages. It is the student's responsibility to check with the instructor when he is absent to find out about work missed and to make arrangements for any make-up assignments to be completed. All work missed for absences must be turned in within one week of the absence. After one week, the work will receive a late grade. If the paper is not received after 2 weeks, a "0" will be recorded for that assignment. Should the student arrive a few minutes after class has begun, he should see the instructor after class to make certain he has not been counted absent. He/she will not be dropped automatically for non-attendance. It is the students' responsibility to check registration bulletins or a college calendar to determine timely withdrawal if that becomes a necessity. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is November 12th this semester.

Class Conduct:

Students should respect the right of their instructor to teach and that of their fellow students to have an environment conducive to learning. Note passing, cell phone texting, and talking while another student or the instructor has "the floor for speaking" will not be tolerated. Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. All electronic devices (tablets, laptops, smart phones, notebooks) are to be used for class purposes ONLY, not for checking social media, texting, game entertainment, or viewing sports films for upcoming opponents in sports. No obscene/vulgar language will be permitted in the classroom. Mature, responsible, respectful behavior is expected. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions

at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as Chat GPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

The last day for a student to withdraw from a course with a grade of "W" is November 12th this semester.

Class Conduct:

Students should respect the right of their instructor to teach and that of their fellow students to have an environment conducive to learning. Note passing, cell phone texting, and talking while another student or the instructor has "the floor for speaking" will not be tolerated. Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom. All electronic devices (tablets, laptops, smart phones, notebooks) are to be used for class purposes ONLY, not for checking social media, texting, game entertainment, or viewing sports films for upcoming opponents in sports. No obscene/vulgar language will be permitted in the classroom. Mature, responsible, respectful behavior is expected. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions

at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as Chat GPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Students will be notified in class, by email, or Blackboard.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PHED: 1304. 20E0
PERSONAL/COMMUNITY HEALTH
FALL 2026 – FLEX A

Instructor: Fernando Arellano

Office: AS 143

Phone: (903) 782-0398

Email: farellano@parisjc.edu

Office Hours: Monday-Thursday 8:00 AM -12:00 PM

Meeting Location: ONLINE

Meeting Days: ONLINE

Meeting Times: ONLINE

Course Description:

This course introduces the fundamentals, concepts, strategies, applications, and contemporary trends related to understanding personal and/or community health issues. This course also focuses on empowering various populations with the ability to practice healthy living, promote healthy lifestyles and enhance individual well-being.

Credits: 3 Hours

Required Textbook(s) and Materials:

Core Concepts in Health – 18th Edition – ISBN10: 1264427921 | ISBN13: 9781264427925

Course Goals and Objectives:

Upon successful completion of this course, students will be able to:

- Evaluate the dimensions of health and how they relate to personal and/or community wellness
- Explain the importance of nutrition, a healthy lifestyle and staying physically active in preventing premature disease and promoting wellness
- Describe the leading health problems, trends and needs of diverse populations
- Find major agencies, foundations and associating supporting health at local, state, national and international levels as well as data tools and resources
- Evaluate sources of health information, including the internet to determine reliability
- Develop and implement a plan of healthy behavior to meet personal and community needs to enhance the quality of life

Course Requirements and Evaluation:

16 Chapter Quizzes @ 20 pts. Each = 320 Points

5 Discussion Board Assignments @ 60 pts. Each = 300 Points

5 Unit Exams @ 100 pts. Each = 500 Points

Total = 1120 Possible Points

Grading Scale:

990-1120 = A

880-989 = B

770-879 = C

660-769 = D

Below 660 = F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

N/A

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work on time and follow due dates.* Withdrawals must be started by the student. The last day for a student to withdraw from a course with a grade of **"W" is October 1st, 2026.**

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

Each student will be asked to complete the assignments in all five units of the course. Each chapter needs to be read, completing the chapter quiz, discussion board assignment and the unit exam for each lesson will be required. Each quiz and discussion board assignment will be opened for the entirety of the semester. Students will be required to post a thread with their answer to the discussion board question for each unit. **Time parameters will be placed around each unit exam, giving you one week to complete each exam.** Students are accountable for completing the assignments within the allowed time parameters.

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24-8/27	Quiz	Syllabus Quiz
8/31-9/7	Unit 1	Chapter 1 – Taking Charge of Your Health
		Chapter 2 – Stress
		Chapter 3 – Psychological Health
		Chapter 4 – Sleep
9/14-9/21	Unit 2	Chapter 5 – Intimate Relationships and Communication
		Chapter 6 – Sex and Your Body

		Chapter 7 – Sexuality, Pregnancy, and Childbirth Chapter 8 – Contraceptions and Abortion
9/21-9/28	Unit 3	Chapter 9 – Drug Use and Addiction Chapter 10 – Alcohol and Nicotine Chapter 11 – Tobacco and Vaping
9/28-10/5	Unit 4	Chapter 12 – Nutrition Basics Chapter 13 – Exercise for Health and Fitness Chapter 14 – Weight Management
10/5-10/12	Unit 5	Chapter 15 – Cardiovascular Health Chapter 16 - Cancer

PHYS 1303.10P0, 1303.40P0, 1303.50P0
Astronomy I: Stars and Galaxies

Email: LLARUE@parisjc.edu

Meeting Location: Paris MS213, GC217, SSC

Meeting Days: MW Lecture

Meeting Times: 11 am -12:15 pm

Office Hours: MTWTh 8:30 – 9:30 am; MTWTh 2:00 – 3:00 pm; by appointment.

Course Description: This course is the first half of a general survey of astronomy.

(Note: **The two courses may be taken out of sequence.**) Topics will include: scale of the universe and celestial sphere, history of astronomy, the science of gravity and light, stellar and galactic astronomy and cosmology, and some topics from quantum theory and relativity theory applied to astronomy. The course will emphasize the astronomy of the stars and galaxies.

Credits: SCH = 3 Lecture

Prerequisites: none

Required Textbook(s) and Materials:

Mastering Astronomy for “The Essential Cosmic Perspective”, 9th ed., by Bennett, Donahue, Schneider, and Voit. Pearson Pub. Co. You have paid for this with your tuition.

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson Publishing Company (Mastering Astronomy) via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, **and you will not need to purchase the required course materials separately.** You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your Mastering Astronomy e-book (text) and all assignments will be provided in our Blackboard course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date. However, you will not**

be able to pass this class without the materials! I strongly encourage you to NOT opt out!!!

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/10/2025**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

YOU WILL NEED THESE MATERIALS! Notice again that is only one item listed – Pearson Pub. Co. “Mastering Physics” with e-book.

Technical Support: Assistance for Blackboard is available through PJC technical support, 903-782-0489. Here is a Include link to PJC IT Checklist which you should look through the first class day:

<https://www.parisjc.edu/technology/pjc-it-checklist.php>

We will be using Blackboard extensively so be sure to log in and follow the directions on the Start Here page. If you are having trouble with Mastering Astronomy (Pearson Course Materials), please refer to this information:

Pearson Technical Support Options:

1. US Students: Text “Hi” to 1-866-264-0618
2. Technical Support website: <https://support.pearson.com/getsupport/s/>
3. Speak with Tech Support Agent
Now: <https://support.pearson.com/getsupport/s/contactsupport>

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

- **Explain the properties of light** and how telescopes gather vital data from cosmic entities.
- **Describe the lifecycle of stars**, tracking development from initial gas clouds to stellar remnants like white dwarfs, neutron stars, or black holes.
- **Identify structures of galaxies**, classifying normal and active galaxies alongside the broader cosmic framework.
- **Articulate standard cosmological theories**, evaluating the Big Bang theory, dark matter, dark energy, and the expanding universe footprint.

Course Requirements and Evaluation:

How to begin: In class, you will listen to lectures for which you are expected to take notes; videos will also be shown to help you understand the concepts discussed in class. You must also read and follow the **Announcements in our BlackBoard course (Week 1 Activities, Week 2 Activities, etc)**. Please go to the PJC webpage www.parisjc.edu and access the course through BlackBoard. You should have received an ID number to login to BlackBoard. BlackBoard has some features which we will use in this course; explanations and direction will be provided in class. Some additional resources will be found here. If you have trouble navigating BlackBoard, please click Help.

Much of your work will involve the use of Mastering Astronomy, which is accessed from our Blackboard course by clicking "Pearson Course Materials". At Mastering Astronomy you will find four important elements of the course: Major Tests I - IV, Final Exam, and Self-Guided Tutorials (lab experiments). Another component, which is NOT found at Mastering Astronomy, is the Video Labs. All of these elements of the course are described below, the main components of the course:

Major Tests – After completing all the work for Chapters 1-3 (reading the chapter and viewing the PowerPoint lectures in class for each chapter) you are ready to take the Chapter Test, Test I over Ch. 1-3. This is located at the "Mastering Astronomy" website. Click on the first tab, "Assignments", and you will find Test I ch. 1-3. Similarly, you will complete Tests II, III, and IV throughout the course. The Major Tests are open-book tests, but they are timed so that you only have two hours to complete the test. Please notice the due dates, given at Mastering Astronomy.

Mid Term Exam – A test that covers the first half of the course will be given at the midpoint of the course. This will be given in class; see the Schedule at end of the Syllabus.

Final Exam – at the end of the course, a comprehensive final exam will be given in class.

Lab Experiments – There are two types of labs that you will perform: Tutorial Labs, and Video Labs. We may also do some hands-on labs in class. These are generally short (ranging from 10 minutes to 1 hour to complete) and will enhance your understanding of astronomy tremendously.

(1) Tutorial Labs: The tutorial lab experiments that you perform are found at MasteringAstronomy; click on “Assignments”, then on “Tutorial Lab 1 Scale of the Universe” when you are ready to do the first lab. To complete Lab 1, perform the tutorial “The Scale of the Universe” at Mastering Astronomy; follow the instructions carefully concerning how **to submit your responses through MasteringAstronomy; you can check your grade on the day after the due date for each lab. These grades are also synced to your gradebook in our Blackboard course.** There are eight tutorial labs, and there is a list given below; due dates are given in the schedule at the end of the Syllabus. I will say more about labs in the Announcements (click the icon on the homepage of this BlackBoard course) to be sure that everyone understands the procedure. Here is a list of the labs:

TUTORIAL LABS

1. Scale of the Universe
2. Light and Spectroscopy
3. The Doppler Effect
4. The Sun
5. The Hertzsprung-Russell Diagram
6. Stellar Evolution
7. Hubble's Law
8. Fate of the Universe

Here is a brief overview for completing the Tutorial Labs (a more detailed list of instructions is given at the end of this Syllabus):

1. Go to Mastering Astronomy. You can find the first tutorial on the calendar that shows up, and click on the tutorial (or you can click "Assignments" and then scroll down to "Tutorial Lab 1 Scale of the Universe," and click on this link). Click the button that says "Launch Tutorial."
2. Read all the instructions carefully. You **MUST** complete the entire tutorial, including the Exercises at the end of it, and the Summary. When you have completed the Tutorial and the Exercises and the Summary, you will be told that you have finished. Click on “Save” if there is a Save button and then click on the “Close” button, and you are finished.

(2) Video Labs: As a part of the Lab experience, you will also view a series of videos from the “Crash Course Astronomy” and “Universe” series, and complete a worksheet or take notes for each of these, in class. These will receive a grade. It is very important that you attend class; you cannot make up these assignments!

There is also a series of videos that you may look at, to help understand concepts in this course, but there is no grade and so the Cosmos videos listed below are optional. These are from the “Cosmos” series and the website will be given in class. Again, these are NOT required:

1. Cosmos – Shores of the Cosmic Ocean
2. Cosmos – The Harmony of the Worlds
3. Cosmos – The Backbone of Night
4. Cosmos – The Lives of the Stars
5. Cosmos – The Edge of Forever

Also, please go to www.KhanAcademy.com for more Astronomy videos. At www.YouTube.com you will find hundreds of astronomy videos as well. These are optional, but they may be of help in understanding many concepts.

A schedule for our course is given below. Due dates for most assignments are also given in Mastering Astronomy. All Tutorial Labs and Tests **MUST be taken no later than the indicated date!** These are found at MasteringAstronomy and the due dates are given there. There is a handy calendar at Mastering Astronomy as well. The list of assignments is given below, in this syllabus, which includes the due dates. Please try to complete all assignments *before* the due date!

After reading a chapter, you should view the corresponding PowerPoint slide program in class (which you can review if necessary by going to BlackBoard and clicking on the PowerPoints link on the BlackBoard homepage for this course) for each chapter, complete labs as they are indicated, and take the Major Tests before the indicated due dates, as described above. There is a Schedule at the end of the Syllabus to help you determine what work to do for each week of the course. In addition, if you are absent no more than three times, you will receive 3 bonus points at the end of the semester which are added to your final grade.

Grading Procedure: Grades will be determined as follows:

Major Tests I - IV	25%
Lab Reports/Video Sheets	25%
Mid Term Exam (in class)	25%
Final Exam (in class)	<u>25%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Sept. 18**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is Thursday, **October 1, 2026**. If circumstances require you to withdraw from this course you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand. All students will need a notebook and pens or pencils.

Respect your classmates' right to an education.

Give your full attention to the course and to anyone who is speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor. No food /or beverages to class. Please turn off or silence all cell phones, before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, Oct. 1**. Students absent, for any reason, are still responsible for lecture/lab materials covered during the absence and any required assignments that were due. Please contact your instructor as early as possible if you

are absent so that you remain current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to other students and the instructor in both lecture and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student’s PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student’s failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules (Tentative – subject to change):

Lecture Schedule: *MW 11 am to 12:15 pm*

Mastering Astronomy Due Dates are given on the next page.

Course Schedule/Weekly Lesson Plan:

DATE	TOPIC	READINGS ASSIGNMENTS LECTURES
Week 1 (Aug. 24 - 30)	Introduction; Motions in Space	Ch. 1, 2; Tutorial 1
Week 2 (Aug. 31-Sept.6)	History of Astronomy	Ch. 3, 4; Test 1
Week 3 (Sept. 8-13)	Light; Solar System	Ch. 5, 6.1; Tutorial 2, Tutorial 3, Test 2
Week 4 (Sept. 14-20)	The Sun; Properties of Stars	Ch. 12, 13; Tutorial 4, Mid Term Exam (in class)
Week 5 (Sept. 21-27)	Stellar Evolution	Ch. 14, 15; Tutorial 5
Week 6 (Sept. 28 - Oct. 4)	Deaths of Stars; Galaxies	Ch. 16, 17; Tutorial 6, Test 3
Week 7 (Oct. 5-11)	Cosmology	Ch. 18; Tutorial 7, Tutorial 8, Test 4
Week 8 (Oct. 12-14)	Review for Final Exam	Final Exam (in class) on Wed. Oct. 14

Introduction to MasteringAstronomy (This is NOT required but you should do this exercise to take the tour of Mastering Astronomy.)	 Labs	08/30/26 at 11:59pm
Tutorial Lab 1 Scale of the Universe	 Labs	08/30/26 at 11:59pm
Test 1 Ch.1-3	 Tests	09/06/26 at 11:59pm
Tutorial Lab 2 Light and Spectroscopy	 Labs	09/13/26 at 11:59pm
Tutorial Lab 3 The Doppler Effect	 Labs	09/13/26 at 11:59pm
Test 2 ch. 4, 5, 6.1	 Tests	09/13/26 at 11:59pm
Tutorial Lab 4 The Sun	 Labs	09/20/26 at 11:59pm
Tutorial Lab 5 The Hertzsprung-Russell Diagram	 Labs	09/27/26 at 11:59pm
Tutorial Lab 6 Stellar Evolution	 Labs	10/04/26 at 11:59pm
Test 3 Ch. 11-14	 Tests	10/04/26 at 11:59pm
Tutorial Lab 7 Hubble's Law	 Labs	10/11/26 at 11:59pm
Tutorial Lab 8 Fate of the Universe	 Labs	10/11/26 at 11:59pm
Test 4 Ch. 15-18	 Tests	10/11/26 at 11:59pm

PHYS 1303.20D0, 25D0 (ONLINE)
Astronomy I: Stars and Galaxies
Fall 2026
16 Week Course

Instructor: Dr. Lee H. LaRue

Office: MS 210G

Phone: 903-782-0334

Meeting Location: Online

Meeting Days: Online

Email: We are **required** to use Blackboard email; if you have an **emergency**, send an email through Blackboard email and also to LLARUE@parisjc.edu

Office Hours: MTWTh 8:30 – 9:30 am; MTWTh 2:00 – 3:00 pm; F 9-12 and by appointment.

Course Description: This course is the first half of a general survey of astronomy. (Note: **The two courses may be taken out of sequence.**) Topics will include: scale of the universe and celestial sphere, history of astronomy, the science of gravity and light, stellar and galactic astronomy and cosmology, and some topics from quantum theory and relativity theory applied to astronomy. The course will emphasize the astronomy of the stars and galaxies.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Prerequisites: none

Required Textbook(s) and Materials:

Mastering Astronomy for “The Essential Cosmic Perspective”, 9th ed., by Bennett, Donahue, Schneider, and Voit. Pearson Pub. Co. You have paid for this with your tuition.

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson Publishing Company (Mastering Physics) via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, **and you will not need to purchase the required course materials separately.** You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your Mastering Physics e-book (text) and all assignments will be provided in our Blackboard course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date.**

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/10/2025**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

YOU WILL NEED THESE MATERIALS! Notice again that is only one item listed – Pearson Pub. Co. “Mastering Physics” with e-book.

Technical Support: Assistance for Blackboard is available through PJC technical support, 903-782-0489. We will be using Blackboard extensively so be sure to log in and follow the directions on the Start Here page. If you are having trouble with Mastering Physics, please refer to this information:

Pearson Technical Support Options:

1. US Students: Text “Hi” to 1-866-264-0618
2. Technical Support website: <https://support.pearson.com/getsupport/s/>
3. Speak with Tech Support Agent
Now: <https://support.pearson.com/getsupport/s/contactsupport>

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Astronomy)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major astronomical concepts.

ACGM Lecture Learning Outcomes

- **Explain the properties of light** and how telescopes gather vital data from cosmic entities. Test 2
- **Describe the lifecycle of stars**, tracking development from initial gas clouds to stellar remnants like white dwarfs, neutron stars, or black holes. Test 3
- **Identify structures of galaxies**, classifying normal and active galaxies alongside the broader cosmic framework. Test 4
- **Articulate standard cosmological theories**, evaluating the Big Bang theory, dark matter, dark energy, and the expanding universe footprint. Final Exam

Course Requirements and Evaluation:

How to begin: Please go to the PJC webpage and access the course through BlackBoard. You should have received an ID number to login to BlackBoard. BlackBoard has some features which we will use in this course; explanations and direction will be provided in class. In particular, missed lectures will be made available there. If you have trouble navigating BlackBoard, please click Help.

Much of your work will involve the use of Mastering Astronomy. The first thing you must do is take the “tour” of the website to become acquainted with it. At Mastering Astronomy you will find four important elements of the course: Major Tests I - IV, Final Exam, and Self-Guided Tutorials (lab experiments). Another component, which is NOT found at Mastering Astronomy, is the Video Labs. All of these elements of the course are described below, the main components of the course:

Major Tests – After completing all the work for Chapters 1-3 (reading the chapter, and viewing the PowerPoint lectures in class for each chapter) you are ready to take the Chapter Test, Test I over Ch. 1-3. This is located at the “Mastering Astronomy” website. Click on the first tab, “Assignments”, and you will find Test I ch. 1-3. Similarly, you will complete Tests II, III, and IV throughout the course. The Major Tests are open-book tests, but they are timed so that you only have two hours to complete the test. Please notice the due dates, given at Mastering Astronomy.

Mid Term Exam – A test that covers the first half of the course will be given at the midpoint of the course. This test is also taken at Mastering Astronomy and is timed.

Final Exam – at the end of the course, a comprehensive final exam will be given which is also at Mastering Astronomy and is timed.

Lab Experiments – There are two types of labs that you will perform, Tutorial Labs, and Video Labs. These are generally short (ranging from 10 minutes to 1 hour to complete) and will enhance your understanding of astronomy tremendously.

(1) Tutorial Labs: The tutorial lab experiments that you perform are found at MasteringAstronomy; click on “Assignments”, then on “Tutorial Lab 1 Scale of the Universe” when you are ready to do the first lab. To complete Lab 1, perform the tutorial “The Scale of the Universe” at Mastering Astronomy; follow the instructions carefully concerning how **to submit your responses through MasteringAstronomy; you can check your grade on the day after the due date for each lab.** There are eight tutorial labs, and there is a list given below; due dates are given in the schedule at the end of the Syllabus. I will say more about labs in the Announcements (click the icon on the homepage of this BlackBoard course) to be sure that everyone understands the procedure. Here is a list of the labs:

TUTORIAL LABS

1. Scale of the Universe
2. Light and Spectroscopy
3. The Doppler Effect
4. The Sun
5. The Hertzsprung-Russell Diagram
6. Stellar Evolution
7. Hubble's Law
8. Fate of the Universe

Here is a brief overview for completing the Tutorial Labs (a more detailed list of instructions is given at the end of this Syllabus):

1. Go to Mastering Astronomy. You can find the first tutorial on the calendar that shows up, and click on the tutorial (or you can click "Assignments" and then scroll down to "Tutorial Lab 1 Scale of the Universe," and click on this link). Click the blue button that says "Launch Tutorial."
2. Read all the instructions carefully. You **MUST** complete the entire tutorial, including the Exercises at the end of it, and the Summary. When you have completed the Tutorial and the Exercises and the Summary, you will be told that you have finished. You **MUST** click on the “Close” button which returns you to the original screen where you can submit your work. Click on the blue button that says “Submit” and you are finished. See the instructions given in our Blackboard course.

(2) Video Labs: As a part of the Lab experience, you will also view a series of **videos** from the “Cosmos” series, and **complete a worksheet for each of these. These will receive a grade. It is very important that you attend class; you cannot make up these assignments!**

The links to the videos will be given at BlackBoard. You will find the “notes” (Video Sheets) at the BlackBoard page for the course. You will watch a video (the first one is called “Shores of the Cosmic Ocean”) and complete the sheet as you watch; then use these as notes to help you with the Mastering Astronomy assignment (such as “Cosmos Video Lab 1 The Shores of the Cosmic Ocean”). **Do NOT email me your notes sheet!** Just complete the Mastering Assignment Cosmos video lab assignment, which is in multiple choice format. Here are the titles of these 5 Cosmos video labs:

1. Cosmos – Shores of the Cosmic Ocean
2. Cosmos – The Harmony of the Worlds
3. Cosmos – The Backbone of Night
4. Cosmos – The Lives of the Stars
5. Cosmos – The Edge of Forever

Also, please go to www.KhanAcademy.com for more Astronomy videos. At www.YouTube.com you will find hundreds of astronomy videos as well. These are optional, but they may be of help in understanding many concepts. A particularly good set of videos can be found by entering "Crash Course Astronomy" in the Search box at YouTube.

A schedule for our course is given below. Due dates for most assignments are also given in Mastering Astronomy. **All Tutorial Labs and Tests MUST be taken no later than the indicated date! These are found at MasteringAstronomy and the due dates are given there. There is a handy calendar at Mastering Astronomy as well. This will be distributed in class so you have a hard copy of due dates.**

After reading a chapter, you should view the corresponding PowerPoint slide program in class (which you can review if necessary by going to BlackBoard and clicking on the PowerPoints icon on the BlackBoard homepage for this course) for each chapter, complete labs as they are indicated, and take the Major Tests before the indicated due dates, as described above. There is a Schedule at the end of the Syllabus to help you determine what work to do for each week of the course.

Grading Procedure: Grades will be determined as follows:

Major Tests I - IV	25%
Tutorial Labs/Cosmos Labs	25%
Mid Term Test	25%
Final Exam	<u>25%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Oct 16**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is **Thursday, November 12, 2026**. If circumstances require you to withdraw from this course you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Online students are expected to have a working computer with reliable internet. A "backup plan" must also be determined in the event internet service goes down or other issues arise. The backup can be a friend's computer, a local public or school computer with internet, etc.

Class Attendance:

Class attendance is critical for the successful completion of this course; **for online courses, this means that you keep on top of all that is going on by reading Announcements at Blackboard and observing due dates!** Do this on a daily basis! Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **Thursday, November 12th**. Students absent, for any reason, are still responsible for lecture/lab materials covered during the absence and any required assignments that were due. Please contact your instructor as early as possible if you are absent so that you remain current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules (Tentative – subject to change):

Lecture Schedule: Lectures are given through PowerPoints, located in our Blackboard course. Due dates are shown at Mastering Astronomy and will be posted in our Blackboard course.

Dates

Topic

Week 1 (begin Aug. 24-30) Ch 1; view Cosmos 1 and complete assignment in Mastering

Week 2 (Aug. 31-Sept. 6) Ch 1 and 2; do Tutorial 1 in Mastering

Week 3 (Sept. 7-13) Ch 2;

Week 4 (Sept. 14-) Ch 2 and 3; view Cosmos 2 and complete assignment in Mastering

Week 5 (Sept. 21-) Ch 3 and 4; Test 1 over Ch. 1-3

Week 6 (Sept. 28-) Ch 4 and 5; Tutorial 2 Light and Spectroscopy

Week 7 (Oct. 5-) Ch 5 and 6.1 (don't worry about the rest of ch. 6), Tutorial 3 The Doppler Effect, Test 2 over Ch. 4, 5, and 6.1. Review for Mid Term Exam

Week 8 (Oct.12-) Ch 11, Mid Term Exam (Ch 1-5 and 6.1), Cosmos 3 Backbone of the Night

Week 9 (Oct. 19-) Ch 11, Ch. 12; Tutorial 4 The Sun

Week 10 (Oct. 26-) Ch 12; Tutorial 5 The Hertzsprung-Russell Diagram, Cosmos 4

Week 11 (Nov. 2-) Ch 13 and 14; Tutorial 6 Stellar Evolution

Week 12 (Nov. 9-) Ch 14 and 15; Test 3

Week 13 (Nov. 16-) Ch 16 and 17; Tutorial 7 Hubble's Law, Cosmos 5

Week 14 (Nov. 23-) Ch 17 and 18; Tutorial 8 Fate of the Universe

Week 15 (Nov. 30-Dec. 6-) Ch. 18, Review for Final Exam; Test 4

Week 16 (Dec. 7-8) Final Exam (comprehensive) to be taken by Tues. Dec. 8, completed on or before 11:59 pm. The course ends at that time.

The due dates in Mastering Astronomy (Pearson Course Materials) are as follows. REFER TO THESE DUE DATES OFTEN!

Introduction to MasteringAstronomy (This is NOT required but you should do this exercise to take the tour of Mastering Astronomy.)	+ Labs	08/30/26 at 11:59pm
Cosmos Video Lab 1 Shores of the Cosmic Ocean	+ Labs	08/30/26 at 11:59pm
Tutorial Lab 1 Scale of the Universe	+ Labs	09/06/26 at 11:59pm
Cosmos Video Lab 2 Harmony of the Worlds	+ Labs	09/20/26 at 11:59pm
Test 1 Ch.1-3	+ Tests	09/27/26 at 11:59pm
Tutorial Lab 2 Light and Spectroscopy	+ Labs	10/04/26 at 11:59pm
Tutorial Lab 3 The Doppler Effect	+ Labs	10/11/26 at 11:59pm
Test 2 ch. 4, 5, 6.1	+ Tests	10/11/26 at 11:59pm
Cosmos Video Lab 3 Backbone of the Night	+ Labs	10/18/26 at 11:59pm
Mid Term Exam 	+ Mid Term Test	10/18/26 at 11:59pm
Tutorial Lab 4 The Sun	+ Labs	10/25/26 at 11:59pm
Cosmos Video Lab 4 Lives of the Stars	+ Labs	11/01/26 at 11:59pm
Tutorial Lab 5 The Hertzsprung-Russell Diagram	+ Labs	11/01/26 at 11:59pm
Tutorial Lab 6 Stellar Evolution	+ Labs	11/08/26 at 11:59pm
Test 3 Ch. 11-14	+ Tests	11/15/26 at 11:59pm
Cosmos Video Lab 5 The Edge of Forever	+ Labs	11/22/26 at 11:59pm
Tutorial Lab 7 Hubble's Law	+ Labs	11/22/26 at 11:59pm
Tutorial Lab 8 Fate of the Universe	+ Labs	11/29/26 at 11:59pm
Test 4 Ch. 15-18	+ Tests	12/06/26 at 11:59pm
FINAL EXAM 	+ Final Exam	12/08/26 at 11:59pm

PHYS 1303.20E0 (ONLINE)
Astronomy I: Stars and Galaxies
Fall 2026
8-week course

Instructor: Dr. Lee H. LaRue

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Astronomy)

- Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
- Demonstrate knowledge of basic terminology and understanding of major astronomical concepts.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

- **Explain the properties of light** and how telescopes gather vital data from cosmic entities.
- **Describe the lifecycle of stars**, tracking development from initial gas clouds to stellar remnants like white dwarfs, neutron stars, or black holes.
- **Identify structures of galaxies**, classifying normal and active galaxies alongside the broader cosmic framework.
- **Articulate standard cosmological theories**, evaluating the Big Bang theory, dark matter, dark energy, and the expanding universe footprint.

Course Requirements and Evaluation:

How to begin: Please go to the PJC webpage www.parisjc.edu and access the course through BlackBoard. You should have received an ID number to login to BlackBoard. We will use Blackboard for the lectures (PowerPoints) and Mastering for submitting assignments. You MUST follow the Modules in Blackboard (Week 1 Activities, Week 2 Activities, etc.) to be successful in this course! If you have trouble navigating BlackBoard, please click Help.

Click on Pearson Course Materials to access Mastering Astronomy, where your assignments and tests are located. After you have registered into Mastering Astronomy take the “tour” of the website to become acquainted with it by clicking on “Assignments” and then click “Introduction to Mastering Astronomy”. At MasteringAstronomy you will find four important elements of the course: Major Tests I - IV, Mid Term Exam, Final Exam, and Tutorial and Video Labs (Cosmos). All of these elements of the course are described below, the main components of the course:

Major Tests – After completing all the work for Chapters 1-3 (reading the chapter, and viewing the PowerPoint lectures in class for each chapter) you are ready to take the Chapter Test, Test I over Ch. 1-3. This is located at “Mastering Astronomy” which is accessed by clicking on Pearson Course Materials in our

Blackboard course. Click on the first tab, “Assignments”, and you will find Test I ch. 1-3. Similarly, you will complete Tests II, III, and IV throughout the course. The Major Tests are open-book tests, but they are timed so that you only have two hours to complete the test. Please notice the due dates, given at Mastering Astronomy.

Mid Term Exam – A test that covers the first half of the course will be given at the midpoint of the course. This test is also taken at Mastering Astronomy and is timed.

Final Exam – at the end of the course, a comprehensive final exam will be given which is also at Mastering Astronomy and is timed.

Lab Experiments – There are two types of labs that you will perform, Tutorial Labs, and Video Labs. These are generally short (ranging from 10 minutes to 1 hour to complete) and will enhance your understanding of astronomy tremendously.

(1) Tutorial Labs: The tutorial lab experiments that you perform are found at MasteringAstronomy; click on “Assignments”, then on “Tutorial Lab 1 Scale of the Universe” when you are ready to do the first lab. To complete Lab 1, perform the tutorial “The Scale of the Universe” at Mastering Astronomy; follow the instructions carefully concerning how **to submit your responses through MasteringAstronomy; you can check your grade on the day after the due date for each lab.** There are eight tutorial labs, and there is a list given below; due dates are given in the schedule at the end of the Syllabus. I will say more about labs in the Announcements (click the icon on the homepage of this BlackBoard course) to be sure that everyone understands the procedure. Here is a list of the labs:

TUTORIAL LABS

- Scale of the Universe
- Light and Spectroscopy
- The Doppler Effect
- The Sun
- The Hertzsprung-Russell Diagram
- Stellar Evolution
- Hubble's Law
- Fate of the Universe

Here is a brief overview for completing the Tutorial Labs (a more detailed list of instructions is given at the end of this Syllabus):

1. Go to Mastering Astronomy. You can find the first tutorial on the calendar that shows up, and click on the tutorial (or you can click "Assignments" and then scroll down to "Tutorial Lab 1 Scale of the Universe," and click on this link). Click the blue button that says "Launch Tutorial."

2. Read all the instructions carefully. You MUST complete the entire tutorial, including the Exercises at the end of it, and the Summary. When you have completed the Tutorial and the Exercises and the Summary, you will be told that you have finished. Click on "Save" if there is a Save button and then click on the "Close" button, and you are finished.

(2) Video Labs: As a part of the Lab experience, you will also view a series of videos from the "Cosmos" series, and complete a worksheet for each of these. It is very important that you attend class; you cannot make up these assignments!

The links to the videos will be given at BlackBoard. You will find the "notes" (Video Sheets) at the BlackBoard page for the course. You will watch a video (the first one is called "Shores of the Cosmic Ocean") and complete the sheet as you watch; then use these as notes to help you with the Mastering Astronomy assignment (such as "Cosmos Video Lab 1 The Shores of the Cosmic Ocean"). **Do NOT email me your notes sheet!** Just complete the Mastering Assignment Cosmos video lab assignment, which is in multiple choice format. Here are the titles of these 5 Cosmos video labs:

- Cosmos – Shores of the Cosmic Ocean
- Cosmos – The Harmony of the Worlds
- Cosmos – The Backbone of Night
- Cosmos – The Lives of the Stars
- Cosmos – The Edge of Forever

Also, please go to www.KhanAcademy.com for more Astronomy videos. At www.YouTube.com you will find hundreds of astronomy videos as well. These are optional, but they may be of help in understanding many concepts. A particularly good set of videos can be found by entering "Crash Course Astronomy" in the Search box at YouTube.

A schedule for our course is given below. Due dates for most assignments are also given in Mastering Astronomy. **All Tutorial Labs and Tests MUST be completed no later than the indicated date! These are found at**

MasteringAstronomy and the due dates are given there. There is a handy calendar at Mastering Astronomy as well.

After reading a chapter, you should view the corresponding PowerPoint slide program in our BlackBoard class for each chapter, complete labs as they are indicated, and take the Major Tests before the indicated due dates, as described above. There is a Schedule at the end of the Syllabus to help you determine what work to do for each week of the course.

Grading Procedure: Grades will be determined as follows:

Major Tests I - IV	25%
Tutorials/Cosmos Video Labs	25%
Mid Term Test	25%
Final Exam	<u>25%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Sept. 18**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is Tuesday, **Thurs. Oct. 1**. If circumstances require you to withdraw from this course you must do so by that date. You must initiate the withdrawal procedure; please see the information at www.parisjc.edu. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Online students are expected to have a working computer with reliable internet. A **“backup plan” must also be determined in the event internet service goes down or other issues arise.** The backup can be a friend’s computer, a local public library or school computer with internet, etc. Due dates at Mastering Astronomy are the deadlines for assignments; you should actually complete assignments a day or two early.

Class Attendance:

Class attendance is critical for the successful completion of this course; for online courses, this means that you keep on top of all that is going on by reading Announcements at Blackboard and observing due dates! Do this on a daily basis! Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **Thursday, Oct. 1.**

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student’s responsibility to arrange an appointment with a College

Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the

community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules (Tentative – subject to change):

Schedule: Please go to our course at www.Parisjc.edu, click on the tab “Online courses” at the top, then when a new page opens, click on the tab in the middle, “Login to Blackboard courses” and you will find our course. The START HERE section explains the course and all elements, and you should read the ANNOUNCEMENTS several times each week! More detail is provided in the Announcements about the brief schedule given below.

COURSE SCHEDULE

Dates

Topic

Week 1 (Aug. 24 - 30) Ch 1, 2

Week 2 (Aug. 31-Sept. 6) Ch. 3, 4 and begin Ch. 5; Test I

Week 3 (Sept. 7-13) Ch 5, 6.1 (just read the first section of Chapter 6), and Ch 11; Test II

Week 4 (Sept. 14-20) Ch 12, 13, begin Ch. 14; **Mid Term Exam**

Week 5 (Sept. 21-27) Ch 14, 15

Week 6 (Sept. 28 - Oct. 4) Ch. 16, 17, Test III

Week 7 (Oct. 5-11) Ch 18, Test IV

Week 8 (Oct. 12-13) Finish course, Review, **Final Exam is due on Tues. Oct. 13 at Mastering Astronomy and the course ends at that time. The Final Exam is available one week before the due date.**

Here is the schedule for due dates for all the assignments, which are at Mastering Astronomy. Notice that the FINAL EXAM is available one week before due date:

Introduction to MasteringAstronomy (not required for a grade, but you should do this to get used to the system)	+ Labs	08/30/26 at 11:59pm
Tutorial Lab 1 Scale of the Universe	+ Labs	08/30/26 at 11:59pm
Cosmos Video Lab 1 Shores of the Cosmic Ocean	+ Labs	08/30/26 at 11:59pm
Cosmos Video Lab 2 Harmony of the Worlds	+ Labs	09/06/26 at 11:59pm
Test 1 Ch.1-3	+ Tests	09/06/26 at 11:59pm
Tutorial Lab 2 Light and Spectroscopy	+ Labs	09/13/26 at 11:59pm
Tutorial Lab 3 The Doppler Effect	+ Labs	09/13/26 at 11:59pm
Test 2 ch. 4, 5, 6.1	+ Tests	09/13/26 at 11:59pm
Tutorial Lab 4 The Sun	+ Labs	09/20/26 at 11:59pm
Cosmos Video Lab 3 Backbone of the Night	+ Labs	09/20/26 at 11:59pm
Mid Term Exam 	+ Mid Term Test	09/20/26 at 11:59pm
Cosmos Video Lab 4 Lives of the Stars	+ Labs	09/27/26 at 11:59pm
Tutorial Lab 5 The Hertzsprung-Russell Diagram	+ Labs	09/27/26 at 11:59pm
Tutorial Lab 6 Stellar Evolution	+ Labs	10/04/26 at 11:59pm
Cosmos Video Lab 5 The Edge of Forever	+ Labs	10/04/26 at 11:59pm
Test 3 Ch. 11-14	+ Tests	10/04/26 at 11:59pm
Tutorial Lab 7 Hubble's Law	+ Labs	10/11/26 at 11:59pm
Tutorial Lab 8 Fate of the Universe	+ Labs	10/11/26 at 11:59pm
Test 4 Ch. 15-18	+ Tests	10/11/26 at 11:59pm
FINAL EXAM 	+ Final Exam	10/13/26 at 11:59pm

PHYS 1304.20F0
Astronomy II: Solar System
Fall 2026 ONLINE Flex 2 (2nd 8 weeks)

Instructor: Dr. Lee H. LaRue

Meeting Location: Online

Office: MS 210G

Meeting Days: Online

Phone: 903-782-0334

Email: We are **required** to use Blackboard email; if you have an **emergency**, send an email through Blackboard email and also to LLARUE@parisjc.edu

Office Hours: MTWTh 8:30 – 9:30 am; MW 9:30 – 10:30 am; MTWTh 2:00 – 3:00 pm and by appointment.

Course Description: This course is the second half of a general survey of astronomy. (Note: **The two courses may be taken out of sequence.**) Topics will include: scale of the universe and celestial sphere, history of astronomy, the science of gravity and light, planetary astronomy of the solar system and exoplanets, finding life in the universe, and some topics from quantum theory, nuclear physics, and relativity theory applied to astronomy. The course will emphasize the astronomy of the solar system, but will also include a review of the astronomy of stars, galaxies and cosmology.

Credits: SCH = 3

Prerequisites: none

Required Textbook(s) and Materials:

Mastering Astronomy for “The Essential Cosmic Perspective”, 9th ed., by Bennett, Donahue, Schneider, and Voit. Pearson Pub. Co. You have paid for this with your tuition.

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson Publishing Company (Mastering Physics) via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, **and you will not need to purchase the required course materials separately.** You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your Mastering Physics e-book (text) and all assignments will be provided in our Blackboard course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date**.

If you wish to opt-out of this program, please follow the steps below **by**:

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

YOU WILL NEED THESE MATERIALS! Notice again that is only one item listed – Pearson Pub. Co. “Mastering Physics” with e-book.

Technical Support: Assistance for Blackboard is available through PJC technical support, 903-782-0489. We will be using Blackboard extensively so be sure to log in and follow the directions on the Start Here page. If you are having trouble with Mastering Physics, please refer to this information:

Pearson Technical Support Options:

1. US Students: Text “Hi” to 1-866-264-0618
2. Technical Support website: <https://support.pearson.com/getsupport/s/>
3. Speak with Tech Support Agent
Now: <https://support.pearson.com/getsupport/s/contactsupport>

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Astronomy)

- Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
- Demonstrate knowledge of basic terminology and understanding of major astronomical concepts.

ACGM Lecture Learning Outcomes

This course offers a descriptive, introductory look at the cosmic components making up our immediate solar neighborhood. Upon successful completion of this course, students will be able to: [1]

- **Detail the historic models** of the solar system, contrasting geocentric and heliocentric planetary frameworks.
- **Analyze planetary features**, comparing the atmosphere, surface conditions, and interior structures of terrestrial and Jovian worlds.
- **Identify debris components**, cataloging the behavior and chemical makeups of comets, asteroids, and meteors.
- **Evaluate solar system evolution**, defining current scientific theories outlining how the sun, planets, and moons formed.

Course Requirements and Evaluation:

How to begin: Please go to the PJC webpage www.parisjc.edu and access the course through BlackBoard. You should have received an ID number to login to BlackBoard, which is your “classroom” for this course. If you have trouble navigating BlackBoard, please click Help.

IMPORTANT: Complete the **First Assignment** at Blackboard on the Start Here page. You must do this assignment to remain in the course, or you will be dropped.

Also, click on “Pearson Course Materials” which takes you to a page that asks you to login if you have a Pearson account; if you don’t you must Create an Account. Then click on “Assignments” and “Introduction to Mastering Astronomy”. This is a “tour” of the website to become acquainted with it. At MasteringAstronomy you will find four important elements of the course: Major Tests I - IV, Mid Term Exam, Final Exam, and Tutorial and Video Labs (Cosmos). All of these elements of the course are described below, the main components of the course:

Major Tests – After completing all the work for Chapters 1-4 (reading the chapter, viewing the PowerPoint lectures in our Blackboard course for each

chapter, watching any assigned videos, and completing lab assignments at Mastering Astronomy) you are ready to take the Chapter Test, Test I over Ch. 1-4. This is located at the “Mastering Astronomy” website. Click “Assignments”, and you will find Test I ch. 1-4. Similarly, you will complete Tests II, III, and IV throughout the course. The Major Tests are open-book tests, but they are timed so that you only have two hours to complete the test. Please notice the due dates, given at Mastering Astronomy. Notice there is a “Calendar” at Mastering Astronomy – just click on it – to help you keep up with due dates. We covered these chapters in PHYS 1303, so this is just review to be sure you recall the important terminology and concepts.

Mid Term Exam – A test that covers the first half of the course will be given at the midpoint of the course. This will not be proctored but is timed. It is located at Mastering Astronomy.

Final Exam – at the end of the course, a comprehensive final exam will be given; it is located at Mastering Astronomy and is not proctored, but it is timed. It is due on Tuesday of the last week of class.

Lab Experiments – There are two types of labs that you will perform, Tutorial Labs, and Video Labs. We may also do some hands-on labs in class. These are generally short (ranging from 10 minutes to 1 hour to complete) and will enhance your understanding of astronomy tremendously.

(1) Tutorial Labs: The tutorial lab experiments that you perform are found at MasteringAstronomy; click on “Assignments”, then on “Tutorial Lab 1 Scale of the Universe” when you are ready to do the first lab. To complete Lab 1, perform the tutorial “The Scale of the Universe” at Mastering Astronomy; follow the instructions carefully concerning how **to submit your responses through MasteringAstronomy; you can check your grade on the day after the due date for each lab.** There are eight tutorial labs, and there is a list given below; due dates are given in the schedule at the end of the Syllabus. I will say more about labs in the Weekly Announcements in our Blackboard class (scroll down to see Week 1 Activities, Week 2 Activities, etc.) to be sure that everyone understands the procedure. Here is a list of the labs:

Tutorial LABS (found by clicking on Assignments at Mastering Astronomy):

- **Scale of the Universe**
- **Orbits and Kepler’s Laws**
- **Motion and Gravity**
- **Formation of the Solar System**
- **Shaping Planetary Surfaces**

- Surface Temperature of Terrestrial Planets
- Detecting Extrasolar Planets
- Black Holes

(2) Video Labs: As a part of the Lab experience, you will also view a series of videos from the “Cosmos” series, and complete a worksheet for each of these. These will be useful when you complete the “Cosmos” assignments in Mastering Astronomy. It is very important that keep up; you cannot make up these assignments!

The links to the videos will be given at BlackBoard. You will find the “notes” (Video Sheets) at the BlackBoard page for the course. You will watch a video (the first one is called “Shores of the Cosmic Ocean”) and complete the sheet as you watch; then use these as notes to help you with the Mastering Astronomy assignment (such as “Cosmos Video Lab 1 The Shores of the Cosmic Ocean”). **Do NOT email me your notes sheet!** Just complete the Mastering Assignment Cosmos video lab assignment, which is in multiple choice format. Here are the titles of these 5 Cosmos video labs:

- Cosmos – Shores of the Cosmic Ocean
- Cosmos – Heaven and Hell
- Cosmos – Blues for a Red Planet
- Cosmos – Travelers Tales
- Cosmos – Encyclopedia Galactica

Also, please go to www.KhanAcademy.com for more Astronomy videos. At www.YouTube.com you will find hundreds of astronomy videos as well. These are optional, but they may be of help in understanding many concepts. A particularly good set of videos can be found by entering "Crash Course Astronomy" in the Search box at YouTube.

A schedule for our course is given below. Due dates for most assignments are also given in Mastering Astronomy. **All Tutorial Labs and Tests MUST be completed no later than the indicated date! These are found at MasteringAstronomy and the due dates are given there. There is a handy calendar at Mastering Astronomy as well. You should print this out for ease of reference. Assignments should be completed a day or two before the due date. Late work is not accepted unless a doctor’s excuse or other appropriate documentation is provided.**

After reading a chapter, you should view the corresponding PowerPoint slide program in our Blackboard course, complete labs as they are indicated, and take the Major Tests before the indicated due dates, as described above. There is a Schedule at the end of the Syllabus to help you determine what work to do for each week of the course.

Grading Procedure: Grades will be determined as follows:

Major Tests I - IV	25%
Tutorials/Video Sheets	25%
Mid Term Test	25%
Final Exam	<u>25%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Nov. 13**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is **Tues. Nov. 24, 2026**. If circumstances require you to withdraw from this course you must do so by that date. Please go to www.parisjc.edu and you will find the procedure for dropping a course. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

This is an online class, so it is imperative that you log in regularly to our Blackboard course and complete the assignments described above by the due dates indicated in Mastering Astronomy.

Class Attendance:

Class attendance in an online class involves logging in regularly to our Blackboard course to read Announcements and use materials located there. You must also follow the schedule of due dates given at Mastering Astronomy after you have registered into the program. This is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **Tuesday Nov. 24, 2026**. Students are responsible for materials covered in our online course. Please contact your instructor as early as possible if you are having difficulties so that you remain current in the course. Excessive absences (not logging in/not completing assignments) will ultimately hinder your success in this course!

Class Conduct:

Class attendance is critical for the successful completion of this course; **for online courses, this means that you keep on top of all that is going on by reading Announcements and other posts at Blackboard and observing due dates!** Do this on a daily basis! Withdrawals must be initiated by the student. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic**

citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules (Tentative – subject to change): Please go to our course at www.Parisjc.edu, click on the tab “Blackboard login” at the top, then when a new page opens, click on the tab in the middle, “Login to Blackboard courses” and you will find our course. The START HERE section explains the course and all elements, and you should read the ANNOUNCEMENTS several times each week! More detail is provided in the Announcements about the brief schedule given below.

This is an online course, so the dates given begin on Monday; assignment due dates are found at Mastering Astronomy. Please also remember to check the Announcements in our Blackboard site.

<u>Dates</u>	<u>Topic</u>
--------------	--------------

Week 1 (Oct. 19-25)	Ch 1-5 Review, Tutorial 1, Cosmos Lab 1
---------------------	---

Week 2 (Oct. 26-Nov. 1)	Ch. 6, 7; Test I over Ch. 1-5, Tutorial 2, Cosmos Lab 2 and 3
-------------------------	---

Week 3 (Nov. 2-8)	Ch. 8, begin Ch. 9; Tutorial 3 and 4, Cosmos Lab 4
-------------------	--

Week 4 (Nov. 9-15)	Ch 9, 10; Test II over Ch. 6-8, Tutorial 5 and 6
--------------------	--

Week 5 (Nov. 16-22)	Ch 10, 19; MID TERM EXAM (over Ch. 1-8), Tutorial 7, Cosmos Lab 5
---------------------	---

Week 6 (Nov.23-29)	Ch. S1, S2; Test III over Ch. 9, 10, 19, Tutorial 8
--------------------	---

Week 7 (Nov. 30 - Dec. 6)	Ch. S3, S4; Test IV over Ch. S1-S4.
---------------------------	-------------------------------------

Week 8 (Dec. 7-8)	Finish course, Final Exam is due by Tues. Dec. 8. and will be available one week prior to this due date! The course ends at that time.
-------------------	--

The due dates for the assignments (all are at Mastering Astronomy, click on “Pearson Course Materials” in our Blackboard class) are given below:

Introduction to MasteringAstronomy (not required for a grade, but you should do this to get used to the system)	+ Labs	10/25/26 at 11:59pm
Tutorial Lab 1 Scale of the Universe	+ Labs	10/25/26 at 11:59pm
Cosmos Video Lab 1 Shores of the Cosmic Ocean	+ Labs	10/25/26 at 11:59pm
Tutorial Lab 2 Orbits and Kepler's Laws	+ Labs	11/01/26 at 11:59pm
Cosmos Video Lab 2 Heaven and Hell	+ Labs	11/01/26 at 11:59pm
Test 1 Ch. 1-5 	+ Tests	11/01/26 at 11:59pm
Cosmos Video Lab 3 Blues for a Red Planet	+ Labs	11/01/26 at 11:59pm
Tutorial Lab 3 Motion and Gravity	+ Labs	11/08/26 at 11:59pm
Cosmos Video Lab 4 Travelers Tales	+ Labs	11/08/26 at 11:59pm
Tutorial Lab 4 Formation of the Solar System	+ Labs	11/08/26 at 11:59pm
Tutorial Lab 5 Shaping Planetary Surfaces	+ Labs	11/15/26 at 11:59pm
Tutorial Lab 6 Surface Temperature of Terrestrial Planets	+ Labs	11/15/26 at 11:59pm
Test 2 ch. 6, 7, 8 	+ Tests	11/15/26 at 11:59pm
Tutorial Lab 7 Detecting Extrasolar Planets	+ Labs	11/22/26 at 11:59pm
Cosmos Video Lab 5 Encyclopedia Galactica	+ Labs	11/22/26 at 11:59pm
Mid Term Exam 	+ Mid Term Test	11/22/26 at 11:59pm
Tutorial Lab 8 Black Holes	+ Labs	11/29/26 at 11:59pm
Test 3 Ch 9, 10, 19 	+ Tests	11/29/26 at 11:59pm
Test 4 Ch. S2, S3, S4 Supplementary Chapters 	+ Tests	12/06/26 at 11:59pm
FINAL EXAM 	+ Final Exam	12/08/26 at 11:59pm

PHYS 1401.20D0
College Physics I (Online)
Fall 2026

Instructor: Dr. Lee H. LaRue
Office: MS 210G
Phone: 903-782-0334

Meeting Location: Online class
Email: use Blackboard email for this class! But for emergencies **also** use LLARUE@parisjc.edu

Office Hours: MTWTh 8:30 – 9:30 am; MTWTh 2:00 – 3:00 pm; by appointment.

Course Description: This course is the first half of a general survey of physics requiring a background in algebra and trigonometry. Topics will include: measurement, motion in one dimension, vectors, motion in two dimensions, Newton's Laws of Motion, work, power, and energy, momentum and collisions, rotational motion, gravitation, Kepler's Laws of Planetary Motion, torque and angular momentum, thermodynamics, oscillations and waves. Topics from astronomy will be included to show the application of many principles of physics.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Prerequisites:

Two years of high school algebra and precalculus or college algebra and precalculus.

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program through Dragon Now the campus-wide affordable course materials program. PJC has partnered with the Follett Access Program and McGraw Hill via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, **and you will not need to purchase the required course materials separately.** You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account.
<https://www.parisjc.edu/main/business-office/>

Your e-book (text) will be provided in our Blackboard course. Your homework and testing system is ExpertTA and you will receive an email explaining how to access this. Your required lab materials (McGraw-Hill Connect Virtual Lab System) for PHYS 1401 will be delivered digitally in your Blackboard course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date.**

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/10/2025**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. Your homework/testing system is ExpertTA (see #2 below) and will be charged automatically, so you will not need to make a separate purchase

YOU WILL NEED THESE MATERIALS! Notice again that there are three items listed -- OpenStax College Physics e-book, Expert TA online homework system, and the McGraw Hill Connect lab system.

1. OpenStax COLLEGE PHYSICS e-book (1st edition) I have already provided a pdf version of the text below (see Materials section) but if you can't open it, or you just want to get it yourself, you can obtain it by clicking on this link (or paste it into a web browser):

[OpenStax](https://openstax.org/details/books/college-physics)

<https://openstax.org/details/books/college-physics>

You do not have to contribute or write a thank-you note.

Then click on "Download pdf".

It will take a minute or so depending on your internet service. **SAVE this pdf so you don't have to download it every time you need it.**

I suggest saving it to your Desktop. (Click on File, then Save As, then type a name for the book such as PHYSICS, then click on Desktop, then Save.)

If you want a hard copy, you can order it from OpenStax as indicated in the website, or from Amazon. Get the single volume edition! If you get the two volume version, the page numbers will be different later in the course.

2. Expert TA Physics Online Homework System, This will be available to you on the first day of class; your tuition pays for this under the inclusive access policy at PJC. You should get an email from ExpertTA telling you what to do. The email will contain a code.

Student Support Link: <http://theexpertta.com/support/student-support>

24x7 Student Support - email main@theexpertta.com or call 877-572-0734.

3. McGraw-Hill Virtual Lab System

Your required lab materials (McGraw-Hill Connect Virtual Lab System) for PHYS 1401 will be delivered digitally in your Blackboard course. When you are directed to do a lab experiment in our Blackboard course, you click on LABS in your Blackboard course. The first lab is the “Lab 1 Free Fall” experiment. You do not have to purchase the labs system; it is automatically charged to your student account when you register for class

Students will go through Blackboard to access all the labs.

If you have difficulty with McGraw-Hill Connect, call **1-(800) 331 5094** if you have any problems.

(This is the **help number for McGraw-Hill** if you have other issues later on.)

Technical Support: Assistance concerning Blackboard is available through **PJC technical support, 903-782-0489**. For any issues arising with **Expert TA, the Tech Support number is 1-918-200-9064 24 hours per day, 7 days per week**. For issues concerning **McGraw-Hill Connect, the number is 1-(800) 331 5094**.

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major biological concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Determine the components of linear motion (displacement, velocity, and acceleration), and especially motion under conditions of constant acceleration.
2. Apply Newton's laws to physical problems including gravity.
3. Solve problems using principles of energy, work, impulse, and linear momentum.
5. Analyze rotational mechanics, including kinematics, dynamics, determination of the location of the center of mass, and rigid bodies in motion.
7. Describe the components of a wave and relate those components to mechanical vibrations and sound.
8. Demonstrate an understanding of equilibrium, including the different types of equilibrium.
10. Apply thermodynamic laws to solve standard heat problems.

ACGM Laboratory Learning Outcomes

1. Demonstrate techniques to set up and perform experiments, collect data from those experiments, and formulate conclusions from an experiment.
2. Record experimental work completely and accurately in laboratory notebooks, and communicate experimental results clearly in written reports.
3. Determine the components of linear motion (displacement, velocity, and acceleration), and especially motion under conditions of constant acceleration.
4. Apply Newton's laws to physical problems including gravity.
5. Solve problems using principles of energy.
6. Describe the components of a wave and relate those components to mechanical vibrations, sound, and decibel level.
7. Use principles of impulse and linear momentum to solve problems.
8. Solve problems in rotational kinematics and dynamics, including the determination of the location of the center of mass and center of rotation for rigid bodies in motion.
9. Solve problems involving rotational and linear motion.
10. Demonstrate an understanding of equilibrium, including the different types of equilibrium.
11. Discuss simple harmonic motion and its application to quantitative problems or qualitative questions.
12. Solve problems using the principles of heat and thermodynamics.

Course Requirements and Evaluation:

The first thing to do is to go to our course at Blackboard (Go to www.parisjc.edu, then click on Online Courses, then click on Blackboard course). The important elements of the course include: Homework Assignment for each chapter, Labs, Major Tests I – IV, and the Final Exam. Once again: You must go to Blackboard to access Assignments, Major Tests I, II, III, and IV, the Mid Term Exam, and the Final Exam. All of these elements of the course are described below:

Assignments (Homework) – This is located in the Menu on the left side of the page in our Blackboard course; the due dates given there (also at the end of this syllabus) are important to follow! One important thing to know: to enter a number in scientific notation, such as 3.12×10^5 , you will type: 3.12*10^5. The * is typed using Shift+8, and the ^ is typed using Shift+6 on your keyboard.

Major Tests – After completing all the work for Chapters 1-3 (read or skim the chapters, view the PowerPoint corresponding to the chapters, and working the homework assignments) you are ready to take the Chapter Test, Test I over UNIT 1 Ch. 1-3. This and the other tests are to be taken online. The Major Tests are open-book tests, but they are timed. You can check your grade on the day after the due date for each test, in the gradebook. Please notice the due dates, given in the schedule at the end of this Syllabus.

Mid Term Exam—This test covers Chapters 1-7 (all material from the first half of the course) and MAY be proctored by use of Respondus Monitor (Lockdown). You will receive more information on this in our Blackboard course when we approach the time for this test.

Final Exam— The final exam can be accessed in the Menu on the left side of the page in Blackboard (click on FINAL EXAM) and should be taken by the date indicated in the schedule. It will be available about 1 week before the end of course. It is also timed, like the Mid Term Exam, but is **NOT proctored** using Respondus Lockdown.

Lab Experiments – The labs can be found by looking on the Course Content page in our Blackboard course and clicking LABS. The links are below the Assignments and Tests. You will be told in the weekly announcements (Week 1 Activities, Week 2 Activities, etc.) which lab to do each week.

Grading Procedure: Grades will be determined as follows:

Tests I, II, III, IV	20% (5% each)
Homework	15%
Labs	25%
Mid Term Exam	20%
Final Exam	<u>20%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Oct. 16**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work **is not allowed** unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. **The last day to drop the course with a grade of W is Thursday, November 12, 2026.** If circumstances require you to withdraw from this course you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

Online students are expected to have a working computer with reliable internet. **A "backup plan" must also be determined in the event internet service goes down or other issues arise.** The backup can be a friend's computer, a local public or school computer with internet, etc.

Class Attendance:

Class attendance is critical for the successful completion of this course; for online courses, this means that you keep on top of all that is going on by reading

Announcements (Week 1 Activities, Week 2 Activities, etc.) at Blackboard and observing due dates! Do this on a daily basis! Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is **Thursday, November 12**. Students absent, for any reason, are still responsible for lecture/lab materials covered during the absence and any required assignments that were due. Please contact your instructor as early as possible if you are absent so that you remain current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedules (Tentative – subject to change): *Please go to our course at www.Parisjc.edu, click on the tab "Blackboard Online courses" at the top, then when a new page opens, click on the tab in the middle, "Login to Blackboard courses" and you will find our course. The START HERE section explains the course and all elements, and you should read the ANNOUNCEMENTS several times each week! More detail is provided in the Announcements about the brief Schedule given below and the Assignments whose due dates are given after the Schedule.*

Course Schedule: Use the attached PowerPoints and recommended videos given each week in the **Announcements (Week 1, Week 2, Week 3, etc.)** as the “Lecture” portion of our course. Read the corresponding chapters. The schedule given below is tentative and may change; the main resource to follow is the Week 1 Activities, Week 2 Activities, etc. in our Blackboard course. The ExpertTA assignment due dates follow after this schedule, so print it out and keep it handy!

Dates

Topic

Week 1 (Aug. 24-30) UNIT 1 Ch. 1 Using Expert TA system; Physics and Measurement

Week 2 (Aug. 31-Sept. 6) UNIT 1 Ch. 2; Lab 1

Week 3 (Sept. 7-13) UNIT 1 Ch. 3;

Week 4 (Sept. 14-20) Test 1 on UNIT 1; Lab 2

Week 5 (Sept. 22-28) UNIT 2 Ch. 4 and 5;

Week 6 (Sept. 28-Oct. 4) UNIT 2 Ch. 6; Lab 3

Week 7 (Oct. 5-11) Test 2 on UNIT 2 Ch. 4-6

Week 8 (Oct. 12-18) UNIT 3 Ch. 7; Lab 4

Week 9 (Oct. 19-25) UNIT 3 Ch. 8; MID TERM EXAM over Ch. 1-7

Week 10 (Oct. 26-Nov. 1) Test 3 on UNIT 3 Ch. 7-8 Lab 5

Week 11 (Nov. 2-8) UNIT 4 Ch. 9; Lab 6

Week 12 (Nov. 9-15) UNIT 4 Ch. 10, Begin UNIT 6 Ch. 13, 14, 15; Lab 7

Week 13 (Nov. 16-22) UNIT 6 Ch. 13, 14, 15; Lab 8

Week 14 (Nov. 23-29) Test 4 UNIT 4 and 6 (Ch. 9, 10, 13, 14, 15); Lab 9

Week 15 (Nov. 30 - Dec. 6) UNIT 7 Ch. 16 & 17; Lab 10

Week 16 (Dec. 7-8) FINAL EXAM due Tues. Dec. 8 at 11:59 pm. Course ends.

Due Dates – The assignments are listed in order below. Please refer to the last column, “Due”, beneath the arrow, for the due date for a given assignment. The Mid Term Exam is not listed here, but the Mid Term Exam link is located in Blackboard, and the due date will be given in class.

You should do the Introduction to ExpertTA by Sept.1 but it is not graded. It will help you understand how to record answers, etc.

Assignment	Weight	Publish	Start	Due
UNIT 1 Chapter 1 HW Intro and Measureme	1	Feb 01, 2022 12:01 AM	Mar 23, 2022 12:01 AM	Sep 06, 2026 11:59 PM
UNIT 1 Chapter 2 HW Kinematics and Vecto	1	Feb 01, 2022 12:01 AM	Mar 23, 2022 12:01 AM	Sep 06, 2026 11:59 PM
UNIT 1 Chapter 3 HW Vectors, 2D Motion, P	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Sep 13, 2026 11:59 PM
Test 1 -- UNIT 1 Ch. 0, 1, 2, 3	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Sep 20, 2026 11:59 PM
UNIT 2 Chapter 4 and 5 HW Newton's Laws	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Sep 27, 2026 11:59 PM
UNIT 2 Chapter 6 HW Circular Motion and G	1	May 01, 2022 12:00 AM	Mar 24, 2022 12:01 AM	Oct 04, 2026 11:58 PM
Test 2 -- UNIT 2 Ch. 4, 5, 6	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Oct 11, 2026 11:59 PM
UNIT 3 Chapter 7 HW Work, Energy, Power	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Oct 18, 2026 11:59 PM
MID TERM EXAM Review	1	Aug 01, 2022 12:01 AM	Oct 03, 2022 12:01 AM	Oct 29, 2026 11:59 PM
UNIT 3 Chapter 8 HW Momentum	1	May 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Nov 01, 2026 11:59 PM
Test 3 -- UNIT 3 Ch. 7, 8	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Nov 08, 2026 11:59 PM
UNIT 4 Chapter 9 HW Statics and Torque	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Nov 15, 2026 11:59 PM
UNIT 4 Chapter 10 HW Rotational Motion ar	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Nov 15, 2026 11:59 PM
UNIT 6 Chapter 13, 14, 15 HW Heat and The	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Nov 22, 2026 11:59 PM
Test 4 -- UNIT 4 & 6 Ch.9, 10, 13, 14, 15	1	Apr 01, 2022 12:01 AM	May 10, 2022 12:01 AM	Nov 29, 2026 11:59 PM
UNIT 7 Chapter 16 & 17 HW SHM and Wave	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Dec 06, 2026 11:59 PM
FINAL EXAM	1	Dec 04, 2022 12:01 AM	Dec 01, 2025 12:01 AM	Dec 08, 2026 11:59 PM

Meeting Times: ONLINE

Office Hours: MTWTh 8:30 – 9:30 am; MTWTh 2:00 – 3:00 pm; by appointment.

Course Description: Conceptual level survey of topics in Physics intended for liberal arts and other non-science majors. Topics include mechanics, energy conservation, atomic nature of matter and thermodynamics. The history of scientific developments and their impact on daily life are discussed. Also included are laboratory experiments that emphasize a conceptual understanding of Physics. This course presents concepts of classical and modern physics with application to biology and health sciences. Matter, energy, and waves are highlighted. What students should bring to this course is curiosity about how the world works. Intended for liberal arts, health science, or any majors. Lab required. Prerequisites: TSI Math score of 910-949 with a diagnostic score of 5, and TSI college-readiness standard for Reading and Writing; or equivalent. 4 credit hours.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Prerequisites: none

Required Textbook(s) and Materials:

Mastering Physics for “Conceptual Physics”, 13th ed., by Paul G. Hewitt, Pearson Pub. Co., You have paid for this with your tuition.

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the PJC Inclusive Access Program. PJC has partnered with the Follett Access Program and Pearson Publishing Company (Mastering Physics) via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, **and you will not need to purchase the required course materials separately.** You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have questions about charges to your student account. <https://www.parisjc.edu/main/business-office/>

Your Mastering Physics e-book (text) and all assignments will be provided in our Blackboard course. If you do not want to participate in the PJC Inclusive Access Program and would prefer to procure your required course materials elsewhere, you must opt out to avoid being charged

the discounted price on your student account. If you'd like to opt out of this program, please follow the steps below **before the college ORD date**.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/10/2025**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you opt-out, you will no longer have access to your textbook and other digital materials required for this course. You must purchase those materials separately to continue the course at a significantly higher cost.

YOU WILL NEED THESE MATERIALS! Notice again that is only one item listed – Pearson Pub. Co. “Mastering Physics” with e-book.

Technical Support: Assistance for Blackboard is available through PJC technical support, 903-782-0489. We will be using Blackboard extensively so be sure to log in and follow the directions on the Start Here page. If you are having trouble with Mastering Physics, please refer to this information:

Pearson Technical Support Options:

1. US Students: Text “Hi” to 1-866-264-0618
2. Technical Support website: <https://support.pearson.com/getsupport/s/>
3. Speak with Tech Support Agent
Now: <https://support.pearson.com/getsupport/s/contactsupport>

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

ACGM Student Learning Outcomes

Upon successful completion of this course, students will:

1. Describe Newton's laws and their application.
2. Identify and describe the four forces in nature.
3. Apply the concepts of static electricity, current electricity, and electromagnetism.
4. Apply the properties of light such as reflection, refraction, and diffraction.

Course Requirements and Evaluation:

How to begin: Please go to the PJC webpage at www.parisjc.edu and access the course through BlackBoard. You should have received an ID number to login to BlackBoard. BlackBoard has some features which we will use in this course; explanations and direction will be provided to guide you through the course. In our Blackboard course, you will click on "Start Here" and **complete the First Assignment**. Then scroll down to Course Content and you will see an outline of what we will cover. Below Course Content, you will see Week 1 Activities; follow the directions and click on the indicated links to open videos, worksheets, and lab sheets. For the next week, follow the directions in Week 2 Activities, and so on.

All of your assignments and Tests will make use of Mastering Physics which you access by clicking on "Pearson Course Materials" in our Blackboard course. Then click on "Assignments" or "Calendar" to access all assignments and tests. First, take the "tour" of the website to become acquainted with it (click on Introduction to Mastering Physics). At Mastering Physics you will find four important elements of the course: Major Tests 1, 2, 3, Final Exam, Video Labs, and Virtual Labs. All of these elements of the course are described below:

Lab Experiments – There are two types of labs that you will perform, **Virtual Labs**, and **Video Labs**. These are generally short (about 1 hour to complete) and will enhance your understanding of elementary physics tremendously.

(1) **Virtual Labs:** There are three of these labs in this course. They are at Mastering Physics.

Here is a list of the virtual labs:

VIRTUAL LABS

1. Virtual Lab 1 -- Forces and Motion
2. Virtual Lab 2 -- Standing Waves
3. Virtual Lab 3 -- Wave Interference

These are completed at Mastering Physics.

(2) **Video Labs:** As you watch the video lecture for each chapter that we cover, you will complete a video worksheet that will act as your "notes". You will use these notes to complete the Video Labs at Mastering Physics. "Video Lab ch 1" is the first of these, corresponding to the video for Ch. 1. **Do not turn in the video worksheet ("notes")** –

keep them together in a notebook so you can refer to them. You are allowed to use these when you take the major tests and the final exam.

Also, please go to www.YouTube.com for more videos in case you are having trouble understanding some of the concepts. Just type the topic (such as “Newtons’ Laws”) in the Search box. At www.YouTube.com you will find hundreds of conceptual physics videos. These are optional, but they may be of help in understanding many concepts.

Major Tests – After completing all the work for Weeks 1 and 2 (reading the chapters, viewing the videos, and completing the video worksheets) you are ready to take the Test 1. This is located at the “Mastering Physics” which you access by clicking on “Pearson Course Materials” in our Blackboard course. Then, click on the “Assignments” or use the “Calendar”, and you will find Test 1. Similarly, you will complete Tests 2 and 3, throughout the course. The Major Tests are open-note, open-book tests, but they are timed so that you only have two hours to complete the test. Please notice the due dates, given at Mastering Physics.

Final Exam – at the end of the course, a comprehensive final exam will be given at Mastering Physics, just like the other tests. Use the worksheets you have filled out to help you, since the exam is open-book, open-notes as are the other assignments.

All grades will show up in Mastering Physics after each due date. I will NOT record grades in Blackboard, so please refer to Mastering Physics often to see your grades and to be sure that you are keeping up with assignments! When you open Mastering Physics, you will be on the Course Home page. Scroll down and you will see “All Assignments” and “Calendar” in blue; these are links. I recommend clicking on “Calendar” to see upcoming due dates, and also to open up the assignments.

A schedule for our course is given below. Due dates for most assignments are also given in Mastering Physics. **All assignments MUST be completed by the indicated date! All of these are found at Mastering Physics and the due dates are given there. There is a handy calendar at Mastering Physics as well. This is also given at the end of this syllabus so you have a hard copy of due dates.**

After reading a chapter, you should view the corresponding PowerPoint slide program (in our BlackBoard course) for each chapter, complete labs as they are indicated, and take the Major Tests before the indicated due dates, as described above. There is a Schedule at the end of the Syllabus to help you determine what work to do for each week of the course.

Required Activity:

All students must complete the First Assignment located in the “Course Content” section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Grading Procedure: Grades will be determined as follows:

Major Tests 1, 2, 3	30% (10% each)
Virtual Labs 1, 2, 3	30% (10% each)
Video Labs for each chapter	25% (1% each)
Final Exam	<u>15%</u>
Total	100%

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is **Thursday Oct. 1, 2026**. If circumstances require you to withdraw from this course you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Sept. 18**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Course Policies

This is an online class. The biggest enemy of a student in an online class is PROSCRASTINATION. You are expected to keep up with assignments according to the brief schedule given at the end of this Syllabus, and attention to the ANNOUNCEMENTS in our Blackboard class to learn more details.

A word or two about responsibility:

The assignments have due dates. Follow the calendar at Mastering Physics and complete all assignments on time. **Do NOT ask for extra credit at the end of the course.** If you keep up with the work and do a good job, you should be able to make at least a passing grade. If you are not responsible for yourself, it will be difficult to succeed at anything in life.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, this means keeping up with the assignments and not getting behind. The worst enemy of an online student is procrastination! Withdrawals must be initiated by

the student. The last day for a student to withdraw from a course with a grade of “W” is **Thursday, Oct. 1, 2026.**

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.
<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedule

The course schedule given below is very helpful in navigating the course! Print it and refer to it often!

Notice the Virtual Labs shaded in blue – these are easy to overlook!

The Video Labs are given by Chapter (for Week 1, Ch 1, 2, 4, 5 refers to the Video Labs for these Chapters). Be sure to read the **Announcements (Week 1, Week 2, etc.)** for each week in our Blackboard course for more details!!!

<u>Dates</u>	<u>Topic</u>
Week 1 (Aug. 24-Aug. 30)	Ch 1, 2, 4, 5 (skip Ch. 3); Complete Video Labs for Ch 1, 2, 4, 5 at Mastering Physics. (For the remaining weeks, complete the Video Labs for the chapters indicated for that week, along with the Test or Virtual Lab for the week). All work is done at Mastering Physics. Textbook is found by clicking on “Pearson e-text”.
Week 2 (Aug. 31-Sept. 6)	Ch. 6, 7, 8; Test 1 over Week 1 and 2 material
Week 3 (Sept. 7-13)	Ch 11, 12, 13, 14; Virtual Lab 1 is due (see Announcements in Bb)
Week 4 (Sept. 14-20)	Ch 15, 16, 17, 18; Test 2 over Week 3 and 4 material
Week 5 (Sept. 21-27)	Ch 19, 20; Virtual Lab 2 is due
Week 6 (Sept. 28 - Oct. 4)	Ch. 22, 23, 24, 25, Test 3 over Week 5 and 6 material
Week 7 (Oct. 5-11)	Ch 26, 27, 28, 29; Virtual Lab 3 is due
Week 8 (Oct. 12-13)	Final Exam is taken by Tues. Oct. 13 and completed by 11:59 pm.
ASSIGNMENT DUE DATES ARE GIVEN IN OUR BLACKBOARD COURSE – look at Week 1, Week 2, etc. for these. Don't forget Virtual Labs 1, 2, 3!!!	
Due dates in Mastering Physics are shown below:	

Introduction to MasteringPhysics for Conceptual Physics	● Homework	08/30/26 at 11:59pm
Video Lab Ch. 1	● Homework	08/30/26 at 11:59pm
Video Lab Ch 2	● Homework	08/30/26 at 11:59pm
Video Lab Ch 4	● Homework	08/30/26 at 11:59pm
Video Lab Ch 5	● Homework	08/30/26 at 11:59pm
Video Lab Ch 6	● Homework	09/06/26 at 11:59pm
Video Lab Ch 7	● Homework	09/06/26 at 11:59pm
Video Lab Ch 8	● Homework	09/06/26 at 11:59pm
Test 1 Ch. 1,2,4,5,6,7,8 	◆ Test	09/06/26 at 11:59pm
Video Lab Ch 11	● Homework	09/13/26 at 11:59pm
Video Lab Ch 12	● Homework	09/13/26 at 11:59pm
Virtual Lab 1	+ Labs	09/13/26 at 11:59pm
Video Lab Ch 13	● Homework	09/13/26 at 11:59pm
Video Lab Ch 14	● Homework	09/13/26 at 11:59pm
Video Lab Ch 15	● Homework	09/20/26 at 11:59pm
Video Lab Ch 16	● Homework	09/20/26 at 11:59pm
Video Lab Ch 17	● Homework	09/20/26 at 11:59pm
Video Lab Ch 18	● Homework	09/20/26 at 11:59pm
Test 2 Ch. 11-18 	◆ Test	09/20/26 at 11:59pm
Video Lab Ch 19	● Homework	09/27/26 at 11:59pm
Video Lab Ch 20	● Homework	09/27/26 at 11:59pm

Virtual Lab 2	 Labs	09/27/26 at 11:59pm
Video Lab Ch 22	 Homework	10/04/26 at 11:59pm
Video Lab Ch 23	 Homework	10/04/26 at 11:59pm
Video Lab Ch 24	 Homework	10/04/26 at 11:59pm
Video Lab Ch 25	 Homework	10/04/26 at 11:59pm
Test 3 Ch. 19-25 	 Test	10/04/26 at 11:59pm
Video Lab Ch 26	 Homework	10/11/26 at 11:59pm
Video Lab Ch 27	 Homework	10/11/26 at 11:59pm
Video Lab Ch 28	 Homework	10/11/26 at 11:59pm
Video Lab Ch 29	 Homework	10/11/26 at 11:59pm
Virtual Lab 3	 Labs	10/11/26 at 11:59pm
FINAL EXAM 	 FINAL EXAM	10/13/26 at 11:59pm

PHYS 2425.10N0, 2425.40N0, 2425.50N0, 2425.74N0
University Physics
Physics for Scientists and Engineers I
Mechanics
Fall 2026

Instructor: Dr. Lee H. LaRue

Office: MS 210G

Phone: 903-782-0334

Email: LLARUE@parisjc.edu

Office Hours: MTWTh 8:30 – 9:30 am; MW 11am – noon; MTWTh 2:00 – 3:00 pm;
F 9:00 am to 12 noon and by appointment.

Meeting Location: Paris MS 213, GC 217
SSC__ (same location for lecture and lab)

Meeting Days: Tues. and Thurs.

Meeting Times: Lecture 9:30-10:45 am
Lab 11:00-12:15 pm

Course Description: This course is the first half of a general survey of physics requiring a background in algebra, trigonometry, and calculus. It is expected that you have taken Calculus I, or that you are taking it concurrently with this course. Topics will include: measurement, motion in one dimension, vectors, motion in two dimensions, Newton's Laws of Motion, work, power, and energy, momentum and collisions, rotational motion, gravitation, Kepler's Laws of Planetary Motion, torque and angular momentum, thermodynamics, oscillations and waves. Topics from astronomy will be included to show the application of many principles of physics.

Credits: SCH = 4 (3 Lecture and 1 Lab)

Prerequisites:

Two years of high school algebra and precalculus or college algebra and precalculus.

Required Textbook(s) and Materials:

All the required course materials for your classes are being delivered through Dragon Now the campus-wide affordable course materials program. Your homework/testing system is ExpertTA (see #2 below) and will be charged automatically, so you will not need to make a separate purchase

YOU WILL NEED THESE MATERIALS! Notice that there are three items listed -- OpenStax College Physics e-book, Expert TA online homework system, and the Lab Paq. Please get these IMMEDIATELY.

1. OpenStax UNIVERSITY PHYSICS e-book I have already provided the free pdf version of the text in our Blackboard course (see Materials section) but if you can't open it, or you just want to get it yourself, you can obtain it by clicking on this link (or paste it into a web browser):

<https://openstax.org/details/books/university-physics-volume-1>

You do not have to contribute or write a thank-you note.

Then click on "Download pdf".

It will take a minute or so depending on your internet service. **SAVE this pdf so you don't have to download it every time you need it.**

I suggest saving it to your Desktop. (Click on File, then Save As, then type a name for the book such as PHYSICS, then click on Desktop, then Save.)

If you want a hard copy, you can order it from OpenStax as indicated in the website, or from Amazon. Get the single volume edition! If you get the two volume version, the page numbers will be different later in the course.

2. Expert TA Physics Online Homework System, This will be available to you on the first day of class; your tuition pays for this under the inclusive access policy at PJC. You should get an email from ExpertTA telling you what to do, and this will include a code number.

Student Support Link: <http://theexpertta.com/support/student-support> 24x7 Student Support - email main@theexpertta.com or call 877-572-0734. Please contact ExpertTA if you have trouble.

3. Lab Paq (purchased when you registered, through the inclusive access policy). This provides the hands-on material for doing labs. We have changed the process for doing this. You should receive it in the mail within the first two weeks of class.

If you wish to opt-out of this program, please follow the steps below **by**:

- **Fall Main & Flex 1 Term: 9/10/2025**

- 1) Go to <https://ACCESSPortal.follett.com:443/1836>
- 2) Create an account using your student email account
- 3) Select Opt-Out to opt-out of the entire program. You will have an opportunity to opt back in if you choose to do so.
- 4) You can also Opt-Out from the student-specific link provided in the email from noreply@follett.com.

Important: If you Opt-Out, you will no longer have access to your required digital materials and will need to purchase required materials on your own. If you have required physical (print) materials that you have received from the virtual campus store, please return the physical material(s) before opting out.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

Technical Support: Assistance concerning Blackboard is available through **PJC technical support, 903-782-0489**. First, look at the checklist located here: <https://www.parisjc.edu/technology/pjc-it-checklist.php>

For any issues arising with **Expert TA**, the Tech Support number is **1-877-572-0734 24 hours per day, 7 days per week**. For issues concerning **Lab Paq**, the number is **1-866-206-0773 M-F, 7:30 am – 6 pm MST**

Course Goals and Objectives:

THECB Science Core Objectives:

Critical Thinking Skills - to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

Communication Skills - to include effective development, interpretation and expression of ideas through written, oral and visual communication

Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

Teamwork - to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Student Learning Outcomes (Physics and Engineering Program-Level)

1. Demonstrate mastery of the processes of science, the scientific method and established scientific knowledge.
2. Demonstrate knowledge of basic terminology and understanding of major physics concepts.
3. Use appropriate laboratory techniques and equipment safely and proficiently.

ACGM Lecture Learning Outcomes

Upon successful completion of this course, students will:

1. Determine the components of linear motion (displacement, velocity, and acceleration), and especially motion under conditions of constant acceleration.
2. Solve problems involving forces and work.
3. Apply Newton's laws to physical problems.
4. Identify the different types of energy.
5. Solve problems using principles of conservation of energy.
6. Define the principles of impulse, momentum, and collisions.
7. Use principles of impulse and momentum to solve problems.

8. Determine the location of the center of mass and center of rotation for rigid bodies in motion.
9. Discuss rotational kinematics and dynamics and the relationship between linear and rotational motion.
10. Solve problems involving rotational and linear motion.
11. Define equilibrium, including the different types of equilibrium.
12. Discuss simple harmonic motion and its application to real-world problems.
13. Solve problems involving the First and Second Laws of Thermodynamics.

ACGM Laboratory Learning Outcomes

Learning Outcomes Upon successful completion of this course, students will:

1. Prepare laboratory reports that clearly communicate experimental information in a logical and scientific manner.
2. Conduct basic laboratory experiments involving classical mechanics.
3. Relate physical observations and measurements involving classical mechanics to theoretical principles.
4. Evaluate the accuracy of physical measurements and the potential sources of error in the measurements.
5. Design fundamental experiments involving principles of classical mechanics.
6. Identify appropriate sources of information for conducting laboratory experiments involving classical mechanics.

Course Requirements and Evaluation:

The important elements of the course include: Homework for each chapter, Labs, Major Tests I – IV, the Mid Term Exam, and the Final Exam. All assignments except Labs, the Mid Term and the Final Exam are located here in Blackboard; look at the blue menu on the left side of the page in Blackboard. **The instructions for accessing your online textbook and the assignments are given in class during the first class session.** All of these elements of the course are described below:

Assignments – This is located at Blackboard; the due dates given there are important to follow! Click on Assignments, then Introduction to ExpertTA, to get started.

Major Tests – After completing all the work for Chapters 1-3 (attending lectures, covering the homework) you are ready to take the Chapter Test, Test I over Ch. 1-3. This and the other tests are to be taken online. The Tests are open-book tests, but they are timed so that you only have two hours to complete the test. You can check your grade on the day after the due date for each test, in the gradebook. Please notice the due dates, given in the schedule at the end of this Syllabus.

Mid Term Exam-- The **Mid-Term Exam** covers the material we will complete over the first half of the course, and will be **taken in class** (see schedule at end of this syllabus). This is a pencil and paper test. There will be a Study Guide to prepare for this test, explained in class.

Final Exam— The Final Exam will be **taken in class**, just like the Mid Term Exam. There will be a Study Guide for this test, explained in class.

Lab Experiments – Labs will be performed in class on Tuesday/Thursday during the assigned lab period. There are two types of labs that you will perform, hands on labs and virtual (computer) labs.

(1) Hands-on Labs: You will purchase the Lab Paq either at the bookstore or through the website, www.holscience.com.

(2) Virtual (Computer) Labs: As a part of the Lab experience, you will also perform one or two labs at various websites, from the simulations at the PhET website, <http://phet.colorado.edu/>

Grading Procedure: Grades will be determined as follows:

Tests 1, 2, 3, 4	20% (5% each)
Homework	15%
Labs	25%
Mid Term	20%
Final Exam	<u>20%</u>
Total	100%

Mid-Term Grades: PJC instructors are required to enter mid-term grades during the ninth week of the semester (**Oct. 16**). Once entered, each student's mid-term grade may be viewed by College personnel with the need to monitor such information, such as student records, student financial aid, academic advising and counseling, and administrative staff.

Note: Mid-Term grades can change a great deal, for the better or worse, from the time they are entered until final grades are turned in and they do not impact your GPA. They are simply a measurement the student can use to take stock in what may or may not be working. Please meet with your instructor if you have a concern about your grades at the mid-term.

Make-Up Work

Make-up work is not allowed unless extenuating circumstances (illness with doctor's written excuse, death in the immediate family) can be shown. The last day to drop the course with a grade of W is **Thursday, November 12, 2026**. If circumstances require you to withdraw from this course you must do so by that date. Failure to officially withdraw will result in your receiving a grade of F.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

I expect every student to come to class prepared to interact with the instructor and other students by listening, discussing, questioning, and taking notes relating to the topic at hand. All students will need a notebook and pens or pencils.

Respect your classmates' right to an education.

Give your full attention to the course and to anyone who is speaking to the class as a whole. Avoid creating distractions - do not arrive late, leave during class (unless you have an emergency), pass notes, do any other work, or conduct private conversations during class. Students who persist in these behaviors may be asked to leave the class. Don't bring visitors unless approved by the instructor. No food /or beverages to class. Please turn off or silence all cell phones, before coming into the classroom. No physical violence or threats of physical violence will be tolerated.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is Thursday, November 12th. Students absent, for any reason, are still responsible for lecture/lab materials covered during the absence and any required assignments that were due. Please contact your instructor as early as possible if you are absent so that you remain current in the course. Excessive absences will ultimately hinder your success in this course!

College policy requires faculty members to take attendance each class session and to record absences in the college-wide computer system.

Class Conduct:

Please turn off or silence and put away all electronic devices before entering the classroom/laboratory. Every student should be courteous to other students and the instructor in both lecture and laboratory experiences. I will not tolerate rudeness, disruptive behavior, or sleeping during class. No threats of violence or obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action such as dismissal from the college. *These students will immediately receive a score of zero on the exam/assignment in question with no possibility of makeup work and will forego the right to receive any bonus points for the remainder of the semester. Students who are suspected of cheating due to questionable activities may be required to prove their innocence.*

AI Policy:

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. **Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations.** Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, national origin, sex, religion, age, disability, or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Course Schedule (Tentative – subject to change):

Lecture Schedule: *TTh 9:30-10:45 am, Lab/Lecture 11:00 am – 12:15 pm*

Dates

Topic

Week 1 (begin Aug. 24-30) Ch 0 and Ch 1 Using Expert TA system; Physics and Measurement

Week 2 (Aug. 31 - Sept. 6) Labor Day/ Ch 2 Motion/Vectors

Week 3 (Sept. 7-) Ch 2 Kinematics/Vectors

Week 4 (Sept. 14-) Ch 3 Vectors

Week 5 (Sept. 21-) Ch 3 and 4 Vectors, Motion in 2 Dimensions, Newton's Laws

Week 6 (Sept. 28-) Ch 5 Newton's Laws, Friction,

Week 7 (Oct. 5-) Ch 5- 6 Newton's Laws of Motion and other applications

Week 8 (Oct. 12-) Ch. 7 and 8 Work, Power, Energy; **Mid Term Exam (in class)**

Week 9 (Oct. 19-) Ch. 7, Ch 8 (continued), Ch.9 Momentum and Impulse

Week 10 (Oct. 26-) Ch. 10, 11, 12 Rotational Motion, Rotational Mechanics

Week 11 (Nov. 2-) Ch. 12 Static Equilibrium, Ch. 13 Kepler's Laws and Gravitation

Week 12 (Nov. 9-) Ch. 15, 16, 17 Simple Harmonic Motion, Waves

Week 13 (Nov. 16) Ch. 17 Waves (continued), Vol. 2 Ch. 1-2 Thermodynamics

Week 14 (Nov. 23-) More on Temperature and Heat

Week 15 (Nov. 29-) Temperature and Heat, Review

Week 16 (Dec. 7-8) **Final Exam Tues. Dec.8, in class.** Course ends at that time.

Due Dates – Look at the “Due” column (under the arrow):
Mid Term and Final Exam are taken in class on dates
given in class.

DUE DATES FOR EXPERTTA Assignments and Tests

Intro to Expert TA -- due Sept. 1 but it does not count as a grade.

Assignment	Weight	Publish	Start	Due
Chapter 0 and 1 HW Intro and Measurement	1	Feb 01, 2022 12:01 AM	Mar 23, 2022 12:01 AM	Sep 08, 2026 11:59 PM
Chapter 2 and 3 HW Kinematics and Vectors	1	Feb 01, 2022 12:01 AM	Mar 23, 2022 12:01 AM	Sep 22, 2026 11:59 PM
Calculus Part 1-- Review of Derivatives and	1	Apr 01, 2022 12:01 AM	Apr 14, 2022 12:01 AM	Sep 22, 2026 11:59 PM
Test 1 -- Ch. 0, 1, 2	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Sep 24, 2026 11:59 PM
Chapter 2 and 4 HW (do AFTER Ch 2 and 3 f	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Oct 12, 2026 11:59 PM
Test 2 -- Ch. 3, 4, 5	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Oct 15, 2026 11:59 PM
Chapter 5 and 6 HW Newton's Laws and Mo	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Oct 22, 2026 11:59 PM
STUDY GUIDE FOR MID TERM (Not Graded)	1	Aug 01, 2022 12:01 AM	Oct 03, 2022 12:01 AM	Oct 22, 2026 11:59 PM
Chapter 7 and 8 HW Work, Energy, Power	1	Feb 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Nov 10, 2026 11:59 PM
Test 3 -- Ch. 6, 7, 8	1	May 01, 2022 12:01 AM	Apr 05, 2022 12:01 AM	Nov 17, 2026 11:59 PM
Chapter 9 HW Momentum	1	May 01, 2022 12:01 AM	Mar 24, 2022 12:01 AM	Nov 19, 2026 11:59 PM

Chapter 12 HW Statics and Torque	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Dec 01, 2026 11:59 PM
Chapter 10 & 11 HW Rotational Motion and	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Dec 01, 2026 11:59 PM
Chapter 15, 16 & 17 HW SHM and Waves	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Dec 03, 2026 11:59 PM
Test 4 -- Ch. 10, 11, 12, 13	1	Apr 01, 2022 12:01 AM	May 10, 2022 12:01 AM	Dec 03, 2026 11:59 PM
Chapter (Vol. 2) Ch. 1-4 HW Heat and Thern	1	May 01, 2022 12:01 AM	Mar 28, 2022 12:01 AM	Dec 06, 2026 11:59 PM

ACCT 2301 25D0
Principles of Financial Accounting
Fall 2026

Instructor: Ariel Causey

Office: Virtual

Phone: N/A

Email: acausey@parisjc.edu

Office Hours: Email to schedule appointments

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. Generally Accepted Accounting Principles (GAAP) as applied to transactions and events that affect business organizations. Students examine the procedures and systems used to accumulate, analyze, measure, and record financial transactions. The course emphasizes the preparation and interpretation of key financial statements, including the balance sheet, income statement, statement of cash flows, and statement of shareholders' equity. Students also learn how financial information is used by external decision-makers and are introduced to International Financial Reporting Standards (IFRS).

Topics typically include:

- Accounting terminology, concepts, and assumptions
- The accounting cycle and adjusting entries
- Recording business transactions in accordance with GAAP
- Preparation of financial statements
- Analysis and interpretation of financial statements
- Cash versus accrual accounting
- Differences between U.S. GAAP and IFRS

Credits : 3 credit hours

Prerequisite(s) : N/A

TSI Requirement : Recommended Math complete

Required Textbook(s) and Materials:

You will need a computer and high speed internet. To use the Connect proctoring program you will need the Chrome Browser, have a web camera and microphone.

Note: iPads will not work with the Connect proctoring.

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Financial Accounting, Release: 2025, Author: Spiceland/Thomas/Herrmann**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

Course Goals

1. Understand the fundamental principles and concepts of financial accounting.
2. Develop the ability to record and report business transactions in accordance with U.S. GAAP.
3. Prepare and analyze financial statements used by external stakeholders.
4. Apply accounting information to support business decision-making.
5. Gain an introductory understanding of international accounting standards (IFRS).

Course Objectives

Upon successful completion of the course, students should be able to:

1. Use basic accounting terminology and explain the assumptions, principles, and constraints of the accounting environment.
2. Differentiate between accrual and cash-basis accounting and explain the impact of each method on financial reporting.
3. Analyze and record business transactions using U.S. Generally Accepted Accounting Principles (GAAP).
4. Prepare adjusting entries and complete the accounting cycle, including closing entries and ledger maintenance.
5. Prepare financial statements in proper GAAP format, including:
 - o Income Statement
 - o Balance Sheet
 - o Statement of Cash Flows
 - o Statement of Shareholders' Equity
6. Analyze and interpret financial statements using basic financial analysis techniques and ratios.
7. Describe key differences between IFRS and U.S. GAAP and recognize the role of global accounting standards.
8. Communicate financial information effectively to external users such as investors, creditors, and regulators.

Course Requirements and Evaluation:

The final course grade is based on the following:

Course Work	Percentage
Reading/Videos	10%
Smart Book	10%
Chapter Assignments	20%
Real-World Analysis	20%
Exams (Inc. Final) (3)	40% (10, 10, 20)
Total Percentage	100%

Grade Scale	Percent
A	90%-100%
B	80%-89%
C	70%-79%
D	60%-69%
F	0%-59%

You should work all assignments as best as you can. Assignments will not be reopened.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:**Communication**

I will communicate announcements to the class through Blackboard. You should be logging in and checking announcements at least twice per week.

You can email me at acausey@parisjc.edu for questions. Please allow a 24-hour response time Monday through Thursday. Emails sent Friday- Sunday may be returned on the following Monday.

During our online course, I will be regularly and actively engaged with you during the semester.

1. There will be weekly announcements in Blackboard. You should log in at least twice a week to review announcements.
2. There are no weekly scheduled student hours. You are encouraged to log in virtually or email to seek help with the course content and assignments.

Late Work

- Due dates are noted in Blackboard and Connect. Assignments will automatically submit on the due date and time. **Assignments will not be re-opened to work.**
- Exams will be taken online using the Connect proctoring system. Check Blackboard and Connect for the days and times of exams.
- If there is an extreme circumstance, email me to discuss options available. It is at the instructor's discretion if assignments and/or exams are allowed to be made up.
- Students are encouraged to arrange to take exams early if advance notice of an absence is known and based on instructor approval of the circumstances.

Assignments

Reading the chapters and watching the video lectures are imperative to your success in the course. Both provide in-depth knowledge of the material being covered in each chapter. Video lectures will provide examples of topics covered. These will be a grade. Please do not skip them. They will post on Monday of each week. I would recommend completing the reading and videos before beginning chapter assignments.

Each assignment will have two overall attempts, and three check my works per question. You can save and exit as you work on the assignment. Once you hit submit, the assignment will be graded and sent to Blackboard. If you do a second attempt, the highest of the two attempts will be saved as your grade.

Homework

These are questions related to the content in the chapter to help you with understanding and application of the learning objectives for the chapter. These may include data visualization and questions using excel. The excel questions will be web based and no extra software is needed.

Application/Smart Book

These are interactive questions to help you apply your understanding of the chapter content.

Assignments are not a quiz or exam, but a way for you to practice the content covered in the chapter. I expect you to make mistakes and learn from them as you work the various assignments. Accounting is learned by doing, and the more you work the problems, the more you increase your learning of the content.

If you become stuck on a question, please email me letting me know:

- Name of the assignment
- Question number in the assignment
- If there are multiple tabs, which one you're stuck on
- What you're struggling with and how you've attempted the problem or what calculations you performed.

Students are expected to submit their own work on assignments and exams. This means using outside sources to provide answers, such as Chegg, friends, AI programs, online answer keys, using notes and textbook on exams, etc. is considered academic dishonesty.

- Going to tutoring is encouraged. There is a difference in receiving tutoring and using an outside source to provide answers. **If you have questions about what is considered academic dishonesty please contact me to discuss.**
- Using generative AI programs, such as Chat GPT, Perplexity, Gemini, etc., may be used to help you with understanding the content but **not for completing assignments.**

Using outside sources to do your work for you cheats you from the knowledge needed later on in your career. Accounting is the language of business and is something all businesses use. The course is designed to set you up for success as long as you do the work and put in the effort.

Exams

There will be reviews for you to complete to help prepare for the exam. These will not be graded and may not include everything on the exam. I will have Exam Information in Blackboard for each exam to provide chapters covered and availability of the exam.

- Students are required to take the final exam. It will be comprehensive (include all topics from the semester) and count as 20% of your overall grade. If a student does not take the final exam, they will receive a 0.
- The final exam may replace one of your lowest three exam grades. If an exam grade is a zero due to academic dishonesty, the final will not replace the zero. If the final is lower than any of your three exam grades, it will only count as the final.
- Exams (including Final) must be started and completed in one sitting. Exams will be timed and submitted automatically once time runs out.
- There is one attempt at each Exam (including the Final Exam).
- Exams will be proctored using McGraw Hill's proctoring program, Proctorio. There will be a practice exam for you to try before a real exam to ensure your computer settings will work with Proctorio.
- If you encounter a problem while taking the exam, first try closing the browser and re-logging into the exam. Do not submit the exam or try to refresh the exam. The time will continue counting down. If the problem persists, email me immediately describing the situation.
- Students are allowed an on-screen calculator (no cell phone), scratch paper and a 3x5 index card of notes. The proctoring system will have the calculator enabled.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Nov 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions

at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email or in Blackboard announcements.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

These dates/topics are subject to change at instructor discretion. The assignments will be the same from week to week (as indicated in Week 1) with the exception of exam weeks. All assignments (unless otherwise noted on Blackboard) will be due Sundays at 11:59pm.

DATE (Week of)	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24	Ch 1 - Framework for Financial Accounting	Read Ch, SmartBook, Video, Assignment, Real-World Analysis
8/31	Ch 2 - The Accounting Cycle (During the Period)	↓
9/7	Ch 3 – The Accounting Cycle (End of the Period)	
9/14	Ch 4 – Cash & Internal Controls	
9/21	Review & Exam 1 (Ch 1 – 4)	Review assignment, Exam 1
9/28	Ch 5 – Receivables & Sales	Read Ch, SmartBook, Video, Assignment, Real-World Analysis
10/5	Ch 6 – Inventory & Cost of Goods Sold	↓
10/12	Ch 7 – Long-Term Assets	
10/19	Ch 8 – Current Liabilities	
10/26	Review & Exam 2 (Ch 5 – 8)	Review assignment, Exam 2
11/2	Ch 9 – Long-Term Liabilities	Read Ch, SmartBook, Video, Assignment, Real-World Analysis
11/9	Ch 10 – Stockholder's Equity	↓
11/16	Ch 11 – Statement of Cash Flows	
11/23	Ch 12 – Financial Statement Analysis	
11/30	Time Value of Money & Investments	Read Appendix C & D, Assignment
12/7	Final Exam Review & Final Exam	Comprehensive Review, Final Exam

ACCT 2302 20D0
Principles of Managerial Accounting
Fall 2026

Instructor: Ariel Causey

Office: Virtual

Phone: N/A

Email: acausey@parisjc.edu

Office Hours: Email to schedule appointments

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making.

Topics typically include:

- Product costing methodologies
- Cost Behavior
- Operational and capital budgeting
- Performance Evaluation

Credits : 3 credit hours

Prerequisite(s) : ACCT 2301

TSI Requirement : Recommended Math complete

Required Textbook(s) and Materials:

You will need a computer and high speed internet. To use the Connect proctoring program you will need the Chrome Browser, have a web camera and microphone.

Note: iPads will not work with the Connect proctoring.

All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with MGH Connect (**Managerial Accounting, Release: 2025, Author: Whitecotton**). You will be able to access the textbook and learning materials directly through Blackboard Ultra.

Course Goals and Objectives:

Upon successful completion, students will be able to:

- Apply managerial accounting principles to real-world business scenarios.

- Prepare and analyze budgets and forecasts.
- Calculate and interpret cost behavior and CVP relationships.
- Use standard costing and variance analysis to assess performance.
- Apply activity-based costing and other costing methods.
- Use managerial accounting information for decision-making and strategic planning.

Course Requirements and Evaluation:

The final course grade is based on the following:

Course Work	Percentage
Reading/Videos	10%
Smart Book	10%
Chapter Assignments	20%
Case Analytics	20%
Exams (Inc. Final) (3)	40% (10, 10, 20)
Total Percentage	100%

Grade Scale	Percent
A	90%-100%
B	80%-89%
C	70%-79%
D	60%-69%
F	0%-59%

You should work all assignments as best as you can. Assignments will not be reopened.

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Communication

I will communicate announcements to the class through Blackboard. You should be logging in and checking announcements at least twice per week.

You can email me at acausey@parisjc.edu for questions. Please allow a 24-hour response time Monday through Thursday. Emails sent Friday- Sunday may be returned on the following Monday.

During our online course, I will be regularly and actively engaged with you during the semester.

1. There will be weekly announcements in Blackboard. You should log in at least twice a week to review announcements.
2. There are no weekly scheduled student hours. You are encouraged to log in virtually or email to seek help with the course content and assignments.

Late Work

- Due dates are noted in Blackboard and Connect. Assignments will automatically submit on the due date and time. **Assignments will not be re-opened to work.**
- Exams will be taken online using the Connect proctoring system. Check Blackboard and Connect for the days and times of exams.
- If there is an extreme circumstance, email me to discuss options available. It is at the instructor's discretion if assignments and/or exams are allowed to be made up.
- Students are encouraged to arrange to take exams early if advance notice of an absence is known and based on instructor approval of the circumstances.

Assignments

Reading the chapters and watching the video lectures are imperative to your success in the course. Both provide in-depth knowledge of the material being covered in each chapter. Video lectures will provide examples of topics covered. These will be a grade. Please do not skip them. They will post on Monday of each week. Using outside sources to do your work for you cheats you from the knowledge needed later on in your career. Accounting is the language of business and is something all businesses use. The course is designed to set you up for success as long as you do the work and put in the effort.

Exams

There will be reviews for you to complete to help prepare for the exam. These will not be graded and may not include everything on the exam. I will have Exam Information in Blackboard for each exam to provide chapters covered and availability of the exam.

- Students are required to take the final exam. It will be comprehensive (include all topics from the semester) and count as 20% of your overall grade. If a student does not take the final exam, they will receive a 0.
- The final exam may replace one of your lowest three exam grades. If an exam grade is a zero due to academic dishonesty, the final will not replace the zero. If the final is lower than any of your three exam grades, it will only count as the final.
- Exams (including Final) must be started and completed in one sitting. Exams will be timed and submitted automatically once time runs out.
- There is one attempt at each Exam (including the Final Exam).
- Exams will be proctored using McGraw Hill's proctoring program, Proctorio. There will be a practice exam for you to try before a real exam to ensure your computer settings will work with Proctorio.
- If you encounter a problem while taking the exam, first try closing the browser and re-logging into the exam. Do not submit the exam or try to refresh the exam. The time will continue counting down. If the problem persists, email me immediately describing the situation.
- Students are allowed an on-screen calculator (no cell phone), scratch paper and a 3x5 index card of notes. The proctoring system will have the calculator enabled.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is *Nov 12th*.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by email or in Blackboard announcements.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Course Schedule/Weekly Lesson Plan:

These dates/topics are subject to change at instructor discretion. The assignments will be the same from week to week (as indicated in Week 1) with the exception of exam weeks. All assignments (unless otherwise noted on Blackboard) will be due Sundays at 11:59pm.

DATE (Week of)	TOPIC	READINGS ASSIGNMENTS LECTURES
8/24	Ch 1 – Intro to Managerial Accounting	Read Ch, SmartBook, Video, Assignment, Case Analytics
8/31	Ch 2 – Job Order Costing	
9/7	Ch 3 – Process Costing	
9/14	Ch 4 – Activity Based Costing & Cost Management	
9/21	Review & Exam 1 (Ch 1 – 4)	Review assignment, Exam 1
9/28	Ch 5 – Cost Behavior	Read Ch, SmartBook, Video, Assignment, Case Analytics
10/5	Ch 6 – Cost-Volume-Profit Analysis	
10/12	Ch 7 – Incremental Analysis for Short-Term Decision Making	
10/19	Ch 8 – Budgetary Planning	
10/26	Review & Exam 2 (Ch 5 – 8)	Review assignment, Exam 2
11/2	Ch 9 – Standard Costing & Variance Analysis	Read Ch, SmartBook, Video, Assignment, Case Analytics
11/9	Ch 10 – Decentralized Performance Evaluation	
11/16	Ch 11 – Capital Budgeting	
11/23	Ch 13 – Measuring & Evaluating Financial Performance	
11/30	Final Review	Comprehensive Review
12/7	Final Exam	Comprehensive Final Exam

PSYC 2314.10H0
Lifespan Growth and Development
FALL I 2026

Instructor: Michelle Chapman
Email: mchapman2@parisjc.edu
Office Hours: By appointment only

Meeting Location: Paris Junior College
Meeting Days: Tuesdays & Thursdays
Meeting Times: 11:00 AM - 12:15 PM

Office Student Email Policy: Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the student. All official correspondence, including notices of academic status, financial aid, billing, registration, and campus alerts, will be sent to the student's PJC email account. Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Course Description:

The study of Lifespan Growth and Development is a study of social, emotional, cognitive, and physical factors and influences on a developing human from conception to death. Core Curriculum satisfied for Social and Behavioral Science.

Credits: 3 SCH

TSI Requirement: College-level reading is required.

Prerequisite(s): None

Required Textbook(s) and Materials:

The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC's Equity Access Program. PJC has partnered with the Follett Access program and Pearson via the PJC Bookstore to promote affordability. This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all required course materials, and you **will NOT need to purchase** the required course materials separately. You are responsible for paying the charge applied to your student account. Please contact the PJC Business Office if you have any questions about charges to your student account. You may contact the Business Office at <https://www.parisjc.edu/business/index.php>.

Your required e-textbook and course materials for PSYC 2314 are Feldman, R. S. (2023), Lifespan Development: A Topical Approach with PEARSON/REVEL, 5th ed., which will be delivered digitally through your Blackboard Ultra course. When you register and activate your PEARSON/REVEL account, use your PJC Dragon email address.

AI STATEMENT

Ethical Considerations and Consequences for Misuse

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific; approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- Example of permitted use: Using AI to brainstorm topic ideas, check grammar, or generate a practice outline, with instructor approval and proper citation.
- Example of prohibited use: Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

MFA

To help protect student accounts and personal information, students are required to use Multi-Factor Authentication (MFA) when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method: a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

Dual credit students logging in to their high school wifi will not be required to complete the MFA process. Dual Credit students logging in anywhere else will be required to complete the MFA process.

Course Goals and Objectives:

Foundational Component Area: Lifespan Growth and Development. Social and Behavioral Science Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following

Core Objectives:

1. Critical Thinking Skills - to include creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.
2. Communication Skills - to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
3. Empirical and Quantitative Skills - to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

4. Social Responsibility - to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Psychology Student Learner Outcomes: Upon successful completion of this course, students will:

1. Demonstrate knowledge of the major theoretical perspectives in psychology.
2. Interpret what constitutes valid research in the field of psychology.
3. Identify physiological and psychological variables influencing adaptive and maladaptive human behavior and mental processes.

Course Level Student Learner Outcomes: Upon successful completion of PSYC 2314, the student will:

1. Describe the stages of the developing person at different periods of the life span from birth to death.
2. Discuss the social, political, economic, and cultural forces that affect the development process of the individual.
3. Identify factors of responsible personal behavior about issues such as sexual activity, substance abuse, marriage, and parenting.
4. Explain the biosocial, cognitive, and psychological influences throughout the lifespan as an ongoing set of processes, involving both continuity and change.
5. Describe the different developmental perspectives of the major theories of development (i.e., cognitive, learning, humanistic, and psychodynamic).
6. Identify examples of some of the cultural and ethnic differences that influence development throughout the lifespan.
7. Discuss the various causes or reasons for disturbances in the developmental process.

PSYC 2314: Map of Course Objectives, Student Outcomes, Core Objectives, and Assignments

Course Objective	Program Student Learner Outcomes	State Core Objectives	Assignments
1. Describe the stages of the developing person at different periods of the life span from birth to death.	1. Demonstrate knowledge of the major theoretical perspectives in psychology. 2. Interpret what constitutes valid research in the field of psychology. 3. Identify variables, physiological and psychological, influencing adaptive and maladaptive human behavior and mental processes.	1. Critical Thinking Skills 2. Communication Skills 3. Empirical and Quantitative Skills 4. Social Responsibility	1. Collaborative Quizzes A, B, C, D, E, F, G 2. Sections 1, 2, 3, & 4 Essay Exams 3. REVEL reading comprehension quizzes. 4. Research Project 5. Mid-Term & Final Exam
2. Discuss the social, political, economic, and cultural forces that affect the development process of the individual.	1. Demonstrate knowledge of the major theoretical perspectives in psychology. 2. Interpret what constitutes valid research in the field of psychology.	1. Critical Thinking Skills 2. Communication Skills 3. Empirical and Quantitative Skills 4. Social Responsibility	1. Collaborative Quizzes A, B, C, D, E, F, G 2. Sections 1, 2, 3, & 4 Essay Exams 3. REVEL reading comprehension quizzes

	3. Identify variables physiological and psychological, influencing adaptive and maladaptive human behavior and mental processes.		4. Research Project 5. Mid-Term & Final Exam 6. Ethnocentrism Activity 7. Critical Thinking Collaborative Activity (Developmental Influences) 8. SLO Exit Quiz
3. Identify factors of responsible personal behavior with regard to issues such as sexual activity, substance abuse, marriage, and parenting.	1. Demonstrate knowledge of the major theoretical perspectives in psychology. 2. Interpret what constitutes valid research in the field of psychology. 3. Identify variables physiological and psychological, influencing adaptive and maladaptive human behavior and mental processes.	1. Critical Thinking Skills 2. Communication Skills 3. Empirical and Quantitative Skills 4. Social Responsibility	1. Collaborative Quizzes A, B, C, D, E, F, G 2. Sections 1, 2, 3, & 4 Essay Exams 3. REVEL reading comprehension quizzes 4. Research Project 5. Mid-Term & Final Exam 6. Ethnocentrism Activity 7. Critical Thinking Collaborative Activity (Developmental Influences) 8. SLO Exit Quiz
4. Explain the biosocial, cognitive, and psychological influences throughout the lifespan as an ongoing set of processes, involving both continuity and change.	1. Demonstrate knowledge of the major theoretical perspectives in psychology. 2. Interpret what constitutes valid research in the field of psychology. 3. Identify variables physiological and psychological, influencing adaptive and maladaptive human behavior and mental processes.	1. Critical Thinking Skills 2. Communication Skills 3. Empirical and Quantitative Skills 4. Social Responsibility	1. Collaborative Quizzes A, B, C, D, E, F, G 2. Sections 1, 2, 3, & 4 Essay Exams 3. REVEL reading comprehension quizzes 4. Research Project 5. Mid-Term & Final Exam 6. Ethnocentrism Activity 7. Critical Thinking Collaborative Activity (Developmental Influences) 8. SLO Exit Quiz
5. Describe the different developmental perspectives of the major theories of development (i.e., cognitive, learning, humanistic, and psychodynamic).	1. Demonstrate knowledge of the major theoretical perspectives in psychology. 2. Interpret what constitutes valid research in the field of psychology. 3. Identify variables physiological and psychological, influencing adaptive and maladaptive human behavior and mental processes.	1. Critical Thinking Skills 2. Communication Skills 3. Research Project 5. Mid-Term & Final Exam 6. Ethnocentrism Activity 7. Critical Thinking Collaborative Activity (Developmental Influences) 8. SLO Exit Quiz

Course Schedule:

Section 1 covers chapters 1 through 4

Chapter 1: An Orientation to Lifespan Development

Chapter 2: Genetics, Prenatal Development, and Birth

Chapter 3: Physical Growth and Aging across the Life Span

Chapter 4: Health and Wellness

Section 2 covers chapters 5 through 8

Chapter 5: Cognitive Growth: Piaget and Vygotsky

Chapter 6: Cognitive Growth: Information Processing Approaches

Chapter 7: Language Development

Chapter 8: Intelligence

Section 3 covers chapters 9 through 12

Chapter 9: Social and Emotional Development

Chapter 10: Development of the Self

Chapter 11: Moral Development and Aggression

Chapter 12: Gender and Sexuality

Section 4 covers chapters 13 through 15

Chapter 13: Friends and Family

Chapter 14: Schooling, Culture, and Society: Living in a Multicultural World

Chapter 15: Death and Dying

Method of Instruction/Course Format/Delivery:

PSYC 2314 is a hybrid course that combines face-to-face classroom instruction with online coursework delivered through the Blackboard Learning Management System (Blackboard). Students are expected to attend all scheduled class meetings and complete all required online assignments, quizzes, discussions, exams, and other course activities through Blackboard by the posted deadlines.

Success in this course requires regular participation both in the classroom and online. Students should plan to check Blackboard several times each week to review announcements, access course materials, complete assignments, and monitor their progress.

Basic Computer Requirements: As a general rule, a computer manufactured within the last five years is adequate. In addition to the basic system requirements, some course activities may require a webcam and common application software such as Microsoft Word, PowerPoint, and Excel. Institutional Technology (IT) states that Chromebooks, tablets, and smartphones are not adequate to perform all course functions. Google Chrome or Firefox is the recommended internet browser.

Technical Difficulties: Technical issues are not an excuse for missing assignment deadlines. Students are encouraged to complete assignments well before the due date to allow time to resolve any unexpected technical problems.

Computer access is available at the following PJC locations:

Paris Learning Center – (903) 782-0415

Greenville Center Library – (903) 457-8729

Sulphur Springs Center Library – (903) 885-2201

Course Requirements and Evaluation:**Evaluation Methods:**

- Students will have two major closed-book objective exams to demonstrate their knowledge of the course material. Each exam is worth 100 points. Students can earn up to 200 points on major exams.
- Students can earn up to 100 points on quizzes for the semester (25 points for each section).
- Engagement is an important part of hybrid classes; therefore, students can earn up to 100 points for engagement (15 points for the RAC Assignment, 15 points for the APA Quiz, 20 points for the cross-cultural Psychology Assignments, and 50 points for surveys).
- Students can earn up to 100 points on embedded Pearson Textbook Comprehension quizzes referred to as REVEL and 100 points on discussions.
- Extra Credit is built into the course: Students can earn up to seven extra credit points on the syllabus quiz and one extra credit point for the student acknowledgment form. Students who

activate their PEARSON/REVEL inclusive access (IA) within the first week of class will earn an extra credit point for a total of nine extra credit points.

Grading Criteria:

Students can earn up to a total of 600 points during the semester:

- **200 points - Two Major Exams:** Students will complete an online Midterm and Final examination. Each exam is worth 100 points.
- **100 points - Quizzes**
- **100 points - Embedded textbook PEARSON/REVEL Comprehension Quizzes**
- **100 points - Discussions**
- **15 points - RAC Assignment**
- **15 points - APA Quiz**
- **20 points - Cross-Cultural Psychology Assignment**
- **50 points - Surveys**
= 600 total possible points

- The following grading scale will be used
 - 540 points and above = A
 - 480-539 = B
 - 420-479 = C
 - 360-419 = D
 - 359 points and below = F

Course Requirements:

Exams: Students will complete two major proctored objective exams, each worth 100 points, to demonstrate their understanding of the course material. A detailed course schedule is provided in the syllabus at the beginning of the semester; therefore, students are responsible for being aware of all scheduled exam dates from the first week of class.

During exams, cell phones must be turned off and stored out of sight. The use of notes, textbooks, computers, smart devices, or any other external materials is strictly prohibited. These items must be closed, put away, and are not allowed to be accessed during the exam.

Students are responsible for downloading and installing Respondus LockDown Browser from the PJC website prior to the exam. Respondus LockDown Browser requires a webcam to record the screen strokes and frontal facial view, and along with a second camera (smartphone or tablet) that records a side view of your entire testing environment and hands throughout the entire testing session. Detailed instructions for downloading and installing the LockDown Browser are provided within the exam folders in Blackboard.

Proctoring Details:

- Exams will be taken at home using Respondus LockDown Browser with Monitor.

- A webcam and a second camera (the second can be your cellphone or a tablet) are required for monitoring during the exam.
- Students must download and install the LockDown Browser from the PJC website.
- Installation instructions are available in the exam folders.

Testing Environment Requirements: Respondus LockDown Monitor records your environment, movements, audio, computer screen, and keyboard keystrokes during the exam. To ensure academic integrity, the following guidelines must be strictly followed:

✓ Before the Exam

- Complete a tech check at least 24 hours before the exam to verify webcam functionality and LockDown Browser installation.
- Ensure your computer is fully charged or plugged in.
- Power your computer off and then power it back on before the exam to close all background applications.

📷 Webcam & Room Scan

At the start of the exam, you must perform a **360° room scan** showing your entire workspace, including your desk, surroundings, and any materials present.

- Your environment should be free of all unauthorized materials, and you should not access the materials at any time during the exam period.
- Additionally, NO other individuals should be present while you are taking the exam.
- You must NOT engage in any form of conversation during this time.
- Accessing unauthorized materials or engaging in a conversation with others during the exam will result in an automatic zero, with no opportunity for a makeup.
- Your entire face and workspace must remain clearly visible throughout the exam.

Setting Up Your Second Camera During Exam Startup

These are the two angles that I want to be able to see: Side View and View From the Computer.

Positioning for a Side View

- Place the phone/tablet flat on a stable surface.
- Point it perpendicular to your body so it shows your desk, keyboard, mouse, and immediate surroundings. You will receive a score of zero if I see a cell phone visible or don't have a Side View.
- Avoid tilting or moving it during the exam.
- Ensure it has a clear view of your workspace and face.

Post-Exam

- The second camera recording stops automatically when you submit.
- Do not close the browser on your second device until the upload completes and you see “Session complete” support.respondus.com.
- If you do not wait until you receive the notification “Session Complete,” Blackboard will record a score of zero. This will count as a testing attempt. Students receive one attempt to complete the exam. Instructors can view the side-view video alongside the frontal webcam and screen recording in the proctoring dashboard.

Prohibited Items & Behaviors

- The testing area must be free of unauthorized materials, including:
 - Cell phones
 - Tablets
 - Smartwatches
 - Textbooks
 - Notes
 - Headphones/AirPods
- Any other electronic or personal items (this includes music playing)
- No other individuals may be present in the room during the exam.
- No communication (verbal or non-verbal) with others is allowed.
- No background applications or browser tabs may be open or opened during testing. LockDown Browser restricts access, but students are responsible for ensuring compliance. Attempts to open additional tabs or applications will result in auto-submission of the exam. This will count as an attempt. Students have one attempt. Additional attempts will NOT be permitted due to auto-submission of exams due to failure to follow instructions.

Monitoring & Review

- LockDown Monitor flags irregularities such as:
 - Leaving the camera view
 - Background noise or voices
 - Use of unauthorized materials
 - Suspicious movements or eye tracking
 - Suspicion of cell-phone use or other electronic use.

- All flagged or suspected incidents will be reviewed. **Violations will result in a score of zero** and possible disciplinary action.

Final Reminders

- Do not wait until the last minute to verify your setup.
- Start the exam within the designated time window (exams are open for one week before the closure date). Late starts will not be permitted.
- If you experience technical issues, report them immediately through the designated support channel. To contact PJC Tech Support, call (903) 782-0496 or email tech support at techsupport@parisjc.edu.

Respondus-proctored major exams are available for one week before the final closure date of the exam. The exam **MUST** be submitted during the week that the exam is available, as would normally occur in an in-person exam setting. No exceptions will be granted.

Failure to submit the exam by the stated deadline will result in an automatic score of zero. Students are provided ample advance notice of exam dates and are responsible for planning accordingly to ensure timely completion. All students are responsible for converting the exam deadline to their local time zone and submitting the exam on time. Misunderstandings or miscalculations related to time zones will not be accepted as valid excuses for late submission.

If a student anticipates any conflict that may interfere with their ability to complete the exam on time, it is their obligation to make arrangements to take the exam early. Requests to take the exam early must be submitted at least 72 hours before the exam opens. Extensions will only be granted in the case of documented, verifiable extenuating circumstances. These are strictly limited to serious medical emergencies (e.g., hospitalization) or the death of an immediate family member (documentation of extenuating circumstances is required). Documentation must be submitted within 48 hours of the missed deadline and must come from a licensed professional or official source. No other circumstances will be considered.

The following are NOT considered extenuating circumstances and will NOT justify an extension under any condition:

- Waiting until the last day to take the exam
- Forgetting the 11:59 PM CST deadline
- Miscalculating time zones
- Changes in work schedules or being scheduled to work during the exam window
- Being called in to work and not completing the exam on time because you were called into work unexpectedly.
- Technology issues, including internet outages, device failure, or platform access problems.

The exam will be available for a one-week period, which is sufficient time for all students to plan and complete the exam within the designated window. Students are expected to test their access and resolve

any technical issues well in advance of the deadline. Institutional systems are monitored for outages; claims of technical failure must be substantiated with evidence. It is the student's sole responsibility to ensure they have the necessary resources and availability to complete the exam on time. This policy is designed to ensure fairness and uphold academic integrity. No exceptions will be made outside the clearly defined parameters above. Plan ahead and act early.

Once the exam window closes, the exam will no longer be accessible and will not be reopened or re-administered under any circumstances. Excuses for failing to complete the exam during the open period will not be accepted. Students are expected to manage their time responsibly and plan ahead.

For the midterm exam only, students with a valid and verifiable excuse, limited strictly to serious medical emergencies (e.g., hospitalization) or the death of an immediate family member, may be permitted to complete an essay-based make-up exam. This make-up must be completed within three days of the midterm exam's closure. Extensions beyond this three-day window will not be granted. It is the student's responsibility to:

- Contact the instructor to request approval for the make-up exam
- Submit appropriate documentation (e.g., doctor's note, obituary) with your name listed.
- Arrange a time to complete the essay make-up exam within the three-day window.

Failure to complete the make-up exam within this timeframe will result in a zero for the midterm grade. Make-up exams or extensions are not available for the final exam period. Students must complete the final exam during the scheduled exam window.

Students will have exactly 75 minutes to complete each proctored exam—the midterm and the final. Time limits are strictly enforced. Students must begin and complete the exam within this window; no additional time will be granted for any reason (except for approved ADA accommodations).

The midterm exam will cover Chapters 1–8, and the final exam will cover Chapters 9–15.

All exams are closed-book and closed-note. Students are strictly prohibited from using textbooks, notes, unauthorized technology (including phones, smartwatches, or AI tools), or any external materials during the exam. Any violation of this policy will be treated as academic dishonesty and will result in disciplinary action. Students suspected of academic dishonesty will receive a zero for the exam or assignment, with no opportunity to complete makeup work or otherwise replace the grade. They will forfeit eligibility for any bonus points for the remainder of the semester. A second suspected violation of academic dishonesty will result in a final grade of "F" for the course.

All course content, including required readings, PowerPoint notes, quizzes, and supplemental resources, may be sampled for exam questions. Students are responsible for reviewing all materials provided throughout the course. Exams will consist of objective question formats, including true/false, multiple-choice, and matching.

Students are allowed only one attempt to take each exam. Once the exam is started, it must be completed in one sitting. Students are unable to pause the exam and then restart or retake the exam for any reason. This will count as an attempt. Students are allowed only one attempt. If you do, the Lockdown Browser will automatically submit the exam (see the information below regarding auto-submissions).

During proctored exams, students are required to remain fully engaged and visible for the entire duration of the testing session. The following actions are strictly prohibited and will trigger automatic submission of the exam by Respondus LockDown Browser Monitoring:

- Leaving the exam session for any reason before completion
- Opening additional browser tabs or windows
- Having the student's face or testing environment out of view at any time
- Conversing with another individual during the exam
- Using unauthorized technology or materials
- Engaging in any other behavior deemed suspicious or unauthorized (as outlined in the exam policy)

If Respondus LockDown Browser Monitoring automatically submits an exam due to any of the violations listed above, that submission will be recorded as the student's only attempt. No retakes or resets will be granted, regardless of the reason for the violation.

Directions for accessing the exam: To access and complete proctored exams, students must follow the steps below **exactly as outlined**. Failure to complete any step will result in the exam being inaccessible. No exceptions will be made.

Requirements:

Respondus LockDown Browser must be downloaded and installed before being able to access the exam.

All other applications must be closed before launching the exam.

A valid photo ID (government-issued or school-issued student ID) must be available for identity verification.

Access Steps:

1. Log in to Blackboard and navigate to the course.
2. Open the **Exam Folder**.
3. View all items in the folder **in order**, including:
 - Instructions for downloading and installing Respondus LockDown Browser
 - Exam review materials
 - Exam Acknowledgment form. *Note: If any item is skipped, the Exam Acknowledgment and the exam will remain hidden.*
4. Click on the **Exam Acknowledgment**, read it thoroughly, and answer the required question. You will be held accountable for the instructions contained in the exam acknowledgment forms for the Midterm and final exams. *You will not be able to access the exam without completing this step.*
5. Click on the **exam link**.

- If the LockDown Browser is not installed, you will be prompted to install it before proceeding.
- 6. **Do not click “Start”** until you have read all instructions and are fully prepared to begin. *You are responsible for all information contained in the Exam Acknowledgment.*
- 7. Clicking “Start” activates LockDown Browser Monitoring and begins your exam session.

Exam Makeup Policy: Students receive a detailed class schedule attached to the syllabus, including all exam dates and availability windows. Therefore, students are fully informed of when major exams will occur from the beginning of the semester. If a student anticipates a scheduling conflict, it is their responsibility to arrange to complete the exam before the scheduled closure. Once a proctored exam closes, it will not be reopened or re-administered, regardless of the excuse.

Students with a valid and verifiable excuse, limited strictly to serious medical emergencies (e.g., your hospitalization) or the death of an immediate family member, may be permitted to complete an alternative essay-based make-up exam for the midterm only. Documentation (e.g., doctor’s note, obituary where you are listed as a survivor, occurring during the week of the exam's availability) must be provided, and the make-up exam must be requested and completed within three (3) calendar days of the midterm exam’s closure. Failure to meet this deadline will result in a grade of zero (0) for the midterm exam.

Waiting until the last day to take an exam is not a valid excuse for missing the deadline. Students who delay and encounter unforeseen issues, such as work conflicts, schedule changes, or technical problems, will not be granted an extension. These situations are not considered extenuating circumstances. No extensions or make-up exams will be granted for the final exam under any circumstances. The final exam must be completed and submitted before the closure date and time listed in the syllabus schedule. Note: This policy applies to major exams only.

Quizzes: Quizzes are an essential part of the course, designed to encourage students to stay engaged with the material and develop disciplined reading habits. Each quiz corresponds to the chapters currently being covered and must be completed by the due date listed in the course syllabus schedule. Students are allowed only one attempt per quiz. Quizzes are set to forced completion, meaning that once a quiz is started, it must be finished in one sitting; exiting and returning later is not permitted. Starting a quiz constitutes an attempt, regardless of how many questions are answered. Students are allowed one attempt.

Each quiz has a 60-minute time limit, which is sufficient for students who have completed the assigned readings. While students may use their textbook and other course materials during the quiz, the time limit does not allow for looking up every answer. Therefore, students are strongly encouraged to read and study the assigned chapters before beginning the quiz.

Quizzes consist of multiple-choice, true/false, and matching questions. Once a quiz closes, it will no longer be accessible, and students will not be able to submit or earn points. Late submissions will receive a grade of zero, and quizzes will not be reopened under any circumstances. **Late coursework is not**

accepted. Students are encouraged to reflect on their quiz performance and review missed questions in preparation for major exams. Although correct answers are not revealed in quiz results to preserve academic integrity, all answers can be found in the textbook. Students are expected to locate and review the correct information independently. Up to 100 quiz points can be earned over the course of the semester.

Engagement: Students will earn engagement points throughout the semester based on their active participation in the online classroom. These points are tied to specific assignments, including the RAC Quiz, APA Quiz, Cross-Cultural Assignment (worth a combined 50 points), and Surveys (worth 50 points), totaling 100 engagement points for the semester. Students are expected to attend class regularly and complete all assigned work by the posted deadlines. Consistent engagement is required from the start to the end of the semester; failure to remain actively involved may negatively impact the student's overall performance and engagement score.

Discussions: Discussion topics will be posted for Sections 1, 2, and 3. These discussions are intended to help students apply course concepts and develop critical-thinking skills. Each discussion assignment has unique instructions, expectations, and learning objectives. Students are required to carefully read and follow the instructions for each discussion, including but not limited to word limits, required content, and formatting per APA specifications. Students should not assume that discussions follow a uniform format, instruction set, or grading criteria. Before writing and submitting a response, students must thoroughly review both the discussion instructions and the grading rubric. Failure to follow the posted guidelines may result in a reduction of points. Students are required to use the current assigned course textbook *exclusively* as the supporting source for discussion responses. No other sources are permitted unless explicitly stated otherwise in the discussion instructions.

Important Reminders

- Proper grammar, punctuation, spelling, word usage, and textbook citation are required for all submissions.
- To earn the maximum number of points, students must fully and clearly address all required components of the discussion topic as outlined in the instructions and grading rubric.
- Students are permitted one submission per discussion. Multiple attempts or revisions are not allowed.
- Discussions close on the due date listed in the syllabus schedule. Once a discussion closes, late submissions will not be accepted, and no credit will be awarded, regardless of circumstances.
- Emailed submissions, hard copies, or submissions sent through any method other than the designated discussion link will not be accepted.

Grading Criteria

Discussion is worth 100 points for the semester and is evaluated according to the following criteria:

- Development of Ideas – 50%
- Focus and Coherence – 20%
- Organization – 10%

- Conventions (Grammar and Mechanics) – 10%
- Voice – 10%
- Use of unauthorized sources, plagiarism, and late submissions will receive – 0%

The grading rubric includes multiple performance levels. Point values within each criterion are determined by the quality, depth, and accuracy of the student's response and how effectively the discussion topic is addressed. For example, a score of "4" in *Development of Ideas* indicates that the student correctly and thoroughly addresses all required aspects of the relevant theory or school of thought. Discussion grades and feedback may be viewed via the score link in the course gradebook by clicking on the submitted assignment score. This will display the instructor's comments and rubric-based scoring. Please note: Discussion assignments are graded after the section has closed.

REVEL: REVEL is the required publisher's interactive learning platform for this course, providing access to the course e-textbook and embedded comprehension adaptive quizzes for each chapter. These quizzes are integrated directly within the e-textbook on the publisher's platform and are a mandatory component of the course. Through the Dragon Now program, students receive automatic first-day access to the e-textbook. Embedded textbook comprehension quizzes are embedded throughout each chapter of the textbook. The embedded comprehension quiz consists of 5–7 questions. REVEL comprehension quizzes close on the due date listed in the syllabus schedule. Students are responsible for completing all assigned embedded textbook comprehension quizzes by the deadlines specified in the course syllabus. Consistent access to the REVEL platform is required to successfully fulfill the course REVEL point requirements.

Students **must** activate their Equity Access (Dragon Now) REVEL account using the **Pearson Tools** link in Blackboard. Step-by-step access instructions are available in the **Start Here** folder.

Access Requirements

- Students must use the **Pearson Tools** link in Blackboard to:
- Activate their REVEL account to:
- Access the e-textbook
- Complete all embedded comprehension quizzes
- Accessing Revel through any other path may prevent grades from syncing properly with Blackboard. Students are responsible for using the correct access link.

Account Setup Requirements: To ensure proper grade transfer:

- Students must use their legal name exactly as it appears on the official course roster when creating the REVEL account.
- The name must match letter-for-letter between Revel and the college course roster.
- Using a nickname, shortened name, initials, or any alternate variation may prevent grade syncing.
- The instructor is unable to correct grade issues caused by incorrect account setup. Students must contact the Publisher Tech Support to correct name issues.

Failure to follow these guidelines **may negatively affect your final course grade.**

Accessibility Features: REVEL includes built-in accessibility tools, including:

- Audio (read-aloud) functionality
- Access via the free REVEL mobile app (smartphone or tablet)

Important: Students must first **set up and activate their Pearson account on a computer** before accessing course materials through the mobile app.

REVEL is designed to enhance:

- Reading comprehension
- Long-term retention
- Exam preparation
- Active engagement with course material

Embedded Comprehension Quiz Policies:

- All comprehension quizzes close on the due dates listed in the syllabus schedule.
- All comprehension quizzes close at 11:59 PM CST on the posted due date.
- Once a quiz closes, students lose the ability to access or earn credit for that quiz.
- Closed quizzes may be reviewed for study purposes only in preparation for major exams.
- No late submissions, extensions, or makeup opportunities are permitted for REVEL comprehension quizzes under any circumstances.

Points and Grading

- The comprehension quiz points are cumulative across the semester.
- A total of 675 comprehension quiz points are available for the semester.
- Comprehension quiz points contribute to the Engagement portion of the final course grade.
- Points are calculated based on the total number of comprehension quiz points earned. To earn the full 100 REVEL points for the semester, students must earn at least 500 points by the end of the semester.
- REVEL comprehension quiz points are not posted until the end of the semester.

Students are responsible for monitoring their quiz completion in REVEL and ensuring all work is submitted **before each posted deadline**.

Required REVEL assignments are limited to:

- Reading the assigned textbook content
- Completing the embedded comprehension quizzes

All other graded coursework is located within the appropriate section folders in Blackboard.

Due Date: All assignments must be submitted by the due dates listed in the course syllabus schedule, located in the final pages of the syllabus.

Students must NOT rely on the “Gradebook” or “Calendar” tabs in Blackboard Ultra to determine assignment deadlines. *Assignments that are not open will not appear in those areas, and failure to consult the syllabus schedule may result in missed work.* I use the syllabus schedule, NOT the Gradebook or Calendar, to determine whether an assignment is late.

REVEL comprehension quizzes and discussion close on the due date indicated in the syllabus schedule.

Students who miss an assignment because they did not follow the syllabus schedule will not be granted access once the assignment has closed.

Students are strongly encouraged to submit assignments in advance of the deadline to avoid potential issues such as technical difficulties, illness, or scheduling conflicts. Any work not submitted by the stated due date will be considered late. Assignments will remain accessible for a limited grace period following the due date (with the exception of REVEL comprehension quizzes and discussions) until the course section officially closes. This grace period constitutes the only extension that will be granted. Assignments submitted after the due date but prior to the section closure will be subject to a grade penalty, with a maximum possible score of 50% of the total earned points. Once a section has closed, assignments will no longer be accessible. No submissions will be accepted, and no credit will be awarded for coursework after the closure. Assignments will not be reopened under any circumstances.

Final Exam: Students are required to complete and submit the final exam by the closure date listed in the syllabus schedule. The final exam must be submitted no later than 11:59 PM CST on the scheduled due date. There are no exceptions to this deadline. It is the student’s sole responsibility to plan ahead, manage their time, and ensure timely submission. Late submissions will not be accepted under any circumstances.

Extra Credit: Students can earn extra credit points by completing extra credit assignments built into the class. Extra credit assignments are worth varying points. Extra credit assignments are not designed to replace missed assignments or exams. Students will not be eligible to earn points on these activities once the extra credit assignment closes. The following are the extra credit opportunities available on the first class day:

- The Syllabus quiz is worth seven (7) points.
- The Student Acknowledgment is worth one (1) point.
- Students who create their REVEL account using their name as it appears on the course roster during the first day of class will earn one (1) extra credit point. This opportunity is only available during the first day of class. Your textbook is provided through the Dragon Now program and will be available to you beginning on the first day of class.

Course Policies:

Communication: Students must use the **internal classroom messaging system in Blackboard** as the official method of written communication regarding all course-related questions and concerns. Per PJC

policy, messages sent Monday through Thursday will receive a response within 24 hours. Messages sent on Fridays, weekends, during campus closures, or on holidays will receive a response the following Monday or the next official business day. Any exceptions to this schedule will be communicated through the internal course messaging system. Emails sent to my external office email will be redirected to the Blackboard message system and will not be considered official communication. To ensure timely and documented responses, students are expected to use only the internal messaging feature within the course. Failure to do so may result in delayed or missed responses.

Course Announcements: Course announcements serve as a critical communication tool for conveying important information throughout the semester. Announcements may include, but are not limited to, assignment deadlines, policy changes, schedule changes, exam instructions, and other essential course updates. Students are expected to check course announcements regularly and are fully responsible for all information posted, regardless of whether they choose to review it. It is the student's duty to stay informed by checking announcements frequently. Lack of awareness due to not reading announcements will not be accepted as a valid excuse for missed deadlines or misunderstandings regarding course expectations. Failure to monitor announcements may result in missed deadlines, reduced participation or engagement scores, and inadequate preparation for course activities or exams. Extensions will not be granted due to missed or overlooked announcements. Blackboard tracks announcement activity and provides instructors with access to view reports. Students should not assume that verbal reminders or email correspondence will replace official course announcements. To remain informed and successful in the course, students must consistently monitor announcements throughout the semester.

Dragon Watch Retention Program: The Advising/Counseling Center has implemented a retention program. I have been asked to refer students to the program throughout the semester if a student is having difficulty completing assignments or has poor attendance. Students will be contacted by someone in the Student Advising & Counseling Department if they are referred to the retention program. The success coaches will inquire how they can assist you in meeting your academic goals.
<https://www.parisjc.edu/advising/index.php>

Online Resources: The Paris Junior College Social Science Division uses the Blackboard Ultra Learning Management System for online, hybrid, and web-enhanced face-to-face courses. The PJC Blackboard login web page can be found at <https://parisjc.blackboard.com>. The initial Blackboard login username is the student's first initial + last name + last 4 digits of the student's ID number (e.g., jdoe1234). The initial password is the student's 8-digit birthday in an MMDDYYYY format (Blackboard will make students reset the password after they log in with their birthdate; make sure you write down your new password). PSYC 2314 will use REVEL, an interactive platform provided by the publisher (Pearson). The REVEL access and registration link (Pearson Tools) is embedded in the course. Students must utilize the Pearson Tools link to create their PEARSON/REVEL account to obtain access to their e-textbook and the PEARSON/REVEL Embedded Comprehension Quizzes. Access to the PEARSON/REVEL interactive embedded textbook and PEARSON/REVEL Comprehension Quizzes is available via the Dragon Now Interactive Access.

Netiquette: When communicating via the online mechanisms of this course, it is important to remember that those communications are conducted in a public forum and should reflect a level of professionalism reflective of that forum. At a minimum, communications should be respectful of others and use appropriate writing mechanics (spelling, grammar, etc.).

Class Attendance: Class attendance and active participation are essential for success in this hybrid course. Students are expected to attend all scheduled face-to-face class meetings on Tuesdays and Thursdays and complete all required online assignments through Blackboard by the posted deadlines. Attendance will be based on both classroom participation and completion of required coursework. Simply attending class without completing online assignments, or completing online assignments without attending class, does not constitute full participation in the course. Students are responsible for checking Blackboard regularly for announcements, assignments, and course materials. It is recommended that students log in multiple times each week to stay current with course expectations.

Students wishing to withdraw from the course should not assume that the instructor will automatically process a withdrawal. It is the student's responsibility to complete the official withdrawal process. Students who stop attending class or stop submitting coursework will receive a zero for missed assignments and may receive a failing grade in the course. Weekly attendance and academic progress are reported to the college in accordance with PJC policies. Students who fail to attend class regularly or complete required coursework may be referred through the college's retention process.

Official Reporting Date (ORD): Students must attend class and complete the required introductory assignments by the Official Reporting Date (ORD) to remain enrolled in the course. Specific due dates are provided in the course schedule and Blackboard. Students who fail to meet ORD requirements may be dropped from the course in accordance with college policy.

Class Conduct: Please turn off or silence and put away all cell phones, pagers, AirPods, headphones, tablets, computers, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Disruptive behavior will not be tolerated under any circumstances. Students who fail to follow classroom guidelines compromise the educational experience of their peers and undermine the integrity of the learning environment. All individuals are expected to recognize the importance of maintaining a constructive and respectful academic atmosphere. Professional conduct is required at all times and in all forms of communication, both verbal and written. Students must act with civility and demonstrate respect toward others participating in the course. Failure to adhere to classroom expectations may result in disciplinary action, up to and including expulsion. Disruptive students will be asked to leave the classroom for the day. Any student who is asked to leave more than three times during the semester will automatically receive a grade of “F” for the course.

Examples of disruptive behavior include, but are not limited to, the following:

- Talking in a disruptive manner
- Using socially unacceptable language

- Cheating/plagiarizing on an assignment or exam

Examples of a constructive educational environment include, but are not limited to, the following:

- Remaining actively engaged in the course
- Using socially acceptable language in all discourse.

Academic Honesty: In the pursuit of learning, students are expected to engage in honest academic work and uphold the highest standards of integrity. Academic dishonesty, including cheating, plagiarism, collusion, falsification, or other forms of misconduct, undermines the learning process and will not be tolerated. Students who engage in academic dishonesty on an assignment, quiz, or exam will receive a grade of zero (0) for that work. Depending on the nature and severity of the violation, additional academic sanctions may be imposed, including referral to the appropriate Division Vice President and disciplinary action as outlined in the PJC Student Handbook. A second violation may result in a failing grade for the course. Students who wish to contest an academic dishonesty determination may follow the formal appeals process described in the PJC Student Handbook.

Artificial Intelligence (AI): Artificial intelligence (AI) tools (e.g., ChatGPT, Gemini, Copilot, Grammarly AI, or similar technologies) may be used as learning tools to support brainstorming, generating study questions, improving grammar, clarifying concepts, or providing feedback on drafts. However, AI may not be used to complete assignments on your behalf or to generate work that you submit as your own. Students are expected to critically evaluate any AI-generated content for accuracy and are fully responsible for all work submitted in this course. Submitting AI-generated responses, essays, discussion posts, or other assignments as original work constitutes academic dishonesty. If you are unsure whether a particular use of AI is appropriate for an assignment, ask the instructor before submitting your work.

Examples of Academic Dishonesty

Academic dishonesty includes, but is not limited to:

- Cheating on quizzes or examinations.
- Copying another student's work or allowing another student to copy yours.
- Plagiarizing words, ideas, images, or other intellectual property without proper citation.
- Submitting work created wholly or substantially by another person or by artificial intelligence as your own.
- Collaborating on an individual assignment without instructor permission.
- Using unauthorized notes, devices, websites, AI tools, or other resources during quizzes or examinations.
- Obtaining, distributing, buying, selling, or sharing exam or assignment materials without authorization.
- Falsifying or altering academic records or coursework.

Students are responsible for understanding and following the college's academic integrity policies. If you have questions about proper citation, collaboration, or the appropriate use of AI, please ask before submitting your work. Ignorance of these policies does not excuse academic misconduct.

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all applicable federal, state, and local laws, regulations, and guidelines concerning providing reasonable accommodations as required to afford equal educational opportunity. It is the students' responsibility to complete the Accommodation Request form in MyPJC on the Student tab under Reports and Forms and to upload diagnostic documentation. You may contact the Student Advising & Counseling Center at (903) 782-0426. Students presenting a "Letter of Accommodations for timed assignments and exams who choose not to utilize their approved accommodations must sign an accommodation waiver. Students with oral testing accommodations should arrange details with their instructor at least two weeks before an exam.

Withdrawal Policy: The student must notify the instructor if he or she desires to withdraw from the course before the final date of withdrawal from a course with a grade of "W" (check the PJC Calendar and Student Handbook for specific withdrawal dates for each semester). Students wishing to withdraw from a course should initiate the withdrawal by

- logging into MyPJC,
- Once in MyPJC, select the STUDENT Tab,
- Select Reports and Form Admin on the left menu,
- Scroll down and select the Withdrawal Form.
- Select the course you are requesting to drop,
- Select if you receive financial aid,
- Click Go to the next page,
- Select the reason for the withdrawal.
- Check the box indicating you certify the form,
- Select Submit.

Once I receive an email notification that a withdrawal request has been submitted, I will approve the withdrawal and submit the form. Students should also note that, beginning with the fall 2007 academic term. An institution of higher education may not permit an undergraduate student to withdraw from more than six courses. This six-course limit includes transferred courses that students have withdrawn from at another institution of higher education.

After the official withdrawal date, a student cannot drop a course with a grade of "W". Please see the attendance policy in the catalog for additional information. Failure to complete the withdrawal process may result in the student receiving a final grade of "F". If a student misses an excessive number of classes, the instructor does have the right to withdraw the student from the course. It is **not** the instructor's responsibility to withdraw a student, **nor** is it my policy to withdraw students. *If a student quits attending class without withdrawing from the course, I will record a grade of zero (0) for all missed assignments when calculating the student's final course grade.*

It is to be noted that all drops must be processed before the semester withdrawal date to receive a grade of “W”. After the official withdrawal date, a student cannot withdraw from a course with a grade of “W”.

Advice: This course is reading-intensive and fast-paced, particularly in the 8-week accelerated format. We will progress rapidly through the material, typically one chapter during each class meeting, and it is very easy to fall behind without disciplined time management. The final pages of the syllabus contain a detailed class schedule outlining daily expectations. Students are strongly encouraged to read ahead and work progressively to stay on track and manage their workload effectively. Those who consistently prepare, read, and manage their time are significantly more successful in this course. If you encounter difficulty with the material at any point, contact me immediately. Most issues can be addressed or resolved if identified early in the semester. Do not wait until deadlines pass to seek help. Students must pay close attention to section closure dates, which are listed in the syllabus schedule. **These deadlines are final and non-negotiable. To ensure fairness and consistency for all students, I do not make exceptions.** Students have ample opportunity to submit work early, and the closure date represents the last possible opportunity to earn credit for any assignment, activity, or exam. If a student misses a closure date, they will not be permitted to complete the missed work and will receive a score of zero (0). Plan ahead, stay engaged, and take responsibility for meeting all deadlines.

English 2322.81A0 British Literature I Fall 2026

Instructor: Preslee Beumer
Office: PTAA Greenville Campus
Phone: 903-257-3920
Email: pbeumer@parisjc.edu

Meeting Location: PTAA Greenville Campus
Meeting Days: Mon & Wed
Meeting Times: 2:10 - 3:45pm
Office Hours: Tuesday & Thur 8:00 - 8:30

Course Description:

A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth

Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Required Textbook(s) and Materials:

- KGreenblatt, Stephen, eds. et al. The Norton Anthology of English Literature: Major Authors, Shorter Eleventh Edition, Volume 1. New York: Norton, 2024. ISBN#: 978-0-393-91963-9 (Provided online)
- MLA documentation manual (the Purdue Owl Writing Lab site is free and accurate!)

Course Goals and Objectives:

Foundational Component Area: Language, Philosophy, and Culture

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.

3. Demonstrate Social Responsibility—to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis Statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 2322 Course-Level):

This course is designed to prepare students with skills for lifelong learning—

1. Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.
2. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
3. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
4. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
5. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Associate of Arts (AA) — Program Learning Outcomes

Students who complete the Associate of Arts degree will demonstrate the following program-level competencies:

1. Communication & Expression — Demonstrate effective written and oral communication skills by articulating ideas clearly, purposefully, and with awareness of audience across a variety of contexts.
2. Critical & Creative Thinking — Analyze, evaluate, and synthesize information and ideas from multiple perspectives, applying both logical reasoning and creative inquiry to solve problems and construct meaning.
3. Humanities & Cultural Literacy — Examine human experience through the lens of history, literature, the arts, and cultural traditions, demonstrating an appreciation for diverse perspectives and their influence on society.
4. Information Literacy — Locate, evaluate, and ethically use information from a variety of sources to support research, argumentation, and informed decision-making.

5. Personal & Civic Responsibility — Reflect on individual values and their relationship to community and society, demonstrating an understanding of civic engagement and ethical responsibility.

Course Requirements and Evaluation:

Required Activity:

The student will be required to complete reading assignments, participate in class and group discussions, complete an Essay Exam over an assigned topic, present an oral research project as part of an assigned group, and perform satisfactorily on examinations and quizzes. He/She will take four unit exams concerned with ideas presented by literature, techniques discovered in the literature, biographical information on authors, and historical perspective. The student may also be given announced/ unannounced reading quizzes.

Graded Work

The tables below provide a summary of the graded work in this course and an explanation of how your final course grade will be calculated.

Summary of Graded Work

Assignments	% of Grade
Labs in Blackboard	15%
Discussions	15%
Journal Entries	10%
Peer Reviews	10%
Essays	50%

TOTAL: 100%

Final Grade

Percentages	Letter Grade
90-100%	A
80-89%	B
70-79%	C
60-69%	D

0-59%	F
-------	---

Course Policies:

Exams:

All major exams MUST be taken using Respondus Lockdown Browser. Instructions for downloading the browser are posted in BB under “Start Here.”

Attendance and Make-up Work:

Class attendance is **expected**. A student may not have more than **four absences**. After the fourth absence, five points per absence will be deducted from the student’s grade. If a student is more than ten minutes late, the student will be counted absent. If a student leaves class early (without prior arrangements), the student will be counted absent. A student who stops attending after the last drop date will receive an F in the course.

Students are responsible for notes and assignments missed. No more than one late paper shall be allowed. A paper will receive a five-point deduction per day (including non-class days) and will not be accepted more than one week late. Papers are considered late if they are not handed in at the **BEGINNING** of the class in which the assignment is due.

Writing Center:

Students seeking assistance with writing assignments will receive one-on-one help in AD125 on the Paris campus. This can be beneficial tutoring for students at ALL writing levels, and **it’s free!** Call 903-782-0314 for an appointment. You can also e-mail your paper to writingcenter@parisjc.edu. Include the essay topic with your paper, so the tutor can assist you.

Class Attendance:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day a student can withdraw from a course with a grade of “W” is November 12, 2026.

Class Conduct:

Please give your undivided attention during class time so that you get the most out of this course and so that you do not waste my or your time. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating, plagiarism, use of AI, or collusion with others will be referred to the Vice President of Student Access and Success for disciplinary action, such as dismissal from the college. These students will

immediately receive a score of zero on the assignment in question with no possibility of makeup work. Students who are suspected of cheating due to questionable activity may be required to prove their innocence. Please note: the burden of proof rests upon the student, not the professor. In order for students to prove questioned innocence at any time during the semester, it is highly recommended that essay drafts be typed into Google Docs so that the version history may be pulled as evidence.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

A research paper submitted without a works cited page (in MLA format) and/or without parenthetical citations constitutes plagiarism and will be subject to the above consequences. The paper grade will be a zero.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog

& Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This college will adhere to all the applicable federal, state and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by Blackboard Announcement.

*All assigned readings are to be completed BY THE DAY DESIGNATED FOR A JOURNAL CHECK. NO EXCEPTIONS. Please make note of note check days on the calendar.

CHECK. NO EXCEPTIONS. Please make note of note check days on the calendar.

Week	Readings and Assignments
Week 1 8/25 - 8/31	Course Introduction "The Dream of the Rood," 33-37; The Middle Ages
Week 2 9/1 - 9/7 NO SCHOOL MONDAY	Epic qualities; Beowulf, 37-70; Complete Part I quiz on Blackboard
Week 3 9/8 - 9/14	Beowulf , 70-89; Complete Part II quiz on Blackboard

	Beowulf, 89-109; Complete Part III quiz on Blackboard; Required research articles and film
Week 4 9/15-9/21	Sir Gawain and the Green Knight; FITT I, 247-260; FITT ii, 260-273; Romance qualities; Sir Gawain and the Green Knight; FITT iii, 273-291; FITT iv, 291-302;
Week 5 9/22-9/28	Chaucer 302-309 Fabliau "The General Prologue," 309-328; Write outline for Essay Exam (Research Argumentation)
Week 6 9/29-10/5	"The Miller," 329-344; Complete quiz on BB before class (covers General Prologue and The Miller)
Week 7 10/6-10/12	"The Wife of Bath," 345-373; Final draft of Research Paper due; Complete quiz on BB before class Legend of King Arthur (lecture notes)
Week 8 10/13-10/19 NO SCHOOL WEDNESD AY-FRIDAY	Malory, 375-376 Morte Darthur, 376-394;
Week 9 10/20-10/26	16th/17th centuries; Bible, 437-441 Assign topics and groups for oral presentation Shakespeare, 610-614 Othello (Acts 1, 2), 626-664
Week 10 10/27-11/2	Othello (Acts 3, 4, 5), 664-711; complete quiz on BB before class (will cover the entire play) Othello film
Week 11 11/3-11/9	Othello film
Week 12 11/10-11/16 *last day to withdraw: 11/12	Project Workshop Epic qualities revisited Milton, 864-867 Paradise Lost, 894-895; Book 1, 896, lines 1-26; Book 2, 915-937

Week 13 11/17-11/22	Paradise Lost, Book 9, 983-1009; Book 10, 1009-1022; complete quiz on BB before class Project Workshop
11/23 - 11/27	Swift, 1211-1213 Gulliver's Travels, 1214-1216; Part 3, Chapter 2, "The Flying Island of Laputa," link provided in BB Week 14; Part 3, Chapter 10, "The Strulbruggs," link provided in BB Week 14; complete quiz on BB before class THANKSGIVING BREAK
Week 15 12/1-12/7	Group presentations must be posted by Sunday 11:59 pm on Nov. 30th we will view presentations during class on Monday.
Week 16 12/8-12/9 *semester ends on Friday	Final Exam

Paris Junior College

Federal Government 2305.76A0 Syllabus

2026-2027
Fall Semester

Instructor Information

Name: James Owsley
Office Location: Adjuncts Office, Greenville Center
Office Phone: 903 217-1536
Email: jowsley@parisjc.edu
Office Hours: **by appointment.**

Course Information

Course Title: Federal Government Govt. 2305
Class Room Number: Lone Oak High School
Class Meeting Days & Times: **Monday, Wednesday 9:04-9:58 pm**

Methods of Instruction/Course Format/Delivery: The delivery for this course is lecture based.

Course Description: Federal Government (Federal Constitution and Topics)

This course leads students through an analysis of the Constitution of the United States, the political

and philosophical foundations of American government, government institutions, political behavior,

and civic engagement. Topics of the course include the origin and development of the U.S.

Constitution, structure and powers of the national government including the legislative, executive,

and judicial branches, federalism, political participation, the national election process, public policy,

civil liberties, and civil rights.

Credits: 3

TSI Requirement: 351 R

Prerequisite(s): N/A

Required Textbook(s) and Materials:

Web-text:

Central Ideas in American Government, Paris Jr. College 15th ed., by Soomo Learning, ISBN: 9781954890992

Note About Inclusive Access: Access to this web-text is included with course costs and

fees.

Students who opt out of inclusive access will not have access to required materials. See page 7 of

this syllabus for more information.

Computer Requirement: In addition to the required web-text, students must have regular access to

a computer capable of supporting Blackboard Learn, the Respondus Lockdown Browser (with

webcam test monitoring), internet access, and common computer applications (e.g.,

Microsoft Word

and PowerPoint). Phones and tablets may not be compatible with Blackboard and should not be

solely relied upon to access course material.

IMPORTANT NOTE: This course is reading-intensive and may become overwhelming for students who

do not effectively manage their time, particularly within the accelerated 8-week format.

The course

material will be covered at a rapid pace. The risk of falling behind increases if effective time

management strategies are not used.

Page 2 of 9

Core Objectives and Student Learning Outcomes:

Interpreting Objectives and Planning for Success: The Texas Higher Education Coordinating

Board established the core objectives and learning outcomes of this course as requirements of the

Texas Core Curriculum. Competent demonstration of outcomes and objectives should be understood as minimum performance requirements. Students committed to success will complete all

readings, assignments, and exams on time to produce acceptable evidence that objectives and

outcomes have been met or exceeded.

Core Objectives:

Students completing this course will demonstrate competency in the following Core Objectives:

1) Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information.

2) Communication Skills—to include effective development, interpretation, and expression of

ideas through written, oral, and visual communication.

3) Personal Responsibility—to include the ability to connect choices, actions, and consequences

to ethical decision-making.

4) Social Responsibility—to include intercultural competence, knowledge of civic responsibility,

and the ability to engage effectively in regional, national, and global communities.

Government Student Learning Outcomes:

Upon successful completion of this course, students will:

1) Explain the origin and development of constitutional democracy in the United States.

2) Demonstrate knowledge of the federal system.

3) Describe the separation of powers and checks and balances in both theory and

practice.

4) Demonstrate knowledge of the legislative, executive, and judicial branches of the federal government.

5) Evaluate the role of public opinion, interest groups, and political parties in the political system.

6) Analyze the election process.

7) Describe the rights and responsibilities of citizens.

8) Analyze issues and policies in U.S. politics.

Course Requirements and Evaluation:

- **General Course Design:** This course is organized into five modules consisting of the following

assignments: a syllabus quiz, readings with embedded web-text activities (multiple choice

questions, polls, and response boards embedded in, and completed through, the Soomo Learning web-text platform), homework assignments (1 per learning module), and two exams.

Each assignment provides opportunities for the accumulation of points. Also, students can earn

up to 50 points for accountability (see a description of accountability points below).

Collectively,

course assignments provide an opportunity to accumulate up to 1000 points. Students accumulating less than 600 points will receive a failing grade for the course.

- **Important first requirement for remaining in this course:** Before moving into any learning

material, you must study this syllabus and complete the syllabus quiz. First, obtain a full understanding of the course and its requirements. After doing so, complete the syllabus quiz

immediately to demonstrate and acknowledge an understanding of course requirements. The

syllabus quiz is located in the “Syllabus Quiz/First Assignment” folder in Blackboard.

- o **Notice:** If you fail to attend class (or fail to complete the syllabus quiz for online only) before the official reporting date, you will be administratively withdrawn (Dropped!) from the course without exception.

- **Web-text Activities:** Web-text activities are multiple choice questions, polls, and response

boards embedded in your web-text. Complete each web-text activity by the due date as you

encounter it during your readings. You are required to complete all activities in each assigned

chapter. Your scores on web-text activities result in a possible accumulation of 200 points

toward your course total.

- **Homework Assignments:** You will complete five homework assignments, one per learning

module. Homework assignments may be composed of fill-in-the-blank questions, matching

questions, short essay responses, or class discussions. You will find detailed instructions for

homework assignments in each module. Each homework assignment is worth 50 points.

The

total value of the five homework assignments is 250 points.

- Exams: You will complete two exams, one midterm (Exam 1) and one final exam (Exam 2).

These exams will allow you to demonstrate knowledge, understanding, and higher-order thinking skills. Each exam is composed of 50 objective questions. Specific instructions and

requirements for the exam are provided within the course. Exams allow you to earn up to 500

points toward your course total.

- Accountability Points: I have already awarded you 50 possible accountability points in the

grade book. You will keep all 50 points by following all class policies, meeting all due dates, and

regular attendance (or course access for online only). If you fail to follow policies, fail to meet

assignment deadlines, miss class regularly, or fail to access the course online, accountability

points will be deducted at my discretion. Failing to follow some class policies may require

different or additional consequences.

Grading Criteria:

Final grades will be determined according to your total accumulation of points earned.

Point values can

easily be converted to percentage points. For example, a student who accumulates 900 points at the

end of the course has earned 90% of possible points. You will be able to monitor your points and

percentage progress by selecting "My Grades" in Blackboard:

Assignment Category by Points

Possible

Grading Scale

Total Points Possible = 1000

Exams 500 pts. 900 - 1000 A

HW Assignments 250 pts. 800 - 899 B

Web-text Activities 200 pts. 700 - 799 C

Accountability Points 50 pts. 600 - 699 D

Total 1000 pts. 0 - 599 F

Page 5 of 9

Course Policies:

- Requirement to submit coursework by the due date: Interpret each due date as the day an

assignment must be completed to receive full credit. Coursework not submitted by the due date

may receive zero points. Your instructor has the discretion to accept or reject late coursework

for any reason beyond those specified by Paris Junior College policy or state and federal law.

Unacceptable excuses for failure to submit assignments by the due date may include technical

difficulties and personal emergencies that occur near assignment due dates. Successful

students will plan ahead and submit assignments within a timeframe that allows for adequate learning, preparation of assignments as instructed, and management of issues that may delay

the proper submission of course work. If you feel you have a valid excuse for turning in an

assignment late, promptly contact your instructor and explain the circumstances.

- Requirement to submit coursework online: All coursework must be submitted through the

college's online learning management system, Blackboard, or the Soomo Learning's web-text

platform as required, unless instructed otherwise through official course

communications. The

instructor will not accept assignments submitted through email without prior approval.

- Collaboration and Collusion: Students are encouraged to collaborate in learning with other

students but strictly prohibited from colluding with others in completing assignments.

Collaboration occurs when students share ideas, strategies, and understandings through discussion or study activities. Collusion occurs when students work with other people to complete quizzes, tests, or any other assignment with the knowledge that the coursework will be

submitted for course credit. Among other deceitful practices outlined in the Student Handbook,

collusion is a form of academic dishonesty that will be reported.

- Student/Instructor Communications: All students must regularly check for course communications within DragonMail, and Blackboard. You should feel comfortable contacting the

instructor with any concerns or questions that may arise. Outside of face-to-face or telephone

conversations (available during office hours or by appointment), email is the preferred mode of

student/instructor communication. Email your instructor from your official PJC DragonMail

account. Emails sent from private or high school issued email accounts may not receive an

answer. Other acceptable modes of communication may include video conferencing sessions in

Blackboard (available by request). Video conferencing will occur during office hours or by

appointment. After sending electronic communications to the instructor, students should expect

a response within 24 hours or the next business day. You should identify yourself using your full

name (as listed in the course) and by identifying the course and section for which you are

enrolled. Be as detailed as possible when describing your questions, and be sure that your

question is not due to a lack of reading the course syllabus or assignment instructions.

- Important Notifications: Students must check course announcements regularly, as this method of communication will be used to dispense any important course notifications, including

alterations to this course. Additional requirements communicated through course messages or other official correspondence are amendments to this syllabus if specified to be so.

Receipt of notifications by course announcement is assumed.

- **Proctoring Requirements for Online Dual-credit Students:** Dual-credit students taking an online version of this course will be required to abide by additional proctoring requirements

imposed and administered by their high school. Dual-credit students with such requirements are

responsible for supplying the dual-credit coordinator at their high school with a copy of this

syllabus and scheduling proctored exams before the due date.

- The instructor may make alterations or amendments to this syllabus as needed.

Page 6 of 9

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students

must complete work promptly and follow due dates. The student must initiate withdrawals. The last

day for a student to withdraw from a course with a grade of “W” is Tuesday, November 25, 2025.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc., before

entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct

Policy as listed in the Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavors to the

highest degree of honor and integrity. Students who are found to engage in academic dishonesty

through such activities as cheating on exams, plagiarism, or collusion with others will be referred to the

Vice President of Student Access and Success for disciplinary action, such as dismissal from the

college. These students will immediately receive a score of zero on the exam/assignment in question

with no possibility of makeup work and will forego the right to receive any bonus points for the

remainder of the semester. Students who are suspected of cheating due to questionable activities may

be required to prove their innocence.

Social Science Department Artificial Intelligence Statement:

While AI tools are not prohibited by the Institution, improper use is highly discouraged by the Social

Science Division and considered Academic Dishonesty if used on assignments, activities, or exams

where the instructor specifically stated they were not permitted. When authorized by instructors for specific assignments, students must cite any AI-generated material that informed their work (including in-text citations with quotations) to adhere to our scholarly values. Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as Academic Dishonesty.

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Page 7 of 9

Required Course Materials (Continued):

Inclusive Access: The required course materials for this class (textbook and all other digital learning tools) are being delivered digitally as part of the Dragon Now, PJC Inclusive Access

Program. PJC has partnered with the Follett Access Program and Soomo Learning via the PJC Bookstore to promote affordability.

This program provides instant, first-day access to your required course materials at a substantial discount. A course charge will automatically be billed to your student account for all

required course materials, and you will NOT need to purchase the required course materials separately. You are responsible for paying the charge applied to your student account.

Please

contact the PJC Business Office if you have questions about charges to your student account.

You may contact the Business Office at <https://www.parisjc.edu/main/business-office/Retrieving Your Access Code for the Required Textbook>

The required e-textbook for this course is Central Ideas in American Government (Soomo Learning, 15th ed.). This textbook is provided through Paris Junior College's Inclusive Access

program and is available digitally in Blackboard.

To access your textbook:

- Go to the "My Materials" link on the Content Page in your Blackboard course.**
- Find the required textbook listed in this syllabus and retrieve your access code.**
- Select any Soomo Learning link in the course (for example, Chapter 1 in Module 1) and follow the activation instructions.**

Important: Do not opt for a free trial of the textbook. Your Inclusive Access code is included

with your course and must be used for full access.

Page 8 of 9

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email

account is the primary means of communication between the College and the student. All official

correspondence—including notices of academic status, financial aid, billing, registration, and campus

alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access.

Communications sent to the PJC email address will be considered delivered. The College is not

responsible for missed communications due to a student's failure to check their official email account.

Non-discrimination clause

Paris Junior College is an equal opportunity employer, and all qualified applicants will receive

consideration for employment without regard to race, color, national origin, sex, religion, age, disability,

or any other basis prohibited by law.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of

sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law.

A lack of English language skills will not be a barrier to admission and participation in the career and

technical education programs of Paris Junior College.

Retaliation against anyone involved in a complaint process is a violation of PJC policy and is prohibited.

Page 9 of 9

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC’s Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Drop Policy

The student must notify the instructor if he/she desires to drop the course before the final date to drop. After the drop date, students may not drop. The final date for this semester is **November 12th**. The student has the responsibility to initiate a drop by requesting a withdrawal slip from the instructor. Failure to do so may result in a final grade of “F.”

Semester Schedule

WEEK	Assignments, Classroom lectures, etc.
1	➤ August 24th-Introduction and explanation of the course syllabi and course expectations ➤ August 26th-Chapter 1, The Founding and the Constitution
2	➤ August 31st- Chapter 1, The Founding and the Constitution, Chapter 17, Data Investigation: The Land of the Free ➤ September 2nd – Chapter 2, Federalism Chapter 16: Investigation: Passing the 19th Amendment
3	➤ September 7th-Holiday ➤ September 9th- Chapter 3, Federalism, : Supreme Court Story Investigation: McCulloch v. Maryland
4	➤ September 14th- Chapter 3: Civil Libertie September 15th-Knowledge Check - 1 (PLO 3) due by 11:59pm vis Blackboard ➤ September 16th- Chapter 3: Civil Libertie, Chapter 20: Investigation: Free Speech for Students
5	➤ September 21st-Chapter 5, Civil Rights, Chapter 22: Supreme Court Story Investigation: Brown v. Board ➤ September 23rd- Chapter 5, Civil Rights, Chapter 21: Investigation: The Meaning of the Right to Privacy
6	September 28th- Knowledge Check - 2 (PLO 4) due by 11:59pm via Blackboard ➤ September 29th- Mid-Term Review

	➤ September 30th- Mid-Term Exam
7	➤ October 5th - Chapter 5: Congress, Chapter 25: Data Investigation: Congress Divided ➤ October 7th - Chapter 6: The Presidency, Chapter 26: Investigation: The Broken Presidency
8	➤ October 12th- Chapter 6: The Presidency ➤ October 14th - Chapter 7: Bureaucracy
9	➤ October 19th- - Chapter 8: The Judiciary October 20th- Knowledge Check - 3 (PLO 2) due 11:59pm via Blackboard ➤ October 21st- Chapter 9: Public Opinion
10	➤ October 26th- Chapter 10: The Media ➤ October 28th- Chapter 11: Voting and Political Participation
11	➤ November 2th- Chapter 12: Elections and Campaigns ➤ November 4th- Chapter 13: Political Parties, Chapter 41: Investigation: What Can Third Parties Do?
12	➤ November 9th- Chapter 14: Interest Groups November 10th- Knowledge Check - 4 (PLO 5) due 11:59pm via Blackboard ➤ November 11th- Chapter 13: Political Parties, Chapter 41: Investigation: What Can Third Parties Do?
13	➤ November 16th- Chapter 14: Interest Groups

	➤ November 18th- Chapter 15: Public Policy, Chapter 45: Investigation: Foreign Policy in Two Conflicts
14	➤ November 23th- Thanksgiving Holiday ➤ November 25th- Thanksgiving Holiday
15	➤ November 30th- Chapter 15: Public Policy December 1st-Knowledge Check - 5 (PLO 1) due 11:59pm via Blackboard ➤ December 2nd-Final Exam Review
16	➤ December 7th-Final Exam

PJC Math 300 - Elementary Algebra Sec. 070 (01E)

Fall 2026

Paris Junior College (PJC)

Instructor: Johnny Tharp

Office: N/A

Cell Phone Number: (903) 217-7468

Email Address: Johnny.Tharp@etamu.edu or jtharp@parisjc.edu

Office Hours: By Appointment

Meeting Location: DTH 325

Meeting Days: MWF

Meeting Times: 10:00AM – 10:50AM

COURSE DESCRIPTION:

Topics covered include basics of fractions, adding and subtracting of fractions, the real number system, equations and applications, inequalities and applications, exponents, polynomials, factoring and factoring applications. Prerequisite: LSKL 0306 or satisfactory score on placement test

REQUIRED TEXTBOOK(S) AND MATERIALS:

Textbook: *MyLab Math with Pearson eText Access Code (18 Weeks) for Developmental Mathematics: Basic Mathematics and Algebra*

By Marge Lial

Edition: 4th

ISBN: 9780134764863

Publisher: Pearson

NOTE: Students are not required to purchase the text. The cost of online access to the text and required homework assignments are covered with the tuition payment for the course.

Materials: All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with : *MyLab Math with Pearson eText Access Code (18 Weeks) for Developmental Mathematics: Basic Mathematics and Algebra*. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

Go to <https://ACCESSPortal.follett.com:443/1836>

1. Create an account using your student email account
2. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
3. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

COURSE GOALS/OBJECTIVES:

This course is designed to develop elementary algebraic skills in preparation for intermediate algebra. Elementary algebra is considered a zero-level course. **Zero-level courses are intended for the development of skills needed for college level work; therefore, the class will not suffice for general education requirements and will not transfer as college level credit. If you believe that you have been placed in this class in error, please see your East Texas A&M University academic advisor to have your questions answered.** Even though this is a zero-level course, it will be conducted mostly as a college course with college course expectations. The exception being taking daily attendance, the use of major test reviews and final exam practice tests.

Chapter 2: Basics of Fractions

- Students will multiply and divide common fractions.

Chapter 3: Adding and Subtracting Fractions

- Students will add and subtract like fractions, learn to find the least common multiple and add and subtract unlike fractions.

Chapter 9: The Real Number System

- Student will perform indicated operations on signed integers and rational numbers; use the Order of Operations agreement to simplify algebraic expressions; use the rules of exponents to simplify exponential expressions.
- Student will solve one-step linear equations in one variable; evaluate and simplify variable expressions; solve simple problems involving perimeter, area, and volume.

Chapter 10: Equations, Inequalities, and Applications

- Student will solve linear equations in one variable; solve problems involving mixtures, motion, and formulas; solve linear inequalities in one variable and graph their solution set

Chapter 12: Exponents and Polynomials

- Student will be able to use rules of exponents to simplify algebraic expressions
- Student will accurately perform arithmetic operations (addition, subtraction, multiplication, and division) on polynomials

Chapter 13: Factoring and Applications

- Student will be able to factor polynomials and use factoring to solve quadratic equations

COURSE REQUIREMENTS AND EVALUATION:

Grades for the semester are calculated based on the student's performance on homework, four major tests, and the comprehensive final examination. Course grades are calculated as follows:

Homework Average	25%
Test Average (4 Major Tests)	60%
Comprehensive Final Exam	15%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Even though a grade of “D” is Passing, a grade of “C” is required by ETAMU for you to be able to register for your next math class. If you have a question concerning this requirement, please see your ETAMU academic advisor to have your questions answered.

COURSE POLICIES:

Student Expectations:

- Students are expected to attend class regularly on time, pay attention to the lecture, take notes as needed and to be prepared each time the class meets. Lectures may include students being asked to work lecture problems on the board to demonstrate understanding of the subject matter covered.
- Students will need to purchase all needed materials such as a laptop computer (iPad or Cellphone), calculator, notebook in which to take notes, pencils, etc. If additional items are needed, you will be informed of the needed item(s) before the time the items are necessary. The laptop, iPad or Cellphone (which will be required in other ETAMU classes) will be needed so students can:
 - Have access to the course syllabus
 - Have access to the Blackboard (Ultra) package – All assignments, announcements and grades use Blackboard (Ultra)
 - Have access to the lesson topics listed by class date
 - Have access to major test reviews
 - Have access to the final exam practice tests

Tutoring:

- **All Test Reviews and Practice Final Exams count towards the East Texas A&M university tutoring requirements for this class. If a student attends all of these sessions, they have fulfilled this university requirement**
- If tutoring is wanted on Monday, Wednesday or Friday, it is the students' responsibility to ask the instructor to set up a tutoring time that is mutually agreeable to both student and instructor. You need to attend the tutoring session at the agreed upon time. If you are **not** present at the agreed upon time, I will wait 15 minutes (15 Minute Rule) and if you do not show up, I will leave.
- If tutoring is wanted on Tuesday or Thursday, go to The Math Skills Center in the Waters Library 3rd floor, in the back near 314 where graduate students will help you with your homework and Test Review. The Math Skills Center Hours are M & W 10:00AM-08PM, T & TR 10:00AM-08PM and F 10:00AM-02PM.
- **Test Review Class days are considered mandatory tutoring sessions by ETAMU and these class hours count towards your Required Mandatory Tutoring Hours for Math.**
- If a student expectation has been omitted, you will be informed of the additional expectation when the situation arises, and it will be added to future class syllabus(s)

Communication with Students

The instructor needs to communicate with students at times between classes to make class announcements and send reminders. The instructor will do this by:

- Texting - If students want to receive announcements and reminders, they will need to provide the instructor their cell phone number on the signature page
- Announcements in Blackboard

Instructor Expectations:

The instructor is expected to:

- Be on time for each class period (If he cannot attend, he will email you as soon as possible)
- Will make himself available for tutoring upon request at a mutually agreed upon time
- Will be prepared for each class lecture, review day, major test day and final exam day
- Will answer all questions from students
- If an instructor expectation has been omitted, he will inform you of the additional expectation when the situation arises, and it will be added to future class syllabus(s)

Homework: Homework will be assigned, submitted by the student, and graded online using ALEKS. Access to ALEKS is included in the tuition cost to students. All assignments *must* be completed on or before the due date. Homework problems completed after the due date may be subject to a 30% penalty (you will only receive 70% of the credit for work done after the due date). The due date for each assignment is clearly indicated in ALEKS. You should do each assignment as soon as we cover it in class. Your homework average constitutes 25% of your overall course grade. Late submission is allowed for Homework Assignments. All you need to do is open the assignment, complete and submit.

Major Tests: Throughout the semester, four major tests will be administered. Major test dates are announced now in the Class Schedule, in Blackboard, in class at least a week in advance and by text messaging.

Major test dates are **extremely** critical to your passing the course.

- I do not allow the use of “cellphone calculators” on Major Tests or Exams. I also do not allow sharing of calculators on Test and Final Exam Day.
- **A major test review will be offered in class the period immediately before the major test date. If you understand the major test review, you will understand the major test.**
- All major tests are administered only in person on Test Day in the classroom.
- **On Test Day, an answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded. You will need to furnish your own calculator that day as you cannot use the calculator on your cell phone.**
- **Major Tests Test Makeups are given during a “Test Makeup Window.” The Test Window for the 4 Major Tests are as follows:**
 - Test 1 – Thursday, September 10, 2026 through Monday, September 14, 2026**
 - Test 2 – Monday, October 05, 2026 through Wednesday, October 07, 2026**
 - Test 3 – Monday, October 26, 2026 through Wednesday, October 28, 2026**
 - Test 4 – Monday, November 30, 2026 through Wednesday, December 02, 2026**
- **Makeup testing window is the three class days following the TEST Day. After the Makeup Testing Window, there are no other times offered for missing a Major Test. An exception to this procedure can only be granted by the instructor if the reason is “Compelling” and by furnishing a written, acceptable verifiable excuse. The instructor will determine what constitutes an acceptable excuse.**
- **All Makeup Tests are given in The Academic Testing Center, Room 125 in Education South. Testing Center Hours are from 10:00am – 07:00pm Monday through Thursday and 10:00am – 03:00pm on Friday.**
- **The Major Test Makeup is monitored at the Testing Center with normal test protocol expected to be followed. If the instructor receives an Incident Report from the Testing**

Center, the student that committed the incident will have a test grade assigned of “0.” To remove the “0” for that major test, see Bullet below.

- Major Tests are taken in person in class on the date and time specified in your class schedule.
- On Major Test Day, cell phones are to be set to silent and placed on your desk upside down. If I catch you looking at your cellphone while you are taking the exam, this is a violation of final exam protocol, and your exam will be taken up and you will be given a “0” for the exam.
- If a Major Test common sense protocol not listed is violated, it will be treated at the time of the violation as explained in the cell phone section and your Major Test will be taken up and you will be given a “1” for the Major Test. This violation will be added to future syllabus(s).
- An answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded.
- You will need to furnish you own calculator that day as you cannot use the calculator on your cell phone.
- At the end of the semester, I will replace your lowest Major Test grade with your score on the comprehensive Final Exam (assuming the final exam score is higher than your lowest Major Test Grade). This means that if you should, for any reason, miss a major test you can make up that score with your score on the Final Exam. However, if you miss more than one Major Test, you will have a “1” averaged in for each missing Major Test score after the first missed Major Test.
- Your Major Test average makes up 60% of your course average, so each Major Test score is 15% of your course grade. Major Tests are closed book and closed notes. All Major Tests are taken only in the classroom with makeup tests being only given in the Academic Testing Center. **Major Tests are not allowed to be made up online.**

Final Exam: The Final Exam in this course is a comprehensive (covers material from throughout the semester) exam

- Your score on the Final Exam constitutes 15% of your course average (more if it replaces a missed Major Test or low Major Test grade)
- A Final Exam Review will be offered in class the week before the scheduled Final Exam. **If you understand the Final Exam Review, you will understand the Final Exam.**
- The Final Exam is taken in person in class on the date and time specified by ETAMU.
- **On Final Exam Day, cell phones are to be set to silent and placed on your desk upside down. If I catch you looking at your cellphone while you are taking the Exam, this is a violation of Final Exam Protocol, and your Exam will be taken up and you will be given a “0” for the Exam.**
- **If a Final Exam Common Sense Protocol not listed is violated, it will be treated at the time of the violation as explained in the cell phone section and your Exam will be taken up and you will be given a “0” for the Exam and the violation will be added to future syllabus(s).**
- An answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded.
- You will need to furnish you own calculator that day as you cannot use the calculator on your cell phone.
- **The Final Exam cannot be made up because there is not enough time between the Exam date and when Grades are due to allow for a Make-Up Test.**
- **You cannot pass the class if you do not take the Final Exam**

Locating Final Grade for the Course: Students can find his/her grade on their MyPJC account. On the day that grades are posted, they can find them under the “grade report” option on the student’s Student tab. After that day, they will appear on the student’s unofficial transcript. This can

be found by going the “student tab” and then clicking on “Reports and Forms” on the left side of the screen. Once on that screen, they can choose to generate an unofficial transcript.

Your Final Grade can also be located in your Gradebook in Blackboard.

CLASS ATTENDANCE:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is April 09, 2026.

CLASS CONDUCT:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Do not bring your children to class. In general, be respectful of your classmates and the instructor.

ACADEMIC HONESTY: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in question.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeat violations may be referred to the appropriate Division Vice president (or appropriate ETAMU administrator) or the College president and may result in suspension or expulsion from the college(University).

Students who wish to appeal the academic dishonesty determination may do so through the PJC Office of Student Services or appropriate ETAMU Office. Appeal forms are available by contacting PJC Student Services at ss@parisjc.edu or 903-782-0211. You may also be required to contact the ETAMU Student Services Office.

ARTIFICIAL INTELLIGENCE (AI)

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy: Artificial Intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test

COMPLAINT PROCEDURES

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC or ETAMU Website or the appropriate Course Catalog and Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA STATEMENT

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College and University will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a PJC or ETAMU College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the PJC or ETAMU Course Catalog and Student Handbook.

ILLNESS POLICY

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4 degrees Fahrenheit or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication)

When you go back to normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

SYLLABUS SUBJECT TO CHANGE

This syllabus is subject to change at any time. When students are made students will be informed of the change by one or more of the methods listed below.

- Cell Phone Text
- Student Email;
- Blackboard Announcement

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CONDITIONS ARE COMMON AND TREATABLE. SUICIDE IS PREVENTABLE.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to

help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

The Counseling Center at East Texas A&M University (ETAMU), located in the Halladay Building, Room 203, offers counseling services, educational programming and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling (903) 886-5145. For more information regarding Counseling Center events and confidential services, please visit www.etamu.edu/counsel.

TENTATIVE COURSE SCHEDULE/WEEKLY LESSON PLAN

PJC Math 300 Fall 2026 TENTATIVE Schedule Section 070 (01E) M/W/F 10:00AM – 10:50AM

08/24	Syllabus
08/26	Ch. 2 Sec. 2.5 - Multiplying Fractions Ch. 2 Sec. 2.7 - Dividing Fractions
08/28	Ch. 3 Sec. 3.1 - Adding & Subtracting Like Fractions
08/31	Ch.3 Sec. 3.2 - Least Common Multiples
09/02	Ch 3. Sec. 3.3 - Adding & Subtracting Unlike Fractions
09/04	Test 1 Review - Sec. 2.5, 2.7, 3.1, 3.2, & 3.3
09/07	Labor Day - No Class
09/09	Test 1 - Sec. 2.5, 2.7, 3.1, 3.2, & 3.3
09/11	Ch. 9 Sec. 9.1 - Exponents, Order of Operations & Inequality
09/14	Ch. 9 Sec. 9.2 - Variables, Expressions & Equations
09/16	Ch. 9 Sec. 9.3 - Real Numbers & the Number Line
09/18	Ch. 9 Sec. 9.4 - Adding Real Numbers
09/21	Ch. 9 Sec. 9.5 - Subtracting Real Numbers

09/23	Ch. 9 Sec. 9.6 - Multiplying & Dividing Real Numbers
09/25	Ch. 9 Sec. 9.7 - Properties of Real Numbers
09/28	Ch. 9 Sec. 9.8 - Simplifying Expressions
09/30	Test 2 Review - Sec. 9.1, 9.2, 9.3, 9.4, 9.5, 9.6, 9.7, & 9.8
10/02	Test 2 - Sec. 9.1, 9.2, 9.3, 9.4, 9.5, 9.6, 9.7 & 9.8
10/05	Ch. 10 Sec. 10.1 - The Addition Property of Equality
10/07	Ch. 10 Sec. 10.2 - The Multiplication Property of Equality
10/09	Fall Break-No Class
10/12	Ch. 10 Sec. 10.3 - More on Solving Linear Equations
10/14	Ch. 10 Sec. 10.4 - An Introduction to Applications of Linear Equations
10/16	Ch. 10 Sec. 10.5 - Formulas & Additional Applications from Geometry
Mid Term	
10/19	Ch. 10 Sec. 10.6 - Solving Linear Inequalities
10/21	Test 3 Review - Sec. 10.1, 10.2, 10.3, 10.4, 10.5 & 10.6
10/23	Test 3 - Sec. 10.1, 10.2, 10.3, 10.4, 10.5 & 10.6
10/26	Ch. 12 Sec. 12.1 - The Product Rule & Power Rules for Exponents
10/28	Ch. 12 Sec. 12.2 - Integer Exponents & the Quotient Rule
10/30	Ch. 12 Sec. 12.3 - An Application of Exponents: Scientific Notation
11/02	Ch. 12 Sec. 12.4 - Adding & Subtracting Polynomials
11/04	Ch. 12 Sec. 12.5 - Multiplying Polynomials
11/06	Ch. 12 Sec. 12.6 - Special Products
11/09	Ch. 13 Sec. 13.1 - Greatest Common Factors: Factoring by Grouping
11/11	Ch. 13 Sec. 13.2 - Factoring Trinomials
11/13	Ch. 13 Sec. 13.3 - Factoring Trinomials by Grouping
11/16	Ch. 13 Sec. 13.4 - Factoring Trinomials Using the FOIL Method
11/18	Test 4 Review - Sec. 12.1, 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3 & 13.4
11/20	Test 4 - Sec. 12.1, 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3 & 13.4
11/23	Homework Makeup Day (Students Can Makeup Homework Without Penalty)
11/25	Thanksgiving Break - No Class
11/27	Thanksgiving Break - No Class
11/30	Practice Final Exam 1 - Sec. 2.5, 2.7, 3.1, 3.2, 3.3, 9.1, 9.2, 9.3, 9.4 and 9.5
12/02	Practice Final Exam 2 - Sec. 9.6, 9.7, 9.8, 10.1, 10.2, 10.3, 10.4, 10.5, 10.6, & 12.1
12/03	Practice Final Exam 3 - 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3, and 13.4
Final Exam - All Sections	
Monday	December 07 10:30AM – 12:30PM

Student Syllabus Receipt

Name: _____
(Printed Name)

I hereby acknowledge a receipt of a copy of the Syllabus for PJCM 300 - Elementary Algebra - Paris Junior College. I agree to read the syllabus and that I understand and will abide by the procedures defined or referenced in this document.

The information in this syllabus is subject to change. I understand that changes in college/university procedures may supersede, modify, or render obsolete the information summarized in this syllabus. As the college/university provides updated procedure information, I accept responsibility for reading and abiding by the changes.

By signing below, I acknowledge that I understand the procedures for PJCM 300 - Elementary Algebra - Paris Junior College. I also agree to abide by the terms set forth in all Sections of this syllabus.

Are you an athlete? Yes No (Circle One)

If yes, what is your sport(s)? _____

PJC Math 300 - Elementary Algebra Sec. 071 (02E)

Fall 2026

Paris Junior College (PJC)

Instructor: Johnny Tharp

Office: N/A

Cell Phone Number: (903) 217-7468

Email Address: Johnny.Tharp@etamu.edu or jtharp@parisjc.edu

Office Hours: By Appointment

Meeting Location: DTH 325

Meeting Days: MWF

Meeting Times: 11:00AM – 11:50AM

COURSE DESCRIPTION:

Topics covered include basics of fractions, adding and subtracting of fractions, the real number system, equations and applications, inequalities and applications, exponents, polynomials, factoring and factoring applications. Prerequisite: LSKL 0306 or satisfactory score on placement test

REQUIRED TEXTBOOK(S) AND MATERIALS:

Textbook: *MyLab Math with Pearson eText Access Code (18 Weeks) for Developmental Mathematics: Basic Mathematics and Algebra*

By Marge Lial

Edition: 4th

ISBN: 9780134764863

Publisher: Pearson

NOTE: Students are not required to purchase the text. The cost of online access to the text and required homework assignments are covered with the tuition payment for the course.

Materials: All the required course materials for your classes are being delivered through Dragon Now, the campus-wide, affordable course materials program. Your PJC Account will be charged automatically, so you will not need to make a separate purchase.

For this course, we will be using courseware integrated with : *MyLab Math with Pearson eText Access Code (18 Weeks) for Developmental Mathematics: Basic Mathematics and Algebra*. You will be able to access the textbook and learning materials directly through Blackboard Ultra.

If you wish to opt out of this program, please follow the steps below:

Go to <https://ACCESSPortal.follett.com:443/1836>

1. Create an account using your student email account
2. Select Opt-Out to opt out of the entire program. You will have an opportunity to opt back in if you choose to do so.
3. You can also opt out using the student-specific link provided in the email from noreply@follett.com.

Important: If you opt out, you will no longer have access to your required digital materials and will need to purchase the required materials on your own.

If you have any questions about Dragon Now or the charge to your student account, please contact the virtual campus store by phone at (800) 381-5151 or via email at csvirtual@efollett.com.

COURSE GOALS/OBJECTIVES:

This course is designed to develop elementary algebraic skills in preparation for intermediate algebra. Elementary algebra is considered a zero-level course. **Zero-level courses are intended for the development of skills needed for college level work; therefore, the class will not suffice for general education requirements and will not transfer as college level credit. If you believe that you have been placed in this class in error, please see your East Texas A&M University academic advisor to have your questions answered.** Even though this is a zero-level course, it will be conducted mostly as a college course with college course expectations. The exception being taking daily attendance, the use of major test reviews and final exam practice tests.

Chapter 2: Basics of Fractions

- Students will multiply and divide common fractions.

Chapter 3: Adding and Subtracting Fractions

- Students will add and subtract like fractions, learn to find the least common multiple and add and subtract unlike fractions.

Chapter 9: The Real Number System

- Student will perform indicated operations on signed integers and rational numbers; use the Order of Operations agreement to simplify algebraic expressions; use the rules of exponents to simplify exponential expressions.
- Student will solve one-step linear equations in one variable; evaluate and simplify variable expressions; solve simple problems involving perimeter, area, and volume.

Chapter 10: Equations, Inequalities, and Applications

- Student will solve linear equations in one variable; solve problems involving mixtures, motion, and formulas; solve linear inequalities in one variable and graph their solution set

Chapter 12: Exponents and Polynomials

- Student will be able to use rules of exponents to simplify algebraic expressions
- Student will accurately perform arithmetic operations (addition, subtraction, multiplication, and division) on polynomials

Chapter 13: Factoring and Applications

- Student will be able to factor polynomials and use factoring to solve quadratic equations

COURSE REQUIREMENTS AND EVALUATION:

Grades for the semester are calculated based on the student's performance on homework, four major tests, and the comprehensive final examination. Course grades are calculated as follows:

Homework Average	25%
Test Average (4 Major Tests)	60%
Comprehensive Final Exam	15%

Final course grades are assigned based on overall course average as follows:

<u>Course Average</u>	<u>Course Grade</u>
90-100	A
80-89	B
70-79	C
60-69	D
Below 60	F

Even though a grade of “D” is Passing, a grade of “C” is required by ETAMU for you to be able to register for your next math class. If you have a question concerning this requirement, please see your ETAMU academic advisor to have your questions answered.

COURSE POLICIES:

Student Expectations:

- Students are expected to attend class regularly on time, pay attention to the lecture, take notes as needed and to be prepared each time the class meets. Lectures may include students being asked to work lecture problems on the board to demonstrate understanding of the subject matter covered.
- Students will need to purchase all needed materials such as a laptop computer (iPad or Cellphone), calculator, notebook in which to take notes, pencils, etc. If additional items are needed, you will be informed of the needed item(s) before the time the items are necessary. The laptop, iPad or Cellphone (which will be required in other ETAMU classes) will be needed so students can:
 - Have access to the course syllabus
 - Have access to the Blackboard (Ultra) package – All assignments, announcements and grades use Blackboard (Ultra)
 - Have access to the lesson topics listed by class date
 - Have access to major test reviews
 - Have access to the final exam practice tests

Tutoring:

- **All Test Reviews and Practice Final Exams count towards the East Texas A&M university tutoring requirements for this class. If a student attends all of these sessions, they have fulfilled this university requirement**
- If tutoring is wanted on Monday, Wednesday or Friday, it is the students' responsibility to ask the instructor to set up a tutoring time that is mutually agreeable to both student and instructor. You need to attend the tutoring session at the agreed upon time. If you are **not** present at the agreed upon time, I will wait 15 minutes (15 Minute Rule) and if you do not show up, I will leave.
- If tutoring is wanted on Tuesday or Thursday, go to The Math Skills Center in the Waters Library 3rd floor, in the back near 314 where graduate students will help you with your homework and Test Review. The Math Skills Center Hours are M & W 10:00AM-08PM, T & TR 10:00AM-08PM and F 10:00AM-02PM.
- **Test Review Class days are considered mandatory tutoring sessions by ETAMU and these class hours count towards your Required Mandatory Tutoring Hours for Math.**
- If a student expectation has been omitted, you will be informed of the additional expectation when the situation arises, and it will be added to future class syllabus(s)

Communication with Students

The instructor needs to communicate with students at times between classes to make class announcements and send reminders. The instructor will do this by:

- Texting - If students want to receive announcements and reminders, they will need to provide the instructor their cell phone number on the signature page
- Announcements in Blackboard

Instructor Expectations:

The instructor is expected to:

- Be on time for each class period (If he cannot attend, he will email you as soon as possible)
- Will make himself available for tutoring upon request at a mutually agreed upon time
- Will be prepared for each class lecture, review day, major test day and final exam day
- Will answer all questions from students
- If an instructor expectation has been omitted, he will inform you of the additional expectation when the situation arises, and it will be added to future class syllabus(s)

Homework: Homework will be assigned, submitted by the student, and graded online using ALEKS. Access to ALEKS is included in the tuition cost to students. All assignments *must* be completed on or before the due date. Homework problems completed after the due date may be subject to a 30% penalty (you will only receive 70% of the credit for work done after the due date). The due date for each assignment is clearly indicated in ALEKS. You should do each assignment as soon as we cover it in class. Your homework average constitutes 25% of your overall course grade. Late submission is allowed for Homework Assignments. All you need to do is open the assignment, complete and submit.

Major Tests: Throughout the semester, four major tests will be administered. Major test dates are announced now in the Class Schedule, in Blackboard, in class at least a week in advance and by text messaging.

Major test dates are **extremely** critical to your passing the course.

- I do not allow the use of “cellphone calculators” on Major Tests or Exams. I also do not allow sharing of calculators on Test and Final Exam Day.
- **A major test review will be offered in class the period immediately before the major test date. If you understand the major test review, you will understand the major test.**
- All major tests are administered only in person on Test Day in the classroom.
- **On Test Day, an answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded. You will need to furnish your own calculator that day as you cannot use the calculator on your cell phone.**
- **Major Tests Test Makeups are given during a “Test Makeup Window.” The Test Window for the 4 Major Tests are as follows:**
 - Test 1 – Thursday, September 10, 2026 through Monday, September 14, 2026**
 - Test 2 – Monday, October 05, 2026 through Wednesday, October 07, 2026**
 - Test 3 – Monday, October 26, 2026 through Wednesday, October 28, 2026**
 - Test 4 – Monday, November 30, 2026 through Wednesday, December 02, 2026**
- **Makeup testing window is the three class days following the TEST Day. After the Makeup Testing Window, there are no other times offered for missing a Major Test. An exception to this procedure can only be granted by the instructor if the reason is “Compelling” and by furnishing a written, acceptable verifiable excuse. The instructor will determine what constitutes an acceptable excuse.**
- **All Makeup Tests are given in The Academic Testing Center, Room 125 in Education South. Testing Center Hours are from 10:00am – 07:00pm Monday through Thursday and 10:00am – 03:00pm on Friday.**
- **The Major Test Makeup is monitored at the Testing Center with normal test protocol expected to be followed. If the instructor receives an Incident Report from the Testing**

Center, the student that committed the incident will have a test grade assigned of “0.” To remove the “0” for that major test, see Bullet below.

- Major Tests are taken in person in class on the date and time specified in your class schedule.
- On Major Test Day, cell phones are to be set to silent and placed on your desk upside down. If I catch you looking at your cellphone while you are taking the exam, this is a violation of final exam protocol, and your exam will be taken up and you will be given a “0” for the exam.
- If a Major Test common sense protocol not listed is violated, it will be treated at the time of the violation as explained in the cell phone section and your Major Test will be taken up and you will be given a “1” for the Major Test. This violation will be added to future syllabus(s).
- An answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded.
- You will need to furnish you own calculator that day as you cannot use the calculator on your cell phone.
- At the end of the semester, I will replace your lowest Major Test grade with your score on the comprehensive Final Exam (assuming the final exam score is higher than your lowest Major Test Grade). This means that if you should, for any reason, miss a major test you can make up that score with your score on the Final Exam. However, if you miss more than one Major Test, you will have a “1” averaged in for each missing Major Test score after the first missed Major Test.
- Your Major Test average makes up 60% of your course average, so each Major Test score is 15% of your course grade. Major Tests are closed book and closed notes. All Major Tests are taken only in the classroom with makeup tests being only given in the Academic Testing Center. **Major Tests are not allowed to be made up online.**

Final Exam: The Final Exam in this course is a comprehensive (covers material from throughout the semester) exam

- Your score on the Final Exam constitutes 15% of your course average (more if it replaces a missed Major Test or low Major Test grade)
- A Final Exam Review will be offered in class the week before the scheduled Final Exam. **If you understand the Final Exam Review, you will understand the Final Exam.**
- The Final Exam is taken in person in class on the date and time specified by ETAMU.
- **On Final Exam Day, cell phones are to be set to silent and placed on your desk upside down. If I catch you looking at your cellphone while you are taking the Exam, this is a violation of Final Exam Protocol, and your Exam will be taken up and you will be given a “0” for the Exam.**
- **If a Final Exam Common Sense Protocol not listed is violated, it will be treated at the time of the violation as explained in the cell phone section and your Exam will be taken up and you will be given a “0” for the Exam and the violation will be added to future syllabus(s).**
- An answer sheet and scratch paper will be provided. Only answers on the answer sheet will be graded.
- You will need to furnish you own calculator that day as you cannot use the calculator on your cell phone.
- **The Final Exam cannot be made up because there is not enough time between the Exam date and when Grades are due to allow for a Make-Up Test.**
- **You cannot pass the class if you do not take the Final Exam**

Locating Final Grade for the Course: Students can find his/her grade on their MyPJC account. On the day that grades are posted, they can find them under the “grade report” option on the student’s Student tab. After that day, they will appear on the student’s unofficial transcript. This can

be found by going the “student tab” and then clicking on “Reports and Forms” on the left side of the screen. Once on that screen, they can choose to generate an unofficial transcript.

Your Final Grade can also be located in your Gradebook in Blackboard.

CLASS ATTENDANCE:

Class attendance is critical for the successful completion of this course. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is April 09, 2026.

CLASS CONDUCT:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom. No obscene/vulgar language will be permitted in the classroom. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Do not bring your children to class. In general, be respectful of your classmates and the instructor.

ACADEMIC HONESTY: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in question.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeat violations may be referred to the appropriate Division Vice president (or appropriate ETAMU administrator) or the College president and may result in suspension or expulsion from the college(University).

Students who wish to appeal the academic dishonesty determination may do so through the PJC Office of Student Services or appropriate ETAMU Office. Appeal forms are available by contacting PJC Student Services at ss@parisjc.edu or 903-782-0211. You may also be required to contact the ETAMU Student Services Office.

ARTIFICIAL INTELLIGENCE (AI)

AI tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Mathematics Department Artificial Intelligence Policy: Artificial Intelligence (AI) tools like Photomath can be useful when used to help understand the solutions in the homework, but since AI tools are not allowed on tests, students should rework any homework problem where AI was used without the help of AI. Cell phones are not permitted during any test; therefore, cell phone calculators and AI tools are not allowed for any test

COMPLAINT PROCEDURES

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC or ETAMU Website or the appropriate Course Catalog and Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA STATEMENT

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College and University will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a PJC or ETAMU College Success Coach in the Advising and Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the PJC or ETAMU Course Catalog and Student Handbook.

ILLNESS POLICY

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4 degrees Fahrenheit or higher).

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication)

When you go back to normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

SYLLABUS SUBJECT TO CHANGE

This syllabus is subject to change at any time. When students are made students will be informed of the change by one or more of the methods listed below.

- Cell Phone Text
- Student Email;
- Blackboard Announcement

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

MENTAL HEALTH CONDITIONS ARE COMMON AND TREATABLE. SUICIDE IS PREVENTABLE.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to

help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

The Counseling Center at East Texas A&M University (ETAMU), located in the Halladay Building, Room 203, offers counseling services, educational programming and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling (903) 886-5145. For more information regarding Counseling Center events and confidential services, please visit www.etamu.edu/counsel.

TENTATIVE COURSE SCHEDULE/WEEKLY LESSON PLAN

PJC Math 300 Fall 2026 TENTATIVE Schedule Section 071 (02E) M/W/F 11:00AM – 11:50AM

08/24	Syllabus
08/26	Ch. 2 Sec. 2.5 - Multiplying Fractions Ch. 2 Sec. 2.7 - Dividing Fractions
08/28	Ch. 3 Sec. 3.1 - Adding & Subtracting Like Fractions
08/31	Ch.3 Sec. 3.2 - Least Common Multiples
09/02	Ch 3. Sec. 3.3 - Adding & Subtracting Unlike Fractions
09/04	Test 1 Review - Sec. 2.5, 2.7, 3.1, 3.2, & 3.3
09/07	Labor Day - No Class
09/09	Test 1 - Sec. 2.5, 2.7, 3.1, 3.2, & 3.3
09/11	Ch. 9 Sec. 9.1 - Exponents, Order of Operations & Inequality
09/14	Ch. 9 Sec. 9.2 - Variables, Expressions & Equations
09/16	Ch. 9 Sec. 9.3 - Real Numbers & the Number Line
09/18	Ch. 9 Sec. 9.4 - Adding Real Numbers
09/21	Ch. 9 Sec. 9.5 - Subtracting Real Numbers

09/23	Ch. 9 Sec. 9.6 - Multiplying & Dividing Real Numbers
09/25	Ch. 9 Sec. 9.7 - Properties of Real Numbers
09/28	Ch. 9 Sec. 9.8 - Simplifying Expressions
09/30	Test 2 Review - Sec. 9.1, 9.2, 9.3, 9.4, 9.5, 9.6, 9.7, & 9.8
10/02	Test 2 - Sec. 9.1, 9.2, 9.3, 9.4, 9.5, 9.6, 9.7 & 9.8
10/05	Ch. 10 Sec. 10.1 - The Addition Property of Equality
10/07	Ch. 10 Sec. 10.2 - The Multiplication Property of Equality
10/09	Fall Break-No Class
10/12	Ch. 10 Sec. 10.3 - More on Solving Linear Equations
10/14	Ch. 10 Sec. 10.4 - An Introduction to Applications of Linear Equations
10/16	Ch. 10 Sec. 10.5 - Formulas & Additional Applications from Geometry
Mid Term	
10/19	Ch. 10 Sec. 10.6 - Solving Linear Inequalities
10/21	Test 3 Review - Sec. 10.1, 10.2, 10.3, 10.4, 10.5 & 10.6
10/23	Test 3 - Sec. 10.1, 10.2, 10.3, 10.4, 10.5 & 10.6
10/26	Ch. 12 Sec. 12.1 - The Product Rule & Power Rules for Exponents
10/28	Ch. 12 Sec. 12.2 - Integer Exponents & the Quotient Rule
10/30	Ch. 12 Sec. 12.3 - An Application of Exponents: Scientific Notation
11/02	Ch. 12 Sec. 12.4 - Adding & Subtracting Polynomials
11/04	Ch. 12 Sec. 12.5 - Multiplying Polynomials
11/06	Ch. 12 Sec. 12.6 - Special Products
11/09	Ch. 13 Sec. 13.1 - Greatest Common Factors: Factoring by Grouping
11/11	Ch. 13 Sec. 13.2 - Factoring Trinomials
11/13	Ch. 13 Sec. 13.3 - Factoring Trinomials by Grouping
11/16	Ch. 13 Sec. 13.4 - Factoring Trinomials Using the FOIL Method
11/18	Test 4 Review - Sec. 12.1, 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3 & 13.4
11/20	Test 4 - Sec. 12.1, 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3 & 13.4
11/23	Homework Makeup Day (Students Can Makeup Homework Without Penalty)
11/25	Thanksgiving Break - No Class
11/27	Thanksgiving Break - No Class
11/30	Practice Final Exam 1 - Sec. 2.5, 2.7, 3.1, 3.2, 3.3, 9.1, 9.2, 9.3, 9.4 and 9.5
12/02	Practice Final Exam 2 - Sec. 9.6, 9.7, 9.8, 10.1, 10.2, 10.3, 10.4, 10.5, 10.6, & 12.1
12/03	Practice Final Exam 3 - 12.2, 12.3, 12.4, 12.5, 12.6, 13.1, 13.2, 13.3, and 13.4
Final Exam - All Sections	
Wednesday December 09 10:30AM – 12:30PM

Course Goals and Objectives:

A survey of world literature from the ancient world to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Foundational Component Area: Language, Philosophy, and Culture

Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience. Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

Required Core Objectives

Student Learning Outcomes (Core Curriculum-Level):

1. Demonstrate Critical Thinking Skills—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.

2. Demonstrate Communications Skills—to include effective development, interpretation and expression of ideas through written, oral and visual communication.
3. Demonstrate Social Responsibility—to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
4. Demonstrate Personal Responsibility—to include the ability to connect choices, actions, and consequences to ethical decision-making.

Student Learning Outcomes (English Program-Level):

1. Students will be able to identify, arrange and evaluate the effectiveness of a thesis statement.
2. Students will be able to identify Standard Written English (SWE) and apply correct forms of English most widely accepted as clear and proper.
3. Students will be able to identify the specific parts of an essay, distinguish appropriate modes of communicating an idea, and use transitional words and phrases effectively.

Student Learning Outcomes (ENGL 2322 Course-Level):

This course is designed to prepare students with skills for lifelong learning—

1. Identify key ideas, representative authors and works, significant historical or cultural events, and characteristic perspectives or attitudes expressed in the literature of different periods or regions.
2. Analyze literary works as expressions of individual or communal values within the social, political, cultural, or religious contexts of different literary periods.
3. Demonstrate knowledge of the development of characteristic forms or styles of expression during different historical periods or in different regions.
4. Articulate the aesthetic principles that guide the scope and variety of works in the arts and humanities.
5. Write research-based critical papers about the assigned readings in clear and grammatically correct prose, using various critical approaches to literature.

Course Requirements and Evaluation

This course operates on an additive point-accumulation model that empowers you to design your own path toward your target grade tier. You must complete all three required major assignments: the MLA Research Essay, the "Anything But Slides" Project, and the Capstone Reflection. Beyond these core requirements, you have full agency to select and complete various course Actions to accumulate the points needed for an A (90+ points), B (80–89 points), or C (70–79 points). All points are awarded based on demonstrated mastery against college-level rubrics.

If a major assignment submission falls below standard, you may complete up to one Revision Action to apply instructor feedback and resubmit your work within seven days to earn mastery credit; **however, blank or late submissions are not eligible for revision**. This grading model gives you full ownership of your learning goals while providing room to experiment, refine your skills, and achieve college-grade excellence.

You can read about the different actions and their point values here: [Action Descriptions and Point Values](#).

Required Assignment:

Research paper, utilizing MLA documentation and applying the assessment rubric.

Course Policies

Submit assignments by due dates. Late work may be penalized or not accepted. The due date for each module is the due date for all assignments within that module. Do not wait until near the due

date to work on assignments. Create your own schedule and work on the assignments on a regular basis. Plagiarized work will receive a zero, and the student involved may fail the course. Missing work will receive a zero.

Class Attendance

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **12 November**.

Class Conduct

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Academic Honesty

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

In accordance with the institution's Academic Honesty policy, each student commits to being the sole author of all assignments submitted in this course and agrees not to collude with AI (such as ChatGPT) to produce any work to be submitted in the course outside of simple spelling and/or grammar checking. Additionally, each assignment submitted in this course will be subject to AI detection tools to validate student authorship.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure.

<https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change during class meetings and via email.

POFT 2312.20F0
Business Communication and Correspondence
Fall 2026 – Flex B: 2nd 8-weeks

Instructor: Wanda Duncan

Office: AS 155

Phone: 903.782.0378

Email: wduncan@parisjc.edu

Office Hours: TBA within BlackBoard/DragonMail

Meeting Location: Online

Meeting Days: Online

Meeting Times: Online

Course Description:

Development of writing and presentation skills to produce effective business documents.

3 Credit Hours 2 Lecture Hours 4 Lab Hours

Prerequisite(s): It is highly recommended that the student has computer and/or keyboarding skills or be concurrently enrolled in a computer and/or keyboarding class to successfully complete this course. This course does not attempt to teach basic computer skills.

Associate degree seeking students and Level 2 certificate students **must be** TSI compliant before degree conferral. If applicable, see your counselor / advisor for more information and to schedule the TSI testing.

If Applicable: TSI Requirement

NOTE: ACGM courses typically require TSI compliance or waiver. Associate's degree and Level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

Business Communication and Character, 12th edition.

Amy Newman

Cengage Learning

Inclusive Access: 9780357714980

Inclusive Access is being used for this course which means the cost of course materials are included in the tuition (includes ebook and access to homework assignments).

Do **NOT** "opt out." If you "opt out," you will be responsible for paying for the course materials out of pocket.

You do **not** have to purchase anything from the PJC Bookstore.

Other Course Materials:

None.

Access to the Internet, e-mail, and Microsoft Office 365 (includes Word, Excel, Access, and PowerPoint) must be installed on your home computer if you work on your assignments at home. If you work on your assignments on campus, the software is already installed on those computers.

Please see BlackBoard "Announcements" for a downloadable link for Microsoft Office 365. If you have trouble downloading the software, please reach out to the IT Help Desk at helpdesk@parisjc.edu.

If you are the only user of your computer, you may store your documents on your hard drive. If you cannot, it is recommended that you buy a USB Flash Memory Drive (jump drive). Try to buy one with at least 1TB of memory which will store all of your documents which can be used for other courses too. You can get the flash drives at WalMart or any other store that sells flash drives. The PJC Bookstore also has them for sale. You can use grant money to buy one at the bookstore.

Basic computer Requirements: Generally, a computer manufactured within the last five years is adequate.

Course Goals and Objectives:

Upon successful completion of this course, the student will have:

1. Applied the basic rules of grammar, spelling, capitalization, number usage, and punctuation
2. Utilized terminology applicable to technical and business writing.
3. Developed proofreading and editing skills.
4. Effectively written sentences and paragraphs for business applications (letters and memos).

Student Learning Outcomes:

1. Demonstrated effective communication skills.

Course Requirements and Evaluation:

The first assignment is a Syllabus Quiz and an IceBreaker Discussion Board Forum which the student must complete before the Official Reporting Day (**October 26**) to avoid being dropped.

This is an **8-week** course that runs from **October 19 to December 10**.

This course does not attempt to teach basic use of a computer. All students must be able to search the Internet, send e-mail, and perform other basic computer tasks. Students without these computer skills should not enroll in the course.

Course will be presented via **BlackBoard** and **MindTap**. The students will have access to all course materials because the course utilizes Inclusive Access. Students are expected to access this course a minimum of three times a week to keep current with course activities.

Student is responsible for the following:

- Access to necessary computer resources
- Read assigned material as on schedule
- Complete all homework assignments on time
- Prepare diligently for quizzes and examinations
- Take quizzes and examinations as scheduled
- **Inquire** if you do not comprehend the material
- Follow the policies set forth in this syllabus and as specified by the college

Due to the type of material that must be covered within this course, students will be required to accomplish an extensive amount of reading, studying and solving homework problems. It is vital for students not to fall behind as it will be quite challenging to catch up. Students are to be held responsible for learning all the material in the textbook, the information provided in each chapters PowerPoint, and homework problems. Students are encouraged to study with classmates to assist in mastery of the course content.

There will be a Final Exam:

- There are three attempts to achieve the highest grade possible.
 - You need to complete your work early so that if you encounter a problem you can contact me in time to get a response and resolve the problem.

Students should read all chapters and review assessments to prepare for the exams. If you fail to complete chapter assessments during its availability period, then the assessment may not be available for review.

Chapter Assessments: All chapter assessments will be completed through **BlackBoard** where all assessments are linked to **MindTap**. There is no time limit. NO makeup or extra credit will be given. Students should be familiar with the subject matter before attempting the final exam. The due date of each chapter and exams are listed in the schedule which can be accessed from the Homepage of your BlackBoard course.

Orientation: Students are expected to read and become familiar with the Syllabus and the course calendar. Students should also become familiar with the content and location of all items in the course.

If a student needs to discuss an assessment or needs help completing assessments, the student should e-mail the Instructor and/or come to the PJC Paris campus for individual instruction with the Instructor. The Instructor is always willing to tutor and/or help in successfully completing the course.

Grades:

Grades are based on a point system for completion of assessments which include Grammar and Mechanics Pre-Course Diagnostic, Learn It, Assignments, Tests, a Final Exam, a BlackBoard Discussion Forum, and a BlackBoard Syllabus Quiz.

All work will be graded for completeness, accuracy, and punctuality. All work must be submitted by the due date schedule. A grade of zero (0) will be recorded for any assessment which is not submitted. No late assignments accepted. No make-up or extra credit is awarded.

Successful online learners are good at scheduling their time in an organized manner. Remember that your work can be done from anywhere on any computer that has Internet access and Microsoft Office 365.

Letter grades will be assigned based on the following point scale:

1074 – 1193 = A	90 - 100 = A
954 – 1073 = B	80 - 89 = B
835 – 953 = C	70 - 79 = C
716 – 834 = D	60 - 69 = D
0 – 715 = F	0 - 59 = F

Checking your Grade:

To check your grades, click the “Grades” tab. BlackBoard may show only the total number of points possible for each assessment and your score. The total points possible for the course may include work which you have not been assigned yet. To turn any score into a percentage, divide the number of points you received by the number of points possible.

Viewing Grades:

Grades as usually posted in BlackBoard within one week following the due date.

All chapter assessments will be completed by logging into **BlackBoard**, select a chapter link and then select the “assignment” you are wanting to complete. Once you have selected the assignment, the “**MindTap**” window will appear and you can then begin working on the assignment.

Course Procedures:

- **Microsoft Office 365** and **MindTap** are required for this course.
- A student is expected to be regular and punctual in submitting assignments. Failure to complete required assignments will negatively affect the student’s final grade. Deadlines are established at the beginning of the semester.
- Contact your Instructor immediately if an emergency arises and you are unable to submit your work or attend class as required.
- If you find that you cannot complete the course for any reason, contact your Instructor and refer to your college catalog for withdrawal procedures.
- Students must check the course frequently for announcements, and students must actively participate in class discussions.
- Minimum of **10 hours per week** of computer time is required for students to complete assessments. More computer time may be required, depending on your typing speed and computer knowledge.
- See the course schedule for when assignments are due.

Open lab:

AS 152 - Weekly

One-on-one tutoring available (call or e-mail for an appointment)

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD). Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies

All assessments and due dates are posted well in advance, so it is reasonable to expect quality work from students submitted well before the due date. If you do not procrastinate, there should be no reason you cannot submit assessments promptly. Plan on turning in all work by the due date – there will be no make-up work or extra credit given.

You will find all the assessments for **MindTap** are linked in **BlackBoard**. You must log into BlackBoard to complete all assignments. They must be completed before the due date. You are encouraged to work ahead in case there are questions that may arise.

ChatGPT/AI can only be used for research purposes only. Quoting ChatGPT/AI directly is strictly **prohibited** and will be considered **plagiarism**. If you use ChatGPT/AI as part of your research, remember that you must **cite** it on your resource page.

Class Attendance:

Class attendance is critical for the successful completion of this course. *For online courses, students must complete work in a timely manner and follow due dates.* Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of "W" is **November 24**.

All work is completed online. Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities.

- **Check-in on a regular basis.** To be in attendance, you must be on the BlackBoard course Web site at least three (3) out of seven (7) days each week. Being present means you should be involved in any discussions and be current in turning in homework, projects, and assessments. Being present means you check your school e-mail account at least once every day.
- **Verify your course enrollment.** On the first day of the online course enter the Discussion Board. Here you will find an "IceBreaker (Student Coffee House)" forum. Students must reply to this forum in each course in order to verify their course enrollment. **If you do not complete this forum by ORD, you will be dropped from the course.**
- **Plan on spending at least two hours of work time for every credit hour that the course receives.** As a rule of thumb, colleges assume that you will attend as many hours as are listed in the credit hours, then do homework and prepare in an equivalent number of hours during each week. In an online course, the distinction between attendance and study hours is removed, but the same minimum amount of time is necessary. In actual practice, some courses take many more hours of study.
- **Your Instructor can tell if you are visiting the course site.** There are tools in BlackBoard that allow your Instructor to get general statistics about how often you visit the course site. Sometimes, they can even tell you have visited specific parts.

Students that have never attended class before the Official Reporting Day (ORD) will be withdrawn from the course by the institution. Students enrolled in an online course must "log in" and complete the week one assignment (Syllabus Quiz and IceBreaker Discussion Board) before ORD to be considered an active student or to be considered attending class.

Please consult the Paris Junior College Student Handbook to review all policies and procedures.

Instructor Response and Availability:

The Instructor's preferred method of contact is e-mail. The Instructor will answer e-mail as soon as possible. If an e-mail was sent Monday – Wednesday, expect a response within 24 hours except for holidays and closures. If you have not heard from the Instructor within a reasonable time frame, please send another e-mail.

If the e-mail was sent Thursday – Sunday, expect an answer on Monday or Tuesday except for holidays and closures.

If you have a question, please be sure to put "POFT 2312 Question" or "POFT 2312 Question About" as the subject line of the e-mail message. If you do, you are likely to get a faster response. Please include your name on all correspondence.

Dragonmail is the primary contact e-mail for students. Please check your e-mail daily. In addition, please check "Announcements" in BlackBoard daily.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the Student Handbook.

Netiquette:

Netiquette is another word for online communication guidelines. Netiquette can be summarized by three simple understandings: remember that there is a human being on the other end of your communication, treat that human being with respect, and do not transmit any message that you wouldn't be willing to communicate face to face. Due to the nature of the online environment, here are some things to remember:

1. Be careful what you write about others.
2. Avoid offensive language, especially comments that might be construed as discriminatory.
3. Be careful with humor and sarcasm. One person's humorous comment may push another person's buttons or may even be seen as offensive.
4. Avoid putting words into full capitals. Online, all-caps is considered SHOUTING.
5. Write descriptive subject lines. Some people receive so much email that they begin to delete some messages without viewing them. To avoid this fate, make sure your subject lines are descriptive.
6. Use writing tricks like "emoticons," acronyms, and extra punctuation, but use them judiciously.
7. Respect other people's intellectual property. Don't post, display, or otherwise provide access to materials belonging to others, and cite references as appropriate.
8. Always think before you write. In other words, without the use of non-verbals with your message, your message can be misinterpreted. So please think twice before you hit submit.
9. Keep it relevant. Do not stray from the discussion in the assigned questions.
10. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. **Two (2) Points will be deducted for grammatical errors, punctuation errors, spelling errors, or any other errors found in an assessment.**
11. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI) tools are permitted in this course for students who wish to use them. To adhere to our scholarly values, students must cite any AI-generated material that informed their work (including in-text citations with quotations). Any AI tool used must also be in your reference list. Be sure you verify the accuracy of any AI-generated content, as they are known to falsify information and academic citations. Using an AI tool to generate content without proper attribution qualifies as academic dishonesty.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Catalog or Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the methods listed below.

- a) Student email
- b) BlackBoard announcement
- c) In class announcement

Official Student Email Policy

Paris Junior College assigns each student an official college email address upon enrollment. This email account is the primary means of communication between the College and the

student. All official correspondence—including notices of academic status, financial aid, billing, registration, and campus alerts—will be sent to the student's PJC email account.

Students are responsible for regularly checking their PJC email and maintaining access. Communications sent to the PJC email address will be considered delivered. The College is not responsible for missed communications due to a student's failure to check their official email account.

Tech Support:

For computer or log in issues please contact Tech Support at techsupport@parisjc.edu

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in Alford Center (counseling@parisjc.edu) and in the community.

Important Dates:

Official Report Date is **October 26**.

Last Day to Drop Classes with a "W" is **November 24**.

Thanksgiving Holiday is **November 25 – 27**.

Final Exams is **December 7 – 10**.

Fall Commencement is **December 11**.

All assignments must be completed by 11:59 p.m., Wednesday, December 9.

Course Schedule:

Week 1:	IceBreaker Discussion Board Syllabus Quiz Chapter 1: Introduction to Business Communication and Character Chapter 2: Team and Interpersonal Communication
Week 2:	Chapter 3: Communicating Across Differences Chapter 4: Writing and Designing
Week 3:	Chapter 5: Improving Your Writing Style Chapter 6: Neutral and Positive Messages
Week 4:	Chapter 7: Persuasive Messages Chapter 8: Bad-News Messages
Week 5:	Chapter 9: Managing and Visualizing Data Chapter 10: Writing Reports
Week 6:	Chapter 11: Developing Presentations and Visuals Chapter 12: Delivering Presentations
Week 7:	Chapter 13: Writing for the Job Search Chapter 14: Interviewing and Starting a New Job
Week 8:	Final Exam

POFT1227.20E0
Introduction to Keyboarding
Fall 2026 A

Instructor: Jennifer Washington
Office:
Phone: 903.782.0731
Email: jwashington@parisjc.edu
Office Hours: Monday-Thursday 10:00-11:00 | 2:00-3:00 – Paris Campus
Fridays 9:30-11:30 *virtual*

Meeting Location: online
Meeting Days: -
Meeting Times: -

Course Description:

Skill development in keyboarding techniques. Emphasis on development of acceptable speed and accuracy.

Associate's degree and level 2 certificates require TSI to be fulfilled before degree conferral.

Required Textbook(s) and Materials:

OER Resource – No Materials

<https://www.ratatype.com/classes/91548>

Username: your DragonMail email address

Password: PJCdr@gons2026 - change this after your first login.

Please complete the IT Checklist before going further-

<https://www.parisjc.edu/technology/pjc-it-checklist>

Course Goals and Objectives:

Demonstrate proper touch keyboarding techniques.

Develop acceptable speed and accuracy levels.

Course Requirements and Evaluation:

<i>WPM (40%)</i>	<i>Accuracy% (60%)</i>	<i>Grade</i>
35+	95+	A
30-34	90-94	B
25-29	85-89	C
20-24	80-84	D
<20	<80	F

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (**08/31/2026**).

Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Late work is accepted up until the last week of class.

No work is accepted after 10/14/26 midnight.

Email/Text is the quickest way to reach your instructor.

Please allow 24-48 hours for responses.

No work is accepted via email. All submissions must come through blackboard unless otherwise indicated.

Changes to the syllabus/assignments/schedule are at the discretion of the instructor.

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be *initiated by the student*. The last day for a student to withdraw from a course with a grade of "W" is **10/01/2026**.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Course Description:

EDUC - (Education) EDUC 1100 Learning Framework (1 SCH version) A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1300) Note: (NOTE: While traditional study skills courses include some of the same learning strategies – e.g., note-taking, reading, test preparation etc. – as learning framework courses, the focus of study skills courses is solely or primarily on skill acquisition. Study skills courses, which are not under-girded by scholarly models of the learning process, are not considered college-level, and, therefore, are distinguishable from Learning Framework courses.) Prerequisite(s): None

Required Textbook(s) and Materials:

Our textbook for this class is *College Success* by OpenStax (2020).

A copy of this book can be found under the Start Here tab in your Black Board system.

Course Goals and Objectives:

EDUC Program Student Learning Outcomes:

1. Understand the importance of goal setting and build decision-making and goal setting skills.
2. Complete an inventory to determine personality type.
3. Develop critical thinking skills.
4. Complete a learning inventory and identify your personal learning style.
5. Understand the educational degree requirements for different types of careers and occupations.
6. Complete an interest inventory to determine matches between your interests and skills and occupations and degrees.

7. Complete a degree plan in the certificate or degree area you plan to pursue.
8. Understand the causes of stress and ways to manage stress.
9. Understand how diet, nutrition, exercise and physical fitness affect your life.
10. Develop note taking skills.
11. Develop study skills.
12. Understand test taking strategies.
13. Develop time management skills.
14. Understand money, banking, and credit.
15. Understand basic saving and investing principles.
16. Understand a resume.
17. Understand basic job interview skills.
18. Understand the benefits of service learning and citizenship responsibilities.
19. Develop team building skills.
20. Develop problem solving skills.

Course Map Table: CT-Critical Thinking, COM- Communication Skills, EQS- Empirical & Quantitative Skills, TW- Teamwork, PR- Personal Responsibility, SR- Social Responsibility

Course Objective	Program Outcome (PLO)	Texas Core Objective	Assignments / Modules
1. Goal setting & decision-making	PLO 1, PLO 5	CT, PR	Module 1 – Ch. 1–2 Assignment & Quiz
2. Personality inventory	PLO 1	CT	Module 1 Assignment
3. Critical thinking skills	PLO 3	CT	All Module Quizzes; Final Project
4. Learning inventory & learning style	PLO 2, PLO 5	CT, PR	Module 2 – Ch. 3–4 Assignment
5. Degree requirements for careers	PLO 4	CT	Module 2 Assignment
6. Interest inventory for careers	PLO 4	CT	Module 3 – Ch. 5–6 Assignment
7. Complete a degree plan	PLO 4	CT, COM	Module 5 – Final Project
8. Stress & stress management	PLO 1	PR	Module 3 Assignment

9. Diet, nutrition, exercise & fitness	PLO 1	PR	Module 3 Quiz
10. Note-taking skills	PLO 2	CT	Module 2 Assignment
11. Study skills	PLO 2	CT, PR	Module 2 Assignment
12. Test-taking strategies	PLO 2	CT	Module 4 Assignment
13. Time management	PLO 2, PLO 5	PR	Module 4 Assignment
14. Money, banking & credit	PLO 5	CT, EQS, PR	Module 4 Quiz
15. Saving & investing	PLO 5	CT, EQS	Module 4 Assignment
16. Understand a resume	PLO 4	COM	Module 5 – Final Project
17. Job interview skills	PLO 4	COM, PR	Module 5 – Final Project
18. Service learning & citizenship	PLO 5	SR, PR	Module 4 Assignment
19. Team-building skills	PLO 5	TW	Module 3 Assignment
20. Problem-solving skills	PLO 3	CT	All quizzes; Final Project

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) 8/30/2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Course Requirements and Evaluation:

Grading Scale (Total: 1,385 points)

Percentage Point Range Letter Grade

100–90%	1385 – 1247	A
89–80%	1246 – 1108	B
79–70%	1107 – 970	C
69–60%	969 – 831	D
59–0%	830 – 0	F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is 10/1/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

Office Hours: Online

Meeting Location: Online
Meeting Days: Online
Meeting Times: By Appt.

Course Description:

EDUC - (Education) EDUC 1100 Learning Framework (1 SCH version) A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1300) Note: (NOTE: While traditional study skills courses include some of the same learning strategies – e.g., note-taking, reading, test preparation etc. – as learning framework courses, the focus of study skills courses is solely or primarily on skill acquisition. Study skills courses, which are not under-girded by scholarly models of the learning process, are not considered college-level, and, therefore, are distinguishable from Learning Framework courses.) Prerequisite(s): None

Required Textbook(s) and Materials:

Our textbook for this class is *College Success* by OpenStax (2020).

A copy of this book can be found under the Start Here tab in your Black Board system.

Course Goals and Objectives:

EDUC Program Student Learning Outcomes:

1. Understand the importance of goal setting and build decision-making and goal setting skills.
2. Complete an inventory to determine personality type.
3. Develop critical thinking skills.
4. Complete a learning inventory and identify your personal learning style.
5. Understand the educational degree requirements for different types of careers and occupations.
6. Complete an interest inventory to determine matches between your interests and skills and occupations and degrees.

7. Complete a degree plan in the certificate or degree area you plan to pursue.
8. Understand the causes of stress and ways to manage stress.
9. Understand how diet, nutrition, exercise and physical fitness affect your life.
10. Develop note taking skills.
11. Develop study skills.
12. Understand test taking strategies.
13. Develop time management skills.
14. Understand money, banking, and credit.
15. Understand basic saving and investing principles.
16. Understand a resume.
17. Understand basic job interview skills.
18. Understand the benefits of service learning and citizenship responsibilities.
19. Develop team building skills.
20. Develop problem solving skills.

Course Map Table: CT-Critical Thinking, COM- Communication Skills, EQS- Empirical & Quantitative Skills, TW- Teamwork, PR- Personal Responsibility, SR- Social Responsibility

Course Objective	Program Outcome (PLO)	Texas Core Objective	Assignments / Modules
1. Goal setting & decision-making	PLO 1, PLO 5	CT, PR	Module 1 – Ch. 1–2 Assignment & Quiz
2. Personality inventory	PLO 1	CT	Module 1 Assignment
3. Critical thinking skills	PLO 3	CT	All Module Quizzes; Final Project
4. Learning inventory & learning style	PLO 2, PLO 5	CT, PR	Module 2 – Ch. 3–4 Assignment
5. Degree requirements for careers	PLO 4	CT	Module 2 Assignment
6. Interest inventory for careers	PLO 4	CT	Module 3 – Ch. 5–6 Assignment
7. Complete a degree plan	PLO 4	CT, COM	Module 5 – Final Project
8. Stress & stress management	PLO 1	PR	Module 3 Assignment

9. Diet, nutrition, exercise & fitness	PLO 1	PR	Module 3 Quiz
10. Note-taking skills	PLO 2	CT	Module 2 Assignment
11. Study skills	PLO 2	CT, PR	Module 2 Assignment
12. Test-taking strategies	PLO 2	CT	Module 4 Assignment
13. Time management	PLO 2, PLO 5	PR	Module 4 Assignment
14. Money, banking & credit	PLO 5	CT, EQS, PR	Module 4 Quiz
15. Saving & investing	PLO 5	CT, EQS	Module 4 Assignment
16. Understand a resume	PLO 4	COM	Module 5 – Final Project
17. Job interview skills	PLO 4	COM, PR	Module 5 – Final Project
18. Service learning & citizenship	PLO 5	SR, PR	Module 4 Assignment
19. Team-building skills	PLO 5	TW	Module 3 Assignment
20. Problem-solving skills	PLO 3	CT	All quizzes; Final Project

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) Oct 25. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Course Requirements and Evaluation:

Grading Scale (Total: 1,385 points)

Percentage Point Range Letter Grade

100–90%	1385 – 1247	A
89–80%	1246 – 1108	B
79–70%	1107 – 970	C
69–60%	969 – 831	D
59–0%	830 – 0	F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is 11/24/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) 8/30/2026. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Course Requirements and Evaluation:

Grading Scale (Total: 1,385 points)

Percentage Point Range Letter Grade

100–90%	1385 – 1247	A
89–80%	1246 – 1108	B
79–70%	1107 – 970	C
69–60%	969 – 831	D
59–0%	830 – 0	F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is 10/1/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

Course Goals and Objectives:

EDUC Program Student Learning Outcomes:

1. Understand the importance of goal setting and build decision-making and goal setting skills.
2. Complete an inventory to determine personality type.
3. Develop critical thinking skills.
4. Complete a learning inventory and identify your personal learning style.
5. Understand the educational degree requirements for different types of careers and occupations.
6. Complete an interest inventory to determine matches between your interests and skills and occupations and degrees.

7. Complete a degree plan in the certificate or degree area you plan to pursue.
8. Understand the causes of stress and ways to manage stress.
9. Understand how diet, nutrition, exercise and physical fitness affect your life.
10. Develop note taking skills.
11. Develop study skills.
12. Understand test taking strategies.
13. Develop time management skills.
14. Understand money, banking, and credit.
15. Understand basic saving and investing principles.
16. Understand a resume.
17. Understand basic job interview skills.
18. Understand the benefits of service learning and citizenship responsibilities.
19. Develop team building skills.
20. Develop problem solving skills.

Course Map Table: CT-Critical Thinking, COM- Communication Skills, EQS- Empirical & Quantitative Skills, TW- Teamwork, PR- Personal Responsibility, SR- Social Responsibility

Course Objective	Program Outcome (PLO)	Texas Core Objective	Assignments / Modules
1. Goal setting & decision-making	PLO 1, PLO 5	CT, PR	Module 1 – Ch. 1–2 Assignment & Quiz
2. Personality inventory	PLO 1	CT	Module 1 Assignment
3. Critical thinking skills	PLO 3	CT	All Module Quizzes; Final Project
4. Learning inventory & learning style	PLO 2, PLO 5	CT, PR	Module 2 – Ch. 3–4 Assignment
5. Degree requirements for careers	PLO 4	CT	Module 2 Assignment
6. Interest inventory for careers	PLO 4	CT	Module 3 – Ch. 5–6 Assignment
7. Complete a degree plan	PLO 4	CT, COM	Module 5 – Final Project
8. Stress & stress management	PLO 1	PR	Module 3 Assignment

9. Diet, nutrition, exercise & fitness	PLO 1	PR	Module 3 Quiz
10. Note-taking skills	PLO 2	CT	Module 2 Assignment
11. Study skills	PLO 2	CT, PR	Module 2 Assignment
12. Test-taking strategies	PLO 2	CT	Module 4 Assignment
13. Time management	PLO 2, PLO 5	PR	Module 4 Assignment
14. Money, banking & credit	PLO 5	CT, EQS, PR	Module 4 Quiz
15. Saving & investing	PLO 5	CT, EQS	Module 4 Assignment
16. Understand a resume	PLO 4	COM	Module 5 – Final Project
17. Job interview skills	PLO 4	COM, PR	Module 5 – Final Project
18. Service learning & citizenship	PLO 5	SR, PR	Module 4 Assignment
19. Team-building skills	PLO 5	TW	Module 3 Assignment
20. Problem-solving skills	PLO 3	CT	All quizzes; Final Project

Course Requirements and Evaluation:

Required Activity:

All students must complete the First Assignment located in the "Course Content" section of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD) Oct 25. Completion of this assignment serves as verification of course participation. Students who do not complete the assignment by the deadline will be reported as non-attending and will be dropped from the course.

Course Policies:

Course Requirements and Evaluation:

Grading Scale (Total: 1,385 points)

Percentage Point Range Letter Grade

100–90%	1385 – 1247	A
89–80%	1246 – 1108	B
79–70%	1107 – 970	C
69–60%	969 – 831	D
59–0%	830 – 0	F

Class Attendance:

Class attendance is critical for the successful completion of this course. For online courses, students must complete work in a timely manner and follow due dates. Withdrawals must be initiated by the student. The last day for a student to withdraw from a course with a grade of “W” is 11/24/2026.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, iPod, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Academic Honesty:

In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment in.** Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college.

Students who wish to appeal an academic dishonesty determination may do so through the Office of Student Services. Appeal forms are available by contacting Student Services at ss@parisjc.edu or 903-782-0211.

Artificial intelligence (AI)**Ethical Considerations and Consequences for Misuse**

The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Conduct Policy or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Approval Process

Any use of AI must be specifically approved by your instructor before you begin the assignment. To request approval, email your instructor (or raise it during office hours) describing the assignment and how you intend to use AI. Approval, if granted, will be confirmed in writing (email or course announcement) and may be assignment-specific — approval for one assignment does not carry over to others.

Permitted and Prohibited Use

Artificial intelligence (AI) may be used for specific assignments as determined by your instructor, with appropriate citation, but is never permitted for tests, quizzes, or other assessments of individual knowledge unless explicitly stated otherwise.

- *Example of permitted use:* Using AI to brainstorm topic ideas, check grammar, or generate a practice outline — with instructor approval and proper citation.
- *Example of prohibited use:* Submitting AI-generated text as your own original writing, or using AI to complete a quiz, exam, or timed assessment.

This policy applies to all AI tools, including general-purpose chatbots (e.g., ChatGPT, Claude, Gemini), AI writing assistants and grammar tools with generative features (e.g., Grammarly's AI suggestions), AI-powered translation tools, and AI features embedded in other software (e.g., Word, Google Docs).

Citation Requirements

When AI use is approved, you must cite it according to the citation style required for the course (APA, MLA, or Chicago, as specified by your instructor). This typically includes naming the AI tool used, the date accessed, and a brief description of how it was used (e.g., "ChatGPT was used to generate an initial outline, which was then revised independently"). Consult your instructor or the relevant style guide for the exact citation format.

Detection and Verification

The instructor and/or the college reserve the right to use AI-detection software or other means to verify the originality of submitted work. Students may also be asked to explain, defend, or reproduce their work (e.g., in a conference or oral discussion) to confirm authorship.

When in Doubt

If you are in doubt as to whether you are using AI appropriately in this course, it is your responsibility to discuss your situation with the instructor before submitting the assignment. Remember, AI can be a tool to support your learning in this course, but it cannot replace the critical thinking, creativity, and independent work that are integral to your overall academic growth.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement:

It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, State and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to obtain a Request for Accommodations form. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook.

Illness Policy:

Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

Multi-Factor Authentication (MFA) Requirement for Students

To help protect student accounts and personal information, students are required to use **Multi-Factor Authentication (MFA)** when accessing college systems and online resources. MFA adds an extra layer of security by requiring users to verify their identity through a second method, a Microsoft Authenticator mobile app notification in addition to their password.

How to Use MFA:

1. Log in to your college account using your username and password.
2. When prompted, verify your identity using the Microsoft Authenticator app.
3. Approve the sign-in request to gain access to your account.
4. Using the Microsoft Authenticator app, ensure notifications are enabled on your mobile device.
5. Never approve an authentication request that you did not initiate. Report suspicious login attempts to PJC Tech Support immediately.

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PSYC 2314.20E0/20E1
Lifespan Growth and Development
FALL 2026

Instructor: Linda Miles

Office: FGC A102

Phone: 903-782-0724

Email: lmiles@parisjc.edu

Office Hours: Paris Campus

Monday: 8:00 – 10:30 AM

Tuesday: 8:00 – 10:30 AM

Wednesday: 8:00 – 10:30 AM

Thursday: 8:00 – 10:30 AM

Meeting Location: Internet

Meeting Days: Internet

Meeting Times: Internet

Course Description:

The study of Lifespan Growth and Development is a study of social, emotional, cognitive, and physical factors and influences of a developing human from conception to death. Core Curriculum satisfied for Social and Behavioral Science.

Credits: 3 SCH

TSI Requirement: College-level reading is required.

Prerequisite(s): None

Required Textbook(s) and Materials: Your required e-textbook and course materials for PSYC 2314 are Feldman, R. S. (2023) *Lifespan Development: A Topical Approach with PEARSON/REVEL 5th ed.*, which will be delivered digitally through your Blackboard Ultra course via Dragon Now. When you register and activate your PEARSON/REVEL account, use your PJC Dragon email address.

Course Goals and Objectives:

Foundational Component Area: Lifespan Growth and Development

Social and Behavioral Science Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively. Courses involve the command of oral, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

Required Core Objectives: Students successfully completing this course will demonstrate competency in the following Core Objectives:

- 1) Critical Thinking Skills -- to include creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.
- 2) Communication Skills -- to include effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- 3) Empirical and Quantitative Skills-- to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- 4) Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Course Requirements and Evaluation:

Evaluation Methods:

- Students will have two major closed-book objective exams to demonstrate their knowledge of the course material. Each exam is worth 100 points. Students can earn up to 200 points on major exams.
- Students can earn up to 100 points on quizzes for the semester (25 points for each section).
- Engagement is an important part of Internet classes; therefore, students can earn up to 100 points for engagement (15 points for the RAC Assignment, 15 points for the APA Quiz, 20 points for the cross-cultural Psychology Assignments, and 50 points for surveys).
- Students can earn up to 100 points on embedded Pearson Textbook Comprehension quizzes referred to as REVEL

- 100 points on discussions.
- Extra Credit is built into the course: Students can earn up to seven extra credit points on the syllabus quiz and one extra credit point for the student acknowledgment form. Students who activate their PEARSON/REVEL inclusive access (IA) within the three days of class will earn an extra credit point for a total of nine extra credit points.

Grading Criteria:

Students can earn up to a total of 600 points during the semester:

- **200 points – Two Major Exams:** Students will complete an online Midterm and Final examination. Each exam is worth 100 points.
- **100 points – Quizzes**
- **100 points – Embedded textbook PEARSON/REVEL Comprehension Quizzes**
- **100 points – Discussions**
- **15 points – RAC Assignment**
- **15 points – APA Quiz**
- **20 points – Cross-Cultural Psychology Assignment**
- **50 points – Surveys**
=600 total possible points
- The following grading scale will be used
 - 540 points and above = A
 - 480-539 = B
 - 420-479 = C
 - 360-419 = D
 - 359 points and below = F

Required Activities: The first assignments (Syllabus Quiz and Student Acknowledgment) are due on the first day of class, August 24th by 11:59 PM CST. All students must complete the First Assignments (Syllabus Quiz and Student Acknowledgment) located in the “Start Here” folder on the "Course Content” tab of Blackboard by 11:59 p.m. on the day prior to the Official Reporting Day (ORD), August 30, 2026. Completion of this assignment serves as verification of course participation/engagement. Students who do not complete the assignments by the deadline will be reported as non-attending and will be dropped from the course. Do not wait until the last minute to complete these assignments.

Course Policies:

Communication: Students must use the **internal classroom messaging system in Blackboard** as the official method of written communication regarding all course-related questions and concerns. Per PJC policy, messages sent Monday through Thursday will receive a response within 24 hours. Messages sent on Fridays, weekends, during campus closures, or on holidays will receive a response the following Monday or the next official business day. Any exceptions to this schedule will be communicated through the internal course messaging system.

Emails sent to my external office email will be redirected to the Blackboard message system and will not be considered official communication. To ensure timely and documented responses, students are expected to use only the internal messaging feature within the course. Failure to do so may result in delayed or missed responses.

Course Announcements: Course announcements serve as a critical communication tool for conveying important information throughout the semester. Announcements may include, but are not limited to, assignment deadlines, policy changes, schedule changes, exam instructions, and other essential course updates.

Students are expected to check course announcements regularly and are fully responsible for all information posted, regardless of whether they choose to review it. It is the student’s duty to stay informed by checking announcements frequently. Lack of awareness due to not reading announcements will not be accepted as a valid excuse for missed deadlines or misunderstandings regarding course expectations. Failure to monitor announcements may result in missed deadlines, reduced participation or engagement scores, and inadequate preparation for course activities or exams. Extensions will not be granted due to missed or overlooked announcements.

Dragon Watch Retention Program: The Advising/Counseling Center has implemented a retention program. I have been asked to refer students to the program throughout the semester if a student is **having difficulty completing assignments or has poor attendance**. Students will be contacted by someone in the Student Advising & Counseling Department if they are referred to the retention program. The success coaches will inquire how they can assist you in meeting your academic goals. <https://www.parisjc.edu/advising/index.php>

Online Resources: The Paris Junior College Social Science Division uses the Blackboard Ultra Learning Management System for online, hybrid, and web-enhanced face-to-face courses. The PJC Blackboard login web page can be found at <https://parisjc.blackboard.com>. The initial Blackboard login username is the student's first initial + last name + last 4 digits of the student's ID number (e.g., jdoe1234). The initial password is the student's 8-digit birthday in a MMDDYYYY format (Blackboard will make students reset the password after they log in with their birthdate—make sure you write down your new password).

Class Attendance:

Class attendance is critical for the successful completion of this course. Students are expected to attend and participate in classes regularly (log into the course often) and **complete all assignments by the due date**. You CANNOT expect to do well in this class without attending class and completing the online assignments on time. While instructors do have the right to withdraw any student from a course for excessive absences, please be aware that this is NOT my policy. Students wishing to withdraw from a course with a grade of "W" should initiate the withdrawal on MyPJC. Students should not just stop attending (stop logging into the course to complete assignments) and assume that the instructor will withdraw him or her. I will record a zero (0) for all assignments that a student fails to complete.

****IMPORTANT**** Internet students are required by Texas law to log into the course and complete the required first assignments **by** the official report day (ORD), August 30th, at 11:59 PM CST, or they will be dropped from the course.

Class Conduct:

Please turn off or silence and put away all cell phones, pagers, AirPods, headphones, etc. before entering the classroom/laboratory. No obscene/vulgar language will be permitted in the classroom/laboratory. Faculty reserve the right to drop a student for violations of the Student Conduct Policy as listed in the PJC Course Catalog & Student Handbook.

Disruptive behavior will not be tolerated under any circumstances. Students who fail to follow classroom guidelines compromise the educational experience of their peers and undermine the integrity of the learning environment. All individuals are expected to recognize the importance of maintaining a constructive and respectful academic atmosphere. Professional conduct is required at all times and in all forms of communication, both verbal and written. Students must act with civility and demonstrate respect toward others participating in the course.

Academic Honesty: In the pursuit of learning, it is expected that students will engage in honest academic endeavor to the highest degree of honor and integrity. Students who are found to engage in academic dishonesty through such activities as cheating on exams, plagiarism, or collusion with others **will immediately receive a score of zero on the exam/assignment and forfeit all extra credit for the semester**. Depending on the nature and severity of the situation, the instructor may impose additional academic sanctions at their discretion. Serious or repeated violations may be referred to the appropriate Division Vice President or the College President and may result in suspension or expulsion from the college. Students who wish to appeal an academic dishonesty determination via the complaint form. Complaint forms are available on MyPJC under the Student Tab.

Academic dishonesty will NOT be tolerated under any circumstances. Any student suspected of cheating on an assignment, quiz, or exam will receive a **score of zero (0)** for that work and will be reported to the **Division Dean**. Students who are suspected or found to have engaged in academic dishonesty for a second offense will receive an automatic **grade of "F" for the course**. Students who wish to contest an academic dishonesty determination may pursue the formal appeals process outlined in the **PJC Student Handbook**.

AI Statement: Ethical Considerations and Consequences for Misuse: The inappropriate or unauthorized use of AI-generated content may constitute academic misconduct and/or a violation of discipline-specific professional ethics. Such misuse of AI or other assignment-help tools will be handled according to PJC's Academic Honesty Policy, Student Conduct, or other relevant policies and may result in sanctions, including failing the course, program dismissal, suspension, or expulsion.

Complaint Procedures:

Students should address all complaints or concerns with their course instructor first. If the issue is not resolved, the student should reference the PJC website or the Course Catalog & Student Handbook for the official complaint or grievance procedure. <https://www.parisjc.edu/consumer-information/complaints.php>

ADA Statement: It is the policy of Paris Junior College to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College Success Coach in the Advising & Counseling Center to complete the Accommodation Request Form in MyPJC on the Student tab under Reports and Forms. For more information, please refer to the Paris Junior College Course Catalog & Student Handbook. You may contact the Student Advising & Counseling Center at (903) 782-0426 or visit <https://www.parisjc.edu/advising/accommodations.php>.

Illness Policy: Per CDC guidelines, stay home and away from others if you have respiratory virus symptoms that another cause cannot explain. Do not attend class if you have a fever (100.4°F or higher)

You can return to your normal activities when, for at least 24 hours, both are true:

1. Your symptoms are getting better overall, and
2. You have not had a fever (and are not using fever-reducing medication).

When you go back to your normal activities, take added precautions over the next five days, such as taking additional steps for hygiene, wearing masks, and physical distancing, if possible, when you will be around other people indoors.

Syllabus Subject to Change

This syllabus is subject to change at any time. When changes are made students will be informed of the change by the method listed below.

Insert how the students will be notified of a change. (Blackboard, student email, etc.)

PJC Cares about our students! Please help us help you by completing our basic need assessment by scanning the QR code below:

Mental health conditions are common and treatable. Suicide is preventable.

This suicide prevention video was created for all Texas institutions of higher education for students of all ages and backgrounds to raise awareness about suicide, share warning signs and ways to help, and emphasize that help and resources are available on campus and in the community. It also supports Texas institutions of higher education in partially meeting the legal requirements of 88(R) SB 532 passed in 2023.

If you or someone you know is considering suicide, help is available at 988 — and help is available on your campus in PJC's Counseling Center in the Administrative Building (counseling@parisjc.edu) and in the community.

PSYC 2314 Class Schedule/Study Schedule:

***The instructor may adapt or adjust the syllabus schedule as needed.

DATE	DISCUSSION/CLASS ACTIVITIES	ASSIGNMENTS/EXAMS Due Dates and Closure Dates	Points
August 24	Introduction to Course and Syllabus Review	• Read the Syllabus • Syllabus Quiz – online--DUE • Statement of Acknowledgement – online--DUE	• 7 points EC • 1 point EC
